Recent Acquisitions

We have grown over the past five years through the bank acquisitions discussed below, as well as through organic growth, including de novo branch expansion.

Community National Bank. On June 19, 2015, the Company completed its acquisition of Community National Bank ("CNB"). CNB had total assets of approximately \$900.1 million, loans of \$736.3 million, and deposits of \$786.9 million and operated 11 branches in Nassau, Suffolk, Queens and Manhattan Counties, New York. The Company issued, in the aggregate, approximately 5,647,000 shares of its common stock to CNB shareholders, at an exchange ratio of 0.79 of a share of Bridge Bancorp common stock per CNB share.

Table of Contents

First National Bank of New York. On February 14, 2014, the Company acquired FNBNY Bancorp and its wholly-owned subsidiary, the First National Bank of New York (collectively, “FNBNY”). FNBNY had total assets of approximately \$211.9 million, loans of \$89.7 million, and deposits of \$169.9 million. The acquisition expanded the Bank’s presence into Nassau County with three branch offices. The Company issued, in the aggregate, approximately 240,600 shares of its common stock to FNBNY shareholders.

Hamptons State Bank. On May 27, 2011, the Company acquired Hamptons State Bank (“HSB”), a commercial bank with approximately \$69.0 million in assets, \$39.1 million in loans, and \$56.9 million in deposits. The acquisition increased the Bank’s presence in an existing market with a branch office located in the Village of Southampton. The Company issued, in the aggregate, approximately 274,000 shares of its common stock to HSB shareholders.

Our Strategy and Financial Highlights

Our goal is to continue to grow and strengthen our community bank franchise by expanding market penetration in both our mature markets and new markets, while maintaining sound operations and risk management. We believe our growth and service strategies can offset compressed margins as our customer base grows through an expanding footprint and we continue to develop existing customer relationships. Our net interest income has increased steadily from \$42.8 million for the year ended December 31, 2011, to \$96.1 million for the year ended December 31, 2015. In addition, net interest income increased to \$90.7 million for the nine months ended September 30, 2016, compared to \$68.2 million for the nine months ended September 30, 2015. We also intend to continue to diversify our sources of revenue and increase our non-interest income. Highlights of our strategy and recent results include the following:

Leveraging our branch network to build customer relationships and grow loans and deposits. Since 2011, we have added seven de novo branches in Ronkonkoma, Hauppauge, Rocky Point, Shelter Island, Bay Shore, Port Jefferson and Smithtown, New York. These branches demonstrate the Bank’s commitment to and continued capacity for traditional growth through branch expansion. Management also seeks opportunities to expand the Bank’s reach into contiguous communities by hiring professionals with established customer relationships. Currently pending acquisitions of local competitors may provide additional organic growth opportunities.

Expanding the franchise through opportunistic acquisitions. As discussed above, we have completed three acquisitions in the past five years. Between December 31, 2011 and September 30, 2016, our total assets increased from \$1.34 billion to \$3.83 billion. Over this same period, total loans increased from \$612.1 million to \$2.59 billion and total deposits increased from \$1.19 billion to \$2.92 billion. These acquisitions complement our de novo branching in moving the Bank geographically westward.

Maintaining our high level of low-cost, core deposits. Strong core deposit growth remains a key component of our operating strategy. At September 30, 2016, core deposits, consisting of individual, partnership and corporate account balances, represented 84.2% of total deposits. Between December 31, 2011 and September 30, 2016, we increased our core deposits from \$956.1 million to \$2.46 billion. As of September 30, 2016, non-interest bearing deposits totaled \$1.11 billion and represented 38.1% of total deposits.

Maintaining strong asset quality as we continue to grow. We believe we have avoided many problems faced by other financial institutions by maintaining discipline in our growth and investment strategies, including loan underwriting. Between December 31, 2011 and September 30, 2016, our total loans increased from \$612.1 million to \$2.59 billion. Despite this growth, at September 30, 2016, nonaccrual loans were 0.08% of total loans, and our allowance for loan losses as a percentage of nonaccrual loans was 1,185%. We recognize the potential risks of the current economic environment and will continue to monitor market events as we evaluate loans and investments and consider growth initiatives.

Focusing on opportunities and processes that enhance the customer experience. We routinely add to our menu of products and services to meet the needs of consumers and businesses. In addition to accepting time, savings and demand deposits from consumers, businesses and local municipalities, we also offer the CDARS and ICS programs which provide up to \$125.0 million of FDIC insurance, merchant credit and debit card processing, automated teller machines, cash management services, lockbox processing, online banking services, remote deposit capture, safe deposit boxes and individual retirement accounts. In March 2014, we formed Bridge Financial Services, Inc., offering a full range of investment products and services through a third party broker dealer.

Table of Contents

Improving operational efficiencies and prudent management of non-interest expense. Controlling funding costs while expanding our deposit base and focusing on profitable growth presents a unique set of challenges in the current economic environment. Our efficiency ratio for the nine months ended September 30, 2016 was 56.3%. Our success in maintaining our strong operating efficiency while continuing to expand our branch network and loan portfolio reflects our disciplined approach to community banking.

Increasing non-interest income through Bridge Abstract LLC, Bridge Financial Services, Inc. and other lines of business. We generate non-interest income through Bridge Abstract LLC, our title abstract subsidiary, and Bridge Financial Services, Inc., which offers a full range of investment products and services through a third party broker dealer. We also generate non-interest income through fee income on deposit accounts, merchant credit and debit card processing programs, and net gains on sales of securities and loans.

RISK FACTORS

An investment in our common stock involves risks. Before making an investment decision, you should carefully read and consider the risk factors described below, which describe the risks related to this offering and ownership of our common stock, as well as the risk factors described in our Annual Report on Form 10-K for the fiscal year ended December 31, 2015 and our Quarterly Report on Form 10-Q for the quarter ended March 31, 2016, as may be supplemented by other documents incorporated by reference into this prospectus supplement or the accompanying prospectus. Please refer to “Where You Can Find More Information” in this prospectus supplement and the accompanying prospectus for discussions of these other filings. Any of these risks, if they occur, could materially adversely affect our business, financial condition and results of operations. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial may also materially and adversely affect us. In any such case, you could lose all or a portion of your original investment. This prospectus supplement and the accompanying prospectus are qualified in its entirety by those risk factors.

Risks Relating to this Offering and Ownership of Our Common Stock

Historically, the price of our common stock has fluctuated significantly, which may make it difficult for you to resell shares of common stock at prices you find attractive.

Historically, our stock price has fluctuated significantly. For example, for the nine months ended September 30, 2016, the high sale price per share of our common stock on NASDAQ was \$31.47 and the low sale price per share was \$26.23. On November 21, 2016, the last reported sale price of our common stock on NASDAQ was \$31.85 per share. We expect that the market price of our common stock will continue to fluctuate and there can be no assurances about the market prices for our common stock, which may make it difficult for you to resell shares of common stock at prices you find attractive.

Our stock price may fluctuate as a result of a variety of factors, many of which are beyond our control. In addition to the other risk factors contained or incorporated by reference herein, these factors include:

- Actual or anticipated quarterly fluctuations in our operating results and financial condition;
- Changes in expectations as to future financial performance or buy/sell recommendations of securities analysts;

Speculation in the press or investment community regarding stock prices generally or relating to our reputation or the financial services industry;

Strategic actions by us or our competitors, such as acquisitions, restructurings, dispositions or financings;

Fluctuations in the stock price and operating results of our competitors;

Sales of our equity or equity-related securities;

Proposed or adopted regulatory changes or developments;

Anticipated or pending investigations, proceedings or litigation that involve or affect us;

Changes in global financial markets and global economies and general market conditions, such as interest or foreign exchange rates, stock, commodity or real estate valuations or volatility and other geopolitical, regulatory or judicial events; and

General market conditions and, in particular, developments related to market conditions for the financial services industry.

We may issue additional equity or equity related securities, or engage in other transactions which dilute our book value or affect the priority of the common stock, which may adversely affect the market price of our common stock.

Our board of directors may determine from time to time that we need to raise additional capital by issuing additional shares of our common stock, preferred stock or other securities. We are not restricted from issuing additional shares of common stock, including securities that are convertible into or exchangeable for, or that represent the right to receive, common stock. Because our decision to issue securities in any future offering will depend on market conditions and other factors beyond our control, we cannot predict or estimate the amount, timing or nature of any future offerings, or the prices at which such offerings may be affected. Such offerings could be dilutive to common stockholders. New investors also may have rights, preferences and privileges, including with respect to the receipt of dividends, that are senior to, and that adversely affect, our then current common stockholders. If we raise additional capital by selling debt or preferred equity securities, upon liquidation, holders of our debt securities and shares of preferred stock, and lenders with respect to other borrowings, will receive distributions of our available assets prior to the holders of our common stock. Additional equity offerings may dilute the holdings of our existing stockholders or reduce the market price of our common stock, or both. Holders of our common stock are not entitled to preemptive rights or other protections against dilution.

