Notes to Condensed Consolidated Financial Statements

(Unaudited)

Note 1 — BASIS OF PRESENTATION

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with Form 10-Q instructions and in the opinion of management contain all adjustments, consisting of normal recurring accruals, necessary to present fairly the financial position, results of operations and cash flows for the periods presented. The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from these estimates. These interim financial statements should be read in conjunction with the financial statements and accompanying notes included in the annual report on Form 10-K for the year ended December 31, 2015 of PolyOne Corporation. When used in this quarterly report on Form 10-Q, the terms “we,” “us,” “our”, "PolyOne" and the “Company” mean PolyOne Corporation and its consolidated subsidiaries.

Operating results for the three months ended March 31, 2016 are not necessarily indicative of the results that may be attained in subsequent periods or for the year ending December 31, 2016.

Accounting Standards Not Yet Adopted

In March 2016, the FASB issued Accounting Standards Update 2016-09, "Compensation - Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting" (ASU 2016-09), which simplifies the the accounting for share-based payment transactions. This update requires that excess tax benefits and tax deficiencies will be recognized as income tax expense or benefit in the Consolidated Statements of Income rather than additional paid-in capital. Additionally, the excess tax benefits will be classified along with other income tax cash flows as an operating activity, rather than a financing activity, on the Statement of Cash Flows. Further, the update allows an entity to make a policy election to recognize forfeitures as they occur or estimate the number of awards expected to be forfeited. ASU 2016-09 is effective for annual and interim periods beginning after December 15, 2016, and should be applied prospectively, with certain cumulative effect adjustments. Early adoption is permitted. We do not expect this standard to have a material impact on our Consolidated Financial Statements.

In February 2016, the FASB issued Accounting Standards Update 2016-02, "Leases (Topic 842)" (ASU 2016-02), which requires a lessee to recognize on the balance sheet the assets and liabilities for the rights and obligations created by those leases with a lease term of more than twelve months. Leases will continue to be classified as either financing or operating, with classification affecting the recognition, measurement and presentation of expenses and cash flows arising from a lease. The Company will adopt ASU 2016-02 no later than the required date of January 1, 2019. We are currently assessing the impact this standard will have on our Consolidated Financial Statements.

In July 2015, the FASB issued Accounting Standards Update 2015-11, "Inventory (Topic 300): Simplifying the Measurement of Inventory" (ASU 2015-11), which applies to inventory measured using first-in, first out (FIFO) or average cost. This update requires that an entity should measure inventory that is within scope at the lower of cost and net realizable value, which is the estimated selling prices in the ordinary course of business, less reasonably predictable costs of completion, disposal and transportation. This update is effective for annual and interim periods beginning after December 15, 2016, and should be applied prospectively with early adoption permitted at the beginning of an interim or annual reporting period. We do not expect this standard to have a material impact on our Consolidated Financial Statements.

In May 2014, the FASB issued Auditing Standards Update 2014-09, "Revenue from Contracts with Customers" (ASU 2014-09). Under this standard, a company recognizes revenue when it transfers promised goods or services to customers in an amount that reflects the consideration to which the company expects to be entitled in exchange for those goods or services. The standard implements a five-step process for customer contract revenue recognition that focuses on transfer of control. The Company will adopt ASU 2014-09 no later than the required date of January 1, 2018. Entities can transition to the standard either retrospectively or as a cumulative-effect adjustment as of the date of adoption. We are currently assessing the impact this standard will have on our Consolidated Financial Statements as well as the method by which we will adopt the new standard.

Note 2 — BUSINESS COMBINATIONS

On December 9, 2015, the Company completed the acquisition of Magenta Master Fibers (Magenta), a leading innovative developer of the specialty color concentrates for the global fiber industry, for approximately \$18.1 million, net of cash acquired. The results of operations of Magenta were included in the Company's Consolidated Statements of Income for the period subsequent to the date of the acquisition and are reported in the Color, Additives and Inks segment. The preliminary purchase price allocation is subject to change and not yet finalized. This preliminary allocation resulted in goodwill of \$6.6 million. Goodwill recognized as a result of this acquisition is not deductible for tax purposes.

On January 29, 2016, the Company completed the acquisition of certain technologies and assets from Kraton Performance Polymers, Inc (Kraton), to expand its global footprint and expertise in thermoplastic elastomer (TPE) innovation and design, for approximately \$72.8 million. The results of operations of Kraton are included in the Company's Consolidated Statements of Income for the period subsequent to the date of the acquisition and are reported in the Specialty Engineered Materials segment. The preliminary purchase price allocation is subject to change and not yet finalized. This preliminary allocation resulted in goodwill of \$36.9 million and \$13.8 million in intangible assets that will be amortized over a period of seven to ten years. Goodwill recognized as a result of this acquisition is deductible for tax purposes.

