MONMOUTH REAL ESTATE INVESTMENT CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

DECEMBER 31, 2007

NOTE 1 ORGANIZATION AND ACCOUNTING POLICY

Monmouth Real Estate Investment Corporation and its wholly-owned subsidiaries, MRC I LLC, MREIC Financial, Inc., and Monmouth Capital Corporation. (the Company or we) operate as a real estate investment trust (REIT) deriving its income primarily from real estate rental operations. The Company also owns a portfolio of investment securities.

The Company has elected to be taxed as a REIT under Sections 856-860 of the Internal Revenue Code (the Code), and intends to maintain its qualification as a REIT in the future. As a qualified REIT, with limited exceptions, the Company will not be taxed under Federal and certain state income tax laws at the corporate level on taxable income that it distributes to its shareholders. For special tax provisions applicable to REITs, refer to Sections 856-860 of the Code. The Company is subject to franchise taxes in some of the states in which the Company owns property.

The interim consolidated financial statements furnished herein include the Company and subsidiaries, and reflect all adjustments which were, in the opinion of management, necessary to present fairly the financial position, results of operations and cash flows as of December 31, 2007 and for all periods presented. All adjustments made in the interim period were of a normal recurring nature. All intercompany transactions and balances have been eliminated in consolidation. Certain footnote disclosures which would substantially duplicate the disclosures contained in the audited consolidated financial statements and notes thereto included in the Annual Report of Monmouth Real Estate Investment Corporation for the year ended September 30, 2007 have been omitted.

Employee Stock Options

The Company accounts for stock options in accordance with SFAS No. 123 (revised 2004), Share-Based Payment (SFAS No. 123R). The Company has selected the prospective method of adoption under the provisions of SFAS No. 148, Accounting for Stock Based Compensation, Transition and Disclosure. SFAS 123R requires that compensation cost for all stock awards be calculated and amortized over the service period (generally equal to the vesting period). This compensation cost is determined using option pricing models, intended to estimate the fair value of the awards at the grant date. Compensation costs of \$1,876 and \$29,238 have been recognized in the three months ended December 31, 2007 and 2006, respectively.

Edgar Filing: MONMOUTH REAL ESTATE INVESTMENT CORP - Form 10-Q

On July 26, 2007, the shareholders approved and ratified the Company's 2007 Stock Option Plan (the 2007 Plan) authorizing the grant to officers and key employees of options to purchase up to 1,500,000 shares of common stock.

During the three months ended December 31, 2007, the following stock options were granted:

<u>Date of Grant</u>	<u>Number of Employees</u>	<u>Number of Shares</u>	<u>Option Price</u>	<u>Expiration Date</u>
12/12/07	1	65,000	\$8.22	12/12/15

Edgar Filing: MONMOUTH REAL ESTATE INVESTMENT CORP - Form 10-Q

The fair value of each option grant is estimated on the date of grant using the Black-Scholes option pricing model with the following weighed-average assumptions used for grants in the following years:

	2008	2007
Dividend yield	7.30%	-0-%
Expected volatility	15.18%	-0-%
Risk-free interest rate	3.75%	-0-%
Expected lives	8	-0-

The weighted-average fair value of options granted during the three months ended December 31, 2007 was \$0.35 and \$-0-, respectively.

During the three months ended December 31, 2007, one participant exercised options to purchase 14,000 shares for total proceeds of \$99,820. As of December 31, 2007, there were options outstanding to purchase 1,152,170 shares under the 2007 plan.

NOTE 2 MERGER WITH MONMOUTH CAPITAL CORPORATION (MONMOUTH CAPITAL)

On July 31, 2007, the Company merged with Monmouth Capital, which had a controlling equity interest in fourteen industrial properties. The results of operations of the real estate acquired from Monmouth Capital have been included in the Company's consolidated financial statements since the merger date of July 31, 2007. Please see additional disclosures related to the merger contained in the audited consolidated financial statements and notes thereto included in the Annual Report of Monmouth Real Estate Investment Corporation for the year ended September 30, 2007.

The preliminary purchase price allocation was based on independent appraisals and management estimates as of September 30, 2007 and may be adjusted up to one year following the closing of the transaction. The purchase price allocation has not been finalized as management is still in the process of valuing real property investments and related intangibles. Management expects to finalize the purchase price allocation on or before March 31, 2008. Management does not expect any significant re-allocations between the preliminary purchase price allocation and the final purchase price allocation.

