Item 1 - Business

General Information

Lowe's Companies, Inc. and subsidiaries (the Company or Lowe's) is a Fortune® 50 company and the world's second largest home improvement retailer. As of January 29, 2016, Lowe's operated 1,857 home improvement and hardware stores, representing approximately 202 million square feet of retail selling space. Lowe's is comprised of 1,805 stores located across 50 U.S. states, including 80 Orchard Supply Hardware (Orchard) stores in California and Oregon, as well as 42 stores in Canada, and 10 stores in Mexico.

Lowe's was incorporated in North Carolina in 1952 and has been publicly held since 1961. The Company's common stock is listed on the New York Stock Exchange - ticker symbol "LOW".

See Item 6, "Selected Financial Data", of this Annual Report on Form 10-K, for historical revenues, profits and identifiable assets. For additional information about the Company's performance and financial condition, see also Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations", of this Annual Report on Form 10-K.

Customers, Market and Competition

Our Customers

We serve homeowners, renters, and professional customers (Pro customers). Retail customers, comprised of individual homeowners and renters, complete a wide array of projects and vary along the spectrum of do-it-yourself (DIY) and do-it-for-me (DIFM). The Pro customer consists of two broad categories: construction trades; and maintenance, repair & operations.

Our Market

We are among the many businesses, including home centers, paint stores, hardware stores, lumber yards and garden centers, whose revenues are included in the Building Material and Garden Equipment and Supplies Dealers Subsector (444) of the Retail Trade Sector of the North American Industry Classification System (NAICS), the standard used by Federal statistical agencies in classifying business establishments for the purpose of collecting, analyzing, and publishing statistical data related to the U.S. business economy. The total annual revenue reported for businesses included in NAICS 444 in 2015 was \$332.1 billion, which represented an increase of 4.2% over the amount reported for the same category in 2014. The total annual revenue reported for businesses included in NAICS 444 in 2014 was \$318.7 billion, which represented an increase of 5.5% over the amount reported for the same category in 2013. These figures are subject to periodic revision by the U.S. Department of Commerce.

NAICS 444 represents less than half of what we consider the total market for our products and services. The broader market in which Lowe's operates includes home-related sales through a variety of companies beyond those in NAICS 444. These consist of other companies in the retail sector, including mass retailers, home furnishings stores, and online retailers, as well as wholesalers that provide home-related products and services to homeowners, businesses, and the government. Based on our analysis of the most recent comprehensive data available, we estimate the size of the U.S. home improvement market at \$735 billion in 2015, comprised of \$548 billion of product sales and \$187 billion of installed labor sales. That compares with \$688 billion total market sales in 2014, comprised of \$511 billion of product sales and \$177 billion of installed labor sales. These figures are subject to periodic revision by the U.S.

Department of Commerce and other third-party sources.

There are many variables that affect consumer demand for the home improvement products and services Lowe's offers. Key indicators we monitor include real disposable personal income, employment, home prices, and housing turnover. We also monitor demographic and societal trends that shape home improvement industry growth.

Growth in real disposable personal income is projected to moderate to 2.9% in 2016 as compared with 3.4% growth in 2015, based on the March 2016 Blue Chip Economic Indicators®. *

*Blue Chip Economic Indicators® (ISSN: 0193-4600) is published monthly by Aspen Publishers, 76 Ninth Avenue, New York, NY 10011, a division of Wolters Kluwer Law and Business. Printed in the U.S.A.

Table of Contents

The average unemployment rate for 2016 is forecasted to decline to 4.7%, according to the March 2016 Blue Chip Economic Indicators, which would be an improvement from the 5.3% average in 2015. The unemployment rate should continue to trend lower as the job market continues to expand at a moderate pace.

Recent evidence suggests that home prices will continue to increase. In 2015, home price appreciation increased 5.5% which was consistent with the 2014 increase, according to the Federal Housing Finance Agency index. Economists generally expect the rate of home price growth to moderate to 3.2% in 2016.

Housing turnover increased an estimated 7.4% in 2015 after a 2.6% decrease in 2014, according to The National Association of Realtors and U.S. Census Bureau. Turnover is generally expected to continue to increase in 2016, supported by a strengthening jobs market, rising incomes, and historically low mortgage rates.

These indicators are important to our business because they signal a customer's willingness to engage in home maintenance, repair, and upgrade projects and favorably impact income available to purchase our products and services. Overall, the outlook for the home improvement industry remains positive for 2016. The lagged benefit of stronger home buying and continued home price appreciation should drive home improvement spending in 2016, offsetting moderation in job growth and the ongoing potential pressure on mortgage rates.

Our Competition

The home improvement industry includes a broad competitive landscape. We compete with other home improvement warehouse chains and lumberyards in most of our trade areas. We also compete with traditional hardware, plumbing, electrical and home supply retailers. In addition, we compete with general merchandise retailers, warehouse clubs, and online and other specialty retailers as well as service providers that install home improvement products. Location of stores continues to be a key competitive factor in our industry; however, the increasing use of technology and the simplicity of online shopping also underscore the importance of omni-channel capabilities as a competitive factor. We differentiate ourselves from our competitors by providing better customer experiences while delivering superior value in products and service. See further discussion of competition in Item 1A, "Risk Factors", of this Annual Report on Form 10-K.

Products and Services

Our Products

Product Selection

To meet customers' varying home improvement needs, we offer a complete line of products for maintenance, repair, remodeling, and decorating. We offer home improvement products in the following categories: Lumber & Building Materials; Tools & Hardware; Appliances; Fashion Fixtures; Rough Plumbing & Electrical; Lawn & Garden; Seasonal Living; Paint; Flooring; Millwork; Kitchens; Outdoor Power Equipment, and Home Fashions. A typical Lowe's home improvement store stocks approximately 36,000 items, with hundreds of thousands of additional items available through our Special Order Sales system, Lowes.com, Lowes.ca, and ATGstores.com. See Note 15 of the Notes to Consolidated Financial Statements included in Item 8, "Financial Statements and Supplementary Data", of this Annual Report on Form 10-K for historical revenues by product category for each of the last three fiscal years.

We are committed to offering a wide selection of national brand-name merchandise complemented by our selection of private brands. In addition, we are dedicated to ensuring the products we sell are sourced in a socially responsible, efficient, and cost effective manner.

National Brand-Name Merchandise

In many product categories, customers look for a familiar and trusted national brand to instill confidence in their purchase. Lowe's home improvement stores carry a wide selection of national brand-name merchandise such as Whirlpool® appliances and water heaters, GE®, LG®, and Samsung® appliances, Stainmaster® carpets, Valspar® paints and stains, Pella® windows and doors, Sylvania® light bulbs, Dewalt® power tools, Owens Corning® roofing, Johns Manville® insulation, James Hardie® fiber cement siding, Husqvarna® outdoor power equipment, Werner® ladders, and many more. In 2015, we added brand name merchandise such as HGTV HOME® by Sherwin-Williams® paints, Kichler® lighting, Owens Corning® insulation, GAF® roofing, and Diamond® vanities to our portfolio. Our merchandise selection provides the retail and Pro customer a one-stop shop for a wide variety of national brand-name merchandise needed to complete home improvement, repair, maintenance, or construction projects.

Table of Contents

Private Brands

Private brands are an important element of our overall portfolio, helping to provide significant value and coordinated style across core categories. We sell private brands in several of our product categories. Some of Lowe's most important private brands include Kobalt® tools, allen+roth® home décor products, Blue Hawk® home improvement products, Project Source® basic value products, Portfolio® lighting products, Garden Treasures® lawn and patio products, Utilitech® electrical and utility products, Reliabl® doors and windows, Aquasource® faucets, sinks and toilets, Harbor Breeze® ceiling fans, Top Choice® lumber products and Iris® home automation and management products.

Supply Chain

We source our products from over 7,500 vendors worldwide with no single vendor accounting for more than 6% of total purchases. We believe that alternative and competitive suppliers are available for virtually all of our products. Whenever possible, we purchase directly from manufacturers to provide savings for customers and improve our gross margin.

To efficiently move product from our vendors to our stores and maintain in-stock levels, we own and operate distribution facilities that enable products to be received from vendors, stored and picked, or cross-docked, and then shipped to our retail locations or directly to customers. These facilities include 15 highly-automated Regional Distribution Centers (RDC) in the United States. On average, each domestic RDC serves approximately 115 stores. We also own and operate a distribution facility to serve our Canadian stores and lease and operate a distribution facility to serve our Orchard stores. Additionally, we have a service agreement with a third party logistics provider to manage a distribution facility to serve our stores in Mexico.

In addition to the RDCs, we also operate coastal holding facilities, transload facilities, appliance distribution centers, and flatbed distribution centers. The flatbed distribution centers distribute merchandise that requires special handling due to size or type of packaging such as lumber, boards, panel products, pipe, siding, ladders, and building materials. Collectively, our facilities enable our import and e-commerce, as well as parcel post eligible products, to get to their destination as efficiently as possible. Most parcel post items can be ordered by a customer and delivered within two business days at standard shipping rates.

In fiscal 2015, on average, approximately 80% of the total dollar amount of stock merchandise we purchased was shipped through our distribution network, while the remaining portion was shipped directly to our stores from vendors.

Our Services

Installed Sales

We offer installation services through independent contractors in many of our product categories, with Appliances, Flooring, Kitchens, Lumber & Building Materials, and Millwork accounting for the majority of installed sales. Our Installed Sales model, which separates selling and project administration tasks, allows our sales associates to focus on project selling, while project managers ensure that the details related to installing the products are efficiently executed. Installed Sales, which includes both product and labor, accounted for approximately 8% of total sales in fiscal 2015.

Extended Protection Plans and Repair Services

We offer extended protection plans in Kitchens, Appliances, Tools & Hardware, Outdoor Power Equipment, Seasonal Living, and Rough Plumbing. Lowe's protection plans provide customers with product protection that enhances or extends coverage previously offered by the manufacturer's warranty. Our extended protection plans provide in-warranty and out-of-warranty repair services for major appliances, outdoor power equipment, tools, grills,

fireplaces, water heaters, and other eligible products through our stores or in the home through our Lowe's Authorized Service Repair Network. We offer replacement plans for products in most of these categories when priced below \$200, or otherwise specified category specific price points. Our contact center takes customers' calls, assesses the problems, and facilitates resolutions, making after-sales service easier for our customers because we manage the entire process.

Selling Channels

We are continuing our progress towards becoming an omni-channel retail company, which allows our customers to move from channel to channel with simple and seamless transitions even within the same transaction. For example, for many projects, more than half of our customers conduct research online before making an in-store purchase. For purchases made on Lowes.com, approximately 60% are picked up in-store, 10% are delivered from a store, and 30% are parcel shipped. Regardless of the channels through which customers choose to engage with us, we strive to provide them with a seamless experience across channels and an endless aisle of products, enabled by our flexible fulfillment capabilities. Our ability to sell products in-store, online, on-site, or through our contact centers speaks to our ability to leverage our existing infrastructure with the omni-channel capabilities we continue to introduce.

Table of Contents

In-Store

Our 1,777 home improvement stores are generally open seven days per week and average approximately 112,000 square feet of retail selling space, plus approximately 32,000 square feet of outdoor garden center selling space. In addition, we operate 80 Orchard hardware stores located throughout California and Oregon that also serve home improvement customers and average approximately 37,000 square feet of retail selling space. Our home improvement stores offer similar products and services, with certain variations based on local market factors; however, Orchard stores are primarily focused on paint, repair, and backyard products. We continue to develop and implement tools to make our sales associates more efficient and to integrate our order management and fulfillment processes. Our home improvement stores have Wi-Fi capabilities that provide customers with internet access, making information available quickly to further simplify the shopping experience.

Online

Through Lowes.com, Lowes.ca, ATGstores.com and mobile applications, we seek to empower consumers by providing a 24/7 shopping experience, online product information, customer ratings and reviews, online buying guides and how-to videos and other information. These tools help consumers make more informed purchasing decisions and give them increased confidence to undertake home improvement projects. In 2015, sales through our online selling channels accounted for approximately 3% of our total sales. We enable customers to choose from a variety of fulfillment options, including buying online and picking up in-store as well as delivery or parcel shipment to their homes.

In addition, during 2015 we re-launched the LowesForPros.com online tool. This full omni-channel experience allows for easy online ordering for our Pro customers, and their choice of in-store pick-up or delivery, saving them time and money.

On-Site

We have on-site specialists available for retail and Pro customers to assist them in selecting products and services for their projects. Our Account Executives ProServices meet with Pro customers at their place of business or on a job site and leverage stores within the area to ensure we meet customer needs for products and resources. Our Project Specialist Exteriors (PSE) program is available in all Lowe's stores to discuss exterior projects such as roofing, siding, fencing, and windows, whose characteristics lend themselves to an in-home consultative sales approach. In addition, our Project Specialist Interiors (PSI) program is available in 11 of our 14 regions to provide similar consultative services on interior projects such as kitchens and bathrooms.

Contact Centers

Lowe's operates three contact centers which are located in Wilkesboro, NC, Albuquerque, NM, and Indianapolis, IN. These contact centers help Lowe's enable an omni-channel customer experience by providing the ability to tender sales, coordinate deliveries, manage after-sale installations, facilitate repair services for Appliances and Outdoor Power Equipment, and answer general customer questions via phone, e-mail, letters, and social media.

Employees

As of January 29, 2016, we employed approximately 180,000 full-time and 90,000 part-time employees. Our employees in Mexico are subject to collective bargaining agreements. No other employees are subject to collective bargaining agreements. Management considers its relations with employees to be good.

Seasonality and Working Capital

The retail business in general is subject to seasonal influences, and our business is, to some extent, seasonal. Historically, we have realized the highest volume of sales during our second fiscal quarter (May, June and July) and the lowest volume of sales during our fourth fiscal quarter (November, December and January). Accordingly, our working capital requirements have historically been greater during our fourth fiscal quarter as we build inventory in anticipation of the spring selling season and as we experience lower fourth fiscal quarter sales volumes. We fund our working capital requirements primarily through cash flows generated from operations, but also with short-term borrowings, as needed. For more detailed information, see the Financial Condition, Liquidity and Capital Resources section in Item 7, “Management’s Discussion and Analysis of Financial Condition and Results of Operations”, of this Annual Report on Form 10-K.

Intellectual Property

The name “Lowe’s” is a registered service mark of one of our wholly-owned subsidiaries. We consider this mark and the accompanying name recognition to be valuable to our business. This subsidiary has various additional trademarks, trade names and service marks, many of which are used in our private brand program. The subsidiary also maintains various Internet

Table of Contents

domain names that are important to our business, and we also own registered and unregistered copyrights. In addition, we maintain patent portfolios related to some of our products and services and seek to patent or otherwise protect certain innovations that we incorporate into our products, services, or business operations.

Environmental Stewardship

Lowe's recognizes how efficient operations can help protect the environment and our bottom line. We examine our operations regularly to deliver energy efficiency, reduce fuel consumption, and minimize waste generation through increased recycling. We also invest in technology that will help us operate our facilities more efficiently and environmentally responsibly.

We annually track our carbon footprint and participate in the Carbon Disclosure Project, an independent nonprofit organization hosting the largest database of primary corporate climate change information in the world. To further reduce our carbon footprint, we incorporate energy-efficient technologies and architectural systems into new stores and retrofits of existing stores, such as energy-efficient lighting, white membrane cool roofs, and HVAC units that meet or exceed ENERGY STAR qualifications. We also participate in demand response programs by voluntarily reducing our lighting and HVAC loads during peak demand periods to support electric grid reliability.

During 2015, we began testing a state-of-the-art building management system in stores to control lighting, air conditioning and other building systems. We also implemented a light-emitting diode (LED) lighting initiative in select markets and new stores. All light sources for new stores constructed in the future will be LED.

We strive to deliver products to our stores in a fuel-efficient and an environmentally responsible manner through participation in the SmartWay® Transport Partnership, an innovative program launched by the U.S. Environmental Protection Agency (EPA) in 2004 that promotes cleaner, more fuel-efficient transportation options. Lowe's received a 2015 SmartWay Excellence Award from the EPA, our seventh consecutive SmartWay honor, for our commitment to environmental excellence in freight management operations and reduction of carbon dioxide emissions and other harmful pollutants. We have also increased shipping of products by rail and increased the efficiency of truckload shipments to and from our RDCs.

We continue to take steps to improve our recycling programs and reduce the amount of waste we generate. Through these efforts, we are able to reduce our disposal costs and minimize the impact on the environment of the operation of our stores and other facilities. We also offer convenient recycling for our customers at many of our stores for items such as rechargeable batteries, plastic bags and compact fluorescent light bulbs.

Additionally, we continue to focus on helping consumers reduce their energy and water use and their environmental footprint while saving money when they purchase our products and services. We offer a wide selection of environmentally responsible and energy-efficient products for the home, including ENERGY STAR® appliances, WaterSense® labeled toilets, paint with no volatile organic compounds (VOC), and indoor and outdoor LED lighting. Through our in-home sales specialists, we offer customers installation of insulation and energy efficient windows.

For more information on Lowe's environmental efforts, please visit Lowe.com/SocialResponsibility.

Compliance with Environmental Matters

Our operations are subject to numerous federal, state and local laws and regulations that have been enacted or adopted regulating the discharge of materials into the environment, or otherwise relating to the protection of the environment. These laws and regulations may increase our costs of doing business in a variety of ways, including indirectly through increased energy costs, as utilities, refineries, and other major emitters of greenhouse gases are subjected to additional

regulation or legislation that seeks to better control greenhouse gas emissions. We do not anticipate any material capital expenditures during fiscal 2016 for environmental control facilities or other costs of compliance with such laws or regulations.

Investing in Our Communities

Lowe's has a long and proud history of supporting local communities through public education and community improvement projects, beginning with the creation of the Lowe's Charitable and Educational Foundation in 1957. In 2015, Lowe's and the Lowe's Charitable and Educational Foundation donated more than \$33 million to schools and community organizations in the United States, Canada, and Mexico.

Our commitment to improving educational opportunities is best exemplified by our signature education grant program, Lowe's Toolbox for Education[®], and 2015 marked the program's 10-year anniversary. Since its inception, Lowe's Toolbox for

Table of Contents

Education has provided approximately \$48 million in grants, funding improvements at nearly 11,000 schools and benefiting more than six million children along the way.

Each year, we work with national nonprofit partners to strengthen and stabilize neighborhoods in the communities we serve. In 2015, Lowe's contributed \$7 million and teamed with Habitat for Humanity and Rebuilding Together to provide housing solutions in partnership with families across the country. We also continued to build on our longstanding partnerships with the Boys & Girls Clubs of America, SkillsUSA, The Nature Conservancy, and Keep America Beautiful to improve communities and build tomorrow's leaders.

Lowe's is also committed to helping residents of the communities we serve by being there when we're needed most - when a natural disaster threatens and in the recovery that follows. In 2015, Lowe's donated nearly \$1.5 million and mobilized hundreds of Lowe's Heroes employee volunteers to help families recover from disasters across the United States.

Altogether, Lowe's completed 3,795 community improvement projects in 2015. And for the first time, every single Lowe's store in the United States participated in a Lowe's Heroes volunteer project.

For more information on Lowe's partnerships and latest community improvement projects, visit Lowes.com/SocialResponsibility and LoweInTheCommunity.tumblr.com.

Available Information

Our Annual Report on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K and amendments to those reports filed or furnished pursuant to Section 13(a) or 15(d) of the Securities Exchange Act of 1934, as amended, are made available free of charge through our internet website at www.Lowes.com/investor, as soon as reasonably practicable after such documents are electronically filed with, or furnished to, the Securities and Exchange Commission (SEC). The public may also read and copy any materials the Company files with the SEC at the SEC's Public Reference Room at 100 F Street, NE, Washington, DC 20549. Information on the operation of the Public Reference Room may be obtained by calling the SEC at 1-800-SEC-0330. The SEC maintains an Internet site, www.sec.gov, that contains reports, proxy and information statements, and other information regarding issuers that file electronically with the SEC.

Item 1A - Risk Factors

We have developed a risk management process using periodic surveys, external research, planning processes, risk mapping, analytics and other tools to identify and evaluate the operational, financial, environmental, reputational, strategic and other risks that could adversely affect our business. For more information about our risk management framework, which is administered by our Chief Risk Officer and includes developing risk mitigation controls and procedures for the material risks we identify, see the description included in the proxy statement for our annual meeting of shareholders (as defined in Item 10 of Part III of this Annual Report on Form 10-K) under "Board's Role in the Risk Management Process".

We describe below certain risks that could adversely affect our results of operations, financial condition, business reputation or business prospects. These risk factors may change from time to time and may be amended, supplemented or superseded by updates to the risk factors contained in our future periodic reports on Form 10-K, Form 10-Q and reports on other forms we file with the Securities and Exchange Commission. All forward-looking statements about our future results of operations or other matters made by us in this Annual Report on Form 10-K, in our Annual Report to Lowe's Shareholders and in our subsequently filed reports to the Securities and Exchange Commission, as well as in our press releases and other public communications, are qualified by the risks described below.

You should read these Risk Factors in conjunction with "Management's Discussion and Analysis of Financial Condition and Results of Operations" in Item 7 and our Consolidated Financial Statements and related notes in Item 8. There also may be other factors that we cannot anticipate or that are not described in this report generally because we do not currently perceive them to be material. Those factors could cause results to differ materially from our expectations.

We may be unable to adapt our business concept in a rapidly changing retailing environment to address the changing shopping habits, demands and demographics of our customers.

The home improvement retailing environment, like the retailing environment generally, is rapidly evolving, and adapting our business concept to respond to our customers' changing shopping habits and demands and their changing demographics is critical to our future success. Our success is dependent on our ability to identify and respond to the economic, social, style, and other trends that affect demographic and consumer preferences in a variety of our merchandise categories and service offerings. Customers' expectations about how they wish to research, purchase and receive products and services have also evolved. It is

Table of Contents

difficult to predict the mix of products and services that our customers will demand. Failure to identify such trends and adapt our business concept successfully could negatively affect our relationship with our customers, the demand for the home improvement products and services we sell, the rate of growth of our business and our market share.

