(1) As per this quarter we considered the margin of the financial assets of fixed income, with characteristic of credit (mostly debentures) in the margin of credit intermediation, formerly classified as ALM/other. For the purposes of comparability, the previous periods have been reclassified; and

(2) It reflects, mainly, treasury operations in the assets and liabilities management (ALM).

## Interest Earning Portion Volume Variation vs. Spread

o Credit Intermediation the reduction of the average spreads in operations with individuals is in line with the amendment of the mix of loan portfolios, which evolved into products with a lower rate and risk, like: consigned, real estate and CDC vehicles. Highlight to the evolution of the average daily origination for this segment, which grew 3% in the quarter and 35% compared to the daily average of the 1Q17. The behavior of the operations with companies is impacted by the lower credit demand, mainly of the corporate and middle market segments.

o Insurance the performance of the periods benefited from the good performance of the multimarket funds and of shares, highlighting the growth of 11.7% of the Ibovespa index this quarter.

o ALM/Other reflect, mainly, treasury operations in assets and liabilities management (ALM).

### Earning Portion of Credit Intermediation vs. ALL (Expanded)

The improvement of the quality of the loan portfolio has reduced the cost of delinquency (Expanded ALL) in the periods, boosting the evolution of the net margin of credit intermediation, offsetting the reduction in the gross margin.

---

The charts below refer to the Loan Portfolio, as defined by Bacen:

### **Flow of Maturities <sup>(1)</sup>**

The loan portfolio by flow of maturities of operations has, as one of its features, a longer profile, mainly due to the presence of real estate financing and payroll-deductible loans. It must be noted that, due to their guarantees and characteristics, these operations are not only exposed to lower risk but also provide favorable conditions to gain customer loyalty.

(1) Only normal course operations.

### **Delinquency Ratio**

#### **Over 90 days**

The ratio showed improvement for the fourth consecutive quarter, maintaining the decreasing trend, as presented in the graph, mainly related to the performance of the segments of Micro, Small and Medium-Sized Enterprises and Individuals, which in the last 12 months presented reductions in the balance of non-performing loans, of 30% and 21%, respectively.

#### **15-90 days**

In the quarter, short-term delinquency presented growth, impacted partly by seasonal issues at the beginning of the year that affected the segment of individuals, and, therefore, do not represent a trend variation, and specific cases of corporate clients. It is highlighted the improvement showed in the last 12 months for Micro, Small and Medium-Sized Enterprises and Individuals.

In the 1Q18, loans were granted (without retention of risks and benefits, already written off as loss, totaling R\$5.3 billion), which does not modify the delinquency ratio in the period. The sale value of these portfolios did not impact significantly the outcome.

---

### **Effective Coverage Ratio**

Monitoring the continuous improvement of the indicators of delinquency and of the ALL expenses (Expanded), the net losses of recoveries estimated for March 2018 indicates 3.7%, resulting in an effective coverage ratio of 269%.

### **NPL Creation 90 days vs. Write-offs**

As a consequence of the strengthening of the policy and of the processes of credit granted, the NPL Creation also follows the trend of decrease, reaching the lowest level of the last ten quarters, boosted by the reduction of delinquent credits in the segments of Micro, Small and Medium-Sized Enterprises and Individuals.

We have demonstrated below the opening of the NPL Creation per business segment.

---

## Coverage Ratio

The adjacent graph presents the behavior of the ratios covering the allowance for loan losses in relation to default credits exceeding 60 and 90 days. In March 2018, ratios showed very comfortable levels. Along with the allowance for loan losses required by Bacen, Bradesco has an excess provision of R\$6.9 billion to cover possible adverse scenarios, as well as other operations/ commitments with credit risk.

## Bacen Portfolio vs. Expanded Portfolio

The loan portfolio performance (Bacen), counts on the evolution of the segment of individuals, with emphasis on the growth of real estate credit, consigned and CDC vehicles. Also in relation to individuals, highlight to the growth in average daily origination, which raised 3% in the quarter and 35% compared to the first quarter of 2017.

The behavior of the operations with companies is impacted by the lower credit demand of the corporate and middle markets segments.

In the expanded portfolio, in addition to the effects mentioned above, the developments in the periods are impacted by the operations with sureties and guarantees, and debentures not renewed, which are almost entirely designed for large corporates.

## Loans vs. Funding

In order to analyze Loan Operations in relation to Funding, the following should be deducted from the total client funding the amount committed to reserve requirements at Bacen, the amount of available funds within the customer service network, along with the addition of, funds from domestic and foreign lines of credit that finance the demand for loans. Bradesco shows low dependency on interbank deposits and foreign lines of credit, given its capacity to obtain funding from clients effectively.

This is a result of significant capillarity, the broad diversity of products offered, and the market's confidence in the Bradesco brand and the important presence in the client's sector.

Note that the use of funds provides a comfortable margin. It proves that Bradesco is capable of meeting demands for loaning funds through its own funding.

## **Income Distribution of Grupo Bradesco Seguros e Previdência**

### **Written Premiums, Pension Plan Contributions and Capitalization Bond Income**

In the 1Q18 the turnover did not show the same performance when compared to the previous quarter due to the volume of the private pension contributions, which has an important seasonality, in the last quarter of each year.

In comparison to the 1Q17, the turnover was impacted by the lower performance of the line of “life and pension plans”, decreased 5.4%. In the same period, we highlight the “health” product, which presented a growth of 4.9%.

---

### Life and pension plans

The net income for the 1Q18 was in line with the results for the previous quarter. It is worth noting that the maintenance of claims ratio and the efficiency ratio indexes, whose contribution compensated for the decrease of 29.2% in the turnover of the line, was a consequence of the seasonality of the 4Q17, and the decrease in the financial results, a reflection of the behavior of the economic-financial ratios in the period.

In the last 12 months the net income increased 19.9%, due to the increase in the commercialization ratio and maintenance of the administrative efficiency ratio. These factors compensated for the lower turnover, the increase in the claims ratio, and the decrease in the financial results, a reflection of the behavior of the economic-financial behavior in the period.

### Evaluation of Participants and Life and Personal Accident Policyholders

### Health

The net income of 1Q18 remained stable in the annual comparison and recorded an 14.1% increase in relation to the previous quarter, due to greater revenue, improvement in the efficiency ratio and increase in the financial and equity results.

### Number of Bradesco Saúde and Mediservice Policyholders

Net income increased in the quarterly and annually comparison. The improvement presented was due to the increase in the operating incomes and administrative efficiency ratio.

The growth of profit reflects the improvement of the claims, efficiency and commercialization ratios, mainly in property & casualty. The transfer of the portfolio of large risks to Swiss RE impacted the decrease in turnover, in comparison to the 1Q17.

## Highlights

The evolution of the fee and commission income in 12 months reflects the good performance of practically all the lines, even with the lower number of business days in the period. The quarterly behavior reflects the seasonal effect of the end of the year, which impacted mainly on the income from the card activities, and the lower activity of the capital market, which affected the performance of the income from underwriting / financial advice. The results obtained with the fee and commission income shows signs of improvements in the management and the higher offer of products and services, widely available in the digital channels, in addition to the traditional channels, as well as with benefits of the process of segmentation of clients and the gains in synergies related to the acquisition of HSBC Brasil.

Below are some highlights that influence the results of the income from the provision of services:

- Cards – growth in the 12 months resulted in the increase of the volume and of the transactions made in the period and higher income with the annual fee, due to the end of the period of exemptions at the beginning of the relationship.
- Checking account – growth in the periods observed is a reflection of the improvement in the management of the portfolio of services provided, highlighting the continuous improvement process, which aims to improve and expand the variety of products offered to clients according to their segmentation.
- Asset Management – good performance resulting from the increase in the volume of the funds and portfolios managed, highlighting the multimarket funds.
- Loan Operations – this line was impacted by the lower income from commissions on guarantees offered (sureties and guarantees).

## Edgar Filing: BANK BRADESCO - Form 6-K

- Consortium – good performance due to the increase in the sales made, receipt from bids and average price, ensuring the leadership of Bradesco Consórcios in the segments in which it operates (real estate, auto and trucks/machinery and equipment).
  - Custody and Brokerage Services – growth in the quarter and in the 12 months, resulting from the increment of the total assets in custody and higher volumes of securities traded.

**Personnel Expenses** the reductions observed in the structural part are related, largely, to the effects of the Special Voluntary Severance Program Scheme PDVE, which started in August 2017, accepted by 7,400 employees, we also highlight the impact of the collective agreement in the annual comparison. In the non-structural part, the increase of expenses in the periods observed is a result of the higher expenses with the provision for labor claims, associated in part the high number of lawsuits filed at the end of 2017, probably, anticipating the entry into force of the labor reform.

**Administrative Expenses** the lower administrative expenses in the last 12 months, recorded in practically all of the lines, even considering inflation of the period, demonstrates the gains in synergy resulting from the acquisition of HSBC Brasil and the strategy

of optimization of the points of service.

---

The coverage ratio presented an improvement for the third consecutive quarter, capturing the PDVE benefits, the revenue gained from the synergy of the acquisition of HSBC Brasil and the strategy of optimization of the points of service. We also highlight the higher fee and commission income from the provision of services, which have been capturing the positive results of the process of segmentation of clients and the efficiency obtained in the management and offer of products and services.

#### **Other Operating Expenses, Net of Income**

Other Operating Expenses, Net of Income presented a growth of 5.9% in the quarter and 11.1% in the last 12 months, due to higher variable expenses, mainly those related to the performance of strategic partnerships of the segment of credit cards and constitution of operating provisions.

#### **Basel Ratio**

A large part of the reduction of capital tier I is related to the change in the schedule of application of deductions on the prudential adjustments, which went from 100% in 2018 (80% in 2017). The internal generation capital (net profit), continues with high contribution to the indicator.

Bradesco controls corporate risk management in an integrated and independent manner, preserving and valuing the Board's decisions, developing and implementing methodologies, models and measurement and control tools. It also provides training to employees at every level

It is also composed of committees, commissions and departments that support the Board of Executive Officers and the Board of Directors in decision making. The most notable amongst these are the Integrated Risk Management and Capital Allocation Committee (COGIRAC) and Risk Committee,

of the Organization, from business areas to the Board of Directors.

The risk management activity structure has policies, standards and procedures, ensuring that the Organization maintains control compatible with the nature of its operations and the complexity of its products, services, activities, processes and systems, as well as the extent of its exposure to risk.

whose purpose is to advise the Board of Directors in the performance of its duties in the management and control of risks and capital.

Detailed information regarding to risk management process, regulatory capital as well as Bradesco's risk exposures, can be found in the Risk Management Report - Pillar 3, available on the Investors Relations website at [bradesco.com.br](http://bradesco.com.br).

Bradesco has an area responsible for capital management centralization, named Capital Management, subordinated to the Department of Planning, Budget and Control, which acts jointly with the Integrated Risk Control Department, associated companies, business areas and Bradesco's supporting areas.

Additionally, this Governance is comprised of Executive Committees and one Non-Statutory Committee, which assist the Board of Directors and Board of Executive Officers in the decision-making process.

The Capital Management structure, through adequate capital sufficiency planning, aims to provide conditions for capital monitoring and control, contributing to the achievement of goals set in the strategic objectives defined by Bradesco. In addition to the Committees structure, on an annual basis, the capital plan is devised by Bradesco, which is approved by the Board of Executive Officers and Board of Directors. It is also aligned with the strategic plan and encompasses a prospective outlook of at least three years.

According to CNSP Resolution No. 321/15, amended by Resolution No. 360/17, corporations should have an adjusted shareholders' equity (ASE) equal to or higher than the minimum capital required (MCR). MCR is equivalent to the base capital or the risk capital, whichever is higher.

