ML Capital Group, Inc.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

NOTE 1 – ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization

ML Capital Group, Inc. (the “Company”) was incorporated in the State of Nevada on September 22, 2009.

The Company’s business consists of providing consulting services to both public and private companies, concentrating primarily on early stage companies, small businesses and emerging growth companies. The Company has embarked upon an expansion into developing products and services that are focused on the electronic cigarettes (e-cigs) industry.

On May 27, 2014 the Company formed a wholly owned subsidiary Superstar Products, LLC to facilitate the importation and sale of 3 in 1 vaporized pens. During the period ended September 30, 2014 there was no activity in the subsidiary.

In April 2015, the Company’s board of directors approved a 1 for 4,000 reverse stock split. The number of shares of common stock has been adjusted to reflect the split for all periods presented.

On February 27, 2015, the Company’s Board of Directors, pursuant to the authority granted it in Section 1 of Article II of the Company’s Articles of Incorporation, designated 2,000,000 shares of the Company’s Preferred Stock as Series A Preferred Stock and authorized and instructed the Company’s officers to file the Certificate of Designation for the Series A Preferred Stock with the Nevada Secretary of State.

Further, the Company’s Board of Directors approved the issuance of 1,000,000 shares of the Series A Preferred Stock to Ms. Lisa Nelson, the Company’s President. Each Series A Preferred Share has voting rights of 10,000 votes per share. The Series A Preferred Stock are not convertible into the shares of the Company’s Common Stock and are not entitled to be paid any dividends. No sinking fund is required to be established for the retirement or repurchase of the shares of the Series A Preferred Stock and the Company has the right, with the approval of the holder, to repurchase all or any portion of the Series A Preferred Stock at a redemption price of \$0.00001 per share. Further, the holders of the Series A Preferred Stock does not hold any registration rights.

All of the Series A Preferred Shares were offered and sold to Ms. Nelson as restricted securities pursuant to the exemption provided by Section 4(a)(2) of the Securities Act of 1933, as amended and Ms. Nelson agreed that she was acquiring the Series A Preferred Shares for investment purposes only and not with a view to a distribution.

The Company did not use or employ any FINRA-registered broker-dealer or any other intermediary in connection with the offering and issuance of the Series A Preferred Shares to Ms. Nelson and the Company did not receive any proceeds from their issuance. The Series A Preferred Shares were issued solely as compensation for services rendered to the Company by Ms. Nelson.

Significant Accounting Policies

The accompanying condensed financial statements have been prepared by the Company without audit. In the opinion of management, all adjustments necessary to present the financial position, results of operations and cash flows for the stated periods have been made. Except as described below, these adjustments consist only of normal and recurring adjustments. Certain information and note disclosures normally included in the Company's annual financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted. These condensed consolidated financial statements should be read in conjunction with a reading of the Company's financial statements and notes thereto included in the Company's Form 10-K filed with the Securities and Exchange Commission (SEC) on April 2, 2015. Interim results of operations for the three months ended March 31, 2015 are not necessarily indicative of future results for the full year.

Going concern

As reflected in the accompanying financial statements, the Company had a net loss of \$356,407 and net cash used in operations of \$107,396 for the three months ended March 31, 2015. The Company has total assets of \$50,231 and a working capital deficit of \$1,106,013 as of March 31, 2015. These conditions raise substantial doubt about the Company's ability to continue as a going concern. The ability of the Company to continue as a going concern is dependent on the Company's ability to further implement its business plan, raise additional capital, and generate revenues. Management believes that the actions presently being taken provide the opportunity for the Company to continue as a going concern. The financial statements do not include any adjustments that might be necessary if the Company is unable to continue as a going concern.

Presentation

The Company has adopted Accounting Standards Update No. 2014-10, Development Stage Entities (Topic 915): Elimination of Certain Financial Reporting Requirements. The adoption of this ASU allows the Company to remove the inception to date information and all references to development stage.

Revenue recognition

Pursuant to the guidance of ASC Topic 605 and ASC Topic 360, the Company recognizes revenue when persuasive evidence of an arrangement exists, delivery has occurred or services have been rendered, the purchase price is fixed or determinable and collectability is reasonably assured. The company recognizes revenue from product sales during the period in which the product is delivered, which is generally at the at the point of sale.

Inventories

Inventories are stated at the lower of cost of market using the first-in; first-out (FIFO) cost method of accounting.

Use of estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the U.S. requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues, expenses, and the related disclosures at the date of the financial statements and during the reporting period. Actual results could materially differ from these estimates. Significant estimates in the 2015 and 2014 periods include the valuation of stock-based compensation and derivative liabilities.

7

—

Cash and cash equivalents

For purposes of the statement of cash flows, the Company considers all highly liquid instruments purchased with a maturity of three months or less and money market accounts to be cash equivalents.

