## **BRASKEM ASSIGNED INVESTMENT GRADE RATING BY S&P**

*Evaluation by Standard & Poor's cites the company's stronger business and liquidity*

The risk-rating agency Standard & Poor's has just upgraded Braskem's rating from "BB+" to "BBB-", effectively assigning the company an investment grade rating. It also upgraded Braskem's ratings on Brazil's National Scale from "brAA+" to "brAAA". The outlook remained stable.

According to the agency, the upgrade reflects Braskem's stronger cash flow and liquidity, the merger with Quattor and the faster-than-expected capture of synergies, as well as the improvements on the operational and financial results.

According to analysts at S&P, the debt reduction presented in the 2010 results should continue this year and over the coming years, as also should its cash flow growth. The agency classified Braskem's liquidity as strong, highlighting that its projections call for the company efficiently managing its capital, which should lead to lower financing requirements in the medium term.

By classifying its outlook for Braskem as stable, S&P affirmed its belief that the company will continue to improve its operating results and that the capture of synergies and the favorable market conditions will allow Braskem to expand its revenue and cash flow.

According to Marcela Drehmer, Braskem's Chief Financial and Investor Relations Officer, "reaching investment grade is a major achievement and the result of the efforts made by the entire Company, the improvements in results, the optimization of debt and the permanent commitment to growth without neglecting financial discipline."

For further information, please contact Braskem's Investor Relations Department by dialing (+55 11) 3576-9531 or e-mailing to [braskem-ri@braskem.com.br](mailto:braskem-ri@braskem.com.br).

### FORWARD-LOOKING STATEMENTS

This press release may contain forward-looking statements. These statements are statements that are not historical facts, and are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.