The process of developing this plan considers threats and opportunities, market share and development goals, capital requirement projections based on risks, as well as capital held by Bradesco. Such projections are constantly monitored and controlled by the capital management area. With the implementation of the Capital Management, a Capital Adequacy Assessment Internal Process (ICAAP), which provides conditions to assess capital sufficiency in accordance with the base and stress and extreme crisis scenarios, in a prospective outlook to identify capital and contingency actions to be taken in the respective scenarios. Capital adequacy and sufficiency information represent fundamental tools to manage and support the decision-making process.

Additional information on the capital management structure is available in the Risk Management Report – Pillar 3, and in the Integrated Report, on the Investor Relations website at [bradescori.com.br](http://bradescori.com.br).

The capital adjustment and management process is continuously monitored and aims to ensure that Grupo Bradesco Seguros keeps a solid capital base to support the development of activities and cope with the risks in any market situation, in compliance with regulatory requirements and/or Corporate Governance principles.

According to CNSP Resolution No. 343/16, the ASE is valued economically, and should be calculated based on shareholders' equity or net assets, considering the accounting adjustments and adjustments associated with changes in economic values. For companies regulated by the ANS, Normative Resolution No. 373/15 establishes that corporations should have adjusted shareholders' equity equal to or higher than the Solvency Margin.

Companies must permanently maintain capital compatible with the risks for their activities and operations, according to the characteristics of each company belonging to Grupo Bradesco Seguros, represented by adequate capital levels. Grupo Bradesco Seguros permanently observes the limits required by the respective regulatory entities. The Minimum Capital Required in February 2018 was R\$11.3 billion.

The table below shows the composition of the Reference Equity, of the Risk-Weighted Assets and of the Basel Ratio. From January 2018, the timetable for the application of deductions on the prudential adjustments resulted in 100% (2017 80% / 2016 60%).

The Management of Banco Bradesco is comprised of the Board of Directors, which is composed of eight directors, and of its Board of Executive Officers, both with their own set of bylaws, with no fulfillment of the posts of Chairman of the Board of Directors and Chief Executive Officer, according to the statutory provision.

Eight committees advise the Board of Directors: a) statutory: (i) Audit; and (ii) Remuneration; and b) non-statutory: (iii) Ethical Conduct; (iv) Risks; (v) Internal Controls and Compliance; (vi) Integrated Risk Management and Capital Allocation – COGIRAC; (vii) Sustainability; and (viii) Succession and Nomination. Various executive committees assist the activities of the Board of Executive Officers, being all regulated by their own set of bylaws.

The Senior Management and all the employees are committed to compliance with the laws and regulations applicable to activities, as well as the conduct of business by observing high standards of conduct and ethics. To ensure these commitments there are policies, standards, processes and systems for the monitoring of conduct, channels and mechanisms for handling complaints, in addition to a specific area for responses throughout the program. These components are supported by Committees linked to the Board of Directors, such as Ethical Conduct, Integrated Risk Management and Capital Allocation, Internal Controls and Compliance and supported by training and capacity building actions developed by Unibrad – Bradesco University for all the professionals, focused on the themes of Conduct, Controls and Compliance.

The Fiscal Council, permanent supervisory body, is composed of five effective members and an equal number of alternate members. Minority preferred shareholders and non-controlling shareholders, holders of common shares are responsible for chosen two effective members and their respective alternates. Besides the Fiscal Council and the Audit Committee, Bradesco is submitted to Internal Audit which reports to the Board of Directors.

In 2001, Bradesco adhered voluntarily to Level 1 of Corporate Governance of B3 and, in 2011, to the Self-Regulation Code and Best Practices of Publicly Traded Companies – ABRASCA. Further information is available on Bradesco's Investor Relations website ([bradescori.com.br](http://bradescori.com.br) – Corporate Governance Section).

In meeting the best practices of corporate governance, the Bradesco Organization adopts its own program of integrity which is composed by a set of policies, standards and procedures aimed at for the prevention, monitoring, detection and response in relation to harmful acts foreseen in Law No. 12,846/13 and international laws, especially the Foreign Corrupt Practices Act and the United Kingdom Bribery Act.

The commitment to transparency, democratization of information, punctuality and the pursuit of the best practices are essential factors and are constantly reinforced by Bradesco's Investor Relations area.

In the first quarter of 2018, there were 34 events promoted with national and international investors, through conferences, meetings, conference calls and institutional presentations, assisting 360 investors. It also held two teleconferences of results to institutional investors.

Also seeking to provide information more dynamically and intuitively, making the navigation in the virtual environment more assertive, Bradesco launched, in January 2018, the new Investor Relations website, which can be accessed on the address [banco.bradesco/ri](http://banco.bradesco/ri). The new virtual environment also has the characteristic of being responsive, allowing access to the same content through different devices.

Another highlight of the quarter was the publication of the Integrated Report, concerning the year of 2017. This document brings the main practices, results and challenges of the Organization throughout the year, as well as its strategic vision for the future. For the first time, following best market practices, we have created the document in its summarized version, which makes the reading more appealing. The version in the website format that offers even greater detail of indicators and related topics is scheduled for the end of April 2018.

Bradesco seeks to include sustainability in the business with the aim of increasing its capacity to thrive in the long term in a competitive and dynamic business environment. The perception that we are moving towards a transition to a new economy, more aligned with the development challenges that we face, leads us to incorporate social and environmental aspects in the management of risks and opportunities, in order to ensure positive results and the generation of shared value.

The commitment to sustainability is also reinforced in the establishment of dialogs with various stakeholders, through adherence to corporate initiatives and voluntary commitments, such as: Global Compact Initiatives, Goals of Sustainable Development, Equator Principles, Carbon Disclosure Project – CDP (Climate Initiative), Principles for Responsible Investment (PRI), Businesses for the Climate (EPC), CEBDS (Brazilian Business Center for Sustainable Development), among others.

The main decisions and monitoring of the strategy of sustainability are conducted by the Sustainability Committee, coordinated by the Chairman of the Board of Directors and with the participation of the Chief Executive Officer, as well as members of the Board of Directors and of the Board of Executive Officers.

The Organization also has a Sustainability Committee composed of executives and officers from several areas, responsible for proposing strategies and solutions that promote the application of best practices of sustainability.

The performance of the activities of sustainability of the Organization is reflected in the external assessments of the main

To

Board of Directors and Shareholders of Banco Bradesco S.A. Osasco SP

We were engaged by Banco Bradesco S.A. ("Bradesco") to report on the consolidated supplementary accounting information of Banco Bradesco S.A. as of March 31, 2018 and for the three month period then ended, in the form of a limited assurance conclusion if, based on our engagement performed, described in this report, nothing has come to our attention that causes us to believe that the supplementary accounting information included within the Economic and Financial Analysis Report are not presented, in all material respects, based on the information referred to in the Criteria for preparing the supplementary accounting information paragraph.

#### Responsibilities of the Management of Bradesco

Management of Bradesco is responsible for preparing and adequately presenting the consolidated supplementary accounting information included within the Economic and Financial Analysis Report based on the criteria for the preparation of the supplementary accounting information described below, and for other information contained within this report, as well as the design, implementation and maintenance of internal controls that management determined as necessary to allow for such information that is free from material misstatement, whether due to fraud or error.

#### Independent Auditor's Responsibility

Our responsibility is to review the supplementary accounting information included within the Economic and Financial Analysis Report prepared by Bradesco and to report thereon in the form of a limited assurance conclusion based on the evidence obtained. We conducted our engagement in accordance with the NBC TO 3000 - Assurance Engagement Other than Audit and Review (ISAE 3000). That standard requires that we comply with ethical requirements, including independence requirements, and plan and perform our procedures to obtain a meaningful level of limited assurance about whether we did not become aware of any fact that could lead us to believe that the supplementary accounting information included within the Economic and Financial Analysis Report are not presented, in all material respects, to the information referred to in the Criteria for preparing the supplementary accounting information paragraph.

The procedures selected were based on our understanding of the consolidated supplementary accounting information included within the Economic and Financial Analysis Report, as well as other circumstances of our work and our consideration of other areas that may contain material misstatements, regardless of whether they are caused by fraud or error. However, such procedures do not include investigation or detection of fraud or error.

Limited assurance is less than absolute assurance and reasonable assurance. Procedures to gather information to a limited assurance engagement are more limited than to a reasonable assurance engagement and, therefore, we obtain less assurance than a reasonable assurance engagement; consequently, we do not express neither an audit opinion nor a reasonable assurance over the supplementary accounting information included within the Economic and Financial Analysis Report.

Our conclusion does not contemplate aspects related to any prospective information contained within the Economic and Financial Analysis Report, nor offers any guarantee if the assumptions used by Management to provide a reasonable basis for the projections presented. Therefore, our report does not offer any type of assurance on the scope of future information (such as goals, expectations and ambitions) and descriptive information that is subject to subjective assessment.

#### Criteria for Preparing the Supplementary Accounting Information

The consolidated supplementary accounting information disclosed within the Economic and Financial Analysis Report, as of March 31, 2018 and for the three month period then ended has been prepared by the Management of Bradesco, based on the information contained in the March 31, 2018 intermediate consolidated financial statements and the accounting information adjusted to the criteria described in Note 4 of such intermediate consolidated financial statements, in order to facilitate additional analysis, without, however, being part of the intermediate consolidated financial statements disclosed on this date.

#### Conclusion

Our conclusion has been formed on the basis of, and is limited to the matters outlined in this report.

Based on the procedures performed we did not become aware of any fact that lead us to believe that the consolidated supplementary accounting information included within the Economic and Financial Analysis Report are not presented, in all material respects, in accordance with the information referred to in the Criteria for preparing the supplementary accounting information paragraph.

Consolidated Financial Statements, Independent Auditors' Report and Fiscal Council's Report

**Management Report**

Dear Shareholders,

We hereby present the Consolidated Financial Statements of Banco Bradesco S.A. related to the year ended on March 31, 2018, prepared in accordance with the accounting practices used in Brazil and applicable to institutions authorized to operate by the Central Bank of Brazil.

The gradual recovery of the Brazilian economy was maintained at the beginning of this year, with an emphasis on household consumption and investments. There was no deterioration in the trajectory of inflation; on the contrary, the benign scenario for prices has generated a downward trend in interest. Despite the recent episodes of volatility, the foundations of the world economy remain solid, with the resumption of investments and the maintenance of the prices of the main commodities at high levels.

Among the major events at Bradesco Organization in the first quarter, the following are the most noteworthy:

On March 13, in the Board of Directors' Meeting, Mr. Octavio de Lazari Junior, a professional with nearly 40 years of work dedicated to the Organization, assumed the Presidency of the Bank's Board of Executive Officers succeeding Mr. Luiz Carlos Trabuco Cappi who, after 9 years he left the Board of Executive Officers and was reappointed to the Presidency of the Board of Directors in a role for which he had been elected on October 10, 2017.

Bradesco presented, in the first quarter, a Net Income of R\$4.467 billion, equivalent to R\$0.67 per share and profitability of 16.3% over the average Shareholders' Equity. The return on Average Total Assets was 1.5%.

In terms of Interest on Own Capital, R\$1.788 billion was destined to the shareholders, in gross values, in

With this, the interest on own capital related to the month of May 2018, to be paid on June 1, 2018, will be incremented by 10.0%. Added to the Equity Reserves of R\$46.676 billion, it resulted in a Shareholders' Equity of R\$113.776 billion, with a growth of 8.8% on the same period of the previous year, corresponding to the equity value of R\$17.00 per share.

