TO THE STOCKHOLDERS

For the six months ended June 30, 2005, the investment return to our stockholders was 3.1% (assuming reinvestment of all dividends). The net asset value per Common Share increased 5.9%. By comparison, the rate of return (including income) for our benchmark, the Standard & Poor's 500 Stock Index, was -0.8%. For the twelve months ended June 30, 2005, the return to our stockholders was 10.2% and the return on the net asset value per Common Share was 14.6%; these compare with a return of 6.2% for the S&P 500. During each period, the discount at which our shares traded increased slightly and at June 30, 2005, it was 14.1%.

As set forth in the accompanying financial statements (unaudited), as of June 30, 2005, the net assets applicable to the Company's Common Stock were \$1,070,178,768, equal to \$37.27 per Common Share.

The increase in net assets resulting from operations for the six months ended June 30, 2005 was \$56,880,773. During this period, the net realized gain on securities sold was \$23,212,019 and the increase in net unrealized appreciation was \$36,256,982. Net investment income for the six months was \$3,361,772 and distributions to Preferred Stockholders amounted to \$5,950,000.

During the six months, 636,204 shares of the Company's Common Stock were repurchased for \$19,701,744 at an average discount from net asset value of 12.7%.

The relatively robust returns generated thus far this year come, in large measure, from our exposure to securities related to the oil and natural gas industries. The discount to net asset value at which our shares trade, meanwhile, has continued to widen, inexplicably. This gap has created the opportunity to repurchase shares on an especially attractive basis. Over the past 10 years the share price has ranged between a 2% premium and a 19% discount to its net asset value.

We remain constructive with respect to security valuations. Concerns abound, of course, including the costs of war finance, the impact of rising energy prices on consumer spending, the loss of manufacturing jobs to foreign producers, and an apparent housing bubble in some regions. There exists, furthermore, the prospect of an inverted yield curve, marked by interest rates that are higher for short-dated securities than for long-term bonds, a phenomenon that characteristically presages recession. Importantly, however, the U.S. is at or near full employment, inflation remains constrained, interest rates are relatively low, liquidity is ample, and earnings and dividends continue to grow.

On June 30, 2005, Eugene L. DeStaebler, Jr., who had been an officer of the Company for thirty years, and for the last twenty-eight, Vice-President, Administration, retired. Mr. DeStaebler's broad knowledge and understanding of the closed-end investment company industry, his expertise in administration, oversight of the accounting function, as well as his guidance regarding compliance, have been highly regarded by the Board of Directors and greatly appreciated by the Company. The Board of Directors is pleased to announce that, at its meeting today, Mr. DeStaebler has agreed to continue as a consultant in his capacity as Chief Compliance Officer until December 31, 2005.

We are also pleased to report that Eugene S. Stark, Vice-President since May 16, 2005, was appointed Vice-President, Administration. Prior to joining the Company

Edgar Filing: GENERAL AMERICAN INVESTORS CO INC - Form N-CSRS

in May 2005, Mr. Stark, a CPA, served as the chief financial officer of a business development company. Mr. Stark had been a vice president of Prudential Financial, Inc. (1987-2004) and, prior thereto, gained diverse audit experience at Deloitte & Touche (1982-1987).

The information about the Company, including our investment objective, operating policies and procedures, investment results, record of dividend payments, financial reports and press releases, is contained on our website and has been updated through June 30, 2005. It can be accessed on the Internet at www.generalamericaninvestors.com.

perform under the contract. Put and call options purchased are accounted for in the same manner as portfolio securities. Premiums received from writing options that expire unexercised are treated by the Company on the expiration date as realized gains from investments. The difference between the premium received and the amount paid on effecting a closing purchase transaction, including brokerage commissions, is also treated as a realized gain, or, if the premium is less than the amount paid for the closing purchase transaction, as a realized loss. If a call option is exercised, the premium is added to the proceeds from the sale of the underlying security in determining whether the Company has realized a gain or loss. If a put option is exercised, the premium reduces the cost basis for the securities purchased by the Company. The Company as writer of an option bears the market risk of an unfavorable change in the price of the security underlying the written option.

d. FEDERAL INCOME TAXES The Company's policy is to fulfill the requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute substantially all taxable income to its stockholders. Accordingly, no provision for Federal income taxes is required.

e. INDEMNIFICATIONS In the ordinary course of business, the Company enters into contracts that contain a variety of indemnifications. The Company's maximum exposure under these arrangements is unknown. However, the Company has not had prior claims or losses pursuant to these indemnification provisions and expects the risk of loss thereunder to be remote.

f. OTHER As customary in the investment company industry, securities transactions are recorded as of the trade date. Dividend income and distributions to stockholders are recorded as of the ex-dividend dates. Interest income, adjusted for amortization of discount and premium on investments, is earned from settlement date and is recognized on the accrual basis. Cost of short-term investments represents amortized cost.

