Civitas Solutions, Inc.
Notes to Condensed Consolidated Financial Statements
June 30, 2018
(Unaudited)

1. Business Overview

Civitas Solutions, Inc. ("Civitas"), through its wholly-owned subsidiaries (collectively, the "Company"), is the leading provider of home- and community-based health and human services to adults and children with intellectual and/or developmental disabilities, acquired brain injury and other catastrophic injuries and illnesses; and to youth with emotional, behavioral and/or medically complex challenges. Since the Company's founding in 1980, the Company has evolved into a diversified national network providing an array of high-quality services and care in large, growing and highly-fragmented markets. The Company currently provides services to individuals with intellectual and/or developmental disabilities ("I/DD"), individuals with catastrophic injuries and illnesses, particularly acquired brain injury ("ABI"), youth with emotional, behavioral and/or medically complex challenges, or at-risk youth ("ARY"), and elders in need of day health services to support their independence, or adult day health ("ADH"). As of June 30, 2018, the Company operated in 36 states, serving approximately 12,500 individuals in residential settings and 19,000 individuals in non-residential settings.

The Company designs customized service plans to meet the individual needs of those served by the Company, which it delivers in home- and community-based settings. Most of the Company's service plans involve residential support, typically in small group homes, host home settings, or specialized community facilities, designed to improve the quality of life of the individuals served by the Company and to promote their independence and participation in community life. Other services offered include supported living, day and transitional programs, vocational services, case management, family-based and outpatient therapeutic services, post-acute treatment and neurorehabilitation, neurobehavioral rehabilitation and physical, occupational and speech therapies, among others. The Company's customized service plans offer individuals as well as the payors of these services, an attractive, cost-effective alternative to health and human services provided in large, institutional settings.

Civitas is the parent of a consolidated group of subsidiaries that market their services under The MENTOR Network tradename. NMH Holdings, LLC ("NMHH") is a wholly owned subsidiary of Civitas and National Mentor Holdings, Inc. ("NMHI") is a wholly owned subsidiary of NMHH. The financial results of Civitas are primarily composed of the financial results of NMHI and its subsidiaries on a consolidated basis.

2. Significant Accounting Policies

Basis of Presentation

The accompanying unaudited condensed consolidated financial statements have been prepared by the Company in accordance with generally accepted accounting principles ("GAAP") for interim financial information and pursuant to the applicable rules and regulations of the Securities and Exchange Commission ("SEC"). Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements. The unaudited condensed consolidated financial statements herein should be read in conjunction with the Company's audited consolidated financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the fiscal year ended September 30, 2017, which is on file with the SEC. In the opinion of management, the accompanying unaudited condensed consolidated financial statements contain all adjustments, consisting of normal and recurring adjustments, necessary to present fairly the financial statements in accordance with GAAP.

Intercompany balances and transactions between the Company and its subsidiaries have been eliminated in consolidation. Operating results for the three and nine months ended June 30, 2018 may not necessarily be indicative of results to be expected for any other interim period or for the full year.

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Adoption of New Accounting Pronouncements

Stock Compensation—The Company adopted the guidance in Accounting Standards Update ("ASU") No. 2016-09 Compensation - Stock Compensation - Improvements to Employee Share-Based Payments Accounting, on October 1, 2017. Under this standard, entities are permitted to make an accounting policy election to either estimate forfeitures on share-based payment awards, as previously required, or to recognize forfeitures as they occur. The Company has elected to recognize forfeitures as they occur and the impact of that change in accounting policy has been recorded as a \$0.2 million cumulative effect adjustment to increase accumulated deficit as of October 1, 2017.

ASU No. 2016-09 requires that all income tax effects related to settlements of share-based payment awards be reported in earnings as an increase (or decrease) to income tax expense (benefit). Previously, income tax benefits at settlement of an award were reported as an increase (or decrease) to additional paid-in capital to the extent that those benefits were greater than (or less than) the income tax benefits reported in earnings during the award's vesting period. The requirement to report those income tax effects in earnings has been applied on a prospective basis to settlements occurring on or after October 1, 2017, and the impact of applying the guidance was not material to the consolidated financial statements for the three and nine months ended June 30, 2018. Application of the guidance may result in fluctuations in the Company's effective tax rate depending on how many options are exercised, how many restricted stock units vest and the volatility of the Company's stock price.

ASU No. 2016-09 also requires that all income tax-related cash flows resulting from share-based payments be reported as operating activities in the statement of cash flows. Previously, income tax benefits at settlement of an award were reported as a reduction to operating cash flows and an increase to financing cash flows to the extent that those benefits exceeded the income tax benefits reported in earnings during the award's vesting period. The Company has elected to apply the changes in cash flow classification on a prospective basis.

Income Taxes— In March 2018, the FASB issued ASU No. 2018-05—Income Taxes (Topic 740): Amendments to SEC Paragraphs Pursuant to SEC Staff Accounting Bulletin No. 118 (ASU 2018-05). The update provides guidance associated with the accounting and disclosures around the enactment of the Act and the Securities and Exchange Commission's Staff Accounting Bulletin No. 118, Income Tax Accounting Implications of the Tax Cuts and Jobs Act ("SAB 118"). This guidance was effective upon issuance and has been applied to the condensed consolidated financial statements and related disclosures beginning in the second quarter of fiscal 2018, see Note 10 for the disclosures related to this amended guidance.

3. Recent Accounting Pronouncements

Revenue from Contracts with Customers— In May 2014, the Financial Accounting Standards Board ("FASB") issued ASU No. 2014-09, Revenue from Contracts with Customers Topic 606 (ASU 2014-09), which supersedes nearly all existing revenue recognition guidance under U.S. GAAP. The core principle of ASU 2014-09 is to recognize revenues when promised goods or services are transferred to customers in an amount that reflects the consideration to which an entity expects to be entitled for those goods or services. ASU 2014-09 defines a five step process to achieve this core principle and, in doing so, more judgment and estimates may be required within the revenue recognition process than are required under existing U.S. GAAP including identifying performance obligations in the contract, estimating the amount of variable consideration to include in the transaction price and allocating the transaction price to each separate performance obligation. The FASB has subsequently issued amendments to ASU No. 2014-09 that have the same effective date and transition date. ASU 2014-09, as amended, is effective for the Company's fiscal year beginning October 1, 2018, and, at that time, the Company will adopt the new standard under the modified retrospective approach for contracts with customers. Under the modified retrospective approach, the guidance is applied to the most current period presented, recognizing the cumulative effect of the adoption change as an adjustment to beginning retained earnings. In fiscal 2017, the Company established a formal program and cross-functional implementation team to identify, design and implement changes to its accounting systems and policies and internal controls to support recognition and disclosure under the new standard. This process included a review of the requirements under the new standard compared to the current accounting policies for each of the Company's revenue streams. As of the end of the third quarter of fiscal 2018, the Company substantially completed its review and does not expect a material impact on its consolidated financial statements upon implementation on October 1, 2018. The Company is currently preparing to implement changes to accounting policies and controls to

support the new revenue recognition and disclosure requirements, which will be finalized during the fourth quarter of fiscal 2018.

Leases— In February 2016, the FASB issued ASU No. 2016-02—Leases (Topic 842) (ASU 2016-02). The new standard requires that all lessees recognize the assets and liabilities that arise from leases on the balance sheet and disclose qualitative and quantitative information about its leasing arrangements. The standard will be effective for the Company on October 1, 2019. In July 2018, the FASB issued ASU No. 2018-11—Leases (Topic 842): Targeted Improvements (ASU 2018-11). Prior to ASU 2018-11, a modified retrospective transition was required for financing or operating leases existing at or

entered into after the beginning of the earliest comparative period presented in the financial statements. ASU 2018-11 allows entities an additional transition method to the existing requirements whereby an entity could adopt the provisions of ASU 2016-02 by recognizing a cumulative-effect adjustment to the opening balance of retained earnings in the period of adoption without adjustment to the financial statements for periods prior to adoption. The Company is still evaluating the method of adoption. The adoption of this standard is expected to have a material impact on the Company's financial position. As of June 30, 2018, the Company had gross operating lease commitments of approximately \$361 million. Upon adoption, a substantial portion of these lease commitments will be recorded at their net present value as a right of use asset and a lease obligation.

Statement of Cash Flows— In November 2016, the FASB issued ASU No. 2016-18—Statement of Cash Flows (Topic 230): Restricted Cash. The update requires that a statement of cash flows present the change during the period in the total of cash, cash equivalents, and amounts generally described as restricted cash or restricted cash equivalents. Therefore, amounts generally described as restricted cash and restricted cash equivalents should be included with cash and cash equivalents when reconciling the beginning-of-period and end-of-period total amounts shown on the statement of cash flows. The new standard will be applied using a retrospective transition method to each period presented and will be effective for the Company on October 1, 2018. As of June 30, 2018 and September 30, 2017, the Company had total restricted cash of \$50.3 million.

Business Combinations— In January 2017, the FASB issued ASU No. 2017-01—Business Combinations (Topic 805): Clarifying the Definition of a Business. The update provides guidance to determine when an integrated set of assets and activities is not a business. When substantially all of the fair value of the gross assets acquired, or disposed of, is concentrated in a single identifiable asset or a group of similar identifiable assets, then the acquisition, or disposition, is not a business. The amendments in this update should be applied prospectively on or after the effective date. No disclosures are required at transition. The new standard will be effective for the Company on October 1, 2018. Early application of the amendments in this update is permitted for transactions meeting certain criteria. This standard could reduce the number of acquisitions that are treated as business combinations in the future.

4. Long-Term Debt

As of June 30, 2018 and September 30, 2017, the Company's long-term debt consisted of the following:

(in thousands)	June 30, 2018	September 30, 2017
Term loan principal; principal and interest are due in quarterly installments through January 31, 2021	\$701,978	\$ 632,476
Original issue discount on term loan, net of accumulated amortization	(1,130)	(901)
Deferred financing costs, net of accumulated amortization	(4,042)	(5,122)
Senior secured revolving credit facility	9,500	—
	706,306	626,453
Less current portion of the term loan	7,331	6,554
Less current portion of the senior secured revolving credit facility; matures on January 31, 2019	4,156	—
Long-term debt	\$694,819	\$ 619,899
Senior Secured Credit Facilities		

NMHI's senior credit agreement (the "senior credit agreement"), as amended, governs a \$730.0 million (original \$655.0 million term loan plus a \$75.0 million incremental term loan funded on October 25, 2017) Tranche B term loan facility (the "term loan facility"), of which \$50.0 million was deposited in a cash collateral account in support of the issuance of letters of credit under an institutional letter of credit facility (the "institutional letter of credit facility"), and a \$160.0 million senior secured revolving credit facility (the "senior revolver"). The term loan facility matures on January 31, 2021, a portion of the commitments under the senior revolver matures on January 31, 2019 and a portion of the commitments under the senior revolver matures on January 31, 2021, as described below. All of the obligations under

the senior secured credit facilities are guaranteed by NMHH and the subsidiary guarantors named therein. The senior credit agreement provides that NMHI may make one or more offers to the lenders, and consummate transactions with individual lenders that accept the terms contained in such offers, to extend the maturity date of the lender's term loans and/or revolving commitments, subject to certain conditions, and any extended term loans or revolving commitments will constitute a separate class of term loans or revolving commitments.

On October 24, 2017, NMHI entered into Amendment No. 6 to its senior credit agreement which provided for an incremental \$75.0 million term loan. The net proceeds of the incremental term loan were used by the Company for the acquisition of Mentis Neuro Rehabilitation, LLC, with any excess proceeds used for general corporate purposes.

On November 21, 2017, NMHI entered into Amendment No. 7 to its senior credit agreement which increased the aggregate revolving commitments from \$120.0 million to \$160.0 million and extended the maturity date for \$90.0 million of the revolving commitments (the "Extended Revolving Commitments") to January 31, 2021. The terms of the remaining \$70.0 million of the revolving commitments (the "Initial Revolving Commitments"), which mature on January 31, 2019, remain unchanged. All of the other terms of the Extended Revolving Commitments are identical to the Initial Revolving Commitments, except that the applicable margin for the Extended Revolving Commitments will decrease by 0.25% per annum when the Initial Revolving Commitments are terminated or expire.