We may not be able to realize the benefits of our strategic initiatives focused on omni-channel sales and marketing presence if we fail to deliver the capabilities required to execute on them.

Our interactions with customers has evolved into an omni-channel experience as they increasingly are using computers, tablets, mobile phones and other devices to shop in our stores and online and provide feedback and public commentary about all aspects of our business. Omni-channel retailing is quickly evolving, and we must anticipate and meet our customer expectations and counteract new developments and technology investments by our competitors. Our customer-facing technology systems must appeal to our customers, function as designed and provide a consistent customer experience. The success of our strategic initiatives to adapt our business concept to our customers' changing shopping habits and demands and changing demographics will require us to deliver large, complex programs requiring more integrated planning, initiative prioritization and program sequencing. These initiatives will require new competencies in many positions, and our management, employees and contractors will have to adapt and learn new skills and capabilities. To the extent they are unable or unwilling to make these transformational changes, we may be unable to realize the full benefits of our strategic initiatives and expand our relevant market access. Our results of operations, financial condition, or business prospects could also be adversely affected if we fail to provide a consistent experience for our customers, regardless of sales channel, if our technology systems do not meet our customers' expectations, if we are unable to counteract new developments and innovations implemented by our competitors, or if we are unable to attract and retain additional personnel at various levels of the Company who have the skills and capabilities we need to implement our strategic initiatives and drive the changes that are essential to successfully adapting our business concept in the rapidly changing retailing environment.

Our business and our reputation could be adversely affected by the failure to protect sensitive customer, employee, vendor or Company information or to comply with evolving regulations relating to our obligation to protect our systems, assets and such information from the threat of cyber-attacks.

Cyber-attacks and tactics designed to gain access to and exploit sensitive information by breaching mission critical systems of large organizations are constantly evolving, and high profile electronic security breaches leading to unauthorized release of sensitive customer information have occurred in recent years with increasing frequency at a number of major U.S. companies, including several large retailers, despite widespread recognition of the cyber-attack threat and improved data protection methods. As with many other retailers, we receive and store certain personal information about our customers, employees and vendors. Additionally, we use third-party service providers for services, such as authentication, content delivery, back-office support and other functions. Despite our continued vigilance and investment in information security, we or our third-party service providers may be unable to adequately anticipate or prevent a breach in our or their systems that results in the unauthorized release of sensitive data. Should this occur, it may have a material adverse effect on our reputation, drive customers away and lead to financial losses from remedial actions, or potential liability, including possible punitive damages. A security breach resulting in the unauthorized release of sensitive data from our or our third-party service providers' information systems could also materially increase the costs we already incur to protect against such risks. In addition, as the regulatory environment relating to retailers and other companies' obligation to protect such sensitive data becomes stricter, a material failure on our part to comply with applicable regulations could subject us to fines or other regulatory sanctions and potentially to lawsuits.

We are subject to payments-related risks that could increase our operating costs, expose us to fraud, subject us to potential liability and potentially disrupt our business.

We accept payments using a variety of methods, including credit card, debit card, credit accounts, our private label and co-branded credit cards, gift cards, direct debit from a customer's bank account, consumer invoicing, and physical bank checks, and we may offer different payment options over time. These payment options subject us to many

compliance requirements, including, but not limited to, compliance with payment card association operating rules, including data security rules, certification requirements, rules governing electronic funds transfers and Payment Card Industry Data Security Standards. They also subject us to potential fraud by criminal elements seeking to discover and take advantage of security vulnerabilities that may exist in some of these payment systems. For certain payment methods, including credit and debit cards, we pay interchange and other fees, which may increase over time and raise our operating costs and lower profitability. We rely on third parties to provide payment processing services, including the processing of credit cards, debit cards, electronic checks, gift cards, and promotional financing, and it could disrupt our business if these companies become unwilling or unable to provide these services to us. If we fail to comply with these rules or requirements, or if our data security systems are breached or compromised, we may be liable for card issuing banks' costs, subject to fines and higher transaction fees, and lose our ability to accept credit and debit card payments from our customers, process electronic funds transfers, or facilitate other types of online payments, and our business and operating results could be adversely affected.

Table of Contents

As customer-facing technology systems become an increasingly important part of our omni-channel sales and marketing strategy, the failure of those systems to perform effectively and reliably could keep us from delivering positive customer experiences.

Access to the internet from computers, tablets, smart phones and other mobile communication devices has empowered our customers and changed the way they shop and how we interact with them. Our websites, including Lowes.com and Lowesforpros.com, is a sales channel for our products, and is also a method of making product, project and other relevant information available to them that impacts our in-store sales. Additionally, we have multiple affiliated websites and mobile apps through which we seek to inspire, inform, cross-sell, establish online communities among and otherwise interact with our customers. Performance issues with these customer-facing technology systems, including temporary outages caused by distributed denial of service or other cyber-attacks, or a complete failure of one or more of them without a disaster recovery plan that can be quickly implemented could quickly destroy the positive benefits they provide to our home improvement business and negatively affect our customers' perceptions of Lowe's as a reliable online vendor and source of information about home improvement products and services.

If we fail to hire, train, manage and retain qualified sales associates and specialists with expanded skill sets or corporate support staff with the capabilities of delivering on strategic objectives, we could lose sales to our competitors, and our labor costs, resulting from operations or the execution of corporate strategies, could be negatively affected.

Our customers, whether they are homeowners, renters or commercial businesses, expect our sales associates and specialists to be well trained and knowledgeable about the products we sell and the home improvement services we provide. We compete with other retailers for many of our sales associates and specialists, and we invest significantly in them with respect to training and development to strive for high engagement. Increasingly, our sales associates and specialists must have expanded skill sets, including, in some instances, the ability to do in-home or telephone sales. A critical challenge we face is attracting and retaining a sufficiently diverse workforce that can deliver relevant, culturally competent and differentiated experience for a wide variety of culturally diverse customers. In fact, many of our stores our employees must be able to serve customers whose primary language and cultural traditions are different from their own. Additionally, in order to deliver on the omni-channel expectations of customers, we rely on the specialized training and capabilities of corporate support staff which are broadly sought after by our competitors. If we are unable to hire, train, manage and retain qualified sales associates and specialists, the quality of service we provide to our customers may decrease and our results of operations could be negatively affected. Furthermore, our ability to meet our labor needs while controlling our costs is subject to a variety of external factors, including wage rates, the availability of and competition for talent, health care and other benefit costs, our brand image and reputation, changing demographics, and adoption of new or revised employment and labor laws and regulations. Periodically, we are subject to labor organizing efforts, and if we become subject to collective bargaining agreements in the future, it could adversely affect how we operate our business and adversely affect our labor costs and our ability to retain a qualified workforce.

Positively and effectively managing our public image and reputation is critical to our business success, and, if our public image and reputation are damaged, it could negatively impact our relationships with our customers, vendors and store associates and specialists and, consequently, our business and results of operations.

Our public image and reputation are critical to ensuring that our customers shop at Lowe's, our vendors want to do business with Lowe's and our sales associates and specialists want to work for Lowe's. We must continue to manage, preserve and grow Lowe's public image and reputation. Any negative incident can erode trust and confidence quickly, and adverse publicity about us could damage our reputation and brand image, undermine our customers' confidence, reduce demand for our products and services, affect our relationships with current and future vendors, impact our results of operations and affect our ability to retain and recruit store associates and specialists. The significant expansion in the use of social media over recent years has compounded the potential scope of the negative publicity that could be generated by such negative incidents.

Strategic transactions, including our pending acquisition of RONA inc. (RONA), involve risks, and we may not realize the expected benefits because of numerous uncertainties and risks.

We regularly consider and enter into strategic transactions, including mergers, acquisitions, joint ventures, investments and other growth, market and geographic expansion strategies, with the expectation that these transactions will result in increases in sales, cost savings, synergies and other various benefits. As discussed in “Management’s Discussion and Analysis of Financial Condition and Results of Operations - Executive Overview - Looking Forward” of this Annual Report on Form 10-K, in early 2016, we announced a definitive agreement to acquire RONA. Our ability to deliver the expected benefits from any strategic transactions is subject to numerous uncertainties and risks, including our ability to integrate personnel, labor models, financial, IT and other systems successfully; disruption of our ongoing business and distraction of management; hiring additional management and other critical personnel; and increasing the scope, geographic diversity and complexity of our operations. Effective internal controls are necessary to provide reliable and accurate financial reports, and the integration of businesses may create complexity in our financial systems and internal controls and make them more difficult to manage. Integration of businesses into our internal control system could cause us to fail to meet our financial reporting obligations. Additionally, any

Table of Contents

impairment of goodwill or other intangible assets acquired or divested in a strategic transaction or charges to earnings associated with any strategic transaction, may materially reduce our earnings. Our shareholders may react unfavorably to our strategic transactions, and, if we do not realize any anticipated benefits from such transactions, we may be exposed to additional liabilities of any acquired business or joint venture and we may be exposed to litigation in connection with the strategic transaction. Further, we may finance these strategic transactions by incurring additional debt, which could increase leverage or impact our ability to access capital in the future.

Our pending acquisition of RONA may not close when we expect, or at all.

The consummation of our pending transaction to acquire all of the issued and outstanding common shares and preferred shares of RONA is subject to RONA common shareholder approval and satisfaction of customary closing conditions, including the receipt of all necessary regulatory approvals. If these conditions are not satisfied or waived, the acquisition will not be consummated. There can be no assurance that we will complete the acquisition on the time frame that we anticipate or under the terms set forth in the arrangement agreement, or at all. Failure to complete the acquisition of RONA or any delays in completing the acquisition could have an adverse impact on our future business and operations. In addition, we will have incurred significant acquisition-related expenses without realizing the expected benefits.

Failure to achieve and maintain a high level of product and service quality could damage our image with customers and negatively impact our sales, profitability, cash flows and financial condition.

Product and service quality issues could result in a negative impact on customer confidence in Lowe's and the Company's brand image. If our product and service offerings do not meet applicable safety standards or our customers' expectations regarding safety or quality, we could experience lost sales and increased costs and be exposed to legal, financial and reputation risks. Actual, potential or perceived product safety concerns could expose us to litigation as well as government enforcement action and result in costly product recalls and other liabilities. As a result, Lowe's reputation as a retailer of high quality products and services, including both national and Lowe's private brands, could suffer and impact customer loyalty.

We have many competitors who could take sales and market share from us if we fail to execute our merchandising, marketing and distribution strategies effectively, or if they develop a substantially more effective or lower cost means of meeting customer needs, resulting in a negative impact on our business and results of operations.

We operate in a highly competitive market for home improvement products and services and have numerous large and small, direct and indirect competitors. The principal competitive factors in our industry include convenience, customer service, quality and price of merchandise and services, in-stock levels, and merchandise assortment and presentation. We face growing competition from online and multi-channel retailers who have a similar product or service offering. Customers are increasingly able to quickly comparison shop and determine real-time product availability or price using digital tools. Our failure to respond effectively to competitive pressures and changes in the markets for home improvement products and services could affect our financial performance. Moreover, changes in the promotional pricing and other practices of our competitors, including the effects of competitor liquidation activities, may impact our results.

Our inability to effectively manage our relationships with selected suppliers of brand name products could negatively impact our business plan and financial results.

We form strategic relationships with selected suppliers to market and develop products under a variety of recognized and respected national and international brand names. We also have relationships with certain suppliers to enable us to sell proprietary products which differentiate us from other retailers. The inability to effectively and efficiently manage and maintain these relationships with these suppliers could negatively impact our business operation and financial results.

Failure of a key vendor or service provider that we cannot quickly replace could disrupt our operations and negatively impact our business, financial condition and results of operations.

No single vendor of the products we sell accounts for more than 6% of our total purchases, but we rely upon a number of vendors as the sole or primary source of some of the products we sell. We also rely upon many independent service providers for technology solutions and other services that are important to many aspects of our business. Many of these vendors and service providers have certain products or specialized skills needed to support our business concept and our strategies. If these vendors or service providers discontinue operations or are unable to perform as expected or if we fail to manage them properly and we are unable to replace them quickly, our business could be adversely affected, at least temporarily, until we are able to replace them and potentially, in some cases, permanently.

If our domestic or international supply chain or our fulfillment network for our products is disrupted for any reason, our sales and gross margin would be adversely impacted.

We source, stock, and sell products from over 7,000 domestic and international vendors and their ability to reliably and efficiently fulfill our orders is critical to our business success. We source a large number of those products from foreign

Table of Contents

manufacturers with China continuing to be the dominant import source. Financial instability among key vendors, political instability and labor unrest in source countries or elsewhere in our supply chain, changes in the costs of commodities in our supply chains (fuel, labor and currency exchange rates), port labor disputes, weather-related events, natural disasters, work stoppages, shipping capacity restraints, retaliatory trade restrictions imposed by either the United States or a major source country, tariffs, currency exchange rates and transport availability, capacity and costs are beyond our control and could negatively impact our business if they seriously disrupted the movement of products through our supply chain or increased their costs. Additionally, as we add fulfillment capabilities or pursue strategies with different fulfillment requirements, our network becomes increasingly complex. If our fulfillment network does not operate properly or if a vendor fails to deliver on its commitments, then we will experience delay in inventory, increased delivery costs, merchandise out-of-stocks which would negatively affect our results of operations.

Failure to effectively manage our third party installers could result in increased operational and legal risks and negatively impact our business, financial condition and results of operations.

We use third party installers to provide installation services to our customers, and, as the general contractor, we are subject to regulatory requirements and risks, applicable to general contractors, including the management of the permitting, licensing and quality of our third party installers. Our failure to effectively manage such requirements, the third party installers, and our internal processes regarding installation services could result in lost sales, fines and lawsuits, as well as damage to our reputation, which could negatively affect our business.

Operating internationally presents unique challenges, including some that have required us to adapt our store operations, merchandising, marketing and distribution functions to serve customers in Canada and Mexico. Our business and results of operations could be negatively affected if we are unable to effectively address these challenges. We expect a significant portion of our anticipated store growth over the next five years will be in Canada and Mexico. Expanding internationally presents unique challenges that may increase the anticipated costs and risks, and slow the anticipated rate, of such expansion. Our future operating results in these countries or in other countries or regions in which we currently operate or may operate in the future could be negatively affected by a variety of factors, including unfavorable political or economic factors, adverse tax consequences, volatility in foreign currency exchange rates, increased difficulty in enforcing intellectual property rights, costs and difficulties of managing international operations, challenges with identifying and contracting with local suppliers and other risks created as a result of differences in culture, laws and regulations. These factors could restrict our ability to operate our international businesses profitably and therefore have a negative impact on our financial position and results of operations. In addition, our reported results of operations and financial position could also be negatively affected by exchange rates when the activities and balances of our foreign operations are translated into U.S. dollars for financial reporting purposes.

We must comply with various and multiple laws and regulations that differ substantially in each area where we operate. Changes in existing or new laws and regulations or regulatory enforcement priorities, or our inability to comply with such laws and regulations, could adversely affect our business, financial condition and results of operations.

Laws and regulations at the local, regional, state, federal and international levels change frequently, and the changes can impose significant costs and other burdens of compliance on our business and our vendors. If we fail to comply with these laws, rules and regulations, or the manner in which they are interpreted or applied, we may be subject to government enforcement action, litigation, damage to our reputation, civil and criminal liability, damages, fines and penalties, and increased cost of regulatory compliance, any of which could adversely affect our results of operations and financial performance. These laws, rules and regulations include, but are not limited to, import and export requirements, U.S. laws such as the Foreign Corrupt Practices Act, and local laws prohibiting corrupt payments to governmental officials. Although we have implemented policies and procedures to help ensure compliance with these

laws, there can be no certainty that our employees and third parties with whom we do business will not take actions in violation of our policies or laws. Many of these laws are complex, evolving and are subject to varying interpretations and enforcement actions. Any changes in regulations, the imposition of additional regulations, or the enactment of any new legislation could have an adverse impact, directly or indirectly, on our financial condition and results of operations. We may also be subject to investigations or audits by governmental authorities and regulatory agencies as a result of enforcing existing laws and regulations or changes in enforcement priorities, which can occur in the ordinary course of business or which can result from increased scrutiny from a particular agency towards an industry, country or practice.

Future litigation or governmental proceedings could result in material adverse consequences, including judgments or settlements, negatively affecting our business, financial condition and results of operations.

We are, and in the future will become, involved in lawsuits, regulatory inquiries, and governmental and other legal proceedings arising out of the ordinary course of our business. Some of these proceedings may raise difficult and complicated factual and legal issues and can be subject to uncertainties and complexities. The timing of the final resolutions to lawsuits, regulatory inquiries, and governmental and other legal proceedings is typically uncertain. Additionally, the possible outcomes of, or

Table of Contents

resolutions to, these proceedings could include adverse judgments or settlements, either of which could require substantial payments. Additionally, defending against these lawsuits and proceedings may require a diversion of management's attention and resources. None of the legal proceedings in which we are currently involved, individually or collectively, is considered material.

Our financial performance could suffer if we fail to properly improve and maintain our critical information systems or if those systems are seriously disrupted.

An important part of our efforts to provide an omni-channel experience for our customers, we must invest in, maintain and make ongoing improvements of our existing management information systems that support operations such as sales, inventory replenishment, merchandise ordering, project design and execution, transportation, receipt processing and fulfillment. Our systems are subject to damage or interruption as a result of catastrophic events, power outages, viruses, malicious attacks, telecommunications failures, and we may incur significant expense, data loss as well as a well in customer confidence. Additionally, we continually make investments in our systems which may introduce disruption. Our financial performance could be adversely affected if our management information systems are seriously disrupted or we are unable to maintain, improve, upgrade, and expand our systems.

Liquidity and access to capital rely on efficient, rational and open capital markets and are dependent on Lowe's credit strength. Our inability to access capital markets could negatively affect our business, financial performance and results of operations.

We have relied on the public debt markets to fund portions of our capital investments and the commercial paper market and bank credit facilities to fund working capital needs. Our access to these markets depends on our strong credit ratings, the overall condition of debt capital markets and our operating performance. Disruption in the financial markets or an erosion of our credit strength or declines on our credit rating could impact negatively our ability to meet capital requirements or fund working capital needs.

Our sales are dependent upon the health and stability of the general economy. Adverse changes in economic factors specific to the home improvement industry may negatively impact the rate of growth of our total sales and comparable sales.

Many U.S. and global economic factors may adversely affect our financial performance. These include, but are not limited to, periods of slow economic growth or recession, volatility and/or lack of liquidity from time to time in U.S. and world financial markets and the consequent reduced availability and/or higher cost of borrowing to Lowe's and its customers, slower rates of growth in real disposable personal income that could affect the rate of growth in consumer spending, high rates of unemployment, consumer debt levels, fluctuations in fuel and energy costs, inflation or deflation of commodity prices, natural disasters, and acts of both domestic and international terrorism. Sales of many of our product categories and services are driven by the activity level of home improvement projects. Although the housing market has been strengthened by favorable interest rates and increasing home prices, the large number of households that continue to have little available equity, mortgage delinquency and foreclosure rates that remain high, tight restrictions on the availability of mortgage financing, slow household formation growth rates, and decreases in housing turnover through existing home sales, have limited, and may continue to limit, consumers' discretionary spending, particularly on larger home improvement projects that are important to the growth of our business.

Item 1B - Unresolved Staff Comments

None.

Item 2 - Properties

At January 29, 2016, our properties consisted of 1,857 stores in the U.S., Canada, and Mexico with a total of approximately 202 million square feet of selling space. Of the total stores operating at January 29, 2016,

approximately 86% are owned, which includes stores on leased land, with the remainder being leased from third parties. We also operate regional distribution centers and other facilities to support distribution and fulfillment, as well as data centers and various support offices. Our executive offices are located in Mooresville, North Carolina. We own or lease substantially all of our property through the wholly-owned subsidiary, Lowe's Home Centers, LLC.

Item 3 - Legal Proceedings

We are, from time to time, party to various legal proceedings considered to be in the normal course of business, none of which are considered material. We do not believe that any of these proceedings, individually or in the aggregate, would be expected to have a material adverse effect on our results of operations, financial position or cash flows.

Table of Contents

EXECUTIVE OFFICERS AND CERTAIN SIGNIFICANT EMPLOYEES OF THE REGISTRANT

Set forth below is a list of names and ages of the executive officers and certain significant employees of the registrant indicating all positions and offices with the registrant held by each such person and each person's principal occupations or employment during the past five years. Each executive officer of the registrant is elected by the board of directors at its first meeting after the annual meeting of shareholders and thereafter as appropriate. Each executive officer of the registrant holds office from the date of election until the first meeting of the directors held after the next annual meeting of shareholders or until a successor is elected.

Name	Age	Title
Robert A. Niblock	53	Chairman of the Board, President and Chief Executive Officer since 2011; Chairman of the Board and Chief Executive Officer, 2006 – 2011.
Marshall A. Croom	55	Chief Risk Officer since 2012; Senior Vice President and Chief Risk Officer, 2009 – 2012.
Rick D. Damron	53	Chief Operating Officer since 2012; Executive Vice President, Store Operations, 2011 – 2012; Senior Vice President, Logistics, 2009 – 2011.
Matthew V. Hollifield	49	Senior Vice President and Chief Accounting Officer since 2005.
Robert F. Hull, Jr.	51	Chief Financial Officer since 2012; Executive Vice President and Chief Financial Officer since 2004.
Michael A. Jones	53	Chief Customer Officer since 2014; Chief Merchandising Officer 2013 – 2014; President, North and Latin America, The Husqvarna Group, 2009 – 2013.
Richard D. Maltsbarger	40	Chief Development Officer and President of International since 2015; Chief Development Officer, 2014 – 2015; Business Development Executive, 2012 – 2014; Senior Vice President, Strategy, 2011 – 2012; Vice President, Strategic Planning 2010 – 2011; Vice President, Research, 2006 – 2010.
Ross W. McCanless	58	General Counsel, Secretary and Chief Compliance Officer since 2015; Chief Legal Officer, Extended Stay America, Inc. and ESH Hospitality, Inc., 2013 – 2014; Chief Legal Officer, HVM, L.L.C., 2012 – 2013; Private Investor, 2007 – 2011.
N. Brian Peace	50	Corporate Administration Executive since 2012; Senior Vice President, Corporate Affairs, 2006 – 2012.
Paul D. Ramsay	51	Chief Information Officer since 2014; Senior Vice President, Information Technology, 2011 – 2014; Vice President, Information Technology, Exploration and Production, Hess Corporation, 2010 – 2011
Jennifer L. Weber	49	Chief Human Resources Officer since 2016; Executive Vice President, External Affairs and Strategic Policy, Duke Energy Corporation, 2014 – 2016; Executive Vice President and Chief Human Resources Officer, Duke Energy Corporation, 2011 – 2014.

