The accompanying notes are an integral part of these consolidated financial statements.

THE HERSHEY COMPANY  
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. BASIS OF PRESENTATION

Our unaudited consolidated financial statements provided in this report include the accounts of the Company and our majority-owned subsidiaries and entities in which we have a controlling financial interest after the elimination of intercompany accounts and transactions. We have a controlling financial interest if we own a majority of the outstanding voting common stock and the noncontrolling shareholders do not have substantive participating rights, or we have significant control over an entity through contractual or economic interests in which we are the primary beneficiary. We prepared these statements in accordance with the instructions to Form 10-Q. The financial statements were prepared in accordance with U.S. generally accepted accounting principles ("GAAP") for interim reporting. These statements do not include all of the information and footnotes required by GAAP for complete financial statements. Our significant interim accounting policies include the recognition of a pro-rata share of certain estimated annual amounts primarily for raw material purchase price variances, advertising expense, incentive compensation expenses and the effective income tax rate.

We included all adjustments (consisting only of normal recurring accruals) which we believe were considered necessary for a fair presentation. We reclassified certain prior year amounts to conform to the 2012 presentation. Operating results for the three months ended April 1, 2012 may not be indicative of the results that may be expected for the year ending December 31, 2012, because of the seasonal effects of our business. For more information, refer to the consolidated financial statements and notes included in our 2011 Annual Report on Form 10-K.

2. BUSINESS ACQUISITIONS

Acquisitions of businesses are accounted for as purchases and, accordingly, their results of operations have been included in the consolidated financial statements since the respective dates of the acquisitions. The purchase price for each of the acquisitions is allocated to the assets acquired and liabilities assumed.

In January 2012, we acquired all of the outstanding stock of Brookside Foods Ltd. ("Brookside"), a privately held confectionery company based in Abbotsford, British Columbia, Canada. Brookside has two production facilities located in British Columbia and Quebec. The Brookside product line is primarily sold in the U.S. and Canada in a take home re-sealable pack type. Annual net sales of the business are approximately \$90 million. The business complements our position in North America and we expect to make investments in manufacturing capabilities and conduct market research that will enable future growth.

Our financial statements reflect the preliminary accounting for the Brookside acquisition. The purchase price for the acquisition was approximately \$172.9 million. The preliminary purchase price allocation of the Brookside acquisition is as follows:

In thousands of dollars	Purchase Price Allocation <sup>(1)</sup>	Estimated Useful Life
Goodwill	\$66,239	Indefinite
Trademarks	60,253	25 Years
Other intangibles <sup>(2)</sup>	50,928	6 to 17 Years
Other assets, net of liabilities assumed	23,781	
Non-current deferred tax liabilities	(28,345 )	
Purchase Price	\$172,856	

The purchase price allocation is preliminary due to ongoing analysis to determine the fair value of acquired (1) intangibles, property plant and equipment, working capital adjustments and the tax basis of acquired assets and liabilities. We expect to finalize the purchase price allocation by the end of 2012.

(2) Includes customer relationships, patents and covenants not to compete.

The excess purchase price over the estimated value of the net tangible and identifiable intangible assets was recorded to goodwill. The goodwill is not expected to be deductible for tax purposes.

In February 2011, we acquired a 49% interest in Tri-US, Inc. of Boulder, Colorado, a company that manufactures, markets and sells nutritional beverages under the “mix1” brand name. We invested \$5.8 million and accounted for this investment using the equity method until January 2012. In January 2012, we made an additional investment of \$6.0 million in Tri-US, Inc., resulting in a controlling ownership interest of approximately 69%. Our financial statements reflect the preliminary accounting for the acquisition of the controlling interest in Tri-US, Inc. Total liabilities recorded were \$1.3 million. The preliminary amounts of goodwill and other intangibles acquired were \$7.2 million and \$1.4 million, respectively.

We included results subsequent to the acquisition dates in the consolidated financial statements. If we had included the results of the acquisitions in the consolidated financial statements for each of the periods presented, the effect would not have been material.

### 3. NONCONTROLLING INTERESTS IN SUBSIDIARIES

The increase in noncontrolling interests in subsidiaries from \$23.6 million as of December 31, 2011 to \$25.3 million as of April 1, 2012, reflected the noncontrolling interests in Tri-US, Inc. resulting from our additional investment, as well as the impact of currency translation adjustments, partially offset by the noncontrolling interests' share of losses of the entities. The noncontrolling interests' share of losses in subsidiaries increased income by \$4.0 million for the three months ended April 1, 2012 and by \$2.1 million for the three months ended April 3, 2011 and was included in selling, marketing and administrative expenses.

### 4. STOCK COMPENSATION PLANS

The Hershey Company Equity and Incentive Compensation Plan (“EICP”) is the plan under which grants using shares for compensation and incentive purposes are made. The following table summarizes our stock compensation costs:

In millions of dollars	For the Three Months Ended	
	April 1, 2012	April 3, 2011
Total compensation amount charged against income for stock options, performance stock units (“PSUs”) and restricted stock units (“RSUs”)	\$11.5	\$15.1
Total income tax benefit recognized in the Consolidated Statements of Income for share-based compensation	\$4.1	\$5.5

The decrease in share-based compensation expense for the first quarter of 2012 resulted primarily from certain adjustments associated with accounting for performance stock units. In addition, the decrease in share-based compensation expense for the first quarter of 2012 was impacted by the forfeiture of unvested awards due to participant changes during the second quarter of 2011.

#### Stock Options

A summary of the status of our stock options as of April 1, 2012, and the change during 2012 is presented below:

Stock Options	Shares	Weighted-Average Exercise Price	Weighted-Average
			Remaining Contractual Term
Outstanding at beginning of the period	14,540,442	\$44.86	5.7 years
Granted	2,056,845	\$60.68	
Exercised	(1,325,143)	)\$40.45	
Forfeited	(83,110)	)\$47.65	
Outstanding as of April 1, 2012	15,189,034	\$47.37	6.1 years
Options exercisable as of April 1, 2012	9,683,098	\$45.76	4.7 years
			For the Three Months Ended
			April 1, 2012
			April 3, 2011
Weighted-average fair value of options granted (per share)		\$10.53	\$9.95
Intrinsic value of options exercised (in millions of dollars)		\$27.1	\$26.5

We estimated the fair value of each stock option grant on the date of the grant using a Black-Scholes option-pricing model and the weighted-average assumptions set forth in the following table:

	For the Three Months Ended	
	April 1, 2012	April 3, 2011
Dividend yields	2.4%	2.7%
Expected volatility	22.4%	22.6%
Risk-free interest rates	1.5%	2.9%
Expected lives in years	6.6	6.6

As of April 1, 2012, the aggregate intrinsic value of options outstanding was \$201.6 million and the aggregate intrinsic value of options exercisable was \$144.5 million.