The Market Value of Bradesco, based on the calculation of the listing of its shares, reached R\$237.219 billion on March 31, 2018, equivalent to 2.1 times the Accounting Shareholders' Equity.

Managed Shareholders' Equity is equivalent to 9.3% of the Consolidated Assets, totaling R\$1.231 trillion, an increase of 3.5% compared to the same period of the previous year. As consequence, the basel reached 15.9%, higher than the minimum of 11.0% regulated by Resolution No. 4,193/13 of the National Monetary Council, according to the Basel Committee. At the end of the quarter, the immobilization index, compared to the Reference Equity, reached 43.1% in the Prudential Conglomerate, within the maximum limit of 50.0%, established by the Central Bank of Brazil.

As provided by Article 8 of the Circular Letter No. 3,068/01 of the Central Bank of Brazil, Bradesco declares that it has the financial capacity and the intention of holding to maturity the securities classified under "held to maturity securities".

On March 31, 2018, the resources funded and managed amounted to R\$1.933 trillion, 4.9% higher than the previous year, distributed as:

R\$500.543 billion in Demand Deposits, Time Deposits, Interbank Deposits, Savings Accounts and Securities Sold Under Agreements for Repurchase;

R\$841.983 billion in assets under management, comprising Investment Funds, Managed Portfolios

the period between January and March 2018, wherein R\$331 million was paid monthly and R\$1.457 billion provisioned.

Taxes and contributions including pensions, paid or provisioned, totaled R\$7.976 billion in the quarter, of which R\$3.349 billion is related to taxes withheld and collected from third parties and R\$4.627 billion calculated based on the activities developed by the Bradesco Organization, equivalent to 103.6% of the Net Income.

At the end of the first quarter this year, the paid-up Share Capital totalled R\$67.100 billion, which includes the increase of R\$8.0 billion, with a bonus of 10.0% in shares, through the use of part of the balance of the account "Reserves from Profits – Statutory Reserve", decided in the Special Shareholders' Meeting held on March 12, 2018, and approved by the Central Bank of Brazil on March 16.

and Third-Party Fund Quotas, a 7.1% increase;

Consolidated Financial Statements, Independent Auditors' Report and Fiscal Council's Report

***Notes to the Consolidated Financial Statements***

**1) OPERATIONS**

Banco Bradesco S.A. (Bradesco) is a private-sector publicly traded company and universal bank that, through its commercial, foreign exchange, consumer financing and housing loan portfolios, carries out all the types of banking activities for which it has authorization. The Bank is involved in a number of other activities, either directly or indirectly, through its subsidiaries, specifically leases, investment banking, brokerage, consortium management, credit cards, real estate projects, insurance, pension plans and capitalization bonds. All these activities are undertaken by the various companies in the Bradesco Organization (Organization), working together in an integrated manner in the market.

**2) PRESENTATION OF THE CONSOLIDATED FINANCIAL STATEMENTS**

Bradesco's consolidated financial statements include the financial statements for Bradesco, its foreign branches and subsidiaries, in Brazil and overseas and SPEs (Special Purpose Entities) and investment funds of which the Organization's companies are the main beneficiaries or holders of the principal obligations, as established by Technical Pronouncement CPC 36 (R3), "Consolidation". These statements were prepared in conformity with accounting practices adopted in Brazil applicable to institutions authorized to operate by the Brazilian Central Bank (Bacen), and are in conformity with accounting guidelines included in Laws No. 4,595/64 (Brazilian Financial System Law) and No. 6,404/76 (Brazilian Corporate Law), including amendments introduced by Laws No. 11,638/07 and No. 11,941/09, as they relate to the accounting for operations, complemented by the rules and instructions of the National Monetary Council (CMN), Bacen, Brazilian Securities and Exchange Commission (CVM), and where applicable, National Private Insurance Council (CNSP), Insurance Superintendence (Susep) and National Supplementary Healthcare Agency (ANS). The financial statements of the lease companies included in the consolidated financial statements were prepared using the finance lease method, under which the carrying amount of leased premises and equipment less the residual value paid in advance are reclassified.

Management states that it has disclosed all relevant information in the consolidated financial statements of Bradesco and that the accounting practices described above have been applied in a consistent manner in all years presented.

For the preparation of these consolidated financial statements, the intercompany transactions, balances of equity accounts, revenue, expenses and unrealized profits were eliminated and net income and

shareholders' equity attributable to the non-controlling interests were accounted for in a separate line. Goodwill on the acquisition of investments in associates, subsidiaries or jointly controlled companies is presented in the investments and intangible assets lines (Note 14a). The foreign exchange variation from foreign branches and investments is presented in the statement of income accounts used for changes in the value of the derivative financial instrument and borrowing and on-lending operations in order to offset these results with the hedges of these investments.

The financial statements include estimates and assumptions, such as: the calculation of estimated loan losses; fair value estimates of certain financial instruments; civil, tax and labor provisions; impairment losses of securities classified as available-for-sale and held-to-maturity securities and non-financial assets; the calculation of technical provisions for insurance, pension plans and capitalization bonds; and the determination of the useful life of specific assets. Actual results may differ from those based on estimates and assumptions.

Bradesco's consolidated financial statements were approved by the Board of Directors on April 25, 2018.

(8) Company merged into Kirton Seguros S.A., in July 2017; and

(9) The investment funds in which Bradesco assumes or substantially retains the risks and benefits were consolidated.

**3) SIGNIFICANT ACCOUNTING PRACTICES****a) Functional and presentation currencies**

Consolidated financial statements are presented in Brazilian reais, which is also Bradesco's functional currency. Foreign branches and subsidiaries are mainly a continuation of activities in Brazil, and, therefore, assets, liabilities and profit or loss are translated into Brazilian reais using the appropriate currency exchange rate, to comply with accounting practices adopted in Brazil. Foreign currency translation gains and losses arising are recognized in the period's statement of income in the lines "Derivative Financial Instruments" and "Borrowing and On-lending".

## **b) Income and expense recognition**

Income and expenses are recognized on an accrual basis in order to determine the net income for the period to which they relate, regardless of when the funds are received or paid.

Fixed rate contracts are recognized at their redemption value with the income or expense relating to future periods being recognized as a deduction from the corresponding asset or liability. Finance income and costs are recognized daily on a pro-rata basis and calculated using the compounding method, except when they relate to discounted notes or to foreign transactions, which are calculated using the straight-line method.

Floating rate and foreign-currency-indexed contracts are adjusted for interest and foreign exchange rates applicable at the reporting date.

Insurance and coinsurance premiums, net of premiums paid for coinsurance and related commissions, are recognized upon the issue of the related policies/certificates/endorsements and invoices, or upon the beginning of the exposure to risk in cases in which the risk begins before the policy issuance, and is recognized on a straight-line basis over the policies' effective period through the upfront recognition and subsequent reversal through the statement of income of the unearned premium reserve and the deferred acquisition costs. Revenues from premiums and the corresponding deferred acquisition costs, relating to existing risk for which no policy has been issued, are recognized in the statement of income at the beginning of the risk exposure, based on estimated figures.

The health insurance premiums are recognized in the premiums (results) account or provision for unearned premiums/considerations (PPCNG), according to the period of coverage of contracts in force on the reporting date.

Consolidated Financial Statements, Independent Auditors' Report and Fiscal Council's Report

***Notes to the Consolidated Financial Statements***

Income and expenses arising from Mandatory Insurance For Personal Injury Caused by Motor Vehicles (DPVAT) insurance operations are recognized based on information provided by Seguradora Líder dos Consórcios do Seguro DPVAT S.A.

Accepted coinsurance and retrocession operations are recognized based on the information received from other insurers and IRB - Brasil Resseguros S.A. (IRB), respectively.

Reinsurance operations are recognized based on the premium and claims information provided, which is subject to the analysis of the re-insurers. The deductions of reinsurance premiums granted are consistent with the recognition of the corresponding insurance premium and/or terms of the reinsurance contract.

Contributions and agency fees are deferred and recognized in the statement of income on a straight-line basis over a period of 24 months for health insurance operations, and 12 months for other operations.

Pension plan contributions and life insurance premiums with survival coverage are recognized in the statement of income as they are received.

Revenue from capitalization bonds is recognized in the month in which they are issued, according to the types of collection, which may be in monthly payments or in a single payment. Each security has a nominal value, which is indexed to the Reference Rate (TR) interest rates defined in the plan. Technical provisions are recognized when the respective revenues are recognized.

The revenues arising from unclaimed and expired capitalization bonds (securities and non-redeemed draws) are recognized after the prescription period, that is, until November 2003, up to 20 years and five years after this date as established by law. The expenses related to commercialization of capitalization bonds are classified as "Acquisition Costs" and are recognized in the statement of income as incurred.

**c) Cash and cash equivalents**

Cash and cash equivalents include: funds available in currency, investments in gold, securities sold under agreements to repurchase and interest-earning deposits in other banks, maturing in 90 days or less, from the time of the acquisition, which are exposed to insignificant risk of change in fair value. These funds are used by Bradesco to manage its short-term commitments.

Cash and cash equivalents detailed balances are presented in Note 5.

**d) Interbank investments**

Securities purchased under agreements to resell are stated at their fair value. All other interbank investments are stated at cost, plus income earned up to the end of the reporting period, net of any devaluation allowance, if applicable.

The breakdown, terms and proceeds relating to interbank investments are presented in Note 6.

**e) Securities – Classification**

- Trading securities – securities acquired for the purpose of being actively and frequently traded. They are recognized at cost, plus income earned and adjusted to fair value with changes recognized in the Statement of Income for the period;
- Available-for-sale securities – securities that are not specifically intended for trading purposes or to be held to maturity. They are recognized at cost, plus income earned, which is recognized in profit or loss in the period and adjusted to fair value with changes recognized in shareholders' equity, net of tax, which will be transferred to the Statement of Income only when effectively realized; and

Consolidated Financial Statements, Independent Auditors' Report and Fiscal Council's Report

**Notes to the Consolidated Financial Statements**

- Held-to-maturity securities – securities for which there is positive intent and financial capacity to hold to maturity. They are recognized at cost, plus income earned recognized in the Statement of Income for the period.

Securities classified as trading and available-for-sale, as well as derivative financial instruments, are recognized in the consolidated statement of financial position at their fair value. Fair value is generally based on quoted market prices or quotations for assets or liabilities with similar characteristics. If market prices are not available, fair values are based on traders' quotations, pricing models, discounted cash flows or similar techniques to determine the fair value and may require judgment or significant estimates by Management.

Classification, breakdown and segmentation of securities are presented in Note 7.

**f) Derivative financial instruments (assets and liabilities)**

Derivative financial instruments are designed to meet the Company's own needs to manage Bradesco's global exposure, as well to meet customer requests, in order to manage its positions.

The operations are recorded at their fair value considering the mark-to-market methodologies adopted by Bradesco, and their adjustment can be recorded in the statement of income or equity, depending on the classification between accounting hedge, their categories and economic hedge.

Derivative financial instruments used to mitigate the risks of exposures in currencies, indexes, prices, rates or indexes are considered as hedge instruments, whose objectives are: (i) To control and frame operations, respecting exposure limits and current risks; (ii) Change, modify or reverse positions due to market changes and operational strategies; and (iii) Reduce or mitigate exposures of operations in markets that are inoperative, under conditions of stress or of low liquidity.