Table of Contents

We may reduce or eliminate the cash dividend on our common stock.

Holders of our common stock are only entitled to receive such cash dividends as our board of directors may declare out of funds legally available for such payments. Although we have historically declared cash dividends on our common stock, we are not required to do so and may reduce or eliminate our common stock cash dividend in the future. This could adversely affect the market price of our common stock. As a bank holding company, our ability to declare and pay dividends is dependent on certain federal regulatory considerations including the guidelines of the Federal Reserve Board regarding capital adequacy and dividends. See “Market for Common Stock and Our Dividend Policy” for more information.

If we fail to pay interest on or otherwise default on our subordinated debt, we will be prohibited from paying dividends or distributions on our common stock.

As of September 30, 2016, we had \$78.5 million of subordinated debentures outstanding and \$15.3 million of junior subordinated debentures outstanding. The agreements under which the subordinated debenture and subordinated notes were issued prohibit us from paying any dividends on our common stock or making any other distributions to our shareholders at any time when there shall have occurred and be continuing an event of default under the applicable agreement. Events of default generally consist of, among other things, our failure to pay any principal or interest on the subordinated debenture or subordinated notes, as applicable, when due, our failure to comply with certain agreements, terms and covenants under the agreement (without curing such default following notice), and certain events of bankruptcy, insolvency or liquidation relating to us.

If an event of default were to occur and we did not cure it, we would be prohibited from paying any dividends or making any other distributions to our shareholders or from redeeming or repurchasing any of our common stock, which would likely have a material adverse effect on the market value of our common stock. Moreover, without notice to or consent from the holders of our common stock, we may enter into additional financing arrangements that may limit our ability to purchase or to pay dividends or distributions on our common stock.

An investment in our common stock is not an insured deposit and is not guaranteed by the FDIC, so you could lose some or all of your investment.

Our common stock is not a bank deposit and, therefore, is not insured against loss by the Federal Deposit Insurance Corporation or any other public or private entity. Investment in our common stock is inherently risky for the reasons

described in this “Risk Factors” section, elsewhere in this prospectus supplement and the accompanying prospectus, and the additional documents and information incorporated by reference, and is subject to the same market forces that affect the common stock in any company. As a result, if you acquire our common stock, you may lose some or all of your investment.

Our certificate of incorporation and bylaws as well as certain banking laws may have an anti-takeover effect.

Provisions of our certificate of incorporation and bylaws and federal banking laws, including regulatory approval requirements, could make it more difficult for a third party to acquire us, even if doing so would be perceived to be beneficial to our shareholders. The combination of these provisions may inhibit a non-negotiated merger or other business combination or make such a transaction more expensive, which, in turn, could adversely affect the market price of our common stock. See “Description of Securities—Common Stock—Provisions of Our Certificate of Incorporation, Our Bylaws and Federal Law Affecting Our Shareholders” in the accompanying prospectus.

Table of Contents**Risks Relating to Our Business**

For risks associated with our business and industry, see the section entitled “Risk Factors” in our Annual Report on Form 10-K for the year ended December 31, 2015, and our Quarterly Report on Form 10-Q for the period ended March 31, 2016, which are incorporated in this prospectus supplement by reference, as the same may be updated from time to time prior to the completion of this offering by our future filings under the Exchange Act.

MARKET FOR COMMON STOCK AND OUR DIVIDEND POLICY

Our common stock is listed on the NASDAQ under the symbol “BDGE.” As of November 21, 2016, we had 17,481,800 shares of common stock outstanding, held of record by approximately 1,040 shareholders of record. The actual number of common shareholders is greater than the number of record holders, and includes shareholders who are beneficial owners, but whose shares are held in street name by brokers and other nominees. This number of holders of record also does not include shareholders whose shares may be held in trust by other entities.

The following table sets forth, for the periods indicated, the high and low sales prices per share for the common stock as reported on the NASDAQ and the cash dividends paid per common share, for the periods shown.

The amount of future dividends, if any, will be determined by our board of directors and will depend on our earnings, financial condition and other factors considered by the board of directors to be relevant. In addition, the payment of cash dividends on the common stock will depend upon the ability of the Bank to declare and pay dividends to us. The Bank's ability to pay dividends will depend primarily upon its earnings, financial condition, and need for funds, as well as applicable governmental policies. Even if we have earnings in an amount sufficient to pay dividends, the Bank's board of directors may determine to retain earnings for the purpose of funding growth. The Bank generally pays a dividend to us to provide funds for: debt service on the subordinated debentures, a portion of the proceeds of which were contributed to the Bank as capital; dividends that we pay to our shareholders; stock repurchases; and other expenses.

There are various legal limitations with respect to the Bank's ability to pay dividends to us and our ability to pay dividends to shareholders. Under the New York Business Corporation Law, we may pay dividends on our outstanding shares except if we are insolvent or would be made insolvent by the dividend. Under federal banking law, the prior approval of the Federal Reserve Board and the Office Comptroller of the Currency (the "OCC") may be required in certain circumstances prior to the payment of dividends by us or the Bank. A national bank may generally declare a dividend, without approval from the OCC, in an amount equal to its year-to-date net income plus the prior two years' net income that is still available for dividend. The OCC has the authority to prohibit a national bank from paying dividends if such payment is deemed to be an unsafe or unsound practice. In addition, as a depository institution the deposits of which are insured by the FDIC, the Bank may not pay dividends or distribute any of its capital assets while it remains in default on any assessment due to the FDIC. The Bank currently is not (and never has been) in default under any of its obligations to the FDIC.

The Federal Reserve Board has issued a policy statement regarding the payment of dividends by bank holding companies. In general, the Federal Reserve Board's policy provides that dividends should be paid only out of current earnings and only if the prospective rate of earnings retention by the bank holding company appears consistent with the organization's capital needs, asset quality and overall financial condition. The Federal Reserve Board has the authority to prohibit us from paying dividends if such payment is deemed to be an unsafe or unsound practice.

UNDERWRITING

We are offering the shares of our common stock described in this prospectus supplement in an underwritten offering through Sandler O'Neill & Partners, L.P. and Keefe, Bruyette & Woods, Inc. We have entered into an underwriting agreement with the underwriters with respect to the common stock being offered. Subject to the terms and conditions contained in the underwriting agreement, the underwriters have agreed to purchase, at the public offering price less the underwriting discount set forth on the cover page of this prospectus supplement, all of the shares of common stock being offered by this prospectus supplement.

The underwriting agreement provides that the underwriters' obligations to purchase shares of our common stock depend on the satisfaction of the conditions contained in the underwriting agreement, including:

- the representations and warranties made by us are true and our agreements have been performed;

• there is no material adverse change in or affecting our business, financial condition, stockholders' equity, liquidity, results of operations or prospects; and

- we deliver customary closing documents.

Subject to these conditions, the underwriters are committed to purchase and pay for all shares of our common stock offered by this prospectus supplement, if any such shares are taken. However, the underwriters are not obligated to take or pay for the shares of our common stock covered by its purchase option described below, unless and until such option is exercised.

Purchase Option. We have granted the underwriters an option, exercisable no later than 30 days after the date of the underwriting agreement, to purchase up to an aggregate of 241,950 additional shares of common stock at the public offering price less the underwriting discount set forth on the cover page of this prospectus supplement. We will be obligated to sell these shares of common stock to the underwriters to the extent such option is exercised.

Commissions and Expenses. The underwriters propose to offer our common stock directly to the public at the public offering price set forth on the cover page of this prospectus supplement and to dealers at the public offering price less a concession not in excess of \$1.0230 per share. After the public offering of our common stock, the underwriters may

change the offering price, concessions and other selling terms.

The following table shows the per share and total underwriting discount that we will pay to the underwriters and the proceeds we will receive before expenses. These amounts are shown assuming both no exercise and full exercise of the underwriter's option to purchase additional shares of our common stock.

	Per Share	Total Without Exercise of Purchase Option	Total With Exercise of Purchase Option
Public offering price	\$ 31.00	50,003,000	57,503,450
Underwriting discount (1)	\$ 1.705	2,130,165	2,542,690
Proceeds to us before expenses	\$ 29.295	47,872,835	54,960,760

(1) The underwriting discount will be \$1.705 per share. However, the underwriters have agreed that the underwriting discount will be \$0.93 per share for 800,000 shares purchased by certain investors of the Company. The total underwriting discount and the total proceeds to us, before expenses, reflect the reduced discount for the 800,000 shares purchased by certain investors of the Company.