The senior revolver includes borrowing capacity available for letters of credit and for borrowings on same-day notice, referred to as the "swingline loans." Any issuance of letters of credit or borrowing on a swingline loan will reduce the amount available under the senior revolver. As of June 30, 2018, NMHI had \$702.0 million of borrowings outstanding under the term loan facility, \$9.5 million of borrowings outstanding under the senior revolver, \$48.5 million of letters of credit issued under the institutional letter of credit facility and \$2.9 million of standby letters of credit under the senior revolver.

Borrowings under the term loan facility bear interest, at our option, at: (i) an alternate base rate ("ABR") equal to the greater of (a) the prime rate of Barclays Bank PLC, (b) the federal funds rate plus 1/2 of 1.0%, and (c) the Eurodollar rate for an interest period of one-month plus 100 basis points (provided that the ABR applicable to the term loan facility will not be less than 2.00% per annum), plus 2.00%; or (ii) the Eurodollar rate (provided that the Eurodollar rate applicable to the term loan facility will not be less than 0.75% per annum), plus 3.00%. Borrowings under the revolving and swingline loans bear interest at our option at (i) an ABR equal to the greater of (a) the prime rate of Barclays Bank PLC, (b) the federal funds rate plus 1/2 of 1.0%, and (c) the Eurodollar rate for an interest period of one-month plus 100 basis points (provided that the ABR applicable to the term loan facility will not be less than 2.00% per annum), plus 2.25%; or (ii) the Eurodollar rate (provided that the Eurodollar rate applicable to the term loan facility will not be less than 0.75% per annum), plus 3.25%. NMHI is also required to pay a commitment fee to the lenders under the senior revolver at an initial rate of 0.50% of the average daily unutilized commitments thereunder. NMHI must also pay customary letter of credit fees.

The senior credit agreement requires NMHI to make mandatory prepayments, subject to certain exceptions, on a percentage of NMHI's annual Excess Cash Flow, as defined in the senior credit agreement. NMHI determines whether or not a mandatory prepayment is required at the end of each fiscal year. NMHI was not required to make a prepayment for the fiscal year ended September 30, 2017.

Covenants

The senior credit agreement contains negative covenants, including, among other things, limitations on the Company's ability to incur additional debt, create liens on assets, transfer or sell assets, pay dividends, redeem stock or make other distributions or investments, and engage in certain transactions with affiliates. The senior credit agreement contains a springing financial covenant. If, at the end of any fiscal quarter, the Company's outstanding borrowings under the senior revolver exceeds 30% of the commitments thereunder, it is required to maintain at the end of each such fiscal quarter a consolidated first lien leverage ratio of not more than 5.00 to 1.00. The springing financial covenant was not in effect as of June 30, 2018 or September 30, 2017 as the Company's usage of the senior revolver did not exceed the threshold for each quarter.

Derivatives

On January 20, 2015, NMHI entered into two interest rate swap agreements in an aggregate notional amount of \$375.0 million in order to reduce the variability of cash flows of the Company's variable rate debt. NMHI entered into these interest rate swaps to hedge the risk of changes in the floating rate of interest on borrowings under the term loan. Under the terms of the swaps, NMHI will receive from the counterparty a quarterly payment based on a rate equal to the greater of 3-month LIBOR or 1.00% per annum, and NMHI will make payments to the counterparty based on a

fixed rate of 1.795% per annum, in each case on the notional amount of \$375.0 million, settled on a net payment basis. The swap agreements expire on March 31, 2020.

The fair value of the swap agreements, which represents the price that would be received to transfer the agreement in an orderly transaction between market participants, was an asset of \$5.8 million and a liability of \$0.2 million as of June 30, 2018 and September 30, 2017, respectively. Based on the timing of the associated cash flows, the fair value was split between current and long-term classification on the Company's consolidated balance sheet in Prepaid expenses and other current assets and Other assets as of June 30, 2018 and in Other accrued liabilities as of September 30, 2017. The fair value was determined

based on pricing models and independent formulas using current assumptions. Hedge ineffectiveness, if any, associated with the swap is recorded as income or expense in the period incurred. During the three and nine months ended June 30, 2018, the ineffective portion of gains resulting from changes in fair value was \$0.1 million and \$0.2 million which was recorded in Other income (expense), net. There was no hedge ineffectiveness recorded during the three and nine months ended June 30, 2017. No amounts were excluded from ineffectiveness testing for the three and nine months ended June 30, 2018 and 2017.

5. Stock-Based Compensation

2014 Plan

Civitas maintains a 2014 Omnibus Incentive Plan (“2014 Plan”). As of June 30, 2018, the 2014 Plan authorized the issuance of up to 7,786,478 shares of common stock as stock-based awards, including incentive stock options (“ISOs”), non-qualified stock options (“NSOs”), restricted stock units (“RSUs”) and performance based restricted stock units (“PRSUs”).

Stock Options

Stock option activity for the nine months ended June 30, 2018 is presented below:

(in thousands, except share and per share amounts)	Number of Shares	Weighted-Average Exercise Price per Share	Weighted-Average Remaining Life (Years)	Aggregate Intrinsic Value (in thousands)
Outstanding at September 30, 2017	877,781	\$ 18.65		
Granted	155,041	18.80		
Exercised	17,608	17.00		
Forfeited	36,381	18.64		
Expired	23,081	19.87		
Outstanding at June 30, 2018	955,752	\$ 18.67	7.6	\$ 13
Exercisable at June 30, 2018	566,980	\$ 18.55	6.8	\$ —
Vested or expected to vest as of June 30, 2018	955,752	\$ 18.67	7.6	\$ 13

The Company utilizes the Black-Scholes valuation model for estimating the fair value of stock options. Options granted under the 2014 Plan during the nine months ended June 30, 2018 were valued using the following assumptions:

	2018
Risk-free interest rate	2.22% - 2.74%
Expected term	6 years
Expected volatility	33.56% - 35.81%
Expected dividend yield	— %

The Company recognizes the fair value of the stock option awards as stock-based compensation expense over the requisite service period of the individual grantee, which equals the vesting period. The total intrinsic values of options exercised was less than \$0.1 million for the nine months ended June 30, 2018. As of June 30, 2018, there was \$1.9 million of unrecognized compensation cost related to unvested stock options. This cost is expected to be recognized over a weighted-average period of 1.8 years.

Restricted Stock Unit Awards (RSUs)

Restricted stock unit activity for the nine months ended June 30, 2018 is presented below:

	Number of Restricted Stock Units	Weighted Average Grant-Date Fair Value
Non-vested units at September 30, 2017	677,406	\$ 19.20
Granted	405,011	18.21
Forfeited	63,764	18.74
Vested	197,105	19.94
Non-vested units at June 30, 2018	821,548	\$ 18.56

The fair value of each restricted stock unit was determined based on the Company's closing stock price on the date of grant. The Company recognizes the fair value of the RSUs as stock-based compensation expense over the requisite service period of the individual grantee, which equals the vesting period. The total fair values of RSUs that vested during the three and nine months ended June 30, 2018 was \$0.1 million and \$3.5 million, respectively. As of June 30, 2018, there was \$10.8 million of unrecognized compensation expense related to unvested restricted stock unit awards. This cost is expected to be recognized over a weighted-average period of 1.9 years.

Performance Based Restricted Stock Units (PRSUs)

During the nine months ended June 30, 2018, the Company awarded 50,834 PRSUs. These PRSUs vest based upon the achievement of established performance targets over the three year performance period which ends September 30, 2020. The number of PRSUs that may vest varies between 0%- 200% based on the achievement of such goals. The PRSUs were valued at \$18.76 per share based on the closing price of the Company's common stock on the date of grant.

To calculate compensation expense, the Company forecasts the likelihood of achieving the predefined performance targets and calculates the number of PRSUs expected to be earned. As of June 30, 2018, the Company expects to recognize \$1.0 million of stock-based compensation expense related to outstanding PRSUs based on the expected attainment levels. This cost is expected to be recognized over a weighted-average period of 2.0 years.

A summary of PRSU activity for the nine months ended June 30, 2018 is as follows:

	Number of Performance Based Restricted Stock Units	Weighted Average Grant-Date Fair Value
Non-vested units at September 30, 2017	84,505	\$ 19.85
Granted	50,834	18.76
Forfeited	—	—
Vested	—	—
Non-vested units at June 30, 2018	135,339	\$ 19.44
Units expected to vest as of June 30, 2018	73,646	\$ 19.09

Stock-based Compensation Expense

The Company recorded stock-based compensation expense for stock options, RSUs and PRSUs under the 2014 Plan of \$2.0 million and \$5.8 million during the three and nine months ended June 30, 2018, respectively, and \$2.2 million and \$6.6 million during the three and nine months ended June 30, 2017, respectively. Stock-based compensation expense is included in general and administrative expense in the consolidated statements of income.

6. Stockholders' Equity

On February 8, 2018, the Company announced that the Board of Directors approved a stock repurchase program under which the Company is authorized to repurchase up to \$25.0 million of the Company's outstanding common stock from time to time in the open market, through negotiated transactions or otherwise (including, without limitation, the use of Rule 10b5-1 plans). The stock repurchase program will expire on August 12, 2018 or the date on which the total repurchase amount has been spent, whichever occurs first. The Company intends to conduct any open market stock repurchase activities in compliance with the safe harbor provisions of Rule 10b-18 of the Exchange Act. During the nine months ended June 30 2018, the Company repurchased 1,351,892 shares for \$19.7 million under the program, which has been implemented through a 10b5-1 plan. As of June 30, 2018, the Company has remaining authorization to repurchase up to \$5.3 million of common stock under the program.

7. Business Combinations

The operating results of the businesses acquired are included in the consolidated statements of income from the date of acquisition. The Company accounted for the acquisitions under the acquisition method and, as a result, the purchase price was allocated to the assets acquired and liabilities assumed based upon their respective fair values. The excess of the purchase price

over the estimated fair value of net tangible assets was allocated to specifically identified intangible assets, with the residual being allocated to goodwill.

Fiscal 2018 Acquisitions

During the nine months ended June 30, 2018, the Company acquired the assets or equity interests of nine companies for total consideration of \$96.4 million, net of \$0.8 million of cash acquired, and including \$1.1 million of contingent consideration.

Mentis Neuro Rehabilitation, LLC (“Mentis”). On October 25, 2017, the Company acquired all of the outstanding membership interests of Mentis for \$74.7 million, net of \$0.8 million of cash acquired. Mentis is located in Texas and provides specialty rehabilitation services to individuals recovering from acquired brain injuries. The Company acquired \$35.3 million of identifiable intangible assets which included approximately \$30.2 million of agency contracts with a weighted average useful life of 12 years, \$3.8 million of licenses and permits with a weighted average useful life of 10 years, and \$0.9 million in tradenames with a weighted average useful life of 5 years. The Company also acquired \$4.9 million of other assets, net of liabilities, consisting primarily of accounts receivable and fixed assets. The estimated fair values of the intangible assets acquired at the date of acquisition were determined based on a preliminary valuation that has yet to be finalized. In addition, the accounting for the acquired deferred tax assets and liabilities is provisional and subject to further refinement as the tax basis of assets acquired and liabilities assumed is finalized. As a result of the acquisition, the Company recorded \$34.5 million of goodwill in the SRS segment, which is not expected to be deductible for tax purposes.

Unique Options, LLC (“Unique”). On December 4, 2017, the Company acquired the assets of Unique for \$5.9 million. Unique is located in Michigan and provides vocational rehabilitation, training and similar services to individuals with acquired brain injuries and similar conditions. The Company acquired \$3.9 million of identifiable intangible assets which included \$3.7 million of agency contracts with a weighted average useful life of 11 years. The estimated fair values of the intangible assets acquired at the date of acquisition were determined based on a preliminary valuation that has yet to be finalized. As a result of this acquisition, the Company recorded \$2.0 million of goodwill in the SRS segment, which is expected to be deductible for tax purposes.

