January 31, 2018
UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
WASHINGTON, D.C. 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended September 30, 2017

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

FOR THE TRANSITION PERIOD FROM _____ TO _____

COMMISSION FILE NUMBER 001-35176

GLOBAL EAGLE ENTERTAINMENT INC.

(Exact name of registrant as specified in its charter)

Delaware 27-4757800
(State or other jurisdiction of incorporation or organization) (I.R.S. Employer Identification Number)

6100 Center Drive, Suite 1020
Los Angeles, California 90045
(Address of principal executive offices) (Zip Code)
Registrant's telephone number, including area code: (310) 437-6000

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports) and (2) has been subject to such filing requirements for the past 90 days. Yes No
Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer Accelerated filer Non-accelerated filer Smaller reporting company Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act). Yes No

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date.

INTRODUCTORY NOTE

As used herein, “Global Eagle Entertainment,” “Global Eagle,” the “Company,” “our,” “we,” or “us” and similar terms include Global Eagle Entertainment Inc. and its subsidiaries, unless the context indicates otherwise.

As previously reported, we were unable to timely file our Annual Report on Form 10-K for our fiscal year ended December 31, 2016 (the “2016 Form 10-K”) and our Quarterly Reports on Form 10-Q for the quarters ended March 31, 2017 (the “Q1 Form 10-Q”), June 30, 2017 (the “Q2 Form 10-Q”) and September 30, 2017 (this “Form 10-Q”). We filed the 2016 Form 10-K with the SEC on November 17, 2017 and the Q1 Form 10-Q and Q2 Form 10-Q with the SEC concurrently with the filing of this Form 10-Q.

We required additional time to file the 2016 Form 10-K, the Q1 Form 10-Q, the Q2 Form 10-Q and this Form 10-Q due to our increased size and complexity following our acquisition of Emerging Markets Communications (“EMC”) in July 2016 (the “EMC Acquisition”) and the effect of that increased size and complexity on our financial reporting processes; our need to transition our finance function after the departures of our Chief Executive Officer, Chief Financial Officer and Chief Accounting Officer; and our need to complete additional financial-closing procedures associated with our material weaknesses in internal control over financial reporting, as are described in Part II, Item 9A. Controls and Procedures of the 2016 Form 10-K. We were unable to timely file the Q1 Form 10-Q, the Q2 Form 10-Q and this Form 10-Q because they needed to include balance-sheet information derived from the audited financial statements included in the 2016 Form 10-K, and also needed to include unaudited financial statements that we were unable to finalize until we finalized our audited financial statements for the year ended December 31, 2016.

Except as expressly set forth in this Form 10-Q, the information contained in this Form 10-Q is presented as of September 30, 2017 and the three and nine months then ended and does not reflect events or results of operations that have occurred subsequent to September 30, 2017.

Our Operating Segments (and Changes Thereto in the Second Quarter of 2017)

We discuss our business and operations in this Form 10-Q as comprising two operating segments: Media & Content and Connectivity. For fiscal year 2015 and for 2016 until our EMC Acquisition, our business consisted of two operating segments: Content and Connectivity. Following the EMC Acquisition, the acquired EMC business became our third operating segment, which we called Maritime & Land Connectivity, and we renamed our other two segments as Media & Content and Aviation Connectivity.

In the second quarter of 2017 however, following changes in our senior management (including our chief operating decision maker) and organizational changes across our business, we reorganized our business from three operating segments back into two operating segments—Media & Content and Connectivity—primarily through integrating the business and operations of our former Aviation Connectivity segment with that of our former Maritime & Land Connectivity segment. Our chief operating decision maker determined this was appropriate based on the similarities and synergies between these two segments relating to satellite bandwidth and equipment used in those businesses as well as on our restructured reporting lines across our business departments. However, we will continue to have three separate reporting units for purposes of our goodwill impairment testing. This Form 10-Q, which speaks as of September 30, 2017, unless otherwise indicated, presents our business as two operating segments. See also Note 13, Segment Information for a further discussion of our operating segments.

Table of Contents

GLOBAL EAGLE ENTERTAINMENT INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Note 1. Business

Global Eagle Entertainment Inc. is a Delaware corporation headquartered in Los Angeles, California. Global Eagle (together with its subsidiaries, “Global Eagle” or the “Company”) is a leading provider of satellite-based connectivity and media to fast-growing, global mobility markets across air, land and sea. Global Eagle offers a fully integrated suite of rich media content and seamless connectivity solutions that cover the globe. As of September 30, 2017, its business was comprised of two operating segments: Media & Content and Connectivity, with the Connectivity segment encompassing the operations of the former Aviation Connectivity and Maritime & Land Connectivity segments as historically presented in our Quarterly Report on Form 10-Q for the quarter ended March 31, 2017. See Note 13. Segment Information for further discussion on the Company’s reportable segments.

Prior to the EMC Acquisition on July 27, 2016 (the “EMC Acquisition Date”), the Company’s business consisted of two operating segments: Content and Connectivity. (EMC was a communications services provider that offered land-based sites and marine vessels globally a multimedia platform delivering communications, Internet, live television, on-demand video, voice, cellular and 3G/LTE services. See Note 3. Business Combinations.) Following the EMC Acquisition, the acquired EMC business became a third operating segment, which the Company called Maritime & Land Connectivity, and the Company renamed its other two segments as Media & Content and Aviation Connectivity. In the second quarter of 2017, the Company reorganized its business from three operating segments back into two operating segments—Media & Content and Connectivity. However, we will continue to have three separate reporting units for purposes of our goodwill impairment testing. See Note 13. Segment Information for a further discussion of our reportable segments.

Media & Content

The Media & Content operating segment curates, manages, provides post-production and distributes wholly-owned and licensed media content, video and music programming, advertising, applications and video games to the airline, maritime and other “away from home” non-theatrical markets.

Connectivity

The Connectivity operating segment provides its customers, including its passengers and crew, with (i) Wi-Fi connectivity via C, Ka and Ku satellite transmissions that enabled access to the Internet, live television, on-demand content, shopping and travel-related information and (ii) operational solutions that allowed customers to improve the management of their internal operations.

The former Maritime & Land Connectivity operating segment commenced its operations following the closing of the EMC Acquisition. As described above in this Note, this former segment became part of our Connectivity segment in the second quarter of 2017.

Note 2. Basis of Presentation and Summary of Significant Accounting Policies

The following is a summary of the significant accounting policies consistently applied in the preparation of the accompanying condensed consolidated financial statements.

Basis of Presentation

The accompanying interim condensed consolidated balance sheet as of September 30, 2017, the condensed consolidated statements of operations and the condensed consolidated statements of comprehensive income (loss) for the three and nine months ended September 30, 2017 and 2016, the condensed consolidated statements of cash flows for the nine months ended September 30, 2017 and 2016, and the condensed consolidated statement of stockholders' equity for the nine months ended September 30, 2017, are unaudited.

In the opinion of the Company's management, the unaudited interim condensed consolidated financial statements have been prepared on the same basis as the Company's audited consolidated financial statements for the year ended

December 31, 2016, and include all adjustments, which include only normal recurring adjustments, necessary for the fair presentation of the Company's condensed consolidated balance sheet as of September 30, 2017, its condensed consolidated statements of operations for the three and nine months ended September 30, 2017 and 2016 and its condensed consolidated statements of cash flows for the nine months ended September 30, 2017 and 2016. The results for the three and nine months ended September 30, 2017 are not necessarily indicative of the results expected for the full 2017 year. The consolidated balance sheet as of December 31, 2016 has been derived from the Company's audited financial statements included in the Company's Annual Report on Form 10-K filed with the U.S. Securities and Exchange Commission ("SEC") on November 17, 2017 (the "2016 Form 10-K").

The interim unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States ("GAAP") for interim financial information and with the instructions to SEC Form 10-Q and Article 10 of SEC Regulation S-X. They do not include all of the information and footnotes required by GAAP for complete financial statements. Therefore, these financial statements should be read in conjunction with the Company's audited consolidated financial statements and notes thereto included in the Company's 2016 Form 10-K.

These financial statements have been prepared on the basis of the Company having sufficient liquidity to fund its operations for at least the next twelve months from the issuance of these consolidated financial statements in accordance with the Financial Accounting Standards Board ("FASB") Accounting Standards Codification Topic 205-40 ("ASC Topic 205-40"), Presentation of Financial Statements—Going Concern. The Company's principal sources of liquidity have historically been its debt and equity issuances and its cash and cash equivalents (which cash and cash equivalents amounted to \$50.8 million as of December 31, 2017, \$58.0 million as of September 30, 2017 and \$50.7 million as of December 31, 2016). The Company's internal plans and forecasts indicate that it will have sufficient liquidity to continue to fund its business and operations for at least the next twelve months in accordance with ASC Topic 205-40.

The assessment by the Company's management that the Company will have sufficient liquidity to continue as a going concern is based on underlying estimates and assumptions, including that the Company: (i) remains in compliance with SEC public-reporting rules and regulations; (ii) services its indebtedness and complies with the covenants (including the financial reporting covenants) in the agreements governing its indebtedness; and (iii) remains listed on The Nasdaq Stock Market ("Nasdaq"). Under the terms of its credit agreement (as modified) and waivers related thereto, the Company was required to furnish its Quarterly Reports on Form 10-Q for the quarters ended March 31, June 30 and September 30, 2017 to its lenders on or before January 31, 2018. In addition, under the terms of an extension that Nasdaq granted the Company, the Company was required to file these Quarterly Reports on or before January 31, 2018. Upon filing this Form 10-Q and the Quarterly Reports on Form 10-Q for the quarters ended March 31, 2017 and June 30, 2017, the Company has regained compliance with its SEC periodic reporting obligations, met the requirements of its credit-agreement waivers, and has satisfied the terms of its Nasdaq extension, subject to Nasdaq confirmation of the same (which the Company expects to receive in the next several days following its filing of this Form 10-Q).

If the Company is unable to service its indebtedness or satisfy the covenants (including the financial reporting covenants) in the agreements governing its indebtedness (or obtain additional waivers (if needed)), then its lenders and noteholders have the option to immediately accelerate all outstanding indebtedness, which the Company may not have the ability to repay. The Company intends to satisfy its current debt service obligations with its existing cash and cash equivalents. However, the Company may not have sufficient funds or may be unable to arrange for additional financing to pay the future amounts due under its existing debt instruments in the event of an acceleration event or repurchase event (as applicable, in the event that the Company is delisted from Nasdaq in the future). In this event, funds from external sources may not be available on acceptable terms, if at all.

Reclassifications

Certain reclassifications have been made to the consolidated financial statements of the prior year and the accompanying notes to conform to the current year presentation.

Principles of Consolidation

The unaudited condensed consolidated financial statements include the accounts of the Company and its wholly-owned, majority-owned and controlled subsidiaries. Intercompany balances and transactions have been eliminated in consolidation. The results of acquired businesses are included in the unaudited condensed consolidated financial statements from the date of acquisition. Earnings or losses attributable to any non-controlling interests in a Company subsidiary are included in Net loss in the Unaudited Condensed Consolidated Statements of Operations. Any investments in affiliates over which the Company has the ability to exert significant influence but does not control and with respect to which it is not the primary beneficiary are accounted for using the equity method. The Company has two such equity affiliates. See Note 7. Equity Method Investments. Investments in affiliates for which the Company has no ability to exert significant influence are accounted for using the cost method of accounting.

Use of Estimates

The preparation of the Company's consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenue (allocated on the basis of the relative selling price of deliverables) and expenses during the reporting period. Significant items subject to such estimates and assumptions include revenue, allowance for doubtful accounts, the assigned value of acquired assets and assumed and contingent liabilities associated with business combinations, legal claims and other loss contingencies, valuation of media content library and equipment inventory, useful lives and impairment of property and equipment, intangible assets, goodwill and other assets, the fair value of the Company's equity-based compensation awards and convertible debt instruments, and deferred income tax assets and liabilities. Actual results could differ materially from those estimates. On an ongoing basis, the Company evaluates its estimates compared to historical experience and trends, which form the basis for making judgments about the carrying value of assets and liabilities.

Restricted Cash

The Company maintains letters of credit agreements with some of its customers that are secured by the Company's cash for periods of up to three years.

As of September 30, 2017 and December 31, 2016, the Company had restricted cash of \$1.0 million and \$18.0 million, respectively. During the nine months ended September 30, 2017, the Company released \$17.1 million of cash from restrictions. Of this amount, \$16.0 million was being held in an escrow account and related to EMC's acquisition of Maritime Telecommunications Network ("MTN") (which EMC consummated prior to the Company's acquisition of EMC), of which \$15.5 million was released to the former stockholders of MTN in June 2017 and the remaining \$0.6 million was returned to the Company. The release of the funds to the former MTN stockholders has been classified as a significant non-cash investing activity in the Condensed Consolidated Statement of Cash Flows. The remaining \$1.1 million related to the release of letters of credit.

Inventories

Equipment inventory, which is classified as finished goods, is comprised of individual equipment parts and assemblies. Subsequent to the Company's adoption of ASU 2015-11, effective January 1, 2017, inventory is accounted for using the first-in, first-out method of accounting and is stated at the lower of cost or net realizable value. The Company provides inventory write-downs based on excess and obsolete inventories determined primarily by future

demand forecasts. The write-down is measured as the difference between the cost of the inventory and net realizable value, based upon assumptions about future demand; and is charged to the provision for inventory, which is a component of cost of sales. At the point of the write-down recognition, a new, lower cost basis for that inventory is established, and subsequent changes in facts and circumstances do not result in the restoration or increase in that newly established cost basis.

The Company generally is not directly responsible for warranty costs related to equipment it sells to its customers. The vendors that supply each of the individual parts, which comprise the assemblies sold by the Company to customers, are generally responsible for the equipment warranty directly to the customer.

Property, Plant and Equipment, net

Property, plant and equipment is stated at cost less accumulated depreciation and impairment losses. Depreciation is recorded on a straight-line basis over the underlying asset's useful life. The estimated useful life of technical and operating equipment is three to ten years. Leasehold improvements are amortized on the straight-line method over the shorter of the remaining lease term or estimated useful life of the asset. Buildings are depreciated on the straight-line method over 30 years. Repairs and maintenance costs are expensed as incurred.

In 2013, the Company capitalized the costs of certain connectivity equipment (in which the Company retains legal title) installed on aircraft of a single customer to facilitate expanded services over a five-year use period. The Company is amortizing this equipment over its five-year useful life period.

The Company installs connectivity equipment under agreements entered into with customers. Under these agreements, generally, legal title of the equipment is transferred upon delivery but sales are not recognized for accounting purposes because the risks and rewards of ownership are not fully transferred due to the Company's continuing involvement with the equipment, the term of the agreement with the customer and restrictions in the agreement regarding the customers' use of the equipment. The assets are recorded as Property, plant and equipment, net, on the Condensed Consolidated Balance Sheets. The Company begins depreciating the assets when they were ready for their intended use over the 7-15 year term of the agreement, which approximates the expected useful life of the equipment.

Valuation of Goodwill and Intangible Assets

The Company performs valuations of assets acquired and liabilities assumed on each acquisition accounted for as a business combination, and allocates the purchase price of each acquired business to its respective net tangible and intangible assets and liabilities. Acquired intangible assets principally consist of technology, customer relationships, backlog and trademarks. Liabilities related to intangibles principally consist of unfavorable vendor contracts. The Company determines the appropriate useful life by performing an analysis of expected cash flows based on projected financial information of the acquired businesses. Intangible assets are amortized over their estimated useful lives using the straight-line method, which approximates the pattern in which the majority of the economic benefits are expected to be consumed. Intangible liabilities are amortized into cost of sales ratably over their expected related revenue streams over their useful lives.

Goodwill represents the excess of the cost of an acquired entity over the fair value of the acquired net assets. The Company does not amortize goodwill but evaluates it for impairment at the reporting unit level annually during the fourth quarter of each fiscal year (as of October 1 of that quarter) or when an event occurs or circumstances change that indicates the carrying value may not be recoverable. During the first quarter of 2017, the Company adopted ASU 2017-04, Intangibles - Goodwill and Other (Topic 350): Simplifying the Accounting for Goodwill Impairment. Under the then newly adopted guidance, the optional qualitative assessment, referred to as "Step 0", and the first step of the quantitative assessment ("Step 1") remained unchanged versus the prior guidance. However, the requirement to complete the second step ("Step 2"), which involved determining the implied fair value of goodwill and comparing it to the carrying amount of that goodwill to measure the impairment loss, was eliminated. As a result, Step 1 will be used to determine both the existence and amount of goodwill impairment. An impairment loss will be recognized for the amount by which the reporting unit's carrying amount exceeds its fair value, not to exceed the carrying amount of goodwill in that reporting unit.

The Company periodically analyzes whether any indicators of impairment have occurred. As part of these periodic analyses, the Company compares its estimated fair value, as determined based on its stock price, to its net book value. During the fourth quarter of 2016, due to a continuing significant decline in its stock price and other indicators of impairment that arose during the fourth quarter of 2016, the Company deemed it more appropriate to assess goodwill impairment as of December 31, 2016, rather than the historical testing date of October 1.

In conjunction with the events occurring in the fourth quarter of 2016, and for purposes of its annual impairment testing at December 31, 2016, the Company updated its long-term business plan, which was used as the basis for estimating the future cash flows of its reporting units. That plan considered then current economic conditions and trends, estimated future operating results, the Company's views of growth rates and then-anticipated future economic and regulatory conditions.

The Company determined that the fair value of the Media & Content and Aviation Connectivity reporting units exceeded their carrying values, but that the fair value of the Maritime & Land Connectivity reporting unit was below its carrying value. Therefore, the Company conducted step two of the impairment test for the Maritime & Land Connectivity reporting unit and determined the carrying value of goodwill in the Maritime & Land Connectivity reporting unit exceeded its implied fair value, resulting in an impairment charge of \$64.0 million. This was as a result of reduced financial projections for the Maritime &

Land Connectivity reporting unit, due to, among other things: lower than expected actual financial results from this business due to margin compression resulting from competition in the Company's cellular backhaul land business in Africa, resulting in diminished financial performance relative to its original expectations; delayed new deal executions and slower than anticipated installations and upgrades, also resulting in diminished financial performance relative to its original expectations; and operational challenges in integrating a legacy EMC acquiree in 2015 into this reporting unit, resulting in delayed acquisition synergies. Given the foregoing, the Company determined there was greater uncertainty in achieving its prior financial projections and so applied a higher discount rate for purposes of its goodwill impairment analysis. The higher discount rate negatively affected the fair value of the Maritime & Land Connectivity reporting unit. At December 31, 2016, the Company's remaining amount of goodwill was \$327.8 million, of which \$146.4 million was associated with the Maritime & Land Connectivity reporting unit.

In addition, for the quarter ended March 31, 2017, the Company identified a triggering event due to a significant decline in the market capitalization of the Company. Accordingly, the Company assessed the fair value of its three reporting units as of March 31, 2017 and as a result the Company recorded an additional goodwill impairment charge of \$78.0 million related to its Maritime & Land Connectivity reporting unit. This additional impairment was primarily due to lower than expected financial results of the reporting unit during the three months ended March 31, 2017 due to delays in new maritime installations, slower than originally estimated execution of EMC Acquisition-related synergies and other events that occurred in the first quarter of 2017. Given these indicators, the Company determined, at that time, that there was a higher degree of uncertainty in achieving its financial projections for this unit and as such, increased its discount rate, which reduced the fair value of the unit. Subsequent to this, no further impairment was recorded during the nine months ended September 30, 2017.

Investments in Equity Affiliates

Wireless Maritime Services, LLC ("WMS")

In connection with the EMC Acquisition, the Company acquired a 49% equity interest in WMS, which interest EMC owned at the time of the EMC Acquisition. The remaining 51% equity interest in WMS is owned by an unaffiliated U.S. company (the "WMS third-party investor"), which is the managing member of WMS and is responsible for its day-to-day management and operations. Certain matters, including determination of capital contributions and distributions and business plan revisions, require approval of WMS's board of directors, which consists of five voting members, three of which are appointed by the WMS third-party investor and two of which are appointed by the Company. Profits and losses for any fiscal year are allocated between the Company and the WMS third-party investor in proportion to their respective ownership interests, after giving effect to any special allocations made pursuant to the WMS operating agreement. EMC's carrying value of the investment in WMS was adjusted to fair value as a result of the EMC Acquisition. The excess of the fair value over the underlying equity in net assets of WMS is primarily comprised of amortizable intangible assets and nonamortizable goodwill. The Company's carrying value in its investment in WMS was subsequently adjusted for contributions, distributions and net income (loss) attributable to WMS, including the amortization of the cost basis difference associated with the amortizable intangible assets.

Santander Teleport S.L. ("Santander")

Also in connection with the EMC Acquisition, the Company acquired an equity interest in a teleport in Santander, Spain, which provides various telecommunication services, including teleport and terrestrial services. (EMC owned this interest at the time of the EMC Acquisition). The Company holds a 49% equity interest in Santander and the remaining 51% is held by an unaffiliated Spanish company (the "Santander third-party investor"). The Santander third-party investor is responsible for the day-to-day management and operations of Santander. Some matters—such as the determination of capital contributions, capital expenditures over budget and distributions—require approval of Santander's board of directors, which consists of five voting members, three of which are appointed by the Santander third-party investor and two of which are appointed by the Company. Profits and losses for any fiscal year are

allocated between the Company and the Santander third-party investor in proportion to their respective ownership interests. The carrying value of the Company's investment in Santander approximated its fair value on the date the Company acquired EMC and was subsequently adjusted for contributions, distributions, and net income (loss) attributable to Santander.

On a periodic basis, the Company assesses whether there are any indicators that the value of its investments may be impaired, in accordance with FASB Accounting Standards Codification ("ASC") 323, Investment—Equity Method and Joint Ventures. When circumstances indicate there may have been a reduction in the value of an equity method investment, we evaluate the equity method investment and any advances made for impairment by estimating our ability to recover our investment from future expected cash flows. If we determine the loss in value is other than temporary, we recognize an impairment charge

to reflect the equity investment and any advances made at fair value. We did not identify any such circumstances during the three or nine months ended September 30, 2017.

Derivative Financial Instruments

The Company recognizes all of its derivative instruments as either assets or liabilities at fair value in the Condensed Consolidated Balance Sheets. The accounting for changes in the fair value of a derivative instrument depends upon whether the derivative has been formally designated as (and qualifies as part of) a hedging relationship under the applicable accounting standards and, further, on the type of hedging relationship. The Company's derivatives that are not designated (and so do not qualify) as hedges are adjusted to fair value through current earnings.

The Company's warrants issued in its initial public offering in 2011 to its non-sponsor shareholders ("Public SPAC Warrants") and its contingently issuable shares issuable in partial consideration for its Sound-Recording Settlements (as described in Note 9. Commitments and Contingencies) qualify as derivatives. These derivatives are not designated (and do not qualify) as hedges. As a result, the Company accounts for such derivatives as liability instruments that are fair valued at each reporting period. Changes in fair value of such derivatives are recognized in earnings.

