1. Business and Organization

RE/MAX Holdings, Inc. (“RE/MAX Holdings”) was formed as a Delaware corporation on June 25, 2013 and was capitalized on July 8, 2013. On October 7, 2013, RE/MAX Holdings completed an initial public offering (the “IPO”) of 11,500,000 shares of Class A common stock at a public offering price of \$22.00 per share. A portion of the proceeds received by RE/MAX Holdings from the IPO was used to acquire the net business assets of HBN, Inc. (“HBN”) and Tails, Inc. (“Tails”) in the Southwest and Central Atlantic regions of the United States (“U.S.”), respectively, which were subsequently contributed to RMCO, LLC and its consolidated subsidiaries (“RMCO”), and the remaining proceeds were used to purchase common membership units in RMCO. After completion of the IPO, RE/MAX Holdings owned 39.56% of the common membership units in RMCO. As of September 30, 2015, RE/MAX Holdings owns 41.03% of the common membership units in RMCO. RE/MAX Holdings’ only business is to act as the sole manager of RMCO and, in that capacity, RE/MAX Holdings operates and controls all of the business and affairs of RMCO. As a result, RE/MAX Holdings consolidates the financial position and results of operations of RMCO. RE/MAX Holdings and its consolidated subsidiaries, including RMCO, are referred to hereinafter as the “Company.”

The Company is one of the leading franchisors of residential and commercial real estate brokerage services throughout the U.S. and globally. The Company also operates a small number of real estate brokerage offices in the U.S. The Company’s revenue is derived from continuing franchise fees (which consist of fixed contractual fees paid monthly by regional franchise owners and franchisees based on the number of agents in the respective franchise region or franchisee’s office), annual dues from agents, broker fees (which consist of fees paid by regional franchise owners and franchisees for real estate commissions paid by customers when an agent sells a home), franchise sales and other franchise revenue (which consist of fees from initial sales and renewals of franchises, regional franchise fees, preferred marketing arrangements, approved supplier programs and event-based revenue from training and other programs) and brokerage revenue (which consists of fees assessed by the Company’s owned brokerages for services provided to their affiliated real estate agents). The Company, as a franchisor, grants each broker-owner a license to use the RE/MAX brand, trademark, promotional and operating materials and concepts.

2. Summary of Significant Accounting Policies

Basis of Presentation

The accompanying condensed consolidated financial statements are unaudited and comprise the condensed consolidated financial statements of the Company and have been prepared in conformity with U.S. generally accepted accounting principles (“U.S. GAAP”) and with Article 10 of Regulation S-X. In compliance with those instructions, certain information and footnote disclosures normally included in annual consolidated financial statements prepared in accordance with U.S. GAAP have been condensed or omitted. The accompanying condensed consolidated financial statements are presented on a consolidated basis and include the accounts of RE/MAX Holdings and its consolidated subsidiaries. All significant intercompany accounts and transactions have been eliminated. In the opinion of management, the accompanying condensed consolidated financial statements reflect all normal and recurring

adjustments necessary to present fairly the Company's financial position as of September 30, 2015 and December 31, 2014, the results of its operations and comprehensive income for the three and nine months ended September 30, 2015 and 2014, changes in its stockholders' equity for the nine months ended September 30, 2015 and results of its cash flows for the nine months ended September 30, 2015 and 2014. Interim results may not be indicative of full year performance. These condensed consolidated financial statements should be read in conjunction with the Company's consolidated financial statements within the Company's Annual Report on Form 10-K for the year ended December 31, 2014.

Use of Estimates

The preparation of condensed consolidated financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the condensed consolidated financial statements and the reported amounts of revenue and expenses during the reporting period. Significant areas in which management uses assumptions include, among other things, the establishment of the allowance for doubtful trade accounts and notes receivable, the determination of the estimated lives of intangible assets, the estimates for amounts accrued for litigation matters, equity-based compensation, the estimates of the fair value of reporting units used in the annual assessment of goodwill, the fair value of assets acquired and the amounts payable pursuant to the terms of the Tax Receivable Agreements (“TRAs”) discussed in more detail in Note 3, Non-controlling Interest. Actual results could differ from those estimates.

Principles of Consolidation

RE/MAX Holdings holds an approximate 40% economic interest in RMCO, but as its managing member, RE/MAX Holdings controls RMCO’s operations, management and activities. As a result, RE/MAX Holdings consolidates RMCO and records a non-controlling interest in the accompanying Condensed Consolidated Balance Sheets and records net income attributable to the non-controlling interest and comprehensive income attributable to the non-controlling interest in the accompanying Condensed Consolidated Statements of Income and Condensed Consolidated Statements of Comprehensive Income, respectively.

Recent Accounting Pronouncements

Under the Jumpstart Our Business Startups Act (“JOBS Act”), the Company meets the definition of an emerging growth company. The Company has irrevocably elected to opt out of the extended transition period for complying with new or revised accounting standards pursuant to Section 107(b) of the JOBS Act.

In September 2015, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) 2015-16, Business Combinations (Topic 805): Simplifying the Accounting Measurement-Period Adjustments, which eliminates the requirement for an entity to retrospectively adjust the financial statements for measurement-period adjustments that occur in periods after a business combination is completed. ASU 2015-16 is effective prospectively for fiscal years, and interim reporting periods within those years, beginning after December 15, 2015. The adoption of this standard is not expected to have a significant impact on the Company’s consolidated financial statements and related disclosures.

In June 2015, the FASB issued ASU 2015-10, Technical Corrections and Improvements, which both clarifies and simplifies content in the FASB Accounting Standards Codification and corrects unintended application of U.S. GAAP. ASU 2015-10 is effective for fiscal years, and interim reporting periods within those years, beginning after December 15, 2015. The adoption of this standard is not expected to have a significant impact on the Company’s consolidated financial statements and related disclosures.

In April 2015, the FASB issued ASU 2015-05, Intangibles – Goodwill and Other – Internal-Use Software (Subtopic 350-40): Customer’s Accounting for Fees Paid in a Cloud Computing Arrangement, which provides guidance on fees paid in a cloud computing arrangement and clarifies the accounting for a software license element of a cloud computing arrangement. ASU 2015-05 is effective for fiscal years, and interim reporting periods within those years, beginning after December 15, 2015. The standard permits the use of either the retrospective or prospective transition method. The Company is currently evaluating the impact this standard will have on its consolidated financial statements and related disclosures.

Notes to Condensed Consolidated Financial Statements (Continued)

(Unaudited)

In April 2015, the FASB issued ASU 2015-03, Interest – Imputation of Interest (Subtopic 835-30): Simplifying the Presentation of Debt Issuance Costs, which requires an entity to present debt issuance costs related to a debt liability as a direct deduction from the debt liability rather than as an asset. ASU 2015-03 is effective retrospectively for fiscal years, and interim reporting periods within those years, beginning after December 15, 2015. The adoption of this standard is expected to impact the presentation of certain financial statement line items within the Company's consolidated balance sheets and related disclosures, but will not affect the Company's consolidated results of operations.

In May 2014, the FASB issued ASU 2014-09, Revenue from Contracts with Customers (Topic 606), which requires an entity to recognize the amount of revenue to which it expects to be entitled for the transfer of promised goods or services to customers. The ASU will replace most existing revenue recognition guidance in U.S. GAAP when it becomes effective. In August 2015, the FASB issued ASU 2015-14, Revenue from Contracts with Customers (Topic 606): Deferral of the Effective Date, which defers the effective date of the guidance in ASU 2014-09 by one year. ASU 2014-09 is now effective for fiscal years, and interim reporting periods within those years, beginning after December 15, 2017. Early application is permitted for annual reporting periods beginning after December 15, 2016, including interim reporting periods within that reporting period. The standard permits the use of either the retrospective or cumulative effect transition method. The Company has not yet selected a transition method nor has it determined the effect of the standard on its consolidated financial statements and related disclosures.

In April 2014, the FASB issued ASU 2014-08, Presentation of Financial Statements (Topic 205) and Property, Plant, and Equipment (Topic 360): Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity. ASU 2014-08 limits discontinued operations reporting to disposals of components of an entity that represent strategic shifts that have (or will have) a major effect on an entity's operations and financial results. ASU 2014-08 also provides guidance on the financial statement presentation and disclosures of discontinued operations. ASU 2014-08 became effective prospectively for the Company on January 1, 2015 and a sale that occurred during the second quarter of 2015 did not qualify as a discontinued operation. See Note 5, Dispositions, for additional information.

Critical Accounting Judgments and Estimates

There have been no changes in the Company's critical accounting judgments and estimates from those that were disclosed in the Company's Annual Report on Form 10-K for the year ended December 31, 2014. The Company believes that the disclosures herein are adequate so that the information presented is not misleading.

3. Non-controlling Interest

RE/MAX Holdings is the sole managing member of RMCO and subsequent to the IPO, began to operate and control all of the business affairs of RMCO. As a result, RE/MAX Holdings began to consolidate RMCO on October 7, 2013. RE/MAX Holdings owns a 41.03% and 39.89% minority economic interest in RMCO as of September 30, 2015 and December 31, 2014, respectively, and records a non-controlling interest for the remaining 58.97% and 60.11% economic interest in RMCO held by RIHI, Inc. (“RIHI”) as of September 30, 2015 and December 31, 2014, respectively. RE/MAX Holdings’ minority economic interest in RMCO increased due to the increase in common units which were issued concurrently with the issuance of shares of Class A common stock during the nine months ended September 30, 2015 upon the exercise of 564,443 stock options, the vesting of 5,154 restricted stock units and the grant of 2,001 shares, net of shares withheld and cancelled to cover the Company’s minimum statutory tax withholding obligation. See Note 10, Equity-Based Compensation, for further details. RE/MAX Holdings’ only sources of cash flow from operations are distributions from RMCO and management fees received pursuant to the management services agreement between RE/MAX Holdings and RMCO. “Net income attributable to non-controlling interest” in the accompanying Condensed Consolidated Statements of Income represents the portion of earnings attributable to the economic interest in RMCO held by the non-controlling unitholders. As of October 7, 2013, “Non-controlling interest” in the accompanying Condensed Consolidated Balance Sheets represented the carryover basis of RIHI’s capital account in RMCO. Prospectively, the non-controlling interest has been adjusted to reflect tax and other cash distributions made to, and the income allocated to, the non-controlling unitholders. The ownership of the common units in RMCO is summarized as follows:

	September 30, 2015		December 31, 2014		
	Shares	Ownership %	Shares	Ownership %	
Non-controlling unitholders ownership of common units in RMCO	17,734,600	58.97	% 17,734,600	60.11	%
RE/MAX Holdings, Inc. outstanding Class A common stock (equal to RE/MAX Holdings, Inc. common units in RMCO)	12,339,639	41.03	% 11,768,041	39.89	%
Total common units in RMCO	30,074,239	100.00	% 29,502,641	100.00	%

The aforementioned ownership percentages are used to calculate the net income attributable to RE/MAX Holdings. Distributions and Other Payments to Non-controlling Unitholders

Distributions for Taxes

As a limited liability company (treated as a partnership for income tax purposes), RMCO does not incur significant federal, state or local income taxes, as these taxes are primarily the obligations of its members. As authorized by the Fourth Amended and Restated RMCO Limited Liability Company Agreement (the “RMCO, LLC Agreement”), RMCO is generally required to distribute cash on a pro rata basis to its members to the extent necessary to cover each member’s estimated tax liabilities, if any, with respect to their allocable share of RMCO earnings, but only to the extent that any other discretionary distributions from RMCO for the relevant period were otherwise insufficient to enable each member to cover its estimated tax liabilities. RMCO makes such tax distributions to its members based on an estimated tax rate stipulated in the RMCO, LLC Agreement. During the nine months ended September 30, 2015, the amount of other discretionary distributions RMCO made to non-controlling unitholders was sufficient to cover such member’s estimated tax liabilities. Distributions for taxes paid to or on behalf of non-controlling unitholders under the RMCO, LLC Agreement were \$15,557,000 during the nine months ended September 30, 2014, and are recorded in “Non-controlling interest” in the accompanying Condensed Consolidated Balance Sheets and Condensed Consolidated Statement of Stockholders’ Equity and reported in “Distributions paid to non-controlling unitholders” in the accompanying Condensed Consolidated Statements of Cash Flows. Upon completion of its tax returns with respect to the prior year, RMCO may make other discretionary true-up distributions to its members, if cash is available for such purposes, with respect to actual taxable income for the prior year.

Other Discretionary Distributions

Discretionary cash distributions may also be made to non-controlling unitholders based on their ownership percentage in RMCO as determined in accordance with the RMCO, LLC Agreement. The Company expects that future cash distributions will be made to non-controlling unitholders pro rata on a quarterly basis equal to the anticipated dividend payments to the stockholders of the Company’s Class A common stock, or otherwise on a discretionary basis as determined to be necessary or appropriate by the Company. The Company made other distributions to non-controlling unitholders of \$38,813,000 during the nine months ended September 30, 2015, which is recorded in “Non-controlling interest” in the accompanying Condensed Consolidated Balance Sheets and Condensed Consolidated Statement of Stockholders’ Equity and reported in “Distributions paid to non-controlling unitholders” in the accompanying Condensed Consolidated Statements of Cash Flows. Of this amount, \$33,253,000 related to dividend distributions as discussed in Note 4, Earnings Per Share and Dividends, and \$5,560,000 was a discretionary distribution paid in connection with the terms of the RMCO, LLC Agreement. During the nine months ended September 30, 2014, the Company made other distributions to non-controlling unitholders of \$3,325,000.

On November 4, 2015, the Company declared a distribution to non-controlling unitholders of \$2,217,000, which is payable on November 27, 2015. No other distributions were paid to non-controlling unitholders during the nine months ended September 30, 2015 and 2014.

