FRANKLIN ELECTRIC CO., INC. AND CONSOLIDATED SUBSIDIARIES  
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS  
(Unaudited)

1. CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

The accompanying condensed consolidated balance sheet as of January 2, 2016, which has been derived from audited financial statements, and the unaudited interim condensed consolidated financial statements as of April 2, 2016, and for the first quarters ended April 2, 2016 and April 4, 2015 have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Certain information and note disclosures normally included in annual financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted pursuant to those rules and regulations. In the opinion of management, all accounting entries and adjustments (including normal, recurring adjustments) considered necessary for a fair presentation of the financial position and the results of operations for the interim period have been made. Operating results for the first quarter ended April 2, 2016 are not necessarily indicative of the results that may be expected for the fiscal year ending December 31, 2016. For further information, including a description of the critical accounting policies of Franklin Electric Co., Inc. (the "Company"), refer to the consolidated financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the year ended January 2, 2016.

2. ACCOUNTING PRONOUNCEMENTS

Adoption of New Accounting Standards

In April 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2015-03, Interest - Imputation of Interest (Subtopic 835-30): Simplifying the Presentation of Debt Issuance Costs, which requires debt issuance costs to be presented in the balance sheet as a direct deduction from the associated debt liability instead of a deferred asset. The standard does not change the amortization of debt issuance costs, which will continue to follow the existing accounting guidance. The Company adopted ASU 2015-03 during the first quarter ended April 2, 2016. The retrospective adoption of this ASU required a total of approximately \$0.3 million of unamortized debt issuance costs as of year-end 2015 to be reclassified from "Other assets" and "Other current assets" to a direct deduction from "Long-term debt" in the Company's condensed consolidated balance sheet as of January 2, 2016. In addition, there were no impacts to the Company's results of operations, retained earnings, or cash flows in the current or previous interim and annual reporting periods.

Accounting Standards Issued But Not Yet Adopted

In March 2016, the FASB issued ASU 2016-09, Compensation - Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting. This standard simplifies several aspects of the accounting for employee share-based payment transactions including the recognition of excess tax benefits and deficiencies, the classification of those excess tax benefits on the statement of cash flows, an accounting policy election for forfeitures, the amount an employer can withhold to cover income taxes and still qualify for equity classification, and the classification of those taxes paid on the statement of cash flows. This ASU is effective for annual and interim periods beginning after December 15, 2016 with early adoption permitted. The transition method is either prospective, retrospective or modified retrospective, depending on the area covered in this update. The Company is still in the process of analyzing the effects of this new standard to determine the impact on the Company's consolidated financial position, results of operations, cash flows, and related disclosures.

In February 2016, the FASB issued ASU 2016-02, Leases (Topic 842), which supersedes existing guidance on accounting for leases found in Accounting Standards Codification ("ASC") Topic 840. This ASU requires lessees to present right-of-use assets and lease liabilities on the balance sheet for all leases with terms longer than 12 months. The guidance is to be applied using a modified retrospective approach at the beginning of the earliest comparative period in the financial statements and is effective for interim and annual periods beginning after December 15, 2018 with early adoption permitted. The Company is still in the process of analyzing the effect of this new standard to

determine the impact on the Company's consolidated financial position, results of operations, cash flows, and related disclosures.

In May 2014, the FASB issued ASU 2014-09, Revenue from Contracts with Customers (Topic 606). ASU 2014-09 outlines a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers and supersedes current revenue recognition guidance. In March 2016, the FASB issued ASU 2016-08, Revenue from Contracts with Customers (Topic 606): Principal versus Agent Considerations (Reporting Revenue Gross versus Net). ASU 2016-08 clarifies the implementation guidance on principal versus agent considerations. In April 2016, the FASB issued ASU 2016-10, Revenue from Contracts with Customers (Topic 606): Identifying Performance Obligations and Licensing. ASU 2016-10 clarifies the implementation guidance on identifying performance obligations. These ASU's are effective for interim and annual reporting periods beginning after December 15, 2017. Early adoption is permitted, but not before interim and annual reporting periods beginning after December 15, 2016. Entities have the option of using either a full retrospective or a modified retrospective approach to adopt these standards. The Company is still in the process of analyzing the effect of these new standards, including

the transition method, to determine the impact on the Company's consolidated financial position, results of operations, cash flows, and related disclosures.

### 3. FAIR VALUE MEASUREMENTS

FASB ASC Topic 820, Fair Value Measurements and Disclosures, provides guidance for defining, measuring, and disclosing fair value within an established framework and hierarchy. Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. The standard established a fair value hierarchy which requires an entity to maximize the use of observable inputs and to minimize the use of unobservable inputs when measuring fair value. The three levels of inputs that may be used to measure fair value within the hierarchy are as follows:

Level 1 – Quoted prices for identical assets and liabilities in active markets;

Level 2 – Quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar assets and liabilities in markets that are not active, and model-derived valuations in which all significant inputs and significant value drivers are observable in active markets; and

Level 3 – Valuations derived from valuation techniques in which one or more significant inputs or significant value drivers are unobservable.

As of April 2, 2016 and January 2, 2016, the assets measured at fair value on a recurring basis were as set forth in the table below:

(In millions)	April 2, 2016	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	
Cash equivalents	\$ 3.8	\$ 3.8	\$	—\$	—

	January 2, 2016	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	
Cash equivalents	\$ 3.9	\$ 3.9	\$	—\$	—

The Company's Level 1 assets consist of cash equivalents which are generally comprised of foreign bank guaranteed certificates of deposit.

