Notes to Condensed Consolidated Financial Statements (unaudited)

Note 1 – Basis of Condensed Consolidated Financial Statements

Basis of Presentation

The condensed consolidated financial information included in this report has been prepared in accordance with U.S. generally accepted accounting principles ("GAAP") for interim financial information and Article 10 of Securities and Exchange Commission ("SEC") Regulation S-X. The principles for condensed interim financial information do not require the inclusion of all the information and footnotes required by GAAP for complete financial statements. Therefore, these financial statements should be read in conjunction with the Company's Annual Report on Form 10-K for the year ended December 31, 2014. The condensed consolidated financial statements included herein are unaudited; however, in the opinion of management, they contain all normal recurring adjustments necessary for a fair statement of the consolidated results for the interim periods. All material intercompany transactions and balances have been eliminated upon consolidation.

Recently Adopted Accounting Pronouncements

In April 2014, the Financial Accounting Standards Board ("FASB") issued updated guidance which changes the criteria for determining which disposals are required to be presented as discontinued operations and modifies related disclosure requirements. The updated guidance is effective for interim and annual reporting periods beginning after December 15, 2014, with early adoption permitted. The adoption of this guidance had no impact on the Company's condensed consolidated financial statements.

Pending Accounting Pronouncements

In May 2015, the FASB issued updated disclosure guidance related to short-duration contracts issued by insurance entities. The updated guidance is intended to increase the transparency of significant estimates made in measuring liabilities for unpaid claims and claim adjustment expenses and to provide additional insight into an insurance entity's ability to underwrite and anticipate costs associated with claims. The updated guidance is effective for annual reporting periods beginning after December 15, 2015 and for interim periods within annual periods beginning after December 15, 2016, with early adoption permitted. Except for the disclosure requirements, the Company does not expect the adoption of this guidance to impact its condensed consolidated financial statements.

In May 2015, the FASB issued updated guidance intended to eliminate the diversity in practice surrounding how investments measured at net asset value under the practical expedient with future redemption dates have been categorized in the fair value hierarchy. Under the updated guidance, investments for which fair value is measured at net asset value per share using the practical expedient should no longer be categorized in the fair value hierarchy. The updated guidance requires retrospective adoption for all periods presented and is effective for interim and annual

reporting periods beginning after December 15, 2015, with early adoption permitted. Except for the disclosure requirements, the Company does not expect the adoption of this guidance to impact its condensed consolidated financial statements.

In April 2015, the FASB issued updated guidance intended to clarify the accounting treatment for cloud computing arrangements that include software licenses. Under the updated guidance, if a cloud computing arrangement includes a software license, the customer should account for the software license element of the arrangement consistent with the acquisition of other software licenses. If a cloud computing arrangement does not include a software license, the customer should account for the arrangement as a service contract. The updated guidance is effective for interim and annual reporting periods beginning after December 15, 2015, with early adoption permitted. The Company does not expect the adoption of this guidance to have a material impact on its condensed consolidated financial statements.

In April 2015, the FASB issued updated guidance intended to simplify, and provide consistency to, the presentation of debt issuance costs. The new standard requires that debt issuance costs be presented in the balance sheet as a direct deduction from the carrying amount of the debt liability, consistent with debt discounts. The updated guidance is effective for interim and annual reporting periods beginning after December 15, 2015, with early adoption permitted. The Company does not expect the adoption of this guidance to have a material impact on its condensed consolidated financial statements.

FIRST AMERICAN FINANCIAL CORPORATION AND SUBSIDIARY COMPANIES Notes to Condensed Consolidated Financial Statements – (Continued) (unaudited)

In February 2015, the FASB issued updated guidance which changes the analysis that a reporting entity must perform to determine whether it should consolidate certain types of legal entities. The updated guidance is effective for interim and annual reporting periods beginning after December 15, 2015, with early adoption permitted. The Company expects the adoption of this guidance to have no impact on its condensed consolidated financial statements.

In June 2014, the FASB issued updated guidance intended to eliminate the diversity in practice regarding share-based payment awards that include terms which provide for a performance target that affects vesting being achieved after the requisite service period. The new standard requires that a performance target which affects vesting and could be achieved after the requisite service period be treated as a performance condition that affects vesting and should not be reflected in estimating the grant-date fair value. The updated guidance is effective for interim and annual reporting periods beginning after December 15, 2015, with early adoption permitted. The Company expects the adoption of this guidance to have no impact on its condensed consolidated financial statements.

