CERTAIN DEFINED TERMS

Throughout this document, unless otherwise specified or the context so requires:

• "CBOE Holdings," "we," "us," "our" or "the Company" refers to CBOE Holdings, Inc. and its subsidiaries.

• "Bats Exchanges" refers to BZX, BYX, EDGX and EDGA.

• "Bats Global Markets" and "Bats" refer to our wholly-owned subsidiary Bats Global Markets, Inc., now known as CBOE V, LLC, and its subsidiaries.

• "Bats Hotspot" and "Hotspot" refer to our foreign currency exchange. Hotspot operates in the United States and the United Kingdom.

• "Bats Trading" and "Trading" refer to our broker-dealer entity, Bats Trading, Inc., a wholly-owned subsidiary of CBOE Holdings, Inc., operated in the United States.

• "BTL" refers to Bats Trading Limited, a wholly-owned subsidiary of CBOE Holdings, Inc., the U.K. operator of our Multilateral Trading Facility ("MTF"), and our Regulated Market ("RM"), under its Recognized Investment Exchange ("RIE") status, collectively known as "Bats Europe".

• "BYX" refers to Bats BYX Exchange, Inc., a wholly-owned subsidiary of CBOE Holdings, Inc.

• "BZX" refers to Bats BZX Exchange, Inc., a wholly-owned subsidiary of CBOE Holdings, Inc.

• "C2" refers to C2 Options Exchange, Incorporated, a wholly-owned subsidiary of CBOE Holdings, Inc.

• "CBOE" refers to Chicago Board Options Exchange, Incorporated, a wholly-owned subsidiary of CBOE Holdings, Inc.

• "CFE" refers to CBOE Futures Exchange, LLC, a wholly-owned subsidiary of CBOE Holdings, Inc.

• "CFTC" refers to the U.S. Commodity Futures Trading Commission.

• "Chi-X Europe" refers to our broker-dealer operated in the United Kingdom.

• "EDGA" refers to Bats EDGA Exchange, Inc., a wholly-owned subsidiary of CBOE Holdings, Inc.

• "EDGX" refers to Bats EDGX Exchange, Inc., a wholly-owned subsidiary of CBOE Holdings, Inc.

• "Exchanges" refers to CBOE, C2, BZX, BYX, EDGX, and EDGA.

• "FASB" refers to the Financial Accounting Standards Board.

• "FCA" refers to the U.K. Financial Conduct Authority.

• "GAAP" refers to Generally Accepted Accounting Principles in the United States.

• "Merger" refers to our acquisition of Bats Global Markets, completed on February 28, 2017.

• "OCC" refers to The Options Clearing Corporation, which is the issuer and registered clearing agency for all U.S. exchange-listed options and is the designated clearing organization for futures traded on CFE.

• "SEC" refers to the U.S. Securities and Exchange Commission.

• "SPX" refers to our S&P 500 Index exchange-traded options products.

• "VIX" refers to the CBOE Volatility Index methodology.

This Quarterly Report on Form 10-Q includes market share and industry data that we obtained from industry publications and surveys, reports of governmental agencies and internal company surveys. Industry publications and surveys generally state that the information they contain has been obtained from sources believed to be reliable, but we cannot assure you that this information is accurate or complete. We have not independently verified any of the data from third-party sources nor have we ascertained the underlying economic assumptions relied upon therein. Statements as to our market position are based on the most currently available market data. While we are not aware of any misstatements regarding industry data presented herein, our estimates involve risks and uncertainties and are subject to change based on various factors. We refer you to the “Risk Factors” in Part II, Item 1A of this Quarterly Report on Form 10-Q and our other filings with the SEC.

Table of Contents

FORWARD-LOOKING STATEMENTS

This Quarterly Report on Form 10-Q contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 that involve a number of risks and uncertainties. You can identify these statements by forward-looking words such as "may," "might," "should," "expect," "plan," "anticipate," "believe," "estimate," "predict," "potential" or "continue," and the negative of these terms and other comparable terminology. All statements that reflect our expectations, assumptions or projections about the future other than statements of historical fact are forward-looking statements, including statements in the "Management's Discussion and Analysis of Financial Condition and Results of Operations" section of this report. These forward-looking statements, which are subject to known and unknown risks, uncertainties and assumptions about us, may include projections of our future financial performance based on our growth strategies and anticipated trends in our business. These statements are only predictions based on our current expectations and projections about future events. There are important factors that could cause our actual results, level of activity, performance or achievements to differ materially from that expressed or implied by the forward-looking statements. In particular, you should consider the risks and uncertainties described under "Risk Factors" in Part II, Item 1A of this Quarterly Report on Form 10-Q and our other filings with the SEC. While we believe we have identified the risks that are material to us, these risks and uncertainties are not exhaustive. Moreover, we operate in a very competitive and rapidly changing environment. New risks and uncertainties emerge from time to time, and it is not possible to predict all risks and uncertainties, nor can we assess the impact of all factors on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements.

Some factors that could cause actual results to differ include:

- the loss of our right to exclusively list and trade certain index options and futures products;
- economic, political and market conditions;
- compliance with legal and regulatory obligations;
- price competition and consolidation in our industry;
- decreases in trading volumes, market data fees or a shift in the mix of products traded on our exchanges;
- legislative or regulatory changes;
- increasing competition by foreign and domestic entities;
- our dependence on and exposure to risk from third parties;
- our index providers' ability to maintain the quality and integrity of their indexes and to perform under our agreements;
- our ability to operate our business without violating the intellectual property rights of others and the costs associated with protecting our intellectual property rights;
- our ability to attract and retain skilled management and other personnel, including those experienced with post-acquisition integration;
- our ability to accommodate trading volume and transaction traffic, including significant increases, without failure or degradation of performance of our systems;
- our ability to protect our systems and communication networks from security risks, including cyber-attacks and unauthorized disclosure of confidential information;
- challenges to our use of open source software code;
- our ability to meet our compliance obligations, including managing potential conflicts between our regulatory responsibilities and our for-profit status;
- damage to our reputation;
- the ability of our compliance and risk management methods to effectively monitor and manage our risks;
- our ability to manage our growth and strategic acquisitions or alliances effectively;
 - unanticipated difficulties or expenditures relating to the Merger, including, without limitation, difficulties that result in the failure to realize expected synergies, accretion, efficiencies and cost savings from the Merger within the expected time period (if at all), whether in connection with integration, migrating trading platforms, broadening distribution of product offerings or otherwise;

Table of Contents

restrictions imposed by our debt obligations;
our ability to maintain an investment grade credit rating;
potential difficulties in our migration of trading platforms and our ability to retain employees as a result of the Merger; and
the accuracy of our estimates and expectations.

For a detailed discussion of these and other factors that might affect our performance, see Part II, Item 1A of this Report. We do not undertake, and expressly disclaim, any duty to update any forward-looking statement whether as a result of new information, future events or otherwise, except as required by law. We caution you not to place undue reliance on the forward-looking statements, which speak only as of the date of this filing.

CBOE Holdings, Inc. and Subsidiaries
Notes to Condensed Consolidated Financial Statements (unaudited)

1. ORGANIZATION AND BASIS OF PRESENTATION

CBOE Holdings, Inc. (CBOE Holdings or the Company) is the owner of the Chicago Board Options Exchange, the Bats Exchanges, CBOE Futures Exchange (CFE) and other subsidiaries. The Company is one of the world's largest exchange holding companies and a leader in providing global investors cutting-edge trading and investment solutions.

The Company offers trading across a diverse range of products in multiple asset classes and geographies, including options, futures, U.S. and European equities, exchange-traded products (ETPs), and multi-asset volatility and global foreign exchange ("FX") products. CBOE Holdings' fourteen trading venues include the largest options exchange by volume in the United States, and the largest pan-European stock exchange in Europe by volume. The Company is the second-largest stock exchange operator in the United States by volume and a leading market globally for ETP trading.

Basis of Presentation

These interim unaudited condensed consolidated financial statements have been prepared in accordance with GAAP for interim financial information and with the instructions to Form 10-Q and should be read in conjunction with the consolidated financial statements and notes thereto contained in the Company's Annual Report on Form 10-K for the year ended December 31, 2016.

The preparation of consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosures of contingent assets and liabilities, valuation of redeemable noncontrolling interests and reported amounts of revenues and expenses. On an ongoing basis, management evaluates its estimates based upon historical experience, observance of trends, information available from outside sources and various other assumptions that management believes to be reasonable under the circumstances. Actual results may differ from these estimates under different conditions or assumptions.

In the opinion of management, all adjustments (consisting of normal recurring adjustments) considered necessary for a fair presentation of financial position, results of operations and cash flows at the dates and for the periods presented have been included.

The results of operations for interim periods are not necessarily indicative of the results of operations for the full year.

For those consolidated subsidiaries in which the Company's ownership is less than 100% and for which the Company has control over the assets and liabilities and the management of the entity, the outside stockholders' interest are shown as non-controlling interests.

In 2017, the Company changed the presentation of liquidity payments, or rebates paid to customers in accordance with published fee schedules, to be a cost of revenues, which historically had been netted against transaction fees. The Company also changed the presentation of royalty fees to be a cost of revenues. The presentation of routing fees and costs were also changed. Routing fees were presented in transaction fees in total revenues and routing and clearing costs in total cost of revenues. These fees were previously presented as a net operating expense. These changes were made to conform to current presentation and the changes have been reflected in all periods presented.

Segment information

The Company previously operated as a single reportable business segment. As a result of the Bats acquisition on February 28, 2017 (Note 3), the Company is reporting five business segments: Options, U.S. Equities, Futures, European Equities, and Global FX, which is reflective of how the Company's chief operating decision-maker reviews and operates the business (Note 15). This change has been reflected in all periods presented.

Recent Accounting Pronouncements - Adopted

In the first quarter of 2017, the Company adopted Accounting Standards Update (ASU) 2014-09, Revenue from Contracts with Customers (Topic 606). Under the ASU, revenue is recognized when a customer obtains control of promised goods or services in an amount that reflects the consideration the entity expects to receive in exchange for those goods or

Table of Contents

CBOE Holdings, Inc. and Subsidiaries

Notes to Condensed Consolidated Financial Statements (unaudited)

services. In addition, the standard requires disclosure of the nature, amount, timing, and uncertainty of revenue and cash flows arising from contracts with customers. The Company applied the five-step method outlined in the ASU to all revenue streams and elected the full retrospective implementation method. The additional disclosures required by the ASU have been included in Note 2.

In the first quarter of 2017, the Company adopted ASU 2016-09, Compensation — Stock Compensation. This ASU simplifies several aspects of the accounting for stock-based payment transactions, including the recognition of excess tax benefits and deficiencies, the classification of those excess tax benefits on the statement of cash flows, an accounting policy election for forfeitures, the amount an employer can withhold to cover income taxes and still qualify for equity classification and the classification of those taxes paid on the statement of cash flows. The Company has chosen to use the actual forfeiture rate and applied the prospective transition method for excess tax benefits and employees taxes paid. As of the adoption date, the Company did not have any awards classified as a liability under the previous guidance.

In the first quarter of 2017, the Company adopted ASU 2016-16, Accounting for Income Taxes: Intra-Entity Transfers of Assets other than Inventory. The ASU requires that the income tax impact of intra-entity sales and transfers of property, except for inventory, be recognized when the transfer occurs. The Company applied the full retrospective application which did not result in any impact to the financial statements.

Recent Accounting Pronouncements - Issued, not yet Adopted

In May 2017, the FASB issued ASU 2017-09, Compensation - Stock Compensation (Topic 718) that provides additional guidance around which changes to a share-based payment award requires an entity to apply modification accounting. Specifically, an entity is to account for the effects of a modification, unless all of the following are satisfied: (1) the fair value (or calculated value or intrinsic value, if such an alternative measurement method is used) of the modified award is the same as the fair value (or calculated value or intrinsic value, if such an alternative measurement method is used) of the original award immediately before the original award is modified; (2) the vesting conditions of the modified award are the same as the vesting conditions of the original award immediately before the original award is modified; and (3) the classification of the modified award as an equity instrument or as a liability instrument is the same as the classification of the original award immediately before the original award is modified. For public entities, the update is effective beginning after December 15, 2017. Early adoption is permitted. The Company is in the process of evaluating this guidance and assessing the impact the ASU could have on the consolidated financial statements.

In March 2017, the FASB issued ASU 2017-07, Compensation - Retirement Benefits (Topic 715). This ASU requires an employer to report the service cost component in the same line item or items as other compensation costs arising from services rendered by the pertinent employees during the period. The other components are required to be presented in the income statement separately from the service cost component and outside a subtotal of income from operations. For public entities, the update is effective beginning after December 15, 2017. Early adoption is permitted. The Company is in the process of evaluating this guidance and assessing the impact the ASU could have on the consolidated financial statements.

In January 2017, the FASB issued ASU 2017-01, Business Combinations (Topic 805)-Clarifying the Definition of a Business. ASU No. 2017-01 clarifies the definition of a business with the objective of adding guidance to assist

entities with evaluating whether transactions should be accounted for as acquisitions (or disposals) of assets or businesses. There are three elements of a business: inputs, processes, and outputs. While an integrated set of assets and activities (collectively, a “set”) that is a business usually has outputs, outputs are not required to be present. Additionally, all of the inputs and processes that a seller uses in operating a set are not required if market participants can acquire the set and continue to produce outputs. ASU No. 2017-01 provides a screen to determine when a set is not a business. The screen requires that when substantially all of the fair value of the gross assets acquired (or disposed of) is concentrated in a single identifiable asset or a group of similar identifiable assets, the set is not a business. This screen reduces the number of transactions that need to be further evaluated. If, however, the screen is not met, then the amendments in this ASU (1) require that to be considered a business, a set must include, at a minimum, an input and a substantive process that together significantly contribute to the ability to create output and (2) remove the evaluation of whether a market participant could replace missing elements. Finally, the amendments in this ASU narrow the definition of the term “output” so that it is consistent with the manner in which outputs are described in Topic 606 - Revenue from Contracts with Customers. For public entities, the update is effective for annual or any interim goodwill impairment tests in fiscal years beginning after December 15, 2018. Early adoption is permitted under certain circumstances. The Company is in the process of evaluating this guidance and assessing the impact the ASU could have on the consolidated financial statements.

CBOE Holdings, Inc. and Subsidiaries
Notes to Condensed Consolidated Financial Statements (unaudited)

In January 2017, the FASB issued ASU 2017-04, Intangibles-Goodwill and Other (Topic 350): Simplifying the Test for Goodwill Impairment. This ASU simplifies the manner in which an entity is required to test goodwill for impairment by eliminating Step 2 from the goodwill impairment test. Step 2 measures a goodwill impairment loss by comparing the implied fair value of a reporting unit's goodwill with the carrying amount of that goodwill. In computing the implied fair value of goodwill under Step 2, an entity, prior to the amendments in ASU No. 2017-04, had to perform procedures to determine the fair value at the impairment testing date of its assets and liabilities, including unrecognized assets and liabilities, in accordance with the procedure that would be required in determining the fair value of assets acquired and liabilities assumed in a business combination. However, under this ASU, an entity should (1) perform its annual or interim goodwill impairment test by comparing the fair value of a reporting unit with its carrying amount, and (2) recognize an impairment charge for the amount by which the carrying amount exceeds the reporting unit's fair value, with the understanding that the loss recognized should not exceed the total amount of goodwill allocated to that reporting unit. Additionally, ASU No. 2017-04 removes the requirements for any reporting unit with a zero or negative carrying amount to perform a qualitative assessment and, if it fails such qualitative test, to perform Step 2 of the goodwill impairment test. For public entities, the update is effective for annual or any interim goodwill impairment tests in fiscal years beginning after December 15, 2019. Early adoption is permitted for interim or annual goodwill impairment tests performed on testing dates after January 1, 2017. The Company is in the process of evaluating this guidance and assessing the impact the ASU could have on the consolidated financial statements.

In February 2016, the FASB issued ASU 2016-02, Leases. This update requires a lessee to recognize on the balance sheet a liability to make lease payments and a corresponding right-of-use asset. The guidance also requires certain qualitative and quantitative disclosures about the amount, timing and uncertainty of cash flows arising from leases. This update is effective for annual and interim periods beginning after December 15, 2018. Early adoption is permitted. The Company is in the process of evaluating this guidance and assessing the impact the ASU could have on the consolidated financial statements.

In September 2016, the FASB issued ASU 2016-15, Statement of Cash Flows (Topic 230) — Classification of Certain Cash Receipts and Cash Payments (a consensus of the FASB Emerging Issues Task Force). ASU No. 2016-15 addresses eight specific cash flow issues in an effort to reduce diversity in practice: (1) debt prepayment or debt extinguishment costs; (2) settlement of zero-coupon bonds; (3) contingent consideration payments made after a business combination; (4) proceeds from the settlement of insurance claims; (5) proceeds from the settlement of corporate-owned life insurance policies, including bank-owned life insurance policies; (6) distributions received from equity method investees; (7) beneficial interests in securitization transactions; and (8) separately identifiable cash flows and application of the predominance principle. The ASU is effective for the Company for fiscal years beginning after December 15, 2017, and for the interim periods within that fiscal year. Early adoption is permitted, including adoption during an interim period. The Company is in the process of evaluating this guidance and assessing the impact the ASU could have on the consolidated financial statements.