Total debt, including current maturities, have carrying amounts of \$232.5 million and \$220.6 million and estimated fair values of \$237 million and \$225 million as of April 2, 2016 and January 2, 2016, respectively. In the absence of quoted prices in active markets, considerable judgment is required in developing estimates of fair value. Estimates are not necessarily indicative of the amounts the Company could realize in a current market transaction. In determining

the fair value of its debt, the Company uses estimates based on rates currently available to the Company for debt with similar terms and remaining maturities. Accordingly, the fair value of debt is classified as Level 2 within the valuation hierarchy.

The following table summarizes information regarding the Company's non-financial assets measured at fair value on a nonrecurring basis:

(In millions)	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Recognized Loss
Asset held for sale	\$ 2.0	\$ —	\$ 2.0	\$ 0.4

The Company's Level 3 asset consists of a held for sale facility. During the first quarter of 2016, the Company agreed upon the terms of a letter of intent to sell its Saco, Maine facility. As a result, the Company reduced the carrying amount of the held for sale asset to approximate the estimated sales price less costs to sell.

As of April 2, 2016 and January 2, 2016, the Company also had \$1.8 million and \$1.6 million of assets held for sale, respectively, recorded at carrying value in the Water Systems segment relating to an idle facility in Brazil.

#### 4. FINANCIAL INSTRUMENTS

The Company's deferred compensation stock program is subject to variable plan accounting and, accordingly, is adjusted for changes in the Company's stock price at the end of each reporting period. During February 2014, the Company entered into a share swap transaction agreement ("the swap") to mitigate the Company's exposure to these fluctuations in the Company's stock price. The swap was not designated as a hedge for accounting purposes and is cancellable with 30 days written notice by either party. As of April 2, 2016, the swap has a notional value based on 175,000 shares. For the first quarters ended April 2, 2016 and April 4, 2015, the swap resulted in a gain of \$0.8 million and a loss of \$0.1 million, respectively. Gains and losses on the swap were primarily offset by gains and losses on the fair value of the deferred compensation stock liability. All gains or losses and expenses related to the swap are recorded in the Company's condensed consolidated statements of income within the "Selling, general, and administrative expenses" line.

#### 5. OTHER ASSETS

The Company has equity interests in various companies for various strategic purposes. The investments are accounted for under the equity method and are included in "Other assets" on the Company's condensed consolidated balance sheets. The carrying amount of the investments is adjusted for the Company's proportionate share of earnings, losses, and dividends. The investments are not considered material to the Company's financial position, neither individually nor in the aggregate. The Company's proportionate share of earnings from its equity interests, included in the "Other income/(expense), net" line of the Company's condensed consolidated statements of income, were immaterial for the first quarters ended April 2, 2016 and April 4, 2015.

#### 6. GOODWILL AND OTHER INTANGIBLE ASSETS

The carrying amounts of the Company's intangible assets are as follows:

(In millions)	April 2, 2016		January 2, 2016	
	Gross Carrying Amount	Accumulated Amortization	Gross Carrying Amount	Accumulated Amortization
Amortized intangibles:				
Patents	\$7.5	\$ (6.3 )	\$7.4	\$ (6.2 )
Technology	7.5	(4.9 )	7.5	(4.8 )
Customer relationships	134.5	(44.7 )	132.6	(42.3 )
Software	2.5	(1.7 )	2.5	(1.7 )
Other	0.3	(0.3 )	1.0	(1.0 )
Total	\$152.3	\$ (57.9 )	\$151.0	\$ (56.0 )
Unamortized intangibles:				
Trade names	47.1	—	46.4	—
Total intangibles	\$199.4	\$ (57.9 )	\$197.4	\$ (56.0 )

Amortization expense related to intangible assets for the first quarters ended April 2, 2016 and April 4, 2015 was \$2.0 million and \$2.2 million, respectively.

Amortization expense for each of the five succeeding years is projected as follows:

(In millions)	2016	2017	2018	2019	2020
	\$8.6	\$8.4	\$8.4	\$8.3	\$8.2

The change in the carrying amount of goodwill by reporting segment for the first quarter ended April 2, 2016, is as follows:

(In millions)

	Water Systems	Fueling Systems	Consolidated
Balance as of January 2, 2016	\$ 136.8	\$ 63.0	\$ 199.8
Foreign currency translation	1.9	(0.1 )	1.8
Balance as of April 2, 2016	\$ 138.7	\$ 62.9	\$ 201.6

## 7. EMPLOYEE BENEFIT PLANS

**Defined Benefit Plans** - As of April 2, 2016, the Company maintained two domestic pension plans and three German pension plans. The Company used a January 2, 2016 measurement date for these plans. One of the Company's domestic pension plans covers two management employees (one active employee and one former employee), while the other domestic plan covers all other eligible employees. The two domestic and three German plans collectively comprise the 'Pension Benefits' disclosure caption.

**Other Benefits** - The Company's other postretirement benefit plan provides health and life insurance to domestic employees hired prior to 1992.