Instruments designated for hedge accounting purposes are classified according to their nature in:

- Market risk hedge: the gains and losses, realized or not, of the financial instruments classified in this category as well as the financial assets and liabilities, that are the object of the hedge, are recognized in the Statement of Income; and
- Cash flow hedge: the effective portion of valuation or devaluation of the financial instruments classified in this category is recognized, net of taxes, in a specific account in shareholders' equity. The ineffective portion of the hedge is recognized directly in the Statement of Income; and
- Hedge of net investment in foreign operations - the financial instruments classified in this category are intended to hedge the exchange variation of investments abroad, whose functional currency is different from the national currency, and are accounted for in accordance with the accounting procedures applicable to the hedge category of cash flow, that is, with the effective portion recognized in shareholders' equity, net of tax effects, and the non-effective portion recognized in income for the period.

For derivatives classified in the hedge accounting category, there is a follow-up of: (i) strategy effectiveness, through prospective and retrospective effectiveness tests, and (ii) mark-to-market of hedge instruments.

A breakdown of amounts included as derivative financial instruments, in the statement of financial position and off-balance-sheet accounts, is disclosed in Note 7.

**g) Loans and leases, advances on foreign exchange contracts, other receivables with credit characteristics and allowance for loan losses**

Loans and leases, advances on foreign exchange contracts and other receivables with credit characteristics are classified by risk level, based on: (i) the parameters established by CMN Resolution No. 2,682/99, which requires risk ratings to have nine levels, from "AA" (minimum risk) to "H" (maximum risk) considering, among other things, the delay levels (as described in table below); and (ii) Management's assessment of the risk level. This assessment, which is carried out regularly, considers current economic conditions and past experience with loan losses, as well as specific and general risks relating to contract, debtors and guarantors.

**Notes to the Consolidated Financial Statements**

<b>Past-due period (1)</b>	<b>Customer rating</b>
from 15 to 30 days	B
from 31 to 60 days	C
from 61 to 90 days	D
from 91 to 120 days	E
from 121 to 150 days	F
from 151 to 180 days	G
more than 180 days	H

(1) For transactions with terms of more than 36 months, past-due periods are doubled, as permitted by CMN Resolution No. 2,682/99.

Interest and inflation adjustments on past-due transactions are only recognized in the Statement of Income up to the 60<sup>th</sup> day that they are past due.

H-rated past-due transactions remain at this level for six months, after which they are written-off against the existing allowance and controlled in off-balance-sheet accounts for at least five years.

Renegotiated operations are maintained at least at the same rating in which they were classified.

Renegotiations of operations had already written-off against the allowance and that were recognized in off-balance-sheet accounts, are rated as level "H" and any possible gains derived from their renegotiation are recognized only when they are effectively received. When there is a significant repayment on the operation or when new material facts justify a change in the level of risk, the loan may be reclassified to a lower risk category.

The estimated allowance for loan losses is calculated to sufficiently cover probable losses, according to CMN and Bacen standards and instructions, together with Management's assessment of the credit risk.

The classification of the credit operations of the same economic client or group is defined as the one that presents the highest risk, and, in exceptional cases, different ratings for a particular operation are accepted according to the nature, value, purpose of the operation and characteristics of the guarantees.

Type, values, terms, levels of risk, concentration, economic sector of client's activity, renegotiation and income from loans, as well as the breakdown of expenses and statement of financial position accounts for the allowance for loan losses are presented in Note 9.

#### **h) Income tax and social contribution (assets and liabilities)**

Deferred tax assets, calculated on income tax losses, social contribution losses and temporary differences, are recognized in "Other Receivables - Sundry" and the deferred tax liabilities on tax differences in lease asset depreciation (applicable only for income tax), fair value adjustments on securities, inflation adjustment of judicial deposits, among others, are recognized in "Other Liabilities - Tax and Social Security".

Deferred tax assets on temporary differences are realized when the difference between the accounting treatment and the income tax treatment reverses. Deferred tax assets on income tax and social contribution losses are realizable when taxable income is generated, up to the 30% limit of the taxable profit for the period. Deferred tax assets are recognized based on current expectations of realization considering technical studies and analyses carried out by Management.

The provision for income tax is calculated at 15% of taxable income plus a 10% surcharge. For financial companies, for companies considered as such and for the insurance industry, the social

contribution on the profit was calculated until August 2015, considering the rate of 15%. For the period between September 2015 and December 2018, the rate was changed to 20%, according to Law No. 13,169/15 and the rate will be 15% again as from January 2019. For the other companies, the social contribution is calculated considering the rate of 9%.

Due to the amendment of the rate, the Organization recognized, in September 2015, an incremental amount to the deferred tax of social contribution, considering the annual expectations of realization and their respective rates in force in each period, according to the technical study produced.

Provisions were recognized for other income tax and social contribution in accordance with specific applicable legislation.

The breakdown of income tax and social contribution, showing the calculations, the origin and expected use of deferred tax assets, as well as unrecognized deferred tax assets, is presented in Note 33.

**i) Prepaid expenses**

Prepaid expenses consist of funds already disbursed for future benefits or services, which are recognized in the profit or loss on an accrual basis.

Incurring costs relating to assets that will generate revenue in subsequent periods are recognized in the Statement of Income according to the terms and the amount of expected benefits and directly recognized in the Statement of Income when the corresponding assets or rights are no longer part of the institution's assets or when future benefits are no longer expected.

In the case of the remuneration paid for the origination of credit operations or leases to the banking correspondents related to credit operations originated during 2015 and 2016, Bradesco opted to recognize part of the total value of compensation, pursuant to the provisions of Bacen Circular Letter No. 3,738/14. As of 2017, the remuneration mentioned is fully recognized as an expense.

Prepaid expenses are shown in detail in Note 11b.

#### **j) Investments**

Investments in unconsolidated companies, where Bradesco has significant influence over the investee or holds at least 20% of the voting rights, and jointly controlled companies, are accounted for using the equity method.

Tax incentives and other investments are stated at cost, less allowance for losses/impairment, where applicable.

Subsidiaries are consolidated – the composition of the main companies are disclosed in Note 2. The composition of unconsolidated and jointly controlled companies, as well as other investments, are disclosed in Note 12.

#### **k) Premises and equipment**

Relates to the tangible assets used by the Bank in its activities, including those resulting from transactions that transfer risks, benefits and control of the assets to the Bank.

Premises and equipment are stated at acquisition cost, net of accumulated depreciation, calculated by the straight-line method based on the assets' estimated economic useful life, using the following rates: real estate – 4% per annum; installations, furniture, equipment for use, security systems and communications – 10% per annum; transport systems – 10% to 20% per annum; and data processing systems – 20% to 40% per annum, and adjusted for impairment, when applicable.

The breakdown of asset costs and their corresponding depreciation, as well as the unrecognized surplus value for real estate and the fixed asset ratios, is disclosed in Note 13.

***Notes to the Consolidated Financial Statements***

**l) Intangible assets**

Relates to the right over intangible assets used by the Bank in its activities.

Intangible assets comprise:

- Future profitability/acquired client portfolio and acquisition of right to provide banking services: they are recognized and amortized over the period in which the asset will directly and indirectly contribute to future cash flows and adjusted for impairment, where applicable; and
- Software: stated at cost less amortization calculated on a straight-line basis over the estimated useful life (20% p.a.), from the date it is available for use and adjusted for impairment, where applicable. Internal software development costs are recognized as an intangible asset when it is possible to show the intent and ability to complete and use the software, as well as to reliably measure costs directly attributable to the intangible asset. These costs are amortized during the software's estimated useful life, considering the expected future economic benefits.

Intangible assets and the movement in these balances by class are presented in Note 14.

**m) Impairment**

Financial and non-financial assets are tested for impairment.

Objective evidence of impairment may comprise the non-payment or payment delay by the debtor, possible bankruptcy process or the significant or extended decline in an asset value.

An impairment loss of a financial or non-financial asset is recognized in the profit or loss for the period if the carrying amount of an asset or cash-generating unit exceeds its recoverable value. Impairment losses are presented in Note 7.

**n) Deposits and funds obtained in the open market**

These are recognized at the value of the liabilities and include, when applicable, related interest accrued at the end of the reporting period, calculated on a daily pro-rata basis.

The composition of the securities recorded in deposits and funds obtained in the open market, as well as their maturities and amounts recorded in equity and income accounts, are presented in Note 15.

**o) Technical provisions relating to insurance, pension plans and capitalization bonds**

- Damage, health and group insurance lines, except life insurance with survival coverage (VGBL):
  - The unearned premium reserve (PPNG) is calculated on a daily pro-rata basis, using premiums net of coinsurance, including amounts ceded through reinsurance, and is comprised of the portion corresponding to the remaining period of coverage less initial contracting costs ( for contracts for the previous term to 2017), except for health and personal insurance. The portion of these reserves corresponding to the estimate for risks in effect but not yet contracted is designated 'PPNG-RVNE';
  - The unearned premium or contribution reserve (PPCNG) is calculated on a daily pro-rata basis based on the portion of health insurance premiums corresponding to the remaining period of coverage, of the currently effective contracts;
  - The mathematical reserve for unvested benefits (PMBaC) whose calculation methodology considers, in addition to the discount rate of 4% per year (4.5% in 2017), the difference between the current value of future benefits and the current value of future contributions, on obligations already assumed by Bradesco;

Consolidated Financial Statements, Independent Auditors' Report and Fiscal Council's Report

**Notes to the Consolidated Financial Statements**

- Regarding individual health care plan portfolio, as to the remittance coverage of five years for dependents of the holder, in the event of death of the holder, the mathematical reserve is constituted for unvested benefits (PMBaC) which is calculated using a 4% annual discount rate (4.5% in 2017), the time holders are expected to remain in the plan up to their death, and the projected costs of the five-year-period cover, excluding payment of premiums;
  
- For health insurance, the mathematical reserve of benefits granted (PMBC) is constituted by the obligations arising from the contractual clauses of remittance of installments, regarding the coverage of health assistance and by the premiums paid by insured participating in the Bradesco Saúde Insurance Plan - "GBS Plan" considering a discount rate of 4% (4.5% in 2017) per annum;
  
- The reserve for events incurred but not reported (PEONA) is calculated from the final estimate of claims already incurred and still not reported, based on the run-off triangles, monthly that consider the historical development of claims advised in the last 12 months for health insurance and last 18 months for dental care to establish a future projection per period of occurrence;
  
- For non-life insurance, the reserve for 'incurred but not reported' (IBNR) claims is calculated based on incurred but not paid' (IBNP) claims less the balance of the reserve for 'unsettled' claims (PSL) on the calculation date. A final estimate of IBNP is calculated using semi-annual run-off triangles. The run-off triangles consider the historical development of claims paid in the previous 10 semesters and in last 11 quarters to extended warranty segments to determine a future projection per occurrence period, and considers the estimated claims 'incurred but not sufficient' reported (IBNER), reflecting the changing expectation of the amount provisioned along the regulatory process;
  
- For life insurance, the provision of 'incurred but not reported claims (IBNR) is calculated based on semi-annual run-off triangles, which consider the historical development of claims paid and outstanding in the prior 10 semesters, to establish a future projection per period of occurrence; A residual cause study is performed to forecast the claims reported after 10 semesters that the event occurred;
  
- The reserve for unsettled claims (PSL), for life and health insurance, considers all claim notifications received up to the end of the reporting period, updated monetarily and includes all claims in litigation;

- For non-life insurance, the reserve for unsettled claims (PSL) is determined based on the indemnity payment estimates, considering all administrative and judicial claims existing at the reporting date, restated monetarily and with interest in case of judicial claims, net of the expected payments to be received;
  
- The technical surplus reserve (PET) corresponds to the difference between the expected value and the observed value for events occurred in the period for insurance of policyholders with a clause of participation in the technical surplus;
  
- The reserve for related expenses (PDR) for insurance of persons is recognized to cover expenses related to estimated claims and benefits for products structured in self-funding and partially regimes, the reserve covers claims incurred. For plans structured under a capitalization regime, the reserve is made to cover the expected expenses related to incurred claims and also claims expected to be incurred in the future;
  