2. REVENUE RECOGNITION

As of January 1, 2017, the Company adopted ASU 2014-09 Revenue from Contracts with Customers - Topic 606 and all subsequent ASUs that modified ASC 606. The Company has elected to apply the ASU and all related ASUs retrospectively to each prior reporting period presented. The implementation of the guidance had no material impact on the measurement or recognition of revenue of prior periods, however, additional disclosures have been added in accordance with the ASU.

The main types of revenue contracts are:

-

Transaction fees - Transaction fees represent fees charged by the Company for the performance obligation of executing a trade on its markets. These fees can be variable based on trade volume tiered discounts, however, as all tiered discounts are calculated monthly, the actual discount is recorded on a monthly basis. Transaction fees, as well as any tiered volume discounts, are calculated and billed monthly in accordance with the Company's published fee schedules. Transaction fees are recognized across all segments. The Company also pays liquidity payments to customers based on its published fee schedules. The Company uses these payments to improve the liquidity on its markets and therefore recognizes those payments as a cost of revenue.

Access fees - Access fees represent fees assessed for the opportunity to trade, including fees for trading-related functionality across all segments. These fees are billed monthly in accordance with the Company's published fee schedules and recognized on a monthly basis when the performance obligation is met. There is no remaining performance obligation after revenue is recognized.

Table of Contents

CBOE Holdings, Inc. and Subsidiaries

Notes to Condensed Consolidated Financial Statements (unaudited)

Exchange services and other fees - To facilitate trading, the Company offers technology services, terminal and other equipment rights, maintenance services, trading floor space and telecommunications services. Trading floor and equipment rights are generally on a month-to-month basis. Facilities, systems services and other fees are generally monthly fee-based, although certain services are influenced by trading volume or other defined metrics, while others are based solely on demand. All fees associated with the trading floor are recognized in the Options segment.

Market data fees - Market data fees represent the fees received by the Company from the U.S. tape plans and fees charged to customers for proprietary market data. Fees from the U.S. tape plans are collected monthly based on published fee schedules and distributed quarterly to the U.S. exchanges based on a known formula. A contract for proprietary market data is entered into and charged on a monthly basis in accordance with the Company's published fee schedules as the service is provided. Both types of market data are satisfied over time, and revenue is recognized on a monthly basis as the customer receives and consumes the benefit as the Company provides the data. U.S. tape plan market data is recognized in the U.S. Equities and Options segments. Proprietary market data fees are recognized across all segments.

Regulatory fees - There are two types of regulatory fees that the Company recognizes. The first type represents fees collected by the Company to cover the Section 31 fees charged to the Exchanges by the SEC. The fees charged to customers are based on the fee set by the SEC per notional value of the transaction executed on the Company's U.S. securities markets. These fees are calculated and billed monthly and are recognized in the U.S. Equities and Options segments. As the Exchanges are responsible for the ultimate payment to the SEC, the exchanges are considered the principal in these transactions. Regulatory fees also includes the options regulatory fee (ORF) which supports the Company's regulatory oversight function in the Options segment and other miscellaneous regulatory fees.

Other revenue - Other revenue primarily includes revenue from various licensing agreements, all fees related to the trade reporting facility operated in the European Equities segment, and revenue associated with advertisements through the Company's website.

All revenue recognized in the income statement is considered to be revenue from contracts with customers. The following table depicts the disaggregation of revenue according to product line and segment (in millions):

	Options	U.S. Equities	Futures	European Equities	Global FX	Corporate Items and Eliminations	Total
Three months ended June 30, 2017

	\$ 287.6	\$ —	\$ 56.0	\$ —	\$ —	\$ —	\$ 343.6

Contract liabilities for the period ended June 30, 2017 primarily represent prepayments of transaction fees and certain access and market data fees to the Exchanges. The revenue recognized from contract liabilities and the remaining balance is shown below (in millions):

	January 1, 2017	Cash Additions	Revenue Recognition	June 30, 2017
Liquidity provider sliding scale (1)	\$ —	\$ 12.0	\$ (6.0)	\$ 6.0
Other, net	3.1	11.0	(5.8)	8.3
Total deferred revenue	\$ 3.1	\$ 23.0	\$ (11.8)	\$ 14.3

(1) Liquidity providers are eligible to participate in the sliding scale program, which involves prepayment of transaction fees, and to receive reduced fees based on the achievement of certain volume thresholds within a calendar month. These transaction fees are amortized and recorded ratably as the transactions occur over the period.

3. ACQUISITIONS

Bats Global Markets, Inc.

Edgar Filing: CBOE Holdings, Inc. - Form 10-Q

On February 28, 2017, pursuant to the Agreement and Plan of Merger, dated as of September 25, 2016 (the “Merger Agreement”), by and among CBOE Holdings, Inc., a Delaware corporation (“CBOE Holdings”), Bats Global Markets, Inc., a Delaware corporation (“Bats”), CBOE Corporation, a Delaware corporation and a wholly-owned subsidiary of CBOE Holdings (“Merger Sub”), and CBOE V, LLC, a Delaware limited liability company and a wholly-owned subsidiary of CBOE Holdings (“Merger LLC”), CBOE Holdings completed the merger (the “Merger”) of Merger Sub with and into Bats and the subsequent

10

Table of Contents

CBOE Holdings, Inc. and Subsidiaries

Notes to Condensed Consolidated Financial Statements (unaudited)

merger (the “Subsequent Merger”) of Bats with and into Merger LLC. As a result of the Merger, Bats became a wholly-owned subsidiary of CBOE Holdings.

The acquisition-date fair value of the consideration transferred totaled \$4.0 billion, which consisted of the following (in millions):

Cash	\$955.5
Common stock issued	2,387.3
Equity awards issued	37.4
	3,380.2
Debt extinguished	580.0
Total consideration paid	\$3,960.2

As a result of the Merger, each share of voting common stock of Bats, par value of \$0.01 per share (“Bats Voting Common Stock”), and each share of non-voting common stock of Bats, par value of \$0.01 per share (“Bats Non-Voting Common Stock” and, together with the Bats Voting Common Stock, “Bats Common Stock”), issued and outstanding immediately prior to the effective time of the Merger (the “Effective Time”) (other than shares held by CBOE Holdings, Bats or any of their respective subsidiaries, shares held by any holder of Bats Common Stock who was entitled to demand and properly demanded appraisal of such shares under Delaware law and unvested restricted shares of Bats Common Stock granted under any Bats equity incentive plan (all such shares described in this parenthetical, “Excluded Shares”)) was converted into, at the election of the holder of such share, either (i) 0.3201 of a share of common stock, par value of \$0.01 per share, of CBOE Holdings (“CBOE Holdings Common Stock”) and \$10.00 in cash (the “Mixed Consideration”), (ii) \$14.99 in cash and 0.2577 of a share of CBOE Holdings Common Stock (the “Cash Election Consideration”) or (iii) 0.4452 of a share of CBOE Holdings Common Stock (the “Stock Election Consideration”). Pursuant to the terms of the Merger Agreement, the Cash Election Consideration and Stock Election Consideration payable in the Merger were calculated based on the volume-weighted average price (rounded to four decimal places) of shares of CBOE Holdings Common Stock on The Nasdaq Stock Market LLC for the period of ten consecutive trading days ended on February 24, 2017, which was \$79.9289. The Cash Election Consideration and the Stock Election Consideration were subject to automatic adjustment, as described in the Merger Agreement and in the definitive joint proxy statement/prospectus dated December 9, 2016, filed by CBOE Holdings with the SEC on December 12, 2016, as amended and supplemented from time to time (the “Prospectus”), to ensure that the total amount of cash paid and the total number of shares of CBOE Common Stock issued in the Merger were the same as what would have been paid and issued if all holders of Bats Common Stock received the Mixed Consideration at the Effective Time.

The amounts in the table below represent the allocation of the purchase price and are subject to revision during the remainder of the measurement period, a period not to exceed twelve months from the acquisition date. Adjustments to the provisional values during the measurement period will be recorded in the reporting period in which the adjustment amounts are determined. The following table summarizes the estimated fair values of the assets acquired and liabilities assumed at the acquisition date (in millions):

Cash and cash equivalents	\$130.1
Accounts receivable	117.8
Financial investments	66.0
Property and equipment	21.8
Other assets	32.8
Goodwill	2,649.3
Intangibles	2,000.0
Accounts payable	(33.7)

Accrued expenses	(26.4)
Section 31 fee payable	(143.6)
Income tax payable	(52.8)
Deferred tax liability	(718.5)
Other liabilities	(82.6)
	\$3,960.2

Table of ContentsCBOE Holdings, Inc. and Subsidiaries
Notes to Condensed Consolidated Financial Statements (unaudited)

For tax purposes, no tax deductible goodwill was generated as a result of this acquisition. Goodwill was assigned to the Options, U.S. Equities, European Equities, and Global FX segments as further described in Note 9 and is attributable to the expansion of asset classes, broadening of geographic reach, and expected synergies of the combined workforce, products and technologies of the Company and Bats. The intangible assets were assigned to the Options, U.S. Equities, European Equities, and Global FX segments in the following manner and will be amortized over the following useful lives:

(amounts in millions)	Options	U.S. Equities	European Equities	Global FX	Useful life
Trading registrations and licenses	\$ 95.5	\$ 572.7	\$ 171.8	\$ —	indefinite
Customer relationships	37.1	222.9	160.0	140.0	20 years
Market data customer relationships	53.6	322.0	60.0	64.4	15 years
Technology	22.5	22.5	22.5	22.5	7 years
Trademarks and trade names	1.0	6.0	1.8	1.2	2 years
Goodwill	226.4	1,736.4	419.3	267.2	
	\$ 436.1	\$ 2,882.5	\$ 835.4	\$ 495.3	

There were no goodwill or intangible assets assigned to the Futures segment as a result of this transaction as Bats did not operate a Futures business and no synergies are attributable to this segment.

The fair value of accounts receivable acquired was \$117.8 million. The gross amount of accounts receivable was \$118.0 million of which \$0.2 million was deemed uncollectable.

The Company expensed \$4.7 million of acquisition-related costs during the three months ended June 30, 2017 that included \$3.4 million of compensation-related costs and \$1.3 million of professional fees. These costs are included in acquisition-related costs in the condensed consolidated statements of income.

The Company expensed \$69.9 million of acquisition-related costs during the six months ended June 30, 2017 that included \$33.5 million of compensation-related costs, \$20.6 million of professional fees, \$14.9 million of an impairment of capitalized data processing software, and \$0.9 million of facilities expenses. These costs are included in acquisition-related costs in the condensed consolidated statements of income.

The amounts of revenue, operating income and net income of Bats are included in the Company's condensed consolidated statements of income from the acquisition date to the three and six months ended June 30, 2017 and are as follows (in millions):

	Three Months Ended June 30, 2017	Six Months Ended June 30, 2017
Revenue	\$ 446.0	\$ 605.8
Operating income	28.6	26.6
Net income	18.3	17.6

The financial information in the table below summarizes the combined results of operations of the Company and Bats, on a pro forma basis, as though the companies had been combined as of January 1, 2016. The pro forma financial information is presented for informational purposes only and is not indicative of the results of operations that would have been achieved if the acquisition had taken place at the beginning of the period presented. Such pro forma financial information is based on the historical financial statements of the Company and Bats. This pro forma financial information is based on estimates and assumptions that have been made solely for purposes of developing such pro forma information, including, without limitation, preliminary purchase accounting adjustments. The pro forma financial information does not reflect any synergies or operating cost reductions that may be achieved from the combined operations. The pro forma financial information combines the historical results for the Company and Bats for the three months ended June 30, 2016 and six months ended June 30, 2017 and 2016 in the following table (in millions, except per share amounts):

12

Table of Contents

CBOE Holdings, Inc. and Subsidiaries

Notes to Condensed Consolidated Financial Statements (unaudited)

	Three Months Six Months Ended Ended June 30, June 30, 2016 2017 2016		
Revenue	\$ 639.0	\$ 1,269.9	\$ 1,320.6
Operating income	100.9	229.4	207.9
Net income allocated to common stockholders	59.4	157.3	116.4
Earnings per share:			
Basic	\$ 0.53	\$ 1.40	\$ 1.04
Diluted	\$ 0.53	\$ 1.40	\$ 1.03

The supplemental 2017 and 2016 pro forma amounts have been calculated after applying the Company's accounting policies and adjusting the results to reflect the additional amortization that would have been charged assuming the adjusted fair values of acquired intangible assets had been applied on January 1, 2017 and on January 1, 2016. The supplemental 2017 pro forma financial information includes pro forma adjustments of \$93.3 million for acquisition-related costs, such as fees to investment bankers, attorneys, accountants and other professional advisors, as well as severance to employees.

4. SEVERANCE

Subsequent to the Bats acquisition, the Company determined that certain employees' positions were redundant. As such, the Company communicated employee termination benefits to these employees.

The following is a summary of the employee termination benefits recognized within acquisition costs in the Corporate Items and Eliminations unit in the condensed consolidated statements of income (in millions):

	Employee Termination Benefits
Balance at December 31, 2016	\$ 0.4
Termination benefits accrued	20.3
Termination payments made	(15.2)
Balance at June 30, 2017	\$ 5.5

Table of Contents

CBOE Holdings, Inc. and Subsidiaries

Notes to Condensed Consolidated Financial Statements (unaudited)

5. INVESTMENTS

As of June 30, 2017 and December 31, 2016, the Company's investments were comprised of the following (in millions):

	June 30, 2017	December 31, 2016
Equity Method:		
Investment in Signal Trading Systems, LLC	\$12.6	\$ 12.4
Investment in EuroCCP	8.7	—
Total equity method investments	21.3	12.4
Cost Method:		
Investment in OCC	30.3	30.3
Other cost method investments	30.4	30.2
Total cost method investments	60.7	60.5
 Total Investments	 \$82.0	 \$ 72.9

Equity Method

Equity method investments include investments in Signal Trading Systems, LLC ("Signal") and EuroCCP, a Dutch domiciled clearing house. EuroCCP is one of three interoperable central counterparties, or CCPs, used to clear trades conducted on Bats Europe's markets. BTL owns 20% of EuroCCP and can exercise significant influence over the entity as an equal shareholder with four other investors.

Table of ContentsCBOE Holdings, Inc. and Subsidiaries
Notes to Condensed Consolidated Financial Statements (unaudited)

Cost method

The carrying amount of cost method investments totaled \$60.7 million as of June 30, 2017 and \$60.5 million as of December 31, 2016, and is included in investments in the condensed consolidated balance sheets. The Company accounts for these investments using the cost-method of accounting primarily as a result of the Company's inability to exercise significant influence as the Company is a smaller shareholder of these investments. As of June 30, 2017, cost method investments primarily reflect a 20% investment in OCC and minority investments in American Financial Exchange, CurveGlobal and Eris Exchange Holdings, LLC.

In December 2014, OCC announced a newly-formed capital plan. The OCC capital plan was designed to strengthen OCC's capital base and facilitate its compliance with proposed SEC regulations for Systemically Important Financial Market Utilities ("SIFMUs") as well as international standards applicable to financial market infrastructures. On February 26, 2015, the SEC issued a notice of no objection to OCC's advance notice filing regarding the capital plan, and OCC and OCC's existing exchange stockholders, which include CBOE, subsequently executed agreements effecting the capital plan. Under the plan, each of OCC's existing exchange stockholders agreed to contribute its pro-rata share, based on ownership percentage, of \$150 million in equity capital, which would increase OCC's shareholders' equity, and to provide its pro rata share in replenishment capital, up to a maximum of \$40 million per exchange stockholder, if certain capital thresholds are breached. OCC also adopted policies under the plan with respect to fees, customer refunds, and stockholder dividends, which envision an annual dividend payment to the exchange stockholders equal to the portion of OCC's after-tax income that exceeds OCC's capital requirements after payment of refunds to OCC's clearing members (with such customer refunds generally to constitute 50% of the portion of OCC's pre-tax income that exceeds OCC's capital requirements). On March 3, 2015, in accordance with the plan, CBOE contributed \$30 million to OCC. On March 6, 2015, OCC informed CBOE that the SEC, acting through delegated authority, had approved OCC's proposed rule filing for the capital plan. The SEC approval order was stayed on March 13, 2015 automatically as a result of the initiation of petitions to review the order. On September 10, 2015, the SEC issued orders that discontinued the automatic stay of the approval order and granted the petitions for the SEC to review the approval order. On September 15, 2015, the petitioners filed motions to reinstitute the automatic stay. On February 11, 2016, based on a de novo review of the entire record, the SEC approved the proposed rule change implementing OCC's capital plan and dismissed the petitions for review and the petitioners' motions. Certain petitioners subsequently appealed the SEC approval order for the OCC capital plan to the U.S. Court of Appeals for the D.C. Circuit and moved to stay the SEC approval order. On February 23, 2016, the Court denied the petitioners' motion to stay. The appeal of the SEC approval order remains pending. CBOE's contribution has been recorded under investments in the condensed consolidated balance sheets as of June 30, 2017.