We estimate that the total expenses of this offering, exclusive of the underwriting discount, will be approximately \$300,000, and are payable by us.

Indemnity. We have agreed to indemnify the underwriters, and persons who control the underwriters, against certain liabilities, including liabilities under the Securities Act of 1933, and to contribute to payments that the underwriters may be required to make in respect of these liabilities.

Table of Contents

Lock-Up Agreement. We, and each of our directors and executive officers, have agreed, for a period of 90 days after the date of this prospectus supplement, not to, without the prior written consent of the underwriters, directly or indirectly offer, pledge, sell, grant any option, right or warrant to purchase or otherwise transfer or dispose of any shares of our common stock or any securities convertible into or exercisable or exchangeable for our common stock, file, or cause to be filed, any registration statement under the Securities Act of 1933 with respect to any of the foregoing or enter into any swap or any other agreement or any transaction that transfers, in whole or in part, directly or indirectly, the economic consequence of ownership of our common stock, whether such transaction would be settled by delivery of common stock or other securities, in cash or otherwise.

Stabilization. In connection with this offering, the underwriters may engage in stabilizing transactions, over-allotment transactions and syndicate covering transactions.

Stabilizing transactions permit bids to purchase shares of common stock so long as the stabilizing bids do not exceed a specified maximum, and are engaged in for the purpose of preventing or retarding a decline in the market price of the common stock while the offering is in progress.

Over-allotment transactions involve sales by the underwriters of shares of common stock in excess of the number of shares the underwriters are obligated to purchase. This creates a syndicate short position which may be either a covered short position or a naked short position. In a covered short position, the number of shares of common stock over-allotted by the underwriters is not greater than the number of shares that it may purchase in its purchase option. In a naked short position, the number of shares involved is greater than the number of shares in its purchase option. The underwriters may close out any short position by exercising its purchase option and/or by purchasing shares in the open market.

Syndicate covering transactions involve purchases of common stock in the open market after this offering has been completed in order to cover syndicate short positions. In determining the source of shares to close out the short position, the underwriters will consider, among other things, the price of shares available for purchase in the open market as compared with the price at which it may purchase shares through exercise of its purchase option. If the underwriters sell more shares than could be covered by exercise of its purchase option and, therefore, has a naked short position, the position can be closed out only by buying shares in the open market. A naked short position is more likely to be created if the underwriters are concerned that after pricing there could be downward pressure on the price of the shares in the open market that could adversely affect investors who purchase in this offering.

These stabilizing transactions and syndicate covering transactions may have the effect of raising or maintaining the market price of our common stock or preventing or retarding a decline in the market price of our common stock. As a result, the price of our common stock in the open market may be higher than it would otherwise be in the absence of these transactions. Neither we nor the underwriters make any representation or prediction as to the effect that the transactions described above may have on the market price of our common stock. These transactions may be effected on the NASDAQ, in the over-the-counter market or otherwise and, if commenced, may be discontinued at any time.

Passive Market Making. In connection with this offering, the underwriters and selected dealers, if any, who are qualified market makers on the NASDAQ, may engage in passive market making transactions in our common stock on the NASDAQ in accordance with Rule 103 of Regulation M under the Exchange Act. Rule 103 permits passive market making activity by the participants in this offering. Passive market making may occur before the pricing of this offering or before the commencement of offers or sales of our common stock. Each passive market maker must comply with applicable volume and price limitations and must be identified as a passive market maker. In general, a passive market maker must display its bid at a price not in excess of the highest independent bid for the security. If all independent bids are lowered below the bid of the passive market maker, however, the bid must then be lowered when purchase limits are exceeded. Net purchases by a passive market maker on each day are limited to a specified percentage of the passive market maker's average daily trading volume in the common stock during a specified period and must be discontinued when that limit is reached. The underwriters and other dealers are not required to engage in passive market making and may end passive market making activities at any time.

Our Relationship with the Underwriter. The underwriters and some of their affiliates have performed and expect to continue to perform financial advisory and investment banking services for us in the ordinary course of their respective businesses, and may have received, and may continue to receive, compensation for such services.

SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

We make statements in this prospectus and the documents incorporated into it by reference that are considered “forward-looking statements” as defined in the Private Securities Litigation Reform Act of 1995 (the “PSLRA”). Such forward-looking statements, in addition to historical information, involve risk and uncertainties, and are based on the beliefs, assumptions and expectations of management of the Company. Words such as “expects,” “believes,” “should,” “plans,” “anticipates,” “will,” “potential,” “could,” “intend,” “may,” “outlook,” “predict,” “project,” “would,” “estimated,” “as” variation of such similar expressions are intended to identify such forward-looking statements. Forward-looking statements speak only as of the date they are made. Because forward-looking statements are subject to assumptions and uncertainties, actual results or future events could differ, possibly materially, from those that we anticipated in our forward-looking statements and future results could differ materially from historical performance.

Factors that could cause future results to vary from current management expectations as reflected in our forward-looking statements include, but are not limited to, changing economic conditions; legislative and regulatory changes, including increases in Federal Deposit Insurance Corporation (“FDIC”) insurance rates; monetary and fiscal policies of the federal government; changes in tax policies; rates and regulations of federal, state and local tax authorities; changes in interest rates; changes in our ability to access cost-effective funding; deposit flows; inflation;

demands for loan products; demand for financial services; competition; changes in the securities or secondary mortgage markets; changes in the quality and composition of the Bank's loan and investment portfolios; changes in management's business strategies; changes in our ability to manage market risk, credit risk and operational risk; our ability to enter new markets successfully; changes in accounting principles, policies or guidelines; our ability to successfully integrate acquired businesses; changes in consumer spending; our ability to retain key employees; changes in real estate values; expanded regulatory requirements as a result of the Dodd-Frank Wall Street Reform and Consumer Protection Act, which could adversely affect operating results; and other factors discussed elsewhere in this report, and in other reports filed by the Company with the Securities and Exchange Commission.

You should not place undue reliance on these forward-looking statements, which reflect our expectations only as of the date of this prospectus. We do not assume any obligation to revise forward-looking statements except as may be required by law.

RISK FACTORS

Before making an investment decision, you should carefully consider the risks described under "*Risk Factors*" in the applicable prospectus supplement and in our most recent Annual Report on Form 10-K, and in our updates to those Risk Factors in our Quarterly Reports on Form 10-Q, together with all of the other information appearing in this prospectus or incorporated by reference into this prospectus, the prospectus supplement or any applicable pricing supplement, in light of your particular investment objectives and financial circumstances. In addition to those risk factors, there may be additional risks and uncertainties of which management is not aware or focused on or that management deems immaterial. Our business, financial condition or results of operations could be materially adversely affected by any of these risks. The trading price of our securities could decline due to any of these risks, and you may lose all or part of your investment.

OUR COMPANY

We are a New York corporation formed in 1988 to become the holding company for The Bridgehampton National Bank. We are registered as a bank holding company under the Bank Holding Company Act of 1956, as amended. At December 31, 2015, we had total assets of \$3.78 billion, deposits of \$2.84 billion and total stockholders' equity of \$341.1 million.

The Bridgehampton National Bank was established in 1910 as a national banking association and is headquartered in Bridgehampton, New York. The Bank operates 40 retail branch locations in its primary market area of Suffolk County and Southern Nassau County, Long Island. Through this branch network and its electronic delivery channels, the Bank

provides deposit and loan products and financial services to local businesses, consumers and municipalities. Title insurance services are offered through the Bank's wholly owned subsidiary, Bridge Abstract. Bridge Investment Services, also a subsidiary of the Bank, offers financial planning and investment consultation.

Our principal executive offices are located at 2200 Montauk Highway, Bridgehampton, New York 11932, and our telephone number is (631) 537-1000.

Additional information about us and our subsidiaries is included in documents incorporated by reference in this prospectus. See "*Where You Can Find More Information*" on page 1 of this prospectus.

Table of Contents**CONSOLIDATED RATIOS OF EARNINGS TO FIXED CHARGES**

Our consolidated ratios of earnings to fixed charges were as follows for the periods presented:

	Years Ended December 31,				
	2015	2014	2013	2012	2011
Ratios of Earnings to Fixed Charges:					
Including deposit interest	3.66x	3.42x	3.44x	3.33x	2.86x
Excluding deposit interest	6.00x	5.93x	7.33x	8.63x	7.37x

For the purpose of computing the consolidated ratio of earnings to fixed charges, “earnings” consist of income before income taxes plus fixed charges. “Fixed charges” consist of interest on borrowings, including interest payments of the junior subordinated debentures underlying the Trust Preferred Securities issued by a subsidiary of the Company in December 2009, interest payments on subordinated debentures, and one-third of rent expense, which approximates the interest component of rent expense. In addition, where indicated, fixed charges includes interest on deposits. We currently have no shares of preferred stock outstanding and have not paid any preferred stock dividends during the periods presented. A statement setting forth details of the computation of the ratios of earnings to fixed charges is included as Exhibit 12.1 to the registration statement of which this prospectus is a part.

