ITEM 1A – Risk
 Factors

The following are significant factors known to us that could materially adversely affect our business, financial condition or operating results. We are subject to competitive risks associated with developing innovative products and technologies, including but not limited to, not expanding as rapidly or aggressively in the global market as our competitors, our customers not continuing to pay for innovation and competitive challenges to our products, technology and the underlying intellectual property. Our products are sold in competitive markets throughout the world. Competition is based on product features and design, brand recognition, reliability, durability, technology, breadth of product offerings, price,

customer relationships and after-sale service. Although we believe that the performance and price characteristics of our products will produce competitive solutions for our customers' needs, our products generally cost more than our competitors' products. This is due to our dedication to innovation and continued investments in research and development. We believe that customers will pay for the innovations and quality in our products. However, in the current economic environment, it may be difficult for us to compete with lower cost products offered by our competitors and there can be no assurance that our customers will continue to choose our products over products offered by our competitors. If our products, markets and services are not competitive, we may experience a decline in sales, pricing and market share, which adversely impacts revenues, margin and the success of our operations. Competitors may also initiate litigation to challenge the validity of our patents or claims, allege that we

infringe upon their patents, violate our patents or they may use their resources to design comparable products that avoid infringing our patents. Regardless of whether such litigation is successful, such litigation could significantly increase our costs and divert management's attention from the operation of our business, which could adversely affect our results of operations and financial condition. Foreign currency exchange rate fluctuations, particularly the strengthening of the U.S. dollar against other major currencies, could result in declines in our reported net sales and net earnings. We earn revenues, pay expenses, own assets and incur liabilities in countries using functional currencies other than the U.S. dollar. Because our consolidated financial statements are presented in U.S. dollars, we translate revenues and expenses into U.S. dollars at the average exchange rate during each reporting period, as well as assets and liabilities into U.S. dollars at exchange rates in effect at the end of each reporting period.

Therefore, increases or decreases in the value of the U.S. dollar against other major currencies will affect our net revenues, net earnings, earnings per share and the value of balance sheet items denominated in foreign currencies as we translate them into the U.S. dollar reporting currency. While we typically use derivative financial instruments to hedge our transactional exposure to certain foreign currency-denominated assets and liabilities, we do not typically hedge the translation of our foreign-denominated functional currencies into our U.S. dollar reporting currency. Fluctuations in foreign currency exchange rates, particularly the strengthening of the U.S. dollar against major currencies, could materially affect our financial results.

We may encounter financial difficulties if the United States or other global economies experience an additional or continued significant long-term economic downturn, decreasing the demand for our products and negatively affecting our sales growth.

Our product sales are sensitive to declines in capital spending by our customers. Decreased demand for our products could result in decreased revenues, profitability and cash flows and may impair our ability to maintain our operations and fund our obligations to others. In the event of a continued significant long-term economic downturn in the U.S. or other global economies, our revenues could decline to the point that we may have to take cost-saving measures, such as restructuring actions. These actions would be particularly challenging due to the increase in employee headcount over the past few years. In addition, other fixed costs would have to be reduced to a level that is in line with a lower level of sales. A long-term economic downturn that puts downward pressure on sales could also lower street credibility relative to our publicly stated growth targets.

Our ability to effectively operate our Company could be adversely affected if we are unable to attract and retain key personnel and other highly skilled employees, provide employee development opportunities and create effective succession planning strategies.

Our continued success will depend on, among other things, the skills and services of our executive officers and other key personnel. Our ability to attract and retain highly qualified managerial, technical, manufacturing, research, sales and marketing personnel also impacts our ability to effectively operate our business. As the economy recovers and companies grow and increase their hiring activities, there is an inherent risk of increased employee turnover and the loss of valuable employees in key positions, especially in emerging markets. We believe the increased loss of key personnel within a concentrated region could adversely affect our sales growth.

In addition, there is a risk that there may not be adequate talent acquisition resources in place to support the hiring of new employees in a timely and efficient manner to appropriately align with our growth strategy. The lack of talent acquisition resources could also inhibit our ability to provide training and development opportunities to all employees. This, in turn, could impede our workforce from embracing change and leveraging the improvements we have made in technology and other business process enhancements.

We may not be able to upgrade and evolve our information technology systems as quickly as we wish and we may encounter difficulties as we upgrade and evolve these systems, which could adversely impact our abilities to accomplish anticipated future cost savings, better serve our customers and protect against information system disruption, corruption or intrusions.

We have many information technology systems that are important to the operation of our business and are in need of upgrading in order to effectively implement our growth strategy. Given our greater emphasis on customer-facing technologies, we may not have adequate resources to upgrade our systems at the pace which the current business environment demands. This could increase the risk that the Information Technology infrastructure, such as access and security, is not adequately designed to protect critical data and systems from theft, corruption, unauthorized usage, viruses, sabotage or unintentional misuse. Additionally, significantly upgrading and evolving the capabilities of our existing systems could lead to inefficient or ineffective use of our technology due to lack of training or expertise in these evolving technology systems. These factors could lead to significant expenses, adversely impacting our results of operations and hinder our ability to offer better technology solutions to our customers.

Increases in the cost of, quality, or disruption in the availability of, raw materials and components that we purchase to manufacture our products could negatively impact our operating results or financial condition.

Our sales growth, expanding geographical footprint and continued use of sole source vendors (concentration risk), coupled with suppliers' potential credit issues, could lead to an increased risk of a breakdown in our supply chain. There is an increased risk of defects due to the highly configured nature of our purchased component parts that could result in quality issues, returns or production slow-downs. In addition, modularization may lead to more sole sourced products and as we seek to outsource the design of certain key components, we risk loss of proprietary control and becoming more reliant on a sole source. There is also a risk that the vendors we chose to supply our parts and equipment fail to comply with our quality expectations, thus damaging our reputation for quality and negatively impacting sales.

The SEC has adopted rules regarding disclosure of the use of “conflict minerals” (commonly referred to as tin, tantalum, tungsten and gold) which are mined from the Democratic Republic of the Congo in products we manufacture or contract to manufacture. These rules have required and will continue to require due diligence and disclosure efforts.

There are and will continue to be costs associated with complying with this disclosure requirement, including costs to determine which of our products are subject to the rules and the source of any "conflict minerals" used in these products. Since our supply chain is complex, ultimately we may not be able to sufficiently discover the origin of the conflict minerals used in our products through the due diligence procedures that we implement. If we are unable to, or choose not to certify that our products are conflict mineral free, customers may choose not to purchase our products. Alternatively, if we choose to use only suppliers offering conflict free minerals, we cannot be sure that we will be able to obtain metals, if necessary, from such suppliers in sufficient quantities or at competitive prices. Any one or a combination of these various factors could harm our business, reduce market demand for our products, and adversely affect our profit margins, net sales, and overall financial results.

We may not be able to effectively manage organizational changes which could negatively impact our operating results or financial condition.

We are continuing to implement global standardized processes in our business despite lean staffing levels. We continue to consolidate and reallocate resources as part of our ongoing efforts to optimize our cost structure in the current economy. Our operating results may be negatively impacted if we are unable to implement new processes and manage organizational changes. In addition, if we do not effectively realize and sustain the benefits that these transformations are designed to produce, we may not fully realize the anticipated savings of these actions or they may negatively impact our ability to serve our customers or meet our strategic objectives.

Our global operations are subject to laws and regulations that impose significant compliance costs and create reputational and legal risk.

Due to the international scope of our operations, we are subject to a complex system of commercial, tax and trade regulations around the world. Recent years have seen an increase in the development and enforcement of laws regarding trade, tax compliance, labor and safety and anti-corruption, such as the U.S. Foreign Corrupt Practices Act, and similar laws from other countries. Our numerous foreign subsidiaries and affiliates are governed by laws, rules and business practices that differ from those of the U.S., but because we are a U.S. based company, oftentimes they are also subject to U.S. laws which can create a conflict. Despite our due diligence, there is a risk that we do not have adequate resources or comprehensive processes to stay current on changes in laws or regulations applicable to us worldwide and maintain compliance with those changes. Increased compliance requirements may lead to increased costs and erosion of desired profit margin. As a result, it is possible that the activities of these entities may not comply with U.S. laws or business practices or our Business Ethics Guide. Violations of the U.S. or local laws may result in severe criminal or civil sanctions, could disrupt our business, and result in an adverse effect on our reputation, business and results of operations or financial condition. We cannot predict the nature, scope or effect of future regulatory requirements to which our operations might be subject or the manner in which existing laws might be administered or interpreted.

We may be unable to conduct business if we experience a significant business interruption in our computer systems, manufacturing plants or distribution facilities for a significant period of time.

We rely on our computer systems, manufacturing plants and distribution facilities to efficiently operate our business. If we experience an interruption in the functionality in any of these items for a significant period of time for any reason, including unauthorized access to our systems, we may not have adequate business continuity planning contingencies in place to allow us to continue our normal business operations on a long-term basis. In addition, the increase in customer facing technology raises the risk of a lapse in business operations. Therefore, significant long-term interruption in our business could cause a decline in sales, an increase in expenses and could adversely impact our financial results.

Inadequate funding or insufficient innovation of new technologies may result in an inability to develop and commercialize new innovative products and services.

We strive to develop new and innovative products and services to differentiate ourselves in the marketplace. New product development relies heavily on our financial and resource investments in both the short term and long term. If we fail to adequately fund product development projects or fund a project which ultimately does not gain the market acceptance we anticipated, we risk not meeting our customers' expectations, which could result in decreased revenues, declines in margin and loss of market share.

We are subject to product liability claims and product quality issues that could adversely affect our operating results or financial condition.

Our business exposes us to potential product liability risks that are inherent in the design, manufacturing and distribution of our products. If products are used incorrectly by our customers, injury may result leading to product liability claims against us. Some of our products or product improvements may have defects or risks that we have not yet identified that may give rise to product quality issues, liability and warranty claims. Quality issues may also arise due to changes in parts or specifications with suppliers and/or changes in suppliers. If product liability claims are brought against us for damages that are in excess of our insurance coverage or for uninsured liabilities and it is determined we are liable, our business could be adversely impacted. Any losses we suffer from any liability claims, and the effect that any product liability litigation may have upon the reputation and marketability of our products, may have a negative impact on our business and operating results. We could experience a material design or manufacturing failure in our products, a quality system failure, other safety issues, or heightened regulatory scrutiny that could warrant a recall of some of our products. Any unforeseen product quality problems could result in loss of market share, reduced sales, and higher warranty expense.

ITEM 1B – Unresolved Staff Comments

None.

ITEM 2 – Properties

The Company's corporate offices are owned by the Company and are located in the Minneapolis, Minnesota, metropolitan area. Manufacturing facilities are located in Minneapolis, Minnesota; Holland, Michigan; Louisville, Kentucky; Uden, The Netherlands; Falkirk, United Kingdom; São Paulo, Brazil; and Shanghai, China. Sales offices, warehouse and storage facilities are leased in various locations in North America, Europe, Japan, China, Australia, New Zealand and Latin America. The Company's facilities are in good operating condition, suitable for their respective uses and adequate for current needs. Further information regarding the Company's property and lease commitments is included in the Contractual Obligations section of Item 7 and in Note 13 of the Consolidated Financial Statements.

ITEM 3 – Legal Proceedings

There are no material pending legal proceedings other than ordinary routine litigation incidental to the Company's business.

ITEM 4 – Mine Safety Disclosures

Not applicable.

PART II

ITEM 5 – Market for Registrant’s Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities

MARKET INFORMATION – Tennant's common stock is traded on the New York Stock Exchange, under the ticker symbol TNC. As of January 30, 2015, there were 397 shareholders of record. The common stock price was \$65.21 per share on January 30, 2015. The accompanying chart shows the high and low sales prices for the Company’s shares for each full quarterly period over the past two years as reported by the New York Stock Exchange:

	2014		2013	
	High	Low	High	Low
First Quarter	\$67.70	\$58.21	\$49.82	\$44.07
Second Quarter	76.52	61.71	51.62	44.50
Third Quarter	76.25	67.09	62.50	49.64
Fourth Quarter	74.81	64.30	68.70	58.05

DIVIDEND INFORMATION – Cash dividends on Tennant’s common stock have been paid for 70 consecutive years. Tennant’s annual cash dividend payout increased for the 43^d consecutive year to \$0.78 per share in 2014, an increase of \$0.06 per share over 2013. Dividends are generally declared each quarter. On February 18, 2015, the Company announced a quarterly cash dividend of \$0.20 per share payable March 16, 2015, to shareholders of record on March 2, 2015.

DIVIDEND REINVESTMENT OR DIRECT DEPOSIT OPTIONS – Shareholders have the option of reinvesting quarterly dividends in additional shares of Company stock or having dividends deposited directly to a bank account. The Transfer Agent should be contacted for additional information.

TRANSFER AGENT AND REGISTRAR – Shareholders with a change of address or questions about their account may contact:

Wells Fargo Bank, N.A.
Shareowner Services
P.O. Box 64874
St. Paul, MN 55164-0854
(800) 468-9716

EQUITY COMPENSATION PLAN INFORMATION – Information regarding equity compensation plans required by Regulation S-K Item 201(d) is incorporated by reference in Item 12 of this annual report on Form 10-K from the 2015 Proxy Statement.

SHARE REPURCHASES – On April 25, 2012, the Board of Directors authorized the repurchase of 1,000,000 shares of our common stock. Share repurchases are made from time to time in the open market or through privately negotiated transactions, primarily to offset the dilutive effect of shares issued through our share-based compensation programs. Our credit agreements and Private Shelf Agreement restrict the payment of dividends or repurchasing of stock if, after giving effect to such payments, our leverage ratio is greater than 2.00 to 1, in such case limiting such payments to an amount ranging from \$50.0 million to \$75.0 million during any fiscal year.

For the Quarter Ended	Total Number of Shares Purchased ⁽¹⁾	Average Price Paid Per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number of Shares that May Yet Be Purchased Under the Plans or Programs
December 31, 2014

The results of operations from our 2011 acquisition has been included in the Selected Financial Data presented above since its acquisition date.

(1) 2013 includes restructuring charges of \$3,017 pre-tax (\$2,938 after-tax or \$0.15 per diluted share) and a tax benefit of \$582 (or \$0.03 per diluted share) related to the retroactive reinstatement of the 2012 U.S. Federal Research and Development ("R&D") Tax Credit.

(2) 2012 includes a gain on sale of business of \$784 pre-tax (\$508 after-tax or \$0.03 per diluted share), a restructuring charge of \$760 pre-tax (\$670 after-tax or \$0.04 per diluted share) and tax benefits from an international entity restructuring of \$2,043 (or \$0.11 per diluted share).

(3) 2011 includes a Product Line Obsolescence charge of \$4,300 pre-tax (\$3,811 after-tax or \$0.20 per diluted share) and an international executive severance charge of \$1,217 (or \$0.06 per diluted share).

(4) 2010 includes a tax benefit from the international entity restructuring of \$10,913 (or \$0.56 per diluted share), a workforce redeployment charge of \$1,671 pre-tax (\$1,196 after-tax or \$0.06 per diluted share), inventory revaluation from change in functional currency designation due to international entity restructuring of \$647 pre-tax (\$453 after-tax or \$0.02 per diluted share) and a revision of our 2008 workforce reduction reserve of \$277 pre-tax (\$173 after-tax or \$0.01 per diluted share).

ITEM 7 – Management’s Discussion and Analysis of Financial Condition and Results of Operations

Overview

Tennant Company is a world leader in designing, manufacturing and marketing solutions that empower customers to achieve quality cleaning performance, significantly reduce their environmental impact and help create a cleaner, safer, healthier world. Tennant is committed to creating and commercializing breakthrough, sustainable cleaning innovations to enhance its broad suite of products including: floor maintenance and outdoor cleaning equipment, chemical-free and other sustainable cleaning technologies, aftermarket parts and consumables, equipment maintenance and repair service, and specialty surface coatings. Tennant products are used in retail establishments and distribution centers, factories and warehouses, public venues such as arenas and stadiums, office buildings, schools and universities, hospitals and clinics, parking lots and streets, and other environments. Customers include building service contract cleaners to whom organizations outsource facilities maintenance, as well as businesses that perform facilities maintenance themselves. The Company reaches these customers through the industry's largest direct sales and service organization and through a strong and well-supported network of authorized distributors worldwide. Net Sales in 2014 totaled \$822.0 million, up from \$752.0 million in the prior year primarily due to strong sales to strategic accounts and through distribution, continued demand for new products such as the T17 rider scrubber, gains in commercial, industrial and outdoor equipment and selling price increases. 2014 organic sales growth, excluding the unfavorable impact of foreign currency exchange of approximately 1.0%, was up approximately 10.3% with growth in all major geographical regions. 2014 Gross Profit margin decreased 40 basis points to 42.9% from 43.3% in 2013 primarily due to strong sales to strategic accounts and through distribution that tend to have lower gross profit margins and also costs related to hiring and training additional manufacturing employees to support the higher levels of production. Selling and Administrative Expense (“S&A Expense”) increased 7.7%, but decreased 50 basis points as a percentage of Net Sales, from \$233.0 million in 2013 to \$250.9 million in 2014 primarily due to investments in direct sales, distribution and marketing to build organic sales. This was somewhat offset by continued cost controls and improved operating efficiencies that favorably impacted S&A Expense in 2014. Operating Profit increased 15.5% and Operating Profit margin increased 50 basis points to 8.8% in 2014 from 8.3% in 2013 due to higher Net Sales and lower R&D Expense and S&A Expense, somewhat offset by lower Gross Margin, as a percentage of Net Sales. Net Earnings for 2014 were favorably impacted by a lower tax rate compared to 2013 due to the mix in taxable earnings by country and favorable settlements on tax positions from prior years.