The following table sets forth the aggregated net periodic benefit cost for all pension and postretirement plans for the first quarters ended April 2, 2016 and April 4, 2015, respectively:

(In millions)	Pension Benefits		Other Benefits	
	First Quarter Ended April 2, 2016	First Quarter Ended April 4, 2015	First Quarter Ended April 2, 2016	First Quarter Ended April 4, 2015
Service cost	\$0.2	\$ 0.3	\$—	\$ —
Interest cost	1.5	1.8	0.1	0.1
Expected return on assets	(2.3 )	(2.5 )	—	—
Amortization of prior service cost	—	—	0.1	0.1
Amortization of loss	0.6	0.8	—	0.1
Net periodic benefit cost	\$—	\$ 0.4	\$0.2	\$ 0.3
Settlement cost	0.3	0.3	—	—
Total net periodic benefit cost	\$0.3	\$ 0.7	\$0.2	\$ 0.3

In the first quarter ended April 2, 2016, the Company made contributions of \$0.6 million to the funded plans. The amount of contributions to be made to the plans during the calendar year 2016 will be finalized by September 15, 2016, based upon the plans' year-end valuation at January 2, 2016, and the funding level required for the plans' year ended January 2, 2016.

## 8. INCOME TAXES

The Company's effective tax rate from continuing operations for the three month period ended April 2, 2016 was 26.7% as compared to negative 20.4% for the three month period ended April 4, 2015.

The effective tax rate continues to be lower than the U.S. statutory rate primarily due to the indefinite reinvestment of foreign earnings taxed at rates below the U.S. statutory rate as well as recognition of U.S. tax incentives and credits. The Company has the ability to indefinitely reinvest these foreign earnings based on the earnings and cash projections of its other operations as well as cash on hand and available credit.

In addition during the three month period ended April 4, 2015, the Company settled the liability for the noncontrolling interest of a subsidiary during the first quarter. This transaction created additional accretive benefits for the Company from the reversal of a deferred tax liability created in 2012 when the Company acquired the controlling interest in the Pioneer subsidiary and realized a gain on the then equity investment in Pioneer. The Company also realized a gain on the mandatorily redeemable noncontrolling interest liability.

## 9. DEBT

Debt consisted of the following:

(In millions)	April 2, 2016	January 2, 2016
Prudential Agreement - 5.79 percent	\$ 120.0	\$ 120.0
Tax increment financing debt	22.3	22.8
New York Life	75.0	75.0
Revolver	11.5	—
Capital leases	0.1	0.1
Foreign subsidiary debt	4.0	3.1
Less: unamortized debt issuance costs	(0.3 )	(0.3 )
	\$ 232.6	\$ 220.7
Less: current maturities	(45.3 )	(32.9 )
Long-term debt	\$ 187.3	\$ 187.8

During the first quarter ended April 2, 2016, a portion of the revolver borrowing was used for seasonal working capital needs.

Debt outstanding, excluding unamortized debt issuance costs, at April 2, 2016 matures as follows:

## 10. EARNINGS PER SHARE

The Company calculates basic and diluted earnings per common share using the two-class method. Under the two-class method, net earnings are allocated to each class of common stock and participating security as if all of the net earnings for the period had been distributed. The Company's participating securities consist of share-based payment awards that contain a nonforfeitable right to receive dividends and therefore are considered to participate in undistributed earnings with common shareholders.

Basic earnings per common share excludes dilution and is calculated by dividing net earnings allocable to common shares by the weighted-average number of common shares outstanding for the period. Diluted earnings per common share is calculated by dividing net earnings allocated to common shares by the weighted-average number of common shares outstanding for the period, as adjusted for the potential dilutive effect of non-participating share-based awards.

The following table sets forth the computation of basic and diluted earnings per share:

(In millions, except per share amounts)	First Quarter Ended	
	April 2, 2016	April 4, 2015
Numerator:		
Net income attributable to Franklin Electric Co., Inc.	\$13.5	\$19.8

## 14. COMMITMENTS AND CONTINGENCIES

The Company is defending various claims and legal actions which have arisen in the ordinary course of business. In the opinion of management, based on current knowledge of the facts and after discussion with counsel, these claims and legal actions can be successfully defended or resolved without a material effect on the Company's financial position, results of operations, and net cash flows.

At April 2, 2016, the Company had \$18.8 million of commitments primarily for capital expenditures and purchase of raw materials to be used in production.

The Company provides warranties on most of its products. The warranty terms vary but are generally 2 years from date of manufacture or 1 year from date of installation. In 2007, the Company began offering an extended warranty program to certain Water Systems customers which provides warranty coverage up to 5 years from date of manufacture. Provisions for estimated expenses related to product warranty are made at the time products are sold or when specific warranty issues are identified. These estimates are established using historical information about the nature, frequency, and average cost of warranty claims. The Company actively studies trends of warranty claims and takes actions to improve product quality and minimize warranty claims. The Company believes that the warranty reserve is appropriate; however, actual claims incurred could differ from the original estimates, requiring adjustments

to the reserve.

17

---

The changes in the carrying amount of the warranty accrual, as recorded in the "Accrued expenses and other current liabilities" line of the Company's condensed consolidated balance sheet for the first quarter ended April 2, 2016, are as follows:

(In millions)

Balance as of January 2, 2016	\$9.3
Accruals related to product warranties	1.2
Reductions for payments made	(1.7 )
Balance as of April 2, 2016	\$8.8

#### 15. SHARE-BASED COMPENSATION

The Company maintains the Franklin Electric Co., Inc. 2012 Stock Plan (the "2012 Stock Plan"), which is a stock-based compensation plan that provides for discretionary grants of stock options, stock awards, and stock unit awards to key employees and non-employee directors.

