Forward-Looking Statements

This Economic and Financial Analysis Report contains forward-looking statements related to our business. Such statements are based on management's current expectations, estimates and projections concerning future events and financial trends that may affect our business. Words such as "believe", "anticipate", "plan", "expect", "intend", "goal", "estimate", "forecast", "predict", "project", "guidelines", "should" and other similar expressions are used to indicate predicting statements. However, forward-looking statements are not guarantees of future performance and involve certain risks and uncertainties that may be beyond our control. In addition, some forward-looking statements are based on assumptions which, depending on future events, may prove not to be accurate. Therefore, actual results may differ significantly from the plans, goals, expectations, projections and intentions expressed or implied in such statements.

The factors that may impact the actual results include, among others, changes in regional, national and international trade and economic policies; inflation; an increased number of defaults by borrowers in loan operations, with a consequent increase in the allowance for losses from loan operations; loss of ability to receive deposits; loss of customers or revenues; our ability to sustain and improve performance; changes in interest rates which may, among other things, adversely affect our margins; competition in the banking industry, financial services, credit card services, insurance, asset management and other related industries; government regulation and fiscal affairs; disputes or adverse legal proceedings or regulations; and credit and other risks involved in lending and investment activities.

As a result, one should not rely excessively on these forward-looking statements. The statements are valid only for the date on which they were drafted. Except as required by applicable law, we do not assume any obligation to update these statements as a result of new information, future developments or any other matters which may arise.

Some numbers included in this Report have been subjected to rounding adjustments.

As a result, some amounts indicated as total amounts in some charts may not be the arithmetic sum of the preceding numbers.

Summarized Analysis of Adjusted Income

Adjusted Net Income and Profitability

The return on the Average Adjusted Shareholder's Equity (ROAE) stood at 20.5% in December 2015. Such performance stems from the growth of adjusted net income, which increased by 0.6% quarter-over-quarter and 16.4%, in the year-over-year comparison. The main events that affected adjusted net income are detailed below.

Total Assets registered R\$1.080 trillion in December 2015, a 4.6% increase over December 2014, driven by the increased turnover. Return on Average Assets (ROAA) reached 1.7%.

Adjusted net income reached R\$4,562 million in the fourth quarter of 2015, up R\$29 million or 0.6% compared to the previous quarter, mainly due to (i) the increment of the "interest" and "non-interest" earning portion; (ii) higher fee and commission income, result of the enhanced segmentation of clients and of investment in technology to enable new strategies of customer service; (iii) the highest operating result of Insurance, Pension Plans and Capitalization Bonds, net of technical reserves, retained claims and others; and impacted, partly, by higher: (iv) administrative expenses; (v) cost of the provision for doubtful accounts; and (vi) tax expenses.

In the financial year of 2015, the adjusted net income reached R\$17,873 million, increase of R\$2,514 million, or 16.4%, compared to the previous year, which reflects the highest revenues due to: (i) the interest earning portion, partially due to the effect the margin of intermediation and of the assets and liabilities management (ALM); and (ii) fees and commissions; being partially offset by: (iii) higher allowance for loan losses expenses; (iv) higher personnel and administrative expenses, whose variation was below the index of inflation (IPCA) in the period; (v) increased operating expenses, net; and (vi) higher tax expenses.

Shareholders' Equity totaled R\$88,907 million in December 2015, up 9.1% over December 2014. Basel III Ratio, calculated based on the Prudential Consolidated, stood at 16.8%, 12.7% of which was classified as Common Equity / Tier I.

10 Economic and Financial Analysis Report December 2015

Summarized Analysis of Adjusted Income

Operating Efficiency Ratio (ER)

The 12-month accumulated ER⁽¹⁾ reached 37.5% in the fourth quarter of 2015, once again registering the best historical level, showing improvement of 0.4 p.p. in comparison to the previous quarter, and 1.7 p.p. in comparison to the same period of the previous year, whereby the main variations were due to: (i) the increase in the net interest income and fee and commission income; and (ii) the operational expenses performance, which have evolved below the inflation in the year. These factors also contributed to the improvement of the ER in the "risk adjusted" concept, reflecting the impact of the risk associated with loan operations⁽²⁾, reached 46.5%.

It is important to mention that the ER performance reflects the strategy of sustainable growth, which includes, among others, the availability of appropriate products and services for clients through the segmentation of the base, the optimization of points of service, and the strict control of operating expenses, arising from the actions of the Efficiency Committee and of investments in Information Technology.

The quarterly ER, the indicator remained stable

(1) $ER = (\text{Personnel Expenses} - \text{Employee Profit Sharing} + \text{Administrative Expenses}) / (\text{Net Interest Income} + \text{Fee and Commission Income} + \text{Income from Insurance} + \text{Equity in the Earnings (Losses) of Unconsolidated Companies} + \text{Other Operating Income} - \text{Other Operating Expenses})$. If we considered the ratio between (i) total administrative costs (Personnel Expenses + Administrative Expenses + Other Operating Expenses + Tax Expenses not related to income generation + Insurance Sales Expenses); and (ii) net income generation of related taxes (not considering Insurance Claims and Sales Expenses), our ER accumulated in the last 12 months in the fourth quarter of 2015 would be 42.0%; and

(2) Including ALL expenses, adjusted for discounts granted, loan recovery and sale of foreclosed assets, among others.

Summarized Analysis of Adjusted Income

NII (Net Interest Income)

In the quarterly comparison, the R\$777 million, or 5.7%, increase was, mainly, due to: (i) by the higher result obtained with the "interest" earning portion, to the value of R\$671 million, with emphasis on "Credit Intermediation", a result of an improved management in investment resources and funding operations; and (ii) non-interest earning portion, in the amount of R\$106 million.

In the year-over-year comparison, the net interest income increased by R\$7,092 million, or 14.7%, mainly due to: (i) a higher interest earning portion income, in the amount of R\$7,280 million, particularly in "Credit Intermediation" and "Securities/Other" and offset by: (ii) lower result obtained with non-interest earning portion, in the amount of R\$188 million.

The interest earning portion rate in the last 12 months remained 7.5% in the fourth quarter of 2015. In the year-over-year comparison, the growth of 0.4 p.p. was the reflection of increased profits obtained in the interest earning portions of "Credit Intermediation", "Insurance" and "TVM/Other".

Summarized Analysis of Adjusted Income

Expanded Loan Portfolio⁽¹⁾

In December 2015, the expanded loan portfolio of Bradesco totaled R\$474.0 billion, maintaining stable in comparison to the previous quarter. Micro, Small and Medium Sized Enterprises and Corporations presented a reduction of 1.2% and 0.8%, respectively, while the Individual, in turn, registered an expansion of 1.7% in the period.

In the last 12 months, the portfolio increased by 4.2% primarily represented by: (i) 9.5% in Corporations; and (ii) 4.5% in Individuals, and partially offset by: (iii) a decrease of 5.3% of the SMEs segment.

For Individuals, the products that have the strongest growth in the last 12 months were: (i) real estate financing; and (ii) payroll-deductible loans especially for the public sector and INSS beneficiaries. While for the Corporate segment, the highlights were: (i) export financing; and (ii) operations abroad, influenced by the exchange rate variation in the period.

(1) In addition to Bacen loan portfolio, it includes sureties, guarantees, letters of credit, advances of credit card receivables, debentures, promissory notes, co-obligation in mortgage-backed receivables, and farm loans.

For more information, see Chapter 2 of this Report.

Allowance for Loan Losses (ALL)⁽¹⁾

In the fourth quarter of 2015, allowance for loan losses totaled R\$4,192 million, registering an increase of 8.8% over the previous quarter due to the delinquency rate in the period, mainly resulting from the deceleration of economic activity. It is important to note that loan operations, as defined by Bacen, remained stable in the quarter.

The worsening of delinquency rates was mitigated by the reinforcement of the loan assignment and monitoring policy and processes, quality of guarantees, as well as the improvement of the credit recovery processes.

In the year-over-year comparison, these expenses presented a variation of 19.9%, impacted, mainly by:

(i) the effect of the alignment of the allowance level of certain operations with corporate clients; (ii) the higher delinquency rate in the period; and (iii) the increase in credit operations - Bacen concept, which presented an evolution of 5.9% in the last 12 months.

(1) Includes provision for guarantees provided, encompassing sureties, guarantees, letters of credit, and standby letter of credit, which comprises the concept of "excess" ALL. In the third quarter of 2015, includes an ALL Surplus/Worsening of Ratings, considered as an extraordinary event, totaling R\$3,704 million. This way, the balance of the ALL - Surplus provision went from R\$4,004 million in June 2015 to R\$6,409 million in September 2015

Delinquency Ratio⁽¹⁾

The total delinquency ratio, which refers to operations that are over 90 days past due, increased mainly due to the loan portfolio lower

pace of growth and the downturn in the economy. It is worth to mention the retraction of the delinquency ratio of the Corporations segment in the period, that partially offset, the effects of higher delinquency rate for the Individual and Micro, Small and Medium Sized Enterprises.

In the quarter, short-term delinquency, including operations past due between 15 and 90 days remained stable.

The increase in the Corporate segment was offset by the decrease in the Individuals segment.

Summarized Analysis of Adjusted Income

In the fourth quarter of 2015, the revenue showed an increase of 26.5% in comparison to the previous quarter, particularly "Life and Pension" products, that were fueled by the highest concentration of private pension contributions in the period.

In the comparative study between the fourth quarter of 2015 and the same period of the previous year, there was an increase of 7.4% in Insurance Written Premiums, Pension Plan Contributions and Capitalization Bond Revenue.

In the financial year of 2015, the production registered an increase of 15.1% over the same period in the previous year, influenced by "Health Plans" and "Life and Pension Plans" products, which increased 20.1% and 18.1%, respectively.

The net income of the fourth quarter of 2015 was 13.7% higher than the results presented in the same period last year, basically due to: (i) the growth of 7.4% in the turnover; (ii) the improvement in the financial and equity results; partially offset by: (iii) the increase of the Social Contribution (CSLL) rate, from 15% to 20%, as of September 2015, proportionally influencing the fourth quarter of 2015 results; (iv) by the increase of 1.0 p.p. in the claims ratio.

The net income for 2015 was 20.0% higher compared to the same period in the previous year, due to: (i) an increase in revenue; (ii) the improvement of the financial and equity results; (iii) the improvement of the administrative efficiency index; compensated, partly: (iv) by the increase of 1.0 p.p. in the claims ratio; and (v) by the increase of the Social Contribution (CSLL) rate.

The net income of the fourth quarter of 2015 was 6.7% higher than in the previous quarter, basically, due to: (i) an increase in revenue; (ii) reduction of 1.2 p.p. in the claims ratio; (iii) improvement in the administrative efficiency ratio; (iv) improvement in the financial and equity results; and (v) the increase of the Social Contribution (CSLL) rate.

Minimum Capital Required – Grupo Bradesco Seguros

According to CNSP Resolution No.321/15, corporations should have adjusted shareholder's equity (ASE) equal to or higher than the minimum capital required (MCR). MCR is equivalent to the highest value between the base capital and the risk capital. For companies regulated by the ANS, Normative Resolution No.373/15 establishes that corporations should have adjusted shareholder's equity (ASE) equal to or higher than the Solvency Margin.

The capital adjustment and management process is continuously monitored and aims to ensure that

base to support the development of activities and cope with the risks in any market situation, in compliance with regulatory requirements and/or Corporate Governance principles. Companies must permanently maintain a capital compatible with the risks for their activities and operations, according to the characteristics and peculiarities of each company belonging to Grupo Bradesco Seguros, represented by adequate capital levels. Grupo Bradesco Seguros permanently observes the limits required by the respective regulatory entities. The Minimum Capital Required in November 2015 was R\$8,200 billion.

Summarized Analysis of Adjusted Income

Fee and Commission Income

In the year-over-year comparison, the increase of R\$2,750 million, or 12.4%, was mainly due to: (i) an increase of volume of operations, which are arising from the continuous investments in service channels and in technology; and (ii) advance of the process of segmentation of clients for a better offer of products and services. It must be noted that the lines that have most contributed to this result derived from: (i) the good performance of the cards activity, as a result of (a) the increase in the financial volume traded; and (b) the highest volume of transactions performed; (ii) an increase in the checking account income, mainly due to an improvement in the customer segmentation process; and evolution of revenue with: (iii) loan operations, especially income from collaterals; (iv) asset management; and (v) consortium management.

In the fourth quarter of 2015, fee and commission income totaled R\$6,597 million, showing increase of R\$217 million, or 3.4%, in comparison to the previous quarter, primarily due to the increase in the volume of business, with emphasis on the performance of revenues of: (i) cards; (ii) checking accounts; and (iii) underwriting.

Personnel Expenses

In the year-over-year comparison, the increase of R\$732 million, or 5.2%, is mainly due to the structural portion due to the increase in expenses with payroll, social charges and benefits, impacted by higher salaries, in accordance with the 2014 and 2015 collective agreements.

In the fourth quarter of 2015, the increase of R\$42 million, or 1.1%, compared to the previous quarter is mainly composed by the structural portion due to: (i) lower number of employees on vacation in the previous quarter; and (ii) increased wage levels, according to collective agreement.

Note: Structural Expenses = Salaries + Social Charges + Benefits + Pension Plans.

Non-Structural Expenses = Employee and Management Profit Sharing + Training + Labor Provision + Costs with termination of employment contracts.

Summarized Analysis of Adjusted Income

Administrative Expenses

In the year-over-year comparison the 10.0%, or R\$1,491 million increase was primarily due to an increase of expenses originated: (i) by the growth in turnover and services in the period; (ii) by contractual adjustments; and (iii) by the dollar performance over the past 12 months since it reached 47.0% of recovery against the Brazilian real. It is important to stress that, the continuous control of operating expenses resulting from actions of the Efficiency Committee, whose efficiency initiatives resulted in a rebalance among personnel and administrative expenses.

(b) data processing; and (c) financial system services; and higher expenses with: (iii) depreciation and amortization; and (iv) rental.

In the fourth quarter of 2015, the increase of 8.9%, or R\$374 million, in the administrative expenses over the previous quarter, was mainly due to: (i) to the seasonal effect of higher expenses with advertising and marketing, due to the higher concentration of actions related to the Institutional Campaign and to support the offer of products and services; (ii) the growth in turnover and services occurred in the period, consequently, impacting in higher expenses with: (a) outsourced services;

(1) The decrease as of March 2015 is related to: (i) the migration of “External ATM Network – Bradesco” to “Banco24Horas Network”; (ii) the deactivation of ATMs from “Banco24Horas Network”; a (iii) the decrease of Bradesco Expresso correspondents.

Other Operating Income and Expenses

In the financial year of 2015, other operating expenses, net, totaled R\$6,708 million, a R\$1,313 million increase over the financial year of 2014, primarily due to: (i) the constitution of tax provisions, in the first semester of 2015, relating to the levy of pension plan contributions and IRPJ/CSLL on credit losses, in the amount of R\$570 million; (ii) higher expenses related to: (a) the constitution of civil provisions; and (b) various losses; (iii) the impact of the creation of a services joint venture (Cateno) in Cielo; and (iv) the amortization of goodwill.

In the fourth quarter of 2015, other net operating expenses totaled R\$1,586 million, remaining stable over the previous quarter.

Press Release

Summarized Analysis of Adjusted Income

Income Tax and Social Contribution

Income tax and social contribution expenses, in the quarterly comparison showed an increase of 2.8%, or R\$59 million, reflecting, in part: (i) the increase of the CSLL (social contribution) rate; and was partially offset by: (ii) the increase of the TJLP (from 6.5% in the third quarter of 2015 to 7.0% in the fourth quarter of 2015), which provided a greater constitution of interest on own capital, in the fourth quarter of 2015.

In the year-over-year comparison, the increase of 5.5%, or R\$464 million, is related: (i) to the greater taxable income in the period; (ii) the increase of the CSLL (social contribution) rate; partially offset by the: (iii) increase of the TJLP (from an average rate of 5.0% in 2014 to an average rate of 6.3% in 2015), which provided a greater constitution of interest on own capital, comparing the financial year of 2015 to the financial year of 2014.

Unrealized Gains

Unrealized gains totaled R\$7,100 million at the end of the fourth quarter of 2015, a R\$3,018 million decrease over the end of the previous quarter. Such variation was mainly due to: (i) the devaluation of the investments, mainly impacted, by Cielo shares which devalued 8.4%; and (ii) by the increase of unrealized loss in loans and leasing operations, impacted by the interest rate increase.

Capital Ratios - Basel III

Basel Ratio

In December 2015, the Capital stood at R\$102,825 million, against risk-weighted assets totaling R\$612,217 million. The total Basel Ratio presented an increase of 2.3 p.p., from 14.5% in September 2015 to 16.8% in December 2015, and the Common Equity from 11.4% in September 2015 to 12.7% in December 2015.

Additionally, it is important to stress that in the fourth quarter of 2015, the Central Bank authorized the use of Subordinated Letters of Credit to compose Tier II, whose restated amount reached R\$5,805 million on December 31, 2015.

In the table below are the main events that impacted the Tier I Capital / Principal Capital Index in the quarter:

Full Impact – Basel III

We included a Basel III simulation, considering some of the main future adjustments, which include: (i) the application of 100% of the deductions provided in the implementation schedule; (ii) the allocation of resources, obtained via payment of dividends, of our Insurance Group; (iii) the use of tax credits; and (iv) the impact of the acquisition of HSBC, for a rate of 10.3% of Common Equity, which, added to funding obtained via subordinated debt, may amount to an approximate Tier I Basel Ratio of 11.8%, in the end of 2018.

Capital Management Buffer / Return on Tier I Capital

Bradesco has improved its measurement and governance methodology, and has structured processes for buffer capital, so that it can maintain adequate capital levels to cope with the risks incurred.