Part II

Item 5 - Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities

Lowe's common stock is traded on the New York Stock Exchange (NYSE). The ticker symbol for Lowe's is "LOW". As of March 24, 2016, there were 24,337 holders of record of Lowe's common stock. The following table sets forth, for the periods indicated, the high and low sales prices per share of the common stock as reported by the NYSE Composite Tape and the dividends per share declared on the common stock during such periods.

	Fiscal 2015			Fiscal 2014		
	High	Low	Dividend	High	Low	Dividend
1st Quarter	\$76.25	\$66.17	\$0.23	\$51.28	\$44.45	\$0.18
2nd Quarter	73.93	65.83	0.28	48.54	44.13	0.23
3rd Quarter	74.78	64.22	0.28	57.41	47.52	0.23
4th Quarter	78.13	66.93	0.28	71.11	56.76	0.23

Total Return to Shareholders

The following information in Item 5 of this Annual Report on Form 10-K is not deemed to be "soliciting material" or to be "filed" with the SEC or subject to Regulation 14A or 14C under the Securities Exchange Act of 1934 or to the liabilities of Section 18 of the Securities Exchange Act of 1934, and will not be deemed to be incorporated by reference into any filing under the Securities Act of 1933 or the Securities Exchange Act of 1934, except to the extent we specifically incorporate it by reference into such a filing.

The following table and graph compare the total returns (assuming reinvestment of dividends) of the Company's common stock, the S&P 500 Index and the S&P Retailing Industry Group Index (S&P Retail Index). The graph assumes \$100 invested on January 28, 2011 in the Company's common stock and each of the indices.

	1/28/2011	2/3/2012	2/1/2013	1/31/2014	1/30/2015	1/29/2016
Lowe's	\$100.00	\$110.16	\$159.30	\$194.27	\$289.06	\$310.38
S&P 500	100.00	107.66	123.87	149.02	170.22	169.09
S&P Retail Index	\$100.00	\$114.50	\$144.15	\$180.63	\$216.93	\$253.36

Issuer Purchases of Equity Securities

The following table sets forth information with respect to purchases of the Company's common stock made during the fourth quarter of 2015:

(In millions, except average price paid per share)	Total Number of Shares Purchased ¹	Average Price Paid per Share	Total Number of Shares Purchased as Part of Announced Plans or Programs ²	Dollar Value of Shares that May Yet Be Purchased Under the Plans or Programs ²
October 31, 2015 – November 27, 2015	2.5	\$73.08	2.5	\$4,018
November 28, 2015 – January 1, 2016	2.8	75.92	2.7	3,809
January 2, 2016 – January 29, 2016	3.3	71.18	3.3	3,576
As of January 29, 2016	8.6	\$73.27	8.5	\$3,576

¹ During the fourth quarter of fiscal 2015, the Company repurchased an aggregate of 8.6 million shares of its common stock. The total number of shares purchased also includes an insignificant number of shares withheld from

employees to satisfy either the exercise price of stock options or the statutory withholding tax liability upon the vesting of restricted stock awards.

On February 26, 2014, the Company announced that its Board of Directors authorized a \$5.0 billion repurchase program with no expiration. On March 20, 2015, the Company announced that its Board of Directors authorized an additional \$5.0 billion of share repurchases with no expiration. As of January 29, 2016, the Company had \$3.6 billion remaining available under the program. In fiscal 2016, the Company expects to repurchase shares totaling \$3.5 billion through purchases made from time to time either in the open market or through private off market transactions in accordance with SEC regulations.

In September 2015, the Company entered into an ASR agreement with a third-party financial institution to repurchase \$500 million of the Company's common stock. Pursuant to the agreement, the Company paid \$500 million to the financial institution and received an initial delivery of 6.2 million shares. In November 2015, the Company finalized the transaction and received an additional 0.9 million shares. The average price paid per share in settlement of the ASR agreement included in the table above was determined with reference to the volume-weighted average price of the Company's common stock over the term of the ASR agreement. See Note 7 to the consolidated financial statements included in this report.

Item 6 - Selected Financial Data

Selected Statement of Earnings Data

(In millions, except per share data)

	2015	2014	2013	2012	2011 ¹
Net sales	\$59,074	\$56,223	\$53,417	\$50,521	\$50,208
Gross margin	20,570	19,558	18,476	17,327	17,350
Net earnings	2,546	2,698	2,286	1,959	1,839
Basic earnings per common share	2.73	2.71	2.14	1.69	1.43
Diluted earnings per common share	2.73	2.71	2.14	1.69	1.43
Dividends per share	\$1.07	\$0.87	\$0.70	\$0.62	\$0.53
Selected Balance Sheet Data					
Total assets ²	\$31,266	\$31,721	\$32,471	\$32,441	\$33,369
Long-term debt, excluding current maturities ²	\$11,545	\$10,806	\$10,077	\$9,022	\$7,028

¹ Fiscal 2011 contained 53 weeks, while all other years contained 52 weeks.

Prior period balances have been retrospectively adjusted as a result of the Company's adoption of ASU 2015-03, Simplifying the Presentation of Debt Issuance Costs, and ASU 2015-17, Balance Sheet Classification of Deferred

² Taxes. The adoption of these accounting standards required reclassification of current deferred tax assets and liabilities to non-current, as well as reclassification of debt issuance costs from other assets to long-term debt, excluding current maturities.

Table of Contents

Item 7 - Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis summarizes the significant factors affecting our consolidated operating results, financial condition, liquidity and capital resources during the three-year period ended January 29, 2016 (our fiscal years 2015, 2014 and 2013). Unless otherwise noted, all references herein for the years 2015, 2014 and 2013 represent the fiscal years ended January 29, 2016, January 30, 2015 and January 31, 2014, respectively. We intend for this discussion to provide the reader with information that will assist in understanding our financial statements, the changes in certain key items in those financial statements from year to year, and the primary factors that accounted for those changes, as well as how certain accounting principles affect our financial statements. This discussion should be read in conjunction with our consolidated financial statements and notes to the consolidated financial statements included in this Annual Report on Form 10-K that have been prepared in accordance with accounting principles generally accepted in the United States of America. This discussion and analysis is presented in seven sections:

Executive Overview

Operations

Lowe's Business Outlook

Financial Condition, Liquidity and Capital Resources

Off-Balance Sheet Arrangements

Contractual Obligations and Commercial Commitments

Critical Accounting Policies and Estimates

EXECUTIVE OVERVIEW

Net sales for 2015 were \$59.1 billion, a 5.1% increase over fiscal year 2014. Comparable sales increased 4.8%, driven by a comparable average ticket increase of 2.5% and a comparable transaction increase of 2.2%. Net earnings, which were negatively impacted by an impairment charge discussed below, declined 5.6% to \$2.5 billion. Diluted earnings per common share increased to \$2.73 from \$2.71 in 2014.

Results for 2015 were negatively impacted by a \$530 million non-cash impairment charge associated with our decision to exit the Australian home improvement market by withdrawing from our joint venture with Woolworths Limited. Excluding the impact of this charge, adjusted net income totaled \$3.1 billion, an increase of 14.0% over 2014, and adjusted diluted earnings per share increased 21.4% to \$3.29 (see discussion on non-GAAP financial measures beginning on page 21).

For 2015, cash flows from operating activities were approximately \$4.8 billion, with \$1.2 billion used for capital expenditures. Delivering on our commitment to return excess cash to shareholders, the company repurchased 53.5 million shares of stock through the share repurchase program for \$3.8 billion and paid \$957 million in dividends during the year.

Throughout 2015, we remained committed to our key priorities, capitalizing on opportunities within an improving economy and further pursue top line growth through differentiating ourselves with better customer experiences, improving our product and service offering for the Pro customer, and driving productivity and profitability. In addition, we continued to enhance our omni-channel capabilities, providing not just the products, but also the services, information, and advice to help our customers at every step of the home improvement journey and build a greater affinity for the Lowe's brand.

Through collaboration between our merchants, stores, and customer experience design team, we leveraged our customer experience design capabilities as well as our larger store format to showcase the Outdoor Living Experience and the Holiday Décor Experience which drove strong sales and attachment for products during the year. To help customers envision and create their outdoor spaces for spring, we displayed patio sets with coordinating rugs, umbrellas, and accessories, along with grills and other outdoor products just as they would have expected in their own backyard. This space was re-purposed for the Holiday Décor Experience in the second half of the year which inspired customers to decorate, raised awareness of the breadth of holiday décor and gift offerings, and provided project

solutions relevant to the holiday micro seasons. By providing an integrative and cohesive assortment of products, inspiring and intuitive presentation and display, and optimal service components across all selling channels, we are able to provide better customer experiences that differentiate us in the marketplace.

We remained committed to building on our strong foundation with the Pro customer by continuing to advance our product and service offerings to meet their unique needs. Throughout the year, we have strengthened our portfolio of Pro-focused brands with the addition of both national and local brands. In addition, our re-launch of LowesForPros.com in the first half of the year provides the Pro customer with an easy online ordering experience with their choice of in-store pick-up or delivery, saving the Pro time and money. The site makes it easy for Pros to manage multiple properties and easily purchase items for their locations

Table of Contents

nationwide. We are also reconnecting with Pro customers through targeted marketing, as well as Pro-focused events to drive awareness and generate new business.

In an effort to drive expense productivity during 2015, we effectively managed payroll hours on solid comparable sales growth and improved productivity in advertising through targeted spend. We increased the efficiency and effectiveness of our marketing spend through optimized media allocation, presence in targeted digital advertising, expanded social media presence, and reduced print advertising, all while maintaining our customer reach and improving exposure. In addition to payroll and marketing expenses, we remain committed to identifying and implementing additional expense efficiencies by leveraging our scale to achieve cost savings on indirect spend, which improves the flow through of sales dollars to operating profit.

We also continued to enhance our omni-channel capabilities in 2015. Online, we have enhanced our customer experience and presentation through Lowes.com, including improved product search, integrated and upgraded product videos, enhanced product presentation, and simplified product groupings to make it easy for customers to make their selections. Our in-home selling networks, including both interior and exterior project specialists, continued to expand with exterior specialists available across all US stores and interior specialists expected in all stores by the end of fiscal year 2016.

Looking Forward

Economic forecasts for 2016 suggest the outlook for the home improvement industry remains positive. Continued support from steady job growth and improved household incomes, as well as favorable trends in the housing market, should keep home improvement growth buoyant. Despite recent volatility in the financial markets, the fundamentals for continued growth in consumer spending remain intact. Consumers should continue to benefit from improved household financial conditions and lower gas prices on top of moderate job and income growth.

As we move into 2016, we continue to take a prudent approach to managing our portfolio of businesses, making decisions that will shape how we better serve and connect with customers. With the decision to exit the Australian home improvement market during the fourth quarter of 2015, we will focus our resources on areas of the business where we see greater potential return on investment. In early 2016, we announced a definitive agreement to acquire RONA inc. (RONA), a major Canadian retailer and distributor of hardware, building materials, and home renovation products. This transaction is expected to accelerate Lowe's growth strategy by significantly expanding our presence in the Canadian market through the addition of RONA's attractive business and store locations. The transaction is subject to RONA common shareholder approval and receipt of all necessary regulatory approvals and is expected to close in the second half of 2016.

At the same time we are reinforcing our international business, we will remain focused on growing sales by continuing to differentiate ourselves through better customer experiences that make us the project authority, improving our product and service offering for the Pro customer, and enhancing our omni-channel capabilities to support customers at every step of their home improvement journey. We will also focus on driving productivity and profitability through payroll and marketing optimization and leveraging our scale to achieve cost savings on indirect spend. This strategic framework along with our efforts to improve productivity and profitability give us confidence in our Business Outlook for 2016.

Table of Contents

OPERATIONS

The following tables set forth the percentage relationship to net sales of each line item of the consolidated statements of earnings, as well as the percentage change in dollar amounts from the prior year. This table should be read in conjunction with the following discussion and analysis and the consolidated financial statements, including the related notes to the consolidated financial statements.

	2015	2014	Basis Point Increase / (Decrease) in Percentage of Net Sales from Prior Year 2015 vs. 2014	Percentage Increase / (Decrease) in Dollar Amounts from Prior Year 2015 vs. 2014	
Net sales	100.00%	100.00%	N/A	5.1	%
Gross margin	34.82	34.79	3	5.2	
Expenses:					
Selling, general and administrative	23.90	23.62	28	6.3	
Depreciation	2.51	2.64	(13) —	
Interest - net	0.93	0.92	1	7.0	
Total expenses	27.34	27.18	16	5.7

Other Metrics	2015		2014		2013	
Comparable sales increase ²	4.8		% 4.3		% 4.8	%
Total customer transactions (in millions)	878		857		828	
Average ticket ³	\$67.26		\$65.61		\$64.52	
At end of year:						
Number of stores	1,857		1,840		1,832	
Sales floor square feet (in millions)	202		201		200	
Average store size selling square feet (in thousands) ⁴	109		109		109	
Return on average assets ^{5, 8}	7.8		% 8.2		% 6.9	%
Return on average shareholders' equity ⁶	28.8		% 24.4		% 17.7	%
Return on invested capital ⁷	14.1		% 13.9		% 11.5	%

EBIT margin, also referred to as operating margin, is defined as earnings before interest and taxes (EBIT) as a percentage of sales. EBIT margin for fiscal year 2015 was adjusted to exclude the negative 90 basis points impact of the non-cash impairment charge on the Australian joint venture with Woolworths (Adjusted EBIT margin). Adjusted EBIT is a non-GAAP financial measure. See below for additional information and a reconciliation to the most comparable GAAP measure.

A comparable location is defined as a location that has been open longer than 13 months. A location that is identified for relocation is no longer considered comparable one month prior to its relocation. The relocated location must then remain open longer than 13 months to be considered comparable. A location we have decided to close is no longer considered comparable as of the beginning of the month in which we announce its closing. Acquired locations are included in the comparable sales calculation beginning in the first full month following the first anniversary of the date of the acquisition. Comparable sales include online sales, which did not have a meaningful impact for the periods presented.

³ Average ticket is defined as net sales divided by the total number of customer transactions.

⁴ Average store size selling square feet is defined as sales floor square feet divided by the number of stores open at the end of the period. The average Lowe's home improvement store has approximately 112,000 square feet of retail selling space, while the average Orchard store has approximately 37,000 square feet of retail selling space.

⁵ Return on average assets is defined as net earnings divided by average total assets for the last five quarters.

⁶ Return on average shareholders' equity is defined as net earnings divided by average shareholders' equity for the last five quarters.

⁷ Return on invested capital is a non-GAAP financial measure. See below for additional information and a reconciliation to the most comparable GAAP measure.

Fiscal years 2014 and 2013 have been adjusted as a result of the Company's retrospective adoption of ASU 2015-03, Simplifying the Presentation of Debt Issuance Costs, and ASU 2015-17, Balance Sheet Classification of Deferred

⁸ Taxes. The adoption of these accounting standards required reclassification of current deferred tax assets and liabilities to non-current, as well as reclassification of debt issuance costs from other assets to long-term debt, excluding current maturities.

Non-GAAP Financial Measures

Return on Invested Capital

We believe Return on Invested Capital (ROIC) is a meaningful metric for investors because it measures how effectively the Company uses capital to generate profits.

We define ROIC as trailing four quarters' net operating profit after tax divided by the average of ending debt and equity for the last five quarters. Although ROIC is a common financial metric, numerous methods exist for calculating ROIC. Accordingly, the method used by our management to calculate ROIC may differ from the methods other companies use to calculate their ROIC. We encourage you to understand the methods used by another company to calculate its ROIC before comparing its ROIC to ours.

We consider return on average debt and equity to be the financial measure computed in accordance with generally accepted accounting principles that is the most directly comparable GAAP financial measure to ROIC. The difference between these two measures is that ROIC adjusts net earnings to exclude tax adjusted interest expense.

Table of Contents

The calculation of ROIC, together with a reconciliation to the calculation of return on average debt and equity, the most comparable GAAP financial measure, is as follows:

Calculation of Return on Invested Capital (In millions, except percentage data)	2015	2014	2013		
Numerator					
Net earnings	\$2,546	\$2,698	\$2,286		
Plus:					
Interest expense - net	552	516	476		
Provision for income taxes	1,873	1,578	1,387		
Earnings before interest and taxes	4,971	4,792	4,149		
Less:					
Income tax adjustment ¹	2,058	1,769	1,567		
Net operating profit after tax	\$2,913	\$3,024	\$2,581		
Effective tax rate	42.4	% 36.9	% 37.8		%
Denominator					
Average debt and equity ^{2, 3}	\$20,693	\$21,744	\$22,501		
Return on invested capital ⁴	14.1	% 13.9	% 11.5		%
Calculation of Return on Average Debt and Equity	2015	2014	2013		
Numerator					
Net earnings	\$2,546	\$2,698	\$2,286		
Denominator					
Average debt and equity ^{2, 3}	\$20,693	\$21,744	\$22,501		
Return on average debt and equity	12.3	% 12.4	% 10.2		%

¹ Income tax adjustment is defined as earnings before interest and taxes multiplied by the effective tax rate.

² Average debt and equity is defined as average debt, including current maturities and short-term borrowings, plus total equity for the last five quarters.

Fiscal years 2014 and 2013 have been adjusted as a result of the Company's retrospective adoption of ASU 2015-03,

³ Simplifying the Presentation of Debt Issuance Costs. The adoption of this accounting standard required reclassification of debt issuance costs from other assets to long-term debt, excluding current maturities.

⁴ ROIC for fiscal year 2015 was negatively impacted by approximately 238 basis points due to the non-cash impairment charge on the Australian joint venture with Woolworths.

Adjusted Net Earnings, Adjusted EBIT, and Adjusted Diluted Earnings Per Share

We have disclosed non-GAAP adjusted net earnings, adjusted EBIT, and adjusted diluted earnings per share, which exclude the impact of the \$530 million non-cash impairment charge recognized during 2015 in connection with the Company's decision to exit its joint venture with Woolworths Limited in Australia. We believe these non-GAAP financial measures provide useful insight for investors in evaluating what management considers the Company's core financial performance. These measures are not in accordance with, or an alternative for, generally accepted accounting principles in the United States.

Adjusted net earnings, adjusted EBIT, and adjusted diluted earnings per share should be considered in addition to, not as a substitute for, net earnings and diluted earnings per share prepared in accordance with GAAP. The Company's methods of determining these non-GAAP financial measures may differ from the methods used by other companies for these or similar non-GAAP financial measures. Accordingly, these non-GAAP measures may not be comparable to the measures used by other companies.

Table of Contents

The most comparable GAAP measures are net earnings and diluted earnings per share. The following provides a reconciliation of adjusted net earnings, adjusted EBIT, and adjusted diluted earnings per share to the most directly comparable GAAP financial measures:

Calculation of Adjusted Net Earnings, Adjusted EBIT, and Adjusted Diluted Earnings per Common Share (In millions, except per share and percentage data)	2015		
	Amount	% Sales	%
Net earnings, as reported	\$2,546	4.31	%
Non-cash impairment charge	530	0.90	
Adjusted net earnings	\$3,076	5.21	%
Interest - net	552	0.93	
Income tax provision	1,873	3.17	
Adjusted EBIT	\$5,501	9.31	%
Diluted earnings per common share, as reported	\$2.73		
Non-cash impairment charge	0.56		
Adjusted diluted earnings per common share	\$3.29		

Fiscal 2015 Compared to Fiscal 2014

Net sales – Net sales increased 5.1% to \$59.1 billion in 2015. The increase in total sales was driven primarily by the comparable sales increase of 4.8% and new stores. The comparable sales increase of 4.8% in 2015 was driven by a 2.5% increase in comparable average ticket and a 2.2% increase in comparable customer transactions. Comparable sales during each quarter of the fiscal year, as reported, were 5.2% in the first quarter, 4.3% in the second quarter, 4.6% in the third quarter, and 5.2% in the fourth quarter.

All of our product categories experienced comparable sales increases for the year. During 2015, comparable sales were above the company average in the following product categories: Appliances, Outdoor Power Equipment, and Seasonal Living. Appliances experienced the strongest growth with a double digit increase in comparable sales as we further strengthened our brand offerings and breadth of assortment and continued to provide service advantages with next-day delivery and haul away. Within Outdoor Power Equipment, we drove strong performance in walk behind and riding mowers as well as pressure washers. The Outdoor Living Experience introduced last year drove comparable sales in our Seasonal Living category, where we continued to see strong sales in patio furniture, replacement cushions, and outdoor accessories. In addition, Tools & Hardware performed at approximately the overall company average driven by strong demand and continued improvement in both product assortment and brand relevance.

Geographically, all of our 14 U.S. regions experienced increases in comparable store sales, as sales performance was well balanced across the country.

During the fourth quarter of 2015, we recorded comparable sales increases above the company average in Lumber & Building Materials, Appliances, Lawn & Garden, and Paint. We saw particular strength in outdoor project categories, led by Lumber & Building Materials and Lawn & Garden, as customers took advantage of mild weather to complete exterior projects such as roofs, fences, decks, and lawn care. Our landscape lighting experience also drove strong performance by providing inspiration and easy selection and installation for customers, while offering new product technologies such as LED. We achieved strong comparable sales increases in Appliances during the quarter through strengthened brand offerings and service advantages. Paint benefited from increased project activity, as well as growing awareness of our three-brand offering, providing customers with a full suite of top brands they can trust for their next paint project.

Gross margin – Gross margin of 34.82% for 2015 represented a three basis point increase from 2014 and was primarily driven by cost reductions associated with value improvement and product cost deflation, partially offset by negative impacts from targeted promotional activity and mix of products sold.

During the fourth quarter of 2015, gross margin of 34.66% was flat as a percentage of sales due to the same factors that impacted gross margin in the year.