As of April 1, 2012, there was \$31.4 million of total unrecognized compensation cost related to non-vested stock option compensation arrangements granted under our stock option plans. That cost is expected to be recognized over a weighted-average period of 2.4 years.

#### Performance Stock Units and Restricted Stock Units

A summary of the status of our PSUs and RSUs as of April 1, 2012, and the change during 2012 is presented below:

Performance Stock Units and Restricted Stock Units	For the Three Months Ended April 1, 2012	Weighted-average grant date fair value for equity awards or market value for liability awards
Outstanding at beginning of year	1,740,479	\$48.70
Granted	374,229	\$62.98
Performance assumption change	(9,532)	)\$57.91
Vested	(539,659)	)\$42.09
Forfeited	(33,168)	)\$51.81
Outstanding as of April 1, 2012	1,532,349	\$55.11

The table above excludes PSU awards for 71,676 units as of December 31, 2011 and 43,133 units as of April 1, 2012 for which the measurement date has not yet occurred for accounting purposes.

For the first quarter 2012, we estimated the fair value of the market-based total shareholder return component of the PSUs using a Monte Carlo simulation model on the date of grant. The Monte Carlo assumptions included \$35.62 for the estimated value which was based on dividend yields of 2.5% and expected volatility of 20.0%. For performance-based components of the PSUs, we used the closing market price of the Company's Common Stock on the date of grant. For the first quarter 2011, we estimated the fair value of PSUs based on the closing market price of the Company's Common Stock on the date of grant. In the third quarter of 2011, we recorded an adjustment associated with the accounting for PSUs to reflect the market-based and performance-based conditions.

As of April 1, 2012, there was \$52.5 million of unrecognized compensation cost relating to non-vested PSUs and RSUs. We expect to recognize that cost over a weighted-average period of 2.3 years.

	For the Three Months Ended	
	April 1, 2012	April 3, 2011
Intrinsic value of share-based liabilities paid, combined with the fair value of shares vested (in millions of dollars)	\$32.8	\$32.0

The higher amount in 2012 was primarily due to the higher stock price at distribution in the first quarter of 2012 compared with first quarter of 2011.

Deferred performance stock units, deferred restricted stock units, and directors' fees and accumulated dividend amounts

representing deferred stock units totaled 626,042 units as of April 1, 2012. Each unit is equivalent to one share of the Company's Common Stock.

No stock appreciation rights were outstanding as of April 1, 2012.

For more information on our stock compensation plans, refer to the consolidated financial statements and notes included in our 2011 Annual Report on Form 10-K and our proxy statement for the 2012 annual meeting of stockholders.

#### 5. INTEREST EXPENSE

Net interest expense consisted of the following:

	For the Three Months Ended	
	April 1, 2012	April 3, 2011
In thousands of dollars		
Interest expense	\$26,945	\$26,546
Interest income	(646)	(790)
Capitalized interest	(2,275)	(1,279)
Interest expense, net	\$24,024	\$24,477

#### 6. BUSINESS REALIGNMENT AND IMPAIRMENT CHARGES

In June 2010, we announced Project Next Century (the "Next Century program") as part of our ongoing efforts to create an advantaged supply chain and competitive cost structure. As part of the program, production will transition from the Company's century-old facility at 19 East Chocolate Avenue in Hershey, Pennsylvania, to an expanded West Hershey facility, which was built in 1992. Production from the 19 East Chocolate Avenue plant, as well as a portion of the workforce, will be fully transitioned to the West Hershey facility primarily during the second quarter of 2012.

We estimate that the Next Century program will incur pre-tax charges and non-recurring project implementation costs of \$150 million to \$160 million. This estimate includes \$130 million to \$140 million in pre-tax business realignment and impairment charges and approximately \$20 million in project implementation and start-up costs. Total costs of \$43.4 million were recorded in 2011 and \$53.9 million were recorded in 2010.

Certain former manufacturing facilities with a carrying value of \$7.0 million were being held for sale as of April 1, 2012. The fair value of these facilities was estimated based on expected sales proceeds.

Business realignment and impairment charges and credits recorded during the three-month periods ended April 1, 2012 and April 3, 2011 were as follows:

	For the Three Months Ended	
	April 1, 2012	April 3, 2011
In thousands of dollars		
Cost of sales – Next Century program	\$19,454	\$6,859
Selling, marketing and administrative – Next Century program	813	1,014
Business realignment and impairment charges, net		
Next Century program		
Plant closure expenses	2,490	881
Employee separation costs	814	957
Total business realignment and impairment charges, net	3,304	1,838
Total business realignment and impairment charges	\$23,571	\$9,711

#### Next Century Program

A charge of \$19.5 million was recorded in cost of sales during the first quarter of 2012 related primarily to the accelerated depreciation of fixed assets over a reduced remaining useful life and start-up costs associated with the Next Century program. A charge of \$0.8 million was recorded in selling, marketing and administrative expenses in the first quarter of 2012 related primarily to project administration for the Next Century program. Plant closure expenses of \$2.5 million were recorded

in the first quarter of 2012 primarily related to costs associated with the relocation of production lines. Employee separation costs were \$0.8 million for the Next Century program in the first quarter of 2012, reflecting costs related to voluntary and involuntary terminations.

A charge of \$6.9 million was recorded in cost of sales during the first quarter of 2011 related primarily to the accelerated depreciation of fixed assets over a reduced estimated remaining useful life and start-up costs associated with the Next Century program. A charge of \$1.0 million was recorded in selling, marketing and administrative expenses in the first quarter of 2011 related primarily to project administration for the Next Century program. Plant closure expenses of \$0.9 million were recorded in the first quarter of 2011 primarily related to costs associated with the relocation of production lines. Employee separation costs of \$0.9 million for the Next Century program in the first quarter of 2011 were related to expected voluntary and involuntary terminations.