Foreign Currency Translation

The Company translates the assets and liabilities of its non-U.S.-dollar-functional-currency subsidiaries into U.S. dollars using exchange rates in effect at the end of each period. Revenue and expenses for these subsidiaries are translated using rates that approximate those in effect during the period. Gains and losses from these translations are recognized in foreign currency translation included in Accumulated other comprehensive loss in the Condensed Consolidated Balance Sheets. The Company's subsidiaries that use the U.S. dollar as their functional currency re-measure monetary assets and liabilities at exchange rates in effect at the end of each period, and re-measure inventories, property and nonmonetary assets and liabilities at historical rates.

Income Taxes

Deferred income tax assets and liabilities are recognized for temporary differences between the financial statement carrying amounts of assets and liabilities and the amounts that are reported in the income tax returns. Deferred taxes are evaluated for realization on a jurisdictional basis. The Company records valuation allowances to reduce deferred tax assets to the amount that is more likely than not to be realized. In making this assessment, management analyzes future taxable income, reversing temporary differences and ongoing tax planning strategies. Should a change in circumstances lead to a change in judgment about the realizability of deferred tax assets in future years, the Company will adjust related valuation allowances in the period that the change in circumstances occurs, along with a corresponding increase or charge to income.

The Company recognizes the tax benefit from an uncertain tax position only if it is more likely than not that the tax position will be sustained upon examination by the taxing authorities based on the technical merits of the Company's position. The tax benefit recognized in the financial statements for a particular tax position is based on the largest benefit that is more likely than not to be realized. The amount of unrecognized tax benefits (UTBs) is adjusted as appropriate for changes in facts and circumstances, such as significant amendments to existing tax laws, new regulations or interpretations by the taxing authorities, new information obtained during a tax examination, or resolution of an examination. The Company recognizes both accrued interest and penalties associated with uncertain tax positions as a component of Income tax (benefit) expense in the Condensed Consolidated Statements of Operations.

In December 2017, the United States enacted new U.S. federal tax legislation known as the Tax Cuts and Jobs Act (the "Tax Act"). The Tax Act significantly revises the U.S. corporate income tax regime by, among other things,

lowering corporate income tax rates, implementing a territorial tax system and imposing a repatriation tax on deemed repatriated earnings of foreign subsidiaries.

We have performed preliminary analyses of the impacts of the Tax Act using information known or knowable at this time. Under these preliminary analyses, we estimate that we will record additional GAAP tax benefits in the fourth quarter of 2017 in a range of \$5 million to \$8 million related to a decrease in the valuation of our deferred tax liabilities. The impact of the Tax Act may however differ from our preliminary estimate due to, among other things, changes in interpretations and assumptions we have made, U.S. Internal Revenue Service and Treasury Department guidance that may be issued and actions we may take. Our management is still evaluating the effects of the Tax Act provisions, and this preliminary assessment above does not purport to disclose all changes of the Tax Act that could have material positive or negative impacts on our current or future tax position.

Fair Value Measurements

The accounting guidance for fair value establishes a framework for measuring fair value and establishes a three-level valuation hierarchy for disclosure of fair value measurement. The valuation hierarchy is based upon the transparency of inputs to the valuation of an asset or liability as of the measurement date. The three levels are defined as follows:

Level 1: Observable quoted prices in active markets for identical assets and liabilities.

Level 2: Observable quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar instruments in markets that are not active, and model-based valuation techniques for which all significant assumptions are observable in the market.

Level 3: Model-based techniques that use at least one significant assumption not observable in the market. These unobservable assumptions reflect estimates of assumptions that market participants would use in pricing the asset or liability. Valuation techniques include use of option pricing models, discounted cash flow models, and similar techniques.

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The assets and liabilities that are fair valued on a recurring basis are described below and contained in the following tables. In addition, on a non-recurring basis, the Company may be required to record other assets and liabilities at fair value. These non-recurring fair value adjustments involve the lower of carrying value or fair value accounting and write-downs resulting from impairment of assets.

The following tables summarize our financial assets and liabilities measured at fair value on a recurring basis as of September 30, 2017 and December 31, 2016, respectively (dollar values in thousands, other than per-share values):

	September 30, 2017	Quotes Prices in Active Markets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Other Unobservable Inputs (Level 3)
Liabilities:				
Earn-out liability ⁽¹⁾	\$ 284	\$	—\$	—\$ 284
Liability Warrants ⁽²⁾	111	—	—	111
Contingently issuable shares ⁽³⁾	2,196	—	—	2,196
Total	\$ 2,591	\$	—\$	—\$ 2,591

	December 31, 2016	Quotes Prices in Active Markets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Other Unobservable Inputs (Level 3)
Liabilities:				
Earn-out liability ⁽¹⁾	\$ 1,987	\$	—\$	—\$ 1,987
Liability Warrants ⁽²⁾	433	—	—	433
Contingently issuable shares ⁽³⁾	4,545	—	—	4,545

Total	\$ 6,965	\$	—\$	—\$ 6,965
-------	----------	----	-----	-----------

(1) Represents aggregate earn-out liabilities for the Company's acquisitions of WOI, RMG, navAero and masFlight assumed in business combinations for the year ended December 31, 2015.

(2) Includes 6,173,228 Public SPAC Warrants outstanding at September 30, 2017 and December 31, 2016.

(3) In connection with the Sound-Recording Settlements, (as described below in Note 9. Commitments and Contingencies) the Company is obligated to issue to UMG (as defined in that Note) 500,000 shares of its common stock when and if the closing price of the Company's common stock exceeds \$10.00 per share and an additional 400,000 shares of common stock when and if the closing price of the Company's common stock exceeds \$12.00 per share. Such contingently issuable shares are classified as liabilities and are re-measured to fair value each reporting period.

15

Public SPAC Warrants. Through the quarter ended September 30, 2016, the fair value of the outstanding Public SPAC Warrants issued in the Company's initial public offering in 2011 (which were recorded as derivative warrant liabilities) was determined by the Company using the quoted market prices for the Public SPAC Warrants traded over the counter. During the quarter ended December 31, 2016, the Company determined that there was a significant decrease in transaction volume and level of trading activity for the Public SPAC Warrants. As a result, the Company transferred the Public SPAC Warrants from Level 1 to Level 3 of the valuation hierarchy and determined the fair value using the Black-Scholes option pricing model at the end of the reporting period. For the three and nine months ended September 30, 2017, due to the change in the fair value of these warrants, the Company recorded expense of \$0.1 million and \$0.3 million, respectively. The Public SPAC Warrants are included in Accounts Payable and Accrued Liabilities on the Condensed Consolidated Balance Sheets. The change in value of these Public SPAC warrants is included in Change in fair value of derivatives in the Condensed Consolidated Statements of Operations.

The following table presents the fair value roll-forward reconciliation of Level 3 assets and liabilities measured at fair value basis for the nine months ended September 30, 2017 (in thousands):

	Liability Warrants	Contingently Issuable Shares	Earn-Out Liabilities
Balance as of December 31, 2016	\$ 433	\$ 4,545	\$ 1,987
Change in value	(322)	(2,349)	64
Payments		\$ —	\$ (1,767)
Balance as of September 30, 2017	\$ 111	\$ 2,196	\$ 284

The following table shows the carrying amounts and the fair values of our long-term debt in the condensed consolidated financial statements at September 30, 2017 and December 31, 2016, respectively (in thousands, except as stated in footnote 2 to the table below):

	September 30, 2017		December 31, 2016	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
Senior secured first lien term loan facility, due July 2021 ^(*) (1)	—	—	\$256,004	\$260,020
Senior secured revolving credit facility, due July 2020 ^(*) (1)	—	—	53,891	52,932
Senior secured second lien term loan facility, due July 2022 ^(*) (1)	—	—	88,082	88,780
Senior secured term loan facility, due January 2023 ⁽⁺⁾ (1)	\$464,864	\$483,875	—	—
Senior secured revolving credit facility, due January 2022 ⁽⁺⁾ (1)	78,000	78,000	—	—
2.75% convertible senior notes due 2035 ⁽¹⁾ (2)	69,544	53,724	69,024	67,444
Other debt ⁽³⁾	2,669	2,669	3,299	3,299

(*) In connection with the EMC Acquisition, the Company assumed legacy EMC credit-agreement indebtedness, including this facility. This legacy EMC indebtedness was subsequently replaced by the 2017 Credit Agreement (as described in Note 8. Financing Arrangements).

(+) This facility is a component of the 2017 Credit Agreement

(1) The estimated fair value is classified as Level 2 financial instrument and was determined based on the quoted prices of the instrument in an over-the-counter market.

(2) The fair value of the 2.75% convertible senior notes due 2035 is exclusive of the conversion feature therein, which was originally allocated for reporting purposes at \$13.0 million, and is included in the condensed consolidated

balance sheets within “Additional paid-in capital” (see Note 11. Common Stock, Stock-Based Awards and Warrants). The principal amount outstanding of the 2.75% convertible senior notes due 2035 was \$82.5 million as of September 30, 2017, and the carrying amounts in the foregoing table reflect this outstanding principal amount net of debt issuance costs and discount associated with the equity component.

- (3) The estimated fair value is considered to approximate carrying value given the short-term maturity and is classified as Level 3 financial instruments.

Based on an assessment of its accounting policies and the underlying judgments and uncertainties affecting the application of those policies, the Company believes that its condensed consolidated financial statements fairly present in all material respects the financial position, results of operations and cash flows as of and for the periods presented in this Form

10-Q. However, this does not mean that other general risk factors, such as those discussed within our 2016 Form 10-K, as well as changes in its growth objectives or performance of operating segments, could not adversely impact its consolidated financial position, results of its operations and its cash flows in future periods.

Adoption of New Accounting Pronouncements

In January 2017, the Financial Accounting Standards Board (the “FASB”) issued Accounting Standards Update (“ASU”) 2017-04, Intangibles—Goodwill and Others (Topic 350): Simplifying the Test for Goodwill Impairment, which eliminated Step 2 from the goodwill impairment test. Under these amendments, an entity should perform its annual, or interim, goodwill impairment test by comparing the fair value of a reporting unit with its carrying amount. An entity should recognize an impairment charge for the amount by which the carrying amount exceeds the reporting unit’s fair value; however, the loss recognized should not exceed the total amount of goodwill allocated to that reporting unit. This pronouncement is effective for the annual or any interim goodwill impairment tests in fiscal years beginning after December 15, 2019. Early adoption is permitted for any impairment tests performed after January 1, 2017 and we elected to early adopt this new guidance in the first quarter of 2017. During the three months ended March 31, 2017 we recorded an impairment of goodwill in the amount of \$78.0 million related to our Maritime & Land reporting unit. See Note 5. Goodwill.

In October 2016, the FASB issued ASU 2016-17, Consolidation (Topic 810): Interests Held through Related Parties That Are under Common Control which amended the consolidation guidance on how a reporting entity that is the single decision maker of a variable interest entity (“VIE”) should treat indirect interests in the entity held through related parties that are under common control with the reporting entity when determining whether it is the primary beneficiary of that VIE. This pronouncement is effective for fiscal years beginning after December 15, 2016, including interim periods within those fiscal years. We adopted this guidance effective January 1, 2017. The adoption of this standard did not have an impact on our Condensed Consolidated Financial Statements.

In March 2016, the FASB issued ASU No. 2016-09, Compensation - Stock Compensation (Topic 718), Improvements to Employee Share-Based Payment Accounting (“ASU 2016-09”), which amends and simplifies the accounting for share-based payment awards in three areas; (1) income tax consequences, (2) classification of awards as either equity or liabilities, and (3) classification on the statement of cash flows. ASU 2016-09 is effective for annual periods beginning after December 15, 2016, and interim periods within those annual periods. We adopted this standard effective January 1, 2017. The adoption of this standard resulted in a cumulative-effect adjustment of \$0.3 million to accumulated deficit and additional paid-in capital, which we recorded in our Q1 Form 10-Q.

In July 2015, the FASB issued ASU No. 2015-11, Inventory (Topic 330): Simplifying the Measurement of Inventory (“ASU 2015-11”). ASU 2015-11 requires that inventory measured using any method other than last-in, first out (“LIFO”) or the retail inventory method to be subsequently measured at the lower of cost or net realizable value, rather than at the lower of cost or market value. Under this ASU, subsequent measurement of inventory using the LIFO and retail inventory method is unchanged. ASU 2015-11 is effective prospectively for fiscal years, and for interim periods within those years, beginning after December 15, 2016. We adopted this standard effective January 1, 2017. The adoption of this standard did not have a material impact on our consolidated financial statements.

Recently Issued Accounting Pronouncements

In February 2016, the FASB issued ASU No. 2016-02, Leases (Topic 842) (“ASU 2016-02”). This update will require lease assets and lease liabilities to be recognized on the balance sheet and disclosure of key information about leasing arrangements. ASU 2016-02 must be adopted using a modified retrospective transition, and provides for certain practical expedients. We have decided to adopt ASU 2016-02 effective in the first quarter of 2019. We are currently evaluating the impact of this standard on our consolidated financial statements.

In May 2014, the FASB issued ASU 2014-09, Revenue from Contracts with Customers (Topic 606) (“ASU 2014-09”), which will supersede nearly all existing revenue recognition guidance under U.S. GAAP. The core principle of the guidance is that an entity should recognize revenue when it transfers promised goods or services to customers in an amount that reflects the consideration to which we expect to be entitled in exchange for those goods or services. Further, the guidance requires improved disclosures to help users of financial statements better understand the nature, amount, timing and uncertainty of revenue that is recognized. The original effective date for ASU 2014-09 would have required us to adopt this standard beginning in the first quarter of 2017. In July 2015, the FASB voted to amend ASU 2014-09 by approving a one year deferral of the effective date as well as providing the option to early adopt the standard on the original effective date. Accordingly, the Company will adopt the standard effective the first quarter of 2018.

During 2017 we dedicated significant resources to the ASU 2014-09 transition project, including engaging third-party service providers to assist in the evaluation and implementation. We are currently analyzing representative contracts from each of our reportable segments and revenue streams. Based on our current assessment to date:

We will be required to assess the number of performance obligations in our contracts with customers. We may identify additional performance obligations as compared with deliverables and separate units of account previously identified as a result of the new guidance.

We will be required to use a variable consideration model which requires us to estimate (and constrain) variable service revenue, and allocate total contract consideration among all performance obligations. Additionally, estimates used in the recognition of revenue under the new standard will be updated as new facts and circumstances warrant, which may cause differences in the trend of revenue recognition as compared to that reported under the current standard.

The timing of recognition for games & apps contracts may be accelerated because the new standard changes the requirement for vendor-specific objective evidence, resulting in earlier recognition as the standard no longer allows revenue to be recognized ratably over the service period.

Costs to obtain or fulfill a contract with a customer, including costs incurred to service contracts and sales commissions may require capitalization and amortization over the anticipated service period.

We are still assessing the impact of these, and other potential changes, to our consolidated financial statements. We expect the adoption to result in additional disclosures in our notes to the unaudited Condensed Consolidated Financial Statements. The Company intends to design and implement processes and internal controls related to the adoption of ASU 2014-09 prior to the filing of its Quarterly Report on Form 10-Q for the period ending March 31, 2018.

We expect to adopt the standard under the modified retrospective method with the cumulative effect of adoption being reflected as an adjustment to beginning retained earnings in the Quarterly Report on Form 10-Q for the period ending March 31, 2018.

Note 3. Business Combinations

2017 Acquisitions

The Company did not consummate any acquisitions or business combinations during the nine months ended September 30, 2017.

2016 Acquisition

Emerging Markets Communications

On July 27, 2016, the Company completed the EMC Acquisition. The acquisition date fair value consideration transferred to the EMC seller totaled approximately \$165.0 million. This acquisition was intended to provide growth opportunities by expanding into a complementary maritime market in order to realize synergies by leveraging infrastructure and suppliers to achieve efficiencies and cost savings. We believed that these efficiencies and savings would result from removing overlap in existing network infrastructure, reducing bandwidth costs, lowering our development expenses and integrating our internal operations with EMC's. The acquisition was also intended to achieve cross-selling opportunities for the Company's content, digital media and operations solutions products into the maritime market.

The consideration for the EMC Acquisition consisted of the following (in thousands, except amounts in the footnotes to the table):

Amount

Edgar Filing: Global Eagle Entertainment Inc. - Form 10-Q

Cash consideration paid to seller	\$ 100,454
Issuance of 5,466,886 shares of Company common stock ⁽¹⁾	40,607

Table of Contents

The fair value of the Company's common stock issued as consideration in the EMC Acquisition was measured (1) based on the common stock price upon closing of the transaction on July 27, 2016, less a 7.5% discount thereon for restriction on transferability.

(2) On July 27, 2017, the Company elected to pay this amount in 5,080,049 newly issued shares of its common stock, which the Company issued to the EMC seller.

(3) In June 2017, the Company finalized the working capital adjustments with the EMC seller, which resulted in the release to the Company of \$1.3 million from a working capital adjustment escrow.

The following is a summary of the purchase price allocation to the estimated fair values of the identifiable assets acquired and the liabilities assumed at the EMC Acquisition date (dollars in thousands):

	Weighted Average Useful Life (Years) ⁽²⁾	Final
Cash and cash equivalents		\$8,208
Restricted cash		16,257
Other current assets		60,625
Property, plant and equipment		82,220
Equity method investments ⁽¹⁾		152,700
Intangible assets:		
Completed technology	3.4	18,500
Customer relationships	8.0	47,700
Backlog	3.0	18,300
Trademarks	5.0	1,000
Other non-current assets		2,321
Accounts payable and accrued liabilities		(68,864)
Debt, including current		(371,990)
Deferred tax liabilities, net		(71,954)
Unfavorable vendor contracts, including current		(13,500)
Deferred revenue, including current		(4,602)
Other non-current liabilities		(9,479)
Fair value of net assets acquired		(132,558)
Consideration transferred ⁽³⁾		165,039
Goodwill		\$298,847

(1) Represents 49% investments in WMS and Santander.

(2) The weighted average useful life in total is 5.9 years.

In June 2017, the Company finalized the working capital adjustments with the EMC seller resulting in the release (3) to the Company of \$1.3 million from a working capital adjustment escrow which reduced the Goodwill recorded. See Note 5. Goodwill.

Goodwill arising from the EMC Acquisition was allocated primarily to the Maritime & Land Connectivity reporting unit, and the remainder was allocated to the Media & Content reporting unit and Aviation Connectivity reporting unit based on management's belief that these latter two reporting units would realize synergies as a result of the EMC

Acquisition. See Note 5. Goodwill for the amount allocated to each reporting unit. The allocation of fair value resulted in tax deductible goodwill of \$74.9 million.

For the nine months ended September 30, 2016, \$0.8 million of transaction costs related to the EMC Acquisition, primarily consisting of legal and advisory fees, were classified as general and administrative in the Condensed Consolidated Statements of Operations. The Company did not incur any transaction costs during the nine months ended September 30, 2017.

The following unaudited pro forma summary presents consolidated information of EMC for the three and nine months ended September 30, 2016 assuming the EMC Acquisition had occurred on January 1, 2016. The most significant pro forma adjustments were to reflect the (net of tax) impact of: (i) amortization expenses related to intangibles; and (ii) interest expense on the then existing EMC indebtedness (taking into account the fair value adjustment to the debt as of the date of the EMC Acquisition).

Table of Contents

The unaudited pro forma financial information is an estimate for informational purposes only and does not reflect the actual results on the Company's operations had the EMC Acquisition been consummated on January 1, 2016. These pro forma amounts are not designed to represent the future expected financial results of the Company.

	Three Months Ended		Nine Months Ended

As of March 31, 2017, we assessed our goodwill for impairment and identified a triggering event due to a significant decline in the market capitalization of the Company. Accordingly, the Company assessed the fair value of its three reporting units as of March 31, 2017 and as a result the Company recorded an additional goodwill impairment charge of \$78.0 million related to its Maritime & Land Connectivity reporting unit. This additional impairment was primarily due to lower than expected financial results of the reporting unit during the three months ended March 31, 2017 due to delays in new maritime installations, slower than originally estimated execution of EMC Acquisition-related synergies and other events that occurred in the first quarter of 2017. The Company determined that there was a higher degree of uncertainty in achieving its financial projections for this unit and as such, increased its discount rate, which reduced the fair value of the unit. We did not record any further impairment of goodwill during the second or third quarters of 2017. As of September 30, 2017 our Maritime & Land reporting unit, which is included in our Connectivity segment, had negative carrying amounts of assets. As of September 30, 2017, remaining goodwill allocated to this reporting unit was \$67.1 million.

On June 29, 2017, we received \$1.3 million from the seller of the EMC business, relating to the working capital adjustment escrow in the EMC purchase agreement. The receipt was recorded as a purchase price accounting measurement period adjustment reducing the goodwill balance.

Note 6. Intangible Assets, net

As a result of historical business combinations, the Company acquired finite-lived intangible assets that are primarily amortized on a straight-line basis and the values of which approximate their expected cash flow patterns. The Company's finite-lived intangible assets have assigned useful lives ranging from 2.0 to 10.0 years (weighted average of 6.8 years).

Intangible assets, net consisted of the following (dollars in thousands):

		September 30, 2017		
	Weighted Average Useful Lives (Years)	Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount
Existing technology - software	4.8	\$43,019	\$ 17,615	\$25,404

Other	4.5	3,702	2,070	1,632
Total		\$255,385	\$ 88,665	\$166,720

We expect to record amortization of intangible assets as follows (in thousands):

Year ending December 31,	Amount
2017 (remaining three months)	\$10,991
2018	38,486
2019	28,691
2020	22,307
2021	13,826
Thereafter	19,436
Total	\$133,737

We recorded amortization expense of \$11.0 million and \$9.2 million for the three months ended September 30, 2017 and 2016, respectively, and \$32.8 million and \$24.1 million for the nine months ended September 30, 2017 and 2016, respectively.

Table of Contents

Note 7. Equity Method Investments

In connection with the EMC Acquisition, the Company acquired 49% equity interests in each of WMS and Santander (which interests EMC owned at the time of the EMC Acquisition). These investments are accounted for using the equity method of accounting, under which our results of operations include our share of the income of WMS and Santander in Income from equity method investments in our Condensed Consolidated Statements of Operations. Following is (1) the summarized balance sheet information for these equity method investments on an aggregated basis as of September 30, 2017 and December 31, 2016, and (2) results of operations information for these equity method investments on an aggregated basis for the three and nine months ended September 30, 2017 (in thousands):

	September 30, 2017	December 31, 2016
Current assets	\$ 38,146	\$ 30,837
Non-current assets	19,471	21,822
Current liabilities	17,273	20,455
Non-current liabilities	984	1,307

	Three Months Ended September 30, 2017	Nine Months Ended September 30, 2017
Revenue	\$ 36,696	\$ 104,141
Net income	6,658	17,636

The carrying values of the Company's equity interests in WMS and Santander as of September 30, 2017 and December 31, 2016 were as follows (in thousands):

	September 30, 2017	December 31, 2016
Carrying value in WMS	\$ 153,352	\$ 154,614
Carrying value in Santander	2,026	1,913

As of September 30, 2017 there was an aggregate difference of \$136.4 million between the carrying amounts of these investments and the amounts of underlying equity in net assets in these investments. The difference was determined by applying the acquisition method of accounting in connection with the EMC Acquisition and is being amortized ratably over the life of the related acquired intangible assets. The weighted-average life of the intangible assets at the time of the EMC Acquisition in total was 14.9 years.