SG&A – SG&A expense for 2015 deleveraged 28 basis points as a percentage of sales compared to 2014. This was primarily driven by 90 basis points of deleverage associated with an impairment charge recorded during the fourth quarter of 2015 related to the valuation of our one-third interest in the Australian joint venture with Woolworths Limited. This was partially offset by 16 basis points of leverage associated with operating salaries as we optimized payroll hours against customer traffic and 16

Table of Contents

basis points of leverage in advertising expense due to more efficient and effective media mix compared to the prior year. We experienced eight basis points of leverage in employee insurance costs due to increased sales in the current year partially offset by additional costs associated with the Affordable Care Act. We also experienced eight basis points of leverage in utilities due to stronger sales as well as a decrease in rates and consumption. In addition, we experienced seven basis points of leverage in building and site repair due to a decrease in the number of repairs during the year and seven basis points of leverage in external labor due to completed projects and increased focus on use of internal resources across information technology projects.

During the fourth quarter of 2015, SG&A expense deleveraged 332 basis points as a percentage of sales due primarily to 401 basis points of deleverage associated with the Australian joint venture impairment charge partially offset by leverage in operating salaries, advertising expense, utilities, employee insurance, and certain other fixed costs. We experienced 25 basis points of leverage in operating salaries associated with optimization of store payroll hours and 20 basis points in advertising expense due to more efficient and effective media mix. We also experienced 12 basis points of leverage in utilities primarily the result of warmer weather and 12 basis points in employee insurance costs due to a reduction in the number and severity of claims. Certain other fixed costs also leveraged as a result of sales growth.

Depreciation – Depreciation expense leveraged 13 basis points for 2015 compared to 2014 primarily due to the increase in sales. Property, less accumulated depreciation, decreased to \$19.6 billion at January 29, 2016 compared to \$20.0 billion at January 30, 2015. At January 29, 2016 and January 30, 2015, we owned 86% of our stores, which included stores on leased land.

Interest – Net – Net interest expense is comprised of the following:

(In millions)	2015	2014
Interest expense, net of amount capitalized	\$548	\$515
Amortization of original issue discount and loan costs	8	7
Interest income	(4) (6
Interest - net	\$552	\$516

Net interest expense increased primarily as a result of the issuance of \$1.75 billion and \$1.25 billion of unsecured notes in September 2015 and 2014, respectively. This was partially offset by the repayment of \$500 million unsecured notes on October 15, 2015.

Income tax provision - Our effective income tax rate was 42.4% in 2015 compared to 36.9% in 2014. During 2015, the Company recorded a deferred tax asset related to losses associated with the joint venture investment in Australia with Woolworths Limited. The deferred tax asset associated with these losses was offset with the establishment of a full valuation allowance due to the fact the benefit of these losses can only be realized to the extent the Company has available capital gains for offset, and no present or future capital gains have been identified through which this deferred tax asset can be realized. Excluding the equity losses and related deferred tax asset would have resulted in an effective income tax rate of 38.2%. The effective tax rate in 2014 benefited from the favorable settlement of certain federal tax matters.

Fiscal 2014 Compared to Fiscal 2013

Net sales – Net sales increased 5.3% to \$56.2 billion in 2014. The increase in total sales was driven primarily by the comparable sales increase of 4.3%, the acquisition of Orchard, and new stores. The comparable sales increase of 4.3% in 2014 was driven by a 2.4% increase in comparable average ticket and a 1.8% increase in comparable customer transactions. Comparable sales increased during each quarter of the fiscal year as we reported 0.9% in the first quarter, 4.4% in the second quarter, 5.1% in the third quarter, and 7.3% in the fourth quarter.

All of our product categories experienced comparable sales increases for the year. During 2014, we experienced comparable sales above the company average in the following product categories: Appliances, Millwork, Tools & Hardware, Fashion Fixtures, and Outdoor Power Equipment. Targeted promotions coupled with the expansion of our Project Specialist programs drove comparable sales increases, especially within Appliances, Millwork, and Fashion Fixtures, as we continued to benefit from customers' increasing interest in refreshing both the interior and exterior of their homes. Within Tools & Hardware, our enhanced Sales & Operations Planning process helped us drive strong performance in power and pneumatic tools. We drove comparable sales within Outdoor Power Equipment as we were prepared to meet strong demand for mowers, trimmers, and snow blowers. In addition, Flooring performed at approximately the overall company average. Geographically, 13 of the 14 U.S. regions experienced increases in comparable store sales, as sales performance was well balanced across the country.

Table of Contents

Gross margin – Gross margin of 34.79% for 2014 represented a 20 basis point increase from 2013 and was primarily driven by cost reductions associated with our Value Improvement initiative, which consisted of improved line review and product reset processes to better position us to meet customers’ product needs and drive better inventory productivity.

During the fourth quarter of 2014, gross margin decreased one basis point as a percentage of sales. Gross margin was negatively impacted by mix of products sold and price actions on specific categories, partially offset by our Value Improvement program and better seasonal sell-through.

SG&A – SG&A expense for 2014 leveraged 46 basis points as a percentage of sales compared to 2013. This was primarily driven by 21 basis points of leverage associated with operating salaries as we optimized payroll hours against customer traffic. We also experienced 16 basis points of leverage associated with incentive compensation due to lower attainment levels compared to the prior year and seven basis points of leverage in property taxes due to favorability in property valuations recognized in the current year. In addition, we experienced six basis points of leverage in advertising expense due to increased sales and five basis points of leverage in utilities due to decreased consumption due to favorable weather experienced in the current year. These were partially offset by 23 basis points of deleverage in employee insurance costs, due to increased claims as well as additional costs associated with the Affordable Care Act.

SG&A expense during the fourth quarter leveraged 88 basis points due primarily to long-lived asset impairments recorded in the prior year, as well as leverage in operating salaries, and property taxes.

Depreciation – Depreciation expense leveraged 10 basis points for 2014 compared to 2013 primarily due to the increase in sales. Property, less accumulated depreciation, decreased to \$20.0 billion at January 30, 2015 compared to \$20.8 billion at January 31, 2014. At January 30, 2015 and January 31, 2014, we owned 86% of our stores, which included stores on leased land.

Interest – Net – Net interest expense is comprised of the following:

(In millions)	2014	2013
Interest expense, net of amount capitalized	\$515	\$474
Amortization of original issue discount and loan costs	7	6
Interest income	(6) (4
Interest - net	\$516	\$476

Net interest expense increased primarily as a result of the issuance of \$1.25 billion and \$1.0 billion of unsecured notes in September 2014 and 2013, respectively.

Income tax provision – Our effective income tax rate was 36.9% in 2014 compared to 37.8% in 2013. The lower effective tax rate in 2014 was the result of the favorable settlement of certain federal tax matters during the year.

LOWE’S BUSINESS OUTLOOK

Fiscal year 2016 will consist of 53 weeks, whereas fiscal year 2015 consisted of 52 weeks. As of February 24, 2016, the date of our fourth quarter 2015 earnings release, we expected total sales in 2016 to increase approximately 6%, including the 53rd week. The 53rd week is expected to increase total sales by approximately 1.5%. We expected comparable sales to increase approximately 4%. We expected to open approximately 45 home improvement and hardware stores during 2016. In addition, earnings before interest and taxes as a percentage of sales (operating margin) were expected to increase 80 to 90 basis points,¹ and the effective tax rate was expected to be approximately

38.1%. Diluted earnings per share of approximately \$4.00 were expected for the fiscal year ending February 3, 2017. Our guidance assumed approximately \$3.5 billion in share repurchases during 2016.

Operating margin growth excludes the impact of the non-cash impairment charge on the Australian joint venture.

¹ The non-cash impairment charge negatively impacted operating margin by approximately 90 basis points in fiscal year 2015.

Table of Contents

FINANCIAL CONDITION, LIQUIDITY AND CAPITAL RESOURCES

Cash Flows

The following table summarizes our cash flow activities for each of the three most recent fiscal years ended January 29, 2016:

(In millions)	2015	2014	2013
Net cash provided by (used in):			
Operating activities	4,784	4,929	4,111
Investing activities	(1,343) (1,088) (1,286
Financing activities	(3,493) (3,761) (2,969

Cash flows from operating activities continued to provide the primary source of our liquidity. The decrease in net cash provided by operating activities for 2015 versus 2014 was primarily driven by changes in working capital. The increase in net cash provided by operating activities for 2014 versus 2013 was primarily driven by increased net earnings, as well as changes in working capital.

The increase in net cash used in investing activities for 2015 versus 2014 was primarily driven by increased capital expenditures and purchases of investments, net of sales and maturities, partially offset by decreased contributions to equity method investments. The decrease in net cash used in investing activities for 2014 versus 2013 was primarily driven by the acquisition of Orchard in 2013 and decreased capital expenditures, partially offset by increased contributions to equity method investments in 2014.

The decrease in net cash used in financing activities for 2015 versus 2014 was driven primarily by increased proceeds from the issuance of long-term debt and net repayments of short-term borrowings in the prior year versus net borrowings in the current year. This was partially offset by increased repayments of long-term debt and increased cash dividend payments in the current year. The increase in net cash used in financing activities for 2014 versus 2013 was driven primarily by 2014 repayments of 2013 short-term borrowings.

Sources of Liquidity

In addition to our cash flows from operations, liquidity is provided by our short-term borrowing facilities. We have a \$1.75 billion unsecured revolving credit agreement (the 2014 Credit Facility) with a syndicate of banks that expires in August 2019. Subject to obtaining commitments from the lenders and satisfying other conditions specified in the 2014 Credit Facility, we may increase the aggregate availability by an additional \$500 million. The 2014 Credit Facility supports our commercial paper program and has a \$500 million letter of credit sublimit. Letters of credit issued pursuant to the facility reduce the amount available for borrowing under its terms. Borrowings made are unsecured and are priced at fixed rates based upon market conditions at the time of funding in accordance with the terms of the facility. The 2014 Credit Facility contains certain restrictive covenants, which include maintenance of an adjusted debt leverage ratio as defined by the credit agreement. We were in compliance with those covenants at January 29, 2016. As of January 29, 2016, there were \$43 million of outstanding borrowings under the commercial paper program and no outstanding borrowings or letters of credit under the credit facility.

We expect to continue to have access to the capital markets on both short-term and long-term bases when needed for liquidity purposes by issuing commercial paper or new long-term debt. The availability and the borrowing costs of these funds could be adversely affected, however, by a downgrade of our debt ratings or a deterioration of certain financial ratios. The table below reflects our debt ratings by Standard & Poor's (S&P) and Moody's as of March 28, 2016, which we are disclosing to enhance understanding of our sources of liquidity and the effect of our ratings on our cost of funds. Although we currently do not expect a downgrade in our debt ratings, our commercial paper and senior

Edgar Filing: LOWES COMPANIES INC - Form 10-K

debt ratings may be subject to revision or withdrawal at any time by the assigning rating organization, and each rating should be evaluated independently of any other rating.

Debt Ratings	S&P	Moody's
Commercial Paper	A-2	P-2
Senior Debt	A-	A3
Outlook	Stable	Stable

We believe that net cash provided by operating and financing activities will be adequate not only for our operating requirements, but also for investments in our existing stores, investments in information technology, expansion plans,

Table of Contents

acquisitions, if any, and to return cash to shareholders through both dividends and share repurchases over the next 12 months. There are no provisions in any agreements that would require early cash settlement of existing debt or leases as a result of a downgrade in our debt rating or a decrease in our stock price. In addition, we do not believe it will be necessary to repatriate cash and cash equivalents and short-term investments held in foreign affiliates to fund domestic operations. Unrepatriated cash was not significant for all periods presented.

Cash Requirements

Capital expenditures

Our fiscal 2016 capital forecast is approximately \$1.5 billion. Our expansion plans are expected to account for approximately 45% of planned net cash outflow. Investments in our existing stores, including investments in remerchandising, store equipment, and technology, are expected to account for approximately 30% of net cash outflow. Approximately 20% of planned net cash outflow is for corporate programs, including investments to enhance the customer experience, as well as enhancements to the corporate infrastructure. Other planned capital expenditures, accounting for approximately 5% of planned net cash outflow, are for investments in our existing distribution network.

On February 2, 2016, we entered into a definitive agreement to acquire all of the issued and outstanding common shares of RONA for C\$24 per share in cash and preferred shares for C\$20 per share in cash, for a total transaction price of approximately C\$3.2 billion. The transaction has been unanimously approved by the Boards of Directors of Lowe's and RONA and is supported by the management teams of both companies; however, the transaction is subject to both shareholder and regulatory approvals. We anticipate financing the transaction through the debt capital markets. In addition, we have entered into an option to purchase Canadian dollars at a strike price of 1.3933 expiring November 1, 2016. The transaction is expected to close in fiscal year 2016.

Debt and capital

Unsecured debt of \$475 million and \$550 million is scheduled to mature in April and October 2016, respectively. See Note 6 to the consolidated financial statements included herein for additional information regarding long-term debt, including fiscal year 2015 financing activities.

We have an ongoing share repurchase program, authorized by the Company's Board of Directors, that is executed through purchases made from time to time either in the open market or through private off-market transactions. Shares purchased under the repurchase program are retired and returned to authorized and unissued status. As of January 29, 2016, we had \$3.6 billion remaining available under our share repurchase program with no expiration date. In fiscal 2016, we expect to repurchase shares totaling \$3.5 billion through purchases made from time to time either in the open market or through private off market transactions in accordance with SEC regulations. Our share repurchase assumption is not expected to be affected by the RONA acquisition. See Note 7 to the consolidated financial statements included herein for additional information regarding share repurchases.

Dividends declared during fiscal 2015 totaled \$991 million. Our dividend payment dates are established such that dividends are paid in the quarter immediately following the quarter in which they are declared. The dividend declared in the fourth quarter of 2015 was paid in fiscal 2016 and totaled \$255 million.

Our ratio of debt to equity plus debt was 62.3% and 53.3% as of January 29, 2016, and January 30, 2015, respectively.

OFF-BALANCE SHEET ARRANGEMENTS

Other than in connection with executing operating leases, we do not have any off-balance sheet financing that has, or is reasonably likely to have, a current or future material effect on our financial condition, cash flows, results of

operations, liquidity, capital expenditures or capital resources.

27

Table of Contents

CONTRACTUAL OBLIGATIONS AND COMMERCIAL COMMITMENTS

The following table summarizes our significant contractual obligations at January 29, 2016:

Contractual Obligations (in millions)	Payments Due by Period				
	Total	Less Than 1 Year	1-3 Years	4-5 Years	After 5 Years
Long-term debt (principal amounts, excluding discount and debt issuance costs)	\$12,190	\$1,028	\$1,002	\$951	\$9,209
Long-term debt (interest payments)	8,236	522	946	905	5,863
Capitalized lease obligations ^{1,2}	991	76	127	118	670
Operating leases ¹	5,394	494	959	855	3,086
Purchase obligations ³	1,046	718	173	111	44
Total contractual obligations	\$27,857	\$2,838	\$3,207	\$2,940	\$18,872

Commercial Commitments (in millions)	Amount of Commitment Expiration by Period				
	Total	Less Than 1 Year	1-3 Years	4-5 Years	After 5 Years
Letters of Credit ⁴	\$67	\$66	\$1	\$—	\$—

¹ Amounts do not include taxes, common area maintenance, insurance, or contingent rent because these amounts have historically been insignificant.

² Amounts include imputed interest and residual values.

³ Purchase obligations include agreements to purchase goods or services that are enforceable, are legally binding, and specify all significant terms, including fixed or minimum quantities to be purchased; fixed, minimum or variable price provisions; and the approximate timing of the transaction. Our purchase obligations include firm commitments related to certain marketing and information technology programs, as well as purchases of merchandise inventory.

⁴ Letters of credit are issued primarily for insurance and construction contracts.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

The preparation of the consolidated financial statements and notes to consolidated financial statements presented in this Form 10-K requires us to make estimates that affect the reported amounts of assets, liabilities, sales and expenses, and related disclosures of contingent assets and liabilities. We base these estimates on historical results and various other assumptions believed to be reasonable, all of which form the basis for making estimates concerning the carrying values of assets and liabilities that are not readily available from other sources. Actual results may differ from these estimates.

Our significant accounting policies are described in Note 1 to the consolidated financial statements. We believe that the following accounting policies affect the most significant estimates and management judgments used in preparing the consolidated financial statements.

Merchandise Inventory

Description

We record an obsolete inventory reserve for the anticipated loss associated with selling inventories below cost. This reserve is based on our current knowledge with respect to inventory levels, sales trends and historical experience. During 2015, our reserve decreased approximately \$6 million to \$46 million as of January 29, 2016.

We also record an inventory reserve for the estimated shrinkage between physical inventories. This reserve is based primarily on actual shrinkage results from previous physical inventories. During 2015, the inventory shrinkage reserve increased approximately \$9 million to \$171 million as of January 29, 2016.

In addition, we receive funds from vendors in the normal course of business, principally as a result of purchase volumes, sales, early payments or promotions of vendors' products. Generally, these vendor funds do not represent the reimbursement of specific, incremental and identifiable costs that we incurred to sell the vendor's product. Therefore, we treat these funds as a reduction in the cost of inventory as the amounts are accrued, and recognize these funds as a reduction of cost of sales when the

Table of Contents

inventory is sold. Funds that are determined to be reimbursements of specific, incremental and identifiable costs incurred to sell vendors' products are recorded as an offset to the related expense.

Judgments and uncertainties involved in the estimate

We do not believe that our merchandise inventories are subject to significant risk of obsolescence in the near term, and we have the ability to adjust purchasing practices based on anticipated sales trends and general economic conditions. However, changes in consumer purchasing patterns or a deterioration in product quality could result in the need for additional reserves. Likewise, changes in the estimated shrink reserve may be necessary, based on the timing and results of physical inventories. We also apply judgment in the determination of levels of obsolete inventory and assumptions about net realizable value.

For vendor funds, we develop accrual rates based on the provisions of the agreements in place. Due to the complexity and diversity of the individual vendor agreements, we perform analyses and review historical purchase trends and volumes throughout the year, adjust accrual rates as appropriate and confirm actual amounts with select vendors to ensure the amounts earned are appropriately recorded. Amounts accrued throughout the year could be impacted if actual purchase volumes differ from projected purchase volumes, especially in the case of programs that provide for increased funding when graduated purchase volumes are met.

Effect if actual results differ from assumptions

We have not made any material changes in the methodology used to establish our inventory valuation or the related reserves for obsolete inventory or inventory shrinkage during the past three fiscal years. We believe that we have sufficient current and historical knowledge to record reasonable estimates for both of these inventory reserves. However, it is possible that actual results could differ from recorded reserves. A 10% change in either the amount of products considered obsolete or the weighted average estimated loss rate used in the calculation of our obsolete inventory reserve would have affected net earnings by approximately \$2 million for 2015. A 10% change in the estimated shrinkage rate included in the calculation of our inventory shrinkage reserve would have affected net earnings by approximately \$10 million for 2015.

We have not made any material changes in the methodology used to recognize vendor funds during the past three fiscal years. If actual results are not consistent with the assumptions and estimates used, we could be exposed to additional adjustments that could positively or negatively impact gross margin and inventory. However, substantially all receivables associated with these activities do not require subjective long-term estimates because they are collected within the following fiscal year. Adjustments to gross margin and inventory in the following fiscal year have historically not been material.

Equity Method Investments

Description

We use the equity method to account for investments in companies if the investment provides the ability to exercise significant influence, but not control, over operating and financial policies of the investee. Our proportionate share of the net income or loss of these companies is included in consolidated net earnings. Each of the Company's equity method investments is subject to a review for impairment if, and when, circumstances indicate that the fair value of our investment could be less than the carrying value. If the results of our review indicate an other than temporary decline in the carrying value of our investment, the Company would write down the investment to its estimated fair value.

Judgments and uncertainties involved in the estimate

Our impairment evaluations for equity method investments require us to apply judgment in determining whether a decrease in value that is other than temporary has occurred. If we need to assess the recoverability of our equity

method investments, we will make assumptions regarding estimated future cash flows of those investments. These calculations require us to apply judgments, including assumptions of future performance, based on business plans and forecasts, recent economic and business trends, and competitive conditions.

Effect if actual results differ from assumptions

In the fourth quarter of fiscal year 2015, we made the decision to exit our Australian joint venture investment with Woolworths Limited (Woolworths) and recorded a \$530 million impairment of our investment due to a determination that there was a decrease in value that was other than temporary. We own a one-third share in the joint venture, Hydrox Holdings Pty Ltd., which operates Masters Home Improvement stores and Home Timber and Hardware Group's retail stores and wholesale distribution in Australia. As a result of our decision to exit, Woolworths will be required to purchase Lowe's one-third share in the joint venture at an agreed upon fair value as of January 18, 2016, the date of our notification of our intention to exit. The process for the two parties agreeing on fair value is prescribed in the Joint Venture Agreement. Finalization of the purchase price for Lowe's interest in the joint venture and completion of the sale is expected to occur in 2016. The \$530 million non-cash impairment charge, which includes the cumulative impact of the strengthening U.S. dollar over the life of the investment,

Table of Contents

was based on the Company's estimate of the value of its portion of the overall joint venture fair value. This value was determined using an income approach based on expected discounted cash flows, and was validated for reasonableness by comparison to similar transaction multiples. The assumptions that most significantly affect the fair value determination include the continuation as a going concern, projected revenues, projected margin rates and the discount rate. Further changes in this estimate are possible as the parties proceed through the final stages of the valuation process as defined in the Joint Venture Agreement. A 10% change in our current estimate of fair value of the joint venture would have affected net earnings by approximately \$39 million for 2015.

Long-Lived Asset Impairment

Description

We review the carrying amounts of locations whenever certain events or changes in circumstances indicate that the carrying amounts may not be recoverable. When evaluating locations for impairment, our asset group is at an individual location level, as that is the lowest level for which cash flows are identifiable. Cash flows for individual locations do not include an allocation of corporate overhead.

