FORWARD-LOOKING STATEMENTS

This report contains forward-looking statements that are subject to risks and uncertainties. All statements other than statements of historical or current fact included in this report are forward-looking statements. Forward-looking statements refer to our current expectations and projections relating to our financial condition, results of operations, plans, objectives, strategies, future performance, and business. You can identify forward-looking statements by the fact that they do not relate strictly to historical or current facts. These statements may include words such as “anticipate,” “estimate,” “expect,” “project,” “plan,” “intend,” “believe,” “may,” “might,” “will,” “should,” “can have,” and “li” words and terms of similar meaning in connection with any discussion of the timing or nature of future operating or financial performance or other events. For example, all statements we make relating to our estimated and projected earnings, revenues, costs, expenditures, cash flows, growth rates, and financial results, our plans and objectives for future operations, growth, initiatives, or strategies, or the expected outcome or impact of pending or threatened litigation are forward-looking statements. All forward-looking statements are subject to risks and uncertainties that may cause actual results to differ materially from those that we expected, including:

- possible inability to successfully implement our long term strategic plan;
- possible failure of our multi-channel distribution model;
- possible adverse changes in general economic conditions and their impact on consumer confidence and consumer spending;
- possible inability to predict and respond in a timely manner to changes in consumer demand;
- possible inability to successfully open new stores and/or operate current stores as planned;
- possible inability to maintain and enhance our brand;
- possible loss of key management or design associates or inability to attract and retain the talent required for our business;
- a possible data security or privacy breach or disruption in our computer systems or website; and
- possible continued declines in our comparable sales.

We derive many of our forward-looking statements from our operating plans and forecasts, which are based upon detailed assumptions. While we believe that our assumptions are reasonable, we caution that it is difficult to predict the impact of known factors, and it is impossible for us to anticipate all factors that could affect our actual results. For a discussion of these risks and other risks and uncertainties that could cause actual results to differ materially from those contained in our forward-looking statements, please refer to “Risk Factors” in Item 1A of our Annual Report on Form 10-K for the fiscal year ended January 31, 2015.

We caution you that the risks and uncertainties identified by us may not be all of the factors that are important to you. Furthermore, the forward-looking statements included in this report are made only as of the date hereof. We undertake no obligation to publicly update or revise any forward-looking statement as a result of new information, future events, or otherwise, except as required by law.

1. Description of the Company and Basis of Presentation

The terms “Company” and “Vera Bradley” refer to Vera Bradley, Inc. and its subsidiaries, except where the context requires otherwise or where otherwise indicated.

Vera Bradley is a leading designer of women’s handbags and accessories, luggage and travel items, eyewear, and stationery and gifts. Founded in 1982 by friends Barbara Bradley Baekgaard and Patricia R. Miller, the brand’s iconic designs and versatile styles offer women of all ages a colorful way to accessorize every look.

Vera Bradley offers a unique, multi-channel sales model, as well as a focus on service and a high level of customer engagement. The Company sells its products through two reportable segments: Direct and Indirect. The Direct business consists of sales of Vera Bradley products through the Company’s full-line and factory outlet stores in the United States, verabradley.com, direct-to-consumer eBay sales, and the Company’s annual outlet sale in Fort Wayne, Indiana. As of May 2, 2015, the Company operated 101 full-line stores and 34 factory outlet stores. The Indirect business consists of sales of Vera Bradley products to approximately 2,700 specialty retail locations, substantially all of which are located in the United States, as well as department stores, national accounts, third party e-commerce sites, the Company’s wholesale business in Japan, and third party inventory liquidation.

The accompanying unaudited consolidated financial statements have been prepared in accordance with the rules and regulations of the Securities and Exchange Commission (“SEC”). Accordingly, certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States (“GAAP”) have been omitted. These interim consolidated financial statements should be read in conjunction with the audited consolidated financial statements and notes included in the Company’s Annual Report on Form 10-K for the fiscal year ended January 31, 2015, filed with the SEC.

The interim financial statements reflect all adjustments that are, in the opinion of management, necessary to present fairly the results for the interim periods presented. All such adjustments are of a normal, recurring nature. The results of operations for the thirteen weeks ended May 2, 2015, are not necessarily indicative of the results to be expected for the full fiscal year.

Principles of Consolidation

The consolidated financial statements include the accounts of the Company and its wholly owned subsidiaries. The Company has eliminated intercompany balances and transactions in consolidation.

Fiscal Periods

The Company’s fiscal year ends on the Saturday closest to January 31. References to the fiscal quarters ended May 2, 2015, and May 3, 2014, refer to the thirteen-week periods ended on those dates.

Operating Leases and Tenant-Improvement Allowances

The Company has leases that contain rent holidays and predetermined, fixed escalations of minimum rentals. For each of these leases, the Company recognizes the related rent expense on a straight-line basis commencing on the date of initial possession of the leased property. The Company records the difference between the recognized rent expense and the amount payable under the lease as a deferred rent liability. As of May 2, 2015 and January 31, 2015, deferred rent liability was \$9.8 million and \$8.9 million, respectively, and is included within other long-term liabilities on the Consolidated Balance Sheets.