The April 1, 2012 liability balance relating to the Next Century program was \$17.8 million for estimated employee separation costs which were recorded in 2010 and 2011 and will be paid in 2012 as production transitions to the expanded West Hershey facility. During the first three months of 2012, we made payments against the liabilities of \$2.4 million related to employee separation costs.

#### 7. EARNINGS PER SHARE

We compute Basic and Diluted Earnings Per Share based on the weighted-average number of shares of the Common Stock and the Class B Common Stock outstanding as follows:

	For the Three Months Ended	
	April 1, 2012	April 3, 2011
In thousands except per share amounts		
Net income	\$198,651	\$160,115
Weighted-average shares - Basic		
Common Stock	164,603	166,452
Class B Common Stock	60,631	60,682
Total weighted-average shares - Basic	225,234	227,134
Effect of dilutive securities:		
Employee stock options	2,663	2,363
Performance and restricted stock units	758	697
Weighted-average shares - Diluted	228,655	230,194
Earnings Per Share - Basic		
Class B Common Stock	\$.82	\$.65
Common Stock	\$.91	\$.72
Earnings Per Share - Diluted		
Class B Common Stock	\$.81	\$.65
Common Stock	\$.87	\$.70

The Class B Common Stock is convertible into Common Stock on a share for share basis at any time. The calculation of earnings per share-diluted for the Class B Common Stock was performed using the two-class method and the calculation of earnings per share-diluted for the Common Stock was performed using the if-converted method.

For the three-month period ended April 1, 2012, 3.5 million stock options were not included in the diluted earnings per share calculation because the effect would have been antidilutive. In the first quarter of 2011, 6.9 million stock options were not included in the diluted earnings per share calculation because the effect would have been antidilutive.

## 8. DERIVATIVE INSTRUMENTS AND HEDGING ACTIVITIES

We account for derivative instruments in accordance with Financial Accounting Standards Board accounting standards which require us to recognize all derivative instruments at fair value. We classify derivatives as assets or liabilities on the balance sheet. As of April 1, 2012 and December 31, 2011, all of our derivative instruments were classified as cash flow hedges.

The fair value of derivative instruments in the Consolidated Balance Sheet as of April 1, 2012 was as follows:

Balance Sheet Caption	Foreign Exchange Forward Contracts and Options	Commodities Futures and Options Contracts
In thousands of dollars		
Prepaid expense and other current assets	\$2,428	\$330
Accrued liabilities	\$3,164	\$3,755

The fair value of derivative instruments in the Consolidated Balance Sheet as of December 31, 2011 was as follows:

Balance Sheet Caption	Foreign Exchange Forward Contracts and Options	Commodities Futures and Options Contracts
In thousands of dollars		
Prepaid expense and other current assets	\$3,954	\$3,929
Accrued liabilities	\$5,297	\$2,103
Other long-term liabilities	\$12	\$—

The fair value of foreign exchange forward contracts and options is the amount of the difference between the contracted and current market foreign currency exchange rates at the end of the period. We estimate the fair value of foreign exchange forward contracts and options on a quarterly basis by obtaining market quotes of spot and forward rates for contracts with similar terms, adjusted where necessary for maturity differences. As of April 1, 2012, the fair value of foreign exchange forward contracts with gains totaled \$2.4 million and the fair value of foreign exchange forward contracts with losses totaled \$3.2 million.

As of April 1, 2012, prepaid expense and other current assets associated with commodities futures and options contracts were associated with cash transfers receivable on commodities futures contracts reflecting the change in quoted market prices on the last trading day for the period. We make or receive cash transfers to or from commodity futures brokers on a daily basis reflecting changes in the value of futures contracts on the IntercontinentalExchange or various other exchanges. These changes in value represent unrealized gains and losses.

As of April 1, 2012, accrued liabilities associated with commodities futures and options contracts were related to the fair value of commodity derivative instruments.

The effect of derivative instruments on the Consolidated Statements of Income for the three months ended April 1, 2012 was as follows:

Cash Flow Hedging Derivatives	Interest Rate Swap Agreements	Foreign Exchange Forward Contracts and Options	Commodities Futures and Options Contracts
In thousands of dollars			
Gains (losses) recognized in other comprehensive income (“OCI”) (effective portion)	\$—	\$1,669	\$14,825
Gains (losses) reclassified from accumulated OCI into income (effective portion) (a)	\$(924	) \$(1,100	) \$(26,000
Gains (losses) recognized in income (ineffective portion) (b)	\$—	\$—	\$651

The effect of derivative instruments on the Consolidated Statements of Income for the three months ended April 3, 2011 was as follows:

Cash Flow Hedging Derivatives	Interest Rate Swap Agreements	Foreign Exchange Forward Contracts and Options	Commodities Futures and Options Contracts
In thousands of dollars			
Gains (losses) recognized in other comprehensive income (“OCI”) (effective portion)	\$836	\$(2,035	) \$(1
Gains (losses) reclassified from accumulated OCI into income (effective portion) (a)	\$517	\$930	\$3,800
Gains (losses) recognized in income (ineffective portion) (b)	\$—	\$—	\$(78

Gains (losses) reclassified from accumulated OCI into earnings were included in cost of sales for commodities futures and options contracts and for foreign exchange forward contracts and options designated as hedges of intercompany purchases of inventory. Other gains and losses for foreign exchange forward contracts and options were included in selling, marketing and administrative expenses.

(b) Gains (losses) recognized in earnings were included in cost of sales.

All gains (losses) recognized in earnings were related to the ineffective portion of the hedging relationship. We recognized no components of gains and losses on cash flow hedging derivatives in income due to excluding such components from the hedge effectiveness assessment.

The amount of net losses on cash flow hedging derivatives, including foreign exchange forward contracts and options and commodities futures and options contracts, expected to be reclassified into earnings in the next twelve months was approximately \$44.6 million after tax as of April 1, 2012. This amount was primarily associated with commodities futures and options contracts.

For more information, refer to the consolidated financial statements and notes included in our 2011 Annual Report on Form 10-K.