Note 3 — GOODWILL AND INTANGIBLE ASSETS

Total	\$432.7	\$ (87.8)	\$ (0.3)	\$344.6

Note 4 — EMPLOYEE SEPARATION AND RESTRUCTURING COSTS

In the second half of 2015, PolyOne determined it would close two manufacturing facilities within the Designed Structures and Solutions segment and take other corporate actions to reduce administrative costs. These actions were taken as a result of Designed Structures and Solutions' declining results and near-term outlook. During the three months ended March 31, 2016, we recognized \$5.1 million, primarily related to severance and asset-related charges, associated with these actions. Total costs for these actions to-date has been \$22.2 million, which include \$8.3 million of severance costs, \$12.7 million of asset-related charges, including accelerated depreciation of \$8.6 million, and \$1.2 million of other ongoing costs associated with exiting these plants and transferring equipment. We anticipate the remaining accelerated depreciation charges and ongoing costs of \$5.0 million to be incurred in the second and third quarters of 2016.

In 2013, PolyOne determined it would close seven former Spartech Corporation (Spartech) manufacturing facilities and one administrative office and relocate operations to other PolyOne facilities. The closure of these manufacturing facilities was part of the Company's efforts to improve service, on time delivery and quality as we align assets with our customers' needs.

There were no charges related to the Spartech actions during the three months ended March 31, 2016 as these actions were complete as of December 31, 2015. We recognized \$9.3 million related to these actions during the three months ended March 31, 2015.

During the three months ended March 31, 2016, we recognized total employee separation and restructuring charges of \$7.1 million, of which \$2.7 million was recognized within Cost of goods sold and \$4.4 million within Selling and administrative expenses. During the three months ended March 31, 2015, we recognized total employee separation and restructuring charges of \$10.6 million, of which \$7.9 million was recognized within Cost of goods sold and \$2.7 million within Selling and administrative expenses.

Note 5 — INVENTORIES, NET

Components of Inventories, net are as follows:

(In millions)	March 31, December 31,	
	2016	2015
Finished products	\$ 202.7	\$ 172.7
Work in process	6.4	5.0

Property, gross	1,489.0	1,469.9
Less accumulated depreciation and amortization	(909.1)	(886.4)
Property, net	\$ 579.9	\$ 583.5

Depreciation expense was \$21.7 million for the three months ended March 31, 2016 and \$20.2 million for the three months ended March 31, 2015. Included in depreciation expense is accelerated depreciation of \$2.8 million and \$0.1 million during the three months ended March 31, 2016 and 2015, respectively, related to restructuring actions.

Note 7 — INCOME TAXES

During the first quarter of 2016, the Company's effective tax rate of 31.6% differed from the Company's federal statutory rate of 35.0% primarily due to the favorable impact of foreign tax rate differences on foreign earnings. The effective tax rate for the three months ended March 31, 2015 was 43.3%. The decrease in effective tax rate of 11.7% is primarily due to a foreign court ruling that settled an uncertain tax position taken in a prior year negatively

impacting the 2015 effective tax rate by 15.3%. Partially offsetting this increase in the first quarter of 2015 was a benefit of amending certain prior period tax returns associated with the use of foreign tax credits.

Note 8 — WEIGHTED-AVERAGE SHARES USED IN COMPUTING EARNINGS PER COMMON SHARE

	Three Months Ended March 31, 2016 2015	
(In millions)		
Weighted-average common shares outstanding – basic	84.7	89.2
Plus dilutive impact of share-based compensation	0.8	0.9
Weighted-average common shares – diluted	85.5	90.1

For the three months ended March 31, 2016 and 2015, 0.3 million and 0.1 million of equity-based awards, respectively, were excluded from the computation of diluted earnings per common share because their effect would have been anti-dilutive.

Note 9 — EMPLOYEE BENEFIT PLANS

Components of defined benefit pension plan net periodic gains are as follows:

	Three Months Ended March 31, 2016 2015	
(In millions)		
Service cost	\$0.2	\$0.4
Interest cost	5.2	5.3

Less short-term and current portion of long-term debt	18.6	—	18.6
Long-term debt	\$1,144.9	\$ 16.9	\$1,128.0

On November 12, 2015, PolyOne entered into a senior secured term loan having an aggregate principal amount of \$550.0 million. \$5.5 million of the principal amount is payable annually while the remaining balance matures on November 12, 2022. The interest rate associated with the term loan is 300 basis points plus the greater of (i) the 1-, 2-, 3-, or 6-month LIBOR, at the Company's discretion, or (ii) 75 basis points. The weighted average annual interest rate for the senior secured term loan for the three months ended March 31, 2016 was 3.75%. The total aggregate principal repayments as of the three months ended March 31, 2016 was \$1.4 million.

PolyOne has outstanding \$600.0 million aggregate principal amount of senior notes, which mature on March 15, 2023. The senior notes bear an interest rate of 5.25% per year, payable semi-annually, in arrears, on March 15 and September 15 of each year.