Net Earnings for 2013 were \$1.4 million less than 2012. The decrease in net earnings resulted primarily from 2013 restructuring charges of \$3.0 million pre-tax (\$2.9 million after-tax) being somewhat offset by a tax benefit of \$0.6 million related to the retroactive reinstatement of the 2012 U.S. Federal R&D Tax Credit. 2013 Gross Profit margin decreased 70 basis points to 43.3% from 44.0% in 2012 due to changes in selling channel mix and mix of products sold. Net Sales in 2013 totaled \$752.0 million, up from \$739.0 million in the prior year primarily due to increased sales of industrial equipment and high demand for newly introduced products which were somewhat offset by lower sales of city cleaning equipment. 2013 organic sales growth, excluding the impact of foreign currency exchange, was up approximately 2.8% with growth in North America, Latin America and Asia Pacific being somewhat offset by declines in Europe due to challenging economic conditions. S&A Expense decreased 0.5%, or 70 basis points, as a percentage of Net Sales, from \$234.1 million in 2012 to \$233.0 million in 2013 due to continued tight cost controls and improved operating leverage. Operating Profit decreased 0.5% and Operating Profit margin declined 20 basis points to 8.3% in 2013 from 8.5% in 2012 due to two restructuring charges taken during 2013 totaling \$3.0 million and increased investment in R&D activities.

Tennant continues to invest in innovative product development with 3.6% of 2014 Net Sales spent on R&D. During 2014, we continued to invest in developing innovative new products for our traditional core business, as well as in our Orbio Technologies Group, which is focused on advancing a suite of sustainable cleaning technologies. New products

are a key driver of sales growth. Eighteen new products were launched in 2014, including a line of walk-behind burnishers, a mid-size battery-powered rider scrubber, a mid-size rider sweeper with optimized dust control, the Orbio os3 system and a new line of Alfa essentials.

We ended 2014 with a Debt-to-Capital ratio of 9.1%, \$93.0 million in Cash and Cash Equivalents compared to \$81.0 million at the end of 2013, and Shareholders' Equity of \$280.7 million. During 2014, we generated operating cash flows of \$59.4 million. Total debt was \$28.1 million as of December 31, 2014, compared to \$31.8 million at the end of 2013.

Table of Contents

Historical Results

The following table compares the historical results of operations for the years ended December 31, 2014, 2013 and 2012 in dollars and as a percentage of Net Sales (in thousands, except per share amounts and percentages):

	2014	%	2013	%	2012	%
Net Sales	\$821,983	100.0	\$752,011	100.0	\$738,980	100.0
Cost of Sales	469,556	57.1	426,103	56.7	413,684	56.0
Gross Profit	352,427	42.9	325,908	43.3	325,296	44.0
Operating Expense:						
Research and Development Expense	29,432	3.6	30,529	4.1	29,263	4.0
Selling and Administrative Expense	250,898	30.5	232,976	31.0	234,114	31.7
Gain on Sale of Business	—	—	—	—	(784)	(0.1)
Total Operating Expenses	280,330	34.1	263,505	35.0	262,593	35.5
Profit from Operations	72,097	8.8	62,403	8.3	62,703	8.5
Other Income (Expense):						
Interest Income	302	—	390	0.1	1,069	0.1
Interest Expense	(1,722)	(0.2)	(1,761)	(0.2)	(2,517)	(0.3)
Net Foreign Currency Transaction Losses	(690)	(0.1)	(671)	(0.1)	(1,403)	(0.2)
Other (Expense) Income, Net	(449)	(0.1)	(483)	(0.1)	38	—
Total Other Expense, Net	(2,559)	(0.3)	(2,525)	(0.3)	(2,813)	(0.4)
Profit Before Income Taxes	69,538	8.5	59,878	8.0	59,890	8.1
Income Tax Expense	18,887	2.3	19,647	2.6	18,306	2.5
Net Earnings	\$50,651	6.2	\$40,231	5.3	\$41,584	5.6
Net Earnings per Diluted Share	\$2.70		\$2.14		\$2.18	

Consolidated Financial Results

Net Earnings for 2014 were \$50.7 million, or \$2.70 per diluted share, compared to \$40.2 million, or \$2.14 per diluted share for 2013. Net Earnings were impacted by:

An increase in Net Sales of 9.3%, primarily due to increased sales to strategic accounts and through distribution, continued demand for new products, gains in commercial, industrial and outdoor equipment, and selling list price increases, typically in the range of 2 percent to 4 percent in most geographies, in March 2014.

A 40 basis point decrease in Gross Profit margin due to strong sales to strategic accounts and through distribution that tend to have lower gross profit margins and also costs related to hiring and training additional manufacturing employees to support the higher levels of production.

A decrease in S&A Expense as a percentage of Net Sales of 50 basis points due to continued cost controls and improved operating efficiencies, somewhat offset by investments in direct sales, distribution and marketing to build organic sales.

Net Earnings for 2013 were \$40.2 million, or \$2.14 per diluted share, compared to \$41.6 million, or \$2.18 per diluted share for 2012. Net Earnings were impacted by:

An increase in Net Sales of 1.8%, primarily due to increased sales of industrial equipment and high demand for newly introduced products that were somewhat offset by lower sales of city cleaning equipment.

A 70 basis point decrease in Gross Profit margin due to changes in selling channel mix and mix of products sold.

A decrease in S&A Expense as a percentage of Net Sales of 70 basis points due to continued tight cost controls and improved operating efficiencies.

Two restructuring actions totaling \$3.0 million (pre-tax) during 2013 or 40 basis points as a percentage of Net Sales.

A \$0.6 million tax benefit related to the 2012 R&D tax credit that was retroactively enacted in January 2013.

Net Sales

Edgar Filing: Prothena Corp plc - Form 10-Q

In 2014, consolidated Net Sales were \$822.0 million, an increase of 9.3% as compared to 2013. Consolidated Net Sales were \$752.0 million in 2013, an increase of 1.8% as compared to 2012.

The components of the consolidated Net Sales change for 2014 as compared to 2013, and 2013 as compared to 2012, were as follows:

Growth Elements	2014 v. 2013	2013 v. 2012
Organic Growth:		
Volume	9.3%	1.8%
Price	1.0%	1.0%
Organic Growth	10.3%	2.8%
Foreign Currency	(1.0%)	(1.0%)
Total	9.3%	1.8%

The 9.3% increase in consolidated Net Sales for 2014 as compared to 2013 was primarily due to sales volume increases to strategic accounts and through distribution, continued demand for new products such as the T17 rider scrubber and gains in commercial, industrial and outdoor equipment. Sales of new products introduced since the 2012 fourth quarter were 12% of equipment sales in 2014. The impact from direct foreign currency translation exchange was approximately neutral to Net Sales for the first nine months of 2014, and was approximately 3.0% unfavorable in the 2014 fourth quarter primarily due to the strengthening of the U.S. dollar throughout the quarter, resulting in a 2014 full year impact that was approximately 1.0% unfavorable. We expect a larger unfavorable foreign currency impact in 2015.

The 1.8% increase in consolidated Net Sales for 2013 as compared to 2012 was primarily due to sales volume increases due to increased sales of industrial equipment and demand for newly introduced products.

The following table sets forth annual Net Sales by operating segment and the related percentage change from the prior year (in thousands, except percentages):

	2014	%	2013	%	2012
Americas	\$569,004	10.6	\$514,544	4.7	\$491,661
Europe, Middle East and Africa	165,686	5.4	157,208	(5.4)	166,208
Asia Pacific	87,293	8.8	80,259	(1.1)	81,111
Total	\$821,983	9.3	\$752,011	1.8	\$738,980

Table of Contents

Americas – In 2014, Americas Net Sales increased 10.6% to \$569.0 million as compared with \$514.5 million in 2013. The primary driver of the increase in Net Sales was attributable to higher sales to strategic accounts, including sales of scrubbers in North America, scrubbers equipped with ec-H₂O technology and walk-behind burnishers. Unfavorable direct foreign currency translation exchange effects decreased Net Sales by approximately 1.0%.

In 2013, Americas Net Sales increased 4.7% to \$514.5 million as compared with \$491.7 million in 2012. The primary driver of the increase in Net Sales was attributable to higher sales of equipment in North America, including scrubbers equipped with ec-H₂O technology and sweepers, and continued growth in Latin America. Unfavorable direct foreign currency translation exchange effects decreased Net Sales by approximately 1.0%.

Europe, Middle East and Africa – Europe, Middle East and Africa (“EMEA”) Net Sales in 2014 increased 5.4% to \$165.7 million as compared to 2013 Net Sales of \$157.2 million. An organic sales increase of approximately 4.4% was primarily due to higher sales of outdoor equipment, including strong sales of 500ze lithium-ion battery-powered sweepers. Favorable direct foreign currency exchange effects increased EMEA Net Sales by approximately 1.0% in 2014.

EMEA Net Sales in 2013 decreased 5.4% to \$157.2 million as compared to 2012 Net Sales of \$166.2 million. An organic sales decrease of approximately 7.4% was primarily due to decreases in sales of city cleaning equipment due to tight municipal spending in Europe, somewhat offset by increased sales to strategic accounts. Favorable direct foreign currency exchange effects increased EMEA Net Sales by approximately 2.0% in 2013.

Asia Pacific – Asia Pacific Net Sales in 2014 increased 8.8% to \$87.3 million as compared to 2013 Net Sales of \$80.3 million. An organic sales increase of approximately 12.8% was primarily due to strong sales performance in China, Japan, Southeast Asia and Korea. Unfavorable direct foreign currency exchange effects decreased Net Sales by approximately 4.0% in 2014.

Asia Pacific Net Sales in 2013 decreased 1.1% to \$80.3 million as compared to 2012 Net Sales of \$81.1 million. An organic sales increase of approximately 4.4% was primarily due to increased sales of equipment in China and also sales growth in Australia and Japan. Unfavorable direct foreign currency exchange effects decreased Net Sales by approximately 5.5% in 2013.

Gross Profit

Gross Profit margin was 42.9% in 2014, a decrease of 40 basis points as compared to 2013. Gross Profit margin in 2014 was unfavorably impacted by stronger sales to sales channels that tend to have lower gross margins and also costs related to hiring and training additional manufacturing employees and temporary workers to support the higher levels of production, including the continued ramp up to meet the growing demand for new products.

Gross Profit margin was 43.3% in 2013, a decrease of 70 basis points as compared to 2012. Gross Profit margin in 2013 was unfavorably impacted by changes in selling channel mix and the mix of products sold.

Operating Expenses

Research and Development Expense – R&D Expense decreased \$1.1 million, or 3.6%, in 2014 as compared to 2013. As a percentage of Net Sales, 2014 R&D Expense decreased 50 basis points to 3.6% in 2014 from 4.1% in the prior year primarily due to the timing of new product development projects. We continued to invest in developing innovative new products for our traditional core business, as well as our Orbio business.

R&D Expense increased \$1.3 million, or 4.3%, in 2013 as compared to 2012. As a percentage of Net Sales, 2013 R&D Expense increased 10 basis points to 4.1% in 2013 from 4.0% in the prior year. R&D Expense increased in 2013 as we made additional investments in developing innovative new products for our traditional core business, as well as our Orbio business.

Selling and Administrative Expense – S&A Expense increased by \$17.9 million, or 7.7%, in 2014 compared to 2013. As a percentage of Net Sales, 2014 S&A Expense decreased 50 basis points to 30.5% from 31.0% in 2013 due to continued cost controls and improved operating efficiencies, somewhat offset by investments in direct sales, distribution and marketing to build organic sales that unfavorably impacted S&A Expense.

S&A Expense decreased by \$1.1 million, or 0.5%, in 2013 compared to 2012. As a percentage of Net Sales, 2013 S&A Expense decreased 70 basis points to 31.0% due to continued tight cost controls and improved operating efficiencies. Included in the lower S&A Expense during 2013 were two restructuring actions totaling \$3.0 million, or

40 basis points as a percentage of Net Sales.

Other Income (Expense)

Interest Income – Interest Income was \$0.3 million in 2014, a decrease of \$0.1 million from 2013. The decrease between 2014 and 2013 was due to decreases in interest rates on cash invested.

Interest Income was \$0.4 million in 2013, a decrease of \$0.7 million from 2012. The decrease between 2013 and 2012 was due to decreases in interest rates on cash invested.

Interest Expense – Interest Expense was \$1.7 million in 2014 as compared to \$1.8 million in 2013. This decrease was primarily due to lower interest rates on long-term adjustable rate borrowings.

Interest Expense was \$1.8 million in 2013 as compared to \$2.5 million in 2012. This decrease was primarily due to lower interest rates on long-term adjustable rate borrowings.

Net Foreign Currency Transaction Losses – Net Foreign Currency Transaction Losses were \$0.7 million in 2014 and 2013.

Net Foreign Currency Transaction Losses were \$0.7 million in 2013 as compared to Losses of \$1.4 million in 2012. The favorable decrease from the prior year was due to fluctuations in foreign currency rates in the normal course of business.

Income Taxes

The overall effective income tax rate was 27.2%, 32.8% and 30.6% in 2014, 2013 and 2012, respectively.

The tax expense for 2013 included a \$0.1 million tax benefit associated with restructuring charges of \$3.0 million. The tax expense also included a first quarter discrete tax benefit of \$0.6 million for the enactment of the Federal R&D credit retroactively impacting the tax year ended December 31, 2012. Excluding these special items, the 2013 overall tax rate would have been 32.3%.

The decrease in the 2014 overall effective tax rate as compared to the prior year, excluding the effect of the 2013 one-time charges, was primarily related to the mix in our full year taxable earnings by country and favorable settlements on prior years' tax positions.

The tax expense for 2012 included a \$2.0 million tax benefit associated with an international entity restructuring which materially decreased the overall effective tax rate. Excluding this tax benefit, the overall effective tax rate would have been 34.0%.

Table of Contents

We do not have any plans to repatriate the undistributed earnings of non-U.S. subsidiaries. Any repatriation from foreign subsidiaries that would result in incremental U.S. taxation is not being considered. It is management's belief that reinvesting these earnings outside the U.S. is the most efficient use of capital.

Liquidity and Capital Resources

Liquidity – Cash and Cash Equivalents totaled \$93.0 million at December 31, 2014, as compared to \$81.0 million as of December 31, 2013. Cash and Cash Equivalents held by our foreign subsidiaries totaled \$15.8 million as of December 31, 2014, as compared to \$13.4 million as of December 31, 2013. Wherever possible, cash management is centralized and intercompany financing is used to provide working capital to subsidiaries as needed. Our current ratio was 2.4 as of December 31, 2014 and December 31, 2013, and our working capital was \$201.5 million and \$183.8 million, respectively.

Our Debt-to-Capital ratio was 9.1% as of December 31, 2014, compared with 10.8% as of December 31, 2013. Our capital structure was comprised of \$28.1 million of Debt and \$280.7 million of Shareholders' Equity as of December 31, 2014.

Cash Flow Summary – Cash provided by (used in) our operating, investing and financing activities is summarized as follows (in thousands):

	2014	2013	2012
Operating Activities	\$59,362	\$59,814	\$47,566
Investing Activities:			
Purchases of Property, Plant and Equipment, Net of Disposals	(19,292)	(14,655)	(14,595)
Acquisitions of Businesses, Net of Cash Acquired	—	(750)	(750)
Proceeds from Sale of Business	1,416	4,261	1,014
Decrease (Increase) in Restricted Cash	6	(253)	3,089
Financing Activities	(28,038)	(21,495)	(34,932)
Effect of Exchange Rate Changes on Cash and Cash Equivalents	(1,476)	122	209
Net Increase in Cash and Cash Equivalents	\$11,978	\$27,044	\$1,601

Operating Activities – Cash provided by operating activities was \$59.4 million in 2014, \$59.8 million in 2013 and \$47.6 million in 2012. In 2014, cash provided by operating activities was driven primarily by \$50.7 million of Net Earnings and increases in Accounts Payable somewhat offset by increases in Inventories and Receivables. The increase in Inventories was in support of higher sales levels and the launches of many new products. The increase in Receivables was due to higher sales levels, the variety of terms offered and mix of business. Cash provided by operating activities was \$0.5 million lower in 2014 as compared to 2013 primarily due to increases year over year in working capital to support the growth in sales.

In 2013, cash provided by operating activities was driven by \$40.2 million of Net Earnings and an increase in Accounts Payable, somewhat offset by increases in Inventories and Receivables. The increase in Inventories was in support of the launches of many new products. The increase in Receivables was due to a variety of terms offered and mix of business. Cash provided by operating activities was \$12.2 million higher in 2013 as compared to 2012 primarily due to a \$15.0 million discretionary contribution made to the U.S. Pension Plan in 2012 and there were no contributions made in 2013.

For 2014, we used operating profit and operating profit margin as key indicators of financial performance and the primary metrics for performance-based incentives.

Two metrics used by management to evaluate how effectively we utilize our net assets are “Accounts Receivable Days Sales Outstanding” (“DSO”) and “Days Inventory on Hand” (“DIOH”), on a first-in, first-out (“FIFO”) basis. The metrics are calculated on a rolling three month basis in order to more readily reflect changing trends in the business. These metrics for the quarters ended December 31 were as follows (in days):

	2014	2013	2012
DSO	62	61	60
DIOH	84	81	78

DSO increased 1 day in 2014 as compared to 2013 primarily due to the variety of terms offered and mix of business having a larger unfavorable impact than the favorable trend of continued proactive management of our receivables by enforcing tighter credit limits and continuing to successfully collect past due balances.