6. FINANCIAL INVESTMENTS

The Company's financial investments with original or acquired maturities longer than three months, but that mature in less than one year from the condensed consolidated balance sheet date and any money market funds that are considered cash and cash equivalents are classified as current assets and are summarized as follows (in millions):

		June 30, 2017

11. DEBT

The Company's long-term debt consisted of the following as of June 30, 2017 and December 31, 2016 (in millions):

	June 30, 2017	December 31, 2016	
Term Loan Agreement	\$468.7	\$	—
3.650% Senior Notes	643.6	—	
1.950% Senior Notes	299.0	—	
Revolving Credit Agreement	—	—	
Total long-term debt	\$1,411.3	\$	—

In connection with the Merger, on December 15, 2016, the Company entered into the Term Loan agreement (as defined below) providing for a \$1.0 billion senior unsecured delayed draw term loan facility and on January 12, 2017, the Company issued \$650 million aggregate principal amount of 3.650% Senior Notes due 2027 ("3.650% Senior Notes"). The proceeds from this delayed draw term loan facility and issuance of our senior notes, in addition to using cash on hand at CBOE Holdings and Bats, were used to finance a portion of the cash component of the Merger consideration, to refinance existing indebtedness of Bats and its subsidiaries and to pay related fees and expenses. In addition, on December 15, 2016, the Company entered into a \$150 million revolving credit facility to be used for working capital and other general corporate purposes.

On June 29, 2017, CBOE Holdings refinanced approximately \$300 million of the amounts outstanding under the Term Loan Agreement through the issuance of \$300 million in aggregate principal amount of 1.950% Senior Notes due 2019 ("1.950% Senior Notes" and, together with the 3.650% Senior Notes, the "Notes").

Term Loan Agreement

On December 15, 2016, the Company, as borrower, entered into a Term Loan Credit Agreement (the "Term Loan Agreement") with Bank of America, N.A., as administrative agent, certain lenders named therein (the "Term Lenders"), Merrill Lynch, Pierce, Fenner & Smith Incorporated, as sole lead arranger and sole bookrunner, Morgan Stanley MUFG Loan Partners, LLC, as syndication agent, and Citibank, N.A., PNC Bank, National Association and JPMorgan Chase Bank, N.A., as co-documentation agents. The Term Loan Agreement provided for a senior unsecured delayed draw term loan facility (the "Term Loan Facility") in an aggregate principal amount of \$1.0 billion.

Loans under the Term Loan Agreement bears interest, at our option, at either (i) the London Interbank Offered Rate ("LIBOR") periodically fixed for an interest period (as selected by us) of one, two, three or six months plus a margin (based on our public debt ratings) ranging from 1.00 percent per annum to 1.75 percent per annum or (ii) a daily floating rate based on the agent's prime rate (subject to certain minimums based upon the federal funds effective rate or LIBOR) plus a margin (based on our public debt ratings) ranging from zero percent per annum to 0.75 percent per annum. The Company was required to pay a ticking fee to the agent for the account of the Term Lenders which initially accrued at a rate (based on our public debt ratings) ranging from 0.10 percent per annum to 0.30 percent per annum multiplied by the undrawn aggregate commitments of the Term Lenders in respect of the Term Loan Facility, accruing during the period commencing on December 15, 2016 and ending on the earlier of the date on which the loans are drawn.

The Term Loan Agreement contains customary representations, warranties and affirmative and negative covenants for facilities of its type, including financial covenants, events of default and indemnification provisions in favor of the Term Lenders. The negative covenants include restrictions regarding the incurrence of liens, the incurrence of

indebtedness by our subsidiaries and fundamental changes, subject to certain exceptions in each case. The financial covenants require us to meet a quarterly financial test with respect to a minimum consolidated interest coverage ratio of not less than 4.00 to 1.00 and a maximum consolidated leverage ratio of not greater than 3.50 to 1.00. At June 30, 2017, the Company was in compliance with these covenants.

On February 28, 2017, CBOE Holdings made a draw under the Term Loan Agreement in the amount of \$1.0 billion. CBOE Holdings used the proceeds to finance a portion of the cash component of the aggregate consideration for the Merger, repaid certain existing indebtedness of Bats, paid fees and expenses incurred in connection with the transactions contemplated by the Merger Agreement, funded working capital needs, and for other general corporate purposes.

Table of Contents

CBOE Holdings, Inc. and Subsidiaries
Notes to Condensed Consolidated Financial Statements (unaudited)

On June 29, 2017, CBOE Holdings refinanced approximately \$300 million of the amounts outstanding under the Term Loan Agreement through the issuance of \$300 million in aggregate principal amount of 1.950% Senior Notes.

1.950% Senior Notes due 2019

On June 29, 2017, the Company issued \$300 million aggregate principal amount of 1.950% Senior Notes. The form and terms of the 1.950% Senior Notes were established pursuant to an Officer's Certificate, dated as of June 29, 2017, supplementing the Indenture (as defined below). Underwriter fees of \$0.8 million were also capitalized and netted against long-term debt in the consolidated balance sheet, while other issuance fees of \$0.9 million were expensed and are included in debt issuance costs on the consolidated statement of income for the three and six months ended June 30, 2017.

The Company used the net proceeds from the 1.950% Senior Notes to repay amounts under the Term Loan Agreement. The 1.950% Senior Notes mature on June 28, 2019 and bear interest at the rate of 1.950% per annum, payable semi-annually in arrears on June 28 and December 28 of each year, commencing December 28, 2017. The 1.950% Senior Notes are unsecured obligations of the Company and rank equally with all of the Company's other existing and future unsecured, senior indebtedness, but are effectively junior to the Company's secured indebtedness, to the extent of the value of the assets securing such indebtedness, and will be structurally subordinated to the secured and unsecured indebtedness of the Company's subsidiaries.

The Company has the option to redeem some or all of the 1.950% Senior Notes, at any time in whole or from time to time in part, at the redemption prices set forth in the Officer's Certificate. The Company may also be required to offer to repurchase the 1.950% Senior Notes upon the occurrence of a Change of Control Triggering Event (as such term is defined in the Officer's Certificate) at a repurchase price equal to 101% of the aggregate principal amount of 1.950% Senior Notes to be repurchased.

3.650% Senior Notes due 2027

On January 12, 2017, the Company entered into an indenture (the "Indenture"), by and between the Company and Wells Fargo Bank, National Association, as trustee, in connection with the issuance of \$650 million aggregate principal amount of the Company's 3.650% Senior Notes. The form and terms of the 3.650% Senior Notes were established pursuant to an Officer's Certificate, dated as of January 12, 2017, supplementing the Indenture.

The Company used a portion of the net proceeds from the 3.650% Senior Notes to fund, in part, the Merger, including the payment of related fees and expenses and the repayment of Bats' existing indebtedness, and the remainder for general corporate purposes. The 3.650% Senior Notes mature on January 12, 2027 and bear interest at the rate of 3.650% per annum, payable semi-annually in arrears on January 12 and July 12 of each year, commencing July 12, 2017. The 3.650% Senior Notes are unsecured obligations of the Company and rank equally with all of the Company's other existing and future unsecured, senior indebtedness, but are effectively junior to the Company's secured indebtedness, to the extent of the value of the assets securing such indebtedness, and will be structurally subordinated to the secured and unsecured indebtedness of the Company's subsidiaries.

The Company has the option to redeem some or all of the 3.650% Senior Notes, at any time in whole or from time to time in part, at the redemption prices set forth in the Officer's Certificate. The Company may also be required to offer

to repurchase the 3.650% Senior Notes upon the occurrence of a Change of Control Triggering Event (as such term is defined in the Officer's Certificate) at a repurchase price equal to 101% of the aggregate principal amount of 3.650% Senior Notes to be repurchased.

Indenture

Under the Indenture, the Company may issue debt securities, which includes the Notes, at any time and from time to time, in one or more series without limitation on the aggregate principal amount. The Indenture governing the Notes contains customary restrictions, including a limitation that restricts our ability and the ability of certain of our subsidiaries to create or incur secured debt. Such Indenture also limits certain sale and leaseback transactions and contains customary events of default. At June 30, 2017, the Company was in compliance with these covenants.

Revolving Credit Agreement

Table of Contents

CBOE Holdings, Inc. and Subsidiaries

Notes to Condensed Consolidated Financial Statements (unaudited)

On December 15, 2016, the Company, as borrower, entered into a Credit Agreement (the “Revolving Credit Agreement”) with Bank of America, N.A., as administrative agent and as swing line lender, certain lenders named therein (the “Revolving Lenders”), Merrill Lynch, Pierce, Fenner & Smith Incorporated, as sole lead arranger and sole bookrunner, Morgan Stanley MUFG Loan Partners, LLC, as syndication agent, and Citibank, N.A., PNC Bank, National Association and JPMorgan Chase Bank, N.A., as co-documentation agents.

The Revolving Credit Agreement provides for a senior unsecured \$150 million five-year revolving credit facility (the “Revolving Credit Facility”) that includes a \$25 million swing line sub-facility. The Company may also, subject to the agreement of the applicable lenders, increase the commitments under the Revolving Credit Facility by up to \$100 million, for a total of \$250 million. Subject to specified conditions, the Company may designate one or more of its subsidiaries as additional borrowers under the Revolving Credit Agreement provided that it guarantees all borrowings and other obligations of any such subsidiaries. As of June 30, 2017, no subsidiaries were designated as additional borrowers.

Funds borrowed under the Revolving Credit Agreement may be used to fund working capital and for other general corporate purposes. As of June 30, 2017, no borrowings were outstanding under the Revolving Credit Agreement. Accordingly, at June 30, 2017, \$150 million of borrowing capacity was available for the purposes permitted by the Revolving Credit Agreement.

Loans under the Revolving Credit Agreement will bear interest, at our option, at either (i) LIBOR periodically fixed for an interest period (as selected by us) of one, two, three or six months plus a margin (based on our public debt ratings) ranging from 1.00 percent per annum to 1.75 percent per annum or (ii) a daily floating rate based on our prime rate (subject to certain minimums based upon the federal funds effective rate or LIBOR) plus a margin (based on our public debt ratings) ranging from zero percent per annum to 0.75 percent per annum.

Subject to certain conditions stated in the Revolving Credit Agreement, the Company may borrow, prepay and reborrow amounts under the Revolving Credit Facility at any time during the term of the Revolving Credit Agreement. The Revolving Credit Agreement will terminate and all amounts owing thereunder will be due and payable on December 15, 2021, unless the commitments are terminated earlier, either at our request or, if an event of default occurs, by the Revolving Lenders (or automatically in the case of certain bankruptcy-related events). The Revolving Credit Agreement contains customary representations, warranties and affirmative and negative covenants for facilities of its type, including financial covenants, events of default and indemnification provisions in favor of the Revolving Lenders. The negative covenants include restrictions regarding the incurrence of liens, the incurrence of indebtedness by our subsidiaries and fundamental changes, subject to certain exceptions in each case. The financial covenants require us to meet a quarterly financial test with respect to a minimum consolidated interest coverage ratio of not less than 4.00 to 1.00 and a maximum consolidated leverage ratio of not greater than 3.50 to 1.00. At June 30, 2017, the Company was in compliance with these covenants.

Bridge Facility

In connection with entering into the Merger Agreement, the Company entered into a commitment letter with Bank of America, N.A. and Merrill Lynch, Pierce, Fenner & Smith Incorporated (or any of its designated affiliates) (Bank of America, N.A., and other such financial institutions that accede as lender to such debt commitment letter in accordance with its terms are referred to herein as the “Lenders”), which provides that, subject to the satisfaction and waiver of certain conditions which are usual and customary for financing of this type, the Lenders are committed to provide debt financing for the purposes of funding (i) the cash consideration to be paid in the transactions contemplated by the Merger Agreement, (ii) the refinancing of certain existing indebtedness of Bats and its

subsidiaries and (iii) related fees and expenses, which debt financing consists of a senior unsecured 364-day bridge loan facility in an aggregate principal amount of up to \$1.65 billion to the extent the Company fails to generate gross cash proceeds in an aggregate principal amount of up to \$1.65 billion from permanent financing including in the form of a senior unsecured term loan facility and the issuance of senior unsecured notes on or prior to the consummation of the transaction contemplated by the Merger Agreement. The Company paid commitment and structuring fees of \$6.0 million. Through June 30, 2017, the Company has amortized \$6.0 million of these fees as a result of the Company entering into more permanent debt arrangements. The Company entered into a term loan agreement and completed a notes offering, as described below, securing \$1.65 billion to finance the cash portion of its acquisition of Bats as well as the repayment of Bats' existing indebtedness. As a result of securing the financing discussed above, the bridge facility was terminated.

Balance at June 30, 2017	\$ 30.2	\$ 0.2	\$ (0.8) \$ 29.6

13. FAIR VALUE MEASUREMENTS

Fair value is the price that would be received upon the sale of an asset or paid upon the transfer of a liability in an orderly transaction between market participants at the measurement date and in the principal or most advantageous market for that asset or liability. The fair value should be calculated based on assumptions that market participants would use in pricing the asset or liability, not on assumptions specific to the entity. In addition, the fair value of liabilities should include consideration of non-performance risk, including the Company's own credit risk.

The Company applied Financial Accounting Standards Board ASC 820, Fair Value Measurement and Disclosure, which provides guidance for using fair value to measure assets and liabilities by defining fair value and establishing the framework for measuring fair value. ASC 820 applies to financial and nonfinancial instruments that are measured and reported on a fair value basis. The three-level hierarchy of fair value measurements is based on whether the inputs to those measurements are observable or unobservable. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect the Company's market assumptions. The fair-value hierarchy requires the use of observable market data when available and consists of the following levels:

Level 1—Unadjusted inputs based on quoted markets for identical assets or liabilities.

- Level 2—Observable inputs, either direct or indirect, not including Level 1, corroborated by market data or based upon quoted prices in non-active markets.

Level 3—Unobservable inputs that reflect management's best assumptions of what market participants would use in valuing the asset or liability.

The Company has included a tabular disclosure for financial assets and liabilities that are measured at fair value on a recurring basis in the condensed consolidated balance sheet as of June 30, 2017 and December 31, 2016.

Instruments Measured at Fair Value on a Recurring Basis

The following tables presents the Company's fair value hierarchy for those assets measured at fair value on a recurring basis as of June 30, 2017 and December 31, 2016 (in millions):

Money market funds	\$ 67.5	\$ 67.5	\$	—\$ —
Total assets	\$ 67.5	\$ 67.5	\$	—\$ —

The following is a description of the Company's valuation methodologies used for instruments measured at fair value on a recurring basis:

Available-for-sale and trading securities

Financial investments classified as trading and available for sale consist of highly liquid U.S. Treasury securities. These securities are valued by obtaining feeds from a number of live data sources, including active market makers and inter dealer brokers and therefore categorized as Level 1.

Contingent consideration liability

In connection with the acquisition of Bats, the Company acquired a contingent consideration arrangement with the former owners of Hotspot. The fair value of this liability at June 30, 2017 was \$56.2 million. That value is based on estimates of discounted future cash payments, a significant unobservable input, and is considered a Level 3 measurement.

Notes to Condensed Consolidated Financial Statements (unaudited)

Fair Value of Financial Instruments

The following table presents the Company's fair value hierarchy for those financial instruments held by the Company as of June 30, 2017 and December 31, 2016 (in millions):

	June 30, 2017			
	Total	Level 1	Level 2	Level 3
Assets:				
Cash and cash equivalents	\$ 148.6	\$ 148.6	\$ —	\$ —
Trading investments	0.5	0.5	—	—
Available-for-sale investments	109.9	109.9	—	—
Accounts receivable	231.3	231.3	—	—
Income tax receivable	10.7	10.7	—	—
Total assets	\$ 501.0	\$ 501.0	\$ —	\$ —
Liabilities:				
Accounts payable	\$ 54.9	\$ —	\$ 54.9	\$ —
Section 31 fees payable	150.9	—	150.9	—
Contingent consideration liability	56.2	—	—	56.2
Long-term debt	1,411.3	—	1,411.3	—
Total liabilities	\$ 1,673.3	\$ —	\$ 1,617.1	\$ 56.2
	December 31, 2016			
	Total	Level 1	Level 2	Level 3
Assets:				
Cash and cash equivalents	\$ 97.3	\$ 97.3	\$ —	\$ —
Accounts receivable	76.7	76.7	—	—
Income tax receivable	53.7	53.7	—	—
Total assets	\$ 227.7	\$ 227.7	\$ —	\$ —
Liabilities:				
Accounts payable	\$ 6.5	\$ —	\$ 6.5	\$ —
Total liabilities	\$ 6.5	\$ —	\$ 6.5	\$ —

The carrying amounts of cash and cash equivalents, accounts receivable, income tax receivable, accounts payable and Section 31 fees payable approximate fair value due to their liquid or short-term nature.

Long-term debt

The carrying amount of long-term debt approximates its fair value based on quoted LIBOR at June 30, 2017 and is considered a Level 2 measurement.

Information on Level 3 Financial Liabilities

The following table sets forth a summary of changes in the fair value of the Company's Level 3 financial liabilities during the six months ended June 30, 2017.

Level 3 Financial Liabilities for
the Six Months Ended June 30,
2017

Edgar Filing: CBOE Holdings, Inc. - Form 10-Q

	Balance at Acquired Beginning During of Period	Settlements	Balances at end of period
Liabilities

14. REDEEMABLE NONCONTROLLING INTEREST

Redeemable noncontrolling interest are reported on the consolidated balance sheets in mezzanine equity in Redeemable Noncontrolling Interest. The Company recognizes changes to the redemption value of redeemable noncontrolling interest as they occur and adjust the carrying value to equal the redemption value at the end of each reporting period. The resulting increases or decreases in the estimated redemption amount are affected by corresponding charges or credits against retained earnings, or in the absence of retained earnings, additional paid in capital. The redemption amounts have been estimated based on the fair value of the majority-owned subsidiary, determined based on a weighting of the discounted cash flow and other economic factors.

