**MONMOUTH REAL ESTATE INVESTMENT CORPORATION AND SUBSIDIARIES**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)**

**MARCH 31, 2009**

NOTE 1 ORGANIZATION AND ACCOUNTING POLICY

Monmouth Real Estate Investment Corporation and its wholly-owned subsidiaries, MRC I LLC, MREIC Financial, Inc., and Monmouth Capital Corporation (the Company or we) operate as a real estate investment trust (REIT) deriving its income primarily from real estate rental operations. In addition, the Company owns a majority interest in three limited liability companies of which the Company consolidates their results of operations and financial condition. The Company also owns a portfolio of investment securities.

The Company has elected to be taxed as a REIT under Sections 856-860 of the Internal Revenue Code (the Code), and intends to maintain its qualification as a REIT in the future. As a qualified REIT, with limited exceptions, the Company will not be taxed under Federal and certain state income tax laws at the corporate level on taxable income that it distributes to its shareholders. For special tax provisions applicable to REITs, refer to Sections 856-860 of the Code. The Company is subject to franchise taxes in some of the states in which the Company owns property.

The interim consolidated financial statements furnished herein have been prepared in accordance with generally accepted accounting principles for interim financial information, the instructions to Form 10-Q, and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three and six months ended March 31, 2009 are not necessarily indicative of the results that may be expected for the year ended September 30, 2009. For further information, refer to the consolidated financial statements and footnotes thereto included in the Company's annual report on Form 10-K for the year ended September 30, 2008.

Certain amounts in the consolidated financial statements for the prior periods presented have been reclassified to conform to the financial statement presentation for the current year.

Use of Estimates

In preparing the consolidated financial statements, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities, as well as contingent assets and liabilities as of the dates of the consolidated balance sheets and revenue and expenses for the years then ended. Actual results could differ

significantly from these estimates and assumptions.

### Employee Stock Options

The Company accounts for stock options in accordance with SFAS No. 123 (revised 2004), Share-Based Payment (SFAS No. 123R). SFAS 123R requires that compensation cost for all stock awards be calculated and amortized over the service period (generally equal to the vesting period). This compensation cost is determined using option pricing models, intended to estimate the fair value of the awards at the grant date. Compensation costs of \$20,988 and \$8,626 have been recognized in the three months ended March 31, 2009 and 2008, respectively and \$49,176 and \$10,504 have been recognized in the six months ended March 31, 2009 and 2008, respectively.

On July 26, 2007, the shareholders approved and ratified the Company's 2007 Stock Option Plan (the 2007 Plan) authorizing the grant to officers and key employees of options to purchase up to 1,500,000 shares of common stock.

During the six months ended March 31, 2009, the following stock options were granted:

<u>Date of Grant</u>	<u>Number of Employees</u>	<u>Number of Shares</u>	<u>Option Price</u>	<u>Expiration Date</u>
10/20/08	11	245,000	\$7.25	10/20/16

The fair value of each option grant is estimated on the date of grant using the Black-Scholes option pricing model with the following weighted-average assumptions used for grants in the following fiscal year:

	Fiscal 2009	Fiscal 2008
Dividend yield	8.30%	7.30%
Expected volatility	16.41%	15.18%
Risk-free interest rate	3.38%	3.75%
Expected lives (years)	8	8
Estimated forfeitures	-0-	-0-

The weighted-average fair value of options granted during the six months ended March 31, 2009 and 2008 was \$0.23 and \$0.35, respectively.

During the six months ended March 31, 2009, no participants exercised options. Options to purchase 32,620 shares were forfeited during the quarter ended March 31, 2009. These shares were returned to the plan and are included in the number shares available to grant. As of March 31, 2009, there were options to purchase 1,544,550 shares outstanding under the 2007 plan. Options to purchase 1,042,620 shares were available to grant as of March 31, 2009.

#### Recent Accounting Pronouncements

In February 2007, the FASB issued SFAS No. 159, The Fair Value Option for Financial Assets and Financial Liabilities ( SFAS 159 ). SFAS 159 provides companies with an option to report selected financial assets and financial liabilities at fair value. Unrealized gains and losses on items for which the fair value option has been elected are reported in earnings at each subsequent reporting date. SFAS 159 is effective for fiscal years beginning after November 15, 2007, our fiscal year 2009. The Company has determined not to elect the fair value measurement option under SFAS 159.

**NOTE 3 NET LOSS APPLICABLE TO COMMON SHAREHOLDERS PER SHARE**

Basic net loss per common share is calculated by dividing net income applicable to common shareholders by the weighted-average number of common shares outstanding during the period. Diluted net loss per common share is calculated by dividing net income applicable to common shareholders plus interest expense related to the Convertible Subordinated Debentures (Debentures) by the weighted-average number of common shares outstanding plus the weighted-average number of net shares that would be issued upon exercise of stock options pursuant to the treasury stock method, plus the number of shares resulting from the possible conversion of the Debentures during the period.

The following amounts related to the potential conversion of the Debentures are excluded from the calculation due to their antidilutive effect:

	<b>Three Months Ended</b>		<b>Six Months Ended</b>	
	<b><u>3/31/09</u></b>	<b><u>3/31/08</u></b>	<b><u>3/31/09</u></b>	<b><u>3/31/08</u></b>

Common shares to be issued upon conversion	1,304,148	1,413,319	1,304,148	1,413,319

Options to purchase shares in the amount of 5,691 and 48,336 are included in the diluted weighted average shares outstanding for the three months ended March 31, 2009 and 2008, respectively. Options to purchase shares in the amount of 7,199 and 60,052 are included in the diluted weighted average shares outstanding for the six months ended March 31, 2009 and 2008, respectively. As of March 31, 2009 and 2008, options to purchase 300,748 and 26,212 shares, respectively, were antidilutive.