Hartwell Healthcare, LLC, and Polyclinic, LLC (“Aging Well and Living Well”). On April 2, 2018, the Company acquired the assets of Aging Well and Living Well for \$13.2 million. Aging Well and Living Well are located in Massachusetts and provide person-centered day services to elders, including medication management and nutritional and nursing support. The Company acquired \$9.0 million of identifiable intangible assets which included \$8.1 million of agency contracts with a weighted average useful life of 12 years and \$0.9 million of licenses and permits with a weighted average useful life of 10 years. The estimated fair values of the intangible assets acquired at the date of acquisition were determined based on a preliminary valuation that has yet to be finalized. As a result of this acquisition, the Company recorded \$4.1 million of goodwill in the Corporate and Other segment, which is expected to be deductible for tax purposes.

Other Acquisitions. During the nine months ended June 30, 2018, the Company acquired the assets of Powell Life Skills Inc. (“Powell”), Jac-Lin Manor, Inc. (“Jac-Lin”), Dungarvin Wisconsin, LLC (“Dungarvin”), Resources for Human Development, Inc. (“RHD”), Circle of Support, Inc. (“Circle”), and Wexner Heritage Village, Inc. (“Shalom House South”). Total cash consideration for these companies was \$1.6 million and total contingent consideration was \$1.1 million.

The following table summarizes the recognized amounts of identifiable net assets acquired at the date of each acquisition:

(in thousands)	Identifiable Intangible Assets	Other Assets, Net	Total Identifiable Assets	Goodwill	Purchase Consideration
Mentis	\$ 35,300	\$ 4,885	\$ 40,185	\$ 34,502	\$ 74,687
Unique	3,939	22	3,961	1,985	5,946
Aging Well and Living Well	9,035	12	9,047	4,105	13,152
Other acquisitions	2,534	111	2,645	—	2,645
Total	\$ 50,808	\$ 5,030	\$ 55,838	\$ 40,592	\$ 96,430

The Company's consolidated statement of income for the nine months ended June 30, 2018 included revenue totaling approximately \$33.2 million from the acquisition date of each respective acquisition. The Company has not disclosed income from operations because it is immaterial.

Fiscal 2018 Pro Forma Results of Operations

15

The following table reflects the unaudited pro forma results of operations for the three and nine months ended June 30, 2018 and 2017 assuming that the acquisitions made during the three and nine months ended June 30, 2018 and 2017 had occurred on October 1, 2016 and 2015, respectively.

(in thousands) Ended	Three Months		Nine Months Ended	
	June 30,		June 30,	
	2018	2017	2018	2017
Net revenue	\$404,498	\$391,043	\$1,201,302	\$1,160,366
Net income	9,585	10,641	17,343	22,392

The unaudited pro forma information is presented for informational purposes only and is not necessarily indicative of the actual results that would have been achieved had the acquisitions occurred as of October 1, 2016 and 2015, or the results that may be achieved in future periods.

8. Goodwill and Intangible Assets

Goodwill

The changes in goodwill for the nine months ended June 30, 2018 are as follows (in thousands):

Licenses and permits	3 years	58,443	42,234	16,209
		\$656,003	\$342,928	\$313,075

Amortization expense was \$12.8 million and \$39.4 million for the three and nine months ended June 30, 2018, respectively, and \$9.4 million and \$27.4 million for the three and nine months ended June 30, 2017, respectively. Amortization expense for the three and nine months ended June 30, 2018 includes \$1.8 million and \$6.0 million of accelerated amortization related to definite-lived intangible assets associated with the divestitures described in Note 12.

The estimated remaining amortization expense related to intangible assets with finite lives for the three months remaining in fiscal 2018 and each of the four succeeding years and thereafter is as follows:

Year Ended September 30,	(in thousands)
2018	\$ 11,469
2019	43,432
2020	42,359
2021	38,944
2022	37,140
Thereafter	109,986
Total	\$ 283,330

9. Fair Value Measurements

The Company measures and reports its financial assets and liabilities on the basis of fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date.

A three-level hierarchy for disclosure has been established to show the extent and level of judgment used to estimate fair value measurements, as follows:

Level 1: Quoted market prices in active markets for identical assets or liabilities.

Level 2: Significant other observable inputs (quoted prices in active markets for similar assets or liabilities, quoted prices for identical or similar assets or liabilities in markets that are not active, or inputs other than quoted prices that are observable for the asset or liability).

Level 3: Significant unobservable inputs for the asset or liability. These values are generally determined using pricing models which utilize management estimates of market participant assumptions.

Valuation techniques for assets and liabilities measured using Level 3 inputs may include methodologies such as the market approach, the income approach or the cost approach, and may use unobservable inputs such as projections, estimates and management's interpretation of current market data. These unobservable inputs are only utilized to the extent that observable inputs are not available or cost-effective to obtain.

A description of the valuation methodologies used for instruments measured at fair value as well as the general classification of such instruments pursuant to the valuation hierarchy, is set forth below.

The following table sets forth the Company's assets and liabilities that were accounted for at fair value on a recurring basis as of June 30, 2018.

(in thousands)	Total	Quoted Market Prices (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Assets				
Interest rate swap agreements (current)	\$2,786	\$ —	\$ 2,786	—
Interest rate swap agreements (long-term)	2,968	—	2,968	—
Total	\$5,754	\$ —	\$ 5,754	\$ —
Liabilities				
Contingent consideration	\$1,080	\$ —	—	\$ 1,080

The following table sets forth the Company's assets and liabilities that were accounted for at fair value on a recurring basis as of September 30, 2017.

(in thousands)	Quoted Total Market Prices (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Liabilities			
Interest rate swap agreements	\$ 153	\$ 153	\$ —

Interest rate-swap agreements. The Company's interest rate-swap agreements are classified within Level 2 of the fair value hierarchy. Based on the timing of the associated cash flows, the fair value of the swap agreements was recorded in Prepaid expenses and other current assets, Other assets, or Other accrued liabilities in the Company's consolidated balance sheets. The fair value of these agreements was determined based on pricing models and independent formulas using current assumptions that included swap terms, interest rates and forward LIBOR curves and the Company's credit risk.

The following table presents a summary of changes in fair value of the Company's Level 3 liabilities (acquisition related contingent consideration) measured on a recurring basis for the nine months ended June 30, 2018.

(in thousands)	Nine Months Ended June 30, 2018
Balance at September 30, 2017	\$ —
Acquisition date fair value of contingent consideration obligations recorded	1,080
Balance at June 30, 2018	\$ 1,080

The following table presents a summary of changes in fair value of the Company's Level 3 liabilities (acquisition related contingent consideration) measured on a recurring basis for the nine months ended June 30, 2017.

(in thousands)	Nine Months Ended June 30, 2017
Balance at September 30, 2016	\$ 5,915
Fair value adjustments	194
Payment	(6,109)
Balance at June 30, 2017	\$ —

As of June 30, 2018, the Company had \$1.1 million of contingent consideration liabilities, which was reflected in Other accrued liabilities. As of September 30, 2017, the Company had no contingent consideration liability.

At June 30, 2018 and September 30, 2017, the carrying values of cash, accounts receivable, accounts payable and variable rate debt approximated fair value.

10. Income Taxes

The Company's effective income tax rate for the interim periods is based on management's estimate of the Company's annual effective tax rate for the applicable year. It is also affected by discrete items that may occur in any given period. The rates differ from the federal statutory income tax rate primarily due to state income taxes and nondeductible permanent differences such as meals and nondeductible compensation. For the three and nine months ended June 30, 2018, the Company had a provision from income taxes of \$4.7 million, or a 32.7% effective income

tax rate, and a benefit of \$2.4 million, or a (16.8)% effective income tax rate, respectively. This compares to a provision for income taxes of \$4.4 million, or a 37.5% effective income tax rate, and \$10.6 million, or a 38.5% effective income tax rate, for the three and nine months ended June 30, 2017, respectively. The benefit from income taxes for the nine months ended June 30, 2018 was primarily due to revaluing of the Company's deferred tax liabilities as a result of the lower corporate tax rate established by the Tax Cuts and Jobs Act (the "Tax Act") enacted in the first quarter of fiscal 2018.

The Tax Act significantly revises corporate income tax law by, among other things, lowering the corporate income tax rates from 35% to 21%. Under GAAP, deferred taxes must be adjusted for enacted changes in tax laws or rates during the period in which new tax legislation is enacted. ASU 2018-05 allows a company to record a provisional amount when it does not have the necessary information available, prepared, or analyzed in reasonable detail to complete its accounting for the changes in the Tax Act. The measurement period ends when the company has obtained, prepared and analyzed the information

necessary to finalize its accounting, but cannot extend beyond one year from the date of enactment of the Tax Act. As of June 30, 2018, the Company has not completed the accounting for the tax effects of the enactment of the Tax Act; however, in certain cases, as described below, the Company has made a reasonable estimate of the effects on existing deferred tax balances and the one-time transition tax. These amounts may require further adjustments as a result of additional future guidance from the U.S. Department of the Treasury, changes in assumptions, and the availability of further information and interpretations. For the items for which the Company was able to determine a reasonable estimate, a provisional tax benefit of \$6.7 million was recognized which is included as a component of income tax expense for the nine months ended June 30, 2018. The accounting for the tax effects of the enactment of the Tax Act will be finalized during the fourth quarter of fiscal 2018.

The Company remeasured certain deferred tax assets and liabilities based on an estimate of the rates at which they are expected to reverse in the future. However, the Company is still analyzing certain aspects of the Tax Act and refining calculations, which could potentially affect the measurement of these balances or potentially give rise to new deferred tax amounts. Additionally, the estimates for when timing differences will reverse could differ from actual results at year end, impacting the provisional tax benefit.

The Company files a federal consolidated return and files various state income tax returns and, generally, is no longer subject to income tax examinations by the taxing authorities for years prior to September 30, 2015. The Company did not have a reserve for uncertain income tax positions at June 30, 2018 and September 30, 2017. The Company does not expect any significant changes to unrecognized tax benefits within the next twelve months. The Company's policy is to recognize interest and penalties related to unrecognized tax benefits as charges to income tax expense.

11. Segment Information

The Company conducts its business through three reportable business segments: the Intellectual and Developmental Disabilities (“IDD”) segment, the Post-Acute Specialty Rehabilitation Services (“SRS”) segment, and the At-Risk Youth (“ARY”) segment.

The Company evaluates performance based on EBITDA. EBITDA for each segment is defined as income (loss) from continuing operations for the segment before income taxes, depreciation and amortization, and interest income (expense).

Activities classified as “Corporate and Other” in the table below relate to the results of the ADH operating segment and unallocated home office expenses and stock-compensation expense. Total assets included in the Corporate and Other segment include assets associated with our ADH operating segment and assets maintained by our corporate entity including cash, restricted cash, and other current and non-current assets.

The following table is a financial summary by reportable segments for the periods indicated (in thousands):

For the three months ended June 30,	IDD	SRS	ARY	Corporate and Other	Consolidated
2018					
Net revenue	\$256,454	\$90,574	\$38,266	\$19,204	\$404,498

Revenue derived from contracts with state and local governmental payors in the state of Minnesota, the Company's largest state operation, which is included in the I/DD segment, accounted for approximately 16% of the Company's net revenue for the three and nine months ended June 30, 2018, and 15% of the Company's net revenue for the three and nine months ended June 30, 2017. California, the Company's second largest state operation, accounted for approximately 10% of net revenue for the three and nine months ended June 30, 2018 and 2017. No other states accounted for 10% or more of our net revenue during the three and nine months ended June 30, 2018 and 2017.

12. Disposition of Business

In connection with a review of under-performing and/or non-strategic programs during the second and third quarters of fiscal 2018, the Company decided to close and/or consolidate a number of programs primarily within the SRS and I/DD segments. During the nine months ended June 30, 2018, the Company incurred exit costs associated with these completed and planned divestitures of \$5.5 million, including \$4.8 million in lease termination costs, and \$0.7 million in severance. In addition, the Company recorded \$6.0 million of accelerated amortization related to definite-lived

intangible assets and a \$1.1 million loss on the disposition of fixed assets associated with these programs.