The Company maintains a senior secured revolving credit facility with a maturity date of March 1, 2018, which provides a maximum borrowing facility size of \$400.0 million, subject to a borrowing base with advances against certain U.S. and Canadian accounts receivable, inventory and other assets as specified in the agreement. We have the option to increase the availability under the facility to \$450.0 million, subject to meeting certain requirements and obtaining commitments for such increase. The senior secured revolving credit facility has a U.S. and a Canadian line of credit. Currently there are no borrowings on the Canadian portion of the facility. Advances under the U.S. portion of our revolving credit facility bear interest, at the Company's option, at a Base Rate or a LIBOR Rate plus an applicable margin. The Base Rate is a fluctuating rate equal to the greater of (i) the Federal Funds Rate plus one-half percent, (ii) the prevailing LIBOR Rate plus one percent, and (iii) the prevailing Prime Rate. The applicable margins vary based on the Company's daily average excess availability during the previous quarter. The weighted average annual interest rate under this facility for the three months ended March 31, 2016 was 3.03%. As of March 31, 2016, we had \$47.3 million of outstanding borrowings and had availability of \$329.2 million under this facility.

The agreements governing our revolving credit facility and our secured term loan, and the indentures and credit agreements governing other debt, contain a number of customary restrictive covenants that, among other things, limit our ability to: consummate asset sales, incur additional debt or liens, consolidate or merge with any entity or transfer

or sell all or substantially all of our assets, pay dividends or make certain other restricted payments, make investments, enter into transactions with affiliates, create dividend or other payment restrictions with respect to subsidiaries, make capital investments and alter the business we conduct. In addition, these agreements require us to comply with specific financial tests, under which we are required to achieve certain or specific financial and operating results. As of March 31, 2016, we were in compliance with all covenants.

The Company also has a credit line of \$16.0 million with Saudi Hollandi Bank. The credit line has an interest rate equal to the Saudi Arabia Interbank Offered Rate plus a fixed rate of 0.85% and is subject to annual renewal. Borrowings under this credit line were primarily used to fund capital expenditures related to the manufacturing facility in Jeddah, Saudi Arabia. As of March 31, 2016, letters of credit under the credit line were \$0.2 million and borrowings were \$12.6 million with an interest rate of 2.07%.

The estimated fair value of PolyOne's debt instruments at March 31, 2016 and December 31, 2015 was \$1,188.5 million and \$1,136.2 million, respectively, compared to carrying values of \$1,192.9 million and \$1,146.6 million as of March 31, 2016 and December 31, 2015, respectively. The fair value of PolyOne's debt instruments was estimated using prevailing market interest rates on debt with similar creditworthiness, terms and maturities and represent Level 2 measurements within the fair value hierarchy.

Note 11 — SEGMENT INFORMATION

Operating income is the primary measure that is reported to our chief operating decision maker for purposes of allocating resources to the segments and assessing their performance. Operating income at the segment level does not include: corporate general and administrative expenses that are not allocated to segments; intersegment sales and profit eliminations; charges related to specific strategic initiatives such as the consolidation of operations; restructuring activities, including employee separation costs resulting from personnel reduction programs, plant closure and phase-in costs; executive separation agreements; share-based compensation costs; asset impairments; environmental remediation costs and other liabilities for facilities no longer owned or closed in prior years; gains and losses on the divestiture of joint ventures and equity investments; actuarial gains and losses associated with our pension and other post-retirement benefit plans; and certain other items that are not included in the measure of segment profit or loss that is reported to and reviewed by our chief operating decision maker. These costs are included in Corporate and eliminations.

PolyOne has five reportable segments: (1) Color, Additives and Inks; (2) Specialty Engineered Materials; (3) Designed Structures and Solutions; (4) Performance Products and Solutions; and (5) PolyOne Distribution.

Note 12 — COMMITMENTS AND CONTINGENCIES

Environmental — We have been notified by federal and state environmental agencies and by private parties that we may be a potentially responsible party (PRP) in connection with the environmental investigation and remediation

11

of certain sites. While government agencies frequently assert that PRPs are jointly and severally liable at these sites, in our experience, the interim and final allocations of liability costs are generally made based on the relative contribution of waste. We may also initiate corrective and preventive environmental projects of our own to ensure safe and lawful activities at our operations. We believe that compliance with current governmental regulations at all levels will not have a material adverse effect on our financial position, results of operations or cash flows.

In September 2007, we were informed of rulings by the United States District Court for the Western District of Kentucky on several pending motions in the case of *Westlake Vinyls, Inc. v. Goodrich Corporation, et al.*, which had been pending since 2003. The Court held that PolyOne must pay the remediation costs at the former Goodrich Corporation Calvert City facility (now largely owned and operated by Westlake Vinyls), together with certain defense costs of Goodrich Corporation. The rulings also provided that PolyOne can seek indemnification for contamination attributable to Westlake Vinyls.

The environmental obligation at the site arose as a result of an agreement between The B.F. Goodrich Company (n/k/a Goodrich Corporation) and our predecessor, The Geon Company, at the time of the initial public offering in 1993, by which The Geon Company became a public company, to indemnify Goodrich Corporation for environmental costs at the site. At the time, neither PolyOne nor The Geon Company ever owned or operated the facility. Following the Court rulings, the parties to the litigation entered into settlement negotiations and agreed to settle all claims regarding past environmental costs incurred at the site. The settlement agreement provides a mechanism to pursue allocation of future remediation costs at the Calvert City site to Westlake Vinyls. While we do not currently assume any allocation of costs in our current accrual, we will adjust our accrual, in the future, consistent with any such future allocation of costs.