The Company receives tenant-improvement allowances from some of the landlords of its leased properties. These allowances generally are in the form of cash received by the Company from its landlords as part of the negotiated lease terms. The Company records each tenant-improvement allowance as a deferred credit and amortizes the allowance on a straight-line basis as a reduction to rent expense over the term of the lease, commencing on the possession date. As of May 2, 2015 and January 31, 2015, the deferred lease credit liability was \$15.6 million and

\$13.8 million, respectively. Of these amounts, \$2.1 million and \$1.8 million is included within other accrued liabilities as of May 2, 2015 and January 31, 2015, respectively; and \$13.5 million and \$12.0 million is included within other long-term liabilities as of May 2, 2015 and January 31, 2015, respectively.

Recently Issued Accounting Pronouncements

In April 2014, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) 2014-08, Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity. This guidance states that the disposal of a component of an entity is to be reported in discontinued operations only if the disposal represents a strategic shift that has (or will have) a major effect on an entity’s operations and financial results. The pronouncement also requires additional disclosures regarding individually significant disposals of components that do not meet the criteria to be recognized as a discontinued operation as well as additional and expanded disclosures. The guidance is effective for all disposals (or classifications as held for sale) of components of an entity and all businesses or nonprofit activities that, on acquisition, are classified as held for sale that occur within annual periods beginning on or after December 15, 2014, and interim periods within annual periods beginning on or after December 15, 2015; it is applied prospectively. Early adoption is permitted, but only for disposals (or classifications as held for sale) that have not been reported in financial statements previously issued or available for issuance. The adoption of this standard did not have a material impact on the Company's consolidated financial statements upon adoption.

In May 2014, the FASB issued ASU 2014-09, Revenue from Contracts with Customers. This guidance requires companies to recognize revenue in a manner that depicts the transfer of promised goods or services to customers in amounts that reflect the consideration to which a company expects to be entitled in exchange for those goods or services. The new standard also will result in enhanced disclosures about the nature, amount, timing and uncertainty of revenue and cash flows arising from contracts with customers. This guidance will be effective beginning in fiscal 2017, and early adoption is not permitted. The standard allows for either a full retrospective or a modified retrospective transition method. The Company is currently evaluating the impact of this standard, including the transition method, on its consolidated results of operations, financial position and cash flows.

In August 2014, the FASB issued ASU 2014-15, Presentation of Financial Statements - Going Concern which requires management to evaluate whether there is substantial doubt about an entity’s ability to continue as a going concern and provide related footnote disclosures. The guidance is effective for annual or interim reporting periods beginning on or after December 15, 2016. Early adoption is permitted for financial statements that have not been previously issued. The standard allows for either a full retrospective or modified retrospective transition method. The Company does not expect this standard to have an impact on the Company’s consolidated financial statements upon adoption.

In April 2015, the FASB issued ASU 2015-03, Simplifying the Presentation of Debt Issuance Costs, which modifies the presentation of debt issuance costs in financial statements. Under this new guidance, the Company will be required to present these costs in our condensed consolidated balance sheets as a direct deduction from the related debt liability. The requirements of the new standard will become effective for fiscal years, and interim periods within those fiscal years (including retrospective application), beginning after December 15, 2015; early adoption is permitted. The Company is currently evaluating this guidance and does not expect the application of this standard to have a material impact on the Company’s consolidated financial statements upon adoption.

2. Earnings Per Share

Basic earnings per share is computed based on the weighted-average number of common shares outstanding during the period. Diluted earnings per share is computed based on the weighted-average number of common shares outstanding, plus the effect of dilutive potential common shares outstanding during the period using the treasury stock method. Dilutive potential common shares represent outstanding restricted stock units. The components of basic and diluted earnings per share were as follows (in thousands, except per share data):

	Thirteen Weeks Ended	
	May 2, 2015	May 3, 2014
Numerator:		
(Loss) income from continuing operations	\$ (4,136)	\$ 6,877
Loss from discontinued operations, net of taxes	—	(310)
Net (loss) income	\$ (4,136)	\$ 6,567
Denominator:		
Weighted-average number of common shares (basic)	39,884	40,639
Dilutive effect of stock-based awards	—	86
Weighted-average number of common shares (diluted)	39,884	40,725
Earnings per share - basic:		
Continuing operations	\$ (0.10)	\$ 0.17
Discontinued operations	—	(0.01)
Net (loss) income	\$ (0.10)	\$ 0.16
Earnings per share - diluted:		
Continuing operations	\$ (0.10)	\$ 0.17
Discontinued operations	—	(0.01)
Net (loss) income	\$ (0.10)	\$ 0.16

As of May 2, 2015 and May 3, 2014, there were an immaterial number of additional shares issuable upon the vesting of restricted stock units that were excluded from the diluted share calculations because they were anti-dilutive.

3. Fair Value of Financial Instruments

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Assets and liabilities measured at fair value are classified using the following hierarchy, which is based upon the transparency of inputs to the valuation as of the measurement date:

Level 1 – Quoted prices in active markets for identical assets or liabilities;

Level 2 – Inputs, other than the quoted prices in active markets, that are observable either directly or indirectly;

Level 3 – Unobservable inputs based on the Company's own assumptions.

The classification of fair value measurements within the hierarchy is based upon the lowest level of input that is significant to the measurement.

The carrying amounts reflected on the Consolidated Balance Sheets for cash and cash equivalents, receivables, other current assets, and payables as of May 2, 2015, and January 31, 2015, approximated their fair values.

