Item 5. Other Events.

On January 22, 2002, Computer Associates International, Inc. ("CA") issued a press release that reported its financial results for its third fiscal quarter. A copy of the press release is generally available via newswire, the CA web page (www.ca.com/press) and furnished herewith as Exhibit 99.

Item 7. Financial Statements, Pro Forma Financial Information and Exhibits.

- (a) Not applicable
- (b) Not applicable
- (c) Exhibit

99 - Press release dated January 22, 2002

Statements herein concerning CA's future prospects are "forward-looking statements" under the Private Securities Litigation Reform Act of 1995. There can be no assurances that future results will be achieved, and actual results could differ materially from forecasts and estimates. Important factors that could cause actual results to differ materially include: the risks associated with changes in the Company's business model; the risks associated with changes in the way in which the Company accounts for license revenue; the difficulties of compiling pro forma financial information, given acquisitions over time; the significant percentage of CA's quarterly sales consummated in the last few days of the quarter making financial predictions especially difficult and raising a substantial risk of variance in actual results; changes in industry accounting guidance; the emergence of new competitive initiatives resulting from rapid technological advances or changes in pricing in the market; the risks associated with new product introductions as well as the uncertainty of customer acceptance of these new or enhanced products from either CA or its competition; risks associated with the entry into new markets such as professional services; the risks associated with integrating newly acquired businesses and technologies; dependency on large dollar licensing transactions; delays in product delivery; reliance on mainframe capacity growth; the ability to recruit and retain qualified personnel; business conditions in the distributed systems and mainframe software and hardware markets; uncertainty and volatility associated with Internet and eBusiness related activities; use of software patent rights to attempt to limit competition; fluctuations in foreign currency exchange rates and interest rates; the volatility of the international marketplace; uncertainties relative to global economic conditions; uncertainty in connection with litigation in which the Company has been named as a defendant; changes in the sales compensation plan and its effects on the business; and other risks described in filings with the Securities and Exchange Commission.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.
