Item 8.01. Other Events.

Mueller Water Products, Inc. (the "Company") is filing this Current Report on Form 8-K to recast quarterly historical segment information in accordance with the Company's current segment structure. In connection with the Company's Annual Report on Form 10-K for the year ended September 30, 2014 filed with the United States Securities and Exchange Commission on November 26, 2014, the Company reported its results of operations in two segments: Mueller Co. and Anvil. The Company now reports detailed results for the Mueller Co. segment, the Anvil segment and a new Mueller Technologies segment. Mueller Technologies is currently comprised of the results of the Mueller Systems and Echologics businesses, which were previously reported within the Mueller Co. segment. For information purposes only, we are furnishing certain unaudited financial information in the attached Exhibit 99.1 reflecting this recasting for the periods presented. This recasting has no effect on the Company's previously reported balance sheets, earnings or cash flows.

Item 9.01 Financial Statements and Exhibits.

(d) Exhibits.

99.1 Mueller Water Products, Inc. Unaudited Financial Information

Non-GAAP Financial Measures

The Company presents certain non-GAAP financial measures in the attached Exhibit 99.1. The Company presents adjusted operating income, adjusted operating margin, adjusted EBITDA and adjusted EBITDA margin as non-GAAP measures. Adjusted operating income represents operating income excluding restructuring, the loss on the receivable from Walter Energy and pension settlements. This amount divided by net sales is adjusted operating margin. Adjusted EBITDA represents operating income excluding restructuring, the loss on the receivable from Walter Energy, pension settlements, depreciation and amortization. This amount divided by net sales is adjusted EBITDA margin. The Company presents adjusted operating income, adjusted operating margin, adjusted EBITDA and adjusted EBITDA margin because these are measures management believes are frequently used by securities analysts, investors and other interested parties in the evaluation of financial performance. These non-GAAP measures have limitations as analytical tools, and securities analysts, investors and other interested parties should not consider any of these non-GAAP measures in isolation or as a substitute for analysis of the Company's results as reported under GAAP. These non-GAAP measures may not be comparable to similarly titled measures used by other companies.