2. CAPITAL STOCK AND DIVIDEND DISTRIBUTIONS

The authorized capital stock of the Company consists of 50,000,000 shares of Common Stock, \$1.00 par value, and 10,000,000 shares of Preferred Stock, \$1.00 par value, of which 28,717,595 shares and 8,000,000 shares, respectively, were outstanding at June 30, 2005.

On September 24, 2003, the Company issued and sold 8,000,000 shares of its 5.95% Cumulative Preferred Stock, Series B in an underwritten offering. The Preferred Shares are noncallable for 5 years and have a liquidation preference of \$25.00 per share plus an amount equal to accumulated and unpaid dividends to the date of redemption. The underwriting discount and other expenses associated with the Preferred Stock offering amounted to \$6,700,000 and were charged to paid-in capital.

The Company is required to allocate distributions from long-term capital gains and other types of income proportionately among holders of shares of Common Stock and Preferred Stock. To the extent that dividends on the shares of Preferred Stock are not paid from long-term capital gains, they will be paid from ordinary income or net short-term capital gains or will represent a return of capital.

Under the Investment Company Act of 1940, the Company is required to maintain an asset coverage of at least 200% for the Preferred Stock. In addition, pursuant to the Rating Agency Guidelines, the Company is required to maintain a certain discounted asset coverage for its portfolio that equals or exceeds the Basic Maintenance Amount under the guidelines established by Moody's Investors Service, Inc. The Company has met these requirements since the issuance of the Preferred Stock. If the Company fails to meet these requirements in the future and does not cure such failure, the Company may be required to redeem, in whole

Edgar Filing: GENERAL AMERICAN INVESTORS CO INC - Form N-CSRS

or in part, shares of Preferred Stock at a redemption price of \$25.00 per share plus accumulated and unpaid dividends (whether or not earned or declared). In addition, the Company's failure to meet the foregoing asset coverage requirements could restrict its ability to pay dividends on shares of Common Stock and could lead to sales of portfolio securities at inopportune times.

The holders of Preferred Stock have voting rights equivalent to those of the holders of Common Stock (one vote per share) and, generally, vote together with the holders of Common Stock as a single class.

At all times, holders of Preferred Stock will elect two members of the Company's Board of Directors and the holders of Preferred and Common Stock, voting as a single class, will elect the remaining directors. If the Company fails to pay dividends on the Preferred Stock in an amount equal to two full years' dividends, the holders of Preferred Stock will have the right to elect a majority of the directors. In

addition, the Investment Company Act of 1940 requires that approval of the holders of a majority of any outstanding Preferred Shares, voting separately as a class, would be required to (a) adopt any plan of reorganization that would adversely affect the Preferred Stock and (b) take any action requiring a vote of security holders, including, among other things, changes in the Company's subclassification as a closed-end investment company or changes in its fundamental investment policies.

The Company classifies its Preferred Stock pursuant to the requirements of EITF D-98, Classification and Measurement of Redeemable Securities, which require that preferred stock for which its redemption is outside of the company's control should be presented outside of net assets in the statement of assets and liabilities.

Transactions in Common Stock during the six months ended June 30, 2005 and the year ended December 31, 2004 were as follows:

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders of
GENERAL AMERICAN INVESTORS COMPANY, INC.

We have reviewed the accompanying statement of assets and liabilities of General American Investors Company, Inc., including the statement of investments, as of June 30, 2005, and the related statements of operations and changes in net assets and financial highlights for the six-month period ended June 30, 2005. These financial statements and financial highlights are the responsibility of the Company's management.

We conducted our review in accordance with the standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures to financial data, and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit in accordance with the standards of the Public Company Accounting Oversight Board, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to the interim financial statements referred to above for them to be in conformity with accounting principles generally accepted in the United States.

We have previously audited, in accordance with the standards of the Public Company Accounting Oversight Board, the statement of changes in net assets for the year ended December 31, 2004 and financial highlights for each of the five years in the period then ended and in our report, dated January 19, 2005, we expressed an unqualified opinion on such financial statements and financial highlights.

ITEM 7. DISCLOSURE OF PROXY VOTING POLICIES AND PROCEDURES FOR CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

General American Investors Company, Inc.

