Independent auditor's report on review of quarterly financial information

To the Shareholders, Directors and Officers

Companhia Brasileira de Distribuição

São Paulo – SP – Brazil

Introduction

We have reviewed the accompanying individual and consolidated interim financial information of Companhia Brasileira de Distribuição ("Company"), included in the Quarterly Information Form (ITR) for the quarter ended September 30, 2018, which comprise the balance sheet as of September 30, 2018 and the related statements of income and comprehensive income for the three and nine months periods then ended, and the statements of changes in equity and cash flows for the nine months period then ended, including other explanatory information.

Management is responsible for the preparation of individual and consolidated interim financial information in accordance with Accounting Pronouncement CPC 21 (R1) --*Demonstração Intermediária ("CPC 21 (R1)")* and International Accounting Standard IAS 34 - Interim Financial Reporting ("IAS 34"), issued by the International Accounting Standards Board (IASB), as well as for the presentation of this information in a manner consistent with the standards issued by the Brazilian Securities and Exchange Commission (CVM) applicable to the preparation of the Quarterly Information Form (ITR). Our responsibility is to express a conclusion on this interim financial information based on our review.

Scope of the review

We conducted our review in accordance with Brazilian and International Standards on Review Engagements (NBC TR 2410 *Revisão de Informações Intermediárias Executada pelo Auditor da Entidade*)

and ISRE 2410 - Review of Interim Financial Information Performed by the Independent Auditor of the Entity). A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with auditing standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion on the interim financial information

Based on our review, nothing has come to our attention that causes us to believe that the accompanying individual and consolidated interim financial information included in the quarterly information referred to above is not prepared, in all material respects, in accordance with CPC 21 (R1) and IAS 34, applicable to the preparation of Quarterly Information Form (ITR), consistently with the rules issued by the CVM.

Emphasis of matter

Restatement of corresponding figures

As mentioned in Note 5, due the adoption of the new accounting pronouncements, the corresponding individual and consolidated figures related to the balance sheet for the year ended December 31, 2017 and the corresponding interim financial information comprising the statements of income and comprehensive income for the three and nine months period ended September 30, 2017, and of changes in equity, cash flow statement and statement of value added (supplemental information) for the nine-month period ended September 30, 2017, presented for comparison purposes, were adjusted and are restated as required by CPC 23 (Accounting Policies, Changes in Accounting Estimates and Error Correction) and CPC 26(R1) - Presentation of Financial Statements. Our conclusion is not modified in respect of this matter.

Other matters

Statements of value added

We have also reviewed the individual and consolidated statements of value added for the nine months period ended September 30, 2018, prepared under the responsibility of the Company's management, the presentation of which in the interim financial information is required by the rules issued by the CVM applicable to preparation of Quarterly Information Form (ITR), and considered as supplementary information under IFRS – International Financial Reporting Standards, which does not require the presentation of the statement of value added. These statements have been subject to the same review procedures previously described and, based on our review, nothing has come to our attention that causes us to believe that they are not prepared, in all material respects, in a manner consistent with the overall individual and consolidated interim financial information.

São Paulo, October 25, 2018 - GPA [B3: PCAR4; NYSE: CBD] announces its results for the third quarter of 2018. Due to the ongoing divestment of the interest held by GPA in Via Varejo S.A., as announced in the material fact notice of November 23, 2016, the operations of Via Varejo are treated as discontinued operations. Accordingly, net sales and other profit or loss accounts were adjusted retrospectively, as required under IFRS 5/CPC 31, approved by CVM Resolution 598/09 – Non-current assets held for sale and discontinued operations. The following statements are related to the results of continuing operations. All comparisons are with the same period of 2017, except where stated otherwise.

3Q18 EARNINGS

GPA Food:

Gross sales of R\$13.3 billion, with growth accelerating to 12.8% (vs. 9.9% in 2Q18), driven by continued improvement at Multivarejo and another quarter of robust performance at Assaí;

Solid improvement in Adjusted EBITDA, which reached R\$697 million (+22.3%), with margin expanding from 5.2% to 5.7% in 3Q18;

Strong growth in net income^(*), which came to R\$215 million, 5.2 times higher than the net income reported in 3Q17, with net margin expanding from 0.4% to 1.8%;

The leverage ratio remained low at around -1.15x EBITDA, reinforcing the Company's solid financial structure.

Multivarejo:

Gross sales of R\$6.9 billion, with same-store sales growth ex calendar effect accelerating to 6.1%, confirming the recovery since the start of the year. All banners continued to capture market share gains, with the highlight the Extra Hiper and Proximity banners;

Gross margin of 27.9%, stable in relation to 3Q17, reflecting the adequate level of price competitiveness;

Operating expenses diluted by 10 bps, reflecting the higher sales and ongoing cost discipline, with the highlight the productivity gains at stores;

Adjusted EBITDA came to R\$362 million, advancing 4.8%. Adjusted EBITDA margin expanded 20 bps to 5.7%, surpassing the guidance given for the year and reflecting the consistent results in the last three quarters;

Net income^(*) amounted to R\$39 million, with net margin of 0.6%.

Assaí:

Gross sales came to R\$6.4 billion, marking another quarter of strong growth, which translated into an important market share gain in the period;

Gross margin stood at 15.9%, following the trend of prior quarters, supported by the successful organic expansion and conversions of Extra Hiper stores and by the reemergence of inflation, after the deflation registered in 3Q17;

Adjusted EBITDA posted strong growth of 49.4% to R\$335 million, with adjusted EBITDA margin expanding 90 bps to 5.7%;

Robust growth of the net income, which reached R\$176 million and up 55.6%, presenting a net margin of 3.0%.

Outlook:

The performance in **3Q18** corroborates the expectation of meeting the **guidance given for 2018**:

Same-store sales growth: above inflation at Assaí and in line with food inflation at Multivarejo, supporting continued market share gains;

Adjusted EBITDA margin: 5.5%-5.6% at Multivarejo and 5.8%-5.9% at Assaí;

Financial Result: around 1% of net sales;

LATAM synergies: should reach over US\$85 million in savings for the Brazil perimeter.