The 2012 Stock Plan authorized 2,400,000 shares for issuance as follows:

2012 Stock Plan	Authorized Shares
Stock Options	1,680,000
Stock/Stock Unit Awards	720,000

The Company also maintains the Amended and Restated Franklin Electric Co., Inc. Stock Plan (the "2009 Stock Plan") which, as amended in 2009, provided for discretionary grants of stock options and stock awards. The 2009 Stock Plan authorized 4,400,000 shares for issuance as follows:

2009 Stock Plan	Authorized Shares
Stock Options	3,200,000
Stock Awards	1,200,000

All options in the 2009 Stock Plan have been awarded.

The Company currently issues new shares from its common stock balance to satisfy option exercises and the settlement of stock awards and stock unit awards made under the 2009 Stock Plan and/or the 2012 Stock Plan.

Stock Options:

The fair value of each option award is estimated on the date of grant using the Black-Scholes option valuation model with a single approach and amortized using a straight-line attribution method over the option's vesting period.

The assumptions used for the Black-Scholes model to determine the fair value of options granted during the first quarters ended April 2, 2016 and April 4, 2015 are as follows:

	April 2, 2016	April 4, 2015	
Risk-free interest rate	1.21	% 1.59	%
Dividend yield	1.32	% 0.95	%
Volatility factor	0.377	0.379	
Expected term	5.5 years	5.5 years	
Forfeiture rate	3.77	% 3.67	%

There were 265,270 and 184,706 stock options granted during the first quarters ended April 2, 2016 and April 4, 2015, respectively.

A summary of the Company's outstanding stock option activity and related information for the first quarters ended April 2, 2016 and April 4, 2015 is as follows:

As of April 2, 2016, there was \$11.4 million of total unrecognized compensation cost related to non-vested stock/stock unit awards granted under the 2012 Stock Plan and the 2009 Stock Plan. That cost is expected to be recognized over a weighted-average period of 2.67 years.

16. RESTRUCTURING

On July 1, 2014, the Company announced a plan to close its Wittlich, Germany manufacturing facility. As part of this action, the Company will transfer the existing Wittlich manufacturing activity to its Brno, Czech Republic facility. The Company will maintain its European Water Systems headquarters and distribution center in Wittlich, only the

manufacturing operations will be relocating. The realignment began in the third quarter of 2014 and is estimated to conclude by the end of 2016. Charges for the realignment are expected to be approximately \$19.4 million and will include severance expenses, professional service fees, asset write-offs, and temporarily leased facilities costs.

Costs incurred in the first quarter ended April 2, 2016, included in the “Restructuring expense” line of the Company's condensed consolidated statements of income, are as follows:

(In millions)	First Quarter Ended			Consolidated
	April 2, 2016			
	Water Systems	Fueling Systems	Other	
Employee severance	\$0.1	\$ —	\$ —	\$ 0.1

Asset write-off	—	0.4	—	0.4
Other	0.3	—	—	0.3
Total	\$0.4	\$ 0.4	\$ —	\$ 0.8

Restructuring expenses for the first quarter ended April 4, 2015 were approximately \$0.5 million and primarily for the Water Systems realignment.

As of April 2, 2016, there were \$0.2 million of restructuring reserves. As of April 4, 2015, there were \$6.4 million of restructuring reserves. The restructuring reserves were primarily for severance.

## ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

First Quarter 2016 vs. First Quarter 2015

### OVERVIEW

Sales in the first quarter of 2016 decreased from the first quarter last year. The sales decrease was primarily due to the negative impact of foreign currency translation. The Company's organic sales growth was 3 percent excluding the impact of foreign currency. The Company's consolidated gross profit was \$74.2 million for the first quarter of 2016, an increase of \$2.7 million or about 4 percent from the prior year's first quarter. The gross profit as a percent of net sales increased 230 basis points to 34.0 percent in 2016 from 31.7 percent in first quarter of 2015.

### RESULTS OF OPERATIONS

#### Net Sales

Net sales in the first quarter of 2016 were \$218.4 million, a decrease of \$7.3 million or about 3 percent compared to 2015 first quarter sales of \$225.7 million. Sales revenue decreased by \$13.8 million or about 6 percent in the first quarter of 2016 due to foreign currency translation. The sales change in the first quarter of 2016, excluding foreign currency translation, was an increase of about 3 percent, primarily due to price.

	Net Sales		
(In millions)	Q1 2016	Q1 2015	2016 v 2015
Water Systems	\$168.8	\$179.2	\$(10.4)
Fueling Systems	49.6	46.5	3.1
Consolidated	\$218.4	\$225.7	\$(7.3 )

#### Net Sales-Water Systems

Water Systems revenues were \$168.8 million in the first quarter 2016, a decrease of \$10.4 million or about 6 percent versus the first quarter 2015 sales of \$179.2 million. Sales were reduced by \$13.3 million or about 7 percent in the quarter due to foreign currency translation. Water Systems sales were up 1 percent, excluding foreign currency translation, in the first quarter of 2016 versus the first quarter of 2015.