- For damage insurance, the reserve for related expenses is (PDR) calculated on a monthly basis to cover the expenses related to indemnity payment, and it covers the expenses allocated individually to each claim, as well as expenses related to claims that have not been itemized, that is, those at the level of the portfolio;
  
- The reserve for redemptions and other amounts to be settled (PVR) comprises figures related to redemptions to settle, premium refunds owed and portability (transfer-outs) requested but not yet transferred to the recipient insurer;

Consolidated Financial Statements, Independent Auditors' Report and Fiscal Council's Report

**Notes to the Consolidated Financial Statements**

- The complementary reserve for coverage (PCC) for damage insurance shall be recorded when there is an insufficiency in the technical provisions, as calculated in the Liability Adequacy Test (LAT), pursuant to the determinations specified in the regulations in force. As of the base date, there is no need to record complementary reserve for coverage;
  
- The complementary reserve for coverage (PCC) for life insurance, refers to the amount necessary to complement technical provisions, as calculated in the LAT. The LAT, which is prepared using statistical and actuarial methods based on realistic assumptions, taking into account the biometric table BR-EMS of both genders, adjusted as per longevity development criteria in compliance with the last versions disclosed (improvement), and forward interest rate curves (ETTJ) free from risk as authorized by SUSEP. The improvement rate is calculated from automatic updates of the biometric table, considering the expected increase in future life expectancy;
  
- The other technical provisions for damage insurance correspond to the provision for administrative expenses (PDA) arising from Personal Injury Caused by Motor Vehicles (DPVAT) insurance operations;
  
- Other technical provisions are recognized for the individual health portfolio to address the differences between the expected present value of future premiums and the expected present value of indemnities and related expenses, using an annual discount rate of 4% (4.5% in 2017) per annum; and
  
- In 2018, the amount recorded in other technical provisions includes the transfer of the mathematical reserves of benefits to be granted and benefits granted, upon SUSEP's authorization. The provision refers to the difference between the calculation of the mathematical provisions with realistic premises approved by authorities and the calculation with the technical bases defined on the technical notes of the product.
  
- Pension plans and life insurance with survival coverage (VGBL):
  
- The unearned premium reserve (PPNG) is calculated on a daily prorated basis using net contributions, and is comprised of the portion corresponding to the remaining period of coverage and includes an

estimate for risks covered but not yet issued (RVNE);

- The mathematical reserve for unvested benefits (PMBaC) is recognized for participants who have not yet received any benefit. In defined benefit pension plans, the reserve represents the difference between the present value of future benefits and the present value of future contributions, corresponding to obligations in the form of retirement, disability, pension and annuity plans. The reserve is calculated using methodologies and assumptions set forth in the actuarial technical notes;

- The mathematical reserve for unvested benefits (PMBaC) related to pension plans and life insurance with survival coverage, as well as the defined contribution plans, shows the value of participant contributions, net of costs and other contractual charges, plus income from investment in specially constituted investment funds (FIEs);

- The reserve for redemptions and other amounts to be settled (PVR) comprises figures related to redemptions to settle, premium refunds owed and portability (transfer-outs) requested but not yet transferred to the recipient insurer;

- The mathematical reserve for vested benefits (PMBC) is recognized for participants already receiving benefits and corresponds to the present value of future obligations related to the payment of those on-going benefits;

- The complementary reserve for coverage (PCC) refers to the amount necessary to complement technical provisions, as calculated in the LAT. The LAT, which is prepared semi-annually using statistical and actuarial methods based on realistic assumptions, taking into account the biometric table BR-EMS of both genders, improvement and forward interest

rate curves (ETTJ) free from risk as authorized by SUSEP. The improvement rate is calculated from automatic updates of the biometric table, considering the expected increase in future life expectancy;

- The reserve for related expenses (PDR) is recognized to cover expenses related to estimated claims and benefits, for products structured in self-funding and partially regimes. For plans structured under a capitalization regime, the reserve is made to cover the expected expenses related to incurred claims and also claims expected to be incurred in the future. The projections are performed through the liability adequacy test (TAP);
  
  - The reserve for financial surplus (PEF) corresponds to the financial income exceeding the minimum assured profitability, transferred to contracts with a financial surplus participation clause;
  
  - The provision for claims incurred but not reported (IBNR) is calculated based on semi-annual run-off triangles, which consider the historical development of claims paid and outstanding in the last 16 semesters for the creation of a new future projection by period of occurrence. As to acquired portfolios, a history of 10 semesters is used;
  
  - The reserve for unsettled claims (PSL) considers all loss notices received up to the end of the reporting period. The provision is updated for inflation and includes all claims in litigation; and
  
  - The financial charges credited to technical provisions, and the recording and/or reversal of the financial surplus, are classified as financial expenses, and are presented under "Financial income from insurance, pension plans and capitalization bonds".
- Capitalization bonds:
    - The mathematical reserve for capitalization bond (PMC) is recognized for each active or suspended capitalization bond over the term set forth in the general conditions of the plan, and is calculated using the capitalization percentage, applicable to each of the payments made, plus the monthly accrual calculated

using the inflation index and the interest rate established in the plan until the bond is redeemed or canceled;

- The reserve for redemption (PR) comprises the values of matured and early-terminated capitalization bonds and is calculated by updating the balance of bonds whose terms have expired or canceled using the inflation index until the holder receives the redemption payment;

- Reserve for 'draws to be held' (PSR) is recognized to cover premiums for future prize draws, and the balance represents the present value of the draws that have already been funded but have not yet been held. The calculation methodology consists of the accumulation of the prize draw percentage applicable to each payment, as established in the plan, less the amounts related to prize draws that have already occurred. The percentages of payments designated for the prize draws is defined in advance in the actuarial technical note, and is not modified during the term of the bond;

- Reserve for draws payable (PSP) consists of the value of unpaid prize draw amounts, adjusted for inflation for the period between the date of the drawing and its effective settlement; and

- Reserve for administrative expense (PDA) is recognized to cover the cost for maintaining capitalization bonds.

Technical provisions shown by account, product and segment, as well as amounts and details of plan assets covering these technical provisions, are shown in Note 20.

**p) Provisions, contingent assets and liabilities and legal obligations – tax and social security**

Provisions, contingent assets and liabilities, and legal obligations, as defined below, are recognized, measured and disclosed in accordance with the criteria set out in CPC 25, approved by CMN Resolution No. 3,823/09 and CVM Resolution No. 594/09:

- **Contingent Assets:** these are not recognized in the financial statements, except to the extent that there are real guarantees or favorable judicial decisions, to which no further appeals are applicable, and it is considered virtually certain that cash inflows will flow to Bradesco. Contingent assets with a chance of probable success are disclosed in the notes to the financial statements;
- **Provisions:** these are recognized taking into consideration the opinion of legal counsel, the nature of the lawsuits, similarity with previous lawsuits, complexity and positioning of the courts, whenever an the Organization has a present obligation (legal or constructive) as a result of a past even, it is probable that an outflow of resources will be required to settle the obligation and when the amount can be reliably measured;
- **Contingent Liabilities:** according to CPC 25, the term “contingent” is used for liabilities that are not recognized because their existence will only be confirmed by the occurrence of one or more uncertain future events beyond Management's control. Contingent liabilities do not meet the criteria for recognition because they are considered as possible losses should only be disclosed in the notes when relevant. Obligations deemed remote are not recognized as a provision nor disclosed; and
- **Legal Obligations: Provision for Tax Risks:** results from judicial proceedings in which Bradesco is contesting the applicability of tax laws on the grounds of legality or constitutionality, which, regardless of the assessment of the probability of success, are fully provided for in the financial statements.

Details on lawsuits, as well as segregation and changes in amounts recognized, by type, are presented in Note 17.

**q) Funding expenses**

Expenses related to funding transactions involving the issuance of securities reduce the corresponding liability and are recognized in the profit or loss over the term of the transaction, according to Notes 15c and 18.

**r) Other assets and liabilities**

Assets are stated at their realizable amounts, including, when applicable, related income and inflation and exchange variations (on a daily prorated basis), less provision for losses, when deemed appropriate. Liabilities are stated at known or measurable amounts, including related charges and inflation and exchange variations (on a daily prorated basis).

**s) Subsequent events**

These refer to events occurring between the reporting date and the date the financial statements are authorized to be issued.

They comprise the following:

- Events resulting in adjustments: events relating to conditions already existing at the end of the reporting period; and
- Events not resulting in adjustments: events relating to conditions not existing at the end of the reporting period.

Subsequent events, if any, are described in Note 34.

(1) Consistent with the criteria in Bacen Circular Letter No. 3,068/01 and due to the characteristics of the securities, we are classifying the derivative financial instruments, except those considered as accounting hedges in the category Trading Securities;

(2) In compliance with Article 8 of Bacen Circular Letter No. 3,068/01, Bradesco declares that it has the financial capacity and intention to maintain held-to-maturity securities until their maturity dates. In the first quarter of 2018 and 2017, there were no sales or reclassifications of securities classified in such category;

(3) The number of days to maturity was based on the contractual maturity of the instruments, regardless of their accounting classification;

(4) The fair value of securities is determined based on the market price available at the end of the reporting period. If no market price quotation is available at the end of the reporting period, amounts are estimated based on the prices quoted by dealers, pricing models, quotation models or price quotations for instruments with similar characteristics. For investment funds, the original amortized cost reflects the fair value of the respective quotas;

(5) Includes hedge for protection of assets and liabilities, denominated in or indexed to foreign currency, primarily, arising from foreign investments, eliminating the effects of exchange variation of these assets and liabilities. For a better analysis of these items, consider the net exposure (Note 7d II); and

(6) In the first quarter of 2018, there were impairment losses on financial assets (mostly debentures), net of reversals, related to securities classified as "Available-for-Sale" and "Held-to-Maturity" in the amount of R\$192,122 thousand (R\$419,693 thousand in 2017).

***Notes to the Consolidated Financial Statements***

**d) Derivative financial instruments**

Bradesco carries out transactions involving derivative financial instruments, which are recognized in the statement of financial position or in off-balance-sheet accounts, to meet its own needs in managing its global exposure, as well as to meet its customer's requests, in order to manage their exposure. These operations involve a range of derivatives, including interest rate swaps, currency swaps, futures and options. Bradesco's risk management policy is based on the utilization of derivative financial instruments mainly to mitigate the risks from operations carried out by the Bank and its subsidiaries.

Securities classified as trading and available-for-sale, as well as derivative financial instruments, are recognized in the consolidated statement of financial position at their fair value. Fair value is generally based on quoted market prices or quotations for assets or liabilities with similar characteristics. Should market prices not be available, fair values are based on dealer quotations, pricing models, discounted cash flows or similar techniques for which the determination of fair value may require judgment or significant estimates by Management.

Quoted market prices are used to determine the fair value of derivative financial instruments. The fair value of swaps is determined by using discounted cash flow modeling techniques that use yield curves, reflecting adequate risk factors. The information to build yield curves is mainly obtained from Securities, Commodities and Futures Exchange (B3), and the domestic and international secondary market. These yield curves are used to determine the fair value of currency swaps, interest rate and other risk factor swaps. The fair value of forward and futures contracts is also determined based on market price quotations for derivatives traded on an exchange or using methodologies similar to those outlined for swaps. The fair values of credit derivative instruments are determined based on market price quotation or prices received from specialized entities. The fair value of options is determined based on mathematical models, such as Black & Scholes, using yield curves, implied volatilities and the fair value of corresponding assets. Current market prices are used to calculate volatility.

Derivative financial instruments in Brazil primarily consist of swaps and futures and are registered at B3.

