Item 2.06 Material Impairments.

In November 2003, Affiliated Computer Services, Inc. (the "Company") was awarded a contract (the "CSB Contract") by the Department of Education (the "Department") in connection with the Department's "Common Services for Borrowers" initiative ("CSB"). Under the CSB Contract the Company provides comprehensive loan servicing, consolidation loan processing, debt collection services on delinquent accounts, IT infrastructure operations and support, maintenance and development of information systems, and portfolio management services for the Department's Direct Student Loan program. The Company also develops software for use in delivering these services.

The Company previously announced that a change was being considered in the model for development of software under the CSB Contract. The Company has now concluded discussions with the Department and has agreed to cease development of certain software contemplated under the CSB Contract. As a result of the decision to cease development, the Company will record a non-cash impairment charge of approximately \$76 million (approximately \$48 million net of income tax) related to in-process capitalized development costs. This charge will be recorded in the fourth quarter of fiscal year 2007 ending June 30, 2007.

The Company continues to provide comprehensive loan servicing, consolidation loan processing, debt collection services on delinquent accounts, IT infrastructure operations and support, maintenance and enhancement of information systems, and portfolio management services under the CSB Contract.