Water Systems sales in the U.S. and Canada represented 36 percent of consolidated sales and declined by about 2 percent compared to the prior year. Water Systems sales were reduced by \$1.1 million or about 1 percent in the quarter due to foreign currency translation. Sales of groundwater pumping equipment increased by about 1 percent as U.S. groundwater business showed signs of recovery during the first quarter of 2016. The year-over-year revenue decline in agricultural and industrial pumping system sales was about 5 percent compared to the 20 plus percent decline experienced in the last half of 2015. Sales of surface water pumping equipment decreased by about 5 percent in the U.S. and Canada compared to the first quarter 2015. Surface pumping business was weak in two regions: Canadian business was impacted by the value of the Canadian dollar and the retail sump pump business was soft due to the mild winter in the upper Midwest.

Water Systems sales in Latin America were about 12 percent of consolidated sales for the first quarter and declined by about 25 percent compared to the first quarter of the prior year. Water Systems sales were reduced by \$7.1 million or about 20 percent in the quarter due to foreign currency translation. Excluding the impact of foreign currency translation, Latin American sales decreased by about 5 percent compared to the first quarter 2015, as price was more than offset by volume declines. The weakness in sales was primarily in Brazil and is attributable to the economy.

Water Systems sales in the Middle East and Africa were about 11 percent of consolidated sales and decreased by about 9 percent compared to the first quarter 2015. Water Systems sales were reduced by about 15 percent in the quarter due to foreign currency translation. Excluding the impact of foreign currency translation, sales increased by about 6 percent compared to the first quarter 2015. The growth was driven by strong sales of dewatering pumping equipment, partially offset by weakness in Southern Africa in the mining sector.

Water Systems sales in the Asia Pacific region were 10 percent of consolidated sales and were up about 12 percent compared to the first quarter prior year. Asia Pacific sales were reduced by about 3 percent in the quarter due to foreign currency translation. Excluding the impact of foreign currency translation, Asia Pacific sales increased by about 15 percent compared to

the first quarter 2015. The Asia Pacific region experienced strong sales in several end markets, especially in southeast Asia due to dry favorable weather conditions.

Water Systems sales in Europe were about 8 percent of consolidated sales and increased by about 3 percent compared to the first quarter 2015. The impact of foreign currency translation decreased sales by about 3 percent compared to the first quarter 2015. Excluding the impact of foreign currency translation, European sales were up about 6 percent to the first quarter 2015 due to increased rental sales of Pioneer branded dewatering equipment.

#### Net Sales-Fueling Systems

Fueling Systems sales were about 23 percent of consolidated sales at \$49.6 million in the first quarter of 2016, an increase of \$3.1 million or about 7 percent versus the first quarter 2015 sales of \$46.5 million. Fueling Systems sales were decreased by \$0.5 million or 1 percent in the quarter due to foreign currency translation. Fueling Systems sales growth, excluding foreign currency translation, was about 8 percent. Fueling Systems sales in the U.S. and Canada grew by about 8 percent during the quarter with most of the sales growth coming from pump and fuel management systems. Fueling Systems revenues in Asia Pacific grew by about 30 percent due to higher pumping systems sales in India. These sales increases were partially offset by lower sales in Europe due to continued weakness in tank sales for North Sea oil production.

#### Cost of Sales

Cost of sales as a percentage of net sales for the first quarters of 2016 and 2015 was 66.0 percent and 68.3 percent, respectively. Correspondingly, the gross profit margin increased to 34.0 percent from 31.7 percent, a 230 basis point improvement. The Company's consolidated gross profit was \$74.2 million for the first quarter of 2016, an increase of \$2.7 million, or about 4 percent, from the first quarter of 2015 gross profit of \$71.5 million. The gross profit margin increase was primarily due to reduced raw material costs, pricing and lower fixed costs.

#### Selling, General, and Administrative ("SG&A")

Selling, general, and administrative (SG&A) expenses were \$52.3 million in the first quarter of 2016 compared to \$55.2 million in the first quarter of the prior year, a decrease of \$2.9 million or about 5 percent. The Company's SG&A expenses decreased by \$2.5 million in the quarter due to foreign currency translation.

#### Restructuring Expenses

Restructuring expenses for the first quarter of 2016 were \$0.8 million resulting in a \$0.01 impact on diluted earnings per share. Restructuring expenses were split \$0.4 million across both segments, Water and Fueling, and included asset write-offs, severance expenses and other miscellaneous manufacturing realignment activities. Restructuring expenses for the first quarter of 2015 were \$0.5 million resulting in a \$0.01 impact on diluted earnings per share. Restructuring expenses were primarily for the European manufacturing realignment and include severance expenses and other miscellaneous manufacturing realignment activities.

#### Operating Income

Operating income was \$21.1 million in the first quarter of 2016, up \$5.2 million or about 33 percent from \$15.9 million in the first quarter of 2015.

(In millions)	Operating income (loss)		
	Q1 2016	Q1 2015	2016 v 2015
Water Systems	\$24.2	\$19.4	\$4.8
Fueling Systems	10.2	9.6	0.6
Other	(13.3)	(13.1)	(0.2)

Consolidated     \$21.1   \$15.9   \$5.2

There were specific items in the first quarters of 2016 and 2015 that impacted operating income that were not operational in nature. In the first quarter of 2016, there were two such items: \$0.8 million of restructuring charges and \$0.3 million for retired executive pension costs. In the first quarter of 2015, there were two such items: \$0.5 million of restructuring charges and \$0.3 million for retired executive pension costs.