USE OF PROCEEDS

The Company intends to use the net proceeds from the sale of the securities for general corporate purposes unless otherwise indicated in the prospectus supplement relating to a specific issuance of securities. The Company’s general corporate purposes will likely include support for organic growth, and may also include, among other things, financing possible acquisitions of branches or other financial institutions, diversification into other banking-related businesses, extending credit to, or funding investments in, our subsidiaries, repaying, reducing or refinancing indebtedness, or repurchasing our outstanding common stock.

The precise amounts and the timing of our use of the net proceeds will depend upon market conditions, our subsidiaries’ funding requirements, the availability of other funds and other factors. Until we use the net proceeds from the sale of any of the securities for general corporate purposes, we will use the net proceeds to reduce our indebtedness or for temporary investments. We expect that we will, on a recurrent basis, engage in additional financings as the need arises to finance our corporate strategies to support our growth, to fund our subsidiaries, or otherwise.

REGULATION AND SUPERVISION

As a bank holding company controlling the Bank, we are subject to the Bank Holding Company Act of 1956, as amended (“BHCA”), and the rules and regulations of the Board of Governors of the Federal Reserve System (“Federal Reserve Board”) under the BHCA applicable to bank holding companies. We are required to file reports with, and otherwise comply with the rules and regulations of the Federal Reserve Board and the SEC.

Our banking subsidiary, The Bridgehampton National Bank, is a national bank organized under the laws of the United States of America. The lending, investment, and other business operations of the Bank are governed by federal law and regulations and the Bank is prohibited from engaging in any operations not specifically authorized by such laws and regulations. The Bank is subject to extensive regulation by the Office of the Comptroller of the Currency (“OCC”) and to a lesser extent by the FDIC, as its deposit insurer as well as by the Federal Reserve Board. The Bank’s deposit accounts are insured up to applicable limits by the FDIC under its Deposit Insurance Fund.

These regulatory authorities have extensive enforcement authority over the institutions that they regulate to prohibit or correct activities that violate law, regulation or a regulatory agreement or which are deemed to be unsafe or unsound banking practices. Enforcement actions may include the appointment of a conservator or receiver, the issuance of a cease and desist order, the termination of deposit insurance, the imposition of civil money penalties on the institution, its directors, officers, employees and institution-affiliated parties, the issuance of directives to

Table of Contents

increase capital, the issuance of formal and informal agreements, the removal of or restrictions on directors, officers, employees and institution-affiliated parties, and the enforcement of any such mechanisms through restraining orders or other court actions. Any change in laws and regulations, whether by the OCC, the FDIC, the Federal Reserve Board or through legislation, could have a material adverse impact on us, our operations and our stockholders.

Because we are a holding company, our rights and the rights of our creditors and the holders of the securities we are offering under this prospectus to participate in the assets of any of our subsidiaries upon the subsidiary's liquidation or reorganization will be subject to the prior claims of the subsidiary's creditors, except to the extent that we may ourselves be a creditor with recognized claims against the subsidiary.

In addition, dividends, loans and advances from the Bank to us are restricted by federal law.

For a discussion of the material elements of the regulatory framework applicable to bank holding companies and their subsidiaries, and specific information relevant to us and the Bank, you should refer to our Annual Report on Form 10-K for the year ended December 31, 2015, and any other subsequent reports filed by us with the SEC, which are incorporated by reference in this prospectus. This regulatory framework is intended primarily for the protection of depositors and the Deposit Insurance Fund that insures deposits of the Bank, rather than for the protection of security holders.

DESCRIPTION OF THE SECURITIES

This prospectus contains a summary of the debt securities, common stock, preferred stock, depositary shares, warrants, purchase contracts, and units that may be offered under this prospectus. The following summaries are not meant to be a complete description of each security. The prospectus supplement and the pricing supplement, if applicable, contain the material terms and conditions for each security. You should read all of these documents as well as the documents filed as exhibits to or incorporated by reference to this registration statement. Capitalized terms used in this prospectus that are not defined will have the meanings given them in these documents.

Description of Debt Securities

General

We may issue senior debt securities or subordinated debt securities. Senior debt securities will be issued under an indenture, referred to as the “senior indenture,” and subordinated debt securities will be issued under a separate indenture, referred to in this section as the “subordinated indenture.” The senior indenture and the subordinated indenture are referred to in this section as the “indentures.” The senior debt securities and the subordinated debt securities are referred to in this section as the “debt securities.” The debt securities will be our direct unsecured general obligations.

This prospectus describes the general terms and provisions of the debt securities. When we offer to sell a particular series of debt securities, we will describe the specific terms of the securities in a supplement to this prospectus. The prospectus supplement will also indicate whether the general terms and provisions described in this prospectus apply to a particular series of debt securities.

The following briefly describes the general terms and provisions of the debt securities and the indentures. We have not restated these indentures in their entirety in this description. We have filed the forms of the indentures, including the forms of debt securities, as exhibits to the registration statement of which this prospectus is a part. We urge you to read the indentures, because they, and not this description, control your rights as holders of the debt securities. The following description of the indentures is not complete and is subject to, and qualified in its entirety by reference to, all the provisions in the respective indentures. In the summary below, we have included references to section numbers of the applicable indenture so that you can easily locate these provisions. Capitalized terms used in the summary have the meanings specified in the indentures.

Neither indenture limits the amount of debt securities that we may issue under the indenture from time to time in one or more series. We may in the future issue debt securities under either indenture. At the date of this prospectus, we had not issued any debt securities under either indenture.

Table of Contents

Neither indenture contains provisions that would afford holders of debt securities protection in the event of a sudden and significant decline in our credit quality or a takeover, recapitalization or highly leveraged or similar transaction. Accordingly, we could in the future enter into transactions that could increase the amount of indebtedness outstanding at that time or otherwise adversely affect our capital structure or credit rating.

The debt securities will be our exclusive obligations. Neither indenture requires our subsidiaries to guarantee the debt securities. As a result, the holders of debt securities will generally have a junior position to claims of all creditors and preferred shareholders of our subsidiaries.

Terms of Each Series of Debt Securities Provided in the Prospectus Supplement

A prospectus supplement and any supplemental indenture relating to any series of debt securities being offered will include specific terms relating to the offering. These terms will include some or all of the following (Section 301):

- the form and title of the debt securities;
- whether the debt securities are senior debt securities or subordinated debt securities and the terms of subordination;
- the principal amount of the debt securities;
- the denominations in which the debt securities will be issued;
- the portion of the principal amount which will be payable if the maturity of the debt securities is accelerated;
- the currency or currency unit in which the debt securities will be paid, if not U.S. dollars;
- any right we may have to defer payments of interest by extending the dates payments are due and whether interest on those deferred amounts will be payable as well;
- the place where the principal of, and premium, if any, and interest on any debt securities will be payable;

the date or dates on which the debt securities will be issued and the principal, and premium, if any, of the debt securities will be payable;

- the rate or rates which the debt securities will bear interest and the interest payment dates for the debt securities;

- any mandatory or optional redemption provisions;

the terms, if any, upon which the debt securities are convertible into other securities of ours and the terms and conditions upon which any conversion will be effected, including the initial conversion price or rate, the conversion period and any other provisions in addition to or instead of those described in this prospectus;

- any sinking fund or other provisions that would obligate us to repurchase or otherwise redeem the debt securities;

any deletion from, changes of or additions to the covenants or the Events of Default (as defined below) under “Provisions in Both Indentures – Events of Default and Remedies”;

- any changes to the terms and condition upon which the debt securities can be defeased or discharged;

Table of Contents

- any restriction or other provision with respect to the transfer or exchange of the debt securities;
- the identity of any other trustee, paying agent and security registrar, if other than the trustee; and
 - any other terms of the debt securities.

We will maintain in each place specified by us for payment of any series of debt securities an office or agency where debt securities of that series may be presented or surrendered for payment, where debt securities of that series may be surrendered for registration of transfer or exchange and where notices and demands to or upon us in respect of the debt securities of that series and the related indenture may be served (Section 1002).

Debt securities may be issued under an indenture as original issue discount securities to be offered and sold at a substantial discount below their principal amount. Material federal income tax, accounting and other considerations applicable to any such original issue discount securities will be described in any related prospectus supplement. “Original issue discount security” means any security which provides for an amount less than the principal amount thereof to be due and payable upon a declaration of acceleration of the maturity thereof as a result of the occurrence of an Event of Default and the continuation thereof (Section 101).