13. Net Income Per Share

14. Other Commitments and Contingencies

The Company is in the health and human services business and, therefore, has been and continues to be subject to numerous claims alleging that the Company, its employees or its independently contracted host-home caregivers (“Mentors”) failed to provide proper care for an individual served by the Company. The Company is also subject to claims by these individuals, its employees, its Mentors or community members against the Company for negligence, intentional misconduct or violation of applicable laws. Included in the Company’s recent claims are claims alleging personal injury, assault, abuse, wrongful death and other charges. Regulatory agencies may initiate administrative proceedings alleging that the Company’s programs, employees or agents violate statutes and regulations and seek to impose monetary penalties on the Company. The Company could be required to incur significant costs to respond to regulatory investigations or defend against civil lawsuits and, if the Company does not prevail, the Company could be required to pay substantial amounts of money in damages, settlement amounts or penalties arising from these legal proceedings.

The Company is also subject to potential lawsuits under the False Claims Act and other federal and state whistleblower statutes designed to combat fraud and abuse in the health care industry. These lawsuits can involve significant monetary awards that may incentivize private plaintiffs to bring these suits. If the Company is found to have violated the False Claims Act, it could be excluded from participation in Medicaid and other federal healthcare programs which would have a material adverse effect on the business. The Patient Protection and Affordable Care Act provides a mandate for more vigorous and widespread enforcement activity to combat fraud and abuse in the health care industry.

The Company is also subject to employee-related claims under state and federal law, including claims for wage and hour violations under the Fair Labor Standards Act or state wage and hour laws, and claims for discrimination, wrongful discharge or retaliation. The Company currently has two pending complaints in California state court that allege certain wage and hour violations of California labor laws and seek to be designated as class-action. Two additional wage and hour claims have been settled, one of which was settled and approved by the court on January 31, 2018 and and one of which has been preliminarily approved by the court. Final approval and payment for this claim is expected in

September 2018. The Company's policy is to accrue for all probable and estimable claims using information available at the time the financial statements are issued. Actual claims could settle in the future at materially different amounts due to the nature of litigation.

15. Subsequent Event

On July 2, 2018 the Company acquired the assets of Creative Connections, Inc. ("CCI") for consideration of approximately \$2.9 million, including up to \$1.5 million of contingent consideration. CCI is located in California and provides community-based services for individuals with intellectual and developmental disabilities. CCI will be included in the Company's I/DD segment.

On August 1, 2018 the Company acquired the assets of Maintaining Independence Adult Day Services, Inc. ("Maintaining Independence") for a purchase price of approximately \$1.2 million. Maintaining Independence is located in New

Hampshire and provides adult day health care services. Maintaining Independence will be included in the Company's Corporate and Other segment.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

The following discussion of our financial condition and results of operations should be read in conjunction with our Annual Report on Form 10-K for the fiscal year ended September 30, 2017, as well as our reports on Form 8-K and other publicly available information. This discussion may contain forward-looking statements about our markets, the demand for our services and our future results. We based these statements on assumptions that we consider reasonable. Actual results may differ materially from those suggested by our forward-looking statements for various reasons, including those discussed in the "Risk Factors" and "Forward-Looking Statements" sections of this report.

Overview

We are the leading national provider of home- and community-based health and human services to must-serve individuals with intellectual, developmental, physical or behavioral disabilities and other special needs. These populations are large, growing and increasingly being served in home- and community-based settings. Our clinicians and direct support professionals develop customized service plans, delivered in non-institutional settings, designed to address a broad range of often life-long conditions and to enable those we serve to thrive in less restrictive settings.

We believe we offer a powerful value proposition to government and non-public payors, referral sources and individuals and families by providing innovative, high-quality and cost-effective services that enable greater independence, skill building and community involvement.

Since our founding in 1980, we have been a pioneer in the movement to provide home- and community-based services for people who would otherwise be institutionalized. During our more than 37-year history, we have evolved from a single residential program serving at-risk youth to a diversified national network providing an array of high-quality services and care in large, growing and highly-fragmented markets. While we have the capabilities to serve individuals with a wide variety of special needs and disabilities, we currently provide our services to individuals with intellectual and/or developmental disabilities ("I/DD"), individuals with catastrophic injuries and illnesses, particularly acquired brain injury ("ABI") that we serve through our Post-Acute Specialty Rehabilitation Services ("SRS"), youth with emotional, behavioral and/or medically complex challenges, or at-risk youth ("ARY"), and elders in need of day health services to support their independence, or adult day health ("ADH"). As of June 30, 2018, we operated in 36 states, serving approximately 12,500 individuals in residential settings and 19,000 individuals in non-residential settings. We have a diverse group of hundreds of public payors that fund our services with a combination of federal, state and local funding, as well as an increasing number of non-public payors for our services to individuals with acquired brain injuries or other catastrophic injuries and illnesses.

We have four service lines, I/DD, SRS, ARY and ADH. Each service line represents a reportable segment except ADH which is included within Corporate and Other.

Our I/DD service line is the largest portion of our business. Through the I/DD service line, we provide home- and community-based human services to adults and children with intellectual and developmental disabilities. Our I/DD programs include residential support, day habilitation, vocational services, case management, crisis intervention and hourly support care.

Through the SRS service line, which is our second largest service line, we deliver services to individuals who have suffered ABI, spinal injuries and other catastrophic injuries and illnesses. Our SRS services range from sub-acute healthcare for individuals with intensive medical needs to day treatment programs, and include, neurorehabilitation, neurobehavioral rehabilitation, specialized nursing, physical, occupational and speech therapies, supported living, outpatient treatment and pre-vocational services.

Through the ARY service line we provide home- and community-based human services to youth with emotional, behavioral and/or medically complex challenges. Our ARY programs include therapeutic foster care, family preservation, adoption services, early intervention, school-based services and juvenile offender programs.

Our newest service line, ADH, delivers elder services including case management, nursing oversight, medication management, nutrition, daily living assistance, transportation, and therapeutic services. The results of our ADH service line are included within Corporate and Other.

Factors Affecting our Operating Results

Demand for Home and Community-Based Health and Human Services

Our growth in revenue has historically come from increases in the number of individuals served, as well as increases in the rates we receive for our services. This growth has depended largely upon acquisitions, development-driven activities, including the maintenance and expansion of existing contracts and the award of new contracts, and our new start program. We also attribute the long-term growth in our base of individuals served to certain trends that are increasing demand in our industry, including demographic, health-care and political developments.

Demographic trends have had a particular impact on our I/DD business. Increases in the life expectancy of individuals with I/DD, we believe, have resulted in steady increases in the demand for I/DD services. In addition, family members currently caring for their relatives at home are aging and many may soon be unable to continue with these responsibilities. Many states continue to downsize or close large, publicly-run facilities for individuals with I/DD and refer those individuals to private providers of community-based services. Each of these factors affects the size of the I/DD population in need of services. Demand for our SRS services has also grown as emergency response and improved medical techniques have resulted in more people surviving a catastrophic injury. SRS services are increasingly sought out as a clinically-appropriate and less-expensive alternative to institutional care and as a “step-down” for individuals who no longer require care in acute settings.

Our residential ARY services were negatively impacted by a substantial decline in the number of children and adolescents in foster care placements during the last decade, although the population has increased in recent years. Political and economic trends can also affect our operations. Reductions or changes in Medicaid funding or changes in budgetary priorities by the federal, state and local governments that pay for our services could have a material adverse effect on our revenue and profitability. We have recently faced efforts at the federal level to reduce the federal budget deficit, repeal and/or replace the Patient Protection and Affordable Care Act and/or restructure the Medicaid program which pose risk for significant reductions in federal Medicaid matching funds to state governments. In addition, budgetary pressures facing state governments, especially within Medicaid programs, as well as other economic, industry and political factors could cause state governments to limit spending, which could significantly reduce our revenue, referrals, margins and profitability, and adversely affect our growth strategy. Government agencies generally condition their contracts with us upon a sufficient budgetary appropriation. If the government agency does not receive an appropriation sufficient to cover its obligations with us, it may terminate a contract or defer or reduce our reimbursements. In the past, certain states in which we operate, including Minnesota, California, Florida and West Virginia implemented rate reductions, rate freezes and service reductions, in response to state budgetary deficits. For fiscal 2018, we expect the rate environment to remain stable to positive in most of our markets. However, we are experiencing rate reductions for some of our services in a small number of states, particularly in Iowa, Minnesota, North Dakota and Wisconsin. Reductions in several of these states were due to system changes.

Historically, our business has benefited from the trend toward privatization and the efforts of groups that advocate for the populations we serve. These groups lobby governments to fund residential services that use our small group home or host home models, rather than large, institutional models. Furthermore, we believe that successful lobbying by advocacy groups has preserved I/DD and ARY services and, therefore, our revenue base for these services, from significant reductions as compared with certain other human services, although in the past certain states have imposed rate reductions, rate freezes, and service reductions in response to state budgetary pressures. In addition, a number of states have developed community-based waiver programs to support long-term services for survivors of a traumatic brain injury. However, approximately half of our specialty rehabilitation services revenue is derived from non-public payors, such as commercial insurers, managed care and other private payors.

Expansion of Services

We have grown our business through expansion of existing markets and programs, entry into new geographical markets, as well as through acquisitions.

Organic Growth

Various economic, fiscal, public policy and legal factors are contributing to an environment with a number of organic growth opportunities, particularly within the I/DD and SRS segments, and, as a result, we have a continued emphasis on growing our business organically and making investments to support the effort. Our future growth will depend heavily on our ability to expand our current programs and identify and execute upon new opportunities. Our organic expansion activities consist of both new program starts in existing markets and expansion into new geographical markets. Our new programs in new and existing geographic markets typically require us to incur and fund operating losses for a period of approximately 18 to 24 months (we refer to these new programs as “new starts”). Net operating loss or income of a new start is defined as its revenue for the period less direct expenses but not including allocated overhead costs. The aggregation of all programs with net operating losses that are less than 18 months old comprise the new start operating loss and the aggregation of all programs with net operating income that are less than 18 months old comprise the new start operating income for such period. During the three months ended June 30, 2018 and 2017, new starts generated operating losses of \$1.6 million and \$1.4 million, respectively, and operating income of \$0.5 million and \$1.4 million, respectively. During the nine months ended June 30, 2018 and 2017, new starts generated operating losses of \$4.4 million and \$4.8 million, respectively, and operating income of \$2.3 million and \$3.8 million, respectively.

Acquisitions

From the beginning of fiscal 2013 through June 30, 2018, we have completed 56 acquisitions, including several acquisitions of small providers, which we have integrated with our existing operations. Acquisitions could have a material impact on our consolidated financial statements.

During the nine months ended June 30, 2018, we acquired the assets or equity interests of nine companies for total consideration of \$96.4 million, net of \$0.8 million of cash acquired and including \$1.1 million of contingent consideration. During the nine months ended June 30, 2017, we acquired the assets of eight companies for total consideration of \$42.5 million.

Divestitures

We regularly review and consider the divestiture of under-performing or non-strategic programs to improve our operating results and better utilize our capital. We have made divestitures from time to time and expect that we may make additional divestitures in the future. Divestitures could have a material impact on our consolidated financial statements.

During the second and third quarters of fiscal 2018, as part of a larger, multi-year, multi-pronged effort to improve the efficiency of our operations and mitigate margin erosion created by increasing labor and healthcare costs, we recently raised the program performance standard and commenced a comprehensive, top-to-bottom examination of each program’s performance across all of our service lines. As a result of this initiative, during the second and third quarters of fiscal 2018 we decided to close and/or consolidate 39 programs primarily within our SRS and I/DD service lines (the “Program Closures”). During the nine months ended June 30, 2018, we incurred exit costs associated with these completed and planned closures of \$5.5 million, including \$4.8 million in lease termination costs, and \$0.7 million in severance. In addition, we recorded \$6.0 million of accelerated amortization related to definite-lived intangible assets and a \$1.1 million loss on the disposition of fixed assets associated with these locations. These closures are expected to generate savings of \$1.7 million annually. In addition, we expect some additional margin benefit from the closure and/or the consolidation of programs with lower profitability. During the fourth quarter of fiscal 2018, we anticipate closing additional programs in connection with this initiative. We expect that this examination will be completed by the end of fiscal 2018 and that the total cost of the additional closures are expected to be lower than the amounts recorded during second and third quarters of fiscal 2018.