A remedial investigation and feasibility study (RIFS) is underway at Calvert City. During the third quarter of 2013, we submitted a remedial investigation report to the United States Environmental Protection Agency (USEPA). The USEPA required certain changes to the remedial investigation report and provided a final report in the third quarter of 2015. Additionally, in the third quarter of 2015, the USEPA assumed responsibility for the completion of the feasibility study. We continue to pursue available insurance coverage related to this matter and recognize gains as we receive reimbursement. No receivable has been recognized for future recoveries.

On March 13, 2013, PolyOne acquired Spartech. One of Spartech's subsidiaries, Franklin-Burlington Plastics, Inc. (Franklin-Burlington), operated a plastic resin compounding facility in Kearny, New Jersey, located adjacent to the Passaic River. The USEPA has requested that companies located in the area of the lower Passaic River, including Franklin-Burlington, cooperate in an investigation of contamination of approximately 17 miles of the lower Passaic River (the lower Passaic River Study Area). In response, Franklin-Burlington and approximately 70 other companies (collectively, the Cooperating Parties) agreed, pursuant to an Administrative Order of Consent with the USEPA, to assume responsibility for development of a RIFS of the lower Passaic River Study Area. The RIFS costs are exclusive of any costs that may ultimately be required to remediate the lower Passaic River Study Area or costs associated with natural resource damages that may be assessed. By agreeing to bear a portion of the cost of the RIFS, Franklin-Burlington did not admit to any liability or agree to bear any such remediation or natural resource damage costs.

In February 2015, the Cooperating Parties submitted to the USEPA a remedial investigation report for the lower Passaic River Study Area. In March 2015, Franklin-Burlington, along with nine other PRPs, submitted a de minimis settlement petition to the USEPA, asserting the ten entities contributed little or no impact to the lower Passaic River and seeking a meeting to commence settlement discussions. In April 2015, the Cooperating Parties submitted a feasibility study to the USEPA. The feasibility study does not contemplate who is responsible for remediation nor does it determine how such costs will be allocated to PRPs. The Cooperating Parties are currently revising their RIFS, which has not yet been approved by the USEPA, as part of continuing technical discussions with the USEPA.

On March 4, 2016, the USEPA issued a Record of Decision selecting a remedy for an eight-mile portion of the lower Passaic River Study Area at an estimated and discounted cost of \$1.4 billion. On March 31, 2016, the USEPA sent a Notice of Potential Liability (the Notice) to over 100 companies, including Franklin-Burlington, and several municipalities for this eight-mile portion. In the Notice, the USEPA states that it expects to negotiate an Administrative Order on Consent for Remedial Design with Occidental Chemical Corporation and, upon signature,

plans to negotiate a consent decree with other major PRPs to perform remedial actions. The Notice does not identify the "other major PRPs." Further, the Notice communicates that the USEPA will provide to certain parties separate notice of the opportunity to discuss a cash-out settlement at a later date.

Based on the currently available information, we have found no evidence that Franklin-Burlington contributed any of the primary contaminants of concern to the lower Passaic River. Any allocation to Franklin-Burlington, including a final resolution of our de minimis petition or other opportunity for cash-out settlement, or further appropriate legal

actions has not been determined. As a result of these uncertainties, we are unable to estimate a liability, if any, related to this matter. As of March 31, 2016, we have not accrued for costs of remediation related to the lower Passaic River.

During the three months ended March 31, 2016 and 2015, PolyOne recognized \$1.7 million and \$1.5 million, respectively, of expense related to environmental remediation activities. During the three months ended March 31, 2015, we received \$0.5 million of insurance recoveries related to previously incurred environmental costs. These expenses and gains associated with these reimbursements are included within Cost of sales within our Condensed Consolidated Statements of Income.

Our Consolidated Balance Sheet includes accruals totaling \$119.8 million and \$119.9 million as of March 31, 2016 and December 31, 2015, respectively, based on our estimates of probable future environmental expenditures relating to previously contaminated sites. These undiscounted amounts are included in Accrued expenses and other liabilities and Other non-current liabilities on the accompanying Consolidated Balance Sheets. The accruals represent our best estimate of probable future costs that we can reasonably estimate, based upon currently available information and technology and our view of the most likely remedy. Depending upon the results of future testing, completion and results of remedial investigation and feasibility studies, the ultimate remediation alternatives undertaken, changes in regulations, technology development, new information, newly discovered conditions and other factors, it is reasonably possible that we could incur additional costs in excess of the amount accrued at March 31, 2016. However, such additional costs, if any, cannot be currently estimated. Further, we have not recorded receivables for future available insurance recoveries associated with these costs.

Guarantee — On February 28, 2011, we sold our 50% equity interest in SunBelt Chlor Alkali Partnership (Sunbelt) to Olin Corporation (Olin). As a result of the sale, Olin assumed our obligations under our guarantee of senior secured notes issued by SunBelt, which are \$12.2 million as of March 31, 2016. Unless the guarantee is formally assigned to Olin, we remain obligated under the guarantee, although Olin has agreed to indemnify us for amounts that we may be obligated to pay under the guarantee. The senior secured notes mature in December 2017.

