TO THE STOCKHOLDERS

For the six months ended June 30, 2007, the net asset value per common share increased by 11.3%, while the investment return to our stockholders was 9.2%. By comparison, the rate of return (including income) for our benchmark, the Standard & Poor's 500 Stock Index, was 7.0%. For the twelve months ended June 30, 2007, the return on the net asset value per Common Share was 23.0%, and the return to our stockholders was 21.6%; these compare with a return of 20.5% for the S&P 500. During each period, the discount at which our shares traded continued to fluctuate and on June 30, 2007, it was 10.2%.

As set forth in the accompanying financial statements (unaudited), as of June 30, 2007, the net assets applicable to the Company's Common Stock were \$1,319,084,730 equal to \$45.14 per Common Share.

The increase in net assets resulting from operations for the six months ended June 30, 2007 was \$133,915,605. During this period, the net realized gain on securities sold was \$128,919,725, and the increase in net unrealized appreciation was \$3,755,733. Net investment income for the six months was \$7,190,147, and distributions to Preferred Stockholders amounted to \$5,950,000.

During the six months, 364,300 shares of the Company's Common Stock were repurchased for \$14,343,113 at an average discount from net asset value of 10.3%.

The year to date has produced meaningful capital gains, though it may be difficult to sustain this performance over the balance of the year. One of the main concerns is rising interest rates, which reflect the impact of higher fuel and food costs, among other factors, on inflation. Higher borrowing costs could dampen the flow of deals, which is thought to be an important part of the foundation currently supporting equities.

Although it's difficult to argue that stocks are now undervalued, if interest rates are trending up, sufficient liquidity appears to be available, at compelling prices, to generally support financial assets. Despite the housing slump and its attendant subprime loan problems, the U.S. economy seems to be expanding again. Jobless claims and unemployment remain relatively low, the trade deficit appears to have stabilized, the dollar's decline has been orderly, and global growth remains robust.

We are pleased to report that, on July 11, 2007, Messrs. Rodney B. Berens and Daniel M. Neidich were appointed to the Board of Directors. Mr. Berens is founding partner of Berens Capital Management LLC and previously served as Head of Global Equities at Salomon Brothers and as a member of the firm's Operating Committee. Mr. Neidich is founding partner and Co-Chief Executive Officer of Dune Capital Management LP. and previously served as a member of Goldman Sachs' Management Committee, co-head of its Merchant Banking Division, and Chairman of the Whitehall Investment Committee. Messrs. Berens and Neidich each serve as directors or trustees of numerous business, community, and eleemosynary organizations. Their familiarity with investment management and the securities industries should be of great value to the Company in the future.

We are also pleased to report that Joseph T. Stewart, Jr., a member of the Board of Directors of the Company since 1987, has been appointed by his fellow independent directors to serve as the Company's Lead Independent Director in order to maintain good governance practices in view of combining the offices of

1. SIGNIFICANT ACCOUNTING POLICIES - General American Investors Company, Inc. (the "Company"), established in 1927, is registered under the Investment Company Act of 1940 as a closed-end, diversified management investment company. It is internally managed by its officers under the direction of the Board of Directors.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

a. SECURITY VALUATION Securities traded on a national securities exchange are valued at the last reported sales price on the last business day of the period. Securities reported on the NASDAQ national market are valued at the official closing price on that day. Listed and NASDAQ securities for which no sales are reported on that day and other securities traded in the over-the-counter market are valued at the last bid price (asked price for options written) on the valuation date. Securities traded primarily in foreign markets are generally valued at the preceding closing price of such securities on their respective exchanges or markets. If, after the close of the foreign market, conditions change significantly, the price of certain foreign securities may be adjusted to reflect fair value as of the time of the valuation of the portfolio. Investments in money market funds are valued at their net asset value. The restricted security is valued at par value (cost), divided by the conversion price of \$6.00 multiplied by the last reported sales price of the publicly traded common stock of the corporation.

b. OPTIONS The Company may purchase and write (sell) put and call options. The risk associated with purchasing an option is that the Company pays a premium whether or not the option is exercised. Additionally, the Company bears the risk of loss of the premium and a change in market value should the counterparty not perform under the contract. Put and call options purchased are accounted for in the same manner as portfolio securities. Premiums received from writing options that expire unexercised are treated by the Company on the expiration date as realized gains from investments. The difference between the premium received and the amount paid on effecting a closing purchase transaction, including brokerage commissions, is also treated as a realized gain, or, if the premium is less than the amount paid for the closing purchase transaction, as a realized loss. If a call option is exercised, the premium is added to the proceeds from the sale of the underlying security in determining whether the Company has realized a gain or loss. If a put option is exercised, the premium reduces the cost basis for the securities purchased by the Company. The Company as writer of an option bears the market risk of an unfavorable change in the price of the security underlying the written option.

