Report on review of quarterly information

To the Board of Directors and Shareholders

Telefônica Brasil S.A.

Introduction

We have reviewed the accompanying parent company and consolidated interim accounting information of Telefônica Brasil S.A. ("Company"), included in the Quarterly Information Form (ITR) for the quarter ended March 31, 2017, comprising the balance sheet at that date and the statements of income, comprehensive income, changes in equity and cash flows for the quarter then ended, and a summary of significant accounting policies and other explanatory information.

Management is responsible for the preparation of the parent company interim accounting information in accordance with the accounting standard CPC 21, Interim Financial Reporting, of the Brazilian Accounting Pronouncements Committee (CPC), and of the consolidated interim accounting information in accordance with CPC 21 and International Accounting Standard (IAS) 34 - Interim Financial Reporting issued by the International Accounting Standards Board (IASB), as well as the presentation of this information in accordance with the standards issued by the Brazilian Securities Commission (CVM), applicable to the preparation of the Quarterly Information (ITR). Our responsibility is to express a conclusion on this interim accounting information based on our review.

Scope of review

We conducted our review in accordance with Brazilian and International Standards on Reviews of Interim Financial Information (NBC TR 2410 - Review of Interim Financial Information Performed by the Independent Auditor of the Entity and ISRE 2410 - Review of Interim Financial Information Performed by the Independent Auditor of the Entity, respectively). A review of interim information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Brazilian and International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion on the parent company interim information

Based on our review, nothing has come to our attention that causes us to believe that the accompanying parent company interim accounting information included in the Quarterly Information referred to above has not been prepared, in all material respects, in accordance with CPC 21 applicable to the preparation of the Quarterly Information, and presented in accordance with the standards issued by the CVM.

Conclusion on the consolidated interim information

Based on our review, nothing has come to our attention that causes us to believe that the accompanying consolidated interim accounting information included in the Quarterly Information referred to above has not been prepared, in all material respects, in accordance with CPC 21 and IAS 34 applicable to the preparation of the Quarterly Information, and presented in accordance with the standards issued by the CVM.

Other matters

Statements of value added

We have also reviewed the parent company and consolidated statements of value added for the quarter ended March 31, 2017. These statements are the responsibility of the Company's management and are required to be presented in accordance with standards issued by the CVM applicable to the preparation of Quarterly Information (ITR) and are considered supplementary information under IFRS, which do not require the presentation of the statement of value added. These statements have been submitted to the same review procedures described above and, based on our review, nothing has come to our attention that causes us to believe that they have not been prepared, in all material respects, in a manner consistent with the parent company and consolidated interim accounting information taken as a whole.

Audit and review of prior-year information

The Quarterly Information Form (ITR) mentioned in the first paragraph includes accounting information, presented for comparison purposes, related to the statements of income, changes in equity, cash flow and value added for the quarter ended March 31, 2016, obtained from the Quarterly Information Form (ITR) for that quarter, and also to the balance sheet as at December 31, 2016, obtained from the financial statements at December 31, 2016. The review of the Quarterly Information (ITR) for the quarter ended March 31, 2016 and the audit of the financial statements for the year ended December 31, 2016 were conducted by other independent auditors, whose unqualified review and audit reports were dated April 25, 2016 and February 17, 2017, respectively.

1) THE COMPANY AND ITS OPERATIONS

a) Background information

Telefônica Brasil S.A. ("Company" or "Telefônica Brasil") is a publicly-traded corporation operating in telecommunication services and in the performance of activities that are necessary or useful in the rendering of such services, in conformity with the concessions, authorizations and permissions it has been granted. The Company, headquartered at Avenida Engenheiro Luiz Carlos Berrini, No. 1376, in the city and State of São Paulo, Brazil, is a member of Telefónica Group ("Group"), the telecommunications industry leader in Spain, also present in various European and Latin American countries.

At March 31, 2017 and December 31, 2016, Telefónica S.A. ("Telefónica"), the Group holding company based in Spain, held total direct and indirect interest in the Company of 73.58%, including treasury shares (Note 21).

The Company is listed in the Brazilian Securities and Exchange Commission ("CVM") as a publicly-held company under Category A (issuers authorized to trade any marketable securities) and has shares traded on the B3 (company originated from the merger between BM&FBovespa and CETIP, occurred on March 30, 2017). The Company is also listed in the Securities and Exchange Commission ("SEC"), of the United States of America, and its American Depositary Shares ("ADSs") are classified under level II, backed only by preferred shares and traded on the New York Stock Exchange ("NYSE").

b) Operations

The Company operates in the rendering of services: i) Fixed Switched Telephone Service Concession Arrangement ("STFC"), except for the municipalities identified on sector 33 of such agreement; (ii) Multimedia Communication Service ("SCM", data communication, including broadband internet); (iii)

Personal Mobile Service ("SMP"); and iv) Pay TV (conditioned access service - SEAC), throughout Brazil, through concessions and authorizations, as established in the General Plan of Concessions ("PGO").

In accordance with the STFC service concession agreement, in every two years, during the agreement's 20-year term, the Company shall pay a fee equivalent to 2% of its prior-year STFC revenue, net of applicable taxes and social contribution taxes (Note 20). The Company's current STFC concession agreement is valid until December 31, 2025.

In accordance with the authorization terms for the usage of frequencies associated with SMP, in every two years after the first renewal of these agreements, the Company shall pay a fee equivalent to 2% of its prior-year SMP revenue, net of applicable taxes and social contribution taxes, and in the 15th year the Company will pay 1% of its prior-year revenue. The calculation will consider the net revenue from the application of Basic and Alternative Services Plans (Note 20). These agreements can be extended only once for a term of 15 years.

The information on the operation areas (regions) and due dates of the radiofrequency authorizations for SMP services is the same of Note 1b) Operations as disclosed in the financial statements for the year ended December 31, 2016.

Service concessions and authorizations are granted by the Brazil's Telecommunications Regulatory Agency ("ANATEL"), the agency responsible for the regulation of the Brazilian telecommunications sector under the terms of Law No. 9472 of July 16, 1997 - General Telecommunications Law ("Lei Geral das Telecomunicações" - LGT), amended by Laws No. 9986, of July 18, 2000, and No. 12485, of September 12, 2011. The operation of such concessions is subject to supplementary regulations and plans.

c) Acquisition of GVT Participações S.A. ("GVTPart")

The information on the acquisition process of GVTPart, which occurred in May 2015, is the same of Note 4) Acquisition of GVT Participações S.A. ("GVTPart"), as disclosed in the financial statements for the fiscal year ended December 31, 2016.

d) Corporate restructuring

The Shareholders' Meeting held on April 1, 2016, approved corporate restructuring in accordance with the terms and conditions proposed on March 14, 2016. The information on the Corporate Restructuring is the same as in Note 1c) Corporate Restructuring, as disclosed in the financial statements for the fiscal year ended December 31, 2016.