Note 13 — EQUITY

Changes in equity for the three months ended March 31, 2016 and March 31, 2015 are as follows:

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Our Business

We are a premier provider of specialized polymer materials, services and solutions with operations in specialty polymer formulations, color and additive systems, plastic sheet and packaging solutions and polymer distribution. We are also a highly specialized developer and manufacturer of performance enhancing additives, liquid colorants, and fluoropolymer and silicone colorants. Headquartered in Avon Lake, Ohio, we have employees at manufacturing sites and distribution facilities in North America, South America, Europe and Asia. We provide value to our customers through our ability to link our knowledge of polymers and formulation technology with our manufacturing and supply chain capabilities to provide value added solutions to designers, assemblers and processors of plastics (our customers). When used in this quarterly report on Form 10-Q, the terms "we," "us," "our", "PolyOne" and the "Company" mean PolyOne Corporation and its consolidated subsidiaries.

Sales

Sales decreased \$26.1 million, or 3.0%, in the first quarter of 2016 compared to the first quarter of 2015. Underlying sales growth of 3.8% and the acquisitions of Magenta and certain Kraton assets led to a sales increase of 5.2%. This increase was more than offset by declining hydrocarbon based raw material costs that led to reduced overall average selling prices, particularly for the Performance Products and Solutions, PolyOne Distribution and Designed Structures and Solutions segments, which impacted sales by 4.3%. The remaining decrease is primarily due to the impact of unfavorable foreign exchange.

Cost of sales

As a percent of sales, cost of sales decreased from 80.6% in the first quarter of 2015 to 78.1% in the first quarter of 2016. This decrease is a result of improved operational efficiencies, mix and lower overall input cost.

Selling and administrative expense

Selling and administrative expenses increased \$14.5 million during the three months ended March 31, 2016 compared to the three months ended March 31, 2015. This was driven primarily by higher overall compensation costs and incentive accruals of \$9.6 million, partially due to our investment in commercial resources, and a \$1.7 million increase in restructuring charges primarily from the 2015 restructuring actions undertaken to reduce administrative costs. Additionally, the first quarter of 2015 was favorably impacted by \$3.7 million related to the reversal of state and local sales and use taxes due to the expiration of statute of limitations.

Interest expense, net

Interest expense, net decreased for the three months ended March 31, 2016, as compared to the three months ended March 31, 2015. This decrease was driven by the repayments of higher interest-bearing debt during the fourth quarter of 2015 as a result of our November debt refinancing and a decrease in borrowings on our revolving credit facility during the three months ended March 31, 2016.

Income taxes

The effective tax rate for the three months ended March 31, 2016 was 31.6% compared to 43.3% for the three months ended March 31, 2015. The decrease in effective tax rate of 11.7% is primarily due to a foreign court ruling that settled an uncertain tax position taken in a prior year negatively impacting the 2015 effective tax rate by 15.3%.

Partially offsetting this increase in the first quarter of 2015 was a benefit of amending certain prior period tax returns associated with the use of foreign tax credits.

SEGMENT INFORMATION

Operating income is the primary measure that is reported to our chief operating decision maker for purposes of allocating resources to the segments and assessing their performance. Operating income at the segment level does not include: corporate general and administrative expenses that are not allocated to segments; intersegment sales and profit eliminations; charges related to specific strategic initiatives such as the consolidation of operations; restructuring activities, including employee separation costs resulting from personnel reduction programs, plant closure and phase-in costs; executive separation agreements; share-based compensation costs; asset impairments; environmental remediation costs and other liabilities for facilities no longer owned or closed in prior years; gains and losses on the divestiture of joint ventures and equity investments; actuarial gains and losses associated with our pension and other post-retirement benefit plans; and certain other items that are not included in the measure of segment profit or loss that is reported to and reviewed by our chief operating decision maker. These costs are included in Corporate and eliminations.

PolyOne has five reportable segments: (1) Color, Additives and Inks; (2) Specialty Engineered Materials; (3) Designed Structures and Solutions; (4) Performance Products and Solutions; and (5) PolyOne Distribution. Our segments are further discussed in Note 11, Segment Information, to the accompanying consolidated financial statements. The restructuring actions are further discussed in Note 4, Employee Separation and Restructuring Costs, to the accompanying consolidated financial statements and the respective impact of those actions on the reportable segment operating income are discussed below. We do not expect the remaining charges or further benefits associated with these actions to have a material impact to our segments or the consolidated financial statements going forward. Color, Additives and Inks

Sales decreased \$3.6 million, or 1.7%, in the first quarter of 2016 compared to the first quarter of 2015. Sales increases of 2.2% associated with the acquisition of Magenta were offset by an unfavorable foreign exchange rate impact of 2.4% and slightly lower volume.

Operating income increased \$1.1 million in the first quarter of 2016 as compared to the first quarter of 2015 due to organic operating income growth of \$0.7 million, as improved mix more than offset a \$1.5 million increase in compensation and incentives related to our investment in increased commercial resources. Further, operating income increased \$0.9 million from the acquisition of Magenta, partially offset by the impact of foreign exchange of \$0.5 million.