NOTE 3 NET INCOME APPLICABLE TO COMMON SHAREHOLDERS PER SHARE

Basic net income per share is calculated by dividing net income by the weighted-average number of common shares outstanding during the period. Diluted net income per share is calculated by dividing net income plus interest expense related to the Convertible Subordinated Debentures (Debentures) by the weighted-average number of common shares outstanding plus the weighted-average number of net shares that would be issued upon exercise of stock options pursuant to the treasury stock method, plus the number of shares resulting from the possible conversion of the Debentures during the period. Interest expense of \$299,800 and common shares totaling 1,413,319 related to potential conversion of the Debentures are excluded from the calculation for the three months ended December 31, 2007 due to their antidilutive effect. Options to purchase shares in the amount of 66,215 and 56,124 are included in the diluted weighted average shares outstanding for the three months ended December 31, 2007 and 2006, respectively.

NOTE 11 CONTINGENCIES AND COMMITMENTS

The Company is subject to claims and litigation arising in the ordinary course of business. Management does not believe that any such claim or litigation will have a material adverse effect on the consolidated balance sheet or results of operations.

As of December 31, 2007, the Company had approximately \$13,000,000 in commitments under the construction contracts for the expansions of the industrial buildings discussed in Note No. 5 Real Estate Investments.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

Overview

The following discussion and analysis of the consolidated financial condition and results of operations should be read in conjunction with the Consolidated Financial Statements and notes thereto provided elsewhere herein and the Company's September 30, 2007 Annual Report on Form 10-K.

The Company is a REIT. The Company's primary business is the ownership and management of industrial buildings subject to long-term leases to investment-grade tenants. As of December 31, 2007, the Company owns fifty-eight industrial properties and one shopping center with total square feet of approximately 5,966,000. Total real estate investments were approximately \$331,018,000 at December 31, 2007. These properties are located in twenty-six states. As of December 31, 2007, the Company's weighted average lease expiration term was 5.2 years and the percent of square footage leased and occupied was 98%. The Company's average rent per square foot for fiscal 2008 is approximately \$5.39. Total acquisitions of real estate made during fiscal year 2008 to date were approximately \$10,500,000.

Management intends to grow the Company's real estate portfolio and expects to acquire additional properties in fiscal 2008. On July 31, 2007, the Company merged with Monmouth Capital Corporation and acquired a controlling interest in fourteen industrial properties.

The Company has a concentration of FDX and FDX subsidiary-leased properties. As of December 31, 2007, the percentage of FDX-leased square footage as a total of the Company's rental space was 43%. Annualized rental income and occupancy charges from FDX and FDX subsidiaries are estimated at approximately 49% of total rental and reimbursement revenue for fiscal 2008.

The Company also holds a portfolio of securities of other REITs valued at approximately \$13,535,000 as of December 31, 2007. The Company invests in REIT securities on margin from time to time when the Company can achieve an adequate yield spread, for liquidity and when suitable acquisitions of real property cannot be found. The REIT securities portfolio provides the Company with liquidity and additional income until suitable acquisitions of real property are found. During the three months ended December 31, 2007, the Company recorded an impairment loss of \$1,819,300 related to three securities which management believed to be other than temporarily impaired. In addition, the Company experienced a decrease of approximately \$739,000 in the unrealized gain on securities for the three months ended December 31, 2007. This decrease is related to the overall decrease in market value of REIT securities.

The Company's revenue primarily consists of rental and reimbursement revenue from the ownership of industrial rental property. Revenue also includes interest and dividend income and income from securities transactions. Rental and reimbursement revenue increased 45% for the three months ended December 31, 2007 as compared to the three months ended December 31, 2006. The increases in rental and reimbursement revenue are due mainly to rent and reimbursements from the property acquisitions made during fiscal 2007 and from the merger with Monmouth Capital Corporation on July 31, 2007.

Net income (loss) applicable to common shareholders decreased \$2,378,012 for the three months ended December 31, 2007 as compared to the three months ended December 31, 2006. The decrease in net income (loss) applicable to common shareholders is due mainly to the impairment loss of \$1,819,300 related to securities deemed to be other than temporarily impaired, losses related to the Company's future contracts and increases in interest expense. This decrease was partially offset by an increase in income from property operations.

See PART I, Item 1 Business in the Company's September 30, 2007 Annual Report on Form 10-K for a more complete discussion of the economic and industry-wide factors relevant to the Company and the opportunities and challenges, and risks on which the Company is focused.

Changes in Results of Operations

As of December 31, 2007, the Company owned fifty-nine properties with total square footage of approximately 5,966,000 as compared to forty-three properties with square footage of approximately 4,733,000 as of December 31, 2006. As of December 31, 2007, the Company's weighted average lease expiration term was 5.2 years. The Company's occupancy rate was 98% and 83% as of December 31, 2007 and 2006, respectively.