Payments Pursuant to the Tax Receivable Agreements

At the time of the IPO, RE/MAX Holdings entered into separate TRAs with RMCO's historical owners, RIHI and Weston Presidio V., L.P. ("Weston Presidio"). During the second quarter of 2015, Weston Presidio assigned, transferred and conveyed to Oberndorf Investments LLC ("Oberndorf") all of its rights, title and interest in and to, and all of its liabilities and obligations under, the TRA dated as of October 7, 2013 by and between RE/MAX Holdings and Weston Presidio. In connection therewith, the Company entered into a joinder to the TRA on May 29, 2015 with Western Presidio and Oberndorf (the "Joinder Agreement"). Neither the assignment and transfer nor the Joinder Agreement impacted the financial position, results of operations or cash flows of the Company.

As of September 30, 2015, the Company reflected a liability of \$67,418,000, representing the payments due to RIHI and Oberndorf, under the terms of the TRAs (see current and non-current portion of “Payable pursuant to tax receivable agreements” in the accompanying Condensed Consolidated Balance Sheets).

As of September 30, 2015, the Company estimates that amounts payable pursuant to the TRAs within the next 12 month period will be approximately \$3,914,000. To determine the current amount of the payments due to RIHI and Oberndorf, the Company estimated the amount of taxable income that RE/MAX Holdings generated during 2014 and the amount of the specified deductions subject to the TRAs which were realized by RE/MAX Holdings in its 2014 federal and state tax returns. This amount was then used as a basis for determining the Company’s increase in estimated tax cash savings as a result of such deductions on which a current TRA obligation became due (i.e. payable within 12 months of the Company’s year-end). These calculations are performed pursuant to the terms of the TRAs. No amounts were paid pursuant to the terms of the TRAs during the nine months ended September 30, 2015 or 2014.

The timing and amount of the payments to be made under the TRAs are subject to certain contingencies, including RE/MAX Holdings having sufficient taxable income to utilize all of the tax benefits defined in the TRAs. If the Company elects to terminate the TRAs early, the Company would be required to make an immediate cash payment equal to the present value of the anticipated future tax benefits that are the subject of the TRAs, which payment may be made significantly in advance of the actual realization, if any, of such future tax benefits.

Obligations pursuant to the TRAs are obligations of RE/MAX Holdings. They do not impact the non-controlling interest. These obligations are not income tax obligations and have no impact on the “Provision for income taxes” in the accompanying Condensed Consolidated Statements of Income. In general, items of income, gain, loss and deduction are allocated on the basis of the members’ ownership interests pursuant to the RMCO, LLC Agreement after taking into consideration all relevant sections of the Internal Revenue Code.

4. Earnings Per Share and Dividends

Earnings Per Share

Basic earnings per share (“EPS”) measures the performance of an entity over the reporting period. Diluted EPS measures the performance of an entity over the reporting period while giving effect to all potentially dilutive common shares that were outstanding during the period. The treasury stock method is used to determine the dilutive potential of stock options and restricted stock units.

The following is a reconciliation of the numerator and denominator used in the basic and diluted EPS calculations (in thousands, except share and per share information):

Dividends

The Company's Board of Directors declared quarterly dividends of \$0.125 per share on all outstanding shares of Class A common stock in the first, second and third quarters of 2015, or \$4,571,000 in total dividends. Of this amount, \$1,500,000 was paid on April 8, 2015, \$1,529,000 was paid on June 4, 2015 and \$1,542,000 was paid on September 3, 2015. The Company made corresponding distributions to non-controlling unitholders of \$2,217,000 on each of April 8, 2015, June 4, 2015 and September 3, 2015. Additionally, during the nine months ended September 30, 2015, the Company's Board of Directors declared a special dividend of \$1.50 per share on all outstanding shares of Class A common stock, or \$17,883,000 in total dividends, which along with a corresponding distribution to non-controlling unitholders of \$26,602,000, was paid on April 8, 2015. The Company's Board of Directors declared quarterly dividends of \$0.0625 per share on all outstanding shares of Class A common stock in the first, second and third quarters of 2014, or \$2,173,000 in total dividends. Of this amount, \$725,000 was paid on April 18, 2014 and \$724,000 was paid on each of June 5, 2014 and September 3, 2014. The Company made corresponding distributions to non-controlling unitholders of \$1,108,000 on each of April 18, 2014, June 5, 2014 and September 3, 2014.

On November 4, 2015, the Company's Board of Directors declared a quarterly dividend of \$0.125 per share on all outstanding shares of Class A common stock, which is payable on November 27, 2015 to shareholders of record at the close of business on November 13, 2015.

5. Dispositions

Disposition of RE/MAX Caribbean Islands, Inc.

On December 31, 2014, the Company sold substantially all of the assets of its owned and operated regional franchising operations located in the Caribbean and Central America for a net sales price of approximately \$100,000. In connection with the sale of the assets, the Company entered into separate regional franchise agreements effective January 1, 2015 with a term of 20 years with the purchasers, under which the Company will receive ongoing monthly continuing franchise fees, broker fees and franchise sales revenue.

Disposition of RB2B, LLC d/b/a RE/MAX 100

On April 10, 2015, the Company sold certain operating assets and liabilities related to six owned brokerage offices located in the U.S., of RB2B, LLC d/b/a RE/MAX 100 ("RE/MAX 100"), a wholly owned subsidiary of the Company, for a sales price of \$450,000. The Company recognized a gain on the sale of the assets and the liabilities transferred of \$615,000 during the second quarter of 2015, which is reflected in "Gain on sale or disposition of assets, net" in the accompanying Condensed Consolidated Statements of Income. In connection with this sale, the Company transferred separate office franchise agreements to the purchaser, under which the Company will receive ongoing monthly continuing franchise fees, broker fees and franchise sales revenue. The financial position and results of operations of RE/MAX 100 were entirely attributable to the Company's Brokerages reportable segment.

(a) As of September 30, 2015 and December 31, 2014, capitalized software development costs of \$2,392,000 and \$857,000, respectively, were recorded in "Other intangible assets" in the accompanying Condensed Consolidated Balance Sheets. As of these dates, the associated information technology infrastructure projects were not complete and ready for their intended use and thus were not subject to amortization.

Amortization expense for the three months ended September 30, 2015 and 2014 was \$3,510,000 and \$3,518,000, respectively. Amortization expense for the nine months ended September 30, 2015 and 2014 was \$10,608,000 and \$10,656,000, respectively.

The estimated future amortization of intangible assets, other than goodwill, is as follows (in thousands):

Year ending December 31:	
Remainder of 2015	\$ 3,473
2016	14,276
2017	10,438
2018	6,821
2019	6,811
Thereafter	27,745
	\$ 69,564

The Company performs its annual impairment analysis of goodwill as of August 31 each year or more often if there are indicators of impairment present. The Company tests each reporting unit for goodwill impairment. Reporting units are driven by the level at which management reviews operating results and are one level below the operating segment. The Company's impairment assessment begins with a qualitative assessment to determine if it is more likely than not that a reporting unit's fair value is less than the carrying amount. The initial qualitative assessment includes comparing the overall financial performance of the reporting units against the planned results as well as other factors which might indicate that the reporting unit's value has declined since the last assessment date. If it is determined in the qualitative assessment that it is more likely than not that the fair value of a reporting unit is less than its carrying value, then the standard two-step quantitative impairment test is performed. The first step of the quantitative impairment test consists of comparing the estimated fair value of each reporting unit with its carrying amount, including goodwill. If the estimated fair value of a reporting unit exceeds its carrying value, then it is not considered impaired and no further analysis is required. If the first step of the quantitative impairment test indicates that the estimated fair value of a reporting unit is less than its carrying value, then impairment potentially exists and the second step of the quantitative impairment test is performed to measure the amount of goodwill impairment. Goodwill impairment exists when the estimated implied fair value of a reporting unit's goodwill is less than its carrying value.

The Company performed the qualitative impairment assessment for all of its reporting units by evaluating, among other things, market and general economic conditions, entity-specific events, events affecting a reporting unit and the Company's results of operations and key performance measures. The Company concluded subsequent to the completion of the qualitative impairment assessment that the fair value of each of the Company's reporting units significantly exceed their respective carrying values. As a result, the Company did not perform the quantitative test, and no indicators of impairment existed.

Amounts recorded as goodwill in the accompanying Condensed Consolidated Balance Sheets are attributable to the Company's Real Estate Franchise Services reportable segment. The following table presents changes to goodwill for the nine months ended September 30, 2015 (in thousands):

On July 31, 2013, the Company entered into a new credit agreement with several lenders and administered by a bank, referred to herein as the “2013 Senior Secured Credit Facility.” The 2013 Senior Secured Credit Facility consists of a \$230,000,000 term loan facility and a \$10,000,000 revolving loan facility. The proceeds provided by the term loan facility were used to refinance and repay existing indebtedness and for working capital, capital expenditures and general corporate purposes.

On March 11, 2015, the 2013 Senior Secured Credit Facility was amended, providing for an increase to the maximum applicable margin for both London Interbank Offered Rate (“LIBOR”) and Alternate Base Rate (“ABR”) loans by 0.25%, and a modification of certain liquidity covenants in order to increase the amounts the Company may distribute in the form of dividends to its non-controlling unitholders and stockholders of its Class A common stock, referred to herein as the “First Amendment.” Interest rates with respect to the amended term loan facility and revolving loan facility are based, at the Company’s option, on (a) adjusted LIBOR, provided that LIBOR shall be no less than 1% plus a maximum applicable margin of 3.25% or (b) ABR, provided that ABR shall be no less than 2%, which is equal to the greater of (1) JPMorgan Chase Bank, N.A.’s prime rate; (2) the Federal Funds Effective Rate plus 0.5% or (3) calculated Eurodollar Rate for a one month interest period plus 1%, plus a maximum applicable margin of 2.25%. The applicable margin is subject to quarterly adjustments based on the Company’s total leverage ratio as defined in the 2013 Senior Secured Credit Facility. In connection with the First Amendment, the Company incurred costs of \$1,086,000, of which \$555,000 was recorded as an unamortized debt discount and are being amortized over the remaining term of the 2013 Senior Secured Credit Facility and the remaining \$531,000 was expensed as incurred.

The Company is required to make principal payments out of excess cash flow, as defined in the 2013 Senior Secured Credit Facility, as well as from the proceeds of certain asset sales, proceeds from the issuance of indebtedness and from insurance recoveries. The Company made an excess cash flow prepayment of \$7,320,000 on March 26, 2015. As of September 30, 2015, mandatory principal payments of approximately \$520,000 are due quarterly until the facility

matures on July 31, 2020 and will be reduced pro rata by the amount of any excess cash flow principal prepayments made. During the nine months ended September 30, 2014, the Company made an excess cash flow prepayment of \$14,627,000. The Company accounted for the mandatory principal excess cash flow prepayments as early extinguishments of debt and recorded a loss of \$94,000 and \$178,000 during the nine months ended September 30, 2015 and 2014, respectively, related to unamortized debt discount and issuance costs. The Company may make optional prepayments on the term loan facility at any time; however, no such optional prepayments were made during the nine months ended September 30, 2015 or 2014.

The estimated fair value of the Company's debt as of September 30, 2015 and December 31, 2014 represents the amount that would be paid to transfer or redeem the debt in an orderly transaction between market participants at those dates and maximizes the use of observable inputs. The fair value of the Company's debt was estimated using a market approach based on the amount at the measurement date that the Company would pay to enter into the identical liability, since quoted prices for the Company's debt instruments are not available. As a result, the Company has classified the fair value of the 2013 Senior Secured Credit Facility as Level 2 of the fair value hierarchy. The carrying amounts of the 2013 Senior Secured Credit Facility are included in the accompanying Condensed Consolidated Balance Sheets in "Current portion of debt" and "Debt, net of current portion." The following table summarizes the carrying value and fair value of the 2013 Senior Secured Credit Facility as of September 30, 2015 and December 31, 2014 (in thousands):

	September 30, 2015		December 31, 2014	
	Carrying amounts	Estimated fair value	Carrying amounts	Estimated fair value
2013 Senior Secured Credit Facility	\$ 202,365	\$ 203,663	\$ 211,673	\$ 208,853

The Company had no borrowings drawn on the revolving loan facility during the nine months ended September 30, 2015 or 2014 and had \$10,000,000 available under the revolving loan facility as of September 30, 2015. The Company must pay a quarterly commitment fee equal to 0.5% on the average daily amount of the unused portion of the revolving loan facility.

9. Income Taxes

RE/MAX Holdings is subject to U.S. federal and state income taxation on its allocable portion of the income of RMCO. The "Provision for income taxes" in the accompanying Condensed Consolidated Statements of Income for the three and nine months ended September 30, 2015 and 2014 is based on an estimate of the Company's annualized effective income tax rate. The Company's effective tax rate includes a rate benefit attributable to the fact that the Company's subsidiaries operate as a series of limited liability companies which are not themselves subject to federal income tax. Accordingly, the portion of the Company's subsidiaries earnings attributable to the non-controlling interest are subject to tax when reported as a component of the non-controlling interests' taxable income. The "Provision for income taxes" is comprised of a provision for income taxes attributable to RE/MAX Holdings and to entities other than RE/MAX Holdings. The provision for income taxes attributable to RE/MAX Holdings includes all U.S. federal and

state income taxes and RE/MAX Holdings' approximate 40% share of taxes imposed directly on RE/MAX, LLC related to tax liabilities in certain foreign jurisdictions. The provision for income taxes attributable to entities other than RE/MAX Holdings represents taxes imposed directly on RE/MAX, LLC related to tax liabilities in certain foreign jurisdictions that are allocated to the non-controlling interest.

The Company recognizes the effect of income tax positions only if those positions are more likely than not of being sustained. Recognized income tax positions are measured at the largest amount that is greater than 50% likely of being realized. Changes in recognition or measurement are reflected in the period in which the change in judgment occurs. As of September 30, 2015, the Company does not believe it has any significant uncertain tax positions.