2) BASIS OF PREPARATION AND PRESENTATION OF THE QUARTERLY FINANCIAL STATEMENTS

a) Statement of compliance

The individual (Company) and consolidated quarterly financial Statements were prepared and are presented in accordance with the accounting practices adopted in Brazil, which comprise CVM standards and CPC (Accounting Pronouncements Committee) pronouncements, in compliance with the International Financial Accounting Reporting Standards (IFRS), issued by the International Accounting Standards Board (IASB).

All significant information in the financial statements - and solely such information - is disclosed and corresponds to that used by Company management for administration purposes.

The consolidated IFRS (Consolidated) have been prepared and are presented in accordance with CPC 21 (R1) Interim Statements and IAS 34 - Interim Financial Reporting issued by the IASB and standards

established as Resolution nº 739/15 of the CVM.

b) Basis of preparation and presentation

The Company's quarterly financial statements for the three-month period ended March 31, 2017 are presented in thousands of *Reais* (unless otherwise stated), which is the functional currency of the Company.

Management has assessed the Company's ability to continue operating normally and is convinced that it has the resources to continue its business in the future. In addition, Management is not aware of any material uncertainties that could generate significant doubts about its ability to continue operating. Therefore, these quarterly financial statements were prepared based on the assumption of continuity.

These quarterly financial statements compares the quarters ended March 31, 2017 and 2016, except for the balance sheets, that compare the positions as of March 31, 2017 and December 31, 2016.

The Board of Directors authorized the issue of these individual and consolidated financial statements at the meeting held on May 9, 2017.

Business segments are defined as components of a company for which separate financial information is available and regularly assessed by the operational decision making professional in decisions on how to allocate funds to an individual segment and in the assessment of segment performance. Considering that : (i) all officers and managers' decisions are based on consolidated reports; (ii) the Company and subsidiaries' mission is to provide their customers with quality telecommunications services; and (iii) all decisions related to strategic planning, finance, purchases, short- and long-term investments are made consolidated on a consolidated basis, the Company and subsidiaries operate in a single operating segment, namely the provision of telecommunications services.

These quarterly financial statements were prepared following the preparation basis and accounting policies consistent with those adopted in the preparation of the financial statements as of December 31, 2016, and should therefore be read with such statements. The information in the notes to the financial statements that did not significantly change or present irrelevant disclosures as compared to December 31, 2016 were not fully restated in these quarterly financial statements. In the meantime, the Company selected and included information to explain the main events and transactions occurring during the three-month period ended March 31, 2017, in order to understand the changes in the Company's financial position and performance.

The accounting standards adopted in Brazil require the presentation of the Statement of Value Added ("SVA"), individual and consolidated, while IFRS does not require presentation. As a result, under IFRS standards, the SVA is being presented as supplementary information, without prejudice to the overall quarterly financial statements.

As a result of the Corporate Restructuring process (Note 1d), which occurred on April 1, 2016, the individual quarterly financial statements for the three-month period ended March 31, 2017 and 2016 are not comparable.

The quarterly financial statements were prepared in accordance with the principles, practices and accounting criteria consistent with those adopted in the preparation of the financial statements for the fiscal year ended December 31, 2016 (Note 3) Summary of Significant Accounting Practices) and should be analyzed in conjunction with these Financial statements, in addition to the new pronouncements, interpretations and amendments, which came into effect as of January 1, 2017, as described below:

IAS 7 - Cash Flow, amendments: The changes are part of the IASB disclosure initiative and require an entity to provide disclosures that enable users of financial statements to assess changes in liabilities arising from financing activities, including both. The changes stemming from cash flows, such as changes that do not affect cash. At the initial adoption of the amendment, entities are not required to provide comparative information for prior periods. The application of the changes in this standard did not cause any material impact on the Company's cash flow disclosures.

IAS 12 - Income Taxes, amendments: The amendments clarify that an entity should consider whether tax legislation restricts sources of taxable income against which it may make deductions on the reversal of that deductible temporary difference. In addition, the amendments provide guidance on how an entity should determine future taxable income and explain the circumstances under which taxable income may include the recovery of some assets for amounts greater than their carrying amount. If an entity adopts the changes for an earlier period, it should disclose that fact. The application of the changes in this standard did not have a material impact on the Company's financial position.

On the date of preparation of these quarterly financial statements, the following IFRS amendments had been published; however, their application was not mandatory. The Company does not adopt early any pronouncement, interpretation or amendment that has been issued, before application is mandatory.

Annual Improvements to IFRS, 2014-2016 Cycle, as issued	January 1, 2017 / 2018
IFRS 16 Leases, as issued	January 1, 2019
IFRS 10, 12 and IAS 28 Investment Entities: Applying the Consolidation Exception, as amended	TBD

Based on preliminary, the Company expects the implementation of many of these standards, changes and interpretations will not have a significant impact on the financial statements in the initial period of application. However, the Company expects the following standards issued, but not yet mandatory, may have a significant impact on the Company's consolidated financial statements at the time of its application and prospectively.

IFRS 9 - Financial Instruments. Issue: In July 2014, the IASB issued the final version of IFRS 9, which replaces IAS 39 and all previous versions of IFRS 9.

IFRS 9 applies to financial assets and liabilities and establishes the classification, valuation, losses and write-off criteria for recognition of such items, as well as a new hedge accounting model. The Company estimates that major changes will occur in the documentation of hedge policies and strategies, as well as in the estimation of expected losses on financial assets. The changes introduced by IFRS 9 will affect the recognition of financial assets and derivative financial instruments as of January 1, 2018. The Company is carrying out the process of implementing the new criteria, but due to the relevance of the potentially affected items and the complexity of the estimates, understands that it is not reasonably possible to quantify the impacts of the application of this standard on the closing date of the quarterly financial statements.

IFRS 15 - Revenue from Contracts with Customers. Issuance: IFRS 15 establishes criteria's for the accounting of revenues from customer contracts. The Company is currently in the process of estimating the impacts of this new standard on its contracts. This analysis identified a number of expected impacts related to the following aspects, among others:

- Under the current accounting policy, the Company offers commercial packages that combine equipment's and services of telephony, fixed and mobile, data, internet and television, total revenue of services is distributed among its elements identified based on their respective fair values.