Provisions Only in the Senior Indenture

Payment of the principal, premium, if any, and interest on the senior debt securities will rank equally in right of payment with all of our other unsecured senior debt.

Provisions Only in the Subordinated Indenture

Payment of the principal, premium, if any, and interest on the subordinated debt securities will be subordinate and junior in priority of payment to prior payment in full of all of our senior indebtedness, including senior debt securities and other debt to the extent described in a prospectus supplement (Section 1401 of the subordinated indenture).

Subordinated Debt Securities Intended to Qualify as Tier 2 Capital

Unless otherwise stated in the applicable prospectus supplement, it is currently intended that the subordinated debt securities will qualify as Tier 2 Capital under the guidelines established by the Federal Reserve Board for bank holding companies. The guidelines set forth specific criteria for subordinated debt to qualify as Tier 2 Capital. Among other things, the subordinated debt must:

- be unsecured;
- have an average maturity of at least five years;
- be subordinated in right of payment;

• not contain provisions permitting the holders of the debt to accelerate payment of principal prior to maturity except in the event of bankruptcy of the issuer;

• not contain provisions permitting the issuer of the debt to redeem the security prior to the maturity date without prior approval of the Federal Reserve; and

• not contain provisions that would adversely affect liquidity or unduly restrict management's flexibility to operate the organization, particularly in times of financial difficulty, such as limitations on additional secured or senior borrowings, sales or dispositions of assets or changes in control.

Table of Contents

Provisions in Both Indentures

Consolidation, Merger or Asset Sale

Each indenture generally allows us to consolidate or merge with a domestic person, association or entity. Each also allows us to sell, lease or transfer our property and assets substantially as an entirety to a domestic person, association or entity. If this happens, the remaining or acquiring person, association or entity must assume all of our responsibilities and liabilities under the indentures including the payment of all amounts due on the debt securities and performance of the covenants in the indentures.

However, we will only consolidate or merge with or into any other person, association or entity or sell, lease or transfer our assets substantially as an entirety according to the terms and conditions of the indentures, which require that:

the remaining or acquiring person, association or entity is organized under the laws of the United States, any state within the United States or the District of Columbia;

- the remaining or acquiring person, association or entity assumes our obligations under the indentures; and

immediately after giving effect to the transaction, no Default or Event of Default, as defined below, shall have occurred and be continuing.

The remaining or acquiring person, association or entity will be substituted for us in the indentures with the same effect as if it had been an original party to the indentures. Thereafter, the successor may exercise our rights and powers under the indentures, in our name or in its own name. If we sell or transfer all or substantially all of our assets, we will be released from all our liabilities and obligations under any indenture and under the debt securities. If we lease all or substantially all of our assets, we will not be released from our obligations under the indentures (Sections 801 and 802).

Events of Default and Remedies

In the indentures, Default with respect to any series of debt securities means any event which is, or after notice or lapse of time or both would become, an Event of Default.

In the indentures, Event of Default with respect to any series of debt securities means any of the following (Section 501):

- failure to pay the principal of or any premium on any debt security of that series when due;
- failure to pay interest on any debt security of that series for 30 days;

subject to certain exceptions, failure to perform any other covenant in the indenture, other than a covenant default in the performance of which has expressly been included in the indenture solely for the benefit of series of debt securities other than that series, that continues for 90 days after being given written notice as specified in the indenture;

- our bankruptcy, insolvency or reorganization; or
- any other Event of Default included in any indenture or supplemental indenture.

If an Event of Default with respect to a series of debt securities occurs and is continuing, the trustee or the holders of at least 25% in principal amount of all of the outstanding debt securities of a particular series may declare the principal of all the debt securities of that series to be due and payable. When such declaration is made, such amounts will be immediately due and payable. The holders of a majority in principal amount of the outstanding debt securities of such series may rescind such declaration and its consequences if all existing Events of Default have

Table of Contents

been cured or waived, other than nonpayment of principal or interest that has become due solely as a result of acceleration (Section 502).

Holders of a series of debt securities may not enforce the indenture or the series of debt securities, except as provided in the indenture or a series of debt securities (Section 507). The trustee may require indemnity satisfactory to it before it enforces the indenture or such series of debt securities (Section 603). Subject to certain limitations, the holders of a majority in principal amount of the outstanding debt securities of a particular series may direct the time, method and place of conducting any proceeding for any remedy available to the trustee or exercising any trust or power of the trustee (Section 512). The trustee may withhold notice to the holders of debt securities of any default, except in the payment of principal or interest, if it considers such withholding of notice to be in the best interests of the holders (Section 602).

An Event of Default for a particular series of debt securities does not necessarily constitute an Event of Default for any other series of debt securities issued under an indenture. Further, an Event of Default under the debt securities of any series will not necessarily constitute an event of default under our other indebtedness or vice versa.

Modification of Indentures

Under each indenture, generally we and the trustee may modify our rights and obligations and the rights of the holders with the consent of the holders of a majority in aggregate principal amount of the outstanding debt securities of any series affected by the modification, voting as one class. No modification of the principal or interest payment terms, requirement that the Company maintain an office or agency for matters related to the debt securities, reduction of the percentage consent required for modifications, or impairment of the right to institute suit for the payment on debt securities of any series when due, is effective against any holder without consent of all holders (Section 902).

In addition, we and the trustee may enter into supplemental indentures without the consent of any holder of the debt securities to make certain technical changes, such as (Section 901):

- curing ambiguities or correcting defects or inconsistencies;

• evidencing the succession of another person to us, and the assumption by that successor of our obligations under the applicable indenture and the debt securities of any series;

- providing for a successor trustee;
 - qualifying the indentures under the Trust Indenture Act of 1939, as amended (the “Trust Indenture Act”); or
- complying with the rules and regulations of any securities exchange or automated quotation system on which debt securities of any series may be listed or traded.

Discharging Our Obligations

We may choose either to discharge our obligations on the debt securities of any series in a legal defeasance, or to release ourselves from our covenant restrictions on the debt securities of any series in a covenant defeasance. We may do so at any time on the 91st day after we deposit with the trustee sufficient cash or government securities to pay the principal, interest, any premium and any other sums due to the stated maturity date or a redemption date of the debt securities of the series. If we choose the legal defeasance option, the holders of the debt securities of the series will not be entitled to the benefits of the indenture except for registration of transfer and exchange of debt securities, replacement of lost, stolen or mutilated debt securities, conversion or exchange of debt securities, sinking fund payments and receipt of principal and interest on the original stated due dates or specified redemption dates (Section 1302).

We may discharge our obligations on the debt securities of any series or release ourselves from covenant restrictions only if we meet certain requirements. Among other things, we must deliver an opinion of our legal counsel that the discharge will not result in holders having to recognize taxable income or loss or subject them to

Table of Contents

different tax treatment. In the case of legal defeasance, this opinion must be based on either an IRS letter ruling or change in federal tax law. We may not have a default on the debt securities discharged on the date of deposit. The discharge may not violate any of our agreements. The discharge may not result in our becoming an investment company in violation of the Investment Company Act of 1940.

Information Concerning the Indenture Trustee

Under provisions of the indentures and the Trust Indenture Act, if a trustee has or shall acquire a conflicting interest within the meaning of the Trust Indenture Act, the trustee shall either eliminate such interest or resign in the manner provided by the indentures. Any resignation will require the appointment of a successor trustee under the applicable indenture in accordance with its terms and conditions.

The trustee may resign with respect to one or more series of debt securities and a successor trustee may be appointed by us to act with respect to any such series. The trustee may be removed with respect to a series of debt securities by the Company in accordance with the terms of the Indenture, or by the holders of a majority in aggregate principal amount of such series at any time (Section 610).

Each indenture contains certain limitations on the right of the trustee thereunder, in the event that it becomes our creditor, to obtain payment of claims in some cases, or to realize on property received in respect of any such claim, as security or otherwise (Section 613).

The trustee is required to submit an annual report to the holders of the debt securities regarding, among other things, the trustee's eligibility to serve, the priority of the trustee's claims regarding certain advances made by it, and any action taken by the trustee materially affecting the debt securities. However, no annual report is required to be submitted if no event described in Section 313(a) of the Trust Indenture Act has occurred within the 12 months preceding the reporting date (Section 703).

Each indenture provides that, in addition to other certificates or opinions that may be specifically required by other provisions of an indenture, every application by us for action by the trustee shall be accompanied by a certificate of our officers and an opinion of counsel, who may be our counsel, stating that, in the opinion of the signers, we have complied with all conditions precedent to the action (Section 102).

