ITEM 1: REPORTS TO STOCKHOLDERS

For the six months ended June 30, 2010, the net asset value per Common Share decreased 8.7%, while the investment return to our stockholders decreased by 8.8%. By comparison, our benchmark, the Standard & Poor's 500 Stock Index (including income) decreased 6.7%. For the twelve months ended June 30, 2010, the return on the net asset value per Common Share increased by 11.2%, and the return to our stockholders increased by 15.9%; these compare with an increase of 14.4% for the S&P 500. During both periods, the discount at which our shares traded continued to fluctuate and on June 30, 2010, it was 14.8%.

As detailed in the accompanying financial statements (unaudited), as of June 30, 2010, the net assets applicable to the Company's Common Stock were \$759,358,271 equal to \$25.12 per Common Share.

The decrease in net assets resulting from operations for the six months ended June 30, 2010 was \$75,792,897. During this period, the net realized gain on investments sold was \$5,268,358, and the decrease in net unrealized appreciation was \$77,694,451. Net investment income for the three months was \$2,289,185, and distributions to Preferred Stockholders amounted to \$5,655,989.

During the six months, 1,192,429 shares of the Company's Common Stock were repurchased for \$28,643,454 at an average discount from net asset value of 14.5%.

The market rally of almost 80% from last year's low, without a meaningful correction, ended in the second quarter. The recent weakness has facilitated the con-

The optimism that was apparent at the beginning of the year has faded as investors around the world now question the strength of economic recovery and weigh the risk that sovereign defaults could pose to financial markets. The resulting flight to safety has strengthened the dollar, elevated the price of precious metals, and led to bond returns exceeding stock gains by the widest margin in a decade.

While the U.S. and Chinese economies may well be slowing, a moderate recovery, lasting at least several more years, appears to be intact. Accommodative monetary and fiscal policies, unburdened at present by the fear of inflation, together with adequate manufacturing capacity, abundant labor, and cash rich corporate balance sheets, support this conclusion.

Over time, with the restoration of confidence, our portfolio companies, with their sound finances, selling at modest valuations, with dividend yields that in some cases approach bond returns, are likely to be rewarding.

Information about the Company, including our investment objectives, operating policies and procedures, investment results, record of dividend and distribution payments, financial reports and press releases, is on our website and has been updated through June 30, 2010. 1. SIGNIFICANT ACCOUNTING POLICIES - General American Investors Company, Inc. (the Company), established in 1927, is registered under the Investment Company Act of 1940 as a closed-end, diversified management investment company. It is internally managed by its officers under the direction of the Board of Directors.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

a. SECURITY VALUATION Equity securities traded on a national securities exchange are valued at the last reported sales price on the last business day of the period. Equity securities reported on the NASDAQ national market are valued at the official closing price on that day. Listed and NASDAQ equity securities for which no sales are reported on that day and other securities traded in the over-the-counter market are valued at the last bid price (asked price for options written) on the valuation date. Equity securities traded primarily in foreign markets are valued at the closing price of such securities on their respective exchanges or markets. Corporate debt securities, domestic and foreign, are generally traded in the over-the-counter market rather than on a securities exchange. The Company utilizes the latest bid prices provided by independent dealers and information with respect to transactions in such securities to determine current market value. If, after the close of foreign markets, conditions change significantly, the price of certain foreign securities may be adjusted to reflect fair value as of the time of the valuation of the portfolio. Investments in money market funds are valued at their net asset value. Special holdings (restricted securities) and other securities for which quotations are not readily available are valued at fair value determined in good faith pursuant to procedures established by and under the general supervision of the Board of Directors.