"The consistency of the results demonstrates the assertiveness of the implemented initiatives with expressive gains of share and profitability. At Multivarejo, the sequential evolution of sales and higher profitability is already seen in the last 3 quarters. At Assaí, we continued to deliver strong sales performance and high profitability. Among the strategic priorities, we have made important progress in the Digital Transformation and in the strengthening of our private label. We continue with our expansion plan, conversion and renovation of stores, seeking a more adjusted portfolio. Our execution has allowed the delivery of solid results, in line with the guidance we provided to the market. "

Peter Estermann, Chief Executive Officer of GPA

(*) Excludes nonrecurring tax credits related to 2Q18, with R\$45 million at Multivarejo referring to the sale to third parties of a portion of the tax credits related to the exclusion of ICMS from the calculation base of PIS/COFINS and R\$369 million at Assaí referring to the reversal of the provision related to ICMS ST credits for periods prior to the Supreme Court decision, recognized in cost of goods sold. In relation to 2Q17, R\$447 million was excluded at Multivarejo referring to nonrecurring tax credits in connection with the ICMS ST reimbursement, recognized in cost of goods sold.

OPERATING PERFORMANCE BY BUSINESS

Multivarejo

Gross sales came to R\$6.9 billion, with **same-store sales ex calendar growth of 6.1%**, confirming the recovery since the start of the year. All banners continued to capture market share gains, with the highlight the Extra Hiper and Proximity banners.

Gross profit was R\$1,783 million, with gross margin of **27.9%**, stable in relation to 3Q17, reflecting the adequate level of price competitiveness at each banner. The commercial initiatives have had positive effects on the improvement in sales volume, average ticket and market share.

Selling, general and administrative expenses were R\$1,451 million, increasing only 2.0%, which is significantly lower than the IPCA inflation measured in the last 12 months of 4.5%. **SG&A expenses as a ratio of net sales decreased 10 bps** compared to 3Q17, to 22.7%. This dilution of expenses reflects the stronger sales and continued cost discipline, with the highlight the productivity gains at stores.

Adjusted EBITDA came to R\$362 million, increasing 4.8%, outpacing the revenue growth. **Adjusted EBITDA margin expanded 20 bps in relation to 3Q17, to 5.7%**, surpassing the guidance given for the year and reflecting the consistent results over the past three quarters.

Net income was R\$39 million, with net margin of 0.6%, reversing the loss reported in 3Q17.

Assaí

Assaí gross sales advanced 25.5% to R\$6.4 billion, maintaining another quarter of strong growth. Same-store sales growth ex calendar and excluding conversions accelerated to 7.4%, driven by the banner's anniversary, which supported growth in sales volume and customer traffic. The period once again was marked by an important market share gain.

Gross profit came to R\$930 million, with gross margin of **15.9%**. The continued expansion in gross margin compared to last year reflects the following factors:

- o The successful expansion of the past two years: 19 organic stores with accelerated maturation, reflecting a well-defined business model and market demand;

o The positive effect from the conversion of Extra Hiper stores, with good attractiveness and adherence to the needs the banner's target public.

Selling, general and administrative expenses registered dilution of 10 bps compared to 3Q17, corresponding to 10.2% of net sales. The result reflects the maturation of stores, despite the growing number of openings and the stores under construction in the period.

Adjusted EBITDA came to R\$335 million, for robust growth of 49.4%, with adjusted EBITDA margin expanding **90 bps** to 5.7%.

Net income reached R\$176 million, a strong growth of 55.6%, with a net margin of 3.0%.

FINANCIAL PERFORMANCE

Other Income and Expenses

Other Operating Income and Expenses were an expense of R\$59 million in the quarter. In the last 9 months, this expense was R\$193 million, down 52.3% from the prior-year period.

The main elements in the quarter are related to:

Tax contingencies related to litigations from prior periods, corresponding to approximately R\$19 million.

Integration and restructuring expenses, including personnel and other costs related to the closures and conversions of stores / DCs, in the amount of R\$38 million.

Result from property and equipment of R\$3 million.

Financial Result

The financial result was R\$135 million, or 1.1% of net sales, improving 30 bps from 3Q17. Main variations:

Financial income increased nearly 30%, reflecting the higher cash balance average in the period.

The lower debt cost and improvement in the cost of selling receivables are mainly due to the lower interest rate in the period.

Contingencies adjustment and other expenses remained stable at 0.5% of net sales.

Net Income

In the **Food segment, net income attributable to the controlling shareholders from continuing operations** was R\$215 million, 5.2 times higher than in 3Q17. At Multivarejo, net income was R\$39 million, with net margin of 0.6%, reversing the loss reported in 3Q17. At Assaí, net income grew 55.6% to R\$176 million, with net margin of 3.0%.

Consolidated net income attributable to the controlling shareholders from continuing operations was R\$188 million, 18.8 times higher than in 3Q17.

Earnings per Share

Earnings per share in the quarter stood at R\$0.52246 for the common shares and at R\$0.58510 for the preferred shares.

Net Debt

Net debt adjusted for the balance of not discounted receivables stood at R\$3,260 million. The Company maintained its low financial leverage, with the net debt/EBITDA ratio falling to -1.15x, compared to -1.30x a year ago.

The Company ended the quarter with a cash position of R\$2,625 million and R\$711 million of not discounted receivables, totaling R\$3,336 million in cash and equivalents. Also, it has approximately R\$1.8 billion in pre-approved/confirmed credit facilities.

Investments

Investments in the Food segment amounted to R\$488 million, up 9.3% from 3Q17, mainly due to the following:

- **Expansion of Assaí:** 4 stores were opened, one of which was converted from an Extra Hiper. Around 20 stores are slated to open this year, including new stores and conversions;
- **Renovations of Pão de Açúcar stores:** 15 stores renovated in the 7 Generation concept, of which 6 were finished in September and another 3 stores are undergoing renovation, which will be delivered in 4Q18.
- **Projects at the Extra Super banner:** 6 Extra Super stores were revitalized, which were converted to Mercado Extra, bringing to 10 the number of pilot stores to date.

In addition, progress was made on the conversion of 13 Extra Super stores to **Compre Bem**. The stores will be opened in fourth quarter. For more information on the Compre Bem and Mercado Extra Projects, see page 17.

About GPA: GPA is Brazil's largest retailer, with a distribution network comprising over 2,000 points of sale as well as electronic channels. Established in 1948 in São Paulo, it has its head office in the city and operations in 18

Brazilian states and the Federal District. With a strategy of focusing its decisions on customers and better serving them based on their consumer profile in the wide variety of shopping experiences it offers, GPA adopts a multi-business and multi-channel platform consisting of brick-and-mortar stores and e-commerce operations, divided into three business units: Multivarejo, which operates the supermarket, hypermarket and Minimercado store formats, as well as fuel stations and drugstores under the Pão de Açúcar and Extra banners; Assaí, which operates in the cash-and-carry wholesale segment; GPA Malls, which is responsible for managing the Group's real estate assets, expansion projects and new store openings; and Via Varejo's discontinued operations, with its bricks and mortar electronics and home appliances stores under the Casas Bahia and Pontofrio banners, and the e-commerce segment.