Note 8. Financing Arrangements

A summary of our outstanding indebtedness as of September 30, 2017 and December 31, 2016 is set forth below (in thousands):

	September 30, December 31,	
	2017	2016
Senior secured term loan facility, due July 2021 ⁽¹⁾	\$ —	\$ 263,980

Senior secured term loan facility, due July 2022 ⁽¹⁾	—	92,000
Senior secured term loan facility, due January 2023 ⁽²⁾	493,750	—
Senior secured revolving credit facility, due January 2022 ⁽²⁾	78,000	—
2.75% convertible senior notes due 2035 ⁽³⁾	82,500	82,500
Other debt	2,669	3,299
Unamortized bond discounts, fair value adjustments and issue costs, net	(41,842)	(26,979)
Total carrying value of debt	615,077	470,300
Less: current portion, net	(13,424)	(2,069)
Total non-current	\$ 601,653	\$ 468,231

(1) In connection with the EMC Acquisition, the Company assumed legacy EMC credit-agreement indebtedness, including this facility. This legacy EMC indebtedness was subsequently replaced by the 2017 Credit Agreement (as described in [Note 8. Financing Arrangements](#)).

(2) This facility is a component of the 2017 Credit Agreement.

(3) The principal amount outstanding of the 2.75% convertible senior notes due 2035 as set forth in the foregoing table was \$82.5 million as of September 30, 2017, and are not the carrying amounts of this indebtedness (i.e., outstanding principal amount net of debt issuance costs and discount associated with the equity component).

Senior Secured Credit Agreement (2017 Credit Agreement)

On January 6, 2017, we entered into a senior secured credit agreement (“2017 Credit Agreement”) that provides for aggregate principal borrowings of up to \$585 million, consisting of a \$500 million term-loan facility (the “2017 Term Loans”) maturing January 6, 2023 and a \$85 million revolving credit facility (the “2017 Revolving Loans”) maturing January 6, 2022. (As of the date of the filing of this Form 10-Q, we have fully drawn the term-loan facility and—other than approximately \$1 million of availability that we are reserving for foreign currency fluctuations on outstanding letters of credit—have also fully drawn the revolving credit facility.) We used the proceeds of borrowings under the 2017 Credit Agreement to repay the then outstanding balance under a former EMC credit facility assumed in the EMC Acquisition and terminated the former credit facility assumed from EMC. In connection with this January 2017 refinancing, we recorded a loss on extinguishment of debt in the amount of \$14.5 million during the first quarter of 2017.

The 2017 Term Loans initially bore interest on the outstanding principal amount thereof at a rate per annum equal to (i) the Eurocurrency Rate (as defined in the 2017 Credit Agreement) plus 6.00% or (ii) the Base Rate (as defined in the 2017 Credit Agreement) plus 5.00% or (iii) the Eurocurrency Rate (as defined in the 2017 Credit Agreement) for each Interest Period (as defined in the 2017 Credit Agreement) plus 6.00%. The 2017 Credit Agreement initially required quarterly principal payments equal to 0.25% of the original aggregate principal amount of the 2017 Term Loans, with such payments reduced for prepayments in accordance with the terms of the 2017 Credit Agreement. The 2017 Revolving Loans initially bore interest at a rate per annum equal to (i) the Base Rate plus 5.00% or (ii) the Eurocurrency Rate or EURIBOR (as defined in the 2017 Credit Agreement) plus 6.00% until the delivery of financial statements for the first full fiscal quarter ending after the date of the 2017 Credit Agreement (“Closing Date”). After the

delivery of those financial statements, 2017 Revolving Loans bear interest at a rate based on the Base Rate, Eurocurrency Rate or EURIBOR (each as defined in the 2017 Credit Agreement) plus an interest-rate spread thereon that varies based on the Consolidated First Lien Net Leverage Ratio (as defined in the 2017 Credit Agreement). The spread thereon initially ranged from 4.50% to 5.00% for the Base Rate and 5.50% to 6.00% for the Eurocurrency Rate and EURIBOR. In May 2017 and October 2017, the interest rates and required quarterly principal payments for the 2017 Term Loans and the interest rates and interest-rate spreads for the 2017 Revolving Loans were amended as described below in Note 16. Subsequent Events.

The 2017 Credit Agreement also provides for the issuance of letters of credit in the amount equal to the lesser of \$15.0 million and the aggregate amount of the then-remaining revolving loan commitment. As of September 30, 2017, we had outstanding letters of credit of \$5.9 million under the 2017 Credit Agreement.

Certain of our subsidiaries are guarantors of our obligations under the 2017 Credit Agreement. In addition, the 2017 Credit Agreement is secured by substantially all of our tangible and intangible assets, including a pledge of all of the outstanding capital stock of substantially all of our domestic subsidiaries and 65% of the shares or equity interests of foreign subsidiaries, subject to certain exceptions.

The 2017 Credit Agreement contains various customary restrictive covenants that limit our ability to, among other things: create or incur liens on assets; make any investments, loans or advances; incur additional indebtedness, engage in mergers, dissolutions, liquidations or consolidations; engage in transactions with affiliates; make dispositions; and declare or make dividend payments. The 2017 Credit Agreement requires us to maintain compliance with a maximum consolidated first lien net leverage ratio, as set forth in the 2017 Credit Agreement. In addition, the 2017 Credit Agreement contains representations and warranties as to whether a material adverse effect on us has occurred since January 6, 2017, the closing date of the 2017 Credit Agreement. One of the conditions to drawing on the revolving credit facility is confirmation that the representations and warranties in the 2017 Credit Agreement are true on the date of borrowing, and if we are unable to make that confirmation, including that no material adverse effect has occurred, we will be unable to draw down further on the revolver. As of March 31, 2017, we were not in compliance with reporting covenants relating to the delivery of financial statements and other information. However, we have since obtained waivers from our lenders that extended the deadlines for delivery thereof (as described below in Note 16. Subsequent Events), and we have not at any time been in default under the 2017 Credit Agreement.

First Amendment to 2017 Credit Agreement and Limited Waiver to 2017 Credit Agreement

Prior to the Company entering into a First Amendment and Limited Waiver to Credit Agreement (the “May 2017 Amendment”), the Company obtained two short-term waivers that extended the Company’s deadline to deliver its audited annual financial statements for the fiscal year ended December 31, 2016 to May 4, 2017. On May 4, 2017, the Company signed the May 2017 Amendment, whereby the lenders waived the following events of default under the affirmative covenants. Failure to comply with any of the below requirements by their respective due dates would have constituted an immediate event of default.

failure to deliver the 2016 annual financial statements by March 31, 2017: the waiver was to remain effective so long as the Company issued an earnings release for the fiscal quarter ended December 31, 2016 (“Earnings Release”) on or prior to June 30, 2017 and delivered its 2016 audited consolidated financial statements by July 31, 2017. The June 2017 Amendment, September 2017 Extension, First October 2017 Amendment, October 2017 Extension, Second October 2017 Amendment and November 2017 Extension further amended this waiver as described below and in Note 16. Subsequent Events.

failure to deliver the quarterly financial statements for the quarter ended March 31, 2017 by May 15, 2017: the waiver was to remain effective so long as the Company issued the Earnings Release on or prior to June 30, 2017 and delivered the unaudited consolidated financial statements for the quarter ended March 31, 2017 on or prior to July 31, 2017. The June 2017 Amendment, September 2017 Extension, First October 2017 Amendment, Second October 2017 Amendment and December 2017 Amendment further amended this waiver as described below and in Note 16. Subsequent Events.

failure to deliver the Company’s budget to the Administrative Agent by April 30, 2017: the waiver was to remain effective so long as the Company delivered certain 2017 financial projections by May 31, 2017. The Company delivered its budget to the Administrative Agent by the required deadline.

The following affirmative covenant (pursuant to the May 2017 Amendment) was added to the 2017 Credit Agreement requiring the Company furnish the following information on a Current Report on Form 8-K by May 31, 2017, with the failure to comply with the requirement constituting an immediate event of default:

• estimated consolidated adjusted EBITDA of the Company for the fiscal quarter ended December 31, 2016 with a range of no greater than \$5,000,000, and

the then-current consolidated cash balance, then-current cash balance of the Company's foreign subsidiaries, and the then-current outstanding balance under the 2017 Revolving Loans,

The Company complied with this affirmative covenant by the due date.

Under the 2017 Credit Agreement (as amended by the May 2017 Amendment), the Initial Term Loans (as defined in the 2017 Credit Agreement) initially bore interest on the outstanding amount at a rate per annum equal to either (i) the Base Rate plus 6.00% or (ii) the Eurocurrency Rate for each Interest Period plus 7.00%. In October 2017, these interest rates increased as described below and in Note 16. Subsequent Events.

The 2017 Revolving Loans initially bore interest at a rate equal to either (i) the Base Rate plus 6.00% or (ii) the Eurocurrency Rate or EURIBOR plus 7.00% until the Company delivered its unaudited financial statements for the quarter ending June 30, 2017, but those interest rates increased in October 2017 as described below. After the delivery of those unaudited financial statements, the 2017 Revolving Loans will bear interest at a rate based on the Base Rate, Eurocurrency Rate or EURIBOR plus an interest-rate spread thereon that varies on the Consolidated First Lien Net Leverage Ratio. The spread thereon ranged from 5.50% to 6.00% for the Base Rate and 6.50% to 7.00% for the Eurocurrency Rate and EURIBOR, but those spreads increased in October 2017 as described below and in Note 16. Subsequent Events.

The 2017 Credit Agreement (as amended by the May 2017 Amendment) requires quarterly principal payments equal to (i) 0.625% of the original aggregate principal amount of the Initial Term Loans for each of the first eight quarterly payment dates after May 4, 2017 and (ii) 1.25% of the original aggregate principal amount of the Initial Term Loans for each quarterly payment date occurring thereafter.

The May 2017 Amendment modified certain restrictive covenants and the maximum Consolidated First Lien Net Leverage Ratio under the 2017 Credit Agreement. In connection with the May 2017 Amendment, the Company paid each lender that consented to that amendment a consent fee in the amount equal to 1.0% of the aggregate principal amount of the Revolving Credit Commitments and outstanding Term Loans held by such lenders as of May 4, 2017. The fee paid totaled \$5.6 million.

Amendment to First Amendment and Limited Waiver to Credit Agreement and Second Amendment to Credit Agreement

On June 29, 2017, the Company entered into an Amendment to First Amendment and Limited Waiver to Credit Agreement and Second Amendment to Credit Agreement (the "June 2017 Amendment"). Pursuant to the June 2017 Amendment:

• The Company was no longer required to deliver the Earnings Release by June 30, 2017.

The Company had until September 15, 2017 (rather than July 31, 2017 as required under the May 2017 Amendment) to deliver its audited annual financial statements for the year ended December 31, 2016 (together with the related audit report and opinion from the Company's independent accountants and the other items required by the 2017 Credit Agreement (as amended) to be delivered therewith, the "Annual Financial Statement Deliverables"). The September 2017 Extension, First October 2017 Amendment, Second October 2017 Amendment and November 2017 Extension amended this requirement as described below and in Note 16. Subsequent Events.

• The Company had up to 30 days following the date on which it delivered the Annual Financial Statement Deliverables to deliver its unaudited financial statements for both (i) the quarter ended March 31, 2017 (versus a required delivery date of July 31, 2017 under the 2017 First Amended Credit Agreement) and (ii) the quarter ended June 30, 2017. The September 2017 Extension, First October 2017 Amendment, Second October 2017 Amendment and December 2017

Amendment amended this requirement as described below and in Note 16. Subsequent Events.

Under the June 2017 Amendment, the Company agreed to pay to the lenders that consented to the June 2017 Amendment (“June 2017 Consenting Lenders”): (i) if the Company had not delivered the Annual Financial Statement Deliverables on or prior to June 30, 2017, a fee in an amount equal to 0.25% of the aggregate principal amount of the revolving credit commitments and term loans held by the June 2017 Consenting Lenders as of June 30, 2017; (ii) if the Company had not delivered the Annual Financial Statement Deliverables on or prior to July 31, 2017, a fee in an amount equal to 0.25% of the aggregate principal amount of the revolving credit commitments and term loans held by the June 2017 Consenting Lenders as of July 31, 2017; and (iii) if the Company had not delivered the Annual Financial Statement Deliverables on or prior to August 31, 2017, a fee in an amount equal

to 0.25% of the aggregate principal amount of the revolving credit commitments and term loans held by the June 2017 Consenting Lenders as of August 31, 2017. The fees paid pursuant to this paragraph totaled \$3.9 million.

Second Amendment to Limited Waiver to Credit Agreement

On September 13, 2017, the Company entered into a Second Amendment to Limited Waiver to Credit Agreement (the “September 2017 Extension”) that amends the June 2017 Amendment as follows:

- The Company would have until September 30, 2017 (rather than September 15, 2017 as previously required under the June 2017 Amendment) to deliver the Annual Financial Statement Deliverables.
- The Company would also continue to have up to 30 days (as provided for in the June 2017 Amendment) following the date on which it delivers the Annual Financial Statement Deliverables to deliver its unaudited financial statements for both the quarter ended March 31, 2017 and the quarter ended June 30, 2017.

The First October 2017 Amendment, Second October 2017 Amendment, November 2017 Extension and December 2017 Amendment amended these requirements as described below in Note 16. Subsequent Events.

Under the September 2017 Extension, the Company agreed to pay to the lenders that consented to the September 2017 Extension (the “September 2017 Consenting Lenders”) a fee in an amount equal to 0.25% of the aggregate principal amount of the Revolving Credit Commitments and Term Loans held by the September 2017 Consenting Lenders as of September 13, 2017. The fee paid totaled \$1.4 million.

2.75% Convertible Senior Notes due 2035

In February 2015, we issued an aggregate principal amount of \$82.5 million of convertible senior notes due 2035 (the “Convertible Notes”) in a private placement. The Convertible Notes were issued at par, pay interest semi-annually in arrears at an annual rate of 2.75% and mature on February 15, 2035, unless earlier repurchased, redeemed or converted pursuant to the terms of the Convertible Notes. In certain circumstances and subject to certain conditions, the Convertible Notes are convertible at an initial conversion rate of 53.9084 shares of common stock per \$1,000 principal amount of notes (which represents an initial conversion price of approximately \$18.55 per share), subject to adjustment. Holders of the Convertible Notes may convert their Convertible Notes at their option at any time prior to the close of business on the business day immediately preceding November 15, 2034, only if one or more of the following conditions has been satisfied: (1) during any calendar quarter beginning after March 31, 2015 if the closing price of our common stock equals or exceeds 130% of the respective conversion price per share during a defined period at the end of the previous quarter, (2) during the five consecutive business day period immediately following any five consecutive trading day period in which the trading price per \$1,000 principal amount of Convertible Notes for each trading day was less than 98% of the product of the last reported sale price of our common stock and the conversion rate on each such trading day; (3) if specified corporate transactions occur, or (4) if we call any or all of the Convertible Notes for redemption, at any time prior to the close of business on the second business day immediately preceding the redemption date. On or after November 15, 2034, until the close of business on the second scheduled trading day immediately preceding the maturity date, a holder may convert all or a portion of its Convertible Notes at any time, regardless of the foregoing circumstances.

On February 20, 2022, February 20, 2025 and February 20, 2030 and if we undergo a “fundamental change” (as defined in the indenture governing the Convertible Notes (the “Indenture”)), subject to certain conditions, a holder will have the option to require us to repurchase all or a portion of its Convertible Notes for cash at a repurchase price equal to 100% of the principal amount of the Convertible Notes to be repurchased, plus any accrued and unpaid interest, if any, to, but excluding, the relevant repurchase date. If our common stock ceases to be listed or quoted on Nasdaq, this would constitute a “fundamental change,” as defined in the Indenture, and the holders of the Convertible Notes would have the

right to require us to repurchase all or a portion of their convertible notes at a repurchase price equal to 100% of the principal amount of our convertible notes to be repurchased. In addition, upon the occurrence of a “make-whole fundamental change” (as defined in the Indenture) or if we deliver a redemption notice prior to February 20, 2022, we will, in certain circumstances, increase the conversion rate for a holder that converts its Convertible Notes in connection with such make-whole fundamental change or redemption notice, as the case may be.

The Company may not redeem the Convertible Notes prior to February 20, 2019. The Company may, at its option, redeem all or part of the Convertible Notes at any time (i) on or after February 20, 2019 if the last reported sale price per share of our

common stock has been at least 130% of the conversion price then in effect for at least 20 trading days during any 30 consecutive trading day period ending on, and including, the trading day immediately preceding the date on which we provide written notice of redemption and (ii) on or after February 20, 2022 regardless of the sale price condition described in clause (i), in each case, at a redemption price equal to 100% of the principal amount of the Convertible Notes to be redeemed, plus accrued and unpaid interest to, but excluding, the redemption date. Upon conversion of any Convertible Note, we shall pay or deliver to the converting noteholder cash, shares of common stock or a combination of cash and shares of our common stock, at our election.

The Company separated the Convertible Notes into liability and equity components. The carrying amount of the liability component of \$69.5 million (as of September 30, 2017) was calculated by measuring the fair value of similar liabilities that do not have an associated convertible feature. The carrying amount of the equity component was calculated to be \$13.0 million (as of September 30, 2017), and represents the conversion option which was determined by deducting the fair value of the liability component from the principal amount of the notes. This difference represents a debt discount that is amortized to interest expense over the term of the Convertible Notes. The equity component is not remeasured as long as it continues to meet the conditions for equity classification.

In accounting for the direct transaction costs (the “issuance costs”) related to the Convertible Notes, we allocated the total amount of issuance costs incurred to the liability and equity components based on their relative values. We recorded issuance costs of \$1.8 million and \$0.3 million to the liability and equity components, respectively. Issuance costs, including fees paid to the initial purchasers who acted as intermediaries in the placement of the Convertible Notes, attributable to the liability component are presented in the Condensed Consolidated Balance Sheets as a direct deduction from the carrying amount of the debt instrument and are amortized to interest expense over the term of the Convertible Notes in the Condensed Consolidated Statements of Operations. The issuance costs attributable to the equity component are netted with the equity component and included within Additional paid-in capital in the Condensed Consolidated Balance Sheets. Interest expense related to the amortization expense of the issuance costs associated with the liability component was not material during the three or nine months ended September 30, 2017.

As of September 30, 2017 and December 31, 2016, the outstanding principal on the Convertible Notes was \$82.5 million, and the outstanding Convertible Notes balance, net of debt issuance costs and discount associated with the equity component, was \$69.5 million and \$69.0 million, respectively. Subsequent to March 31, 2017, we became non-compliant with our obligations under the Indenture relating to the delivery to the Indenture trustee of our 2016 annual financial statements and interim financial statements for the quarters ended March 31, June 30 and September 30, 2017 and such non-compliance constituted an Event of Default (as defined in the Indenture) under the Indenture. As a result, immediately after the occurrence of the Event of Default and through such time as the noncompliance was continuing, we incurred additional interest on the Convertible Notes at a rate equal to (i) 0.25% per annum of the principal amount of the Convertible Notes outstanding for each day during the first 90 days after the occurrence of each Event of Default and (ii) 0.50% per annum of the principal amount of the Convertible Notes outstanding from the 91st day until the 180th day following the occurrence of each such Event of Default. (The Company cured its non-compliance relating to the delivery of the 2016 annual financial statements by filing its 2016 Form 10-K on November 17, 2017 and relating to the delivery of the March 31, June 30 and September 30, 2017 financial statements by filing the Q1 Form 10-Q and the Q2 Form 10-Q concurrently with the filing of this Form 10-Q.) However, the maximum additional interest was capped at 0.50% per annum irrespective of how many Events of Default are in existence at any time for our failure to deliver any required financial statements. The aggregate penalty interest incurred during this period of non-compliance was approximately \$0.2 million.

On the 181st day after each Event of Default (such 181st date, the “Notes Acceleration Date”) the Convertible Notes will be immediately due and payable if the noncompliance is not cured or waived by such date and the noteholders elect to so accelerate. For the interim financial statements for the quarters ended March 31, June 30 and September 30, 2017, the Notes Acceleration Date would have occurred in February 2018, May 2018 and September 2018, respectively. As noted above, the Company cured the Events of Default relating to the delivery of the 2016 annual

financial statements by filing its 2016 Form 10-K on November 17, 2017 and relating to the March 31, June 30 and September 30, 2017 financial statements by filing the Q1 Form 10-Q, the Q2 Form 10-Q and this Form 10-Q. As such, the noteholders will not have any right to elect to accelerate the Convertible Notes as a result of those Events of Default.

Other Debt

With the acquisition of Travel Entertainment Group Equity Limited and subsidiaries (“IFES”) on October 18, 2013, the Company assumed a \$1.1 million mortgage maturing in October 2032 that bears interest at a rate equal to 1.75% per annum.

Interest is paid on a monthly basis. There was no accrued interest owing on the mortgage as of September 30, 2017 and December 31, 2016. As of September 30, 2017 and December 31, 2016, there was \$0.7 million due on the principal amount of the mortgage.

In connection with the EMC Acquisition, the Company assumed approximately \$1.1 million of capital lease obligations. The Company also entered into an additional \$1.0 million capital lease obligation during 2016. These leases expire at various dates through 2020. As of September 30, 2017 and December 31, 2016, we had \$1.9 million and \$2.0 million of capital lease obligations, respectively, included in Other debt. Other debts also include an equipment financing arrangement totaling \$0.4 million as of September 30, 2017, which is to mature in June 2019.

The aggregate contractual maturities of all borrowings due subsequent to September 30, 2017 are as follows (in thousands):

Years Ending December 31,	Amount
2017 (remaining three months)	\$4,018
2018	13,180
2019	22,275
2020	25,135
2021	25,044
Thereafter	567,267
Total	\$656,919

Note 9. Commitments and Contingencies

Movie License and Internet Protocol Television (“IPTV”) Commitments

In the ordinary course of business, we have long-term commitments, such as license fees and guaranteed minimum payments owed to content providers. In addition, we have long-term arrangements with service and television providers to license and provide content and IPTV services that are subject to future guaranteed minimum payments from us to the licensor.