We evaluate locations for triggering events relating to long-lived asset impairment on a quarterly basis to determine when a location's asset carrying values may not be recoverable. For operating locations, our primary indicator that asset carrying values may not be recoverable is consistently negative cash flow for a 12-month period for those locations that have been open in the same location for a sufficient period of time to allow for meaningful analysis of ongoing operating results. Management also monitors other factors when evaluating operating locations for impairment, including individual locations' execution of their operating plans and local market conditions, including incursion, which is the opening of either other Lowe's locations or those of a direct competitor within the same market. We also consider there to be a triggering event when there is a current expectation that it is more likely than not that a given location will be closed significantly before the end of its previously estimated useful life.

A potential impairment has occurred if projected future undiscounted cash flows expected to result from the use and eventual disposition of the location's assets are less than the carrying amount of the assets. When determining the stream of projected future cash flows associated with an individual operating location, management makes assumptions, incorporating local market conditions, about key store variables including sales growth rates, gross margin and controllable expenses, such as store payroll and occupancy expense, as well as asset residual values or lease rates. An impairment loss is recognized when the carrying amount of the operating location is not recoverable and exceeds its fair value.

We use an income approach to determine the fair value of our individual operating locations, which requires discounting projected future cash flows. This involves making assumptions regarding both a location's future cash flows, as described above, and an appropriate discount rate to determine the present value of those future cash flows. We discount our cash flow estimates at a rate commensurate with the risk that selected market participants would assign to the cash flows. The selected market participants represent a group of other retailers with a market footprint similar in size to ours.

Judgments and uncertainties involved in the estimate

Our impairment evaluations for long-lived assets require us to apply judgment in determining whether a triggering event has occurred, including the evaluation of whether it is more likely than not that a location will be closed significantly before the end of its previously estimated useful life. Our impairment loss calculations require us to apply judgment in estimating expected future cash flows, including estimated sales, margin, and controllable expenses, assumptions about market performance for operating locations, and estimated selling prices or lease rates for locations identified for closure. We also apply judgment in estimating asset fair values, including the selection of an appropriate discount rate for fair values determined using an income approach.

Effect if actual results differ from assumptions

During 2015, two operating locations experienced a triggering event, and both locations were determined to be impaired. We recorded impairment losses related to these two operating locations of \$8 million during 2015, compared to impairment losses of \$26 million related to three operating locations impaired during 2014.

We have not made any material changes in the methodology used to estimate the future cash flows of operating locations or locations identified for closure during the past three fiscal years. If the actual results are not consistent with the assumptions and judgments we have made in determining whether it is more likely than not that a location will be closed significantly before the end of its useful life or in estimating future cash flows and determining asset fair values, our actual impairment losses could vary positively or negatively from our estimated impairment losses.

Table of Contents

Self-Insurance

Description

We are self-insured for certain losses relating to workers' compensation, automobile, general and product liability, extended protection plan, and certain medical and dental claims. Our self-insured retention or deductible, as applicable, is limited to \$2 million per occurrence involving workers' compensation, \$5 million per occurrence involving general or product liability, and \$10 million per occurrence involving automobile. We do not have any insurance coverage for self-insured extended protection plan or medical and dental claims. Self-insurance claims filed and claims incurred but not reported are accrued based upon our estimates of the discounted ultimate cost for self-insured claims incurred using actuarial assumptions followed in the insurance industry and historical experience. During 2015, our self-insurance liability decreased approximately \$22 million to \$883 million as of January 29, 2016.

Judgments and uncertainties involved in the estimate

These estimates are subject to changes in the regulatory environment, utilized discount rate, projected exposures including payroll, sales and vehicle units, as well as the frequency, lag and severity of claims.

Effect if actual results differ from assumptions

We have not made any material changes in the methodology used to establish our self-insurance liability during the past three fiscal years. Although we believe that we have the ability to reasonably estimate losses related to claims, it is possible that actual results could differ from recorded self-insurance liabilities. A 10% change in our self-insurance liability would have affected net earnings by approximately \$54 million for 2015. A 100 basis point change in our discount rate would have affected net earnings by approximately \$18 million for 2015.

Revenue Recognition

Description

See Note 1 to the consolidated financial statements for a discussion of our revenue recognition policies. The following accounting estimates relating to revenue recognition require management to make assumptions and apply judgment regarding the effects of future events that cannot be determined with certainty.

We sell separately-priced extended protection plan contracts under a Lowe's-branded program for which the Company is ultimately self-insured. The Company recognizes revenues from extended protection plan sales on a straight-line basis over the respective contract term. Extended protection plan contract terms primarily range from one to four years from the date of purchase or the end of the manufacturer's warranty, as applicable. The Company consistently groups and evaluates extended protection plan contracts based on the characteristics of the underlying products and the coverage provided in order to monitor for expected losses. A loss on the overall contract would be recognized if the expected costs of performing services under the contracts exceeded the amount of unamortized acquisition costs and related deferred revenue associated with the contracts. Deferred revenues associated with the extended protection plan contracts decreased \$1 million to \$729 million as of January 29, 2016.

We defer revenue and cost of sales associated with settled transactions for which customers have not yet taken possession of merchandise or for which installation has not yet been completed. Revenue is deferred based on the actual amounts received. We use historical gross margin rates to estimate the adjustment to cost of sales for these transactions. During 2015, deferred revenues associated with these transactions increased \$74 million to \$619 million as of January 29, 2016.

Judgments and uncertainties involved in the estimate

For extended protection plans, there is judgment inherent in our evaluation of expected losses as a result of our methodology for grouping and evaluating extended protection plan contracts and from the actuarial determination of

the estimated cost of the contracts. There is also judgment inherent in our determination of the recognition pattern of costs of performing services under these contracts.

For the deferral of revenue and cost of sales associated with transactions for which customers have not yet taken possession of merchandise or for which installation has not yet been completed, there is judgment inherent in our estimates of gross margin rates.

Effect if actual results differ from assumptions

We have not made any material changes in the methodology used to recognize revenue on our extended protection plan contracts during the past three fiscal years. We currently do not anticipate incurring any overall contract losses on our extended protection plan contracts. Although we believe that we have the ability to adequately monitor and estimate expected losses

Table of Contents

under the extended protection plan contracts, it is possible that actual results could differ from our estimates. In addition, if future evidence indicates that the costs of performing services under these contracts are incurred on other than a straight-line basis, the timing of revenue recognition under these contracts could change. A 10% change in the amount of revenue recognized in 2015 under these contracts would have affected net earnings by approximately \$22 million.

We have not made any material changes in the methodology used to reverse net sales and cost of sales related to amounts received for which customers have not yet taken possession of merchandise or for which installation has not yet been completed. We believe we have sufficient current and historical knowledge to record reasonable estimates related to the impact to cost of sales for these transactions. However, if actual results are not consistent with our estimates or assumptions, we may incur additional income or expense. A 10% change in the estimate of the gross margin rates applied to these transactions would have affected net earnings by approximately \$10 million in 2015.

DISCLOSURE REGARDING FORWARD-LOOKING STATEMENTS

We speak throughout this Annual Report on Form 10-K in forward-looking statements about our future, but particularly in “Management’s Discussion and Analysis of Financial Condition and Results of Operations”. The words “believe,” “expect,” “will,” “should,” “suggest”, and other similar expressions are intended to identify those forward-looking statements. While we believe our expectations are reasonable, they are not guarantees of future performance. Our actual results could differ substantially from our expectations.

For a detailed description of the risks and uncertainties that we are exposed to, you should read the “Risk Factors” included elsewhere in this Annual Report on Form 10-K to the United States Securities and Exchange Commission. All forward-looking statements speak only as of the date of this report or, in the case of any document incorporated by reference, the date of that document. All subsequent written and oral forward-looking statements attributable to us or any person acting on our behalf are qualified by the cautionary statements in this section and in the “Risk Factors” included elsewhere in this Annual Report on Form 10-K. We do not undertake any obligation to update or publicly release any revisions to forward-looking statements to reflect events, circumstances or changes in expectations after the date of this report.

Item 7A - Quantitative and Qualitative Disclosures about Market Risk

In addition to the risks inherent in our operations, we are exposed to certain market risks, including changes in interest rates, commodity prices and foreign currency exchange rates.

Interest Rate Risk

Fluctuations in interest rates do not have a material impact on our financial condition and results of operations because our long-term debt is carried at amortized cost and consists primarily of fixed-rate instruments. Therefore, providing quantitative information about interest rate risk is not meaningful for our financial instruments.

Commodity Price Risk

We purchase certain commodity products that are subject to price volatility caused by factors beyond our control. We believe that the price volatility of these products is partially mitigated by our ability to adjust selling prices. The selling prices of these commodity products are influenced, in part, by the market price we pay, which is determined by industry supply and demand.

Foreign Currency Exchange Rate Risk

Although we have international operating entities, our exposure to foreign currency exchange rate fluctuations is not material to our financial condition and results of operations.

Item 8 - Financial Statements and Supplementary Data

MANAGEMENT'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING

Management of Lowe's Companies, Inc. and its subsidiaries is responsible for establishing and maintaining adequate internal control over financial reporting (Internal Control) as defined in Rule 13a-15(f) under the Securities Exchange Act of 1934, as amended. Our Internal Control was designed to provide reasonable assurance to our management and the Board of Directors regarding the reliability of financial reporting and the preparation and fair presentation of published financial statements.

All internal control systems, no matter how well designed, have inherent limitations, including the possibility of human error and the circumvention or overriding of controls. Therefore, even those systems determined to be effective can provide only reasonable assurance with respect to the reliability of financial reporting and financial statement preparation and presentation. Further, because of changes in conditions, the effectiveness may vary over time.

Our management, with the participation of the Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of our Internal Control as of January 29, 2016. In evaluating our Internal Control, we used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) in Internal Control—Integrated Framework (2013). Based on our management's assessment, we have concluded that, as of January 29, 2016, our Internal Control is effective.

Deloitte & Touche LLP, the independent registered public accounting firm that audited the financial statements contained in this report, was engaged to audit our Internal Control. Their report appears on page 35.

Table of Contents

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Shareholders of Lowe's Companies, Inc.
 Mooresville, North Carolina

We have audited the accompanying consolidated balance sheets of Lowe's Companies, Inc. and subsidiaries (the "Company") as of January 29, 2016 and January 30, 2015, and the related consolidated statements of earnings, comprehensive income, shareholders' equity, and cash flows for each of the three fiscal years in the period ended January 29, 2016. Our audits also included the financial statement schedule listed in the Index at Item 15. These financial statements and financial statement schedule are the responsibility of the Company's management. Our responsibility is to express an opinion on the financial statements and financial statement schedule based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such consolidated financial statements present fairly, in all material respects, the financial position of the Company at January 29, 2016 and January 30, 2015, and the results of its operations and its cash flows for each of the three fiscal years in the period ended January 29, 2016, in conformity with accounting principles generally accepted in the United States of America. Also, in our opinion, such financial statement schedule, when considered in relation to the basic consolidated financial statements taken as a whole, presents fairly, in all material respects, the information set forth therein.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the Company's internal control over financial reporting as of January 29, 2016, based on the criteria established in Internal Control—Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated March 28, 2016 expressed an unqualified opinion on the Company's internal control over financial reporting.

Charlotte, North Carolina
 March 28, 2016

Table of Contents

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Shareholders of Lowe's Companies, Inc.
 Mooresville, North Carolina

We have audited the internal control over financial reporting of Lowe's Companies, Inc. and subsidiaries (the "Company") as of January 29, 2016, based on criteria established in Internal Control - Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission. The Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management's Report on Internal Control over Financial Reporting. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed by, or under the supervision of, the company's principal executive and principal financial officers, or persons performing similar functions, and effected by the company's board of directors, management, and other personnel to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of the inherent limitations of internal control over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may not be prevented or detected on a timely basis. Also, projections of any evaluation of the effectiveness of the internal control over financial reporting to future periods are subject to the risk that the controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of January 29, 2016, based on the criteria established in Internal Control - Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated financial statements and financial statement schedule as of and for the fiscal year ended January 29, 2016 of the Company and our report dated March 28, 2016 expressed an unqualified opinion on those financial statements and financial statement schedule.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED JANUARY 29, 2016, JANUARY 30, 2015 AND JANUARY 31, 2014

NOTE 1: Summary of Significant Accounting Policies

Lowe's Companies, Inc. and subsidiaries (the Company) is the world's second-largest home improvement retailer and operated 1,857 stores in the United States, Canada, and Mexico at January 29, 2016. Below are those accounting policies considered by the Company to be significant.

Fiscal Year - The Company's fiscal year ends on the Friday nearest the end of January. Each of the fiscal years presented contained 52 weeks. All references herein for the years 2015, 2014, and 2013 represent the fiscal years ended January 29, 2016, January 30, 2015, and January 31, 2014, respectively.

Principles of Consolidation - The consolidated financial statements include the accounts of the Company and its wholly-owned or controlled operating subsidiaries. All intercompany accounts and transactions have been eliminated.

Foreign Currency - The functional currencies of the Company's international subsidiaries are generally the local currencies of the countries in which the subsidiaries are located. Foreign currency denominated assets and liabilities are translated into U.S. dollars using the exchange rates in effect at the consolidated balance sheet date. Results of operations and cash flows are translated using the average exchange rates throughout the period. The effect of exchange rate fluctuations on translation of assets and liabilities is included as a component of shareholders' equity in accumulated other comprehensive loss. Gains and losses from foreign currency transactions, which are included in selling, general and administrative (SG&A) expense, have not been significant.

Use of Estimates - The preparation of the Company's financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates that affect the reported amounts of assets, liabilities, sales and expenses, and related disclosures of contingent assets and liabilities. The Company bases these estimates on historical results and various other assumptions believed to be reasonable, all of which form the basis for making estimates concerning the carrying values of assets and liabilities that are not readily available from other sources. Actual results may differ from these estimates.

Cash and Cash Equivalents - Cash and cash equivalents include cash on hand, demand deposits, and short-term investments with original maturities of three months or less when purchased. Cash and cash equivalents are carried at amortized cost on the consolidated balance sheets. The majority of payments due from financial institutions for the settlement of credit card and debit card transactions process within two business days and are, therefore, classified as cash and cash equivalents.

Investments - As of January 29, 2016, investments consisted primarily of money market funds, municipal obligations, certificates of deposit, and municipal floating rate obligations, all of which are classified as available-for-sale. Available-for-sale securities are recorded at fair value, and unrealized gains and losses are recorded, net of tax, as a component of accumulated other comprehensive income. Gross unrealized gains and losses were insignificant at January 29, 2016 and January 30, 2015.

The proceeds from sales of available-for-sale securities were \$394 million, \$283 million, and \$276 million for 2015, 2014, and 2013, respectively. Gross realized gains and losses on the sale of available-for-sale securities were not significant for any of the periods presented.

Investments with a stated maturity date of one year or less from the balance sheet date or that are expected to be used in current operations are classified as short-term investments. All other investments are classified as long-term.

Investments classified as long-term at January 29, 2016, will mature in one to 34 years, based on stated maturity dates.

The Company classifies as investments restricted balances primarily pledged as collateral for the Company's extended protection plan program. Restricted balances included in short-term investments were \$234 million at January 29, 2016, and \$99 million at January 30, 2015. Restricted balances included in long-term investments were \$202 million at January 29, 2016, and \$305 million at January 30, 2015.

Merchandise Inventory - Inventory is stated at the lower of cost or market using the first-in, first-out method of inventory accounting. The cost of inventory also includes certain costs associated with the preparation of inventory for resale, including distribution center costs, and is net of vendor funds.

Table of Contents

The Company records an inventory reserve for the anticipated loss associated with selling inventories below cost. This reserve is based on management's current knowledge with respect to inventory levels, sales trends, and historical experience. Management does not believe the Company's merchandise inventories are subject to significant risk of obsolescence in the near term, and management has the ability to adjust purchasing practices based on anticipated sales trends and general economic conditions. However, changes in consumer purchasing patterns could result in the need for additional reserves. The Company also records an inventory reserve for the estimated shrinkage between physical inventories. This reserve is based primarily on actual shrink results from previous physical inventories. Changes in the estimated shrink reserve are made based on the timing and results of physical inventories.

The Company receives funds from vendors in the normal course of business, principally as a result of purchase volumes, sales, early payments, or promotions of vendors' products. Generally, these vendor funds do not represent the reimbursement of specific, incremental, and identifiable costs incurred by the Company to sell the vendor's product. Therefore, the Company treats these funds as a reduction in the cost of inventory as the amounts are accrued, and are recognized as a reduction of cost of sales when the inventory is sold. Funds that are determined to be reimbursements of specific, incremental, and identifiable costs incurred to sell vendors' products are recorded as an offset to the related expense. The Company develops accrual rates for vendor funds based on the provisions of the agreements in place. Due to the complexity and diversity of the individual vendor agreements, the Company performs analyses and reviews historical trends throughout the year and confirms actual amounts with select vendors to ensure the amounts earned are appropriately recorded. Amounts accrued throughout the year could be impacted if actual purchase volumes differ from projected annual purchase volumes, especially in the case of programs that provide for increased funding when graduated purchase volumes are met.

Derivative Financial Instruments - The Company occasionally utilizes derivative financial instruments to manage certain business risks. However, the amounts were not material to the Company's consolidated financial statements in any of the years presented. The Company does not use derivative financial instruments for trading purposes.

Credit Programs - The majority of the Company's accounts receivable arises from sales of goods and services to commercial business customers. The Company has an agreement with Synchrony Bank (Synchrony), formerly GE Capital Retail, under which Synchrony purchases at face value commercial business accounts receivable originated by the Company and services these accounts. This agreement expires in December 2023, unless terminated sooner by the parties. The Company primarily accounts for these transfers as sales of the accounts receivable. When the Company transfers its commercial business accounts receivable, it retains certain interests in those receivables, including the funding of a loss reserve and its obligation related to Synchrony's ongoing servicing of the receivables sold. Any gain or loss on the sale is determined based on the previous carrying amounts of the transferred assets allocated at fair value between the receivables sold and the interests retained. Fair value is based on the present value of expected future cash flows, taking into account the key assumptions of anticipated credit losses, payment rates, late fee rates, Synchrony's servicing costs, and the discount rate commensurate with the uncertainty involved. Due to the short-term nature of the receivables sold, changes to the key assumptions would not materially impact the recorded gain or loss on the sales of receivables or the fair value of the retained interests in the receivables.

Total commercial business accounts receivable sold to Synchrony were \$2.6 billion in 2015, \$2.4 billion in 2014, and \$2.2 billion in 2013. The Company recognized losses of \$36 million in 2015, \$38 million in 2014, and \$38 million in 2013 on these receivable sales as SG&A expense, which primarily relates to the fair value of obligations related to servicing costs that are remitted to Synchrony monthly. At January 29, 2016 and January 30, 2015, the fair value of the retained interests was determined based on the present value of expected future cash flows and was insignificant.

Sales generated through the Company's proprietary credit cards are not reflected in receivables. Under an agreement with Synchrony, credit is extended directly to customers by Synchrony. All credit program-related services are performed and controlled directly by Synchrony. The Company has the option, but no obligation, to purchase the

receivables at the end of the agreement in December 2023. Tender costs, including amounts associated with accepting the Company's proprietary credit cards, are included in SG&A expense in the consolidated statements of earnings.

The total portfolio of receivables held by Synchrony, including both receivables originated by Synchrony from the Company's proprietary credit cards and commercial business accounts receivable originated by the Company and sold to Synchrony, approximated \$8.8 billion at January 29, 2016, and \$7.9 billion at January 30, 2015.

Property and Depreciation - Property is recorded at cost. Costs associated with major additions are capitalized and depreciated. Capital assets are expected to yield future benefits and have original useful lives which exceed one year. The total cost of a capital asset generally includes all applicable sales taxes, delivery costs, installation costs, and other appropriate costs incurred by the Company, including interest in the case of self-constructed assets. Upon disposal, the cost of properties and

Table of Contents

related accumulated depreciation is removed from the accounts, with gains and losses reflected in SG&A expense in the consolidated statements of earnings.

Property consists of land, buildings and building improvements, equipment, and construction in progress. Buildings and building improvements includes owned buildings, as well as buildings under capital lease and leasehold improvements. Equipment primarily includes store racking and displays, computer hardware and software, forklifts, vehicles, and other store equipment.

Depreciation is provided over the estimated useful lives of the depreciable assets. Assets are depreciated using the straight-line method. Leasehold improvements and assets under capital lease are depreciated over the shorter of their estimated useful lives or the term of the related lease, which may include one or more option renewal periods where failure to exercise such options would result in an economic penalty in such amount that renewal appears, at the inception of the lease, to be reasonably assured. During the term of a lease, if leasehold improvements are placed in service significantly after the inception of the lease, the Company depreciates these leasehold improvements over the shorter of the useful life of the leasehold assets or a term that includes lease renewal periods deemed to be reasonably assured at the time the leasehold improvements are placed into service. The amortization of these assets is included in depreciation expense in the consolidated financial statements.

Long-Lived Asset Impairment/Exit Activities - The carrying amounts of long-lived assets are reviewed whenever certain events or changes in circumstances indicate that the carrying amounts may not be recoverable. A potential impairment has occurred for long-lived assets held-for-use if projected future undiscounted cash flows expected to result from the use and eventual disposition of the assets are less than the carrying amounts of the assets. An impairment loss is recorded for long-lived assets held-for-use when the carrying amount of the asset is not recoverable and exceeds its fair value.

Excess properties that are expected to be sold within the next 12 months and meet the other relevant held-for-sale criteria are classified as long-lived assets held-for-sale. Excess properties consist primarily of retail outparcels and property associated with relocated or closed locations. An impairment loss is recorded for long-lived assets held-for-sale when the carrying amount of the asset exceeds its fair value less cost to sell. A long-lived asset is not depreciated while it is classified as held-for-sale.

For long-lived assets to be abandoned, the Company considers the asset to be disposed of when it ceases to be used. Until it ceases to be used, the Company continues to classify the asset as held-for-use and tests for potential impairment accordingly. If the Company commits to a plan to abandon a long-lived asset before the end of its previously estimated useful life, its depreciable life is re-evaluated.

