Item 8.01 Other Events.

Forum Energy Technologies, Inc. (the “Company”) is filing this Current Report on Form 8-K to recast certain previously reported amounts to conform with the segment reporting changes made in connection with the realignment of our organization structure, with respect to the financial information contained in our Annual Report on Form 10-K for the year ended December 31, 2018 (“2018 Form 10-K”).

In the first quarter 2019, we changed our reportable segments in order to align with business activity drivers and the manner in which management reviews and evaluates operating performance. Forum now operates in the following three reportable segments: Drilling & Downhole, Completions and Production. This move better aligns with the key phases of the well cycle and provides improved operating efficiencies. Historically, we operated in three reportable segments: Drilling & Subsea, Completions, and Production & Infrastructure. We have moved the Downhole product line from Completions to Drilling & Subsea to form the new Drilling & Downhole segment. Completions retains the Stimulation & Intervention and Coiled Tubing product lines. Finally, we renamed Production & Infrastructure as the Production segment. We provided a brief description of the new reporting structure in a press release issued on April 25, 2019, including a comprehensive summary of the effects of these changes, and the impact on the Company’s historical segment results for fiscal years 2018.

The rules of the Securities and Exchange Commission require that when a registrant prepares, on or after the date a registrant reports an accounting change such as the change noted above, a new registration, proxy or information statement (or amends a previously filed registration, proxy, or information statement) that includes or incorporates by reference financial statements, the registrant must recast the prior period financial statements included or incorporated by reference in the registration, proxy or information statement to reflect these types of changes. Accordingly, the Company is filing this Form 8-K to recast our consolidated financial statements for each of the three years in the period ended December 31, 2018, to reflect the changes in segment reporting as described above. The updates do not represent a restatement of previously issued financial statements. The recast information of Items contained in the Company’s 2018 Form 10-K is presented in Exhibit 99.1 to this Form 8-K.

This Form 8-K does not reflect events occurring after we filed our 2018 Form 10-K and does not modify or update the disclosures therein in any way, other than to illustrate the change of reporting segments as described above. For developments subsequent to the filing of the 2018 Form 10-K, refer to our Quarterly Report on Form 10-Q for the quarter ended March 31, 2019. In the future, references to the Company’s historical financial information are expected to reflect the segment changes described above.