## 9. COMPREHENSIVE INCOME

A summary of the components of comprehensive income (loss) is as follows:

	For the Three Months Ended		
	April 1, 2012		
	Pre-Tax Amount	Tax (Expense) Benefit	After-Tax Amount
In thousands of dollars			
Net income			\$ 198,651
Other comprehensive income (loss):			
Foreign currency translation adjustments	\$ 12,739	\$—	12,739
Pension and post-retirement benefit plans	9,730	(3,737)	) 5,993
Cash flow hedges:			
Gains on cash flow hedging derivatives	16,494	(6,489)	) 10,005
Reclassification adjustments	28,024	(10,733)	) 17,291
Total other comprehensive income	\$ 66,987	\$ (20,959)	) 46,028
Comprehensive income			\$ 244,679

	For the Three Months Ended		
	April 3, 2011		
	Pre-Tax Amount	Tax (Expense) Benefit	After-Tax Amount
In thousands of dollars			
Net income			\$ 160,115
Other comprehensive income (loss):			
Foreign currency translation adjustments	\$ 9,878	\$—	9,878
Pension and post-retirement benefit plans	6,366	(2,703)	) 3,663
Cash flow hedges:			
Losses on cash flow hedging derivatives	(1,200)	) 226	(974)
Reclassification adjustments	(5,247)	) 2,007	(3,240)
Total other comprehensive income	\$ 9,797	\$ (470)	) 9,327
Comprehensive income			\$ 169,442

The components of accumulated other comprehensive income (loss) as shown on the Consolidated Balance Sheets are as follows:

	April 1, 2012	December 31, 2011
In thousands of dollars		
Foreign currency translation adjustments	\$ 14,198	\$ 1,459
Pension and post-retirement benefit plans, net of tax	(350,410)	) (356,403)
Cash flow hedges, net of tax	(60,091)	) (87,387)
Total accumulated other comprehensive loss	\$ (396,303)	) \$(442,331)

## 10. INVENTORIES

We value the majority of our inventories under the last-in, first-out (“LIFO”) method and the remaining inventories at the lower of first-in, first-out (“FIFO”) cost or market. Inventories were as follows:

	April 1, 2012	December 31, 2011
In thousands of dollars		
Raw materials	\$268,048	\$241,812
Goods in process	108,979	91,956
Finished goods	482,477	482,095
Inventories at FIFO	859,504	815,863
Adjustment to LIFO	(210,050	) (166,910
Total inventories	\$649,454	\$648,953

## 11. SHORT-TERM DEBT

As a source of short-term financing, we utilize cash on hand and commercial paper or bank loans with an original maturity of three months or less. Our five-year unsecured revolving credit agreement contains certain financial and other covenants, customary representations, warranties and events of default. As of April 1, 2012, we complied with all covenants pertaining to the credit agreement. There were no significant compensating balance agreements that legally restricted these funds. For more information, refer to the consolidated financial statements and notes included in our 2011 Annual Report on Form 10-K.

## 12. LONG-TERM DEBT

In May 2009, we filed a shelf registration statement on Form S-3 that registered an indeterminate amount of debt securities. This registration statement was effective immediately upon filing under Securities and Exchange Commission regulations governing “well-known seasoned issuers” (the “WKSI Registration Statement”). In September 2011, we repaid \$250 million of 5.3% Notes due in 2011. In November 2011, we issued \$250 million of 1.5% Notes due in 2016. The Notes were issued under the WKSI Registration Statement.

## 13. FINANCIAL INSTRUMENTS

The carrying amounts of financial instruments including cash and cash equivalents, accounts receivable, accounts payable and short-term debt approximated fair value as of April 1, 2012 and December 31, 2011, because of the relatively short maturity of these instruments.

The carrying value of long-term debt, including the current portion, was \$1,846.4 million as of April 1, 2012, compared with a fair value of \$2,151.3 million, based on quoted market prices for the same or similar debt issues.

### Interest Rate Swaps

In order to minimize financing costs and to manage interest rate exposure, the Company, from time to time, enters into interest rate swap agreements. No interest rate swap agreements were outstanding as of April 1, 2012 and December 31, 2011.

### Foreign Exchange Forward Contracts

The following table summarizes our foreign exchange activity:

	April 1, 2012 Contract Amount	Primary Currencies
In millions of dollars		
Foreign exchange forward contracts to purchase foreign currencies	\$34.8	Euros British pound sterling
Foreign exchange forward contracts to sell foreign currencies	\$57.5	Canadian dollars

Our foreign exchange forward contracts mature in 2012 and 2013. For more information, see Note 8. Derivative Instruments and Hedging Activities.

#### 14. FAIR VALUE ACCOUNTING

We use certain derivative instruments, from time to time, to manage interest rate, foreign currency exchange rate and commodity market price risk exposures, all of which are recorded at fair value based on quoted market prices or rates. A summary of our cash flow hedging derivative assets and liabilities measured at fair value on a recurring basis as of April 1, 2012, is as follows:

Description	Fair Value as of April 1, 2012	Quoted Prices in Active Markets of Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
In thousands of dollars				
Assets				
Cash flow hedging derivatives	\$2,758	\$330	\$2,428	\$—
Liabilities				
Cash flow hedging derivatives	\$6,919	\$3,755	\$3,164	\$—

As of April 1, 2012, cash flow hedging derivative Level 1 assets were related to cash transfers receivable on commodities futures contracts reflecting the change in quoted market prices on the last trading day for the period. We make or receive cash transfers to or from commodity futures brokers on a daily basis reflecting changes in the value of futures contracts on the IntercontinentalExchange or various other exchanges. These changes in value represent unrealized gains and losses. Cash flow hedging derivative Level 1 liabilities were related to the fair value of commodity derivative instruments.

As of April 1, 2012, cash flow hedging derivative Level 2 assets were related to the fair value of foreign exchange forward contracts with gains. Cash flow hedging Level 2 liabilities were related to the fair value of foreign exchange forward contracts with losses. We define the fair value of foreign exchange forward contracts as the amount of the difference between the contracted and current market foreign currency exchange rates at the end of the period. We estimate the fair value of foreign exchange forward contracts on a quarterly basis by obtaining market quotes of spot and forward rates for contracts with similar terms, adjusted where necessary for maturity differences. For more information, see Note 8. Derivative Instruments and Hedging Activities and refer to the consolidated financial statements and notes included in our 2011 Annual Report on Form 10-K.