Operations involving forward contracts of interest rates, indexes and currencies are contracted by Management to hedge Bradesco's overall exposures and to meet customer needs.

Foreign derivative financial instruments refer to swap, forward, options, credit and futures operations and primarily out at the stock exchanges in Chicago and New York, as well as the over-the-counter (OTC) markets.

(1) For contracts with installments past due for more than 14 days;

(2) Recognized based on the customer/transaction classification and therefore not included in the preceding item;

(3) The excess provision is recognized based on Management's experience and the expectation in relation to the loan portfolio, to determine the total provision deemed sufficient to cover specific and general credit risk, when considered together with the provision calculated based on levels of risk and the corresponding minimum percentage in the provision established by Resolution No. 2,682/99. The excess provision per customer was classified according to the level of risk (Note 9f);

(4) Up to December 31, 2016, included the constitution of provision for guarantees provided, encompassing sureties, guarantees, credit letters, and standby letter of credit, which comprises the concept of "excess" provision that totaled R\$3,060,990 thousand. In accordance with Resolution No. 4,512/16, in the first quarter of 2018, part of this balance (R\$604,623 thousand) was allocated to a specific account under "Other Liabilities - Sundry" (Note 20b), and the remaining balance (R\$2,456,367 thousand) was allocated to "Excess Provision - Loans"; and

(5) Includes, in the first quarter of 2018, the formation of allowance for loan losses, in the amount of R\$2,456,367 thousand, as a result of the adequacy of the provision for guarantees provided, already mentioned in the previous item.

**h) Allowance for Loan Losses expense net of amounts recovered**

## Consolidated Financial Statements, Independent Auditors' Report and Fiscal Council's Report

**Notes to the Consolidated Financial Statements**

b) The income/expense from the equity method accounting of investments was recognized in the statement of income, under "Share of profit (loss) of unconsolidated and jointly controlled companies", and are demonstrated below:

Companies	Capital	Shareholders' equity adjusted	Number of shares/quotas held (in thousands)		Equity interest consolidated on capital stock	Adjusted income	Accrued on March 31 - R\$ thousand Equity accounting adjustments (1)	
			Ordinary (ON)	Preferential (PN)			2018	2017
- Elo Participações S.A. (2)	930,000	2,224,053	372	-	50.01%	135,191	67,609	48,093
- Aquarius Participações S.A.	518,592	593,667	254,110	-	49.00%	55,649	27,268	21,928

- Others (3)							332,016	362,150
<b>Share of profit (loss) of unconsolidated and jointly controlled companies</b>							<b>427,845</b>	<b>428,535</b>

(1) The adjustment considers income calculated periodically by the companies and includes equity variations recognized by the investees not recognized in profit or loss, as well as alignment of accounting practice adjustments, where applicable;

(2) Investment in jointly controlled companies; and

(3) Includes, primarily, the adjustments resulting from the assessment by the equity method in public companies (Cielo S.A., Fleury S.A. and IRB-Brasil Resseguros S.A.).

**17) PROVISIONS, CONTINGENT ASSETS AND LIABILITIES AND LEGAL OBLIGATIONS – TAX AND SOCIAL SECURITY****a) Contingent assets**

Contingent assets are not recognized in the financial statements. However, there are ongoing proceedings where the chance of success is considered probable, but the amounts are not material, such as: a) Social Integration Program (PIS), Bradesco has made a claim to offset PIS against Gross Operating Income, paid under Decree-Laws No. 2,445/88 and No. 2,449/88, regarding the payment that exceeded the amount due under Supplementary Law No. 07/70 (PIS Repique); and b) other taxes, the legality and/or constitutionality of which is being challenged, where the decision may lead to reimbursement of amounts paid.

**b) Provisions classified as probable losses and legal obligations – tax and social security**

The Organization is a party to a number of labor, civil and tax lawsuits, arising from the normal course of business.

Management recognized provisions where, based on their opinion and that of their legal counsel, the nature of the lawsuit, similarity to previous lawsuits, complexity and the courts standing, the loss is deemed probable.

Management considers that the provision is sufficient to cover the future losses generated by the respective lawsuits.

Provisions related to legal obligations are maintained until the conclusion of the lawsuit, represented by judicial decisions with no further appeals or due to the statute of limitation.

#### **I - Labor claims**

These are claims brought by former employees and outsourced employees seeking indemnifications, most significantly for unpaid "overtime", pursuant to Article 224 of the Consolidation of Labor Laws (CLT). In proceedings in which a judicial deposit is used to guarantee the execution of the judgment, the labor provision is made considering the estimated loss of these deposits. For proceedings with similar characteristics and for which there has been no official court decision, the provision is recognized based on the average calculated value of payments made for labor complaints settled in the past 12 months; and for proceedings originating from acquired banks, with unique characteristics, the calculation and assessment of the required balance is conducted periodically, based on the updated recent loss history.

Consolidated Financial Statements, Independent Auditors' Report and Fiscal Council's Report

***Notes to the Consolidated Financial Statements***

Overtime is monitored by using electronic time cards and paid regularly during the employment contract and, accordingly, the claims filed by former employees do not represent significant amounts.

**II - Civil claims**

These are claims for pain and suffering and property damages, mainly relating to protests, returned checks, the inclusion of information about debtors in the credit restriction registry and the replacement of inflation adjustments excluded as a result of government economic plans. These lawsuits are individually controlled using a computer-based system and provisioned whenever the loss is deemed as probable, considering the opinion of Management and their legal counsel, the nature of the lawsuits, similarity with previous lawsuits, complexity and positioning of the courts.

Most of these lawsuits are brought to the Special Civil Court (JEC), in which the claims are limited to 40 times the minimum wage and do not have a significant impact on the Organization's financial position.

There are a significant number of legal claims pleading alleged differences in adjustment for inflation on savings account balances due to the implementation of economic plans that were part of the federal government's economic policy to reduce inflation in the '80s and '90s.

Although Bradesco complied with the law and regulation in force at the time, these lawsuits have been recognized in provisions, taking into consideration the claims where Bradesco is the defendant and the perspective of loss, which is considered after the analysis of each demand, based on the current decision of the Superior Court of Justice (STJ).

In December 2017, with the mediation of the Attorney's General Office (AGU), the entities representing the bank and the savings accounts, entered into an agreement related to litigation of economic plans, with the purpose of closing these claims, in which conditions and schedule were established for savings accounts holders may to accede the agreement. This agreement was approved by the Federal Supreme Court (STF) on March 1, 2018, pending final decision of the approval decision. As this is a voluntary agreement, Bradesco is unable to predict how many savings account holders will choose to accept the settlement offer.

Note that, regarding disputes relating to economic plans, the Federal Supreme Court (STF) suspended the prosecution of all lawsuits at the cognizance stage, until the Court issues a final decision on the right under litigation.

### **III - Legal obligations – provision for tax risks**

The Organization is disputing the legality and constitutionality of certain taxes and contributions in court, for which provisions have been recognized in full, although there is a good chance of a favorable outcome, based on the opinion of Management and their legal counsel. The processing of these provisions for cases for which the risk of loss is deemed as probable and legal obligations is regularly monitored in the legal court. During or after the conclusion of each case, a favorable outcome may arise for the Organization, resulting in the reversal of the related provisions.

The main cases are:

- PIS and COFINS – R\$2,514,742 thousand (R\$2,368,203 thousand in 2017): a request for authorization to calculate and pay PIS and COFINS based on effective billing, as set forth in Article 2 of Supplementary Law No. 70/91, removing from the calculation base the unconstitutional inclusion of other revenues other than those billed;
  
- IRPJ/CSLL on losses of credits – R\$1,628,319 thousand (R\$1,790,415 thousand in 2017): we are requesting to deduct from income tax and social contributions payable (IRPJ and CSLL, respectively) amounts of actual and definite loan losses related to unconditional

discounts granted during collections, regardless of compliance with the terms and conditions provided for in Articles 9 to 14 of Law No. 9,430/96 that only apply to temporary losses;

- Pension Contributions – R\$1,511,346 thousand (R\$1,409,990 thousand in 2017): official notifications related to the pension contributions on financial contributions in private pension plans, considered by the authorities to be compensatory sums subject to the incidence of pension contributions and to an isolated fine for not withholding IRRF on the financial contributions;
- INSS Autonomous Brokers – R\$652,723 thousand (R\$935,589 thousand in 2017): The Bradesco Organization is questioning the charging of social security contribution on remunerations paid to third-party service providers, established by Supplementary Law No. 84/96 and subsequent regulations/amendments, at 20.0% with an additional 2.5%, on the grounds that services are not provided to insurance companies but to policyholders, thus being outside the scope of such a contribution as provided for in item I, Article 22 of Law No. 8,212/91, as new wording in Law No. 9,876/99; and
- INSS – Contribution to SAT – R\$405,170 thousand (R\$382,662 thousand in 2017): in an ordinary lawsuit filed by the Brazilian Federation of Banks – Febraban, since April 2007, on behalf of its members, is questioned the classification of banks at the highest level of risk, with respect to Work Accident Risk – RAT, which eventually raised the rate of the respective contribution from 1% to 3%, in accordance with Decree No. 6,042/07.

In general, the provisions relating to lawsuits are classified as non-current, due to the unpredictability of the duration of the proceedings in the Brazilian justice system. For this reason, the estimate has not been disclosed with relation to the specific year in which these lawsuits will be finalized.

**c) Contingent liabilities classified as possible losses**

The Organization maintains a system to monitor all administrative and judicial proceedings in which the institution is plaintiff or defendant and, based on the opinion of legal counsel, classifies the lawsuits according to the expectation of loss. Case law trends are periodically analyzed and, if necessary, the related risk is reclassified. In this respect, contingent lawsuits deemed to have a possible risk of loss are not recognized as a liability in the financial statements. The main proceedings in this category are the following: a) 2006 to 2013 income tax and social contribution,

relating to goodwill amortization being disallowed on the acquisition of investments, for the amount of R\$6,323,649 thousand (R\$5,966,078 thousand in 2017); b) Fines and disallowances of Cofins loan compensations, released after a favorable decision in a judicial proceeding, where the unconstitutionality of the expansion of the intended calculation base was discussed for revenues other than those from billing (Law No. 9,718/98), in the amount of R\$4,944,665 thousand (R\$4,714,179 thousand in 2017); c) Leasing companies' Tax on Services of any Nature (ISSQN), total lawsuits correspond to R\$2,413,331 thousand (R\$2,440,746 thousand in 2017) which relates to the municipal tax demands from municipalities other than those in which the company is located and where, under law, tax is collected; d) IRPJ and CSLL deficiency note relating to disallowance of exclusions of revenues from the mark-to-market of securities from 2007 to 2013, differences in depreciation expenses, insufficient depreciation expenses, expenses with depreciation of leased assets, operating expenses and income and disallowance of tax loss compensation, in the amount of R\$2,459,455 thousand (R\$1,620,104 thousand in 2017); e) Notifications and disallowances of compensations of PIS and Cofins related to the unconstitutional extension of the basis of calculation intended for other income other than the billing (Law No 9,718/98), from acquired companies, amounting to R\$1,410,874 thousand (R\$1,339,003 thousand in 2017); f) IRPJ and CSLL deficiency notice relating to the disallowance of loan loss deductions, for the amount of R\$569,956 thousand (R\$774,768 thousand in 2017); and g) IRPJ and CSLL deficiency note, amounting to R\$494,361 thousand (R\$469,018 thousand in 2017) relating to profit of subsidiaries based overseas, for the calendar years of 2008 and 2009.