Revenue

Revenue is reported net of allowances for unauthorized sales and estimated sales adjustments, and net of any state provider taxes or gross receipts taxes levied on services we provide. We derive revenue from contracts with state,

local and other government payors and non-public payors. During the three months ended June 30, 2018 and June 30, 2017, we derived 90% and 89% of our net revenue from contracts with state, local and other government payors, respectively, and 10% and 11% of our net revenue from non-public payors, respectively. During the nine months ended June 30, 2018 and June 30, 2017, we derived 89% of our net revenue from contracts with state, local and other government payors, and 11% of our net revenue from non-public payors. Substantially all of our non-public revenue is generated by our SRS business through contracts with commercial insurers, workers' compensation carriers and other private payors. The payment terms and rates of our contracts vary widely by jurisdiction and service type. We have four types of contractual arrangements with payors which include

negotiated contracts, fixed fee contracts, retrospective reimbursement contracts and prospective payments contracts. Our revenue may be affected by adjustments to our billed rates as well as adjustments to previously billed amounts. Revenue in the future may be affected by changes in rates, rate-setting structures, methodologies or interpretations that may be proposed in states where we operate or by the federal government which provides matching funds. We cannot determine the impact of such changes or the effect of any possible governmental actions. In general, we take prices set by our payors and do not compete based on pricing.

We bill the majority of our residential services on a per person per-diem basis. We believe important performance measures of revenues in our residential service business include average daily residential census and average daily billing rates. We bill the majority of our non-residential service on a per service unit basis. These service units, which vary in length, are converted to billable units which are the hourly equivalent for the service provided. We believe important performance measures of revenues in our non-residential service business include billable units and average billable unit rates. We calculate the impact of these measures on gross revenue rather than net revenue because the timing of sales adjustments, both positive and negative, is unpredictable. We define these measures and gross revenue as follows:

• **Gross Revenue:** Revenues before adjusting for sales adjustments and state provider and gross receipts taxes.

• **Average Residential Census:** The average daily residential census over the respective period.

• **Average Daily Rate:** A mathematical calculation derived by dividing the gross residential revenue by the residential census and the resulting quotient by the number of days during the respective period.

• **Non-Residential Billable Units:** The hourly equivalent of non-residential services provided.

• **Average Billable Unit Rate:** Gross non-residential revenue divided by the billable units provided during the period.

Expenses

Expenses directly related to providing services are classified as cost of revenue. These expenses consist of direct labor costs which principally include salaries and benefits for service provider employees and per diem payments to our Mentors; direct program costs such as food, medicine and professional and general liability and employment practices liability expenses; residential occupancy expenses which are primarily composed of rent and utilities related to facilities providing direct care; and other direct costs which include travel and transportation costs and other ancillary direct costs associated with the provision of services to individuals including workers' compensation expense.

Wages and benefits to our employees and per diem payments to our Mentors constitute the most significant operating cost in each of our operations. Most of our direct support professionals are paid on an hourly basis, with hours of work generally tied to an individual's need. Our Mentors are paid on a per diem basis, but only if the Mentor is currently caring for an individual. Our labor costs are generally influenced by levels of service, and these costs can vary in material respects across regions. In addition, our labor costs can be negatively impacted by higher rates of caregiver turnover, vacant positions and overtime utilization, as well as regulatory actions at the Federal, state, and local levels. For example, states and local governments set localized minimum wage increases, which in turn impact labor costs. Occupancy costs represent a significant portion of our operating costs. As of June 30, 2018, we owned 351 facilities and 4 offices, and we leased 1,861 facilities and 204 offices. We expect occupancy costs of the continuing business to increase during fiscal 2018 as a result of new leases entered into pursuant to acquisitions and new starts. We incur no facility costs for services provided in the home of a Mentor.

Our business insurance programs include professional and general liability insurance, for which we are self-insured for \$3.0 million per claim and \$28.0 million in the aggregate, among others. We incurred professional and general liability expenses of \$3.2 million and \$7.7 million during the three and nine months ended June 30, 2018, respectively, and \$2.9 million and \$5.6 million during the three and nine months ended June 30, 2017, respectively. These expenses are incurred in connection with our claims reserves and insurance premiums. Our expenses during the nine months ended June 30, 2017 were positively impacted by a favorable adjustment to our reserves that was attributable to changes in certain assumptions used by our actuaries as a result of historical claims experience.

For our employment practices liability, we are fully self insured. We currently have two pending complaints in California state court that allege certain wage and hour violations of California labor laws and seek to be designated as class-actions. Two additional wage and hour class action claims have been settled; one of which was settled and approved by the court on January 31, 2018 and one of which has been preliminarily approved by the court. Final approval and payment for this claim is expected in September 2018. These actions increased our expenses, particularly during the three and nine months ended June 30, 2017. For the three and nine months ended June 30, 2018, we incurred employment practices liability expenses of \$0.3 million and \$2.0 million, respectively. For the three and nine months ended June 30, 2017, we incurred employment practices liability expenses of \$0.8 million and \$4.8 million, respectively.

General and administrative expenses primarily include salaries and benefits for administrative employees, or employees that are not directly providing services, administrative occupancy costs as well as professional expenses such as accounting, consulting and legal services, and stock-based compensation expense.

Depreciation and amortization includes depreciation for fixed assets utilized in both facilities providing direct care and administrative offices, and amortization related to intangible assets.

We continue to review our operations in an effort to improve efficiencies, reduce overtime expenses, and implement cost saving measures throughout the Company. This multi-year project has two components: the first, initiated in fiscal 2017, focused on optimizing our cost structure by targeting total company-wide expenses, inclusive of labor management, purchasing and organizational structure; and a second, which we initiated during the second quarter of fiscal 2018, focuses on the closure of under-performing programs, which is described above under "Divestitures." In connection with our efforts to reduce expenses, we incurred \$0.8 million and \$2.7 million in consulting, severance and contract termination costs in the three and nine months ended June 30, 2018, respectively. We incurred \$0.9 million and \$2.7 million in consulting, severance and contract termination costs in the three and nine months ended June 30, 2017, respectively. The cost savings associated with this project was approximately \$5.0 million in fiscal year 2017,

and, by the end of fiscal year 2018, we anticipate achieving additional in-the-year cost savings of at least \$3.0 million.

Consolidated Overview

(in thousands)	Three Months Ended		Increase (Decrease)
	June 30,		
	2018	2017	
Gross Revenue	\$410,343	\$377,768	\$ 32,575
Sales Adjustments	(5,845)	(5,423)	(422)
Net Revenue	\$404,498	\$372,345	\$ 32,153
Income from Operations	24,554	20,273	4,281
Operating Margin (as a % of gross revenue)	6.0 %	5.4 %	%

Consolidated gross revenue for the three months ended June 30, 2018 increased by \$32.6 million, or 8.6%, compared to the three months ended June 30, 2017. Gross revenue increased \$28.6 million from acquisitions that closed during and after the third quarter of fiscal 2017 and \$4.0 million from organic growth. Sales adjustments increased by \$0.4 million, or 0.1% of gross revenue, compared to the three months ended June 30, 2017.

Consolidated income from operations was \$24.6 million, or 6.0% of gross revenue, for the three months ended June 30, 2018 compared to \$20.3 million, or 5.4% of gross revenue, for the three months ended June 30, 2017. The increase in our operating margin was primarily due to a decrease in direct labor costs and general and administrative expenses as a percentage of gross revenue. The decrease in direct labor costs was primarily due to the growth in our SRS segment and a positive adjustment to reflect a reduction in our estimated annual incentive compensation expense, partially offset by an increase in overtime costs compared to the three months ended June 30, 2017. The decrease in general and administrative expenses was primarily due to cost containment efforts and efficiencies gained through our project to optimize the Company's cost structure. The increase in our operating margin was partially offset by increases in direct occupancy costs and in depreciation and amortization expense as a percentage of revenue. The increase in direct occupancy costs was primarily due to higher levels of open occupancy within our waiver group home programs and an increase in rent expense that was partially driven by the Mentis acquisition. The increase in

depreciation and amortization was due to \$1.8 million of accelerated amortization on intangible assets associated with a program closure and additional quarterly amortization from intangibles acquired in acquisitions that closed during and after the three months ended June 30, 2017.

I/DD Results of Operations

I/DD gross revenue

I/DD gross revenue for the three months ended June 30, 2018 increased by \$13.3 million, or 5.4%, compared to the three months ended June 30, 2017. The increase in I/DD gross revenue included \$12.4 million from acquisitions that closed during and after the three months ended June 30, 2017 and \$0.9 million from organic growth.

I/DD EBITDA

I/DD EBITDA was \$38.0 million, or 14.6% of gross revenue, for the three months ended June 30, 2018 compared to \$34.1 million, or 13.9% of gross revenue, for the three months ended June 30, 2017. The increase in our I/DD EBITDA margin was primarily due to a decrease in cost of revenues and general and administrative expense as a percentage of gross revenue compared to the three months ended June 30, 2017.

I/DD cost of revenues for the three months ended June 30, 2018 decreased by 0.3% of gross revenue, compared to the three months ended June 30, 2017. This was primarily due to a 0.7% decrease in direct labor costs as a percentage of gross revenue partially offset by a 0.4% increase in direct occupancy costs as a percentage of gross revenue. The decrease in direct labor costs was primarily due to a decrease in incentive compensation expense that was the result of an adjustment to reduce our estimated annual incentive compensation based on the Company's forecasted results for fiscal 2018. The increase in direct occupancy costs was primarily due to higher levels of open occupancy within the Company's waiver group home programs.

I/DD general and administrative expenses for the three months ended June 30, 2018 decreased by \$0.8 million, or 0.5% of gross revenue, compared to the three months ended June 30, 2017. The decrease as percentage of gross revenue was primarily due to our cost containment efforts and efficiencies gained through our project to optimize the Company's cost structure.

I/DD Depreciation and amortization expense

Depreciation and amortization expense for the three months ended June 30, 2018 increased by \$0.8 million, or 0.1% of gross revenue, compared to the three months ended June 30, 2017.

SRS gross revenue

SRS gross revenue for the three months ended June 30, 2018 increased by \$12.5 million, or 15.6%, compared to the three months ended June 30, 2017. The increase in SRS gross revenue included \$12.8 million from acquisitions that closed during and after the three months ended June 30, 2017. The decrease in revenue from organic sources was the result of a decrease in volume of 0.5% that was primarily due to the Program Closures.

SRS EBITDA

SRS EBITDA was \$17.4 million, or 18.8% of gross revenue, for the three months ended June 30, 2018 compared to \$13.8 million, or 17.3% of gross revenue, for the three months ended June 30, 2017. The increase in our SRS EBITDA margin of 1.5% was primarily due to a decrease in net sales adjustments and a decrease in general and administrative expenses as a percentage of gross revenue partially offset by an increase in cost of revenue as a percentage of gross compared to the third quarter of the prior year.

Sales adjustments for the three months ended June 30, 2018 decreased by \$0.3 million, or 0.8% of gross revenue, compared to the three months ended June 30, 2017. The decrease was primarily due to higher accounts receivable reserves during the third quarter of the prior year resulting from changes in our collectability assumptions for certain aged accounts receivable in our CareMeridian business unit.

Cost of revenue for the three months ended June 30, 2018 increased by 0.7% of gross revenue compared to the three months ended June 30, 2017. The increase was due to a 1.2% increase in direct occupancy costs as a percentage of gross revenue partially offset by a 0.6% decrease in direct labor costs as a percentage of gross revenue. The increase in direct occupancy costs was primarily due to an increase in rent expense that was primarily driven by the Mentis acquisition and \$0.3 million of lease termination costs related to the Program Closures. The decrease in direct labor costs was primarily due to a decrease in incentive compensation expense that was the result of an adjustment to reduce our estimated annual incentive compensation based on the Company's forecasted results for fiscal 2018.

General and administrative expenses decreased by \$0.2 million, or 1.4% of gross revenue, during the three months ended June 30, 2018. The decrease in general and administrative expenses as a percentage of gross revenue was primarily due to a decrease in costs associated with our project to optimize the Company's cost structure and lower incentive compensation expense compared to the same period of the prior year.