The Organization considers it feasible, in the medium and long term, to maintain a margin of Level of Tier I Capital of at least 25%, in relation to the minimum capital buffer, observing the schedule established by the Central Bank, for the full adoption of the Basel III guidelines. Considering the 11% minimum required to Common Equity according to

the full interpretation of Basel III rules, profitability would be 27.4% in the period of 12 months ended in December 2015.

Economic Scenario

The confirmation of the initial monetary standardization in the United States reduced the uncertainties in the world scenario in the fourth quarter of 2015. The persistent strengthening of the North American labor market led the Federal Reserve (Fed) to increase the interest rate in its last meeting of the year – decision that was already being widely signaled. At the same time, the stabilization of the Chinese stock and exchange markets favored the perception of risk in the international markets.

Even so, the deceleration of the Chinese economy was not interrupted, which contributed to maintain the international prices of commodities at a lower level. Additionally, this country has adopted new stimuli to the economy in the period, in an attempt to contain the weakening of the economic activity. Finally, the European Central Bank, also with the aim of stimulating the growth of the region and combat the deflationary risks, extended its program for the purchase of sovereign bonds.

The domestic economy maintained a trajectory of deceleration in the fourth quarter, albeit at a slower speed to the one recorded in previous periods. Highlight for the further weakening of the labor market and the continued drop in confidence of the economic agents. On the other hand, the adjustments in the external accounts continued and the rebalance of administered prices in relation to the free ones and of domestic against the external prices did as well.

This behavior of activity, in turn, impacted negatively the collection of the public sector and the fiscal results, leading the government to continually review its goals of primary balance for 2015 and 2016. Thus, actions to ensure fiscal sustainability in the medium term and the progress on the reform agenda become even more relevant. Efforts in this direction are a necessary condition to maintain the economic predictability and to increase the level of trust of families and entrepreneurs, enabling the

Additional actions of a structural nature that leverage the future growth are also fundamental. The constant search for excellence in education is Brazil's front line in its struggle to become more competitive and to expedite its efforts to upgrade infrastructure. It is never too much to remember that, in the long term, the main source of economic growth is productivity, a theme that is even more relevant in a global context characterized by increased competition and economic growth that is still fragile.

The investments tend to have an increasingly important role in the composition of growth in coming years, especially in the process of recovery of the economic activity. This should still be favored by greater participation of the capital market in the financing of these projects. At the same time, despite the cyclical retraction of the consumer market in some segments, structurally the potential of domestic demand for goods and services is not exhausted and there is still much to be exploited.

Bradesco maintains a positive outlook towards Brazil, with favorable perspectives for its operating segments. Credit volume is growing at sustainable and risk-compatible rates, whereas delinquency rates are stabilized at historically controlled levels, in spite of a cyclic elevation due to the retraction of the activity and the reduction of the employment level this year. The scenario is still promising for Brazilian banking and insurance sectors in the medium and long term.

resumption of the trend to increase actual income and productive investments.

The variation is the result of: (i) an increase in the average spread, amounting to R\$4,183 million, due to an improved management in investment resources and funding operations; and (ii) a R\$239 million increase in the volume of operations.

Net Earning Portion of Credit Intermediation

The graph above presents a summary of Credit Intermediation activity. The Gross Margin line refers to interest income from loans, deducted from the customer acquisition costs.

The curve relating to the ALL shows delinquency costs, which are represented by Allowance for Loan Losses (ALL) Expenses, plus discounts granted in transactions net of loan recoveries, arising from the sale of foreclosed assets, among others.

In the fourth quarter of 2015, the curve related to the net margin, which presents the result of the net revenue from credit interest of ALL, had a growth of 2.4% in the quarterly comparison, primarily due to: (i) the increase in the average spread; and partially offset by: (ii) the higher delinquency rate in the period, mainly due to downturn in the economic activities.

In the comparison between the year of 2015 and the same period of the previous year, the net margin recorded a 7.4% growth due to an increase of: (i) the average spread; (ii) the average volume of business; was offset: (iii) by the effect of aligning the level of provision of certain transactions with corporate

customers; and (iv) the higher delinquency rate in the period.

Vehicle financing operations (individual and corporate) totaled R\$36.1 billion in December 2015, presenting a decrease both in the quarter-over-quarter and year-over-year comparison. Of the total vehicle portfolio, 78.3% corresponds to CDC, 18.9% to "Finame", and 2.8% to Leasing. Individuals represented, in December 2015, 60.7% of the portfolio, while the Corporate segment accounted for the remaining 39.3%.

The variations presented in the portfolio are the reflection of a more reduced financing market and of Bradesco's search for lower risk and more profitable operations, due to the demand for higher value of entry for these financing operations.

Expanded Loan Portfolio Concentration – By Sector

The expanded loan portfolio by economic activity sector showed a slight variation in the share of the sectors that it comprises. In the quarter-over-quarter comparison, there is an increase in the participation of the "Individual". In the last 12 months, the "Public Sector" and "Manufacturing" segments recorded the highest growth.

Loan Portfolio⁽¹⁾ – By Flow of Maturities⁽²⁾

The loan portfolio by flow of maturities of operations has, as one of its features, a longer profile, mainly due to the representativeness of real estate financing and payroll-deductible loans operations. It must be noted that, due to their guarantees and characteristics, these operations are not only exposed to lower risk, but they also provide favorable conditions to gain customer loyalty.

Loan Portfolio⁽¹⁾ – Delinquency

The delinquency ratio, comprising the balance of operations in delays for more than 90 days, showed an increase, mainly, due to lower growth pace in the loan portfolio and the deceleration process in the economic activity. In the period, the reduction of the delinquency ratio in the segment of Large Companies is noteworthy, that partially offset, the effects of higher delinquency rate for the Individual and Micro, Small and Medium Sized Enterprises.

In the quarter, short-term delinquency, including operations past due between 15 and 90 days, remained stable. The increase occurred in the Corporate segment was offset by a decrease in Individuals.

Allowance for Loan Losses (ALL) vs. Delinquency vs. Losses⁽¹⁾

Bradesco monitors the development of its loan portfolio, as well as respective risks, by internally applying the expanded portfolio concept. In addition to the allowance for loan losses required by Bacen, Bradesco has excess ALL to support potential stress scenarios, as well as other operations/commitments bearing credit risks.

Allowance for Loan Losses totaled R\$29.5 billion in December 2015, representing 8.0% of the total loan portfolio, comprising: (i) generic provision (customer and/or operation rating); (ii) specific provision (non-performing loans); and (iii) excess provision (internal criteria, including provision for guarantees provided).

Provisioning levels are deemed appropriate and sufficient to support possible changes in scenarios, such as higher delinquency levels and/or changes in the loan portfolio profile.

(1) As defined by Bacen; and

(2) Includes provision for guarantees provided, encompassing sureties, guarantees, letters of credit and standby letters of credit, which comprises the concept of “excess” ALL. In September 2015, includes the ALL Surplus/Deficit Rating, considered as an extraordinary event, totaling R\$3,704 million. Thus, the balance of the ALL – Surplus provision went from R\$4,004 million in June 2015 to R\$6,409 million in September 2015.

Economic and Financial Analysis

Interest Earning Portion of Credit Intermediation

Allowance for Loan Losses (ALL) vs. Delinquency vs. Loss⁽¹⁾

The assertiveness of the provisioning criteria adopted must be mentioned, which is proven by: (i) analyzing historical data on recorded allowances for loan losses; and (ii) effective losses in the subsequent 12-month period. When analyzed in terms of net loss of recovery, for an existing provision of 6.7% of the portfolio⁽¹⁾ in December 2014, the net loss in the subsequent 12 months was 3.0%, that is, the existing provision exceeded over 120% the loss occurred in the subsequent 12 months.

(1) As defined by Bacen; and

(2) Includes provision for guarantees provided, encompassing sureties, guarantees, letters of credit and standby letters of credit, which comprises the concept of “excess” ALL. Provision for Allowance for Loan Losses ⁽¹⁾

Allowance for loan losses ratios have presented very comfortable levels in relation to loans over 60 and 90 days past due, and reached a 161.7% and a 198.0% coverage, respectively.

The Non-Performing Loans ratio (operations over 60 days past due) presented an increase in the quarter-over-quarter comparison and year-over-year comparison, mainly due to the downturn in economic activity.

(1) As defined by Bacen;

(2) Includes provision for guarantees provided, encompassing sureties, guarantees, letters of credit and standby letters of credit, which comprises the concept of “excess” ALL. Loans vs. Funding

To analyze Loan Operations in relation to Funding, the following should be deducted from total customer funding: (i) the amount committed to reserve requirements at Bacen, (ii) the amount of available funds held at customer service network, as well as add (iii) funds from domestic and foreign lines of credit that finance the demand for loans.

Note that the use of funds provides a comfortable margin, which proves that Bradesco is capable of meeting demand for loaning funds through its own funding.

Bradesco presents low dependency on interbank deposits and foreign lines of credit, given its capacity to effectively obtain funding from customers. This is a result of: (i) the outstanding location of its Service Points; (ii) the broad diversity of products offered; and (iii) the market's confidence in the Bradesco brand.

(2) Includes: Financial Bills, in December 2015, totaling R\$71,692 million (R\$74,628 million in September 2015 and R\$54,961 million in December 2014).

Demand deposits

The reductions of R\$447 million, or 1.8%, in the fourth quarter of 2015 as compared to the previous quarter, and of R\$9,209 million, or 27.9%, in the year-over-year comparison, were mostly due to new business opportunities offered to customers, because of interest rate fluctuations in that period.

Savings Deposits

Savings deposits totaled R\$91,879 million in December 2015, showing an increase of 2.5% as compared to the end of the previous quarter and remaining stable in comparison to the same period in the previous year.

Bradesco is always increasing its savings accounts base, posting a net growth of 1.0 million new savings accounts over the last 12 months.

Interest Earning Portion of Credit Intermediation

Time Deposits

At the end of December 2015, the balance of time deposits totaled R\$79,595 million, registering decreases both in the quarter-over-quarter comparison, of 10.3%, or R\$9,142 million, and in the year-over-year comparison, 7.2%, or R\$6,192 million.

This performance was primarily due to the oscillations of the interest rates occurring in the period and to the new investment alternatives available to customers.

Debentures

In December 2015, Bradesco's debentures balance totaled R\$79,067 million, registering increase both in the quarter-over-quarter comparison, of 20.3% or R\$13,323 million, and year-over-year comparison, of 14.8% or R\$10,222 million.

Such variations refer mainly to the placement of these financial instruments, which are also used as ballast in committed transactions.

Borrowing and On-lending

In December 2015, balance of on-lending achieved R\$70,338 million, an increase of R\$684 million, as compared to the previous quarter, mainly due to the increase of R\$732 million in the volume of funding raised by borrowings and on-lending in the country,

mainly through: (i) an increase of the BNDES operations, in the amount of R\$1,609 million; being mitigated, in part: (ii) the decrease of Finame operations, in the amount of R\$860 million.

In the comparison between December 2015 over the same period of the previous year, the balance of borrowings and on-lending recorded an increase of R\$11,340 million, or 19.2%, essentially due to: (i) the increase of R\$15,437 million in borrowings and on-lending denominated and/or indexed in foreign currency, whose balance changed from R\$16,682 million in December 2014 to R\$32,119 million in December 2015, primarily due to the positive exchange rate variation of 47.0% in the period; offset by: (ii) the reduction of R\$4,098 million, or 9.7%, in the volume of resources captured by borrowings and on-lending in the country, mainly in the form of Finame operations.

Interest Earning Portion of Credit Intermediation

Funds from Issuance of Securities

Funds from Issuance of Securities totaled R\$109,547 million, a decrease of R\$1,440 million, or 1.3%, over the previous quarter, primarily due to: (i) the decrease in the balance of Financial Bills operations, totaling R\$2,936 million; partially offset by the growth (ii) in Real Estate Loan Letters operations, totaling R\$1,235 million; and (iii) in Letters of Credit for Agribusiness operations, totaling R\$503 million.

In the comparison between December 2015 over the same period of the previous year, the increase of R\$24,722 million, or 29.1%, was mainly due to: (i) the increased inventory of Financial Bills, from R\$54,961 million in December 2014 to R\$71,692 million in December 2015, primarily due to the new issuances in the period; and (ii) the higher volume of Mortgage Bonds, in the amount of R\$8,360 million.

Subordinated Debt

Subordinated Debt totaled R\$50,283 million in December 2015 (R\$13,714 million abroad and R\$36,569 million in Brazil), presenting an increase both in the quarter-over-quarter comparison, of 30.5% or R\$11,748 million, and in the year-over-year, of 40.4% or R\$14,461 million, mainly due to: (i) the issue of new subordinated debts; (ii) exchange variation rate, and partially offset by (iii) maturity of debts incurred in the periods.

Additionally, it is important do mention that in the fourth quarter of 2015, Bacen authorized the use of

Subordinated Letters of Credit, in the amount of
R\$5,805 million to compose the Tier II of the Basel
Ratio.

In the comparison between the fourth quarter of 2015 over the previous quarter, there was a decrease of R\$10 million in the interest earning portion of “Securities/Other”, which includes the assets and liabilities management (ALM). The change observed was primarily due to: (i) the decrease in the volume of operations, in the amount of R\$30 million; and partially offset by: (ii) an increase in the average spread, in the amount of R\$20 million.

In the comparison between the year of 2015 over the previous year, the interest earning portion of “Securities/Other”, which includes the assets and liabilities management (ALM), recorded an increase of R\$1,603 million. This result was due to: (i) an increase of R\$1,532 million in the average spread; and (ii) an increase in the volume of operations, resulting in R\$71 million.

Note: For comparison purposes, the non-recurring events' effects are not considered.

Net income for the fourth quarter of 2015 increased 77.7% over the previous quarter, mainly due to: (i) an increase of 5.3% in billing; (ii) a 4.2 p.p. fall in claims; and (iii) improvement in the financial results, partially offset by: (iv) the increase of the aliquot of the Social Contribution (CSLL), that affected proportionally, the results of the fourth quarter of 2015.

Net income for the year of 2015 was 8.2% lower over the same period of the previous year, mainly due to: (i) the increase in the combined index, which was impacted, in part by: (a) an increase of 1.3 p.p. in the claims ratio; and (b) an increase in the operating expenses related to the constitution of civil contingencies offset by: (ii) the increase of the aliquot of the Social Contribution (CSLL), that affected proportionally the results of the year of 2015; partially offset by (iii) an increase of 21.9% in billing; and (iv) an improvement in the financial results.

In December 2015, Bradesco Saúde and Mediservice maintained a strong market position in the corporate segment (source: ANS).

Approximately 132 thousand companies in Brazil have Bradesco Saúde insurance and Mediservice plans.

Of the 100 largest companies in Brazil in terms of billing, 50 are Bradesco Saúde and Mediservice customers (source: *Exame* magazine – "*Melhores e Maiores*" ranking, July 2015).

Number of Bradesco Saúde and Mediservice Policyholders

These two companies have a combined total of more than 4.4 million customers. The large share of corporate insurance in this portfolio (96.2% in December 2015) is proof of its high level of specialization and customization in the provision of group plans.

(1) The fourth quarter of 2015 includes the latest data released by SUSEP (November/15).

Net income for the fourth quarter of 2015 recorded an increase of 2.5% over the previous quarter, primarily due to: (i) an increase in financial income; partially offset by: (ii) the increase of the aliquot of the Social Contribution (CSLL), that affected proportionally, the results of the fourth quarter of 2015.

Net income in the year of 2015 recorded an increase of 28.6% over the same period in the previous year, primarily due to: (i) an increase of 3.1% in billing; (ii) the improved financial income; (iii) improvement in the administrative efficiency ratio; partially offset by: (iv) the increase of the aliquot of the Social Contribution (CSLL), that affected proportionally, the results of 2015.

Bradesco Capitalização

Bradesco Capitalização ended 2015 in first place among the capitalization bond private companies, showing 3.1% of growth in the revenue in comparison to 2014, due to its policy of transparency and by adjusting its products based on potential consumer demand consistent with the market changes.

Concerned with providing products that better fit the most varied profiles and budgets of its customers, Bradesco Capitalização has a product portfolio ranging by payment method (lump or monthly), contribution term, periodicity and value of premiums that meet the requirements and expectations of the customers.

Combining a pioneering spirit with a business-minded strategic view, Bradesco Capitalização has launched products onto the market concerned with socio-environmental causes, in which part of the revenue goes to projects with this purpose. In addition to offering customers the possibility of creating a financial reserve, Capitalization Bonds with the socio-environmental profile seek to raise customer's awareness about the importance of this subject and allow them to participate in a noble cause that benefits society.

Bradesco Capitalização currently has partnerships with the following institutions: (i) Fundação SOS Mata Atlântica (which contributes to the preservation of biological and cultural diversity of the Atlantic Forest, stimulating social and environmental citizenship); (ii) Fundação Amazonas Sustentável (which contributes to the sustainable development, environmental preservation and improvement of life quality in communities that benefit from preservation centers in the state of Amazonas); (iii) Instituto Brasileiro de Controle do Câncer (the Brazilian Cancer Control Institute – which contributes to the prevention, early diagnosis and treatment of breast cancer in Brazil); (iv) Tamar Project (created to preserve sea turtles); and Instituto Arara Azul

The portfolio is composed of 20.7 million active bonds. Of this total, 36.9% are represented by “Traditional Bonds”, sold at the Branch Network and at Bradesco Dia&Noite service channels. The other 63.1% of the portfolio is represented by “Incentive” bonds (assignment of drawing rights), such as partnerships with Bradesco Vida e Previdência and Bradesco Auto/RE. Given that the purpose of this type of capitalization bond is to add value to the product of a partner company or even to encourage timely payment by its customers. The bonds have reduced maturity and grace terms and lower sale price.