No Personal Liability of Officers, Directors, Employees or Shareholders

Our officers, directors, employees and shareholders will not have any liability for our obligations under the indentures or the debt securities by way of his or her status. Each holder of debt securities, by accepting a debt security, waives and releases all such liability. The waiver and release are part of the consideration for the issuance of the debt securities.

Form, Denominations and Registration; Global Securities; Book Entry Only System

Unless otherwise indicated in a prospectus supplement, the debt securities of a series will be issued only in fully registered form, without coupons, in minimum denominations of \$1,000 or integral multiples in excess thereof (Section 302). You will not have to pay a service charge to transfer or exchange debt securities of a series, but we may require you to pay for taxes or other governmental charges due upon a transfer or exchange (Section 305).

Unless otherwise indicated in a prospectus supplement, each series of debt securities will be deposited with, or on behalf of, The Depository Trust Company (“DTC”) or any successor depository, which we call a “depository,” and will be represented by one or more global notes registered in the name of Cede & Co., as nominee of DTC. The interests of beneficial owners in the global notes will be represented through financial institutions acting on their behalf as direct or indirect participants in DTC. See “*Global Securities*” for the procedures for transfer of interests in securities held in global form.

Table of Contents

Description of Common Stock

We are authorized to issue 42,000,000 shares of capital stock, 40,000,000 of which are shares of common stock, par value of \$0.01 per share, and 2,000,000 of which are shares of preferred stock, par value of \$0.01 per share. As of December 31, 2015, we had 17,388,918 shares of common stock outstanding, and no shares of preferred stock outstanding.

Each share of common stock has the same relative rights as, and is identical in all respects to, each other share of common stock.

Dividends

The holders of our common stock are entitled to receive and share equally in such dividends, if any, declared by the board of directors out of funds legally available therefor. Under the New York Business Corporation Law, we may pay dividends on our outstanding shares except when the Company is insolvent or would be made insolvent by the dividend. In addition, we may pay dividends and other distributions either (1) out of surplus, so that our net assets remaining after such payment or distribution shall at least equal the amount of our stated capital, or (2) if we have no such surplus, out of our net profits for the fiscal year in which the dividend is declared and/or the preceding fiscal year; provided, that, if our capital is less than the aggregate amount of the stated capital represented by the issued and outstanding shares of all classes having a preference upon the distribution of assets, we may not pay dividends out of such net profits until the deficiency in the amount of stated capital represented by the issued and outstanding shares of all classes having a preference upon the distribution of assets shall have been repaired. If we issue preferred stock, the holders thereof may have a priority over the holders of our common stock with respect to dividends.

Voting Rights

The holders of our common stock are generally entitled to one vote per share. Holders of our common stock are not entitled to cumulate their votes in the election of directors.

Liquidation

In the event of our liquidation, dissolution or winding up, the holders of our common stock would be entitled to receive, after payment or provision for payment of all our debts and liabilities and the holders of any preferred stock, all of our assets available for distribution.

No Preemptive or Redemption Rights

Holders of our common stock are not entitled to preemptive rights with respect to any shares that may be issued. The common stock is not subject to redemption.

Provisions in Our Certificate of Incorporation, Our Bylaws and Federal Law Affecting Our Shareholders

Our certificate of incorporation and bylaws contain a number of provisions relating to corporate governance and rights of shareholders that might discourage future takeover attempts. As a result, shareholders who might desire to participate in such transactions may not have an opportunity to do so. In addition, these provisions will also render the removal of our board of directors or management more difficult. Such provisions include, among others, the requirement of a supermajority vote of shareholders to approve certain business combinations and other corporate actions, special procedural rules for certain business combinations, a classified board of directors, restrictions on the calling of special meetings of shareholders that do not provide for the calling of special meetings by the shareholders, and a provision in our certificate of incorporation allowing the board of directors to oppose a tender or other offer for our securities, including through the issuance of authorized but unissued securities or treasury stock or granting stock options, based on a wide range of considerations. The foregoing is qualified in its entirety by reference to our certificate of incorporation and bylaws, both of which are on file with the SEC.

Table of Contents

The Bank Holding Company Act generally would prohibit any company that is not engaged in financial activities and activities that are permissible for a bank holding company or a financial holding company from acquiring control of us. "Control" is generally defined as ownership of 25% or more of the voting stock or other exercise of a controlling influence. In addition, any existing bank holding company would need the prior approval of the Federal Reserve before acquiring 5% or more of our voting stock. The Change in Bank Control Act of 1978, as amended, prohibits a person or group of persons from acquiring control of a bank holding company unless the Federal Reserve has been notified and has not objected to the transaction. Under a rebuttable presumption established by the Federal Reserve, the acquisition of 10% or more of a class of voting stock of a bank holding company with a class of securities registered under Section 12 of the Exchange Act, such as us, could constitute acquisition of control of the bank holding company.

Description of Preferred Stock

The following summary contains a description of the general terms of the preferred stock that we may issue. The specific terms of any series of preferred stock will be described in the prospectus supplement relating to that series of preferred stock. The terms of any series of preferred stock may differ from the terms described below. Certain provisions of the preferred stock described below and in any prospectus supplement are not complete. You should refer to the amendment to our certificate of incorporation or the certificate of amendment pursuant to applicable New York State law with respect to the establishment of a series of preferred stock which will be filed with the SEC in connection with the offering of such series of preferred stock.

General

Our certificate of incorporation permits our board of directors to authorize the issuance of up to 2,000,000 shares of preferred stock, par value \$0.01, in one or more series, without stockholder action. The board of directors can fix the number of shares to be included in each such series, and the designation, powers, preferences, and rights of the shares of each such series and any qualifications, limitations or restrictions thereof. Therefore, without stockholder approval, our board of directors can authorize the issuance of preferred stock with voting, dividend, liquidation and conversion and other rights that could dilute the voting power of the common stock and may assist management in impeding any unfriendly takeover or attempted change in control. None of our preferred stock is currently outstanding.

The preferred stock has the terms described below unless otherwise provided in the prospectus supplement relating to a particular series of the preferred stock. You should read the prospectus supplement relating to the particular series of the preferred stock being offered for specific terms, including:

- the designation and stated value per share of the preferred stock and the number of shares offered;

- the amount of liquidation preference per share;

- the price at which the preferred stock will be issued;

- the dividend rate, or method of calculation, the dates on which dividends will be payable, whether dividends will be cumulative or noncumulative and, if cumulative, the dates from which dividends will commence to accumulate;

- any redemption or sinking fund provisions;

- any conversion provisions; and

- any other rights, preferences, privileges, limitations and restrictions on the preferred stock.

The preferred stock will, when issued, be fully paid and nonassessable. Unless otherwise specified in the prospectus supplement, each series of the preferred stock will rank equally as to dividends and liquidation rights in

Table of Contents

all respects with each other series of preferred stock. The rights of holders of shares of each series of preferred stock will be subordinate to those of our general creditors.

We may, at our option, with respect to any series of the preferred stock, elect to offer fractional interests in shares of preferred stock, which we call depositary shares. See “*Description of Depositary Shares*,” below.

Rank

Any series of the preferred stock will, with respect to the priority of the payment of dividends and the priority of payments upon liquidation, winding up and dissolution, rank:

- senior to all classes of common stock and all equity securities issued by us the terms of which specifically provide that the equity securities will rank junior to the preferred stock (the junior securities);

- equally with all equity securities issued by us the terms of which specifically provide that the equity securities will rank equally with the preferred stock (the parity securities); and

- junior to all equity securities issued by us the terms of which specifically provide that the equity securities will rank senior to the preferred stock.

Dividends

Holders of the preferred stock of each series will be entitled to receive, when, as and if declared by our board of directors, cash dividends at such rates and on such dates described, if any, in the prospectus supplement. Different series of preferred stock may be entitled to dividends at different rates or based on different methods of calculation. The dividend rate may be fixed or variable or both. Dividends will be payable to the holders of record as they appear on our stock books on record dates fixed by our board of directors, as specified in the applicable prospectus supplement.

Dividends on any series of the preferred stock may be cumulative or noncumulative, as described in the applicable prospectus supplement. If our board of directors does not declare a dividend payable on a dividend payment date on any series of noncumulative preferred stock, then the holders of that noncumulative preferred stock will have no right to receive a dividend for that dividend payment date, and we will have no obligation to pay the dividend accrued for

that period, whether or not dividends on that series are declared payable on any future dividend payment dates. Dividends on any series of cumulative preferred stock will accrue from the date we initially issue shares of such series or such other date specified in the applicable prospectus supplement.