b. **OPTIONS** The Company may purchase and write (sell) put and call options. The Company purchases put options or writes call options to hedge the value of portfolio investments while it purchases call options and writes put options to obtain equity market exposure. The risk associated with purchasing an option is that the Company pays a premium whether or not the option is exercised. Additionally, the Company bears the risk of loss of the premium and a change in market value should the counterparty not perform under the contract. Put and call options purchased are accounted for in the same manner as portfolio securities. Premiums received from writing options are reported as a liability on the Statement of Assets and Liabilities. Those that expire unexercised are treated by the Company on the expiration date as realized gains on written option transactions in the Statement of Operations. The difference between the premium received and the amount paid on effecting a closing purchase transaction, including brokerage commissions, is also treated as a realized gain, or, if the premium is less than the amount paid for the closing purchase transaction, as a realized loss on written option transactions in the Statement of Operations. If a call option is exercised, the premium is added to the proceeds from the sale of the underlying security in determining whether the Company has realized a gain or loss on investments in the Statement of Operations. If a put option is exercised, the premium reduces the cost basis for the securities purchased by the Company and is parenthetically disclosed under cost of investments on the Statement of Assets and Liabilities. The Company as writer of an option bears the market risk of an unfavorable change in the price of the security underlying the written option. See Note 4 for written option activity.

c. **SECURITY TRANSACTIONS AND INVESTMENT INCOME** Security transactions are recorded as of the trade date. Dividend income and distributions to stockholders are recorded as of the ex-dividend dates. Interest income, adjusted for amortization of discount and premium on investments, is earned from settlement date and is recognized on the accrual basis. Cost of short-term investments represents amortized cost.

d. **FOREIGN CURRENCY TRANSLATION AND TRANSACTIONS** Portfolio securities and other assets and liabilities denominated in foreign currencies are translated into U.S. dollars based on the exchange rate of such currencies versus U.S. dollars on the date of valuation. Purchases and sales of securities, income and expense items denominated in foreign currencies are translated into U.S. dollars at the exchange rate in effect on the transaction date. Events may impact the availability or reliability of foreign exchange rates used to convert the U.S. dollar equivalent value. If such an event occurs, the foreign exchange rate will be valued at fair value using procedures established and approved by the Company's Board of Directors. The Company does not separately report the effect of changes in foreign exchange rates from changes in market prices on securities held. Such changes are included in net realized and unrealized gain or loss from investments on the Statement of Operations.

Realized foreign exchange gains or losses arise from sales of foreign currencies, currency gains or losses realized between the trade and settlement dates on security transactions and the difference between the recorded amounts of dividends, interest, and foreign withholding taxes and the U.S. dollar equivalent of the amounts actually received or paid. Net unrealized foreign exchange gains and losses arise from changes in foreign exchange rates on foreign denominated assets and liabilities other than investments in securities held at the end of the reporting period.

Foreign security and currency transactions may involve certain considerations and risks not typically associated with those of U.S. companies as a result of, among other factors, the possibility of political or economic instability or the level of governmental supervision and regulation of foreign securities markets.

e. **DIVIDENDS AND DISTRIBUTIONS** The Company expects to pay dividends of net investment income and distributions of net realized capital and currency gains, if any, annually to common shareholders and quarterly to preferred shareholders. Dividends and distributions to common and preferred shareholders, which are determined in accordance with Federal income tax regulations are recorded on the ex-dividend date. Distributions for tax and book purposes are substantially the same. Permanent book/tax differences relating to income and gains are reclassified to paid-in capital as they arise.

f. **FEDERAL INCOME TAXES** The Company's policy is to fulfill the requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute substantially all taxable income to its stockholders. Accordingly, no provision for Federal income taxes is required. As of and during the period ended June 30, 2010, the Company did not have any liabilities for any unrecognized tax positions. The Company recognizes interest and penalties, if any, related to unrecognized tax positions as income tax expense in the Statement of Operations. During the period, the Company did not incur any interest or penalties.