The Company made the following property acquisition during the three months ended December 31, 2007 and the three months ended December 31, 2006:

FY 2008

					Annual	Annual	
<u>Date</u>	<u>Location</u>	<u>Footage</u>	<u>Price</u>	<u>Tenant</u>	<u>Rent</u>	<u>Rent/PSF</u>	
11/30/07	Cocoa, FL	89,101	\$10,450,000	FedEx Ground	\$738,500	\$8.28	7/31/17

FY 2007

12/8/06	Roanoke, VA	83,000	\$7,200,000	DHL	\$591,000	\$7.12	12/7/16

Rental and reimbursement revenue increased \$3,072,917 or 45% for the three months ended December 31, 2007 as compared to the three months ended December 31, 2006. The increase is due mainly to the rent and accrued tenant reimbursement revenue related to the acquisition of the fourteen industrial properties acquired from the merger with Monmouth Capital Corporation on July 31, 2007.

Real estate taxes increased \$294,811 or 29% and operating expenses increased \$508,252 or 98% for the three months ended December 31, 2007 as compared to the three months ended December 31, 2006. The increase is due mainly to the real estate taxes and operating expenses related to the acquisition of the fourteen industrial properties acquired from the merger with Monmouth Capital Corporation on July 31, 2007.

General and administrative expense increased \$75,915 or 13% for the three months ended December 31, 2007 as compared to the three months ended December 31, 2006. The increase is due mainly to increased salary and employee benefits and certain ongoing general and administrative expenses relating to the operations of Monmouth Capital Corporation such as franchise taxes and other administrative expenses.

Depreciation expense increased \$529,380 or 38% for the three months ended December 31, 2007 as compared to the three months ended December 31, 2006. The increase is due to the depreciation expense related to the properties acquired with the merger of Monmouth Capital Corporation.

Interest and dividend income increased \$158,008 or 64% for the three months ended December 31, 2007 as compared to the three months ended December 31, 2006. The increase for the three months is due mainly to the higher average balance of securities for the three months ended December 31, 2007 as compared to the three months ended December 31, 2006. The average balance of securities was approximately \$13,486,000 and \$11,644,000 for the three months ended December 31, 2007 and 2006, respectively..

Gain on securities transactions, net consisted of the following:

Three Months

	12/31/07	12/31/06
Gain (loss) on sale or redemption of securities	(\$38,880)	\$16,271
Net loss on settled futures contracts	(478,999)	(107,740)
Unrealized gain on open futures contracts	40,781	163,828
Impairment loss	(1,819,300)	-0-
Total Gain (loss) on Securities Transactions, net	(\$2,296,398)	\$72,359

Gain on securities transactions, net decreased \$2,368,757 for the three months ended December 31, 2007 as compared to the three months ended December 31, 2006. The decrease for the three months is due mainly to the write down of the carrying value of \$1,819,300 for three securities which were deemed to be other than temporarily impaired.

During the three months ended December 31, 2007, the MSCI US REIT index fell approximately 16%. The Company experienced a decrease in the unrealized gain on the securities portfolio of \$738,221. In addition, the Company recorded losses from the Company's investment in futures contracts. The Company invests in futures contracts of ten-year treasury notes with the objective of reducing the risks of rolling over its fixed-rate mortgages at higher interest rates and reducing the exposure of the preferred equity and debt securities portfolio to interest rate fluctuations.

Interest expense increased \$1,099,021 or 51% for the three months ended December 31, 2007 as compared to the three months ended December 31, 2006. The increase is due mainly to interest related to the outstanding Subordinated Convertible Debentures of Monmouth Capital of \$299,800, interest related to increased average balance outstanding on loans payable and increased interest related to mortgages related to the properties acquired in the merger with Monmouth Capital Corporation on July 31, 2007.

Income (loss) from discontinued operations for the three months ended December 31, 2006 reflects the results of operations of the one industrial property in South Brunswick, New Jersey, that was classified as held for sale during the third fiscal quarter of 2007. The following table summarizes the components of discontinued operations:

	Three Months	
	12/31/07	12/31/06

Changes in Financial Condition

The Company generated net cash from operating activities of \$3,995,770 and \$3,041,395 for the three months ended December 31, 2007 and 2006, respectively.

Real estate investments, net of accumulated depreciation, increased \$10,821,597 from September 30, 2007 to December, 31, 2007. The increase is due mainly to the purchase of the industrial property in Cocoa, Florida of approximately \$10,504,000 and the completion of the expansion of the Wheeling, Illinois property, partially offset by the depreciation expense for the three months ended December 31, 2007.

Cash and cash equivalents decreased \$5,455,917 from September 30, 2007 to December 31, 2007. The increase is due mainly to the payment of construction costs related to the expansions, the payment of dividends, and purchase of securities available for sale.