Disclaimer: Statements contained in this release relating to the business outlook of the Company, projections of operating/financial results, growth prospects of the Company and market and macroeconomic estimates are merely forecasts and are based on the beliefs, plans and expectations of Management in relation to the Company's future. These expectations are highly dependent on changes in the market, Brazil's general economic performance, the industry and international markets, and hence are subject to change.

Glossary

Food Segment: Represents the combined results of Multivarejo and Assaí, excluding equity income (loss) from Cdiscount, which is not included in the operating segments reported by the Company. Includes retail and wholesale activities of products in general, including - but not limited to - food products, clothing, hygiene, medicines, fuels, furniture, consumer electronics and domestic utilities. Such activities are carried out in both physical and virtual establishments.

Discontinued Activities: Due to the ongoing divestment of the interest held by GPA in Via Varejo S.A., the operations of Via Varejo are treated as discontinued operations. Accordingly, net sales and other profit or loss accounts were adjusted retrospectively, as required under IFRS 5/CPC 31, approved by CVM Resolution 598/09 – Non-current assets held for sale and discontinued operations.

Growth and Changes: The growth and changes presented in this document refer to variations from the same period last year, except where stated otherwise.

EBITDA: EBITDA is calculated in accordance with Instruction 527 issued by the Securities and Exchange Commission of Brazil (CVM) on October 4, 2012.

Adjusted EBITDA: Measure of profitability calculated by excluding Other Operating Income and Expenses from EBITDA. Management uses this measure in its analyses as it believes it eliminates nonrecurring expenses and revenues and other nonrecurring items that could compromise the comparability and analysis of results.

Earnings per share: Diluted earnings per share are calculated as follows:

Numerator: profit for the year adjusted by dilutive effects from stock options granted by subsidiaries.

Denominator: the number of shares of each category adjusted to include potential shares corresponding to dilutive instruments (stock options), less the number of shares that could be bought back at market, if applicable.

Equity instruments that will or may be settled with the Company and its subsidiaries' shares are only included in the calculation when its settlement has a dilutive impact on earnings per share.

Compre Bem Project: A pilot project that involves the conversion of 20 stores in order to enter a market niche currently dominated by regional supermarkets. The store model will be better adapted to the needs of consumers in the regions where the stores are located. The service and assortment of the perishables category will be strengthened, while other categories will have a leaner assortment. Compre Bem will be managed independently from the Extra Super banner, focusing on simplifying operating costs, especially in logistics and IT.

Mercado Extra: Pilot project in 10 stores with the objective of revitalizing Extra Super through the enhancement of perishables and consumer services, focusing on class B and C. There will be no change in the operational model of the stores, which will continue under the Extra banner management.

1. Corporate information

Companhia Brasileira de Distribuição ("Company" or "CBD"), directly or through its subsidiaries ("Group" or "GPA") is engaged in the retail of food, clothing, home appliances, electronics and other products through its chain of hypermarkets, supermarkets, specialized stores and department stores especially under the trade names "Pão de Açúcar", "Minuto Pão de Açúcar", "Extra Hiper", "Extra Super", "Minimercado Extra", "Assai", and the neighborhood shopping mall brand "Conviva". The activities related to the segments of electronics and e-commerce are presented as discontinued operations (note 31) and represent the stores under the brands "Ponto Frio" and "Casas Bahia", as well as the e-commerce platforms "CasasBahia.com", "Extra.com", "Pontofrio.com" and "Barateiro.com". The Group's headquarters are located in the city of São Paulo, State of São Paulo, Brazil.

The Company's shares are listed on the São Paulo Stock Exchange ("B3") Level 1 of Corporate Governance under the ticker symbol "PCAR4" and on the New York Stock Exchange (ADR level III), under the ticker symbol "CBD".

The Company is indirectly controlled by Almacenes Éxito S.A., through Wilkes Participações S.A. ("Wilkes"), and its ultimate parent company is Casino Guichard Perrachon ("Casino"), French company listed on Paris Stock Exchange.

1.1. Arbitration Península

On September 12, 2017, the Company received a notice from the Brazil-Canada Chamber of Commerce regarding a request for arbitration filed by Banco Ourinvest S.A., a financial institution, in its capacity as fund manager and acting in the exclusively interest of the quotaholders of Fundo de Investimento Imobiliário Península ("Península" and the "Proceeding").

The Proceeding aims to discuss the calculation of the rental fees and other operational matters related to the stores owned by Peninsula, which are under several lease agreements and contracts entered into between the Company and Peninsula during 2005 (the "Agreements"). The Agreements assure to CBD the rent of the stores for a period of twenty (20) years as from their respective execution, which may be extended for an additional 20-year term, at CBD's exclusive criteria, and rules the calculation of the rental fees.

The Proceeding refers to certain terms and conditions of the Agreements and does not affect the continuity of the leasing of the stores, which are contractually assured. The Company and its legal advisors understand that the Proceeding will be decided favorably to CBD.

2. Basis of preparation

The individual and consolidated interim financial information has been prepared in accordance with IAS 34 - Interim Financial Reporting issued by the International Accounting Standard Board ("IASB") and CPC 21 (R1) - Interim Financial Reporting and presented consistently with the standards approved and issued by the Brazilian Securities and Exchange Commission ("CVM") applicable to the preparation of interim financial information – ITR.

The individual and consolidated interim financial information is being presented in millions of Brazilian Reals. The reporting currency of the Company is Real and for subsidiaries located abroad is the local currency of each jurisdiction.

The accounting information intermediate and consolidated regarding for the nine-month period ended September 30, 2018 were approved by the Board of Directors on October 25, 2018.

2. Basis of preparation - Continued

As a result of the process in progress for the sale of the subsidiary Via Varejo S.A. (note 32 on the financial statements for year ended December 31, 2017, presented in February 19, 2018) and in accordance to the CPC 31 / IFRS 5 – Non current assets held for sale and discontinued operation, the individual and consolidated interim financial information of the statement of the operations and the statement of the added value for the nine-month period September 30, 2018 and September 30, 2017 were presented with the effects of the transaction.

The cash flow statements presented include the continuing and discontinued operations in line with technical pronouncement CPC31 / IFRS 5. The cash for flow discontinued operations are presented in Note 31.1.