Under IFRS 15, amounts will be allocated to each element based on the basis of the independent selling prices of each individual component in relation to the total price of the package and will be recognized when (and the measure) the obligation is satisfied. Consequently, the application of the new criteria will mean an acceleration in the recognition of equipment sales revenues, which are generally recognized at the time of delivery to the final consumer. To the extent that the packages are marketed at a discount, the difference between the profit on sales of equipment and the amount received from the customer at the inception of the contract will be recognized as a contractual asset.

(In thousands of *Reais*, unless otherwise stated)

- According to the criteria currently in force, all costs directly related to obtaining commercial contracts (sales commissions and other expenses with third parties) are accounted as expenses when incurred. On the other hand, IFRS 15 requires the recognition of an asset for the amounts incurred by these concepts and its subsequent accounting to the income statement according to the period of the respective agreement. Likewise, certain costs related to the performance of the contract, currently recognized as expenses, when incurred, will be deferred when associated with compliance obligations over the period of contract.

- Compared to the current standard, IFRS 15 establishes much more detailed requirements on the accounting treatment of contract changes. Thus, certain changes will be recorded retrospectively and others prospectively as a separate or contract resulting from the redistribution of revenues among the various performance obligations identified.

The Company is advancing in the process of implementing the new criteria, but due to the high number of transactions affected, the high volume and dispersion of the necessary information and the complexity of the estimates, the Company understands that at the closing date of the quarterly financial statements cannot reliably measure the impact of the application of this standard.

However, considering the current commercial offers as well as the volume of affected contracts, the Company estimates that the changes introduced by IFRS 15 will have a significant impact on its financial statements at the date of its initial application. In addition, the Company's financial statements will include more quantitative disclosures of revenue-related accounts.

IFRS 16 - Leasing. Issuance: IFRS 16 establishes that companies acting as lessees must recognize in the balance sheet the assets and liabilities arising from all lease agreements (except for short-term lease agreements and those for low value assets).

The Company has a very large number of leases as a lessee of various assets, such as third-party towers, circuits, real estate and land (where the towers are primarily located). Under the current standard, significant portions of such contracts are classified as operating leases, where payments are generally recorded on a straight-line basis over the contract term.

The Company is currently in the process of estimating the impact of this new standard on such contracts. In this analysis, the estimate of the term of the lease is included, considering the non-cancellable period and the periods covered if exercised the option to extend the lease for those cases in which exist reasonable certainty, which will depend, of the expected use of the Company's assets installed in the leased assets.

In addition to the term of the lease, assumptions will be used to calculate the discount rate, which will depend mainly on the incremental financing rate for the estimated periods. In addition to the previous estimates, the standard allows two transition methods, being: i) full retrospective for each comparative period presented; and (ii) modified retrospective with the cumulative effect of the initial application of the recognized standard at the date of initial application. In addition, it is possible to choose specific practical relieves at the time of applying the standard on measurement of liability, discount rate, losses, leases ending within twelve months after the first application, initial direct costs, and lease duration. Thus, depending on the transition method to be chosen, the impacts will be different.

Due to the different alternatives, as well as the complexity of the estimates and the high number of contracts, the Company has not yet completed the implementation process, so that at the closing date of the quarterly financial statements it is not possible to estimate the impact of the application of this standard.

However, considering the volume of contracts affected, the Company estimates that the changes introduced by IFRS 16 will have a significant impact on its financial statements from the date of adoption, including the recognition of the right to use and the corresponding obligations in respect to the contracts which, under the current standard, are classified as operating leases. In addition, depreciation of the right to use the assets and recognition of interest on the lease obligation will replace a significant portion of the amount recognized as expenses in the income statement of the operating lease. The classification of payments in the statement of cash flows will also be affected by the adoption of IFRS 16.

(In thousands of *Reais*, unless otherwise stated)

(3) This refers to amounts that will be realized upon payment of provisions, effective impairment losses for trade accounts receivable, or realization of inventories, as well as upon reversal of other provisions.

(4) These refer to deferred taxes arising from other temporary differences, such as deferred income, renewal of licenses burden, subsidy on the sale of mobile phones, among others.

At March 31, 2017, deferred tax credits (income and social contribution tax losses) were not recognized in indirect subsidiary (Innoweb) accounting records, in the amount of R\$3,071 (R\$2,993 at December 31, 2016), as it is not probable that future taxable profits shall be available for these subsidiaries to benefit from such tax credits.

7) JUDICIAL DEPOSITS AND GARNISHMENTS

In some situations, in connection with a legal requirement or presentation of guarantees, judicial deposits are made to secure the continuance of the claims under discussion. These judicial deposits may be required for claims where the likelihood of loss was analyzed by the Company and its subsidiaries, grounded on the opinion of its legal advisors as a probable, possible or remote loss.

NOTES TO THE QUARTERLY FINANCIAL STATEMENTS

Three-month period ended March 31, 2017

(In thousands of *Reais*, unless otherwise stated)

(1) The Company and its subsidiaries recognized estimated losses for potential obsolescence of materials used in property and equipment maintenance, based on levels of historical use and expected future use.

(2) Net write-offs regarding “Infrastructure and Assets and Facilities under Construction” for the year ended March 31, 2016, include the amount of R\$99,210 regarding the disposal of 1,655 towers owned by the Company to Telxius Torres Brasil Ltda, a directly controlled Telefônica subsidiary.

b) Depreciation rates

In the last quarter of 2016, in accordance with IAS 16 / CPC 27, the Company performed, in conjunction with a specialized company, valuations of useful lives applied to its property, plant and equipment using the direct comparative method of market data. The studies indicated the need for changes in useful life and annual depreciation rates for some items of asset classes.

The following table sets forth the depreciation rates of property, plant and equipment of the Company and its subsidiaries, which are depreciated on a straight-line basis at the annual rate, as follows:

Description	Annual depreciation rate (%)			
	Company	Revised / Current	Consolidated	Revised / Current
	Previous 10.00 to 14.29		Previous	5.00 to 20.00
Switching equipment		5.00 to 14.29	8.33 to 20.00	20.00
Transmission equipment and media	5.00 to 14.29	2.50 to 25.00	2.50 to 25.00	2.50 to 25.00

Infrastructure	2.50 to 66.67	2.50 to 66.67	2.50 to 66.67	2.50 to 66.67
Other P&E assets	10.00 to 25.00	10.00 to 25.00	10.00 to 66.67	10.00 to 25.00

c) Property and equipment items pledged in guarantee

At March 31, 2017, the Company had consolidated amounts of property and equipment items pledged in guarantee for lawsuits, amounting to R\$206,971 (R\$203,600 at December 31, 2016).

d) Capitalization of borrowing costs

At March 31, 2017 and December 31, 2016, the Company and its subsidiaries did not capitalize borrowing costs, as there were no qualifying assets.

e) Reversible assets

The STFC service concession arrangement establishes that all assets owned by the Company and that are indispensable to the provision of the services described in the referred to arrangement are considered reversible. At March 31, 2017, estimated residual value of reversible assets was R\$8,865,046 (R\$8,813,916 at December 31, 2016), which comprised switching and transmission equipment and public use terminals, external network equipment, energy, system and operational support equipment.

f) Finance lease

Below are the amounts related to finance lease arrangements, in which the Company is a lessee, segregated by type of property and equipment item.