Edgar Filing: GENERAL AMERICAN INVESTORS CO INC - Form N-CSRS

g. **CONTINGENT LIABILITIES** Amounts related to contingent liabilities are accrued if it is probable that a liability has been incurred and an amount is reasonably estimable. Management evaluates whether there are incremental legal or other costs directly associated with the ultimate resolution of a matter that are reasonably estimable and, if so, they are included in the accrual.

h. **INDEMNIFICATIONS** In the ordinary course of business, the Company enters into contracts that contain a variety of indemnifications. The Company's maximum exposure under these arrangements is unknown. However, the Company has not had prior claims or losses pursuant to these indemnification provisions and expects the risk of loss thereunder to be remote.

2. **FAIR VALUE MEASUREMENTS** - Various data inputs are used in determining the value of the Company's investments. These inputs are summarized in a hierarchy consisting of the three broad levels listed below:

Level 1 - quoted prices in active markets for identical securities (including money market funds which are valued using amortized cost and which transact at net asset value, typically \$1 per share),

Level 2 - other significant observable inputs (including quoted prices for similar securities, interest rates, credit risk, etc.), and

Level 3 - significant unobservable inputs (including the Company's own assumptions in determining the fair value of investments).

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. The following is a summary of the inputs used to value the Company's net assets as of June 30, 2010:

Assets	Level 1	Level 2	Level 3	Total
Common stocks	\$872,867,396		\$17,500,000	\$890,367,396
Warrant	1,959,200			1,959,200
Corporate debt		18,946,000		18,946,000

Total	\$916,084,164	\$18,946,000	\$17,500,000	\$952,530,164
Liabilities				
Options written	(\$2,960)			(\$2,960)

The aggregate value of Level 2 and 3 portfolio investments changed during the six months ended June 30, 2010 as follows:

	Level 2	Level 3
Fair value at December 31, 2009	\$29,357,226	\$16,850,000
Cost basis of investments sold	(7,127,127)

Fair value at June 30, 2010	\$18,946,000	\$17,500,000

Edgar Filing: GENERAL AMERICAN INVESTORS CO INC - Form N-CSRS

3. PURCHASES AND SALES OF SECURITIES - Purchases and sales of securities (other than short-term securities and options) for the six months ended June 30, 2010 amounted to \$87,855,462 and \$108,757,880, on long transactions, respectively.

4. WRITTEN OPTIONS - Transactions in written covered call and collateralized put options during the six months ended June 30, 2010 were as follows:

	Covered Call		Collateralized Put	
	Contracts	Premiums	Contracts	Premiums
Options outstanding, December 31, 2009			250	\$46,223
Options written	1,655	\$168,500		
Options expired			250	(46,223)
Options outstanding, June 30, 2010	1,655	\$168,500	0	\$0

5. CAPITAL STOCK AND DIVIDEND DISTRIBUTIONS - The authorized capital stock of the Company consists of 50,000,000 shares of Common Stock, \$1.00 par value, and 10,000,000 shares of Preferred Stock, \$1.00 par value. With respect to the Common Stock, 30,232,786 shares were issued and outstanding; 8,000,000 Preferred Shares were originally issued and 7,604,687 were outstanding on June 30, 2010.

On September 24, 2003, the Company issued and sold 8,000,000 shares of its 5.95% Cumulative Preferred Stock, Series B in an underwritten offering. The Preferred Shares were noncallable for the 5 year period ended September 24, 2008 and have a liquidation preference of \$25.00 per share plus accumulated and unpaid dividends to the date of redemption. On December 10, 2008, the Board of Directors authorized the repurchase of 1 million Preferred Shares in the open market at prices below \$25.00 per share. A total of 395,313 Preferred Shares have been repurchased at an aggregate cost of \$9,276,538, an average cost per share of \$23.47, through December 31, 2009; no Preferred Shares were repurchased during the six months ended June 30, 2010. The average discount of \$1.53 per Preferred Share, \$606,287 in the aggregate, was credited to additional paid-in capital of Common Stock.

The Company is required to allocate distributions from long-term capital gains and other types of income proportionately among holders of shares of Common Stock and Preferred Stock. To the extent that dividends on the shares of Preferred Stock are not paid from long-term capital gains, they will be paid from ordinary income or net short-term capital gains or will represent a return of capital.