The Company refers to these items as “non-GAAP adjustments” for purposes of presenting the non-GAAP financial measures of operating income after non-GAAP adjustments and percent operating income to net sales after non-GAAP adjustments

(operating income margin after non-GAAP adjustments). The Company believes this information helps investors understand underlying trends in the Company's business more easily. The differences between these non-GAAP financial measures and the most comparable GAAP measures are reconciled in the following tables:

Operating Income (Loss) and Margins

Operating Income-Water Systems

Water Systems operating income, after non-GAAP adjustments, was \$24.6 million in the first quarter 2016, up \$4.9 million versus the first quarter 2015. The first quarter 2016 operating income margin after non-GAAP adjustments was 14.6 percent, up 360 basis points from 11.0 percent in the first quarter of 2015. Operating income after non-GAAP adjustments increased in Water Systems primarily due to lower input costs, primarily reduced raw material costs, pricing and lower fixed costs.

Operating Income-Fueling Systems

Fueling Systems operating income after non-GAAP adjustments was \$10.6 million in the first quarter of 2016 compared to \$9.8 million after non-GAAP adjustments in the first quarter of 2015, an increase of about 8 percent. The first quarter 2016 Fueling Systems operating income margin after non-GAAP adjustments was 21.4 percent, an increase of 30 basis points from the 21.1 percent of net sales in the first quarter of 2015. The increase was driven by leveraging fixed costs on higher sales.

Operating Loss-Other

Operating loss-other is composed primarily of unallocated general and administrative expenses.

Interest Expense

Interest expense for the first quarters of 2016 and 2015 was \$2.4 million and \$2.7 million, respectively.

Other Income or Expense

Other income or expense was less than \$(0.1) million dollars in the first quarter of 2016 and income of \$3.0 million in the first quarter of 2015. Included in other income in the first quarter of 2016 was interest income of \$0.3 million, primarily derived from the investment of cash balances in short-term securities. Included in other income in the first quarter of 2015 was interest

income of \$0.2 million, primarily derived from the investment of cash balances in short-term securities. The Company also realized a gain on the redeemable non-controlling interest liability in the first quarter of 2015 of about \$2.7 million.

#### Foreign Exchange

Foreign currency-based transactions produced a loss of \$0.1 million for the first quarter of 2016. Foreign currency-based transactions produced a gain of \$0.4 million for the first quarter of 2015, primarily due to the euro.

#### Income Taxes

The provision for (benefit from) income taxes in the first quarters of 2016 and 2015 was \$5.0 million and \$(3.4) million, respectively. The effective tax rate for the first quarter of 2016 was about 27 percent and, before the impact of discrete events, was about 26 percent. The effective tax rate for the first quarter of 2015 was about negative 20 percent and, before the impact of discrete events, was about 27 percent. Discrete adjustments during the first quarter of 2015 were the reversal of a deferred tax liability created in 2012 when the Company acquired the controlling interest in the Pioneer subsidiary and realized a gain on the then equity investment in Pioneer. This first quarter tax benefit of about \$4.8 million was treated as a non-GAAP adjustment. The gain was treated as a non-GAAP adjustment in 2012 and, as such, the Company is consistently treating the reversal of the tax liability related to that gain as a non-GAAP adjustment and reduced reported Earnings per Share in the first quarter of 2015 by \$0.10 cents. The Company also realized a gain on the redeemable non-controlling interest liability in the first quarter of 2015 of about \$2.7 million which is included in 'Other income'. This purchase transaction also resulted in other tax benefits of about \$2.5 million, which were expensed through the Company's earnings in prior years as well as a current period benefit of about \$1.0 million related to the 2015 gain. The tax rate as a percentage of pre-tax earnings for the full year of 2016 is projected to be about 26 percent, flat to the first quarter of 2016 tax rate, before discrete adjustments. The projected tax rate is lower than the statutory rate of 35 percent primarily due to the indefinite reinvestment of foreign earnings. The Company has the ability to indefinitely reinvest these foreign earnings based on the earnings and cash projections of its domestic operations, current cash on hand, and available credit.

#### Net Income

Net income for the first quarter of 2016 was \$13.6 million compared to the prior year first quarter net income of \$20.0 million. Net income attributable to Franklin Electric Co., Inc. for the first quarter of 2016 was \$13.5 million, or \$0.28 per diluted share, compared to the prior year first quarter net income attributable to Franklin Electric Co., Inc. of \$19.8 million or \$0.41 per diluted share. Earnings after non-GAAP adjustments for the first quarter of 2016 were \$13.6 million, or \$0.29 per diluted share, compared to the prior year first quarter earnings after non-GAAP adjustments of \$15.2 million or \$0.32 per diluted share.

There were specific items in the first quarters of 2016 and 2015 that impacted net income attributable to Franklin Electric Co., Inc. that were not operational in nature. The Company refers to these items as "non-GAAP adjustments" for purposes of presenting the non-GAAP financial measures of earnings after non-GAAP adjustments and adjusted EPS. The Company believes this information helps investors understand underlying trends in the Company's business more easily. The differences between these non-GAAP financial measures and the most comparable GAAP measures are reconciled in the following tables:

## CAPITAL RESOURCES AND LIQUIDITY

### Overview

The Company's primary sources of liquidity are cash on hand, cash flows from operations, revolving credit agreement, and long-term debt funds available.