The Company recorded long-lived asset impairment losses of \$10 million during 2015, including \$8 million for operating locations and \$2 million for excess properties classified as held-for-use. The Company recorded impairment losses of \$28 million during 2014, including \$26 million for operating locations and \$2 million for excess properties classified as held-for-use. The Company recorded long-lived asset impairment of \$46 million during 2013, including \$26 million for operating locations, \$17 million for excess properties classified as held-for-use, and \$3 million, including costs to sell, for excess properties classified as held-for-sale. Impairment losses are included in SG&A expense in the consolidated statements of earnings. Fair value measurements associated with long-lived asset impairments are further described in Note 2 to the consolidated financial statements.

The net carrying amount of excess properties that do not meet the held-for-sale criteria is included in other assets (noncurrent) on the consolidated balance sheets and totaled \$131 million and \$152 million at January 29, 2016 and January 30, 2015, respectively.

When locations under operating leases are closed, a liability is recognized for the fair value of future contractual obligations, including future minimum lease payments, property taxes, utilities, common area maintenance, and other ongoing expenses, net of estimated sublease income and other recoverable items. When the Company commits to an exit plan and communicates that plan to affected employees, a liability is recognized in connection with one-time employee termination benefits. Subsequent changes to the liabilities, including a change resulting from a revision to either the timing or the amount of estimated cash flows, are recognized in the period of change. Expenses associated with exit activities are included in SG&A expense in the consolidated statement of earnings.

Equity Method Investments - The Company's investments in certain unconsolidated entities are accounted for under the equity method. The balance of these investments is included in other assets (noncurrent) in the accompanying consolidated balance sheets. The balance is increased to reflect the Company's capital contributions and equity in earnings of the investees. The balance is decreased for its equity in losses of the investees, for distributions received that are not in excess of

Table of Contents

the carrying amount of the investments, and for any other than temporary impairment losses recognized. The Company's equity in earnings and losses of the investees and other than temporary impairment losses are included in SG&A expense.

Equity method investments are evaluated for impairment whenever events or changes in circumstances indicate that a decline in value has occurred that is other than temporary. Evidence considered in this evaluation includes, but would not necessarily be limited to, the financial condition and near-term prospects of the investee, recent operating trends and forecasted performance of the investee, market conditions in the geographic area or industry in which the investee operates and the Company's strategic plans for holding the investment in relation to the period of time expected for an anticipated recovery of its carrying value. Investments that are determined to have a decline in value deemed to be other than temporary are written down to estimated fair value.

In 2015, the Company decided to exit the Australian joint venture investment with Woolworths Limited (Woolworths) and recorded a \$530 million impairment of its equity method investment due to a determination that there was a decrease in value that was other than temporary (see Note 2 to the consolidated financial statements for further discussion). Exclusive of this impairment charge recognized in the current year, losses on equity method investments have been immaterial.

Leases - For lease agreements that provide for escalating rent payments or free-rent occupancy periods, the Company recognizes rent expense on a straight-line basis over the non-cancellable lease term and option renewal periods where failure to exercise such options would result in an economic penalty in such amount that renewal appears, at the inception of the lease, to be reasonably assured. The lease term commences on the date that the Company takes possession of or controls the physical use of the property. Deferred rent is included in other liabilities (noncurrent) on the consolidated balance sheets.

When the Company renegotiates and amends a lease to extend the non-cancellable lease term prior to the date at which it would have been required to exercise or decline a term extension option, the amendment is treated as a new lease. The new lease begins on the date the lease amendment is entered into and ends on the last date of the non-cancellable lease term, as adjusted to include any option renewal periods where failure to exercise such options would result in an economic penalty in such amount that renewal appears, at the inception of the lease amendment, to be reasonably assured. The new lease is classified as operating or capital under the authoritative guidance through use of assumptions regarding residual value, economic life, incremental borrowing rate, and fair value of the leased asset(s) as of the date of the amendment.

Accounts Payable - The Company has an agreement with a third party to provide an accounts payable tracking system which facilitates participating suppliers' ability to finance payment obligations from the Company with designated third-party financial institutions. Participating suppliers may, at their sole discretion, make offers to finance one or more payment obligations of the Company prior to their scheduled due dates at a discounted price to participating financial institutions. The Company's goal in entering into this arrangement is to capture overall supply chain savings, in the form of pricing, payment terms, or vendor funding, created by facilitating suppliers' ability to finance payment obligations at more favorable discount rates, while providing them with greater working capital flexibility.

The Company's obligations to its suppliers, including amounts due and scheduled payment dates, are not impacted by suppliers' decisions to finance amounts under this arrangement. However, the Company's right to offset balances due from suppliers against payment obligations is restricted by this arrangement for those payment obligations that have been financed by suppliers. As of January 29, 2016 and January 30, 2015, \$1.3 billion and \$1.0 billion, respectively, of the Company's outstanding payment obligations had been placed on the accounts payable tracking system, and participating suppliers had financed \$921 million and \$724 million, respectively, of those payment obligations to participating financial institutions.

Other Current Liabilities - Other current liabilities on the consolidated balance sheets consist of:

(In millions)	January 29, 2016	January 30, 2015
Self-insurance liabilities	\$343	\$346
Accrued dividends	255	222
Accrued interest	179	165
Sales tax liabilities	140	131
Accrued property taxes	111	124
Other	829	932
Total	\$1,857	\$1,920

Table of Contents

Self-Insurance - The Company is self-insured for certain losses relating to workers' compensation, automobile, property, and general and product liability claims. The Company has insurance coverage to limit the exposure arising from these claims. The Company is also self-insured for certain losses relating to extended protection plan and medical and dental claims. Self-insurance claims filed and claims incurred but not reported are accrued based upon management's estimates of the discounted ultimate cost for self-insured claims incurred using actuarial assumptions followed in the insurance industry and historical experience. Although management believes it has the ability to reasonably estimate losses related to claims, it is possible that actual results could differ from recorded self-insurance liabilities. The total self-insurance liability, including the current and non-current portions, was \$883 million and \$905 million at January 29, 2016, and January 30, 2015, respectively.

The Company provides surety bonds issued by insurance companies to secure payment of workers' compensation liabilities as required in certain states where the Company is self-insured. Outstanding surety bonds relating to self-insurance were \$240 million and \$234 million at January 29, 2016, and January 30, 2015, respectively.

Income Taxes - The Company establishes deferred income tax assets and liabilities for temporary differences between the tax and financial accounting bases of assets and liabilities. The tax effects of such differences are reflected in the consolidated balance sheets at the enacted tax rates expected to be in effect when the differences reverse. A valuation allowance is recorded to reduce the carrying amount of deferred tax assets if it is more likely than not that all or a portion of the asset will not be realized. The tax balances and income tax expense recognized by the Company are based on management's interpretation of the tax statutes of multiple jurisdictions.

The Company establishes a liability for tax positions for which there is uncertainty as to whether or not the position will be ultimately sustained. The Company includes interest related to tax issues as part of net interest on the consolidated financial statements. The Company records any applicable penalties related to tax issues within the income tax provision.

Shareholders' Equity - The Company has a share repurchase program that is executed through purchases made from time to time either in the open market or through private market transactions. Shares purchased under the repurchase program are retired and returned to authorized and unissued status. Any excess of cost over par value is charged to additional paid-in capital to the extent that a balance is present. Once additional paid-in capital is fully depleted, remaining excess of cost over par value is charged to retained earnings.

Revenue Recognition - The Company recognizes revenues, net of sales tax, when sales transactions occur and customers take possession of the merchandise. A provision for anticipated merchandise returns is provided through a reduction of sales and cost of sales in the period that the related sales are recorded. Revenues from product installation services are recognized when the installation is completed. Deferred revenues associated with amounts received for which customers have not yet taken possession of merchandise or for which installation has not yet been completed were \$619 million and \$545 million at January 29, 2016, and January 30, 2015, respectively.

Revenues from stored-value cards, which include gift cards and returned merchandise credits, are deferred and recognized when the cards are redeemed. The liability associated with outstanding stored-value cards was \$459 million and \$434 million at January 29, 2016, and January 30, 2015, respectively, and these amounts are included in deferred revenue on the consolidated balance sheets. The Company recognizes income from unredeemed stored-value cards at the point at which redemption becomes remote. The Company's stored-value cards have no expiration date or dormancy fees. Therefore, to determine when redemption is remote, the Company analyzes an aging of the unredeemed cards based on the date of last stored-value card use. The amount of revenue recognized from unredeemed stored-value cards for which redemption was deemed remote was not significant for 2015, 2014, and 2013.

Edgar Filing: LOWES COMPANIES INC - Form 10-K

Extended Protection Plans - The Company sells separately-priced extended protection plan contracts under a Lowe's-branded program for which the Company is ultimately self-insured. The Company recognizes revenue from extended protection plan sales on a straight-line basis over the respective contract term. Extended protection plan contract terms primarily range from one to four years from the date of purchase or the end of the manufacturer's warranty, as applicable. Changes in deferred revenue for extended protection plan contracts are summarized as follows:

(In millions)	2015	2014	2013	
Deferred revenue - extended protection plans, beginning of year	\$ 730	\$ 730	\$ 715	
Additions to deferred revenue	350	318	294	
Deferred revenue recognized	(351) (318) (279)
Deferred revenue - extended protection plans, end of year	\$ 729	\$ 730	\$ 730	

Table of Contents

Incremental direct acquisition costs associated with the sale of extended protection plans are also deferred and recognized as expense on a straight-line basis over the respective contract term. Deferred costs associated with extended protection plan contracts were \$20 million and \$30 million at January 29, 2016, and January 30, 2015, respectively. The Company's extended protection plan deferred costs are included in other assets (noncurrent) on the consolidated balance sheets. All other costs, such as costs of services performed under the contract, general and administrative expenses, and advertising expenses are expensed as incurred.

The liability for extended protection plan claims incurred is included in other current liabilities on the consolidated balance sheets and was not material in any of the years presented. Expenses for claims are recognized when incurred and totaled \$127 million, \$123 million, and \$114 million for 2015, 2014, and 2013, respectively.

Cost of Sales and Selling, General and Administrative Expenses - The following lists the primary costs classified in each major expense category:

Cost of Sales	Selling, General and Administrative
<ul style="list-style-type: none"> n Total cost of products sold, including: <ul style="list-style-type: none"> - Purchase costs, net of vendor funds; - Freight expenses associated with moving merchandise inventories from vendors to retail stores; - Costs associated with operating the Company's distribution network, including payroll and benefit costs and occupancy costs; n Costs of installation services provided; n Costs associated with delivery of products directly from vendors to customers by third parties; n Costs associated with inventory shrinkage and obsolescence. n Costs of services performed under the extended protection plan. 	<ul style="list-style-type: none"> n Payroll and benefit costs for retail and corporate employees; n Occupancy costs of retail and corporate facilities; n Advertising; n Costs associated with delivery of products from stores and distribution centers to customers; n Third-party, in-store service costs; n Tender costs, including bank charges, costs associated with credit card interchange fees and amounts associated with accepting the Company's proprietary credit cards; n Costs associated with self-insured plans, and premium costs for stop-loss coverage and fully insured plans; n Long-lived asset impairment losses and gains/losses on disposal of assets; n Other administrative costs, such as supplies, and travel and entertainment.

Advertising - Costs associated with advertising are charged to expense as incurred. Advertising expenses were \$769 million, \$819 million, and \$811 million in 2015, 2014, and 2013, respectively.

Shipping and Handling Costs - The Company includes shipping and handling costs relating to the delivery of products directly from vendors to customers by third parties in cost of sales. Shipping and handling costs, which include third-party delivery costs, salaries, and vehicle operations expenses relating to the delivery of products from stores and distribution centers to customers, are classified as SG&A expense. Shipping and handling costs included in SG&A expense were \$607 million, \$548 million and \$501 million in 2015, 2014, and 2013, respectively.

Store Opening Costs - Costs of opening new or relocated retail stores, which include payroll and supply costs incurred prior to store opening and grand opening advertising costs, are charged to expense as incurred.

Comprehensive Income - The Company reports comprehensive income in its consolidated statements of comprehensive income and consolidated statements of shareholders' equity. Comprehensive income represents changes in shareholders' equity from non-owner sources and is comprised of net earnings adjusted primarily for foreign currency translation adjustments. Net foreign currency translation losses, net of tax, classified in accumulated other comprehensive loss were \$394 million, \$103 million, and \$17 million at January 29, 2016, January 30, 2015,

and January 31, 2014, respectively.

Segment Information - The Company's home improvement retail operations represent a single reportable segment. Key operating decisions are made at the Company level in order to maintain a consistent retail store presentation. The Company's home improvement retail stores sell similar products and services, use similar processes to sell those products and services, and sell their products and services to similar classes of customers. In addition, the Company's operations exhibit similar economic characteristics. The amounts of long-lived assets and net sales outside of the U.S. were not significant for any of the periods presented.

Table of Contents

Recent Accounting Pronouncements - In November 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-17, Balance Sheet Classification of Deferred Taxes. The ASU requires entities to classify deferred tax liabilities and assets as noncurrent in a classified statement of financial position. This ASU is effective for fiscal years beginning after December 15, 2016, and interim periods within those fiscal years. Early adoption is permitted for all entities as of the beginning of an interim or annual reporting period. The Company elected to early adopt this accounting update as of January 29, 2016, and applied it retrospectively to prior periods. The adoption of the ASU resulted in a reclassification of \$230 million of current deferred tax assets and \$97 million of noncurrent deferred tax liabilities to noncurrent deferred tax assets in the Company's consolidated balance sheet as of January 30, 2015. The adoption of this guidance did not have any impact on the Company's consolidated statements of earnings, comprehensive income, shareholders' equity, or cash flows.

In April 2015, the FASB issued ASU 2015-03, Simplifying the Presentation of Debt Issuance Costs. The ASU requires that debt issuance costs related to a recognized debt liability be presented in the balance sheet as a direct deduction from the carrying amount of that debt liability. This ASU is effective for fiscal years beginning after December 15, 2015, and interim periods within those fiscal years, with early adoption permitted. The Company elected to early adopt this accounting update as of January 29, 2016, and applied it retrospectively to prior periods. The adoption of the ASU resulted in a reclassification of debt issuance costs of \$9 million from other assets to long-term debt, excluding current maturities in the Company's consolidated balance sheet as of January 30, 2015. The adoption of this guidance did not have any impact on the Company's consolidated statements of earnings, comprehensive income, shareholders' equity, or cash flows.

Effective January 31, 2015, the Company adopted ASU 2014-08, Reporting Discontinued Operations and Disclosures of Components of an Entity. The ASU amends the definition of a discontinued operation and also provides new disclosure requirements for disposals meeting the definition, and for those that do not meet the definition, of a discontinued operation. Under the new guidance, a discontinued operation may include a component or a group of components of an entity, or a business or nonprofit activity that has been disposed of or is classified as held for sale, and represents a strategic shift that has or will have a major effect on an entity's operations and financial results. The ASU also expands the scope to include the disposals of equity method investments and acquired businesses held for sale. The adoption of the guidance by the Company did not have a material impact on its consolidated financial statements.

In February 2016, the FASB issued ASU 2016-02, Leases (Topic 842). The guidance in this ASU supersedes the leasing guidance in Topic 840, Leases. Under the new guidance, lessees are required to recognize lease assets and lease liabilities on the balance sheet for those leases previously classified as operating leases. For leases with a term of 12 months or less, a lessee is permitted to make an accounting policy election by class of underlying asset not to recognize lease assets and lease liabilities. If a lessee makes this election, it should recognize lease expense for such leases generally on a straight-line basis over the lease term. This ASU is effective for fiscal years beginning after December 15, 2018, and interim periods within those fiscal years, with early adoption permitted. The Company is currently evaluating the impact of adopting this ASU on its consolidated financial statements.

In January 2016, the FASB issued ASU 2016-01, Recognition and Measurement of Financial Assets and Liabilities. The ASU requires, among other things, that entities measure equity investments (except those accounted for under the equity method of accounting or those that result in consolidation of the investee) at fair value, with changes in fair value recognized in net income. Under this ASU, entities will no longer be able to recognize unrealized holding gains and losses on equity securities classified today as available-for-sale in other comprehensive income, and they will no longer be able to use the cost method of accounting for equity securities that do not have readily determinable fair values. The guidance for classifying and measuring investments in debt securities and loans is not impacted. ASU 2016-01 eliminates certain disclosure requirements related to financial instruments measured at amortized cost and adds disclosures related to the measurement categories of financial assets and financial liabilities. The guidance is

effective for annual periods beginning after December 15, 2017. Early adoption is permitted for only certain portions of the ASU. The adoption of this guidance by the Company is not expected to have a material impact on its consolidated financial statements.

In July 2015, the FASB issued ASU 2015-11, Simplifying the Measurement of Inventory. The ASU requires entities using the first-in, first-out (FIFO) inventory costing method to subsequently value inventory at the lower of cost and net realizable value. The ASU defines net realizable value as the estimated selling prices in the ordinary course of business, less reasonably predictable costs of completion, disposal, and transportation. This ASU requires prospective application and is effective for fiscal years beginning after December 15, 2016, and interim periods within those fiscal years, with early adoption permitted. The adoption of this guidance by the Company is not expected to have a material impact on its consolidated financial statements.

Table of Contents

In May 2014, the FASB issued ASU 2014-09, Revenue from Contracts with Customers. The ASU is a comprehensive new revenue recognition model that requires a company to recognize revenue to depict the transfer of goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. In August 2015, the FASB issued ASU 2015-14, which deferred the effective date of the ASU to fiscal years beginning after December 15, 2017, and interim periods within those fiscal years. Early adoption is permitted for fiscal years beginning after December 15, 2016. Companies may use either a full retrospective or a modified retrospective approach to adopt this ASU. The Company is currently evaluating the transition methods and the impact of the guidance, along with subsequent clarifying guidance, on its consolidated financial statements.

NOTE 2: Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The authoritative guidance for fair value measurements establishes a three-level hierarchy, which encourages an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The three levels of the hierarchy are defined as follows:

Level 1 - inputs to the valuation techniques that are quoted prices in active markets for identical assets or liabilities

Level 2 - inputs to the valuation techniques that are other than quoted prices but are observable for the assets or liabilities, either directly or indirectly

Level 3 - inputs to the valuation techniques that are unobservable for the assets or liabilities

Assets and Liabilities that are Measured at Fair Value on a Recurring Basis

The Company's available-for-sale securities represented the only significant assets measured at fair value on a recurring basis for the years ended January 29, 2016 and January 30, 2015. The following table presents the Company's financial assets measured at fair value on a recurring basis. The fair values of these instruments approximated amortized costs.

(In millions)	Measurement Level	Fair Value Measurements at	
		January 29, 2016	January 30, 2015
Available-for-sale securities:			
Money market funds	Level 1	\$192	\$81
Certificates of deposit	Level 1	56	17
Municipal obligations	Level 2	38	21
Municipal floating rate obligations	Level 2	21	6
Total short-term investments		\$307	\$125
Available-for-sale securities:			
Municipal floating rate obligations	Level 2	\$212	\$348
Municipal obligations	Level 2	5	2
Certificates of deposit	Level 1	5	4
Total long-term investments		\$222	\$354

There were no transfers between Levels 1, 2 or 3 during any of the periods presented.

When available, quoted prices were used to determine fair value. When quoted prices in active markets were available, investments were classified within Level 1 of the fair value hierarchy. When quoted prices in active

markets were not available, fair values were determined using pricing models, and the inputs to those pricing models were based on observable market inputs. The inputs to the pricing models were typically benchmark yields, reported trades, broker-dealer quotes, issuer spreads and benchmark securities, among others.

Assets and Liabilities that are Measured at Fair Value on a Nonrecurring Basis

For the years ended January 29, 2016, and January 30, 2015, the Company's only significant assets or liabilities measured at fair value on a nonrecurring basis subsequent to their initial recognition were certain long-lived assets and equity method investments.

Table of Contents

Long-lived assets

The Company reviews the carrying amounts of long-lived assets whenever certain events or changes in circumstances indicate that the carrying amounts may not be recoverable. With input from retail store operations, the Company's accounting and finance personnel that organizationally report to the chief financial officer, assess the performance of retail stores quarterly against historical patterns and projections of future profitability for evidence of possible impairment. An impairment loss is recognized when the carrying amount of the asset (disposal) group is not recoverable and exceeds its fair value. The Company estimated the fair values of assets subject to long-lived asset impairment based on the Company's own judgments about the assumptions that market participants would use in pricing the assets and on observable market data, when available. The Company classified these fair value measurements as Level 3.

In the determination of impairment for operating locations, the Company determined the fair values of individual operating locations using an income approach, which required discounting projected future cash flows. When determining the stream of projected future cash flows associated with an individual operating location, management made assumptions, incorporating local market conditions and inputs from retail store operations, about key variables including the following unobservable inputs: sales growth rates, gross margin, controllable expenses, such as payroll and occupancy expense, and asset residual values. In order to calculate the present value of those future cash flows, the Company discounted cash flow estimates at a rate commensurate with the risk that selected market participants would assign to the cash flows. In general, the selected market participants represented a group of other retailers with a location footprint similar in size to the Company's.

During 2015, two operating locations experienced a triggering event and were determined to be impaired due to a decline in recent cash flow trends and an unfavorable sales outlook, resulting in an impairment loss of \$8 million. The discounted cash flow model used to estimate the fair value of the impaired operating locations assumed average annual sales growth rates ranging from 3.9% to 4.3% over the remaining life of the locations and applied a discount rate of approximately 6.3%.

In the determination of impairment for excess properties held-for-use and held-for-sale, which consisted of retail outparcels and property associated with relocated or closed locations, the fair values were determined using a market approach based on estimated selling prices. The Company determined the estimated selling prices by obtaining information from property brokers or appraisers in the specific markets being evaluated or negotiated non-binding offers to purchase. The information obtained from property brokers or appraisers included comparable sales of similar assets and assumptions about demand in the market for these assets.

During 2015, the Company incurred total impairment charges of \$2 million for six excess property locations. A 10% reduction in the estimated selling prices for these excess properties at the dates the locations were evaluated for impairment would have increased impairment losses by an insignificant amount.