A summary of our cash flow hedging derivative assets and liabilities measured at fair value on a recurring basis as of December 31, 2011, is as follows:

Description	Fair Value as of December 31, 2011	Quoted Prices in Active Markets of Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
In thousands of dollars				
Assets				
Cash flow hedging derivatives	\$7,883	\$3,929	\$3,954	\$—
Liabilities				
Cash flow hedging derivatives	\$7,412	\$2,103	\$5,309	\$—

As of December 31, 2011, cash flow hedging derivative Level 1 assets were primarily related to cash transfers receivable on commodities futures contracts reflecting the change in quoted market prices on the last trading day for the period. We make or receive cash transfers to or from commodity futures brokers on a daily basis reflecting changes in the value of futures contracts on the IntercontinentalExchange or various other exchanges. These changes in value represent unrealized gains and losses. As of December 31, 2011, cash flow hedging derivative Level 1 liabilities were related to the fair value of commodity derivative instruments.

As of December 31, 2011, cash flow hedging derivative Level 2 assets were related to the fair value of foreign exchange forward contracts and options with gains. Cash flow hedging Level 2 liabilities were related to foreign exchange forward contracts and options with losses. The fair value of foreign exchange forward contracts and options is the amount of the difference between the contracted and current market foreign currency exchange rates at the end of the period. We estimate the fair value of foreign exchange forward contracts and options on a quarterly basis by obtaining market quotes of spot and forward rates for contracts with similar terms, adjusted where necessary for maturity differences.

#### 15. INCOME TAXES

The number of years with open tax audits varies depending on the tax jurisdiction. Our major taxing jurisdictions include the United States (federal and state), Canada and Mexico. During the fourth quarter 2009, the U.S. Internal Revenue Service (“IRS”) commenced its audit of our U.S. income tax returns for 2007 and 2008 and we expect the audit to conclude during 2013. Tax examinations by various state taxing authorities could generally be conducted for years beginning in 2007. We are no longer subject to Canadian federal income tax examinations by the Canada Revenue Agency (“CRA”) and Mexican federal income tax examinations by Servicio de Administracion Tributaria (“SAT”) for years before 2004. During the third quarter of 2010, the CRA commenced its audit of our Canadian income tax returns for 2006 through 2009. U.S., Canadian and Mexican federal audit issues typically involve the timing of deductions and transfer pricing adjustments. We work with the IRS, the CRA and the SAT to resolve proposed audit adjustments and to minimize the amount of adjustments. We do not anticipate that any potential tax adjustments will have a significant impact on our financial position or results of operations.

We reasonably expect reductions in the liability for unrecognized tax benefits of approximately \$16.0 million within the next 12 months because of the expiration of statutes of limitations and settlements of tax audits.

#### 16. PENSION AND OTHER POST-RETIREMENT BENEFIT PLANS

Components of net periodic benefit cost consisted of the following:

	Pension Benefits		Other Benefits	
	For the Three Months Ended			
	April 1, 2012	April 3, 2011	April 1, 2012	April 3, 2011
In thousands of dollars				
Service cost	\$7,768	\$7,537	\$281	\$319
Interest cost	12,604	12,955	3,424	3,765
Expected return on plan assets	(18,230 )	(18,925 )	—	—
Amortization of prior service cost (credit)	183	254	155	(68 )
Recognized net actuarial loss (gain)	9,777	7,269	(17 )	(6 )
Administrative expenses	138	140	31	59
Net periodic benefit cost	\$12,240	\$9,230	\$3,874	\$4,069

We made contributions of \$1.1 million and \$5.2 million to the pension plans and other benefits plans, respectively, during the first quarter of 2012. In the first quarter of 2011, we made contributions of \$1.3 million and \$3.1 million to our pension and other benefits plans, respectively. The \$3.1 million of contributions to the other benefits plans during the first quarter of 2011 reflected a \$2.2 million reimbursement received relating to the Early Retiree Reinsurance Program, a one-time government program providing reimbursement for a portion of pre-65 health care benefit costs. The contributions in 2012 and 2011 also included benefit payments from our non-qualified pension plans and post-retirement benefit plans.

For 2012, there are no significant minimum funding requirements for our pension plans and planned voluntary funding of our pension plans in 2012 is not material.

For more information, refer to the consolidated financial statements and notes included in our 2011 Annual Report on Form 10-K.

## 17. SHARE REPURCHASES

## Repurchases and Issuances of Common Stock

A summary of cumulative share repurchases and issuances is as follows:

	For the Three Months Ended April 1, 2012	
	Shares	Dollars
In thousands		
Shares repurchased in the open market under pre-approved share repurchase programs	2,054	\$124,931
Shares repurchased to replace Treasury Stock issued for stock options and incentive compensation	1,544	93,414
Total share repurchases	3,598	218,345
Shares issued for stock options and incentive compensation	(1,636)	(55,375 )
Net change	1,962	\$162,970

In April 2011, our Board of Directors approved a \$250 million share repurchase program. As of April 1, 2012, \$125.1 million remained available for repurchases of our Common Stock.

## Item 2. Management's Discussion and Analysis of Results of Operations and Financial Condition

## SUMMARY OF OPERATING RESULTS

## Analysis of Selected Items from Our Income Statement

	For the Three Months Ended		Percent Change Increase (Decrease)
	April 1, 2012	April 3, 2011	
In millions except per share amounts			
Net Sales	\$1,732.1	\$1,564.2	10.7%
Cost of Sales	988.7	908.0	8.9
Gross Profit	743.4	656.2	13.3
Gross Margin	42.9	% 41.9	%
SM&A Expense	405.6	377.8	7.3
SM&A Expense as a percent of sales	23.4	% 24.2	%
Business Realignment and Impairment Charges, net	3.3	1.8	79.8
EBIT	334.5	276.6	21.0
EBIT Margin	19.3	% 17.7	%
Interest Expense, net	24.0	24.5	(1.9)
Provision for Income Taxes	111.8	92.0	21.6
Effective Income Tax Rate	36.0	% 36.5	%
Net Income	\$198.7	\$160.1	24.1
Net Income Per Share-Diluted	\$0.87	\$0.70	24.3

## Results of Operations - First Quarter 2012 vs. First Quarter 2011

## U.S. Price Increases

In March 2011, we announced a weighted average increase in wholesale prices of approximately 9.7% across the majority of our U.S., Puerto Rico and export portfolio, effective immediately. The price increase applied to our instant consumable, multi-pack, packaged candy and grocery lines. Direct buying customers were able to purchase transitional amounts of product into May and seasonal net price realization was not expected until Easter 2012.