Labor provisions and contingencies involve labor claims filed by former employees and outsourced employees (the latter alleging subsidiary or joint liability) claiming for, among other issues, overtime, salary equalization, post-retirement benefits, allowance for health hazard and risk premium, and matters relating to outsourcing.

The Company is also a defendant in labor claims filed by retired former employees who are covered by the Retired Employees Medical Assistance Plan ("PAMA"), who, among other issues, are demanding the cancellation of amendments to this plan. Most of these claims await a decision by the Regional Labor Court of São Paulo and the Superior Labor Court. Based on the opinion of its legal counsel and recent decisions

of the courts, management considers the risk of loss in these cases as possible. No amount has been allocated for these claims, since is not possible to estimate the cost to the Company in the event of loss.

In addition, the Company is party to Public Civil Actions filed by the Labor Public Prosecutor's Office, mainly in relation to the determination that the Company must cease the engagement of intermediaries to carry out its core activities. No amounts were allocated to the possible degree of risk in these Public Civil Actions in the above table, since at this stage of the proceedings it is not possible to estimate the cost to the Company in the event of loss.

The most important of these proceedings are: (i) ISS on non-core activity, value-added and supplementary services; (ii) ISS withholding at source; (iii) IPTU; (iv) land use tax; (v) various municipal charges; (vi) charge for use of mobile network and lease of infrastructure; (vii) advertising services; (viii) services provided by third parties; (ix) advisory services in corporate management provided by Telefônica International; (x) ISS on call identification and mobile phone licensing services; and (xi) ISS on full-time services, provisions, returns and cancelled tax receipts.

At March 31, 2017, consolidated amounts involved totaled R\$873,514 (R\$853,244 at December 31, 2016).

ANATEL

Universal Telecommunications Services Fund ("FUST")

Writs of mandamus were filed seeking the right to not include expenses with interconnection and Industrial Use of Dedicated Line (EILD) in FUST tax base, according to Abridgment No. 7 of December 15, 2005, as it does not comply with the provisions contained in sole paragraph of article 6 of Law No. 9998/00, which are awaiting a decision from Higher Courts.

Various delinquency notices were issued by ANATEL in the administrative level to collect charges on interconnections, EILD and other revenues not earned from the provision of telecommunication services.

At March 31, 2017, consolidated amounts involved totaled R\$4,076,231 (R\$4,089,065 at December 31, 2016).

Fund for Technological Development of Telecommunications ("FUNTTEL")

The Company and/or its subsidiaries are parties to administrative and legal proceedings that are waiting to be tried by Higher Courts. Such proceedings concern the collection of contributions to FUNTTEL on other revenues (not related to telecom services), as well as on income and expenses transferred to other operators (interconnection).

At March 31, 2017, consolidated amounts involved totaled R\$1,251,368 (R\$1,190,637 at December 31, 2016).

Telecommunications Inspection Fund ("FISTEL")

Upon extension of the effective license period to use telephone switches in connection with the use of STFC (Fixed Switched Telephone Service) and extension of the right to use radiofrequency in connection with the use of Personal Communication Service ("SMP"), ANATEL charges the Installation Inspection Fee (TFI).

This collection is based on ANATEL's understanding that such extension would represent a taxable event for TFI. The Company understands that such collection is unjustified, and separately challenged the aforesaid fee in court.

At March 31, 2017, consolidated amounts involved totaled R\$2,427,754 (R\$2,352,000 at December 31, 2016), excluding the corresponding court deposits.

Public Price for Numbering Resource Management ("PPNUM")

The Company, along with other wireless carriers in Brazil, is challenging in court the PPNUM charged by ANATEL for use by such carriers of the numbering resources managed by the agency. In view of the collections, the Company made a judicial deposit relating to the amounts due. On April 23, 2009, the carriers were handed down a favorable decision and the lawsuit is currently awaiting judgment in the court of appeals.

At March 31, 2017, consolidated amounts involved totaled R\$5,836 (R\$6,043 at December 31, 2016).

Provisions for probable civil

- The Company and/or its subsidiaries are parties to proceedings involving rights to the supplementary amounts from shares calculated on network expansion plans since 1996 (supplement of share proceedings). These proceedings are at different stages: lower courts, court of justice and high court of justice. At March 31, 2017, consolidated provisions totaled R\$286,377 (R\$256,276 at December 31, 2016).
- The Company and/or its subsidiaries are parties to various civil proceedings related to consumers at the administrative and judicial level, relating to the non-provision of services and/or products sold. At March 31, 2017, consolidated provisions totaled R\$394,921 (R\$386,699 at December 31, 2016).
- The Company and/or its subsidiaries are parties to various civil proceedings of a non-consumer nature at administrative and judicial levels, all arising in the ordinary course of business. At March 31, 2017, consolidated provisions totaled R\$401,579 (R\$396,382 at December 31, 2016).

Civil contingencies assessed as possible losses

Management and its legal counsel understand that losses are possible in the following civil proceedings:

- Collective Action filed by SISTEL Participants' Association (ASTEL) in the state of São Paulo, in which SISTEL associates in the state of São Paulo challenge the changes made in the health insurance plan for retired employees ("PAMA") and claim for the reestablishment of the prior "status quo". This proceeding is still in the appeal phase, and awaits a decision on the Interlocutory Appeal filed by the Company against the decision on possible admission of the appeal to higher and supreme courts filed in connection with the Court of Appeals' decision, which changed the decision rendering the matter groundless. The amount cannot be estimated, and the claims cannot be settled due to their unenforceability because it entails the return to the prior plan conditions.
- Civil Class Actions filed by ASTEL, in the state of São Paulo, and by the Brazilian National Federation of Associations of Retirees, Pensioners and Pension Fund Members of the Telecommunications Industry (FENAPAS), both against SISTEL, the Company and other carriers, in order to annul the spin-off of the PBS private pension plan, alleging, in short, the "windup of the supplementary private pension plan of the SISTEL Foundation", which led to various specific mirror PBS plans, and corresponding allocation of funds from technical surplus and tax contingencies existing at the time of the spin-off. The amount cannot be estimated, and the claims cannot be settled due to their unenforceability because this involves the return of the spun-off assets of SISTEL relating to telecommunication carries of the former Telebrás System.
- The Public Prosecutor's Office of São Paulo State began a civil class action claiming pain, suffering and damages suffered by all consumers of telecommunications services from 2004 to 2009 due to the bad quality of services and failures of the communications system. The Public Prosecutor's Office suggested that the indemnification to be paid should be R\$ 1 billion. The decision handed down on April 20, 2010 imposes the payment of indemnification for damages caused to all consumers who have filed a suit for such damages. The Company filed an appeal tried on April 13, 2015, and it was unanimously decided that the lower court decision should be amended and the claim should be dismissed. The Public Prosecutor's Office of São Paulo State appealed against this decision and filed an appeal to higher and supreme courts. The Company submitted counterarguments to this appeal to higher and supreme courts. The appeals to higher and supreme courts were not accepted by the Public Prosecutor's Office of São Paulo State. Final decision rendered favorable to the Company.