For the six months ended June 30, 2017, the following reflects changes in our redeemable noncontrolling interest (in millions):

	Redeemable Noncontrolling Interest
Balance as at December 31, 2016	\$ 12.6
Net loss attributable to redeemable noncontrolling interest	(0.6)
Redemption value adjustment	0.6
Balance as at June 30, 2017	\$ 12.6

15. SEGMENT REPORTING

The Company previously operated as a single reportable business segment as of December 31, 2016. As a result of the Bats acquisition, beginning in 2017, the Company is reporting five segments: Options, U.S. Equities, Futures, European Equities, and Global FX, which is reflective of how the Company's chief operating decision-maker reviews and operates the business (Note 1). This change has been reflected in all periods presented. Segment performance is primarily based on operating income (loss). The Company has aggregated all of its corporate costs, acquisition-related costs, as well as other business ventures, within the Corporate Items and Eliminations unit based on the decision that those activities should not be used to evaluate the segment's operating performance; however, operating expenses that relate to activities of a specific segment have been allocated to that segment.

The Options segment includes our options exchange business, which lists for trading options on market indexes (index options), mostly on an exclusive basis, as well as on non-exclusive "multiply-listed" options, such as options on the stocks of individual corporations (equity options) and options on other exchange-traded products (ETP options), such as exchange-traded funds (ETF options) and exchange-traded notes (ETN options) that occur on CBOE, C2, BZX and EDGX. It also includes the listed equity options routed transaction services that occur on Trading.

The U.S. Equities segment includes listed cash equities and ETP transaction services that occur on BZX, BYX, EDGX and EDGA. It also includes market data fees generated from the U.S. tape plans as well as fees generated from the sale of proprietary market data of these exchanges. It also includes the listed cash equities and ETPs routed transaction services, the listings business where ETPs are listed on BZX, and advertising activity from ETF.com.

The Futures segment includes the business of our futures exchange, CFE, which includes offering for trading futures on the VIX Index and other futures products.

The European Equities segment includes the pan European listed cash equities transaction services, ETPs, exchange traded commodities, and international depository receipts that occur on the Recognised Investment Exchange, operated by BTL. It also includes the listed cash equities and ETPs routed transaction services that occur on Chi-X Europe, as well as the listings business where ETPs can be listed on BTL.

16. EMPLOYEE BENEFITS

Legacy CBOE and new employees are eligible to participate in the Chicago Board Options Exchange SMART Plan (“SMART Plan”). The SMART Plan is a defined contribution plan, which is qualified under Internal Revenue Code Section 401(k). In addition, eligible employees may participate in the Supplemental Employee Retirement Plan, Executive Retirement Plan and Deferred Compensation Plan. Effective January 1, 2017, the Executive Retirement Plan is closed to new executive officers and employees. Each plan is a defined contribution plan that is non-qualified under Internal Revenue Code. The Company contributed \$2.7 million and \$2.7 million to the defined contribution plans for the three months ended June 30, 2017 and 2016, respectively, and \$5.3 million and \$4.0 million, respectively, to the defined contribution plans for the six months ended June 30, 2017 and 2016, respectively. For the six months ended June 30, 2017, \$1.2 million of this expense was related to the Bats Acquisition and is included in acquisition-related costs in the condensed consolidated statements of income. The remaining expense is included in compensation and benefits in the condensed consolidated statements of income.

Upon completion of the Merger, the Company assumed the BTL stakeholder contribution plan and the Bats' defined contribution plan that offers a 401(k) retirement plan eligible to all legacy Bats U.S. employees. Under the plan, the Company matches participating employee contributions dollar for dollar of up to five percent of salary. The Company's contribution amounted to \$0.5 million and \$0.7 million for the three and six months ended June 30, 2017, respectively. This expense is included in compensation and benefits in the condensed consolidated statements of income.

BTL operates a stakeholder contribution plan and contributes to employee selected stakeholder contribution plans. The Company matches participating employee contributions of up to five percent of salary. All employees of BTL are eligible to participate. The Company's contribution amounted to \$0.1 million and \$0.2 million for the three and six months ended June 30, 2017, respectively. This expense is included in compensation and benefits in the condensed consolidated statements of income.

17. REGULATORY CAPITAL

As a broker dealer registered with the SEC, Bats Trading is subject to the SEC's Uniform Net Capital Rule (Rule 15c3-1), which requires the maintenance of minimum net capital, as defined. The SEC's requirement also provides that equity capital may not be withdrawn or a cash dividend paid if certain minimum net capital requirements are not met. Trading computes the net capital requirements under the basic method provided for in Rule 15c3-1.

Table of Contents

CBOE Holdings, Inc. and Subsidiaries

Notes to Condensed Consolidated Financial Statements (unaudited)

As of June 30, 2017, Trading is required to maintain net capital equal to the greater of 6.67% of aggregate indebtedness items, as defined, or \$0.1 million. At June 30, 2017, Trading had net capital of \$10.1 million, which was \$9.7 million in excess of its required net capital of \$0.4 million.

As entities regulated by the FCA, BTL is subject to the Financial Resource Requirement ("FRR") and Chi-X Europe is subject to the Capital Resources Requirement ("CRR"). As a RIE, BTL computes its FRR in accordance with its Financial Risk Assessment, as agreed by the FCA. This FRR was \$19.5 million at June 30, 2017. At June 30, 2017, BTL had capital in excess of its required FRR of \$22.0 million.

As a Banks, Investment firms, PRUdential (BIPRU) 50k firm, as defined by the Markets in Financial Instruments Directive of the FCA, Chi X Europe computes its CRR as the greater of the base requirement of \$0.1 million at June 30, 2017, or the summation of the credit risk, market risk and fixed overheads requirements, as defined. At June 30, 2017, Chi X Europe had capital in excess of its required CRR of \$0.4 million.

As a swap execution facility regulated by the CFTC, Bats Hotspot SEF, LLC is required to meet two capital adequacy tests: (i) its financial resources must be equal to at least twelve months of its projected operating costs and (ii) its unencumbered, liquid financial assets must be equal to at least six months of its projected operating costs. As of June 30, 2017, Bats Hotspot SEF, LLC had annual operating expenses of \$1.6 million and had financial resources that exceeded this amount. Additionally, as of June 30, 2017, Bats Hotspot SEF, LLC, had projected operating expenses for six months of \$0.8 million and had unencumbered, liquid financial assets that exceeded this amount.

As a designated contract market regulated by the CFTC, CFE is required to meet two capital adequacy tests: (i) its financial resources must be equal to at least twelve months of its projected operating costs and (ii) its unencumbered, liquid financial assets must be equal to at least six months of its projected operating costs. As of June 30, 2017, CFE had annual projected operating expenses of \$17.8 million and had financial resources that exceeded this amount. Additionally, as of June 30, 2017, CFE had projected operating expenses for six months of \$9.7 million and had unencumbered, liquid financial assets that exceeded this amount.

18. STOCK-BASED COMPENSATION

Stock-based compensation is based on the fair value of the award on the date of grant, which is recognized over the related service period, net of actual forfeitures. The service period is the period over which the related service is performed, which is generally the same as the vesting period. In the first quarter of 2017, the Company adopted ASU 2016-09, Compensation — Stock Compensation. This ASU simplifies several aspects of the accounting for stock-based payment transactions (See Note 1).

On February 19, 2017, the Company granted 251,273 restricted stock units ("RSUs"), each of which entitles the holder to one share of common stock upon vesting, to certain officers and employees at a fair value of \$80.40 per share. The RSUs vest ratably over three years, with one-third vesting on each anniversary of the grant date, and vesting accelerates upon the occurrence of a change in control. Unvested RSUs will be forfeited if the officer or employee leaves the Company prior to the applicable vesting date, except in limited circumstances. The RSUs have no voting rights but entitle the holder to receive dividend equivalents.

On February 28, 2017, the Company granted 68,254 RSUs, each of which entitles the holder to one share of common stock upon vesting, to certain officers and employees at a fair value of \$78.05 per share. The RSUs vest ratably over three years, with one-third vesting on each anniversary of the grant date, and vesting accelerates upon the occurrence of a change in control. Unvested RSUs will be forfeited if the officer or employee leaves the Company prior to the applicable vesting date, except in limited circumstances. The RSUs have no voting rights but entitle the holder to

receive dividend equivalents.

On February 28, 2017, the Company granted 49,703 RSUs, each of which entitles the holder to one share of common stock upon vesting, to certain officers and employees at a fair value of \$78.05 per share. The RSUs vest on the third anniversary of the grant date, and vesting accelerates upon the occurrence of a change in control. Unvested RSUs will be forfeited if the officer or employee leaves the Company prior to the applicable vesting date, except in limited circumstances. The RSUs have no voting rights but entitle the holder to receive dividend equivalents.

Table of Contents

CBOE Holdings, Inc. and Subsidiaries

Notes to Condensed Consolidated Financial Statements (unaudited)

The merger agreement provided that the number of shares of CBOE Holdings common stock into which each such award of CBOE Holdings Restricted Shares is converted will be equal to the number of shares of Bats common stock subject to the corresponding Bats Restricted Share award multiplied by the exchange ratio, which is the sum of (a) 0.3201 of a share of CBOE Holdings common stock and (b) the quotient obtained by dividing \$10.00 by the volume-weighted average price, rounded to four decimal places, of shares of CBOE Holdings common stock on NASDAQ for the ten consecutive trading day period ending on the second full trading day prior to the effective time of the merger. The remaining service period will be completed post-merger and future vesting and expense will be recognized accordingly. Pursuant to the Merger Agreement, each award of restricted Bats common stock (“Bats restricted shares”) granted under any of the Bats Plans that was unvested immediately prior to the Effective Time was assumed by the Registrant and converted into awards of restricted shares totaling 622,527 of Common Stock at a fair value of \$78.05 per share.

In addition, on February 19, 2017 and February 28, 2017, the Company granted 41,481 and 19,255 RSUs, respectively, contingent on the achievement of performance conditions at a fair value of \$111.00 and \$102.00, respectively, per RSU, related to total shareholder return during the performance period. The Company used the Monte Carlo valuation model method to estimate the fair value of the total shareholder return RSUs which incorporated the following assumptions: risk-free interest rate (0.90)%, three-year volatility (21.1)% and three year correlation with S&P 500 Index (0.41). Each of these performance shares has a performance condition under which the number of units ultimately awarded will vary from 0% to 200% of the original grant, with each unit representing the contingent right to receive one share of our common stock. The vesting period for the RSUs contingent on the achievement of performance is three years. For each of the performance awards, the RSUs will be settled in shares of our common stock following vesting of the RSU assuming that the participant has been continuously employed during the vesting period, subject to acceleration in the event of a change in control of the Company or in the event of a participant’s earlier death or disability. Participants have no voting rights with respect to RSUs until the issuance of the shares of stock. Dividends are accrued by the Company and will be paid once the RSUs contingent on the achievement of performance conditions vest.

On May 18, 2017, the Company granted 15,405 shares of stock, at a fair value of \$84.41 per share, to non employee members of the board of directors. The shares have a one-year vesting period and vesting accelerates upon the occurrence of a change in control of the Company. Unvested portions of the stock will be forfeited if the director leaves the Company prior to the applicable vesting date.

On May 15, 2017, the Company granted 2,655 RSUs, each of which entitles the holder to one share of common stock upon vesting, to certain officers and employees at a fair value \$85.00 per share. The RSUs vest ratably over three-years , with one-third vesting on each anniversary of the grant date, and vesting accelerates upon the occurrence of a change in control. Unvested RSUs will be forfeited if the officer or employee leaves the Company prior to the applicable vesting date, except in limited circumstances. The RSUs have no voting rights but entitle the holder to receive dividend equivalents.

The Company recognized stock-based compensation expense of \$9.2 million and \$3.7 million for the three months ended June 30, 2017 and 2016, respectively, and \$30.1 million and \$7.1 million for the six months ended June 30, 2017 and 2016. Stock-based compensation expense includes \$9.1 million of accelerated expense recorded in the first quarter for certain officers and employees as a result of attaining certain age and service based requirements in our long-term incentive plan and award agreements. Stock-based compensation expense is included in compensation and

benefits and acquisition-related costs in the condensed consolidated statements of income.

Pursuant to the Merger Agreement, each outstanding option to purchase Bats common stock (each, a “Bats stock option”) granted under any of the Bats Global Markets, Inc. 2009 Stock Option Plan, the Bats Global Markets, Inc. Third Amended and Restated 2012 Equity Incentive Plan and the Bats Global Markets, Inc. 2016 Omnibus Incentive Plan (collectively, the “Bats Plans”) that was outstanding immediately prior to the effective time of the Merger (the “Effective Time”) was converted into an option to purchase Common Stock, on the same terms and conditions (including vesting schedule) as were applicable to such Bats stock option (but taking into account any changes, including any acceleration of vesting of such Bats stock option occurring by reason of the transactions contemplated by the Merger Agreement). The number of shares of Common Stock subject to each such converted stock option equals the number of shares of Bats common stock subject to the corresponding Bats stock option immediately prior to the Effective Time, multiplied by the exchange ratio (as defined below) (subject to certain adjustments and rounding). The exercise price per share for each such converted stock option equals the per share exercise price specified in the corresponding Bats stock option divided by the exchange ratio (rounded up to the nearest cent). The “exchange ratio” is equal to 0.4452, which equals the sum of 0.3201 plus the fraction obtained by dividing \$10.00 by the volume-weighted average price, rounded to four decimal points, of a share of Common Stock on the NASDAQ Stock Market LLC for the ten consecutive trading days ended February 24, 2017.

30

Table of ContentsCBOE Holdings, Inc. and Subsidiaries
Notes to Condensed Consolidated Financial Statements (unaudited)

Pursuant to the Merger Agreement, each award of restricted Bats common stock (“Bats restricted shares”) granted under any of the Bats Plans that was unvested immediately prior to the Effective Time was assumed by the Company and converted into an award of restricted shares of Common Stock, subject to the same terms and conditions (including vesting schedule) that applied to the applicable Bats restricted shares immediately prior to the Effective Time (but taking into account any changes, including any acceleration of vesting of such Bats restricted shares, occurring by reason provided for in the Merger Agreement). The number of shares of Common Stock subject to each such converted award of Bats restricted shares equals the number of shares of Bats common stock subject to the corresponding Bats restricted share award multiplied by the exchange ratio (as defined above).

The activity in the Company's stock options, restricted stock and restricted stock units for the six months ended June 30, 2017 was as follows:

Stock Options

Summary stock option activity is presented below:

	Number of Shares	Weighted Average Exercise Price	Weighted Average Term (years)	Remaining Contractual	Aggregate Intrinsic Value (in millions)
Outstanding, December 31, 2016	—	—	—	—	—
Granted	683,390	\$ 22.45	4.8 years		\$ 40.1
Exercised	(172,166)	\$ 17.20			
Outstanding and expected to vest at June 30, 2017	511,224	\$ 24.22	5.3 years		\$ 34.3
Exercisable at June 30, 2017	430,156	\$ 23.49	4.9 years		\$ 29.2

The Company estimated the grant date fair value of options awarded during 2017 using the Black-Scholes valuation model with the following assumptions:

	2017
Expected term (in years)	4.2
Expected volatility	19.8%
Expected dividend yield	1.3%
Risk-free rate	1.78%
Forfeiture rate	—%

Summary of the status of nonvested options is presented below:

Nonvested Options	Options	Weighted Average Grant-Date Fair Value
January 1, 2017 - Nonvested	—	\$ —
Vested	—	—
Granted	81,068	49.17
Forfeited	—	—

June 30, 2017 - Nonvested 81,068 \$ 49.17

In the six months ended June 30, 2017, to satisfy employee's tax obligations and cash exercise payment due upon the election to exercise 172,166 stock options, the Company purchased 48,099 shares at a cost of \$4.1 million.

As of June 30, 2017, there were \$2.8 million in total unrecognized compensation costs related to stock options. These

31

Table of Contents

CBOE Holdings, Inc. and Subsidiaries

Notes to Condensed Consolidated Financial Statements (unaudited)

costs are expected to be recognized over a weighted average period of 1.4 years as the stock options vest.

Restricted Stock and Restricted Stock Units

Summary restricted stock activity is presented below:

	Number of Shares	Weighted Average Grant Date Fair Value
Nonvested stock at December 31, 2016	480,595	\$ 63.44
Granted	1,090,231	78.91
Vested	(379,955)	66.03
Forfeited	(4,104)	72.83
Nonvested stock at June 30, 2017	1,186,767	\$ 76.31

In the six months ended June 30, 2017, to satisfy employees' tax obligations upon the vesting of restricted stock, the Company purchased 142,630 shares totaling \$11.8 million as the result of the vesting of 379,955 shares of restricted stock.

As of June 30, 2017, there were \$63.6 million in total unrecognized compensation costs related to restricted stock and restricted stock units. These costs are expected to be recognized over a weighted average period of 2.0 years.

