The shares of common stock of Apache are deemed to also represent certain preferred stock purchase rights ('Rights'). The Rights are not currently exercisable or separately tradable and presently are evidenced by certificates for shares of the common stock. Value attributable to such Rights, if any, is reflected in the market price of the common stock.

The reporting person has previously reported, as direct beneficially owned securities, 100% of the shares of Apache common stock held by Ferlic Investments, Ltd., a family limited partnership of which the reporting person is the general and managing partner. On 04/30/2010, the partnership distributed on a pro rata basis, in accordance with each partner's pencuniary interest, all 13,860 shares owned by the partnership. Of the shares distributed, the reporting person now directly beneficially owns 4,977.126 of such shares distributed to the reporting person and indirectly owns 90.09 of such shares distributed to the reporting person's spouse. The reporting person no longer has a reportable beneficial interest in 8,792.784 of such shares distributed by the partnership to the reporting person's adult children.