4. Inventories

The components of inventories were as follows (in thousands):

	May 2, 2015	January 31, 2015
Raw materials	\$4,867	\$5,542
Work in process	—	470
Finished goods	96,927	92,391
Total inventories	\$101,794	\$98,403

5. Debt

As of May 2, 2015 and January 31, 2015, the Company had borrowing availability of \$125.0 million under its amended and restated credit agreement. As of May 2, 2015, the Company was in violation of the fixed charge coverage ratio covenant under its amended and restated credit agreement with JPMorgan Chase Bank, as administrative agent, and certain other lenders. By waiver dated June 10, 2015, the lenders agreed to waive any breach of the fixed charge coverage ratio covenant and any default or event of default under the amended and restated credit agreement arising from the breach. The Company was in compliance with all other covenants as of May 2, 2015.

6. Income Taxes

The provision for income taxes for interim periods is based on an estimate of the annual effective tax rate adjusted to reflect the impact of discrete items. Management judgment is required in projecting ordinary income to estimate the Company's annual effective tax rate.

The effective tax rate for the thirteen weeks ended May 2, 2015, was 18.1%, compared to 38.6% for the thirteen weeks ended May 3, 2014. The year-over year decrease is primarily due to the decrease in income from continuing operations before income taxes and the relative impact of permanent items, including an increase in income tax reserves for uncertain federal and state tax positions related to research and development tax credits.

7. Stock-Based Compensation

The Company recognizes share-based compensation expense, for its awards of restricted stock and restricted stock units, in an amount equal to the fair market value of the underlying stock on the grant date of the respective award. The Company reserved 6,076,001 shares of common stock for issuance or transfer under the 2010 Equity and Incentive Plan, which allows for grants of restricted stock units, as well as other equity awards.

Awards of Restricted Stock Units

During the thirteen weeks ended May 2, 2015, the Company granted 562,630 time-based and performance-based restricted stock units with an aggregate fair value of \$9.1 million to certain employees and non-employee directors under the 2010 Equity and Incentive Plan compared to a total of 217,980 time-based and performance-based restricted stock units with an aggregate fair value of \$5.9 million granted in the same period of the prior year. The Company determined the fair value of the awards based on the closing price of the Company's common stock on the grant date. The majority of time-based restricted stock units vest and settle in shares of the Company's common stock, on a one-for-one basis, in equal installments on each of the first three anniversaries of the grant date. Beginning in fiscal 2014, all restricted stock units issued to non-employee directors vest after a one-year period from the grant date. The Company is recognizing the expense relating to these units, net of estimated forfeitures, on a straight-line basis over the vesting period.

Performance-based restricted stock units vest upon the completion of a three-year period of time (cliff vesting), subject to the employee's continuing employment throughout the three-year performance period and the Company's

achievement of annual net income or earnings per share targets during the three-year performance period. The Company is recognizing the expense relating to these units, net of estimated forfeitures, based on the probable outcome of achievement of the financial targets, on a straight-line basis over three years.

The following table sets forth a summary of restricted stock unit activity for the period ended May 2, 2015 (units in thousands):

	Time-based Restricted Stock Units		Performance-based Restricted Stock Units	
	Number of Units	Weighted- Average Grant Date Fair Value (per unit)	Number of Units	Weighted- Average Grant Date Fair Value (per unit)
Nonvested units outstanding at January 31, 2015	248	\$26.34	217	\$26.26
Granted	405	16.09	158	16.08

Forfeited	(57)) 19.36	(60)) 24.96
Nonvested units outstanding at May 2, 2015	479	\$21.08	307	\$21.54

As of May 2, 2015, there was \$10.2 million of total unrecognized compensation cost, net of estimated forfeitures, related to nonvested restricted stock units. That cost is expected to be recognized over a weighted-average period of 2.3 years.

8. Commitments and Contingencies

The Company is subject to various claims and contingencies arising in the normal course of business, including those relating to product liability, legal, employee benefit, environmental, and other matters. Management believes that it is not reasonably possible that any of these claims will have a material adverse effect on the Company's financial condition, results of operations, or cash flows.

9. Common Stock

On September 9, 2014, the Company's board of directors approved a share repurchase program (the "2014 Share Repurchase Program") authorizing up to \$40.0 million of repurchases of shares of the Company's common stock. The 2014 Share Repurchase Program expires in October 2016.

The Company purchased 424,849 shares at an average price of \$16.90 per share, excluding commissions, for an aggregate amount of \$7.2 million during the thirteen weeks ended May 2, 2015. As of May 2, 2015, there was \$19.9 million remaining available to repurchase shares of the Company's common stock under the 2014 Share Repurchase Program.

As of May 2, 2015, the Company held as treasury shares 1,045,834 shares of its common stock at an average price of \$19.25 per share, excluding commissions, for an aggregate carrying amount of \$20.1 million. The Company's treasury shares may be issued under the 2010 Equity and Incentive Plan or for other corporate purposes. Further purchases may occur from time to time as market conditions warrant and as the Company deems appropriate when judged against alternative uses of cash.