In May 2014, the FASB issued updated guidance for recognizing revenue from contracts with customers to provide a single, comprehensive revenue recognition model for all contracts with customers to improve comparability within and across industries, and across capital markets. The new revenue standard contains principles that an entity will apply to determine the measurement of revenue and the timing of recognition. The underlying principle is that an entity will recognize revenue to depict the transfer of goods or services to customers at an amount that the entity expects to be entitled to in exchange for those goods or services. Revenue from insurance contracts is not within the scope of this guidance. The updated guidance is effective for interim and annual reporting periods beginning after December 15, 2017, with early adoption prohibited. The Company is currently assessing the impact of the new guidance on its condensed consolidated financial statements.

Note 2 – Escrow Deposits, Like-kind Exchange Deposits and Trust Assets

The Company administers escrow deposits and trust assets as a service to its customers. Escrow deposits totaled \$7.9 billion and \$6.3 billion at June 30, 2015 and December 31, 2014, respectively, of which \$2.8 billion and \$2.2 billion, respectively, were held at the Company's federal savings bank subsidiary, First American Trust, FSB. The escrow deposits held at First American Trust, FSB are temporarily invested in cash and cash equivalents and debt and equity securities, with offsetting liabilities included in deposits in the accompanying condensed consolidated balance sheets. The remaining escrow deposits were held at third-party financial institutions.

Trust assets held or managed by First American Trust, FSB totaled \$3.1 billion and \$3.0 billion at June 30, 2015 and December 31, 2014, respectively. Escrow deposits held at third-party financial institutions and trust assets are not considered assets of the Company and, therefore, are not included in the accompanying condensed consolidated balance sheets. However, the Company could be held contingently liable for the disposition of these assets.

In conducting its operations, the Company often holds customers' assets in escrow, pending completion of real estate transactions and, as a result, the Company has ongoing programs for realizing economic benefits, including investment programs and vendor services arrangements with various financial institutions. The effects of these programs are included in the condensed consolidated financial statements as income or a reduction in expense, as appropriate, based on the nature of the arrangement and benefit received.

The Company facilitates tax-deferred property exchanges for customers pursuant to Section 1031 of the Internal Revenue Code and tax-deferred reverse exchanges pursuant to Revenue Procedure 2000-37. As a facilitator and intermediary, the Company holds the proceeds from sales transactions and takes temporary title to property identified by the customer to be acquired with such proceeds. Upon the completion of each such exchange, the identified property is transferred to the customer or, if the exchange does not take place, an amount equal to the sales proceeds or, in the case of a reverse exchange, title to the property held by the Company is transferred to the customer. Like-kind exchange funds held by the Company totaled \$2.5 billion and \$2.4 billion at June 30, 2015 and December 31, 2014, respectively. The like-kind exchange deposits are held at third-party financial institutions and, due to the structure utilized to facilitate these transactions, the proceeds and property are not considered assets of the Company and, therefore, are not included in the accompanying condensed consolidated balance sheets. All such amounts are placed in deposit accounts insured, up to applicable limits, by the Federal

Notes to Condensed Consolidated Financial Statements – (Continued) (unaudited)

Deposit Insurance Corporation. The Company could be held contingently liable to the customer for the transfers of property, disbursements of proceeds and the returns on such proceeds.

Note 3 – Debt and Equity Securities

Investments in debt securities, all of which are classified as available-for-sale, are as follows:

	Amortized	Gross uni	realized	Estimated

Mortgage-backed securities, which include contractual terms to maturity, are not categorized by contractual maturity because borrowers may have the right to call or prepay such obligations with or without call or prepayment penalties.

Note 4 – Goodwill

A summary of the changes in the carrying amount of goodwill, by operating segment, for the six months ended June 30, 2015, is as follows:

	Title		
	Insurance	Specialty	
(in thousands)	and Services	Insurance	Total
Balance as of			
December 31,			
2014	\$ 913,180	\$46,765	\$959,945
Acquisitions	14,183	_	14,183
Foreign			
currency			
translation	(3,618) —	(3,618)
Balance as of			
June 30, 2015	\$ 923,745	\$46,765	\$970,510

The Company's four reporting units for purposes of assessing impairment are title insurance, home warranty, property and casualty insurance and trust and other services. During the six months ended June 30, 2015 there were no triggering events that would require an impairment analysis. There is no accumulated impairment for goodwill as the Company has never recognized impairment to any of its reporting units.