No full dividends may be declared or paid or funds set apart for the payment of any dividends on any parity securities unless dividends have been paid or set apart for payment on the preferred stock. If full dividends are not paid, the preferred stock will share dividends pro rata with the parity securities. No dividends may be declared or paid or funds set apart for the payment of dividends on any junior securities unless full cumulative dividends for all dividend periods terminating on or prior to the date of the declaration or payment will have been paid or declared and a sum sufficient for the payment set apart for payment on the preferred stock.

Our ability to pay dividends on our preferred stock is limited by the New York State Business Corporation Law.

Rights Upon Liquidation

If we dissolve, liquidate or wind up our affairs, either voluntarily or involuntarily, the holders of each series of preferred stock will be entitled to receive, before any payment or distribution of assets is made to holders of junior securities, liquidating distributions in the amount described in the prospectus supplement relating to that series of the preferred stock, plus an amount equal to accrued and unpaid dividends and, if the series of the preferred stock is cumulative, for all dividend periods prior to that point in time. If the amounts payable with respect to the preferred stock of any series and any other parity securities are not paid in full, the holders of the preferred stock of that series and of the parity securities will share proportionately in the distribution of our assets in proportion to the

Table of Contents

full liquidation preferences to which they are entitled. After the holders of preferred stock and the parity securities are paid in full, they will have no right or claim to any of our remaining assets.

Because we are a bank holding company, our rights, the rights of our creditors and of our stockholders, including the holders of the preferred stock offered by this prospectus, to participate in the assets of any subsidiary upon the subsidiary's liquidation or recapitalization may be subject to the prior claims of the subsidiary's creditors except to the extent that we may ourselves be a creditor with recognized claims against the subsidiary.

Redemption

We may provide that a series of the preferred stock may be redeemable, in whole or in part, at our option. In addition, a series of preferred stock may be subject to mandatory redemption pursuant to a sinking fund or otherwise. The redemption provisions that may apply to a series of preferred stock, including the redemption dates and the redemption prices for that series, will be described in the prospectus supplement.

In the event of partial redemptions of preferred stock, whether by mandatory or optional redemption, our board of directors will determine the method for selecting the shares to be redeemed, which may be by lot or pro rata or by any other method determined to be equitable.

On or after a redemption date, unless we default in the payment of the redemption price, dividends will cease to accrue on shares of preferred stock called for redemption. In addition, all rights of holders of the shares will terminate except for the right to receive the redemption price.

Unless otherwise specified in the applicable prospectus supplement for any series of preferred stock, if any dividends on any other series of preferred stock ranking equally as to payment of dividends and liquidation rights with such series of preferred stock are in arrears, no shares of any such series of preferred stock may be redeemed, whether by mandatory or optional redemption, unless all shares of preferred stock are redeemed, and we will not purchase any shares of such series of preferred stock. This requirement, however, will not prevent us from acquiring such shares pursuant to a purchase or exchange offer made on the same terms to holders of all such shares outstanding.

Voting Rights

Unless otherwise described in the applicable prospectus supplement, holders of the preferred stock will have no voting rights except as otherwise required by law or in our certificate of incorporation.

Exchangeability

The terms on which shares of preferred stock of any series may be converted into or exchanged for another class or series of securities will be described in the applicable prospectus supplement.

Unless otherwise indicated in a prospectus supplement, each series of preferred stock may be deposited with, or on behalf of, DTC or any successor depository and represented by one or more global securities registered in the name of Cede & Co., as nominee of DTC. The interests of beneficial owners in the global securities will be represented through financial institutions acting on their behalf as direct or indirect participants in DTC. See “*Global Securities*” for the procedures for transfer of interests in securities held in global form.

Description of Depositary Shares

General

We may, at our option, elect to offer depositary shares, which represent an interest in fractional shares of preferred stock, rather than full shares of preferred stock. If we do, we will issue to the public receipts, called depositary receipts, for depositary shares, each of which will represent a fraction, to be described in the prospectus supplement, of a share of a particular series of preferred stock.

The shares of any series of preferred stock represented by depositary shares will be deposited with a depository named in the prospectus supplement. Unless otherwise provided in the prospectus supplement, each owner of a depositary share will be entitled, in proportion to the applicable fractional interest in a share of preferred

Table of Contents

stock represented by the depositary share, to all the rights and preferences of the preferred stock represented by the depositary share. Those rights include dividend, voting, redemption, conversion and liquidation rights.

Dividends and Other Distributions

The depositary will distribute all cash dividends or other cash distributions received in respect of the preferred stock to the record holders of depositary shares in proportion to the numbers of depositary shares owned by those holders.

If there is a distribution other than in cash, the depositary will distribute property received by it to the record holders of depositary shares, unless the depositary determines that it is not feasible to make the distribution. If this occurs, the depositary may, with our approval, sell the property and distribute the net proceeds from the sale to the holders.

Withdrawal of Stock

Unless the related depositary shares have been previously called for redemption, upon surrender of the depositary receipts at the office of the depositary, the holder of the depositary shares will be entitled to delivery, at the office of the depositary to or upon his or her order, of the number of whole shares of the preferred stock and any money or other property represented by the depositary shares. If the depositary receipts delivered by the holder evidence a number of depositary shares in excess of the number of depositary shares representing the number of whole shares of preferred stock to be withdrawn, the depositary will deliver to the holder at the same time a new depositary receipt evidencing the excess number of depositary shares. In no event will the depositary deliver fractional shares of preferred stock upon surrender of depositary receipts.

Redemption of Depositary Shares

Whenever we redeem shares of preferred stock held by the depositary, the depositary will redeem as of the same redemption date the number of depositary shares representing shares of the preferred stock so redeemed, so long as we have paid in full to the depositary the redemption price of the preferred stock to be redeemed plus an amount equal to any accumulated and unpaid dividends on the preferred stock to the date fixed for redemption. The redemption price per depositary share will be equal to the redemption price and any other amounts per share payable on the preferred stock multiplied by the fraction of a share of preferred stock represented by one depositary share. If less than all the depositary shares are to be redeemed, the depositary shares to be redeemed will be selected by lot or pro rata or by any other equitable method as may be determined by the depositary.

After the date fixed for redemption, depositary shares called for redemption will no longer be deemed to be outstanding and all rights of the holders of depositary shares will cease, except the right to receive the moneys payable upon redemption and any money or other property to which the holders of the depositary shares were entitled upon redemption upon surrender to the depositary of the depositary receipts evidencing the depositary shares.

Voting the Depositary Shares

Upon receipt of notice of any meeting at which the holders of the preferred stock are entitled to vote, the depositary will mail the information contained in the notice of meeting to the record holders of the depositary receipts relating to that preferred stock. The record date for the depositary receipts relating to the preferred stock will be the same date as the record date for the preferred stock. Each record holder of the depositary shares on the record date will be entitled to instruct the depositary as to the exercise of the voting rights pertaining to the number of shares of preferred stock represented by that holder's depositary shares. The depositary will endeavor, insofar as practicable, to vote the number of shares of preferred stock represented by the depositary shares in accordance with those instructions, and we will agree to take all action which may be deemed necessary by the depositary in order to enable the depositary to do so. The depositary will not vote any shares of preferred stock except to the extent it receives specific instructions from the holders of depositary shares representing that number of shares of preferred stock.

Table of Contents

Charges of Depositary

We will pay all transfer and other taxes and governmental charges arising solely from the existence of the depositary arrangements. We will pay charges of the depositary in connection with the initial deposit of the preferred stock and any redemption of the preferred stock. Holders of depositary receipts will pay other transfer and other taxes and governmental charges and such other charges as are expressly provided in the deposit agreement to be for their accounts.

Resignation and Removal of Depositary

The depositary may resign at any time by delivering to us notice of its election to do so, and we may remove the depositary at any time. Any resignation or removal of the depositary will take effect upon our appointment of a successor depositary and its acceptance of such appointment. The successor depositary must be appointed within 60 days after delivery of the notice of resignation or removal and must be a bank or trust company having its principal office in the United States and having a combined capital and surplus of at least \$50,000,000.

Notices

The depositary will forward to holders of depositary receipts all notices, reports and other communications, including proxy solicitation materials received from us, which are delivered to the depositary and which we are required to furnish to the holders of the preferred stock.

Limitation of Liability

Neither we nor the depositary will be liable if either of us is prevented or delayed by law or any circumstance beyond our control in performing our obligations. Our obligations and those of the depositary will be limited to performance in good faith of our and their duties thereunder. We and the depositary will not be obligated to prosecute or defend any legal proceeding in respect of any depositary shares or preferred stock unless satisfactory indemnity is furnished. We and the depositary may rely upon written advice of counsel or accountants, on information provided by persons presenting preferred stock for deposit, holders of depositary receipts or other persons believed to be competent and on documents believed to be genuine.