3. Basis of consolidation

The information on the basis of consolidation did not have significant modification and was presented in the annual financial statements for 2017, in Note 3. In the period, a new company was established named SCB Distribuição e Comércio (SCB) controlled by CBD.

4. Significant accounting policies

The significant accounting policies adopted by the Company in the preparation of the individual and consolidated interim financial information are consistent with those adopted and disclosed on Note 4 of the financial statements for the year ended December 31, 2017 and therefore should be read in conjunction with those annual financial statements, in note 5.1. and the policy of recognition and measurement of income tax in the interim period described in Note 19.1.

5. Adoption of new procedures, amendments and interpretations of pronouncements issued by IASB and CPC and standards published and not yet in force

5.1. Amendments to IFRS and new interpretations applicable mandatorily as of January 1, 2018

The changes in accounting policies were also reflected in the Company's consolidated quarterly information for the nine-month period ended September 30, 2017.

The Company adopted for the first time CPC 47 / IFRS 15 Revenue from Contracts with Customers (see 5.1.1), CPC 48 / IFRS 9 Financial Instruments (see 5.1.2) as of January 1, 2018 and the Revision of Technical Pronouncements – No. 12/2017 as of January 1, 2018. A series of other new standards are effective as of January 1, 2018, although they have no material impact on the Company's financial statements.

The effect of the first-time adoption of these standards is mainly due to the following:

- Reclassification of bonuses received from suppliers;
- Reclassification of financial assets, with impacts on shareholders' equity (see note 5.1.2);
- Reclassification of the impacts of withheld taxes on share-based compensation (see Note 5.1.3);
- An increase in impairment losses recognized in financial assets (see Note 5.1.2).

5.1. Amendments to IFRS and new interpretations applicable mandatorily as of January 1, 2018 - Continued

5.1.1 . CPC 47 / IFRS 15 Revenue from contracts with customers

CPC 47 / IFRS 15 establishes a comprehensive framework to determine if, when and for how long revenue is recognized. It substitutes CPC 30 / IAS 18 Revenue, CPC 17 / IAS 11 Construction Contracts and their respective interpretations.

The Company adopted CPC 47 / IFRS 15, with the effect of first-time adoption of the standard with retrospective effects (i.e. January 1, 2017). Consequently, we restated the Statement of income, statement of added value, statement of changes in shareholders equity and balance sheet, for the period reported previously in accordance with CPC 30 / IAS 18, CPC 17 / IAS 11 and the respective interpretations.

The effect of the adoption of CPC 47 / IFRS 15 is related to the classification of bonuses received from suppliers as deductions from the cost of sales instead of from administrative and selling expenses.

The details of the new significant accounting policies and the nature of the changes to previous accounting policies in relation to the diverse goods and services of the Company are described below:

- (i) Revenue
 - a) Sales of goods

Revenue from sale of goods is recognized at its fair value and, when control over the products is transferred to the buyer, the Company and its subsidiaries cease to hold control or liability over the goods sold and the economic benefits generated for the Company and its subsidiaries are probable. No revenue is recognized if its realization is uncertain.

- b) Service revenue

Since the Company and its subsidiaries are holders of policies on extended warranty insurance, financial protection insurance and personal accident insurance, and are sales agents in technical assistance and prepaid phone recharge, revenues earned are presented net of related costs and recognized as profit or

loss when it is probable that the economic benefits will flow to the Company and its subsidiaries and their amounts can be measured reliably.

c) Financial services revenue

Since consumer financing is an essential part of the business of the Company and its subsidiaries, for all financial instruments measured at amortized cost, financial revenue is recognized using the effective interest rate method, which discounts exactly the estimated future cash receipts through the expected life of the financial instrument, or in a shorter period of time, when applicable, from the carrying amount of the asset. Interest income is included under financial services, comprising gross profit in the income statement for the year. This practice is substantially related to discontinued activities.

d) Interest income

For all the financial assets measured at their amortized cost, interest income is recorded using the effective interest rate method, which is the discount rate of the estimated future cash payments or receipts through the expected life of the financial instrument or a shorter period, as applicable, from the carrying amount of the financial asset or liability. Interest income is included in the financial result in the income statement for the year.

e) Returns and cancellations

Returns and cancellations are recognized when the sale is concluded. Estimates are based on sales volumes and the history of returns in each reporting segment. Revenue is recognized net of returns and cancellations.

(ii) Cost of goods sold

The cost of goods sold comprises the cost of purchases net of discounts and bonuses received from suppliers, changes in inventories and logistics costs.

Bonuses received from suppliers are measured based on the contracts and agreements between the parties.

Cost of sales includes the cost of logistics operations managed or outsourced by the Company and its subsidiaries, and includes warehousing, handling and freight costs incurred until the goods are available for sale. Transport costs are included in acquisition costs.

5.1.2 CPC 48 / IFRS 9 Financial Instruments

CPC 48 / IFRS 9 establishes the requirements for recognition and measurement of financial assets, financial liabilities and some contracts for purchase and sale of non-financial items. This standard replaces CPC 38 / IAS 39 – Financial Instruments: Recognition and Measurement.

CPC 48 / IFRS 9 retains most of the current requirements of CPC 38 / IAS 39 for the classification and measurement of financial liabilities. However, it eliminates previous categories of CPC 38 / IAS 39 for financial assets: held-to-maturity, loans and receivables and available-for-sale.

The adoption of CPC 48 / IFRS 9 did not have a significant impact on the Company's accounting policies related to financial liabilities and derivative instruments (for derivatives used as hedging instruments, see item (iii) below). The impact of CPC 48 / IFRS 9 on the Classification and Measurement of Financial assets is described below.

5.1.2 CPC 48 / IFRS 9 Financial Instruments - Continued

In accordance with CPC 48 / IFRS 9, upon initial recognition, a financial asset is classified as measured: at its amortized cost, at fair value through other comprehensive income (“FVOCI”) – debt instrument; FVOCI – equity instrument; or fair value through profit or loss (“FVPL”). The classification of financial assets according to CPC 48 / IFRS 9 is generally based on the business model in which a financial asset is managed and on the characteristics of its contractual cash flows. Embedded derivatives in which the main contracts is a financial asset under the scope of the standard are never separated. Instead, the hybrid financial instrument is fully evaluated for classification.

Details of the new significant accounting policies and the nature of changes to previous accounting policies in relation to the Company’s goods and services is described below:

i) Classification and measurement of Financial Assets and Liabilities

A financial asset is measured at its amortized cost if it meets both of the following conditions and is not designated as measured at FVPL:

- It is held within a business model whose goal is to maintain financial assets to receive contractual cash flows; and
- Its contractual terms generate, on specific dates, cash flows that are related to the payment of principal and interest on the outstanding principal amount.