DIOH increased 3 days in 2014 as compared to 2013 primarily due to increased levels of inventory in support of higher sales levels and the launches of many new products somewhat offset by progress from inventory reduction initiatives.

Investing Activities – Net cash used for investing activities was \$17.9 million in 2014, \$11.4 million in 2013 and \$11.2 million in 2012. Net capital expenditures were \$19.3 million during 2014 as compared to \$14.7 million in 2013 and \$14.6 million in 2012. Our 2014 capital expenditures included investments in tooling related to new product development, and manufacturing and information technology process improvement projects. Proceeds from Sale of Business provided \$1.4 million in 2014 and \$4.3 million in 2013.

Capital expenditures in 2013 included investments in tooling related to new product development, and manufacturing and information technology process improvement projects. Capital expenditures in 2012 included tooling related to new product development, manufacturing equipment and information technology process improvement projects.

Financing Activities – Net cash used for financing activities was \$28.0 million in 2014, \$21.5 million in 2013 and \$34.9 million in 2012. In 2014, payments of dividends used \$14.5 million, payments of Long-Term Debt used \$2.0 million and payments of Short-Term Debt used \$1.5 million. In 2013, payments of dividends used \$13.2 million and payments of Long-Term Debt used \$1.1 million, partially offset by Short-Term Borrowings of \$1.5 million. In 2012, payments of dividends and Long-Term Debt used \$12.8 million and \$3.0 million, respectively. Our annual cash dividend payout increased for the 43rd consecutive year to \$0.78 per share in 2014, an increase of \$0.06 per share over 2013.

Proceeds from the issuance of Common Stock generated \$2.3 million in 2014, \$8.3 million in 2013 and \$4.2 million in 2012.

On April 25, 2012, the Board of Directors authorized the repurchase of 1,000,000 shares of our common stock. At December 31, 2014, there were 405,569 remaining shares authorized for repurchase.

There were 225,034 shares repurchased in 2014 in the open market, 434,118 shares repurchased in 2013 and 621,340 shares repurchased during 2012, at average repurchase prices of \$62.64 during 2014, \$51.04 during 2013 and \$40.78 during 2012. Our Credit Agreement with JPMorgan Chase Bank limits the payment of dividends and repurchases of stock to amounts ranging from \$50.0 million to \$75.0 million per fiscal year based on our leverage ratio after giving effect to such payments for the life of the agreement.

Indebtedness – As of December 31, 2014, we had committed lines of credit totaling approximately \$125.0 million and uncommitted lines of credit totaling approximately \$87.4 million. There were \$10.0 million in outstanding borrowings under our JPMorgan facility (described below) and \$18.0 million in outstanding borrowings under our Prudential facility (described below) as of December 31, 2014. In addition, we had stand alone letters of credit of approximately \$2.4 million outstanding and bank guarantees in the amount of approximately \$0.2 million. Commitment fees on unused lines of credit for the year ended December 31, 2014 were \$0.3 million.

Our most restrictive covenants are part of our 2011 Credit Agreement with JPMorgan (as defined below), which are the same covenants in our Shelf Agreement (as defined below) with Prudential (as defined below), and require us to maintain an indebtedness to EBITDA ratio of not greater than 3.00 to 1 and to maintain an EBITDA to interest expense ratio of no less than 3.50 to 1 as of the end of each quarter. As of December 31, 2014, our indebtedness to EBITDA ratio was 0.34 to 1 and our EBITDA to interest expense ratio was 52.86 to 1.

Credit Facilities

JPMorgan Chase Bank, National Association

On April 25, 2013, we entered into Amendment No. 1 to our 2011 Credit Agreement which amends the Credit Agreement, dated as of May 5, 2011, with JPMorgan Chase Bank, N. A. (“JPMorgan”), as administrative agent and collateral agent, U.S. Bank National Association, as syndication agent, Wells Fargo Bank, National Association, and RBS Citizens, N.A., as co-documentation agents, and the Lenders (including JPMorgan) from time to time party thereto (the “2011 Credit Agreement”). Under the original terms, the 2011 Credit Agreement provides us and certain of our foreign subsidiaries access to a senior unsecured credit facility until May 5, 2016, in the amount of \$125.0 million, with an option to expand by up to \$62.5 million to a total of \$187.5 million. Borrowings may be denominated in U.S. Dollars or certain other currencies. The 2011 Credit Agreement contains a \$100.0 million sublimit on borrowings by foreign subsidiaries.

Amendment No. 1 to the 2011 Credit Agreement principally provides the following changes to the 2011 Credit Agreement:

- extends the maturity date of the 2011 Credit Agreement to March 1, 2018;
- changes the fees for committed funds under the 2011 Credit Agreement to an annual rate ranging from 0.20% to 0.35%, depending on our leverage ratio;
- changes the per annum interest rate on Eurocurrency borrowings to adjusted LIBOR plus an additional spread of 1.30% to 1.90%, depending on our leverage ratio;
- changes the Alternate Base Rate at which borrowings bear interest to a rate per annum equal to the greatest of (a) the prime rate, (b) the federal funds rate plus 0.50% and (c) the adjusted LIBOR rate for a one month period plus 1.0%, plus, in any such case, an additional spread of 0.30% to 0.90%, depending on our leverage ratio; and
- changes related to new or recently revised financial regulations.

The 2011 Credit Agreement gives the Lenders a pledge of 65% of the stock of certain first tier foreign subsidiaries. The obligations under the 2011 Credit Agreement are also guaranteed by certain of our first tier domestic subsidiaries.

The 2011 Credit Agreement contains customary representations, warranties and covenants, including but not limited to covenants restricting our ability to incur indebtedness and liens and merge or consolidate with another entity.

Further, the 2011 Credit Agreement contains the following covenants:

- a covenant requiring us to maintain an indebtedness to EBITDA ratio as of the end of each quarter of not greater than 3.00 to 1;
- a covenant requiring us to maintain an EBITDA to interest expense ratio as of the end of each quarter of no less than 3.50 to 1;
- a covenant restricting us from paying dividends or repurchasing stock if, after giving effect to such payments, our leverage ratio is greater than 2.00 to 1, in such case limiting such payments to an amount ranging from \$50.0 million to \$75.0 million during any fiscal year based on our leverage ratio after giving effect to such payments; and
- a covenant restricting our ability to make acquisitions, if, after giving pro-forma effect to such acquisition, our leverage ratio is greater than 2.75 to 1, in such case limiting acquisitions to \$25.0 million.

As of December 31, 2014, we were in compliance with all covenants under the Credit Agreement. There was \$10.0 million in outstanding borrowings under this facility at December 31, 2014, with a weighted average interest rate of

1.46%.

Prudential Investment Management, Inc.

On July 29, 2009, we entered into a Private Shelf Agreement (the “Shelf Agreement”) with Prudential Investment Management, Inc. (“Prudential”) and Prudential affiliates from time to time party thereto. The Shelf Agreement provides us and our subsidiaries access to an uncommitted, senior secured, maximum aggregate principal amount of \$80.0 million of debt capital. The Shelf Agreement contains representations, warranties and covenants, including but not limited to covenants restricting our ability to incur indebtedness and liens and to merge or consolidate with another entity.

On May 5, 2011, we entered into Amendment No. 1 to our Private Shelf Agreement (the “Amendment”).

The Amendment principally provides the following changes to the Shelf Agreement:

- elimination of the security interest in our personal property and subsidiaries;
- an amendment to the maximum leverage ratio to not greater than 3.00 to 1 for any period ending on or after March 31, 2011;
- an amendment to our restriction regarding the payment of dividends or repurchase of stock to restrict us from paying dividends or repurchasing stock if, after giving effect to such payments, our leverage ratio is greater than 2.00 to 1, in such case limiting such payments to an amount ranging from \$50.0 million to \$75.0 million during any fiscal year based on our leverage ratio after giving effect to such payments; and
- an amendment to Permitted Acquisitions restricting our ability to make acquisitions, if, after giving pro-forma effect to such acquisition, our leverage ratio is greater than 2.75 to 1, in such case limiting acquisitions to \$25.0 million.

On July 24, 2012, we entered into Amendment No. 2 to our Private Shelf Agreement (“Amendment No. 2”), which amends the Shelf Agreement. The principal change effected by Amendment No. 2 is an extension of the Issuance Period for Shelf Notes under the Shelf Agreement. The Issuance Period now expires on July 24, 2015.

As of December 31, 2014, there was \$18.0 million in outstanding borrowings under this facility; the \$8.0 million Series A notes issued in March 2011 with a fixed interest rate of 4.00% and a seven-year term serially maturing from 2014 to 2018; and the \$10.0 million Series B notes issued in June 2011 with a fixed interest rate of 4.10% and a 10-year term serially maturing from 2015 to 2021. The first payment of \$2.0 million on Series A notes was made during the first quarter of 2014. We were in compliance with all covenants of the Shelf Agreement as of December 31, 2014.

The Royal Bank of Scotland Citizens, N.A.

On September 14, 2010, we entered into an overdraft facility with The Royal Bank of Scotland Citizens, N.A. in the amount of 2.0 million Euros or approximately \$2.4 million. There was no balance outstanding on this facility as of December 31, 2014.

HSBC Bank (China) Company Limited, Shanghai Branch

On June 20, 2012, we entered into a banking facility with the HSBC Bank (China) Company Limited, Shanghai Branch in the amount of \$5.0 million. During the first quarter of 2014, we repaid previous borrowings under this facility amounting to \$1.5 million and, as of December 31, 2014, there were no outstanding borrowings on this facility.

Collateralized Borrowings

Collateralized borrowings represent deferred sales proceeds on certain leasing transactions with third-party leasing companies. These transactions are accounted for as borrowings, with the related assets capitalized as property, plant and equipment and depreciated straight-line over the lease term.

Capital Lease Obligations

Capital lease obligations outstanding are primarily related to sale-leaseback transactions with third-party leasing companies whereby we sell our manufactured equipment to the leasing company and lease it back. The equipment covered by these leases is rented to our customers over the lease term.

Contractual Obligations – Our contractual obligations as of December 31, 2014, are summarized by period due in the following table (in thousands):

	Total	Less Than 1 Year	1 - 3 Years	3 - 5 Years	More Than 5 Years
Long-term debt ⁽¹⁾	\$28,000	\$3,429	\$6,857	\$14,857	\$2,857
Interest payments on long-term debt ⁽¹⁾	2,457	787	1,157	396	117
Capital leases	130	130	—	—	—
Interest payments on capital leases	8	8	—	—	—
Retirement benefit plans ⁽²⁾	1,474	1,474	—	—	—
Deferred compensation arrangements ⁽³⁾	7,660	1,014	847	700	5,099
Operating leases ⁽⁴⁾	18,368	7,738	7,605	2,471	554
Purchase obligations ⁽⁵⁾	61,616	61,616	—	—	—
Other ⁽⁶⁾	9,537	9,537	—	—	—
Total contractual obligations	\$129,250	\$85,733	\$16,466	\$18,424	\$8,627

(1) Long-term debt represents borrowings through our Credit Agreement with JPMorgan and our Shelf Agreement with Prudential. Our Credit Agreement with JPMorgan does not have specified repayment terms; therefore, repayment is due upon expiration of the agreement on March 1, 2018. Interest payments on our Credit Agreement were calculated using the December 31, 2014 LIBOR rate based on the assumption that the principal would be repaid in full upon the expiration of the agreement. Our borrowings under our Shelf Agreement with Prudential have 7 and 10 year terms, serially maturing from 2014 to 2021 with fixed interest rates of 4.00% and 4.10%, respectively.

(2)Our retirement benefit plans, as described in Note 11 of the Consolidated Financial Statements, require us to make contributions to the plans from time to time. Our plan obligations totaled \$10.5 million as of December 31, 2014. Contributions to the various plans are dependent upon a number of factors including the market performance of plan assets, if any, and future changes in interest rates, which impact the actuarial measurement of plan obligations. As a result, we have only included our 2015 expected contribution in the contractual obligations table.

(3)The unfunded deferred compensation arrangements covering certain current and retired management employees totaled \$7.7 million as of December 31, 2014. Our estimated distributions in the contractual obligations table are based upon a number of assumptions including termination dates and participant distribution elections.

(4)Operating lease commitments consist primarily of office and warehouse facilities, vehicles and office equipment as discussed in Note 13 of the Consolidated Financial Statements.

(5)Purchase obligations include all known open purchase orders, contractual purchase commitments and contractual obligations as of December 31, 2014.

(6)Other obligations include collateralized borrowings as discussed in Note 8 of the Consolidated Financial Statements and residual value guarantees as discussed in Note 13 of the Consolidated Financial Statements.

Total contractual obligations exclude our gross unrecognized tax benefits of \$3.0 million and accrued interest and penalties of \$0.6 million as of December 31, 2014. We expect to make cash outlays in the future related to uncertain tax positions. However, due to the uncertainty of the timing of future cash flows, we are unable to make reasonably reliable estimates of the period of cash settlement, if any, with the respective taxing authorities. For further information related to unrecognized tax benefits, see Note 14 of the Consolidated Financial Statements.

Newly Issued Accounting Guidance

Revenues from Contracts with Customers

In May 2014, the Financial Accounting Standards Board issued Accounting Standards Update (ASU) No. 2014-09, Revenue from Contracts with Customers (Topic 606). This ASU will replace all existing revenue recognition standards and significantly expand the disclosure requirements for revenue arrangements. This guidance requires an entity to recognize the amount of revenue to which it expects to be entitled for the transfer of promised goods or services to customers. This guidance provides a five-step analysis of transactions to determine when and how revenue is recognized. Other major provisions include capitalization of certain contract costs, consideration of time value of money in the transaction price, and allowing estimates of variable consideration to be recognized before contingencies are resolved in certain circumstances. This guidance also requires enhanced disclosures regarding the nature, amount, timing and uncertainty of revenue and cash flows arising from an entity's contracts with customers. The provisions of ASU 2014-09 are effective for annual periods beginning after December 15, 2016, including interim periods within that reporting period, and early application is not permitted. The new standard may be adopted retrospectively for all periods presented, or adopted using a modified retrospective approach. Under the retrospective approach, the fiscal 2016 and 2015 financial statements would be adjusted to reflect the effects of applying the new standard on those periods. Under the modified retrospective approach, the new standard would only be applied for the period beginning January 1, 2017 to new contracts and those contracts that are not yet complete at January 1, 2017, with a cumulative catch-up adjustment recorded to beginning retained earnings for existing contracts that still require performance. Management is currently evaluating the methods of adoption allowed by the new standard and the effect the standard is expected to have on our financial statements and related disclosures.

No other new accounting pronouncements issued during 2014 but not yet effective have had, or are expected to have, a material impact on our results of operations or financial position.

Critical Accounting Policies and Estimates

Our Consolidated Financial Statements are based on the selection and application of accounting principles generally accepted in the United States of America, which require us to make estimates and assumptions about future events that affect the amounts reported in our Consolidated Financial Statements and the accompanying notes. Our significant accounting policies are described in Note 1 of the Consolidated Financial Statements. Future events and their effects cannot be determined with absolute certainty. Therefore, the determination of estimates requires the exercise of judgment. Actual results could differ from those estimates, and any such differences may be material to the Consolidated Financial Statements. We believe that the following policies may involve a higher degree of judgment and complexity in their application and represent the critical accounting policies used in the preparation of our Consolidated Financial Statements. If different assumptions or conditions were to prevail, the results could be materially different from our reported results.

Allowance for Doubtful Accounts – We record a reserve for accounts receivable that are potentially uncollectible. A considerable amount of judgment is required in assessing the realization of these receivables including the current creditworthiness of each customer and related aging of the past-due balances. In order to assess the collectability of these receivables, we perform ongoing credit evaluations of our customers' financial condition. Through these evaluations, we may become aware of a situation where a customer may not be able to meet its financial obligations due to deterioration of its financial viability, credit ratings or bankruptcy. The reserve requirements are based on the best facts available to us and are reevaluated and adjusted as additional information becomes available. Our reserves are also based on amounts determined by using percentages applied to trade receivables. These percentages are determined by a variety of factors including, but not limited to, current economic trends, historical payment and bad debt write-off experience. We are not able to predict changes in the financial condition of our customers and if circumstances related to these customers deteriorate, our estimates of the recoverability of accounts receivable could be materially affected and we may be required to record additional allowances. Alternatively, if more allowances are provided than are ultimately required, we may reverse a portion of such provisions in future periods based on the actual collection experience. Bad debt write-offs as a percentage of Net Sales were approximately 0.1% in 2014, 0.2% in 2013 and 0.3% in 2012. As of December 31, 2014, we had \$3.9 million reserved against Accounts Receivable for

doubtful accounts.

Inventory Reserves – We value our inventory at the lower of the cost of inventory or fair market value through the establishment of a reserve for excess, slow moving and obsolete inventory. In assessing the ultimate realization of inventories, we are required to make judgments as to future demand requirements compared with inventory levels. Reserve requirements are developed by comparing our inventory levels to our projected demand requirements based on historical demand, market conditions and technological and product life cycle changes. It is possible that an increase in our reserve may be required in the future if there are significant declines in demand for certain products. This reserve creates a new cost basis for these products and is considered permanent. As of December 31, 2014, we had \$3.3 million reserved against Inventories.