19. INCOME TAXES

The Company records income tax expense during interim periods based on the best estimate of the full year's tax rate as adjusted for discrete items, if any, that are taken into account in the relevant interim period. Each quarter, the Company updates its estimate of the annual effective tax rate and any change in the estimated rate is recorded on a cumulative basis. The effective tax rate from continuing operations was 35.9% and 39.2% for the three months ended June 30, 2017 and 2016, respectively, and 33.1% and 39.1% for the six months ended June 30, 2017 and 2016, respectively. The decrease in the effective tax rate for the three and six months ended June 30, 2017 against the comparable period in the prior year was primarily due to excess tax benefits associated with the exercise and vesting of stock-based compensation during the periods.

20. NET INCOME PER COMMON SHARE

The computation of basic net income allocated to common stockholders is calculated by reducing net income for the period by dividends paid or declared and undistributed net income for the period that are allocated to participating securities to arrive at net income allocated to common stockholders. Net income allocated to common stockholders is divided by the weighted average number of common shares outstanding during the period to determine net income per share allocated to common stockholders.

The computation of diluted earnings per share is calculated by dividing net income allocated to common stockholders by the sum of the weighted average number of common shares outstanding plus all additional common shares that would have been outstanding if the potentially dilutive common shares had been issued. The dilutive effect is calculated using the more dilutive of the two-class or treasury stock method.

Additionally, the change in the redemption value for the noncontrolling interest reduces net income allocated to common shareholders.

Table of Contents

CBOE Holdings, Inc. and Subsidiaries

Notes to Condensed Consolidated Financial Statements (unaudited)

The following table reconciles net income allocated to common stockholders and the number of shares used to calculate the basic and diluted net income per common share for the three months ended June 30, 2017 and 2016:

(in millions, except per share amounts)	Three Months		Six Months	
	Ended June 30, 2017	2016	Ended June 30, 2017	2016
Basic EPS Numerator:				
Net Income	\$68.0	\$50.9	\$83.2	\$100.1
Loss attributable to noncontrolling interest	0.3	0.3	0.6	0.5
Net Income Excluding Noncontrolling Interest	68.3	51.2	83.8	100.6
Change in redemption value of noncontrolling interest	(0.3)	(0.3)	(0.6)	(0.5)
Earnings allocated to participating securities	(0.7)	(0.2)	(0.8)	(0.4)
Net Income Allocated to Common Stockholders	\$67.3	\$50.7	\$82.4	\$99.7
Basic EPS Denominator:				
Weighted average shares outstanding	112.1	81.3	102.1	81.6
Basic Net Income Per Common Share	\$0.60	\$0.62	\$0.81	\$1.22
Diluted EPS Numerator:				
Net Income	\$68.0	\$50.9	\$83.2	\$100.1
Loss attributable to noncontrolling interest	0.3	0.3	0.6	0.5
Net Income Excluding Noncontrolling Interest	68.3	51.2	83.8	100.6
Change in redemption value of noncontrolling interest	(0.3)	(0.3)	(0.6)	(0.5)
Earnings allocated to participating securities	(0.7)	(0.2)	(0.8)	(0.4)
Net Income Allocated to Common Stockholders	\$67.3	\$50.7	\$82.4	\$99.7
Diluted EPS Denominator:				
Weighted average shares outstanding	112.1	81.3	102.1	81.6
Dilutive common shares issued under stock program	0.4	—	0.2	—
Total Dilutive Weighted Average Shares	112.5	81.3	102.3	81.6
Diluted Net Income Per Common Share	\$0.60	\$0.62	\$0.81	\$1.22

For the periods presented, the Company did not have shares of stock-based compensation that would have an anti-dilutive effect on the computation of diluted net income per common share.

21. COMMITMENTS AND CONTINGENCIES**Legal Proceedings**

As of June 30, 2017, the Company was subject to the various legal proceedings and claims discussed below, as well as certain other legal proceedings and claims that have not been fully resolved and that have arisen in the ordinary course of business.

The Company reviews its legal proceedings and claims, regulatory reviews and inspections and other legal proceedings on an ongoing basis and follows appropriate accounting guidance when making accrual and disclosure decisions. The Company establishes accruals for those contingencies where the incurrence of a loss is probable and can be reasonably estimated, and the Company discloses the amount accrued and the amount of a reasonably possible loss in excess of the amount accrued, if such disclosure is necessary for our financial statements to not be misleading.

The Company does not record liabilities when the likelihood that the liability has been incurred is probable, but the amount cannot be reasonably estimated, or when the liability is believed to be only reasonably possible or remote. The Company's assessment of whether a loss is reasonably possible or probable is based on its assessment of the ultimate outcome of the matter following all appeals.

As of June 30, 2017, the Company does not believe that there is a reasonable possibility that any material loss exceeding the amounts already recognized for these reviews, inspections or other legal proceedings, if any, has been incurred. While the consequences of certain unresolved proceedings are not presently determinable, the outcome of any litigation is inherently uncertain and an adverse outcome from certain matters could have a material effect on our earnings in any given reporting

Notes to Condensed Consolidated Financial Statements (unaudited)

period. However, in the opinion of management, the ultimate liability is not expected to have a material effect on our financial position, liquidity or capital resources.

There have been no material changes during the period covered by this Form 10-Q from the legal proceedings disclosures in our Annual Report on Form 10-K for the year ended December 31, 2016.

Contractual obligations

The Company currently leases office space, data centers and remote network operations centers, with lease terms remaining ranging from three months to one hundred months as of June 30, 2017. Total rent expense related to these lease obligations, reflected in technology support services and facilities costs line items on the condensed consolidated statements of income, for the three months ended June 30, 2017 and 2016 were \$2.7 million and \$1.7 million, respectively, and \$4.4 million and \$3.8 million, for the six months ended June 30, 2017 and 2016, respectively.

22. SUBSEQUENT EVENTS

On July 28, 2017, the Company announced that its board of directors declared a quarterly cash dividend of \$0.27 per share. The dividend is payable September 15, 2017 to stockholders of record at the close of business on September 1, 2017.

There have been no additional subsequent events that would require disclosure in, or adjustment to, the condensed consolidated financial statements as of and for the six months ended June 30, 2017.

Table of Contents

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion should be read in conjunction with the accompanying unaudited condensed consolidated financial statements and the notes thereto, included in Item 1 in this Quarterly Report on Form 10-Q, and the audited consolidated financial statements in the Company's Annual Report on Form 10-K for the year ended December 31, 2016, and as contained in that report, the information under the heading "Management's Discussion and Analysis of Financial Condition and Results of Operations." This discussion contains forward-looking information. Please see "Forward-Looking Statements" for a discussion of the uncertainties, risks and assumptions associated with these statements.

Overview

CBOE Holdings, Inc. (CBOE Holdings or the Company) is the owner of the Chicago Board Options Exchange, the Bats Exchanges, CBOE Futures Exchange (CFE) and other subsidiaries. The Company is one of the world's largest exchange holding companies and a leader in providing global investors cutting-edge trading and investment solutions.

The Company offers trading across a diverse range of products in multiple asset classes and geographies, including options, futures, U.S. and European equities, exchange-traded products (ETPs), and multi-asset volatility and global foreign exchange ("FX") products. CBOE Holdings' fourteen trading venues include the largest options exchange by volume in the United States and the largest pan-European stock exchange in Europe by volume. The Company is the second-largest stock exchange operator in the United States by volume and a leading market globally for exchange-traded product (ETP) trading.

On February 28, 2017, pursuant to the Agreement and Plan of Merger, dated as of September 25, 2016, CBOE Holdings acquired Bats Global Markets, Inc. The three and six months ended June 30, 2017 includes financial results for Bats for the entire period and for the period from March 1, 2017 through June 30, 2017, respectively.

Components of Revenues

Transaction Fees

Transaction fees represent fees charged by the Company for the performance obligation of executing a trade on its markets. These fees can be variable based on trade volume tiered discounts, however as all tiered discounts are calculated monthly, the actual discount is recorded on a monthly basis. Transaction fees, as well as any tiered volume discounts, are calculated and billed monthly in accordance with the Company's published fee schedules. Transaction fees are recognized across all segments. The Company also pays liquidity payments to customers based on its published fee schedules. The Company uses these payments to improve the liquidity on its markets and therefore recognizes those payments as a cost of revenue.

Access Fees

Access fees represent fees assessed for the opportunity to trade, including fees for trading-related functionality across all segments. They are billed monthly in accordance with the Company's published fee schedules and recognized on a monthly basis when the performance obligation is met. There is no remaining performance obligation after revenue is recognized.

Exchange Services and Other Fees

To facilitate trading, the Company offers technology services, terminal and other equipment rights, maintenance services, trading floor space and telecommunications services. Trading floor and equipment rights are generally on a month-to-month basis. Facilities, systems services and other fees are generally monthly fee-based, although certain services are influenced by trading volume or other defined metrics, others are based solely on demand. All fees associated with the trading floor are recognized in the Options segment.

Market Data Fees

Market data fees represent the fees charged by the Company from the U.S. tape plans and fees from customers for proprietary market data. Fees from the U.S. tape plans are collected monthly based on published fee schedules and

distributed quarterly to the U.S. exchanges based on a known formula using trading and/or quoting activity. A contract around proprietary market data is entered into and charged on a monthly basis in accordance with the Company's published fee schedules as the service is provided. Both types of market data are satisfied over time, and revenue is recognized on a monthly basis as the customer receives and consumes the benefit as the Company provides the data. U.S. tape plan market data is recognized in the U.S. Equities and Options segments. Proprietary market data fees are recognized across all segments.

Table of Contents

Regulatory Fees

Regulatory fees primarily represent fees collected by the Company to cover the Section 31 fees charged to the Exchanges by the SEC. Consistent with industry practice, the fees charged to customers are based on the fee set by the SEC per notional value of the transaction executed on the Company's markets and calculated and billed monthly. These fees are recognized in the U.S. Equities and Options segments and as the exchanges are responsible for the ultimate payment to the SEC, the exchanges are considered the principals in these transactions. Regulatory fees also include the options regulatory fee (ORF) which supports the Company's regulatory oversight function in the Options segment.

Other Revenue

Other revenue primarily includes among other items, revenue from various licensing agreements, all fees related to the trade reporting facility operated in the European Equities segment, and revenue associated with advertisements through the Company's website.

Components of Cost of Revenues

Liquidity Payments

Liquidity payments are directly correlated to the volume of securities traded on our markets. As mentioned above, we record the liquidity rebate paid to market participants providing liquidity, in the case of C2, BZX, EDGX and Bats Europe, as cost of revenue. BYX and EDGA offer a pricing model pursuant to which we rebate liquidity takers for executing against an order resting on our book, which is also recorded as a cost of revenue.

Section 31 Fees

Exchanges under the authority of the SEC (CBOE, C2, BZX, BYX, EDGX and EDGA) are assessed fees pursuant to the Exchange Act designed to recover the costs to the U.S. government of supervision and regulation of securities markets and securities professionals. We treat these fees as a pass-through charge to customers executing eligible listed cash equities and listed equity options trades. Accordingly, we recognize the amount that we are charged under Section 31 as a cost of revenues and the corresponding amount that we charge our customers as regulatory transaction fees revenue. Since the regulatory transaction fees recorded in revenues are equal to the Section 31 fees recorded in cost of revenues, there is no impact on our operating income. CFE, BTL and Hotspot are not U.S. national securities exchanges, and accordingly do not pay Section 31 fees.

Royalty Fees

Royalty fees primarily consist of license fees paid by us for the use of underlying indexes in our proprietary products usually based on contracts traded. The Company has licenses with the owners of the S&P 500 Index, S&P 100 Index and certain other S&P indexes, the DJIA, MSCI, FTSE Russell indexes and certain other index products. This category also includes fees related to the dissemination of market data related to S&P indexes.

Routing and clearing

Order routing consists of market linkage expenses incurred to send certain orders to other exchanges. In our Options and U.S. Equities business, if a competing exchange quotes a better price, we route the customer's order to that exchange and pay certain of the associated costs. Regardless of whether the transaction is traded on our exchanges, the order flow potential enhances our overall market position and participation and provides cost savings to customers.

Components of Operating Expenses

Compensation and Benefits

Compensation and benefits are our most significant expenses and include salaries and benefits, stock-based compensation, incentive compensation, severance and employer taxes. Compensation and benefits represent our largest expense category and tend to be driven by both our staffing requirements and the general dynamics of the employment market. Stock-based compensation is a non-cash expense related to equity awards. Stock-based compensation can vary depending on the quantity and fair value of the award on the date of grant and the related service period.

Depreciation and Amortization

Depreciation and amortization expense results from the depreciation of long-lived assets purchased and the amortization of purchased and internally developed software, and the amortization of intangible assets.

Table of Contents

Technology Support Services

Technology support services expense consists primarily of costs related to the maintenance of computer equipment supporting our system architecture, circuits supporting our wide area network, support for production software, fees paid to information vendors for displaying data and off-site system hosting fees.

Professional Fees and Outside Services

Professional fees and outside services consist primarily of consulting services, which include: the supplementation of staff for activities primarily related to systems development and maintenance, legal, regulatory and audit, and tax advisory services.

Acquisition-Related Costs

Acquisition-related and integration costs relate to acquisitions and other strategic opportunities. The acquisition-related transaction costs include fees for investment banking advisors, lawyers, accountants, tax advisors, public relations firms, severance, write-offs of obsolete systems and other external costs directly related to the mergers and acquisitions.

Travel and Promotional Expenses

Travel and promotional expenses primarily consist of advertising, costs for special events, sponsorship of industry conferences, options education seminars and travel-related expenses.

Facilities Costs

Facilities costs primarily consist of expenses related to owned and leased properties including rent, maintenance, utilities, real estate taxes and telecommunications costs.

Other Expenses

Other expenses represent costs necessary to support our operations that are not already included in the above categories.

Other Income/(Expense)

Income and expenses incurred through activities outside of our core operations are considered non-operating and are classified as other income/(expense). These activities primarily include interest earned on the investing of excess cash, interest expense related to outstanding debt facilities, dividend income and equity earnings or losses from our investments in other business ventures.

Business Segments

The Company previously operated as a single reportable business segment as of December 31, 2016. As a result of the Merger, beginning in 2017, the Company is reporting five segments: Options, U.S. Equities, Futures, European Equities, and Global FX. Segment performance is primarily based on operating income (loss). The Company has aggregated all of its corporate costs and eliminations, as well as other business ventures, within Corporate Items and Eliminations; however, operating expenses that relate to activities of a specific segment have been allocated to that segment. Our management allocates resources, assesses performance and manages our business according to these segments:

Options. Our Options segment includes listed market indexes (index options), mostly on an exclusive basis, as well as on non-exclusive "multiply-listed" options, such as options on the stocks of individual corporations (equity options) and options on other exchange-traded products (ETP options), such as exchange-traded funds (ETF options) and exchange-traded notes (ETN options) that occur on CBOE, C2, BZX and EDGX. It also includes the listed equity and ETP options routed transaction services that occur on Trading.

U.S. Equities. Our U.S. Equities segment includes listed cash equities and ETP transaction services that occur on BZX, BYX, EDGX and EDGA. It also includes the listings business where ETPs and the Company are listed on BZX.

Futures. Our Futures segment includes trading of futures on the VIX Index and other products that occur on CFE, our all-electronic futures exchange.

European Equities. Our European Equities segment includes pan European listed equities transaction services, ETPs, exchange traded commodities, and international depository receipts that occur on our MTF, and a listing and trading

venue on our RM, which together we refer to as Bats Europe. It also includes the listed cash equities and exchange-traded products routed transaction services that occur on Chi-X Europe, as well as the listings business where ETPs can be listed on BTL.

Global FX. Our Global FX segment includes institutional FX trading services that occur on the Bats Hotspot platform.

Table of Contents

General Factors Affecting Results of Operations

In broad terms, our business performance is impacted by a number of drivers, including macroeconomic events affecting the risk and return of financial assets, investor sentiment, the regulatory environment for capital markets, geopolitical events, central bank policies and changing technology, particularly in the financial services industry. Our future revenues and net income will continue to be influenced by a number of domestic and international economic trends, including:

- trading volumes on our proprietary products such as the VIX options and futures and SPX options;
- trading volumes in listed cash equity securities and ETPs in both the U.S. and Europe, volumes in listed equity options, and volumes in institutional FX trading, all of which are driven primarily by overall macroeconomic conditions;

- the demand for the U.S. tape plan market data distributed by the Securities Information Processors (SIPs), which determines the pool size of the industry market data revenue we receive based on our market share;

- the demand for information about, or access to, our markets, which is dependent on the products we trade, our importance as a liquidity center and the quality and pricing of our data and access services;

- continuing pressure in transaction fee pricing due to intense competition in the United States and Europe; and regulatory changes relating to market structure, increased capital requirements or affecting certain types of instruments, transactions, pricing structures, capital market participants or reporting or compliance requirements, including any changes resulting from Brexit.

A number of significant structural, political and monetary issues continue to confront the global economy, and instability could return at any time, resulting in an increased level of market volatility, increased trading volumes and a return of uncertainty. In contrast, many of the largest customers of our transactional businesses continue to adapt their business models as they address the implementation of regulatory changes initiated following the global financial crisis.