c. FEDERAL INCOME TAXES The Company's policy is to fulfill the requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute substantially all taxable income to its stockholders. Accordingly, no provision for Federal income taxes is required.

d. INDEMNIFICATIONS In the ordinary course of business, the Company enters into contracts that contain a variety of indemnifications. The Company's maximum exposure under these arrangements is unknown. However, the Company has not had prior claims or losses pursuant to these indemnification provisions and expects the risk of loss thereunder to be remote.

e. OTHER As customary in the investment company industry, securities transactions are recorded as of the trade date. Dividend income and distributions to stockholders are recorded as of the ex-dividend dates. Interest income, adjusted for amortization of discount and premium on investments, is

Edgar Filing: GENERAL AMERICAN INVESTORS CO INC - Form N-CSRS

earned from settlement date and is recognized on the accrual basis. Cost of short-term investments represents amortized cost.

2. CAPITAL STOCK AND DIVIDEND DISTRIBUTIONS - The authorized capital stock of the Company consists of 50,000,000 shares of Common Stock, \$1.00 par value, and 10,000,000 shares of Preferred Stock, \$1.00 par value, of which 29,224,898 shares and 8,000,000 shares, respectively, were outstanding at June 30, 2007.

On September 24, 2003, the Company issued and sold 8,000,000 shares of its 5.95% Cumulative Preferred Stock, Series B in an underwritten offering. The Preferred Shares are noncallable for 5 years and have a liquidation preference of \$25.00 per share plus an amount equal to accumulated and unpaid dividends to the date of redemption. The underwriting discount and other expenses associated with the Preferred Stock offering amounted to \$6,700,000 and were charged to paid-in capital.

The Company is required to allocate distributions from long-term capital gains and other types of income proportionately among holders of shares of Common Stock and Preferred Stock. To the extent that dividends on the shares of Preferred Stock are not paid from long-term capital gains, they will be paid from ordinary income or net short-term capital gains or will represent a return of capital.

Under the Investment Company Act of 1940, the Company is required to maintain an asset coverage of at least 200% for the Preferred Stock. In addition, pursuant to the Rating Agency Guidelines, the Company is required to maintain a certain discounted asset coverage for its portfolio that equals or exceeds the Basic Maintenance Amount under the guidelines established by Moody's Investors Service, Inc. The Company has met these requirements since the issuance of the Preferred Stock. If the Company fails to meet these requirements in the future and does not cure such failure, the Company may be required to redeem, in whole or in part, shares of Preferred Stock at a redemption price of \$25.00 per share plus accumulated and unpaid dividends (whether or not earned or declared). In addition, the Company's failure to meet the foregoing asset coverage requirements could restrict its ability to pay dividends on shares of Common Stock and could lead to sales of portfolio securities at inopportune times.

The holders of Preferred Stock have voting rights equivalent to those of the holders of Common Stock (one vote per share) and, generally, vote together with the holders of Common Stock as a single class.

At all times, holders of Preferred Stock will elect two members of the Company's Board of Directors and the holders of Preferred and Common Stock, voting as a single class, will elect the remaining directors. If the Company fails to pay dividends on the Preferred Stock in an amount equal to two full years' dividends, the holders of Preferred Stock will have the right to elect a majority of the directors. In addition, the Investment Company Act of 1940 requires that approval of the holders of a majority of any outstanding Preferred Shares, voting separately as a class, would be required to (a) adopt any plan of reorganization that would adversely affect the Preferred Stock and (b) take any action requiring a vote of security holders, including, among other things, changes in the Company's subclassification as a closed-end investment company or changes in its fundamental investment policies.

The Company classifies its Preferred Stock pursuant to the requirements of EITF D-98, Classification and Measurement of Redeemable Securities, which require that preferred stock for which its redemption is outside of the company's control should be presented outside of net assets in the statement of assets and liabilities.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders of
GENERAL AMERICAN INVESTORS COMPANY, INC.

We have reviewed the accompanying statement of assets and liabilities of General American Investors Company, Inc., including the statement of investments, as of June 30, 2007, and the related statements of operations and changes in net assets and financial highlights for the six-month period ended June 30, 2007. These financial statements and financial highlights are the responsibility of the Company's management.

We conducted our review in accordance with the standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures to financial data, and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit in accordance with the standards of the Public Company Accounting Oversight Board, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to the interim financial statements referred to above for them to be in conformity with accounting principles generally accepted in the United States.

We have previously audited, in accordance with the standards of the Public Company Accounting Oversight Board, the statement of changes in net assets for the year ended December 31, 2006 and financial highlights for each of the five years in the period then ended and in our report, dated January 17, 2007, we expressed an unqualified opinion on such financial statements and financial highlights.