- The Company is party to other civil claims, at several levels, related to service rendering rights. Such claims have been filed by individual consumers, civil associations representing consumer rights or by the Bureau of Consumer Protection (PROCON), as well as by the Federal and State Public Prosecutor's Office. The Company is also party to other claims of several types related to the ordinary course of business. At March 31, 2017, the consolidated amount totaled to R\$2,639,841 (R\$2,559,252 at December 31, 2016).
- TGLog (company controlled by TData) is party to a civil execution proceeding filed with the 3rd Civil Court of Barueri, São Paulo State, owing to alleged non-payment of transportation service bills. TGLog alleges that it made legitimate discounts owing to contract breaches and losses arising from damages to goods of its customers transported by the claimant, which are also subject matter of another proceeding. At March 31, 2017, the amount was R\$162 (R\$1,377 at December 31, 2016).
- The Company has received notices regarding noncompliance with the Customer Service (SAC) Decree. The Company is currently party to various lawsuits (administrative and legal proceedings). At March 31, 2017 and December 31, 2016 the consolidated amount was R\$14,207.
- Intellectual Property: Lune Projetos Especiais Telecomunicação Comércio e Ind. Ltda. (Lune), a Brazilian company, filed an action on November 20, 2001 against 23 wireless carriers claiming to own the patent for caller ID and the trademark "Bina". The purpose of that lawsuit was to interrupt provision of such service by carriers and to seek indemnification equivalent to the amount paid by consumers for using the service.

An unfavorable decision was handed down determining that the Company should refrain from selling mobile phones with Caller ID service ("Bina"), subject to a daily fine of R\$10,000 (Ten thousand reais) in case of noncompliance. Furthermore, according to that decision, the Company must pay indemnification for royalties, to be calculated in settlement. Motions for Clarification were opposed by all parties and Lune's motions for clarification were accepted since an injunctive relief in this stage of the proceedings was

deemed applicable. A bill of review appeal was filed in view of the current decision which granted a stay of execution suspending that unfavorable decision until final judgment of the review. A bill of review was filed in view of the sentence handed down on June 30, 2016, by the 4th Chamber of the Court of Justice of the Federal District, in order to annul the lower court sentence and remit the proceedings back to the lower court for a new examination. There is no way to determine the extent of potential liabilities with respect to this claim.

The Company and other wireless carriers figure as defendants in several lawsuits filed by the Public Prosecutor's Office and consumer associations to challenge imposition of a period to use prepaid minutes. The plaintiffs allege that the prepaid minutes should not expire after a specific period. Conflicting decisions were handed down by courts on the matter, even though the Company understands that its criteria for the period determination comply with ANATEL standards.

The Company is party to administrative proceedings against ANATEL, filed based on an alleged failure to meet sector regulations, and to judicial proceedings to contest sanctions applied by ANATEL at the administrative level. At March 31, 2017, consolidated provisions totaled R\$873,192 (R\$828,934 at December 31, 2016).

Regulatory contingencies assessed as possible losses

According to the Company's management and legal counsel, the likelihood of loss of the following regulatory civil proceedings is possible:

- The Company is party to administrative proceedings filed by ANATEL alleging noncompliance with the obligations set forth in industry regulations, as well as legal claims which discuss the sanctions applied by ANATEL at the administrative level. At March 31, 2017, the consolidated amount was R\$5,352,052 (R\$5,018,205 for the Company at December 31, 2016).
- Administrative and judicial proceedings discussing payment of 2% charge on interconnection services revenue arising from the extension of right of use of SMP related radio frequencies. Under clause 1.7 of the authorization term that grants right of use of SMP related radio frequencies, the extension of right of use of such frequencies entails payment every two years, during the extension period (15 years) of a 2% charge calculated on net revenues from the service provider's Basic and Alternative Plans of the service company, determined in the year before that of payment.

However, ANATEL determined that in addition to revenues from Service Plans, the charge corresponding to 2% should also be levied on interconnection revenues and other operating revenues, which is not stipulated in clause 1.7 of referred Authorization Term.

Considering, based on the provisions of the Authorization Terms, that revenue from interconnection services should not be included in the calculation of the 2% charge for radiofrequency use right extension, the Company filed administrative and legal proceedings challenging these charges, based on ANATEL's position.

e) Guarantees

The Company and its subsidiaries granted guarantees for tax, civil and labor proceedings, as follows:

	Consolidated					
		03/31/17			12/31/16	
	Property and equipment	Judicial deposits and garnishments	Letters of guarantee	Property and equipment	Judicial deposits and garnishments	Letters of guarantee

(3) This refers to payroll withholdings and taxes withheld from pay-outs of interest on equity and on provision of services.

21) EQUITY

a) Capital

According to its Articles of Incorporation, the Company is authorized to increase its share capital up to 1,850,000,000 shares. The Board of Directors is the competent body to decide on any increase and consequent issue of new shares within the authorized capital limit.

Nevertheless, Brazil's Corporation Law (Law nº 6.404/76, Article 166, item IV) establishes that capital may be increased by means of a Special Shareholders' Meeting resolution to decide about amendments to the Articles of Incorporation, if authorized capital increase limit has been reached..

Capital increases do not necessarily observe the proportion between the number of shares of each class to be maintained, however the number of non-voting or restricted-voting preferred shares must not exceed 2/3 of total shares issued.

Preferred shares are non-voting, except for cases set forth in Articles 9 and 10 of the Articles of Incorporation, but have priority in the event of reimbursement of capital, without premium, and are entitled to dividends 10% higher than those paid on common shares, as per article 7 of the Company's Articles of Incorporation and item II, paragraph 1, article 17 of Law No. 6404/76.

Preferred shares are also entitled to full voting rights if the Company fails to pay the minimum dividend to which they are entitled for three consecutive financial years and this right will be kept until payment of said dividend.

