Item 1.01 Entry into a Material Definitive Agreement.

On February 17, 2014 (the "Execution Date"), Magellan Petroleum Corporation (the "Company") and its subsidiaries Magellan Petroleum Australia Pty Ltd ("MPA"), Magellan Petroleum (N.T.) Pty. Ltd. ("MPNT"), and Jarl Pty. Ltd. ("Jarl") entered into a Share Sale and Purchase Deed (the "Sale Deed") with Central Petroleum Limited and Central Petroleum PVD Pty. Ltd (collectively, "Central") for the sale of the Company's interests in MPNT and other assets associated with MPA's Palm Valley and Dingo gas fields ("Palm Valley" and "Dingo," respectively) to Central in exchange for AUD \$35.0 million in consideration and the potential for additional bonus consideration (the "Transaction").

Pursuant to the terms of the Sale Deed, MPA will sell to Central all of the outstanding shares of MPNT, the Company's wholly owned subsidiary through MPA that owns undivided interests in the production and retention licenses corresponding to the Palm Valley and Dingo gas fields. MPA will also sell certain personal property associated with the Palm Valley and Dingo gas fields. In exchange, Central will pay to the Company consideration of AUD \$35.0 million in cash and stock of Central. Of this consideration, AUD \$20.0 million is payable in cash and AUD \$15.0 million is payable in Central stock upon transaction completion ("Completion"). The cash consideration will be paid in two tranches: AUD \$15.0 million at Completion and AUD \$5.0 million (the "Second Installment") on or before April 15, 2014. Completion is expected to occur no later than March 31, 2014, and is subject to certain customary completion conditions.

Central is a Brisbane, Australia based, ASX-listed junior exploration and production company that operates the largest holding of prospective onshore acreage in Australia. Central's assets include significant holdings in the Amadeus Basin that immediately surround the Palm Valley and Dingo gas fields. Pursuant to the terms of the Sale Deed, the AUD \$15.0 million of consideration in the form of Central stock will result in the issuance to MPA of approximately 39.5 million shares of Central on the Completion date, representing an approximate 11% pro forma ownership in Central's common stock as of today's date. Further information on Central can be found on Central's website at the URL www.centralpetroleum.com.au. Information on Central's website is not incorporated by reference into this report and should not be considered part of this report.

The Sale Deed also includes the following key terms:

Bonus consideration. The Company will be entitled to receive 25% of the revenues generated at the Palm Valley gas field from gas sales when the volume-weighted gas price realized at Palm Valley exceeds AUD \$5.00/Gigajoule ("GJ") and AUD \$6.00/GJ for the first 10 years following Completion and for the following 5 years, respectively, with such prices to be escalated in accordance with the Australian CPI. Between the third and fifth anniversaries of Completion, inclusive, the Company may seek from Central a one-time payment (the "Bonus Discharge Amount") corresponding to the present value, assuming an annual discount rate of 10%, of any expected remaining bonus payments in exchange for foregoing future bonus payments. If the Company receives the Bonus Discharge Amount, bonus payments and the Bonus Discharge Amount shall not exceed AUD \$7.0 million.

Reimbursement of Dingo development costs. At Completion, Central will reimburse the Company for all third-party expenditures the Company has incurred on the development of the Dingo gas field since October 1, 2013, less AUD \$485,000.

Business office and equipment leases and contracts. Upon Completion or as soon as reasonably practical thereafter, MPA and/or its subsidiaries will assign, and Central will assume, all business property and business equipment leases and all third-party contracts relevant to the operations at the Palm Valley and Dingo gas fields, including the Company's office leasehold in Brisbane, Australia.

Conditions precedent to Completion. Completion is conditional upon customary conditions, including consents to change in control from key third-party customers; the accuracy at Completion of buyer and seller warranties in the Sale Deed; and the absence of material adverse changes affecting the Company or Central since the Execution Date. Security for Completion and the Second Installment. As partial security for Completion, the Company is entitled to two deposit banker's undertakings (the "Banker's Undertakings") each in the amount of AUD \$1.0 million. The Company is entitled to draw on both Banker's Undertakings if the Sale Deed is terminated due to the default of Central, unless default can be attributed to Central's inability to draw on its acquisition financing facilities at Completion, in which case the Company is entitled to draw on one of the Banker's Undertakings. Following Completion, the Banker's Undertakings will remain in effect and serve as partial security for the Second Installment until such installment is paid. Following Completion, as additional security for the Second Installment, the Company will also be entitled to draw on a third Banker's Undertaking in the amount of AUD \$1.5 million, raising the Company's total security for the Second Installment to AUD \$3.5 million.

Central board representation. Upon Completion, the Company will be entitled to appoint one director (the "Seller Director") to Central's board of directors (the "Central Board") to serve until the next general shareholder meeting of Central. Thereafter, and until such time as the Company no longer holds at least 22,000,000 shares in Central or 5% of Central's outstanding common stock, Central shall use all reasonable endeavors to procure the re-election of the Seller Director or his replacement. The Company intends to nominate J. Thomas Wilson, President and Chief Executive Officer of the Company, to serve as the first Seller Director.

Mereenie Bonus. The Company will retain its rights to receive any and all bonuses (the "Mereenie Bonus") payable by Santos Ltd ("Santos") and contingent upon production at the Mereenie oil and gas field, which is situated to the west of Palm Valley and Dingo, achieving certain threshold levels. The Mereenie Bonus was established in 2011 pursuant to the terms of an asset swap agreement between the Company and Santos for the sale of the Company's interest in Mereenie to Santos and the Company's purchase of the interests of Santos in the Palm Valley and Dingo gas fields.

The foregoing description of the Sale Deed does not purport to be complete and is qualified in its entirety by the complete Sale Deed and the related Escrow Agency Deed, which are attached to this report as Exhibit 10.1 and Exhibit 10.2, respectively, and are incorporated herein by reference.

Item 2.05 Costs Associated with Exit or Disposal Activities.

With respect to the Transaction contemplated by the Sale Deed reported under Item 1.01 above, the Company expects to incur approximately AUD \$1.0 million in transaction-related legal, M&A, and tax advisory fees and up to AUD \$2.0 million in wind-down expenses, which primarily consist of employee severance payments. The Company does not expect to incur material tax charges as a result of the Transaction.

Item 7.01 Regulation FD Disclosure.

On February 18, 2014, the Company issued a press release announcing the Sale Deed. A copy of that press release is attached to this report as Exhibit 99.1 and is incorporated herein by reference.

The above information (including Exhibit 99.1) is furnished pursuant to Item 7.01 of Form 8-K and shall not be deemed to be "filed" for purposes of Section 18 of the U.S. Securities Exchange Act of 1934, as amended, or otherwise subject to the liabilities of that Section, nor shall it be deemed to be incorporated by reference in any filing under the U.S. Securities Act of 1933, as amended, except as may be expressly set forth by specific reference in such filing.
