FOR IMMEDIATE RELEASE

EATON VANCE CORP.
REPORT FOR THE THREE MONTHS AND NINE MONTHS ENDED
JULY 31, 2004

Edgar Filing: EATON VANCE CORP - Form 8-K

BOSTON, MA--Eaton Vance Corp. reported diluted earnings per share of \$0.50 in the third quarter of fiscal 2004 compared to diluted earnings per share of \$0.38 in the third quarter of fiscal 2003, an increase of 32 percent. Eaton Vance earned \$1.44 per diluted share in the first nine months of fiscal 2004, an increase of 31 percent compared to earnings of \$1.10 per diluted share in the first nine months of fiscal 2003.

Assets under management of \$89.4 billion at the end of the third quarter of fiscal 2004 were \$25.1 billion or 39 percent greater than the \$64.3 billion at the end of the third quarter last year. In the 12-month period ended July 31, 2004, the Company's assets under management were positively affected by long-term fund and separate account net inflows of \$13.2 billion, the acquisition of Parametric Portfolio Associates which added \$5.3 billion of assets under management in September 2003, the acquisition of \$2.0 billion of assets under management from Deutsche Bank's Scudder Private Investment Counsel Boston office in July 2004, and market price appreciation of \$4.7 billion. Gross sales and inflows of long-term funds and separate accounts in the last 12 months were \$24.0 billion, including \$6.4 billion of assets raised in five successful closed-end fund offerings.

Fund and separate account net inflows in the first nine months of fiscal 2004 were \$10.6 billion, compared to net inflows of \$5.7 billion in the first nine months of fiscal 2003. This fiscal year's first nine month net inflows included \$5.1 billion of new assets raised from the successful offerings of four closed-end funds: Eaton Vance Senior Floating-Rate Trust, Eaton Vance Tax-Advantaged Global Dividend Income Fund, Eaton Vance Tax-Advantaged Global Dividend Opportunities Fund and Eaton Vance Floating-Rate Income Trust, plus the over-allotment common shares and preferred shares associated with the September 2003 offering of the Eaton Vance Tax-Advantaged Dividend Income Fund. In addition to strong closed-end fund flows, the Company experienced strong open-end fund, private fund, institutional and retail managed account net inflows of \$5.5 billion in the first nine months of fiscal 2004. Tables 1, 2 and 3 (attached) summarize assets under management and asset flows by investment objective.

Page 5 of 10

Average assets under management increased 43 percent to \$83.4 billion in the first nine months of fiscal 2004 from \$58.3 billion in the first nine months of the last fiscal year. As a result of higher average assets under management, revenue in the first nine months of fiscal 2004 increased by \$108.5 million or 29 percent to \$488.2 million, compared to revenue in the first nine months of fiscal 2003 of \$379.7 million. Investment adviser and administration fees increased 41 percent to \$300.4 million, consistent with the increase in average assets under management. Distribution and underwriter fees increased 6 percent, reflecting an increase in Class A and Class C share and private fund assets and an increase in Class A share underwriter commissions that offset in part, lower distribution fees from Class B fund assets. Distribution fees from Class B share assets declined because of lower Class B share sales and the second quarter implementation of an automatic conversion of Class B shares to Class A shares after eight years of ownership for certain of the Company's mutual funds which reduced Class B share fund assets. Service fee revenue increased 25 percent, consistent with the increase in average Class A and Class C share and private equity fund assets that pay these fees. Other revenue increased 23 percent primarily as a result of consolidating two investment companies in which Eaton Vance is the majority shareholder.

Operating expenses in the first nine months of fiscal 2004 increased 25 percent to \$326.5 million compared to \$261.8 million in the same period last year,

Edgar Filing: EATON VANCE CORP - Form 8-K

primarily because of higher compensation, service fee and distribution expenses. Compensation expense increased 38 percent principally due to increased marketing incentives associated with higher sales, the inclusion of Parametric Portfolio Associates' employee compensation, the compensation of employees who joined Eaton Vance from Deutsche Bank's Scudder Private Counsel Boston office and higher operating income-based bonus accruals.