Under the Investment Company Act of 1940, the Company is required to maintain an asset coverage of at least 200% of the Preferred Stock. In addition, pursuant to Moody's Investor Service, Inc. Rating Agency Guidelines, the Company is required to maintain a certain discounted asset coverage for its portfolio that equals or exceeds a Basic Maintenance Amount. The Company has met these requirements since the issuance of the Preferred Stock. If the Company fails to meet these requirements in the future and does not cure such failure, the Company may be required to redeem, in whole or in part, shares of Preferred Stock at a redemption price of \$25.00 per share plus accumulated and unpaid dividends. In addition, failure to meet the foregoing asset coverage requirements could restrict the Company's ability to pay dividends on shares of Common Stock and could lead to sales of portfolio securities at inopportune times.

The holders of Preferred Stock have voting rights equivalent to those of the holders of Common Stock (one vote per share) and, generally, vote together with the holders of Common Stock as a single class.

Holders of Preferred Stock elect two members of the Company's Board of Directors and the holders of Preferred and Common Stock, voting as a single class, elect the remaining directors. If the Company fails to pay dividends on the Preferred Stock in an amount equal to two full years' dividends, the holders of Preferred Stock will have the right to elect a majority of the directors. In addition, the Investment Company Act of 1940 requires that approval of the holders of a majority of any outstanding Preferred Shares, voting separately as a class, would be required to (a) adopt any plan of reorganization that would adversely affect the Preferred Stock and (b) take any action requiring a vote of security holders, including, among other things, changes in the Company's subclassification as a closed-end investment company or changes in its fundamental investment policies.

Service cost	\$166,351

The Company recognizes the overfunded or underfunded status of a defined benefit postretirement plan as an asset or liability in the

Edgar Filing: GENERAL AMERICAN INVESTORS CO INC - Form N-CSRS

Statement of Assets and Liabilities and recognizes changes in funded status in the year in which the changes occur through other comprehensive income.

8. OPERATING LEASE COMMITMENT - In September 2007, the Company entered into an operating lease agreement for office space which expires in February 2018 and provided for future rental payments in the aggregate amount of approximately \$10,755,000, net of construction credits. The lease agreement contains clauses whereby the Company receives free rent for a specified number of months and credit towards construction of office improvements, and incurs escalations annually relating to operating costs and real property taxes and to annual rent charges beginning in February 2013. The Company has the option to renew the lease after February 2018 for five years at market rates. Rental expense approximated \$553,500 for the six months ended June 30, 2010. Minimum rental commitments under the operating lease are approximately \$1,075,000 per annum in 2011 through 2012, \$1,183,000 in 2013 through 2017, and \$99,000 in 2018.

9. LITIGATION - The Company is subject to a legal action arising from a construction worker's personal injury that is covered under the terms of its insurance policies. Defense and legal costs are being funded by the insurer; damages are unspecified at this time. No liabilities or expenses have been incurred by the Company to date.

Purchases of the Company's Common Stock as set forth in Note 5 on page 10, may be made at such times, at such prices, in such amounts and in such manner as the Board of Directors may deem advisable.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders of
GENERAL AMERICAN INVESTORS COMPANY, INC.

We have reviewed the accompanying statement of assets and liabilities of General American Investors Company, Inc., including the statement of investments, as of June 30, 2010, and the related statements of operations and changes in net assets and financial highlights for the six-month period ended June 30, 2010. These financial statements and financial highlights are the responsibility of the Company's management.

We conducted our review in accordance with the standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures to financial data, and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit in accordance with the standards of the Public Company Accounting Oversight Board, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to the interim financial statements referred to above for them to be in conformity with accounting principles generally accepted in the United States.

We have previously audited, in accordance with the standards of the Public Company Accounting Oversight Board, the statement of changes in net assets for the year ended December 31, 2009 and financial highlights for each of the five years in the period then ended and in our report, dated February 3, 2010 we expressed an unqualified opinion on such financial statements and financial highlights.