On May 27, 2015, the Company entered into an uncommitted and unsecured private shelf agreement with NYL Investors LLC, an affiliate of New York Life (the "New York Life Agreement") for \$150.0 million maximum aggregate principal borrowing capacity and the Company authorized the issuance of \$75.0 million of floating rate senior notes due May 27, 2025. These senior notes have a floating interest rate of one-month USD LIBOR plus a spread of 1.35 percent with interest-only payments due on a monthly basis. As of April 2, 2016, there was \$75.0 million remaining borrowing capacity under the New York Life Agreement.

On December 31, 2012, the Company, Allen County, Indiana and certain institutional investors entered into a Bond Purchase and Loan Agreement. Under the agreement, Allen County, Indiana issued a series of Project Bonds entitled "Taxable Economic Development Bonds, Series 2012 (Franklin Electric Co., Inc. Project)." The aggregate principal amount of the Project Bonds that were issued and authenticated was limited to \$25.0 million. The Company then borrowed the proceeds under the Project

Bonds through the issuance of Project Notes to finance the cost of acquisition, construction, installation and equipping of the new Global Corporate Headquarters and Engineering Center. These Project Notes (tax increment financing debt) bear interest at 3.6 percent per annum. Interest and principal balance of the Project Notes are due and payable by the Company directly to the institutional investors in aggregate semi-annual installments commencing on July 10, 2013, and concluding on January 10, 2033. On May 5, 2015, the Company entered into Amendment No. 1 to the Bond Purchase and Loan Agreement. This amendment provided for debt repayment guarantees from certain Company subsidiaries and waived certain non-financial covenants related to subsidiary guarantees.

On April 9, 2007, the Company entered into the Amended and Restated Note Purchase and Private Shelf Agreement (the "Prudential Agreement") in the amount of \$175.0 million. Under the Prudential Agreement, the Company issued notes in an aggregate principal amount of \$110.0 million on April 30, 2007 (the "B-1 Notes") and \$40.0 million on September 7, 2007 (the "B-2 Notes"). The B-1 Notes and B-2 Notes bear a coupon of 5.79 percent and had at issuance an average life of 10 years with a final maturity in 2019. On July 22, 2010, the Company entered into Amendment No. 3 to the Prudential Agreement to increase its borrowing capacity by \$25.0 million. On December 14, 2011, the Company entered into Amendment No. 4 to the Second Amended and Restated Note Purchase and Private Shelf Agreement to redefine the debt to EBITDA ratio covenant in order to be equivalent to that under the Credit Agreement. On December 31, 2012, the Company and Prudential Insurance Company of America entered into an amendment to the Second Amended and Restated Note Purchase and Private Shelf Agreement to extend the effective date to December 31, 2015. On May 5, 2015, the Company entered into Amendment No. 6 to the Second Amended and Restated Note Purchase and Private Shelf Agreement. This amendment provided for debt repayment guarantees from certain Company subsidiaries and waived certain non-financial covenants related to subsidiary guarantees. On May 28, 2015, the Company entered into a Third Amended and Restated Note Purchase and Private Shelf Agreement with Prudential to increase the total borrowing capacity from \$200.0 million to \$250.0 million. As of April 2, 2016, the Company has \$100.0 million borrowing capacity available under the Prudential Agreement. Principal installments of \$30.0 million are payable annually commencing on April 30, 2015 and continuing to and including April 30, 2019, with any unpaid balance due at maturity.

On December 14, 2006, the Company entered into an amended and restated unsecured, 60-month \$120.0 million revolving credit agreement (the "Credit Agreement"). The Credit Agreement provides for various borrowing rate options including interest rates based on the London Interbank Offered Rates (LIBOR) plus interest spreads keyed to the Company's ratio of debt to earnings before interest, taxes, depreciation, and amortization ("EBITDA"). On December 14, 2011, the Company executed the Second Amended and Restated Credit Agreement, which extended the maturity of the Credit Agreement to December 14, 2016, and increased the commitment amount to \$150.0 million. On May 5, 2015, the Company entered into Amendment No. 3 to the Credit Agreement. This amendment provided for debt repayment guarantees from certain Company subsidiaries and waived certain non-financial covenants related to subsidiary guarantees. As of April 2, 2016, the Company had \$133.3 million borrowing capacity under the Credit Agreement as \$5.2 million in letters of commercial and standby letters of credit were outstanding and undrawn and \$11.5 million of revolver borrowing was drawn and outstanding as of the end of the quarter.

The New York Life Agreement, the Project Bonds, the Prudential Agreement, and the Credit Agreement contain customary affirmative and negative covenants. The affirmative covenants relate to financial statements, notices of material events, conduct of business, inspection of property, maintenance of insurance, compliance with laws, and most favored lender obligations. The negative covenants include limitations on loans, advances and investments, and the granting of liens by the Company or its subsidiaries, as well as prohibitions on certain consolidations, mergers, sales, and transfers of assets. The covenants also include financial requirements, including a maximum leverage ratio of 3.50 to 1.00 and a minimum interest coverage ratio of 3.00 to 1.00. Cross default is applicable with the New York Life Agreement, the Project Bonds, the Prudential Agreement, and the Credit Agreement, but only if the Company is defaulting on an obligation exceeding \$10.0 million. As of April 2, 2016, the Company was in compliance with all financial covenants. The Company expects that ongoing requirements for operations, capital expenditures, pension obligations, dividends, and debt service will be adequately funded from cash on hand, operations, and existing credit agreements.