Specialty Engineered Materials

Sales decreased \$0.9 million, or 0.6%, in the first quarter of 2016 compared to the first quarter of 2015. Underlying organic volume growth added 1.6% and the acquisition of certain Kraton assets increased sales 5.2%. These gains were offset by unfavorable foreign exchange of 1.5% and mix changes of 5.4%.

Operating income increased \$0.3 million in the first quarter of 2016 as compared to the first quarter of 2015.

Organically, operating income declined \$1.0 million as gross margin improvement was more than offset by \$1.0 million in additional compensation and incentive costs primarily related to increased commercial resources and foreign exchange impact of \$0.3 million. The acquisition of certain Kraton assets added \$1.3 million.

Designed Structures and Solutions

Sales declined \$10.6 million, or 8.9%, in the first quarter of 2016 compared to the first quarter of 2015. Underlying growth of 4.9% was more than offset by the impact of reduced overall average selling prices associated with lower hydrocarbon based raw material costs and mix changes.

Operating income decreased \$2.8 million in the first quarter of 2016 as compared to the first quarter of 2015 as a result of lower sales.

Performance Products and Solutions

Sales decreased \$9.7 million, or 5.5%, in the first quarter of 2016 as compared to the first quarter of 2015 as volume growth of 2.0% was more than offset by a reduction in hydrocarbon based raw material costs that led to reduced overall average selling prices.

Operating income increased \$8.2 million in the first quarter of 2016 as compared to the first quarter of 2015 as a result of higher volume and expanding gross margin which more than offset \$1.8 million of additional selling and administrative expense primarily related to compensation and incentives from our investment in commercial resources.

PolyOne Distribution

Volume gains of 12.4% were largely offset by lower overall average selling prices due to declining hydrocarbon based resin costs. In total, sales increased \$3.1 million, or 1.2%, in the first quarter of 2016 as compared to the first quarter of 2015.

Operating income increased \$1.8 million in the first quarter of 2016 as compared to the first quarter of 2015 primarily as a result of higher volume partially offset by increased selling and administrative costs resulting from an investment in commercial resources.

Corporate and Eliminations

Corporate and eliminations increased \$7.4 million in the first quarter of 2016 as compared to the first quarter of 2015. This was primarily due to a \$4.0 million increase in compensation and incentive costs and \$2.3 million of costs primarily associated with the acquisitions of Magenta and certain Kraton assets.

Liquidity and Capital Resources

Our objective is to finance our business through operating cash flow and an appropriate mix of debt and equity. By laddering the maturity structure, we avoid concentrations of debt maturities, reducing liquidity risk. We may from time

to time seek to retire or purchase our outstanding debt with cash and/or exchanges for equity securities, in open market purchases, privately negotiated transactions or otherwise. We may also seek to repurchase our outstanding common shares. Such repurchases, if any, will depend on prevailing market conditions, our liquidity requirements, contractual restrictions and other factors. The amounts involved have been and may continue to be material.

The following table summarizes our liquidity as of March 31, 2016 and December 31, 2015:

(In millions)	March 31, December 31,	
	2016	2015
Cash and cash equivalents	\$ 155.4	\$ 279.8
Revolving credit availability	332.4	341.9
Liquidity	\$ 487.8	\$ 621.7

As of March 31, 2016, approximately 90% of the Company's cash and cash equivalents resided outside the United States. Repatriation of these funds could result in potential foreign and domestic taxes. To the extent foreign earnings previously treated as permanently reinvested were to be repatriated, the potential U.S. tax liability may be reduced by any foreign income taxes paid on these earnings. However, based on the Company's policy of permanent reinvestment, it is not practicable to determine the U.S. federal income tax liability, if any. Determination of the amount of unrecognized deferred tax liabilities and related foreign withholding taxes is not practicable due to the complexities associated with this hypothetical calculation and the Company's permanent reinvestment policy.

Cash Flows

The following describes the material components of cash flows from operating, investing and financing activities for the three months ended March 31, 2016 and 2015.

Operating Activities — In the three months ended March 31, 2016, net cash used by operating activities was \$29.2 million as compared to net cash used by operating activities of \$57.8 million for the three months ended March 31, 2015. The decrease in net cash used by operating activities of \$28.6 million is primarily driven by higher earnings of \$8.8 million, lower incentive payments of \$27.0 million, lower payroll payments of \$14.5 million primarily as a result of payment timing, lower interest paid of \$6.7 million, and lower tax payments of \$1.7 million for the three months ended March 31, 2016 as compared to the three months ended March 31, 2015. Partially offsetting these decreases was an increase in working capital of \$36.7 million.

Working capital as a percentage of sales, which we define as the average accounts receivable, plus average inventory, less average accounts payable, divided by sales, for the first quarter of 2016 improved to 9.7% compared to 10.1% for the first quarter of 2015. This improvement is primarily due to days sales outstanding for the first quarter of 2016 improving to 41.7 compared to 42.8 for the first quarter of 2015.