**d) Other matters**

On May 31, 2016, criminal proceedings have been opened against three members of Bradesco's Board of Executive Officers was carried out by the Brazilian Federal Police under the so-called "Operation Zelotes.", which investigates the alleged improper performance of members of CARF - Administrative Council of Tax Appeals. On July 28, 2016, the Public Prosecutor's Office filed charges against three members of the Board of Executive Officers and a former member of its Board of Directors that was received by the Judge of the 10th Federal Court of the Federal District Judiciary Section. Currently, only two of the members of Bradesco's Board of Directors remain in the process at that time. They presented their responses in the criminal case, pointing out the facts and evidence demonstrating their innocence. The investigation phase of the process was already completed, and is currently waiting for final allegations and the decision of the first degree court.

The Company's management conducted a careful internal evaluation of records and documents related to the matter and found no evidence of any illegal conduct practiced by its representatives. Bradesco provided all the information to the competent regulatory bodies, in Brazil and abroad.

On account of the news of Operation Zealots, a class action was filed in the District Court of New York, on June 3, 2016, based on Section 10 (b) and 20 (a) of the Securities Exchange Act of 1934. On October 21, 2016, the plaintiff leader appointed by the court presented the addendum of the (Action Complaint) pointing us as defendants, as well as three members of its Board of Executive Officers. The demand, is based on the allegation that investors who purchased preferred American Depositary Shares ("ADS") of Bradesco between April 30, 2012 and July 27, 2016 suffered losses caused by alleged violation regarding the American laws of capital markets. On September 29, 2017, the Court limited the proposed class to investors who purchased ADS Bradesco between August 8, 2014 and July 27, 2016. Demand has passed to the discovery phase, so the limitation of the aforementioned class would be maintained. Considering the stage that the demand is, it is not possible, to gauge the exposure and there are insufficient elements to carry out a risk assessment.

Bradesco was also summoned by the *Corregedoria Geral do Ministério da Fazenda* on the opening of an Administrative Accountability Process ("PAR"). This process may imply the application of a fine and / or mention in public lists that may eventually bring restrictions on business with public entities.

For comparison purposes, the balances of prior periods were also reclassified in the amount of R\$15,371,436 thousand;

(2) According to Bacen Circular Letter No. 3,782/16, "Provisions for tax risks" were reclassified from "Other liabilities - Tax and social security" to "Other liabilities - Sundry"; and

(3) On March 31, 2018, it includes a specific provision for financial guarantees provided, pursuant to Resolution No. 4,512/16 (Note 9g).

### **c) Financial guarantees**

Financial guarantees provided are contracts requiring the Organization to make specific payments to the holder of the financial guarantee for a loss it will incur when a specific debtor fails to make the payment under the terms of the debt instrument. The provision for financial guarantees provided is formed based on the best estimate of the non-recoverable amount of the guarantee, if such disbursement is likely. The provisioning parameters are established based on the internal credit risk management models. In case of retail operations, these models use historical information, while in wholesale operations, in addition to historical information, we adopted simulation processes to capture unobserved events. Any increase in liabilities related to financial guarantees is recognized in the statement of income under "Other operating income/expenses".

The amounts guaranteed as of March 31, 2018 were as follows: (i) R\$341,671 thousand, referring to guarantees related to international trade of goods, with a provision of R\$2,217 thousand; (ii) R\$254,794 thousand, referring to guarantees related to bidding, auctions, service rendering or execution of works, with a provision of R\$7,882 thousand; (iii) R\$537,974 thousand, referring to guarantees related to the supply of goods, with a provision of R\$47,474 thousand; (iv) R\$38,300,793 thousand, referring to sureties or guarantees in judicial and administrative proceedings of tax nature, with a provision of R\$315,188 thousand; and (v) R\$33,240,565 thousand, referring to other bank guarantees, with a provision of R\$426,482 thousand (Note 19b).

**b) Remuneration of key management personnel**

Each year, the Annual Shareholders' Meeting approves:

- The annual total amount of Management compensation, set forth at the Board of Directors Meetings, to be paid to board members and members of the Board of Executive Officers, as determined by the Company's Bylaws; and
- The amount allocated to finance Management pension plans, within the Employee and Management pension plan of the Bradesco Organization.

For 2018, the maximum amount of R\$479,820 thousand was set for Management compensation and R\$491,530 thousand to finance defined contribution pension plans.

The current policy on Management compensation sets forth that 50% of net variable compensation, if any, must be allocated to the acquisition of preferred class b shares issued by BBD Participações S.A. and / or preferred shares issued by Banco Bradesco S.A., which vest in three equal, annual and successive installments, the first of which is in the year following the payment date. This procedure complies with Resolution No. 3,921/10, which sets forth a management compensation policy for financial institutions.

**31) RISK AND CAPITAL MANAGEMENT**

**a) Risk Management**

Bradesco carries out a corporate risk control in an integrated and independent manner, preserving and giving value to a collective decision-making environment, developing and implementing methodologies, models and tools for measurement and control. Within Bradesco the dissemination of knowledge amongst employees at all hierarchical levels is stimulated, from the business areas to the Board of Directors.

Risk and capital management structures have established policies, standards and procedures, ensuring that the Bradesco Organization maintains a control process consistent with the nature of its operations, complexity of its products and services, activities, processes, systems and the extent of its exposure to risks. These structures are also composed by a number of committees, commissions and departments that provide support to the Senior Management and the Board of Directors in decision-making. The most notable amongst these are the Integrated Risk Management and Capital Allocation Committee (COGIRAC) and Risk Committee, whose purpose is to advise the Board of Directors in the performance of its duties in the management and control of risks and capital.

Detailed information on risk management process, reference equity and also Bradesco's risk exposures may be found in Investors Relations website at [bradescori.com.br](http://bradescori.com.br) – Market Information.

**b) Capital Management**

The Basel Ratio is part of the set of indicators that are monitored and evaluated in the process of Capital Management, and is intended to measure the sufficiency of capital in relation to the exposure to risks. The table below shows the composition of the Reference Equity and of the Risk Weighted Assets, according to the standards of Bacen. During the period, Bradesco has fulfilled all the minimum regulatory requirements.

**Below is the Basel Ratio:**

**Notes to the Consolidated Financial Statements****c) Indicator of Global Systemic Importance (IASG)**

According to Bacen Circular Letter No 3,751/15, Bradesco calculated the indicators for the evaluation of global systemic importance (IASG), disclosed in Investor Relations website (bradesco.com.br/ri - Market Information - Reports and Spreadsheets - Reports - Risk Management Report – Pillar 3).

**d) VaR Internal Model – Trading Portfolio**

The Trading Portfolio is composed of all the operations made with financial instruments, including derivatives, retained for negotiation or destined to hedge other instruments of the portfolio itself, and that are not subject to the limitation of their negotiability. The operations detained for negotiation are those destined for resale, to obtain benefits based on the variation of effective or expected prices, or for arbitrage.

Below is the 1-day VaR:

<b>Risk factors</b>	<b>On March 31 - R\$ thousand</b>	
	<b>2018</b>	<b>2017</b>

<b>VaR (Value at Risk)</b>	<b>15,595</b>	<b>15,261</b>
Amounts net of tax.		

**e) Sensitivity analysis**

The Trading Portfolio is also monitored through daily sensitivity analyses that measure the effect of market movements of market and price curves on our positions. Furthermore, a sensitivity analysis of the Organization's financial exposures (Trading and Banking Portfolio) is performed on a quarterly basis, in compliance with CVM Rule No. 475/08.

Sensitivity analyses were carried out based on scenarios prepared at the respective dates, always considering market data at the time and scenarios that would adversely affect our positions, according to the examples below:

**Scenario 1:** Based on market information (B3, Anbima, etc.), stresses were applied for 1 basis point on the interest rate and 1.0% variation on prices. For example: for a Real/US dollar exchange rate of R\$3.34 a scenario of R\$3.37 was used, while for a 1-year fixed interest rate of 6.33%, a 6.34% scenario was applied;

**Scenario 2:** 25.0% stresses were determined based on market information. For example: for a Real/US dollar exchange rate of R\$3.34 a scenario of R\$4.17 was used, while for a 1-year fixed interest rate of 6.33%, a 7.91% scenario was applied. The scenarios for other risk factors also accounted for 25.0% stresses in the respective curves or prices; and

**Scenario 3:** 50.0% stresses were determined based on market information. For example: for a Real/US dollar exchange rate of R\$3.34 a scenario of R\$5.01 was used, while for a 1-year fixed interest rate of 6.33%, a 9.49% scenario was applied. The scenarios for other risk factors also account for 50.0% stresses in the respective curves or prices.

***Notes to the Consolidated Financial Statements***

The results presented reveal the impacts for each scenario in a static position of the portfolio. The dynamism of the market and portfolios means that these positions change continuously and do not necessarily reflect the position demonstrated here. In addition, the Organization has a continuous market risk management process, which is always searching for ways to mitigate the associated risks, according to the strategy determined by Top Management. Therefore, where there are indicators of deterioration in certain positions, proactive measures are taken to minimize any potential negative impact and maximize the risk/return ratio for the Organization.

Consolidated Financial Statements, Independent Auditors' Report and Fiscal Council's Report

**Notes to the Consolidated Financial Statements**

**f) Social and environmental risk**

The social and environmental risk is represented by potential damages that an economic activity can cause to society and to the environment. The social and environmental risks associated with financial institutions are mostly indirect and stem from business relationships, including those with the supply chain and with customers, through financing and investment activities.

The social and environmental risk management process has a robust governance structure, comprised of committees, policies, standards and procedures, allowing the risk to be properly identified, measured, mitigated, monitored and reported. This process complies with Resolution No. 4,327/14 of the Central Bank and observes the principles of relevance and proportionality, which is necessary in view of the complexity of the financial products and the profile of Organization's activities.

The Organization seeks to constantly incorporate and improve the criteria for managing the social and environmental risk arising from business relations with customers, through loan and financing operations, guarantees, suppliers and investments, which comprise the scope of analysis reflected in the Organization Social and Environmental Risk Standard (available at [www.bradescosustentabilidade.com.br/site/](http://www.bradescosustentabilidade.com.br/site/)).

The Organization has made several commitments related to environmental and social aspects, such as the Carbon Disclosure Project (CDP), the Principles for Responsible Investment (PRI), the Business Charter for Human Rights and Promotion of Decent Work (Ethos), the United Nations Environment Program (UNEP-FI), the Global Compact, among others.

Moreover, the Organization has been a signatory of the Equator Principles since 2004, and among the requirements evaluated are as follows the working conditions, impacts to the community and the environment of projects financed by the Organization, pursuant to the Brazilian legislation and the standards and guidelines of the International Finance Corporation (IFC), besides the World Bank Group's Health, Safety and Environment Guidelines. During the credit granting process, transactions under Equator Principles undergo a social and environmental risk analysis.

The following table sets forth the credit operation framed in the Equator Principles contracted in the last 12 months (from April 2017 to March 2018):

**32) EMPLOYEE BENEFITS**

Bradesco and its subsidiaries sponsor a private defined contribution pension for employees and directors, that allows financial resources to be accumulated by participants throughout their careers by means of employee and employer contributions and invested in an Exclusive Investment Fund (FIE). The Plan is managed by Bradesco Vida e Previdência S.A. and BRAM – Bradesco Asset Management S.A. DTVM is responsible for the financial management of the FIEs funds.

The Supplementary Pension Plan counts on contributions from employees and administrators of Bradesco and its subsidiaries equivalent to at least 4% of the salary by employees and, 5% of the salary, plus the percentage allocated to covers of risk benefits (invalidity and death) by the company. Actuarial obligations of the defined contribution plan are fully covered by the plan assets of the corresponding FIE. In addition to the plan, in 2001, participants who chose to migrate from the defined benefit plan are guaranteed a proportional deferred benefit, corresponding to their accumulated rights in that plan. For the active participants, retirees and pensioners of the defined benefit plan, now closed to new members, the present value of the actuarial obligations of the plan is fully covered by guarantee assets.

