**GOL Commemorates Third Anniversary as a Publicly-Traded Company**

**Sao Paulo, June 22, 2007** GOL Linhas Aéreas Inteligentes S.A. (NYSE: GOL and Bovespa: GOLL4), the parent company of Brazil's low-cost airlines GOL Transportes Aéreos S.A. (GTA), that operates the GOL brand) and VRG Linhas Aéreas S.A. (VRG), that operates the VARIG brand), will commemorate its third successful year as a publicly-traded company on the New York and Sao Paulo stock exchanges. GOL's IPO (Initial Public Offering) on June 24, 2004, was the second simultaneous listing by a Brazilian company on both the New York Stock Exchange (NYSE) and the Bolsa de Valores de São Paulo (Bovespa). The listings permitted the Company to raise funds for fleet expansion and diversify funding sources by successfully attracting a broad investor base: global, airline, emerging markets and Brazilian.

As of market closing on Wednesday, June, 20, GOL's ADS recorded appreciation of 300% and GOLL4 shares recorded appreciation of 146% since the IPO in 2004. The average daily trading volume of GOL's shares on the NYSE and Bovespa was over US\$ 46mm in 2007, which places the Company among the most traded airline securities.

Since we last celebrated the anniversary of our IPO, GOL has experienced tremendous growth while maintaining our high quality service, says Constantino de Oliveira Junior, GOL's President and Chief Executive Officer. We have steadily worked towards our goal of popularizing low-cost air travel throughout South America.

To commemorate, GOL executives will hold an analyst meeting at the NYSE on Friday, to discuss the Company's accomplishments over the past year including the acquisition of VRG. In 2006, the Company added 10 additional domestic and international destinations to its route network and 23 aircraft to its fleet.

During the presentation, Mr. de Oliveira Junior will be joined by Richard Lark, Executive Vice President - Finance and Chief Financial Officer, and David Barioni Neto, Executive Vice President - Technical. The meeting will be webcast and is accessible by the analysts, public and media.