Usually there is a time lag between the effective date of list price increases and the impact of the price increases on net sales. The impact of price increases is often delayed because we honor previous commitments to planned consumer and customer promotions and merchandising events that occur subsequent to the effective date of the price increases. In addition, promotional allowances may be increased subsequent to the effective date, delaying or partially offsetting the impact of price increases on net sales.

## Net Sales

Net sales increased 10.7% for the first quarter of 2012 over the comparable period of 2011 due primarily to net price realization of 10.9%. The increase was partially offset by sales volume declines of 0.5% as well as the impact of unfavorable foreign currency exchange rates of 0.4%. Net sales for our businesses outside of the U.S. increased approximately 15.3% in 2012 compared with 2011, reflecting net price realization and sales volume increases, particularly for our focus markets in Mexico, Brazil and China. Net sales attributable to Brookside contributed 0.7% to the increase.

## Key Marketplace Metrics

Consumer takeaway increased 6.4% during the first quarter of 2012 compared with the same period of 2011.

Excluding the impact of Easter sales, consumer takeaway increased 3.3% during the period. Consumer takeaway is provided for channels of distribution accounting for approximately 80% of our U.S. confectionery retail business. These

channels of distribution include food, drug, mass merchandisers, including Wal-Mart Stores, Inc., and convenience stores.

Market share in measured channels remained flat in the first quarter of 2012 compared with the same period of 2011. The change in market share is provided for measured channels by syndicated data which include sales in the food, drug, convenience store and mass merchandiser classes of trade, excluding Wal-Mart Stores, Inc.

#### Cost of Sales and Gross Margin

Cost of sales increased by approximately 8.9% in the first quarter of 2012 primarily due to significantly higher input costs which increased cost of sales by about 3%. Higher supply chain costs were only partially offset by productivity improvements, resulting in a net increase to cost of sales of approximately 2%. Business realignment and impairment charges of \$19.5 million were included in cost of sales in the first quarter of 2012 which increased cost of sales by approximately 1% compared with the first quarter of 2011. Business realignment and impairment charges included in cost of sales of \$6.9 million were recorded during the comparable period of 2011.

Gross margin increased by 1.0 percentage point for the first quarter of 2012 primarily as a result of price realization and supply chain productivity improvements, which together improved gross margin by 5.4 percentage points. These improvements were partially offset by higher input and supply chain costs of approximately 2.2 percentage points. The impact of higher business realignment and impairment charges recorded in the first quarter of 2012 as compared with the same period of 2011 reduced gross margin by 0.8 percentage points.

#### Selling, Marketing and Administrative

Selling, marketing and administrative expenses increased by 7.3% in the first quarter of 2012 primarily due to increased advertising expense, higher employee-related expenses, and expenses associated with business acquisitions. These increases were partially offset by lower costs in 2012 associated with legal fees and contingencies compared with the first quarter of 2011. Advertising costs in the first quarter of 2012 increased by 13.7% from the same period in 2011.

Business realignment charges of \$0.8 million were included in selling, marketing and administrative expenses in the first quarter of 2012. Business realignment charges of \$1.0 million were included in selling, marketing and administrative expenses in the first quarter of 2011.

#### Business Realignment and Impairment Charges

Business realignment and impairment charges of \$3.3 million associated with the Project Next Century program were recorded in the first quarter of 2012. The 2012 charges were primarily associated with the relocation and start up of production lines. The 2011 business realignment and impairment charges of \$1.8 million associated with the Project Next Century program were primarily for employee separation costs and production line relocation costs.

#### Income Before Interest and Income Taxes and EBIT Margin

EBIT increased in the first quarter of 2012 compared with the first quarter of 2011 as a result of higher gross profit, partially offset by higher selling, marketing and administrative expenses. Net pre-tax business realignment and impairment charges of \$23.6 million were recorded in the first quarter of 2012. Net pre-tax business realignment and impairment charges of \$9.7 million were recorded in the first quarter of 2011.

EBIT margin increased from 17.7% for the first quarter of 2011 to 19.3% for the first quarter of 2012 due to higher gross margin and lower selling, marketing and administrative expenses as a percent of sales.

#### Interest Expense, Net

Net interest expense was slightly lower in the first quarter of 2012 than the comparable period of 2011 primarily reflecting an increase in capitalized interest.

#### Income Taxes and Effective Tax Rate

Our effective income tax rate was 36.0% for the first quarter of 2012 compared with 36.5% for the first quarter of 2011. The lower tax rate for the first quarter of 2012 was due to the mix of income among various tax jurisdictions. Excluding the impact of tax rates associated with business realignment and impairment charges, we expect our income tax rate for the full year 2012 to be about 35.0%.

#### Net Income and Net Income Per Share

Earnings per share-diluted in the first quarter of 2012 increased \$0.17 as compared with the first quarter of 2011. Net income was reduced by \$14.9 million, or \$0.07 per share-diluted, in the first quarter of 2012 as a result of business realignment and impairment charges. Net income was reduced by \$3.8 million, or \$0.01 per share-diluted, in the first quarter of 2012 as a result of closing and integration costs for the Brookside acquisition. Net income was reduced by \$2.6 million, or \$0.01 per share-diluted related to higher non-service related pension expenses in the first quarter of 2012 compared with 2011. Excluding the impact of business realignment and impairment charges, business acquisition costs and non-service related pension expenses, earnings per share-diluted increased \$0.23 per share, or 31.5%, in 2012 compared with 2011.

#### Liquidity and Capital Resources

Historically, our major source of financing has been cash generated from operations. Domestic seasonal working capital needs, which typically peak during the summer months, generally have been met by utilizing cash on hand and issuing commercial paper. Commercial paper also may be issued, from time to time, to finance ongoing business transactions such as the repayment of long-term debt, business acquisitions and for other general corporate purposes. During the first three months of 2012, cash and cash equivalents decreased by \$126.3 million to \$567.3 million. Cash provided from operations, cash on hand at the beginning of the period, short-term borrowings and other cash inflows during the first three months of 2012 were sufficient to fund the repurchase of Common Stock of \$218.3 million, business acquisitions of \$172.9 million, capital additions and capitalized software expenditures of \$91.7 million and dividend payments of \$83.5 million.