10. Equity-Based Compensation

On September 30, 2013, the Company's Board of Directors adopted the RE/MAX Holdings, Inc. 2013 Omnibus Incentive Plan (the "2013 Incentive Plan") that provides for the grant of incentive stock options to the Company's employees, and for the grant of shares of RE/MAX Holdings' Class A common stock, non-qualified stock options, stock appreciation rights, restricted stock, restricted stock units, dividend equivalent rights, cash-based awards and any combination thereof to employees, directors and consultants of the Company.

On June 24, 2015, RE/MAX Holdings granted 2,941 shares of RE/MAX Holdings' Class A common stock to an employee at a grant-date fair value of \$34.01. Of this amount, 940 shares were withheld and cancelled with an estimated value of \$32,000 to cover the Company's minimum statutory tax withholding obligation. On March 11, 2015, RE/MAX Holdings granted an aggregate of 74,893 restricted stock units at a value of \$32.45 per unit to certain employees, which vest over a three-year period beginning on April 1, 2016, and an aggregate of 10,787 restricted stock units at a value of \$32.45 per unit to its directors, excluding David Liniger, the Company's Chief Executive Officer, Chairman and Co-Founder, and Gail Liniger, the Company's Vice Chair and Co-Founder, which vest on April 1, 2016. The grant-date fair value of \$32.45 per unit equaled the closing price of RE/MAX Holdings' Class A common stock on March 11, 2015.

For the three and nine months ended September 30, 2015, the Company recognized equity-based compensation expense of \$430,000 and \$1,098,000, respectively, in "Selling, operating and administrative expenses" in the accompanying Condensed Consolidated Statements of Income resulting from the shares of RE/MAX Holdings' Class A common stock granted on June 24, 2015 and restricted stock units that were granted on March 11, 2015 and October 7, 2013. For the three and nine months ended September 30, 2014, the Company recognized equity-based compensation expense of \$200,000 and \$532,000, respectively, in "Selling, operating and administrative expenses" in the accompanying Condensed Consolidated Statements of Income resulting from restricted stock units that were granted on October 7, 2013.

As of September 30, 2015		
Vested	—	88,057
Unvested	111,988	—

(a) Cash received from stock option exercises for the nine months ended September 30, 2015 was \$2,032,000. The Company recorded a corporate income tax benefit relating to the options exercised and restricted stock units delivered during the nine months ended September 30, 2015 of \$2,411,000 in “Additional paid-in capital” in the accompanying Condensed Consolidated Balance Sheets and Condensed Consolidated Statement of Stockholders’ Equity.

(b) In connection with a retirement agreement entered into with the Company’s former President as described in Note 11, Leadership Changes and Restructuring Activities, 7,576 unvested restricted stock units granted in October 2013 vested in August 2015 on an accelerated timeline. As such, incremental equity-based compensation expense of \$109,000 and \$216,000 was recognized during the three and nine months ended September 30, 2015, respectively.

(c) Of the 7,576 restricted stock units vested during the three and nine months ended September 30, 2015, 2,422 shares were withheld and cancelled with an estimated value of \$88,000 to cover the Company’s minimum statutory tax withholding obligation.

At September 30, 2015, there were 1,930,704 additional shares available for the Company to grant under the 2013 Incentive Plan.

11. Leadership Changes and Restructuring Activities

The Company's former Chief Executive Officer retired on December 31, 2014 and pursuant to the terms of the Separation and Release of Claims Agreement (the "Separation Agreement"), the Company is required to provide severance and other related benefits over a 36 month period, beginning on December 31, 2014. The Company recorded a liability, measured at its estimated fair value, for payments that will be made under the Separation Agreement, with a corresponding charge of \$3,545,000 in 2014. As of September 30, 2015 and December 31, 2014, the short-term portion of the liability was \$829,000 and \$500,000, respectively, and is included in "Accrued liabilities" in the accompanying Condensed Consolidated Balance Sheets. As of September 30, 2015 and December 31, 2014, the long-term portion of the liability was \$980,000 and \$1,488,000, respectively, and is included in "Other liabilities, net of current portion" in the accompanying Condensed Consolidated Balance Sheets.

In addition, on May 4, 2015, the Company's former President entered into a retirement agreement with the Company (the "Retirement Agreement") pursuant to which he retired on August 19, 2015. Subject to the terms of the Retirement Agreement, the Company is required to provide retirement benefits over a 24 month period, beginning on September 1, 2015. The Company recorded a liability, measured at its estimated fair value, for payments that will be made under the Retirement Agreement, with a corresponding charge to "Selling, operating and administrative expenses" in the accompanying Condensed Consolidated Statements of Income. The Company incurred a total cost of \$877,000, including \$216,000 of equity-based compensation expense, during the nine months ended September 30, 2015. Of the total cost incurred, \$443,000 was recorded during the three months ended September 30, 2015. As of September 30, 2015, the short-term portion of the liability was \$248,000 and is included in "Accrued liabilities" in the accompanying Condensed Consolidated Balance Sheets and the long-term portion of the liability was \$237,000 and is included in "Other liabilities, net of current portion" in the accompanying Condensed Consolidated Balance Sheets.

The Company's total severance and other related expenses were \$503,000 and \$1,542,000 during the three and nine months ended September 30, 2015, respectively, which is included in "Selling, operating and administrative expenses" in the accompanying Condensed Consolidated Statements of Income.

In addition, management of the Company approved and implemented a restructuring plan during the fourth quarter of 2014 designed to improve operating efficiencies, which reduced the Company's overall headcount at its corporate headquarters (the "Restructuring Plan"). In connection with the Restructuring Plan, the Company incurred \$1,303,000 of expenses in 2014 related to severance and outplacement services provided to certain former employees of the Company.

The following table presents a rollforward of the estimated fair value liability established for the aforementioned severance and other related costs, which are entirely attributable to the Company's Real Estate Franchise Services reportable segment, from January 1, 2015 to September 30, 2015 (in thousands):

Balance, January 1, 2015	\$ 2,408
Additional severance and other related expenses	1,542
Accretion	61
Cash payments	(1,337)
Non-cash adjustment (a)	(216)
Balance, September 30, 2015	\$ 2,458

(a) Non-cash adjustment represents the non-cash equity-based compensation expense recorded during the nine months ended September 30, 2015 for the accelerated vesting of certain restricted stock units in August 2015 pursuant to the

terms of the Retirement Agreement. See also Note 10, Equity-Based Compensation.

12. Commitments and Contingencies

Commitments

The Company leases offices and equipment under non-cancelable operating leases, subject to certain provisions for renewal options and escalation clauses.

Contingencies

In connection with the sale of RE/MAX 100 on April 10, 2015 as described in Note 5, Dispositions, the Company entered into an Assignment and Assumption of Leases Agreement (the "Assignment Agreement") pursuant to which the Company assigned its obligations under and rights, title and interest in six leases to the purchaser. For certain leases, the Company remains secondarily liable for future lease payments over approximately the next 31 month period under the respective lease agreements and accordingly, as of September 30, 2015, the Company has outstanding lease guarantees of \$1,272,000. This amount represents the present value of the maximum potential liability of future payments under the respective lease guarantees. In the event of default by the purchaser, the indemnity and default clauses in the Assignment Agreement govern the Company's ability to pursue and recover damages incurred, if any, against the purchaser. As of September 30, 2015, the likelihood of default by the purchaser on the Assignment Agreement was deemed to be less than probable and as such, the Company did not record a liability in the accompanying Condensed Consolidated Balance Sheets nor a related charge in the accompanying Condensed Consolidated Statements of Income during the three and nine months ended September 30, 2015.

Litigation

The Company is subject to litigation claims arising in the ordinary course of business. The Company believes that it has adequately accrued for legal matters as appropriate. The Company records litigation accruals for legal matters which are both probable and estimable and for related legal costs as incurred. The Company does not reduce these liabilities for potential insurance or third-party recoveries and any insurance recoveries are recorded in "Accounts and notes receivable, current portion" in the accompanying Condensed Consolidated Balance Sheets with a corresponding reduction to "Selling, operating and administrative expenses" in the accompanying Condensed Consolidated Statements of Income.

In connection with the Company's acquisition of the net assets of HBN on October 7, 2013, several shareholders of HBN dissented from the transaction alleging the Company purchased the net assets of HBN below fair value and demanded payment for their shares in excess of consideration paid. Pursuant to the dissenters' rights statute in the State of Colorado, on February 11, 2014, HBN petitioned the District Court of Denver County, Colorado (the "Court") to determine the fair value of HBN. A trial occurred between April 14, 2015 and April 17, 2015. HBN vigorously defended its position that the consideration paid for the net assets of HBN materially approximated fair value. To date, the Court has not rendered a decision. However, based upon the results of trial testimonies, plaintiff's and defendants' expert valuation reports prepared in connection with the case, and the contents of post-trial briefs that have been delivered, the Company determined that the potential impact to the Company's financial position and results of

operations could range from \$115,000 to approximately \$2,656,000. Since no amount within the range of potential impact is a better estimate than any other amount, the Company recorded an accrual and corresponding charge of \$89,000 in "Selling, operating and administrative expenses" in the accompanying Condensed Consolidated Statements of Income during the nine months ended September 30, 2015 in addition to the previously recorded amount of \$26,000, which was based on pre-trial estimates.

Except for the ongoing litigation concerning the acquisition of the net assets of HBN, management of the Company believes other such litigation matters involving a reasonably possible chance of loss will not, individually or in the aggregate, result in a material adverse effect on the Company's financial condition, results of operations and cash flows.

13. Guarantees

In May 2015, the Company entered into a guarantee of the full and prompt payment and performance when due of all obligations due to a financial institution under a commercial line-of-credit agreement and note entered into by the Company's equity-method investee, a residential mortgage operation in which the Company has a 50% interest. The term of the line-of-credit agreement is 13 months and the total amount of advances requested and unpaid principal balance cannot exceed \$15,000,000. The line of credit bears interest at the financial institution's base rate. The Company had entered into a similar guarantee during May 2014, which expired as of May 2015. The outstanding balance on the line of credit was approximately \$9,502,000 and \$4,548,000 as of September 30, 2015 and December 31, 2014, respectively. The Company did not incur any payments under this guarantee during the nine months ended September 30, 2015, or in any prior periods, and does not anticipate that it will incur any payments through the duration of the guarantee.

14. Related-Party Transactions

The Company's real estate brokerage operations pay advertising fees to regional and national advertising funds, which promote the RE/MAX brand. These advertising funds are corporations owned by a majority stockholder of RIHI, who is also the Company's Chief Executive Officer, Chairman and Co-Founder, as trustee for RE/MAX agents. This individual does not receive any compensation from these corporations, as all funds received by the corporations are required to be spent on advertising for the respective regions. During the three months ended September 30, 2015 and 2014, the Company's real estate brokerage operations paid \$210,000 and \$291,000, respectively, to these advertising funds. During the nine months ended September 30, 2015 and 2014, the Company's real estate brokerage operations paid \$705,000 and \$862,000, respectively, to these advertising funds. These payments are included in "Selling, operating and administrative expenses" in the accompanying Condensed Consolidated Statements of Income.

Prior to October 7, 2013, RE/MAX 100 paid regional continuing franchise fees, broker fees and franchise sales revenue, as do all other RE/MAX franchisees in the Central Atlantic region, to Tails. Several of the Company's officers and stockholders of RIHI were also stockholders and officers of Tails, and as such, prior to October 7, 2013, Tails was a related party to the Company. As described in Note 1, Business and Organization, a portion of the proceeds raised during the IPO was used to purchase certain assets of Tails. In addition, RE/MAX 100 recorded a payable to Tails' affiliated regional advertising fund. As of September 30, 2015 and December 31, 2014, the amount of the payable was \$1,102,000 and \$1,031,000, respectively, and is included in "Accounts payable to affiliates" in the accompanying Condensed Consolidated Balance Sheets.

The majority stockholders of RIHI, including the Company's current Chief Executive Officer, have made and continue to make a golf course they own available to the Company for business purposes. During the nine months ended September 30, 2015 and 2014, the Company used the golf course for business purposes at no charge.

The Company also provides services to certain affiliated entities, such as accounting, legal, marketing, technology, human resources and public relations services, and it allows these companies to share its leased office space. During the three months ended September 30, 2015 and 2014, the total amounts allocated for services rendered and rent for office space provided on behalf of affiliated entities were \$446,000 and \$549,000, respectively. During the nine months ended September 30, 2015 and 2014, the total amounts allocated for services rendered and rent for office space provided on behalf of affiliated entities were \$1,293,000 and \$1,661,000, respectively. Such amounts are generally paid within 30 days and no such amounts were outstanding at September 30, 2015 or December 31, 2014.

15. Segment Information

The Company has two reportable segments: Real Estate Franchise Services and Brokerages. Management evaluates the operating results of its reportable segments based upon revenue and adjusted earnings before interest, the provision for income taxes, depreciation and amortization and other non-cash and non-recurring cash charges or other items ("Adjusted EBITDA"). The Company's presentation of Adjusted EBITDA may not be comparable to similar measures used by other companies. The accounting policies of the reportable segments are the same as those described in Note 2, Summary of Significant Accounting Policies.

Adjusted EBITDA for the reportable segments excludes depreciation, amortization, interest expense, interest income and the provision for income taxes and is then adjusted for other non-cash and non-recurring cash charges or other items. Adjusted EBITDA for the reportable segments is also a key factor that is used by the Company's internal decision makers to (i) determine how to allocate resources to segments and (ii) evaluate the effectiveness of management for purposes of annual and other incentive compensation plans. The additional items that are adjusted to determine Adjusted EBITDA for the reportable segments include loss or gain on the sale or disposition of assets and sublease, loss on early extinguishment of debt, non-cash straight-line rent expense, non-recurring severance and other related expenses and acquisition integration and professional fees expense. The Company's Real Estate Franchise Services reportable segment comprises the operations of the Company's owned and independent global franchising

operations under the RE/MAX brand name, intersegment revenue from the Company's owned brokerages and the Company's corporate-wide professional services expenses. All of the Company's brokerage offices in its Real Estate Franchise Services reportable segment are franchised. The Company's Brokerages reportable segment includes the Company's brokerage services business, intersegment expenses and reflects the elimination of all intersegment revenue and expenses and other consolidation entries.