10. Discontinued Operations

On June 4, 2014, the Company entered into a five-year agreement with Mitsubishi Corporation Fashion Company and Look Inc. to import and distribute Vera Bradley products in Japan. As a result of moving to this wholesale business model, the Company exited its direct business in Japan during the third quarter of fiscal 2015 and the results of operations are reported as discontinued operations. Japan results were previously reported in the Direct segment, which has been restated to exclude the results of the discontinued operations for the periods presented. Following are the Japan results of operations (in thousands):

	Thirteen Weeks Ended	
	May 2, 2015	May 3, 2014

11. Restructuring and Other Charges

In the first quarter of fiscal 2016, the Company closed its manufacturing facility located in New Haven, Indiana. The Company incurred restructuring and other charges during the first quarter of fiscal 2016 of approximately \$3.4 million (\$2.1 million after the associated tax benefit), related to the facility closing. These charges include severance and benefit costs of approximately \$1.7 million, lease termination costs of approximately \$0.7 million, inventory-related charges of approximately \$0.6 million, and other associated net costs, which include accelerated depreciation related to fixed assets, of approximately \$0.4 million. These charges are reflected in cost of sales in the Company's Consolidated Financial Statements. Management expects that the facility closure will reduce operating costs by approximately \$12.0 million annually beginning in the fourth quarter of fiscal 2016. All production from the facility will be absorbed by the Company's third party manufacturing suppliers.

A summary of charges and related liabilities, associated with the facility closure, are as follows (in thousands):

Notes to the Consolidated Financial Statements
(unaudited)

Other charges affecting comparability, during the first quarter of fiscal 2016, totaled approximately \$3.1 million (\$2.1 million after the associated tax benefit) and consisted of \$1.3 million in employee severance (reflected in selling, general, and administrative expenses in the Company's Consolidated Financial Statements), \$1.2 million due to a retail store early lease termination agreement (reflected in selling, general, and administrative expenses in the Company's Consolidated Financial Statements), and \$0.6 million related to an increase in income tax reserves for uncertain federal and state tax positions related to research and development tax credits (reflected in income tax expense in the Company's Consolidated Financial Statements).

12. Segment Reporting

The Company has two operating segments, which are also its reportable segments: Direct and Indirect. These operating segments are components of the Company for which separate financial information is available and for which operating results are evaluated on a regular basis by the chief operating decision maker in deciding how to allocate resources and in assessing the performance of the segments.

The Direct segment includes the Company's full-line and factory outlet stores, the Company's website, verabradley.com, direct-to-consumer eBay sales, and the annual outlet sale. Revenues generated through this segment are driven through the sale of Company-branded products from Vera Bradley to end consumers. The Company exited its direct Japan operations in the third quarter of fiscal 2015. Direct segment results for the current and prior periods presented are reported on a continuing operations basis unless otherwise stated. Discontinued operations are detailed in Note 10 Discontinued Operations of this Quarterly Report on Form 10-Q.

The Indirect segment represents revenues generated through the distribution of Company-branded products to specialty retailers representing approximately 2,700 locations, substantially all of which are located in the United States, as well as key accounts, which include department stores, national accounts, third party e-commerce sites, the Company's wholesale business in Japan, and third party inventory liquidation.

Corporate costs represent the Company's administrative expenses, which include, but are not limited to: human resources, legal, finance, information technology, design, merchandising, and various other corporate-level-activity-related expenses. All intercompany-related activities are eliminated in consolidation and are excluded from the segment reporting.

Company management evaluates segment operating results based on several indicators. The primary or key performance indicators for each segment are net revenues and operating income. Net revenues and operating income information for the Company's reportable segments during the thirteen weeks ended May 2, 2015 and May 3, 2014, respectively, consisted of the following (in thousands):

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion summarizes the significant factors affecting the consolidated operating results, financial condition, liquidity, and cash flows of the Company as of and for the thirteen weeks ended May 2, 2015 and May 3, 2014. The following discussion should be read in conjunction with our Annual Report on Form 10-K for the fiscal year ended January 31, 2015, and our unaudited consolidated financial statements and the related notes included in Item 1 of this Quarterly Report.

Executive Summary

Below is a summary of our strategic progress and financial results for the first quarter of fiscal 2016 (all comparisons are to the first quarter of fiscal 2015):

Strategic Progress

We have diversified into new fabrications which positions us to compete in a more significant portion of the handbag market.

We continued to increase the mix of higher margin made-for-outlet product in our factory outlet stores.

We continued to build a more flexible, efficient, and cost effective supply chain through vendor and country diversification.

- We opened five new full-line stores and five factory outlet stores during the first quarter.

We introduced the first iteration of our new, more modern full-line store design in our Kierland Commons store in Scottsdale, Arizona.

We recently added distribution to 150 additional Macy's stores, bringing our total to 250.

We began to make significant investments in marketing to modernize our brand and attract a wider breadth of customer.

Financial Summary

Net revenues decreased 9.9% to \$101.1 million.

Direct segment sales decreased 2.4% to \$70.4 million. Comparable sales (including e-commerce) decreased 16.9%.

Indirect segment sales decreased 23.3% to \$30.7 million.

Gross profit was \$51.7 million (51.1% of net revenue).

Operating loss was \$5.0 million.

Loss from continuing operations was \$4.1 million, or \$0.10 per diluted share.

Cash and cash equivalents were \$96.6 million at May 2, 2015.

Capital expenditures for the thirteen weeks totaled \$7.5 million.

Repurchases of common stock for the thirteen weeks totaled \$7.2 million.

Discontinued Operations

In June 2014, we entered into a five-year agreement with Mitsubishi Corporation Fashion Company and Look Inc. to import and distribute Vera Bradley products in Japan. As a result of moving to this wholesale business model, we exited our direct business in Japan during the third quarter of fiscal 2015 and are accounting for it as a discontinued operation. Consolidated income statement and Direct segment results for the current and prior periods presented are reported on a continuing operations basis unless otherwise stated.

