Item 2.02. Results of Operations and Financial Condition

Dynavax Technologies Corporation (the "Company", "Dynavax" or "we") estimates that its cash, cash equivalents and marketable securities were approximately \$93.4 million as of June 30, 2015. The Company's cash, cash equivalents and marketable securities balance as of June 30, 2015 does not include net proceeds of \$28.8 million in additional cash resulting from stock sales under the Company's at-the-market sales agreement ("ATM agreement") following the end of the quarter. The ATM agreement has concluded because the Company has reached \$50 million of gross proceeds as specified in the ATM agreement. As of July 8, 2015, the Company had approximately 31,400,000 shares of common stock outstanding and approximately 17,000 shares of preferred stock outstanding, which are convertible into approximately 1,700,000 shares of common stock. These amounts are preliminary, unaudited, subject to change upon completion of our quarterly review, and may differ from what will be reflected in our consolidated financial statements as of and for the quarter ended June 30, 2015. Additional information and disclosures would be required for a more complete understanding of our financial position and results of operations as of June 30, 2015.
