**BRASKEM REMAINS A COMPONENT OF THE SUSTAINABILITY INDEX FOR THE NINTH STRAIGHT YEAR**

**São Paulo, December 2, 2013** - Braskem (BM&FBovespa: BRKM5, BRKM3, BRKM6; NYSE: BAK; LATIBEX: XBRK), the largest thermoplastic resin producer in the Americas and the world's largest biopolymer producer, was selected for the ninth year in a row to be included in the Corporate Sustainability Index (ISE) of the BM&FBovespa.

Remaining a component of the index reflects the Company's commitment to best practices in corporate governance, social responsibility and sustainable development. Issues related to health, safety and the environment represent key corporate values at Braskem and are fully integrated into the management of its operations.

The index's new portfolio is formed by 51 stocks of 40 companies that represent 18 industries and total market capitalization of R\$1.14 trillion, which corresponds to 47.16% of the total market capitalization of companies with stock traded on the exchange. The index composition will be in effect for the period from January 6, 2014 to January 2, 2015.

### **FORWARD-LOOKING STATEMENTS**

This press release may contain forward-looking statements. These statements are statements that are not historical facts, and are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.