Banco Alvorada S.A. (successor from the spin-off of Banco Baneb S.A.) maintains defined contribution and defined benefit retirement plans, through Fundação Baneb de Seguridade Social – Bases related to the former employees of Baneb.

Bradesco sponsors both defined benefit and defined contribution retirement plans, through Caixa de Assistência e Aposentadoria dos Funcionários do Banco do Estado do Maranhão (Capof), to employees originating from Banco BEM S.A.

Bradesco sponsors a defined benefit plan through Caixa de Previdência Privada Bec – Cabec for employees of Banco do Estado do Ceará S.A.

Kirton Bank Brasil S.A., Kirton Capitalização S.A., Kirton Corretora de Seguros S.A., Bradesco Kirton Corretora de Títulos e Valores Mobiliários S.A. and Kirton Seguros S.A. sponsor a defined benefit plan called APABA for employees originating from Banco Bamerindus do Brasil S.A., and Kirton Administração

de Serviços para Fundos de Pensão Ltda. sponsors for its employees a defined contribution plan, known as the Kirton Prev Benefits Plan (*Plano de Benefícios Kirton Prev*), both managed by MultiBRA – Pension Fund.

Banco Losango S.A., Kirton Bank Brasil S.A. and Credival – Participações, Administração e Assessoria Ltda. sponsor three pension plans for its employees, which are: Losango I Benefits Plan – Basic Part, in the defined benefit mode, Losango I – Supplementary Part and PREVMAIS Losango Plan, the last two in the form of contribution variable, all managed by MultiBRA – Settlor – Multiple Fund.

Bradesco also took on the obligations of Kirton Bank Brasil S.A. with regard to Life Insurance, Health Insurance Plans, and Retirement Compensation for employees coming from Banco Bamerindus do Brasil S.A.

Bradesco, in its offices abroad, provides pension plans for its employees and administrators, in accordance with the standards established by the local authorities, which allows the accrual of financial resources during the professional career of the participant.

Expenses related to contributions made during the first quarter of 2018 totaled R\$260,337 thousand (R\$223,803 thousand in 2017).

In addition to this benefit, Bradesco and its subsidiaries offer other benefits to their employees and administrators, including health insurance, dental care, life and personal accident insurance, and professional training. These expenses, including the aforementioned contributions, totaled R\$ 1,113,219 thousand during the first quarter of 2018 (R\$1,127,265 thousand in 2017).

<b>- Percentage of net deferred tax assets over total assets</b>	<b>3.9%</b>			<b>3.8%</b>

(1) The tax credit on interest on capital is accounted for up to the permitted tax limit; and

(2) Deferred tax assets from financial companies and similar companies, and insurance companies were calculated considering the increase in the social contribution rate, determined by Law No. 11,727/08 and Law No. 13,169/15 (Note 3h). With regard to the temporary effects produced by the adoption of Law No. 13,169/15, which raised the rate of the social contribution to 20%, the deferred tax assets, are calculated based on the expected implementation.

**d) Expected realization of deferred tax assets on temporary differences, tax loss and negative basis of social contribution**

	R\$ thousand				
	Temporary differences		Income tax and social contribution losses		Total
	Income tax	Social contribution	Income tax	Social contribution	
2018	5,737,922	3,958,888	91,150	109,045	9,897,005
2019	6,780,270	4,088,829	94,608	82,348	11,046,055
2020	6,250,924	3,728,777	93,883	79,426	10,153,010
2021	5,089,639	3,043,954	600,744	377,059	9,111,396
2022	2,946,845	1,748,577	740,103	491,650	5,927,175
After 2022	2,406,186	1,436,868	833,506	1,108,343	5,784,903

The projected realization of deferred tax assets is an estimate and it is not directly related to the expected accounting income.

On March 31, 2018, the present value of deferred tax assets, calculated based on the average funding rate, net of tax effects, amounts to R\$48,955,974 thousand (R\$47,626,390 thousand in 2017), of which: R\$44,731,319 thousand (2017 - R\$43,357,124 thousand) of temporary differences; and R\$4,224,655 thousand (R\$4,269,266 thousand in 2017) to tax losses and negative basis of social contribution.

## Consolidated Financial Statements, Independent Auditors' Report and Fiscal Council's Report

**Notes to the Consolidated Financial Statements****e) Unrecognized deferred tax assets**

On March 31, 2018, deferred tax assets of R\$17,477 thousand (R\$20,672 thousand in 2017) were not recognized, and will only be registered when they meet the regulatory requirements and/or present prospects of realization according to technical studies and analyses prepared by the Management and in accordance with Bacen regulations.

**f) Deferred tax liabilities**

	On March 31 - R\$ thousand	
	<b>2018</b>	<b>2017</b>

(1) Includes advances on foreign exchange contracts, leases and other receivables with lending characteristics; and

(2) Primarily includes the surplus of interest in subsidiaries, associates and jointly controlled companies (Cielo, Odontoprev and Fleury).

**Determination of the fair value of financial instruments:**

- Securities and derivative financial instruments, investments, subordinated debts and treasury shares are based on the market price at the reporting date. If no quoted market price is available, amounts are estimated based on the dealer quotations, pricing models, quotation models or quotations for instruments with similar characteristics;
- Fixed rate loans were determined by discounting estimated cash flows, using interest rates applied by the Organization for new contracts with similar features. These rates are consistent with the market at the reporting date; and
- Time deposits, funds from issuance of securities, borrowing and on-lending were calculated by discounting the difference between the cash flows under the contract terms and our prevailing market rates for the same product at the reporting date.

Until March 31, 2018, the accounting pronouncements approved by CMN and adopted by Bradesco in prior periods were as follows:

- Resolution No. 3,566/08 – Impairment of Assets (CPC 01);
- Resolution No. 3,604/08 – Statement of Cash Flows (CPC 03);
- Resolution No. 3,750/09 – Related Party Disclosures (CPC 05);
- Resolution No. 3,823/09 – Provisions, Contingent Liabilities and Contingent Assets (CPC 25);
- Resolution No. 3,973/11 – Subsequent Event (CPC 24);

- Resolution No. 3,989/11 – Share-based Payment (CPC 10 - R1);
- Resolution No. 4,007/11 – Accounting Policies, Changes in Estimates and Error Correction (CPC 23);
- Resolution No. 4,144/12 – Basic Conceptual Pronouncement (R1); and
- Resolution No. 4,424/15 – Employee Benefits (CPC 33 – R1).

Presently, it is not possible to estimate when the CMN will approve the other CPC pronouncements or if they will be applied prospectively or retrospectively.

CMN Resolution No. 3,786/09 and Circular Letters No. 3,472/09 and No. 3,516/10 establish that financial institutions and other entities authorized by Bacen to operate, which are publicly-held companies or which are required to establish an Audit Committee shall, since December 31, 2010, annually prepare and publish in up to 90 days after the reference date of December 31 their consolidated financial statements, prepared under the International Financial Reporting Standards (IFRS), as issued by the International Accounting Standards Board (IASB). As required by Resolution, on March 8, 2018, Bradesco published its consolidated financial statements for December 31, 2017 and 2016 on its website, in accordance with IFRS.

## Consolidated Financial Statements, Independent Auditors' Report and Fiscal Council's Report

**Notes to the Consolidated Financial Statements**

e) In the first quarter of 2018, in order to adjust the structural levels of compulsory deposits, simplify and improve the rules and induce a reduction in the cost of credit, the Central Bank changed its rules for the collection of compulsory deposits, according to the table below:

Description	Standard before amendment	Amended standard
Savings deposits	The compulsory savings reserve was 24.5% on the calculation basis defined in regulation.	As from May 5, 2018, the compulsory savings savings will be reduced to 20% on the calculation basis defined in regulation.
Savings deposits (Rural)	The reserve requirements on rural savings was 21% on the basis of calculation defined in regulation.	As from May 5, 2018, the compulsory payment on rural savings will be reduced to 20% on the calculation basis defined in regulation.
Demand deposits	The daily verification of compliance with the requirement to pay cash deposits was made in accordance with the sum of the daily closing balance of the Bank Reserves recorded under "1.1.1.10.00-6 Cash "of Cosif at the close of each business day of the respective calculation period up to the limit of 40% (forty percent) of the chargeable charge to the institution and of the balance of operations valid for deduction of the compulsory payment on demand, verified in the respective calculation period, considering their respective regulatory limits.	As from May 5, 2018, the daily verification of the fulfillment of demand for payment of demand deposits shall be made according to the sum of the daily closing balance of the Bank Reserves account and the base value-sight, valid for deduction of the withdrawal on demand resources.

The deductibility value of the base calculation of the reserve requirement on demand resources corresponding to the arithmetic average of the RSVs calculated in the calculation period, was R\$ 70,000,000.00.	From May 7, 2018, the deductible value of the compulsory reserve on demand resources corresponding to the arithmetic average of the RSVs calculated in the calculation period will be R\$ 200,000,000.00.
---	---

The compulsory reserve on demand was 40%, based on the calculation basis defined in regulations.	As of May 7, 2018, the compulsory reserve on cash resources will be 25%, based on the calculation defined in regulations.

Consolidated Financial Statements, Independent Auditors' Report and Fiscal Council's Report

***Independent Auditor's Report on the Consolidated Financial Statements***

To

Shareholders and the Board of Directors of

Banco Bradesco S.A.

Osasco – SP

**Introduction**

We have reviewed the interim consolidated financial information of Banco Bradesco S.A. ("Bradesco" or "Bank"), which comprise the consolidated balance sheet as of March 31, 2018 and the related consolidated statements of income, changes in shareholders' equity and cash flows for the three-month period then ended, including the explanatory notes.

Management of Bradesco is responsible for the preparation and fair presentation of this interim consolidated financial information in accordance with accounting practices adopted in Brazil, applicable to financial institutions authorized to operate by the Central Bank of Brazil. Our responsibility is to express a conclusion on this interim consolidated financial information based on our review.

**Scope of review**

We conducted our review in accordance with Brazilian and International Standards on Review of Interim Financial Information (NBC TR 2410 - *Revisão de Informações Intermediárias Executada pelo Auditor da Entidade* and ISRE 2410 - Review of Interim Financial Information Performed by the Independent Auditor of the Entity, respectively). A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. The scope of a review is substantially less than an audit conducted in accordance with auditing standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Therefore, we do not express an audit opinion.

**Conclusion**

Based on our review, we are not aware of any facts that would lead us to believe that the consolidated interim financial information mentioned above were not prepared, in all material aspects, in accordance with

accounting practices adopted in Brazil applicable to financial institutions authorized to operate by the Central Bank of Brazil.

**Other matters**

**Statement of Added Value**

The consolidated interim accounting information related to the Statement of Added Value for the three-month period ended March 31, 2018 prepared under the responsibility of Bradesco's management, whose presentation is not required by the accounting practices adopted in Brazil applicable to institutions authorized to operate by the Central Bank of Brazil, were subject to review procedures performed in conjunction with the review of Bradesco's interim consolidated financial information. For our conclusion, we assess whether this statement is reconciled with the interim accounting information and with the accounting records, as applicable, and whether its form and content comply with the criteria set forth in Technical Pronouncement CPC 09 - Statement of Added Value. Based on our review, we are not aware of any fact that would lead us to believe that the Statement of Added Value was not prepared, in all material respects, in a manner consistent with the interim consolidated accounting information taken as a whole.