Notes to Condensed Consolidated Financial Statements – (Continued) (unaudited)

Note 5 – Other Intangible Assets

Other intangible assets consist of the following:

	June 30,	
		December 31,
(in thousands)	2015	2014
Finite-lived		
intangible		
assets:		
Customer		
relationships	\$95,788	\$ 94,850
Noncompete		
agreements	27,631	27,286
Trademarks	9,398	11,241
Patents	2,840	2,840
	135,657	136,217
Accumulated		
amortization	(98,996)	(97,282)
	36,661	38,935
Indefinite-lived		
intangible		
assets:		
Licenses	16,877	16,877
	\$53,538	\$ 55,812

Amortization expense for finite-lived intangible assets was \$2.4 million and \$4.8 million for the three and six months ended June 30, 2015, respectively, and \$2.2 million and \$5.2 million for the three and six months ended June 30, 2014, respectively.

Estimated amortization expense for finite-lived intangible assets for the next five years is as follows:

Year	(in thousands)					
Remainder						
of 2015	\$	4,582				
2016	\$	8,511				
2017	\$	7,250				

2018	\$ 4,797	
2019	\$ 4,004	
2020	\$ 2,162	

Note 6 – Reserve for Known and Incurred But Not Reported Claims

A summary of the Company's loss reserves is as follows:

(in thousands, except percentages)	June 30, 201	15		December 31.	, 2014	
Known title claims	\$93,230	9.7	%	\$165,330	16.3	%
Incurred but not reported claims	812,140	84.9	%	802,069	79.3	%
Total title claims	905,370	94.6	%	967,399	95.6	%
Non-title claims	51,416	5.4	%	44,381	4.4	%
Total loss reserves	\$956,786	100.0	%	\$1,011,780	100.0)%

The Company's reserve for known title claims was \$93.2 million at June 30, 2015, a decline of \$72.1 million, or 43.6%, from the balance at December 31, 2014. This decline is primarily attributable to settlement payments associated with certain large claims during the first quarter of 2015. The reserve for known title claims associated with these claims recorded at December 31, 2014 was \$56.0 million. The Company paid \$35.0 million, net of \$21.0 million recovered through reinsurance, during the first quarter of 2015 to settle these claims.

FIRST AMERICAN FINANCIAL CORPORATION AND SUBSIDIARY COMPANIES Notes to Condensed Consolidated Financial Statements – (Continued) (unaudited)

The provision for title insurance losses, expressed as a percentage of title insurance premiums and escrow fees, was 6.5% for the three and six months ended June 30, 2015 and 8.9% and 7.5% for the three and six months ended June 30, 2014, respectively.

The current quarter rate of 6.5% reflects the ultimate loss rate of 6.0% for the current policy year and a \$5.1 million net increase in the loss reserve estimates for prior policy years.

The second quarter of 2014 rate of 8.9% reflected the ultimate loss rate of 6.0% for the 2014 policy year and a \$25.1 million net increase in the loss reserve estimates for prior policy years. The increase in loss reserve estimates for prior policy years was primarily related to a large commercial claim from policy year 2007, net of anticipated recoveries.

Note 7 – Income Taxes

The Company's effective income tax rate (income tax expense as a percentage of income before income taxes) was 33.9% and 34.5% for the three and six months ended June 30, 2015, respectively, and 33.7% and 35.1% for the three and six months ended June 30, 2014, respectively. The differences in the effective tax rates were primarily due to changes in the ratio of permanent differences to income before income taxes, changes in state and foreign income taxes resulting from fluctuations in the Company's noninsurance and foreign subsidiaries' contribution to pretax profits and changes in the liability related to tax positions on the Company's tax returns recorded in 2014.

In connection with the Company's June 2010 spin-off from its prior parent, which subsequently assumed the name CoreLogic, Inc. ("CoreLogic"), it entered into a tax sharing agreement which governs the Company's and CoreLogic's respective rights, responsibilities and obligations for certain tax related matters. At June 30, 2015 and December 31, 2014, the Company had a net payable to CoreLogic of \$35.6 million and \$35.1 million, respectively, related to tax matters prior to the spin-off. This amount is included in the Company's condensed consolidated balance sheets in accounts payable and accrued liabilities. The increase during the current year was primarily the result of an additional accrual for tax matters prior to the spin-off.

The Company evaluates the realizability of its deferred tax assets by assessing the valuation allowance and adjusts the allowance, if necessary. The factors used to assess the likelihood of realization are the Company's forecast of future taxable income and available tax planning strategies that could be implemented to realize the net deferred tax assets. The ability or failure to achieve the forecasted taxable income in the applicable taxing jurisdictions could affect the ultimate realization of deferred tax assets. Based on future operating results in certain jurisdictions, it is possible that the current valuation allowance positions of those jurisdictions could be adjusted in the next 12 months.