The division of "Transport" continues being the priority focus, with fundamental investments to leverage new business.

Despite the strong competition in the field of "Auto/RCF", the insurance company has maintained its fleet of around 1.5 million items, guaranteed by the maintenance of competitiveness. Such a fact originated, mainly, from more refined and segmented pricing. Another important aspect refers to the improvement of current products and the creation of products intended for specific audiences. Among these, we can highlight the launch of the product "*Bradesco Seguro Auto Assistência Total*" (Auto Insurance Total Assistance), exclusively for account holders of Bradesco, which assists with *Assistência Dia e Noite* services (Day and Night assistance services), for vehicle and residence of insured persons.

Explanations of the main items that influenced the variation in Fee and Commission Income between periods can be found below.

Card Income

Income from card fees totaled R\$2,583 million in the fourth quarter of 2015, an increase of R\$135 million, or 5.5% over the previous quarter, basically due to: (i) the increase in the financial volume traded; and (ii) the increased amount of transactions carried out in the quarter.

In the year-over-year comparison, the 18.2% growth, or R\$1,483 million, is primarily due to: (i) the increase in the financial volume traded; and the increased amount of transactions carried out in the period

Fee and Commission Income

Checking Account

The revenues of current accounts presented increments both in the quarterly comparative, of 6.3% or R\$82 million, and in the year-over-year comparison, of 23.0% or R\$925 million, due primarily: (i) to the increase in the volume of business; and (ii) by the expansion of the portfolio of services rendered, with the adhesion of clients for the new segments “Classic” and “Exclusive”.

Loan Operations

In the fourth quarter of 2015, revenues from loan operations totaled R\$729 million, which represent a R\$10 million or 1.4% decrease over the previous quarter, due to the decreased volume of operations contracted by Corporate segment, primarily impacted by the deceleration in the economic activity.

In the year-over-year comparison, the R\$219 million or 8.5% increase was substantially due to a higher income from collaterals, which increased 22.8%.

_____ Economic and Financial Analysis**Fee and Commission Income****Fund Management**

In the fourth quarter of 2015, fund management income totaled R\$663 million, presenting a decrease of R\$29 million or 4.2% compared to the previous quarter, mainly due to the fewer number of working days in the quarter.

In the year-over-year comparison, the increase of R\$168 million or 6.9%, was basically due to the increase in the volume of funds raised and managed, which grew 12.6% in the period, highlighted investments in fixed income funds, with growth of 15.6% in the period.

Cash Management Solutions (Payments and Collection)

In the fourth quarter of 2015, billing and collection income presented an increase of R\$10 million compared to the previous quarter, mainly due to the increase in the volume of business.

In the year-over-year comparison, the increase of 0.9%, or R\$18 million, was due to the greater volume of processed documents, up from 2,199 million in the year of 2014 to 2,217 million in the year of 2015, resulting an increase of 18 million of processed documents for the period.

- Economic and Financial Analysis Report – December 2015

Fee and Commission Income

Consortium Management

In the fourth quarter of 2015, income from consortium management increased by R\$8 million or 3.0% compared to the previous quarter, because of the sales made in that period. In December 2015, Bradesco had 1,194 thousand active quotas (1,154 thousand active quotas in September 2015), ensuring a leading position in all the segments in which it operates (real estate, auto and trucks/machinery and equipment).

In the comparison between the year of 2015 over the previous year, the 18.2% or R\$160 million increase in income from consortium management was mainly driven by: (i) a higher volume of received bids; (ii) the increase in the average ticket; and (iii) the increase in sales of new quotas, ranging from 1,062 thousand active quotas in December 2014, to 1,194 thousand active quotas in December 2015, an increase of 132 thousand net quotas.

Custody and Brokerage Services

In the fourth quarter of 2015, total earnings from custody and brokerage services presented a decrease of R\$5 million or 3.4% compared to the previous quarter. Such a trend basically resulted from the lower number of working days in the quarter.

In the year-over-year comparison, the increase of R\$37 million or 7.1%, in income from custody and brokerage services, reflected the increase in the average volume of assets under custody in the period.

Underwriting / Financial Advisory Services

The increase of R\$32 million, or 30.5% in the quarter-over-quarter comparison refers, mainly, to lower activity of the capital market in the third quarter of 2015.

In the year-over-year comparison, the reduction of R\$96 million or 15.1% refers, essentially, to the higher volume of business done in 2014, highlighting the Structured Operations and Project Finance.

It is important to note that variations recorded in this income derive from the volatile performance of the capital market.

In the fourth quarter of 2015, total Personnel and Administrative Expenses amounted to R\$8,413 million, with growth of 5.2% or R\$416 million, in comparison with the previous quarter. In the year-over-year comparison, total Personnel and Administrative Expenses presented a growth of 7.7% or R\$2,223 million, a growth below the inflation index.

Personnel Expenses

In the fourth quarter of 2015, the increase of R\$42 million, or 1.1%, in comparison to the previous quarter is primarily composed by the structural portion variation, due to: (i) lower number of employees on vacation in the previous quarter; (ii) an increase in wage levels, according to the collective agreement.

Economic and Financial Analysis

Personnel and Administrative Expenses

Administrative Expenses

In the fourth quarter of 2015, the administrative expenses totaled R\$4,574 million, presenting an increase of R\$374 million, or 8.9%, compared to the previous quarter, mainly due to (i) the seasonal effect of higher expenses with advertising and marketing, due to the higher concentration of actions related to the Institutional Campaign and to support the offer of products and services, to the sum of R\$88 million; (ii) the growth in turnover and services occurred in the period, consequently, impacting in higher expenses with: (a) outsourced services, totaling R\$78 million; (b) data processing, to the sum of R\$60 million; and (c) financial system services, in the amount of R\$14 million; and higher expenses with: (iii) depreciation and amortization, to the sum of R\$21 million; and (iv) rental, in the amount of R\$17 million.

In the year-over-year comparison, the increase of 10.0% or R\$1,491 million, was due mainly to the increasing expenses with: (i) growth in business and services volumes in the period; (ii) contractual adjustments; and (iii) behavior of the dollar in the last 12 months, which reached 47.0% of recovery against the Brazilian real. It is important to stress the continuous control of operating expenses resulting from actions of the Efficiency Committee, whose efficiency initiatives resulted in a rebalance among personnel and administrative expenses.

Operating Coverage Ratio ⁽¹⁾

In the quarter, the coverage ratio over the last 12 months maintained its improvement with a 0.9 p.p. growth, mainly due to an increase in fee and commission income, combined with ongoing cost control efforts, including (a) the initiatives of our Efficiency Committee and (b) measures applied to increase the offer of products and services to the entire client base.

Tax Expenses

The increase of R\$320 million, or 24.1%, in tax expenses in the fourth quarter of 2015 in relation to the previous quarter, occurred, basically, due to the increase of the tax bases of PIS/Cofins, impacted, in part, by higher revenues generated by the receipt of interest on own capital from the companies of Organização Bradesco.

In the year-over-year comparison, such expenses increased R\$1,013 million, or 21.9%, basically due to the increase in expenses with PIS/Cofins/ISS, derived from the increase in taxable income, mainly, of the fee and commission income, net interest income and receipt of interest on own capital in the fourth quarter of 2015.

Equity in the earnings (losses) of affiliates

Equity in the earnings (losses) of affiliates presented, in the fourth quarter of 2015, an increase of R\$55 million compared to the previous quarter, and a reduction of R\$43 million or 23.0% in the

year-over-year comparison, basically due to the equity in the earnings (losses) obtained with the affiliated "IRB – Brasil Resseguros".

Additional Information**Investments in Infrastructure, Information Technology and Telecommunications**

Bradesco, whilst seeking to offer customers innovative products and services, invests in technology to enable new services strategies. Information Technology is the main means that enables the increasing facility, convenience to clients in all points of service and autonomy with the use of digital channels. We highlight:

- The new application Bradesco Net Empresa for cell phone (Net Empresa Celular), for Legal Entity clients, has a new look and allows, among other features, to deposit checks via image capture that eliminates the need to take the document to the Branch;
- The area of Capitalization of the Internet Banking has been completely redesigned. In addition to new services, such as online acquisition of shares, consultations of detailed statements and change in the debiting date, the page displays an optimized interface and easy navigation;
- Bradesco has launched a website for the retired, where they have access to products and services focused on their profile, and can check exclusive discounts on medicine, travel packages, tickets for shows and other cultural and leisure activities;
- A service was launched that allows clients to register accounts of beneficiaries and increase their limit of daily transfers by up to R\$30 thousand, directly by Internet Banking, without having to go to a Branch, by only using the Digital Validation;
- Bradesco clients can access their accounts using digital printing instead of the four-digit password. The technology, already available for Apple cell phones, is now also available on the Samsung cell phone, with the Android operating system *Fingerprint Scanner*, in the Bradesco, Bradesco Exclusive and Bradesco Prime Applications;
- We have developed, in partnership with the company Quero Quitar, a site where individual clients, of the Retail and Prime segments, have the possibility of settling their outstanding debts online;
- Maintaining the innovative spirit, we have started the second cycle of the open innovation program, known as inovaBRA, in partnership with startups, focused on creating new business models, products and services; and
- In pursuit of the process of continuous improvement and sustainability, Bradesco has adapted the internal processes obtaining a 25% reduction in the amount of printed documents and has enabled the environment on Private Cloud with benefits in energy efficiency, physical space and agility in fulfilling the projects.

As a prerequisite for its continuous expansion, Bradesco has invested R\$5,720 million in Infrastructure, Information Technology and Telecommunications in 2015. The total amount invested over recent years, including infrastructure (facilities, restorations, improvements, furniture and fixtures), can be found below.

Additional Information

Risk Management

Risk management activity is highly strategic due to the increasing complexity of services and products and the globalization of Bradesco's business. The dynamism of the market forces Bradesco to engage in the continuous improvement of this activity in pursuit of better practices, which has allowed Bradesco to use its internal market risk models, which were already in force, to calculate regulatory capital, since January 2013.

Bradesco controls corporative risk management in an integrated and independent manner, preserving and valuing the Board's decisions, developing and implementing methodologies, models, and measurement and control tools. It also provides training to employees from every level of the organization, from the business areas to the Board of Directors.

The management process allows the risks to be proactively identified, measured, mitigated, monitored and reported, which is necessary in view of Bradesco's complex financial products and activity profile.

Detailed information on the risk management process, Capital, as well as Bradesco's risk exposure, can be found in the Risk Management Report, available on the Investor Relations website: www.bradescori.com.br.

Capital Management

The Capital Management structure aims to providing conditions for capital monitoring and control, contributing to the achievement of goals set in the strategic objectives defined by Bradesco, through an adequate capital sufficiency planning. This structure is comprised of Executive Committees and one Non-Statutory Committee, which assist the Board of Directors and Board of Executive Officers in the decision-making process.

In addition to the Committee structure, Bradesco has a department responsible for the capital management centralization, named Capital Management and Internal Capital Adequacy Assessment Process (ICAAP), subordinated to the Department of Planning, Budget and Control, which acts jointly with the Integrated Risk Control Department, associated companies, business areas and the Bradesco's supporting areas.

With the implementation of the capital management structure, an internal process has been established to assess capital adequacy (ICAAP), which provides conditions to assess capital sufficiency in accordance with the base and stress scenarios, in a prospective outlook to identify capital and contingency actions to be taken in the respective scenarios. Capital adequacy and sufficiency information represent essential tools to manage and support the decision-making process.

Additional information on the capital management structure is available in the Risk Management Report – Pillar 3, and in the Annual Report, on the Investor Relations website: www.bradescori.com.br.

The capital plan is devised on an annual basis and approved by the Board of Executive Officers and Board of Directors. It is also aligned with the strategic plan and encompasses a prospective outlook of at least three years. The process of developing this plan considers threats and opportunities, market share and development goals, capital requirement projections based on risks, as well as capital held by Bradesco. Such projections are constantly monitored and controlled by the capital management area.

Additional Information**Basel Ratio**

In December 2015, the Capital of the Prudential Consolidated reached the amount of R\$102,825 million, compared to assets weighted by the risk of R\$612,217million. The total Basel ratio, in the Prudential Consolidated, presented an increase of 2.3 p.p., from 14.5% in September 2015, to 16.8% in December 2015, and the Principal Capital from 11.4% in September 2015 to 12.7% in December 2015, impacted, basically due to: (i) the increase of Shareholder's Equity, due to the increment of the results in the quarter; (ii) the decrease of prudential adjustments, which decreased from R\$12,656 million in September 2015 to R\$11,400 million in December 2015, impacted, basically, by the decrease of the tax credits arising from temporary differences of tax losses and negative basis of social contribution; and (iii) decrease of assets weighted by the credit and market risk.

Additionally, it is important to stress that in the fourth quarter of 2015, Central Bank authorized the use of Subordinated Letters of Credit to compose Tier II, the amount of which restated on December 31, 2015 reached R\$5,805 million.

Independent Reasonable Assurance Report on the Supplementary Accounting information included within the Economic and Financial Analysis Report

To

The Directors of

Banco Bradesco S.A.

Osasco – SP

We were engaged by Banco Bradesco S.A. ("Bradesco") to report on the supplementary accounting information of Banco Bradesco S.A. for the year ended as at December 31, 2015 in the form of reasonable assurance conclusion that based on our work, described within this report, the supplementary accounting information included within the Economic and Financial Analysis Report is presented, in all material respects, based on the information referred to in the "Criteria for preparing the supplementary accounting information" paragraph.

Responsibilities of the Management of Bradesco

Management is responsible for preparing and adequately presenting the supplementary accounting information included within the Economic and Financial Analysis Report based on the criteria for the preparation of the supplementary accounting information described below, and for other information contained within this report, as well as the design, implementation and maintenance of internal controls that management determines are necessary to allow for such information that is free from material misstatement, whether due to fraud or error.

Independent Auditor's Responsibility

Our responsibility is to examine the supplementary accounting information included within the Economic and Financial Analysis Report prepared by Bradesco and to report thereon in the form of a reasonable assurance conclusion based on the evidence obtained. We conducted our engagement in accordance with the NBC TO 3000 - Assurance Engagement Other than Audit and Review (ISAE 3000). That standard requires that we comply with ethical requirements, including independence requirements, and plan and perform our procedures to obtain a reasonable assurance about whether the supplementary accounting information included within the Economic and Financial Analysis Report is presented, in all material respects, to the information referred to in the “Criteria for preparing the supplementary accounting information” paragraph.

The procedures selected were based on our judgement, including the assessment of risks os material misstatement in the supplementary accounting information of Banco Bradesco S.A. whether due to fraud or error, however, this does not include the search and identification of fraud or error.

In making those risk assessments, we have considered internal controls relevant to the preparation and presentation of supplementary accounting information in order to design assurance procedures that are appropriate in the circumstances, but not for the purposes of expressing a conclusion as to the effectiveness of Bradesco’s internal control over the preparation and presentation of the supplementary accounting information. Our engagement also includes the assessment of the appropriateness of the reasonableness of the supplementary accounting information within the Economic and Financial Analysis Report in the circumstances of the engagement, evaluating the appropriateness of the procedures used in the preparation of the supplementary accounting information and the reasobleness of estimates made by Bradesco and evaluating the overall presentation of the supplementary accounting information. Reasonable assurance is less than absolute assurance.

Our conclusion does not contemplate aspects related to any prospective information contained within the Economic and Financial Analysis Report, nor offers any guarantee if the assumptions used by Management to provide a reasonable basis for the projections presented. Therefore, our report does not offer any type of assurance on the scope of future information (such as goals, expectations and ambitions) and descriptive information that is subject to subjective assessment.

Management Report

Dear Shareholders,

2015 was to Bradesco a year of achievements and advances, which become all the more valuable taking into account the environment of uncertainty, in a context of decelerated economy, decreasing GDP and persistent inflation. We have been successful and we are convinced that the financial activity is fundamental for the country to return to the path of growth.

Bradesco, since it was founded 72 years ago, has held an ongoing relationship with society, driven by the vocation of the pioneering spirit and determination to be contemporary at all times. From any angle assessed, the democratization of banking products and services has been a constant. The culture of quality, intersection point of all initiatives, contributed to the evolution of the technological structure, associated to the technical and professional improvement of the staff, pillars that distinguish us in the financial market.

Among the events of major relevance in 2015, we highlight the signature for the Purchase of Shares Agreement with HSBC Latin America Holdings (UK) Limited for the acquisition of 100% of the share capital of HSBC in Brazil. The operation, which is subject to the approval of the competent regulatory agencies, reaffirms the objectives of Bradesco to strengthen its presence and activity in the market.

With the feeling of overcoming adversity and recognition, we wish to thank our clients and shareholders, for their trust, support and preference; to the directors, employees and other collaborators, for their effort, dedication and commitment to the Organization's strategies, determinants for the results obtained.

Cidade de Deus, January 27, 2016

Lázaro de Mello Brandão

President of the Board of Directors

The good performance of the year is synthesized in the results obtained: the Net Profit reached the total of R\$17.190 billion, highlighting to shareholders, as Dividends and Interest on Own Capital, the amount of R\$6.035 billion, corresponding to 32.3% of the adjusted profit. In these results, the participation of Grupo Bradesco Seguros with 30.8%, was significant. Total Assets reached R\$1.019 trillion, a growth of 10.0% in relation to the previous year, the Equity totaled R\$88.907 billion and the Operational Efficiency Index reached 37.5%, with considerable improvement compared to the 39.2% registered in 2014.

In the context of corporate sustainability, the Organização Bradesco maintains its commitment in the constant search of integrating its principles to its strategic planning. In the social area, Fundação Bradesco deserves special attention, one of the largest private social and educational programs in Brazil, with 40 schools installed in priority regions of accentuated socioeconomic deprivation, promoting free basic and quality education, strengthening ethical values and civic-mindedness.