Net cash provided from operating activities was \$275.8 million in 2012 and \$159.4 million in 2011. The increase was primarily the result of the change in cash provided from (used by) other assets and liabilities and higher net income in 2012, partially offset by cash used by working capital. Cash provided from changes in other assets and liabilities was \$129.4 million for the first three months of 2012 compared with cash used of \$32.1 million for the same period of 2011. The increase in the amount of cash provided from other assets and liabilities from 2011 to 2012 primarily reflected the effect of hedging transactions of \$114.8 million, the effect of changes in income taxes of \$20.7 million and the timing of payments associated with selling and marketing programs, incentive compensation and interest of \$46.6 million, partially offset by the impact of business realignment and impairment charges of \$27.9 million. Cash used by working capital was \$129.7 million in 2012 compared with \$30.0 million in 2011. The change in cash used by working capital was principally related to changes in raw material and finished goods inventories in 2012 compared with 2011, along with an increase in accounts receivable resulting from higher sales in 2012 compared with 2011. During the first quarter 2012, the Company acquired Brookside for approximately \$172.9 million. Also during the first quarter 2012, the Company loaned \$9.0 million to an affiliate to finance the expansion of its manufacturing capacity.

Interest paid was \$31.4 million during the first three months of 2012 versus \$41.9 million for the comparable period of 2011. The decrease in interest paid in 2012 was due to the timing of interest payments on long-term debt. Income taxes paid were \$7.6 million during the first three months of 2012 versus \$15.7 million for the comparable period of 2011. The decrease in taxes paid in 2012 was primarily related to the timing of foreign income tax payments in 2012 compared with 2011.

The ratio of current assets to current liabilities was 1.5:1.0 as of April 1, 2012 and 1.7:1.0 as of December 31, 2011. The capitalization ratio (total short-term and long-term debt as a percent of stockholders' equity, short-term and long-term debt) increased to 69% as of April 1, 2012 from 68% as of December 31, 2011.

Generally, our short-term borrowings are in the form of commercial paper or bank loans with an original maturity of three months or less. However, during the first quarter of 2012 there were no commercial paper borrowings.

#### Outlook

The outlook section contains a number of forward-looking statements, all of which are based on current expectations. Actual results may differ materially. Refer to the Safe Harbor Statement below as well as Risk Factors and other information contained in our 2011 Annual Report on Form 10-K for information concerning the key risks to achieving future performance goals.

Our first quarter results were strong and we expect to continue our marketplace momentum. The economic

environment is expected to continue to be challenging during the remainder of 2012. We will continue to remain focused on building brands in both the U.S. and key international markets and will make the necessary investments to ensure that we are positioned to grow our brands and manage challenges. We have planned merchandising and programming events throughout the year and will work closely with retail customers and monitor our brand performance. We will continue with the distribution and rollout of Jolly Rancher Crunch 'N Chew candy, Rolo minis and Ice Breakers Duo mints, along with the planned introduction of Hershey's Simple Pleasures candy in June. Advertising expense increased 13.7% in the first quarter of 2012, compared with the first quarter of 2011. For the full year, we expect advertising to increase low double digits on a percentage basis versus the prior year, supporting core brands in both the U.S. and international markets, new product launches, and new advertising campaigns on the Jolly Rancher and Rolo brands.

Excluding the Brookside acquisition, we expect sales volume to be slightly up for the full-year 2012. Including net sales for Brookside of about \$90 million at current exchange rates, we now expect full-year net sales growth of about 7% to 9%, including the impact of foreign currency exchange rates. This is greater than our previous estimates.

In 2012, the Company expects reported earnings per share-diluted of \$2.82 to \$2.92. Reported earnings per share-diluted includes anticipated business realignment and impairment charges of \$0.16 to \$0.19 per share-diluted related to the Next Century program and non-service related pension expenses of \$0.05 per share-diluted. Reported gross margin, reported EBIT margin and reported earnings per share-diluted will be impacted by these charges and expenses in addition to closing and integration costs related to the Brookside acquisition estimated at \$0.04 to \$0.05 per share-diluted. We now expect reported gross margin to increase from 90 to 100 basis points in 2012.

We do not expect a material change to our full-year inflation outlook. We continue to expect that input costs in 2012 will be higher than last year. As a result of our strong results for the first quarter, we have further visibility into our full-year cost structure and now expect adjusted gross margin expansion of 90 to 100 basis points compared with last year, driven by productivity and cost savings, as well as net price realization. Therefore, considering our results for the first quarter and planned investments in market research, category management and selling capabilities during the remainder of the year, particularly in our international markets, we now expect adjusted earnings per share-diluted for 2012 to increase 10% to 12%.

NOTE: In the Outlook above, the Company has provided income measures excluding certain items, in addition to net income determined in accordance with GAAP. These non-GAAP financial measures are used in evaluating results of operations for internal purposes. These non-GAAP measures are not intended to replace the presentation of financial results in accordance with GAAP. Rather, the Company believes exclusion of such items provides additional information to investors to facilitate the comparison of past and present operations.

In 2011, the Company recorded GAAP charges of \$49.2 million, or \$0.13 per share-diluted, attributable to the Project Next Century program and the global supply chain transformation program. Additionally, in the third quarter of 2011, the Company recorded a pre-tax gain of \$17.0 million, or \$0.05 per share-diluted, from the sale of trademark licensing rights. Non-service related pension expenses of \$2.8 million, or \$0.01 per share-diluted, were recorded in 2011.

In 2012, the Company expects acquisition and integration costs related to the Brookside acquisition to be \$0.04 to \$0.05 per share-diluted. The Company also expects to record total GAAP charges of about \$55 million to \$65 million, or \$0.16 to \$0.19 per share-diluted, attributable to Project Next Century. Non-service related pension expenses are expected to be \$19.0 million, or \$0.05 per share-diluted in 2012.