Consolidated revenue	\$ 45,110	\$ 44,240	\$ 133,594	\$ 128,419

(a) Transactions between the Real Estate Franchise Services and the Brokerages reportable segments are eliminated in consolidation. Revenues for the Real Estate Franchise Services reportable segment include intersegment amounts paid from the Company's brokerage services business of \$361,000 and \$485,000 for the three months ended September 30, 2015 and 2014, respectively, and \$1,154,000 and \$1,369,000 for the nine months ended September 30, 2015 and 2014, respectively. Such amounts are eliminated in the Brokerages reportable segment.

Item 2.

MANAGEMENT'S DISCUSSION AND ANALYSIS

OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion and analysis of the financial condition and results of our operations should be read together with the condensed consolidated financial statements and the related notes of RE/MAX Holdings, Inc. included in Item 1 of Part I of this Quarterly Report on Form 10-Q and with the audited consolidated financial statements and the related notes of RE/MAX Holdings, Inc. included in our most recent Annual Report on Form 10-K for the year ended December 31, 2014.

This Quarterly Report on Form 10-Q contains "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934, as amended, or the Exchange Act. These statements are often identified by the use of words such as "anticipate," "believe," "continue," "could," "estimate," "expect," "intend," "may," "plan," "project," "will," "would" or the negative or plural of these words or similar expressions or variations thereof. For example, forward-looking statements include statements we make relating to:

- our expectations regarding consumer trends in residential real estate transactions;
- our expectations regarding overall economic and demographic trends, including the continued growth of the United States ("U.S.") residential real estate market;
- our expectations regarding our performance during future downturns in the housing sector;
- our growth strategy of increasing our agent count;
- our ability to expand our network of franchises in both new and existing but underpenetrated markets;
- our expectations regarding agent count and productivity;
- our growth strategy of increasing our number of closed transaction sides and transaction sides per agent;
- the continued strength of our brand both in the U.S. and Canada and in the rest of the world;
- the pursuit of future reacquisitions of Independent Regions;
- our intention to pay dividends;
- our future financial performance;
- our ability to forecast selling, operating and administrative expenses;
- the effects of laws applying to our business;
- our ability to retain our senior management and other key employees;
- our intention to pursue additional intellectual property protections;
- our future compliance with U.S. or state franchise regulations;
- other plans and objectives for future operations, growth, initiatives, acquisitions or strategies, including investments in our information technology infrastructure;
- the anticipated benefits of our advertising strategy;
- our intention to repatriate cash generated by our Canadian operations to the U.S. on a regular basis in order to minimize the impact of mark-to-market gains and losses experienced in recent quarters; and
- our expectation that our new cloud-based enterprise resource planning system will enhance our internal controls over financial reporting and function as an important component of our disclosure controls and procedures.

Table of Contents

Such forward-looking statements are subject to a number of risks, uncertainties, assumptions and other factors that could cause actual results and the timing of certain events to differ materially from future results expressed or implied by the forward-looking statements. Factors that could cause or contribute to such differences include, but are not limited to, those identified herein, and those discussed in the section titled “Risk Factors,” set forth in Part II, Item 1A of this Quarterly Report on Form 10-Q and in our most recent Annual Report on Form 10-K for the year ended December 31, 2014. You should not rely upon forward-looking statements as predictions of future events. Furthermore, such forward-looking statements speak only as of the date of this report. Except as required by law, we undertake no obligation to update any forward-looking statements to reflect events or circumstances after the date of such statements.

The results of operations discussed in this Management’s Discussion and Analysis of Financial Condition and Results of Operations are those of RE/MAX Holdings, Inc. and its consolidated subsidiaries, including RMCO, LLC and its consolidated subsidiaries (“RMCO”), collectively, the “Company,” “we,” “our” or “us.”

Business Overview

We are one of the world’s leading franchisors of real estate brokerage services. Our business strategy is to recruit and retain agents and sell franchises. Our franchisees operate under the RE/MAX brand name which has held the number one market share in the U.S. and Canada since 1999 as measured by total residential transaction sides completed by our agents.

Our financial results are driven by the number of agents in our global network. The majority of our revenue is derived from fixed, contractual fees and dues paid to us based on the number of agents in our franchise network.

Our current growth strategies include the following initiatives:

- Increase our total agent count.
 - Continue to drive franchise sales growth and agent recruitment and retention.
- Reacquire select RE/MAX regional franchises in the U.S. and Canada.

As a franchisor (less than 1% of the brokerages in the U.S. RE/MAX system are owned by us), we maintain a low fixed-cost structure which enables us to generate high margins and helps us drive significant operating leverage through incremental revenue growth as reflected in our financial results.

We operate in two reportable segments, (1) Real Estate Franchise Services and (2) Brokerages. The Real Estate Franchise Services reportable segment comprises the operations of our owned and independent global franchising operations, reflects intersegment revenue from our owned brokerages and includes our corporate-wide professional services expenses. The Brokerages reportable segment contains the operations of our owned brokerage offices in the U.S., which represent less than 1% of RE/MAX brokerages in the U.S., the results of operations of a mortgage brokerage company in which we own a non-controlling interest, intersegment expenses and reflects the elimination of all intersegment revenue and expenses and other consolidation entities. Our reportable segments represent our operating segments for which separate financial information is available and which is utilized on a regular basis by our management to assess performance and to allocate resources.

Table of Contents

Marketing and Promotion

Nearly all of the advertising, marketing and promotion to support the RE/MAX brand is funded by our agents and franchisees. In the U.S. and Canada, there are two primary levels of advertising and promotion of our brand based on the source of funding for the activity: (i) regional advertising funds build and maintain brand awareness and drive real estate consumers to use RE/MAX agents through regional activities and media buys, including placement of RE/MAX's advertising on a regional or pan-regional basis, and (ii) local campaigns that are paid for directly by agents and franchisees within their local markets. The regional advertising funds are funded by our agents through fees that our brokers collect and pay to the regional advertising funds.

Through 2014, a portion of agents' contributions to regional advertising funds in Company-owned and Independent Regions were remitted to a national advertising fund that centralized some national expenditures. During the third quarter of 2014, our regional franchise owners adopted a change in the marketing strategy for the regional and national advertising funds. Beginning in January 2015, the national advertising fund was discontinued and the RE/MAX advertising strategy now focuses on targeted regional and local marketing. The amount of fees paid by each agent has not changed, but advertising dollars traditionally remitted to the national advertising fund and used for national television campaigns prospectively will be retained and managed by the regional advertising funds for use in regional programs, presenting valuable marketing opportunities at the regional and local level. Notwithstanding the discontinuance of the national advertising fund, on occasion, the advertising funds in Company-owned Regions, together with some or all of the advertising funds in Independent Regions, may contribute to national or pan-regional creative development and media purchases. The majority of this transition has been completed as of September 30, 2015. We are currently evaluating the impact that this change in advertising strategy may have on our future results of operations, if any.

How We Assess the Performance of Our Business

In assessing the performance of our business, we consider a variety of financial and operating measures that affect our operating results, including agent count, revenue and Adjusted EBITDA.

Agent Count. Agent count reflects the number of licensed agents who have active, independent contractual relationships with RE/MAX offices at a particular time. The majority of our revenue is derived from recurring fixed fee streams we receive from our franchisees and agents that are tied to our aggregate agent count.

Table of Contents

The following table shows our agent count at the end of the periods indicated:

- (1) As of September 30, 2015, June 30, 2015 and March 31, 2015, Independent Regions outside of the U.S. and Canada include 328 agents in the Caribbean and Central America regions which converted from Company-owned Regions to Independent Regions in connection with the regional franchising agreements we entered into with new independent owners of the Caribbean and Central America regions on January 1, 2015.

Revenue. The percentage of revenue from recurring, fixed contractual fees and dues paid by our agents, franchisees and regional franchise owners was 59.7% and 59.3% for the three months ended September 30, 2015 and 2014, respectively, and 58.8% and 60.0% for the nine months ended September 30, 2015 and 2014, respectively. A smaller percentage of our revenue is based on transaction activity derived from a percentage of agent commissions and was 20.7% and 18.7% for the three months ended September 30, 2015 and 2014, respectively, and 18.7% and 17.0% for the nine months ended September 30, 2015 and 2014, respectively.

Adjusted EBITDA. We present Adjusted EBITDA because we believe Adjusted EBITDA is useful as a supplemental measure in evaluating the performance of our business and provides greater transparency into our results of operations. Our management uses Adjusted EBITDA as a factor in evaluating the performance of our business. Our presentation of Adjusted EBITDA may not be comparable to similarly-titled measures used by other companies. See “—Non-GAAP Financial Measures” for our definition of Adjusted EBITDA and for further discussion of our presentation of Adjusted EBITDA as well as a reconciliation of Adjusted EBITDA to net income on a consolidated basis and for our reportable segments.

Table of Contents

The following table shows our Adjusted EBITDA and Adjusted EBITDA margins on a consolidated basis and for our reportable segments for the periods presented:

Brokerages:								
Adjusted EBITDA	\$ 686		\$ 734		\$ 1,825		\$ 560	
Adjusted EBITDA margins	23.7	%	19.4	%	19.4	%	5.5	%

We generally experience lower Adjusted EBITDA margins in the first and fourth quarters of the fiscal year primarily due to lower home sale transactions in the residential housing market in the U.S. and Canada, which result in lower broker fee revenue in these quarters. In addition, generally, our margins in the first quarter are lower because of higher selling, operating and administrative expenses incurred in connection with our annual convention and associated with year-end compliance activities.

Our Adjusted EBITDA margins result primarily from the high margin Real Estate Franchise Services reportable segment. Our owned real estate brokerage operations have much lower margins due primarily to higher fixed costs resulting from rent and personnel expenses reflected in our Brokerages reportable segment, which adversely impacts our consolidated margins.

Factors Affecting Our Consolidated Operating Results

Various factors affected our results for the periods presented in this “Management’s Discussion and Analysis of Financial Condition and Results of Operations” including the following:

Changes in Agent Count. The majority of our revenue is derived from fees and dues based on the number of agents in the RE/MAX network. Due to the low fixed cost structure of our franchise model, the addition of new agents generally requires little incremental investment in capital or infrastructure. Accordingly, the number of agents in our network (particularly in our Company-owned Regions in the U.S. and Canada) is the most important factor affecting our results of operations and the addition of new agents can favorably impact our revenue and Adjusted EBITDA. Historically, the number of agents in the residential real estate industry has been highly correlated with overall home sale transaction activity. Our agent count decreased during the downturn in the U.S. housing sector, but has experienced growth for each quarter beginning in the first quarter of 2012. However, we do not use our overall home

sale transaction activity on a per agent or aggregate basis in order to evaluate our results of operations. We believe that the number of agents in our network is the primary statistic that drives our revenue.

Divestitures. Effective April 10, 2015, we sold certain operating assets and liabilities related to six owned brokerage offices located in the U.S., of RB2B, LLC d/b/a RE/MAX 100 (“RE/MAX 100”), for a sales price of \$0.5 million. We recognized a gain on the sale of the assets and the liabilities transferred of \$0.6 million during the second quarter of 2015.

Effective December 31, 2014, we sold substantially all of the assets of our owned and operated regional franchising operations located in the Caribbean and Central America and entered into regional franchising agreements with new independent owners of those regions on January 1, 2015.

Table of Contents

The comparability of our operating results for the three and nine months ended September 30, 2015 and 2014 is affected by the aforementioned dispositions.

Leadership Changes and Restructuring Activities. On December 31, 2014, our former Chief Executive Officer and a former director, retired from the Company. Subsequent thereto, we undertook a realignment of various personnel resources. In addition, our former President retired from the Company on August 19, 2015. In conjunction with these changes, we incurred total severance and other related charges of \$0.4 million and \$1.5 million during the three and nine months ended September 30, 2015, respectively. These costs are reflected in our selling, operating and administrative expenses and affect the comparability of our operating results to the prior year periods. See Notes 10 and 11 to our unaudited condensed consolidated financial statements included elsewhere in this Quarterly Report on Form 10-Q for additional disclosures, including a related rollforward of the estimated fair value liability recorded during the nine months ended September 30, 2015.

Changes in Aggregate Fee Revenue Per Agent. A significant portion of our revenue is tied to various fees that are ultimately tied to the number of agents in our franchise system, including annual dues, continuing franchise fees and certain transaction or service-based fees. Our average annual revenue per agent for our Company-owned Regions in the U.S. and Canada is nearly three times greater than for our Independent Regions in the U.S. and Canada. Our average revenue per agent in regions outside of the U.S. and Canada is substantially lower than the average revenue per agent in the U.S. and Canada. We have expanded our owned regional franchising operations through acquisitions of Independent Regions in the U.S. and Canada, and intend to pursue reacquisitions of other regions in the future. In addition, other changes in our aggregate revenue per agent are derived from changes in our fee arrangements with our franchisees and agents over time. Our revenue per agent also increases in other ways including when transaction sides and sales volume increase. This is because a portion of our revenue comes from fees tied to the number and price of real estate transactions closed by the agents in our network. Due to the low fixed cost structure of our franchise model, modest increases or decreases in revenue per agent impact the comparability of our operating results.