With renewed optimism in facing future challenges, Bradesco reiterates its positive vision in relation to Brazil. The planning of the Organization has solid foundations, proven in the scale already achieved, its great diversification in terms of products and services, robust financial and equity situation, one of the largest networks of customer service in Brazil, compatible presence abroad, use of the best corporate governance practices and qualified internal structure, in terms of experience and operational efficiency, to respond to the demands of sustained growth.

Consolidated Financial Statements and Independent Auditors' Report

Management Report

We hereby present the Consolidated Financial Statements of Banco Bradesco S.A related to the year ended December 31, 2015, in accordance with the accounting practices adopted in Brazil and applicable to institutions authorized to operate by the Brazilian Central Bank.

Organização Bradesco, with solid activity focused on the interests of its clients and shareholders, always committed to the economic and social growth of Brazil, develops its activities with the highest levels of efficiency and transparency, seeking to democratize the banking services, apply the most efficient practices of Corporate Governance and achieve the best results. Among the important events of the year are the following:

- **on July 6, the signature of the partnership with FCA Fiat Chrysler Automóveis Brasil and Banco Fidis, through Bradesco Financiamentos,** for a period of ten years, to finance the sales of vehicles of the brands Jeep, Chrysler, Dodge and Ram in Brazil;
- **on August 3, the disclosure of the signature of the Purchase of Shares Agreement with HSBC Latin America Holdings (UK) Limited for the acquisition of 100% of the share capital of HSBC Bank Brasil S.A. – Banco Múltiplo and HSBC Serviços e Participações Ltda., with the consequent take over of all operations of HSBC in Brazil, whose decision was ratified at the Extraordinary General Meeting on December 17, 2015.** Subject to the approval of the competent regulatory bodies, the operation reaffirms the goals of Bradesco to strengthen its presence and activity in the market, thus increasing gains in efficiency and scale;

- **since September, Bradesco Clients can withdraw cash and check their balance without the use of the card, in the whole Banco24Horas network, in addition to Rede Bradesco (Service Network),** upon biometric authentication, by the palm of the hand; and

- **In January 2016, Bradesco signed a non-binding Memorandum of Understanding with Banco do Brasil S.A., Banco Santander (Brasil) S.A., Caixa Econômica Federal and Itaú Unibanco S.A.,** in order to create a holding company of credit intelligence ("GIC"), which will develop a database with the goal of adding, reconciling and handling database and credit-related information, of individuals and legal entities, which expressly authorize their inclusion in the database, as required by the applicable rules.

Economic Comment

In 2015, the world economic scenario was marked by the divergence between the growth trajectory of the developed countries, in particular the US, and the emerging economies, particularly China. This behavior may be repeated in 2016, maintaining the high volatility of international markets. On one side, the resumption of the North American GDP has been contributing towards the strengthening of the dollar against other currencies. On the other, China must maintain the current path of deceleration, sustaining the pressure on the prices of commodities.

In this context, Brazil has been able to obtain success in some important dimensions of the macroeconomic adjustment in progress. The devaluation of the exchange rate has led to the

- **on August 6, the launch of the Espaço Bradesco Next Móvel at Shopping Iguatemi, in São Paulo; later, on October 8 and 30, in Morumbi Shopping and Shopping Park São Caetano, respectively.** The objective of this new configuration, itinerant in form, will mark our presence in different localities, taking to the public the experience of the latest technologies and innovations, as well as expanding the conquest of new business;
- **on August 31, the inauguration of the new premises of Grupo Bradesco Seguros in Alphaville – São Paulo,** with a modern and sustainable architectural structure, where it will centralize the operations of all its segments. The integration extends further the synergy between the areas, generating gains in productivity and quality, in addition to improving assistance to the Branches and to the clients;
- **on September 14, for the 10th consecutive year, Bradesco was selected to integrate the Dow Jones Sustainability Index – DJSI,** of the New York Stock Exchange, in the Dow Jones Sustainability World Index and Dow Jones Sustainability Emerging Markets portfolios. The DJSI is composed of actions of a select list of companies of the whole world with best practices for sustainable development;

reduction of the deficit in current transactions, while the realignment of administered prices and the tightening of monetary conditions should enable the convergence of inflation to the center of the target in the coming years. However, even though the fiscal policy has presented signs of progress, economic activity follows weakened, making it hard to achieve the necessary targets for the stabilization of the public debt as a proportion of the GDP.

This phase of rebalancing gains importance to lay the foundations for a more sustained economic growth ahead. In addition, short-term challenges must also create the conditions for the proposition of a reform agenda that broadens the dynamism of the Brazilian economy. Thus, Bradesco reinforces its favorable expectations in relation to the country, particularly in the segments in which it operates.

Consolidated Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and Fiscal Council's Report

Management Report

1. Income of the Financial Year

The strategies outlined for the financial year of 2015 were conducted within the expectations, proven by the good results achieved and by the remuneration to shareholders. A detailed analysis of these figures, regarding the origin and evolution, is available in the Report on Economic and Financial Analysis, on the site bradesco.com.br/ri.

R\$17.190 billion was the Book Net Profit for the year, 13.9% higher in comparison to the same period of 2014, equivalent to R\$3.40 per share and profitability of 20.1% over the average Shareholders' Equity(*). The return on Average Total Assets was 1.7%.

R\$6.035 billion were destined to the shareholders as Interest on Own Capital, monthly, intermediary and complementary, and Dividends, computed in the calculation of the mandatory dividends. Thus, R\$1.27 (R\$1.11 net of withheld Income Tax) were assigned, which include the additional 10% for each preferred share, and R\$1.15 (R\$1.00 net of withheld Income Tax) for each common share. The interest and dividends distributed represent 32.3% (net of withheld Income Tax 37.0%) of the adjusted profit for the financial year.

Taxes and Contributions

Bradesco, in the financial year, has collected a significant portion of its results to the public coffers, in direct proportion to the volume of activities it develops.

2. Business Strategy

Bradesco, in the national market, maintains the objective of expanding the already prominent position it occupies among the private financial institutions and ensuring its leadership in the insurance industry. In this context, it will maintain the incentive in investments and in the democratization of credit, expanding the supply of products, services and solutions, promoting, as a first priority, the bank inclusion and social mobility, by means of its extensive Service Network, present in all regions of the country, which includes Branches, Customer-site Branches, Bradesco Espresso Correspondents, ATM equipment, and also through the Convenience Channels, such as the Internet Banking, Bradesco Celular (Cell Phone service) and Fone Fácil (Telephone service).

In the financial area, under the perspective of a strict monetary policy, the Bank will continue pursuing the growth of the credit portfolio, with emphasis on real estate credit, consumer credit and payroll-based loans, in addition to the strong performance in open supplementary pension plan and in the expansion of the services offered to the growing economically active population. For such, it will follow adopting effective security criteria that include the rigorous evaluation of procedures of concession and efficient daily collection of overdue amounts, through the Program for Recovery of Overdue Credits - PRCV. The strategic focus on secure dissemination and on business results, which are the examples of the investment bank, corporate, private banking and the management of third party resources, in addition to

R\$13.362 billion totaled taxes and own contributions, including pensions, paid or provisioned.

R\$12.401 billion totaled the taxes withheld and collected from third parties, equivalent to the financial mediation.

In the aggregate, in the Organization, the resources originated or transacted came to the expressive amount of R\$25.763 billion.

Operational Efficiency Index – IEO

In the accrued for 12 months, the Operational Efficiency Index – IEO presented an improvement from 39.2% on December 31, 2014, to 37.5% in December 2015, which is due in part to the control of administrative expenditure and to the ongoing effort to increase the revenue.

the investments in the market of cards, consortia, insurance, social security and capitalization, equally relevant, will remain active in the Organization.

With presence in strategic centers, such as New York and London, Bradesco offers support to Brazilian companies in their needs abroad, as well as to investors and foreign companies interested in Brazil. Bradesco Securities of New York, London and Hong Kong are fundamental to capture resources and distribute securities in these financial centers, as well as Banco Bradesco Europa, in Luxembourg and in London, with services of financing for corporate and private banking clients.

The continuous pursuit of growth requires substantial investment in Infrastructure, Information Technology and in the area of Human Resources, essential pillars for the banking market. In this sense, R\$5.720 billion were invested to innovate, update and maintain the IT environment, which is highlighted in the market, with the best practices and existing technologies, and investments of R\$145.135 million in training programs to members of staff, valuing motivation, innovation and focus on the client.

The respect to the consumer, the socio-environmental responsibility, safety and credibility are embedded in Bradesco's corporate culture. Three vectors of greater amplitude underlay the strategic planning:

Consolidated Financial Statements and Independent Auditors' Report

Management Report

a) growing organically, without losing sight of the possibilities of acquisitions, associations and partnerships, as long as they are committed to providing quality of service, safety of products, solutions and services, and the effective improvement of the indexes of operational and financial efficiency;

b) maintaining strict controls to identify, evaluate and mitigate risks inherent to the activities, as well as define the acceptable levels in each operation; and

c) conducting business with total transparency, ethics and adequate remuneration to investors.

4.2. Credit Operations

The challenging scenario for the credit market makes Bradesco maintain its policy always updated and commensurate with the current moment of economy, preserving the expansion and diversification of the offer, that covers the Branch Network, Banking Correspondents and Digital Channels. These differentials have contributed to the achievement of loans or direct financing or of strategic partnerships with the various business chains.

R\$473.600 billion was the balance at the end of the year, of consolidated credit operations, in the expanded concept, which includes Sureties and Guarantees, Letters of Credit, Anticipation of Credit Card Receivables, Debentures, Promissory Notes, Credit Rights Investment Funds, Certificates of Real Estate Receivables and Rural Credit, with an evolution of 4.2% in the period.

Payroll-deductible loans

Among the modalities of Consumer Credit, the Consigned Credit is one of the most representative in the credit portfolio for individuals in Bradesco, which operates strategically in two channels of offer: the internal, composed by the Branch Network, and the external, through Bradesco Promotora and its partner Banking Correspondents.

In these channels, the target audiences for the offer of consigned credit are retirees and pensioners of the INSS, public servants and employees of companies who have their accredited payroll with Bradesco.

R\$34.061 billion was the balance of the Portfolio at the closing of 2015, with 9,185,159 active contracts.

Real Estate Credit

Bradesco maintains its commitment to meet the demands of the real estate sector, by financing the construction entrepreneurs and final borrowers, through the segmented channels, thus contributing to the growth of its activities in the civil construction industry, generator of ties with the socioeconomic development and the creation of jobs and income. The reflex in the Real Estate Credit portfolio is shown by the continuous growth of the volume of transactions made.

R\$40.479 billion was the balance of the Real Estate Credit Portfolio, whereby R\$21.826 billion was intended for Individuals and R\$18.653 billion for Legal Entities, and a total of 117,159 units financed.

11. Corporate Governance

Since its foundation, in 1943, corporate governance practices are present in the management of Banco Bradesco S.A.

In the role of Supervisory Body, the Audit Committee had been installed annually since 2002, and became permanent from 2015. It is currently composed of 5 effective members and an equal number of alternate members, 2 of which are effective members and their respective alternates are chosen, respectively, by minority preferred shareholders and by non-controlling shareholders, holders of common shares.

In accordance with Instruction No. 381/03 of the Brazilian Securities and Exchange Commission, the Organização Bradesco, in the year of 2015, neither contracted from nor had services provided by KPMG Auditores Independentes that were not related to the external audit, at a level greater than 5% of the total fees related to external audit services. Other services provided by the external auditors were the previously-agreed procedures for reviews of, substantial, financial, fiscal and actuarial information. The Bank's policy is in line with the principles of preserving the auditors' independence, which are based on generally accepted international criteria, i.e. the auditors should not audit their own work, perform managerial duties for their clients or promote their customers' interests. It is noteworthy that any eventual services not related to the external audit are submitted prior to the authorization of the Audit Committee.

Consolidated Financial Statements and Independent Auditors' Report

Management Report

11.1 Internal Audit

The area of Internal Audit of Bradesco, with direct subordination to the Board of Directors, has as objective the independent evaluation of the processes of the Organization, contributing to the mitigation of risks, suitability and effectiveness of internal controls and compliance with the Policies, Norms, Standards, Procedures and Internal and External Regulations.

The Internal Audit activity is certified by the Instituto dos Auditores Internos do Brasil (Institute of Internal Auditors of Brazil) and by The Institute of Internal Auditors (IIA).

11.2 Policies of Transparency and Disclosure of Information

The Economic and Financial Analysis Report is available on the site bradesco.com.br/ri, with a thorough compilation of the most requested information by interested readers, and the Annual Unified Report, which combines financial and non-financial aspects. The Bank also offers to the market, physically and electronically, a series of periodic publications. Every six months 'Revista Bradesco' (magazine) is distributed, quarterly the bulletin "Cliente Sempre em Dia", bimonthly the PrimeLine and, on demand, the Face Sheet, a printed edition that presents the main financial highlights of the period, all geared to the external public.

11.3. Investor Relations – RI

The Investor Relations area has as main objective to transmit, by means of conferences, lectures, publications and events in Brazil and Abroad, information, perspectives and strategies of Bradesco for the financial community, enabling the correct

11.4. Ouvidoria Bradesco (Ombudsman)

Created in 2005, two years before the Central Bank imposed its obligation, the Ombudsman arose with the task of receiving, addressing and resolving complaints from clients and users.

The pioneering spirit in its institution ratifies the concern and commitment of Bradesco with the excellence of its products, since it has always been at the forefront of innovations that benefit the consumer, there is Alô Bradesco, the first channel of communication of the financial market with the public, created in 1985, five years before the edition of the Consumer Protection Code.

Essential for promoting the quality of services rendered, the Ombudsman performs its activities with external objectives, in the role of guardian of the relationship with the client, by ensuring their loyalty, and internal, seeking, by means of the complaints that it receives, opportunities for improvement of processes, products and services so that the manifestation of a client can benefit all the others, contributing to a healthy, transparent and respectful relationship with society.

12. Integrated Risk Control

12.1. Risk Management

The activity of management of risks is highly strategic because of the growing complexity of services and products and the globalization of the business of the Organization.

The Organization exercises corporate control of the risks in an integrated and independent manner, preserving and valuing the environment of group decisions, developing and implementing methodologies, models and tools for measurement

assessment of their actions, as well as bringing to the Top Management the perception of the market in relation to the performance of the Organization.

The Investor Relations website - bradesco.com.br/ri - is available in Portuguese and English and is segmented for individuals and legal entities, providing information according to the need and interest of each profile.

Over the course of the year, the Bank held 7 APIMEC Meetings, with some of them broadcast live over the Internet, alongside simultaneous translation into English. Access for mobile devices was also provided. All in all, more than 4 thousand people took part.

Quarterly, when the results are disclosed, teleconference and video chats are held with investors. In 2015, 144 internal and external meetings were held with analysts, 231 telephone conferences and 29 events Abroad. Additionally, the Investor Relations team assists shareholders, investors and analysts by phone and email, in addition to participating in conferences and road shows in Brazil.

and control. It also offers refresher training to employees at all hierarchical levels, from the business areas up to the Board of Directors.

In face of the complexity and the range of products and services offered to its clients in all segments of the market, the Organization is exposed to various types of risks, either due to internal or external factors. Therefore, it is crucial to adopt continuous monitoring of all the risks in order to give security and comfort to all the interested parties. Among the main types of risks, we highlight: Credit, Counterpart Credit, Concentration, Market, Liquidity, Subscription, Operational, Strategy, Legal or Compliance, Legal Unpredictability (Regulatory), Reputation and Socio-environmental.

12.2. Internal Controls

The effectiveness of the internal controls of the Organization is sustained by qualified professionals, well defined and implemented processes and technology compatible with the business needs.

In Bradesco, the methodology of internal controls applied in the Organization is in line with the guidelines of the Committee of Sponsoring Organizations of the Treadway Commission (COSO) – version 2013, which has the purpose of supplying a model for internal controls, management of corporate risks and fraud, in order to improve the performance and organizational supervision.

The existence, implementation and effectiveness of the controls that ensure acceptable levels of risk in the processes of the Organization are certified by the responsible area, and the results are reported to the Audit Committee and Internal Controls and Compliance Committee, as well as to the Board of Directors, with the purpose of providing security for the proper running of the business and to reach the objectives established in accordance with applicable laws and regulations, external policies, internal standards and procedures, in addition to codes of conduct and of self-regulation applicable.

Anti-Money Laundering/Combating the Financing of Terrorism and Corruption and Bribery

In Bradesco, the prevention and combat against illicit acts are exercised continuously and permanently, through the establishment of a process that aims to prevent and detect the improper use of its structure, of its products and services or of its processes.

Independent Validation of Models of Management and Measurement of Risks and Capital

Bradesco counts on an independent validation process, whose main objective is to verify if the models operate according to the objectives envisaged, as well as if its results are suitable for the uses for which they are intended. This validation occurs through the application of a rigorous testing program that deals with aspects of appropriateness of processes, governance and construction of models and their assumptions, where the results are reported to the managers, to the Internal Audit, to Committees of Internal Controls and Compliance and to the Integrated Management of Risks and Capital Allocation.

Information Security

The Information Security in the Organization is composed of a set of controls, represented by procedures, processes, organizational structures, policies, standards and information technology solutions.

It intends to meet the basic principles of information security related to confidentiality, integrity and availability.

The Management Bodies of the Organization are involved in decisions on Information Security, by means of a Security Commission and the Executive Committee of Corporate Security.

Integrated Management System

Bradesco adopts one of the most modern concepts of integration of organizational processes: the Integrated Management System – ERP.