Goodwill – Goodwill represents the excess of cost over the fair value of net assets of businesses acquired and is allocated to our reporting units at the time of the acquisition. We analyze Goodwill on an annual basis and when an event occurs or circumstances change that may reduce the fair value of one of our reporting units below its carrying amount. A goodwill impairment loss occurs if the carrying amount of a reporting unit's goodwill exceeds its fair value. We performed an analysis of qualitative factors to determine whether it is more likely than not that the fair value of a reporting unit is less than its carrying amount as a basis for determining whether it is necessary to perform the two-step quantitative goodwill impairment test. The first step of the two-step model is used as an indicator to identify if there is potential goodwill impairment. If the first step indicates there may be an impairment, the second step is performed which measures the amount of the goodwill impairment, if any. We perform our goodwill impairment analysis as of year end and use our judgment to develop assumptions for the discounted cash flow model that we use, if necessary. Management assumptions include forecasting revenues and margins, estimating capital expenditures, depreciation, amortization and discount rates.

If our goodwill impairment testing resulted in one or more of our reporting units' carrying amount exceeding its fair value, we would write down our reporting units' carrying amount to its fair value and would record an impairment charge in our results of operations in the period such determination is made. Subsequent reversal of goodwill impairment charges is not permitted. Each of our reporting units were analyzed for impairment as of December 31, 2014 and based upon our analysis, the estimated fair values of our reporting units substantially exceeded their carrying amounts. We had Goodwill of \$18.4 million as of December 31, 2014.

Warranty Reserves – We record a liability for warranty claims at the time of sale. The amount of the liability is based on the trend in the historical ratio of claims to net sales, the historical length of time between the sale and resulting warranty claim, new product introductions and other factors. Future claims experience could be materially different from prior results because of the introduction of new, more complex products, a change in our warranty policy in response to industry trends, competition or other external forces, or manufacturing changes that could impact product quality. In the event we determine that our current or future product repair and replacement costs exceed our estimates, an adjustment to these reserves would be charged to earnings in the period such determination is made.

Warranty expense as a percentage of Net Sales was 1.3% in 2014, 1.4% in 2013 and 1.7% in 2012. As of December 31, 2014, we had \$9.7 million reserved for future estimated warranty costs.

Income Taxes – We are required to estimate our income taxes in each of the jurisdictions in which we operate. This process involves estimating our actual current tax obligations based on expected income, statutory tax rates and tax planning opportunities in the various jurisdictions. We also establish reserves for uncertain tax matters that are complex in nature and uncertain as to the ultimate outcome. Although we believe that our tax return positions are fully supportable, we consider our ability to ultimately prevail in defending these matters when establishing these reserves. We adjust our reserves in light of changing facts and circumstances, such as the closing of a tax audit. We believe that our current reserves are adequate. However, the ultimate outcome may differ from our estimates and assumptions and could impact the income tax expense reflected in our Consolidated Statements of Earnings.

Tax law requires certain items to be included in our tax return at different times than the items are reflected in our results of operations. Some of these differences are permanent, such as expenses that are not deductible in our tax returns, and some differences will reverse over time, such as depreciation expense on property, plant and equipment. These temporary differences result in deferred tax assets and liabilities, which are included within our Consolidated Balance Sheets. Deferred tax assets generally represent items that can be used as a tax deduction or credit in our tax returns in future years but have already been recorded as an expense in our Consolidated Statements of Operations. We assess the likelihood that our deferred tax assets will be recovered from future taxable income, and, based on management's judgment, to the extent we believe that recovery is not more likely than not, we establish a valuation reserve against those deferred tax assets. The deferred tax asset valuation allowance could be materially different from actual results because of changes in the mix of future taxable income, the relationship between book and taxable income and our tax planning strategies. As of December 31, 2014, a valuation allowance of \$5.7 million was recorded against foreign tax loss carryforwards, foreign tax credit carryforwards and state credit carryforwards.

Cautionary Factors Relevant to Forward-Looking Information

This annual report on Form 10-K, including "Management's Discussion and Analysis of Financial Condition and Results of Operations" in Item 2, contain certain statements that are considered "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements generally can be identified by the use of forward-looking terminology such as "may," "will," "expect," "intend," "estimate," "anticipate," "believe," "project," or "continue" or similar words or the negative thereof. These statements do not relate to strictly historical or current facts and provide current expectations or forecasts of future events. Any such expectations or forecasts of future events are subject to a variety of factors. Particular risks and uncertainties presently facing us include:

• Competition in our business.

• Relative strength of the U.S. dollar, which affects the cost of our materials and products purchased and sold internationally.

• Geopolitical and economic uncertainty throughout the world.

• Ability to attract, retain and develop key personnel and create effective succession planning strategies.

Ability to successfully upgrade, evolve and protect our information technology systems.

Fluctuations in the cost or availability of raw materials and purchased components.

Ability to effectively manage organizational changes.

Ability to comply with laws and regulations.

Occurrence of a significant business interruption.

Ability to develop and commercialize new innovative products and services.

Unforeseen product liability claims or product quality issues.

We caution that forward-looking statements must be considered carefully and that actual results may differ in material ways due to risks and uncertainties both known and unknown. Information about factors that could materially affect our results can be found in Part I, Item 1A - Risk Factors. Shareholders, potential investors and other readers are urged to consider these factors in evaluating forward-looking statements and are cautioned not to place undue reliance on such forward-looking statements.

We undertake no obligation to update or revise any forward-looking statement, whether as a result of new information, future events or otherwise. Investors are advised to consult any further disclosures by us in our filings with the Securities and Exchange Commission and in other written statements on related subjects. It is not possible to anticipate or foresee all risk factors, and investors should not consider any list of such factors to be an exhaustive or complete list of all risks or uncertainties.

ITEM 7A – Quantitative and Qualitative Disclosures About Market Risk

Commodity Risk – We are subject to exposures resulting from potential cost increases related to our purchase of raw materials or other product components. We do not use derivative commodity instruments to manage our exposures to changes in commodity prices such as steel, oil, gas, lead and other commodities.

Various factors beyond our control affect the price of oil and gas, including but not limited to worldwide and domestic supplies of oil and gas, political instability or armed conflict in oil-producing regions, the price and level of foreign imports, the level of consumer demand, the price and availability of alternative fuels, domestic and foreign governmental regulation, weather-related factors and the overall economic environment. We purchase petroleum-related component parts for use in our manufacturing operations. In addition, our freight costs associated with shipping and receiving product and sales and service vehicle fuel costs are impacted by fluctuations in the cost of oil and gas.

Increases in worldwide demand and other factors affect the price for lead, steel and related products. We do not maintain an inventory of raw or fabricated steel or batteries in excess of near-term production requirements. As a result, increases in the price of lead or steel can significantly increase the cost of our lead- and steel-based raw materials and component parts.

During the first part of 2014, our raw materials and other purchased component costs were unfavorably impacted by commodity prices although we were able to somewhat mitigate these higher costs with pricing actions and cost reduction activities. We continue to focus on mitigating the risk of continued future raw material or other product component cost increases through product pricing, negotiations with our vendors and cost reduction actions. The success of these efforts will depend upon our ability to increase our selling prices in a competitive market and our ability to achieve cost savings. If the commodity prices increase significantly and we are not able to offset the increases with higher selling prices, our results may be unfavorably impacted in 2015.

Foreign Currency Exchange Risk – Due to the global nature of our operations, we are subject to exposures resulting from foreign currency exchange fluctuations in the normal course of business. Our primary exchange rate exposures are with the Euro, Australian and Canadian dollars, British pound, Japanese yen, Chinese yuan and Brazilian real against the U.S. dollar. The direct financial impact of foreign currency exchange includes the effect of translating profits from local currencies to U.S. dollars, the impact of currency fluctuations on the transfer of goods between our operations in the United States and abroad and transaction gains and losses. In addition to the direct financial impact, foreign currency exchange has an indirect financial impact on our results, including the effect on sales volume within local economies and the impact of pricing actions taken as a result of foreign exchange rate fluctuations.

It is not possible to determine the exact impact of foreign currency translation changes. However, the direct effect on reported net sales can be estimated. For the year ended December 31, 2014, the impact of foreign currency translation resulted in an overall approximate 1% decrease in reported Net Sales. For details of the effects of currency translation on Net Sales of Tennant Company's operating segments, see Item 7 – Management's Discussion and Analysis of Financial Condition and Results of Operations.

Our objective in managing the exposure to foreign currency fluctuations is to minimize the earnings effects associated with foreign exchange rate changes on certain of our foreign currency-denominated assets and liabilities. We periodically enter into various contracts, principally forward exchange contracts, to protect the value of certain of our foreign currency-denominated assets and liabilities. The gains and losses on these contracts generally approximate changes in the value of the related assets and liabilities. We had forward exchange contracts outstanding in the notional amounts of \$34.6 million and \$30.3 million at the end of 2014 and 2013, respectively. For further information regarding our foreign currency forward exchange contracts, see Note 10 of the Consolidated Financial Statements. The potential for material loss in fair value of foreign currency contracts outstanding and the related underlying exposures as of December 31, 2014, from a 10% adverse change, is unlikely due to the short-term nature of our forward contracts. Our policy prohibits us from entering into transactions for speculative purposes.

Other Matters – Management regularly reviews our business operations with the objective of improving financial performance and maximizing our return on investment. As a result of this ongoing process to improve financial performance, we may incur additional restructuring charges in the future which, if taken, could be material to our financial results.

ITEM 8 – Financial Statements and Supplementary Data
REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM
The Board of Directors and Shareholders
Tennant Company:

We have audited the accompanying consolidated balance sheets of Tennant Company and subsidiaries (the Company) as of December 31, 2014 and 2013, and the related consolidated statements of earnings, comprehensive income, cash flows, and shareholders' equity for each of the years in the three-year period ended December 31, 2014. In connection with our audits of the consolidated financial statements, we also have audited the financial statement schedule as included in Item 15.A.2. We also have audited the Company's internal control over financial reporting as of December 31, 2014, based on criteria established in Internal Control - Integrated Framework (1992) issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). The Company's management is responsible for these consolidated financial statements, for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management's Report on Internal Control over Financial Reporting. Our responsibility is to express an opinion on these consolidated financial statements and financial statement schedule, and an opinion on the Company's internal control over financial reporting based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement and whether effective internal control over financial reporting was maintained in all material respects. Our audits of the consolidated financial statements included examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audits also included performing such other procedures as we considered necessary in the circumstances. We believe that our audits provide a reasonable basis for our opinions.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Tennant Company and subsidiaries as of December 31, 2014 and 2013, and the results of their operations and their cash flows for each of the years in the three-year period ended December 31, 2014, in conformity with U.S. generally accepted accounting principles. Also in our opinion, the accompanying financial statement schedule, when considered in relation to the basic financial statements taken as a whole, presents fairly, in all material respects, the information set forth therein. Furthermore, in our opinion, Tennant Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2014, based on criteria established in Internal Control - Integrated Framework (1992) issued by the Committee of Sponsoring Organizations of the

Treadway Commission.

See accompanying Notes to Consolidated Financial Statements.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(In thousands, except shares and per share data)

1. Summary of Significant Accounting Policies

Nature of Operations – Our primary business is in designing, manufacturing and marketing solutions that empower customers to achieve quality cleaning performance, significantly reduce their environmental impact and help create a cleaner, safer, healthier world. Tennant is committed to creating and commercializing breakthrough, sustainable cleaning innovations to enhance its broad suite of products including: floor maintenance and outdoor cleaning equipment, chemical-free and other sustainable cleaning technologies, specialty surface coatings, aftermarket parts and consumables, equipment maintenance and repair service. Tennant products are used in retail establishments and distribution centers, factories and warehouses, public venues such as arenas and stadiums, office buildings, schools and universities, hospitals and clinics, parking lots and streets, and other environments. Customers include building service contract cleaners to whom organizations outsource facilities maintenance, as well as businesses that perform facilities maintenance themselves. The Company reaches these customers through the industry's largest direct sales and service organization and through a strong and well-supported network of authorized distributors worldwide.

Consolidation – The Consolidated Financial Statements include the accounts of Tennant Company and its subsidiaries. All intercompany transactions and balances have been eliminated. In these Notes to the Consolidated Financial Statements, Tennant Company is referred to as “Tennant,” “we,” “us,” or “our.”

Translation of Non-U.S. Currency – Foreign currency-denominated assets and liabilities have been translated to U.S. dollars at year-end exchange rates, while income and expense items are translated at average exchange rates prevailing during the year. Gains or losses resulting from translation are included as a separate component of Accumulated Other Comprehensive Loss. The balance of cumulative foreign currency translation adjustments recorded within Accumulated Other Comprehensive Loss as of December 31, 2014, 2013 and 2012 was a net loss of \$32,090, \$21,991 and \$19,734, respectively. The majority of translation adjustments are not adjusted for income taxes as substantially all translation adjustments relate to permanent investments in non-U.S. subsidiaries. Net Foreign Currency Transaction Losses are included in Other Income (Expense).

Use of Estimates – In preparing the consolidated financial statements in conformity with U.S. generally accepted accounting principles (“U.S. GAAP”), management must make decisions that impact the reported amounts of assets, liabilities, revenues, expenses and the related disclosures, including disclosures of contingent assets and liabilities. Such decisions include the selection of the appropriate accounting principles to be applied and the assumptions on which to base accounting estimates. Estimates are used in determining, among other items, sales promotions and incentives accruals, inventory valuation, warranty reserves, allowance for doubtful accounts, pension and postretirement accruals, useful lives for intangible assets, and future cash flows associated with impairment testing for goodwill and other long-lived assets. These estimates and assumptions are based on management’s best estimates and judgments. Management evaluates its estimates and assumptions on an ongoing basis using historical experience and other factors that management believes to be reasonable under the circumstances. We adjust such estimates and assumptions when facts and circumstances dictate. A number of these factors include, among others, economic conditions, credit markets, foreign currency, commodity cost volatility and consumer spending and confidence, all of which have combined to increase the uncertainty inherent in such estimates and assumptions. As future events and their effects cannot be determined with precision, actual amounts could differ significantly from those estimated at the time the consolidated financial statements are prepared. Changes in those estimates resulting from continuing changes in the economic environment will be reflected in the financial statements in future periods.

Cash and Cash Equivalents – We consider all highly liquid investments with maturities of three months or less from the date of purchase to be cash equivalents.

Restricted Cash – We have a total of \$352 as of December 31, 2014 that serves as collateral backing certain bank guarantees and is therefore restricted. This money is invested in time deposits.

Receivables – Credit is granted to our customers in the normal course of business. Receivables are recorded at original carrying value less reserves for estimated uncollectible accounts and sales returns. To assess the collectability of these

receivables, we perform ongoing credit evaluations of our customers' financial condition. Through these evaluations, we may become aware of a situation where a customer may not be able to meet its financial obligations due to deterioration of its financial viability, credit ratings or bankruptcy. The reserve requirements are based on the best facts available to us and are reevaluated and adjusted as additional information becomes available. Our reserves are also based on amounts determined by using percentages applied to trade receivables. These percentages are determined by a variety of factors including, but not limited to, current economic trends, historical payment and bad debt write-off experience. An account is considered past-due or delinquent when it has not been paid within the contractual terms. Uncollectible accounts are written off against the reserves when it is deemed that a customer account is uncollectible.

Inventories – Inventories are valued at the lower of cost or market. Cost is determined on a first-in, first-out (“FIFO”) basis except for Inventories in North America, which are determined on a last-in, first-out (“LIFO”) basis.

Property, Plant and Equipment – Property, plant and equipment is carried at cost. Additions and improvements that extend the lives of the assets are capitalized while expenditures for repairs and maintenance are expensed as incurred. We generally depreciate buildings and improvements by the straight-line method over a life of 30 years. Other property, plant and equipment are generally depreciated using the straight-line method based on lives of 3 years to 15 years.

Goodwill – Goodwill represents the excess of cost over the fair value of net assets of businesses acquired. We analyze Goodwill on an annual basis as of year end and when an event occurs or circumstances change that may reduce the fair value of one of our reporting units below its carrying amount. A goodwill impairment occurs if the carrying amount of a reporting unit's goodwill exceeds its fair value. In assessing the recoverability of Goodwill, we use an analysis of qualitative factors to determine whether it is more likely than not that the fair value of a reporting unit is less than its carrying amount as a basis for determining whether it is necessary to perform the two-step goodwill impairment test.

Intangible Assets – Intangible Assets consist of definite lived customer lists, service contracts, an acquired trade name and technology. Intangible Assets with a definite life are amortized on a straight-line basis.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(In thousands, except shares and per share data)

Impairment of Long-lived Assets – We periodically review our intangible and long-lived assets for impairment and assess whether events or circumstances indicate that the carrying amount of the assets may not be recoverable. We generally deem an asset group to be impaired if an estimate of undiscounted future operating cash flows is less than its carrying amount. If impaired, an impairment loss is recognized based on the excess of the carrying amount of the individual asset group over its fair value.

Purchases of Common Stock – We repurchase our Common Stock under a 2012 repurchase program authorized by our Board of Directors. This program allows us to repurchase up to 1,000,000 shares of our Common Stock. Upon repurchase, the par value is charged to Common Stock and the remaining purchase price is charged to Additional Paid-in Capital. If the amount of the remaining purchase price causes the Additional Paid-in Capital account to be in a debit position, this amount is then reclassified to Retained Earnings. Common Stock repurchased is included in shares authorized but is not included in shares outstanding.