The following is a schedule of future minimum commitments under movie and IPTV arrangements as of September 30, 2017 (in thousands):

Years Ending December 31,	Amount
2017 (remaining three months)	\$21,013
2018	34,988
2019	8,755
2020	1,409
2021	925
Thereafter	—
Total	\$67,090

Operating Lease Commitments

The Company leases its operating facilities under non-cancelable operating leases that expire on various dates through 2025. Certain operating leases provide us with the option to renew for additional periods. Where operating leases contain escalation clauses, rent abatements, and/or concessions, such as rent holidays and landlord or tenant incentives or allowances, we apply them in the determination of straight-line rent expense over the lease term. Some of our operating leases require the payment of real estate taxes or other occupancy costs, which may be subject to escalation.

The Company also leases some facilities and vehicles under month-to-month arrangements.

The following is a schedule of future minimum lease payments under operating leases as of September 30, 2017 (in thousands):

Years Ending December 31,	Amount
2017 (remaining three months)	\$ 1,000
2018	4,209
2019	3,495
2020	2,506
2021	2,486
Thereafter	4,575
Total	\$ 18,271

Total rent expense for the three months ended September 30, 2017 and 2016 was \$1.6 million and \$1.7 million, respectively. Total rent expense for the nine months ended September 30, 2017 and 2016 was \$5.1 million and \$4.0 million, respectively. We are responsible for certain operating expenses in connection with these leases.

Capital Leases

The Company leases certain computer software and equipment under capital leases that expire on various dates through 2020. The current portion and non-current portion of capital lease obligations are included in Current portion of long-term debt and Long-term debt, respectively, on the Condensed Consolidated Balance Sheets. As of September 30, 2017, future minimum lease payments under these capital leases were as follows (in thousands):

Year Ending December 31,	Amount
2017 (remaining three months)	\$ 496
2018	622
2019	443
2020	371
Total minimum lease payments	1,932
Less: amount representing interest	(106)
Present value of net minimum lease payments	1,826
Less current portion	(907)
Capital lease obligation, non-current	\$ 919

Satellite Capacity Commitments

The Company maintains agreements with satellite service providers to provide for satellite capacity. The Company expenses these satellite fees in the month the service is provided as a charge to licensing and services cost of sales.

In connection with the EMC Acquisition, the Company assumed several contractual commitments for satellite services. During the third quarter of 2016, EMC entered into an amendment to its existing service agreement with one of its satellite service providers. Under this amendment, the amount of committed satellite bandwidth was significantly increased and our total contract commitment was increased by \$40 million.

The following is a schedule of future minimum satellite costs as of September 30, 2017 (in thousands):

Years Ending December 31,	Amount
2017 (remaining three months)	\$25,484
2018	85,655
2019	76,868
2020	54,326
2021	31,178
Thereafter	134,689
Total	\$408,200

Other Commitments

In connection with the EMC Acquisition, the Company was obligated to pay the EMC seller up to an additional \$25.0 million on the first anniversary date in, at the Company's option, (a) cash, (b) newly issued shares of Company common stock or (c) a combination of cash and newly issued shares of Company common stock. On July 27, 2017, we elected to satisfy this obligation wholly in newly issued shares of our common stock, and satisfied the obligation by issuing 5,080,049 shares of common stock at that time to the EMC seller.

Through the acquisitions of WOI, RMG, masFlight and navAero in 2015, the Company agreed to future contingent earn-out obligations relating to future performance of those businesses. As of September 30, 2017 and December 31, 2016, the total liability was approximately \$0.3 million and \$2.0 million, respectively, with potential payouts on specified dates through 2020.

In the normal course of business, the Company enters into future purchase commitments with some of its connectivity vendors to secure future inventory for its airlines customers and the development pertaining to engineering and antenna projects. At September 30, 2017, the Company also had outstanding letters of credit in the amount of \$7.1 million, of which \$5.9 million issued under the letter of credit facility under the 2017 Credit Agreement. See Note 8. Financing Arrangements.

Contingencies

We are subject to various legal proceedings and claims that have arisen in the ordinary course of business and that have not been fully adjudicated. We record accruals for loss contingencies when our management concludes it is probable that a liability has been incurred and the amount of the related loss can be reasonably estimated. On a regular basis, our management evaluates developments in legal proceedings and other matters that could cause an increase or decrease in the amount of the liability that has been accrued previously. While it is not possible to accurately predict or determine the eventual outcomes of these matters, an adverse determination in one or more of these matters could have a material adverse effect on our consolidated financial position, results of operations or cash flows. Some of our legal proceedings as well as other matters that our management believes could become significant are discussed below:

Music Infringement and Related Claims. On May 6, 2014, UMG Recordings, Inc., Capitol Records, Universal Music Corp. and entities affiliated with the foregoing (collectively, "UMG") filed suit in the United States District Court for the Central District of California against us and Inflight Productions Ltd. ("IFP") for copyright infringement and related claims and unspecified money damages. IFP is a direct subsidiary of Global Entertainment AG (formally AIA) and as such is our indirect subsidiary. In August 2016, we entered into settlement agreements with major record labels and publishers, including UMG, to settle music copyright infringement and related claims (the "Sound-Recording Settlements"). As a result of the Sound-Recording Settlements, we paid approximately \$18.0 million in cash and issued approximately 1.8 million shares of our common stock to settle lawsuits and other claims. Under the settlement agreement with UMG, we paid UMG an additional \$5.0 million in cash in March 2017 and agreed to issue 500,000

additional shares of our common stock when and if our closing price of our common stock exceeds \$10.00 per share and 400,000 additional shares of our common stock when and if the closing price of our common stock exceeds \$12.00 per share.

In 2016, we received notices from several other music rights holders and associations acting on their behalf regarding potential claims that we infringed their music rights and the rights of artists that they represent. To date, none of these

rights holders or associations has initiated litigation against us. We have not accrued a reserve for these loss contingencies at this time because we do not currently believe that a material loss relating to these matters is probable. Based on our previous music litigation experience, we believe that a material loss relating to these matters is reasonably possible, but we are currently unable to estimate the amount of such loss at this time due to the preliminary nature of the potential claims. We intend to vigorously defend ourselves against these claims.

SwiftAir Litigation. On August 14, 2014, SwiftAir, LLC filed suit against our wholly owned subsidiary Row 44 and one of its airline customers for breach of contract, quantum meruit, unjust enrichment and similar claims and money damages in the Superior Court of California for the County of Los Angeles. SwiftAir and Row 44 had a contractual relationship whereby Row 44 agreed to give SwiftAir access to its portal for one of its airline customers so that SwiftAir could market its destination deal product to the airline customer's passengers. In 2013, after Row 44's customer decided not to proceed with SwiftAir's destination deal product, Row 44 terminated the contract. In its lawsuit, SwiftAir seeks approximately \$9.0 million in monetary damages against Row 44 and its airline customer. The Court has scheduled the trial for this matter in February 2018. We have not accrued a reserve for this loss contingency at this time because we do not currently believe that a material loss relating to this matter is probable. We believe that a material loss relating to this matter is reasonably possible, but we are currently unable to estimate the amount of the potential loss at this time. We intend to vigorously defend ourselves against this claim.

AMN Litigation. On March 4, 2016, Advanced Media Networks ("AMN") filed suit against EMC (which is our wholly owned subsidiary) and Maritime Telecommunications Network, Inc., a wholly-owned indirect subsidiary of EMC ("MTN") in U.S. District Court for the Southern District of Florida, for allegedly infringing two of AMN's patents and seeking injunctive relief and unspecified monetary damages. We had recorded a loss contingency and indemnification receivable due from the seller of EMC for this matter in the purchase price accounting and as of December 31, 2016. In June 2017 however, EMC and MTN settled the lawsuit with AMN, and pursuant to the purchase agreement whereby EMC purchased the MTN business, the sellers of the MTN business indemnified EMC and MTN for the full settlement amount and all related legal expenses.

STM Litigation. On April 12, 2016, STM Atlantic N.V. and STM Group, Inc. (jointly, the "STM Sellers") filed a breach-of-contract action in Delaware Superior Court against EMC relating to EMC's 2013 acquisition of STM Norway AS, STMEA (FZE), Vodanet Telecomunicações Ltda. and STM Networks from the STM Sellers. The STM Sellers allege, among other things, that EMC breached earn-out provisions in the purchase agreement by failing to develop and sell sat-link technology following the acquisition closing. The STM Sellers seek \$20 million in damages. The Court has scheduled the trial for this matter in February 2018. We have not accrued a reserve for these loss contingencies at this time because we do not currently believe that a material loss relating to these matters is probable. We believe that a material loss relating to this matter is reasonably possible, but we are currently unable to estimate the amount of such loss at this time. Additionally, pursuant to the purchase agreement whereby we purchased the EMC business, the seller of the EMC business agreed to indemnify us in full for this claim and assumed the defense of this matter. We intend to vigorously defend ourselves against this claim.

Securities Class Action Litigation. On February 23, 2017 and on March 17, 2017, following our announcement that we anticipated a delay in our 2016 Form 10-K filing and that our former CEO and former CFO would separate from us, three putative securities class action lawsuits were filed in United States District Court for the Central District of California. These lawsuits alleged violations of Sections 10(b) and 20(a) of the Securities Exchange Act against us, our former CEO and two of our former CFOs. The plaintiffs voluntarily dismissed two of these lawsuits. The third lawsuit, brought by putative stockholder M&M Hart Living Trust and Randi Williams (the "Hart complaint"), alleged that we and the other defendants made misrepresentations and/or omitted material information about the EMC Acquisition, our projected financial performance and synergies following that acquisition, and the impact of that acquisition on our internal controls over financial reporting. The plaintiffs sought unspecified damages, attorneys' fees and costs. On November 2, 2017, the Court granted our and the other defendants' motion to dismiss the Hart complaint, and dismissed the action with prejudice. On November 30, 2017, the plaintiffs filed a motion to alter or

amend the Court's previous judgment of dismissal to permit them to file a further amended complaint. On January 8, 2018 the Court denied the plaintiffs' motion to alter or amend the previous judgment. On January 29, 2018, the plaintiffs filed a notice of appeal to the United States Court of Appeals for the Ninth Circuit from the Court's denial of the plaintiffs' motion to alter or amend the judgment. We have not accrued a reserve for this loss contingency at this time because we currently believe that a material loss relating to this matter is remote. We intend to vigorously defend ourselves against this claim.

In addition, from time to time, we are or may be party to various additional legal matters incidental to the conduct of our business. Some of the outstanding legal matters include speculative claims for indeterminate amounts of damages, for which we have not recorded any contingency reserve. Additionally, we have determined that other legal matters are likely not material to our financial statements, and as such have not discussed those matters above. Although we cannot predict with certainty the ultimate resolution of these speculative and immaterial matters, based on our current knowledge, we do not believe that the outcome of any of these matters will have a material adverse effect on our financial statements.

Note 10. Related Party Transactions

Loan Agreement with Lumexis

On February 24, 2016, we entered into a loan agreement (the “Loan Agreement”) with Lumexis Corporation (“Lumexis”), a company that provided in-flight entertainment systems to airlines. Lumexis was at the time majority-owned by PAR Investment Partners, L.P. (“PAR”), which beneficially owned approximately 31.9% of our outstanding shares of common stock as of January 22, 2018. At the time we entered into the Loan Agreement, the Chair of our Board of Directors was also a Managing Partner of PAR and a member of Lumexis’s board of directors.

The Loan Agreement provided for extensions of credit by us to Lumexis of up to \$5.0 million. Our Board of Directors considered the Loan Agreement under our policies and procedures regarding related person transactions, and determined that it was appropriate and in our best interests and our stockholders to enter into the Loan Agreement due to Lumexis’ position as an important supplier to flydubai (one of our connectivity customers) and to another airline that was a potential customer, and in light of Lumexis’s future business prospects. Our Board of Directors further determined that the parties’ relationships did not give rise to any material conflict of interest in entering into the Loan Agreement. Our Board Chair recused himself from discussions regarding the Loan Agreement and did not vote on whether we should enter into the transaction.

The Loan Agreement qualifies Lumexis as our variable interest entity. In accordance with ASC 810, Consolidation, we were not deemed to be the primary beneficiary of Lumexis because we did not hold any power over Lumexis’s activities that most significantly impacted its economic performance. Therefore, Lumexis was not subject to consolidation into our financial reporting. The maximum exposure to loss as a result of the Loan Agreement was the outstanding principal balance of the loan and any accrued interest thereon.

The borrowings under the Loan Agreement were evidenced by a senior secured promissory note (the “Note”) and bore interest at a per annum rate of 15%. The outstanding principal and accrued interest thereon were payable in full on December 31, 2016. As a result of information provided by Lumexis, in June 2016 as to the note’s collectability and Lumexis’s insolvency, our management impaired the value of Note during the three months ended June 30, 2016 and discontinued accruing interest receivable.

On December 5, 2016, we, Lumexis and PAR entered into a Partial Cancellation of Debt and Acceptance of Collateral, which provided a transfer of certain assets in the amount of \$0.2 million to us in partial satisfaction of the Lumexis’ principal amount of the outstanding debt. On January 6, 2017, we—as the senior-most secured creditor of Lumexis—then foreclosed on substantially all of Lumexis’s remaining assets pursuant to a public foreclosure auction. Subsequent to June 30, 2017, during the third quarter of 2017, the Company entered into an arrangement with flydubai to sell to flydubai certain of the assets acquired on January 6, 2017. The arrangement resulted in a recovery of approximately \$0.2 million during the three months ended September 30, 2017.

Due from WMS

In connection with the EMC Acquisition, the Company acquired a 49% equity interest in WMS. The Company accounts for its interest in WMS using the equity method and includes the Company's share of WMS's profits or losses in Income from equity method investments in the Condensed Consolidated Statements of Operations. During the three and nine months ended September 30, 2017 sales to WMS (for the Company's services provided to WMS for WMS's onboard cellular equipment) were approximately \$0.2 million and \$0.9 million, respectively, under the terms of the WMS operating agreement and an associated master services agreement with WMS. These sales are included in Revenue in the Condensed Consolidated Statements of Operations. As of September 30, 2017 and December 31, 2016, we had a balance due from WMS of \$0.2 million and \$0.1 million, respectively, included in Accounts receivable, net in the Condensed Consolidated Balance Sheets.

Due to Santander

Also in connection with the EMC Acquisition, the Company acquired a 49% equity interest in Santander. The Company accounts for its interest in Santander using the equity method and includes our share of Santander's profits or losses in Income from equity method investments in the Condensed Consolidated Statements of Operations. As of September 30, 2017 and December 31, 2016 the Company owed Santander approximately \$0.6 million and \$0.8 million, respectively, which is included in Accounts payable and accrued liabilities in the Condensed Consolidated Balance Sheets for their teleport services and related network operations support services.

Transactions with TRIO Connect, LLC and its Affiliates

In July 2015, EMC divested its interest in TRIO Connect, LLC ("TRIO"), a joint venture formed to commercialize EMC's ARABSAT Ka Band contract, such that TRIO became then owned by funds affiliated with ABRY Partners (a former EMC majority owner and one of our current significant stockholders), Abel Avellan (our former President and Chief Strategy Officer, who left the Company in April 2017) and other equity holders not affiliated with us. Global Eagle did not acquire the TRIO business as a part of the EMC Acquisition.

Prior to the EMC Acquisition, EMC and its subsidiaries had collectively made various loans to TRIO and its affiliated entities in an aggregate principal of approximately \$5.7 million. Also, prior to the EMC Acquisition, STMEA (FZE), a wholly-owned subsidiary of TRIO, had made equipment sales and provided employee payroll services to EMC and its subsidiaries in an aggregate amount equal to approximately \$4.9 million. After applying the trade payables against the outstanding loan amounts, TRIO and its affiliates collectively owed EMC and its subsidiaries approximately \$0.8 million (as of July 2016). Due to the deterioration of TRIO's financial condition, EMC determined the remaining balance was uncollectible and fully impaired the value of the loan receivable prior to the EMC Acquisition. The Company did not pay any consideration for the loan receivable in the EMC Acquisition, although the Company did assume the receivable in the EMC Acquisition. The Company believes that the receivable is now uncollectible, and as such expects to forgive it in full in the near future.

In addition, immediately following the EMC Acquisition, EMC's employees in the UAE were managed and employed by TRIO's UAE entity. Because EMC did not have its own entity in UAE at the time we acquired EMC, the Company (through EMC) entered into a transition services agreement with TRIO whereby TRIO would continue to employ the UAE employees for the Company's benefit—and "second" them to the Company at cost—until the Company formed its own licensed UAE subsidiary. For the three-month period (July 2016 to October 2016) following the EMC Acquisition, the Company paid to TRIO approximately \$0.6 million for payroll related services and expenses for the "seconded" employees. The Company did not pay any further amounts under the transition services agreement after October 2016.

Between October 2016 and August 2017, the Company made payments to TRIO totaling \$0.4 million for equipment purchases and service fees in connection with various customer contracts. In September 2017, the Company made additional equipment purchases totaling \$0.4 million for customer orders and for inventory purposes. All of these purchase transactions were on arms'-length pricing and terms.

Subscription Receivable with a Former Employee

A former employee is party to a Secured Promissory Note dated July 15, 2011, pursuant to which the former employee agreed to pay the Company (as successor to Row 44, Inc., which is a Company subsidiary) a principal sum of approximately \$0.4 million, plus interest thereon at a rate of 6% per annum. The former employee granted the Company a security interest in shares of Row 44 held by him (which Row 44 shares were subsequently converted into 223,893 shares of the Company's common stock) to secure his obligations to repay the loan. As of September 30, 2017 and December 31, 2016, the balance of the note (with interest) was approximately \$0.6 million, which is presented as a subscription receivable. We recognize interest income on the note when earned (using the simple interest method)

but have not collected any interest payments since the origination of the note. Interest income recognized by the Company during the three and nine months September 30, 2017 and 2016 was not material. The Company makes ongoing assessments regarding the collectability of this note and the subscription receivable balance.

masFlight Earn-Out

In August 2015, the Company acquired masFlight for approximately \$10.3 million in cash and \$9.3 million in contingent consideration. A former executive of masFlight (Joshua Marks) is now an executive officer of the Company. As a portion of the contingent consideration is subject to future employment of certain employees of masFlight, such contingent consideration is recorded as compensation expense subsequent to the acquisition date. During the three and nine months ended September 30, 2017, we recognized compensation expense of less than \$0.1 million relating to the masFlight contingent consideration. As of September 30, 2017, the remaining earn-out compensation liability was less than \$0.1 million, the beneficiaries of which include Mr. Marks and other former masFlight equityholders. This compensation liability was terminated in August 2017 without any required payment by us relating thereto.

Note 11. Common Stock, Share-Based Awards and Warrants

Common Stock

Issuance of Common Stock

The Company issued approximately 5.5 million shares of its common stock to the EMC seller on July 27, 2016 in connection with the EMC Acquisition. On the first anniversary of the EMC Acquisition, on July 27, 2017, the Company issued to the EMC seller an additional approximately 5.0 million shares of the Company's common stock. Pursuant to the EMC purchase agreement, 50% of the newly issued shares was valued at \$8.40 per share, and 50% was valued at the volume-weighted average price of a share of Company common stock measured two days prior the first anniversary date.

Furthermore, in August 2016, the Company issued approximately 1.8 million shares of its common stock as partial consideration for the Sound-Recording Settlements. The Company is obligated to issue an additional 500,000 shares of its common stock to UMG in connection with the litigation when and if the share price of the Company's common stock exceeds \$10.00 per share and an additional 400,000 shares of its common stock when and if the closing price exceeds \$12.00 per share (together, the "Supplemental Shares") at any time in the future if the share price reaches these price thresholds. In lieu of issuing the Supplemental Shares of the Company's common stock upon exceeding the respective share price thresholds, the Company may pay the equivalent in cash at its sole discretion. If the Company were to experience a liquidation event, as defined in the settlement documentation, and if the equivalent liquidation price per share at that time exceeds one or both of the share price thresholds, the Company is obligated to pay the equivalent liquidation price per share in cash in lieu of issuing the Supplemental Shares. See Note 9. Commitments and Contingencies for a further description of the Sound-Recording Settlements.

2013 Equity Plan

Under our 2013 Amended and Restated Equity Incentive Plan (as amended, the "2013 Equity Plan"), the Administrator of the Plan, which is the Compensation Committee of our Board of Directors, was able to grant up to 11,000,000 shares (through stock options, restricted stock, restricted stock units ("RSUs")) (including both time-vesting and performance-based RSUs) and other incentive awards) to employees, officers, non-employee directors, and consultants. We ceased using the 2013 Equity Plan for new equity issuances in December 2017 upon receiving stockholder approval of our new 2017 Omnibus Long-Term Incentive Plan, although we continue to have outstanding previously granted equity awards issued under the 2013 Equity Plan. These previously granted awards represent the right to receive 7,070,298 shares of our common stock (as of January 18, 2018) if and when they later vest and/or are exercised. See "2017 Equity Plan" immediately below.

2017 Equity Plan

On December 21, 2017, our stockholders approved a new 2017 Omnibus Long-Term Incentive Plan (the “2017 Omnibus Plan”). We had 2,097,846 shares remaining shares available for issuance under the 2013 Equity Plan (as of that date) and those shares rolled into the 2017 Omnibus Plan and are now available for grant thereunder. The 2017 Omnibus Plan separately made available 6,500,000 shares of our common stock for new issuance thereunder, in addition to those rolled over from the 2013 Equity Plan. The Administrator of the 2017 Omnibus Plan, which is the Compensation Committee of our Board of Directors, may grant share awards (through stock options, restricted stock, RSUs (including both time-vesting and performance-based RSUs) and other incentive awards) to employees, officers, non-employee directors, and consultants.

Stock Repurchase Program

In March 2016, the Company's Board of Directors authorized a stock repurchase program under which the Company may repurchase up to \$50.0 million of its common stock. Under the stock repurchase program, the Company may repurchase shares from time to time using a variety of methods, which may include open-market purchases and privately negotiated transactions. The extent to which the Company repurchases its shares, and the timing and manner of such repurchases, will depend upon a variety of factors, including market conditions, regulatory requirements and other corporate considerations, as determined by management. The Company measures all potential buybacks against other potential uses of capital that may arise from time to time. The repurchase program does not obligate the Company to repurchase any specific number of shares, and may be suspended or discontinued at any time. The Company expects to finance any purchases with existing cash on hand, cash from operations and potential additional borrowings. The Company did not repurchase any shares of its common stock during the nine months ended September 30, 2017 and 2016. As of September 30, 2017 the remaining authorization under the stock repurchase plan was \$44.8 million.