Financial Summary

The comparability of our results of operations between reported periods is impacted by the acquisition of Bats on February 28, 2017. Operating results and other financial metrics for U.S. Equities, European Equities and Global FX represent activity for the four months ended June 30, 2017. The following summarizes changes in financial performance for the three and six months ended June 30, 2017 and 2016 and certain non-GAAP financial measures. These non-GAAP financials measures assist management in comparing our performance on a consistent basis for purposes of business decision making by removing the impact of certain items management believes do not reflect our underlying operations. Please see the footnotes below for additional information and reconciliations from our condensed consolidated financial statements.

* Not meaningful

Organic net revenue is defined as revenues less cost of revenues excluding revenues less cost of revenues of any acquisition for the quarter the business was acquired and the following year comparable quarter. Organic net revenue does not represent, and should not be considered as, an alternative to revenues less cost of revenues, or net revenue, as determined in accordance with GAAP. We have presented organic net revenue because we consider it an important supplemental measure of our performance and we use it as the basis for monitoring our operating (1) financial performance before the effects of acquisitions. We also believe that it is frequently used by analysts, investors and other interested parties in the evaluation of companies. We believe that investors may find this non-GAAP measure useful in evaluating our performance compared to that of peer companies in our industry. Other companies may calculate organic net revenue differently than we do. Organic net revenue has limitations as an analytical tool, and you should not consider it in isolation or as a substitute for analysis of our results as reported under GAAP.

The following is a reconciliation of revenues less cost of revenues to organic net revenue (in millions):

	Three Months Ended June 30, 2017		Six Months Ended June 30, 2016	
Revenues less cost of revenues	\$266.9	\$144.1	\$460.3	\$287.2
Recent acquisitions:				
Bats revenues less cost of revenues (since acquisition)	\$(114.9)	\$—	\$(154.1)	\$—
Organic net revenue	\$152.0	\$144.1	\$306.2	\$287.2

EBITDA is defined as income before interest, income taxes, depreciation and amortization. Adjusted EBITDA is defined as EBITDA before acquisition-related costs, accelerated stock-based compensation, and a legal settlement. EBITDA and adjusted EBITDA do not represent, and should not be considered as, alternatives to net income or cash flows from operations, each as determined in accordance with GAAP. We have presented EBITDA and adjusted EBITDA because we consider them important supplemental measures of our performance and believe that (2) they are frequently used by analysts, investors and other interested parties in the evaluation of companies. In addition, we use adjusted EBITDA as a measure of operating performance for preparation of our forecasts, evaluating our leverage ratio for the debt to earnings covenant included in our outstanding credit facility. Other companies may calculate EBITDA and adjusted EBITDA differently than we do. EBITDA and adjusted EBITDA have limitations as analytical tools, and you should not consider them in isolation or as substitutes for analysis of our results as reported under GAAP.

Legal settlement	—	—	—	—	—	(5.5)	(5.5)
Assessment of computer-based lease taxes for prior period use	—	—	—	—	—	0.3	0.3
Accelerated stock-based compensation	—	—	—	—	—	1.1	1.1
Adjusted EBITDA	\$138.9	\$	-\$48.5	\$	-\$	-\$2.8	\$184.6

(3) EBITDA margin represents EBITDA divided by revenues less cost of revenues.

(4) Adjusted EBITDA margin represents adjusted EBITDA divided by revenues less cost of revenues.

(5) Adjusted earnings is defined as net income adjusted for amortization of purchased intangibles, acquisition-related costs, legal settlements, and accelerated stock-based compensation, net of the income tax effects of these adjustments. Adjusted earnings does not represent, and should not be considered as, an alternative to net income, as

determined in accordance with GAAP. We have presented adjusted earnings because we consider it an important supplemental measure of our performance and we use it as the basis for monitoring our own core operating financial performance relative to other operators of exchanges. We also believe that it is frequently used by analysts, investors and other interested parties in the evaluation of companies. We believe that investors may find this non-GAAP measure useful in evaluating our performance compared to that of peer companies in our industry. Other companies may calculate adjusted earnings differently than we do. Adjusted earnings has limitations as an analytical tool, and you should not consider it in isolation or as a substitute for analysis of our results as reported under GAAP.

Table of Contents

The following is a reconciliation of net income to adjusted earnings (in millions):

	Three Months		Six Months	
	Ended		Ended	
	June 30,		June 30,	
	2017	2016	2017	2016
Net income allocated to common stockholders	\$67.3	\$50.7	\$82.4	\$99.7
Amortization	42.6	0.4	57.0	0.6
Acquisition-related costs	4.7	0.3	69.9	0.7
Debt issuance cost	0.9	—	0.9	—
Assessment of computer-based lease taxes	—	—	—	0.3
Acceleration of stock based compensation	—	—	9.1	—
Other compensation related items	—	0.9	—	1.1
Legal settlement	—	(5.5)	—	(5.5)
Interest and other borrowing costs	—	—	4.3	—
Change in contingent consideration	0.5	—	0.7	—
Change in redemption value of noncontrolling interest	0.3	0.3	0.6	0.5
Tax effects of adjustments	(18.0)	1.6	(54.0)	1.2
Net income allocated to participating securities	(0.3)	—	(0.7)	—
Adjusted earnings	\$98.0	\$48.7	\$170.2	\$98.6

(6) Revenue per contract represents transaction fees less liquidity payments and routing and clearing costs divided by total touched contracts.

Net capture per one hundred touched shares refers to transaction fees less liquidity payments and routing and (7) clearing costs divided by the product of one-hundredth ADV of touched shares on BZX, BYX, EDGX and EDGA and the number of trading days for the period.

Net capture per matched notional value refers to transaction fees less liquidity payments in British pounds divided (8) by the product of ADV in British pounds of shares matched on Bats Europe and the number of trading days for the period.

Net capture per one million dollars traded refers to transaction fees less liquidity payments, if any, divided by the (9) product of one-thousandth of ADV traded on the Hotspot FX market and the number of trading days, divided by two, which represents the buyer and seller that are both charged on the transaction for the period.

Revenues

Total revenues increased in the three and six months ended June 30, 2017, primarily as a result of our acquisition of Bats.

The following summarizes changes in revenues for the three and six months ended June 30, 2017, compared to the three and six months ended June 30, 2016:

	Three Months				Six Months			
	Ended		Increase/ (Decrease)	Percent Change	Ended		Increase/ (Decrease)	Percent Change
	June 30,	June 30,			June 30,	June 30,		
	2017	2016			2017	2016		
	(in millions, except percentages)				(in millions, except percentages)			
Transaction fees	\$453.9	\$127.6	\$ 326.3	255.7 %	\$710.3	\$253.8	\$ 456.5	179.9 %
Access fees	29.7	13.2	16.5	125.0 %	47.5	26.4	21.1	79.9 %
Exchange services and other fees	19.9	11.4	8.5	74.6 %	35.3	22.8	12.5	54.8 %
Market data fees	48.0	8.2	39.8	485.4 %	70.5	16.2	54.3	335.2 %
Regulatory fees	83.3	9.2	74.1	805.4 %	121.6	18.3	103.3	564.5 %

Edgar Filing: CBOE Holdings, Inc. - Form 10-Q

Other revenue	6.0	3.5	2.5	71.4 %	11.8	6.1	5.7	93.4 %
Total revenues	\$640.8	\$173.1	\$ 467.7	270.2 %	\$997.0	\$343.6	\$ 653.4	190.2 %

Transaction Fees

Transaction fees increased for the three and six months ended June 30, 2017 compared to the same periods in 2016 primarily driven by the acquisition of Bats that contributed \$307.2 million and \$418.2 million, respectively. The remaining increase was primarily driven by increased ADV in index options of 11.8% in the three months ended June 30, 2017 and 5.6% in the six months ended June 30, 2017.

Access fees

Table of Contents

Access fees increased for the three and six months ended June 30, 2017 compared to the same periods in 2016 primarily driven by the Bats acquisition that contributed \$18.0 million and \$23.9 million, respectively. This was offset by decreases driven by pricing decreases for market maker permits and floor broker permits effective in the first quarter of 2017.

Exchange services and other fees

Exchange services and other fees increased for the three and six months ended June 30, 2017 compared to the same periods in 2016 primarily driven by the Bats acquisition that contributed \$7.6 million and \$10.1 million, respectively.

Market Data Fees

Market data fees increased for the three and six months ended June 30, 2017 compared to the same periods in 2016 primarily due to the Bats acquisition that contributed \$39.0 million and \$52.0 million, respectively.

Regulatory Fees

Regulatory transaction fees increased for the three and six months ended June 30, 2017 compared to the same periods in 2016 primarily due to the acquisition of Bats that contributed \$71.6 million and \$98.1 million, respectively.

Other Revenue

Other revenue increased for the three and six months ended June 30, 2017 compared to the same period in 2016 primarily due to the Bats acquisition that contributed \$2.7 million and \$3.4 million, respectively.

Cost of Revenues

Cost of revenues increased in the three and six months ended June 30, 2017 compared to the same periods in 2016 primarily due to the acquisition of Bats.

The following summarizes changes in cost of revenues for the three and six months ended June 30, 2017 compared to the three months ended June 30, 2016:

	Three Months Ended June 30, 2017		Increase/ (Decrease)	Percent Change	Six Months Ended June 30, 2017		Increase/ (Decrease)	Percent Change
	2017	2016			2017	2016		
	(in millions, except percentages)				(in millions, except percentages)			
Liquidity payments	\$266.5	\$7.1	\$ 259.4	*	\$371.8	\$13.7	\$ 358.1	*
Routing and clearing	12.2	2.6	9.6	369.2 %	18.5	4.3	14.2	330.2 %
Section 31 fees	74.6	—	74.6	*	104.6	—	104.6	*
Royalty fees	20.6	19.3	1.3	6.7 %	41.8	38.4	3.4	8.9 %
Total cost of revenues	\$373.9	\$29.0	\$ 344.9	1,189.3 %	\$536.7	\$56.4	\$ 480.3	851.6 %

*Not meaningful

Liquidity Payments

Liquidity payments increased for the three and six months ended June 30, 2017 compared to the same periods in 2016 primarily driven by the Bats acquisition that contributed \$251.4 million and \$342.3 million, respectively.

Section 31 Fees

Section 31 fees increased for the three and six months ended June 30, 2017 compared to the same periods in 2016 primarily driven by the Bats acquisition that contributed \$70.8 million and \$97.1 million, respectively.

Royalty Fees

Royalty fees increased for the three and six months ended June 30, 2017 compared to the same periods in 2016 primarily due to higher trading volume in licensed products.

Routing and Clearing

The increase in routing and clearing fees for the three and six months ended June 30, 2017 compared to the same periods in 2016 was primarily driven by the Bats acquisition that contributed \$9.0 million and \$12.2 million, respectively.

Revenues Less Cost of Revenues

Table of Contents

Revenues less cost of revenues increased in the three and six months ended June 30, 2017 compared to the same periods in 2016 primarily due to the acquisition of Bats.

The following tables summarize the components of revenues less cost of revenues for the three and six months ended June 30, 2017, presented as a percentage of revenues less cost of revenues and compared to the three and six months ended June 30, 2016:

	Three Months				Six Months			
	Ended June 30, 2017	2016	Increase/ (Decrease)	Percent Change	Ended June 30, 2017	2016	Increase/ (Decrease)	Percent Change
	(in millions, except percentages)				(in millions, except percentages)			
Transaction fees less liquidity payments and routing and clearing costs	\$175.2	\$117.9	\$57.3	48.6 %	\$320.0	\$235.8	\$84.2	35.7 %
Access fees	29.7	13.2	16.5	125.0 %	47.5	26.4	21.1	79.9 %
Exchange services and other fees	19.9	11.4	8.5	74.6 %	35.3	22.8	12.5	54.8 %
Market data fees	48.0	8.2	39.8	485.4 %	70.5	16.2	54.3	335.2 %
Regulatory fees, less Section 31 fees	8.7	9.2	(0.5)	(5.4) %	17.0	18.3	(1.3)	(7.1) %
Royalty fees	(20.6)	(19.3)	(1.3)	6.7 %	(41.8)	(38.4)	(3.4)	8.9 %
Other	6.0	3.5	2.5	71.4 %	11.8	6.1	5.7	93.4 %
Revenues less cost of revenues	\$266.9	\$144.1	\$122.8	85.2 %	\$460.3	\$287.2	\$173.1	60.3 %

Transaction Fees Less Liquidity Payments and Routing and Clearing Costs

Transaction fees less liquidity payments and routing and clearing costs increased in the three and six months ended June 30, 2017 compared to the same periods in 2016 primarily driven by the acquisition of Bats that contributed \$47.0 million and \$63.8 million, respectively. The remaining increase was primarily due to higher trading volumes in multiply-listed options, index options, and futures in both the three and six months ended June 30, 2017.

Access Fees

Access fees increased for the three and six months ended June 30, 2017 compared to the same periods in 2016 primarily driven by the Bats acquisition that contributed \$18.0 million and \$23.9 million, respectively. This was partially offset by decreases driven by pricing decreases for market maker permits and floor broker permits effective in the first quarter of 2017.

Exchange services and other fees

Exchange services and other fees increased for the three and six months ended June 30, 2017 compared to the same periods in 2016 primarily driven by the Bats acquisition that contributed \$7.6 million and \$10.1 million, respectively.

Market Data Fees

Market data fees increased for the three and six months ended June 30, 2017 compared to the same periods in 2016 primarily due to the Bats acquisition that contributed \$39.0 million and \$52.0 million, respectively.

Regulatory Fees, less Section 31 Fees

Regulatory fees decreased in the three and six months ended June 30, 2017 compared to the same periods in 2016 primarily due to a decrease in options regulatory fees.

Royalty Fees

Royalty fees increased for the three and six months ended June 30, 2017 compared to the same periods in 2016 primarily due to higher trading volume in licensed products.

Other

Other revenue increased in the three and six months ended June 30, 2017 compared to the same periods in 2016 primarily due to the Bats acquisition that contributed \$2.5 million and \$3.3 million, respectively.

Operating Expenses

Table of Contents

Total operating expenses increased 125.6% for the three months ended June 30, 2017 compared to the three months ended June 30, 2016 primarily due to incremental operating expenses of Bats in 2017. For the six months ended June 30, 2017 compared to the six months ended June 30, 2016 acquisition-related costs of \$69.9 million for the Bats acquisition drove the increase in operating expenses. Incremental operating expenses of Bats from the acquisition date to June 30, 2017 also contributed to the increase primarily in depreciation and amortization and compensation and benefits. The following summarizes changes in operating expenses for the three and six months ended June 30, 2017, compared to the three and six months ended June 30, 2016:

	Three Months Ended June 30, 2017			Increase/Percent Change	Six Months Ended June 30, 2017			Increase/Percent Change
	2017	2016	(Decrease)		2017	2016	(Decrease)	
	(in millions, except percentages)				(in millions, except percentages)			
Operating expenses:								
Compensation and benefits	\$50.0	\$28.5	\$ 21.5	75.4 %	\$97.8	\$55.6	\$ 42.2	75.9 %
Depreciation and amortization	55.8	12.3	43.5	353.7%	80.9	24.2	56.7	234.3%
Technology support services	12.0	5.7	6.3	110.5%	19.5	11.4	8.1	71.1 %
Professional fees and outside services	16.9	14.7	2.2	15.0 %	31.3	28.3	3.0	10.6 %
Travel and promotional expenses	4.2	2.5	1.7	68.0 %	7.5	5.0	2.5	50.0 %
Facilities costs	2.7	1.4	1.3	92.9 %	4.8	2.9	1.9	65.5 %
Acquisition-related costs	4.7	—	4.7	*	69.9	—	69.9	*
Change in contingent consideration	0.5	—	0.5	*	0.7	—	0.7	*
Other expenses	2.3	1.0	1.3	130.0%	4.0	2.3	1.7	73.9 %
Total operating expenses	\$149.1	\$66.1	\$ 83.0	125.6%	\$316.4	\$129.7	\$ 186.7	143.9%

* Not meaningful

Compensation and Benefits

Compensation and benefits increased for the three and six months ended June 30, 2017 compared to the same periods in 2016 primarily driven by the incremental costs for additional employees from the Bats acquisition of \$22.1 million and \$29.4 million, respectively. The remainder of the increase was due to the acceleration of stock-based compensation due to a change in the vesting terms in the first quarter of 2017.

Depreciation and Amortization

Depreciation and amortization increased for the three and six months ended June 30, 2017 compared to the same periods in 2016 primarily driven by amortization of purchased intangible assets acquired from the Bats acquisition of \$45.9 million and \$61.1 million, respectively.

Technology Support Services

Systems and data communication costs increased for the three and six months ended June 30, 2017 compared to the same periods in 2016 primarily driven by incremental expense from the acquisition of Bats that contributed \$6.1 million and \$8.1 million, respectively.

Professional and Outside Services

Professional and contract services fees increased for the three and six months ended June 30, 2017 compared to the same periods in 2016 primarily driven by incremental expense from the acquisition of Bats that contributed \$4.0 million and \$5.3 million, respectively.

Acquisition-related costs

Acquisition-related costs increased for the three and six months ended June 30, 2017 compared to the same periods in 2016 primarily driven by our acquisition of Bats. Acquisition-related costs include fees for investment banking advisors, lawyers, accountants, tax advisors, public relations firms, severance and retention costs, impairment of

capitalized software and other external costs directly related to the mergers and acquisitions.