Warranty – We record a liability for estimated warranty claims at the time of sale. The amount of the liability is based on the trend in the historical ratio of claims to sales, the historical length of time between the sale and resulting warranty claim, new product introductions and other factors. In the event we determine that our current or future product repair and replacement costs exceed our estimates, an adjustment to these reserves would be charged to earnings in the period such determination is made. Warranty terms on machines range from one to four years. However, the majority of our claims are paid out within the first six to nine months following a sale. The majority of the liability for estimated warranty claims represents amounts to be paid out in the near term for qualified warranty issues, with immaterial amounts reserved to be paid out for older equipment warranty issues.

Environmental – We record a liability for environmental clean-up on an undiscounted basis when a loss is probable and can be reasonably estimated.

Pension and Profit Sharing Plans – We have pension and/or profit sharing plans covering substantially all of our employees. Pension plan costs are accrued based on actuarial estimates with the required pension cost funded annually, as needed. No new participants have entered the pension plan since 2000.

Postretirement Benefits – We accrue and recognize the cost of retiree health benefits over the employees' period of service based on actuarial estimates. Benefits are only available for U.S. employees hired before January 1, 1999.

Derivative Financial Instruments – We use derivative instruments to manage exposures to foreign currency only in an attempt to limit underlying exposures from currency fluctuations and not for trading purposes. We periodically enter into various contracts, principally forward exchange contracts, to protect the value of certain of our foreign currency-denominated assets and liabilities (principally the Euro, Australian and Canadian dollars, British pound, Japanese yen, Chinese yuan, Brazilian real and Mexican peso). We have elected not to apply hedge accounting treatment to these contracts as our contracts are for a short duration. These contracts are marked-to-market with the related asset or liability recorded in Other Current Assets or Other Current Liabilities, as applicable. The gains and losses on these contracts generally approximate changes in the value of the related assets and liabilities. Gains or losses on forward foreign exchange contracts to economically hedge foreign currency-denominated net assets and liabilities are recognized in Other Income (Expense) under Net Foreign Currency Transaction Losses within the Consolidated Statements of Earnings.

Revenue Recognition – We recognize revenue when persuasive evidence of an arrangement exists, title and risk of ownership have passed to the customer, the sales price is fixed or determinable and collectability is reasonably assured. Generally, these criteria are met at the time the product is shipped. Provisions for estimated returns, rebates and discounts are provided for at the time the related revenue is recognized. Freight revenue billed to customers is included in Net Sales and the related shipping expense is included in Cost of Sales. Service revenue is recognized in the period the service is performed or ratably over the period of the related service contract.

Customers may obtain financing through third-party leasing companies to assist in their acquisition of our equipment products. Certain lease transactions classified as operating leases contain retained ownership provisions or guarantees, which results in recognition of revenue over the lease term. As a result, we defer the sale of these transactions and

record the sales proceeds as collateralized borrowings or deferred revenue. The underlying equipment relating to operating leases is depreciated on a straight-line basis, not to exceed the equipment's estimated useful life.

Revenues from contracts with multiple element arrangements are recognized as each element is earned. We offer service contracts in conjunction with equipment sales in addition to selling equipment and service contracts separately. Sales proceeds related to service contracts are deferred if the proceeds are received in advance of the service and recognized ratably over the contract period.

Share-based Compensation – We account for employee share-based compensation using the fair value based method. Our share-based compensation plans are more fully described in Note 15 of the Consolidated Financial Statements.

Research and Development – Research and development costs are expensed as incurred.

Advertising Costs – We advertise products, technologies and solutions to customers and prospective customers through a variety of marketing campaign and promotional efforts. These efforts include tradeshow, online advertising, e-mail marketing, mailings, sponsorships and telemarketing. Advertising costs are expensed as incurred. In 2014, 2013 and 2012 such activities amounted to \$8,583, \$6,412 and \$6,466, respectively.

Income Taxes – Deferred tax assets and liabilities are recognized for the expected future tax consequences of temporary differences between the book and tax bases of existing assets and liabilities. A valuation allowance is provided when, in management's judgment, it is more likely than not that some portion or all of the deferred tax asset will not be realized. We have established contingent tax liabilities using management's best judgment. We follow guidance provided by Accounting Standards Codification ("ASC") 740, Income Taxes, regarding uncertainty in income taxes, to record these contingent tax liabilities (refer to Note 14 of the Consolidated Financial Statements for additional information). We adjust these liabilities as facts and circumstances change. Interest Expense is recognized in the first period the interest would begin accruing. Penalties are recognized in the period we claim or expect to claim the position in our tax return. Interest and penalties expenses are classified as an income tax expense.

Sales Tax – Sales taxes collected from customers and remitted to governmental authorities are presented on a net basis.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(In thousands, except shares and per share data)

Earnings per Share – Basic earnings per share is computed by dividing Net Earnings by the Weighted Average Shares Outstanding during the period. Diluted earnings per share assume conversion of potentially dilutive stock options and restricted share awards. Performance-based shares are included in the calculation of diluted earnings per share in the quarter in which the performance targets have been achieved.

2. New Accounting Pronouncements

Presentation of Unrecognized Tax Benefits

In July 2013, the FASB issued amendments to guidance on the financial statement presentation of an unrecognized tax benefit when a net operating loss carryforward, a similar tax loss or a tax credit carryforward exists. The amendments are effective for fiscal years, and interim periods within those years, beginning after December 15, 2013. Adoption of this guidance did not have a material impact on our results of operations or financial position.

3. Management Actions

Q4 2013 Action – During the fourth quarter of 2013, we implemented a restructuring action to right size the cost structure in our European operations, primarily as a result of the strategic decision to adjust our Direct versus Distribution selling efforts, to enhance our go-to-market approach which was designed to improve profitability and increase customer satisfaction. A pre-tax charge of \$1,577 recognized in the fourth quarter of 2013 consisted primarily of severance and was included within Selling and Administrative Expense in the Condensed Consolidated Statements of Earnings. We believe the anticipated savings will offset the pre-tax charge in approximately 1.5 years from the date of the action. The charge impacts our EMEA operating segment, which has no goodwill balance. We do not expect additional costs will be incurred related to this restructuring action.

A reconciliation of the beginning and ending liability balances is as follows:

	Severance and Related Costs
Q4 2013 restructuring action	\$1,577
December 31, 2013 balance	\$1,577
2014 utilization:	
Cash Payments	(1,151)
Foreign currency adjustments	(65)
Change in estimate	5
December 31, 2014 balance	366

Q1 2013 Action – During the first quarter of 2013, we implemented a restructuring action to right size the cost structure of our European operations, primarily focused on reducing the size of our sales and service organization, in response to the challenging economic conditions. The pre-tax charge of \$1,440 recognized in the first quarter of 2013 consisted primarily of severance and was included within Selling and Administrative Expense in the Condensed Consolidated Statement of Earnings. We estimated the savings would offset the pre-tax charge charge approximately one year from the date of the action. The charge impacted our EMEA operating segment, which has no goodwill balance. We do not expect additional costs will be incurred related to this restructuring action.

A reconciliation of the beginning and ending liability balances is as follows:

	Severance and Related Costs
Q1 2013 restructuring action	\$1,440
Cash payments	(1,110)
Foreign currency adjustments	17
December 31, 2013 balance	\$347
2014 utilization:	
Cash payments	(341)
Foreign currency adjustments	(6)

December 31, 2014 balance

\$—

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(In thousands, except shares and per share data)

4. Acquisitions and Divestitures

Acquisitions

On May 31, 2011, we acquired Water Star, Inc. (“Water Star”), a Newbury, Ohio firm specializing in electrochemistry for \$4,456. The total purchase price of \$4,456 was comprised of \$2,956 paid at closing and two \$750 installment payments were paid in cash on May 31, 2012 and 2013. This acquisition is consistent with our strategy to expand our intellectual property in support of our long-term vision to deliver sustainable, breakthrough innovations.

Divestitures

On July 31, 2012, we entered into a Share Purchase Agreement (“SPA”) with M&F Management and Financing GmbH (“M&F”) for the sale of ownership of our subsidiary, Tennant CEE GmbH, and our minority interest in a joint venture, OOO Tennant. In exchange for the ownership of these entities, we received €815, or \$1,014, in cash, as of the date of sale and financed the remaining €5,351, for a total purchase price of €6,166. A total of €2,126, or \$2,826, was received in equal quarterly payments during 2013 and the first anniversary payment of €1,075, or \$1,435 was received on July 31, 2013. The second anniversary payment of €1,075, or \$1,418, was received on July 31, 2014. The remaining €1,075, or \$1,301 as of December 31, 2014, will be received on the third anniversary date of the divestiture, which is July 31, 2015. As a result of this divestiture, we recorded a pre-tax gain of \$784 in our Profit from Operations in the Consolidated Statements of Earnings for the year ended December 31, 2012.

M&F is now a master distributor of Tennant products in the Central Eastern Europe, Middle East and Africa markets. In addition, as further discussed in Note 19, M&F was a related party to Tennant at the time of the transaction. We have identified M&F as a variable interest entity (“VIE”) and have performed a qualitative assessment that considered M&F’s purpose and design, our involvement and the risks and benefits and determined that Tennant is not the primary beneficiary of this VIE. The only financing Tennant has provided to M&F was related to the SPA as noted above and there are no arrangements that would require us to provide significant financial support in the future.

5. Inventories

Inventories as of December 31, consisted of the following:

	2014	2013
Inventories carried at LIFO:		
Finished goods	\$41,687	\$36,238
Raw materials, production parts and work-in-process	24,458	13,922
LIFO reserve	(28,166)	(27,463)
Total LIFO inventories	37,979	22,697
Inventories carried at FIFO:		
Finished goods	29,851	31,489
Raw materials, production parts and work-in-process	12,681	12,720
Total FIFO inventories	42,532	44,209
Total Inventories	\$80,511	\$66,906

The LIFO reserve approximates the difference between LIFO carrying cost and FIFO.

6. Property, Plant and Equipment

Property, Plant and Equipment and related Accumulated Depreciation, including equipment under capital leases, as of December 31, consisted of the following:

	2014	2013
Land	\$4,265	\$4,311
Buildings and improvements	52,962	53,490
Machinery and manufacturing equipment	117,622	143,413
Office equipment	73,677	91,048
Work in progress	13,688	8,644
Total Property, Plant and Equipment	262,214	300,906

Edgar Filing: Prothena Corp plc - Form 10-Q

Less: Accumulated Depreciation	(175,671)	(217,430)
Net Property, Plant and Equipment	\$86,543	\$83,476

Depreciation expense was \$17,694 in 2014, \$17,686 in 2013 and \$18,072 in 2012.

7. Goodwill and Intangible Assets

For purposes of performing our goodwill impairment analysis, we have identified our reporting units as North America; Latin America; EMEA and Asia Pacific. As of December 31, 2014, 2013 and 2012, we performed an analysis of qualitative factors to determine whether it is more likely than not that the fair value of a reporting unit is less than its carrying amount as a basis for determining whether it is necessary to perform the two-step goodwill impairment test. Based on our analysis of qualitative factors, we determined that it was not necessary to perform the two-step goodwill impairment test for any of our reporting units.

The changes in the carrying amount of Goodwill are as follows:

	Goodwill	Accumulated Impairment Losses	Total
Balance as of December 31, 2012	\$68,585	\$(48,868)	\$19,717
Foreign currency fluctuations	321	(1,109)	(788)
Balance as of December 31, 2013	\$68,906	\$(49,977)	\$18,929
Foreign currency fluctuations	(4,048)	3,474	(574)
Balance as of December 31, 2014	\$64,858	\$(46,503)	\$18,355

The balances of acquired Intangible Assets, excluding Goodwill, as of December 31, are as follows:

	Customer Lists and Service Contracts	Trade Name	Technology	Total
Balance as of December 31, 2014				
Original cost	\$21,946	\$4,300	\$6,915	\$33,161
Accumulated amortization	(12,099)	(2,068)	(3,406)	(17,573)
Carrying amount	\$9,847	\$2,232	\$3,509	\$15,588
Weighted-average original life (in years)	15	14	13	
Balance as of December 31, 2013				
Original cost	\$23,763	\$4,836	\$7,347	\$35,946
Accumulated amortization	(11,609)	(1,976)	(3,333)	(16,918)
Carrying amount	\$12,154	\$2,860	\$4,014	\$19,028
Weighted-average original life (in years)	15	14	13	

Amortization expense on Intangible Assets was \$2,369, \$2,560 and \$2,800 for the years ended December 31, 2014, 2013 and 2012, respectively.

Estimated aggregate amortization expense based on the current carrying amount of amortizable Intangible Assets for each of the five succeeding years is as follows:

2015	\$2,039
2016	1,743
2017	1,644
2018	1,637
2019	1,516
Thereafter	7,009
Total	\$15,588

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(In thousands, except shares and per share data)

8. Debt

Debt as of December 31, consisted of the following:

	2014	2013
Short-Term Debt:		
Credit facility borrowings	\$—	\$1,500
Long-Term Debt:		
Bank borrowings	—	9
Credit facility borrowings	28,000	30,000
Collateralized borrowings	7	11
Capital lease obligations	130	283
Total Debt	28,137	31,803
Less: current portion	(3,566)	(3,803)
Long-term portion	\$24,571	\$28,000

As of December 31, 2014, we had committed lines of credit totaling approximately \$125,000 and uncommitted lines of credit totaling approximately \$87,421. There were \$10,000 in outstanding borrowings under our JPMorgan facility (described below) and \$18,000 outstanding borrowings under our Prudential facility (described below) as of December 31, 2014. In addition, we had stand alone letters of credit of approximately \$2,409 outstanding and bank guarantees in the amount of \$211. Commitment fees on unused lines of credit for the year ended December 31, 2014 were \$324.

Our most restrictive covenants are part of our 2011 Credit Agreement with JPMorgan (as defined below), which are the same covenants in our Shelf Agreement (as defined below) with Prudential (as defined below), and require us to maintain an indebtedness to EBITDA ratio of not greater than 3.00 to 1 and to maintain an EBITDA to interest expense ratio of no less than 3.50 to 1 as of the end of each quarter. As of December 31, 2014, our indebtedness to EBITDA ratio was 0.34 to 1 and our EBITDA to interest expense ratio was 52.86 to 1.

Credit Facilities

JPMorgan Chase Bank, National Association

On April 25, 2013, we entered into Amendment No. 1 to our 2011 Credit Agreement which amends the Credit Agreement, dated as of May 5, 2011, with JPMorgan Chase Bank, N. A. (“JPMorgan”), as administrative agent and collateral agent, U.S. Bank National Association, as syndication agent, Wells Fargo Bank, National Association, and RBS Citizens, N.A., as co-documentation agents, and the Lenders (including JPMorgan) from time to time party thereto (the “2011 Credit Agreement”). Under the original terms, the 2011 Credit Agreement provides us and certain of our foreign subsidiaries access to a senior unsecured credit facility until May 5, 2016, in the amount of \$125,000, with an option to expand by up to \$62,500 to a total of \$187,500. Borrowings may be denominated in U.S. Dollars or certain other currencies. The 2011 Credit Agreement contains a \$100,000 sublimit on borrowings by foreign subsidiaries.

Under the original terms of the 2011 Credit Agreement, the fee for committed funds ranges from an annual rate of 0.25% to 0.40%, depending on our leverage ratio. Eurocurrency borrowings under the 2011 Credit Agreement bear interest at a rate per annum equal to adjusted LIBOR plus an additional spread of 1.50% to 2.10%, depending on our leverage ratio. Alternate Base Rate (“ABR”) borrowings bear interest at a rate per annum equal to the greatest of (a) the prime rate, (b) the federal funds rate plus 0.50% and (c) the adjusted LIBOR rate for a one month period plus 1.0%, plus, in any such case, an additional spread of 0.50% to 1.10%, depending on our leverage ratio.

Effective April 25, 2013, Amendment No. 1 to the 2011 Credit Agreement principally provides the following changes to the 2011 Credit Agreement:

- extends the maturity date of the 2011 Credit Agreement to March 1, 2018;
- changes the fees for committed funds under the 2011 Credit Agreement to an annual rate ranging from 0.20% to 0.35%, depending on our leverage ratio;

changes the per annum interest rate on Eurocurrency borrowings to adjusted LIBOR plus an additional spread of 1.30% to 1.90%, depending on our leverage ratio;

changes the ABR rate at which borrowings bear interest to a rate per annum equal to the greatest of (a) the prime rate, (b) the federal funds rate plus 0.50% and (c) the adjusted LIBOR rate for a one month period plus 1.0%, plus, in any such case, an additional spread of 0.30% to 0.90%, depending on our leverage ratio; and

changes related to new or recently revised financial regulations.

The 2011 Credit Agreement gives the Lenders a pledge of 65% of the stock of certain first tier foreign subsidiaries. The obligations under the 2011 Credit Agreement are also guaranteed by certain of our first tier domestic subsidiaries.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(In thousands, except shares and per share data)

The 2011 Credit Agreement contains customary representations, warranties and covenants, including but not limited to covenants restricting our ability to incur indebtedness and liens and merge or consolidate with another entity.

Further, the 2011 Credit Agreement contains the following covenants:

- a covenant requiring us to maintain an indebtedness to EBITDA ratio as of the end of each quarter of not greater than 3.00 to 1;

- a covenant requiring us to maintain an EBITDA to interest expense ratio as of the end of each quarter of no less than 3.50 to 1;

- a covenant restricting us from paying dividends or repurchasing stock if, after giving effect to such payments, our leverage ratio is greater than 2.00 to 1, in such case limiting such payments to an amount ranging from \$50,000 to \$75,000 during any fiscal year based on our leverage ratio after giving effect to such payments; and

- a covenant restricting our ability to make acquisitions, if, after giving pro-forma effect to such acquisition, our leverage ratio is greater than 2.75 to 1, in such case limiting acquisitions to \$25,000.