As of June 30, 2015 and December 31, 2014, the liability for income taxes associated with uncertain tax positions was \$24.2 million and \$24.1 million, respectively. The net increase in the liability during 2015 was primarily attributable to activity related to examinations conducted by various taxing authorities. As of June 30, 2015 and December 31, 2014, the liability could be reduced by \$3.4 million of offsetting tax benefits associated with the correlative effects of potential adjustments including timing adjustments and state income taxes. The net amounts of \$20.8 million and

\$20.7 million as of June 30, 2015 and December 31, 2014, respectively, if recognized, would favorably affect the Company's effective tax rate.

The Company's continuing practice is to recognize interest and penalties, if any, related to uncertain tax positions in income tax expense. As of June 30, 2015 and December 31, 2014, the Company had accrued \$9.3 million and \$8.9 million, respectively, of interest and penalties (net of tax benefits of \$3.9 million and \$3.7 million, respectively) related to uncertain tax positions.

It is reasonably possible that the amount of the unrecognized benefit with respect to certain of the Company's unrecognized tax positions may significantly decrease within the next 12 months. These changes may be the result of ongoing audits or the expiration of federal and state statutes of limitations for the assessment of taxes.

The Company or one of its subsidiaries files income tax returns in the U.S. federal jurisdiction, various state jurisdictions, and various non-U.S. jurisdictions. The primary non-federal jurisdictions are California, Canada, India and the United

Notes to Condensed Consolidated Financial Statements – (Continued) (unaudited)

Kingdom. The Company is no longer subject to U.S. federal, state and non-U.S. income tax examinations by taxing authorities for years prior to 2005.

Note 8 – Earnings Per Share

The computation of basic and diluted earnings per share is as follows:

			Six Months Ended June 30,	
(in thousands, except per share amounts)	•	2014	2015	2014
Numerator				
Net income attributable to the Company	\$93,347	\$50,594	\$130,979	\$72,318
Less: dividends and undistributed				
earnings allocated to unvested				
restricted stock units ("RSUs")	88	123	150	176

and RSUs	1,337	1,769	1,484	1,901
Diluted weighted-average shares	109,796	108,647	109,586	108,423
Net income per share attributable to the				
Company's stockholders				
Basic	\$0.86	\$0.47	\$1.21	\$0.68
Diluted	\$0.85	\$0.47	\$1.19	\$0.67

RSUs excluded from weighted-average diluted common shares outstanding due to their antidilutive effect totaled 4 thousand and 2 thousand for the three and six months ended June 30, 2015, respectively. Stock options and RSUs excluded from weighted-average diluted common shares outstanding due to their antidilutive effect for the three and six months ended June 30, 2014 totaled 134 thousand and 133 thousand, respectively.

Net periodic cost related to the Company's defined benefit pension and supplemental benefit plans during the three and six months ended June 30, 2015 and 2014 includes the following components:

	Three Mor	ths Ended	Six Months Ended			
	June 30,		June 30,			
(in thousands)	2015	2014	2015	2014		
Expense:						
Service costs	\$ 390	\$329	\$780	\$658		
Interest costs	7,009	6,956	14,018	13,912

	\$9,402	\$8,960	\$18,804	\$17,920		

The Company contributed \$17.7 million to the defined benefit pension and supplemental benefit plans during the six months ended June 30, 2015 and expects to contribute an additional \$18.1 million during the remainder of 2015. These contributions include those required by funding regulations as well as discretionary contributions necessary to provide benefit payments to participants of certain of the Company's non-qualified supplemental benefit plans.

FIRST AMERICAN FINANCIAL CORPORATION AND SUBSIDIARY COMPANIES Notes to Condensed Consolidated Financial Statements – (Continued) (unaudited)

Note 10 – Fair Value Measurements

Certain of the Company's assets are carried at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The Company categorizes its assets and liabilities carried at fair value using a three-level hierarchy for fair value measurements that distinguishes between market participant assumptions developed based on market data obtained from sources independent of the Company (observable inputs) and the Company's own assumptions about market participant assumptions developed based on the best information available in the circumstances (unobservable inputs). The hierarchy for inputs used in determining fair value maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that observable inputs be used when available. The hierarchy level assigned to the assets and liabilities is based on management's assessment of the transparency and reliability of the inputs used to estimate the fair values at the measurement date. The three hierarchy levels are defined as follows:

Level 1—Valuations based on unadjusted quoted market prices in active markets for identical assets or liabilities.