Below is a reconciliation of GAAP and non-GAAP items to the Company's 2011 and 2012 adjusted earnings per share-diluted and projected adjusted earnings per share-diluted for 2012:

	2011	2012 (Projected)
Reported EPS-Diluted	\$2.74	\$2.82 - \$2.92
Acquisition closing and integration charges	—	0.04 - 0.05
Gain on sale of trademark licensing rights	(0.05	) —
Total Business Realignment and Impairment Charges	0.13	0.16 - 0.19
Non-service related pension expenses	0.01	0.05
Adjusted EPS-Diluted	\$2.83	\$3.11 - \$3.17

#### Outlook for Project Next Century

In June 2010, we announced Project Next Century as part of our ongoing efforts to create an advantaged supply chain and competitive cost structure. We continue to expect total pre-tax charges and non-recurring project implementation costs for the Project Next Century program of \$150 million to \$160 million. During 2012, we expect to record \$55 million to \$65 million in program charges. During 2012, we expect capital expenditures for Project Next Century to be approximately \$65 million to \$70 million. Depreciation and amortization for 2012 is estimated to be \$195 million to \$205 million, excluding accelerated depreciation of \$20 million to \$25 million related to Project Next Century. When fully implemented, the Next Century program is expected to provide annual cost savings from efficiency improvements of \$65 million to \$80 million.

#### Safe Harbor Statement

We are subject to changing economic, competitive, regulatory and technological risks and uncertainties because of the nature of our operations. In connection with the "safe harbor" provisions of the Private Securities Litigation Reform Act of 1995, we note the following factors that, among others, could cause future results to differ materially from the forward-looking statements, expectations and assumptions that we have discussed directly or implied in this report. Many of the forward-looking statements contained in this report may be identified by the use of words such as "intend," "believe," "expect," "anticipate," "should," "planned," "projected," "estimated," and "potential," among others. The factors that could cause our actual results to differ materially from the results projected in our forward-looking statements include, but are not limited to the following:

- Issues or concerns related to the quality and safety of our products, ingredients or packaging could cause a product recall and/or result in harm to the Company's reputation, negatively impacting our operating results;

- Increases in raw material and energy costs, along with the availability of adequate supplies of raw materials could affect future financial results;

- Price increases may not be sufficient to offset cost increases and maintain profitability, or may result in sales volume declines associated with pricing elasticity;

- Market demand for new and existing products could decline;

- Increased marketplace competition could hurt our business;

- Disruption to our supply chain could impair our ability to produce or deliver our finished products, resulting in a negative impact on our operating results;

- Our financial results may be adversely impacted by the failure to successfully execute or integrate acquisitions, divestitures and joint ventures;

- Changes in governmental laws and regulations could increase our costs and liabilities or impact demand for our products;

Political, economic, and/or financial market conditions could negatively impact our financial results;

International operations could fluctuate unexpectedly and adversely impact our business;

Disruptions, failures or security breaches of our information technology infrastructure could have a negative impact on our operations;

Future developments related to the investigation by government regulators of alleged pricing practices by members of the confectionery industry could impact our reputation, the regulatory environment under which we operate, and our operating results;

Pension costs or funding requirements could increase at a higher than anticipated rate;

Implementation of our Project Next Century program may not occur within the anticipated timeframe and/or may exceed our cost estimates;

Annual savings from initiatives to transform our supply chain and advance our value-enhancing strategy may be less than we expect; and

Such other matters as discussed in our Annual Report on Form 10-K for 2011.

**Item 3. Quantitative and Qualitative Disclosures About Market Risk**

The potential net loss in fair value of foreign exchange forward contracts and options resulting from a hypothetical near-term adverse change in market rates of ten percent was \$9.6 million as of April 1, 2012 and was \$19.4 million as of December 31, 2011. The market risk resulting from a hypothetical adverse market price movement of ten percent associated with the estimated average fair value of net commodity positions decreased from \$41.3 million as of December 31, 2011, to \$28.9 million as of April 1, 2012. Market risk represents ten percent of the estimated average fair value of net commodity positions at four dates prior to the end of each period.

**Item 4. Controls and Procedures**

Disclosure controls and procedures are controls and other procedures that are designed to ensure that information required to be disclosed in our reports filed or submitted under the Securities Exchange Act of 1934 (the "Exchange Act") is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed in our reports filed under the Exchange Act is accumulated and communicated to management, including the Company's Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

As of the end of the period covered by this quarterly report, we conducted an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures, as required by Rule 13a-15 under the Exchange Act. This evaluation was carried out under the supervision and with the participation of the Company's management, including our Chief Executive Officer and Chief Financial Officer. Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures are effective. There has been no change during the most recent fiscal quarter in our internal control over financial reporting identified in connection with the evaluation that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

## PART II - OTHER INFORMATION

Items 1, 1A, 3 and 5 have been omitted as not applicable.

Item 2 - Unregistered Sales of Equity Securities and Use of Proceeds  
Issuer Purchases of Equity Securities

Period	(a) Total Number of Shares Purchased	(b) Average Price Paid per Share	(c) Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	(d) Approximate Dollar Value of Shares that May Yet Be Purchased Under the Plans or Programs In thousands of dollars
January 1 through January 29, 2012	—	\$—	—	\$250,000
January 30 through February 26, 2012	846,461	\$60.70	81,085	\$245,087
February 27 through April 1, 2012	2,751,770	\$60.67	1,973,269	\$125,069
Total	3,598,231	\$60.68	2,054,354	

In April 2011, our Board of Directors approved a new \$250 million share repurchase program.

Item 4 - Reserved

Item 6 - Exhibits

The following items are attached or incorporated herein by reference:

Exhibit Number	Description
3.1	The Company's By-laws, as amended and restated as of February 21, 2012, are incorporated by reference from Exhibit 3.1 to the Company's Current Report on Form 8-K filed February 24, 2012.
10.1	Form of Notice of Award of Performance Stock Units is incorporated by reference from Exhibit 10.1 to the Company's Current Report on Form 8-K filed February 24, 2012.
10.2	Form of Terms and Conditions of Nonqualified Stock Option Awards under the Equity and Incentive Compensation Plan is incorporated by reference from Exhibit 10.2 to the Company's Current Report on Form 8-K filed February 24, 2012.
12.1	Statement showing computation of ratio of earnings to fixed charges for the three months ended April 1, 2012 and April 3, 2011.
31.1	Certification of John P. Bilbrey, Chief Executive Officer, pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.
31.2	Certification of Humberto P. Alfonso, Chief Financial Officer, pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.
32.1	Certification of John P. Bilbrey, Chief Executive Officer, and Humberto P. Alfonso, Chief Financial Officer, pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.