As of December 31, 2014, we were in compliance with all covenants under this Credit Agreement. There were \$10,000 in outstanding borrowings under this facility at December 31, 2014, with a weighted average interest rate of 1.46%.

Prudential Investment Management, Inc.

On July 29, 2009, we entered into a Private Shelf Agreement (the “Shelf Agreement”) with Prudential Investment Management, Inc. (“Prudential”) and Prudential affiliates from time to time party thereto. The Shelf Agreement provides us and our subsidiaries access to an uncommitted, senior secured, maximum aggregate principal amount of \$80,000 of debt capital. The Shelf Agreement contains representations, warranties and covenants, including but not limited to covenants restricting our ability to incur indebtedness and liens and to merge or consolidate with another entity. The Shelf Agreement limits the payment of dividends or repurchases of stock to an amount ranging from \$12,000 to \$40,000 based on our leverage ratio after giving effect to such payments.

On May 5, 2011, we entered into Amendment No. 1 to our Private Shelf Agreement (the “Amendment”).

The Amendment principally provides the following changes to the Shelf Agreement:

- elimination of the security interest in our personal property and subsidiaries;

- an amendment to the maximum leverage ratio to not greater than 3.00 to 1 for any period ending on or after March 31, 2011;

- an amendment to our restriction regarding the payment of dividends or repurchase of stock to restrict us from paying dividends or repurchasing stock if, after giving effect to such payments, our leverage ratio is greater than 2.00 to 1, in such case limiting such payments to an amount ranging from \$50,000 to \$75,000 during any fiscal year based on our leverage ratio after giving effect to such payments; and

- an amendment to Permitted Acquisitions restricting our ability to make acquisitions, if, after giving pro-forma effect to such acquisition, our leverage ratio is greater than 2.75 to 1, in such case limiting acquisitions to \$25,000.

On July 24, 2012, we entered into Amendment No. 2 to our Private Shelf Agreement (“Amendment No. 2”), which amends the Shelf Agreement. The principal change effected by Amendment No. 2 is an extension of the Issuance Period for Shelf Notes under the Shelf Agreement. The Issuance Period now expires on July 24, 2015.

As of December 31, 2014, there were \$18,000 in outstanding borrowings under this facility, consisting of the \$8,000 Series A notes issued in March 2011 with a fixed interest rate of 4.00% and a seven-year term serially maturing from 2014 to 2018 and the \$10,000 Series B notes issued in June 2011 with a fixed interest rate of 4.10% and a 10-year term serially maturing from 2015 to 2021. The first payment of \$2,000 on Series A notes was made during the first quarter of 2014. We were in compliance with all covenants under this Shelf Agreement as of December 31, 2014.

The Royal Bank of Scotland Citizens, N.A.

On September 14, 2010, we entered into an overdraft facility with The Royal Bank of Scotland Citizens, N.A. in the amount of €2,000, or approximately \$2,421. There was no balance outstanding on this facility as of December 31, 2014.

HSBC Bank (China) Company Limited, Shanghai Branch

On June 20, 2012, we entered into a banking facility with the HSBC Bank (China) Company Limited, Shanghai Branch in the amount of \$5,000. During the first quarter of 2014, we repaid previous borrowings under this facility amounting to \$1,500 and, as of December 31, 2014, there were no outstanding borrowings on this facility.

Collateralized Borrowings

Collateralized borrowings represent deferred sales proceeds on certain leasing transactions with third-party leasing companies. These transactions are accounted for as borrowings, with the related assets capitalized as property, plant and equipment and depreciated straight-line over the lease term.

Capital Lease Obligations

Capital lease obligations outstanding are primarily related to sale-leaseback transactions with third-party leasing companies whereby we sell our manufactured equipment to the leasing company and lease it back. The equipment covered by these leases is rented to our customers over the lease term.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(In thousands, except shares and per share data)

The aggregate maturities of our outstanding debt, including capital lease obligations as of December 31, 2014, are as follows:

2015	\$4,360
2016	4,077
2017	3,938
2018	13,678
2019	1,575
Thereafter	2,974
Total minimum obligations	\$30,602
Less: amount representing interest	(2,465)
Total	\$28,137

9. Other Current Liabilities

Other Current Liabilities as of December 31, consisted of the following:

	2014	2013
Taxes, other than income taxes	\$7,052	\$6,565
Warranty	9,686	9,663
Deferred revenue	2,368	2,303
Rebates	11,503	7,647
Freight	5,006	4,593
Miscellaneous accrued expenses	6,581	8,492
Other	3,312	4,813
Total	\$45,508	\$44,076

The changes in warranty reserves for the three years ended December 31 were as follows:

	2014	2013	2012
Beginning balance	\$9,663	\$9,357	\$8,759
Product warranty provision	10,605	10,649	12,395
(Divested) acquired reserves	—	—	(236)
Foreign currency	(215)	(48)	(15)
Claims paid	(10,367)	(10,295)	(11,546)
Ending balance	\$9,686	\$9,663	\$9,357

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(In thousands, except shares and per share data)

10. Fair Value Measurements

Estimates of fair value for financial assets and financial liabilities are based on the framework established in the accounting guidance for fair value measurements. The framework defines fair value, provides guidance for measuring fair value and requires certain disclosures. The framework discusses valuation techniques, such as the market approach (comparable market prices), the income approach (present value of future income or cash flow) and the cost approach (cost to replace the service capacity of an asset or replacement cost). The framework utilizes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value into three broad levels. The following is a brief description of those three levels:

Level 1: Observable inputs such as quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Inputs other than quoted prices that are observable for the asset or liability, either directly or indirectly. These include quoted prices for similar assets or liabilities in active markets and quoted prices for identical or similar assets or liabilities in markets that are not active.

Level 3: Unobservable inputs that reflect the reporting entity's own assumptions.

Our population of assets and liabilities subject to fair value measurements at December 31, 2014 is as follows:

	Fair Value	Level 1	Level 2	Level 3
Assets:				
Foreign currency forward exchange contracts	\$130	\$—	\$130	\$—
Total Assets	\$130	\$—	\$130	\$—
Liabilities:				
Foreign currency forward exchange contracts	\$—	\$—	\$—	\$—
Total Liabilities	\$—	\$—	\$—	\$—

Our foreign currency forward exchange contracts are valued based on quoted forward foreign exchange prices at the reporting date.

We use derivative instruments to manage exposures to foreign currency only in an attempt to limit underlying exposures from currency fluctuations and not for trading purposes. Gains or losses on forward foreign exchange contracts to economically hedge foreign currency-denominated assets and liabilities are recognized in Other Current Assets and Other Current Liabilities within the Consolidated Balance Sheets and are recognized in Other Income (Expense) under Net Foreign Currency Transaction Losses within the Consolidated Statements of Earnings. As of December 31, 2014, the fair value of such contracts outstanding was an asset of \$130. There were no outstanding liabilities. As of December 31, 2013, the fair value of such contracts outstanding was an asset of \$16 and a liability of \$109. We recognized a net gain of \$2,384 during 2014, a net gain of \$1,068 during 2013 and a net gain of \$1,026 during 2012. At December 31, 2014 and 2013, the notional amounts of foreign currency forward exchange contracts outstanding were \$34,631 and \$30,280, respectively.

The carrying amounts reported in the Consolidated Balance Sheets for Cash and Cash Equivalents, Restricted Cash, Receivables, Other Current Assets, Short-Term Debt, Accounts Payable and Other Current Liabilities approximate fair value due to their short-term nature.

The fair market value of our Long-Term Debt approximates cost, based on the borrowing rates currently available to us for bank loans with similar terms and remaining maturities.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(In thousands, except shares and per share data)

11. Retirement Benefit Plans

Substantially all U.S. employees are covered by various retirement benefit plans, including defined benefit pension plans, post-retirement medical plans and defined contribution savings plans. Retirement benefits for eligible employees in foreign locations are funded principally through defined benefit plans, annuity or government programs. The total cost of benefits for our plans was \$11,334, \$11,766 and \$11,192 in 2014, 2013 and 2012, respectively.

We have a qualified, funded defined benefit retirement plan (the “U.S. Pension Plan”) covering certain current and retired employees in the U.S. Plan benefits are based on the years of service and compensation during the highest five consecutive years of service in the final ten years of employment. No new participants have entered the plan since 2000. The plan has 394 participants including 81 active employees as of December 31, 2014.

We have a U.S. postretirement medical benefit plan (the “U.S. Retiree Plan”) to provide certain healthcare benefits for U.S. employees hired before January 1, 1999. Eligibility for those benefits is based upon a combination of years of service with Tennant and age upon retirement.

Our defined contribution savings plan (“401(k)”) covers substantially all U.S. employees. Under this plan, we match up to 3% of the employee’s annual compensation in cash to be invested per their election. We also make a profit sharing contribution to the 401(k) plan for employees with more than one year of service in accordance with our Profit Sharing Plan. This contribution is based upon our financial performance and can be funded in the form of Tennant stock, cash or a combination of both. Expenses for the 401(k) plan were \$7,475, \$6,423 and \$6,226 during 2014, 2013 and 2012, respectively.

We have a U.S. nonqualified supplemental benefit plan (the “U.S. Nonqualified Plan”) to provide additional retirement benefits for certain employees whose benefits under our 401(k) plan or U.S. Pension Plan are limited by either the Employee Retirement Income Security Act or the Internal Revenue Code.

We also have defined pension benefit plans in the United Kingdom and Germany (the “U.K. Pension Plan” and the “German Pension Plan”). The U.K. Pension Plan and German Pension Plan cover certain current and retired employees and both plans are closed to new participants.

On March 23, 2010, the Patient Protection and Affordable Care Act (the “PPACA”) was signed into law, and, on March 30, 2010, the Health Care and Education Reconciliation Act of 2010 (the “HCERA” and, together with PPACA, the “Acts”), which makes various amendments to certain aspects of the PPACA, was signed into law. The Acts effectively change the tax treatment of federal subsidies paid to sponsors of retiree health benefit plans that provide prescription drug benefits that are at least actuarially equivalent to the corresponding benefits provided under Medicare Part D. Under the Acts, an employer’s income tax deduction for the costs of providing Medicare Part D-equivalent prescription drug benefits to retirees will be reduced by the amount of the federal subsidy beginning in 2013. Under U.S. GAAP, any impact from a change in tax law must be recognized in earnings in the period enacted regardless of the effective date. The Acts did not have a material impact on our financial position or results of operations.

We expect to contribute approximately \$185 to our U.S. Nonqualified Plan, \$947 to our U.S. Retiree Plan, \$305 to our U.K. Pension Plan and \$37 to our German Pension Plan in 2015. No contributions to the U.S. Pension Plan are expected to be required during 2015. There were no contributions made to the U.S. Pension Plan during 2014. During 2012, we made a \$15,000 discretionary contribution to the U.S. Pension Plan in addition to the minimum funding requirements for 2011 and 2012.

Weighted-average asset allocations by asset category of the U.S. and U.K. Pension Plans as of December 31, 2014 are as follows:

Asset Category	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
----------------	------------	--	---	---

Edgar Filing: Prothena Corp plc - Form 10-Q

Cash and Cash Equivalents	\$ 505	\$ 505	\$—	\$—
Mutual Funds:

(1) This category is comprised of investments in insurance contracts.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(In thousands, except shares and per share data)

Weighted-average asset allocations by asset category of the U.S. and U.K. Pension Plans as of December 31, 2013 are as follows:

Asset Category	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Cash and Cash Equivalents	\$746	\$746	\$—	\$—
Mutual Funds:				
U.S. Large-Cap	20,597	20,597	—	—
U.S. Small-Cap	6,971	6,971	—	—
International Equities	6,328	6,328	—	—
Fixed-Income Domestic	17,755	17,755	—	—
Investment Account held by Pension Plan ⁽¹⁾	9,733	—	—	9,733
Total	\$62,130	\$52,397	\$—	\$9,733

(1) This category is comprised of investments in insurance contracts.

Estimates of the fair value of U.S. and U.K. Pension Plan assets are based on the framework established in the accounting guidance for fair value measurements. A brief description of the three levels can be found in Note 10. Equity Securities and Mutual Funds traded in active markets are classified as Level 1. The Investment Account held by Pension Plan invests in insurance contracts for purposes of funding the U.K. Pension Plan and is classified as Level 3. The fair value of the Investment Account is the cash surrender values as determined by the provider which are the amounts the plan would receive if the contracts were cashed out at year end. The underlying assets held by these contracts are primarily invested in assets traded in active markets.

A reconciliation of the beginning and ending balances of the Level 3 investments of our U.K. Pension Plan during the years ended are as follows:

	2014	2013
Fair value at beginning of year	\$9,733	\$8,855
Purchases, sales, issuances and settlements, net	(96)) 74
Net gain	974	601
Foreign currency	(622)) 203
Fair value at end of year	\$9,989	\$9,733

The primary objective of our U.S. and U.K. Pension Plans is to meet retirement income commitments to plan participants at a reasonable cost to us and to maintain a sound actuarially funded status. This objective is accomplished through growth of capital and safety of funds invested. The pension plans' assets are invested in securities to achieve growth of capital over inflation through appreciation and accumulation and reinvestment of dividend and interest income. Investments are diversified to control risk. The target allocation for the U.S. Pension Plan is 60% debt securities and 40% equity. Equity securities within the U.S. Pension Plan do not include any direct investments in Tennant Company Common Stock. The U.K. Pension Plan is invested in insurance contracts with underlying investments primarily in equity and fixed income securities. Our German Pension Plan is unfunded, which is customary in that country.

Weighted-average assumptions used to determine benefit obligations as of December 31 are as follows:

	U.S. Pension Benefits		Non-U.S. Pension Benefits		Postretirement Medical Benefits		
	2014	2013	2014	2013	2014	2013	
Discount rate	3.76	% 4.63	% 3.38	% 4.33	% 3.39	% 4.10	%

Edgar Filing: Prothena Corp plc - Form 10-Q

Rate of compensation increase 3.00 % 3.00 % 3.50 % 4.50 % — —

34

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(In thousands, except shares and per share data)

Weighted-average assumptions used to determine net periodic benefit costs as of December 31 are as follows:

	U.S. Pension Benefits			Non-U.S. Pension Benefits			Postretirement Medical Benefits		
	2014	2013	2012	2014	2013	2012	2014	2013	2012
Discount rate	4.63 %	3.79 %	4.39 %	4.33 %	4.41 %	4.94 %	4.10 %	3.27 %	4.20 %
Expected long-term rate of return on plan assets	5.70 %	6.50 %	7.70 %	5.60 %	4.70 %	4.80 %	—	—	—
Rate of compensation increase	3.00 %	3.00 %	3.00 %	4.50 %	4.50 %	4.60 %	—	—	—

The discount rate is used to discount future benefit obligations back to today's dollars. Our discount rates were determined based on high-quality fixed income investments. The resulting discount rates are consistent with the duration of plan liabilities. The Citigroup Above Median Spot Rate is used in determining the discount rate for the U.S. Plans. The expected return on assets assumption on the investment portfolios for the pension plans is based on the long-term expected returns for the investment mix of assets currently in the portfolio. Management uses historic return trends of the asset portfolio combined with recent market conditions to estimate the future rate of return.

The accumulated benefit obligations as of December 31, for all defined benefit plans are as follows:

	2014	2013
U.S. Pension Plans	\$45,695	\$42,241
U.K. Pension Plan	10,658	9,803
German Pension Plan	1,027	897

Information for our plans with an accumulated benefit obligation in excess of plan assets as of December 31 is as follows:

	2014	2013
Accumulated benefit obligation	\$13,872	\$12,778
Fair value of plan assets	9,989	9,733

As of December 31, 2014 and 2013, the U.S. Nonqualified, the U.K. Pension and the German Pension Plans had an accumulated benefit obligation in excess of plan assets.

Information for our plans with a projected benefit obligation in excess of plan assets as of December 31 is as follows:

	2014	2013
Projected benefit obligation	\$14,207	\$13,481
Fair value of plan assets	9,989	9,733

As of December 31, 2014 and 2013, the U.S. Nonqualified, the U.K. Pension and the German Pension Plans had a projected benefit obligation in excess of plan assets.