Restructuring and Other Charges Affecting Comparability of the Quarterly Periods ended May 2, 2015, and May 3, 2014

In the first quarter of fiscal 2016, the Company closed its manufacturing facility located in New Haven, Indiana. The Company incurred restructuring and other charges during the first quarter of fiscal 2016 of approximately \$3.4 million (\$2.1 million after the associated tax benefit), related to the facility closing. These charges include severance and benefit costs of approximately \$1.7 million, lease termination costs of approximately \$0.7 million, inventory-related charges of

approximately \$0.6 million, and other associated net costs, which include accelerated depreciation related to fixed assets, of approximately \$0.4 million. These charges are reflected in cost of sales in the Company's Consolidated Financial Statements. Management expects that the facility closure will reduce operating costs by approximately \$12.0 million annually beginning in the fourth quarter of fiscal 2016. All production from the facility will be absorbed by the Company's third party manufacturing suppliers.

Other charges affecting comparability, during the first quarter of fiscal 2016, totaled approximately \$3.1 million (\$2.1 million after the associated tax benefit) and consisted of \$1.3 million in employee severance (reflected in selling, general, and administrative expenses in the Company's Consolidated Financial Statements), \$1.2 million due to a retail store early lease termination agreement (reflected in selling, general, and administrative expenses in the Company's Consolidated Financial Statements), and \$0.6 million related to an increase in income tax reserves for uncertain federal and state tax positions related to research and development tax credits (reflected in income tax expense in the Company's Consolidated Financial Statements).

See Note 11 to the Notes to the Consolidated Financial Statements, herein, for additional information.

How We Assess the Performance of Our Business

In assessing the performance of our business, we consider a variety of performance and financial measures.

Net Revenues

Net revenues reflect sales of our merchandise and revenue from distribution and shipping and handling fees, less returns and discounts. Revenues for the Direct segment reflect sales through our full-line and factory outlet stores, verabradley.com, direct-to-consumer eBay sales, and our annual outlet sale in Fort Wayne, Indiana. Revenues for the Indirect segment reflect sales to specialty retail partners, department stores, national accounts, third party e-commerce sites, our wholesale business in Japan, and third party inventory liquidation.

Comparable Sales

Comparable sales (including e-commerce) are calculated based upon our stores that have been open for at least 12 full fiscal months and net revenues from our e-commerce operations. Comparable store sales are calculated based solely upon our stores that have been open for at least 12 full fiscal months. Remodeled stores are included in comparable sales and comparable store sales unless the store was closed for a portion of the current or comparable prior period or the remodel resulted in a significant change in square footage. Some of our competitors and other retailers calculate comparable or "same store" sales differently than we do. As a result, data in this report regarding our comparable sales and comparable store sales may not be comparable to similar data made available by other companies.

Non-comparable sales include sales from stores not included in comparable sales or comparable store sales.

Measuring the change in year-over-year comparable sales allows us to evaluate how our store base and e-commerce operations are performing. Various factors affect our comparable sales, including:

- Overall economic trends;
- Consumer preferences and fashion trends;
- Competition;
- The timing of our releases of new patterns and collections;
- Changes in our product mix;
- Pricing;
- The level of customer service that we provide in stores;
- Our ability to source and distribute products efficiently;
- The number of stores we open and close in any period; and
- The timing and success of promotional and advertising efforts.

Gross Profit

Gross profit is equal to our net revenues less our cost of sales. Cost of sales includes the direct cost of purchased and manufactured merchandise, distribution center costs, operations overhead, duty, and all inbound freight costs incurred. The components of our reported cost of sales may not be comparable to those of other retail and wholesale companies.

Table of Contents

Gross profit can be impacted by changes in volume; fluctuations in sales price; operational efficiencies, such as leveraging of fixed costs; promotional activities, such as free shipping; commodity prices, such as for cotton; and labor costs.

Selling, General, and Administrative Expenses (SG&A)

SG&A expenses include selling; advertising, marketing, and product development; and administrative. Selling expenses include Direct business expenses, such as store expenses, employee compensation, and store occupancy and supply costs, as well as Indirect business expenses consisting primarily of employee compensation and other expenses associated with sales to Indirect retailers. Advertising, marketing, and product development expenses include employee compensation, media costs, creative production expenses, marketing agency fees, new product design costs, public relations expenses, and market research expenses. A portion of our advertising expenses may be reimbursed by Indirect retailers, and such amount is classified as other income. Administrative expenses include employee compensation for corporate functions, corporate headquarters occupancy costs, consulting and software expenses, and charitable donations.

Other Income

We support many of our Indirect retailers' marketing efforts by distributing certain catalogs and promotional mailers to current and prospective customers. Our Indirect retailers reimburse us for a portion of the cost to produce these materials. Reimbursement received is recorded as other income. The related cost to design, produce, and distribute the catalogs and mailers is recorded as SG&A expense. Other income also includes proceeds from the sales of tickets to our annual outlet sale.

Operating (Loss) Income

Operating (loss) income is equal to gross profit less SG&A expenses plus other income. Operating (loss) income excludes interest income, interest expense, and income taxes.

(Loss) Income from Continuing Operations

(Loss) income from continuing operations is equal to operating (loss) income less net interest expense and income taxes.

Loss from Discontinued Operations, Net of Taxes

Loss from discontinued operations, net of taxes, is equal to the loss from the results of operations related to the direct Japan business, which was exited in the third quarter of fiscal 2015, adjusted for the associated tax benefit.