Paid-in capital at March 31, 2017 and December 31, 2016 amounted to R\$63,571,416. After all the events described above, subscribed and paid-in capital is divided into shares without par value, held as follows:

(1) The amount shown for 2016 includes R\$476,371 (net of residual values) from the Company's sale of 1,655 of transmission towers to Telxius Torres Brasil (company of the Telefónica Group). After the sale of these assets, a lease agreement for part of the towers sold was entered into, thus ensuring continued transmission of data for mobile services.

The transaction was recognized as sale and leaseback as provided under IAS 17. Management analyzed each asset leased back and classified them as operating or finance leases in accordance with IAS 17 qualitative and quantitative criteria.

Risks and benefits relating to these towers have been transferred to their purchasers, with the exception of several towers for which transfer of risks and benefits was not possible. For these items, the amount was recognized as deferred revenue (Note 18).

(2) In the same transaction described in item (1), the Company transferred assignment of current lease agreements for sites and sold sharing agreements (customer portfolio) for R\$40,899.

Management compensation

Consolidated key management personnel compensation paid by the Company to its Board of Directors and Statutory Officers were R\$4,786 and R\$9,402 for the quarters ended March 31, 2017 and 2016 respectively. Of this amount, R\$2,865 (R\$5,756 on March 31, 2016) corresponds to salaries, benefits and social charges and R\$1,921 (R\$3,646 on March 31, 2016) to variable compensation.

These amounts were recorded as expenses with personnel under the General and administrative expenses group of accounts (Note 23).

For the quarters ended March 31, 2017 and 2016, our Directors and Officers did not receive any pension, retirement or similar benefits.

28) SHARE-BASED PAYMENT PLANS

Telefónica, as the Company's parent company, has different share-based payment plans based on the share quotes, which were also offered to management and employees of its subsidiaries, including Telefônica Brasil and the latter's subsidiaries.

Telefônica Brasil S. A.

NOTES TO THE QUARTERLY FINANCIAL STATEMENTS

Three-month period ended March 31, 2017

(In thousands of *Reais*, unless otherwise stated)

The fair value of these options is estimated on the grant date, based on a binomial pricing model reflecting terms and conditions of instruments granted.

The Company and its subsidiaries reimburse Telefônica for the amount of the fair value of the benefits granted to management and employees on the grant date.

The main plans in force on March 31, 2017 and December 31, 2016 were: (i) Performance & Investment Plan ("PIP") to reward senior management's global commitment; (ii) Talent for the Future Share Plan ("TFSP") to reward the global commitment; e (iii) Global Employee Share Plan ("GESP") to employees.

The details of these plans are the same as in Note 31) Share-Based Payment Plans, as disclosed in the financial statements for the fiscal year ended December 31, 2016.

At March 31, 2017, the share price of Telefônica shares was 10.4850 euros and the plans were positioned as follows:

Plans	Cycles	Number of shares (1)	Final Date
PIP	4th cycle - October 1, 2014	357,039	September 30, 2017
PIP	5th cycle - October 1, 2015	539,889	September 30, 2018
TFSP	1st cycle - October 1, 2014	57,000	September 30, 2017
TFSP	2nd cycle - October 1, 2015	88,000	September 30, 2018

(1) For the PIP, it includes the initial quantities and co-investment and for the TFSP only the initial quantities.

The expenses of the Company and its subsidiaries with the compensation plans based on actions described above, where applicable, are recorded as personnel expenses, divided in groups Cost of Services, Selling expenses and General and Administrative Expenses (Note 23), corresponding to R\$5,746 and R\$4,025 for the quarters ended March 31, 2017 and 2016 respectively.

29) PENSION PLANS AND OTHER POST-EMPLOYMENT BENEFITS

30) FINANCIAL INSTRUMENTS AND RISK AND CAPITAL MANAGEMENT

a) Derivative transactions

The derivative financial instruments contracts at the Company are mainly intended to hedge against foreign exchange risk arising from assets and liabilities in foreign currency, against risk of inflation of its debentures and lease indexed to the IPCA and against the risk of changes in TJLP of a portion of debt with BNDES. There are no, derivative financial instruments for speculative purposes and possible currency risks are hedged.

Management understands that the Company's internal controls for its derivatives are adequate to control risks associated with each strategy for the market. Gains/losses obtained or sustained by the Company in relation to its derivatives show that its risk management has been appropriate.

The Company calculates the effectiveness of the derivative contracts to hedge its financial liabilities and cash flows in foreign currency at the beginning of the operation and on an ongoing basis. At March 31, 2017 and December 31, 2016, the derivative instruments were effective for the hedged items.

As long as these derivatives contracts qualify for hedge accounting, the risk covered may also be adjusted to fair value, offsetting the result of derivatives, according to the rules of hedge accounting. This hedge accounting applies both to financial liabilities and probable cash flows in foreign currency.

At March 31, 2017 and December 31, 2016, the Company held no embedded derivatives contracts.

Derivatives contracts includes specific penalties for breach of contract. Breach of contract provided for in agreements made with financial institutions leads to the early settlement thereof.

a.1) Fair value of derivative financial instruments

The valuation method used to calculate the fair value of financial liabilities (if applicable) and derivative financial instruments was the discounted cash flow method, based on expected settlements or realization of liabilities and assets at market rates prevailing at the balance sheet date.

The fair values of positions in Reais are calculated by projecting future inflows from transactions using B3 yield curves discounting these flows to present value using market DI rates for swaps announced by B3.

Telefônica Brasil S. A.**NOTES TO THE QUARTERLY FINANCIAL STATEMENTS****Three-month period ended March 31, 2017****(In thousands of *Reais*, unless otherwise stated)**

The market values of foreign-exchange derivatives were obtained using the market exchange rates in effect at the balance sheet date and projected market rates obtained from the currency's coupon-rate yield curves. The linear convention of 360 calendar days was used to determine coupon rates of positions indexed in foreign currencies, while the exponential convention of 252 business days was used to determine coupon rates for positions indexed to CDI rates.

Consolidated derivatives financial instruments shown below are registered with B3 and classified as swaps, usually, that do not require margin deposits.

(2) Foreign currency swaps (Euro) (R\$21,051) and (US\$ and CDI x US\$) (R\$110,517) - maturing through April 11, 2017 to hedge currency risk affecting net amounts payable (carrying amount R\$21,055 in euros) and receivables (carrying amount R\$110,514 in US\$).

(3) IPCA x CDI rate swaps (R\$38,904) - maturing through 2019 to hedge the same flow as the debentures (4th issue - 3rd series) indexed to the IPCA (carrying amount R\$38,934).