Fixed assets

Fixed Assets are stated at historical cost less depreciation. Cost of acquisition is inclusive of taxes, duties, freight, installation and allocated incidental expenditure during construction/ acquisition.

Fair value financial instruments

The carrying amounts reported in the balance sheets for accounts payable, accrued expenses and amounts due to related party approximate their fair value based on the short-term maturity of these instruments. The fair value of the Company's derivative liabilities was determined based on the estimated intrinsic value of the embedded conversion feature which approximates fair value due to the terms of conversion and a modified Black Scholes method incorporating Monte Carlo simulation.

The Company measures its financial and non-financial assets and liabilities, as well as makes related disclosures, in accordance with ASC Topic 820, *Fair Value Measurements and Disclosures* ("ASC Topic 820").

ASC Topic 820 provides guidance with respect to valuation techniques to be utilized in the determination of fair value of assets and liabilities. Approaches include, (i) the market approach (comparable market prices), (ii) the income approach (present value of future income or cash flow), and (iii) the cost approach (cost to replace the service capacity of an asset or replacement cost). ASC Topic 820 utilizes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value into six broad levels. The following is a brief description of those six levels:

Level 1: Observable inputs such as quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Inputs other than quoted prices that are observable, either directly or indirectly. These include quoted prices for similar assets or liabilities in active markets and quoted prices for identical or similar assets or liabilities in markets

that are not active.

Level 3: Unobservable inputs in which little or no market data exists, therefore developed using estimates and assumptions developed by us, which reflect those that a market participant would use.

The Company adjusts the derivative liability resulting from the embedded conversion option on its convertible debt to fair value at each balance sheet date. The fair value of the derivative liability is estimated using level 3 inputs. The following tables summarize our financial assets and liabilities measured at fair value on a recurring basis as of March 31, 2015:

	Balance at March 31, 2015	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Fair value of derivative liability for embedded conversion options	\$ 753,871	\$ —	\$ —	\$ 753,871

Stock-based compensation

The Company accounts for stock-based instruments issued to employees in accordance with ASC Topic 718. ASC Topic 718 requires companies to recognize in the statement of operations the grant-date fair value of stock options and other equity based compensation issued to employees. The Company accounts for non-employee share-based awards in accordance with ASC Topic 505-50.

Net loss per share of common stock

Basic net loss per common share is computed by dividing net loss available to common shareholders by the weighted average number of shares of common stock outstanding during the period. Diluted net loss per common share is computed by dividing net loss by the weighted average number of shares of common stock, common stock equivalents and potentially dilutive securities outstanding during each period. Potentially dilutive securities consisting of 2,952,705 and 3,587 shares underlying convertible debt warrants for the three month period ended March 31, 2015 and 2014 respectively are not included in the calculation of diluted loss per share because their impact was antidilutive. Potentially dilutive securities consist of:

Warrants not exercised	2,771
Convertible debt at March 31, 2015 conversion price	2,949,934
Total dilutive securities	2,952,705

During the period from April 1, 2015 to May 15, 2015, the Company issued 20,000,000 shares post-split to CEO Lisa Nelson, 2,000,000 post-split shares of common stock to Director Thomas Nelson and 2,000,000 post-split shares of common stock to Director Carlos Lopez.

Recent accounting pronouncements

Accounting standards that have been issued or proposed by FASB that do not require adoption until a future date are not expected to have a material impact on the financial statements upon adoption.

NOTE 2 – RELATED PARTY TRANSACTIONS

The Company's president from time to time, provides advances to the Company for working capital purposes. These advances were due on demand, non-interest bearing and included in due to related party on the accompanying balance sheets. At March 31, 2015, there are no related party advances outstanding.

During the three month period ended March 31, 2015 the president of the Company received compensation of \$36,190 in cash compensation compared to \$20,000 during the same period in 2014.

NOTE 3 – CONVERTIBLE NOTE PAYABLE

On June 7, 2012, the Company entered into a convertible promissory note agreement with Morgan Wells Inc. Pursuant to the convertible promissory note agreement, the Company issued a note in the principal amount of \$5,000. The note bears interest at the rate of 8% per annum and matured on December 7, 2012. The note is convertible into common stock at 75% of the lowest closing market price for the Company's stock during the previous 20 trading days. As of March 31, 2015 the note had a principal balance of \$2,500.