Net (Loss) Income

Net (loss) income is equal to the sum of (loss) income from continuing operations and loss from discontinued operations, net of taxes.

Average net revenues per gross square foot are calculated by dividing total net revenues for our stores that have been open at least 12 full fiscal months as of the end of the period by total gross square (3) footage for those stores. Remodeled stores are included in average net revenues per gross square foot unless the store was closed for a portion of the period.

Thirteen Weeks Ended May 2, 2015, Compared to Thirteen Weeks Ended May 3, 2014

Net Revenues

For the thirteen weeks ended May 2, 2015, net revenues decreased \$11.1 million, or 9.9%, to \$101.1 million, from \$112.2 million in the comparable prior-year period.

Direct. For the thirteen weeks ended May 2, 2015, net revenues in the Direct segment decreased \$1.8 million, or 2.4%, to \$70.4 million, from \$72.2 million in the comparable prior-year period. This change resulted from a \$9.4 million increase in revenues at our non-comparable stores, which included 10 additional stores, which was offset by a comparable sales (including e-commerce) decrease of \$10.4 million, or 16.9% (which includes a 9.7% decrease in e-commerce sales and a 22.3% decrease in comparable store sales), and a decrease in total sales at our annual outlet sale compared to the prior year. The declines in comparable store sales and comparable sales (including e-commerce) were primarily due to year-over-year declines in store and on-line traffic, as well as lower levels of on-line promotional activity. The aggregate number of full-line and factory outlet stores grew from 104 at May 3, 2014, to 135 at May 2, 2015.

Indirect. For the thirteen weeks ended May 2, 2015, net revenues in the Indirect segment decreased \$9.3 million, or 23.3%, to \$30.7 million, from \$40.0 million in the comparable prior-year period, primarily due to lower re-orders from the Company's specialty retail accounts and the timing of the Company's summer product launch (which will shift approximately \$3.7 million of revenues into the second quarter). In addition, there has been a reduction in the total number of specialty retail accounts.

Table of Contents**Gross Profit**

For the thirteen weeks ended May 2, 2015, gross profit decreased \$8.1 million, or 13.5%, to \$51.7 million, from \$59.8 million in the comparable prior-year period. As a percentage of net revenues, gross profit decreased to 51.1% for the thirteen weeks ended May 2, 2015, from 53.3% in the comparable prior-year period. The decrease in gross profit as a percentage of net revenues was primarily due to restructuring charges of \$3.4 million related to the planned closure of our manufacturing facility in the first quarter of fiscal 2016, as discussed in more detail in Note 11 to the Notes to the Consolidated Financial Statements herein, partially offset by increased sales of higher-margin made-for-outlet product in our factory outlet stores, leverage of overhead costs due to fall 2014 cost reductions at our domestic manufacturing facility, lower levels of liquidation sales, and reduced promotional activity.

Selling, General, and Administrative Expenses

For the thirteen weeks ended May 2, 2015, SG&A expenses increased \$7.6 million, or 15.1%, to \$57.6 million, from \$50.0 million in the comparable prior-year period. As a percentage of net revenues, SG&A expenses increased to 57.0% for the thirteen weeks ended May 2, 2015, from 44.6% in the comparable prior-year period. SG&A expenses for the thirteen weeks ended May 2, 2015, include \$1.3 million in employee severance expense and \$1.2 million in expense related to a retail store early termination agreement that did not occur in the comparable period. SG&A expenses as a percentage of revenue also increased due to fixed expenses being spread over lower revenues; deleveraging of store operating expenses as a result of lower sales; and strategic investments which included incremental marketing, new store expenses, and e-commerce investments.

Other Income

For the thirteen weeks ended May 2, 2015, other income decreased \$0.7 million, or 39.9%, to \$0.9 million, from \$1.6 million in the comparable prior-year period, primarily due to a decrease in reimbursement of co-op mailer expense from Indirect retailers.

Operating (Loss) Income

For the thirteen weeks ended May 2, 2015, operating (loss) income decreased \$16.3 million, or 144.0%, to \$(5.0) million in the current year, from \$11.3 million in the comparable prior-year period. As a percentage of net revenues, operating (loss) income was (4.9)% and 10.1% for the thirteen weeks ended May 2, 2015 and May 3, 2014, respectively. Operating (loss) income for the thirteen weeks ended May 2, 2015, was negatively impacted by the \$5.9 million in restructuring and other charges described above under “Gross Profit” and “Selling, General, and Administrative Expenses.”

Direct. For the thirteen weeks ended May 2, 2015, operating income in the Direct segment decreased \$5.8 million, or 41.7%, to \$8.0 million from \$13.8 million in the comparable prior-year period. As a percentage of Direct segment net revenues, operating income in the Direct segment was 11.4% and 19.1% for the thirteen weeks ended May 2, 2015 and May 3, 2014, respectively. Operating income in the Direct segment was negatively impacted by \$3.5 million in aggregate restructuring and other charges related to the closure of our manufacturing facility in the first quarter of fiscal 2016 and a retail store early termination agreement.

Indirect. For the thirteen weeks ended May 2, 2015, operating income in the Indirect segment decreased \$5.5 million, or 35.9%, to \$9.9 million from \$15.4 million in the comparable prior-year period. As a percentage of Indirect segment net revenues, operating income in the Indirect segment was 32.3% and 38.6% for the thirteen weeks ended May 2, 2015 and May 3, 2014, respectively. Operating income in the Indirect segment was negatively impacted by \$1.1 million in restructuring charges related to the closure of our manufacturing facility in the first quarter of fiscal 2016.

