

Item 8.01. Other Matters.

Preliminary Approval of Settlement of West Virginia Freedom Industries, Inc. Chemical Spill Claims

On September 21, 2017, the U.S. District Court for the Southern District of West Virginia granted preliminary approval of a settlement class and proposed class action settlement (the “Settlement”) with respect to claims against West Virginia-American Water Company (“WVAWC”), a wholly owned subsidiary of American Water Works Company, Inc. (the “Company”), American Water Works Service Company, Inc. (“AWWSC”), a wholly owned subsidiary of the Company, and the Company (collectively, the “American Water Defendants”), by all putative class members (collectively, the “Plaintiffs”) for all claims and potential claims arising out of the January 9, 2014 Freedom Industries, Inc. chemical spill into the Elk River in West Virginia. Preliminary approval was granted after the parties to the Settlement filed with the court a proposed amended settlement agreement and related materials on August 25, 2017 addressing the matters set forth in the court’s July 6, 2017 order denying without prejudice the joint motion for preliminary approval of the Settlement. The economic terms contained in the proposed amended settlement agreement are materially similar to those included in the binding global agreement in principle to settle claims originally approved by the court in October 2016 and previously disclosed in the Company’s Form 10-K for the year ended December 31, 2016 (the “2016 Form 10-K”), as filed with the Securities and Exchange Commission (the “SEC”) on February 21, 2017.

The terms of the Settlement propose a global resolution of all federal and state litigation and potential claims against the American Water Defendants and their insurers. Under federal class action rules, a claimant may elect to opt out of the final Settlement, in which case such claimant will not receive any benefit from or be bound by the terms of the Settlement. The American Water Defendants would have the right to withdraw from the Settlement if more than a certain number of putative class members opt out of the Settlement. Under the terms and conditions of the Settlement and the amended settlement agreement, the American Water Defendants have not admitted, and will not admit, any fault or liability for any of the allegations made by the Plaintiffs in any of the actions to be resolved.

The proposed aggregate pre-tax amount of the Settlement with respect to the Company remains at \$126 million. However, the aggregate portion of the Settlement to be contributed by WVAWC, net of insurance recoveries, has been reduced from \$65 million to \$43 million (approximately \$26 million after-tax) due to the recent settlement with one of the Company’s general liability insurance carriers. This reduction will apply to WVAWC’s contributions to the guaranteed fund. The contribution by another defendant to the Settlement remains at \$25 million. If any final approval order by the court with respect to the Settlement is appealed and such appeal would delay potential payment to claimants under the Settlement, WVAWC and the other defendant to the Settlement will contribute up to \$50 million and \$25 million, respectively, to the Settlement (not including, in the case of WVAWC, any contributions by the Company’s general liability insurance carriers which would not be made until such time as a final, non-appealable order is issued) into an escrow account during the pendency of such appeals. For certain claims, WVAWC and the other defendant to the Settlement may, in lieu of these escrowed contributions, make advance payments of such claims if agreed to by the parties. All administrative expenses of the Settlement and attorneys’ fees of class counsel related thereto would be paid from the funds designated to pay claims covered by the Settlement.

Notice of the terms of the Settlement will be provided to members of the settlement class within 21 days of the court’s preliminary approval order. Following the notice period, the court will hold a fairness hearing to consider final approval of the Settlement. There can be no assurance that the Settlement will not be amended further or that the court will provide its final approval as to any agreement negotiated between the parties reflecting the terms of the Settlement.