Securities available for sale increased \$98,472 from September 30, 2007 to December 31, 2007. The increase is due mainly to purchases of \$3,342,793. The increase was offset mainly by the write-down in carrying value of securities deemed to be other than temporarily impaired of \$1,819,300, sales of securities with original cost of \$248,582 and a decrease in the unrealized gain of \$738,221.

During the three months ended December 31 2007, the Company invested in futures contracts of ten-year treasury notes with a notional amount of \$9,000,000 with the objective of reducing the risks of rolling over the fixed mortgage debt at higher interest rates and reducing the exposure of the debt securities portfolio to market rate fluctuations. Changes in the market value of these derivatives have been recorded in gain on securities transactions, net with corresponding amounts recorded in other assets or other liabilities on the balance sheet. The fair value of the derivatives as of September 30, 2007 was an asset of \$40,781.

Tenant and Other Receivables increased \$465,771 from September 30, 2007 to December 31, 2007. The increase is due mainly to the billing of real estate tax and other reimbursements to the tenants.

Prepaid expenses increased \$451,443 from September 30, 2007 to December 31, 2007. The increase is due mainly to an increase in prepaid real estate taxes and prepaid insurance related to timing of payments. The Company recognizes real estate tax and insurance expense ratably over the fiscal year.

Mortgage notes payable increased \$4,691,541 from September 30, 2007 to December 31, 2007. The increase is due to the new mortgage of \$7,150,000 on the acquisition of the Cocoa, Florida property partially offset by principal repayments during the three months ended December 31, 2007 of \$2,458,459.

Loans payable increased \$5,751,000 from September 30, 2007 to December 31, 2007. The increase was due to the purchase of the property in Cocoa, Florida and payment of construction costs related to the property expansions.

Dividends paid on the common stock for the three months ended December 31, 2007 were \$3,593,204.

The Company uses a variety of sources to fund its cash needs in addition to cash generated through operations. The Company may sell marketable securities, borrow on its line of credit, refinance debt, or raise capital through the DRIP or capital markets.

Liquidity and Capital Resources

Net cash provided by operating activities was \$3,995,770 and \$3,041,395 for the three months ended December 31, 2007 and 2006, respectively. Dividends on common stock paid for the three months ended December 31, 2007 and 2006 were \$3,593,204 and \$3,031,949. The Company owned unencumbered securities available for sale of approximately \$13,535,000 as of December 31, 2007. These marketable securities provide the Company with additional liquidity. As of December 31, 2007, the Company owned fifty-eight properties, of which forty-four carried mortgage loans of approximately \$179,044,000. The unencumbered properties could be refinanced to raise additional funds. In addition, the Company has approximately \$16,700,000 available for acquisitions on its \$25,000,000 line of credit as of December 31, 2007. The Company has been raising capital through its DRIP, private placements and public offerings of common and preferred stock and investing in net leased industrial properties. The Company believes that funds generated from operations, the DRIP, and the Series A Preferred Stock offering, together with the Company's ability to finance and refinance its properties, will provide sufficient funds to adequately meet its obligations over the next several years.

The Company seeks to invest in well-located, modern buildings leased to credit worthy tenants on long-term leases.

In management's opinion, newly built facilities leased to FDX and its subsidiaries meet these criteria. The Company has a concentration of FDX and FDX subsidiary leased properties. The percentage of FDX leased square footage to the total of the Company's rental space was 43% as of December 31, 2007. Annualized rental and reimbursement revenue from FDX and FDX subsidiaries is estimated at approximately 49% of total rental and reimbursement revenue for fiscal 2008. FDX is a publicly-owned corporation and information on its financial business operations is readily available to the Company's shareholders.

The Company does not have any off-balance sheet arrangements.

Funds From Operations

Funds from operations (FFO) is defined as net income, excluding gains or losses from sales of depreciable assets, plus real estate-related depreciation and amortization. FFO should be considered as a supplemental measure of operating performance used by REITs. FFO excludes historical cost depreciation as an expense and may facilitate the comparison of REITs which have different cost basis. The items excluded from FFO are significant components in understanding the Company's financial performance.

FFO (i) does not represent cash flow from operations as defined by generally accepted accounting principles; (ii) should not be considered as an alternative to net income as a measure of operating performance or to cash flows from operating, investing and financing activities; and (iii) is not an alternative to cash flow as a measure of liquidity. FFO, as calculated by the Company, may not be comparable to similarly entitled measures reported by other REITs.

The Company's FFO for the three months ended December 31, 2007 and 2006 is calculated as follows:

Three Months Ended

	12/31/07	12/31/06