Comparison of the Three Months Ended September 30, 2015 and 2014

Total Revenue

A summary of the components of our revenue for the three months ended September 30, 2015 and 2014 is as follows:

Total revenue	\$ 45,110	\$ 44,240	\$ 870	2.0	%

Continuing Franchise Fees

Revenue from continuing franchise fees, which is primarily attributable to our Real Estate Franchise Services reportable segment, increased as result of the following:

- an increase of \$1.3 million due primarily to agent count growth, of which \$1.1 million was related to our Company-owned and Independent Regions in the U.S. and Canada; and
- an increase of \$0.1 million from six previously owned brokerage offices that we sold in April 2015 and for which the corresponding continuing franchise fees were previously eliminated in consolidation and the related brokerage revenue was reflected in our Brokerages reportable segment.

The aforementioned increases were partially offset by a net decrease of \$0.3 million partly due to certain changes in our aggregate fee revenue per agent associated with fee waivers related to a training and recruiting program that began in the fourth quarter of 2014 and the divestiture of our Caribbean and Central America regions on December 31, 2014. The strengthening of the U.S. dollar compared to the Canadian dollar also negatively impacted revenue from continuing franchise fees by approximately \$0.6 million.

Annual Dues

Revenue from annual dues, which is primarily attributable to our Real Estate Franchise Services reportable segment, increased \$0.6 million from the overall increase in total agent count of 5,844 from September 30, 2014 to September 30, 2015, of which 2,997 agents were located in the U.S. and Canada. The aforementioned increase was partially offset by the strengthening of the U.S. dollar compared to the Canadian dollar, which adversely impacted annual dues revenue by approximately \$0.3 million.

Broker Fees

Revenue from broker fees, which is primarily attributable to our Real Estate Franchise Services reportable segment, increased due to an increase of \$1.3 million in Company-owned and Independent Regions in the U.S. and Canada due primarily to increased agent count and home sale transaction activity. The aforementioned increase in broker fee revenue was partially offset by a decrease in revenue from broker fees of \$0.3 million due to the strengthening of the U.S. dollar compared to the Canadian dollar and the divestiture of our Caribbean and Central America regions on December 31, 2014.

Table of Contents

Franchise Sales and Other Franchise Revenue

Franchise sales and other franchise revenue, which is primarily attributable to our Real Estate Franchise Services reportable segment, increased primarily due to an increase of \$0.4 million from franchise sales driven by an increase in the total number of office sales in our Company-owned Regions in the U.S. Additionally, other franchise revenue increased \$0.1 million from national and regional events held for the franchisees in our network. The aforementioned increases were offset by a reduction in franchise sales revenue of \$0.4 million related to global sub-regional franchise sales.

Brokerage Revenue

Brokerage revenue, which principally represents fees assessed by our owned brokerages for services provided to their affiliated real estate agents and is entirely attributable to our Brokerages reportable segment, decreased \$1.0 million primarily due to a reduction in the number of owned brokerage offices as a result of the sale of RE/MAX 100 in April 2015.

Operating Expenses

A summary of the components of our operating expenses for the three months ended September 30, 2015 and 2014 is as follows:

	Three Months Ended		Change

Table of Contents

Total selling, operating and administrative expenses increased as follows:

- Personnel costs increased \$0.4 million in our Real Estate Franchise Services reportable segment primarily as a result of:
 - o an increase in general personnel costs and salaries of \$1.0 million primarily due to employee incentives and other merit-based compensation;
 - o an increase in severance and other related charges of \$0.3 million associated with the retirement of our former President on August 19, 2015; and
 - o an increase in equity-based compensation expense of \$0.2 million due to restricted stock units granted to certain employees and directors in March 2015; partially offset by
 - o a decrease in personnel costs of \$0.9 million due to a reduction in overall headcount at our corporate headquarters as a result of the restructuring plan implemented during the fourth quarter of 2014 and the retirement of our former Chief Executive Officer on December 31, 2014.

Personnel costs included in our Brokerages reportable segment decreased \$0.3 million primarily due to the sale of RE/MAX 100 in April 2015.

- Professional fees increased primarily due to an increase in costs incurred of \$0.6 million during the three months ended September 30, 2015 related to investments in our information technology infrastructure, partially offset by a reduction in general consulting fees of \$0.4 million. The majority of our professional fees and the aforementioned fluctuations relate primarily to our Real Estate Franchise Services reportable segment.
- Rent and related facility operations expense decreased primarily due to a decrease in rent expense as a result of the sale of RE/MAX 100 in April 2015, which is entirely attributable to our Brokerages reportable segment.
- Other selling, operating and administrative expenses increased primarily due to an increase of \$0.2 million in commission expense correlated with the increase in office franchise sales in our Company-owned regions. The majority of our other selling, operating and administrative expenses and the aforementioned fluctuation primarily relates to our Real Estate Franchise Services reportable segment.

Depreciation and Amortization

The majority of our depreciation and amortization expense is attributable to our Real Estate Franchise Services reportable segment and remained flat at \$3.8 million during the three months ended September 30, 2015 and 2014.

Other Expenses, Net

A summary of the components of our other expenses, net for the three months ended September 30, 2015 and 2014 is as follows:

	Three Months Ended		Change	
	September 30, 2015	2014	(\$)	(%)
	(in thousands, except percentages)			
Other expenses, net:				
Interest expense	\$ (2,338)	\$ (2,255)	\$ (83)	3.7 %
Interest income	36	58	(22)	(37.9)%
Foreign currency transaction losses	(201)	(811)	610	(75.2)%
Loss on early extinguishment of debt	—	—	—	— %
Equity in earnings of investees	361	265	96	36.2 %
Total other expenses, net	\$ (2,142)	\$ (2,743)	\$ 601	(21.9)%
Percent of revenue	-4.7 %	-6.2 %		

Other expenses, net decreased primarily due to a decrease in foreign currency transaction losses driven by the reduction in cash held in foreign currencies from the repatriation of cash generated from our Canadian operations beginning in the first quarter of 2015 and fluctuations in exchanges rates of the U.S. dollar against the Canadian dollar. Other expenses, net also decreased due to an increase in income recognized from our investment in a mortgage brokerage company primarily as a result of increased mortgage refinancing activity and is the only material component of other expenses, net attributable to our Brokerages reportable segment.

Provision for Income Taxes

The provision for income taxes increased primarily due to an increase in the income before provision for income taxes during the three months ended September 30, 2015 as our effective income tax rate remained relatively consistent at 17.7% and 18.1% during the three months ended September 30, 2015 and 2014, respectively. Our effective income tax rate depends on many factors, including a rate benefit attributable to the fact that the portion of RMCO's earnings attributable to the non-controlling interests are not subject to corporate-level taxes because RMCO is classified as a partnership for U.S. federal income tax purposes and therefore is treated as a "flow through entity," as well as annual changes in state income tax rates.

Net Income Attributable to Non-controlling Interest

Net income attributable to non-controlling interest, which represents the portion of earnings attributable to the economic interest in RMCO held by RIHI, Inc. ("RIHI"), increased primarily due to the increase in RMCO's net income of \$1.5 million during the three months ended September 30, 2015. For the three months ended September 30, 2015 and 2014, the non-controlling unitholders had a weighted average economic interest in RMCO of 58.98% and 60.50%, respectively.

Adjusted EBITDA

Adjusted EBITDA and Adjusted EBITDA margins for our consolidated results were \$25.1 million and 55.7% for the three months ended September 30, 2015, respectively, an increase of \$1.7 million from the comparable prior year period. On a consolidated basis, the strengthening of the U.S. dollar compared to global currencies, primarily the Canadian dollar, negatively impacted our Adjusted EBITDA and Adjusted EBITDA margins by \$1.3 million and 1.4%, respectively.

Table of Contents

Adjusted EBITDA and Adjusted EBITDA margins for our Real Estate Franchise Services reportable segment were \$24.4 million and 57.9% for the three months ended September 30, 2015, respectively, an increase of \$1.8 million from the comparable prior year period. The increase in Adjusted EBITDA in our Real Estate Franchise Services reportable segment was principally the result of an increase in total revenue of \$1.8 million due primarily to agent count growth, an increase in home sale transaction activity and an increase in franchise revenue recognized from office franchise sales. Adjusted EBITDA was also positively impacted by a decrease of \$0.6 million in foreign currency transaction losses. The increase in Adjusted EBITDA was partially offset by an increase of \$0.6 million in selling, operating and administrative expenses, adjusted for the impact of losses and gains on sublease activity, non-cash straight-line rent expense, non-recurring severance and other related expenses and acquisition integration and professional fees expense.

Adjusted EBITDA for our Brokerages reportable segment remained flat at \$0.7 million for the three months ended September 30, 2015 and 2014. Adjusted EBITDA margin increased by approximately 430 basis points for our Brokerages reportable segment due primarily to an increase in equity in earnings of investees.

Comparison of the Nine Months Ended September 30, 2015 and 2014

Total Revenue

A summary of the components of our revenue for the nine months ended September 30, 2015 and 2014 is as follows:

Total revenue	\$ 133,594	\$ 128,419	\$ 5,175	4.0 %

Continuing Franchise Fees

Revenue from continuing franchise fees, which is primarily attributable to our Real Estate Franchise Services reportable segment, increased as a result of the following:

- an increase of \$2.8 million due primarily to agent count growth, of which \$2.5 million was related to our Company-owned and Independent Regions in the U.S. and Canada; and
- an increase of \$0.2 million from six previously owned brokerage offices that we sold in April 2015 and for which the corresponding continuing franchise fees were previously eliminated in consolidation and the related brokerage revenue was reflected in our Brokerages reportable segment.

The aforementioned increases were offset by a net decrease in revenue from continuing franchise fees of \$0.8 million partly due to certain changes in our aggregate fee revenue per agent associated with fee waivers related to a training and recruiting program that began in the fourth quarter of 2014 and the divestiture of our Caribbean and Central America regions on December 31, 2014. The strengthening of the U.S. dollar compared to the Canadian dollar and the Euro also negatively impacted revenue from continuing franchise fees by approximately \$1.3 million and \$0.3 million, respectively.

Table of Contents

Annual Dues

Revenue from annual dues, which is primarily attributable to our Real Estate Franchise Services reportable segment, increased \$1.6 million from the overall increase in total agent count of 5,844 from September 30, 2014 to September 30, 2015, of which 2,997 agents were located in the U.S. and Canada. The aforementioned increase was partially offset by the strengthening of the U.S. dollar compared to the Canadian dollar, which adversely impacted annual dues revenue by approximately \$0.8 million.

Broker Fees

Revenue from broker fees, which is primarily attributable to our Real Estate Franchise Services reportable segment, increased due to an increase of \$3.9 million in Company-owned and Independent Regions in the U.S. and Canada due primarily to increased agent count and home sale transaction activity. The aforementioned increase in broker fee revenue was partially offset by a decrease in revenue from broker fees of \$0.6 million due to the strengthening of the U.S. dollar compared to the Canadian dollar and the divestiture of our Caribbean and Central America regions on December 31, 2014.

Franchise Sales and Other Franchise Revenue

Franchise sales and other franchise revenue, which is primarily attributable to our Real Estate Franchise Services reportable segment, increased primarily due to an increase in registration and other related income of \$0.9 million, of which \$0.6 million is due to an increase in revenue from registration fees charged to attendees at our annual convention for our agents held in March. Additionally, revenue from franchise sales increased \$0.8 million due primarily to an increase in the total number of office sales in our Company-owned and Independent Regions in the U.S.

Brokerage Revenue

Brokerage revenue principally represents fees assessed by our owned brokerages for services provided to their affiliated real estate agents and is entirely attributable to our Brokerages reportable segment. Brokerage revenue decreased \$1.9 million due to a reduction in the number of owned brokerage offices as a result of the sale of RE/MAX 100 in April 2015, which was partially offset by an increase in brokerage revenue of \$0.9 million primarily due to an increase in management fee revenue recognized by our remaining owned brokerages.

Selling, Operating and Administrative Expenses

A summary of the components of our selling, operating and administrative expenses for the nine months ended September 30, 2015 and 2014 is as follows:

	Nine Months Ended		Change (\$)	Change (%)
	September 30, 2015	September 30, 2014		
	(in thousands, except percentages)			
Selling, operating and administrative expenses:				
Personnel	\$ 31,957	\$ 31,685	\$ 272	0.9 %
Professional fees	6,304	5,850	454	7.8 %
Rent and related facility operations	9,016	9,363	(347)	(3.7)%

Total selling, operating and administrative expenses	\$ 65,525	\$ 65,321	\$ 204	0.3 %

Selling, operating and administrative expenses increased as follows:

- Personnel costs increased \$0.7 million in our Real Estate Franchise Services reportable segment primarily as a result of:
 - o an increase in general personnel costs and salaries of \$1.8 million primarily due to employee incentives and other merit-based compensation;
 - o an increase in severance and other related charges of \$0.7 million for certain employees that were terminated during the nine months ended September 30, 2015, including the retirement of our former President on August 19, 2015; and
 - o an increase of \$0.6 million due to additional equity-based compensation expense recognized for shares granted pursuant to our equity-based compensation plans and restricted stock units granted to certain employees and directors in March 2015; partially offset by
 - o a decrease in personnel costs of \$2.6 million due to a reduction in overall headcount at our corporate headquarters as a result of the restructuring plan implemented during the fourth quarter of 2014 and the retirement of our former Chief Executive Officer on December 31, 2014.

Personnel costs included in our Brokerages reportable segment decreased \$0.4 million primarily due to the sale of RE/MAX 100 in April 2015.

- Professional fees increased due to additional professional fees of \$0.8 million incurred during the nine months ended September 30, 2015 related to investments in our information technology infrastructure and additional legal fees incurred of \$0.1 million for certain litigation matters. The aforementioned increases were partially offset by an overall reduction in compliance fees of \$0.5 million related primarily to ongoing costs incurred during the nine months ended September 30, 2014 in connection with the initial public offering in October 2013 (the "IPO") and related reorganization transactions. The majority of our professional fees and the aforementioned fluctuations relate primarily to our Real Estate Franchise Services reportable segment.
- Rent and related facility operations expense decreased primarily due to a decrease in rent expense of \$0.5 million as a result of the sale of RE/MAX 100 in April 2015, which is entirely attributable to our Brokerages reportable

segment.