Assumed healthcare cost trend rates as of December 31 are as follows:

	2014	2013	
Healthcare cost trend rate assumption for the next year	7.50	% 8.30	%
Rate to which the cost trend rate is assumed to decline (the ultimate trend rate)	5.00	% 5.00	%
Year that the rate reaches the ultimate trend rate	2031	2031	

Assumed healthcare cost trend rates have a significant effect on the amounts reported for healthcare plans. To illustrate, a one-percentage-point change in assumed healthcare cost trends would have the following effects:

	1-Percentage-Point Decrease	1-Percentage-Point Increase
Effect on total of service and interest cost components	\$(46) \$52
Effect on postretirement benefit obligation	\$(981) \$1,113

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(In thousands, except shares and per share data)

The changes in Accumulated Other Comprehensive Loss for the three years ended December 31 were as follows:

	U.S. Pension Benefits			Non-U.S. Pension Benefits			Postretirement Medical Benefits		
	2014	2013	2012	2014	2013	2012	2014	2013	2012
Net actuarial loss (gain)	4,353	(9,817)	2,355	987	467	244	591	(1,001)	926
Amortization of prior service (cost) credit	(43)	(73)	(382)	—	—	—	6	103	580
Amortization of net actuarial loss	(503)	(1,751)	(1,132)	(9)	(9)	—	—	(201)	(57)
Total recognized in other comprehensive loss (income)	\$3,807	\$(11,641)	\$841	\$978	\$458	\$244	\$597	\$(1,099)	\$1,449
Total recognized in net periodic benefit (cost) and other comprehensive loss (income)	\$4,127	\$(10,235)	\$2,689	\$1,018	\$650	\$448	\$1,216	\$(404)	\$1,619

The following benefit payments, which reflect expected future service, are expected to be paid for our U.S. and Non-U.S. plans:

	U.S. Pension Benefits	Non-U.S. Pension Benefits	Postretirement Medical Benefits
2015	\$2,239	\$229	\$947
2016	2,419	235	1,012
2017	2,577	241	1,063
2018	2,724	247	1,064
2019	2,822	254	1,089
2020 to 2024	15,135	1,384	5,294
Total	\$27,916	\$2,590	\$10,469

The following amounts are included in Accumulated Other Comprehensive Loss as of December 31, 2014 and are expected to be recognized as components of net periodic benefit cost during 2015:

	Pension Benefits	Postretirement Medical Benefits
Net actuarial loss	\$1,561	\$140
Prior service cost	42	—

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(In thousands, except shares and per share data)

12. Shareholders' Equity

Authorized Shares

We are authorized to issue an aggregate of 61,000,000 shares; 60,000,000 are designated as Common Stock, having a par value of \$0.375 per share, and 1,000,000 are designated as Preferred Stock, having a par value of \$0.02 per share. The Board of Directors is authorized to establish one or more series of preferred stock, setting forth the designation of each such series, and fixing the relative rights and preferences of each such series.

Purchase Rights

On November 10, 2006, the Board of Directors approved a Rights Agreement and declared a dividend of one preferred share purchase right for each outstanding share of Common Stock. Each right entitles the registered holder to purchase from us one one-hundredth of a Series A Junior Participating Preferred Share of the par value of \$0.02 per share at a price of \$100 per one hundredth of a Preferred Share, subject to adjustment. The rights are not exercisable or transferable apart from the Common Stock until the earlier of: (i) the close of business on the fifteenth day following a public announcement that a person or group of affiliated or associated persons has become an "Acquiring Person" (i.e., has become, subject to certain exceptions, including for stock ownership by employee benefit plans, the beneficial owner of 20% or more of the outstanding Common Stock), or (ii) the close of business on the fifteenth day following the first public announcement of a tender offer or exchange offer the consummation of which would result in a person or group of affiliated or associated persons becoming, subject to certain exceptions, the beneficial owner of 20% or more of the outstanding Common Stock (or such later date as may be determined by our Board of Directors prior to a person or group of affiliated or associated persons becoming an Acquiring Person). After a person or group becomes an Acquiring Person, each holder of a Right (other than an Acquiring Person) will be able to exercise the right at the current exercise price of the Right and receive the number of shares of Common Stock having a market value of two times the exercise price of the right, or, depending upon the circumstances in which the rights became exercisable, the number of common shares of the Acquiring Person having a market value of two times the exercise price of the right. At no time do the rights have any voting power. We may redeem the rights for \$0.001 per right at any time prior to a person or group acquiring 20% or more of the Common Stock. Under certain circumstances, the Board of Directors may exchange the rights for our Common Stock or reduce the 20% thresholds to not less than 10%. The rights will expire on December 26, 2016, unless extended or earlier redeemed or exchanged by us.

Accumulated Other Comprehensive Loss

Components of Accumulated Other Comprehensive Loss, net of tax, within the Consolidated Balance Sheets and Statements of Shareholders' Equity as of December 31 are as follows:

	2014	2013	2012
Foreign currency translation adjustments	\$ (32,090)) \$ (21,991)) \$ (19,734)
Pension and retiree medical benefits	(6,503)) (2,980)) (10,599)
Total Accumulated Other Comprehensive Loss	\$ (38,593)) \$ (24,971)) \$ (30,333)

The changes in components of Accumulated Other Comprehensive Loss, net of tax, are as follows:

	Foreign Currency Translation Adjustments	Pension and Post Retirement Benefits	Total
December 31, 2013	\$ (21,991)) \$ (2,980)) \$ (24,971)
Other comprehensive loss before reclassifications	(10,099)) (3,868)) (13,967)
Amounts reclassified from Accumulated Other Comprehensive Loss	—	345	345
Net current period other comprehensive loss	(10,099)) (3,523)) (13,622)
December 31, 2014	\$ (32,090)) \$ (6,503)) \$ (38,593)

Accumulated Other Comprehensive Loss associated with pension and postretirement benefits are included in Note 11.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(In thousands, except shares and per share data)

13. Commitments and Contingencies

We lease office and warehouse facilities, vehicles and office equipment under operating lease agreements, which include both monthly and longer-term arrangements. Leases with initial terms of one year or more expire at various dates through 2020 and generally provide for extension options. Rent expense under the leasing agreements (exclusive of real estate taxes, insurance and other expenses payable under the leases) amounted to \$18,446, \$17,873 and \$17,524 in 2014, 2013 and 2012, respectively.

The minimum rentals for aggregate lease commitments as of December 31, 2014, were as follows:

2015	\$7,738
2016	4,675
2017	2,930
2018	1,605
2019	866
Thereafter	554
Total	\$18,368

Certain operating leases for vehicles contain residual value guarantee provisions, which would become due at the expiration of the operating lease agreement if the fair value of the leased vehicles is less than the guaranteed residual value. The aggregate residual value at lease expiration of those leases is \$11,764, of which we have guaranteed \$9,530. As of December 31, 2014, we have recorded a liability for the estimated end-of-term loss related to this residual value guarantee of \$220 for certain vehicles within our fleet. Our fleet also contains vehicles we estimate will settle at a gain. Gains on these vehicles will be recognized at the end of the lease term.

During the fourth quarter of 2014, we entered into an agreement with a supplier, commencing April 1, 2015, with a total commitment of \$2,487 extending through December 31, 2015.

During the second quarter of 2014, we entered into a three year software licensing agreement with a total commitment of \$1,198.

During the second quarter of 2012, we entered into a three year agreement with a supplier, commencing January 1, 2013, with a total commitment of \$2,102 of which \$801 remains outstanding as of December 31, 2014.

In the ordinary course of business, we may become liable with respect to pending and threatened litigation, tax, environmental and other matters. While the ultimate results of current claims, investigations and lawsuits involving us are unknown at this time, we do not expect that these matters will have a material adverse effect on our consolidated financial position or results of operations. Legal costs associated with such matters are expensed as incurred.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(In thousands, except shares and per share data)

14. Income Taxes

Income from continuing operations for the three years ended December 31 was as follows:

	2014	2013	2012
U.S. operations	\$52,315	\$54,702	\$47,220
Foreign operations	17,223	5,176	12,670
Total	\$69,538	\$59,878	\$59,890

Income tax expense (benefit) for the three years ended December 31 was as follows:

	2014	2013	2012
Current:			
Federal	\$11,903	\$13,551	\$8,158
Foreign	3,373	3,567	4,633
State	1,543	1,136	1,089
	\$16,819	\$18,254	\$13,880
Deferred:			
Federal	\$2,650	\$1,856	\$4,423
Foreign	(524)	(424)	(126)
State	(58)	(39)	129
	\$2,068	\$1,393	\$4,426
Total:			
Federal	\$14,553	\$15,407	\$12,581
Foreign	2,849	3,143	4,507
State	1,485	1,097	1,218
Total Income Tax Expense	\$18,887	\$19,647	\$18,306

U.S. income taxes have not been provided on approximately \$28,434 of undistributed earnings of non-U.S. subsidiaries. We do not have any plans to repatriate the undistributed earnings. Any repatriation from foreign subsidiaries that would result in incremental U.S. taxation is not being considered. It is management's belief that reinvesting these earnings outside the U.S. is the most efficient use of capital.

We have Dutch and German tax loss carryforwards of approximately \$13,012 and \$13,492, respectively. If unutilized, the Dutch tax loss carryforward will expire after 9 years. The German tax loss carryforward has no expiration date. Because of the uncertainty regarding realization of the Dutch tax loss carryforward, a valuation allowance was established. This valuation allowance decreased in 2014 due to results of operations.

We have Dutch foreign tax credit carryforwards of \$1,043. Because of the uncertainty regarding utilization of the Dutch foreign tax credit carryforward, a valuation allowance was established.

A valuation allowance for the remaining deferred tax assets is not required since it is more likely than not that they will be realized through carryback to taxable income in prior years, future reversals of existing taxable temporary differences and future taxable income.

Our effective income tax rate varied from the U.S. federal statutory tax rate for the three years ended December 31 as follows:

	2014	2013	2012
Tax at statutory rate	35.0	% 35.0	% 35.0
Increases (decreases) in the tax rate from:			
State and local taxes, net of federal benefit	1.7	1.7	1.0
Effect of foreign operations	(4.6)	(3.3)	(6.2)
Effect of changes in valuation allowances	(0.9)	3.7	2.3
Domestic production activities deduction	(1.6)	(1.6)	(1.5)
Other, net	(2.4)	(2.7)	—

Effective income tax rate	27.2	%	32.8	%	30.6	%
---------------------------	------	---	------	---	------	---

40

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(In thousands, except shares and per share data)

Deferred tax assets and liabilities were comprised of the following as of December 31:

	2014	2013
Deferred Tax Assets:		
Employee wages and benefits, principally due to accruals for financial reporting purposes	16,696	14,831
Warranty reserves accrued for financial reporting purposes	2,895	2,803
Receivables, principally due to allowance for doubtful accounts and tax accounting method for equipment rentals	1,549	1,593
Tax loss carryforwards	6,845	8,696
Tax credit carryforwards	1,043	4,078
Other	1,246	2,523
Gross Deferred Tax Assets	\$30,274	\$34,524
Less: valuation allowance	(5,699)	(7,243)
Total Net Deferred Tax Assets	\$24,575	\$27,281
Deferred Tax Liabilities:		
Inventories, principally due to changes in inventory reserves	\$305	\$306
Property, Plant and Equipment, principally due to differences in depreciation and related gains	6,745	7,446
Goodwill and Intangible Assets	5,611	6,253
Total Deferred Tax Liabilities	\$12,661	\$14,005
Net Deferred Tax Assets	\$11,914	\$13,276

The valuation allowance at December 31, 2014 principally applies to Dutch tax loss and tax credit carryforwards that, in the opinion of management, are more likely than not to expire unutilized. However, to the extent that tax benefits related to these carryforwards are realized in the future, the reduction in the valuation allowance will reduce income tax expense.

A reconciliation of the beginning and ending amount of unrecognized tax benefits is as follows:

	2014	2013
Balance at January 1,	\$3,660	\$3,480
Increases as a result of tax positions taken during a prior period	—	155
Increases as a result of tax positions taken during the current year	610	508
Decreases relating to settlement with tax authorities	(6)	—
Reductions as a result of a lapse of the applicable statute of limitations	(1,033)	(295)
Decreases as a result of foreign currency fluctuations	(202)	(188)
Balance at December 31,	\$3,029	\$3,660

Included in the balance of unrecognized tax benefits at December 31, 2014 and 2013 are potential benefits of \$2,684 and \$3,384, respectively, that if recognized, would affect the effective tax rate from continuing operations.

We recognize potential accrued interest and penalties related to unrecognized tax benefits as a component of income tax expense. In addition to the liability of \$3,029 and \$3,660 for unrecognized tax benefits as of December 31, 2014 and 2013, there was approximately \$557 and \$525, respectively, for accrued interest and penalties. To the extent interest and penalties are not assessed with respect to uncertain tax positions, the amounts accrued will be revised and reflected as an adjustment to income tax expense.

We and our subsidiaries are subject to U.S. federal income tax as well as income tax of numerous state and foreign jurisdictions. We are generally no longer subject to U.S. federal tax examinations for taxable years before 2011 and, with limited exceptions, state and foreign income tax examinations for taxable years before 2007.

We are currently undergoing income tax examinations in various state and foreign jurisdictions covering 2007 to 2011. Although the final outcome of these examinations cannot be currently determined, we believe that we have adequate reserves with respect to these examinations.

We do not anticipate that total unrecognized tax benefits will change significantly within the next 12 months.

41

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(In thousands, except shares and per share data)

15. Share-Based Compensation

We have four plans under which we have awarded share-based compensation grants: The 1999 Amended and Restated Stock Incentive Plan (“1999 Plan”), which provided for share-based compensation grants to our executives and key employees, the 1997 Non-Employee Directors Option Plan (“1997 Plan”), which provided for stock option grants to our non-employee Directors, the 2007 Stock Incentive Plan (“2007 Plan”) and the Amended and Restated 2010 Stock Incentive Plan, as Amended (“2010 Plan”), which were adopted as a continuing step toward aggregating our equity compensation programs to reduce the complexity of our equity compensation programs.

The 1997 Plan was terminated in 2006 and all remaining shares were transferred to the 1999 Plan as approved by the shareholders in 2006. Awards granted under the 1997 Plan prior to 2006 that remain outstanding continue to be governed by the respective plan under which the grant was made. Upon approval of the 1999 Plan in 2006, we ceased making grants of future awards under these plans and subsequent grants of future awards were made from the 1999 Plan and governed by its terms.

The 2007 Plan terminated our rights to grant awards under the 1999 Plan. Awards previously granted under the 1999 Plan remain outstanding and continue to be governed by the terms of that plan.

The 2010 Plan, originally approved by our shareholders on April 28, 2010 and amended and restated by our shareholders on April 25, 2012, terminated our rights to grant awards under the 2007 Plan; however, any awards granted under the 2007 or 2010 Plans that do not result in the issuance of shares of Common Stock may again be used for an award under the 2010 Plan. The 2010 Plan was amended and restated by our shareholders on April 24, 2013, increasing the number of shares available under the amended 2010 Plan from 1,500,000 shares to 2,600,000 shares.

As of December 31, 2014, there were 252,597 shares reserved for issuance under the 1997 Plan, the 1999 Plan and the 2007 Plan for outstanding compensation awards and 1,446,182 shares were available for issuance under the 2010 Plan for current and future equity awards. The Compensation Committee of the Board of Directors determines the number of shares awarded and the grant date, subject to the terms of our equity award policy.

We recognized total Share-Based Compensation Expense of \$7,314, \$6,116 and \$9,092, respectively, during the years ended 2014, 2013 and 2012. The total excess tax benefit recognized for share-based compensation arrangements during the years ended 2014, 2013 and 2012 was \$1,793, \$5,178 and \$2,047, respectively.

Stock Option Awards

We determined the fair value of our stock option awards using the Black-Scholes valuation model that uses the assumptions noted in the table below. The expected life selected for stock options granted during the year represents the period of time that the stock options are expected to be outstanding based on historical data of stock option holder exercise and termination behavior of similar grants. The risk-free interest rate for periods within the contractual life of the stock option is based on the U.S. Treasury rate over the expected life at the time of grant. Expected volatilities are based upon historical volatility of our stock over a period equal to the expected life of each stock option grant.

Dividend yield is estimated over the expected life based on our dividend policy and historical dividends paid. We use historical data to estimate pre-vesting forfeiture rates and revise those estimates in subsequent periods if actual forfeitures differ from those estimates.

The following table illustrates the valuation assumptions used for the 2014, 2013 and 2012 grants:

	2014	2013	2012
Expected volatility	47 - 50%	51%	51 - 52%
Weighted-average expected volatility	50%	51%	52%
Expected dividend yield	1.1 - 1.3%	1.6%	1.6 - 1.7%
Weighted-average expected dividend yield	1.3%	1.6%	1.7%
Expected term, in years	6	6	0.2 - 6
Risk-free interest rate	1.8 - 2.0%	0.9 - 1.1%	0.1 - 1.1%

Employee stock option awards prior to 2005 included a reload feature for options granted to key employees. This feature allowed employees to exercise options through a stock-for-stock exercise using mature shares, and employees

were granted a new stock option (reload option) equal to the number of shares of Common Stock used to satisfy both the exercise price of the option and the minimum tax withholding requirements. The reload options granted had an exercise price equal to the fair market value of the Common Stock on the grant date. Stock options granted in conjunction with reloads vested immediately and had a term equal to the remaining life of the initial grant. Compensation expense was fully recognized for reload stock options as of the reload date. The final reload options outstanding were exercised in January 2014.

Beginning in 2004, new stock option awards granted vest one-third each year over a three year period and have a 10 year contractual term. These grants do not contain a reload feature. Compensation expense equal to the grant date fair value is recognized for these awards over the vesting period. Stock options granted to employees are subject to accelerated expensing if the option holder meets the retirements definition set forth in the 2010 Plan.

In addition to stock options, we also occasionally grant cash-settled stock appreciation rights ("SARs") to employees in certain foreign locations. There were no outstanding SARs as of December 31, 2014 and no SARs were granted during 2014, 2013 or 2012.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(In thousands, except shares and per share data)

The following table summarizes the activity during the year ended December 31, 2014 for stock option awards:

	Shares	Weighted-Average Exercise Price
Outstanding at beginning of year	877,322	\$ 30.42
Granted	118,359	61.83
Exercised	(74,852)) 30.31
Forfeited	(12,799)) 52.55
Outstanding at end of year	908,030	\$ 34.21
Exercisable at end of year	677,790	\$ 27.74

The weighted-average grant date fair value of stock options granted during the years ended December 31, 2014, 2013 and 2012 was \$26.93, \$19.62 and \$16.60, respectively. The total intrinsic value of stock options exercised during the years ended December 31, 2014, 2013 and 2012 was \$2,972, \$15,641 and \$5,826, respectively. The aggregate intrinsic value of options outstanding and exercisable at December 31, 2014 was \$34,486 and \$30,116, respectively. The weighted-average remaining contractual life for options outstanding and exercisable as of December 31, 2014, was 6 years and 5 years, respectively. As of December 31, 2014, there was unrecognized compensation cost for nonvested options of \$3,221 which is expected to be recognized over a weighted-average period of 1.4 years.

