Liquidity and Capital Resources

During the quarter ended July 31, 2015, we funded our operations from revenues from sales and private sales of our securities.

Short Term: We will continue to fund our operations from sales and the sale of our securities. We continue to pay our creditors when payments are due. We will require more funds to be able to order the material for our House Wrap product and to purchase equipment needed for the manufacture of the INSULTEX product. The Company has reached an agreement with the manufacturer of the INSULTEX material to purchase a machine capable of producing the INSULTEX material. Also included in the proposed agreement will be the propriety formula that creates INSULTEX. The Company intends to have the machine shipped to the United States where the Company will produce INSULTEX under its own brand name. The Company hopes to have the machine within the next two months and expects to be producing its own INSULTEX within the next six months. See Note 10 of the Notes to the Condensed Financial Statements.

Long Term: The Company will continue to fund its operations from revenues, borrowings from private parties and the possible sale of our securities. Should we not be able to rely on the private sources for borrowing, our operations would be severely effected as we would not be able to fund our purchase orders to our suppliers for finished goods.

ITEM 4T. CONTROLS AND PROCEDURES

Management has developed and implemented a policy and procedures for reviewing, on a quarterly basis, our disclosure controls and procedures. During the quarter ended July 31, 2015, our principle executive/financial officer concluded that these controls and procedures were ineffective. At this time we do not have the financial resources to employ a financial staff with accounting and financial expertise, once we have the necessary financial resources, we plan to hire and designate an individual responsible for identifying reportable developments and to implement procedures designed to remediate the material weakness by focusing additional attention and resources in our internal accounting functions. During the fourth quarter of 2014, the first and third quarters ended January 31, 2015 and July 31, 2015, respectively, the Company was not able to close the books and records in a timely fashion. Consequently, the Company was unable to file its Form 10-K for the year ended October 31, 2014 or its Form 10-Q for the quarters ended January 31, 2015 or July 31, 2015 within the timeline established by the SEC and was required to seek an extension for filing the form. There were no reclassifications made during the third quarter of 2015.