At April 2, 2016, the Company had \$74.6 million of cash on hand at various locations worldwide. Approximately 19 percent of the cash on hand was in the U.S. and readily accessible. Approximately 48 percent was in Europe, and the

remaining 33 percent was in Mexico, Asia Pacific, and other locations combined. On a regular basis the Company reviews international cash balances and, if appropriate based on forecasted expenditures and considerations for the post-tax economic efficiency, will reposition cash among its global entities. Global cash balances are invested according to a written policy, and are generally in bank demand accounts and bank time deposits with the preservation of principal as the highest priority.

Operating Activities

Net cash used by operating activities was \$0.4 million for the first quarter ended April 2, 2016 compared to \$21.8 million for the first quarter ended April 4, 2015. The decrease in cash used in operations in the first quarter of 2016 in comparison to the first quarter of 2015 was largely attributable to greater uses of cash during the first quarter of 2015 to pay down higher year-end

2014 accounts payable balances resulting from timing of inventory receipts and higher inventory levels as of the end of 2014. In addition, during the first quarter of 2015, the mandatory share purchase liability of \$22.9 million for PPH was settled, resulting in a non-cash gain and reversal of certain deferred tax liabilities, also non-cash, both of which were adjustments to net income.

#### Investing Activities

Net cash used in investing activities was \$11.0 million for the first quarter ended April 2, 2016 compared to \$7.8 million for the first quarter ended April 4, 2015. This increase was primarily attributable to an increase in capital expenditures including the purchase of a building during the first quarter of 2016.

#### Financing Activities

Net cash provided by financing activities was \$3.6 million for the first quarter ended April 2, 2016 compared to \$43.4 million for the first quarter ended April 4, 2015. During the first quarter of 2015 cash provided from financing activities was higher primarily due to increased borrowings to fund operating requirements and the \$20.2 million payment for the purchase of the remaining outstanding shares of Pioneer Pump.

#### FACTORS THAT MAY AFFECT FUTURE RESULTS

This quarterly report on Form 10-Q contains certain forward-looking information, such as statements about the Company's financial goals, acquisition strategies, financial expectations including anticipated revenue or expense levels, business prospects, market positioning, product development, manufacturing re-alignment, capital expenditures, tax benefits and expenses, and the effect of contingencies or changes in accounting policies.

Forward-looking statements are typically identified by words or phrases such as "believe," "expect," "anticipate," "intend," "estimate," "may increase," "may fluctuate," "plan," "goal," "target," "strategy," and similar expressions or future or conditional verbs such as "may," "will," "should," "would," and "could." While the Company believes that the assumptions underlying such forward-looking statements are reasonable based on present conditions, forward-looking statements made by the Company involve risks and uncertainties and are not guarantees of future performance. Actual results may differ materially from those forward-looking statements as a result of various factors, including regional or general economic and currency conditions, various conditions specific to the Company's business and industry, new housing starts, weather conditions, market demand, competitive factors, changes in distribution channels, supply constraints, effect of price increases, raw material costs and availability, technology factors, integration of acquisitions, litigation, government and regulatory actions, the Company's accounting policies, and other risks, all as described in the Company's Securities and Exchange Commission filings, included in Part I, Item 1A of the Company's Annual Report on Form 10-K for the fiscal year ended January 2, 2016, and in Exhibit 99.1 thereto. Any forward-looking statements included in this Form 10-Q are based upon information presently available. The Company does not assume any obligation to update any forward-looking information, except as required by law.

#### ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

There have been no significant changes in the Company's exposure to market risk during the first quarter ended April 2, 2016. For additional information, refer to Part II, Item 7A of the Company's Annual Report on Form 10-K for the fiscal year ended January 2, 2016.

#### ITEM 4. CONTROLS AND PROCEDURES

As of the end of the period covered by this report (the "Evaluation Date"), the Company carried out an evaluation, under the supervision and with the participation of the Company's management, including the Company's Chief Executive Officer and the Company's Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures pursuant to Exchange Act Rules 13a-15. Based upon that evaluation, the Company's Chief Executive Officer and the Company's Chief Financial Officer concluded that, as of the Evaluation Date, the Company's disclosure controls and procedures were effective.

There have been no changes in the Company's internal control over financial reporting identified in connection with the evaluation required by Rules 13a-15 under the Exchange Act during the last fiscal quarter that have materially affected, or are reasonably likely to materially affect the Company's internal control over financial reporting.

## PART II - OTHER INFORMATION

## ITEM 1A. RISK FACTORS

There have been no material changes to our risk factors as set forth in the Company's annual report on Form 10-K for the fiscal year ended January 2, 2016. Additional risks and uncertainties, not presently known to the Company or currently deemed immaterial, could negatively impact the Company's results of operations or financial condition in the future.

## ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

## (c) Issuer Repurchases of Equity Securities

In April 2007, the Company's Board of Directors unanimously approved a plan to increase the number of shares remaining for repurchase from 628,692 to 2,300,000 shares. There is no expiration date for this plan. On August 3, 2015, the Company's Board of Directors approved a plan to increase the number of shares remaining for repurchase by an additional 3,000,000 shares. The authorization was in addition to the 535,107 shares that remained available for repurchase as of July 31, 2015. The Company repurchased 144,600 shares for approximately \$3.8 million under the plan during the first quarter of 2016. The maximum number of shares that may still be purchased under this plan as of April 2, 2016 is 2,156,362.