Table of Contents

Other selling, operating and administrative expenses decreased primarily as a result of a reduction in costs incurred of \$0.4 million during the nine months ended September 30, 2015 due to publishing certain marketing materials to our franchise network in digital form and a decrease of \$0.3 million as a result of synergies realized from hosting regional events concurrently with our annual convention. The aforementioned decreases were offset by an increase in advertising and production costs of \$0.3 million as a result of a change in our marketing strategy adopted during the third quarter of 2014. The majority of our other selling, operating and administrative expenses and the aforementioned fluctuations primarily relate to our Real Estate Franchise Services reportable segment.

Depreciation and Amortization

The majority of our depreciation and amortization expense is attributable to our Real Estate Franchise Services reportable segment and decreased primarily due to a net decrease in depreciation expense of \$0.1 million related to assets that became fully depreciated.

Gain on Sale or Disposition of Assets, Net

The increase in the gain on sale or disposition of assets, net is due to the gain of \$0.6 million recognized for the sale of RE/MAX 100 during the second quarter of 2015, which is entirely attributable to our Brokerages reportable segment.

Other Expenses, Net

A summary of the components of our other expenses, net for the nine months ended September 30, 2015 and 2014 is as follows:

	Nine Months Ended		Change	
	September 30,	September 30,	(\$)	(%)
	2015	2014		
	(in thousands, except percentages)			
Other expenses, net:				
Interest expense	\$ (7,448)	\$ (7,007)	\$ (441)	6.3 %
Interest income	136	205	(69)	(33.7) %
Foreign currency transaction losses	(1,585)	(504)	(1,081)	214.5 %
Loss on early extinguishment of debt	(94)	(178)	84	(47.2) %
Equity in earnings of investees	963	394	569	144.4 %
Total other expenses, net	\$ (8,028)	\$ (7,090)	\$ (938)	13.2 %
Percent of revenue	-6.0 %	-5.5 %		

Other expenses, net increased due to an increase in foreign currency transaction losses of \$1.1 million as a result of the strengthening of the U.S. dollar against the Canadian dollar and an increase in cash held in Canadian dollars prior to the repatriation of \$23.9 million in Canadian dollars, or \$19.2 million in U.S. dollars, in February 2015. Interest expense also contributed to the increase in other expenses, net due primarily to costs incurred during the nine months ended September 30, 2015 associated with an amendment to our 2013 Senior Secured Credit Facility on March 11, 2015. The aforementioned increases to other expenses, net were partially offset by an increase in income recognized from our investment in a mortgage brokerage company primarily as a result of increased mortgage refinancing activity

and is the only material component of other expenses, net attributable to our Brokerages reportable segment.

Table of Contents

Provision for Income Taxes

The provision for income taxes increased primarily due to an increase in the income before provision for income taxes during the nine months ended September 30, 2015 as our effective income tax rate remained relatively consistent at 18.0% and 18.3% during the nine months ended September 30, 2015 and 2014, respectively. Our effective income tax rate depends on many factors, including a rate benefit attributable to the fact that the portion of RMCO's earnings attributable to the non-controlling interests are not subject to corporate-level taxes because RMCO is classified as a partnership for U.S. federal income tax purposes and therefore is treated as a "flow through entity," as well as annual changes in state income tax rates.

Net Income Attributable to Non-controlling Interest

Net income attributable to non-controlling interest, which represents the portion of earnings attributable to the economic interest in RMCO held by RIHI, increased primarily due to the increase in RMCO's net income of \$5.2 million during the nine months ended September 30, 2015. For the nine months ended September 30, 2015 and 2014, the non-controlling unitholders had a weighted average economic interest in RMCO of 59.39% and 60.47%, respectively.

Adjusted EBITDA

Adjusted EBITDA and Adjusted EBITDA margins for our consolidated results were \$69.5 million and 52.0% for the nine months ended September 30, 2015, respectively, an increase of \$6.0 million from the comparable prior year period. On a consolidated basis, the strengthening of the U.S. dollar compared to global currencies, primarily the Canadian dollar, negatively impacted our Adjusted EBITDA and Adjusted EBITDA margins by \$4.2 million and 2.0%, respectively. The sale of RE/MAX 100 in April 2015 positively impacted our Adjusted EBITDA margins on a consolidated basis by 0.4%.

Adjusted EBITDA and Adjusted EBITDA margins for our Real Estate Franchise Services reportable segment were \$67.7 million and 54.5% for the nine months ended September 30, 2015, respectively, an increase of \$4.8 million from the comparable prior year period. The increase in Adjusted EBITDA in our Real Estate Franchise Services reportable segment was principally the result of an increase in total revenue of \$5.9 million due primarily to agent count growth, an increase in other franchise revenue recognized from our annual convention and an increase in office franchise sales. Adjusted EBITDA was adversely impacted by an increase of \$1.1 million in foreign currency transaction losses and an increase of \$0.1 million in selling, operating and administrative expenses, adjusted for the impact of losses and gains on sublease activity, non-cash straight-line rent expense, non-recurring severance and other related expenses and acquisition integration and professional fees expense.

Adjusted EBITDA and Adjusted EBITDA margins for our Brokerages reportable segment were \$1.8 million and 19.4% for the nine months ended September 30, 2015, respectively, an increase of \$1.3 million from the comparable prior year period. The increase in Adjusted EBITDA in our Brokerages reportable segment was primarily a result of an increase in revenue, excluding disposition activity, of \$1.0 million driven by increased management fee revenue recognized by our owned brokerages, and an increase in equity in earnings of investees of \$0.6 million. The aforementioned increases were partially offset by an overall reduction to Adjusted EBITDA of \$0.1 million from the sale of RE/MAX 100 in April 2015.

Non-GAAP Financial Measures

The Securities and Exchange Commission ("SEC") has adopted rules to regulate the use in filings with the SEC and in public disclosures of financial measures that are not in accordance with U.S. generally accepted accounting principles

("U.S. GAAP"), such as Adjusted EBITDA and the ratios related thereto. These measures are derived on the basis of methodologies other than in accordance with U.S. GAAP.

Table of Contents

We define Adjusted EBITDA as EBITDA (consolidated net income before depreciation and amortization, interest expense, interest income and the provision for income taxes, each of which is presented in our condensed consolidated financial statements included elsewhere in this Quarterly Report on Form 10-Q), adjusted for the impact of the following items that we do not consider representative of our ongoing operating performance: loss or gain on sale or disposition of assets and sublease, loss on early extinguishment of debt, non-cash straight-line rent expense, non-recurring severance and other related expenses and acquisition integration and professional fees expense. During the third quarter of 2014, we revised our definition of Adjusted EBITDA to no longer adjust for recurring equity-based compensation expense. Adjusted EBITDA in prior periods has been revised to reflect this change for consistency of presentation. During the fourth quarter of 2014, we revised our definition of Adjusted EBITDA to adjust for non-recurring severance and other related expenses. Prior to such time, we had not incurred any of these types of expenses.

Because Adjusted EBITDA omits certain non-cash items and other non-recurring cash charges or other items, we believe that it is less susceptible to variances that affect our operating performance resulting from depreciation, amortization and other non-cash and non-recurring cash charges or other items, and is more reflective of other factors that affect our operating performance. We present Adjusted EBITDA because we believe it is useful as a supplemental measure in evaluating the performance of our operating businesses and provides greater transparency into our results of operations. Our management uses Adjusted EBITDA as a factor in evaluating the performance of our business.

Adjusted EBITDA has limitations as an analytical tool, and you should not consider Adjusted EBITDA either in isolation or as a substitute for analyzing our results as reported under U.S. GAAP. Some of these limitations are:

- this measure does not reflect changes in, or cash requirements for, our working capital needs;
- this measure does not reflect our interest expense, or the cash requirements necessary to service interest or principal payments on our debt;
- this measure does not reflect our income tax expense or the cash requirements to pay our taxes;
- this measure does not reflect historical cash expenditures or future requirements for capital expenditures or contractual commitments;
- this measure does not reflect the cash requirements to pay dividends to stockholders of our Class A common stock and tax and other cash distributions to our non-controlling unitholders;
- this measure does not reflect the cash requirements to pay RIHI and Oberndorf Investments LLC (“Oberndorf”) pursuant to the separate tax receivable agreements entered into at the time of the IPO (collectively, the “TRAs”);
- although depreciation and amortization are non-cash charges, the assets being depreciated and amortized will often require replacement in the future, and these measures do not reflect any cash requirements for such replacements; and
- other companies may calculate this measure differently so they may not be comparable.

Liquidity and Capital Resources

Overview of Factors Affecting Our Liquidity

Our liquidity position has been positively affected by the growth of our agent base and improving conditions in the real estate market, which have contributed to increasing annual operating cash flows. In this regard, our short-term liquidity position has been, and will continue to be, affected by the number of agents in the RE/MAX network. Our primary sources of liquidity are our existing cash balances and credit availability under our 2013 Senior Secured Credit Facility. Our cash flows are primarily related to the timing of (i) cash receipt of revenues, (ii) payment of selling, operating and administrative expenses, (iii) principal payments and related interest expense on our 2013 Senior Secured Credit Facility, (iv) distributions and other payments to non-controlling unitholders, (v) corporate tax payments paid by the Company, (vi) cash consideration for acquisitions and acquisition-related expenses, (vii) dividend payments to stockholders of our Class A common stock and (viii) payments to RIHI and Oberndorf pursuant to the TRAs. See Note 3 to our unaudited condensed consolidated financial statements included elsewhere in this Quarterly Report on Form 10-Q for details on the TRA assignment from Weston Presidio V., L.P. to Oberndorf.

We will continue to evaluate potential financing transactions, including refinancing our 2013 Senior Secured Credit Facility and extending maturities. There can be no assurance that financing or refinancing will be available to us on acceptable terms or at all. Future indebtedness may impose various additional restrictions and covenants on us which could limit our ability to respond to market conditions, to make capital investments or to take advantage of business opportunities. Our ability to make payments to fund debt service obligations and strategic acquisitions will depend on our ability to generate cash in the future, which is subject to general economic, financial, competitive and other factors that are beyond our control.

Sources and Uses of Cash

Nine Months Ended September 30, 2015 and 2014

As of September 30, 2015 and December 31, 2014, we had cash and cash equivalents of \$95.4 million and \$107.2 million, respectively, of which approximately \$6.2 million and \$23.0 million were denominated in foreign currencies, respectively. The reduction in cash and cash equivalents held by our foreign entities was the result of a repatriation of \$33.6 million in Canadian dollars, or \$26.8 million in U.S. dollars, in the first nine months of 2015. Of these amounts, \$23.9 million in Canadian dollars, or \$19.2 million in U.S. dollars, was repatriated in February 2015. We expect to repatriate cash generated by our Canadian operations on a regular basis prospectively. The following table summarizes our cash flows for the nine months ended September 30, 2015 and 2014:

Table of Contents

The increase in cash provided by operating activities was primarily attributable to an increase in cash provided by revenue activities of \$5.2 million primarily as a result of an increase in agent count and office franchise sales in addition to augmented registration fees charged to participants who attended our 2015 annual conventions. Cash provided by operating activities also increased due to a decrease in cash paid for income taxes of \$2.8 million due to the timing of our U.S. federal tax payments and an increase of \$0.5 million in distributions received from our investment in a mortgage brokerage company, which is entirely attributable to our Brokerages reportable segment. Cash provided by operating activities was negatively impacted by additional cash paid for interest of \$0.4 million primarily related to fees paid in connection with amending our 2013 Senior Secured Credit Facility on March 11, 2015.

Cash used in investing activities increased primarily as a result of an increase in the purchases of property, equipment and software for investments in our information technology infrastructure.

The increase in cash used in financing activities was primarily attributable to the following:

- an increase in dividends paid to Class A common stockholders of \$17.9 million and a corresponding increase in distributions paid to our non-controlling unitholders of \$26.6 million due to our Board of Directors declaring a special dividend in March 2015 of \$1.50 per share on all outstanding shares of Class A common stock, which did not occur in the comparable prior year period;
- an increase in dividends paid to Class A common stockholders of \$2.4 million and a corresponding increase in distributions paid to our non-controlling unitholders of \$3.3 million due to our Board of Directors doubling the quarterly dividends declared in 2015 to \$0.125 per share on all outstanding shares of Class A common stock; and
- an increase of \$0.6 million for costs incurred in connection with amending our 2013 Senior Secured Credit Facility; partially offset by
- a reduction in tax and other distributions of \$10.0 million paid to our non-controlling unitholders pursuant to the terms of the Fourth Amended and Restated RMCO Limited Liability Company Agreement (the "RMCO, LLC Agreement");
- a reduction in required payments of debt pursuant to the terms of our 2013 Senior Secured Credit Facility as a result of a \$7.3 million mandatory excess cash flow prepayment made in March 2015 compared to a similar prepayment of \$14.6 million made in April 2014;
- an increase in cash provided by financing activities due to the excess tax benefit of \$2.2 million realized during the nine months ended September 30, 2015 upon the exercise of stock options and the delivery of vested restricted stock units, and an increase in cash received of \$2.0 million from the exercise of stock options; and
- a decrease in withholding tax payments of \$0.7 million paid to satisfy statutory tax requirements of certain employees upon delivery of vested restricted stock units.