PROXY VOTING POLICIES AND PROCEDURES

General American Investors Company, Inc. (the "Company") is uniquely structured as an internally managed closed-end investment company. Our research efforts, including the receipt and analysis of proxy material, are focused on the securities in the Company's portfolio, as well as alternative investment opportunities. We vote proxies relating to our portfolio securities in the best long-term interests of the Company.

Our investment approach stresses fundamental security analysis, which includes an evaluation of the integrity, as well as the effectiveness of management personnel. In proxy material, we review management proposals and management recommendations relating to shareholder proposals in order to, among other things, gain assurance that management's positions are consistent with its integrity and the long-term interests of the company. We generally find this to be the case and, accordingly, give significant weight to the views of management when we vote proxies.

Proposals that may have an impact on the rights or privileges of the securities held by the Company would be reviewed very carefully. The explanation for a negative impact could justify the proposal; however, if such justification were not present, we would vote against a significant reduction in the rights or privileges associated with any of our holdings.

Proposals relating to corporate governance matters are reviewed on a case-by-case basis. When they involve changes in the state of incorporation, mergers or other restructuring, we would, if necessary, complete our review of the rationale for the proposal by contacting company representatives and, with few exceptions, vote in favor of management's recommendations. Proposals relating to anti-takeover provisions, such as staggered boards, poison pills and supermajorities could be more problematic. They would be considered in light of our assessment of the capability of current management, the duration of the proposal, the negative impact it might have on the attractiveness of the company to future "investors," among other factors. We can envision circumstances under which we would vote against an anti-takeover provision.

Generally, we would vote with management on proposals relating to changes to the company's capital structure, including increases and decreases of capital

Edgar Filing: GENERAL AMERICAN INVESTORS CO INC - Form N-CSRS

and issuances of preferred stock; however, we would review the facts and circumstances associated with each proposal before finalizing our decision.

Well-structured stock option plans and management compensation programs are essential for companies to attract and retain high caliber management personnel. We generally vote in favor of proposals relating to these issues; however, there could be an occasion on which we viewed such a proposal as over reaching on the part of management or having the potential for excessive dilution when we would vote against the proposal.

Corporations should act in a responsible manner toward their employees, the communities in which they are located, the customers they serve and the world at large. We have observed that most stockholder proposals relating to social issues focus on a narrow issue and the corporate position set forth in the proxy material provides a well-considered response demonstrating an appropriate and responsible action or position. Accordingly, we generally support management recommendations on these types of proposals; however, we would consider each proposal on a case-by-case basis.

We take voting proxies of securities held in our portfolio very seriously. As indicated above, it is an integral part of the analytical process at General American Investors. Each proposal and any competing interests are reviewed carefully on a case-by-case basis. Generally, we support and vote in accordance with the recommendations of management; however, the overriding basis for the votes we cast is the best long-term interests of the Company.

ITEM 10. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS.

There have been no material changes to the procedures by which shareholders may recommend nominees to the registrant's board of directors as set forth in the registrant's Proxy Statement, dated February 28, 2005.

ITEM 11. CONTROLS AND PROCEDURES.

Conclusions of principal officers concerning controls and procedures

(a) As of July 13, 2005, an evaluation was performed under the supervision and with the participation of the officers of General American Investors Company, Inc. (the "Registrant"), including the principal executive officer ("PEO") and principal financial officer ("PFO"), to assess the effectiveness of the Registrant's disclosure controls and procedures. Based on that evaluation, the Registrant's officers, including the PEO and PFO, concluded that, as of July 13, 2005, the Registrant's disclosure controls and procedures were reasonably designed so as to ensure:(1) that information required to be disclosed by the Registrant on Form N-CSR is recorded, processed, summarized and reported within the time periods specified by the rules and forms of the Securities and Exchange Commission, and (2) that material information relating to the Registrant is made known to the PEO and PFO as appropriate to allow timely discussions regarding required disclosure.

(b) There have been no significant changes in the Registrant's internal control over financial reporting that occurred during the Registrant's second fiscal quarter of the period covered by this report that has materially affected, or is reasonably likely to materially affect, the Registrant's internal control over financial reporting.

ITEM 12. EXHIBITS

(a)(1) The code of ethics disclosure required by Item 2 is not applicable to this semi-annual report.

(a)(2) Certifications of the principal executive officer and the principal financial officer pursuant to Rule 30a-2(a) under the Investment Company Act of 1940.

(a)(3) There were no written solicitations to purchase securities under Rule 23c-1 under the Investment Company Act of 1940 during the period covered by the report.

(b) Certifications of the principal executive officer and the principal financial officer, as required by Rule 30a-2(b) under the Investment Company Act of 1940.