45

Table of Contents

Operating Income

As a result of the items above, operating income for the three months ended June 30, 2017 was \$117.8 million compared to \$78.0 million for same period in 2016. Operating income for the six months ended June 30, 2017 was \$143.9 million compared to \$157.5 million for same period in 2016.

Interest Expense, Net

Net interest expense increased in the three and six months ended June 30, 2017 primarily due to \$12.5 million in interest expense related to the financing of the Bats acquisition. To finance the cash required for the acquisition, we entered into a \$1.0 billion term loan agreement and issued \$650 million in aggregate principal amount of 3.650% senior notes. In June 2017, we issued \$300 million in aggregate principal amount of 1.950% senior notes and used the net proceeds to pay down a portion of the term loan. See Note 11, Debt, to the condensed consolidated financial statements for a discussion of debt agreements.

Other Income

Other income stayed relatively flat for the three and six months ended June 30, 2017 compared to the three and six months ended June 30, 2016.

Income Before Income Tax Provision

As a result of the above, income before income tax provision for the three months ended June 30, 2017 was \$106.1 million compared to \$83.8 million for the same period in 2016, an increase of \$22.3 million. For the six months ended June 30, 2017 income before income tax provision was \$124.4 million compared to \$164.3 million for the same period in 2016, a decrease of \$39.9 million.

Income Tax Provision

For the three months ended June 30, 2017, the income tax provision was \$38.1 million compared with \$32.9 million for the same period in 2016. The effective tax rate for the three months ended June 30, 2017 was 35.9% compared to 39.3% for the three months ended June 30, 2016. The decrease in the effective tax rate for the three months ended June 30, 2017 against the comparable period in the prior year was due to excess tax benefits associated with the exercise and vesting of stock-based compensation during the quarter.

For the six months ended June 30, 2017, the income tax provision was \$41.2 million compared with \$64.2 million for the same period in 2016. The effective tax rate for the six months ended June 30, 2017 was 33.1% compared to 39.1% for the six months ended June 30, 2016. The decrease in the effective tax rate for the six months ended June 30, 2017 against the comparable period in the prior year was due to discrete events during the first quarter and the exercise and vesting of stock-based compensation during the second quarter.

The Illinois legislature enacted a corporate income tax rate increase of 1.75% on July 6, 2017 which may impact our future corporate tax rate.

Net Income

As a result of the items above, net income for the three months ended June 30, 2017 was \$68.0 million compared to \$50.9 million for the three months ended June 30, 2016, an increase of \$17.1 million.

As a result of the items above, net income for the six months ended June 30, 2017 was \$83.2 million compared to \$100.1 million for the six months ended June 30, 2016, a decrease of \$16.9 million.

Segment Operating Results

We report results from our five segments: Options, U.S. Equities, Futures, European Equities, and Global FX. Segment performance is primarily based on operating income (loss). We have aggregated all corporate costs, acquisition-related costs, as well as other business ventures, within the Corporate Items and Eliminations as those activities should not be used to evaluate a segment's operating performance. All operating expenses that relate to activities of a specific segment have been allocated to that segment.

Table of Contents

The following summarizes our total revenues by segment (in millions, except percentages):

	Three Months		Percentage of Total Revenues						Percentage of Total Revenues	
	Ended		Three Months		Six Months		Six Months		Ended	
	June 30, 2017	2016	Ended June 30, 2017	2016	Ended June 30, 2017	2016	Percent Change	Ended June 30, 2017	2016	
Options	\$233.5	\$141.7	64.8 %	36.4 %	81.9 %	\$426.2	\$287.6	48.2 %	42.8 %	83.7 %

Options

The following summarizes revenues less cost of revenues, operating expenses, operating income, EBITDA, and EBITDA margin for our Options segment:

	Three Months		Percentage of Total Revenues						Percentage of Total Revenues	
	Ended		Three Months		Six Months		Six Months		Ended	
	June 30, 2017	2016	Percent Change	Months Ended June 30, 2017	2016	Months Ended June 30, 2017	2016	Percent Change	Months Ended June 30, 2017	2016
Revenues less cost of revenues	\$126.7	\$113.9	11.2 %	19.8 %	65.8 %	\$255.6	\$233.3	9.6 %	25.6 %	67.9 %
Operating expenses	65.5	60.3	8.6 %	10.2 %	34.8 %	129.4	117.4	10.2 %	13.0 %	34.2 %
Operating income	\$61.2	\$53.6	14.2 %	9.6 %	31.0 %	\$126.2	\$115.9	8.9 %	12.6 %	33.7 %
EBITDA (1)	\$84.5	\$64.9	30.2 %	13.2 %	37.5 %	\$160.4	\$138.9	15.5 %	16.1 %	40.4 %
EBITDA margin (2)	66.7 %	57.0 %	%*	*	*	62.8 %	59.5 %	%*	*	*

* Not meaningful

(1) See footnote (1) to the table under “Financial Summary” above for a reconciliation of net income to EBITDA, and management’s reasons for using such non-GAAP measures.

(2) EBITDA margin represents EBITDA divided by revenues less cost of revenues.

Revenues less cost of revenues increased \$12.8 million for the three months ended June 30, 2017 compared to the three months ended June 30, 2016, primarily driven by the acquisition of Bats, which contributed \$5.3 million and a 11.8% increase in index ADV partially offset by a 1.0% decrease in index options RPC and decreased CBOE and C2 access fees in the second quarter of 2017. For the three months ended June 30, 2017, the Options segment’s operating income increased \$7.6 million compared to the three months ended June 30, 2016.

Revenues less cost of revenues increased \$22.3 million for the six months ended June 30, 2017, compared to the six months ended June 30, 2016, primarily driven by the acquisition of Bats, which contributed \$6.9 million and a 5.6% increase in index ADV partially offset by a 1.0% decrease in index options RPC. For the six months ended June 30, 2017, the Options segment’s operating income increased \$10.5 million compared to the six months ended June 30, 2016.

Table of Contents

U.S. Equities

The following summarizes revenues less cost of revenues, operating expenses, operating income, EBITDA, and EBITDA margin for our U.S. Equities segment:

	Three Months Ended June 30, 2017			Percentage of Total Revenues			Six Months Ended June 30, 2017			Percentage of Total Revenues		
	2017	2016	Change	2017	2016	2017	2016	2017	2016	2017	2016	
	(in millions, except percentages)											
Revenues less cost of revenues	\$74.4	\$ *		11.6 %	%	\$99.9	\$ *		10.0 %	%

Operating income	\$33.3	\$ *		5.2 %	%	\$45.5	\$ *		4.5 %	%		
EBITDA (1)	\$57.8	\$ *		9.0 %	%	\$78.1	\$ *		7.8 %	%		
EBITDA margin (2)	77.7 %	* %	*	*	*	78.2 %	* %	*	*	*	*	

* Not meaningful

(1) See footnote (1) to the table under “Financial Summary” above for a reconciliation of net income to EBITDA, and management’s reasons for using such non-GAAP measures.

(2) EBITDA margin represents EBITDA divided by revenues less cost of revenues.

For the three and six months ended June 30, 2017, U.S. Equities contributed revenues less costs of revenues of \$74.4 million and \$99.9 million, respectively, and operating income of \$33.3 million and \$45.5 million, respectively, resulting from our acquisition of Bats on February 28, 2017.

Futures

The following summarizes revenues, operating expenses, operating income, EBITDA, and EBITDA margin for our Futures segment:

	Three Months Ended June 30, 2017			Percentage of Total Revenues			Six Months Ended June 30, 2017			Percentage of Total Revenues		
	2017	2016	Change	2017	2016	2017	2016	2017	2016	2017	2016	
	(in millions, except percentages)											
Revenues less cost of revenues	\$36.2	\$30.2	19.9 %	5.6 %	17.4 %	65.0	53.9	20.6 %	6.4 %	15.7 %		
Operating expenses	2.8	3.7	(24.3) %	0.3 %	2.1 %	5.7	7.2	(20.8) %	0.6 %	2.1 %		
Operating income	\$33.4	\$26.5	26.0 %	5.2 %	15.3 %	\$59.3	\$46.7	27.0 %	5.9 %	13.6 %		
EBITDA (1)	\$33.8	\$27.4	23.4 %	5.3 %	15.8 %	\$60.0	\$48.5	23.7 %	6.0 %	14.1 %

* Not meaningful

(1) See footnote (1) to the table under “Financial Summary” above for a reconciliation of net income to EBITDA, and management’s reasons for using such non-GAAP measures.

(2) EBITDA margin represents EBITDA divided by revenues less cost of revenues.

For the three months ended June 30, 2017 compared to the same period in 2016, the operating income increased \$6.9 million, primarily driven by a 18.8% increase in ADV, from 258.2 thousand contracts per day in 2016 to 306.8

thousand contracts per day in 2017 and a 4.8% increase in revenue per contract.

48

Table of Contents

For the six months ended June 30, 2017 compared to the same period in 2016, the operating income increased \$12.6 million, primarily driven by a 24.6% increase in ADV, from 237.8 thousand contracts per day in 2016 to 296.4 thousand contracts per day in 2017 and a 6.1% increase in revenue per contract.

European Equities

The following summarizes revenues less cost of revenues, operating expenses, operating income, EBITDA, and EBITDA margin for our European Equities segment:

	Three Months Ended June 30,		Percent Change	Percentage of Total Revenues		Six Months Ended June 30,		Percent Change	Percentage of Total Revenues	
	2017	2016		Three Months Ended June 30, 2017	2016	Six Months Ended June 30, 2017	2016		Six Months Ended June 30, 2017	2016
	(in millions, except percentages)									
Revenues less cost of revenues	\$18.5	\$ *		2.9 %	%	\$24.6	\$ *		2.5 %	%
Operating expenses	15.0	—	*	2.3 %	%	19.5	—	*	2.0 %	%
Operating income	\$3.5	\$ *		0.6 %	%	\$5.1	\$ *		0.5 %	%
EBITDA (1)	\$11.0	\$ *		1.7 %	%	\$15.1	\$ *		1.5 %	%
EBITDA margin (2)	59.5 %	*	*	*	*	61.4 %	*	*	*	*

* Not meaningful

(1) See footnote (1) to the table under “Financial Summary” above for a reconciliation of net income to EBITDA, and management’s reasons for using such non-GAAP measures.

(2) EBITDA margin represents EBITDA divided by revenues less cost of revenues.

For the three and six months ended June 30, 2017, the European Equities segment contributed revenues less cost of revenues of \$18.5 million and \$24.6 million, respectively, and operating income of \$3.5 million and \$5.1 million, respectively, resulting from our acquisition of Bats on February 28, 2017.

Global FX

The following summarizes revenues less cost of revenues, operating expenses, operating income, EBITDA, and EBITDA margin for our Global FX segment:

	Three Months Ended June 30,		Percent Change	Percentage of Total Revenues		Six Months Ended June 30,		Percent Change	Percentage of Total Revenues	
	2017	2016		Three Months Ended June 30, 2017	2016	Six Months Ended June 30, 2017	2016		Six Months Ended June 30, 2017	2016
	(in millions, except percentages)									
Revenues less cost of revenues	\$10.9	\$ *		1.7 %	%	\$14.9	\$ *		1.5 %	%
Operating expenses	15.0	—	*	2.3 %	%	20.2	—	*	2.0 %	%

EBITDA margin (2)	45.9 %	*	*	*	*	45.6 %	*	*	*	*

* Not meaningful

- (1) See footnote (1) to the table under “Financial Summary” above for a reconciliation of net income to EBITDA and adjusted EBITDA, and management’s reasons for using such non-GAAP measures.
- (2) EBITDA margin represents EBITDA divided by revenues less cost of revenues.

Table of Contents

For the three and six months ended June 30, 2017, the Global FX segment contributed revenues less cost of revenues of \$10.9 million and \$14.9 million, respectively, and an operating loss of \$4.1 million and \$5.3 million, respectively, resulting from our acquisition of Bats on February 28, 2017.

Seasonality

In the securities and FX industries, quarterly revenue fluctuations are common and are due primarily to seasonal variations in trading volumes, as well as competition and technological and regulatory changes. Our business may experience seasonal fluctuations, reflecting reduced trading activity.

Liquidity and Capital Resources

We expect our cash on hand at June 30, 2017 and other available resources to be sufficient to continue to meet our 2017 cash requirements. In the near term, we expect that our cash from operations and availability under our revolving credit facility will meet our cash needs to fund our operations, capital expenditures, interest payments on debt, debt repayments, any dividends, and opportunities for common stock repurchases under the previously announced program. We also plan to utilize excess cash on hand to pay down amounts outstanding under the Term Loan Agreement. See Note 11 “Debt” of the condensed consolidated financial statements for further information. Our long-term cash needs will depend on many factors including an introduction of new products, enhancements of current products, the geographic mix of our business and any potential acquisitions. We believe our cash from operations and the availability under our revolving credit facility will meet any long-term needs unless a significant acquisition is identified, in which case we expect that we would be able to borrow the necessary funds to complete such an acquisition.

Cash and cash equivalents include cash in banks and all non-restricted, highly liquid investments with original maturities of three months or less at the time of purchase. Cash and cash equivalents as of June 30, 2017 increased \$51.3 million from December 31, 2016 primarily driven by the proceeds from long-term debt offset by the Bats acquisition and changes in various other balance sheet accounts. See “—Cash Flow” below for further discussion. Our cash and cash equivalents held outside of the United States in various foreign subsidiaries totaled \$40.6 million as of June 30, 2017. The remaining balance was held in the United States and totaled \$108.0 million as of June 30, 2017. No cash or cash equivalents was held outside of the United States as of December 31, 2016. The majority of cash held outside the United States is available for repatriation, but under current law, could subject us to additional United States income taxes, less applicable foreign tax credits. In connection with ETF.com, we have \$1.8 million of restricted cash held to be paid to the sellers of ETF.com within 18 months after the acquisition date of April 1, 2016 upon release of seller indemnifications per the terms of the acquisition agreement.

Our financial investments include investments with original or acquired maturities longer than three months but that mature in less than one year from the statement of financial condition date and are recorded at fair value. As of June 30, 2017 and December 31, 2016, financial investments primarily consisted of U.S. Treasury securities.

Cash Flow

The following table summarizes our cash flow data for the six months ended June 30, 2017:

	Six Months Ended June 30,	
	2017	2016
Net cash provided by operating activities	\$172.1	\$114.9
Net cash used in investing activities	(1,467.4)	(63.9)
Net cash provided by (used in) financing activities	1,346.5	(101.1)
Effect of foreign currency exchange rate changes on cash and cash equivalents	0.1	—
	\$51.3	\$(50.1)

Net Cash Flows Provided by Operating Activities

During the six months ended June 30, 2017, net cash provided by operating activities was \$88.9 million greater than net income. The variance is primarily attributed to our acquisition of Bats. Primarily as a result of the acquisition, we had depreciation and amortization totaling \$80.9 million as of June 30, 2017. This amount was partially offset by a change in deferred tax liabilities of \$15.0 million.

Table of Contents

Net Cash Flows Used in Investing Activities

Net cash flows used in investing activities for the six months ended June 30, 2017 and 2016 were \$1,467.4 million and \$63.9 million. The variance is primarily attributed to our acquisition of Bats on February 28, 2017.

Net Cash Flows Provided by (Used in) Financing Activities

Net cash flows provided by (used in) financing activities for the six months ended June 30, 2017 and 2016 were \$1,346.5 million and \$(101.1) million, respectively. We received proceeds from long-term debt of \$1,944.2 million while making principal payments on long-term debt of \$525.0 million and paying dividends totaling \$56.7 million.

Financial Assets

The following summarizes our financial assets as of June 30, 2017 and December 31, 2016 (in millions):

	June 30, December	
	2017	31, 2016
Cash and cash equivalents	\$148.6	\$ 97.3
Financial investments	110.4	—
Cash collected for Section 31 fees	(110.0)	—
Adjusted cash (1)	\$149.0	\$ 97.3

(1) Adjusted cash is a non-GAAP measure and represents cash and cash equivalents plus financial investments minus cash collected for Section 31 fees, which will need to be remitted in the near term. We have presented adjusted cash because we consider it an important supplemental measure of our liquidity and believe that it is frequently used by analysts, investors and other interested parties in the evaluation of companies.

Debt

The following summarizes our debt obligations as of June 30, 2017 and December 31, 2016 (in millions):

	June 30,	December
	2017	31, 2016
Term Loan Agreement	\$475.0	\$ —
3.650% Senior Notes	650.0	—
1.950% Senior Notes	300.0	—
Revolving Credit Agreement	—	—
Less unamortized discount and debt issuance costs	(13.7)	—
Total long-term debt	\$1,411.3	\$ —

As of June 30, 2017 and December 31, 2016, we were in compliance with the covenants of our debt agreements. In addition to the debt outstanding, as of June 30, 2017, we had an additional \$150.0 million available through our revolving credit facility. Together with adjusted cash, we had \$299.0 million available to fund our operations, capital expenditures, potential acquisitions, debt repayments and any dividends as of June 30, 2017.