This process is composed of policies, standards, procedures and specific systems, always in compliance with the legislation and regulations in force in Brazil and in the countries where we have Business Units, in addition to the adherence to the best market practices.

In view of these premises, the communication and training of Managers and Employees count on programs in a variety of formats, such as guidebooks, videos, distance and on-site courses and live lectures specific to areas in which they are required.

The Anti-Money Laundering and Combating the Financing of Terrorism – PLD/FT and the Prevention and Combat of Corruption and Bribery are supported, respectively, by the Executive Committee of PLD/FT and by the Ethical Conduct Committee, which evaluate quarterly the work developed and the need to align or enhance the existing process.

The suspicious or atypical cases of money laundering and financing of terrorism identified are forwarded to the Commission for the Evaluation of Suspicious Transactions, composed by several areas that assess the need to report to the Regulatory Agencies.

Bradesco also has whistle blowing channels, whose actions treated as violations are subject to the disciplinary measures applicable, regardless of the hierarchical level, and without prejudice to the legal penalties applicable.

The processes provided for were Human Resources, Training, Purchases of Materials and Services, Accounts Payable, Physical and Tax Receipt, Fixed Asset, Bank Accounting, Control of Availability, Management of Works, Maintenance, Real Estate and Audit. The continuous training of users of the tool is given through training in person and e-Learning.

The Integrated Management System provides for the standardization of processes, greater agility in the taking of decisions and security in the operations, minimization of operating costs and increased productivity.

12.3. Risk factors and Critical Accounting Policies

On the site bradesco.com.br/ri (Reports and Spreadsheets – SEC Reports) the risk factors and critical accounting policies are disclosed, in compliance with the best international practices of Corporate Governance and in line with the Consolidated Financial Statements. Here the international standards of financial report – IFRS as issued by the International Accounting Standards Board – IASB" are observed, related to possible political and economical situations in the national and international markets, which can directly impact the day to day operations and, consequently, the financial situation of the Bank.

13. Intangible Assets

On December 31, 2015, based on the price of its shares on the stock exchange, the Market Value of Bradesco reached R\$100.044 billion, equivalent to 1.1 times the Accounting Shareholders' Equity that was of R\$88.907 billion. This is a difference without doubt induced by the magnitude of intangibles, which, although not reflected in the balance sheet accounts, are perceived and evaluated by investors.

Around realistic goals, the entire strategic planning developed in the Organization relies on factors of varied nature, inseparable from Sustainability, such as: (i) the value of the Bradesco Brand; (ii) the best practices of corporate governance and corporate culture; (iii) the scale to be achieved in the business; (iv) the large number of existing relationship channels with different publics; (v) a policy of innovative Information Technology; (vi) broad diversification of products, services and solutions offered and the capillarity of the Service Network, present in the entire national territory and in some locations Abroad; (vii) a policy of dynamic and responsible socio-environmental responsibility; (viii) a robust policy of Human Resources that: a) provides the most solid relationship between all employees and, consequently, a higher level of confidence among them; b) signals opportunities of valuation and professional development; c) reduces, substantially, the index of staff turnover and the costs associated with it; and d) fomenting, at all levels, a long-term vision.

13.1. Bradesco Brand

In terms of Brand, Bradesco has obtained significant recognitions:

13.2. Human Resources

The Organização Bradesco, at the end of the financial year, counted on 92,861 employees, of whom 80,726 in Banco Bradesco and 12,135 in Affiliated Companies.

Guided on respect and transparency in all relations, its model of Human Resource Management is invariably guided by valuing people, without discrimination.

In this sense, UNIBRAD – Bradesco's Corporate University is highlighted, created as part of a broader strategy to evidence the individual skills of their employees, encouraging self-development and offering learning solutions.

In addition to these initiatives, there is the TreiNet, platform for online learning, which enables employees to gain new knowledge through distance learning. In 2015, there were 573,812 participations, which demonstrates its importance and level of dissemination throughout the national territory.

In the Organization, the internal communication also deserves special attention, that edits the magazine "Interação" and the "Sempre em Dia" daily bulletin, available electronically on the IntraNet. By means of announcements and provisions, employees receive information about the policies, guidelines and operational procedures that should be adopted. The Organization also counts on the Presidency's Blog, an internal and interactive channel for information and opinions, between the staff and the Presidency. TV Bradesco reinforces and extends communications actions, uniting it to the other media to make the content even more visible and dynamic.

13.3. Information Technology

One of the fundamental pillars of Bradesco, technology that becomes an increasingly more competitive differential.

R\$5.720 billion were the investments made in Infrastructure, Information Technology and Telecommunications, in 2015, as a necessary condition for its continuous growth.

14. Marketing

For the communication of Bradesco, the year 2015 was marked by the beginning of the countdown to the Rio 2016 Olympic Games, which have the Bank as official sponsor with exclusivity in the financial and insurance services categories.

With the motto "*Leve o espírito olímpico para sua vida*" ("Take the Olympic spirit into your life"), that permeated the institutional communication throughout the year, Bradesco sought to highlight Olympic and Paralympic values like friendship, respect, excellence, determination and courage, highlighting their importance in the day to day of people. Another action of great repercussion was the invitation that the Bank made to all Brazilians to appoint people that make a difference to participate in the Rio 2016 Olympic Torch Relay.

In the period, continuity was also given to the campaign Bradesco Celular, emphasizing the convenience and security of transactions using the application. Bradesco Prime and Bradesco Empresas (companies) and Negócios (business) segments gained new campaigns in various media in the country.

Traditionally, Bradesco has maintained the support to various cultural events that take place in Brazil. Events, such as the Carnival in Rio de Janeiro and in Salvador, Círio de Nazaré, in Belém, Semana Farroupilha, in Porto Alegre, Natal Luz, in Gramado, and Sonho de Natal, in Canela, among others.

In 2015, we celebrated 20 years of Internet in Brazil, and Bradesco was the first financial Institution in the country to join the global computer network. Two decades of pioneering spirit, innovation and presence in the life of the clients.

We have had important advances in the digital channels, both for Individuals, and for Legal Entities. We redesigned sites and services, we enabled financial transactions using the cell phone, with intuitive navigation and a modern look.

In order to provide self service and convenience, we have made progress in performing banking transactions without time restrictions, like, for example, the solution that allows you to deposit a check by capturing and sending the image to the Bank, on the cell phone, without the use of the physical card, creating a Digital Bradesco Seguros Portfolio, which offers virtual cards of its segments of operation.

Keeping the innovative spirit, we are starting the 2nd cycle of the open innovation program, known as inovaBRA, in partnership with startups, focused on creating new models of business, products and services.

Introduced in the year-end calendar in Rio, the Christmas Tree of Bradesco Seguros celebrated its 20th edition with the theme *The Christmas of Renewal*.

247 regional, sector-based and/or professional events throughout the country, including business fairs, seminars, congresses, cultural and community events, counted on the participation of Bradesco in 2015.

15. Sustainability in Organização Bradesco

Since its origins, Organização Bradesco is committed to the socio-economic development of the country. Seeking sustainability in management, in business and in the day to day practices. Thus, aiming to grow on a continuous and sustainable basis, with respect to the target audiences with which it relates, and the environment.

Bradesco Sports and Education Program

The Bradesco Esportes Program (Sports), in support of the development of citizenship and social inclusion of children and teenagers, for more than 27 years promotes sports training and practice, combining actions in health, education and well-being.

In the Municipal District of Osasco, SP, the Program has Qualification and Specialist Centers to teach the modalities of Women's Volleyball and Basketball in their own Sports Development Center, in the Fundação Bradesco schools, in Municipal Sports

Training (High School level); Youth and Adult Education; and Preliminary and Continuing Vocational Training, focused on creating jobs and income. The more than 42 thousand students of Basic Education were also ensured uniforms, school material, food and medical-dental assistance, free-of-charge.

In the modality of distance learning (EaD), through its e-Learning portal "*Escola Virtual*" (Virtual School), it benefited 592,424 students who concluded at least one of the courses offered in its schedule, besides another 22,990 in projects and actions in partnership with the CDIs (Centers of Digital Inclusion), the Program *Educa+Ação* and in courses of Technology (*Educar e Aprender* – Educating and Learning).

The Computer Program for the Visually Impaired, first introduced in 1998, has met and trained since then 12,403 students, promoting the social inclusion of thousands of people.

The Foundation has a positive influence on improving the quality of life of the communities in which it operates, which characterizes it as a "socially responsible investment", in the best sense of the term.

Centers, in a leisure club and in private schools. More than 2,000 girls are trained, from eight years of age, reinforcing the commitment to defend a country even more open to the appreciation of talent, effort and the exercise of citizenship.

Notes to the Consolidated Financial Statements

1) OPERATIONS

Banco Bradesco S.A. (Bradesco) is a private-sector publicly traded company and universal bank that through its commercial, foreign exchange, consumer financing and housing loan portfolios carries out all the types of banking activities that it is authorized to do so. The Bank is involved in a number of other activities, either directly or indirectly, through its subsidiaries, specifically leasing, investment banking, brokerage, consortium management, credit cards, real estate projects, insurance, pension plans and capitalization bonds. All these activities are undertaken by the various companies in the Organização Bradesco, working together in an integrated fashion in the market.

2) PRESENTATION OF THE CONSOLIDATED FINANCIAL STATEMENTS

Bradesco's consolidated financial statements include the financial statements for Banco Bradesco, its foreign branches and subsidiaries, in Brazil and overseas and SPEs (Special Purpose Entities). These statements were prepared using accounting practices in compliance with Laws No. 4,595/64 (Brazilian Financial System Law) and No. 6,404/76 (Brazilian Corporate Law), including amendments introduced by Laws No. 11,638/07 and No. 11,941/09, as they relate to the accounting for operations, complemented by the rules and instructions of the National Monetary Council (CMN) and the Brazilian Central Bank (Bacen), Brazilian Securities and Exchange Commission (CVM), where applicable, National Private Insurance Council (CNSP), Insurance Superintendence (Susep) and National Supplementary Healthcare Agency (ANS). The financial statements of the leasing companies included in the consolidated financial statements were prepared using the finance lease method, under which the book value of leased fixed assets less the residual value paid in advance.

In December 31, 2014 and in each quarter until September 30, 2015, the consolidated financial statements were prepared in accordance with the specific procedures established by Article 3 of the CMN Resolution No. 2,723/00, in force until March 31, 2015, and other provisions of the Accounting Plan of Financial Institutions – ("Cosif"), having as objective (i) to demonstrate the basis of information used by the Management to evaluate the performance and make decisions regarding the allocation of resources for investments and other purposes, among the companies of Organização Bradesco, as well as (ii) to maintain consistency based on information that was required by the regulator and already disclosed in previous periods. From December 31, 2015, for the preparation of these consolidated financial statements were applied, in addition to the provisions of the Accounting Plan of Financial Institutions – ("Cosif"), the consolidation procedures established by Technical Pronouncement CPC 36, which differ of certain criteria of consolidation used previously, although maintaining the same values of net income and shareholders' equity and without producing other relevant effects on the financial statements as a whole, whereby, for the

purpose of comparability, the balances of 2014, previously presented in Note 4 according to the CPC 23, are being presented again in the column "Balance Sheet and Statement of Managerial Income". The investment funds are consolidated where companies of the Organização Bradesco are the main beneficiaries or detain the main obligations. Intercompany transactions, including investments, assets and liabilities, revenue, expenses and unrealized profit were eliminated and net profit and shareholders' equity attributable to the non-controlling interests were accounted for in a separate line. Goodwill on the acquisition of investments in subsidiary/associate companies or jointly controlled entities is presented in the investments and intangible assets lines (Note 14a). The foreign exchange variation from foreign branches and, also, from investments, is presented in the income statement accounts used for changes in the value of the derivative financial instrument and borrowing and on-lending operations in order to offset these results with the hedges of these investments.

The financial statements include estimates and assumptions, such as: the calculation of estimated loan losses; fair value estimates of certain financial instruments; civil, tax and labor provisions; impairment losses of securities classified as available-for-sale and held-to-maturity securities and non-financial assets; the calculation of technical provisions for insurance, pension plans and capitalization bonds; and the determination of the useful life of specific assets. Actual results may differ from those based on estimates and assumptions.

3) SIGNIFICANT ACCOUNTING PRACTICES

a) Functional and presentation currencies

Consolidated financial statements are presented in Brazilian reais, which is also Bradesco's functional currency. Foreign branches and subsidiaries are mainly a continuation of activities in Brazil, and, therefore, assets, liabilities and profit or loss are translated into Brazilian reais using the appropriate currency exchange rate to comply with accounting practices adopted in Brazil. Foreign currency translation gains and losses arising are recognized in the period's income statement in the lines "Derivative Financial Instruments" and "Borrowing and On-lending".

b) Income and expense recognition

The result is calculated according to the regime of competence, which establishes that the revenues and expenses should be included in the calculation of the results for the periods in which they occur, always simultaneously when they are correlated, regardless of being a receipt or payment.

Fixed rate contracts are recorded at their redemption value with the income or expense relating to future periods being recorded as a deduction from the corresponding asset or liability. Finance income and costs are recognized daily on a pro-rata basis and calculated using the compounding method, except when they relate to discounted notes or to foreign transactions, which are calculated using the straight-line method.

Floating rate and foreign-currency-indexed contracts are adjusted for interest and foreign exchange rates applicable at the end of the reporting period.

Insurance and coinsurance premiums, net of premiums paid for coinsurance and related commissions, are recorded upon the issue of the related policies/certificates/endorsements and invoices, or upon the beginning of the exposure to risk in cases in which the risk begins before the issue, and recognized on a straight-line basis over the policies' effective period through the upfront recognition and subsequent reversal through the income statement of the unearned premium reserve and the deferred acquisition costs. Revenues from premiums and the corresponding deferred acquisition costs, relating to existing risk for which no policy has been issued, are recorded in the income statement at the beginning of the risk exposure, based on estimated figures.

Recognition of health insurance premiums commences with the effectiveness of the corresponding insurance policy, and is recognized in proportion to the portion of the term elapsed.

Income and expenses arising from Mandatory Insurance For Personal Injury Caused by Motor Vehicles (DPVAT) insurance operations are recorded based on information provided by Seguradora Líder dos Consórcios do Seguro DPVAT S.A.

Accepted coinsurance and retrocession operations are recorded based on the information received from other insurers and IRB - Brasil Resseguros S.A. (IRB), respectively.

Reinsurance operations are recorded based on the premium and claims information provided which is subject to the analysis of the re-insurers. The deductions of reinsurance premiums granted are consistent with the recognition of the corresponding insurance premium and/or terms of the reinsurance contract.

Acquisition costs, relative to the insurance commission, are deferred and recognized in profit or loss in proportion to the amount of premium recognized.

Contributions and agency fees are deferred and recognized in the income statement on a straight-line basis over a period of 24 months for health insurance operations, and 12 months for other operations.

Bradesco

Consolidated Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and Fiscal Council's Report

Notes to the Consolidated Financial Statements

Pension plan contributions and life insurance premiums with survival coverage are recognized in the income statement as they are received.

The revenue of the capitalization plans are recognized in the accounts in the month in which they are issued, according to the types of collection, which may be in monthly payments or in a single payment. Each security has a nominal value, which is restated monetarily by the Reference Rate (TR) + 0.5% interest per month. Technical provisions are recorded when the respective revenues are recognized.

The revenues with prescribed capitalization plans are recognized after the period of prescription, according to the Brazilian legislation, that is up to 20 years for securities and draws not redeemed until November 2003 and of five years after this date. The expenses for placement of capitalization bonds, classified as "Acquisition Costs", are recognized in the income statement as incurred.

c) Cash and cash equivalents

Cash and cash equivalents include: funds available in currency, investments in gold, securities sold under agreements to repurchase and interest-earning deposits in other banks, maturing in 90 days or less, which are exposed to insignificant risk of change in fair value. These funds are used by Bradesco to manage its short-term commitments.

Cash and cash equivalents detailed balances are presented in Note 5.

d) Interbank investments

Unrestricted repurchase and reverse repurchase agreements are stated at their fair value. All other interbank investments are stated at cost, plus income earned up to the end of the reporting period, net of

any devaluation allowance, if applicable.

The breakdown, terms and proceeds relating to interbank investments are presented in Note 6.

e) Securities – Classification

- Trading securities – securities acquired for the purpose of being actively and frequently traded. They are recorded at cost, plus income earned and adjusted to fair value with movements recognized in the Income Statement for the period;
- Available-for-sale securities – securities that are not specifically intended for trading purposes or to be held to maturity. They are recorded at cost, plus income earned, which is recorded in profit or loss in the period and adjusted to fair value with movements recognized in shareholders' equity, net of tax, which will be transferred to the Income Statement only when effectively realized; and
- Held-to-maturity securities – securities for which there is positive intent and financial capacity to hold to maturity. They are recorded at cost, plus income earned recognized in the Income Statement for the period.

Securities classified as trading and available-for-sale, as well as derivative financial instruments, are recognized in the consolidated statement of financial position at their fair value. Fair value is generally based on quoted market prices or quotations for assets or liabilities with similar characteristics. If market prices are not available, fair values are based on traders' quotations, pricing models, discounted cash flows or similar techniques to determine the fair value and may require judgment or significant estimates by Management.

Classification, breakdown and segmentation of securities are presented in Note 7 (a to c).

f) Derivative financial instruments (assets and liabilities)

Derivate instruments are classified based on the objective for which the underlying instrument was acquired at the date of purchase, taking into consideration its use for possible hedging purposes.

Operations involving derivative financial instruments are designed to meet the Bank's own needs in order to manage overall exposure, as well as to meet customer requests to manage their positions. The gains or losses are recorded in profit-and-loss and shareholders' equity accounts.