Investing Activities — Net cash used by investing activities during the three months ended March 31, 2016 of \$92.4 million reflects the acquisition of certain Kraton assets for \$72.8 million and \$19.6 million of capital expenditures. Net cash used by investing activities during the three months ended March 31, 2015 of \$14.0 million reflects \$15.1 million of capital expenditures partially offset by proceeds from the sale of other assets of \$1.1 million.

Financing Activities — Net cash used by financing activities for the three months ended March 31, 2016 of \$3.5 million reflects \$39.6 million of repurchases of our outstanding common shares, \$10.4 million of dividends paid and \$1.4 million of repayment of long-term debt. These cash outflows were partially offset by net borrowings of \$47.3 million under our revolving credit facility.

Net cash provided by financing activities for the three months ended March 31, 2015 of \$62.5 million reflects net borrowings of \$87.2 million under our revolving credit facility and a \$3.8 million benefit related to the exercise of employee equity awards. These cash inflows were partially offset by \$19.6 million of repurchases of our outstanding common shares and \$9.0 million of dividends paid.

Debt

As of March 31, 2016, the principal amount of debt totaled \$1,209.4 million. Aggregate maturities of the principal amount of debt for the current year, next five years and thereafter, are as follows:

(In millions)

2016	\$ 17.2
2017	5.5
2018	52.8
2019	5.6
2020	5.6
Thereafter	1,122.7
Aggregate maturities	\$ 1,209.4

On November 12, 2015, PolyOne entered into a senior secured term loan having an aggregate principal amount of \$550.0 million. \$5.5 million of the principal amount is payable annually while the remaining balance matures on November 12, 2022. The interest rate associated with the term loan is 300 basis points plus the greater of (i) the 1-, 2-, 3-, or 6-month LIBOR, at the Company's discretion, or (ii) 75 basis points. The weighted average annual interest rate for the senior secured term loan for the three months ended March 31, 2016 was 3.75%. The total aggregate principal repayments as of the three months ended March 31, 2016 was \$1.4 million.

PolyOne has outstanding \$600.0 million aggregate principal amount of senior notes, which mature on March 15, 2023. The senior notes bear an interest rate of 5.25% per year, payable semi-annually, in arrears, on March 15 and September 15 of each year.

The Company maintains a senior secured revolving credit facility with a maturity date of March 1, 2018, which provides a maximum borrowing facility size of \$400.0 million, subject to a borrowing base with advances against certain U.S. and Canadian accounts receivable, inventory and other assets as specified in the agreement. We have the option to increase the availability under the facility to \$450.0 million, subject to meeting certain requirements and obtaining commitments for such increase. The senior secured revolving credit facility has a U.S. and a Canadian line of credit. Currently there are no borrowings on the Canadian portion of the facility. Advances under the U.S. portion of our revolving credit facility bear interest, at the Company's option, at a Base Rate or a LIBOR Rate plus an applicable margin. The Base Rate is a fluctuating rate equal to the greater of (i) the Federal Funds Rate plus one-half percent, (ii) the prevailing LIBOR Rate plus one percent, and (iii) the prevailing Prime Rate. The applicable margins vary based on the Company's daily average excess availability during the previous quarter. The weighted average annual interest rate under this facility for the three months ended March 31, 2015 was 3.03%. As of March 31, 2016, we had \$47.3 million of outstanding borrowings and had availability of \$329.2 million under this facility.

The agreements governing our revolving credit facility and our secured term loan, and the indentures and credit agreements governing other debt, contain a number of customary restrictive covenants that, among other things, limit our ability to: consummate asset sales, incur additional debt or liens, consolidate or merge with any entity or transfer or sell all or substantially all of our assets, pay dividends or make certain other restricted payments, make investments, enter into transactions with affiliates, create dividend or other payment restrictions with respect to subsidiaries, make capital investments and alter the business we conduct. In addition, these agreements require us to comply with specific financial tests, under which we are required to achieve certain or specific financial and operating results. As of March 31, 2016, we were in compliance with all covenants.

The Company also has a credit line of \$16.0 million with Saudi Hollandi Bank. The credit line has an interest rate equal to the Saudi Arabia Interbank Offered Rate plus a fixed rate of 0.85% and is subject to annual renewal.

Borrowings under this credit line were primarily used to fund capital expenditures related to the manufacturing facility in Jeddah, Saudi Arabia. As of March 31, 2016, letters of credit under the credit line were \$0.2 million and borrowings were \$12.6 million with an interest rate of 2.07%.

Guarantee

On February 28, 2011, we sold our 50% equity interest in SunBelt to Olin. As a result of the sale, Olin assumed our obligations under our guarantee of senior secured notes issued by SunBelt which are \$12.2 million as of March 31, 2016. Unless the guarantee is formally assigned to Olin, we remain obligated under the guarantee, although Olin has

agreed to indemnify us for amounts that we may be obligated to pay under the guarantee. The senior secured notes mature in December 2017.

Contractual Obligations

We have future obligations under various contracts relating to debt and interest payments, operating leases, pension and post-retirement benefit plans and purchase obligations. During the three months ended March 31, 2016, there were no material changes to these obligations as reported in our annual report on Form 10-K for the year ended December 31, 2015.