(4) TJLP x CDI swaps (R\$608,270) - maturing through 2019 to hedge the risk of TJLP variation on loan with BNDES (carrying amount R\$644,201).

(5) IPCA x CDI swaps (R\$239,795) – maturing in 2033 to hedge risk of change in finance lease rate pegged to IPCA (carrying amount R\$240,590).

(6) IGPM x CDI swaps (R\$40,847) – maturing 2016 through 2018 to hedge IGP-DI variation risk affecting regulatory commitments related to 4G license.

(7) NDF US\$ x R\$ and options US\$ - term transactions and options contracted with the purpose of protecting the US\$ exposure of service contracts.

The table below shows the breakdown of swaps maturing after March 31, 2017:

For the purposes of preparing its financial statements, the Company adopted the fair value hedge accounting methodology for its foreign currency swaps x CDI, IPCA x CDI, IGPM x CDI and TJLP x CDI for hedging or financial debt. Under this arrangement, both derivatives and hedged risk are recognized at fair value.

The ineffective portion at March 31, 2017 was R\$1,593 (R\$2,091 at December 31, 2016).

At March 31, 2017 and 2016, the transactions with derivatives generated consolidated negative (net) result of R\$49,255 and R\$107,931, respectively (Note 25).

a.2) Sensitivity analysis to the Company's risk variables

CVM Resolution 604/09 requires listed companies to comply with CPC 40 Financial Instruments: Disclosures (IFRS 7) by disclosing sensitivity analyses for each type of market risk that management understands to be significant when originated by financial instruments to which the entity is exposed at the end of each period, including all derivatives financial instrument transactions.

In making the above analysis, each of the transactions with derivative financial instruments was assessed and assumptions included a probable scenario and two others that could adversely impact the Company.

In the probable scenario the assumption is to keep, on the maturity dates of each of the transaction, what the market had been showing through B3 yield curves (currencies and interest rates), as well as data available at IBGE, Central Bank, FGV, among others. In the probable scenario, there is no impact on the fair value of the above-mentioned derivatives. However, for scenarios II and III, as per CVM ruling, risk variables were considered to deteriorate by 25% and 50% respectively.

Telefônica Brasil S. A.**NOTES TO THE QUARTERLY FINANCIAL STATEMENTS****Three-month period ended March 31, 2017****(In thousands of *Reais*, unless otherwise stated)**

Since the Company only holds derivatives to hedge its foreign-currency assets and liabilities, changing scenarios are tracked by the corresponding hedged items, thus showing that effects are almost non-existent. For these transactions, the Company reported the consolidated net exposure in each of the above-mentioned three scenarios at March 31, 2017.

The assumptions used by the Company for the sensitivity analysis at March 31, 2017 were as follows:

Telefônica Brasil S. A.**NOTES TO THE QUARTERLY FINANCIAL STATEMENTS****Three-month period ended March 31, 2017****(In thousands of *Reais*, unless otherwise stated)**Sensitivity analysis assumptions

<u>Risk Variable</u>	Probable	25% depreciation	50% depreciation

URTJLP	2.0168	2.5210	3.0251
CDI	12.13%	15.16%	18.20%

For calculation of the net exposure for the sensitivity analysis, all derivatives were considered at market value and hedged items designated for hedge for accounting purposes were also considered at fair value.

The fair values shown in the table above are based on the portfolio position at March 31, 2017, but do not reflect an estimate for realization due to the dynamism of the market, which is constantly monitored by the Company. The use of different assumptions could significantly affect the estimates.

b) Fair value

The Company and its subsidiaries assessed their financial assets and liabilities in relation to market values using available information and appropriate valuation methodologies. However, both the interpretation of market data and the selection of valuation methods require considerable judgment and reasonable estimates to produce the most adequate realization value. As a result, the estimates shown do not necessarily indicate amounts that could be realized in the current market. The use of different assumptions for the market and/or methodologies may have a material effect on estimated realization values. At March 13, 2017 and December 31, 2016, neither the Company nor its subsidiaries detected any significant and enduring impairment of their financial instruments.

The fair value of all assets and liabilities are classified within the fair value hierarchy described below, based on the lowest level of information that is significant to the fair value measurement as a whole:

Level 1: quoted market prices (unadjusted) in active markets for identical assets or liabilities;

Level 2: valuation techniques for which significant lower level of information to measure the fair value directly or indirectly observable; and

Level 3: valuation techniques for which the lowest and significant level of information to measure the fair value is not available.

The following tables show the composition of financial assets and liabilities at March 31, 2017 and December 31, 2016. During the periods shown in the tables below, there were no transfers between fair value measurements of level 3 and level 1 and 2.

c) Capital management

The purpose of the Company's capital management is to ensure maintenance of a high credit rating before institutions and an optimal capital ratio in order to support the Company's business and maximize shareholder value.

The Company manages its capital structure by making adjustments and adapting to current economic conditions. For this purpose, the Company may pay dividends, raise new loans, issue debentures and contract derivatives. For the quarter ended March 31, 2017, there were no changes in capital structure objectives, policies or processes.

In its net debt structure, the Company includes balances referring to loans, financing, debentures, finance lease, contingent consideration and transactions with derivatives, less cash and cash equivalents and short-term investments to secure BNB financing.

The Company's ratio of consolidated debt to shareholders' equity consists of the following:

Telefônica Brasil S. A.**NOTES TO THE QUARTERLY FINANCIAL STATEMENTS****Three-month period ended March 31, 2017****(In thousands of *Reais*, unless otherwise stated)**

Net equity	69,781,459	69,244,419
Net debt-to-equity ratio	6.52%	5.89%

d) Risk management policy

The Company and its subsidiaries are exposed to several market risks as a result of its commercial operations, debts contracted to finance its activities and debt-related financial instruments.

d.1) Currency Risk

There is risk arising from the possibility that the Company may incur losses due to fluctuating exchange rates, which add to costs arising from loans denominated in foreign currencies.

At March 31, 2017, 11.3% of financial debt was foreign-currency denominated (14.0% at December 31, 2016). The Company enters into derivative transactions (currency hedge) with financial institutions to hedge against exchange rate variation affecting its total indebtedness in foreign currency (R\$1,225,165 and

R\$1,287,864 at March 31, 2017 and December 31, 2016, respectively). Its total debt on these dates was covered by asset positions in currency-exchange hedge transactions with CDI-rate swaps.

There is also foreign exchange risk for non-financial assets and liabilities denominated in foreign currencies, which may generate a smaller amount receivable or larger amount payable depending on the exchange rate in the period.