Equity method investments

Equity method investments are evaluated for impairment whenever events or changes in circumstances indicate that a decline in value has occurred that is other than temporary. Evidence considered in this evaluation includes, but would not necessarily be limited to, the financial condition and near-term prospects of the investee, recent operating trends and forecasted performance of the investee, market conditions in the geographic area or industry in which the investee operates, and the Company's strategic plans for holding the investment in relation to the period of time expected for an anticipated recovery of its carrying value. Investments that are determined to have a decline in value deemed to be other than temporary are written down to estimated fair value.

In 2015, the Company decided to exit the Australian joint venture investment with Woolworths Limited (Woolworths) and recorded a \$530 million impairment of its equity method investment due to a determination that there was a decrease in value that was other than temporary. The Company owns a one-third share in the joint venture, Hydrox Holdings Pty Ltd., which operates Masters Home Improvement stores and Home Timber and Hardware Group's retail stores and wholesale distribution in Australia. As a result of the Company's decision to exit, Woolworths will be required to purchase the Company's one-third share in the joint venture at an agreed upon fair value as of January 18, 2016, the date on which notification of the Company's intent to exit was received by Woolworths. The process for the two parties agreeing on fair value is prescribed in the Joint Venture Agreement. Finalization of the purchase price for the Company's interest in the joint venture and completion of the sale is expected to occur in 2016. The \$530 million non-cash impairment charge was based on the Company's estimate of the value of its portion of the overall joint venture fair value. This value was determined using an income approach based on expected discounted cash flows, and was validated for reasonableness by comparison to similar transaction multiples. The Company's equity method investment balance in the Australian joint venture is classified as Level 3 because the underlying estimate of value used unobservable inputs that were significant to the fair value measurements and required management judgment due to the absence of quoted market prices. The assumptions that most significantly affect the fair value

Table of Contents

determination include projected revenues and the discount rate. The discounted cash flow model used to estimate the fair value assumed a compound annual growth rate for sales of 6.2% over the 15-year forecast period, with a terminal year growth rate assumed of 3.0%, and applied a discount rate of approximately 10.7%.

The following table presents the Company's assets measured at estimated fair value on a nonrecurring basis and the resulting impairment losses included in earnings, excluding costs to sell for excess properties held-for-sale. Because these assets subject to impairment were not measured at fair value on a recurring basis, certain fair value measurements presented in the table may reflect values at earlier measurement dates and may no longer represent the fair values at January 29, 2016 and January 30, 2015.

Fair Value Measurements - Nonrecurring Basis

(In millions)	January 29, 2016		January 30, 2015	
	Fair Value Measurements	Impairment Losses	Fair Value Measurements	Impairment Losses
Assets-held-for-use:				
Operating locations	\$4	\$(8) \$9	\$(26
Excess properties	4	(2) 11	(2
Other assets:				
Equity method investments	393	(530) N/A	N/A
Total	\$401	\$(540) \$20	\$(28

Fair Value of Financial Instruments

The Company's financial instruments not measured at fair value on a recurring basis include cash and cash equivalents, accounts receivable, accounts payable, accrued liabilities, and long-term debt and are reflected in the financial statements at cost. With the exception of long-term debt, cost approximates fair value for these items due to their short-term nature. The fair values of the Company's unsecured notes were estimated using quoted market prices. The fair values of the Company's mortgage notes were estimated using discounted cash flow analyses, based on the future cash outflows associated with these arrangements and discounted using the applicable incremental borrowing rate.

Carrying amounts and the related estimated fair value of the Company's long-term debt, excluding capitalized lease obligations, are as follows:

(In millions)	January 29, 2016		January 30, 2015	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
Unsecured notes (Level 1) ¹	\$12,073	\$13,292	\$10,850	\$12,739
Mortgage notes (Level 2)	7	8	16	17
Long-term debt (excluding capitalized lease obligations)	\$12,080	\$13,300	\$10,866	\$12,756

Prior period balances have been retrospectively adjusted as a result of the Company's adoption of ASU 2015-03,

¹ Simplifying the Presentation of Debt Issuance Costs. The adoption of the accounting standard required reclassification of debt issuance costs from other assets to long-term debt.

Table of Contents

NOTE 3: Property and Accumulated Depreciation

Property is summarized by major class in the following table:

(In millions)	Estimated Depreciable Lives, In Years	January 29, 2016	January 30, 2015
Cost:			
Land	N/A	\$7,086	\$7,040
Buildings and building improvements	5-40	17,451	17,247
Equipment	2-15	10,863	10,426
Construction in progress	N/A	513	730
Total cost		35,913	35,443
Accumulated depreciation		(16,336) (15,409
Property, less accumulated depreciation		\$19,577	\$20,034

Included in net property are assets under capital lease of \$617 million, less accumulated depreciation of \$400 million, at January 29, 2016, and \$744 million, less accumulated depreciation of \$494 million, at January 30, 2015. The related amortization expense for assets under capital lease is included in depreciation expense.

NOTE 4: Exit Activities

When locations under operating leases are closed, the Company recognizes a liability for the fair value of future contractual obligations, including future minimum lease payments, property taxes, utilities, common area maintenance and other ongoing expenses, net of estimated sublease income and other recoverable items. During 2015, the Company closed or relocated two locations subject to operating leases. In 2014, the Company did not close or relocate any locations subject to operating leases. In 2013, the Company relocated two locations subject to operating leases.

Subsequent changes to the liabilities, including changes resulting from revisions to either the timing or the amount of estimated cash flows, are recognized in the period of change. Changes to the accrual for exit activities for 2015, 2014, and 2013 are summarized as follows:

(In millions)	2015	2014	2013
Accrual for exit activities, balance at beginning of year	\$53	\$54	\$75
Additions to the accrual - net	34	14	11
Cash payments	(20) (15) (32
Accrual for exit activities, balance at end of year	\$67	\$53	\$54

NOTE 5: Short-Term Borrowings and Lines of Credit

The Company has a \$1.75 billion unsecured revolving credit agreement (the 2014 Credit Facility) with a syndicate of banks that expires in August 2019. Subject to obtaining commitments from the lenders and satisfying other conditions specified in the 2014 Credit Facility, we may increase the aggregate availability by an additional \$500 million. The 2014 Credit Facility supports our commercial paper program and has a \$500 million letter of credit sublimit. Letters of credit issued pursuant to the facility reduce the amount available for borrowing under its terms. Borrowings made are unsecured and are priced at fixed rates based upon market conditions at the time of funding in accordance with the terms of the facility. The 2014 Credit Facility contains certain restrictive covenants, which include maintenance of an adjusted debt leverage ratio as defined by the credit agreement. The Company was in compliance with those covenants at January 29, 2016. As of January 29, 2016, there were \$43 million of outstanding borrowings under the commercial paper program with a weighted average interest rate of 0.60% and no outstanding borrowings or letters of credit under the 2014 Credit Facility. As of January 30, 2015, there were no outstanding borrowings under the

Company's commercial paper program and no outstanding borrowings or letters of credit under the credit facility.

Table of Contents

NOTE 6: Long-Term Debt

Debt Category (In millions)	Weighted-Average Interest Rate at January 29, 2016	January 29, 2016	January 30, 2015 ³
Secured debt:			
Mortgage notes due through fiscal 2027 ¹	6.32	% \$7	\$16
Unsecured debt:			
Notes due through fiscal 2020	3.13	% 2,969	3,217
Notes due fiscal 2021-2025	3.50	% 3,464	2,720
Notes due fiscal 2026-2030	6.76	% 813	813
Notes due fiscal 2031-2035	5.50	% 494	494
Notes due fiscal 2036-2040 ²	6.16	% 1,537	1,536
Notes due fiscal 2041-2045	4.67	% 2,796	2,071
Capitalized lease obligations due through fiscal 2035		526	491
Total long-term debt		12,606	11,358
Less current maturities		(1,061) (552
Long-term debt, excluding current maturities		\$11,545	\$10,806

¹ Real properties with an aggregate book value of \$33 million were pledged as collateral at January 29, 2016, for secured debt.

² Amount includes \$100 million of notes issued in 1997 that may be put at the option of the holder on the 20th anniversary of the issue at par value. None of these notes are currently puttable.

³ In connection with the Company's adoption of ASU 2015-03, Simplifying the Presentation of Debt Issuance Costs, prior year debt balances have been retrospectively adjusted to include a direct deduction of unamortized debt issuance costs. Prior to the Company's adoption of ASU 2015-03, these unamortized debt issuance costs were included in other assets on the Company's consolidated balance sheets.

Debt maturities, exclusive of unamortized original issue discounts, unamortized debt issuance costs, and capitalized lease obligations, for the next five years and thereafter are as follows: 2016, \$1.0 billion; 2017, \$751 million; 2018, \$251 million; 2019, \$450 million; 2020, \$501 million; thereafter, \$9.2 billion.

The Company's unsecured notes are issued under indentures that have generally similar terms and, therefore, have been grouped by maturity date for presentation purposes in the table above. The notes contain certain restrictive covenants, none of which is expected to impact the Company's capital resources or liquidity. The Company was in compliance with all covenants of these agreements at January 29, 2016.

In September 2013, the Company issued \$1.0 billion of unsecured notes in two tranches: \$500 million of 3.875% notes maturing in September 2023 and \$500 million of 5.0% notes maturing in September 2043. The 2023 and 2043 notes were issued at discounts of approximately \$5 million and \$9 million, respectively. Interest on these notes is payable semiannually in arrears in March and September of each year until maturity, beginning in March 2014.

In September 2014, the Company issued \$1.25 billion of unsecured notes in three tranches: \$450 million of floating rate notes maturing in September 2019; \$450 million of 3.125% notes maturing in September 2024; and \$350 million of 4.25% notes maturing in September 2044. The 2019, 2024, and 2044 Notes were issued at discounts of approximately \$2 million, \$6 million, and \$4 million, respectively. The 2019 Notes will bear interest at a floating rate, reset quarterly, equal to the three-month LIBOR plus 0.420% (0.907% as of January 29, 2016). Interest on the 2019 Notes is payable quarterly in arrears in March, June, September, and December of each year until maturity, beginning in December 2014. Interest on the 2024 and 2044 Notes is payable semiannually in arrears in March and September of each year until maturity, beginning in March 2015.

In September 2015, the Company issued \$1.75 billion of unsecured notes in three tranches: \$250 million of floating rate notes maturing in September 2018; \$750 million of 3.375% notes maturing in September 2025; and \$750 million of 4.375% notes maturing in September 2045. The 2018, 2025, and 2045 Notes were issued at discounts of approximately \$1 million, \$8 million, and \$24 million, respectively. The 2018 Notes will bear interest at a floating rate, reset quarterly, equal to the three-month LIBOR plus 0.600% (1.102% as of January 29, 2016). Interest on the 2018 Notes is payable quarterly in arrears in

Table of Contents

March, June, September, and December of each year until maturity, beginning in December 2015. Interest on the 2025 and 2045 Notes is payable semiannually in arrears in March and September of each year until maturity, beginning in March 2016.

The discounts associated with these issuances, which include the underwriting and issuance discounts, are recorded in long-term debt and are being amortized over the respective terms of the notes.

The indentures governing the notes issued in 2015, 2014, and 2013 contain a provision that allows the Company to redeem the notes at any time, in whole or in part, at specified redemption prices plus accrued interest to the date of redemption, with the exception of the 2019 Notes (issued in 2014) and the 2018 Notes (issued in 2015). We do not have the right to redeem the 2019 Notes or the 2018 Notes prior to maturity. The indentures also contain a provision that allows the holders of the notes to require the Company to repurchase all or any part of their notes if a change of control triggering event (as defined in the indentures) occurs. If elected under the change of control provisions, the repurchase of the notes will occur at a purchase price of 101% of the principal amount, plus accrued and unpaid interest, if any, on such notes to the date of purchase. The indentures governing the notes do not limit the aggregate principal amount of debt securities that the Company may issue and do not require the Company to maintain specified financial ratios or levels of net worth or liquidity.

NOTE 7: Shareholders' Equity

Authorized shares of preferred stock were 5.0 million (\$5 par value) at January 29, 2016, and January 30, 2015, none of which have been issued. The Board of Directors may issue the preferred stock (without action by shareholders) in one or more series, having such voting rights, dividend and liquidation preferences, and such conversion and other rights as may be designated by the Board of Directors at the time of issuance.

Authorized shares of common stock were 5.6 billion (\$.50 par value) at January 29, 2016, and January 30, 2015.

The Company has a share repurchase program that is executed through purchases made from time to time either in the open market or through private off-market transactions. Shares purchased under the repurchase program are retired and returned to authorized and unissued status. On January 31, 2014, the Company's Board of Directors authorized a \$5.0 billion share repurchase program with no expiration, which was announced on February 24, 2014. On March 20, 2015, the Company's Board of Directors authorized an additional \$5.0 billion under the repurchase program with no expiration, which was announced on the same day. As of January 29, 2016, the Company had \$3.6 billion remaining under the program.

During the year ended January 29, 2016, the Company entered into Accelerated Share Repurchase (ASR) agreements with third-party financial institutions to repurchase a total of 28.4 million shares of the Company's common stock for \$2.0 billion. At inception, the Company paid the financial institutions using cash on hand and took initial delivery of shares. Under the terms of the ASR agreements, upon settlement, the Company would either receive additional shares from the financial institution or be required to deliver additional shares or cash to the financial institution. The Company controlled its election to either deliver additional shares or cash to the financial institution and was subject to provisions which limited the number of shares the Company would be required to deliver.

The final number of shares received upon settlement of each ASR agreement was determined with reference to the volume-weighted average price of the Company's common stock over the term of the ASR agreement. The initial repurchase of shares under these agreements resulted in an immediate reduction of the outstanding shares used to calculate the weighted-average common shares outstanding for basic and diluted earnings per share.

These ASR agreements were accounted for as treasury stock transactions and forward stock purchase contracts. The par value of the shares received was recorded as a reduction to common stock with the remainder recorded as a reduction to capital in excess of par value and retained earnings. The forward stock purchase contracts were considered indexed to the Company's own stock and were classified as equity instruments.

During the year ended January 29, 2016, the Company also repurchased shares of its common stock through the open market totaling 25.2 million shares for a cost of \$1.8 billion.

The Company also withholds shares from employees to satisfy either the exercise price of stock options exercised or the statutory withholding tax liability resulting from the vesting of restricted stock awards and performance share units.

Table of Contents

Shares repurchased for 2015 and 2014 were as follows:

(In millions)	2015		2014	
	Shares	Cost ¹	Shares	Cost ¹
Share repurchase program	53.6	\$3,811	73.8	\$3,880
Shares withheld from employees	0.9	67	0.9	47
Total share repurchases	54.5	\$3,878	74.7	\$3,927

¹ Reductions of \$3.6 billion were recorded to retained earnings, after capital in excess of par value was depleted, for both 2015 and 2014.

NOTE 8: Accounting for Share-Based Payments

Overview of Share-Based Payment Plans

The Company has a number of active and inactive equity incentive plans (the Incentive Plans) under which the Company has been authorized to grant share-based awards to key employees and non-employee directors. The Company also has an employee stock purchase plan (the ESPP) that allows employees to purchase Company shares at a discount through payroll deductions. All of these plans contain a nondiscretionary anti-dilution provision that is designed to equalize the value of an award as a result of any stock dividend, stock split, recapitalization, or any other similar equity restructuring.

A total of 199.0 million shares have been previously authorized for grant to key employees and non-employee directors under all of the Company's Incentive Plans, but only 80.0 million of those shares were authorized for grants of share-based awards under the Company's currently active Incentive Plans. In addition, a total of 70.0 million shares have been previously authorized for purchases by employees participating in the ESPP.

At January 29, 2016, there were 36.1 million shares remaining available for grants under the currently active Incentive Plans and 24.3 million shares remaining available for purchases under the ESPP.

The Company recognized share-based payment expense within SG&A expense in the consolidated statements of earnings of \$117 million, \$119 million, and \$100 million in 2015, 2014 and 2013 respectively. The total associated income tax benefit recognized was \$38 million, \$39 million and \$32 million in 2015, 2014 and 2013, respectively.

Total unrecognized share-based payment expense for all share-based payment plans was \$165 million at January 29, 2016, of which \$97 million will be recognized in 2016, \$49 million in 2017 and \$19 million thereafter. This results in these amounts being recognized over a weighted-average period of 1.9 years.

For all share-based payment awards, the expense recognized has been adjusted for estimated forfeitures where the requisite service is not expected to be provided. Estimated forfeiture rates are developed based on the Company's analysis of historical forfeiture data for homogeneous employee groups.

General terms and methods of valuation for the Company's share-based awards are as follows:

Stock Options

Stock options have terms of seven or 10 years, with one-third of each grant vesting each year for three years, and are assigned an exercise price equal to the closing market price of a share of the Company's common stock on the date of grant. Options are expensed on a straight-line basis over the grant vesting period, which is considered to be the requisite service period.

Table of Contents

The fair value of each option grant is estimated on the date of grant using the Black-Scholes option-pricing model. When determining expected volatility, the Company considers the historical volatility of the Company's stock price, as well as implied volatility. The risk-free interest rate is based on the U.S. Treasury yield curve in effect at the time of grant, based on the options' expected term. The expected term of the options is based on the Company's evaluation of option holders' exercise patterns and represents the period of time that options are expected to remain unexercised. The Company uses historical data to estimate the timing and amount of forfeitures. The weighted average assumptions used in the Black-Scholes option-pricing model and weighted-average grant date fair value for options granted in 2015, 2014, and 2013 are as follows:

	2015	2014	2013	
Weighted-average assumptions used:				
Expected volatility	31.3	% 34.2	% 34.2	%
Dividend yield	1.69	% 1.73	% 1.45	%
Risk-free interest rate	1.99	% 2.26	% 1.31	%
Expected term, in years	7.00	7.00	7.39	
Weighted-average grant date fair value	\$20.27	\$17.00	\$12.24	

The total intrinsic value of options exercised, representing the difference between the exercise price and the market price on the date of exercise, was approximately \$68 million, \$62 million and \$48 million in 2015, 2014 and 2013, respectively.

Transactions related to stock options for the year ended January 29, 2016 are summarized as follows:

	Shares (In thousands)	Weighted-Average Exercise Price Per Share	Weighted-Average Remaining Term (In years)	Aggregate Intrinsic Value (In thousands)
Outstanding at January 30, 2015	6,311	\$ 35.98		
Granted	862	69.44		
Canceled, forfeited or expired	(215)) 54.21		
Exercised	(1,527)) 30.26		
Outstanding at January 29, 2016	5,431	\$ 42.18	6.04	\$ 160,105
Vested and expected to vest at January 29, 2016 ¹	5,357	\$ 41.91	6.00	\$ 159,387
Exercisable at January 29, 2016	3,200	\$ 32.88	4.28	\$ 124,067

¹ Includes outstanding vested options as well as outstanding nonvested options after a forfeiture rate is applied.

Restricted Stock Awards

Restricted stock awards are valued at the market price of a share of the Company's common stock on the date of grant. In general, these awards vest at the end of a three year period from the date of grant and are expensed on a straight-line basis over that period, which is considered to be the requisite service period. The Company uses historical data to estimate the timing and amount of forfeitures. The weighted-average grant-date fair value per share of restricted stock awards granted was \$69.44, \$53.13 and \$41.78 in 2015, 2014, and 2013, respectively. The total fair value of restricted stock awards vesting was approximately \$144 million, \$114 million and \$98 million in 2015, 2014 and 2013, respectively.

Table of Contents

Transactions related to restricted stock awards for the year ended January 29, 2016 are summarized as follows:

	Shares (In thousands)	Weighted-Average Grant-Date Fair Value Per Share
Nonvested at January 30, 2015	5,574	\$ 39.91
Granted	997	69.44
Vested	(1,959)) 29.28
Canceled or forfeited	(401)) 48.18
Nonvested at January 29, 2016	4,211	\$ 51.06

Deferred Stock Units

Deferred stock units are valued at the market price of a share of the Company's common stock on the date of grant. For non-employee Directors, these awards vest immediately and are expensed on the grant date. During 2015, 2014 and 2013, each non-employee Director was awarded a number of deferred stock units determined by dividing the annual award amount by the fair market value of a share of the Company's common stock on the award date and rounding up to the next 100 units. The annual award amount used to determine the number of deferred stock units granted to each Director was \$150,000 for 2015, 2014, and 2013. During 2015, 22,000 deferred stock units were granted and immediately vested for non-employee Directors. The weighted-average grant-date fair value per share of deferred stock units granted was \$69.98, \$47.08 and \$42.11 in 2015, 2014 and 2013, respectively. The total fair value of deferred stock units vested was \$1.5 million in 2015, 2014, and 2013. During 2015, 0.1 million of fully vested deferred stock units were released as a result of termination of service. At January 29, 2016, there were 0.4 million deferred stock units outstanding, all of which were vested.

Performance Share Units

The Company has issued two types of Performance Share Units - those based on the achievement of targeted Company return on non-cash average assets (RONCAA) and those based on targeted Company improvement in brand differentiation. Performance share units do not have dividend rights. In general, upon the achievement of a minimum threshold, 50% to 150% of these awards vest at the end of a three year service period from the date of grant based upon achievement of the performance goal specified in the performance share unit agreement.

Performance share units are expensed on a straight-line basis over the requisite service period, based on the probability of achieving the performance goal, with changes in expectations recognized as an adjustment to earnings in the period of the change. If the performance goal is not met, no compensation cost is recognized and any previously recognized compensation cost is reversed. The Company uses historical data to estimate the timing and amount of forfeitures.

RONCAA Awards

Performance share units issued based on the achievement of targeted RONCAA, which is considered a performance condition, are classified as equity awards and are valued at the market price of a share of the Company's common stock on the date of grant less the present value of dividends expected during the requisite service period. The weighted-average grant-date fair value per unit of performance share units classified as equity awards granted was \$71.52, \$47.05 and \$36.48 in 2015, 2014 and 2013, respectively. The total fair value of performance share units vested in 2015 was approximately \$25 million. No performance share units vested in 2014 or 2013.

Table of Contents

Transactions related to performance share units classified as equity awards for the year ended January 29, 2016 are summarized as follows:

	Units (In thousands) ¹	Weighted-Average Grant-Date Fair Value Per Unit
Nonvested at January 30, 2015	957	\$ 37.00
Granted	257	71.52
Vested	(327)) 26.66
Canceled or forfeited	(95)) 49.77
Nonvested at January 29, 2016	792	\$ 50.93

The number of units presented is based on achieving the targeted performance goals as defined in the performance¹ share unit agreements. As of January 29, 2016, the maximum number of nonvested units that could vest under the provisions of the agreements was 1.2 million for the RONCAA awards.