Commercial Commitments and Contractual Obligations

As of June 30, 2017, our commercial commitments and contractual obligations included real property leases, operating leases, data and telecommunications agreements, equipment leases, our long-term debt outstanding, contingent consideration and other obligations. See Note 21, Commitments and Contingencies, to the condensed consolidated financial statements for a discussion of commitments and contingencies and Note 11, Debt, for a discussion of the 1.950% Senior Notes issued in June 2017.

Off Balance Sheet Arrangements

As of June 30, 2017 we did not have any off-balance sheet arrangements.

Table of Contents

Item 3. Quantitative and Qualitative Disclosures about Market Risk

As a result of our operating activities, we are exposed to market risks such as foreign currency exchange rate risk, equity risk and credit risk. We have implemented policies and procedures to measure, manage and monitor and report risk exposures, which are reviewed regularly by management and our board of directors.

Foreign Currency Exchange Rate Risk

As a result of the acquisition of Bats, we expanded our operations in Europe and Asia and are subject to increased currency translation risk as revenues and expenses are denominated in foreign currencies, primarily the British pound, Singapore dollar and the Euro. We also have de minimis exposure to other foreign currencies, including the Swiss Franc, Norwegian Kroner, Swedish Krona and Danish Kroner.

For the three and six months ended June 30, 2017, our exposure to foreign-denominated revenues and expenses is presented by primary foreign currency in the following table:

	Three Months Ended June 30, 2017		Six Months Ended June 30, 2016	
	British Euro(1)Pound (1)		British Euro(1)Pound (1)	
Foreign denominated % of:				
Revenues	1.9 %	1.6 %	1.6 %	1.5 %
Cost of revenues	1.6 %	— %	1.5 %	— %
Operating expenses	0.4 %	— %	0.2 %	— %
Impact of 10% adverse currency fluctuation on:				
Revenues	\$1.0	\$0.9	\$1.6	\$1.5
Cost of revenues	0.5	—	0.7	—
Operating expenses	0.1	—	0.1	—

(1) An average foreign exchange rate to the U.S. dollar for the period was used.

Equity Risk

Our investment in European operations is exposed to volatility in currency exchange rates through translation of our net assets or equity to U.S. dollars. The assets and liabilities of our European business are denominated in British pounds. Fluctuations in currency exchange rates may create volatility in our reported results as we are required to translate foreign currency reported statements of financial condition and income into U.S. dollars for consolidated reporting. The translation of these non-U.S. dollar statements of financial condition into U.S. dollars for consolidated reporting results in a cumulative translation adjustment, which is recorded in accumulated other comprehensive loss (income) within stockholders' equity on our consolidated statements of financial condition. Our primary exposure to this equity risk as of June 30, 2017 is presented by foreign currency in the following table:

	British Pound (1) (in millions)
Net equity investment in Bats Europe	\$ 676.2
Impact on consolidated equity of a 10% adverse currency fluctuation	\$ 67.6

(1) Converted to U.S. dollars using the foreign exchange rate of British pounds into U.S. dollars as of June 30, 2017.

Table of Contents

Credit Risk

We are exposed to credit risk from third parties, including customers, counterparties and clearing agents. These parties may default on their obligations due to bankruptcy, lack of liquidity, operational failure or other reasons. We limit our exposure to credit risk by selecting the counterparties with which we make investments and execute agreements.

We do not have counterparty credit risk with respect to trades matched on our exchanges in the U.S and Europe. With respect to listed cash equities, we deliver matched trades of our customers to the National Security Clearing Corporation, NSCC, without taking on counterparty risk for those trades. NSCC acts as a central counterparty on all transactions occurring on BZX, BYX, EDGX and EDGA and, as such, guarantees clearance and settlement of all of our matched equity trades. Similarly, with respect to U.S. listed equity options, we deliver matched trades of our customers to the OCC, which acts as a central counterparty on all transactions occurring on CBOE, C2, BZX, EDGX and CFE and, as such, guarantees clearance and settlement of all of our matched options and futures trades.

With respect to orders Bats Trading routes to other markets for execution on behalf of our customers, Bats Trading is exposed to some counterparty credit risk in the case of failure to perform on the part of our clearing firms, Morgan Stanley & Co. LLC (Morgan Stanley) or Wedbush Securities, Inc. (Wedbush). Morgan Stanley and Wedbush Securities guarantee trades until one day after the trade date, after which time NSCC provides a guarantee. Thus, Bats Trading is potentially exposed to credit risk to the counterparty to a trade routed to another market center between the trade date and one day after the trade date in the event that Morgan Stanley or Wedbush Securities fails. We believe that any potential requirement for us to make payments under these guarantees is remote and accordingly, have not recorded any liability in the consolidated financial statements for these guarantees.

Similarly, with respect to orders in U.S. listed equity options, we route orders for execution to other national securities exchanges through either Bats Trading or through affiliates of Bank of America Merrill Lynch, Wedbush, Wolverine Execution Services, L.L.C. and Compass Professional Services, L.L.C. Bats Trading has counterparty credit risk exposure to these firms until a trade settles (generally one day after the trade date). We believe that any potential requirement for us to make payments under these guarantees is remote. Accordingly, we have not recorded any liability in our consolidated financial statements for these guarantees.

Historically, we have not incurred any liability due to a customer's failure to satisfy its contractual obligations as counterparty to a system trade. Credit difficulties or insolvency, or the perceived possibility of credit difficulties or insolvency, of one or more larger or visible market participants could also result in market-wide credit difficulties or other market disruptions.

We do not have counterparty credit risk with respect to institutional spot FX trades occurring on our platform because Hotspot is not a counterparty to any FX transactions. All transactions occurring on our platform occur bilaterally between two banks or prime brokers as counterparties to the trade. While Hotspot does not have direct counterparty risk, Bats Hotspot may suffer a decrease in transaction volume if a bank or prime broker experiences an event that causes other prime brokers to decrease or revoke the credit available to the prime broker experiencing the event. Therefore, Bats Hotspot may have risk that is related to the credit of the banks and prime brokers that trade FX on the Bats Hotspot Platform.

We also have credit risk related to transaction fees that are billed in arrears to customers on a monthly basis. Our potential exposure to credit losses on these transactions is represented by the receivable balances in our consolidated statements of financial condition. Our customers are financial institutions whose ability to satisfy their contractual obligations may be impacted by volatile securities markets.

On a regular basis, we review and evaluate changes in the status of our counterparties' creditworthiness. Credit losses such as those described above could adversely affect our consolidated financial position and results of operations. Any such effects to date have been minimal.

Item 4. Controls and Procedures

a) Disclosure controls and procedures. The Company's management, with the participation of its Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of the Company's disclosure controls and procedures (as defined in Rule 13a-15(e) and Rule 15d-15(e) under the Securities Exchange Act of 1934 (the "Exchange Act")) as of the end of the period covered by this report. Based upon that evaluation, the Company's Chief Executive Officer and Chief Financial Officer have concluded that, as of the end of such period, the Company's

disclosure controls and procedures are effective.

(b) Internal controls over financial reporting. On February 28, 2017, the Company acquired Bats. In conducting the evaluation of the effectiveness of internal controls over financial reporting, the Company elects to exclude Bats when conducting the annual evaluation of internal controls as permitted by applicable regulations. The Company is implementing internal controls over significant processes specific to the acquisition that management believes are appropriate in consideration of related integration of operations, systems, control activities, and accounting for the merger and merger-related transactions.

Table of Contents

As of the date of this Quarterly Report on Form 10-Q, the Company is the process of further integrating the acquired Bats operations into the overall internal controls over financial reporting. The Merger resulted in changes in the operating results for the three and six months ended June 30, 2017 compared to the three and six months ended June 30, 2016. Revenue less cost of revenue increased to \$266.9 million, an increase of 85.2% over the three months ended June 30, 2016. Total operating expenses increased 125.6% to \$149.1 million. As a result, net income allocated to common stockholders increased 32.7% to \$67.3 million. Revenue less cost of revenue increased to \$460.3 million, an increase of 60.3% over the six months ended June 30, 2016. Total operating expenses increased 143.9% to \$316.4 million. As a result, net income allocated to common stockholders decreased 17.4% to \$82.4 million.

Except as described above, no changes occurred in the Company's internal control over financial reporting during second quarter 2017 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

Table of Contents

PART II—OTHER INFORMATION

Item 1. Legal Proceedings.

CBOE Holdings, Inc. incorporates herein by reference the discussion set forth in Note 21 (“Commitments and Contingencies—Legal Proceedings”) of the condensed consolidated financial statements included herein.

Item 1A. Risk Factors.

Other than the risk factor listed below, there have been no material updates during the period covered by this Form 10-Q to the Risk Factors as set forth in Item 1A. of our Annual Report on Form 10-K for the year ended December 31, 2016. These risks and uncertainties, however, are not the only risks and uncertainties that we face. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial may also significantly impact us. Any of these risks and uncertainties may materially and adversely affect our business, financial condition or results of operations, liquidity and cash flows.

Risks Relating to Our Business

Legislative or regulatory changes affecting our markets could have a material adverse effect on our business, financial condition and operating results.

Changes in regulation by the SEC, CFTC, FCA, foreign regulators or other government action, including SEC approval of rule filings by other self-regulatory organizations (SROs) or entities, including OCC, could materially affect our markets. In recent years, the securities and futures industries have been subject to regulatory changes as a result of increasing government and public scrutiny of the securities and futures industries. We have also experienced an increase in rulemaking and legislation that could affect our business.

In 2010, Congress passed the Dodd-Frank Act and other legislation. While many of its requirements have been implemented or are in the process of being implemented, some of the provisions in Dodd-Frank that impact our markets require additional action by the SEC or the CFTC. Depending on how the SEC and CFTC interpret, implement or alter these laws, exchanges like ours could be subject to additional costs. We could also see reduced trading by our customers due to margin or other requirements placed on them.

Under the Collins Amendment to the Dodd-Frank Act, starting in 2015, large U.S. banks were required to use a new approach to compute their risk weighted assets, which include exchange-traded options and futures. This, and other rulemaking, has led to further increases in capital requirements for U.S. bank holding companies, and bank subsidiaries involved in the trading and clearing of derivatives. These increased capital requirements may reduce trading in options and futures due to bank-affiliated clearing members and broker-dealers reducing their own trading, charging their customers more to trade, reducing the type or number of customers or withdrawing from the business of market-maker clearing.

In 2016, the SEC approved a plan to create, implement and maintain a consolidated audit trail, which would serve as a comprehensive audit trail of orders that will allow regulators to efficiently and accurately track all activity in Regulation NMS securities in the U.S. market. In addition to increased regulatory obligations, implementation of a consolidated audit trail could result in significant additional expenditures, including to implement any new technology to meet any plan’s requirements.

In addition, the SEC approved a two year “tick pilot” program to impose wider minimum quoting and/or trading increments, or tick sizes, in certain securities in an effort to incentivize liquidity provision in those securities. The tick pilot began on October 3, 2016 and consists of a control group of approximately 1,400 securities. The exchanges, including BZX, BYX, EDGX and EDGA, and Financial Industry Regulatory Authority (FINRA) are required to submit their initial assessments on the tick pilot’s impact 18 months after the pilot begins based on data generated during the first 12 months of its operation. The tick pilot requires BZX, BYX, EDGX and EDGA to devote significant additional resources to implement and report on the program, increasing our costs. In addition, for tick pilot test group securities where execution at price increments narrower than the permitted quote is permitted, the implementation of

the tick pilot could incentivize additional trading away from the exchanges, reducing the volume of orders executed on BZX, BYX, EDGX and EDGA.

Further, Congress, regulators and some media have been increasingly scrutinizing electronic trading, the structure of equity markets and high frequency trading in recent years. The SEC continues to consider various potential market structure changes, which could result in reduced trading volumes, or which could negatively affect our business. To the extent the SEC adopts regulatory changes, our business, financial condition and operating results could be negatively impacted. In addition, the continued growth of high frequency trading has been the subject of private litigation and regulatory enforcement actions

Table of Contents

alleging that high frequency trading firms have received unfair advantages at the expense of other traders. High frequency trading accounts for a meaningful percentage of the daily volume in the U.S. and European equity markets, and these actions and other efforts to slow trading could lead to a reduction in trading volumes, negatively impacting all trading markets, including our business.

Under E.U. regulations, European banks and other European financial institutions become subject to punitive capital charges if they transact options or futures through a non-qualifying clearinghouse. OCC, our clearinghouse for options and futures, is not currently recognized as a qualified clearinghouse by the E.U. The current deadline for the E.U. to qualify foreign clearinghouses as equivalent is December 15, 2017. As a prerequisite to becoming qualified, OCC could be required by the E.U. to contribute significant capital to its default waterfall applicable in the event of clearing member default. This capital could be required to be drawn before the default fund contributions of non-defaulting clearing members in the event that a defaulting clearing member's margin and other contributions were to be exhausted. OCC's stockholders, including CBOE, could be required to fund this capital. If the E.U. does not recognize OCC as a qualified clearinghouse by the above date (or by a subsequent date in the event that the current deadline is extended), then European market participants that clear through OCC would become subject to punitive capital charges. As a result, we could experience the loss of a significant number of European market participants and a significant reduction in trading activity on our options and futures markets, which could have a material adverse effect on our business, financial condition and operating results.

The Markets in Financial Instruments Directive (Directive 2004/39/EC) ("MiFID"), came into effect in 2007, regulating the market for execution services within European listed cash equity securities. MiFID will be superseded and enhanced by the Directive on Markets in Financial Instruments (Directive 2014/65/EU) repealing Directive 2004/39/EC and the Regulation on Markets in Financial Instruments (Regulation (EU) No 600/2014), commonly referred to as "MiFID II and MiFIR," respectively, which are expected to be implemented at the beginning of 2018. The implementation of MiFID II and MiFIR in Europe will result in an alteration of the existing MiFID structure that has encouraged competition among market centers in Europe. MiFID II and MiFIR introduce a number of new rules, including enhanced internal organizational and compliance monitoring requirements, which apply directly to European trading venues such as our MTF and RM. The impact of MiFID II and MiFIR is likely to be significant, and could reduce trading volumes and trading fees, while increasing our costs of operating in Europe. MiFIR may also have an adverse impact on our U.S. listed cash equity operations, because E.U. investment firms may be required to undertake trades in such U.S. listed cash equities only on E.U. RMs, MTFs and systematic internalisers or with third country trading venues which have been specifically assessed to be equivalent, unless and until an equivalence assessment is made in respect of our U.S. exchanges. Despite the U.K.'s vote to leave the E.U., it is expected that MiFID II and MiFIR will be implemented in the U.K. ahead of any exit.

The legislative and regulatory environment in which the spot FX market operates is evolving and has undergone significant changes in the recent past, and there may be future regulatory changes in the spot FX industry. Spot FX market participants have seen an increasing number of law enforcement actions and regulatory inquiries into their business practices. The governmental bodies and regulatory organizations that regulate parts of the spot FX market have enacted, proposed and may consider additional legislative and regulatory initiatives and may adopt new or revised laws and regulations. Changes in the interpretation or enforcement of existing laws and regulations by these entities, or the adoption of new legal or regulatory requirements, may also adversely affect our spot FX business. Further, our FX swaps business may also be adversely affected by proposed regulatory changes to the rules governing swap execution facilities.

In addition, a global central bank and industry group initiative, instigated by the Bank of International Settlements, has sought to develop a single set of global principles of good practice for the wholesale FX market. This global code of conduct (the "Global Code") was developed to provide a common set of guidelines to promote the integrity and effective functioning of the FX market. Although the Global Code does not impose legislative or regulatory obligations on market participants, following its publication in May 2017 our spot FX business may be subject to commercial pressures to accommodate its clients' demands in terms of Global Code adherence, as well as demands to

demonstrate our own compliance with the principles set forth therein.

It is also possible that there will be additional legislative and regulatory changes or efforts in the environment in which we operate our businesses, although we cannot predict the nature of these changes or their impact on our business at this time. Actions on any of the specific regulatory issues currently under review in the U.S. or Europe and other proposals could have a material impact on our business.

In addition, U.S. and foreign legislatures and regulators and other regulatory authorities could impose legislative or regulatory changes that could adversely impact the ability of our market participants to use our markets, or participate in the securities industry at all. Any such changes could result in the loss of a significant number of market participants or a reduction in trading activity on our markets, either of which could have a material adverse effect on our business, financial condition and

Table of Contents

operating results. Changes or proposed changes in regulation may also result in additional costs of compliance and modification of market participants' trading activity on our exchanges and markets.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

Share repurchase program

In 2011, the board of directors approved an initial authorization for the Company to repurchase shares of its outstanding common stock of \$100 million and approved additional authorizations of \$100 million in each of 2012, 2013, 2014, 2015, and February 2016 for a total authorization of \$600 million. The program permits the Company to purchase shares through a variety of methods, including in the open market or through privately negotiated transactions, in accordance with applicable securities laws. It does not obligate the Company to make any repurchases at any specific time or situation.

As of June 30, 2017, the Company had \$97.0 million of availability remaining under its existing share repurchase authorizations. We were not active in our share repurchase program during the second quarter of 2017.

Purchase of common stock from employees

The Company acquired 92,571 shares for a total cost of approximately \$8.0 million during the three months ended June 30, 2017 that were not part of the publicly announced share repurchase authorization. These shares consisted of shares retained to cover payroll withholding taxes in connection with the vesting of restricted stock unit awards and performance share awards, and shares used by employees to cover the price of certain stock options that were exercised.