Restricted Share Awards

Restricted share awards for employees generally have a three year vesting period from the effective date of the grant. Restricted share awards to non-employee directors vest upon a change of control or upon termination of service as a director occurring at least six months after grant date of the award so long as termination is for one of the following reasons: death; disability; retirement in accordance with Tennant policy (e.g., age, term limits, etc.); resignation at request of Board (other than for gross misconduct); resignation following at least six months' advance notice; failure to be renominated (unless due to unwillingness to serve) or reelected by shareholders; or removal by shareholders. The following table summarizes the activity during the year ended December 31, 2014, for nonvested restricted share awards:

	Shares	Weighted-Average Grant Date Fair Value
Nonvested at beginning of year	150,943	\$ 37.89
Granted	21,417	62.48
Vested	(20,303)) 40.38
Forfeited	(7,582)) 50.87
Nonvested at end of year	144,475	\$ 40.51

The total fair value of shares vested during the year ended December 31, 2014, 2013 and 2012 was \$827, \$643 and \$861, respectively. As of December 31, 2014, there was \$1,671 of total unrecognized compensation cost related to nonvested shares which is expected to be recognized over a weighted-average period of 2.0 years.

Performance Share Awards

We grant performance share awards to key employees as a part of our long-term management compensation program. These awards are earned based upon achievement of certain financial performance targets over a three year period. We determine the fair value of these awards as of the date of grant and recognize the expense over a three year performance period. Performance shares are granted in restricted stock units. They are payable in stock and vest solely upon achievement of certain financial performance targets during this three year period.

The 2014 performance share award covers the three year performance period from the beginning of fiscal year 2014 to the end of fiscal year 2016. The 2013 performance share award covers the three year performance period from the beginning of fiscal year 2013 to the end of fiscal year 2015. The 2012 performance share award covered the three year performance period from the beginning of fiscal year 2012 to the end of fiscal year 2014.

The 2011 performance share award covered the three year performance period from the beginning of fiscal year 2011 to the end of fiscal year 2013. Performance shares were granted in restricted stock units. They were paid in stock and vested solely upon achievement of certain financial performance targets during this three year period.

The 2010 performance share award covered the three year performance period from the beginning of fiscal year 2010 to the end of fiscal year 2012. Performance shares were granted in restricted stock units. They were paid in cash and vested solely upon achievement of certain financial performance targets during this three year period.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(In thousands, except shares and per share data)

Share-Based Liabilities

As of December 31, 2014 and 2013, we had \$139 and \$292 in total share-based liabilities recorded on our Consolidated Balance Sheets, respectively. During the years ended December 31, 2014, 2013 and 2012, we paid out \$275, \$3,134 and \$2,212 related to 2011, 2010 and 2009 share-based liability awards, respectively.

16. Earnings Per Share

The computations of Basic and Diluted Earnings per Share for the years ended December 31 were as follows:

	2014	2013	2012
Numerator:			
Net Earnings	\$50,651	\$40,231	\$41,584
Denominator:			
Basic - Weighted Average Shares Outstanding	18,217,384	18,297,371	18,544,896
Effect of dilutive securities:			
Employee stock options	523,474	536,082	557,120
Diluted - Weighted Average Shares Outstanding	18,740,858	18,833,453	19,102,016
Basic Earnings per Share	\$2.78	\$2.20	\$2.24
Diluted Earnings per Share	\$2.70	\$2.14	\$2.18

Options to purchase 91,199, 132,803 and 233,655 shares of Common Stock were outstanding during 2014, 2013 and 2012, respectively, but were not included in the computation of diluted earnings per share. These exclusions are made if the exercise prices of these options are greater than the average market price of our Common Stock for the period, if the number of shares we can repurchase under the treasury stock method exceeds the weighted shares outstanding in the options, or if we have a net loss, as the effects are anti-dilutive.

17. Segment Reporting

We are organized into four operating segments: North America; Latin America; Europe, Middle East, Africa; and Asia Pacific. We combine our North America and Latin America operating segments into the "Americas" for reporting Net Sales by geographic area. In accordance with the objective and basic principles of the applicable accounting guidance, we aggregate our operating segments into one reportable segment that consists of the design, manufacture and sale of products used primarily in the maintenance of nonresidential surfaces.

The following table presents Net Sales by operating segment for the years ended December 31:

	2014	2013	2012
Net Sales:			
Americas	\$569,004	\$514,544	\$491,661
Europe, Middle East, Africa	165,686	157,208	166,208
Asia Pacific	87,293	80,259	81,111
Total	\$821,983	\$752,011	\$738,980

The following table presents long lived assets by operating segment as of December 31:

	2014	2013	2012
Long-lived assets:			
Americas	\$103,958	\$106,409	\$100,662
Europe, Middle East, Africa	24,051	28,296	31,164
Asia Pacific	3,669	3,882	4,499
Total	\$131,678	\$138,587	\$136,325

Accounting policies of the operations in the various operating segments are the same as those described in Note 1 of the Consolidated Financial Statements. Net Sales are attributed to each operating segment based on the country from which the product is shipped and are net of intercompany sales. Information regarding sales to customers geographically located in the United States is provided in Item 1, Business - Segment and Geographic Area Financial Information. No single customer represents more than 10% of our consolidated Net Sales. Long-lived assets consist of

Property, Plant and Equipment, Goodwill, Intangible Assets and certain other assets.

44

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(In thousands, except shares and per share data)

The following table presents revenues for groups of similar products and services for the years ended December 31:

	2014	2013	2012
Net Sales:			
Equipment	\$500,141	\$444,773	\$435,900
Parts and consumables	182,845	176,442	175,782
Service and other	114,027	109,533	106,048
Specialty surface coatings	24,970	21,263	21,250
Total	\$821,983	\$752,011	\$738,980

18. Consolidated Quarterly Data (Unaudited)

	2014			
	Q1	Q2	Q3	Q4
Net Sales	\$183,979	\$219,084	\$202,643	\$216,277
Gross Profit	76,917	95,263	87,163	93,084
Net Earnings	5,795	15,523	11,792	17,541
Basic Earnings per Share	\$0.32	\$0.85	\$0.65	\$0.96
Diluted Earnings per Share	\$0.31	\$0.83	\$0.63	\$0.93
	2013			
	Q1	Q2	Q3	Q4
Net Sales	\$168,092	\$200,238	\$188,541	\$195,140
Gross Profit	72,523	87,741	81,862	83,782
Net Earnings	5,059	14,254	10,617	10,301
Basic Earnings per Share	\$0.28	\$0.78	\$0.58	\$0.56
Diluted Earnings per Share	\$0.27	\$0.76	\$0.56	\$0.55

The summation of quarterly data may not equate to the calculation for the full fiscal year as quarterly calculations are performed on a discrete basis.

Regular quarterly dividends aggregated to \$0.78 per share in 2014, or \$0.18 per share for the first quarter of 2014 and \$0.20 per share for the last three quarters of 2014, and \$0.72 per share in 2013, or \$0.18 per share per quarter.

19. Related Party Transactions

On July 31, 2012, we entered into a share purchase agreement with M&F, as further discussed in Note 4. Two of the M&F shareholders are individuals who were employed by Tennant prior to the transaction date and are no longer employed by Tennant as of the transaction date.

During the first quarter of 2008, we acquired Sociedade Alfa Ltda. and entered into lease agreements for certain properties owned by or partially owned by the former owners of this entity. Some of these individuals are current employees of Tennant. Lease payments made under these lease agreements are not material to our financial position or results of operations.

ITEM 9 – Changes in and Disagreements with Accountants on Accounting and Financial Disclosure
None.

ITEM 9A – Controls and Procedures

Disclosure Controls and Procedures

Our management, with the participation of our Chief Executive Officer and our Principal Financial and Accounting Officer, have evaluated the effectiveness of our disclosure controls and procedures for the period ended December 31, 2014 (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934 (the “Exchange Act”). Based on that evaluation, our Chief Executive Officer and our Principal Financial and Accounting Officer have concluded that our disclosure controls and procedures are effective to ensure that information required to be disclosed by us in reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms, and that such information is accumulated and communicated to our management, including our principal executive and our principal financial officers, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Control

There were no significant changes in our internal control over financial reporting during the most recently completed fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Management’s Report on Internal Control over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in Exchange Act Rule 13a-15(f). Under the supervision and with the participation of our management, including our Principal Executive Officer and Principal Accounting and Financial Officer, we conducted an assessment of the effectiveness of our internal control over financial reporting based on the framework in Internal Control – Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on our assessment under the framework in Internal Control – Integrated Framework (COSO) (1992), our management concluded that our internal control over financial reporting was effective as of December 31, 2014. KPMG LLP, an independent registered public accounting firm, has audited the consolidated financial statements included in this annual report on Form 10-K and, as a part of this audit, has issued their report, included in Item 8, on the effectiveness of our internal control over financial reporting.

Attestation Report of Independent Registered Public Accounting Firm

The attestation report required under this item is contained in Item 8 of this annual report on Form 10-K.

ITEM 9B – Other Information

None.

PART III

ITEM 10 – Directors, Executive Officers and Corporate Governance

The sections entitled “Board of Directors Information” and “Section 16(a) Beneficial Ownership Reporting Compliance” in our 2015 Proxy Statement are incorporated herein by reference.

The list below identifies those persons designated as executive officers of the Company, including their age, position with the Company and positions held by them during the past five or more years.

David W. Huml, Senior Vice President, Global Marketing

David W. Huml (46) joined the Company in October 2014 as Senior Vice President, Global Marketing. From 2006 to 2014, he held various positions with Pentair plc, a global manufacturer of water and fluid solutions, valves and

controls, equipment protection and thermal management products, most recently as Vice President, Applied Water Platform. From 1992 to 2006, he held various positions with Graco Inc., a designer, manufacturer and marketer of systems and equipment to move, measure, control, dispense and spray fluid and coating materials, including Worldwide Director of Marketing, Contract Equipment Division.

H. Chris Killingstad, President and Chief Executive Officer

H. Chris Killingstad (59) joined the Company in April 2002 as Vice President, North America and was named President and CEO in 2005. From 1990 to 2002, he was employed by The Pillsbury Company, a consumer foods manufacturer. From 1999 to 2002 he served as Senior Vice President and General Manager of Frozen Products for Pillsbury North America; from 1996 to 1999 he served as Regional Vice President and Managing Director of Pillsbury Europe, and from 1990 to 1996 was Regional Vice President of Haagen-Dazs Asia Pacific. He held the position of International Business Development Manager at PepsiCo Inc., from 1982-1990 and Financial Manager for General Electric, from 1978-1980.

Carol E. McKnight, Senior Vice President, Global Human Resources

Carol E. McKnight (47) joined the Company in June 2014 as Senior Vice President, Global Human Resources. From 2002 to 2014, she held various positions with Alliant Techsystems, Inc. (ATK), an aerospace, defense and sporting goods company, most recently as Vice President, Human Resources. From 2000 to 2002, she was a Compensation Consultant/Manager at NRG Energy, Inc., a wholesale power generation company. From 1994 to 2000, she provided consulting and project management services for SilverStone Group, Inc. (formerly Mathis & Associates, LLC), a compensation and benefits consulting firm.

Thomas Paulson, Senior Vice President and Chief Financial Officer

Thomas Paulson (58) joined the Company in March 2006 as Vice President and Chief Financial Officer and was named Senior Vice President and Chief Financial Officer in October 2013. Prior to joining Tennant, he was Chief Financial Officer and Senior Vice President of Innovex from 2001 to 2006. Prior to joining Innovex, a manufacturer of electronic interconnect solutions, he worked for The Pillsbury Company for over 19 years. He became a Vice President at Pillsbury in 1995 and was the Vice President of Finance for the \$4 billion North American Foods Division for over two years before joining Innovex.

Michael W. Schaefer, Senior Vice President, Chief Technical Officer

Michael W. Schaefer (54) joined the Company in January 2008 as Vice President, Chief Technical Officer and was named Senior Vice President, Chief Technical Officer in October 2013. From 2000 to January 2008, he was Vice President of Dispensing Systems, Lean Six Sigma and Quality at Ecolab, Inc., a provider of cleaning, sanitizing, food safety and infection prevention products and services, where he led R&D efforts for their equipment business, continuous improvement and standardization of R&D processes. Prior to that, he held various management positions at Alticor Corporation and Kraft General Foods.

Don B. Westman, Senior Vice President, Global Operations

Don B. Westman (61) joined the Company in November 2006 as Vice President, Global Operations and was named Senior Vice President, Global Operations in October 2013. Prior to joining Tennant, he was Vice President of Operations – Pump Division for Pentair, Inc. (predecessor to Pentair plc), a global manufacturer of water and fluid solutions, valves and controls, equipment protection and thermal management products, from 2005 to November 2006. From 2003 to 2005, he was Vice President of Operations – Pentair Water. From 1997 to 2003, he was Vice President of Operations for Hoffmans Enclosures, where he began in 1982 as a manufacturing engineering manager.

Heidi M. Wilson, Senior Vice President, General Counsel and Secretary

Heidi M. Wilson (64) joined the Company in 2003 as Assistant General Counsel and Assistant Secretary. She was named Vice President, General Counsel and Secretary in 2005 and Senior Vice President, General Counsel and Secretary in October 2013. She was a partner with General Counsel Ltd. during 2003. From 1995 to 2001, she was Vice President, General Counsel and Secretary at Musicland Group, Inc. From 1993 to 1995, she was Senior Legal Counsel at Medtronic, Inc. Prior to that, she was a partner at Faegre & Benson L.L.P. (predecessor to Faegre Baker Daniels L.L.P.), a Minneapolis law firm, which she joined in 1976.

Richard H. Zay, Senior Vice President, The Americas

Richard H. Zay (44) joined the Company in June 2010 as Vice President, Global Marketing. He was named Senior Vice President, Global Marketing in October 2013 and Senior Vice President, The Americas in July 2014. From 2006 to June 2010, he held various positions with Whirlpool Corporation, a manufacturer of major home appliances, most recently as General Manager, KitchenAid Brand. From 1993 to 2006, he held various positions with Maytag Corporation, including Vice President, Jenn-Air Brand, Director of Marketing, Maytag Brand, and Director of Cooking Category Management.

Business Ethics Guide

We have adopted the Tennant Company Business Ethics Guide, as amended by the Board of Directors in December 2011, which applies to all of our employees, directors, consultants, agents and anyone else acting on our behalf. The Business Ethics Guide includes particular provisions applicable to our senior financial management, which includes our Chief Executive Officer, Chief Financial Officer, Controller and other employees performing similar functions. A copy of our Business Ethics Guide is available on the Investor Relations website at investors.tennantco.com, and a copy will be mailed upon request to Investor Relations, Tennant Company, P.O. Box 1452, Minneapolis, MN 55440-1452. We intend to post on our website any amendment to, or waiver from, a provision of our Business Ethics Guide that applies to our Principal Executive Officer, Principal Financial Officer, Principal Accounting Officer, Controller and other persons performing similar functions promptly following the date of such amendment or waiver. In addition, we have also posted copies of our Corporate Governance Principles and the Charters for our Audit, Compensation, Governance and Executive Committees on our website.

ITEM 11 – Executive Compensation

The sections entitled “Director Compensation” and “Executive Compensation Information” in our 2015 Proxy Statement are incorporated herein by reference.

ITEM 12 – Security Ownership of Certain Beneficial Owners and Management and Related Shareholder Matters

The sections entitled “Equity Compensation Plan Information” and “Security Ownership of Certain Beneficial Owners and Management” in our 2015 Proxy Statement are incorporated herein by reference.

ITEM 13 – Certain Relationships and Related Transactions, and Director Independence

The sections entitled “Director Independence” and “Related Person Transaction Approval Policy” in our 2015 Proxy Statement are incorporated herein by reference.

ITEM 14 – Principal Accountant Fees and Services

The section entitled “Fees Paid to Independent Registered Public Accounting Firm” in our 2015 Proxy Statement is incorporated herein by reference.

PART IV

ITEM 15 – Exhibits and Financial Statement Schedules

A. The following documents are filed as a part of this report:

1. Financial Statements

Consolidated Financial Statements filed as part of this report are contained in Item 8 of this annual report on Form 10-K.

2. Financial Statement Schedule

Schedule II - Valuation and Qualifying Accounts

(In thousands)	2014	2013	2012
Allowance for Doubtful Accounts and Returns:			
Balance at beginning of year	\$4,526	\$4,399	\$4,829
Charged to costs and expenses	999	1,279	1,427
Charged to other accounts ⁽¹⁾	(319) 102	35
Deductions ⁽²⁾	(1,270) (1,254) (1,892
Balance at end of year	\$3,936	\$4,526	\$4,399
Inventory Reserves:			
Balance at beginning of year	\$3,250	\$3,724	\$4,173
Charged to costs and expenses	622	1,044	2,178
Charged to other accounts ⁽¹⁾	(194) (88) (2
Deductions ⁽³⁾	(406) (1,430) (2,625
Balance at end of year	\$3,272	\$3,250	\$3,724
