Top of the Form

Item 2.03 Creation of a Direct Financial Obligation or an Obligation under an Off-Balance Sheet Arrangement of a Registrant.

On March 6, 2006, Smart CRM, Inc., a wholly-owned subsidiary of Smart Online, Inc., assigned a 70% interest in eight separate service contracts and a 50% interest in one service contract with total payables from customers over the lives of the contracts of \$654,588 to a factor in exchange for \$328,925. As a result of this arrangement, Smart CRM, Inc., will record a debt payable to the factor in the amount of \$384,211, which will become due in monthly installments over a period of 44 months. The factoring agreement provides for a security interest in the equipment provided to customers, if such equipment is provided under the contracts. This debt will appear on Smart Online, Inc.'s consolidated balance sheet and will reduce the amount of future revenue Smart CRM, Inc. derives from these nine customer contracts. Approximately \$42,900 of the proceeds will be used to pay off existing factor payables which will result in a corresponding decrease in debt payable. The remaining cash acquired from the factor will be used to fund current operations of Smart CRM, Inc. and Smart Online, Inc. Should any customer fail to make their scheduled payments, Smart CRM, Inc. will be liable to the factor for the full amount of the interest assigned to the factor.