SRS Depreciation and amortization expense

Depreciation and amortization expense for the three months ended June 30, 2018 increased by \$1.3 million, or 0.5% of gross revenue, compared to the three months ended June 30, 2017. The increase was primarily due to acquisitions during fiscal 2018 that have resulted in higher amounts quarterly amortization for the acquired intangible assets.

ARY Results of Operations

The following table sets forth the results of operations for the ARY segment for the periods indicated (in thousands):

	Three Months Ended June 30,		2017		Change in %	
	2018		2017		Increase	of gross

Income from Operations	\$5,225	13.6 %	\$4,379	12.4 %	\$ 846	1.2 %

ARY gross revenue

ARY gross revenue for the three months ended June 30, 2018 increased by \$3.2 million, or 9.1%, compared to the three months ended June 30, 2017. The \$3.2 million increase in ARY gross revenue was due to a 4.5% increase in average billing rate and a 4.7% increase in volume.

ARY EBITDA

ARY EBITDA was \$6.6 million, or 17.2% of gross revenue, for the three months ended June 30, 2018 compared to \$5.8 million, or 16.4% of gross revenue, for the three months ended June 30, 2017. The increase in our ARY EBITDA margin of 0.8% was primarily attributable to a decrease in costs of revenues that was driven by higher volume and average rates during the three months ended June 30, 2018 and a decrease in incentive compensation expense compared to the three months ended June 30, 2017. The increase in our ARY EBITDA margin was partially offset by an increase in negative sales adjustments compared to the three months ended June 30, 2017.

ARY Depreciation and amortization expense

Depreciation and amortization expense for the three months ended June 30, 2018 decreased as a percentage of gross revenue by 0.4% compared to the three months ended June 30, 2017. This was primarily due to certain intangible assets becoming fully amortized during first quarter of the fiscal 2018.

Corporate and Other Results of Operations

The following table sets forth the results of operations for Corporate and Other for the periods indicated (in thousands):

	Three Months Ended		Increase (Decrease)
	June 30, 2018	2017	
	Amount	Amount	
Revenue:			
Corporate and Other gross revenue	\$19,476	\$15,873	\$3,603
Sales adjustments	(272)	(150)	(122)
Corporate and Other net revenue	19,204	15,723	3,481
Cost of revenue	15,053	12,591	2,462
General and administrative	17,944	17,361	583
Depreciation and amortization	4,893	2,445	2,448
Loss from Operations	\$(18,686)	\$(16,674)	\$(2,012)
Corporate and Other revenue			

Corporate and Other revenue consists of revenue from our ADH business. ADH gross revenue for the three months ended June 30, 2018 increased by \$3.6 million, or 22.7%, compared to the three months ended June 30, 2017. The increase in gross revenue included \$3.5 million from acquisitions that closed during and after the three months ended June 30, 2017 and \$0.1 million from organic growth.

Corporate and Other cost of revenue

Corporate and Other cost of revenue consists of costs associated with our ADH business. Corporate and Other costs of revenue for the three months ended June 30, 2018 increased by \$2.5 million, as compared to the three months ended June 30, 2017. As a percentage of gross revenue, Corporate and Other cost of revenue decreased by 1.9% compared to the three months ended June 30, 2017. This decrease as a percentage of gross revenue was primarily due to the maturation of two new programs that opened during the prior year.

Corporate and Other operating expense

General and administrative expenses for the three months ended June 30, 2018 increased by \$0.6 million as compared to three months ended June 30, 2017.

Depreciation and amortization expense for the three months ended June 30, 2018 increased by \$2.4 million, compared to the three months ended June 30, 2017. The increase is due to \$1.8 million of accelerated amortization on intangible assets associated with a program closure and additional quarterly amortization for intangible assets related to ADH acquisitions that closed during and after the quarter ended June 30, 2017.

Consolidated Other income (expense)

Other income (expense), net, which primarily consists of interest income and changes in the net cash surrender value of Company owned life insurance policies, was expense of \$0.1 million for the three months ended June 30, 2018 and June 30, 2017.

Consolidated Interest expense

Interest expense for the three months ended June 30, 2018 increased by \$1.9 million as compared to three months ended June 30, 2017. The increase is primarily the result of higher average debt balances due to the \$75.0 million incremental term loan funded on October 25, 2017.

Consolidated Provision (benefit) for income taxes

For the three months ended June 30, 2018, we had a provision for income taxes of \$4.7 million, or a 32.7% effective tax rate, compared to \$4.4 million, or a 37.5% effective tax rate, for the three months ended June 30, 2017. The decrease in our effective tax compared to the third quarter of the prior year is due to the lower corporate tax rate established by the Tax Act enacted in the first quarter of fiscal 2018.

Nine Months Ended June 30, 2018 and 2017

Consolidated Overview

(in thousands)	Nine Months Ended June 30,		Increase
	2018	2017	(Decrease)
Gross Revenue	\$ 1,211,093	\$ 1,109,964	\$ 101,129
Sales Adjustments	(18,376)	(15,826)	(2,550)
Net Revenue	\$ 1,192,717	\$ 1,094,138	\$ 98,579
Income from Operations	43,836	52,008	(8,172)
Operating Margin (as a % of gross revenue)	3.6	% 4.7	%

Consolidated gross revenue for the nine months ended June 30, 2018 increased by \$101.1 million, or 9.1%, compared to the nine months ended June 30, 2017. Gross revenue increased \$83.1 million from acquisitions that closed during and after the nine months ended June 30, 2017 and \$18.0 million from organic growth. Sales adjustments as a percentage of gross revenue remained relatively consistent during the nine months ended June 30, 2018 and June 30, 2017.

Consolidated income from operations was \$43.8 million, or 3.6% of gross revenue, for the nine months ended June 30, 2018 compared to \$52.0 million, or 4.7% of gross revenue, for the nine months ended June 30, 2017. The decrease in our operating margin was primarily due to an increase in cost of revenue resulting from an increase in occupancy and direct labor costs as a percentage of gross revenue as well as an increase in depreciation and amortization expense compared to the nine months ended June 30, 2017. The increase in occupancy costs was primarily due to higher levels of open occupancy within our waiver group home programs, increases in rent that were partially due to the Mentis acquisition and \$4.8 million of lease termination costs associated with the Program Closures. The increase in direct labor costs was primarily due to higher overtime costs as a result of competitive labor markets partially offset by a decrease in incentive compensation expense compared to the nine months ended June 30, 2017. The increase in depreciation and amortization expense as a percentage of revenue was due to \$6.0 million of accelerated amortization on definite-lived intangible assets associated with the Program Closures and additional amortization from intangibles acquired in acquisitions that closed during and after the nine months ended June 30, 2017. The decrease in our operating margin was partially offset by a decrease in general and administrative expense as a percentage of revenue resulting from our cost containment efforts and efficiencies gained from our project to optimize the Company's cost structure.

I/DD gross revenue

I/DD gross revenue for the nine months ended June 30, 2018 increased by \$45.8 million, or 6.3%, compared to the nine months ended June 30, 2017. The increase in I/DD gross revenue included \$37.3 million from acquisitions that closed during and after the nine months ended June 30, 2017 and \$8.5 million from organic growth. The organic growth was driven by a 1.4% increase in average billing rates compared to the nine months ended June 30, 2017.

I/DD EBITDA

I/DD EBITDA was \$104.7 million, or 13.4% of gross revenue, for the nine months ended June 30, 2018 compared to \$100.0 million, or 13.6% of gross revenue, for the nine months ended June 30, 2017. The decrease in our I/DD EBITDA margin was due to an increase in cost of revenue as a percentage of gross revenue. The decrease was partially offset by lower general and administrative expense as a percentage of gross revenue compared to the same period of the prior year.

I/DD cost of revenue for the nine months ended June 30, 2018 increased as a percentage of gross revenue by 0.6%, compared to the nine months ended June 30, 2017. This was primarily due to a 0.6% increase in occupancy costs as a percentage of gross revenue attributable to higher levels of open occupancy within our waiver group home programs compared to the nine months ended June 30, 2017 and \$0.6 million of lease termination costs related to the Program Closures. Direct labor was relatively consistent as a percentage of gross revenue compared to the nine months ended June 30, 2017 as increases in overtime costs were offset by a decrease in incentive compensation expense.

I/DD general and administrative expenses for the nine months ended June 30, 2018 decreased by 0.4% as a percentage of gross revenue, compared to the nine months ended June 30, 2017. The decrease as a percentage of gross revenue was primarily due to efficiencies gained through our efforts to optimize the Company's cost structure and a decrease in incentive compensation expense compared to the nine months ended June 30, 2017.

I/DD Depreciation and amortization expense

Depreciation and amortization expense for the nine months ended June 30, 2018 increased by \$3.7 million, or 0.3% of gross revenue, compared to the nine months ended June 30, 2017. The increase as a percentage of gross revenue was primarily due to \$1.1 million of accelerated amortization for intangible assets associated with the Program Closures and the impact of additional amortization expense from intangibles that were acquired during and after the nine months ended June 30, 2017.

SRS gross revenue

SRS gross revenue for the nine months ended June 30, 2018 increased by \$36.6 million, or 15.6%, compared to the nine months ended June 30, 2017. The increase in SRS gross revenue included \$34.0 million from acquisitions that closed during and after the nine months ended June 30, 2017 and \$2.6 million from organic growth. The organic growth was driven by an increase in volume of 0.7% and in the average billing rate of 0.4%. Organic growth during the nine months ended June 30, 2018 was negatively impacted by the Program Closures.

SRS EBITDA

SRS EBITDA was \$41.4 million, or 15.3% of gross revenue, for the nine months ended June 30, 2018 compared to \$40.7 million, or 17.3% of gross revenue, for the nine months ended June 30, 2017. The decrease in our SRS EBITDA margin was primarily due to increases in cost of revenue and net sales adjustments as a percentage of gross revenue compared to the nine months ended June 30, 2017.

Sales adjustments for the nine months ended June 30, 2018 increased by \$1.5 million, or 0.2% of gross revenue, compared to the nine months ended June 30, 2017. This was primarily attributable to an increase accounts receivable reserves resulting from higher aged receivables within certain states where changing payor environments have resulted in payment delays, and in some cases, uncollectible accounts.

Cost of revenue for the nine months ended June 30, 2018 increased by 2.0% of gross revenue compared to the nine months ended June 30, 2017. The increase was primarily due to a 2.3% increase in occupancy costs as a percentage of gross revenue and a 0.5% increase in direct labor costs as a percentage of gross revenue. The increase in direct occupancy costs was

primarily due to \$4.0 million of lease termination costs related to the Program Closures and an increase in rent and utilities expense, that was partially driven by the Mentis acquisition. The increase in direct labor costs was primarily due to an increase in salaries compared to the nine months ended June 30, 2017 and \$0.6 million of severance costs related to the Program Closures. The increase in cost of revenue was partially offset by in a 0.6% decrease in direct program costs as a percentage of gross revenue due to lower employment practices liability expense attributable to favorable claims experience and a decrease in food and medical cost due to improvements in our procurement processes that have resulted in more favorable pricing with certain vendors.

General and administrative expenses decreased by 0.2% of gross revenue, compared to the nine months ended June 30, 2017. The decrease in general and administrative expenses as a percentage of revenue was primarily due to a decrease in incentive compensation expense compared to the same period of the prior year.

SRS Depreciation and amortization expense

Depreciation and amortization expense for the nine months ended June 30, 2018 increased by \$6.2 million, or 1.2% of gross revenue, compared to the nine months ended June 30, 2017. The increase was primarily due to \$2.3 million of accelerated amortization related to definite-lived intangible assets associated with the Program Closures and additional amortization expense resulting from intangible assets acquired in the Mentis acquisition that closed during the first quarter of fiscal 2018.

ARY Results of Operations

The following table sets forth the results of operations for the ARY segment for the periods indicated (in thousands):

	Nine Months Ended June 30, 2018		2017		Increase (Decrease)	Change in % of gross revenue
	Amount	% of gross revenue	Amount	% of gross revenue		
Revenue:						
ARY gross revenue	\$ 111,131	100.0 %	\$ 106,887	100.0 %	\$ 4,244

Income from Operations	\$ 13,188	11.8 %	\$ 12,359	11.5 %	\$ 829	0.3 %

ARY gross revenue

ARY gross revenue for the nine months ended June 30, 2018 increased by \$4.2 million, or 4.0%, compared to the nine months ended June 30, 2017. The \$4.2 million increase in ARY gross revenue was due to a 1.6% increase in volume and a 2.4% increase in average billing rate.