Hedging transactions were engaged to minimize the risks associated with exchange-rate variation of non-financial assets and liabilities in foreign currencies. This balance is subject to daily changes due to the dynamics of the business. However, the Company intends to cover the net balance of these rights and obligations (US\$34,881 thousand receivable and €6,219 thousand payable by March 31, 2017 and US\$17,293 thousand and €5,695 thousand payable by December 31, 2016) to mitigate its foreign exchange risks.

d.2) Interest and Inflation Risk

This risk arises because the Company may incur losses in the event of an unfavorable change in the domestic interest rate, which may adversely affect financial expenses resulting from the portion of debentures referenced to the CDI and liability positions in derivatives (currency hedge, IPCA and TJLP) pegged to floating interest rates (CDI).

The debt with BNDES is indexed to the Long-Term Interest Rate (TJLP) which is set on a quarterly basis by the National Monetary Council. During the year 2016 and for the quarter ended March 31, 2017, the TJLP was 7.5%.

Inflation risk arises from the Minas Comunica debentures of the 1st issue, which are tied to the IPCA and thus may adversely affect financial expenses in the event of an unfavorable change in this index.

To reduce exposure to the variable interest rate (CDI), the Company and its subsidiaries invested their cash equivalents of R\$6,171,774 at March 31, 2017 (R\$4,906,741 at December 31, 2016), mostly in short-term CDI-based financial investments (Bank Deposit Certificates). The carrying amounts of these instruments approach their fair values, since they may be redeemed in short term.

Telefônica Brasil S. A.**NOTES TO THE QUARTERLY FINANCIAL STATEMENTS****Three-month period ended March 31, 2017****(In thousands of *Reais*, unless otherwise stated)****d.3) Liquidity Risk**

Liquidity risk is the possibility of the Company or its subsidiaries not holding sufficient funds to meet their commitments due to different currencies and dates of realization of rights and settlement of obligations.

The Company structure the maturity dates of non-derivative financial contracts, as shown in Note 19, and their respective derivatives, as shown in the schedule of payments disclosed in this note, to avoid affecting their liquidity.

The Company cash flow and liquidity and those of its subsidiaries are managed on a daily basis by the departments in charge to ensure that operating cash flows and prior funding, when necessary, will be sufficient to meet their schedule of commitments in order to avoid liquidity risk.

Below, we summarize the maturity profile of our consolidated financial liabilities as set forth in loan agreements:

At 03.31.17	Less than one year	From 1 to 2 years	From 2 to 5 years	Over 5 years	Total

d.4) Credit Risk

The risk arises from the possibility of the Company and its subsidiaries incurring losses due to difficulty in receiving amounts billed to their customers and sales of prepaid handsets and cards that have been pre-activated for the distribution network.

The credit risk on accounts receivable is diversified and mitigated by strict control of the customer base. The Company constantly monitors the level of accounts receivable from postpaid services, and limits bad-debt risk by cutting off access to telephone lines if bills are past due. The mobile customer base predominantly uses the prepaid system, which requires purchase of credits beforehand and therefore does not pose credit risk. Exceptions are made for telecommunications services that must be maintained for security or national defense reasons.

Credit risk on sales of pre-activated prepaid handsets and cards is managed by a conservative policy for granting credit, using modern credit scoring methods, analyzing financial statements and consultations to commercial databases, in addition to requesting guarantees.

The Company and its subsidiaries are also subject to credit risk arising from their investments, letters of guarantee received as collateral for certain transactions and receivables from derivative transactions. The Company and its subsidiaries control the credit limits granted to each counterpart and diversify this exposure across first tier financial institutions as per current credit policies of financial counterparties.

d.5) Social and Environmental Risks

Our operations and properties are subject to various environmental laws and regulations that, among others, govern environmental licenses and records, protection of fauna and flora, air emissions, waste management and remediation of contaminated sites. If we fail to meet present and future requirements, or to identify and manage new or existing contamination, we will incur in significant costs, which include cleaning costs, damages, compensation, fines, activities suspension and other penalties, investments to improve our facilities or change our processes, or interruption of operations. The identification of environmental conditions not currently identified, more stringent inspections by regulatory agencies, the entry into force of more stringent laws and regulations or other unanticipated events may occur and, ultimately, result in significant environmental liabilities and their costs. The occurrence of any of the above factors could have a material adverse effect on our business, results of operations and financial position. According to Article 75 of Law No. 9605 of 1998, the maximum fine per breach of environmental law is R\$50,000,000 (fifty million reais).

From the social point of view, we are exposed to contingent liabilities due to the fact that our structure provides for the hiring of outsourced service providers. These potential liabilities may involve labor claims by service providers which are treated as direct employees and claim joint liability resulting from overtime and occupational accidents. If we obtain unfavorable decision with respect to a significant portion of these contingencies and if we have not recognized a provision for these risks, our financial position and results of operations may be adversely affected. In addition, if the labor authorities consider that outsourcing services involves core activities of the company, this could be considered employment relationship, which would significantly increase our costs and therefore subject the Company to administrative and judicial proceedings and payment of fines to third parties.

d.6) Insurance Coverage

The policy of the Company and its subsidiaries, as well as the Telefónica Group, includes contracting insurance coverage for all assets and liabilities involving significant and high-risk amounts, based on management's judgment and following Telefónica corporate program guidelines.

At March 31, 2017, maximum limits of claims (established pursuant to the agreements of each company consolidated by the Company) for significant assets, liabilities or interests covered by insurance and their respective amounts were R\$1,033,944 for operational risks (with loss of profit) and R\$75,000 for general civil liability.

d.7) Other Risks

The Company is required to comply with Brazilian anti-corruption laws and regulations, as well as laws and regulations on the same subject in jurisdictions where it has its securities traded. In particular, the Company is subject, in Brazil, to the Law nº 12.846/2013 and, in the United States, to the U.S. Foreign Corrupt Practices Act of 1977.

Although the Company has internal policies and procedures designed to ensure compliance with the aforementioned anti-corruption laws and regulations, there can be no assurance that such policies and procedures will be sufficient or that the Company's employees, directors, officers, partners, agents and service providers will not take actions in violation of the Company's policies and procedures (or otherwise in violation of the relevant anti-corruption laws and regulations) for which the Company or they may be ultimately held responsible. Violations of anti-corruption laws and regulations could lead to financial penalties, damage to the Company's reputation or other legal consequences that could have a material adverse effect on the Company's business, results of operations and financial condition.

In connection with the above-mentioned policies, the Company is currently conducting an internal investigation - which is part of a broader investigation being conducted by the controlling shareholder of the Company (Telefónica, S.A.) - regarding possible violations of the abovementioned laws and regulations. The Company is in contact with governmental authorities about this matter and intends to cooperate with those authorities as the investigation continues. It is not possible at this time to predict the scope or duration of this matter or its likely outcome.