Financing Resources

In July 2013, RE/MAX, LLC, a wholly owned subsidiary of RMCO, entered into the 2013 Senior Secured Credit Facility with JPMorgan Chase Bank, N.A., as administrative agent, and various lenders party thereto. Under the 2013 Senior Secured Credit Facility, RE/MAX, LLC also has a revolving line of credit available of up to \$10.0 million. On the closing date of the 2013 Senior Secured Credit Facility, RE/MAX, LLC borrowed \$230.0 million of term loans thereunder. The proceeds provided by these term loans were used to refinance and repay existing indebtedness and for working capital, capital expenditures and general corporate purposes.

Table of Contents

On March 11, 2015, the 2013 Senior Secured Credit Facility was amended, providing for an increase to the maximum applicable margin for both LIBOR and ABR loans by 0.25%, and a modification of certain liquidity covenants in order to increase the amounts RE/MAX, LLC may distribute to RMCO to enable RMCO to increase the dividends declared and paid to its unitholders. In connection with this amendment, RE/MAX, LLC incurred costs of \$1.1 million, of which \$0.6 million was recorded as an unamortized debt discount and are being amortized over the remaining term of the 2013 Senior Secured Credit Facility and the remaining \$0.5 million was expensed as incurred.

RE/MAX, LLC is required to make principal payments out of excess cash flow, as defined in the 2013 Senior Secured Credit Facility, as well as from the proceeds of certain asset sales, proceeds from the issuance of indebtedness and from insurance recoveries. RE/MAX, LLC made an excess cash flow prepayment of \$7.3 million on March 26, 2015 and as a result of this payment, RE/MAX, LLC recorded a loss during the nine months ended September 30, 2015 of \$0.1 million related to unamortized debt discount and issuance costs.

As of September 30, 2015, RE/MAX, LLC had \$202.4 million of term loans outstanding, net of an unamortized discount, had no revolving loans outstanding and had \$10.0 million in revolving loans available under the 2013 Senior Secured Credit Facility.

Term loans are repaid in quarterly installments of \$0.5 million, with the balance of the term loan due at maturity. The quarterly installments will be reduced pro rata by the amount of any excess cash flow principal prepayments made. The maturity date of all of the term loans under the 2013 Senior Secured Credit Facility is July 31, 2020. Term loans may be optionally prepaid by RE/MAX, LLC at any time. All amounts outstanding under the revolving line of credit must be repaid on July 31, 2018.

At any time amounts are drawn under the revolving line of credit, the 2013 Senior Secured Credit Facility requires compliance with a leverage ratio and an interest coverage ratio.

Cash Priorities

Liquidity

Our objective is to maintain strong liquidity. We have existing cash balances, cash flows from operating activities and access to our revolving line of credit available to support the needs of our business.

Capital Expenditures

The total aggregate amount paid for purchases of property and equipment and purchased and developed software was \$2.1 million and \$1.0 million during the nine months ended September 30, 2015 and 2014, respectively. Amounts paid for purchases of property and equipment relate to office equipment for our corporate headquarters and spending on purchased and developed software relate to investments in our information technology infrastructure. In order to expand our technological capabilities, we have invested in information technology projects that will improve operational efficiencies and enhance the tools and services provided to the agents and brokers in our network. We anticipate spending between \$2.7 million and \$3.0 million during 2015 on purchased and developed software for investments in our information technology infrastructure.

Dividends

Our Board of Directors declared quarterly dividends of \$0.125 per share on all outstanding shares of Class A common stock in the first, second and third quarters of 2015 and a special dividend of \$1.50 per share on all outstanding shares of our Class A common stock during the nine months ended September 30, 2015 as disclosed in Note 4 to our

unaudited condensed consolidated financial statements included elsewhere in this Quarterly Report on Form 10-Q.

On November 4, 2015, our Board of Directors declared a quarterly dividend of \$0.125 per share on all outstanding shares of Class A common stock, which is payable on November 27, 2015 to shareholders of record at the close of business on November 13, 2015. The declaration of additional future dividends, and, if declared, the amount of any such future dividend, will be subject to our actual future earnings and capital requirements and to the discretion of our Board of Directors.

Distributions and Other Payments to Non-controlling Unitholders

Distributions for Taxes

As a limited liability company (treated as a partnership for income tax purposes), RMCO does not incur significant federal, state or local income taxes, as these taxes are primarily the obligations of its members. As authorized by the RMCO, LLC Agreement, RMCO is generally required to distribute cash on a pro rata basis to its members to the extent necessary to cover each member's estimated tax liabilities, if any, with respect to their allocable share of RMCO earnings, but only to the extent that any other discretionary distributions from RMCO for the relevant period were otherwise insufficient to enable each member to cover its estimated tax liabilities. See Note 3 to our unaudited condensed consolidated financial statements included elsewhere in this Quarterly Report on Form 10-Q for further details on tax distributions made by RMCO.

Other Discretionary Distributions

Discretionary cash distributions may also be made to non-controlling unitholders based on their ownership percentage in RMCO as determined in accordance with the RMCO, LLC Agreement. We expect that future cash distributions will be made to non-controlling unitholders pro rata on a quarterly basis equal to the anticipated dividend payments to the stockholders of our Class A common stock, including the dividends declared on November 4, 2015, or otherwise on a discretionary basis as we determine to be necessary or appropriate. See Note 3 to our unaudited condensed consolidated financial statements included elsewhere in this Quarterly Report on Form 10-Q for further details on other distributions made by RMCO.

Off Balance Sheet Arrangements

Other than the guarantee of a performance agreement and a line-of-credit agreement each disclosed in Note 13 to our unaudited condensed consolidated financial statements included elsewhere in this Quarterly Report on Form 10-Q, we have no material off balance sheet arrangements as of September 30, 2015.

Commitments and Contingencies

Except for the outstanding lease guarantees acquired in connection with the sale of RE/MAX 100 and the ongoing litigation concerning our acquisition of the net assets of HBN as disclosed in Note 12 to our unaudited condensed consolidated financial statements included elsewhere in this Quarterly Report on Form 10-Q, our management does not believe there are any other litigation matters involving us that could result, individually or in the aggregate, in a material adverse effect on our financial condition, results of operations and cash flows.

Critical Accounting Judgments and Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the amounts and disclosures in the financial statements and accompanying notes. Actual results could differ from those estimates. Our Critical Accounting Judgments and Estimates disclosed in "Management's Discussion and Analysis of Financial Condition and Results of Operations - Critical Accounting Judgments and Estimates" in our Annual Report on Form 10-K for the year ended December 31, 2014, for which there were no material changes, included:

- Allowances for Accounts and Notes Receivable
- Goodwill Impairment Testing
- Franchise Agreements and Other Intangible Assets

- Acquisitions – Purchase Price Allocation
- Income Tax Accounting
- Payments Pursuant to the Tax Receivable Agreements
- Equity-Based Compensation

Item 3. Quantitative and Qualitative Disclosures About Market Risks

We have operations both within the U.S. and globally and we are exposed to market risks in the ordinary course of our business. These risks primarily include interest rate, foreign exchange and inflation risks, as well as risks relating to changes in the general economic conditions in the countries where we conduct business. To reduce certain of these risks, we monitor the financial condition of our large franchisees. In addition, our investment strategy has been to invest in financial instruments that are highly liquid and mature within three months from the date of purchase. We do not currently use derivative instruments to mitigate the impact of our market risk exposures nor do we use derivatives for trading or speculative purposes.

Interest Rate Risk

We are subject to interest rate risk in connection with borrowings under our 2013 Senior Secured Credit Facility which bears interest at variable rates. At September 30, 2015, \$202.4 million in term loans were outstanding under our 2013 Senior Secured Credit Facility, net of an unamortized discount. As of September 30, 2015, the undrawn borrowing availability under the revolving line of credit under our 2013 Senior Secured Credit Facility was \$10.0 million. The interest rate on our 2013 Senior Secured Credit Facility entered into in July 2013 and as amended on March 11, 2015 is currently subject to a LIBOR rate floor of 1%, plus an applicable margin. If LIBOR rates rise above the floor, then each hypothetical 1/8% increase would result in additional annual interest expense of \$0.3 million.

Currency Risk

We have a network of global franchisees in the U.S., Canada and 96 other countries. Fees imposed on independent franchisees and agents in foreign countries are charged in the local currency. Fluctuations in exchange rates of the U.S. dollar against foreign currencies and cash held in foreign currencies can result, and have resulted, in fluctuations in our operating income and foreign exchange transaction gains and losses. As the U.S. dollar has strengthened compared to most foreign currencies, including the Canadian dollar during 2014 and 2015, our financial position and results of operations have been adversely affected. We had foreign currency transaction losses of approximately \$0.2 million and \$0.8 million during the three months ended September 30, 2015 and 2014, respectively, and \$1.6 million and \$0.5 million during the nine months ended September 30, 2015 and 2014, respectively. We currently do not engage in any foreign exchange hedging activity but may do so in the future. Prospectively, we intend to repatriate cash generated by our Canadian operations to the U.S. on a regular basis. During the three and nine months ended September 30, 2015, a hypothetical 5% strengthening or weakening in the value of the U.S. dollar compared to the Canadian dollar would have resulted in a decrease/increase to pre-tax income of approximately \$0.4 million and \$1.6 million, respectively.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

We maintain “disclosure controls and procedures,” as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act, that are designed to ensure that information required to be disclosed by a company in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC’s rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by a company in the reports that it files or submits under the Exchange Act is accumulated and communicated to our management, including our principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding required disclosure.

Our management, with the participation of our principal executive officer and our principal financial officer, evaluated the effectiveness of our disclosure controls and procedures as of September 30, 2015. Based on the evaluation of our disclosure controls and procedures as of September 30, 2015, our principal executive officer and principal financial officer concluded that, as of such date, our disclosure controls and procedures were effective at the reasonable assurance level.

Changes in Internal Control over Financial Reporting

During the quarter ended September 30, 2015, we implemented a new cloud-based enterprise resource planning (“ERP”) system which materially affected, or is reasonably likely to materially affect, our internal control over financial reporting. Our new cloud-based ERP system provides enhanced transaction processing capabilities and analytical management tools compared to our legacy systems. We expect that our new cloud-based ERP system will enhance our internal controls over financial reporting and function as an important component of our disclosure controls and procedures. We have taken the necessary steps to monitor and maintain appropriate internal control over financial reporting during this period of change and will continue to evaluate the operating effectiveness of related key controls during subsequent periods.

PART II. – OTHER INFORMATION

Item 1. Legal Proceedings

From time to time we are involved in litigation, claims and other proceedings relating to the conduct of our business. Litigation and other disputes are inherently unpredictable and subject to substantial uncertainties and unfavorable resolutions could occur. We do not believe we have any currently pending litigation of which the outcome will have a material adverse effect on our business, financial condition or operations; however, litigation and other claims and regulatory proceedings against us could result in unexpected expenses and liability and could also materially adversely affect our operations and our reputation.

Item 1A. Risk Factors

The following are updates to some of our risk factors described in our 2014 Annual Report on Form 10-K which should be read in conjunction with the risk factors therein. For a discussion of our risk factors please see the section entitled "Risk Factors" in our 2014 Annual Report on Form 10-K.

The failure of the U.S. residential real estate market recovery to be sustained or a prolonged decline in the number of home sales and/or home sale prices could adversely affect our revenue and profitability.

The U.S. residential real estate market has experienced a recovery after having been in a prolonged period of downturn, which began in the second half of 2005. However, not all U.S. markets have participated to the same extent in the recovery, and we do not know if this recovery will continue in the future or the extent to which the recovery will be limited to certain markets or will spread to other markets, or if and when the market and related economic forces will return the U.S. residential real estate industry to a period of sustained growth. A lack of a continued or widespread recovery or a prolonged decline in existing home sales, a decline in home sale prices or a decline in commission rates charged by our franchisees/brokers could adversely affect our results of operations by reducing the recurring fees we receive from our franchisees, our agents and our company-owned brokerages and reduce the management fees charged by our company-owned brokerages.

We may fail to successfully execute our strategies to grow our business, including increasing our agent count, expanding our network of franchises and agents, pursuing reacquisitions of the regional franchise rights in a number of RE/MAX regions in the U.S. and Canada and increasing franchise and agent fees, or we may fail to manage our growth effectively, which could have a material adverse effect on our brand, our financial performance and results of operations.

We intend to pursue a number of different strategies to grow our revenue and earnings. However, we may not be able to successfully execute these strategies. Based on our experience, we believe gradually improving market conditions in the U.S. will enable us to sell more franchises and recruit and retain higher numbers of agents, increasing our revenue and profitability. As the housing market recovery continues, we expect the growth in our agent count to continue. However, competition for qualified and effective agents is intense, and we may be unable to recruit and retain enough qualified and effective agents to satisfy our growth strategies.

An additional key growth strategy is to expand our network of franchises and agents in the U.S., Canada and globally. However, we may face many challenges in adding franchises and attracting agents in new and existing markets, such as:

- selection and availability of suitable markets;
-

finding qualified franchisees in these markets who are interested in opening franchises on terms that are favorable to us;

- significant competition in new and existing markets;
- increasing our local brand awareness in new markets;
- attracting and training of qualified local agents;
- impact of inclement weather, natural disasters and other acts of nature; and

Table of Contents

- general economic and business conditions.

We are also pursuing a key growth strategy of reacquiring select RE/MAX independent regional franchises in the U.S. and Canada. The reacquisition of a regional franchise increases our revenue and provides an opportunity for us to drive enhanced profitability. This growth strategy depends on our ability to find regional franchisees willing to sell the franchise rights in their regions on favorable terms as well as our ability to finance and complete these transactions. We may have difficulty finding suitable regional franchise acquisition opportunities at an acceptable price. Further, in the event we acquire a regional franchise, we may not be able to achieve the expected returns on our acquisition after we integrate the reacquired region into our business.

Integrating acquired regions involves complex operational and personnel-related challenges and we may encounter higher than expected integration costs associated with the reacquisitions of Independent Regions.