Amortization of deferred sales commissions declined 3 percent in the first nine months of fiscal 2004 compared to the first nine months of fiscal 2003 because of the decline in Class B share assets. Service fee expense increased 22 percent, in line with the increase in service fee revenue. Eaton Vance collects asset-based service fees from many of its funds and pays them to the appropriate broker/dealers on fund assets in place more than one year. Distribution expense increased 55 percent as a result of increases in closed-end fund fees, sales support expense, certain Class A share fund sales commissions and Class C share fund distribution fees. Other expense increased 14 percent primarily because of higher travel, facilities, information technology, communications, legal, recruiting and miscellaneous expense offset by lower fund related expense.

In the first nine months of fiscal 2004, operating income increased 37 percent to \$161.7 million and net income increased 30 percent to \$101.0 million over the first nine months of fiscal 2003. Interest income declined by \$1.9 million to \$2.3 million, primarily because of the inclusion of interest income from two consolidated investment companies in other revenue. Interest expense in both periods was \$4.3 million. The first nine months of fiscal 2003 included \$2.0 million of gains on the sale of investments that were not repeated in the first nine months of fiscal 2004. Equity in net income of affiliates increased \$1.3 million in the first nine months of fiscal 2004 compared to the same period last year primarily because of an increase in the earnings of Lloyd George Management in which the Company has a 20 percent ownership position. The Company's provision for income taxes was 36 percent in the first nine months of fiscal 2004 and 35 percent in the first nine months of fiscal 2003.

Page 6 of 10

Cash, cash equivalents and short-term investments were \$339.1 million (\$291.8 million excluding \$47.3 million of minority shareholder investments in two consolidated investment companies) on July 31, 2004, \$242.8 million on October 31, 2003 and \$270.7 million on July 31, 2003. The Company's strong operating cash flow in the last 12 months allowed it to reduce its long-term debt by \$5.8 million to \$120.1 million and to pay \$56.3 million in income taxes, \$68.4 million in sales commissions, \$89.5 million to repurchase 2.5 million shares of its non-voting common stock and \$32.7 million in dividends to shareholders. There are no outstanding borrowings against the Company's \$170.0 million credit facility.

The year-over-year increases in other current assets and deferred income taxes resulted primarily from a recent change in IRS regulations allowing mutual fund sponsors to deduct Class B share sales commissions when paid. These commissions were previously capitalized and amortized for tax purposes.

During the first nine months of fiscal 2004, the Company repurchased and retired 1,829,000 shares of its non-voting common stock at an average price of \$37.12 per share under its repurchase authorization. Approximately 2.1 million shares remain to be repurchased under the current 4.0 million-share authorization.

Subsequent to the end of the third quarter, on August 13, 2004, Eaton Vance Management, the Company's principal operating subsidiary, in response to some of its note holders exercising third anniversary put options, repurchased \$46.0 million (\$68.9 million principal amount at maturity) or 38 percent of its 30-year zero-coupon senior exchangeable notes. The notes were repurchased using

Edgar Filing: EATON VANCE CORP - Form 8-K

cash on hand. The amount of the repurchase is classified as a current liability on the Company's July 31, 2004 balance sheet. The notes remaining after the repurchase have an accreted value of \$74.1 million on July 31, 2004 (\$110.9 million principal amount at maturity). The Company will expense \$1.0 million of previously capitalized debt offering costs associated with the repurchase in its fiscal 2004 fourth quarter.

Eaton Vance Corp., a Boston-based investment management firm, is traded on the New York Stock Exchange under the symbol EV.

This news release contains statements that are not historical facts, referred to as "forward-looking statements." The Company's actual future results may differ significantly from those stated in any forward-looking statements, depending on factors such as changes in securities or financial markets or general economic conditions, the volume of sales and repurchases of fund shares, the continuation of investment advisory, administration, distribution and service contracts, and other risks discussed from time to time in the Company's filings with the Securities and Exchange Commission.