Economic and Financial Analysis Report – December 2015

Consolidated Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and Fiscal Council's Report

Notes to the Consolidated Financial Statements

Derivative financial instruments used to mitigate risk deriving from exposure to variations in the fair value of financial assets and liabilities are designated as hedges when they meet the criteria for hedge accounting and are classified according to their nature:

- Market risk hedge: the gains and losses, realized or not, of the financial instruments classified in this category as well as the financial assets and liabilities, that are the object of the hedge, are recorded in the Income Statement; and
- Cash flow hedge: the effective portion of valuation or devaluation of the financial instruments classified in this category is recorded, net of taxes, in a specific account in shareholders' equity. The ineffective portion of the hedge is recognized directly in the Income Statement.

A breakdown of amounts included as derivative financial instruments, in the balance sheet and off-balance-sheet accounts, is disclosed in Note 7 (d to g).

g) Loans and leasing, advances on foreign exchange contracts, other receivables with credit characteristics and allowance for loan losses

Loans and leasing, advances on foreign exchange contracts and other receivables with credit characteristics are classified by risk level, based on: (i) the parameters established by CMN Resolution No. 2,682/99, which requires risk ratings to have nine levels, from "AA" (minimum risk) to "H" (maximum risk); and (ii) Management's assessment of the risk level. This assessment, which is carried out regularly, considers current economic conditions and past experience with loan losses, as well as specific and general risks relating to operations, debtors and guarantors. Moreover, the days-past-due is also considered in the rating of customer risk as per CMN Resolution No. 2,682/99, as follows:

Past-due period (1)	Customer rating
• from 15 to 30 days	B
• from 31 to 60 days	C
• from 61 to 90 days	D
• from 91 to 120 days	E
• from 121 to 150 days	F
• from 151 to 180 days	G
• more than 180 days	H

(1) For transactions with terms of more than 36 months, past-due periods are doubled, as permitted by CMN Resolution No. 2,682/99.

Interest and inflation adjustments on past-due transactions are only recognized in the Income Statement up to the 59th day that they are past due. As from the 60th day, they are recognized in off-balance sheet accounts and are only recognized in the Income Statement when received.

H-rated past-due transactions remain at this level for six months, after which they are written-off against the existing allowance and controlled in off-balance-sheet accounts for at least five years.

Renegotiated transactions are held at the same rating as on the date of the renegotiation or classified in a higher risk rating. Renegotiations already written-off against the allowance and that were recorded in off-balance-sheet accounts, are rated as level "H" and any possible gains derived from their renegotiation are recognized only when they are effectively received. When there is a significant repayment on the operation or when new material facts justify a change in the level of risk, the operation may be reclassified to a lower risk category.

Consolidated Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and Fiscal Council's Report

Notes to the Consolidated Financial Statements

The estimated allowance for loan losses is calculated to sufficiently cover probable losses, considering CMN and Bacen standards and instructions, together with Management's assessment of the credit risk.

Type, values, terms, levels of risk, concentration, economic sector of client's activity, renegotiation and income from loans, as well as the breakdown of expenses and statement of financial position accounts for the allowance for loan losses are presented in Note 9.

h) Income tax and social contribution (assets and liabilities)

Income tax and social contribution deferred tax assets, calculated on income tax losses, social contribution losses and temporary differences, are recorded in "Other Receivables - Sundry" and the deferred tax liabilities on tax differences in leasing depreciation (applicable only for income tax), mark-to-market adjustments on securities, restatement of judicial deposits, among others, are recorded in "Other Liabilities - Tax and Social Security".

Deferred tax assets on temporary differences are realized when the difference between the accounting treatment and the income tax treatment reverses. Deferred tax assets on income tax and social contribution losses are realizable when taxable income is generated, up to the 30% limit of the taxable profit for the period. Deferred tax assets are recorded based on current expectations of realization considering technical studies and analyses carried out by Management.

The provision for income tax is calculated at 15% of taxable income plus a 10% surcharge. For financial companies, equated and of the insurance industry, the social contribution on the profit was calculated until August 2015, considering the rate of 15%. For the period between September 2015 and December 2018, the rate was changed to 20%, according to Law No. 13,169/15, returning to the rate of 15% as from January 2019. For the other companies, the social contribution is calculated considering the rate of 9%.

Due to the amendment of the rate, the Organização Bradesco constituted, in September 2015, a supplement to the tax credit of social contribution, considering the annual expectations of achievement and their respective rates in force in each period, according to the technical study conducted.

Provisions were recorded for other income tax and social contribution in accordance with specific applicable legislation.

Changes in the criteria to recognize revenue, costs and expenses included in the net profit for the period, enacted by Law No. 11,638/07 and subsequent amendments were made fiscally by the new regime of the taxation in force instituted by Law No. 12,973/14.

The breakdown of income tax and social contribution, showing the calculations, the origin and expected use of deferred tax assets, as well as unrecorded deferred tax assets, are presented in Note 33.

i) Prepaid expenses

Prepaid expenses consist of funds already disbursed for future benefits or services, which are recognized in the profit or loss on an accrual basis.

Incurred costs relating to assets that will generate revenue in subsequent periods are recorded in the Income Statement according to the terms and the amount of expected benefits and directly written-off in the Income Statement when the corresponding assets or rights are no longer part of the institution's assets or when future benefits are no longer expected.

In the case of the remuneration paid by the origination of credit operations to the banking correspondents related to credit operations originated during 2015, Bradesco opted to recognize 2/3 of the total value of compensation, pursuant to the provisions of Bacen Circular No. 3,738/14.

Prepaid expenses are shown in detail in Note 11b.

Notes to the Consolidated Financial Statements

j) Investments

Investments in unconsolidated and jointly subsidiaries, where Bradesco has significant influence over the investee or holds at least 20% of the voting rights, are accounted for using the equity method.

Tax incentives and other investments are stated at cost, less allowance for losses/impairment, where applicable.

Subsidiaries entities are consolidated – the composition of the main companies can be found in Note 2. The composition of unconsolidated and jointly subsidiaries, as well as other investments, can be found in Note 12.

k) Premises and equipment

Relates to the tangible assets used by the Bank in its activities, including those resulting from transactions that transfer risks, benefits and control of the assets to the Bank.

Premises and equipment are stated at acquisition cost, net of accumulated depreciation, calculated by the straight-line method based on the assets' estimated economic useful life, using the following rates: real estate – 4% per annum; installations, furniture, equipment for use, security systems and communications – 10% per annum; transport systems – 20% per annum; and data-processing systems – 20% to 50% per annum, and adjusted for impairment, when applicable.

The breakdown of asset costs and their corresponding depreciation, as well as the unrecorded surplus value for real estate and the fixed asset ratios, are presented in Note 13.

l) Intangible assets

Relates to the right over intangible assets used by the Bank in its activities.

Intangible assets comprise of:

- Future profitability/acquired client portfolio and acquisition of right to provide banking services: they are recorded and amortized over the period in which the asset will directly and indirectly contribute to future cash flows and adjusted for impairment, where applicable; and
- Software: stated at cost less amortization calculated on a straight-line basis over the estimated useful life (20% to 50% p.a.), from the date it is available for use and adjusted for impairment, where applicable. Internal software development costs are recognized as an intangible asset when it is possible to show the intent and ability to complete and use the software, as well as to reliably measure costs directly attributable to the intangible asset. These costs are amortized during the software's estimated useful life, considering the expected future economic benefits.

Intangible assets and the movement in these balances by class, are presented in Note 14.

m) Impairment

Financial and non-financial assets are tested for impairment.

Impairment evidence may comprise the non-payment or payment delay by the debtor, possible bankruptcy process or the significant or extended decline in an asset value.

An impairment loss of a financial or non-financial asset is recognized in the profit or loss for the period if the book value of an asset or cash-generating unit exceeds its recoverable value. Impairment losses are presented in Note 7c⁽⁸⁾, 13 and 14.

n) Securities sold under agreements to repurchase

These are recognized at the value of the liabilities and include, when applicable, related charges up to the end of the reporting period, calculated on a daily pro-rata basis.

Notes to the Consolidated Financial Statements

A breakdown of the contracts recorded in deposits and securities sold under agreements to repurchase, as well as terms and amounts recognized in the statement of financial position and income statement, is presented in Note 15.

o) Technical provisions relating to insurance, pension plans and capitalization bonds

- Damage, health and group insurance lines, except life insurance with survival coverage:
 - The unearned premium reserve (PPNG) is calculated on a daily pro-rata basis, using premiums net of coinsurance, but including amounts ceded through reinsurance, and is comprised of the portion corresponding to the remaining period of coverage less initial contracting costs, except for health and personal insurance. The portion of these reserves corresponding to the estimate for risks in effect but not yet contracted is designated 'PPNG-RVNE';
 - The unearned premium or contribution reserve (PPCNG) is calculated on a daily pro-rata basis based on the portion of health insurance premiums corresponding to the remaining period of coverage, of the currently effective contracts;
 - The mathematical reserve for unvested benefits (PMBaC) is calculated as the difference between the current value of future benefits and the current value of future contributions, on obligations already assumed by Bradesco;
 - The mathematical reserve for unvested benefits (PMBaC) relates to the individual health care plan portfolio and covers the risk related to the cover for the holder's dependents for five years following the death of the holder. It is calculated using a 5.2% annual discount rate, the time holders are expected to remain in the plan up to their death, and the projected costs of the five-year-period cover, excluding payment of premiums;

- For the health insurance, the mathematical reserve of benefits granted (PMBC) is constituted by the obligations arising from the contractual clauses of remission of installments in cash, regarding the coverage of health assistance and by the premiums through payment of insured persons participating in the Bradesco Saúde insurance - "GBS Plan", taking as a basis the present value of estimated future expenditure with the costs of health care of dependents of holders already deceased, as provided for in the ANS Normative Resolution No. 75/04, and considering a discount rate of 5.2% per annum;

- For the health insurance, the reserve for claims incurred but not reported (IBNR) is calculated from the final estimate of claims already incurred and still not reported, based on the run-off triangles, monthly that consider the historical development of claims advised in the last 12 months to establish a future projection per period of occurrence;

- For non-life insurance, the reserve for 'incurred but not reported' (IBNR) claims is calculated based on incurred but not paid' (IBNP) claims less the balance of the reserve for 'unsettled' claims (PSL) on the calculation date. A final estimate of IBNP is calculated using semi-annual run-off triangles. The run-off triangles consider the historical development of claims paid in the previous 14 half-year periods to determine a future projection per occurrence period, and considers the estimated claims 'incurred but not sufficient' reported (IBNER), reflecting the changing expectation of the amount provisioned along the regulatory process;

- For other life insurance, the reserve for 'incurred but not reported' (IBNR) claims is calculated based on incurred but not paid (IBNP) claims less the reserve for unsettled claims (PSL) on the calculation date. A final estimate of IBNP claims is calculated using semi-annual run-off triangles. The run-off triangles consider the historical development of claims paid in the previous 16 half-year periods to determine a future projection per occurrence period;

- The reserve for unsettled claims (PSL) considers all claim notifications received up to the end of the reporting period. The reserve is adjusted for inflation and includes all claims in litigation;

Consolidated Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and Fiscal Council's Report

Notes to the Consolidated Financial Statements

- For non-life insurance, the reserve for unsettled claims (PSL) is determined based on the indemnity payment estimates, considering all administrative and judicial claims existing at the reporting date, net of the expected payments to be received;
- The reserve for related expenses (PDR) is recorded to cover expenses related to estimated claims and benefits. For products structured in self-funding and partially regimes, the reserve covers claims incurred. For plans structured under a capitalization regime, the reserve is made to cover the expected expenses related to incurred claims and also claims expected to be incurred in the future;
- For damage insurance, the reserve for related expenses (PDR) is calculated on a monthly basis to cover the expenses related to indemnity payment, and it covers the expenses allocated individually to each claim, as well as expenses related to claims that have not been itemized, that is, those at the level of the portfolio;
- The reserve for redemptions and other amounts to be settled (PVR) comprises figures related to redemptions to settle, premium refunds owed and portability (transfer-outs) requested but not yet transferred to the recipient insurer;
- The reserve for technical surplus (PET) corresponds to the difference between the expected and the observed amounts for events in the period for personal insurance that have a technical surplus participation clause;
- The complementary reserve for coverage (PCC) refers to the amount necessary to complement technical provisions, as calculated in the Liability Adequacy Test (LAT), which is prepared using statistical and actuarial methods based on realistic assumptions, taking into account the biometric table BR-EMS of both genders, improvement of G Scale and forward interest rate curves (ETTJ) free from risk as authorized by SUSEP. The improvement rate is calculated from automatic updates of the biometric table, considering the expected increase in future life expectancy; and

- Other reserves are recorded for the individual health portfolio to address the differences between the expected present value of future premiums and the expected present value of indemnities and related expenses, using an annual discount rate of 5.2%.

- Pension plans and life insurance with survival coverage:
 - The unearned premium reserve (PPNG) is calculated on a daily prorated basis using net premiums, and is comprised of the portion corresponding to the remaining period of coverage and includes an estimate for risks covered but not yet issued (RVNE);

 - The mathematical reserve for unvested benefits (PMBaC) is recorded for participants who have not yet received any benefit. In defined benefit pension plans, the reserve represents the difference between the present value of future benefits and the present value of future contributions, corresponding to obligations in the form of retirement, disability, pension and annuity plans. The reserve is calculated using methodologies and assumptions set forth in the actuarial technical notes;

 - The mathematical reserve for unvested benefits (PMBaC) related to life insurance and unrestricted benefit pension plans (VGBl and PGBL), as well as the defined contribution plans, shows the value of participant contributions, net of costs and other contractual charges, plus income from investment in specially constituted investment funds (FIE);

 - The reserve for redemptions and other amounts to be settled (PVR) comprises figures related to redemptions to settle, premium refunds owed and portability requested but not yet transferred to the recipient insurer;

 - The mathematical reserve for vested benefits (PMBC) is recognized for participants already receiving benefits and corresponds to the present value of future obligations related to the payment of those on-going benefits;

Consolidated Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and Fiscal Council's Report

Notes to the Consolidated Financial Statements

- The complementary reserve for coverage (PCC) refers to the amount necessary to complement technical provisions, as calculated in the Liability Adequacy Test (LAT), which is prepared semi-annually using statistical and actuarial methods based on realistic assumptions, taking into account the biometric table BR-EMS of both genders, improvement of G Scale and forward interest rate curves (ETTJ) free from risk as authorized by SUSEP. The improvement rate is calculated from automatic updates of the biometric table, considering the expected increase in future life expectancy;

 - The reserve for related expenses (PDR) is recorded to cover expenses related to estimated claims and benefits. For products structured in self-funding and partially regimes, the reserve covers claims incurred. For plans structured under a capitalization regime, the reserve is made to cover the expected expenses related to incurred claims and also claims expected to be incurred in the future;

 - The reserve for financial surplus (PEF) corresponds to the portion of income from investment of reserves that exceeds the minimum returns due to policyholders of pension plans that have a profit share clause;

 - The reserve for incurred and not reported (IBNR) events is constituted for claims incurred but not reported and is based on run-off triangles, which consider the loss development of claims in the previous 96 months to set forth a future projection by occurrence period; and

 - The reserve for unsettled claims (PSL) considers all loss notices received up to the end of the reporting period. The provision is updated for inflation and includes all claims in litigation.
- Capitalization bonds:

- The mathematical reserve for capitalization bond (PMC) is recorded for each active or suspended capitalization bond over the term set forth in the general conditions of the plan, and is calculated using the capitalization percentage, applicable to each payments made, plus the monthly accrual calculated using the inflation index and the interest rate established in the plan until the bond is redeemed or canceled;

- The reserve for redemption (PR) comprises the values of matured and early-terminated capitalization bonds and is calculated by updating the balance of bonds whose terms have expired or canceled using the inflation index until the holder receives the redemption payment;

- Reserve for 'draws to be held' (PSR) is recorded to cover premiums for future prize draws, and the balance represents the present value of the draws that have already been funded but have not yet been held. The calculation methodology consists of the accumulation of the prize draw percentage applicable to each payment, as established in the plan, less the amounts related to prize draws that have already occurred. The percentages of payments designated for the prize draws is defined in advance in the actuarial technical note, and is not modified during the term of the bond;

- Reserve for draws payable (PSP) consists of the value of unpaid prize draw amounts, adjusted for inflation for the period between the date of the drawing and its effective settlement; and

- Reserve for administrative expense (PDA) is recorded to cover the cost of maintaining the single payment (PU) capitalization bonds.

Technical provisions shown by account, product and segment, as well as amounts and details of plan assets covering these technical provisions, are shown in Note 20.

p) Provisions, contingent assets and liabilities and legal obligations – tax and social security

Provisions, contingent assets and liabilities, and legal obligations, as defined below, are recognized, measured and disclosed in accordance with the criteria set out in CPC 25, approved by CMN Resolution No. 3,823/09 and CVM Resolution No. 594/09:

Consolidated Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and Fiscal Council's Report

Notes to the Consolidated Financial Statements

- **Contingent Assets:** these are not recognized in the financial statements, except to the extent that there are real guarantees or favorable judicial decisions, to which no further appeals are applicable, and confirmation of the capacity of the counterparty to pay or the ability of Bradesco to realize the asset via compensation against another liability upon which the gain is considered practically certain. Contingent assets with a chance of probable success are disclosed in the notes to the financial statements;
- **Provisions:** these are recorded taking into consideration the opinion of legal counsel, the nature of the lawsuits, similarity with previous lawsuits, complexity and positioning of the courts, whenever the loss is deemed probable, it requires a probable outflow of funds to settle the obligation and when the amount can be reliably measured;
- **Contingent Liabilities:** according to CPC 25, the term "contingent" is used for liabilities that are not recognized because their existence will only be confirmed by the occurrence of one or more uncertain future events beyond Management's control. Contingent liabilities do not meet the criteria for recognition because they are considered as possible losses should only be disclosed in the notes when relevant. Obligations deemed remote are not recorded as a provision nor disclosed; and
- **Legal Obligations – Provision for Tax Risks:** results from judicial proceedings, which contest the applicability of tax laws on the grounds of legality or constitutionality, which, regardless of the assessment of the probability of success, are fully provided for in the financial statements.