Level 2—Valuations based on observable inputs (other than Level 1 prices), such as quoted prices for similar assets or liabilities at the measurement date; quoted prices in markets that are not active; or other inputs that are observable, either directly or indirectly.

Level 3—Valuations based on inputs that are unobservable and significant to the overall fair value measurement, and involve management judgment.

If the inputs used to measure fair value fall into different levels of the fair value hierarchy, the hierarchy level assigned is based upon the lowest level of input that is significant to the fair value measurement.

Assets measured at fair value on a recurring basis

The valuation techniques and inputs used by the Company to estimate the fair value of assets measured on a recurring basis, are summarized as follows:

Debt securities

The fair values of debt securities were based on the market values obtained from independent pricing services that were evaluated using pricing models that vary by asset class and incorporate available trade, bid and other market information and price quotes from well-established independent broker-dealers. The independent pricing services monitor market indicators, industry and economic events, and for broker-quoted only securities, obtain quotes from market makers or broker-dealers that they recognize to be market participants. The pricing services utilize the market approach in determining the fair value of the debt securities held by the Company. The Company obtains an understanding of the valuation models and assumptions utilized by the services and has controls in place to determine that the values provided represent fair value. The Company's validation procedures include comparing prices received

from the pricing services to quotes received from other third party sources for certain securities with market prices that are readily verifiable. If the price comparison results in differences over a predefined threshold, the Company will assess the reasonableness of the changes relative to prior periods given the prevailing market conditions and assess changes in the issuers' credit worthiness, performance of any underlying collateral and prices of the instrument relative to similar issuances. To date, the Company has not made any material adjustments to the fair value measurements provided by the pricing services.

Typical inputs and assumptions to pricing models used to value the Company's U.S. Treasury bonds, municipal bonds, foreign bonds, governmental agency bonds, governmental agency mortgage-backed securities and corporate debt securities include, but are not limited to, benchmark yields, reported trades, broker-dealer quotes, credit spreads, credit ratings, bond insurance (if applicable), benchmark securities, bids, offers, reference data and industry and economic events. For mortgage-backed securities, inputs and assumptions may also include the structure of issuance, characteristics of the issuer, collateral attributes and prepayment speeds. Non-agency mortgage-backed securities and certain corporate debt securities were not actively traded and there were fewer observable inputs available requiring the pricing services to use more judgment in determining their fair values, which resulted in their classification as Level 3.

Notes to Condensed Consolidated Financial Statements – (Continued) (unaudited)

Equity securities

The fair values of equity securities, including preferred and common stocks, were based on quoted market prices for identical assets that are readily and regularly available in an active market.

The following table presents the fair values of the Company's assets measured on a recurring basis as of June 30, 2015 and December 31, 2014:

(in thousands)	Total	Level 1	Level 2	Level 3

There were no transfers between Levels 1 and 2 during the three and six months ended June 30, 2015 and 2014. Transfers into or out of the Level 3 category occur when unobservable inputs become more or less significant to the fair value measurement. For the three and six months ended June 30, 2015 transfers between Level 2 and Level 3 were based on market liquidity and related transparency of pricing and associated observable inputs for certain of the Company's corporate debt securities. There were no transfers in or out of Level 3 during the three and six months ended June 30, 2014. The Company's policy is to recognize transfers between levels in the fair value hierarchy at the end of the reporting period.

Notes to Condensed Consolidated Financial Statements – (Continued) (unaudited)

The following table presents a summary of the changes in the fair values of Level 3 assets measured on a recurring basis for the three months ended June 30, 2015 and 2014:

Financial instruments not measured at fair value						

In estimating the fair values of its financial instruments not measured at fair value, the Company used the following methods and assumptions:

Cash and cash equivalents

The carrying amount for cash and cash equivalents is a reasonable estimate of fair value due to the short-term maturity of these investments.

Deposits with banks

The fair value of deposits with banks is estimated based on rates currently offered for deposits of similar remaining maturities, where applicable.

Notes receivable, net

The fair value of notes receivable, net is estimated based on the discounted value of the future cash flows using approximate current market rates being offered for notes with similar maturities and similar credit quality.

Deposits

The carrying value of escrow and other deposit accounts approximates fair value due to the short-term nature of this liability.

Notes to Condensed Consolidated Financial Statements – (Continued) (unaudited)

Notes and contracts payable

The fair value of notes and contracts payable is estimated based on current rates offered to the Company for debt of the same remaining maturities.

The following table presents the carrying amounts and estimated fair values of the Company's financial instruments not measured at fair value as of June 30, 2015 and December 31, 2014:
