NOTES TO FINANCIAL STATEMENTS

1. Significant Accounting Policies

The Adams Express Company (the Company) is registered under the Investment Company Act of 1940 as a diversified investment company. The Company is an internally-managed closed-end fund whose investment objectives are preservation of capital, the attainment of reasonable income from investments, and an opportunity for capital appreciation.

The accompanying financial statements were prepared in accordance with accounting principles generally accepted in the United States of America, which require the use of estimates made by Company management. Management believes that estimates and security valuations are appropriate; however, actual results may differ from those estimates, and the security valuations reflected in the financial statements may differ from the value the Company ultimately realizes upon sale of

the securities.

Affiliated Companies Investments in companies 5% or more of whose outstanding voting securities are held by the Company are defined as Affiliated Companies in Section 2(a)(3) of the Investment Company Act of 1940.

Security Transactions and Investment Income Investment transactions are accounted for on the trade date. Gain or loss on sales of securities and options is determined on the basis of identified cost. Dividend income and distributions to stockholders are recognized on the ex-dividend date, and interest income is recognized on the accrual basis.

Security Valuation The Company's investments are reported at fair value as defined under accounting principles general accepted in the United States of America. Investments in securities traded on a national security exchange are valued at the last reported sale price on the day of valuation. Over-the-counter and listed securities for which a sale price is not avail-

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

able are valued at the last quoted bid price. Short-term investments (excluding purchased options and money market funds) are valued at amortized cost, which approximates fair value. Purchased and written options are valued at the last quoted bid and asked price, respectively. Money market funds are valued at net asset value on the day of valuation.

Various inputs are used to determine the fair value of the Company's investments. These inputs are summarized in the following three levels:

- Level 1 fair value is determined based on market data obtained from independent sources; for example, quoted prices in active markets for identical investments,
- Level 2 fair value is determined using other assumptions obtained from independent sources; for example, quoted prices for similar investments,
- Level 3 fair value is determined using the Company's own assumptions, developed based on the best information available in the circumstances.

The Company's investments at June 30, 2010 were classified as follows:

| | Level 1 | Level 2 | Level 3 | Total |
|-------------------------------|----------------|--------------|---------|----------------|
| Common stocks | \$ 922,417,654 | \$ | \$ | \$ 922,417,654 |
| Short-term investments | 10,170,671 | 3,875,822 | | 14,046,493 |
| Securities lending collateral | 16,392,950 | | | 16,392,950 |
| Total investments | \$ 948,981,275 | \$ 3,875,822 | \$ | \$ 952,857,097 |
| Written options | \$ (217,874) | \$ | \$ | \$ (217,874) |

There were no transfers into or from Level 1 or Level 2 during the six months ended June 30, 2010.

2. Federal Income Taxes

No federal income tax provision is required since the Company's policy is to qualify as a regulated investment company under the Internal Revenue Code and to distribute substantially all of its taxable income to its stockholders. Additionally, management has analyzed and concluded that tax positions included in federal income tax returns from the previous three years that remain subject to examination do not require any provision. Any income tax-related interest or penalties would be recognized as income tax expense. As of June 30, 2010, the identified cost of securities for federal income tax purposes was \$984,989,280, and net unrealized depreciation aggregated \$(32,132,183), consisting of gross unrealized appreciation of \$143,240,756 and gross unrealized depreciation of \$(175,372,939).

Distributions are determined in accordance with income tax regulations, which may differ from generally accepted accounting principles. Such differences are primarily related to the Company's retirement plans, equity-based compensation, and loss deferrals for wash sales. Differences that are permanent are periodically reclassified in the capital accounts of the Company's financial statements and have no impact on net assets.

3. Investment Transactions

The Company's investment decisions are made by a committee of management, and recommendations to that committee are made by the research staff. Purchases and sales of portfolio securities, other than options and short-term investments, during the six months ended June 30, 2010 were \$109,233,837 and \$80,896,426, respectively.

The Company is subject to changes in the value of equity securities held (equity price risk) in the normal course of pursuing its investment objectives. The Company may purchase and write option contracts to increase or decrease its equity price risk exposure or may write option contracts to generate additional income. Option contracts generally entail risks associated with counterparty credit, illiquidity, and unfavorable equity price movements. The Company has mitigated counterparty credit and illiquidity risks by trading its options through an exchange. The risk of unfavorable equity price movements is limited for purchased options to the premium paid and for written options by writing only covered call or collateralized put option contracts, which require the Company to segregate certain securities or cash at its custodian when the option is written. A schedule of outstanding option contracts as of June 30, 2010 can be found on page 13.

When the Company writes (purchases) an option, an amount equal to the premium received (paid) by the Company is recorded as a liability (asset) and is subsequently marked to market daily in the Statement of Assets and Liabilities, with any related change recorded as an unrealized gain or loss in the Statement of Operations. Premiums received (paid) from unexercised options are treated as realized gains (losses) on the expiration date. Upon the exercise of written put (purchased call) option contracts, premiums received (paid) are deducted from (added to) the cost basis of the underlying securities purchased. Upon the exercise of written call (purchased put) option contracts, premiums received (paid) are added to (deducted from) the proceeds from the sale of underlying securities in determining whether there is a realized gain or loss.

Transactions in written covered call and collateralized put options during the six months ended June 30, 2010 were as follows:

| | Covered Calls | | Collateralized Puts | |
|---|---------------|-----------|---------------------|------------|
| | Contracts | Premiums | Contracts | Premiums |

| Options outstanding, June 30, 2010 | 666 | \$ 91,733 | 562 | \$ 89,787 |

4. Capital Stock

The Company has 10,000,000 authorized and unissued preferred shares, \$0.001 par value.

During 2010, 492 shares were issued at a weighted average price of \$10.29 per share as dividend equivalents to holders of deferred stock units and restricted stock units under the 2005 Equity Incentive Compensation Plan.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

During 2009, 1,126 shares were issued at a weighted average price of \$8.22 per share as dividend equivalents to holders of deferred stock units and restricted stock units under the 2005 Equity Incentive Compensation Plan.

The Company may purchase shares of its Common Stock from time to time at such prices and amounts as the Board of Directors may deem advisable.

Transactions in Common Stock for 2010 and 2009 were as follows:

| | Shares | | Amount | |
|---|--------------------------------|------------------------------|--------------------------------|------------------------------|

5. Retirement Plans

The Company's non-contributory qualified defined benefit pension plan covers all employees with at least one year of service. In addition, the Company has a non-contributory nonqualified defined benefit plan which provides eligible employees with retirement benefits to supplement the qualified plan. Both plans were frozen as of October 1, 2009. Benefits are based on length of service and compensation during the last five years of employment through September 30, 2009, with no additional benefits being accrued beyond that date.

The funded status of the plans is recognized as an asset (overfunded plan) or a liability (underfunded plan) in the Statement of Assets and Liabilities. Changes in the prior service costs and accumulated actuarial gains and losses are recognized as accumulated other comprehensive income, a component of net assets, in the year in which the changes occur and are subsequently amortized into net periodic pension cost.

The Company's policy is to contribute annually to the plans those amounts that can be deducted for federal income tax purposes, plus additional amounts as the Company deems appropriate in order to provide assets sufficient to meet benefits to be paid to plan participants. The Company made contributions of \$23,712 to the plans during the six months ended June 30, 2010, and anticipates making additional contributions of up to \$500,000 over the remainder of 2010.

Items impacting the Company's earnings were:

The Company also sponsors qualified and nonqualified defined contribution plans. The Company expensed contributions to the plans in the amount of \$67,638 for the six months ended June 30, 2010. The Company does not provide postretirement medical benefits.

6. Equity-Based Compensation

Although the Stock Option Plan of 1985 (1985 Plan) has been discontinued and no further grants will be made under this plan, unexercised grants of stock options and stock appreciation rights granted in 2004 and prior years remain outstanding. The exercise price of the unexercised options and related stock appreciation rights is the fair market value on date of grant, reduced by the per share amount of capital gains paid by the Company during subsequent years. All options and related stock appreciation rights terminate 10 years from date of grant, if not exercised.

A summary of option activity under the 1985 Plan as of June 30, 2010, and changes during the six month period then ended, is presented below:

| | Options | Weighted- Average Exercise Price | Weighted- Average Remaining Life (Years) |

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

| Outstanding at June 30, 2010 | 43,729 | \$ 11.08 | 1.23 |

Compensation cost resulting from stock options and stock appreciation rights granted under the 1985 Plan is based on the intrinsic value of the award, recognized over the award's vesting period, and remeasured at each reporting date through the date of settlement. The total compensation cost/(credit) recognized for the six months ended June 30, 2010 was \$(12,129).

The 2005 Equity Incentive Compensation Plan (2005 Plan), adopted at the 2005 Annual Meeting and re-approved at the 2010 Annual Meeting, permits the grant of stock options, restricted stock awards and other stock incentives to key employees and all non-employee directors. The 2005 Plan provides for the issuance of up to 3,413,131 shares of the Company's Common Stock, including both performance and nonperformance-based restricted stock. Performance-based restricted stock awards vest at the end of a specified three year period, with the ultimate number of shares earned contingent on achieving certain performance targets. If performance targets are not achieved, all or a portion of the performance-based restricted shares are forfeited and become available for future grants. Nonperformance-based restricted stock awards vest ratably over a three year period and nonperformance-based restricted stock units (granted to non-employee directors) vest over a one year period. Payment of awards may be deferred, if elected. It is the current intention that employee grants will be performance-based. The 2005 Plan provides for accelerated vesting in the event of death or retirement. Non-employee directors also may elect to defer a portion of their cash compensation, with such deferred amount to be paid by delivery of deferred stock units. Outstanding awards are granted at fair market value on grant date. The number of shares of Common Stock which remains available for future grants under the 2005 Plan at June 30, 2010 is 3,183,432 shares.

A summary of the status of the Company's awards granted under the 2005 Plan as of June 30, 2010, and changes during the six month period then ended, is presented below:

| Awards | Shares/ Units | Weighted Average Grant-Date Fair Value |

Edgar Filing: ADAMS EXPRESS CO - Form N-CSRS

Compensation costs resulting from awards granted under the 2005 Plan are based on the fair value of the award on grant date (determined by the average of the high and low price on grant date) and recognized on a straight-line basis over the requisite service period. For those awards with performance conditions, compensation costs are based on the most probable outcome and, if such goals are not met, compensation cost is not recognized and any previously recognized compensation cost is reversed. The total compensation costs for the period ended June 30, 2010 for restricted stock granted to employees were \$164,871. The total compensation costs for the period ended June 30, 2010 for restricted stock units granted to non-employee directors were \$31,944. As of June 30, 2010, there were total unrecognized compensation costs of \$666,113, a component of additional capital surplus, related to nonvested equity-based compensation arrangements granted under the 2005 Plan. Those costs are expected to be recognized over a weighted average period of 1.90 years. The total fair value of shares and units vested during the six month period ended June 30, 2010 was \$300,839.

7. Officer and Director Compensation

The aggregate remuneration paid during the six months ended June 30, 2010 to officers and directors amounted to \$2,230,567, of which \$228,407 was paid to directors who were not officers. These amounts represent the taxable income to the Company's officers and directors and therefore differ from the amounts reported in the accompanying Statement of Operations that are recorded and expensed in accordance with generally accepted accounting principles.