Details on lawsuits, as well as segregation and changes in amounts recorded, by type, are presented in Note 17.

q) Funding expenses

Expenses related to funding transactions involving the issuance of securities reduce the corresponding liability and are recognized in the profit or loss over the term of the transaction. They are presented in

Notes 15c and 18.

r) Other assets and liabilities

Assets are stated at their realizable amounts, including, when applicable, related income and inflation and exchange variations (on a daily prorated basis), less provision for losses, when deemed appropriate. Liabilities include known or measurable amounts, including related charges and inflation and exchange variations (on a daily prorated basis).

s) Subsequent events

These refer to events occurring between the reporting date and the date the financial statements are authorized to be issued.

They comprise the following:

- Events resulting in adjustments: events relating to conditions already existing at the end of the reporting period; and
- Events not resulting in adjustments: events relating to conditions not existing at the end of the reporting period.

Subsequent events, if any, are described in Note 34.

Consolidated Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and Fiscal Council's Report

Notes to the Consolidated Financial Statements

- (1) Consistent with the criteria in Bacen Circular Letter No. 3,068/01 and due to the characteristics of the securities, we are classifying the derivative financial instruments, except those considered as cash flow hedges in the category Trading Securities;
- (2) In compliance with Article 8 of Bacen Circular Letter No. 3,068/01, Bradesco declares that it has the financial capacity and intention to maintain held-to-maturity securities until their maturity dates. The mark-to-market of securities, which were transferred from the category "Securities Available for Sale" to the category of "Securities Held to Maturity", in June 2015 and in December 2013, was maintained in the shareholders' equity and will be recognized in the results for the remaining term of these securities, according to Bacen Circular No. 3,068/01;
- (3) The number of days to maturity was based on the contractual maturity of the instruments, regardless of their accounting classification;
- (4) This column reflects book value after mark-to-market accounting in accordance with item (5), except for securities classified as securities held to maturity, which fair value is less than the original amortized cost by R\$1,389,530 thousand (higher than amortized cost value to the amount of R\$2,070,497 thousand in 2014);
- (5) The fair value of securities is determined based on the market price available at the end of the reporting period. If no market price quotation is available at the end of the reporting period, amounts are estimated based on the prices quoted by dealers, pricing models, quotation models or price quotations for instruments with similar characteristics. For investment funds, the original amortized cost reflects the fair value of the respective quotas;
- (6) Includes hedge for protection of assets and liabilities, denominated in or indexed to foreign currency, primarily, arising from foreign investments, eliminating the effects of exchange variation of these assets and liabilities. For a better analysis of these items, consider the net exposure (Note 7d II);
- (7) In March 2015, there was a modification in the calculation method of the market capitalization of debentures, using market parameters (Brazilian Association of Entities of the Financial and Capital Markets – Anbima); and
- (8) In the period ended December 31, 2015, there were losses through impairment in the amount of R\$424,522 thousand, related to the heading "Variable Income Securities", classified in the category "Securities Available for Sale" (R\$1,214,770 thousand on December 31, 2014).

d) Derivative financial instruments

Bradesco carries out transactions involving derivative financial instruments, which are recorded in the statement of financial position or in off-balance-sheet accounts, to meet its own needs in managing its global exposure, as well as to meet its customer's requests, in order to manage their exposure. These operations involve a range of derivatives, including interest rate swaps, currency swaps, futures and options. Bradesco's risk management policy is based on the utilization of derivative financial instruments mainly to mitigate the risks from operations carried out by the Bank and its subsidiaries.

Securities classified as trading and available-for-sale, as well as derivative financial instruments, are recognized in the consolidated statement of financial position at their fair value. Fair value is generally based on quoted market prices or quotations for assets or liabilities with similar characteristics. Should market prices not be available, fair values are based on dealer quotations, pricing models, discounted cash flows or similar techniques for which the determination of fair value may require judgment or significant estimates by Management.

Quoted market prices are used to determine the fair value of derivative financial instruments. The fair value of swaps is determined by using discounted cash flow modeling techniques that use yield curves, reflecting adequate risk factors. The information to build yield curves is mainly obtained from the Securities, Commodities and Futures Exchange (BM&FBOVESPA) and the domestic and international secondary market. These yield curves are used to determine the fair value of currency swaps, interest rate and other risk factor swaps. The fair value of forward and futures contracts is also determined based on market price quotations for derivatives traded at the exchange or using methodologies similar to those outlined for swaps. The fair values of credit derivative instruments are determined based on market price quotation or from specialized entities. The fair value of options is determined based on mathematical models, such as Black & Scholes, using yield curves, implied volatilities and the fair value of corresponding assets. Current market prices are used to calculate volatility.

Derivative financial instruments in Brazil mainly refer to swaps and futures and are registered at the OTC Clearing House (Cetip) and BM&FBOVESPA.

Operations involving forward contracts of interest rates, indexes and currencies are contracted by Management to hedge Bradesco's overall exposures and to meet customer needs.

Foreign derivative financial instruments refer to swap, forward, options, credit and futures operations and are mainly carried out at the stock exchanges in Chicago and New York, as well as the over-the-counter (OTC) markets.

e) Credit Default Swaps (CDS)

On December 31, 2015, Bradesco had credit default swaps (CDS) with the following characteristics: the risk received in credit swaps whose underlying assets are “derivative with companies” is R\$136,668 thousand (2014 – (i) the amount of risk transferred under credit swaps whose underlying assets are “securities – securities of foreign government debt” is negative R\$1,326,900 thousand; and (ii) the risk received in credit swaps whose underlying assets are “derivative with companies” is R\$13,281 thousand, amounting to a total net credit risk value of negative R\$1,313,619 thousand), with an effect on the calculation of required shareholders’ equity of negative R\$15,033 thousand (R\$71,519 thousand in 2014). The contracts related to credit derivatives transactions described above are due in 2020. The mark-to-market of the protection rates that remunerates the counterparty that received the risk totaled R\$42 thousand. There were no credit events, as defined in the agreements, during the period.

f) Cash flow hedge

Bradesco uses cash flow hedges to protect its cash flows from payment of interest rates on funds, which have a floating interest rate - the Interbank Deposit Rate (DI Cetip), thus converting them to fixed cash flows.

Bradesco _____

Consolidated Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and Fiscal Council's Report

Notes to the Consolidated Financial Statements

Bradesco has traded DI Future contracts on BM&FBOVESPA since 2009, using them as cash flow hedges totaling R\$20,038,119 thousand (R\$21,107,308 thousand in 2014), having as object of hedge captures linked to DI, totaling R\$20,334,375 thousand (R\$19,969,423 thousand in 2014). The adjustment to market value of these operations recorded in the net worth is R\$4,552 thousand (R\$311,683 thousand in 2014), net of tax effects is R\$2,731 thousand (R\$187,010 thousand in 2014).

The effectiveness of the hedge portfolio was assessed in accordance with Bacen Circular Letter No. 3,082/02.

g) Hedge against market risk

Bradesco constituted a hedge against market risk, using futures contracts, which generated R\$1,406,154 thousand, for protection against the effects of the exchange rate variation of the firm commitment concerning the purchase and sale of shares agreement (Note 34e), which produced an adjustment to the market value of (R\$1,761,964 thousand). The effect of these operations recorded a revenue of (R\$355,810 thousand).

The effectiveness of the hedge portfolio was assessed in accordance with Bacen Circular Letter No. 3,082/02.

17) PROVISIONS, CONTINGENT ASSETS AND LIABILITIES AND LEGAL LIABILITIES – TAX AND SOCIAL SECURITY**a) Contingent assets**

Contingent assets are not recognized in the financial statements. However, there are ongoing proceedings where the chance of success is considered probable, such as: a) Social Integration Program (PIS), claiming to offset PIS against Gross Operating Income, paid under Decree-Laws No. 2,445/88 and No. 2,449/88, regarding the payment that exceeded the amount due under Supplementary Law No. 07/70 (PIS Repique); and b) other taxes, the legality and/or constitutionality of which is being challenged, where the decision may lead to reimbursement of amounts paid.

b) Provisions classified as probable losses and legal obligations – tax and social security

Organização Bradesco is a party to a number of labor, civil and tax lawsuits, arising from the normal course of business.

Management recorded provisions where, based on their opinion and that of their legal counsel, the nature of the lawsuit, similarity to previous lawsuits, complexity and the courts standing, the loss is deemed probable.

Management considers that the provision is sufficient to cover the future losses generated by the respective lawsuits.

Provisions related to legal obligations are maintained until the conclusion of the lawsuit, represented by judicial decisions with no further appeals or due to the statute of limitation.

I - Labor claims

These are claims brought by former employees and outsourced employees seeking indemnifications, most significantly for unpaid "overtime", pursuant to Article 224 of the Consolidation of Labor Laws (CLT). In proceedings in which a judicial deposit is used to guarantee the execution of the judgment, the labor provision is made considering the estimated loss of these deposits. For proceedings with similar characteristics and not judged, the provision is recorded based on the average calculated value of payments made for labor complaints settled in the past 12 months; and for proceedings originating from acquired banks, with unique characteristics, the calculation and assessment of the required balance is conducted periodically, based on the updated recent loss history.

Bradesco _____

Consolidated Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and Fiscal Council's Report

Notes to the Consolidated Financial Statements

Overtime is monitored by using electronic time cards and paid regularly during the employment contract and, accordingly, the claims filed by former employees do not represent significant amounts.

II - Civil claims

These are claims for pain and suffering and property damages, mainly relating to protests, returned checks, the inclusion of information about debtors in the credit restriction registry and the replacement of inflation adjustments excluded as a result of government economic plans. These lawsuits are individually controlled using a computer-based system and provisioned whenever the loss is deemed as probable, considering the opinion of Management and their legal counsel, the nature of the lawsuits, similarity with previous lawsuits, complexity and positioning of the courts.

Most of these lawsuits are brought to the Special Civil Court (JEC), in which the claims are limited to 40 times the minimum wage and do not have a significant impact on Organização Bradesco's financial position.

There are a significant number of legal claims pleading alleged differences in adjustment for inflation on savings account balances due to the implementation of economic plans that were part of the federal government's economic policy to reduce inflation in the '80s and '90s.

Although Bradesco complied with the law and regulation in force at the time, these lawsuits have been recorded in provisions, taking into consideration the claims where the Bank is the defendant and the perspective of loss, which is considered after the analysis of each demand, based on the current decision of the Superior Court of Justice (STJ).

Note that, regarding disputes relating to economic plans, the Federal Supreme Court (STF) suspended the prosecution of all lawsuits at the cognizance stage, until the Court issues a final decision on the right under litigation.

III - Legal obligations – provision for tax risks

The Organização Bradesco is disputing the legality and constitutionality of certain taxes and contributions in court, for which provisions have been recorded in full, although there is a good chance of a favorable outcome, based on the opinion of Management and their legal counsel. The processing of these legal obligations and the provisions for cases for which the risk of loss is deemed as probable is regularly monitored in the legal court. During or after the conclusion of each case, a favorable outcome may arise for the Organization, resulting in the reversal of the related provisions.

The main cases are:

- PIS and COFINS – R\$2,115,466 thousand (R\$1,818,412 thousand in 2014): a request for authorization to calculate and pay PIS and COFINS based on effective billing, as set forth in Article 2 of Supplementary Law No. 70/91, removing from the calculation base the unconstitutional inclusion of other revenues other than those billed;
- INSS Autonomous Brokers – R\$1,794,380 thousand (R\$1,531,540 thousand in 2014): discussing the charging of social security contribution on remunerations paid to third-party service providers, established by Supplementary Law No. 84/96 and subsequent regulations/amendments, at 20.0% with an additional 2.5%, on the grounds that services are not provided to insurance companies but to policyholders, thus being outside the scope of such a contribution as provided for in item I, Article 22 of Law No. 8,212/91, as new wording in Law No. 9,876/99;
- IRPJ/CSLL on losses of credits – R\$1,880,905 thousand (R\$2,059,542 thousand in 2014): we are requesting to deduct from income tax and social contributions payable (IRPJ and CSLL, respectively) amounts of actual and definite loan losses related to unconditional discounts granted during collections, regardless of compliance with the terms and conditions provided for in Articles 9 to 14 of Law No. 9,430/96 that only apply to temporary losses;

Consolidated Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and Fiscal Council's Report

Notes to the Consolidated Financial Statements

- PIS – EC 17/97 - R\$233,597 thousand (R\$321,748 thousand in 2014): for the period from July 1997 to February 1998, request to calculate and pay PIS contributions as established by LC 07/70 (PIS Repique) and not as established by EC 17/97 (PIS on Gross Operating Income);
- PIS – R\$325,932 thousand (R\$320,067 thousand in 2014): we are requesting the authorization to offset overpaid amounts in 1994 and 1995 as PIS contribution, corresponding to the surplus paid over that calculated on the tax base established in the Constitution, i.e., gross operating income, as defined in the income tax legislation (set out in Article 44 of Law No. 4,506/64), which excludes interest income; and
- Pension Contributions – R\$1,080,640 thousand (R\$484,960 thousand in 2014): official notifications related to the pension contributions on financial contributions in private pension plans, considered by the audit as compensatory sums subject to the incidence of such financial contributions and isolated fine for not withholding tax of the IRRF on the related financial contributions.

- (3) Mainly include legal liabilities.

c) Contingent liabilities classified as possible losses

The Organização Bradesco maintains a system to monitor all administrative and judicial proceedings in which the institution is plaintiff or defendant and, based on the opinion of legal counsel, classifies the lawsuits according to the expectation of loss. Case law trends are periodically analyzed and, if necessary, the related risk is reclassified. In this respect, contingent lawsuits deemed to have a possible risk of loss are not recorded as a liability in the financial statements. The main proceedings in this category are the following: a) leasing companies' Tax on Services of any Nature (ISSQN), total lawsuits correspond to R\$1,910,629 thousand (R\$1,840,272 thousand in 2014) which relates to the municipal tax demands from municipalities other than those in which the company is located and where, under law, tax is collected; b) 2006-2010 income tax and social contribution, relating to goodwill amortization being disallowed on the acquisition of investments, for the amount of R\$5,194,055 thousand (R\$4,264,479 thousand in 2014); c) IRPJ and CSLL deficiency notice relating to the disallowance of loan loss deductions, for the amount of R\$1,200,403 thousand (R\$1,034,018 thousand in 2014); d) IRPJ and CSLL deficiency note relating to disallowance of exclusions of revenues from the mark-to-market of securities from 2007 to 2010, and differences in depreciation and operating expenses and income, amounting to R\$908,915 thousand (R\$1,226,665 thousand in 2014); and e) IRPJ and CSLL deficiency note, amounting to R\$421,035 thousand (R\$378,664 thousand in 2014) relating to profit of subsidiaries based overseas, for the calendar years of 2008 and 2009.

Notes to the Consolidated Financial Statements

For 2015, the maximum amount of R\$349,900 thousand was set for Management compensation and R\$353,050 thousand to finance defined contribution pension plans.

The current policy on Management compensation sets forth that 50% of net variable compensation, if any, must be allocated to the acquisition of preferred shares of Banco Bradesco S.A., which vest in three equal, annual and successive installments, the first of which is in the year following the payment date. This procedure complies with CMN Resolution No. 3,921/10, which sets forth a management compensation policy for financial institutions.

Sensitivity analysis

The Trading Portfolio is also monitored through daily sensitivity analyses that measure the effect of movements of market and price curves on our positions. Furthermore, a sensitivity analysis of the Organization's financial exposures (Trading and Banking Portfolio) is performed on a quarterly basis, in compliance with CVM Rule No. 475/08.

Note that the impact of the financial exposure on the Banking Portfolio (notably interest rates and price indexes) do not necessarily represent a potential accounting loss for the Organization because a portion of loans held in the Banking Portfolio are financed by demand and/or savings deposits, which are "natural hedges" for future variations in interest rates, moreover, interest rate variations do not represent a material impact on the Institution's result, as Loans are held to maturity. In addition, due to our strong presence in the insurance and pension plan market, Bradesco holds a large volume of assets on which price

adjustments would also have an offsetting impact on the linked technical provisions.

The sensitivity analysis of the Trading Portfolio, which represents exposures that may have a material impact on the Organization's results, is presented below. Note that results show the impact for each scenario on a static portfolio position. However, the market is highly dynamic which results in continuous changes in these positions. Moreover, as previously mentioned, the Organization has an ongoing process of market risk management, which constantly seeks to adjust positions to mitigate related risks according to the strategy determined by Senior Management. Therefore, where there are indicators of deterioration in a certain positions, proactive measures are taken to minimize any potential negative impact and maximize the risk/return ratio for the Organization.