Corporate Unallocated. For the thirteen weeks ended May 2, 2015, unallocated expenses increased \$5.0 million, or 27.9%, to \$22.9 million from \$17.9 million in the comparable prior-year period. The increase in unallocated expenses included \$1.3 million in employee severance expense.

Income Tax (Benefit) Expense

The effective tax rate for the thirteen weeks ended May 2, 2015, was 18.1%, compared to 38.6% for the thirteen weeks ended May 3, 2014. The year-over year decrease is primarily due to the decrease in income from continuing operations before income taxes and the relative impact of permanent items, including an increase in income tax reserves for uncertain federal and state tax positions related to research and development tax credits.

Table of Contents**(Loss) Income from Continuing Operations**

For the thirteen weeks ended May 2, 2015, (loss) income from continuing operations decreased \$11.0 million, or 160.1%, to \$(4.1) million from \$6.9 million in the comparable prior-year period. Included in this decrease were restructuring and other charges of \$6.5 million (\$4.2 million after the associated tax benefit), as described in Note 11 to the Notes to the Consolidated Financial Statements herein.

Loss from Discontinued Operations, Net of Taxes

For the thirteen weeks ended May 3, 2014, loss from discontinued operations, net of taxes was \$0.3 million reflecting the Japan operations which were exited during the third quarter of fiscal 2015.

Net (Loss) Income

For the thirteen weeks ended May 2, 2015, net (loss) income decreased \$10.7 million, or 163.0%, to \$(4.1) million from \$6.6 million in the comparable prior-year period. Included in this decrease were restructuring and other charges of \$6.5 million (\$4.2 million after the associated tax benefit), as described in Note 11 to the Consolidated Financial Statements herein.

Liquidity and Capital Resources**General**

Our primary source of liquidity is cash flow from operations. We also have access to additional liquidity, if needed, through borrowings under our \$125.0 million amended and restated credit agreement. Historically, our primary cash needs have been for merchandise inventories, payroll, store rent, capital expenditures associated with operational equipment, buildings, information technology, opening new stores, and debt repayments. The most significant components of our working capital are cash and cash equivalents, merchandise inventories, accounts receivable, accounts payable, and other current liabilities.

We believe that cash flows from operating activities and the availability of borrowings under our amended and restated credit agreement or other financing arrangements will be sufficient to meet working capital requirements, anticipated capital expenditures, share repurchases, and debt payments for the foreseeable future.

Cash Flow Analysis

A summary of operating, investing, and financing activities is shown in the following table (in thousands):

	Thirteen Weeks Ended	
	May 2, 2015	May 3, 2014
Net cash (used in) provided by operating activities	\$(770) \$26,957
Net cash used in investing activities	(7,530) (4,040
Net cash used in financing activities	(7,423) (606
Net Cash (Used in) Provided by Operating Activities		

Net cash (used in) provided by operating activities consists primarily of net income adjusted for non-cash items, including depreciation, amortization, deferred taxes, and stock-based compensation, the effect of changes in assets and liabilities, and tenant-improvement allowances received from landlords under our store leases.

Net cash used in operating activities for the thirteen weeks ended May 2, 2015, was \$0.8 million, compared to net cash provided by operating activities of \$27.0 million for the thirteen weeks ended May 3, 2014. This decrease was primarily due to a decrease in net income of \$10.7 million along with increase in inventory of \$13.8 million.

Net Cash Used in Investing Activities

Investing activities consist primarily of capital expenditures for growth related to new store openings, buildings, operational equipment, and information technology investments.

Net cash used in investing activities was \$7.5 million and \$4.0 million for the thirteen weeks ended May 2, 2015 and May 3, 2014, respectively; capital expenditures of \$1.2 million and \$3.0 million were incurred but not paid during the thirteen weeks ended May 2, 2015 and May 3, 2014, respectively. The \$1.7 million increase in capital expenditures was due primarily to the opening of ten new stores in the first quarter of the current year as compared to five stores in the prior year, which was partially offset by reduced spending for the campus consolidation project.

Table of Contents

Capital expenditures for fiscal 2016 are expected to be approximately \$31.0 million.

Net Cash Used in Financing Activities

Net cash used in financing activities was \$7.4 million for the thirteen weeks ended May 2, 2015 which was primarily related to purchases of shares of the Company's common stock made under the 2014 Share Repurchase Program. This compares to net cash used in financing activities of \$0.6 million for the thirteen weeks ended May 3, 2014.

Amended and Restated Credit Agreement

On October 4, 2010, Vera Bradley Designs, Inc., our wholly owned subsidiary, entered into an agreement to amend and restate its credit agreement with JPMorgan Chase Bank, as administrative agent, and certain other lenders. The amended and restated credit agreement provides for a revolving credit commitment of \$125.0 million. On June 1, 2012, Vera Bradley Designs, Inc., entered into an amendment to the credit agreement that extends the maturity date from October 3, 2015, to June 1, 2017. Certain permitted indebtedness covenants were also amended. All borrowings under the amended and restated credit agreement are collateralized by substantially all of our assets. The credit agreement is also guaranteed by the Company. The credit agreement requires us to comply with various financial covenants, including a fixed charge coverage ratio of not less than 1.20 to 1.00 and a leverage ratio of not more than 3.50 to 1.00. The agreement also contains various other covenants, including restrictions on the incurrence of certain indebtedness, liens, investments, acquisitions, and asset sales. As of May 2, 2015, the Company was in violation of the fixed charge coverage ratio covenant under its amended and restated credit agreement with JPMorgan Chase Bank, as administrative agent, and certain other lenders. By waiver dated June 10, 2015, the lenders agreed to waive any breach of the fixed charge coverage ratio covenant and any default or event of default under the amended and restated credit agreement arising from the breach. The Company was in compliance with all other covenants as of May 2, 2015.