Description of Purchase Contracts

We may issue purchase contracts, including purchase contracts issued as part of a unit with one or more other securities, for the purchase or sale of our debt securities, preferred stock, depositary shares or common stock. The price of our debt securities or price per share of common stock, preferred stock or depositary shares, as applicable, may be fixed at the time the purchase contracts are issued or may be determined by reference to a specific formula contained in the purchase contracts. We may issue purchase contracts in such amounts and in as many distinct series as we wish.

Table of Contents

The applicable prospectus supplement may contain, where applicable, the following information about the purchase contracts issued under it:

· whether the purchase contracts obligate the holder to purchase or sell, or both, our debt securities, common stock, preferred stock or depositary shares, as applicable, and the nature and amount of each of those securities, or method of determining those amounts;

The preceding description and any description of purchase contracts in the applicable prospectus supplement does not purport to be complete and is subject to and is qualified in its entirety by reference to the purchase contract agreement and, if applicable, collateral arrangements and depositary arrangements relating to such purchase contracts.

Description of Units

We may issue units comprised of two or more of the other securities described in this prospectus in any combination. Each unit will be issued so that the holder of the unit is also the holder of each security included in the unit. Thus, the holder of a unit will have the rights and obligations of a holder of each included security. The unit agreement under which a unit is issued may provide that the securities included in the unit may not be held or transferred separately, at any time or at any time before a specified date.

The applicable prospectus supplement may describe:

the designation and terms of the units and of the securities comprising the units, including whether and under what circumstances those securities may be held or transferred separately;

any provisions for the issuance, payment, settlement, transfer or exchange of the units or of the securities comprising the units;

the terms of the unit agreement governing the units;

United States federal income tax considerations relevant to the units; and

whether the units will be issued in fully registered or global form.

The preceding description and any description of units in the applicable prospectus supplement does not purport to be complete and is subject to and is qualified in its entirety by reference to the form of unit agreement which will be filed with the SEC in connection with the offering of such units, and, if applicable, collateral arrangements and depositary arrangements relating to such units.

GLOBAL SECURITIES

Unless otherwise indicated in the applicable prospectus supplement, securities other than common stock will be issued in the form of one or more global certificates, or “global securities,” registered in the name of a depositary or its nominee. Unless otherwise indicated in the applicable prospectus supplement, the depositary will

be DTC and the securities will be registered in the name of Cede & Co. No person that acquires a beneficial interest in those securities will be entitled to receive a certificate representing that person's interest in the securities except as described herein or in the applicable prospectus supplement. Unless and until definitive securities are issued under the limited circumstances described below, all references to actions by holders of securities issued in global form will refer to actions taken by DTC upon instructions from its participants, and all references to payments and notices to holders will refer to payments and notices to DTC or Cede & Co., as the registered holder of these securities.

DTC is a limited-purpose trust company organized under the New York Banking Law, a "banking organization" within the meaning of the New York Banking Law, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code, and a "clearing agency" registered pursuant to the provisions of Section 17A of the Exchange Act. DTC holds securities that DTC participants deposit with DTC. DTC also facilitates the settlement among DTC participants of securities transactions, such as transfers and pledges, in deposited securities through electronic computerized book-entry changes in DTC participants' accounts, thereby eliminating the need for physical movement of certificates. DTC participants include securities brokers and dealers, banks, trust companies and clearing corporations, and may include other organizations. DTC is a wholly owned subsidiary of the Depository Trust & Clearing Corporation, or DTCC. DTCC, in turn, is owned by a number of DTC's participants and subsidiaries of DTCC as well as by the New York Stock Exchange, Inc., the American Stock Exchange, LLC and the Financial Industry Regulatory Authority, Inc. Indirect access to the DTC system also is available to others such as banks, brokers, dealers and trust companies that clear through or maintain a custodial relationship with a participant, either directly or indirectly. The rules applicable to DTC and DTC participants are on file with the SEC.

Persons that are not participants or indirect participants but desire to purchase, sell or otherwise transfer ownership of, or other interests in, securities may do so only through participants and indirect participants. Under a book-entry format, holders may experience some delay in their receipt of payments, as such payments will be forwarded by our designated agent to Cede & Co., as nominee for DTC. DTC will forward such payments to its participants, who will then forward them to indirect participants or holders. Holders will not be recognized by the relevant registrar, transfer agent, trustee or warrant agent as registered holders of the securities entitled to the benefits of our certificate of incorporation or the applicable indenture, warrant agreement or other applicable security. Beneficial owners that are not participants will be permitted to exercise their rights only indirectly through and according to the procedures of participants and, if applicable, indirect participants.

Under the rules, regulations and procedures creating and affecting DTC and its operations as currently in effect, DTC will be required to make book-entry transfers of securities among participants and to receive and transmit payments to participants. DTC rules require participants and indirect participants with which beneficial securities owners have accounts to make book-entry transfers and receive and transmit payments on behalf of their respective account holders.

Because DTC can act only on behalf of participants, who in turn act only on behalf of participants or indirect participants, and certain banks, trust companies and other persons approved by it, the ability of a beneficial owner of

securities issued in global form to pledge such securities to persons or entities that do not participate in the DTC system may be limited due to the unavailability of physical certificates for these securities.

DTC will take any action permitted to be taken by a registered holder of any securities under our certificate of incorporation or the relevant indenture, warrant agreement, or other applicable security only at the direction of one or more participants to whose accounts with DTC such securities are credited.

Unless otherwise indicated in the applicable prospectus supplement, a global security will be exchangeable for the relevant definitive securities registered in the names of persons other than DTC or its nominee only if:

§ DTC notifies us that it is unwilling or unable to continue as depositary for that global security or if DTC ceases to be a clearing agency registered under the Exchange Act when DTC is required to be so registered;

we execute and deliver to the relevant registrar, transfer agent, trustee and/or warrant agent an order complying with § the requirements of the applicable indenture, warrant agreement, or other security that the global security will be exchangeable for definitive securities in registered form; or

there has occurred and is continuing a default in the payment of any amount due in respect of the securities or, in the case of debt securities, an event of default or an event that, with the giving of notice or lapse of time, or both, would constitute an event of default with respect to these debt securities.

Any global security that is exchangeable under the preceding sentence will be exchangeable for securities registered in such names as DTC directs.

Upon the occurrence of any event described in the preceding paragraph, DTC is generally required to notify all participants of the availability of definitive securities. Upon DTC surrendering the global security representing the securities and delivery of instructions for re-registration, the registrar, transfer agent, trustee or warrant agent, as the case may be, will reissue the securities as definitive securities, and then such persons will recognize the holders of such definitive securities as registered holders of securities entitled to the benefits of our certificate of incorporation or the relevant indenture, warrant agreement or other security.

Redemption notices will be sent to Cede & Co. as the registered holder of the global securities. If less than all of a series of securities are being redeemed, DTC will determine the amount of the interest of each direct participant to be redeemed in accordance with its then current procedures.

Except as described above, the global security may not be transferred except as a whole by DTC to a nominee of DTC or by a nominee of DTC to DTC or another nominee of DTC or to a successor depository we appoint. Except as described above, DTC may not sell, assign, transfer or otherwise convey any beneficial interest in a global security evidencing all or part of any securities unless the beneficial interest is in an amount equal to an authorized denomination for these securities.

The information in this section concerning DTC and DTC's book-entry system has been obtained from sources that we believe to be accurate, but we assume no responsibility for the accuracy thereof. None of us, any trustees, any registrar and transfer agent or any warrant agent, or any agent of any of them, will have any responsibility or liability for any aspect of DTC's or any participant's records relating to, or for payments made on account of, beneficial interests in a global security, or for maintaining, supervising or reviewing any records relating to such beneficial interests.

Secondary trading in notes and debentures of corporate issuers is generally settled in clearing-house or next-day funds. In contrast, beneficial interests in a global security, in some cases, may trade in the DTC's same-day funds settlement system, in which secondary market trading activity in those beneficial interests would be required by DTC to settle in immediately available funds. There is no assurance as to the effect, if any, that settlement in immediately available funds would have on trading activity in such beneficial interests. Also, settlement for purchases of beneficial interests in a global security upon the original issuance of the security may be required to be made in immediately available

funds.

Agents and underwriters may be customers of, engage in transactions with, or perform services for us in the ordinary course of business.

We may enter into derivative transactions with third parties, or sell securities not covered by this prospectus to third parties in privately negotiated transactions. If the applicable prospectus supplement indicates in connection with those derivatives then the third parties may sell securities covered by this prospectus and the applicable prospectus supplement, including in short sale transactions. If so, the third party may use securities pledged by us or borrowed from us or others to settle those sales or to close out any related open borrowings of stock, and may use securities received from us in settlement of those derivatives to close out any related open borrowings of securities.