Sensitivity analyses were carried out based on scenarios prepared at the respective dates, always considering market data at the time and scenarios that would adversely affect our positions, according to the examples below:

Scenario 1: Based on market information (BM&FBOVESPA, Anbima, etc.), stresses were applied for 1 basis point on the interest rate and 1.0% variation on prices. For example: for a Real/US dollar exchange rate of R\$3.97 a scenario of R\$4.00 was used, while for a 1-year fixed interest rate of 15.87%, a 15.88% scenario was applied;

Scenario 2: 25.0% stresses were determined based on market information. For example: for a Real/US dollar exchange rate of R\$3.97 a scenario of R\$4.96 was used, while for a 1-year fixed interest rate of 15.87%, a 19.83% scenario was applied. The scenarios for other risk factors also accounted for 25.0% stresses in the respective curves or prices; and

Scenario 3: 50.0% stresses were determined based on market information. For example: for a Real/US dollar quote of R\$3.97 a scenario of R\$5.95 was used, while for a 1-year fixed interest rate of 15.87%, a 23.80% scenario was applied. The scenarios for other risk factors also account for 50.0% stresses in the respective curves or prices.

a) Capital Management

The primary objective of the Capital Management structure is to provide the necessary conditions for a continuous process of capital assessment, monitoring and control, contributing to the achievement of the Organization's strategic objectives. It considers the current business environment and a prospective and consistent vision for capital adequacy planning. This structure is composed of the Statutory, Non-Statutory

and Executive Committees that assist the Board of Directors and the Board of Executive Officers in decision making.

The internal process of assessing capital adequacy is carried out so as to ensure that the Organization has a Reference Equity base composition to support the development of activities and provide sufficient protection against risks, whether in normal or in extreme market conditions, as well as meeting managerial and regulatory requirements in relation to capital management.

Determination of the fair value of financial instruments:

- Securities and derivative financial instruments, investments, subordinated debts and treasury shares are based on the market price at the reporting date. If no quoted market price is available, amounts are estimated based on the dealer quotations, pricing models, quotation models or quotations for instruments with similar characteristics;
- Fixed rate loans were determined by discounting estimated cash flows, using interest rates applied by the Organização Bradesco for new contracts with similar features. These rates are consistent with the market at the reporting date; and

- Time deposits, funds from issuance of securities, borrowing and on lending were calculated by discounting the difference between the cash flows under the contract terms and our prevailing market rates for the same product at the reporting date.

32) EMPLOYEE BENEFITS

Bradesco and its subsidiaries sponsor a private defined contribution pension for employees and directors, that allows financial resources to be accumulated by participants throughout their careers by means of employee and employer contributions and invested in an Exclusive Investment Fund (FIE). The Plan is managed by Bradesco Vida e Previdência S.A. and BRAM – Bradesco Asset Management S.A. DTVM is responsible for the financial management of the FIEs funds.

The Supplementary Pension Plan counts on contributions from employees and administrators of Bradesco and its subsidiaries equivalent to at least 4% of the salary by employees and 5% of the salary, plus the percentage allocated to covers of risk benefits (invalidity and death), by the company. Actuarial obligations of the defined contribution plan are fully covered by the plan assets of the corresponding FIE. In addition to the plan, in 2001, participants who chose to migrate from the defined benefit plan are guaranteed a proportional deferred benefit, corresponding to their accumulated rights in that plan. For the active participants, retirees and pensioners of the defined benefit plan, in extinction, the present value of the actuarial obligations of the plan is completely secured by collateral assets.

Banco Alvorada S.A. (successor from the spin-off of Banco Baneb S.A.) maintains defined contribution and defined benefit retirement plans, through Fundação Baneb de Seguridade Social - Bases (related to the former employees of Baneb).

Banco Bradesco's sponsors both defined benefit and defined contribution retirement plans, through Caixa de Assistência e Aposentadoria dos Funcionários do Banco do Estado do Maranhão (Capof), especially to employees originating from Banco BEM S.A.

Bradesco sponsors a defined benefit plan through Caixa de Previdência Privada do Banco do Estado do Ceará (Cabec), exclusively for former employees of Banco BEC S.A.

In accordance with CPC 33 (R1) – Benefits to Employees, approved by CVM Resolution No. 600/09, Bradesco and its subsidiaries, as sponsors of these plans, considering the economic and actuarial study, have calculated their actuarial commitments using real interest rate and recognize in their financial statements the obligation due. The resources guaranteeing the pension plans are invested in accordance with the relevant legislation (public and private securities, shares of listed companies and properties). Follow the main assumptions used by the independent actuary in the actuarial assessment of our plans, based on CPC 33 (R1):

Risk factors	2015
Nominal discount rate	12.73% p.a.
Nominal rate of minimum expected return on assets	12.73% p.a.
Nominal rate of future salary increases	5.00% p.a.
Nominal growth rate of social security benefits and plans	5.00% p.a.
Inflation rate	5.00% p.a.
Biometric table of overall mortality	AT2000
Biometric table of entering disability	By Plan
Expected turnover rate	-
Probability of entering retirement	100% in 1st eligibility to a benefit by the plan 100% in

Considering the above assumptions, in accordance with CPC 33 (R1), the present value of the actuarial obligations of the benefit plans and of its assets to cover these obligations, on December 31, 2015, represented: (i) Net assets of the plan – R\$1,047,782 thousand (2014 – R\$1,070,636 thousand); (ii) Actuarial liabilities – R\$1,162,005 thousand (2014 – R\$1,182,761 thousand); and (iii) Insufficiency of R\$114,223 thousand (2014 – insufficiency of R\$112,125 thousand).

The table below, of sensitivity analysis of the obligations of the benefit plans, demonstrates the impact on the actuarial exposure (12.73% p.a.) by the amendment of the premise in the discount rate in 1 p.p.:

Notes to the Consolidated Financial Statements

Discount rate	Sensitivity Analysis	Effect on actuarial liabilities	Effect on the present value of the obligations
13.73%	Increase of 1 p.p.	reduction	(96,511)
11.73%	Reduction of 1 p.p.	increase	117,947

Bradesco, in its offices abroad, provides pension plans for its employees and administrators, in accordance with the standards established by the local authorities, which allows the accrual of financial resources during the professional career of the participant.

Expenses related to contributions made in the year ended December 31, 2015, totaled R\$606,245 thousand (R\$618,604 thousand in 2014).

In addition to this benefit, Bradesco and its subsidiaries offer other benefits to their employees and administrators, including health insurance, dental care, life and personal accident insurance, and professional training. These expenses, including the aforementioned contributions, totaled R\$3,163,517 thousand in the year ended December 31, 2015 (R\$2,949,691 thousand in 2014).

c) As part of the convergence process with international accounting standards, the Brazilian Accounting Pronouncements Committee (CPC) issued several accounting pronouncements, as well as their interpretations and guidelines, which are applicable to financial institutions only after approval by CMN. The accounting standards which have been approved by CMN include the following:

- Resolution No. 3,566/08 – Impairment of Assets (CPC 01);
- Resolution No. 3,604/08 – Statement of Cash Flows (CPC 03);
- Resolution No. 3,750/09 – Related Party Disclosures (CPC 05);
- Resolution No. 3,823/09 – Provisions, Contingent Liabilities and Contingent Assets (CPC 25);
- Resolution No. 3,973/11 – Subsequent Event (CPC 24);
- Resolution No. 3,989/11 – Share-based Payment (CPC 10);

- Resolution No. 4,007/11 – Accounting Policies, Changes in Estimates and Error Correction (CPC 23);
- Resolution No. 4,144/12 – Conceptual Framework for Preparing and Presenting Financial Statements; and
- Resolution No. 4,424/15 – Employee Benefits (CPC 33 – shall take effect as from January 2016).

Presently, it is not possible to estimate when the CMN will approve the other CPC pronouncements or if they will be applied prospectively or retrospectively.

CMN Resolution No. 3,786/09 and Bacen Circular Letters No. 3,472/09 and No. 3,516/10 establish that financial institutions and other entities authorized by Bacen to operate, which are publicly-held companies or which are required to establish an Audit Committee shall, since December 31, 2010, annually prepare and publish in up to 90 days after the reference date of December 31 their consolidated financial statements, prepared under the International Financial Reporting Standards (IFRS), in compliance with standards issued by the International Accounting Standards Board (IASB).

As required by CMN Resolution, on March 31, 2015, Bradesco published its consolidated financial statements for December 31, 2013 and 2014 on its website, in accordance with IFRS standards. The net profit and shareholders' equity of the financial statements disclosed in IFRS were not substantially different from those presented in the financial statements prepared in accordance with the accounting practices adopted in Brazil and applicable to institutions authorized to operate by the Brazilian Central Bank (Bacen). The financial statements in IFRS are being prepared and will be disclosed during the first quarter of 2016.

Notes to the Consolidated Financial Statements

d) In the fourth quarter of 2015, the Brazilian Central Bank has changed some rules of compulsory collection on resources at sight, in installments and of savings. These are the main changes:

Description	Previous Rule	Current Rule
At sight resources	The basis for calculation of the liability of the compulsory payment corresponded to the average of the amounts subject to the payment established in the calculation period, deducted from R\$44 million. There was no time limit determined for the deductions of financing contracted in fulfilling the liability of the compulsory payment.	The deduction was then limited to R\$70 million, from December 14, 2015, for the Financial Institutions that are in group "A" and from December 7, 2015 the ones in group "B". The deductions of financing contracted from December 16, 2015 can be made only until July 23, 2019.
Time Resources	The time deposits captured in operations of financial assistance or support of liquidity with funds or other mechanisms constituted by the financial institutions integrated the value subject to the compulsory payment.	The liability of the compulsory payment for this type of resource captured was extinct from the calculation period of December 7 to 11, 2015.
Resources from savings deposits		The lines of credit for projects covered by PAC - the Growth Acceleration Program in the period from December 16, 2015 to July 31, 2016 may be deducted up to 15% of the limit established for reduction of the liability.

e) On August 3, 2015, Bradesco informed the market that it had signed the Purchase and Sale of Shares Agreement with HSBC Latin America Holdings Limited for the acquisition of 100% of the share capital of HSBC Bank Brasil S.A. - Banco Múltiplo and HSBC Serviços e Participações Ltda. ("HSBC"), for the value of US\$5.2 billion. The price shall be adjusted by the equity variation of HSBC as per 12.31.2014 and will be paid on the date of completion of the operation. With the acquisition, Bradesco will assume all operations of HSBC in Brazil, including retail, insurance and asset management, as well as all the branches and clients.

In January 2016, Bradesco communicated to the market that the Central Bank approved the acquisition of 100% of the capital share of HSBC Bank Brasil S.A. – Banco Múltiplo and of HSBC Serviços e Participações Ltda (“HSBC”). The conclusion of the operation is subject to approval by the other competent regulatory agencies and fulfillment of the legal formalities.

f) In January 2016, Bradesco signed a non-binding Memorandum of Understanding with Banco do Brasil S.A., Banco Santander (Brasil) S.A., Caixa Econômica Federal and Itaú Unibanco S.A., in order to create a holding company of credit intelligence ("GIC"), which will develop a database with the goal of adding, reconciling and handling database and credit-related information, of individuals and legal entities, which expressly authorize their inclusion in the database, as required by the applicable rules.

g) There were no subsequent events that need to be adjusted or disclosed in the individual financial statements as of December 31, 2015.

Consolidated Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and Fiscal Council's Report

Independent Auditors' Report on the Financial Statements

To the Board of Directors and Shareholders

Banco Bradesco S.A.

Osasco – SP

We have audited the accompanying consolidated financial statements of Banco Bradesco S.A. (“Bradesco”), which comprise the consolidated statement of financial position as at December 31, 2015, the statements of income, changes in equity and cash flows for the year then ended, and notes, comprising a summary of significant accounting policies and other explanatory information.

Management’s Responsibility for the Financial Statements

Bradesco’s Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting practices adopted in Brazil applicable to institutions authorized to operate by the Brazilian Central Bank and for such internal control as management determines is necessary to enable the preparation of the financial statements that are free from material misstatement, whether due to fraud or error.

Independent Auditors’ responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Brazilian and International Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors’ judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, we consider internal controls relevant to the Bradesco’s preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Bradesco’s

internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements taken as a whole.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements, above mentioned, present fairly, in all material respects, the consolidated financial position of Banco Bradesco S.A., as at December 31, 2015, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with accounting practices adopted in Brazil applicable to institutions authorized to operate by the Brazilian Central Bank.

Audit Committee Report Summary of Banco Bradesco S.A.

Corporate Governance and the Respective Responsibilities

The Board of Directors of Banco Bradesco S.A. has opted for a single Audit Committee for all of the companies that are members of the Financial Conglomerate, including those in Grupo Bradesco Seguros.

The Audit Committee is a statutory advisory body, associated directly to the Board of Directors. It is currently composed of one board member and two more members, appointed each year by the Board of Directors, which takes into account the criteria set out in the applicable laws and regulations.

The Board is responsible for the definition and implementation of processes and procedures in order to collect data for the preparation of the financial statements of the companies that make up Organização Bradesco, as well as financial reports, in compliance with the accounting practices adopted in Brazil, applicable to institutions authorized to operate by the Brazilian Central Bank, and to the standards of the National Monetary Council, the Brazilian Central Bank, the Brazilian Securities Commission – CVM, the National Council of Private Insurance – CNSP, the Superintendency of Private Insurance – Susep and the National Supplementary Health Agency – ANS, as well as the International Accounting Standards – IFRS.

The Board is also responsible for processes, policies and internal control procedures to ensure the safeguarding of assets, the timely recognition of liabilities and the mitigation to acceptable levels of risk factors of Organização Bradesco.

The Independent Audit is responsible for reviewing the financial statements and issuing a report on their

The Audit Committee discloses its rules on the site www.bradesco.com.br/ri, area of Corporate Governance.

Activities related to 2015

The Committee has participated in 232 meetings with the areas of business, information technology, control and risk management and the internal and independent auditors, checking, through different sources, information about the aspects considered relevant or critical. The meetings were divided in the following manner:

Area of Institutions authorized to operate by the Brazilian Central Bank: 175

Area of Insurance, Pension and Capitalization: 42

Health: 15

Concerning further education, the Committee participated in conferences, seminars and courses that total 465 hours in the semester.

The work plan of the Audit Committee for the financial year of 2015 had as its focus the main processes and products inherent to the business of Organização Bradesco. Among the aspects considered most relevant, we highlight:

- processes for the preparation and dissemination of financial reports to shareholders and external users of accounting and financial information;
- systems of management and control of credit and operational risk, preparation for the use of internal models in line with the conditions laid down by the New Capital Accord (Basel II and III) and the regulations of the Brazilian Central Bank on the subject;

adherence to the accounting principles. In addition, as a result of their work for the purpose of issuing the aforementioned report, it produces a report of recommendations on accounting procedures and internal controls, without prejudice to other reports that it is also responsible for preparing, like those of limited reviews of quarterly information required by the CVM.

The Internal Audit (Department of General Inspectorate) has as duties to assess the quality of the systems of internal controls of Organização Bradesco and compliance with the policies and procedures defined by the Board, including those adopted in the preparation of accounting and financial reports.

It is up to the Audit Committee to assess the quality and effectiveness of the Internal and Independent Audits, based on a formal process, the effectiveness and sufficiency of internal control systems of Organização Bradesco and analyze financial statements, issuing, when applicable, the relevant recommendations.

Among the duties of the Audit Committee are also those required by American Law Sarbanes-Oxley for companies registered with the U.S. Securities and Exchange Commission and listed on the New York Stock Exchange.

- improvements in the systems of internal controls arising from the projects in the areas of Technology and Risk Management, of the Financial Conglomerate and Grupo Bradesco Seguros;
- compliance with standards and customer service: Customer Care Services (SAC)/Ombudsman and Money Laundering Prevention (PLD); and
- Deferred tax assets Bacen Circular No. 3.776, dated December 30, 2015.

Audit Committee Report Summary of Banco Bradesco S.A.

Internal Control Systems

Based on the work plan and the agenda defined for 2015, the Audit Committee was informed about the major processes in the Organization, evaluating their quality and the commitment of the leaders with its continuous improvement.

As a result of the meetings with the areas of Organização Bradesco, the Audit Committee had the opportunity to offer to the Board of Directors suggestions for improvement in processes, as well as to monitor the implementations of recommendations for improvement, identified in the course of the audit assignments, in the demands of regulators and in discussions with the business and controls areas.

Based on the information and comments collected, the Audit Committee believes that the system of internal controls of Organização Bradesco is appropriate to the size and complexity of its business and is structured so as to ensure the efficiency of its operations, of the systems that generate the financial reports, as well as the compliance with internal and external standards to which the transactions are subjected.

Independent Audit

The planning of the assignments of independent audit for the financial year 2015 was discussed with KPMG Auditores Independentes (KPMG) and, during the year, the audit teams responsible for services presented the results and main conclusions to the Audit Committee.

The relevant points highlighted in the report on the study and evaluation of accounting systems and internal controls, prepared in connection with the examination of the financial statements and their recommendations for the improvement of these

On the basis of the discussions on the planning of the work of the Internal Audit, focused on risks, processes and the assessment of their results, the Audit Committee believes that the Internal Audit has responded adequately to the demands of the Committee and to the needs and requirements of the Organization and the regulatory bodies.

Financial Statements of Banco Bradesco S.A.

The Committee met with the areas of General Accounting, Planning, Budget and Control, and General Inspectorate and with the Independent Audit (KPMG) to evaluate the monthly, quarterly, half-yearly and annual financial statements. In these meetings, the aspects of preparation of balance sheets and individual and consolidated balance sheets, the explanatory notes and the financial reports published with the financial statements were analyzed and evaluated.

The accounting practices adopted by Bradesco were also considered in preparing the financial statements and their compliance with the accounting practices adopted in Brazil, applicable to institutions authorized to operate by the Brazilian Central Bank, as well as the compliance with the applicable law.

Before the disclosure of the Quarterly Information (ITR Form) and the half-yearly and annual balance sheet, the Committee met with KPMG to assess the aspects of independence of auditors and the control environment in generating the figures for disclosure.

Based on the reviews and discussions referred to above, the Audit Committee recommends to the Board of Directors, the approval of the financial statements, audited for the period ended December 31, 2015.

systems, were discussed with the Committee, which requested monitoring of implementations of the improvements in the areas responsible.

Cidade de Deus, Osasco, SP, January 27, 2016