ARY EBITDA

ARY EBITDA was \$17.2 million, or 15.4% of gross revenue, for the nine months ended June 30, 2018 compared to \$16.6 million, or 15.5% of gross revenue, for the nine months ended June 30, 2017. Our ARY EBITDA margin was relatively flat compared to the nine months ended June 30, 2017, as the impact of an increase in net sales adjustments was offset by lower general and administrative expenses primarily due to a decrease in incentive compensation expense and efficiencies gained through our efforts to optimize our cost structure.

ARY Depreciation and amortization expense

Depreciation and amortization expense for the nine months ended June 30, 2018 decreased by \$0.2 million, or 0.4% of gross revenue, compared to the nine months ended June 30, 2017. This was primarily due to certain intangible assets becoming fully amortized during the first quarter of the fiscal 2018.

Corporate and Other Results of Operations

The following table sets forth the results of operations for Corporate and Other for the periods indicated (in thousands):

	Nine Months Ended		Increase (Decrease)
	June 30, 2018	2017	
	Amount	Amount	
Revenue:			
Corporate and Other gross revenue	\$53,854	\$39,381	\$ 14,473
Sales adjustments	(651)	(535)	(116)
Corporate and Other net revenue	53,203	38,846	14,357
Cost of revenue	43,030	32,134	10,896
General and administrative	58,161	55,814	2,347
Depreciation and amortization	12,063	6,420	5,643
Loss from Operations	\$(60,051)	\$(55,522)	\$(4,529)
Corporate and Other revenue			

Corporate and Other revenue consists of revenue from our ADH business. ADH gross revenue for the nine months ended June 30, 2018 increased by \$14.5 million, or 36.8%, compared to the nine months ended June 30, 2017. The increase in gross revenue included \$11.8 million from acquisitions that closed during and after the nine months ended June 30, 2017 and \$2.7 million from organic growth.

Corporate and Other cost of revenue

Corporate and Other cost of revenue consists of costs associated with our ADH business. Corporate and Other cost of revenue for the nine months ended June 30, 2018 increased by \$10.9 million, as compared to the nine months ended June 30, 2017. As a percentage of gross revenue, Corporate and Other costs of revenue decreased by 1.7% compared to the same period of the prior year. This decrease as a percentage of gross revenue was primarily due to the maturation of two new programs that opened during the prior year.

Corporate and Other operating expense

General and administrative expenses for the nine months ended June 30, 2018 increased by \$2.3 million as compared to the nine months ended June 30, 2017.

Depreciation and amortization expense for the nine months ended June 30, 2018 increased by \$5.6 million, compared to the nine months ended June 30, 2017. The increase was primarily attributable to accelerated amortization expense on intangible assets associated with two ADH program closures and additional amortization expense from intangible assets acquired in acquisitions that closed during and after the nine months ended June 30, 2017.

Consolidated Other income (expense)

Other income (expense), net, which primarily consists of interest income and changes in the net cash surrender value of Company owned life insurance policies, was \$0.9 million of expense and \$0.8 million of income for the nine months ended June 30, 2018 and June 30, 2017, respectively.

Consolidated Interest expense

Interest expense for the nine months ended June 30, 2018 increased by \$3.7 million as compared to nine months ended June 30, 2017. The increase is primarily the result of higher average debt balances due to the \$75.0 million incremental term loan funded on October 25, 2017.

Consolidated Provision (benefit) for income taxes

For the nine months ended June 30, 2018, we had a benefit from income taxes of \$2.4 million, or a (16.8)% effective income tax rate, compared to a provision for income taxes of \$10.6 million, or a 38.5% effective income tax rate, for the nine months ended June 30, 2017. The difference in the effective tax rate compared to the nine months ended June 30, 2017 was primarily due to a \$6.7 million tax benefit that was recognized in connection with revaluing of the Company's deferred tax liabilities as a result of the lower corporate tax rate established by the Tax Act enacted in the first quarter of fiscal 2018.

Liquidity and Capital Resources

Our principal uses of cash are to meet working capital requirements, fund debt obligations, finance capital expenditures and acquisitions, and repurchase shares of common stock. Cash flows from operations and borrowings under our senior credit facility have historically been sufficient to meet these cash requirements. Our principal sources of funds are cash flows from operating activities, cash on hand, and available borrowings under our senior revolver.

Operating activities

Net cash provided by operating activities was \$67.3 million for the nine months ended June 30, 2018 and \$70.0 million for the nine months ended June 30, 2017. The decrease in net cash provided by operating activities during the nine months ended June 30, 2018 was primarily attributable to higher interest payments resulting from a \$75.0 million incremental term loan funded on October 25, 2017, payments for exit costs related to the Program Closures and changes in working capital accounts due to timing differences compared to the nine months ended June 30, 2017.

Investing activities

Net cash used in investing activities was \$131.4 million and \$82.2 million for the nine months ended June 30, 2018 and 2017, respectively. Cash paid for property and equipment for the nine months ended June 30, 2018 was \$35.6 million, or 3.0% of net revenue, compared to \$33.0 million, or 3.0% of net revenue, for the nine months ended June 30, 2017. During the nine months ended June 30, 2018, we paid \$97.5 million for nine acquisitions and a net working capital settlement related to a prior year acquisition. During the nine months ended June 30, 2017 we paid \$42.4 million for eight acquisitions.

Financing activities

Net cash provided by financing activities was \$56.9 million for the nine months ended June 30, 2018 as compared to net cash used in financing activities of \$12.4 million for the nine months ended June 30, 2017. The net cash provided by financing activities during the nine months ended June 30, 2018 was primarily attributable to the proceeds of the incremental term loan of \$75.0 million which were used for the acquisition of Mentis, partially offset by the use of cash to purchase common stock under the stock repurchase program. The net cash used in financing activities during the nine months ended June 30, 2017 was primarily related to payments on long-term debt and earn-out obligations.

During the nine months ended June 30, 2018, we borrowed an aggregate of \$507.3 million under our senior revolver and repaid \$497.8 million. There were borrowings of \$4.1 million under our senior revolver during the nine months ended June 30, 2017, all of which were repaid during the same period.

On February 8, 2018, we announced that the Board of Directors had approved a stock repurchase program under which the Company is authorized to repurchase up to \$25.0 million of the Company's outstanding common stock from time to time in the open market, through negotiated transactions or otherwise (including, without limitation, the use of Rule 10b5-1 plans). The stock repurchase program will expire on August 12, 2018. The Company intends to conduct any open market stock repurchase activities in compliance with the safe harbor provisions of Rule 10b-18 of the Exchange Act. During the nine months ended June 30, 2018, we repurchased 1,351,892 shares for \$19.7 million under the program, which we have implemented through a 10b5-1 plan. As of June 30, 2018, we had remaining

authorization to repurchase up to \$5.3 million of our common stock under the program.

38

At June 30, 2018, we had \$702.0 million of borrowings outstanding under the term loan facility, and we had \$9.5 million of outstanding borrowings and \$147.6 million of availability under the senior revolver including \$2.9 million in standby letters of credit issued under the senior revolver. Letters of credit can be issued under our institutional letter of credit facility up to the \$50.0 million limit, subject to certain maintenance and issuance limitations and letters of credit in excess of that amount reduce availability under our senior revolver. As of June 30, 2018, \$48.5 million of letters of credit were issued under the institutional letter of credit facility and \$2.9 million of letters of credit were issued under the senior revolver.

We believe that available borrowings under our senior revolver and cash flow from operations will provide sufficient liquidity and capital resources to meet our financial obligations for the next twelve months, including scheduled principal and interest payments, as well as to provide funds for working capital, acquisitions, capital expenditures and other needs. No assurance can be given, however, that this will be the case.

Debt and Financing Arrangements

Senior Secured Credit Facilities

NMHI and NMHH, wholly-owned subsidiaries of Civitas, have a senior credit facility that includes a term loan facility with a stated principal amount of \$730.0 million (original \$655.0 million term loan plus a \$75.0 million incremental term loan funded on October 25, 2017) and a revolving credit facility of \$160.0 million. In connection with the facility, NMHI has deposited \$50.0 million in a restricted cash account as collateral to support the issuance of letters of credit. As of June 30, 2018, we had \$702.0 million of borrowings outstanding under the term loan facility and \$9.5 million of borrowings outstanding under the revolving credit facility, and we had \$147.6 million available for borrowing under the revolving credit facility due to \$2.9 million that was utilized to support letters of credit.

On October 24, 2017, NMHI entered into Amendment No. 6 to its senior credit agreement which provided for an incremental \$75.0 million term loan. The net proceeds of the incremental term loan were used by NMHI to pay the purchase price for the acquisition of Mentis and to pay related fees and expenses, with any excess proceeds used for general corporate purposes.

On November 21, 2017, NMHI entered into Amendment No. 7 to its senior credit agreement which increased the aggregate revolving commitments from \$120.0 million to \$160.0 million and extended the maturity date for \$90.0 million of the revolving commitments (the "Extended Revolving Commitments") to January 31, 2021. The terms of the remaining \$70.0 million of the revolving commitments (the "Initial Revolving Commitments"), which mature on January 31, 2019, remain unchanged. All of the other terms of the Extended Revolving Commitments are identical to the Initial Revolving Commitments, except that the applicable margin for the Extended Revolving Commitments will decrease by 0.25% per annum when the Initial Revolving Commitments are terminated or expire.

Borrowings under the term loan facility bear interest, at our option, at: (i) an alternate base rate ("ABR") equal to the greater of (a) the prime rate of Barclays Bank PLC, (b) the federal funds rate plus 1/2 of 1.0%, and (c) the Eurodollar rate for an interest period of one-month plus 100 basis points (provided that the ABR applicable to the term loan facility will not be less than 2.00% per annum), plus 2.00%; or (ii) the Eurodollar rate (provided that the Eurodollar rate applicable to the term loan facility will not be less than 0.75% per annum), plus 3.00%. Borrowings under the revolving and swingline loans bear interest at our option at (i) an ABR equal to the greater of (a) the prime rate of Barclays Bank PLC, (b) the federal funds rate plus 1/2 of 1.0%, and (c) the Eurodollar rate for an interest period of one-month plus 100 basis points (provided that the ABR applicable to the term loan facility will not be less than 2.00% per annum), plus 2.25%; or (ii) the Eurodollar rate (provided that the Eurodollar rate applicable to the term loan facility will not be less than 0.75% per annum), plus 3.25%. NMHI is also required to pay a commitment fee to the lenders under the senior revolver at an initial rate of 0.50% of the average daily unutilized commitments thereunder. NMHI must also pay customary letter of credit fees.

As of June 30, 2018, the Company had \$702.0 million in term loans outstanding with an average borrowing rate of 5.33%. In addition, the Company has entered into two interest rate swaps on \$375.0 million of the term loan principal

to effectively fix the interest rate on this portion of the borrowings to 4.80%.

Covenants

The senior credit agreement also contains a number of covenants that, among other things, restrict, subject to certain exceptions, NMHI's ability and the ability of its subsidiaries to: (i) incur additional indebtedness; (ii) create liens on assets; (iii) engage in mergers or consolidations; (iv) sell assets; (v) pay dividends and distributions or repurchase our capital stock; (vi) enter into swap transactions; (vii) make investments, loans or advances; (viii) repay certain junior indebtedness;

(ix) engage in certain transactions with affiliates; (x) enter into sale and leaseback transactions; (xi) amend material agreements governing certain of our junior indebtedness; (xii) change our lines of business; (xiii) make certain acquisitions; and (xiv) limitations on the letter of credit cash collateral account. If we withdraw any of the \$50.0 million from the cash collateral account supporting the issuance of letters of credit, we must use the cash to either prepay the term loan facility or to secure any other obligations under the senior secured credit facilities in a manner reasonably satisfactory to the administrative agent. We were in compliance with these covenants as of June 30, 2018 and September 30, 2017. The senior credit agreement contains customary affirmative covenants and events of default. The senior credit agreement contains a springing financial covenant. If, at the end of any fiscal quarter, NMHI's usage of the senior revolver exceeds 30% of the commitments thereunder, NMHI is required to maintain at the end of each such fiscal quarter a consolidated first lien leverage ratio of not more than 5.00 to 1.00. The springing financial covenant was not in effect as of June 30, 2018 or September 30, 2017 as our usage of the senior revolver did not exceed the threshold for those quarters.