A financial asset is measured at FVOCI if it meets both of the following conditions and is not designated as measured at FVPL:

- It is held within a business model whose goal is achieved both through the receipt of contractual cash flows and through the sale of financial assets; and

- Its contractual terms generate, on specific dates, cash flows that are exclusively related to the payment of principal and interest on the outstanding principal amount.

Upon initial recognition of an investment in an equity instrument that is not held for trading, the Company may irrevocably choose to present subsequent changes in the fair value of the investment under other comprehensive income (“OCI”). This choice is made on an investment-by-investment basis.

5.1.2. CPC 48 / IFRS 9 Financial Instruments - Continued

Any financial asset not classified as measured at their amortized cost or through FVOCI, as described above, are classified as FVPL. This includes all derivative financial assets. Upon initial recognition, the Company may irrevocably designate a financial asset that would otherwise meet the requirements to be measured at amortized cost or as FVOCI as FVPL if this eliminates or significantly reduces an accounting mismatch that would occur otherwise (fair value option available in CPC 48 / IFRS 9).

A financial asset (unless it refers to trade accounts receivable without a significant component of financing that is initially measured at the transaction price) is initially measured at fair value, plus, for an item that is not measured at FVPL, any transaction costs directly attributable to its acquisition.

Financial assets measures at FVPL – These assets are subsequently measured at fair value. The net result, including interest or revenue from dividends, is recognized in the result.

Financial assets at amortized cost – These assets are measured subsequent to amortized cost using the effective interest rate method. The amortized cost is reduced by impairment losses. Interest income, exchange gains and losses, and losses are recognized as profit or loss. Any gain or loss from derecognition is recognized as profit or loss.

Debt instruments at FVOCI – These assets are measured subsequently at fair value. Interest income calculated using the effective interest rate method, exchange gains and losses, and impairment losses are recognized as profit or loss. Other net income is recognized under OCI. In derecognition, the accumulated result under OCI is reclassified to result. On December 31, 2017, the amount under continuing operations was R\$11 at the parent company and R\$12 at the consolidated, and the amount under discontinued operation was R\$64.

ii) Impairment of financial assets

CPC 48 / IFRS 9 replaces the “incurred loss” model of CPC 38 / IAS 39 with an expected credit losses model. The new impairment loss model applies to financial assets measured at amortized cost, contractual assets and debt instruments measured at FVOCI, but does not apply to investments in equity instruments (shares) or financial assets measured at FVPL, as per CPC 48 / IFRS 9, loan losses are recognized earlier than under CPC 38 / IAS 39.

According to CPC 48 / IFRS 9, provisions for losses are measured at one of the following bases:

- Credit losses expected for 12 months (general model): these are credit losses that result in possible default events within 12 months from the balance sheet date and, subsequently, in case of deterioration of the credit risk, throughout the life of the instrument.
- Full lifetime expected credit losses (simplified model): these are credit losses resulting from all possible default events over the expected life of a financial instrument.

- Practical expedient: these are expected credit losses that are consistent with reasonable and sustainable information available, on the balance sheet date about past events, current conditions and forecasts of future economic conditions, which enable the verification of probable future loss based on the historical credit loss occurred in accordance with the maturity of securities.

The Company chose to measure provisions for losses from accounts receivable and other receivables and contractual assets at an amount that equals the credit loss expected for the full lifetime, and for trade accounts receivable, whose portfolio of receivables is fragmented, CDCI, rents receivable, wholesale accounts receivable and accounts receivable from freight companies, the practical expedient was applied through the adoption of a matrix of losses for each maturity range.

When determining whether the credit risk of a financial asset increased significantly since its initial recognition and while estimating the expected credit losses, the Company takes into account reasonable and sustainable information that is relevant and available free of cost or excessive effort. This includes quantitative and qualitative information and analysis, based on the Company's historical experience, during credit appraisal and considering information about projections.

The Company assumes that the credit risk of a financial asset increased significantly if the asset is overdue more than 90 days.

The Company considers a financial asset as in default when:

- there is little likelihood that the debtor will fully pay their obligations to the Company, without resorting to actions such as execution of guarantees (if any); or

- the financial asset is overdue more than 90 days.

The Company determined the credit risk of a debt security by analyzing the payment history, financial and macroeconomic conditions of the counterparty and the assessment of rating agencies, when applicable, thereby assessing each debt security individually.

The maximum period considered when estimating the expected credit loss is the maximum contractual period during which the company is exposed to the credit risk.

Measurement of expected credit losses – Expected credit losses are estimates weighted by the probability of credit losses based on historical losses and projections of related assumptions. Credit losses are measured at present value based on all cash insufficiencies (i.e. the differences between the cash flows owed to the Company according to contracts and the cash flows the Company expects to receive).

Expected credit losses are discounted by the effective interest rate of the financial asset.

ii) Impairment of financial assets - Continued

Financial assets with credit recovery problems – On each reporting date, the Company evaluates whether the financial assets recorded at amortized cost and the debt securities measured at FVOCI show any indication of impairment. A financial asset shows “indication of impairment loss” in the occurrence of one or more events with adverse impact on the estimated future cash flows of the financial asset.

Presentation of impairment loss – Provision for losses for financial assets measured at amortized cost are deducted from the gross book value of the assets.

For financial instruments measured at FVOCI, the provision for losses is recognized in OCI, instead of deducting the book value of the asset.

Impairment losses related to trade accounts receivable and other receivables, including contractual assets, are presented separately in the statement of income and OCI. As a result, the Company reclassified impairment losses of R\$2 to selling expenses September 30, 2017, recognized under CPC 38/IAS 39.

Impairment of other financial assets is reported under “selling expenses”, similarly to the presentation under CPC 38 / IAS 39.

Impact of the new impairment loss model – For assets within the scope of the loss model of CPC 48 / IFRS 9, impairment should increase and become more volatile. The Company determined that the application of the requirements for impairment under CPC 48 / IFRS 9 on January 1, 2018 resulted in an additional provision of R\$6 in continuing operations.

The additional Provision of R\$175 in discontinued operations is composed as follows:

	Discontinued operations
	12.31.2017
Accounts receivable from credit card operators	24
Consumer financing CDCI	131
Accounts receivable from freight companies	9
Accounts receivable b2b	11
Total	175

Accounts receivable and contractual assets – The following analysis provides greater details on the calculation of expected credit losses related to accounts receivable and contractual assets when adopting CPC 48 / IFRS 9. The Company considers the model and some of the assumptions used in the calculation of these expected credit losses as the main sources of uncertainty in the estimate.