Stock-Based Compensation Expense

Stock-based compensation expense related to all employee and, where applicable, non-employee stock-based awards for the three and nine months ended September 30, 2017 and 2016 was as follows (in thousands):

	Three Months Ended		Nine Months Ended	
	September 30,		September 30,	
	2017	2016	2017	2016
Cost of services	\$67	\$75	\$219	\$225
Sales and marketing	4	150	310	429
Product development	154	250	490	743
General and administrative	933	3,324	2,981	6,664
Total	\$1,158	\$3,799	\$4,000	\$8,061

Warrants

Legacy Row 44 Warrants

In conjunction with the business combination with Row 44 and Advanced Inflight Alliance AG in January 31, 2013, the Company converted 21,062,500 Row 44 warrants into warrants to purchase up to 721,897 shares of the Company's common stock. We refer to these warrants (which became warrants to purchase our common stock) as "Legacy Row 44 Warrants".

During the nine months ended September 30, 2017 all remaining Legacy Row 44 Warrants expired.

Public SPAC Warrants

The following is a summary of Public SPAC Warrants outstanding and exercisable at September 30, 2017:

Number of Warrants (in thousands)	Weighted Average Exercise price	Weighted Average Remaining Contractual Term (in years)
6,173	\$ 11.50	0.34

Outstanding and exercisable at September
30, 2017

The Company accounted for its 6,173,228 Public SPAC Warrants as derivative liabilities as of September 30, 2017. During the three and nine months ended September 30, 2017 the Company recorded income of approximately \$0.1 million and \$0.3 million, respectively. During the three and nine months ended September 30, 2016 the Company recorded income of approximately \$1.1 million and \$17.8 million, respectively. This is recorded in the Condensed Consolidated Statement of Operations as a result of the remeasurement of these warrants at the respective balance sheet dates. As of September 30, 2017, the fair value of Public

36

SPAC Warrants issued by the Company was estimated using the Black-Scholes option pricing model. The Public SPAC Warrants have a five-year term that will expire on January 31, 2018. In the event the Company's closing stock price is at or above \$17.50 for twenty of thirty consecutive trading days, the Company can redeem the 6,173,228 Public SPAC Warrants for \$0.01 per warrant following a 30-day notice period, during which period holders may exercise their warrants at \$11.50 per share, with estimated proceeds of approximately \$71.0 million, unless management decides, at its option, to make them exercisable on a cashless basis.

Warrant Repurchase Program

During the year ended December 31, 2014, the Board of Directors authorized the Company to repurchase Public SPAC Warrants for an aggregate purchase price, payable in cash and/or shares of common stock, of up to \$25.0 million (inclusive of prior warrant purchases). In August 2015, the Board of Directors increased this amount by an additional \$20.0 million. As of September 30, 2017, \$16.7 million remained available for warrant repurchases under this Warrant Repurchase Program. The amount the Company spends (and the number of Public SPAC Warrants repurchased) varies based on a variety of factors, including the warrant price. The Company did not repurchase any warrants during the nine months ended September 30, 2017.

Note 12. Income Taxes

The Company recorded an income tax provision of \$4.2 million and an income tax benefit of \$50.1 million for the three months ended September 30, 2017 and 2016, respectively, and an income tax provision of \$11.0 million and an income tax benefit of \$46.2 million for the nine months ended September 30, 2017 and 2016, respectively. In general, our effective rate differs from the federal income tax rate due to the effects of foreign tax rate differences, changes in unrecognized tax benefits, changes in valuation allowance, and deferred tax expense on amortization of indefinite-lived intangible assets. The income tax benefit for the nine months ended September 30, 2016 was primarily attributable to the release of valuation allowance due to deferred tax liabilities created in the EMC Acquisition of \$53.9 million, offset by foreign income taxes of \$4.8 million resulting from the foreign subsidiaries' contribution to pretax income, withholding taxes of \$2.7 million and effects of permanent differences.

Due to uncertainty as to the realization of benefits from the Company's U.S. and certain international net deferred tax assets, including net operating loss carryforwards, the Company has a full valuation allowance reserved against such net deferred tax assets. The Company intends to continue to maintain a full valuation allowance on certain jurisdictions' net deferred tax assets until there is sufficient evidence to support the reversal of all or some portion of these allowances.

As of September 30, 2017 and December 31, 2016, the liability for income taxes associated with uncertain tax positions was \$11.9 million and \$11.0 million, respectively. The net increase in the liability during 2017 was primarily attributable to reserves for tax positions taken by one of the Company's Canadian subsidiaries. As of September 30, 2017 and December 31, 2016, the Company had accrued \$7.9 million and \$6.1 million, respectively, of interest and penalties related to uncertain tax positions.

It is reasonably possible that the amount of the unrecognized benefit with respect to certain of the Company's unrecognized tax positions may significantly decrease within the next 12 months. This change may be the result of ongoing audits or the expiration of federal and state statutes of limitations for the assessment of taxes.

In December 2017, the United States enacted new U.S. federal tax legislation known as the Tax Cuts and Jobs Act (the "Tax Act"). The Tax Act significantly revises the U.S. corporate income tax regime by, among other things, lowering corporate income tax rates, implementing a territorial tax system and imposing a repatriation tax on deemed repatriated earnings of foreign subsidiaries. We have performed preliminary analyses of the impacts of the Tax Act using information known or knowable at this time.

Under these preliminary analyses, we estimate that we will record additional GAAP tax benefits in the fourth quarter of 2017 in a range of \$5 million to \$8 million related to a decrease in the valuation of our deferred tax liabilities. The impact of the Tax Act may however differ from our preliminary estimate due to, among other things, changes in interpretations and assumptions we have made, U.S. Internal Revenue Service and Treasury Department guidance that may be issued and actions we may take. Our management is still evaluating the effects of the Tax Act provisions, and this preliminary assessment above does not purport to disclose all changes of the Tax Act that could have material positive or negative impacts on our current or future tax position.

Note 13. Segment Information

During the first quarter of 2017, the Company reported its operations through three reportable segments: Media & Content, Aviation Connectivity and Maritime & Land Connectivity. Prior to the EMC Acquisition in the third quarter of 2016, the Company operated through two operating segments: Media & Content and Connectivity. Following the EMC Acquisition, because the Company had acquired a significant number of new customers in different markets and geographic areas of operations and given a then-new management structure and corresponding organizational changes the Company re-evaluated its reportable segments and concluded that a change to its reportable segments was appropriate and consistent with how its chief operating decision maker (“CODM”) would manage the Company’s operations for purposes of evaluating financial performance and allocating resources. As such, during the fourth quarter of 2016, as a result of the EMC Acquisition, the Company formed a Maritime & Land Connectivity segment.

In the second quarter of 2017 however, following changes in our senior management (including our CODM) and organizational changes across our business, we reorganized our business from three operating segments back into two operating segments—Media & Content and Connectivity—primarily through integrating the business and operations of our former Aviation Connectivity segment with that of our former Maritime & Land Connectivity segment. Our CODM determined this was appropriate based on the similarities and synergies between these two segments relating to satellite bandwidth and equipment used in those businesses as well as on our restructured organizational reporting lines across our business departments.

The CODM evaluates financial performance and allocates resources by reviewing revenue, costs of sales and contribution profit separately for our two segments. Total segment gross margin provides the CODM a measure to analyze operating performance of each of the Company’s operating segments and its enterprise value against historical data and competitors’ data, although historical results may not be indicative of future results, as operating performance is highly contingent on many factors, including customer tastes and preferences. All other financial information is reviewed by the CODM on a consolidated basis.

The following table summarizes revenue and gross margin by reportable unit for the three and nine months ended September 30, 2017 and 2016 (in thousands):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2017	2016	2017	2016
Revenue:				
Media & Content				
Licensing and services	\$71,348	\$79,014	\$222,294	\$241,330
Connectivity				
Services	72,262	59,231	211,106	110,625
Equipment	7,927	8,664	26,471	21,036
Total connectivity	80,189	67,895	237,577	131,661
Total revenue	\$151,537	\$146,909	\$459,871	\$372,991
Gross margin:				
Media & Content	\$18,422	\$25,882	\$58,418	\$79,622
Connectivity	20,164	17,679	59,873	38,167
Total gross margin	38,586	43,561	118,291	117,789
Other operating expenses	71,080	71,745	278,303	192,769
Loss from operations	\$(32,494)	\$(28,184)	\$(160,012)	\$(74,980)

The Company's total assets by segment were as follows (in thousands):

	September 30, 2017	December 31, 2016
Segment Assets:		
Media & Content	\$ 371,894	\$ 391,669
Connectivity	604,486	690,463
Total segment assets	976,380	1,082,132
Corporate assets	15,916	17,303
Total assets	\$ 992,296	\$ 1,099,435

Note 14. Concentrations

Concentrations of Credit and Business Risk

Financial instruments that potentially subject the Company to a concentration of credit risk consist of cash and cash equivalents and accounts receivable.

At September 30, 2017 and 2016, the Company's cash and cash equivalents were maintained primarily with major U.S. financial institutions and foreign banks. Deposits with these institutions at times exceed the federally insured limits, which potentially subjects the Company to concentration of credit risk. The Company has not historically experienced any losses related to these balances and believes that there is minimal risk. Of our cash and cash equivalents as of September 30, 2017, approximately \$21.9 million was held by our foreign subsidiaries. If these funds were repatriated for use in our U.S. operations, we may be required to pay income taxes in the U.S. on the repatriated amount at the tax rates then in effect, reducing the net cash proceeds to us after repatriation. In the event we elect to repatriate any of these funds we believe we have sufficient net operating losses for the foreseeable future to offset any repatriated income. As a result, we do not expect any such repatriation would create a tax liability in the U.S. or have a material impact on our effective tax rate.

Customer Concentration

A substantial portion of our revenue is generated through arrangements with Southwest Airlines, Inc. ("Southwest Airlines"). For the nine months ended September 30, 2017 and 2016, the percentage of revenue generated through this customer was as follows:

	Nine Months Ended September 30, 2017 2016	
Southwest Airlines as a percentage of total revenue	19 %	22 %
Southwest Airlines as a percentage of Connectivity revenue	36 %	63 %

No other customer accounted for greater than 10% of total revenue for the periods presented. Accounts receivable from Southwest Airlines represented 13% and 12% of the total accounts receivable as of September 30, 2017 and December 31, 2016, respectively.

Note 15. Net (Loss) Income Per Share

Basic (loss) income per share (“EPS”) is computed using the weighted-average number of common shares outstanding during the period. Diluted loss per share is computed using the weighted-average number of common shares and the dilutive effect of contingent shares outstanding during the period. Potentially dilutive contingent shares, which consist of stock options, restricted stock units (including performance stock units), liability warrants, warrants issued to third parties and accounted for as equity instruments convertible senior notes and contingently issuable shares, have been excluded from the diluted loss per share calculation when the effect of including such shares is anti-dilutive. As illustrated in the table below, the change in the fair value of the Company’s warrants and contingently issuable shares, which are assumed to be converted into the Company’s common stock upon exercise, are adjusted to net income for purposes of computing dilutive loss per share for the three and nine months ended September 30, 2017. Common stock to be issued upon the exercise of warrant instruments classified as a liability is included in the calculation of diluted loss per share when dilutive.

The following table sets forth the computation of basic and diluted net loss per share of common stock (in thousands, except per share amounts):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2017	2016	2017	2016
Net (loss) income (numerator):				
Net (loss) income – basic and diluted	\$(52,968)	\$19,354	\$(222,708)	\$(21,218)
Shares (denominator):				
Weighted-average shares – basic	89,194	82,874	86,710	79,892
Weighted-average shares – diluted	89,194	85,081	86,710	79,892
Net (loss) income per share - basic	\$(0.59)	\$0.23	\$(2.57)	\$(0.27)
Net (loss) income per share - diluted	\$(0.59)	\$0.23	\$(2.57)	\$(0.27)
			Three Months Ended September 30,	Nine Months Ended September 30,
			2017	2016
Net loss (numerator):				
Net (loss) income			\$(52,968)	\$19,354
Net (loss) income for dilutive EPS			\$(222,708)	\$(21,218)
Shares (Denominator):				
Weighted average common shares outstanding - basic	89,194	82,874	86,710	79,892
Dilutive effect of stock options and warrants	—	88	—	—
Effect of assumed exercise of liability contracts settleable in stock	—	2,119	—	—
Weighted average common shares outstanding - diluted	89,194	85,081	86,710	79,892
Net (loss) income per share				
Basic	\$(0.59)	\$0.23	\$(2.57)	\$(0.27)
Diluted	\$(0.59)	\$0.23	\$(2.57)	\$(0.27)

The following weighted average common equivalent shares are excluded from the calculation of the Company's net loss per share as their inclusion would have been anti-dilutive (in thousands):

40

	Three Months Ended September 30, 2017		Nine Months Ended September 30, 2016	
Employee stock options	5,686	6,600	6,133	6,076
Restricted stock units	1,143	147	1,458	253
Equity warrants ⁽¹⁾	—	1,163	471	1,163
Public SPAC Warrants ⁽²⁾	6,173	6,173	6,173	6,173
2.75% convertible senior notes due 2035	4,447	4,447	4,447	4,447
EMC deferred consideration ⁽³⁾	1,439	—	3,737	503
Contingently issuable shares ⁽⁴⁾	900	509	900	171

These are Legacy Row 44 warrants originally issuable for Row 44 common stock and Row 44 Series C preferred (1) stock, later became issuable for our Common Stock. During the six months ended June 30, 2017, these Legacy Row 44 warrants expired. See Note 11. Common Stock, Share-Based Awards and Warrants.

(2) These are 6,173,228 “Public SPAC Warrants”. See Note 11. Common Stock, Share-Based Awards and Warrants.

In connection with the EMC Acquisition on July 27, 2016 (the “EMC Acquisition Date”), we were obligated to pay (3) \$25.0 million in cash or stock, at our option, on July 27, 2017, which we elected to pay in 5,080,049 newly issued shares of our common stock on that date. See Note 9. Commitments and Contingencies. This EMC deferred consideration represents those shares.

In connection with a Sound Recording Settlement, we are obligated to issue 500,000 shares of our common stock (4) when and if the closing price of our common stock exceeds \$10.00 per share, and 400,000 shares of our common stock when and if the closing price of our common stock exceeds \$12.00 per share. See Note 9. Commitments and Contingencies.

Note 16. Subsequent Events

The following events have occurred subsequent to September 30, 2017 through the date of filing of this Form 10-Q.

2017 Credit Agreement

Third Amendment to Limited Waiver and Third Amendment to Credit Agreement

On October 2, 2017, the Company entered into a Third Amendment to Limited Waiver to Credit Agreement and Third Amendment to Credit Agreement (the “First October 2017 Amendment”) that amended the 2017 Credit Agreement and May 2017 Amendment as follows:

The Company would have until October 31, 2017 (rather than September 30, 2017 as previously required under the September 2017 Extension) to deliver the Annual Financial Statement Deliverables. The Company would also continue to have up to 30 days following the date on which it delivers the Annual Financial Statement Deliverables to deliver its unaudited financial statements for both the quarter ended March 31, 2017 and the quarter ended June 30, 2017. The Second October 2017 Amendment and November 2017 Extension amended this requirement as described below.

•

The Company would have up to 30 days following the date on which it delivers its unaudited financial statements for both the quarter ended March 31, 2017 and the quarter ended June 30, 2017 to deliver its unaudited financial statements for the quarter ended September 30, 2017. The Second October 2017 Amendment and December 2017 Amendment amended this requirement as described below.

Under the 2017 Credit Agreement (as amended by the First October 2017 Amendment), the Initial Term Loans (as defined in the 2017 Credit Agreement) would bear interest on the outstanding amount at a rate per annum equal to either (i) the Base Rate plus 6.25% or (ii) the Eurocurrency Rate for each Interest Period plus 7.25%. The Second October 2017 Amendment further amended these interest rates as described below.

Under the 2017 Credit Agreement, the 2017 Revolving Loans would bear interest at a rate equal to either (i) the Base Rate plus 6.25% or (ii) the Eurocurrency Rate or EURIBOR plus 7.25% until the Company delivers its unaudited financial statements for the quarter ending March 31, 2018. After the delivery of those unaudited financial statements, the 2017 Revolving Loans would bear interest at a rate based on the Base Rate, Eurocurrency Rate or EURIBOR plus an interest-rate spread thereon that varies on the Consolidated First Lien Net Leverage Ratio. The spread thereon ranged

from 5.75% to 6.25% for the Base Rate and 6.75% to 7.25% for the Eurocurrency Rate and EURIBOR. The Second October 2017 Amendment further amended these interest rates as described below.

The “non-call period” would now extend until: (i) if the Company prepays any Term Loans prior to the date that it delivers the Annual Financial Statement Deliverables, October 31, 2019; and (ii) if the Company prepays any Term Loans on or after the date that it delivers the Annual Financial Statement Deliverables, the earlier of (x) the second anniversary of the date of that delivery and (y) October 31, 2019. (The “non-call period” (as so extended) is referred to as the “Extended Non-Call Period.”) This period previously expired in May 2019 under the terms of the May 2017 Amendment. The Company remains subject to 2.0% and 1.0% prepayment premiums through the first and second anniversaries, respectively, of the end of the Extended Non-Call Period, which periods previously expired in May 2020 and May 2021, respectively. The December 2017 Amendment further extended the “non-call period” as described below.

The Company would issue on or prior to October 6, 2017 an earnings release for the fiscal quarter and fiscal year ended December 31, 2016, including a related balance sheet, statement of income and statement of cash flows. This was a new affirmative covenant under the 2017 Credit Agreement. The October 2017 Extension amended this requirement as described below.

The Company would furnish on a Current Report on Form 8-K on or prior to October 12, 2017: (i) the range of its (A) total estimated revenue and (B) estimated adjusted EBITDA, in each case for the fiscal quarters ended March 31, 2017 and June 30, 2017, with the difference between the high end and low end of the ranges to be no greater than \$5.0 million; and (ii) a forecast of its consolidated cash balance as of December 31, 2017. This was a new affirmative covenant for the Company under the 2017 Credit Agreement. The Company complied with this affirmative covenant by the due date.

The Company would continue (on a bi-weekly basis commencing October 11, 2017 until it has delivered the Annual Financial Statement Deliverables) to furnish or file on a Current Report on Form 8-K its current consolidated cash balance, the current cash balance of its foreign subsidiaries and the current outstanding balance under the Revolving Credit Facility. The Company would also participate in one conference call with the Administrative Agent and the Lenders with respect to the information contained in that Current Report on Form 8-K. The Company complied with this affirmative covenant by the due dates.

Under the First October 2017 Amendment, the Company agreed to pay to the lenders that consented to the October 2017 Amendment (the “First October 2017 Amendment Consenting Lenders”) a fee in an amount equal to 0.25% of the aggregate principal amount of the Revolving Credit Commitments and Term Loans held by the First October 2017 Amendment Consenting Lenders as of October 2, 2017. The fee paid totaled \$1.4 million.

October Extension Letter Agreement

Under the October 2017 Amendment, the Company was required to issue an earnings release for the fiscal quarter and fiscal year ended December 31, 2016 by October 6, 2017. On October 6, 2017, the Company entered into a letter agreement (the “October 2017 Extension”) permitting it to have until the date that it delivers the Annual Financial Statement Deliverables to issue the earnings release. The Company complied with this affirmative covenant on October 18, 2017.

Fourth Amendment to Limited Waiver and Fourth Amendment to Credit Agreement

On October 31, 2017, the Company entered into a Fourth Amendment to Limited Waiver to Credit Agreement and Fourth Amendment to Credit Agreement (the “Second October 2017 Amendment”) that amends the 2017 Credit Agreement and May 2017 Amendment as follows:

The Company would have until November 15, 2017 (rather than October 31, 2017 as previously required under the First October 2017 Amendment) to deliver the Annual Financial Statement Deliverables. The November 2017 Extension amended this requirement as described below.

The Company would have until January 2, 2018 to deliver its unaudited financial statements for the quarters ended March 31, 2017, June 30, 2017 and September 30, 2017.

Under the 2017 Credit Agreement (as amended by the Second October 2017 Amendment), the Initial Term Loans (as defined in the 2017 Credit Agreement) bear interest on the outstanding amount at a rate per annum equal to either (i) the Base Rate plus 6.50% or (ii) the Eurocurrency Rate for each Interest Period plus 7.50%.

Under the 2017 Credit Agreement (as amended by the Second October 2017 Amendment), the 2017 Revolving Loans bear interest at a rate equal to either (i) the Base Rate plus 6.50% or (ii) the Eurocurrency Rate or EURIBOR plus 7.50% until the Company delivers its unaudited financial statements for the quarter ending March 31, 2018. After the delivery of those unaudited financial statements, the 2017 Revolving Loans will bear interest at a rate based on the Base Rate, Eurocurrency Rate or EURIBOR plus an interest-rate spread thereon that varies on the Consolidated First Lien Net Leverage Ratio. The spread thereon will range from 6.00% to 6.50% for the Base Rate and 7.00% to 7.50% for the Eurocurrency Rate and EURIBOR.

The Company will furnish on a Current Report on Form 8-K on or prior to December 5, 2017: (i) the range of its (A) total estimated revenue and (B) estimated adjusted EBITDA for the fiscal quarter ended September 30, 2017, with the difference between the high end and low end of the ranges to be no greater than \$5.0 million. This was a new affirmative covenant for the Company under the 2017 Credit Agreement. The Company complied with this affirmative covenant by the due date.

November Extension Letter Agreement

Under the Second October 2017 Amendment, the Company was required to deliver the Annual Financial Statement Deliverables by November 15, 2017. On November 15, 2017, the Company entered into a letter agreement (the “November 2017 Extension”) permitting it to have until November 17, 2017 to deliver the Annual Financial Statement Deliverables. The Company delivered the Annual Financial Statement Deliverables by this deadline.

Fifth Amendment to Limited Waiver and Fifth Amendment to Credit Agreement

On December 22, 2017, the Company entered into a Fifth Amendment to Limited Waiver and Fifth Amendment to Credit Agreement (the “December 2017 Amendment”) that amends the 2017 Credit Agreement and May 2017 Amendment as follows:

The Company had until January 31, 2018 (rather than January 2, 2018, as previously required under the Second October 2017 Amendment) to deliver its unaudited financial statements for the quarters ended March 31, 2017, June 30, 2017 and September 30, 2017. The Company complied with this covenant by the deadline.

If the Company had failed to deliver by January 31, 2018 the unaudited financial statements for the quarters ended March 31, 2017, June 30, 2017 and September 30, 2017, then an Event of Default would have occurred, and the interest rate would thereafter have increased by 0.25% for the 2017 Term Loans as well as the 2017 Revolving Loans. The Company complied with this obligation prior to the deadline, and therefore no Event of Default occurred and the interest rates for the 2017 Term Loans and 2017 Revolving Loans did not increase from their then current rates.

The “non-call period” on the 2017 Term Loans will now extend until January 31, 2020 (rather than October 2019, as previously provided for under the Credit Agreement).