On February 28, 2014 the Company issued a convertible promissory note in the principal amount of \$30,000. The note bears interest at the rate of 8% per annum and matured February 28, 2015. The note is convertible into shares of the Company's common stock at 50% of the average of the lowest 2 trading prices during the 10 trading days immediately preceding the conversion date. The embedded conversion feature is required to be recorded as a derivative liability adjusted to fair value at each reporting date. The Company recorded an initial derivative liability of \$32,400 debt discount of \$30,000 and derivative expense of \$2,400. The debt discount of \$30,000 was amortized into interest expense over the term of the note. The carrying value of the note as of December 31, 2014, was \$5,840, net of unamortized discount of \$1,126. During the three months ended March 31, 2015, the Company issued 18,480 shares of common stock in satisfaction of the \$6,966 of convertible debt and \$268 of accrued interest. No amounts remain outstanding as of March 31, 2015.

On April 1, 2014 the Company entered into a note agreement whereby the Company issued a note payable with a principal amount of \$600,000 plus prepaid interest of \$60,000 and prepaid legal fees of \$5,000 for an aggregate amount of \$665,000. Additional interest of 8% on the outstanding balance is also incurred. The current holder shall have the right from time to time to convert all or any part of the outstanding and unpaid principal amount of this note into fully paid and non-assessable shares of common stock. The note matures on April 1, 2015 and is convertible, at the note holder's option, into common shares of the Company after 90 days at the lower of \$.0074 or 40% of the average closing price 20 days prior to conversion. The Company is to receive principal from the note of \$50,000 per month starting in April 2014 and for 11 months thereafter, for a total of \$600,000 of which \$350,000 was received during the year ended December 31, 2014. In addition, the Company has issued warrants to the note holder which vest in equal amounts, over the 12 month period. The note holder may purchase up to 2,771 shares of the Company's common stock at \$240 per share per warrant or convert the warrants to common stock on a formula as cashless warrants. Because of the variable conversion option contained in the convertible note and the ratchet provision included in the warrant, the Company recorded derivative liabilities totaling \$1,706,747 upon issuance of the note, offset by a discount equal to the face value of the funded portion of the notes, which became convertible during the year ended December 31, 2014, or \$370,000, and initial derivative expense of \$1,536,747. During the three months ended March 31, 2015, the Company received an additional \$25,000 in financing from this note. Additionally, during the three months ended March 31, 2015 the Company issued 123,582 shares of common stock upon conversion of \$37,759 of convertible debt principal. The outstanding principal as of March 31, 2015 totaled \$287,441, which is carried at \$286,449, net of unamortized discount of \$992.

On July 2, 2014 the Company issued a convertible promissory note in the principal amount of \$40,000. The note bears interest at the rate of 8% per annum and matures July 2, 2015. The note is convertible into shares of the Company's common stock after 180 days at 50% of the average of the lowest 2 trading prices during the 10 trading days immediately preceding the conversion date. The embedded conversion feature is required to be recorded as a derivative liability adjusted to fair value at each reporting date. The Company recorded an initial derivative liability of \$43,200 debt discount of \$40,000 and derivative expense of \$3,200. The debt discount of \$40,000 is being amortized into interest expense over the term of the note. During the three months ended March 31, 2015, the Company issued 21,770 shares of common stock upon conversion of \$6,355 of convertible debt principal and \$314 of accrued interest. Amortization for the three months ended March 31, 2015, totaled \$10,891 and the carrying value of the note as of March 31, 2015, is \$26,802, net of unamortized discount of \$9,164.

On July 2, 2014 the Company issued a convertible promissory note in the principal amount of \$50,000. The note bears interest at the rate of 8% per annum and matures July 2, 2015. The note is convertible into shares of the Company's common stock at 50% of the lowest trading price during the 20 trading days immediately preceding the conversion date. The embedded conversion feature is required to be recorded as a derivative liability adjusted to fair value at each reporting date. The Company recorded an initial derivative liability of \$54,000, debt discount of \$50,000 and derivative expense of \$4,000. The debt discount of \$50,000 is being amortized into interest expense over the term of the note. During the three months ended March 31, 2015, the Company issued 77,000 shares of common stock upon conversion of \$19,000 of convertible debt principal. Amortization for the three months ended March 31, 2015, totaled \$17,170 and the carrying value of the note as of March 31, 2015, is \$23,101, net of unamortized discount of \$7,899.

On December 3, 2014 the Company issued a convertible promissory note in the principal amount of \$30,000 plus prepaid legal fees of \$1,500. The note bears interest at the rate of 8% per annum and matures December 3, 2015. The note is convertible into shares of the Company's common stock at any time equal to 50% of the average of the lowest 2 trading prices during the 20 trading days immediately preceding the conversion date. The embedded conversion feature is required to be recorded as a derivative liability adjusted to fair value at each reporting date. The Company recorded an initial derivative liability of \$32,400 debt discount of \$30,000 and derivative expense of \$2,400. The debt discount of \$30,000 is being amortized into interest expense over the term of the note. Amortization for the three months ended March 31, 2015, totaled \$7,397 and the carrying value of the note as of March 31, 2015, is \$9,699, net of unamortized discount of \$20,301.