Inflation

We do not believe that general inflation in the U.S. economy has had a material impact on our financial position or results of operations.

Off-Balance Sheet Arrangements

We do not have any off-balance sheet transactions or interests.

Critical Accounting Policies

The Company's critical accounting policies are discussed in Management's Discussion and Analysis of Financial Condition and Results of Operations and notes accompanying the consolidated financial statements that appear in the Annual Report on Form 10-K for the fiscal year ended September 30, 2017. There were no material changes subsequent to the filing of the Annual Report on Form 10-K for the fiscal year ended September 30, 2017, in the Company's critical accounting policies or in the assumptions or estimates used to prepare the financial information appearing in this report.

Our discussion and analysis of our financial condition and results of operations are based upon our consolidated financial statements, which have been prepared in accordance with generally accepted accounting principles ("GAAP"). The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Subsequent Event

On July 2, 2018 the Company acquired the assets of Creative Connections, Inc. ("CCI") for consideration of approximately \$2.9 million, including up to \$1.5 million of contingent consideration. CCI is located in California and provides community-based services for individuals with intellectual and developmental disabilities. CCI will be included in the Company's I/DD segment.

On August 1, 2018 the Company acquired the assets of Maintaining Independence Adult Day Services, Inc. ("Maintaining Independence") for a purchase price of approximately \$1.2 million. Maintaining Independence is located in New Hampshire and provides adult day health care services. Maintaining Independence will be included in the Company's Corporate and Other segment.

Forward-Looking Statements

Some of the matters discussed in this report may constitute "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act").

These statements relate to future events or our future financial performance, and include statements about our expectations for future periods with respect to our markets, demand for our services, the political climate and budgetary and rate environment, our expansion efforts and the impact of our recent acquisitions, our plans for

investments to further grow and develop our business, our margins, our liquidity, our labor costs, costs of ongoing litigation and effects of the Tax Act. Terminology such as “may,” “will,” “should,” “expect,” “plan,” “anticipate,” “believe,” “estimate,” “predict,” “potential” or “continue,” or similar expressions are intended to identify these forward looking statements. These statements are only predictions. Actual events or results may differ materially.

The information in this report is not a complete description of our business or the risks associated with our business.

There can be no assurance that other factors will not affect the accuracy of these forward-looking statements or that our actual results will not differ materially from the results anticipated in such forward-looking statements. While it is not possible to identify all such factors, factors that could cause actual results to differ materially from those estimated by us include, but are

not limited to, those factors or conditions described in our Annual Report on Form 10-K for the year ended September 30, 2017, as well as the following:

- reductions or changes in Medicaid or other funding or changes in budgetary priorities by federal, state and local governments;

- an increase in labor costs or labor-related liability;

- substantial claims, litigation and governmental proceedings;

- reductions in reimbursement rates, policies or payment practices by our payors;

- information technology failure, inadequacy, interruption or security failure;

- our ability to attract and retain experienced personnel;

- negative publicity or changes in public perception of our services;

- an increase in our self-insured retentions and changes in the insurance market for professional and general liability,

- workers’ compensation and automobile liability and our claims history and our ability to obtain coverage at reasonable rates;

- an increase in workers’ compensation related liability;

- the Patient Protection and Affordable Care Act materially reduced the flexibility we had in managing our healthcare cost and may make it harder for us to compete as an employer;

- our history of losses;

- changes in economic conditions;

- our ability to comply with complicated billing and collection rules and regulations;

- our ability to maintain effective internal controls;

- our substantial amount of debt, our ability to meet our debt service obligations and our ability to incur additional debt;

- failure to comply with reimbursement procedures and collect accounts receivable;

- our ability to establish and maintain relationships with government agencies and advocacy groups;

- our ability to maintain our status as a licensed service provider in certain jurisdictions;

- our susceptibility to any reduction in budget appropriations for our services in Minnesota or any other adverse developments in that state;

- our ability to maintain, expand and renew existing services contracts and to obtain additional contracts or acquire new licenses;

- our ability to realize and anticipate benefits of future acquisitions and our ability to successfully integrate acquired businesses;

- failure of our information systems or failure to upgrade our information systems when required;

- government regulations, changes in government regulations and our ability to comply with such regulations;

- write-offs of goodwill or other intangible assets;

- increased competition in our industry;

- decrease in popularity of home- and community-based human services among our targeted populations of individuals and/or state and local governments;

- our ability to operate our business due to constraints imposed by covenants in our senior credit agreement;

- our inability to successfully expand into adjacent markets;

- our ability to manage and integrate key administrative functions;

- natural disasters or public health catastrophes;

- our classification as a “controlled company”;

our stock price may be volatile and/or decline;
our equity sponsor has the ability to control significant corporate activities;
future sales of common stock may depress our stock price; and
as a holding company we rely on dividends, disbursements and other transfers of funds from our subsidiaries to meet our financial obligations.

Although we believe that the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results, levels of activity, performance or achievements. Moreover, we do not assume responsibility for the accuracy and completeness of the forward-looking statements. All written and oral forward-looking statements attributable to us or persons acting on our behalf are expressly qualified in their entirety by the “Risk Factors” and other cautionary statements referenced and included herein. We are under no duty to update any of the forward-looking statements after the date of this report to conform such statements to actual results or to changes in our expectations.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

We are exposed to changes in interest rates as a result of our outstanding variable rate debt. As of June 30, 2018, pursuant to an amendment to the senior credit agreement, the term loan bears interest at (i) a rate equal to the greater of (a) the prime rate, (b) the federal funds rate plus 1/2 of 1% and (c) the Eurodollar rate for an interest period of one-month beginning on such day plus 100 basis points; plus 2.00%; or (ii) the Eurodollar rate for a one, two, three or six month period at our option (subject to a LIBOR floor of 0.75%); plus 3.00%. A 1% increase in the interest rate on our floating rate debt as of June 30, 2018 would have increased cash interest expense on the floating rate debt by approximately \$7.1 million per annum, without giving effect to the interest rate swap agreements discussed below. To reduce the interest rate exposure related to our variable debt, NMHI entered into two interest rate swaps in an aggregate notional amount of \$375.0 million, effective on January 20, 2015. Under the terms of the swaps, we receive from the counterparty a quarterly payment based on a rate equal to the greater of 3-month LIBOR or 1.00% per annum, and we make payments to the counterparty based on a fixed rate of 1.795% per annum, in each case on the notional amount of \$375.0 million, settled on a net payment basis.

Item 4. Controls and Procedures.

(a) Evaluation of Disclosure Controls and Procedures

We maintain disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), that are intended to ensure that information that would be required to be disclosed in Exchange Act reports is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management, including the Chief Executive Officer and the Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

We carried out an evaluation, under the supervision, and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures as of June 30, 2018, the end of the period covered by this Quarterly Report on Form 10-Q. Based on this evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective as of June 30, 2018.

(b) Changes in Internal Control over Financial Reporting

There were no changes in our internal control over financial reporting during the quarter ended June 30, 2018 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings.

We are in the health and human services business and, therefore, we have been and continue to be subject to substantial claims alleging that we, our employees or our Mentors failed to provide proper care for an individual that we support. We are also subject to claims by individuals we support, our employees, our Mentors or community members against us for negligence, intentional misconduct or violation of applicable laws. Included in our recent claims are claims alleging personal injury, assault, abuse, wrongful death and other charges. Regulatory agencies may initiate administrative proceedings alleging that our programs, employees or agents violate statutes and regulations and seek to impose monetary penalties on us. We could be required to incur significant costs to respond to regulatory investigations or defend against civil lawsuits and, if we do not prevail, we could be required to pay substantial amounts of money in damages, settlement amounts or penalties arising from these legal proceedings.

We also are subject to potential lawsuits under the False Claims Act and other federal and state whistleblower statutes designed to combat fraud and abuse in the health care industry. These lawsuits can involve significant monetary awards that may incentivize private plaintiffs to bring these suits. If we are found to have violated the False Claims Act, we could be excluded from participation in Medicaid and other federal healthcare programs which would have a material adverse effect on our business. The Patient Protection and Affordable Care Act provides a mandate for more vigorous and widespread enforcement activity to combat fraud and abuse in the health care industry.

Finally, we are also subject to employee-related claims under state and federal law, including claims for wage and hour violations under the Fair Labor Standards Act or state wage and hour laws and claims for discrimination, wrongful discharge or retaliation. The Company currently has two pending complaints in California state court that allege certain wage and hour violations of California labor laws and seek to be designated as a class-action. Two additional wage and hour class action claims have been settled, one of which was settled and approved by the court on January 31, 2018 and one of which has been preliminarily approved by the court. Final approval and payment for this claim is expected in September 2018.

We reserve for costs related to contingencies when a loss is probable and the amount is reasonably estimable. While we believe our provision for legal contingencies is adequate, the outcome of our legal proceedings is difficult to predict, and we may settle legal claims or be subject to judgments for amounts that differ materially from our estimates. In addition, legal contingencies could have a material adverse impact on our results of operations in any given future reporting period.

See “Part II. Item 1A. Risk Factors” and “Part I. Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations” for additional information.

Item 1A. Risk Factors

There have been no material changes for the period covered by this Quarterly Report on Form 10-Q to the risk factors previously disclosed in our Annual Report on Form 10-K for the year ended September 30, 2017, except that we are supplementing the following risk factors:

“We rely on information technology in our operations, and any material failure, inadequacy, interruption or security failure of that technology could harm our business”

In late December 2017, we discovered that an unencrypted disk sent to us by a third party software provider was lost in the mail. We conducted an investigation to determine the nature and scope of this incident, the types of information involved and the individuals who may be affected, which was substantially completed in March 2018. Based on the results of the investigation, personal identifiable information of approximately 80 individuals was potentially compromised and personal health information of approximately 7,300 individuals across 35 states was potentially compromised. In accordance with State and Federal law, we notified the state Attorney General office for the State of California, Indiana, Massachusetts, Maryland, New York and New Jersey and the Office of Health and Human Services. In response to our notification to the Office of Health and Human Services (“HHS”), HHS requested additional information, which we provided in April, 2018. We have notified our cybersecurity insurance provider of

the event. As of the date of this filing, we are not aware of any actual or attempted misuse of information as a result of this incident.

“Our variable cost structure is directly related to our labor costs, which may be adversely affected by labor shortages, a deterioration in labor relations, increased unionization activities or mandated wage increases ”

On Monday, May 14th, we received notice from the National Labor Relations Board (“NLRB”) that 63 direct service providers in our West Palm Beach, Florida programs had filed a petition with the NLRB seeking to be represented by 1199 SEIU, United Health Workers East. On June 14, 2018, the workers elected to unionize. Based on that vote, we are currently negotiating a contract for these workers with 1199 SEIU, United Health Workers East.

For more information regarding the risks regarding our business and industry, please see our Annual Report on Form 10-K for the year ended September 30, 2017.

⁽¹⁾ Our employees surrendered an aggregate of 1,166 shares to us in satisfaction of minimum tax withholding obligations associated with the vesting of restricted stock units during the three months ended June 30, 2018.

⁽²⁾ The weighted average price paid per share of common stock does not include the cost of commissions.

⁽³⁾ On February 8, 2018, we announced that our Board of Directors approved a stock repurchase program under which we are authorized to repurchase up to \$25.0 million of the Company’s outstanding common stock from time to time in the open market, through negotiated transactions or otherwise (including, without limitation, the use of Rule 10b5-1 plans). The stock repurchase program will expire on August 12, 2018 or the date on which the total repurchase amount has been spent, whichever occurs first. We intend to conduct any open market stock repurchase activities in compliance with the safe harbor provisions of Rule 10b-18 of the Exchange Act. During the third quarter of fiscal 2018, we repurchased 812,379 shares for \$12.1 million under the program, which we have implemented through a 10b5-1 plan.