Brand Differentiation Awards

Performance share units issued based on targeted Company improvement in brand differentiation, which is not considered a market, performance, or service related condition, are classified as liability awards and are measured at fair value at each reporting date. The awards are valued at the market price of a share of the Company's common stock at the end of each reporting period less the present value of dividends expected to be issued during the remaining requisite service period. No performance share units classified as liability awards were granted in 2015 or 2014. The weighted-average grant-date fair value per unit of performance share units classified as liability awards granted in 2013 was \$36.48. No performance share units vested in 2015, 2014, or 2013. The total liability for performance share units classified as liability awards at January 29, 2016 was \$13 million.

Transactions related to performance share units classified as liability awards for the year ended January 29, 2016 are summarized as follows:

	Units (In thousands) ¹	Weighted-Average Grant-Date Fair Value Per Unit
Nonvested at January 30, 2015	300	\$ 31.20
Canceled or forfeited	(173)) 27.36
Nonvested at January 29, 2016	127	\$ 36.47

The number of units presented is based on achieving the targeted performance goals as defined in the performance¹ share unit agreements. As of January 29, 2016, the maximum number of nonvested units that could vest under the provisions of the agreements was 0.2 million units for the brand differentiation awards.

Restricted Stock Units

Restricted stock units do not have dividend rights and are valued at the market price of a share of the Company's common stock on the date of grant less the present value of dividends expected during the requisite service period. In general, these awards vest at the end of a three year period from the date of grant and are expensed on a straight-line basis over that period, which is considered to be the requisite service period. The Company uses historical data to estimate the timing and amount of forfeitures. The weighted-average grant-date fair value per share of restricted stock units granted was \$66.24, \$50.48 and \$41.53 in 2015, 2014 and 2013, respectively. The total fair value of restricted stock units vesting was approximately \$3.5 million, \$1.6 million, and \$3.4 million in 2015, 2014 and 2013, respectively.

Table of Contents

Transactions related to restricted stock units for the year ended January 29, 2016 are summarized as follows:

	Shares (In thousands)	Weighted-Average Grant-Date Fair Value Per Share
Nonvested at January 30, 2015	285	\$ 43.00
Granted	104	66.24
Vested	(49) 28.05
Canceled or forfeited	(26) 48.87
Nonvested at January 29, 2016	314	\$ 52.52

ESPP

The purchase price of the shares under the ESPP equals 85% of the closing price on the date of purchase. The Company's share-based payment expense per share is equal to 15% of the closing price on the date of purchase. The ESPP is considered a liability award and is measured at fair value at each reporting date, and the share-based payment expense is recognized over the six-month offering period. During 2015, the Company issued 1.3 million shares of common stock and recognized \$14 million of share-based payment expense pursuant to the plan.

NOTE 9: Employee Retirement Plans

The Company maintains a defined contribution retirement plan for its eligible employees (the 401(k) Plan). Employees are eligible to participate in the 401(k) Plan six months after their original date of service. Eligible employees hired or rehired prior to November 1, 2012, were automatically enrolled in the 401(k) Plan at a contribution rate of 1% of their pre-tax annual compensation unless they elected otherwise. Eligible employees hired or rehired November 1, 2012, or later must make an active election to participate in the 401(k) Plan. The Company makes contributions to the 401(k) Plan each payroll period, based upon a matching formula applied to employee deferrals (the Company Match). Participants are eligible to receive the Company Match pursuant to the terms of the 401(k) Plan. The Company Match varies based on how much the employee elects to defer up to a maximum of 4.25% of eligible compensation. The Company Match is invested identically to employee contributions and is immediately vested.

The Company maintains a Benefit Restoration Plan to supplement benefits provided under the 401(k) Plan to participants whose benefits are restricted as a result of certain provisions of the Internal Revenue Code of 1986. This plan provides for employee salary deferrals and employer contributions in the form of a Company Match.

The Company maintains a non-qualified deferred compensation program called the Lowe's Cash Deferral Plan. This plan is designed to permit certain employees to defer receipt of portions of their compensation, thereby delaying taxation on the deferral amount and on subsequent earnings until the balance is distributed. This plan does not provide for Company contributions.

The Company recognized expense associated with employee retirement plans of \$155 million, \$154 million and \$160 million in 2015, 2014 and 2013, respectively.

NOTE 10: Income Taxes

The following is a reconciliation of the federal statutory tax rate to the effective tax rate:

	2015	2014	2013	
Statutory federal income tax rate	35.0	% 35.0	% 35.0	%
State income taxes, net of federal tax benefit	3.6	3.3	2.9	

Edgar Filing: LOWES COMPANIES INC - Form 10-K

Valuation allowance - impairment	4.2	—	—
Other, net	(0.4) (1.4) (0.1
Effective tax rate	42.4	% 36.9	% 37.8

57

Table of Contents

The components of the income tax provision are as follows:

(In millions)	2015	2014	2013	
Current:				
Federal	\$1,688	\$1,475	\$1,342	
State	248	221	203	
Total current	1,936	1,696	1,545	
Deferred:				
Federal	(59) (112) (133)
State	(4) (6) (25)
Total deferred	(63) (118) (158)
Total income tax provision	\$1,873	\$1,578	\$1,387	

The tax effects of cumulative temporary differences that gave rise to the deferred tax assets and liabilities were as follows:

(In millions)	January 29, 2016	January 30, 2015	
Deferred tax assets:			
Self-insurance	\$369	\$378	
Share-based payment expense	83	81	
Deferred rent	91	88	
Impairment of equity method investment	270	—	
Foreign currency translation	107	62	
Net operating losses	159	152	
Other, net	156	131	
Total deferred tax assets	1,235	892	
Valuation allowance	(447) (170)
Net deferred tax assets	788	722	
Deferred tax liabilities:			
Property	(507) (534)
Other, net	(40) (55)
Total deferred tax liabilities	(547) (589)
Net deferred tax asset	\$241	\$133	

As of January 29, 2016, the Company reported a deferred tax asset of \$270 million related to its intention to exit from the Company's joint venture investment in Australia. The Company established a full valuation allowance against the deferred tax asset related to these losses generated from impairments and equity method losses. These losses are collectively considered capital losses, having a five year carryforward period, and can only be used to offset capital gain income. No present or future capital gains have been identified through which this deferred tax asset can be realized.

The Company operates as a branch in various foreign jurisdictions and cumulatively has incurred net operating losses of \$580 million and \$557 million as of January 29, 2016, and January 30, 2015, respectively. These net operating losses are subject to expiration in 2017 through 2035. Deferred tax assets have been established for these foreign net operating losses in the accompanying consolidated balance sheets. Given the uncertainty regarding the realization of the foreign net deferred tax assets, the Company recorded cumulative valuation allowances of \$177 million and \$170 million as of January 29, 2016, and January 30, 2015, respectively.

The Company has not provided for deferred income taxes on accumulated but undistributed earnings of the Company's foreign operations of approximately \$153 million and \$112 million as of January 29, 2016, and January 30, 2015, respectively, due to its intention to permanently reinvest these earnings outside the U.S. It is not practicable to determine the income tax liability

58

Table of Contents

that would be payable on these earnings. The Company will provide for deferred or current income taxes on such earnings in the period it determines requisite to remit those earnings.

A reconciliation of the beginning and ending balances of unrecognized tax benefits is as follows:

(In millions)	2015	2014	2013	
Unrecognized tax benefits, beginning of year	\$7	\$62	\$63	
Additions for tax positions of prior years	—	2	—	
Reductions for tax positions of prior years	(2) (57) —	
Settlements	(2) —	(1)
Unrecognized tax benefits, end of year	\$3	\$7	\$62	

The amounts of unrecognized tax benefits that, if recognized, would favorably impact the effective tax rate were \$2 million and \$4 million as of January 29, 2016, and January 30, 2015, respectively.

The Company recognized \$1 million of interest income related to uncertain tax positions during 2015 and 2014. The Company recognized \$6 million of interest expense related to uncertain tax positions during 2013. As of January 29, 2016 and January 30, 2015, the Company had accrued interest related to uncertain tax positions of \$1 million and \$2 million, respectively. Penalties recognized related to uncertain tax positions were insignificant for 2015, 2014, and 2013. Accrued penalties were also insignificant as of January 29, 2016 and January 30, 2015.

The Company is subject to examination by various foreign and domestic taxing authorities. During 2015, the Company's 2012 Federal tax return was audited by the Internal Revenue Service. This limited scope audit resulted in an assessment of \$14 million. It is reasonably possible that the Company will resolve \$3 million in state related audit items within the next 12 months. There are ongoing U.S. state audits covering tax years 2008 to 2014. An audit of the Company's Canadian operations by the Canada Revenue Agency for fiscal years 2009 and 2010 was closed during the year with no assessment being rendered. The Company remains subject to income tax examinations for international income taxes for fiscal years 2007 through 2014. The Company believes appropriate provisions for all outstanding issues have been made for all jurisdictions and all open years.

Note 11: Earnings Per Share

The Company calculates basic and diluted earnings per common share using the two-class method. Under the two-class method, net earnings are allocated to each class of common stock and participating security as if all of the net earnings for the period had been distributed. The Company's participating securities consist of share-based payment awards that contain a nonforfeitable right to receive dividends and, therefore, are considered to participate in undistributed earnings with common shareholders.

Table of Contents

Basic earnings per common share excludes dilution and is calculated by dividing net earnings allocable to common shares by the weighted-average number of common shares outstanding for the period. Diluted earnings per common share is calculated by dividing net earnings allocable to common shares by the weighted-average number of common shares as of the balance sheet date, as adjusted for the potential dilutive effect of non-participating share-based awards. The following table reconciles earnings per common share for 2015, 2014 and 2013:

(In millions, except per share data)	2015	2014	2013
Basic earnings per common share:			
Net earnings	\$2,546	\$2,698	\$2,286
Less: Net earnings allocable to participating securities	(12) (16) (16
Net earnings allocable to common shares, basic	\$2,534	\$2,682	\$2,270
Weighted-average common shares outstanding	927	988	1,059
Basic earnings per common share	\$2.73	\$2.71	\$2.14
Diluted earnings per common share:			
Net earnings	\$2,546	\$2,698	\$2,286
Less: Net earnings allocable to participating securities	(12) (16) (16
Net earnings allocable to common shares, diluted	\$2,534	\$2,682	\$2,270
Weighted-average common shares outstanding	927	988	1,059
Dilutive effect of non-participating share-based awards	2	2	2
Weighted-average common shares, as adjusted	929	990	1,061
Diluted earnings per common share	\$2.73	\$2.71	\$2.14

Stock options to purchase 0.3 million, 0.6 million and 1.9 million shares of common stock for 2015, 2014 and 2013, respectively, were excluded from the computation of diluted earnings per common share because their effect would have been anti-dilutive.

NOTE 12: Leases

The Company leases facilities and land for certain facilities under agreements with original terms generally of 20 years. The leases generally contain provisions for four to six renewal options of five years each. Some lease agreements also provide for contingent rentals based on sales performance in excess of specified minimums or on changes in the consumer price index. Contingent rentals were not significant for any of the periods presented. The Company subleases certain properties that are not used in its operations. Sublease income was not significant for any of the periods presented.

The future minimum rental payments required under operating leases and capitalized lease obligations having initial or remaining non-cancelable lease terms in excess of one year are summarized as follows:

(In millions)	Operating	Capitalized	
Fiscal Year	Leases	Lease	Total
		Obligations	
2016	\$494	\$76	\$570
2017	489	65	554
2018	470	62	532
2019	440	60	500
2020	415	58	473
Later years	3,086	670	3,756
Total minimum lease payments	\$5,394	\$991	\$6,385
Less amount representing interest		(465)
Present value of minimum lease payments		526	
Less current maturities		(34)

Present value of minimum lease payments, less current maturities	\$492
--	-------

60

Table of Contents

Rental expenses under operating leases were \$473 million, \$445 million and \$421 million in 2015, 2014 and 2013, respectively, and were recognized within SG&A expense. Excluded from these amounts are rental expenses associated with closed locations which were recognized as exit costs in the period of closure.

NOTE 13: Commitments and Contingencies

The Company is, from time to time, party to various legal proceedings considered to be in the normal course of business, none of which, individually or in the aggregate, are expected to be material to the Company's financial statements. In evaluating liabilities associated with its various legal proceedings, the Company has accrued for probable liabilities associated with these matters. The amounts accrued were not material to the Company's consolidated financial statements in any of the years presented. Reasonably possible losses for any of the individual legal proceedings which have not been accrued were not material to the Company's consolidated financial statements.

As of January 29, 2016, the Company had non-cancelable commitments of \$1,046 million related to certain marketing and information technology programs, and purchases of merchandise inventory. Payments under these commitments are scheduled to be made as follows: 2016, \$718 million; 2017, \$115 million; 2018, \$58 million; 2019, \$54 million; 2020, \$57 million; thereafter, \$44 million.

At January 29, 2016, the Company held standby and documentary letters of credit issued under banking arrangements which totaled \$67 million. The majority of the Company's letters of credit were issued for insurance contracts.

NOTE 14: Related Parties

A member of the Company's Board of Directors also serves on the Board of Directors of a vendor that provides branded consumer packaged goods to the Company. The Company purchased products from this vendor in the amount of \$153 million in 2015, \$151 million in 2014, and \$145 million in 2013. Amounts payable to this vendor were insignificant at January 29, 2016 and January 30, 2015.

A member of the Company's Board of Directors also serves on the Board of Directors of a vendor that provides certain services to the Company related to health and welfare benefit plans. The Company made payments to this vendor in the amount of \$58 million in 2015, \$56 million in 2014, and \$15 million in 2013. Amounts payable to this vendor were insignificant at January 29, 2016 and January 30, 2015.

A brother-in-law of the Company's former Chief Customer Officer was a senior officer and shareholder of a vendor that provides millwork and other building products to the Company. This was no longer considered a related party relationship in 2015. The Company purchased products from this vendor in the amount of \$80 million in 2014 and \$70 million in 2013. Amounts payable to this vendor were \$11 million at January 30, 2015.

NOTE 15: Other Information

Net interest expense is comprised of the following:

(In millions)	2015	2014	2013	
Long-term debt	\$505	\$470	\$431	
Capitalized lease obligations	42	42	40

NOTE 16: Subsequent Events

On February 2, 2016, the Company entered into a definitive agreement to acquire all of the issued and outstanding common shares of RONA inc. (RONA) for C\$24 per share in cash and preferred shares for C\$20 per share in cash, for a total transaction price of approximately C\$3.2 billion. RONA is one of Canada's largest retailers and distributors of hardware, building materials, home renovation, and gardening products. The transaction has been unanimously approved by the Boards of Directors of Lowe's and RONA and is supported by the management teams of both companies; however, the transaction is subject to both shareholder and regulatory approvals. The transaction is expected to close in fiscal year 2016.

SUPPLEMENTARY DATA

Selected Quarterly Data (UNAUDITED)

The following table summarizes the quarterly consolidated results of operations for 2015 and 2014:

(In millions, except per share data)	2015			
	First	Second	Third	Fourth
Net sales	\$14,129	\$17,348	\$14,360	\$13,236
Gross margin	5,012	5,981	4,990	4,588
Net earnings	673	1,126	736	11
Basic earnings per common share	0.70	1.20	0.80	0.01
Diluted earnings per common share	\$0.70	\$1.20	\$0.80	\$0.01
	2014			
(In millions, except per share data)	First	Second	Third	Fourth
Net sales	\$13,403	\$16,599	\$13,681	\$12,540
Gross margin	4,758	5,735	4,718	4,346
Net earnings	624	1,039	585	450
Basic earnings per common share	0.61	1.04	0.59	0.46
Diluted earnings per common share	\$0.61	\$1.04	\$0.59	\$0.46

During the fourth quarter, the Company decided to exit its Australian joint venture investment with Woolworths and ¹ recorded a \$530 million impairment of its equity method investment due to the determination that there was a decrease in value that was other than temporary.

Item 9 - Changes in and Disagreements with Accountants on Accounting and Financial Disclosure

None.

Item 9A - Controls and Procedures

The Company's management, with the participation of the Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of the Company's "disclosure controls and procedures", (as such term is defined in Rule 13a-15(e) promulgated under the Securities Exchange Act of 1934, as amended, (the Exchange Act)). Based upon their evaluation, the Chief Executive Officer and Chief Financial Officer concluded that, as of the end of the period covered by this report, the Company's disclosure controls and procedures were effective for the purpose of ensuring that the information required to be disclosed in the reports that the Company files or submits under the Exchange Act with the Securities and Exchange Commission (the SEC) (1) is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and (2) is accumulated and communicated to the Company's management, including its principal executive and principal financial officers, as appropriate to allow timely decisions regarding required disclosure.

Management's report on internal control over financial reporting (as such term is defined in Rule 13a-15(f) under the Exchange Act) and the report of Deloitte & Touche LLP, the Company's independent registered public accounting firm, are included in Item 8 of this Annual Report on Form 10-K.

In addition, no change in the Company's internal control over financial reporting occurred during the fiscal fourth quarter ended January 29, 2016 that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

Item 9B - Other Information

None.

Part III

Item 10 - Directors, Executive Officers and Corporate Governance

Information required by this item is furnished by incorporation by reference to all information under the captions “Shareholder Engagement - Proxy Access”, “Proposal 1: Election of Directors”, “Information About the Board of Directors and Committees of the Board”, “Section 16(a) Beneficial Ownership Reporting Compliance”, and “Additional Information - Shareholder Proposals for the 2017 Annual Meeting” in the definitive Proxy Statement for the 2016 annual meeting of shareholders, which will be filed with the SEC within 120 days after the fiscal year ended January 29, 2016 (the Proxy Statement). The information required by this item with respect to our executive officers appears in Part I of this Annual Report on Form 10-K under the caption, “Executive Officers and Certain Significant Employees of the Registrant”.

We have adopted a written code of business conduct and ethics, which is intended to qualify as a “code of ethics” within the meaning of Item 406 of Regulations S-K of the Exchange Act, which we refer to as the Lowe’s Code of Business Conduct and Ethics (the Code). The Code applies to all employees of the Company, including our principal executive officer, principal financial officer, principal accounting officer or persons performing similar functions. The Code is designed to ensure that the Company’s business is conducted in a legal and ethical manner. The Code covers all areas of professional conduct, including compliance with laws and regulations, conflicts of interest, fair dealing among customers and suppliers, corporate opportunity, confidential information, insider trading, employee relations, and accounting complaints. The full text of the Code can be found on our website at www.Lowe.com, under the “About Lowe’s”, “Investors”, and “Governance - Code of Business Conduct and Ethics” captions. You can also obtain a copy of the complete Code by contacting Investor Relations at 1-800-813-7613.

We will disclose information pertaining to amendments or waivers to provisions of the Code that apply to our principal executive officer, principal financial officer, principal accounting officer or persons performing similar functions and that relate to any element of the Code enumerated in the SEC rules and regulations by posting this information on our website at www.Lowe.com. The information on our website is not a part of this Annual Report on Form 10-K and is not incorporated by reference in this report or any of our other filings with the SEC.

Item 11 - Executive Compensation

Information required by this item is furnished by incorporation by reference to all information under the captions “Information About the Board of Directors and Committees of the Board – Compensation of Directors”, “Compensation Discussion and Analysis”, and “Compensation Committee Report” in the Proxy Statement.

Item 12 - Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters

Information required by this item is furnished by incorporation by reference to all information under the captions “Security Ownership of Certain Beneficial Owners and Management” and “Equity Compensation Plan Information” in the Proxy Statement.

Item 13 - Certain Relationships and Related Transactions, and Director Independence

Information required by this item is furnished by incorporation by reference to all information under the captions “Information About the Board of Directors and Committees of the Board – Director Independence” and “Related Person Transactions” in the Proxy Statement.

Item 14 - Principal Accountant Fees and Services

Information required by this item is furnished by incorporation by reference to all information under the caption “Audit Matters – Fees Paid to the Independent Registered Public Accounting Firm” in the Proxy Statement.

SCHEDULE II - VALUATION AND QUALIFYING ACCOUNTS AND RESERVES

(In Millions)	Balance at beginning of period	Charges to costs and expenses		Deductions	Balance at end of period
January 29, 2016:					
Reserve for loss on obsolete inventory	\$52	\$—		\$(6) ¹	\$46
Reserve for inventory shrinkage	162	345		(336) ²	171
Reserve for sales returns	65	1	³	—	66
Deferred tax valuation allowance	170	277	⁴	—	447
Self-insurance liabilities	905	1,357		(1,379) ⁵	883
Reserve for exit activities	53	34		(20) ⁶	67
January 30, 2015:					
Reserve for loss on obsolete inventory	\$68	\$—		\$(16) ¹	\$52
Reserve for inventory shrinkage	158	326		(322) ²	162
Reserve for sales returns	58	7	³	—	65
Deferred tax valuation allowance	164	6	⁴	—	170
Self-insurance liabilities	904	1,323		(1,322) ⁵	905
Reserve for exit activities	54	14		(15) ⁶	53
January 31, 2014:					
Reserve for loss on obsolete inventory	\$57	\$11	¹	\$—	\$68
Reserve for inventory shrinkage	142	325		(309) ²	158
Reserve for sales returns	59	—		(1) ³	58
Deferred tax valuation allowance	142	22	⁴	—	164
Self-insurance liabilities	899	1,164		(1,159) ⁵	904
Reserve for exit activities	75	11		(32) ⁶	54

¹ Represents the net increase/(decrease) in the required reserve based on the Company's evaluation of obsolete inventory.

² Represents the actual inventory shrinkage experienced at the time of physical inventories.

³ Represents the net increase/(decrease) in the required reserve based on the Company's evaluation of anticipated merchandise returns.

⁴ Represents an increase in the required reserve based on the Company's evaluation of deferred tax assets.

⁵ Represents claim payments for self-insured claims.

⁶ Represents lease payments, net of sublease income.