CAUTIONARY NOTE ON FORWARD-LOOKING STATEMENTS

In this quarterly report on Form 10-Q, statements that are not reported financial results or other historical information are “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995.

Forward-looking statements give current expectations or forecasts of future events and are not guarantees of future performance. They are based on management’s expectations that involve a number of business risks and uncertainties, any of which could cause actual results to differ materially from those expressed in or implied by the forward-looking statements. You can identify these statements by the fact that they do not relate strictly to historic or current facts.

They use words such as “anticipate,” “estimate,” “expect,” “project,” “intend,” “plan,” “believe” and other words and terms of meaning in connection with any discussion of future operating or financial performance and/or sales. In particular, these include statements relating to future actions; prospective changes in raw material costs, product pricing or product demand; future performance; estimated capital expenditures; results of current and anticipated market conditions and market strategies; sales efforts; expenses; the outcome of contingencies such as legal proceedings and environmental liabilities; and financial results. Factors that could cause actual results to differ materially from those implied by these forward-looking statements include, but are not limited to:

- effects on foreign operations due to currency fluctuations, tariffs and other political, economic and regulatory risks;
- changes in polymer consumption growth rates and laws and regulations regarding the disposal of plastic materials where we conduct business;
- changes in global industry capacity or in the rate at which anticipated changes in industry capacity come online in the industries in which we participate;
- fluctuations in raw material prices, quality and supply, and in energy prices and supply;
- production outages or material costs associated with scheduled or unscheduled maintenance programs;
- unanticipated developments that could occur with respect to contingencies such as litigation and environmental matters, including any developments that would require any increase in our costs and/or reserves for such contingencies;
- an inability to achieve or delays in achieving or achievement of less than the anticipated financial benefit from initiatives related to working capital reductions, cost reductions and employee productivity goals;
- an inability to raise or sustain prices for products or services;
- an inability to maintain appropriate relations with unions and employees;
- the strength and timing of economic recoveries;
- the financial condition of our customers, including the ability of customers (especially those that may be highly leveraged and those with inadequate liquidity) to maintain their credit availability;
- disruptions, uncertainty or volatility in the credit markets that may limit our access to capital;
- other factors affecting our business beyond our control, including, without limitation, changes in the general economy, changes in interest rates and changes in the rate of inflation;
- the amount and timing of repurchases, if any, of PolyOne common shares;
- our ability to pay regular quarterly cash dividends and the amounts and timing of any future dividends;
- our ability to realize anticipated savings and operational benefits from the realignment of assets, including the closure of manufacturing facilities; the timing of closings and shifts of production to new facilities related to asset realignments and any unforeseen loss of customers and/or disruptions of service or quality caused by such closings and/or production shifts; separation and severance amounts that differ from original estimates, amounts for non-cash charges related to asset write-offs and accelerated depreciation realignments of property, plant and equipment, that differ from original estimates;
- our ability to identify and evaluate acquisition targets and consummate acquisitions;
- the ability to successfully integrate acquired businesses into our operations, including whether such businesses will be accretive to our earnings, retain the management teams of acquired businesses, and retain relationships with customers of acquired businesses, including, without limitation, Sparteck, Magenta and Kraton;

information systems failures and cyberattacks; and other factors described in our annual report on Form 10-K for the year ended December 31, 2015 under Item 1A, “Risk Factors.”

We cannot guarantee that any forward-looking statement will be realized, although we believe we have been prudent in our plans and assumptions. Achievement of future results is subject to risks, uncertainties and inaccurate assumptions. Should known or unknown risks or uncertainties materialize, or should underlying assumptions prove inaccurate, actual results could vary materially from those anticipated, estimated or projected. Investors should bear this in mind as they consider forward-looking statements. We undertake no obligation to publicly update forward-looking statements, whether as a result of new information, future events or otherwise, except as otherwise required by law. You are advised, however, to consult any further disclosures we make on related subjects in our reports on Forms 10-Q, 8-K and 10-K filed with the SEC. You should understand that it is not possible to predict or identify all risk factors. Consequently, you should not consider any such list to be a complete set of all potential risks or uncertainties.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

There have been no material changes to exposures to market risk as reported in our annual report on Form 10-K for the year ended December 31, 2015.

ITEM 4. CONTROLS AND PROCEDURES

Disclosure controls and procedures

PolyOne’s management, under the supervision of and with the participation of its Chief Executive Officer and its Chief Financial Officer, has evaluated the effectiveness of the design and operation of PolyOne’s disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as of the end of the period covered by this quarterly report. Based upon this evaluation, PolyOne’s Chief Executive Officer and Chief Financial Officer have concluded that, as of the end of the period covered by this quarterly report, its disclosure controls and procedures were effective.

Changes in internal control over financial reporting

There were no changes in PolyOne’s internal control over financial reporting during the quarter ended March 31, 2016 that have materially affected, or are reasonably likely to materially affect, its internal control over financial reporting.

PART II

ITEM 1. LEGAL PROCEEDINGS

Information regarding certain legal proceedings can be found in Note 12, Commitments and Contingencies, to the consolidated financial statements and is incorporated by reference herein.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

The table below sets forth information regarding repurchase of shares of our common shares during the period indicated.