On January 9, 2015 the Company issued a convertible promissory note in the principal amount of \$111,111. The note bears interest at the rate of 6% per annum and matures January 9, 2016. The note is convertible into shares of the Company's common stock at a conversion price equal to 50% of the average of the 10 closing bid prices during the 10 trading days immediately preceding the conversion date. The embedded conversion feature is required to be recorded as a derivative liability adjusted to fair value at each reporting date. The Company recorded an initial derivative liability of \$112,514, debt discount of \$111,111 and derivative expense of \$1,403. The debt discount of \$111,111 is being amortized into interest expense over the term of the note. . During the three months ended March 31, 2015, the Company issued 13,159 shares of common stock upon conversion of \$5,264 of convertible debt principal. Amortization for the three months ended March 31, 2015 totaled \$30,156 and the carrying value of the note as of December 31, 2014, is \$23,489, net of unamortized discount of \$82,358.

FORWARD LOOKING STATEMENTS

Statements made in this Form 10-Q that are not historical or current facts are forward-looking statements. These statements often can be identified by the use of terms such as "may," "will," "expect," "believe," "anticipate," "estimate," "approximate" or "continue," or the negative thereof. We wish to caution readers not to place undue reliance on any such forward-looking statements, which speak only as of the date made. Any forward-looking statements represent management's best judgment as to what may occur in the future. However, forward-looking statements are subject to risks, uncertainties and important factors beyond our control that could cause actual results and events to differ materially from historical results of operations and events and those presently anticipated or projected. Among the factors that could cause actual results to differ materially from the forward-looking statements are the following: the Company's ability to obtain necessary capital, the Company's ability to successfully consummate future acquisitions and such other risk factors identified from time to time in the Company's reports filed with the Securities and Exchange Commission, including those filed with this Form 10-Q quarterly report. We disclaim any obligation subsequently to revise any forward-looking statements to reflect events or circumstances after the date of such statement or to reflect the occurrence of anticipated or unanticipated events.

Overview

ML Capital Group, Inc. was incorporated under the laws of the State of Nevada on September 22, 2009.

Our business consists of providing consulting services to both public and private companies, concentrating primarily on early stage companies, small businesses and emerging growth companies, with a principal focus on serving companies in the green technology and alternative energy industries. The Company embarked upon an expansion into developing products and services that are focused in the electronic cigarettes (e-cigs) industry. In addition the Company is anticipating the launch of a smartphone application to market products related to its new venture.

To date, the President has been primarily responsible for managing the majority of the Company's operations, and the needs of the Company's clients, which include the following responsibilities:

- Developing intellectual property around specific products or services
- Corporate strategic planning and implementation
- Executive search and placement

- Establish relationships with companies for new business development
- Make introductions to other companies as a potential strategic or financial partner

We plan to work with companies that are interested in buying or selling assets or businesses, assisting with conducting the required due diligence, advising on transaction structures, and in some cases assist with identifying possible sources of financing at the request of a client.

The Company's expansion into the electronic cigarettes (e-cigs) industry has been carefully considered and is focused strictly on developing products, services, smartphone applications, and intellectual property that provides added value to the Company. To date, the Company is in the final stages of developing and commercializing its branded and trademarked SuperStar Vapor Pen – which is an electronic smoking device similar to an electronic cigarette that enables people to consume tobacco, wax, or liquid form in a highly efficient, clean and safe manner. In addition, the Company is also finalizing the development of a smartphone application that will provide location based services and detailed information on medical marijuana dispensaries on a national scale.

Results of Operations

During the three month period ended March 31, 2015 the Company generated \$24,811 in revenue compared to \$1,125 in the respective period in 2014. The 2015 revenue was a result of sales of the SuperStar Vapor Pen and related accessories which began in 2014. The 2014 revenue was related to the providing of consulting services to an affiliate party.

Item 3: Quantitative and Qualitative Disclosures About Market Risk.

An investment in the Company is highly speculative in nature and involves an extremely high degree of risk.

Item 4: Controls and Procedures.

Evaluation of Disclosure Controls and Procedures

As of the end of the period covered by this report, we carried out an evaluation, under the supervision and with the participation of management, including our chief executive officer and principal financial officer, of the effectiveness of the design and operation of our disclosure controls and procedures. Based upon that evaluation, management concluded that our disclosure controls and procedures were not effective as of March 31, 2015.

Changes in internal controls

Our management, with the participation our Chief Executive Officer and Chief Financial Officer, performed an evaluation to determine whether any change in our internal controls over financial reporting occurred during the three months ended March 31, 2015. Based on that evaluation, our Chief Executive Officer and our Chief Financial Officer concluded that no changes occurred in the Company's internal controls over financial reporting during the three months ended March 31, 2015 that has materially affected, or is reasonably likely to materially affect, the Company's internal controls over financial reporting.