Expected credit losses were calculated based on real experiences of credit loss in recent years. The Company calculated the rates of expected credit loss separately for lessees of wholesale properties, accounts receivable from credit card operators and other clients.

The positions within each group were segmented based on common credit risk characteristics, such as:

- Credit risk level and historical losses – for wholesale clients and property rental; and
- Delinquency status, default risk and historical losses – for credit card operators and other clients.

Transition – Changes in accounting policies resulting from the adoption of CPC 48 / IFRS 9 were applied retrospectively, except as described below.

- The following assessments were made based on facts and circumstances that existed on the date of initial adoption.
 - Determination of the business model in which a financial asset is held.
 - Designation and cancellation of prior designations of certain financial assets and liabilities measured at FVPL.
 - Determinations of variables related to estimates of impairment.
 - Designation of certain investments in equity instruments not held for trading at FVOCI.

- All hedge relationships designated in CPC 38 / IAS 39 on December 31, 2017 met the criteria for hedge accounting pursuant to CPC 48 / IFRS 9 on January 1, 2018 and are, therefore, considered as continuing hedge relationships.

5.1.3 Revision of Technical Pronouncements – no.12/2017

The entity must apply the change set forth in IFRS 2 / CPC 10 – “Share-based payment” to account for the withholding of share funds to pay the tax authority for the tax obligation of the employee associated with the share-based payment. Consequently, the payment made must be accounted for as a deduction from capital for the retained shares, except to the extent that the payment exceeds the fair value on the date of settlement by the net value of the own equity instruments withheld. As such, the liability related to the withheld liabilities in the amount of R\$10 at the parent company and R\$13 in the consolidated of continuing operations, and R\$8 in discontinued operations was reclassified to shareholders equity on the initial date of adoption, i.e. January 1, 2018.

6. Significant accounting judgments, estimates and assumptionsJudgments, estimates and assumptions

The preparation of the Company's individual and consolidated interim financial information requires Management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the disclosure of contingent liabilities at the end of the reporting period; however, uncertainties about these assumptions and estimates may result in outcomes that require adjustments to the carrying amount of the affected asset or liability in future periods.

The significant assumptions and estimates for interim financial information for the nine-month period ended September 30, 2018 were the same as those adopted in the individual and consolidated financial statements for the year ended December 31, 2017, except for the application of CPC 48 / IFRS 9 described in Note 5.1.

For the ICMS tax credits, management, based on technical feasibility studies, based on growth projections and related tax payments in the normal course of the operations, understand be viable the future compensation. The studies mentioned are prepared and reviewed periodically based on information extracted from Strategic Planning report, previously approved by the Board of Directors of the Company. For the financial information as of September 30, 2018, management has monitoring controls over the progress of the plan annually established, revaluating and including eventual new elements that contribute to the realization of ICMS tax credits, net of provision of R\$20, as shown above. On the occasion of a new ordinance (CAT 42, issued in May 2018) in the state of São Paulo, there were new prospects for the realization of ICMS in the State, which resulted in the reversal of the provision for non-realization of R\$369.

16. Borrowings and financing – Continued

16.5. Borrowings in foreign currencies

On September 30, 2018 GPA had loans in foreign currencies (dollar and euro) to strengthen its working capital, maintain its cash strategy, lengthening its debt profile and make investments, being the last due date in September, 2020.

16.6. Guarantees

The Company has signed promissory notes for some loan contracts.

16.7. Swap contracts

The Company and its Brazilian subsidiaries use swap transactions for 100% of its borrowings denominated in US dollars, euros and fixed interest rates, exchanging these obligations for Real linked to CDI (floating) interest rates. These contracts include amount of the debt with the objective to protect the interest and principal and are signed, generally, with the same due dates and in the same economic group. The weighted average annual rate of CDI in September 2018 was 6,65% (11.53% in September 30, 2017).

16.8. Financial covenants

In connection with the debentures and a portion of borrowings denominated in foreign currencies, GPA is required to maintain certain debt financial covenants. These ratios are quarterly calculated based on consolidated financial statements of the Company prepared in accordance with accounting practices adopted in Brazil, as follows: (i) net debt (debt minus cash and cash equivalents and trade accounts receivable) should not exceed the amount of equity and (ii) consolidated net debt/EBITDA ratio should be lower than or equal to 3.25. At September 30, 2018, GPA was in compliance with these covenants.

The effects of the fair value hedge recorded in the Statement of Operations for the nine-month period ended September 30, 2018 were a gain of R\$193 (gain of R\$157 as of September 30, 2017).

17.2. Sensitivity analysis of financial instruments

According to the Management's assessment, the most probable scenario is what the market has been estimating through market curves (currency and interest rates) of B3, on the maturity dates of each transaction. Therefore, in the probable scenario (I), there is no impact on the fair value of financial instruments. For scenarios (II) and (III), for the sensitivity analysis effect, according to CVM rules, a deterioration of 25% and 50%, respectively, on risk variables, up to one year of the financial instruments.

For the probable scenario, weighted exchange rate was R\$4.24 on the due date, and the weighted interest rate weighted was 7.48% per year.

In case of derivative financial instruments (aiming at hedging the financial debt), changes in scenarios are accompanied by respective hedges, indicating effects are not significant, according to the following table.

17. Financial instruments – Continued**17.3. Fair value measurements - Continued**

The table below presents the fair value hierarchy of financial assets and liabilities measured at fair value and of financial instruments measured at amortized cost, the fair value of which is disclosed in the financial statements:

	Carrying amount	Fair value	
	09.30.2018	09.30.2018	Level
Financial assets and liabilities			
Trade receivables with credit card companies and sales vouchers (FVOCI)	824	824	2
Swaps	183	183	2
Borrowings and financing (FVPL)	(1,716)	(1,716)	2
Borrowings and financing and debentures (amortized cost)	(5,064)	(4,979)	2
Total	(5,773)	(5,688)	

There were no changes between the fair value measurements levels in the nine-months period ended September 30, 2018.

Cross-currency and interest rate swaps and borrowings and financing are classified in level 2 since the fair value of such financial instruments was determined based on readily observable market inputs, such as expected interest rate and current and future foreign exchange rate.

20.3.Tax

As per prevailing legislation, tax claims are subject to monetary indexation, which refers to an adjustment to the provision according to the indexation rates used by each tax jurisdiction. In all cases, both the interest charges and fines, when applicable, were computed and fully provisioned with respect to unpaid amounts.