The Company will furnish or file on a Current Report on Form 8-K within one business day of January 17, 2018 its current consolidated cash balance, the current cash balance of its foreign subsidiaries and the current outstanding balance under the Revolving Credit Facility, in each case, as of such date or the immediately preceding date. The Company complied with this affirmative covenant by the due date.

•

The Company will now have until January 31, 2018 (rather than January 2, 2018, as previously required under the Amended Credit Agreement) to deliver its unaudited financial statements for the fiscal quarters ended March 31, 2017, June 30, 2017 and September 30, 2017 (collectively, the “2017 Quarterly Financial Statements”). This new date now aligns with the extension date that Nasdaq granted the Company to file its Quarterly Reports on Form 10-Q for these fiscal quarters.

The Company agreed to pay to the lenders consenting to the December 2017 Amendment a fee equal to 0.05% of the aggregate principal amount of the Revolving Credit Commitments and Term Loans held by such lenders as of December 22, 2017. This fee totaled approximately \$0.2 million.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

As used herein, "Global Eagle Entertainment," "Global Eagle," the "Company," "our," "we," or "us" and similar terms include Global Eagle Entertainment Inc. and its subsidiaries, unless the context indicates otherwise.

Cautionary Note Regarding Forward-Looking Statements

Certain statements in this Quarterly Report on Form 10-Q (this "Form 10-Q") may constitute "forward-looking" statements within the meaning of the Private Securities Litigation Reform Act of 1995. These forward-looking statements include, without limitation, statements regarding our business outlook, industry, business strategy, plans, goals and expectations concerning our market position, international expansion, future technologies, future operations, margins, profitability, future efficiencies, capital expenditures, liquidity and capital resources and other financial and operating information. When used in this discussion, the words "anticipate," "assume," "believe," "budget," "continue," "could," "estimate," "expect," "intend," "may," "plan," "potential," "predict," "project," "should," "will," "future" and the negative of these terms and phrases are intended to identify forward-looking statements in this Form 10-Q.

Forward-looking statements reflect our current expectations regarding future events, results or outcomes. These expectations may or may not be realized. Although we believe the expectations reflected in the forward-looking statements are reasonable, we can give you no assurance these expectations will prove to have been correct. Some of these expectations may be based upon assumptions, data or judgments that prove to be incorrect. Actual events, results and outcomes may differ materially from our expectations due to a variety of known and unknown risks, uncertainties and other factors. Although it is not possible to identify all of these risks and factors, they include, among others, the following:

- our ability to remediate material weaknesses in our internal control over financial reporting and to complete such remediation in a timely manner, and the effect of those weaknesses on our ability to forecast our operations and financial performance;
- our ability to maintain effective disclosure controls and internal control over financial reporting;
- our ability to maintain sufficient cash flow and liquidity to operate our business;
- our ability to implement new revenue recognition standards in a timely manner;
- our dependence on the travel industry;
- future acts or threats of terrorism;
- our ability to obtain new customers and renew agreements with existing customers, and particularly our dependence on our existing relationship with Southwest Airlines;
- our ability to retain and effectively integrate and train key members of senior management;
- our ability to recruit, train and retain highly skilled technical employees, particularly in our finance and IT functions;
- our ability to receive the anticipated cash distributions or other benefits from our investment in the Wireless Maritime Services joint venture;
- the effect of a variety of complex U.S. and foreign tax laws and regimes due to the global nature of our business;
- our ability to continue to be able to make claims for investment tax credits in Canada;
- our exposure to foreign currency risks and a lack of a formalized hedging strategy;
- our need to invest in and develop new broadband technologies and advanced communications and secure networking systems, products and services and antenna technologies, as well as their market acceptance;
- increased demand by customers for greater bandwidth, speed and performance and increased competition from new technologies and market entrants;
- customer attrition due to direct arrangements between satellite providers and customers;

- our reliance on “sole source” service providers and other third parties for key components and services that are integral to our product and service offerings;
- the potential need to materially increase our investments in product development and equipment;
- our ability to expand our international operations and the risks inherent in our international operations;
- service interruptions or delays, technology failures, damage to equipment or software defects or errors and the resulting impact on our reputation and ability to attract, retain and serve our customers;
- equipment failures or software defects or errors that may damage our reputation or result in claims in excess of our insurance coverage;
- satellite failures or degradations in satellite performance;
- our ability to integrate businesses or technologies we have acquired or may acquire in the future;

Table of Contents

our use of fixed-price contracts for satellite bandwidth and potential cost differentials that may lead to losses if the market price for that service declines relative to our committed cost;

pricing pressure from suppliers and customers in our Media & Content segment and a reduction in the industry's use of intermediary content service providers (such as us);

a reduction or elimination of the time between our receipt of content and it being made available to the rental or home viewing market (i.e., the "early release window");

a reduction in the volume or quality of content produced by studios, distributors or other content providers;

increased on-board use of personal electronic devices and content accessed and downloaded prior to travel and our ability to compete as a content provider against "over the top" download services and other companies that offer in-flight entertainment systems;

increased competition in the IFE and IFC system supply chain;

our ability to plan expenses and forecast revenue due to the long sales cycle of many of our Media & Content segment's products;

our use of fixed-price contracts in our Media & Content segment that may lead to losses in the future if the market price for that service declines relative to our committed cost;

our ability to develop new products or enhance those we currently provide in our Media & Content segment;

our ability to protect our intellectual property;

the effect of any data or privacy breaches, data or privacy theft, unauthorized access to our internal systems of Connectivity or Media & Content systems or phishing or hacking;

our ability to successfully implement a new enterprise resource planning system;

the costs to defend and/or settle current and potential future civil intellectual property lawsuits (including relating to music and other content infringement) and related claims for indemnification;

changes in regulations and our ability to obtain regulatory approvals to provide our services or to operate our business in particular countries or territorial waters;

compliance with U.S. and foreign regulatory agencies, including the Federal Aviation Administration ("FAA") and Federal Communications Commission ("FCC") and their foreign equivalents in the jurisdictions in which we and our customers operate;

changes in government regulation of the Internet, including e-commerce or online video distribution;

our ability to comply with trade, export, anti-money laundering and foreign corrupt practices and data protection laws, especially the Foreign Corrupt Practices Act;

costs associated with stockholder litigation and our indemnification obligations with respect to current and former executive officers and directors;

limitations on our cash flow available to make investments due to our substantial indebtedness and our ability to generate sufficient cash flow to make payments thereon;

our ability to repay the principal amount of our bank debt and/or convertible notes at maturity, to raise the funds necessary to settle conversions of our convertible notes or to repurchase our convertible notes upon a fundamental change or on specified repurchase dates or due to future indebtedness;

the conditional conversion of our convertible notes;

the effect on our reported financial results of the accounting method for our convertible notes;

the impact of the fundamental change repurchase feature of the indenture governing our convertible notes on our price or potential as a takeover target;

the dilution or price depression of our common stock that may occur as a result of the conversion of our convertible notes;

our ability to meet the continued listing requirements of The Nasdaq Stock Market ("Nasdaq"), in particular given our recent history of delinquent periodic filings with the U.S. Securities and Exchange Commission ("SEC");

our eligibility to use Form S-3 to register the offer and sale of securities;

conflicts between our interests and the interests of our largest stockholders;

volatility of the market price of our securities;

the dilution of our common stock that may occur as a result of the exercise of outstanding warrants;

anti-takeover provisions contained in our charter and bylaws;
the dilution of our common stock if we issue additional equity or convertible debt securities; and
other risks and factors listed under “Risk Factors” in our Annual Report on Form 10-K for the year ended December 31,
2016 as filed with the SEC on November 17, 2017 (the “2016 Form 10-K”) and in our subsequently filed Quarterly
Reports on Form 10-Q.

Table of Contents

Overview of the Company

Global Eagle is a leading provider of satellite-based connectivity and media to fast-growing, global mobility markets across air, sea and land. Our principal operations and decision-making functions are located in North America and Europe. Following the acquisition of Emerging Markets Communication (“EMC”) in July 2016 (the “EMC Acquisition”), we managed and reported our businesses in three operating segments: Media & Content, Aviation Connectivity and Maritime & Land Connectivity. Our chief operating decision maker (“CODM”) regularly reviews our operating results by our operating segments, principally to make decisions about how we allocate our resources and to measure our segment and consolidated operating performance. During the second quarter of 2017, following changes in our senior management (including our CODM) and organizational changes across our business, we reorganized our business into two operating segments: Media & Content and Connectivity. Our CODM determined this was appropriate based on the similarities and synergies between our former Aviation Connectivity and Maritime & Land Connectivity segments relating to satellite bandwidth and equipment used in such businesses as well as on our restructured reporting lines across all of our business departments. This Form 10-Q, which speaks as of September 30, 2017, unless otherwise indicated, presents our business as two operating segments, which are also our reportable segments. See the Introductory Note at the beginning of this Form 10-Q and Note 13. Segment Information for a further discussion of our operating segments and our changes thereto in the second quarter of 2017.

We generate revenue primarily through licensing and related services from our Media & Content segment and from the delivery of satellite-based Internet service and content to the aviation, maritime and land markets and the sale of equipment to customers in our Connectivity segment. Our CODM regularly analyzes revenue and profit on a segment basis, and our results of operations and pre-tax income or loss on a consolidated basis in order to understand the key business metrics driving our business.

For the nine months ended September 30, 2017 and 2016, we reported revenue of \$459.9 million and \$373.0 million, respectively. For the nine months ended September 30, 2017 and 2016, our Media & Content and Connectivity segments accounted for 48% and 52% of our total revenue, respectively. For the nine months ended September 30, 2017 and 2016, one airline customer, Southwest Airlines, Inc. (“Southwest Airlines”), accounted for 19% and 22%, respectively, of our total revenue.

Recent Developments

The following are developments with respect to our business and operations since July 1, 2017 through the date of filing of this Form 10-Q:

Shareco Investment Agreement

On November 8, 2016, we entered into an investment agreement (the “Investment Agreement”) with Shareco Group of America, Inc. (“Shareco”), which is a subsidiary of HNA Group, and certain affiliates of Shareco, to sell approximately 9.9% of our common stock to Shareco for \$11.00 per share, subject to satisfaction of customary closing conditions (including regulatory approvals). The parties also negotiated a term sheet that contemplated negotiation of definitive documentation for additional purchases of our common stock by Shareco and the formation of a joint venture to provide in-flight connectivity and passenger monetization services to HNA Group-affiliated airlines. On July 25, 2017, we and Shareco terminated the Investment Agreement as a result of the parties’ inability to obtain the required approval of the Committee on Foreign Investment in the United States (“CFIUS”) prior to the outside date under the Investment Agreement. As a result of this termination, the other related agreements that we entered into in connection with the Investment Agreement were also terminated in accordance with their terms.

Payment of EMC Deferred Consideration

On July 27, 2017, the Company elected to settle the EMC deferred consideration in shares of common stock, and issued 5,080,049 shares of its common stock to the EMC seller in satisfaction thereof and in accordance with the EMC purchase agreement. See Note 3. Business Combinations for a description of this deferred consideration.

Nasdaq Listing

Upon the filing of this Form 10-Q (and the Quarterly Reports on Form 10-Q for the quarters ended March 31, 2017 and June 30, 2017 filed concurrently herewith), we believe we have regained compliance with the continued listing requirements of Nasdaq

Table of Contents

and the terms of an extension that Nasdaq previously granted us to retain that compliance (subject to our receiving confirmation of the same from Nasdaq, which we expect to receive in the next several days following the filing of this Form 10-Q). However, if we are unable to timely file our periodic SEC reports in the future, then Nasdaq may again initiate delisting proceedings against us. Further, if our common stock ceases to be listed on Nasdaq, this would constitute a “fundamental change” under the indenture governing our outstanding 2.75% convertible senior notes due 2035, and the holders of such notes would have the right to require us to repurchase (in cash) all or a portion of their notes at a repurchase price equal to 100% of the principal amount of our convertible notes that they tender for our repurchase.

New U.S. Tax Legislation

In December 2017, the United States enacted new U.S. federal tax legislation known as the Tax Cuts and Jobs Act (the “Tax Act”). The Tax Act significantly revises the U.S. corporate income tax regime by, among other things, lowering corporate income tax rates, implementing a territorial tax system and imposing a repatriation tax on deemed repatriated earnings of foreign subsidiaries. We have performed preliminary analyses of the impacts of the Tax Act using information known or knowable at this time. Under these preliminary analyses, we estimate that we will record additional GAAP tax benefits in the fourth quarter of 2017 in a range of \$5 million to \$8 million related to a decrease in the valuation of our deferred tax liabilities. The impact of the Tax Act may however differ from our preliminary estimate due to, among other things, changes in interpretations and assumptions we have made, U.S. Internal Revenue Service and Treasury Department guidance that may be issued and actions we may take. Our management is still evaluating the effects of the Tax Act provisions, and this preliminary assessment above does not purport to disclose all changes of the Tax Act that could have material positive or negative impacts on our current or future tax position.

Reorganization of our Operating Segments

For fiscal year 2015 and for 2016 until our acquisition of Emerging Markets Communications (“EMC”) in July 2016 (the “EMC Acquisition”), our business consisted of two operating segments: Content and Connectivity. Following the EMC Acquisition, the acquired EMC business became our third operating segment, which we called Maritime & Land Connectivity, and we renamed our other two segments as Media & Content and Aviation Connectivity.

In the second quarter of 2017 however, following changes in our senior management (including our chief operating decision maker) and organizational changes across our business, we reorganized our business from three operating segments back into two operating segments—Media & Content and Connectivity—primarily through integrating the business and operations of our former Aviation Connectivity segment with that of our former Maritime & Land Connectivity segment. Our chief operating decision maker determined this was appropriate based on the similarities and synergies between these two segments relating to satellite bandwidth and equipment used in those businesses as well as on our restructured reporting lines across our business departments.

Opportunities, Challenges and Risks

We believe our operating results and performance are driven by various factors that affect the commercial travel industry and the mobility markets serving hard-to-reach places on land, sea and in the air. These include general macroeconomic trends affecting the mobility markets, such as travel and maritime trends affecting our target user base, regulatory changes, competition and the rate of customer adoption of our services as well as factors that affect Wi-Fi Internet service providers in general. Growth in our overall business is principally dependent upon the number of customers that purchase our services, our ability to negotiate favorable economic terms with our customers and partners and the number of travelers who use our services. Growth in our margins is dependent on our ability to manage the costs associated with implementing and operating our services, including the costs of licensing and distributing content, equipment and satellite service. Our ability to attract and retain customers is highly dependent on

our ability to timely implement our services and continually improve our network and operations as technology changes and we experience increased network capacity constraints.

As technology continues to evolve, we believe there are opportunities to expand our services by adding more content in a greater variety of formats. During 2016 and during the first three months of 2017, our former Aviation Connectivity and Maritime & Land Connectivity segments and our Media & Content segment were separate platforms, which we reorganized in the second quarter of 2017 into our new Connectivity and Media & Content segments. We believe there is an opportunity to diversify our revenue by cross-leveraging the services of these segments, including offering a greater variety of premium paid content across our connectivity platform. For example, the EMC Acquisition expanded our connectivity offerings and offered us the ability to

Table of Contents

provide more content to the maritime and land mobility verticals. Conversely, the evolution of technology presents an inherent risk to our business because our current technology may become obsolete, too expensive and/or outdated.

The growth of our Media & Content segment is dependent upon a number of factors, including the growth of in-flight entertainment (“IFE”) systems, our customers' demand for content and games across global mobility markets, the general availability of content to license from our studio partners, pricing from our competitors and our ability to manage the underlying economics of content licensing by studio. We believe that the amount of IFE systems and customer demand for content and games will continue to grow in the foreseeable future.

In our Connectivity segment, the use of our connectivity equipment on our customers' aircraft is subject to regulatory approvals, such as a Supplemental Type Certificate, or “STC,” that are imposed by agencies such as the Federal Aviation Administration (“FAA”), the European Aviation Safety Agency (“EASA”) and the Civil Aviation Administration of China (“CAAC”). The costs to obtain and/or validate an STC can be significant and vary by plane type and customer location. We have STCs to operate our equipment on several plane types, including Boeing's 737, 757, 767 and 777 families, and for the Airbus A320 family. While we believe we will be successful in obtaining STC approvals in the future as needed, there is a risk that the FAA, EASA or CAAC do not approve or validate an STC on a timely basis, if at all, which could negatively impact our growth, relationships and ability to sell our connectivity services. To partially address the risk and costs of obtaining STCs in the future, we signed an agreement with the Boeing Company (“Boeing”) to offer our connectivity equipment on a “line-fit basis” for Boeing's 737 MAX and 787 models, and our connectivity equipment became available on a line-fit basis in August 2017 as an option on new Boeing 737 MAX airplanes. We also expect to undertake similar line-fit initiatives with other aircraft manufacturers such as Airbus SE in the near term. As a result, we expect to continue to incur significant product development expenses in the foreseeable future as we invest in these long-term line-fit opportunities, which we believe will improve our long-term ability to onboard our connectivity equipment on new plane types in a more scalable and cost-effective manner.

Our Connectivity segment is significantly dependent on satellite-capacity providers for satellite bandwidth and certain equipment and servers required to deliver the satellite stream, rack space at the supplier's data centers to house the equipment and servers and network operations service support. Through the EMC Acquisition, we expanded the number of our major suppliers of satellite capacity and became a party to an agreement with Intelsat S.A. We also purchase radomes, satellite antenna systems and rings from key suppliers. Any interruption in supply from these important vendors could have a material impact on our ability to sell equipment and/or provide connectivity services to our customers.

The growth of our Connectivity segment is dependent upon a number of factors, including the rates at which we increase the number of installed connectivity systems for new and existing customers, customer demand for connectivity services, government regulations and approvals, customer adoption, take rates (or overall usage of our connectivity services by end-users), the general availability and pricing of satellite bandwidth globally, pricing pressures from our competitors, general travel industry trends, new and competing connectivity technologies and our ability to manage the underlying economics of connectivity services on a global basis.

Our cost of sales, the largest component of our operating expenses, varies from period to period, particularly as a percentage of revenue, based upon the mix of the underlying equipment and service revenue that we generate. Cost of sales also varies period to period as we acquire new customers and to accommodate the growth of our Connectivity segment. During 2016 and the first nine months of 2017, we continued to increase our investment in satellite capacity over North America and the Middle East to facilitate the growth of our existing and new connectivity customer base, which included purchases of satellite transponders. Depending on the timing of our satellite expenditures, our cost of sales as a percentage of our revenue may fluctuate from period to period.

For the nine months ended September 30, 2017, 36% of our Connectivity segment's revenue was derived from Southwest Airlines. In December 2016, we entered into a new contract with Southwest Airlines that extends the term of services through 2025 and includes a commitment for live television services. We have continued to install our connectivity systems on additional Southwest Airlines aircraft. Under the new contract, we committed to deploy increased service capacity (and our patented technology) to deliver a significantly enhanced passenger experience. Starting July 1, 2017, we transitioned to a "monthly recurring charge" revenue model that provides us with long-term revenue visibility. The new contract also provides for additional rate cards for ancillary services and the adoption of a fleet management plan.

Table of Contents

We plan to further expand our connectivity operations internationally to address opportunities in non-U.S. markets. As we expand our business further internationally in places such as the Middle East, Asia Pacific and Latin America, we will continue to incur significant incremental upfront expenses associated with these growth opportunities.

During the fourth quarter of 2016, we recorded a \$64.0 million charge related to the impairment of goodwill in our Maritime & Land Connectivity reporting unit. This was as a result of reduced financial projections for the Maritime & Land Connectivity reporting unit, due to, among other things: lower than expected actual financial results from this business due to margin compression resulting from competition in our cellular backhaul land business in Africa, resulting in diminished financial performance relative to our original expectations; delayed new deal executions and slower than anticipated installations and upgrades, also resulting in diminished financial performance relative to our original expectations; and operational challenges in integrating a legacy EMC acquiree in 2015 into this reporting unit, resulting in delayed acquisition synergies. Given the foregoing, we determined there was greater uncertainty in achieving our prior financial projections and so applied a higher discount rate for purposes of our goodwill impairment analysis. The higher discount rate affected the fair value of the Maritime & Land Connectivity reporting unit.

In addition, for the quarter ended March 31, 2017, the Company identified a triggering event due to a significant decline in the market capitalization of the Company. Accordingly, the Company assessed the fair value of its three reporting units as of March 31, 2017 and recorded an additional goodwill impairment charge of \$78.0 million related to its Maritime & Land Connectivity reporting unit. This additional impairment was primarily due to lower than expected financial results of the reporting unit during the three months ended March 31, 2017 due to delays in new maritime installations, slower than originally estimated execution of EMC Acquisition-related synergies and other events that occurred in the first quarter of 2017. Given these indicators, the Company then determined that there was a higher degree of uncertainty in achieving its financial projections for this unit and as such, increased its discount rate, which reduced the fair value of the unit.

Following the first quarter of 2017, we made substantial efforts to achieve acquisition synergies by consolidating our former Aviation Connectivity and Maritime & Land Connectivity segments into a new single Connectivity operating segment, appointing new management of the newly consolidated business segment, and organizing our engineering and program-management functions within the newly consolidated business segment to accelerate deal execution.

We also must expend significant time and resources remediating material weaknesses in our internal control over financial reporting. These weaknesses relate to our entity level control environment and various processes relating to, financial statement close and reporting, intercompany process, business combination, significant and unusual non-routine transactions, inventory, content library, internally developed software, long lived assets, goodwill impairment, accounts payable and accrued liabilities, revenue processes, license fee accruals, income taxes, payroll, stock-based compensation, treasury, and information technology. We are strongly committed to addressing these material weaknesses, which we believe will strengthen our business and we have commenced our remediation in this regard. But we are uncertain as to our timing to complete that remediation, the extent to which such efforts will deplete our cash reserves and our ability to succeed in that remediation. In addition, we expect to incur expenses in connection with implementing and maintaining internal control over financial reporting in our EMC business, which was not included in our assessment of internal control over financial reporting for 2016, but will be included in such assessment for 2017. If we are unable to establish and maintain effective internal control over financial reporting, we may be unable to timely file our periodic SEC reports or identify and forecast certain business trends and certain aspects of our financial performance, which could negatively impact our ability to focus on and achieve our business objectives.

Key Components of Consolidated Statements of Operations

There have been no material changes to our key components of our Condensed Consolidated Statements of Operations as described in “Management’s Discussion and Analysis of Financial Condition and Results of Operations” in our 2016 Form 10-K.

Critical Accounting Policies

The preparation of our condensed consolidated financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and the notes to the financial statements. Some of those judgments can be subjective and complex, and therefore, actual results could differ materially from those estimates under different assumptions or conditions. A summary of our critical accounting policies is presented in Part II, Item 7, of our 2016 Form 10-K. There were no material changes to our critical accounting policies during the nine months ended September 30, 2017.

