Item 8.01 Other Events.

On May 26, 2011, the Michigan Public Service Commission (MPSC) approved a partial settlement agreement in Consumers Energy Company's (Consumers Energy) gas rate case, increasing natural gas rates by approximately \$31.4 million annually. (MPSC Case No. U 16418). The settlement was based upon the non-precedential resolution of various issues, including a 10.5% rate of return on common equity.

Among other things, the settlement agreement provides that (1) Consumers Energy shall conduct a study and implement economic measures that will reduce the level of lost and unaccounted for gas, including storage losses and file a copy of that study in its next rate case, (2) in its next general gas rate case filing, Consumers Energy shall file a cost of service study for use in developing cost allocation factors that utilizes an historical peak day approach, (3) the gas-in-kind percentage for end-user transportation customers will remain at 1.83%, (4) Consumers Energy should modify its existing Gas Customer Choice program to provide additional flexibility to adjust required daily deliveries, (5) under Consumers Energy's Customer Attachment Program the carrying cost rate is 11.36%, and the discount rate is 8.06%, reflecting a return on equity of 10.50%, (6) Consumers Energy shall set aside \$500,000 in a trust to be used for worker training, and (7) accounting authorizations related to the regulatory treatment for asbestos abatement and cut, cap, and purge of distribution pipe are granted.

Remaining issues are to be decided by the MPSC based on the record and include (1) Consumers Energy's advanced metering infrastructure program, (2) statutory authority for approving contributions to the low-income and energy efficiency fund, and (3) Consumers Energy's decoupling mechanism.

The rates authorized by the order will go into effect May 27, 2011. For more information and to obtain a copy of the orders please visit the MPSC's website at: <http://efile.mpesc.state.mi.us/efile/viewcase.php?casenum=16418>.