The main provisioned tax claims are as follows:

20.3.1. PIS and COFINS

Since the adoption of the noncumulative regime to calculate PIS and COFINS, Company and its subsidiaries have challenged the right to deduct ICMS from the calculation basis for both contributions. On March 15, 2017, STF ruled that ICMS should be excluded from the calculation basis of PIS/Cofins, in accordance to the thesis pleaded by the Company.

Since the decision of the STF on March 15, 2017, the procedural steps were within the anticipated by our legal advisors without any change in the management's judgment regarding the reversal of the provision for lawsuits on this previously registered subject, however without there being a final decision expected on the subject, related to the judgment of the appeal filed by the prosecution. The Company and its external legal counsel estimate that the decision related to the application of the effects will not limit the right of the judicial claim proposed by the Company, nevertheless, the elements of the process still pending of decision do not allow the recognition of the asset related to the credits to be measured since the Company started the claim in 2003. According to the preliminary evaluation, based on the available information on December 31, 2017, the Company estimates the potential of its tax credits for the retail activity to be between R\$1,300 to R\$1,650.

Still in relation to the theme, as disclosed in Via Varejo's financial statements of September 30, 2018, the tax credits for this subsidiary, classified as discontinued operations, were estimated approximately R\$1,344, begin R\$894 of discontinued operations and R\$450 of continued operations is attributed to the Company due to an agreement between shareholders and the Company.

Regarding the remainder accrued amount for other discussions related to PIS and COFINS includes challenging of tax offset and other small amounts, as of September 30, 2018 represent R\$273, being R\$125 of continued operations and R\$148 of discontinued operations (R\$184 as of December 31, 2017, being R\$74 of continued operation and R\$110 of discontinued operations).

20.3.2. Tax claims

After entering in the special program on tax settlements, the Company analyzed the other tax claims, together with its external legal counsel, and determined them to be as probable losses and accrued by the Company. These refer to: (i) challenge on the non-application of the Accident Prevention Factor - FAP for 2011; (ii) challenge on the State Finance Department on the ICMS tax rate calculated on electric energy bills; (iii) other minor issues. The amount accrued for these matters as of September 30, 2018 is R\$210 of continued operation (R\$184 as of December 31, 2017, being R\$183 of continued (operation and R\$1 of discontinued operations).

ICMS

The Federal Supreme Court ("STF") on October 16, 2014 decided that ICMS taxpayers that trade products included in the "basket of food staples" have no right to fully utilize the ICMS credits. The Company, with the assistance of its legal counsel, decided to record a provision for this matter amounting to R\$108 as of September 30, 2018 (R\$142 as of December 31, 2017) since this claim was considered a "probable" loss. The amounts accrued represent Management's best estimate of the probable cash disbursement to settle this claim.

Additionally, there are cases assessed by São Paulo State tax authorities related to the refund of ICMS over tax substitution without proper compliance with accessory tax obligations introduced by CAT Administrative Rule 17. Considering recent court decisions the Company accrued R\$206 (R\$167 in December 31, 2017) representing the best estimation of probable loss evaluated by management based on documentation evidence aspect of the claims.

20.3.3. Supplementary Law 110/2001

The Company claims in court the eligibility to not pay the contributions provided for by Supplementary Law 110/01, referring to the FGTS (Government Severance Indemnity Fund for Employees) costs. The accrued amount as of September 30, 2018 is R\$85 being R\$84 of continued operation and R\$1 of discontinued operations (R\$72 of continued operation as of December 31, 2017 being R\$71 of continued operation and R\$1 of discontinued operations).

20.3.4. Others contingent tax liabilities - Via Varejo

Provisions for contingent tax liabilities were recorded as a result of the business combination with Via Varejo, as required by CPC 15 (IFRS 3). As of September 30, 2018, the recorded amount is R\$92 (R\$90 as of December 31, 2017). These accrued claims refer to administrative proceedings related to the offset of tax debts against credits from the contribution levied on coffee exports.

20.4.Labor

The Company and its subsidiaries are parties to various labor lawsuits mainly due to termination of employees in the ordinary course of business. At September 30, 2018, the Company recorded a provision of R\$979, being R\$315 for continued operations and R\$664 for discontinued operations (R\$1,284 as of December 31, 2017, being R\$331 for continued operations and R\$953 for discontinued operations). Management, with the assistance of its legal counsel, assessed these claims and recorded a provision for losses when reasonably estimable, based on past experiences in relation to the amounts claimed.

20.5.Civil and others

The Company and its subsidiaries are parties to civil lawsuits at several court levels (indemnities and collections, among others) and at different courts. The Company's management records provisions in amounts considered sufficient to cover unfavorable court decisions, when its legal counsel considers the loss as probable.

Among these lawsuits, we point out the following:

- The Company and its subsidiaries are parties to various lawsuits requesting the renewal of rental agreements and the review of the current rent paid. The Company recognizes a provision for the difference between the amount originally paid and the amounts claimed by the adverse party in the lawsuit, when internal and external legal counsel consider that it is probable that the rent amount will be changed by the Company. As of September 30, 2018, the amount accrued for these lawsuits is R\$107, being R\$58 for continued operations and R\$49 for discontinued operations (R\$125 as of December 31, 2017, being R\$61 for continued operations and R\$64 for discontinued operations), for which there are no escrow deposits.
- The Company and its subsidiaries answer to legal claims related to penalties applied by regulatory agencies, from the federal, state and municipal administrations, among which includes Consumer Protection Agencies (Procon), National Institute of Metrology, Standardization and Industrial Quality (INMETRO) and Municipalities and some lawsuits involving contract terminations with suppliers. Company supported by its legal counsel, assessed these claims, and recorded a provision according to probable cash expending and estimative of loss .On September 30, 2018 the amount of this provision is R\$40, being R\$26 for continued operations and R\$14 for discontinued operations (R\$43 on December 31, 2017, being R\$34 for continued operations and R\$9 for discontinued operations).

- As of September 30, 2018, the amount accrued related to other civil matters is R\$113, being R\$34 for continued operation and R\$79 for discontinued operations (R\$146 as of December 31, 2017, being R\$ 44 for continued operation R\$102 for discontinued operations).

Total civil lawsuits and others as of September 30, 2018 amount to R\$260 being R\$118 for continued operations and R\$142 for discontinued operations (R\$314 as of December 31, 2017, being R\$139 for continued operations and R\$175 for discontinued operations).