Table of Contents

Three Months Ended September 30, 2017 and 2016

Operating Segments

Segment revenue, expenses and contribution profit for the three months ended September 30, 2017 and 2016 derived from our Media & Content and Connectivity segments were as follows (in thousands):

	Three Months Ended	
	September 30,	
	2017	2016
Revenue:		
Media & Content		
Licensing and services	\$71,348	\$79,014
Connectivity		
Services	72,262	59,231
Equipment	7,927	8,664
Total	80,189	67,895
Total revenue	\$151,537	\$146,909
Gross Margin:		
Media & Content	\$18,422	25,882
Connectivity	20,164	17,679
Total Gross Margin	38,586	43,561
Other operating expenses	71,080	71,745
Loss from operations	\$(32,494)	\$(28,184)

Revenue

Media & Content

Media & Content operating segment revenue for the three months ended September 30, 2017 and 2016 was as follows (in thousands):

	Three Months		
	Ended September		
	30,		
	2017	2016	Change
Licensing and services	\$71,348	\$79,014	(11)%

Media & Content Licensing and Services Revenue

Media & Content licensing and services revenue decreased \$7.7 million, or 11%, to \$71.3 million for the three months ended September 30, 2017, as compared to \$79.0 million for the three months ended September 30, 2016. The decrease was primarily due to the loss of a customer in 2016 following a legal dispute relating to music-licensing liabilities, a decline in content service production revenues and games offset by revenue growth in advertising.

Table of Contents

Connectivity

Connectivity operating segment revenue for the three months ended September 30, 2017 and 2016 was as follows (in thousands):

	Three Months Ended September 30,		
	2017	2016	Change
Services	72,262	\$59,231	22 %
Equipment	7,927	8,664	(9)%
Total	\$80,189	\$67,895	18 %

Connectivity Service Revenue

Services revenue from our Connectivity operating segment increased \$13.0 million, or 22%, to \$72.3 million for the three months ended September 30, 2017, as compared to \$59.2 million for the three months ended September 30, 2016. The increase was primarily as a result of the full quarter impact of the EMC Acquisition, which we consummated in late July 2016, resulting in an additional \$14.5 million of Connectivity services revenue being recorded in the three months ended September 30, 2017 when compared to 2016. This was offset by a decrease of \$1.5 million as a result of the transition to a monthly recurring charge revenue model with our two largest Connectivity customers.

Connectivity Equipment Revenue

Equipment revenue from our Connectivity segment decreased \$0.7 million, or 9%, to \$7.9 million for the three months ended September 30, 2017, as compared to \$8.7 million for the three months ended September 30, 2016. The decrease was predominantly as a result of a decrease in the shipments of aviation equipment of \$1.4 million as a result of the number of aircraft we installed during the quarter and a decline in our average revenue per shipset. This was partially offset by an increase in Equipment sales to our maritime and land customers of \$0.6 million as a result of the timing of the consummation of the EMC Acquisition in July 2016.

Cost of Sales

Media & Content

Media & Content operating segment cost of sales for the three months ended September 30, 2017 and 2016 was as follows (in thousands):

	Three Months Ended September 30,		
	2017	2016	Change
Licensing and services	52,926	53,132	-%

Media & Content cost of sales decreased \$0.2 million, or less than 1%, to \$52.9 million for the three months ended September 30, 2017, as compared to \$53.1 million for the three months ended September 30, 2016. As a percentage of Media & Content revenue, cost of sales increased to 74% during the three months ended September 30, 2017, as compared to 67% for the three months ended September 30, 2016. The relatively higher cost of content (as percentage

of revenue) was due to unfavorable content product mix in 2017 relative to 2016 because we were unable to optimize the usage of fixed cost content suppliers.

Table of Contents

Connectivity

Connectivity operating segment cost of sales for the three months ended September 30, 2017 and 2016 was as follows (in thousands):

	Three Months Ended September 30,		
	2017	2016	Change
Services	52,904	42,428	25 %
Equipment	7,121	7,788	(9)%
Total	\$60,025	\$50,216	20 %

Connectivity services cost of sales increased \$10.5 million, or 25%, to \$52.9 million for the three months ended September 30, 2017, as compared to \$42.4 million for the three months ended September 30, 2016. The increase was predominantly as a result of the EMC Acquisition, consummated in July 2016, which contributed an additional \$11.6 million of Connectivity services cost of sales during the three months ended September 30, 2017, as compared to the three months ended September 30, 2016. This was offset by a decrease in Connectivity services cost of sales of \$1.1 million, which was driven by the comparable reduction in sales.

As a percentage of Connectivity service revenue, Connectivity service cost of sales remained relatively flat 73% for the three months ended September 30, 2017, as compared to 72% for the three months ended September 30, 2016.

Connectivity equipment cost of sales decreased \$0.7 million, or 9%, to \$7.1 million for the three months ended September 30, 2017, as compared to \$7.8 million for the three months ended September 30, 2016. The decrease was predominantly a result of the corresponding decrease in Connectivity equipment revenue during the three months ended September 30, 2017.

Other Operating Expenses

Other operating expenses for the three months ended September 30, 2017 and 2016 were as follows (in thousands):

	Three Months Ended September 30,		
	2017	2016	Change
Sales and marketing	\$9,332	\$8,390	11 %
Product development	11,328	7,916	43 %
General and administrative	39,129	44,728	(13)%
Provision for legal settlements	310	1,545	(80)%
Amortization of intangible assets	10,981	9,166	20 %
Total	\$71,080	\$71,745	5 %

Sales and Marketing

Sales and marketing expenses increased \$0.9 million, or 11%, to \$9.3 million for the three months ended September 30, 2017, as compared to \$8.4 million for the three months ended September 30, 2016. The increase was due to the full quarter impact of the EMC Acquisition in three months ended September 30, 2017, as compared to approximately 2 months in the three months ended September 30, 2016.

Product Development

Product development expense increased \$3.4 million, or 43%, to \$11.3 million for the three months ended September 30, 2017 compared to \$7.9 million for the three months ended September 30, 2016. The year-over-year increase was due to the EMC Acquisition, which contributed \$1.0 million for the three months ended September 30, 2017 compared to \$0.5 million for the three months ended September 30, 2016, along with increases of \$1.7 million and \$0.4 million in Connectivity and Content product development expenses, respectively. Connectivity-related expenses were related to implementation of new network technologies and antenna development expenses. The remainder of the difference was as a result of an increase in depreciation of \$1.2 million offset by an \$0.4 million decrease in external contractor costs.

Table of Contents

General and Administrative

General and administrative costs decreased \$5.6 million, or 13%, to \$39.1 million during the three months ended September 30, 2017 compared to \$44.7 million for the three months ended September 30, 2016. The timing of the EMC Acquisition accounted for a \$2.0 million increase in general and administrative expenses which was offset by a decrease in professional services fees related to higher costs incurred in 2016 associated with the EMC Acquisition of \$4.2 million. The remaining variance of \$3.4 million was predominantly driven by the decrease in non-cash stock-based compensation.

Provision for Legal Settlements

The provision for legal settlements declined \$1.2 million, or 80%, to \$0.3 million during the three months ended September 30, 2017. The provision for the three months ended September 30, 2016 was primarily due to our music-rights-related litigations. See Note 9. Commitments and Contingencies for a description of our Sound-Recording Settlements.

Amortization of Intangible Assets

Amortization expense increased \$1.8 million, or 20%, to \$11.0 million during the three months ended September 30, 2017 as compared to \$9.2 million for the three months ended September 30, 2016. The increase was due to the additional intangible assets acquired with the EMC Acquisition partially offset by lower amortization expense relating to previously acquired intangible assets from prior acquisitions becoming fully amortized.

Other Income (Expense)

Other income (expense) for the three months ended September 30, 2017 and 2016 was as follows (in thousands):

	Three Months Ended September 30,		
	2017	2016	Change
Interest expense, net	\$(18,164)	\$(6,412)	183 %
Income from equity method investments	1,770	2,065	(14)%
Change in fair value of derivatives	196	1,191	(84)%
Other (expense) income, net	(123)	631	(119)%
Total	\$(16,321)	\$(2,525)	546 %

Other income (expense) resulted in an expense of \$16.3 million for the three months ended September 30, 2017 compared to expense of \$2.5 million for the three months ended September 30, 2016. The increase in expense is principally due to an increase in net interest expense of \$11.8 million primarily as a result of the as a result of the acquisition of indebtedness with the EMC Acquisition. The remainder of the movement resulted from the recording of the change in fair value of our Public SPAC Warrants from \$0.2 million of income recognized in the three months ended September 30, 2017 as compared to an income of \$1.2 million along with an \$0.3 million reduction in income from equity method investments and an increase in other expenses, net of \$0.8 million.

Provision (benefit) for income taxes

The Company recorded an income tax provision of \$4.2 million and an income tax benefit of \$50.1 million for the three months ended September 30, 2017 and 2016, respectively. The income tax provision for the three months

ended September 30, 2017 is primarily attributable to changes in foreign income taxes resulting from fluctuations in the foreign subsidiaries' contribution to pretax income, withholding taxes and the effect of income and expense items that are not taxable or deductible, respectively, for tax purposes. The income tax benefit for the three months ended September 30, 2016 was primarily attributable to the release of valuation allowance due to deferred tax liabilities created in the EMC Acquisition.

Table of Contents

Nine Months Ended September 30, 2017 and 2016

Operating Segments

Segment revenue, expenses and contribution profit for the nine months ended September 30, 2017 and 2016 derived from our Media & Content and Connectivity segments were as follows (in thousands):

	Nine Months Ended	
	September 30, 2017	2016
Revenue:		
Media & Content		
Licensing and services	\$222,294	\$241,330
Connectivity		
Services	211,106	110,625
Equipment	26,471	21,036
Total	237,577	131,661
Total revenue	\$459,871	\$372,991
Gross Margin:		
Media & Content	\$58,418	79,622
Connectivity	59,873	38,167
Total gross margin	118,291	117,789
Other operating expenses	278,303	192,769
Loss from operations	\$(160,012)	\$(74,980)

Revenue

Media & Content

Media & Content operating segment revenue for the nine months ended September 30, 2017 and 2016 was as follows (in thousands):

	Nine Months Ended		
	September 30, 2017	2016	Change
Licensing and services	\$222,294	\$241,330	(8)%

Media & Content Licensing and Services Revenue

Media & Content licensing and services revenue decreased \$19.0 million, or 8%, to \$222.3 million for the nine months ended September 30, 2017 as compared to \$241.3 million for the nine months ended September 30, 2016. The decrease was primarily due to the loss of a customer following a legal dispute relating to music-licensing liabilities in 2016, a decline in content service production revenues and games offset by revenue growth in advertising.

Table of Contents

Connectivity

Connectivity operating segment revenue for the nine months ended September 30, 2017 and 2016 was as follows (in thousands):

	Nine Months Ended September 30,		
	2017	2016	Change
Services	\$211,106	\$110,625	91 %
Equipment	26,471	21,036	26 %
Total	\$237,577	\$131,661	80 %

Connectivity Service Revenue

Services revenue from our Connectivity operating segment increased \$100.5 million, or 91%, to \$211.1 million for the nine months ended September 30, 2017, as compared to for the nine months ended September 30, 2016. The increase was primarily as a result of the EMC Acquisition, which we consummated in July 2016, contributing \$126.4 million of revenues in the nine months ended September 30, 2017 as compared to \$30.7 million for the nine months ended September 30, 2016 due to the timing of the EMC Acquisition. The remainder of the increase of \$4.8 million was the result of increased passenger usage of internet connectivity services. This increase was predominantly driven by an increase in the number of planes utilizing our Aviation Connectivity Services.

Connectivity Equipment Revenue

Equipment revenue from our Connectivity Segment increased \$5.4 million, or 26%, to \$26.5 million for the nine months ended September 30, 2017, as compared to \$21.0 million for the nine months ended September 30, 2016. The EMC Acquisition contributed \$1.2 million in revenue for the nine months ended September 30, 2016, as compared to our Maritime & Land business recording Equipment revenue of \$6.6 million for the nine months ended September 30, 2017.

Cost of Sales

Media & Content

Media & Content operating segment cost of sales for the nine months ended September 30, 2017 and 2016 was as follows (in thousands):

	Nine Months Ended September 30,		
	2017	2016	Change
Licensing and services	\$163,876	\$161,708	1 %

Media & Content cost of sales increased \$2.2 million, or 1%, to \$163.9 million for the nine months ended September 30, 2017, as compared to \$161.7 million for the nine months ended September 30, 2016. As a percentage of Media & Content revenue, cost of sales increased to 77% during the nine months ended September 30, 2017, as compared to 67% for the nine months ended September 30, 2016. The relatively higher cost of content (as percentage of revenue) was due to unfavorable content product mix in 2017 relative to 2016 because we were unable to optimize the usage of fixed cost content suppliers.

Table of Contents

Connectivity

Connectivity operating segment cost of sales for the nine months ended September 30, 2017 and 2016 was as follows (in thousands):

	Nine Months Ended September 30,		
	2017	2016	Change
Services	\$153,748	\$75,381	104 %
Equipment	23,956	18,113	32 %
Total	\$177,704	\$93,494	90 %

Connectivity services cost of sales increased \$78.4 million, or 104%, to \$153.7 million for the nine months ended September 30, 2017, as compared to \$75.4 million for the nine months ended September 30, 2016. The increase was predominantly as a result of the EMC Acquisition, consummated in July 2016, which contributed an additional \$73.8 million year-over-year. The remaining increase of \$4.6 million of Connectivity services cost of sales during the nine months ended September 30, 2017, as compared to the nine months ended September 30, 2016. This was offset by a decrease in Connectivity services cost of sales of \$1.1 million, which was driven by the comparable reduction in sales.

As a percentage of Connectivity service revenue, Connectivity service cost of sales increased to 73% for the nine months ended September 30, 2017, as compared to 68% for the nine months ended September 30, 2016. The increase was principally driven by the relatively lower margins driven by the addition of our Maritime & Land business through the acquisition of EMC in July 2016. Our Maritime & Land connectivity services business as a percentage of sales for the nine months ended September 30, 2017 was 77% as compared to 67% for our Aviation connectivity Services business.

Connectivity equipment cost of sales increased \$5.8 million, or 32%, to \$24.0 million for the nine months ended September 30, 2017, as compared to \$18.1 million for the three months ended September 30, 2016. The increase was predominantly as a result of the EMC Acquisition, consummated in July 2016, which contributed an additional \$5.6 million during the nine months ended September 30, 2017.

Other Operating Expenses

Other operating expenses for the nine months ended September 30, 2017 and 2016 were as follows (in thousands):

	Nine Months Ended September 30,		
	2017	2016	Change
Sales and marketing	\$30,376	\$19,553	55 %
Product development	26,921	25,078	7 %
General and administrative	109,372	82,395	33 %
Provision for legal settlements	785	41,688	(98)%
Amortization of intangible assets	32,849	24,055	37 %
Goodwill impairment	78,000	—	100 %
Total	\$278,303	\$192,769	38 %

Sales and Marketing

Sales and marketing expenses increased \$10.8 million, or 55%, to \$30.4 million for the nine months ended September 30, 2017 as compared to \$19.6 million for the nine months ended September 30, 2016. The increase was primarily driven by the EMC Acquisition which contributed an additional \$9.9 million due to the timing of the EMC Acquisition in late July 2016. The remainder of the increase was as a result of the timing of annual tradeshow expenses of \$0.5 million and an increase in depreciation of \$0.2 million.

Product Development

Table of Contents

Product development expense increased \$1.8 million, or 7%, to \$26.9 million for the nine months ended September 30, 2017 compared to \$25.1 million for the nine months ended September 30, 2016. The year-over-year increase was due to the EMC Acquisition, which contributed an additional \$2.5 million, increased depreciation of \$1.4 million and increased hardware maintenance costs of \$0.4 million. These increases were partially offset by reductions in profession services fees of \$1.6 million and contractor costs of \$0.9 million.

General and Administrative

General and administrative costs increased \$27.0 million, or 33%, to \$109.4 million during the nine months ended September 30, 2017 compared to \$82.4 million for the nine months ended September 30, 2016. This increase was predominantly as a result of the EMC Acquisition which accounted for \$7.8 million of the increase for the current nine month period. The remainder of the increase was primarily due to net increases in contractor costs and professional service fees of \$16.4 million, increased insurance costs of \$1.8 million, predominantly due to the EMC Acquisition and the acquired transponders, increased salaries of \$3.0 million, including severance payments, and an increase in bad debt and customer bankruptcies of \$2.3 million. These were partially offset by a reduction in transaction costs of \$4.0 million for the EMC Acquisition that were incurred in 2016.

Provision for Legal Settlements

The provision for legal settlements declined \$40.9 million or 98% to \$0.8 million during the nine months ended September 30, 2017. The provision for the nine months ended September 30, 2016 was primarily due to our music-rights-related litigations. See Note 9. Commitments and Contingencies for a description of our Sound-Recording Settlements.

Amortization of Intangible Assets

Amortization expense increased \$8.8 million, or 37%, to \$32.8 million during the nine months ended September 30, 2017 as compared to \$24.1 million for the nine months ended September 30, 2016. The increase was due to the additional intangible assets acquired with the EMC Acquisition for the nine months ended September 30, 2017 offset by lower amortization expense relating to previously acquired intangible assets from prior acquisitions becoming fully amortized.

Goodwill Impairment

As discussed previously in this Form 10-Q and in our Form 10-K, during the first quarter of 2017 we assessed our goodwill for impairment due to several reasons including a significant decline in the market capitalization of the Company and lower than expected financial results in its Maritime & Land Connectivity reporting unit during the three months ended March 31, 2017 due to delays in new maritime installations, slower than originally estimated execution of EMC Acquisition-related synergies and other events that occurred in the first quarter of 2017. We determined that there was a higher degree of uncertainty in achieving its financial projections for this unit and as such, increased its discount rate, which reduced the fair value of the unit. The Company additionally adopted ASU 2017-04, Intangibles-Goodwill and Others (Topic 350): Simplifying the Test for Goodwill Impairment, effective January 1, 2017, which eliminated Step 2 from the goodwill impairment test, requiring a company to perform its annual, or interim, goodwill impairment test by comparing the fair value of a reporting unit with its carrying amount and recognize an impairment charge for the amount by which the carrying amount exceeds the reporting unit's fair value. Applying this methodology we recorded an impairment of \$78.0 million in this reporting unit as of March 31, 2017. Subsequent to this, no further impairment was recorded during the nine months ended September 30, 2017.

Additionally, during the three month period ended September 30, 2017, the Company reduced its goodwill balance by \$1.3 million relating to the final settlement received from the sellers of EMC for the working capital adjustment, as defined by the EMC Acquisition.

Other Income (Expense)

Other income (expense) nine months ended September 30, 2017 and 2016 was as follows (in thousands):

60

Table of Contents

	Nine Months Ended September 30,		
	2017	2016	Change
Interest expense, net	(43,935)	(7,829)	460 %
Loss on extinguishment of debt	(14,389)	—	(100)%
Income from equity method investments	3,911	2,065	89 %
Change in fair value of derivatives	2,672	17,982	(85)%
Other income (expense), net	38	(4,623)	(101)%
Total	\$(51,703)	\$7,595	(781)%

Other income (expense) resulted in an expense of \$51.7 million for the nine months ended September 30, 2017 compared to income of \$7.6 million for the nine months ended September 30, 2016. The \$59.3 million increase in expense is principally due to an increase in net interest expense of \$36.1 million primarily as a result of the debt assumed with the EMC Acquisition and the loss on extinguishment of debt arising as a result of the subsequent refinancing of the legacy EMC indebtedness into a larger credit facility, is discussed in Note 8. Financing Arrangements during the nine months ended September 30, 2017. The remainder of the increase resulted from the recording of the change in fair value of our Public SPAC Warrants from \$2.7 million of income recognized in the nine months ended September 30, 2017 as compared to an income of \$18.0 million during the nine months ended September 30, 2016 and an increase in earnings from equity method investments, acquired as part of the EMC Acquisition, of \$1.8 million. The other expense recorded in the nine months ended September 30, 2016 of \$4.6 million predominantly related to a \$4.6 million write-off of a related party loan during that period.

Income Tax Expense

The Company recorded an income tax provision of \$11.0 million and an income tax benefit of \$46.2 million for the nine months ended September 30, 2017 and 2016, respectively. The income tax provision for the nine months ended September 30, 2017 is primarily attributable to changes in foreign income taxes resulting from fluctuations in the foreign subsidiaries' contribution to pretax income, withholding taxes and effects of permanent differences. The income tax benefit for the nine months ended September 30, 2016 was primarily attributable to the release of valuation allowance due to deferred tax liabilities created in the EMC acquisition of \$53.9 million, offset by foreign income taxes of \$4.8 million resulting from the foreign subsidiaries' contribution to pretax income, withholding taxes of \$2.7 million and tax effect of income and expense items that are not taxable or deductible, respectively, for tax purposes.

Recent Accounting Pronouncements

See Note 2. Basis of Presentation and Summary of Significant Accounting Policies to the condensed consolidated financial statements (Part I, Item 1 of this Form 10-Q) for further discussion.

Critical Accounting Policies

The preparation of our condensed consolidated financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and the notes to the financial statements. Some of those judgments can be subjective and complex, and therefore, actual results could differ materially from those estimates under different assumptions or conditions. A summary of our critical accounting policies is presented in Part II, Item 7, of our Annual Report on Form 10-K for the year ended December 31, 2016. There were no material changes to our critical accounting policies during the nine months ended September 30, 2017.

Table of Contents

Financial Condition, Liquidity and Capital Resources

Selected financial data for the periods presented below were as follows (in thousands):

	September 30, December 31,	
	2017	2016
Cash and cash equivalents	\$ 58,037	\$ 50,686
Total assets	\$ 992,296	\$ 1,099,435
Current portion of long-term debt	\$ 13,424	\$ 2,069
Long-term debt	\$ 601,653	\$ 468,231
Total stockholders' equity	\$ 105,243	\$ 298,997

Current Financial Condition

As of September 30, 2017, our principal sources of liquidity were our cash and cash equivalents of \$58.0 million, which primarily were invested in cash and money market funds in banking institutions in the U.S., Canada and Europe and to a lesser extent in Asia Pacific. Our cash position increased during the nine months ended September 30, 2017, primarily due to borrowings of long term debt, which we have discussed below under “—Long Term Debt”. Our long term debt balance increased from \$470.3 million at December 31, 2016 to \$619.0 million at December 31, 2017. As of September 30, 2017, we had \$542.9 million, net of discounts, in term and revolving loans outstanding; convertible notes in an aggregate principal amount outstanding of \$82.5 million; and other debt outstanding of \$2.7 million. Please see “—Long Term Debt” below and Note 8. Financing Arrangements to the unaudited condensed consolidated financial statements (Part I, Item 1 of this Form 10-Q) for a discussion of our 2017 Credit Agreement and Convertible Notes. We used the proceeds of these issuances to repay then existing indebtedness, to fund our working capital and capital expenditure requirements and for general corporate purposes.

