HAMILTON, Bermuda - Maiden Holdings, Ltd. (NASDAQ: MHL) (“Maiden” or “the Company”) today reported record fourth quarter 2014 net operating earnings<sup>(1)</sup> of \$34.6 million, or \$0.44 per diluted common share compared with \$23.3 million, or \$0.30 per diluted common share in the fourth quarter of 2013. In the fourth quarter of 2014, net income attributable to Maiden common shareholders was \$27.5 million compared to net income attributable to Maiden common shareholders of \$20.8 million in the fourth quarter of 2013.

Commenting on the Company's results, Art Raschbaum, Chief Executive Officer of Maiden, said: “In 2014 we continued to make solid progress driving record operating income and improving operating ROE, while increasing our active client count, expanding existing client relationships and growing our invested asset base. We are confident in our ability to further enhance our operating performance going forward. Importantly, our disciplined specialist focus on developing a low volatility underwriting portfolio while serving the reinsurance capital needs of regional and specialty insurers remains unchanged.”

Results for the quarter ended December 31, 2014

Maiden reported net operating earnings<sup>(1)</sup> for the fourth quarter of 2014 of \$34.6 million, or \$0.44 per diluted common share compared with \$23.3 million, or \$0.30 per diluted common share in the fourth quarter of 2013. Net income attributable to Maiden common shareholders was \$27.5 million compared to net income attributable to Maiden common shareholders of \$20.8 million in the fourth quarter of 2013.

In the fourth quarter of 2014, net premiums written totaled \$601.9 million, an increase of 35.0% compared to the fourth quarter of 2013. The Diversified Reinsurance segment's net premiums written totaled \$168.4 million, a decrease of 3.1% versus the fourth quarter of 2013. The Diversified Reinsurance segment's premium levels were down slightly due to one-time increases experienced in Europe due to promotional offers in the comparative period in 2013. In the AmTrust Reinsurance segment, net premiums written

---

increased by 57.7% to \$433.5 million compared to the fourth quarter of 2013, as a result of continued rate increases in lines of business such as worker's compensation, as well as new business from the Tower Group renewal rights transaction.

Net premiums earned of \$608.2 million increased 23.9% compared to the fourth quarter of 2013. In the Diversified Reinsurance segment, net premiums earned increased 16.4% to \$218.8 million compared to the fourth quarter of 2013. The AmTrust Reinsurance segment earned premiums were up 47.6% to \$389.4 million compared to the fourth quarter of 2013.

Net loss and loss adjustment expenses of \$396.0 million were up 20.1% compared to the fourth quarter of 2013. The loss ratio<sup>(6)</sup> of 64.8% was lower than the 66.8% reported in the fourth quarter of 2013.

Commission and other acquisition expenses, including general and administrative expenses, increased \$55.7 million to \$206.7 million in the fourth quarter of 2014, compared to the same quarter a year ago. The total expense ratio<sup>(9)</sup> rose to 33.8% for the fourth quarter of 2014 compared with 30.5% in the same quarter last year, due to a change in business mix. General and administrative expenses for the fourth quarter of 2014 totaled \$17.1 million compared with \$14.5 million in the fourth quarter of 2013. The general and administrative expense ratio<sup>(8)</sup> was 2.8% in the fourth quarter of 2014, a decrease compared to 2.9% reported in the fourth quarter of 2013.

The combined ratio<sup>(10)</sup> for the fourth quarter of 2014 totaled 98.6% compared with 97.3% in the fourth quarter of 2013. The Diversified Reinsurance segment combined ratio was 99.7% in the fourth quarter of 2014, up from 97.0% in the fourth quarter of 2013. The higher Diversified Reinsurance segment combined ratio is primarily driven by higher than expected loss activity in Maiden's facultative commercial auto and excess property treaty lines and to a lesser extent a change in business mix. Excluding the impact of the facultative commercial auto and excess property treaty loss activity, the fourth quarter 2014 Diversified Reinsurance segment combined ratio would have been 97.6%. The Company continues to take underwriting actions as appropriate, with some accounts being restructured or terminated. The AmTrust Reinsurance segment reported a combined ratio of 94.8% in the fourth quarter of 2014 compared to 96.2% in the fourth quarter of 2013.

As reported for the quarter ended September 30, 2014, the Company revised the structure of its reportable segments with the results of operations of the former NGHC Quota Share segment and the remnants of the excess & surplus business have been included in the "Other" category. The combined ratio for the "Other" category was negatively impacted by higher loss reserve estimates from the former NGHC Quota Share segment, and to a lesser extent, additional loss development associated with Superstorm Sandy claims in 2012. In addition, contributions from these terminated business lines have been excluded from operating earnings to appropriately reflect the performance of ongoing operations. Maiden's combined ratio in the fourth quarter of 2014 excluding these non-operating "Other" category contributions would have been 97.4%.

Effective January 1, 2015, Maiden entered into a quota share retrocessional contract with a highly rated, well-capitalized reinsurer that will support the Company's continued profitable growth. Maiden anticipates ceding approximately \$150 million to \$200 million dollars in 2015.

Record net investment income of \$31.7 million in the fourth quarter of 2014 increased 25.1% compared to the fourth quarter of 2013. As of December 31, 2014, the average yield on the fixed income portfolio (excluding cash) is 3.46% with an average duration of 4.54 years.

Total assets increased 9.6% to \$5.2 billion at December 31, 2014 compared to \$4.7 billion at year-end 2013. Shareholders' equity was \$1.2 billion, up 10.4% compared to December 31, 2013. Book value per common share was

\$12.69 at the end of 2014 or 13.9% higher than at December 31, 2013.

During the fourth quarter of 2014, the Board of Directors declared dividends of \$0.13 per common share, \$0.515625 per Series A preference share and \$0.90625 per Series B preference share.

Results for the twelve months ended December 31, 2014

Record net operating earnings<sup>(1)</sup> for the year ended December 31, 2014 were \$117.7 million, or \$1.53 per diluted common share compared with \$87.5 million, or \$1.18 per diluted common share for 2013. Net income attributable to Maiden common shareholders was \$77.1 million compared to net income attributable to Maiden common shareholders of \$87.9 million in 2013. As reported previously, in the first quarter of 2014, net income was impacted by a non-recurring non-cash charge of \$28.2 million, representing the accelerated amortization of both the original issue discount and issuance costs associated with the redemption of the TRUPs in January of 2014.

---

In the year ended December 31, 2014, net premiums written totaled \$2.5 billion, an increase of 17.3% compared to 2013. Excluding the cancelled NGHC Quota Share, the underlying growth rate was 27.3%. Net premiums written in the Diversified Reinsurance segment totaled \$850.0 million, an increase of 11.4% versus 2013. In the AmTrust Reinsurance segment, net premiums written increased by 37.7% to \$1.6 billion compared to 2013.

Net premiums earned of \$2.3 billion increased 12.5% compared to 2013. Net premiums earned increased 13.4% in the Diversified Reinsurance segment to \$854.0 million compared to 2013. The AmTrust Reinsurance segment net premiums earned were up 39.4% to \$1.4 billion compared to 2013.

General and administrative expenses for 2014 totaled \$62.9 million compared with \$58.7 million in 2013. The general and administrative expense ratio<sup>(8)</sup> decreased to 2.8% in 2014 versus 2.9% in 2013.