Borrowings under the amended and restated credit agreement bear interest at either LIBOR plus the applicable margin (ranging from 1.05% to 2.05%) or the alternate base rate (as defined in the agreement) plus the applicable margin (ranging from 0.05% to 1.05%). The applicable margin is tied to our leverage ratio. In addition, we are required to pay a quarterly facility fee (as defined in the agreement) ranging from 0.20% to 0.45% of the revolving credit commitment. As of May 2, 2015, the Company had borrowing availability of \$125.0 million under the agreement.

Off-Balance-Sheet Arrangements

We do not have any off-balance-sheet financing or unconsolidated special-purpose entities.

Critical Accounting Policies and Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues, and expenses, as well as the related disclosures of contingent assets and liabilities at the date of the financial statements. A summary of the Company's significant accounting policies is included in Note 2 to the Company's consolidated financial statements in the Company's Annual Report on Form 10-K for the fiscal year ended January 31, 2015.

Certain accounting policies and estimates of the Company are considered critical, as these policies and estimates are the most important to the depiction of the Company's consolidated financial statements and require significant, difficult, or complex judgments, often about the effect of matters that are inherently uncertain. Such policies are summarized in the "Management's Discussion and Analysis of Financial Condition and Results of Operations" in the Company's Annual Report on Form 10-K for the fiscal year ended January 31, 2015. As of May 2, 2015, there was no significant change to any of the critical accounting policies and estimates described in the Annual Report.

Recently Issued Accounting Pronouncements

In April 2014, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2014-08, Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity. This guidance states that the disposal of a component of an entity is to be reported in discontinued operations only if the disposal represents a strategic shift that has (or will have) a major effect on an entity's operations and financial results. The pronouncement also requires additional disclosures regarding individually significant disposals of components that do not meet the criteria to be recognized as a discontinued operation as well as additional and expanded disclosures. The guidance is effective for all disposals (or classifications as held for sale) of components of an entity and all businesses

or nonprofit activities that, on acquisition, are classified as held for sale that occur within annual periods beginning on or after December 15, 2014, and interim periods within annual periods beginning on or after December 15, 2015; it is applied prospectively. Early adoption is permitted, but only for disposals (or classifications as held for sale) that have not been reported in financial statements previously issued or available

for issuance. The adoption of this standard did not have a material impact on the Company's consolidated financial statements upon adoption.

In May 2014, the FASB issued ASU 2014-09, Revenue from Contracts with Customers. This guidance requires companies to recognize revenue in a manner that depicts the transfer of promised goods or services to customers in amounts that reflect the consideration to which a company expects to be entitled in exchange for those goods or services. The new standard also will result in enhanced disclosures about the nature, amount, timing and uncertainty of revenue and cash flows arising from contracts with customers. This guidance will be effective beginning in fiscal 2017, and early adoption is not permitted. The standard allows for either a full retrospective or a modified retrospective transition method. The Company is currently evaluating the impact of this standard, including the transition method, on its consolidated results of operations, financial position and cash flows.

In August 2014, the FASB issued ASU 2014-15, Presentation of Financial Statements - Going Concern which requires management to evaluate whether there is substantial doubt about an entity's ability to continue as a going concern and provide related footnote disclosures. The guidance is effective for annual or interim reporting periods beginning on or after December 15, 2016. Early adoption is permitted for financial statements that have not been previously issued. The standard allows for either a full retrospective or modified retrospective transition method. The Company does not expect this standard to have an impact on the Company's consolidated financial statements upon adoption.

In April 2015, the FASB issued ASU 2015-03, Simplifying the Presentation of Debt Issuance Costs, which modifies the presentation of debt issuance costs in financial statements. Under this new guidance, the Company will be required to present these costs in our condensed consolidated balance sheets as a direct deduction from the related debt liability. The requirements of the new standard will become effective for fiscal years, and interim periods within those fiscal years (including retrospective application), beginning after December 15, 2015; early adoption is permitted. The Company is currently evaluating this guidance and does not expect the application of this standard to have a material impact on the Company's consolidated financial statements upon adoption.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

As of May 2, 2015, there was no material change in the market risks described in “Quantitative and Qualitative Disclosures About Market Risks” in the Company’s Annual Report on Form 10-K for the fiscal year ended January 31, 2015.

ITEM 4. CONTROLS AND PROCEDURES

At the end of the period covered by this Quarterly Report on Form 10-Q, the Company carried out an evaluation, under the supervision and with the participation of the Company’s Disclosure Committee and management, including the Chief Executive Officer and the Chief Financial Officer of the effectiveness of the design and operation of the Company’s disclosure controls and procedures pursuant to Rule 13a-15 of the Securities Exchange Act of 1934. Based on that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that the Company’s disclosure controls and procedures were effective as of May 2, 2015.

There has been no change in our internal control over financial reporting during the most recent fiscal quarter that has materially affected, or that is reasonably likely to materially affect, our internal control over financial reporting.