Our cash flows from operating activities are significantly affected by our investments in operations, including working capital and corporate infrastructure to support our ability to generate revenue and conduct operations through cost of services, product development, sales and marketing and general and administrative activities. Cash used in operations was \$55.0 million and \$36.0 million for the nine months ended September 30, 2017 and September 30, 2016, respectively. Cash used in investing activities has historically been, and is expected to be, impacted significantly by our investments in business combinations, our platform, our infrastructure and equipment for our business offerings. Historically, cash used for financing activities included our common stock and warrant repurchases and the repayment of debt.

As of December 31, 2017, our consolidated unrestricted cash balance was approximately \$50.8 million, of which approximately \$15.8 million was held by our non U.S. subsidiaries, and our long term debt balance was approximately \$619.0 million. As and if we decide to repatriate our non-U.S. cash holdings from time to time, then we may incur a tax liability under U.S. tax laws on any amount that we repatriate into the U.S. In the event we elect to repatriate any of these funds, we believe we have sufficient net operating losses for the foreseeable future to offset any U.S. tax owed on repatriated income. As a result, we do not expect any such repatriation would create a tax liability in the U.S. or have a material impact on our effective tax rate. Since September 30, 2017, we have experienced a decline in our consolidated unrestricted cash balance, primarily as a result of cash used for operating and investing activities. The cash used in operating and investing activities increased over the comparable prior period due to higher professional fees and related expenses related to our delayed filing of the 2016 Form 10-K, capital purchases for our Eagle-1 satellite transponders, amendment and consent fees paid to our 2017 Credit Agreement lenders, and additional amounts that we used as working capital to support our operations. Further, as a result of several amendments to our 2017 Credit Agreement in 2017 (and as of the date of filing of this Form 10-Q), (1) our maximum permitted Leverage Ratio is 4.5 to 1 through the quarter ending June 30, 2019 (after which quarter it steps down through the maturity of the 2017 Credit Agreement as set forth therein); (2) our term loans under the 2017 Credit Agreement bear interest on

the outstanding amount at a rate per annum equal to either (i) the Base Rate plus 6.50% or (ii) the Eurocurrency Rate for each Interest Period plus 7.50%; and (3) our loans under our revolving credit facility (the “2017 Revolving Loans”) in the 2017 Credit Agreement now bear interest at a rate equal to either (i) the Base Rate (as defined in the 2017 Credit Agreement) plus 6.50% or (ii) the Eurocurrency Rate or EURIBOR (each as defined in the 2017 Credit Agreement) plus 7.50%, until we deliver our unaudited financial statements for the quarter ending March 31, 2018. After the delivery of those unaudited financial statements, the 2017 Revolving Loans will bear interest at a rate based on the Base Rate, Eurocurrency Rate or EURIBOR plus an interest-rate spread thereon that varies based on our Leverage Ratio. Under that Leverage Ratio scale, the spread thereon for the 2017 Revolving Loans will range from 6.00% to 6.50% for the Base Rate

Table of Contents

and 7.00% to 7.50% for the Eurocurrency Rate and EURIBOR. See “-Long Term Debt” below, including for a definition and an explanation of our “Leverage Ratio.” Our ability to generate sufficient cash flows from operations may affect our future compliance with the maximum leverage ratio included in the 2017 Credit Agreement.

We expect our available cash balances and cash flows from operations (combined with any availability under the revolving credit facility under the 2017 Credit Agreement) to provide sufficient liquidity to fund our current obligations and projected working-capital and capital-expenditure requirements for at least the next 12 months. (Note however that as of the filing date of this Form 10-Q we had no capacity remaining under the revolving credit facility, except for approximately \$1 million of available cushion for foreign currency fluctuations on outstanding letters of credit.) To strengthen our current liquidity position and to fund our ongoing operations and/or enable us to invest in new business opportunities, we may implement cost reduction initiatives and/or raise additional funds through asset sales, commercial financings and new revolving and term-loan facilities and through the issuance of bonds, debentures and equity and equity-linked securities (in public or private offerings). However, market conditions, our future financial performance, our history of delays in filing our periodic SEC reports and our potential delisting from Nasdaq (if we fail to timely file our periodic SEC reports in the future), among other factors, may make it difficult or impossible for us to access debt or equity sources of capital, on favorable terms or at all, should we determine in the future to raise additional funds through these methods.

The assessment by management that the Company will have sufficient liquidity to fund current obligations and projected working-capital and capital-expenditure requirements for at least the next 12 months. is based on underlying estimates and assumptions, including that the Company: (i) remains current in its SEC public-reporting obligations; (ii) services its indebtedness and complies with the covenants (including the financial-reporting covenants) in the agreements governing its indebtedness; and (iii) remains listed on The Nasdaq Stock Market. The Company is currently in compliance with its credit-agreement covenants due to waivers and amendments it has obtained through the date of filing of this Form 10-Q.

If the Company is unable to service its indebtedness or satisfy the covenants (including the financial reporting covenants) in the agreements governing its indebtedness (or obtain additional waivers (if needed)), then its lenders and noteholders have the option to immediately accelerate all outstanding indebtedness, which the Company may not have the ability to repay. The Company intends to satisfy its current debt service obligations with its existing cash and cash equivalents. However, the Company may not have sufficient funds or may be unable to arrange for additional financing to pay the future amounts due under its existing debt instruments in the event of an acceleration event or repurchase event (as applicable, in the event that the Company is delisted from Nasdaq in the future). In this event, funds from external sources may not be available on acceptable terms, if at all.

Cash and Cash Equivalents

Our cash and cash equivalents are maintained at several financial institutions. Deposits held may exceed the amount of insurance provided on such deposits. Generally, our deposits may be redeemed upon demand and are maintained with a financial institution of reputable credit and, therefore, bear minimal credit risk. Of our cash and cash equivalents as of December 31, 2017 and September 30, 2017, approximately \$15.8 million and \$21.9 million was held by our foreign subsidiaries. If these funds were repatriated for use in our U.S. operations, we may be required to pay income taxes in the U.S. on the repatriated amount at the tax rates then in effect, reducing the net cash proceeds to us after repatriation. In the event we elect to repatriate any of these funds we believe we have sufficient net operating losses for the foreseeable future to offset any repatriated income. As a result, we do not expect any such repatriation would create a tax liability in the U.S. or have a material impact on our effective tax rate.

Table of Contents

Sources and Uses of Cash—Nine Months Ended September 30, 2017 and 2016

A summary of our cash flow activities for the nine months ended September 30, 2017 and 2016 was as follows (in thousands):

	Nine Months Ended September 30,	
	2017	2016
Net cash used in by operating activities	\$(54,995)	\$(35,973)
Net cash used in investing activities	(60,863)	(125,462)
Net cash provided by (used in) financing activities	122,936	(6,140)
Effects of exchange rate changes on cash and cash equivalents	273	178
Net increase (decrease) in cash and cash equivalents	7,351	(167,397)
CASH AND CASH EQUIVALENTS AT BEGINNING OF PERIOD	50,686	223,552
CASH AND CASH EQUIVALENTS AT END OF PERIOD	\$58,037	\$56,155

Cash Flows (Used in) Provided by Operating Activities

Nine Months Ended September 30, 2017

Net cash used in our operating activities of \$55.0 million primarily reflects our net loss during the period of \$222.7 million, which included a net non-cash charge of \$176.2 million. These non-cash charges primarily related to the goodwill impairment charge of \$78.0 million, the loss on extinguishment of debt of \$14.4 million, normal depreciation & amortization expenses of \$65.7 million and other items netting to a charge of \$18.1 million.

The remainder of our uses of cash in operating activities of \$8.5 million resulted from changes in working capital driven by cash outflows from working capital changes predominantly as a result of decreases in accounts payable due to timing of payments, an increase in accounts receivable due to slower than anticipated collections, and a decrease in our content library liabilities.

Nine Months Ended September 30, 2016

Net cash used in our operating activities of \$36.0 million primarily reflects our net loss during the period of \$21.2 million, which included net non-cash income of \$12.3 million. Non-cash income resulted from changes in our deferred income taxes, the fair value of our derivative financial instruments and undistributed earnings from our equity affiliates. These amounts were partially offset by non-cash expenses primarily including depreciation and amortization, expenses incurred with the issuance of our Common stock to partially settle legal settlements, stock-based compensation, a loss on the write-off of a note receivable and non-cash interest expense. The remainder of our operating activities resulted in a decrease in cash from operations totaling \$1.6 million, primarily due to deferred revenues, other assets, inventories, content library and accounts receivable. These amounts were partially offset by changes in prepaid and other assets, accounts payable and accrued liabilities and taxes payable.

Cash Flows Used in Investing Activities

Nine Months Ended September 30, 2017

Net cash used in investing activities during the nine months ended September 30, 2017 of \$60.9 million was due to purchase of property, plant and equipment, principally relating to the receipt of SES Tranche 2 Transponders. This

was partially offset by the receipt of the final \$1.3 million from the seller of the EMC business, relating to the working capital adjustment escrow in the EMC purchase agreement, and the receipt of \$0.6 million relating to reimbursements for litigation expenses associated with the final settlement with the former stockholders of Maritime Telecommunications Network (“MTN”) (which acquisition EMC consummated prior to the Company’s acquisition of EMC). This resulted in the release of \$15.5 million of cash held in escrow to the former stockholders of MTN, which was previously classified on our Condensed Consolidated Balance Sheet as restricted cash. This has been classified as a significant non-cash investing activity in the Condensed Consolidated Statement of Cash Flows.

Table of Contents

Nine Months Ended September 30, 2016

Net cash used in investing activities during the nine months ended September 30, 2016 of \$125.5 million was primarily due to \$91.6 million for our acquisition of EMC, net of cash acquired, \$29.5 million of investments in property and equipment and a \$4.4 million loan to a related party.

Cash Flows (Used in) Provided by Financing Activities

Nine Months Ended September 30, 2017

Net cash provided by financing activities of \$122.9 million was primarily due to net proceeds of \$485.0 million received as a result of our January 2017 refinancing of indebtedness that we assumed from EMC in the EMC Acquisition with a larger credit facility. The new 2017 Credit Agreement, entered into in January 2017, consisted of a six-year \$500 million senior secured term loan facility (fully drawn at the close of the refinancing) and a five-year \$85 million senior secured revolving credit facility. The remaining \$78.1 million of cash inflows from financing activities predominantly related to a draw-down of the new senior-secured revolving credit facility during the nine months ended September 30, 2017. These receipts were offset by repayments of the EMC indebtedness of \$412.4 million, issuance costs for the 2017 Credit Agreement and other modifications of \$19.3 million and debt repayments of \$7.1 million. Additionally, we made a contingent earn-out payment of \$1.4 million relating to a previous acquisition made in 2015.

Nine Months Ended September 30, 2016

Net cash used in financing activities of \$6.1 million was primarily due to repurchases of Company stock totaling \$5.2 million and cash used to repay debt of \$2.3 million, partially offset by cash received from borrowings of debt of \$1.3 million.

Long-Term Debt

As of September 30, 2017 and December 31, 2016, our long-term debt consisted of the following (in thousands):

	September 30, December 31,	
	2017	2016
Senior secured term loan facility, due July 2021 ⁽¹⁾	\$ —	\$ 263,980
Senior secured revolving credit facility, due July 2020 ⁽¹⁾	—	55,500
Senior secured term loan facility, due July 2022 ⁽¹⁾	—	92,000
Senior secured term loan facility, due January 2023 ⁽²⁾	493,750	—
Senior secured revolving credit facility, due January 2022 ⁽²⁾	78,000	—
2.75% convertible senior notes due 2035 ⁽³⁾	82,500	82,500
Other debt	2,669	3,299
Unamortized bond discounts, fair value adjustments and issue costs, net	(41,842) (26,979
Total carrying value of debt	615,077	470,300
Less: current portion, net	(13,424) (2,069
Total non-current	\$ 601,653	\$ 468,231

(1) In connection with the EMC Acquisition, the Company assumed legacy EMC credit-agreement indebtedness, including this facility. This legacy EMC indebtedness was subsequently replaced by the 2017 Credit Agreement (as described in Note 8. Financing Arrangements).

(2) This facility is a component of the 2017 Credit Agreement.

(3) The principal amount outstanding of the 2.75% convertible senior notes due 2035 as set forth in the foregoing table was \$82.5 million as of September 30, 2017, and are not the carrying amounts of this indebtedness (i.e., outstanding principal

Table of Contents

amount net of debt issuance costs and discount associated with the equity component).

The aggregate contractual maturities of all borrowings due subsequent to September 30, 2017 are as follows (in thousands):

Years Ending December 31,	Amount
2017 (remaining three months)	\$4,018
2018	13,180
2019	22,275
2020	25,135
2021	25,044
Thereafter	567,267
Total	\$656,919

The foregoing table excludes earn-out liabilities of \$0.3 million relating to the acquisitions of WOI, RMG, masFlight and navAero in 2015, in which the Company agreed to future contingent earn-out obligations relating to future performance of those businesses. Potential payouts are expected on specified dates through 2020. Also excluded are future purchase commitments with some of our connectivity vendors to secure future inventory for our airline customers and commitments related to ongoing engineering and antenna projects. At September 30, 2017, we also had outstanding letters of credit in the amount of \$7.1 million, of which \$5.9 million was issued under the letter of credit facility under the 2017 Credit Agreement.

As of December 31, 2017, the principal balance on the Company's outstanding term loan under the 2017 Credit Agreement was \$491 million, and we had drawn an aggregate of \$78 million on the \$85 million revolving line of credit under the 2017 Credit Agreement (with approximately \$6 million of letters of credit issued against the facility). As such, our remaining available capacity under the revolving-credit facility was approximately \$1 million.

Covenant Compliance Under 2017 Credit Agreement

As of September 30, 2017 we were in compliance with all financial and non-financial covenants under the 2017 Credit Agreement (giving effect to waivers and extensions we received thereunder in connection with our obligation to deliver financial-reporting information to the 2017 Credit Agreement lenders). Under the 2017 Credit Agreement, we are subject to a financial-reporting covenant ("Financial-Reporting Covenant") and a maximum leverage-ratio covenant (the "Leverage Ratio") (each of which we describe below), in addition to other customary covenants and restrictions set forth therein.

The Financial-Reporting Covenant requires us to furnish to our lenders our audited annual financial statements and unaudited interim financial statements by deadlines specified in the 2017 Credit Agreement. In connection with the delayed filing of our 2016 Form 10-K, we entered into several amendments and waivers and extensions to the 2017 Credit Agreement. See [Note 16. Subsequent Events](#) for a discussion of the terms of such amendments and waivers. As currently in effect, the Financial-Reporting Covenant requires that we furnish to our lenders our unaudited interim financial statements for the quarters ended March 31, 2017, June 30, 2017 and September 30, 2017 by no later than January 31, 2018. By filing this Form 10-Q, together with the Q1 Form 10-Q and the Q2 Form 10-Q (which we filed concurrently with the filing of this Form 10-Q), we became compliant with the Financial-Reporting Covenant. The Leverage Ratio (which is tested at the end of each fiscal quarter) requires that we maintain a ratio of Consolidated First Lien Net Debt (as defined in the 2017 Credit Agreement) to Consolidated EBITDA (as defined in the 2017 Credit Agreement) for the trailing 12 months that is no greater than 4.5 to 1 through the quarter ending June 30, 2019, after which period the permitted Leverage Ratio steps down through the maturity date of the 2017 Credit Agreement as set forth therein.

As of March 31, 2017, June 30, 2017 and September 30, 2017, we were in compliance with the Leverage Ratio, and based on our preliminary projected financial results for the fourth quarter 2017 as available to us at this time, we expect to be in compliance with the Leverage Ratio as of December 31, 2017. In addition, based on our current projections, we expect to remain in compliance with the Leverage Ratio for at least the next 12 months.

Table of Contents

You should also refer to the section titled “Risks Related to Our Indebtedness” in Part I, Item 1A. Risk Factors in our 2016 Form 10-K, for an explanation of the consequences of our failure to satisfy these covenants.

Contractual Obligations

For a discussion of movie license and Internet protocol television commitments, minimum lease obligations, satellite capacity, and other contractual commitments as of September 30, 2017, see Note 9. Commitments and Contingencies to the unaudited condensed consolidated financial statements (Part I, Item 1 of this Form 10-Q).

Off -Balance Sheet Arrangements

As of September 30, 2017, we did not have any off-balance sheet arrangements that have, or are reasonably likely to have, a material effect on our financial condition, results of operations, liquidity, capital expenditures or capital resources.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

There have been no material changes during the nine months ended September 30, 2017, to the information provided in Part II, Item 7A, “Quantitative and Qualitative Disclosures About Market Risk,” of our Annual Report on Form 10-K for the year ended December 31, 2016.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed by the Company in reports filed or submitted under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), is recorded, processed, summarized and reported within the time periods specified in SEC rules and forms and that such information is accumulated and communicated to management, including our Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosures.

As of the end of the period covered by this Form 10-Q, we carried out an evaluation, under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) of the Exchange Act) pursuant to Rule 13a-15 of the Exchange Act. Based upon that evaluation, as a result of the material weaknesses in internal control over financial reporting identified in our 2016 Form 10-K and as described below, our Chief Executive Officer and Chief Financial Officer concluded that as of the end of the period covered by this Form 10-Q, the Company’s disclosure controls and procedures were not effective.

A material weakness is a deficiency, or combination of deficiencies, in internal control over financial reporting such that there is a reasonable possibility that a material misstatement of annual or interim financial statements will not be prevented or detected on a timely basis.

In connection with our evaluation of our disclosure controls and procedures for the second quarter of 2017, we determined that all of the 2016 material weaknesses in our internal control over financial reporting (disclosed in our 2016 Form 10-K) continued to exist. These included the material weaknesses described under the following

subheadings in Item 9A of the 2016 Form 10-K: the Entity-Level Control Environment; Financial Statement Close and Reporting Process; Intercompany Process; Business Combination; Significant and Unusual Non-Routine Transactions; Inventory; Content Library; Internally Developed Software; Long-Lived Assets; Goodwill Impairment; Accounts Payable and Accrued Liabilities; Revenue Processes, License Fee Accruals; Income Taxes; Payroll; Stock-Based Compensation; Treasury; and IT Processes. We have also identified deficiencies in our Maritime & Land operations (i.e., our acquired EMC business, which was scoped out of our management's annual assessment of the effectiveness of our internal control over financial reporting for our 2016 Form 10-K but which operations will be included in our testing for effectiveness of our internal control over financial reporting in connection with our Form 10-K for the year ended December 31, 2017) that we believe may constitute material weaknesses in our internal control over financial reporting consistent

Table of Contents

with those that existed in our control environment as of December 31, 2016, as well as cost-of-sales deficiencies and cash-management deficiencies. The new cost of sales deficiencies relate to our failure to implement effective internal controls for recording and reporting our costs of sales. The new cash-management deficiencies relate to our failure to implement effective internal controls over recording and reporting of our cash receipts, collectability of accounts receivable and cash disbursements. We may identify additional deficiencies that constitute material weaknesses as we continue to remediate our current material weaknesses.

In light of the material weaknesses in our internal control over financial reporting, we performed additional analyses and other procedures to ensure that our unaudited condensed consolidated financial statements included in this Form 10-Q present fairly, in all material respects, our financial position, results of our operations and our cash flows as of and for the three and nine months ended September 30, 2017 in accordance with accounting principles generally accepted in the United States (“GAAP”). Following the above analyses and procedures, our management, including our Chief Executive Officer and Chief Financial Officer, has concluded that our unaudited condensed consolidated financial statements included in this Form 10-Q present fairly, in all material respects, our financial position, results of operations and cash flows for the periods presented, in conformity with GAAP.

Remediation Plan

We previously identified a plan to remediate the material weaknesses described in this Item 4 and in our 2016 Form 10-K and to enhance our overall control environment, and we continue to implement that plan. Please refer to Item 9A of our 2016 Form 10-K for further detail regarding that plan. As and if we identify additional deficiencies that may constitute material weaknesses in our internal control over financial reporting with respect to our Maritime & Land business, we intend to undertake remedial actions within that business’s control environment.

During 2017 we were focused on the preparation and the filing of the 2016 Annual Financial Statements and on the preparation of our 2016 Form 10-K, and as such we did not successfully remediate our material weaknesses. We however believe that our remediation plan, when fully implemented and effective, should remediate the material weaknesses described in this Item 4 and in our 2016 Form 10-K and enhance our overall control environment. But, because the reliability of the internal control process requires repeatable execution and testing over multiple fiscal quarters, any successful remediation of these material weaknesses will require review and evidence of effectiveness prior to concluding that the controls are effective, and it is possible that additional remediation steps will be necessary and/or that our material weaknesses will continue to persist. Further, we cannot at this time estimate how long it will take to remediate our material weaknesses, and our remediation plan may not ultimately be successful.

As we continue to evaluate and work to improve our internal control over financial reporting, our management may decide to take additional measures to address the material weaknesses or modify the remediation steps described above. Until we have remediated all of our material weaknesses, we plan to continue to perform additional analyses and other procedures to ensure that our consolidated financial statements continue to be prepared in accordance with GAAP.

Changes in Internal Control Over Financial Reporting

Except in connection with the continued post-closing integration of EMC and the other matters discussed above, there was no change in our internal control over financial reporting that occurred during the period covered by this Quarterly Report on Form 10-Q that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Table of Contents

PART II — OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

Certain legal proceedings in which we are involved are discussed in Part I, Item 3 of our 2016 Form 10-K and in Note 9. Commitments and Contingencies, to the condensed consolidated financial statements included in this Form 10-Q.

There were no material updates to the legal proceedings disclosed in Part I, Item 3 of our 2016 Form 10-K, except as follows:

SwiftAir Litigation. With respect to the lawsuit filed by SwiftAir, LLC against our wholly owned subsidiary, Row 44, and one of its airline customers in the Superior Court of California for the County of Los Angeles, the Court has scheduled the trial for this matter in February 2018.

STM Litigation. With respect to the lawsuit filed by STM Atlantic N.V. and STM Group, Inc. against EMC in Delaware Superior Court, the Court has scheduled the trial for this matter in February 2018.

Securities Class Action Litigation. With respect to the class action lawsuit that was filed in the United States District Court for the Central District of California, on November 30, 2017, the plaintiffs filed a motion to alter or amend the Court's previous judgment of dismissal to permit the class-action plaintiffs to file a further amended complaint. On January 8, 2018, the Court denied the plaintiffs' motion. On January 29, 2018, the plaintiffs filed a notice of appeal to the United States Court of Appeals for the Ninth Circuit from the Court's denial of the plaintiffs' motion to alter or amend the judgment.

ITEM 1A. RISK FACTORS

Our risk factors are described in the "Risk Factors" section of our 2016 Form 10-K. There have been no material changes to our risk factors since the filing of the 2016 Form 10-K.