Future acquisitions may present other challenges and difficulties, including:

- the possible departure of a significant number of key employees;
- regulatory constraints and costs of executing our growth strategy may vary by geography;
- the possible defection of franchisees and agents to other brands or independent real estate companies;
- the disruption of our respective ongoing business;
- problems we may discover post-closing with the operations, including the internal controls and procedures of the regions we reacquire;
- the failure to maintain important business relationships and contracts of the selling region;
- impairment of acquired assets;
- legal or regulatory challenges or litigation post-acquisition, which could result in significant costs;
- unanticipated expenses related to integration; and
- potential unknown liabilities associated with acquired businesses.

A prolonged diversion of management's attention and any delays or difficulties encountered in connection with the integration of any acquired region or region that we may acquire in the future could prevent us from realizing the anticipated cost savings and revenue growth from our acquisitions.

In order to successfully expand our business, we must effectively recruit, develop and motivate new franchisees, and we must maintain the beneficial aspects of our corporate culture. We may not be able to hire new employees and our franchisees may not be able to recruit new agents necessary to manage our growth quickly enough to meet our needs. If we fail to effectively manage our hiring needs and successfully develop our franchisees, our franchisee and employee morale, productivity and retention could suffer, and our brand and results of operations could be harmed. Effectively managing our potential growth could require significant capital expenditures and place increasing demands on our management. We may not be successful in managing or expanding our operations or in maintaining adequate financial and operating systems and controls. If we do not successfully manage these processes, our brand and results of operations could be adversely affected.

Table of Contents

Our business depends on a strong brand, and any failure to maintain, protect and enhance our brand would hurt our ability to grow our business, particularly in new markets where we have limited brand recognition.

We have developed a strong brand that we believe has contributed significantly to the success of our business. Maintaining, protecting and enhancing the “RE/MAX” brand is critical to growing our business, particularly in new markets where we have limited brand recognition. If we do not successfully build and maintain a strong brand, our business could be materially harmed. Maintaining and enhancing the quality of our brand may require us to make substantial investments in areas such as marketing, community relations, outreach and employee training. We actively engage in television, print and online advertisements, targeted promotional mailings and email communications, and engage on a regular basis in public relations and sponsorship activities. These investments may be substantial and may not ultimately be successful.

During the third quarter of 2014, we adopted a change in strategy that will focus our advertising efforts in the U.S. on regional and local advertising. As part of this approach, beginning in January 2015, we shifted advertising expenditures away from our national advertising fund to our regional advertising funds. The majority of this transition has been completed as of September 30, 2015. In 2016, funds previously allocated to the RE/MAX national advertising fund will be managed and invested by the separate RE/MAX regional advertising funds. These regional advertising funds will continue to be funded by our agents through fees that our brokers collect and pay to the regional advertising funds. Local advertising and promotion campaigns are paid directly by agents and franchisees within their local markets. Our change in strategy to focus on regional and local advertising in the U.S. may not be successful and the decrease of national advertising may have an adverse impact on our business and results of operation in future periods.

Brand value can be severely damaged even by isolated incidents, particularly if the incidents receive considerable negative publicity or result in litigation. Some of these incidents may relate to the way we manage our relationship with our franchisees, our growth strategies or the ordinary course of our business or our franchisees’ business. Other incidents may arise from events that are or may be beyond our ability to control and may damage our brand, such as actions taken (or not taken) by one or more franchisees or their employees relating to health, safety, welfare or other matters; litigation and claims; failure to maintain high ethical and social standards for all of our operations and activities; failure to comply with local laws and regulations; and illegal activity targeted at us or others. Our brand value could diminish significantly if any such incidents or other matters erode consumer confidence in us, which may result in a decrease in our total agent count and, ultimately, lower continuing franchise fees and annual dues, which in turn would materially and adversely affect our business and operating results.

The failure of Independent Region owners to successfully develop or expand within their respective regions could adversely impact our revenue.

We have sold regional master franchises in the U.S. and Canada and have sold and continue to sell regional master franchises in our global locations outside of Canada. While we are pursuing a strategy to reacquire select regional franchise rights in a number of regions in the U.S., we still rely on independent regional master franchises in Independent Regions, and in all regions located outside the U.S. and Canada. We derive only a limited portion of our revenue directly from master franchises. However, we depend on Independent Regions, which have the exclusive right to grant franchises within a particular region, to successfully develop or expand within their respective regions and to monitor franchisees’ use of our brand. The failure of any of these Independent Region owners to do these things could delay the development of a particular region, interrupt the operation of our brand in a particular market or markets, and weaken our brand image. In addition, the termination of an agreement with a regional master franchisee could delay the development of a franchised area, or interrupt the operation of our brand in a particular market or markets, while we seek alternative methods to develop our franchises in the area. Any such effect would result in a delay in, or loss of, income to us, which would adversely impact our revenue, business and results of operations.

In addition, the termination of an agreement with a regional master franchisee could also result in the delay of the development of a franchised area, or an interruption in the operation of our brand in a particular market or markets, while we seek alternative methods to develop our franchises in the area. Such an event could result in lower revenue for us, which would adversely impact our business and results of operations.

Loss or attrition among our senior management or other key employees or the inability to hire additional qualified personnel could adversely affect our operations, our brand and our financial performance.

Our future success depends on the efforts and abilities of our Chief Executive Officer, Chairman and Co-Founder, David Liniger, our senior management and other key employees. The loss of the services of David Liniger and our other key employees could make it more difficult to successfully operate our business and achieve our business goals. In addition, we do not maintain key employee life insurance policies on David Liniger or our other key employees. As a result, we may not be able to cover the financial loss we may incur in losing the services of any of these individuals.

Our ability to retain our employees is generally subject to numerous factors, including the compensation and benefits we pay, the mix between the fixed and variable compensation we pay our employees and prevailing compensation rates. As such, we could suffer significant attrition among our current key employees. Competition for qualified employees in the real estate franchising industry is intense. We may be unable to retain existing employees that are important to our business or hire additional qualified employees. The process of locating employees with the combination of skills and attributes required to carry out our goals is often lengthy. We cannot assure you that we will be successful in attracting and retaining qualified employees.

If we were to lose key employees and not promptly fill their positions with comparably qualified individuals, our business may be materially adversely affected.

We rely on traffic to our websites, including our flagship website, remax.com, directed from search engines like Google, Yahoo! and Bing. If our websites fail to rank prominently in unpaid search results, traffic to our websites could decline and our business would be adversely affected.

Our success depends in part on our ability to attract users through unpaid Internet search results on search engines like Google, Yahoo! and Bing. The number of users we attract to our websites, including our flagship website, remax.com, from search engines is due in large part to how and where our websites rank in unpaid search results. These rankings can be affected by a number of factors, many of which are not under our direct control, and they may change frequently. For example, a search engine may change its ranking algorithms, methodologies or design layouts. In addition, our website faces increasing competition for audience from real estate portal websites, such as Zillow, Trulia and Realtor.com. As a result, links to our websites may not be prominent enough to drive traffic to our websites, and we may not know how or otherwise be in a position to influence the results. In some instances, search engine companies may change these rankings in order to promote their own competing services or the services of one or more of our competitors. Our websites have experienced fluctuations in search result rankings in the past, and we anticipate fluctuations in the future. Any reduction in the number of users directed to our websites could adversely impact our business and results of operations.

A failure of our websites or website-based technology, including our lead referral system LeadStreet®, which are subject to factors beyond our control, could lead to reduced revenue and reputational damage.

We operate LeadStreet® which is a lead referral system that provides leads to our agents free of referral fees. LeadStreet® is supported by our websites, including, remax.com, global.remax.com, theremaxcollection.com and remaxcommercial.com. When a prospective buyer views a property listed on our websites by a specific RE/MAX agent, the agent gets this lead through LeadStreet® without a referral fee. However, we are vulnerable to certain additional risks and uncertainties associated with websites, including changes in required technology interfaces, website downtime and other technical failures, security breaches and consumer privacy concerns. Our failure to successfully address these risks and uncertainties could reduce our Internet presence, generate fewer leads for our agents and damage our brand.

Many of the risks relating to our website operations, such as governmental regulation of the Internet, increased competition from websites that facilitate private sales and online security breaches, are beyond our control.

RIHI, Inc. (“RIHI”) has substantial control over us including over decisions that require the approval of stockholders, and its interest in our business may conflict with yours.

RIHI, an entity controlled by David Liniger, our Chief Executive Officer, Chairman and Co-Founder, and Gail Liniger, our Vice-Chair and Co-Founder, respectively, (with Daryl Jesperson, a director holding a minority ownership interests in RIHI), holds a majority of the combined voting power of the different classes of our capital stock through its ownership of 100% of our outstanding Class B common stock. Additionally, the shares of Class B common stock entitle the holder, without regard to the number of shares of Class B common stock held, to a number of votes on matters presented to stockholders of RE/MAX Holdings that is equal to two times the aggregate number of common units of RMCO held by such holder, and will do so until October 7, 2018.

Accordingly, RIHI, acting alone, has the ability to approve or disapprove substantially all transactions and other matters submitted to a vote of our stockholders, such as a merger, consolidation, dissolution or sale of all or substantially all of our assets, the issuance or redemption of certain additional equity interests, and the election of directors. These voting and class approval rights may enable RIHI to consummate transactions that may not be in the best interests of holders of our Class A common stock or, conversely, prevent the consummation of transactions that may be in the best interests of holders of our Class A common stock. In addition, although RIHI has voting control of us, RIHI’s entire economic interest in us is in the form of its direct interest in RMCO through the ownership of RMCO common units, the payments it may receive from us under its tax receivable agreement and the proceeds it may receive upon any redemption of its RMCO common units, including issuance of shares of our Class A common stock upon any such redemption and any subsequent sale of such Class A common stock. As a result, RIHI’s interests may conflict with the interests of our Class A common stockholders. For example, RIHI may have a different tax position from us which could influence its decisions regarding whether and when to dispose of assets, whether and when to incur new or refinance existing indebtedness, especially in light of the existence of the tax receivable agreements that we entered into in connection with our IPO, and whether and when we should terminate the tax receivable agreements and accelerate our obligations thereunder. In addition, the structuring of future transactions may take into consideration the tax or other considerations of RIHI, even in situations where no similar considerations are relevant to us.

Our tax receivable agreements require us to make cash payments based upon future tax benefits to which we may become entitled, and the amounts that we may be required to pay could be significant.

In connection with our IPO, we entered into tax receivable agreements with our historical owners. After one of these historical owners assigned its interest in its tax receivable agreement, these tax receivable agreements are now held by RIHI and Oberndorf Investments LLC (collectively, the “TRA Parties”). For further information, refer to “Item 7—Management’s Discussion and Analysis of Financial Condition and Results of Operations—Tax Impact of Reorganization Transactions and IPO” in our 2014 Annual Report on Form 10-K for additional information. The amount of the cash payments that we may be required to make under the tax receivable agreements could be significant and will depend, in part, upon facts and circumstances that are beyond our control.

The amount of our obligations pursuant to the tax receivable agreement with RIHI will depend, in part, upon the occurrence of any future redemptions by RIHI of its ownership interest in RMCO. In general, future redemptions by RIHI will increase our tax receivable agreement obligations to RIHI. The first payments under the tax receivable agreements were made on December 31, 2014 and further payments are anticipated to be made on an annual basis thereafter. Any payments made by us to the TRA Parties under the tax receivable agreements will generally reduce the amount of overall cash flow that might have otherwise been available to us. To the extent that we are unable to make timely payments under the tax receivable agreements for any reason, the unpaid amounts will be deferred and will accrue interest until paid by us. Furthermore, our future obligation to make payments under the tax receivable agreements could make us a less attractive target for an acquisition, particularly in the case of an acquirer that cannot

use some or all of the tax benefits that may be deemed realized under the tax receivable agreements. The payments under the tax receivable agreement with RIHI are not conditioned upon RIHI maintaining a continued ownership interest in either RMCO or us, and payments under the tax receivable agreement with Oberndorf Investments LLC are not conditioned upon Oberndorf Investments LLC holding any ownership interest in either RMCO or us.

Table of Contents

The amounts that we may be required to pay to the TRA Parties under the tax receivable agreements may be accelerated in certain circumstances and may also significantly exceed the actual tax benefits that we ultimately realize.

The tax receivable agreements provide that if certain mergers, asset sales, other forms of business combination, or other changes of control were to occur, or that if, at any time, we elect an early termination of the tax receivable agreements, then our obligations, or our successor's obligations, to make payments under the tax receivable agreements would be based on certain assumptions, including an assumption that we would have sufficient taxable income to fully utilize all potential future tax benefits that are subject to the tax receivable agreements.

As a result, (i) we could be required to make cash payments to the TRA Parties that are greater than the specified percentage of the actual benefits we ultimately realize in respect of the tax benefits that are subject to the tax receivable agreements, and (ii) if we elect to terminate the tax receivable agreements early, we would be required to make an immediate cash payment equal to the present value of the anticipated future tax benefits that are the subject of the tax receivable agreements, which payment may be made significantly in advance of the actual realization, if any, of such future tax benefits. In these situations, our obligations under the tax receivable agreements could have a substantial negative impact on our liquidity and could have the effect of delaying, deferring or preventing certain mergers, asset sales, other forms of business combination, or other changes of control. There can be no assurance that we will be able to finance our obligations under the tax receivable agreements.

We will also not be reimbursed for any cash payments previously made to the TRA Parties (or their predecessors) pursuant to the tax receivable agreements if any tax benefits initially claimed by us are subsequently challenged by a taxing authority and are ultimately disallowed. Instead, any excess cash payments made by us to either of the TRA Parties will be netted against any future cash payments that we might otherwise be required to make under the terms of the tax receivable agreements. However, we might not determine that we have effectively made an excess cash payment to either of the TRA Parties for a number of years following the initial time of such payment. As a result, it is possible that we could make cash payments under the tax receivable agreements that are substantially greater than our actual cash tax savings.