20.6. Other non-accrued contingent liabilities

The Company has other litigations which have been analyzed by the legal counsel and considered as possible loss and, therefore, have not been accrued. The possible litigations updated balance from shareholders is of R\$11,968, being R\$10,335 for continued operations and R1,633 for discontinued operations as of September 30, 2018 (R\$11,778 as of December 31, 2017, being R\$10,159 for continued operations and R\$1,619 for discontinued operations), and are mainly related to:

- INSS (Social Security Contribution) – GPA was assessed for non-levy of payroll charges on benefits granted to its employees, among other matters, for which possible loss amounts to R\$500, being R\$468 for continued operations and R\$32 for discontinued operations as of September 30, 2018 (R\$474 as of December 31, 2017, being R\$443 for continued operations and R\$31 for discontinued operations). The lawsuits are under administrative and court discussions.
- IRPJ, withholding income tax - IRRF, CSLL, tax on financial transactions - IOF, withholding income tax on net income – GPA has several assessment notices regarding offsetting proceedings, rules on the deductibility of provisions, payment divergences and overpayments; fine for failure to comply with accessory obligations, among other less significant taxes. Among those claims, there are one tax assessment related to the tax deduction of goodwill in the years of 2012 and 2013, originated by the acquisition of Ponto Frio (goodwill Mandala) accrued in the year of 2009. The restated amount of the assessment notice correspond to R\$88 of income tax and social contribution (R\$85 at December 31, 2017). The lawsuits await administrative and court ruling. The amount involved is R\$978, being R\$825 for continued operations and R\$153 for discontinued operations as of September 30, 2018 (R\$964 as of December 31, 2017, being R\$826 for continued operations and R\$138 for discontinued operations).
- COFINS, PIS and IPI – the Company has been challenged about offsets of IPI credits acquired from third parties with a final and an appeal over the decision, fine for failure to comply with accessory obligations, disallowance of COFINS and PIS credits on one-phase products (“produtos monofásicos”), among others less significant taxes. These lawsuits await decision at the administrative and court levels. The amount involved in these assessments is R\$2,376, being R\$1,935 for continued operations and R\$441 for discontinued operations as September 30, 2018 (R\$2,124 as of December 31, 2017, being R\$1,705 for

20. Provision for contingencies – Continued

20.6. Other non-accrued contingent liabilities – Continued

- ICMS – GPA received tax assessment notices by the State tax authorities regarding: (i) utilization of electric energy credits; (ii) purchases from suppliers considered not qualified in the State Finance Department registry; (iii) levied on its own operation of merchandise purchase (own ICMS) – article 271 of ICMS by-law; (iv) resulting from sale of extended warranty, (v) resulting from financed sales; and (vi) among other matters. The total amount of these assessments is R\$7,186, being R\$6,428 for continued operations and R\$758 for discontinued operations as of September 30, 2018 (R\$7,246 as of December 31, 2017, being R\$6,493 for continued operations and R\$753 for discontinued operations), which await a final decision at the administrative and court levels. With the amendment of the ICMS Regulation of the State of São Paulo, the Company filed a request for a debt review, in the face of the fines when there were changes in the criterion, which was accepted by SEFAZ, resulting in a reduction of R\$431 through payment of R\$5, which occurred in April and May 2018.
- Municipal service tax - ISS, Municipal Real Estate Tax (“IPTU”), Fees, and others – these refer to assessments on withholdings of third parties, IPTU payment divergences, fines for failure to comply with accessory obligations, ISS – reimbursement of advertising expenses and sundry taxes, in the amount of R\$278 being R\$142 for continued operations and R\$136 for discontinued operations as September 30, 2018 (R\$281 as of December 31, 2017, being R\$150 for continued operations and R\$131 for discontinued operations), which await decision at the administrative and court levels.
- Other litigations – these refer to administrative proceedings and lawsuits in which the Company claims the renewal of rental agreements and setting of rents according to market values and actions in the civil court, special civil court, Consumer Protection Agency - PROCON (in many States), Institute of Weights and Measure - IPEM, National Institute of Metrology, Standardization and Industrial Quality - INMETRO and National Health Surveillance Agency - ANVISA, among others, amounting to R\$650, being R\$537 for continued operations and R\$113 for discontinued operations as September 30, 2018 (R\$689 as of December 31, 2017, being R\$542 for continued operations and R\$147 discontinued operations).

The Company has litigations related to challenges by tax authorities on the income tax payment, for which, based on management and legal assessment, the Company has the right of indemnization from its former

and current shareholders, related to years from 2007 to 2013, under allegation that had improper deduction of goodwill amortizations. These assessments amount R\$1,260 on September 30, 2018 (R\$1,223 on December 31, 2017).

The Company engages external attorneys to represent it in the tax assessments, whose fees are contingent upon a percentage to be applied to the amount of success in the final outcome of these lawsuits. This percentage may vary according to qualitative and quantitative factors of each claim, and as of September 30, 2018 the estimated amount, in case of success in all lawsuits, is approximately R\$183, being R\$162 for continued operations and R\$21 for discontinued operations (R\$201 as of December 31, 2017, being R\$182 for continued operations and R\$19 for discontinued operations).

20.9. Cnova N.V. litigation

Our subsidiary Cnova N.V., a Dutch public limited company, certain of its current and former officers and directors, and the underwriters of Cnova's initial public offering, or IPO, were named as defendants in a securities class action lawsuit in the United States Federal District Court for the Southern District of New York, related to the assumption of internal investigation, concluded on July 22, 2016, conducted by Cnova N.V., Cnova Brasil e its advisors. In October 11, 2017 the Court for the Southern District of New York approved preliminarily an agreement with the plaintiffs' shareholders.

Subject to the settlement agreement's terms, a fund of \$28.5 million will become available by Cnova N.V. for distribution amongst the former Cnova shareholders as well as to the plaintiffs' lawyers. A portion of this amount will be used to cover the settlement fund's administrative costs. In addition, subject to the terms of the settlement, all defendants are acquitted of all liability emanating from the allegations made in the class action suit. Following the March 15, 2018 hearing, the court entered on March 19, 2018 the final order giving the definitive approval to the settlement, closing the judicial proceedings with the United States District Court for the Southern District of New York and releasing defendants of the claims alleged against them accordingly. In the coming period, notices will be sent by the plaintiffs' lawyer with more information concerning the settlement. The vast majority of this settlement amount was funded by Cnova N.V. insurers. The remainder as well as all expected related costs were covered by Cnova's provision recorded in 2016 representing insurance deductible and total legal costs. Accordingly, the settlement has no material impact on Cnova N.V. net results.