During the three months ended March 31, 2009 and 2008, the Company recognized impairment losses of \$2,648,954 and \$706,777, respectively. During the six months ended March 31, 2009 and 2008, the Company recognized impairment losses of \$5,894,076 and \$2,526,077, respectively. These impairment losses were due to writing down of the carrying value of securities which were considered other than temporarily impaired.

During fiscal 2008, the Company invested in futures contracts of ten-year treasury notes with a notional amount of \$9,000,000 with the objective of reducing the risk of rolling over the fixed-rate mortgage debt at higher interest rates and reducing the exposure of the preferred equity and debt securities portfolio to interest rate fluctuations. Changes in the market value of these derivatives have been recorded in gain (loss) on securities transactions, net with corresponding amounts recorded in other assets or other liabilities on the balance sheet. The Company ended its hedging program and closed out its contracts as of May 15, 2008. As such, there were no open contracts as of March 31, 2009.

#### NOTE 13 CONTINGENCIES AND COMMITMENTS

The Company is subject to claims and litigation arising in the ordinary course of business. Management does not believe that any such claim or litigation will have a material adverse effect on the consolidated balance sheet or results of operations.

As of March 31, 2009, the Company had approximately \$2,600,000 in commitments under the construction contract for the expansion of the industrial property in Cheektowaga, New York discussed under Note No. 5 Real Estate Investments.

## **Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.**

### Overview

The following discussion and analysis of the consolidated financial condition and results of operations should be read in conjunction with the Consolidated Financial Statements and notes thereto provided elsewhere herein and the Company's September 30, 2008 Annual Report on Form 10-K.

The Company is a REIT. The Company's primary business is the ownership and management of industrial buildings subject to long-term leases to investment-grade tenants. As of March 31, 2009, the Company owns fifty-seven industrial properties and one shopping center with total square footage of approximately 6,070,000. Total real estate investments were approximately \$344,146,000 as of March 31, 2009. These properties are located in twenty-five states. As of March 31, 2009, the Company's weighted average lease expiration term was 5.1 years and the percent of square footage occupied was 96%. The Company's average rent per occupied square foot for fiscal 2009 is approximately \$5.63.

The Company has a concentration of Federal Express Corporation (FDX) and FDX subsidiary-leased properties. As of March 31, 2009, the percentage of FDX-leased square footage as a total of the Company's rental space was 46%. Annualized rental income and occupancy charges from FDX and FDX subsidiaries are estimated at approximately 59% of total rental and reimbursement revenue for fiscal 2009. This is a risk shareholders should consider.

The Company's revenue primarily consists of rental and reimbursement revenue from the ownership of industrial rental property. Rental and reimbursement revenue increased 10% for the six months ended March 31, 2009 as compared to the six months ended March 31, 2008. The increase in rental and reimbursement revenue are due mainly to rent and reimbursements from the property acquisitions made during fiscal 2008 and from the increased rent from property expansions completed at the end of fiscal 2008. The income from the Company's property operations continues to meet management's expectations.

The Company also holds a portfolio of securities of other REITs valued at approximately \$13,361,000 as of March 31, 2009 which earns dividend and interest income. During the three and six months ended March 31, 2009, the Company recorded impairment losses of \$2,648,954 and \$5,894,076 related to REIT securities which management believed to be other than temporarily impaired. In addition, the Company experienced an increase in the unrealized loss of \$2,129,565 during the six months ended March 31, 2009 and the total unrealized loss on the securities portfolio was \$8,269,016 as of March 31, 2009. Management believes that the increase in the unrealized loss on securities is related to the overall decrease in market value of REIT securities. Subsequent to March 31, 2009, the REIT market has improved and as a result, our losses have been reduced. Historically, REIT share prices were not volatile. Today, they are highly volatile with price swings of 5% or more recurring frequently. REIT securities have always represented less than 10% of the Company's total assets. The dividends received from our securities investments, which are primarily REIT preferred issues, continue to meet our expectations. It is our intent to hold these securities long-term. As the credit markets begin to normalize, more efficient pricing should return to the securities markets. The Company invests in REIT securities on margin from time to time when the Company can achieve an adequate yield spread. The REIT securities portfolio provides the Company with liquidity and additional income until suitable acquisitions of real property are found.

See PART I, Item 1 Business in the Company's September 30, 2008 Annual Report on Form 10-K for a more complete discussion of the economic and industry-wide factors relevant to the Company and the opportunities and challenges, and risks on which the Company is focused.

### **Changes in Results of Operations**

As of March 31, 2009, the Company owned fifty-eight properties with total square footage of approximately 6,070,000 as compared to fifty-nine properties with square footage of approximately 5,966,000 as of March 31, 2008. As of March 31, 2009, the Company's weighted average lease expiration term was 5.1 years. The Company's occupancy rate was 96% and 98% as of March 31, 2009 and 2008, respectively.

Rental and reimbursement revenue increased \$979,962 or 10% for the three months ended March 31, 2009 as compared to the three months ended March 31, 2008 and increased \$1,813,081 or 10% for the six months ended March 31, 2009 as compared to the six months ended March 31, 2008. The increase is due mainly to the rent and accrued tenant reimbursement revenue related to the acquisition of the two industrial properties in 2008 (Cocoa and Orlando, Florida) and the increase in rent from the five FedEx Ground Package Systems, Inc. leased properties expanded during 2008 (Beltsville, Maryland, Augusta, Georgia, Hanahan, South Carolina, Denver, Colorado and Colorado Springs, Colorado).

Real estate taxes increased \$380,326 or 28% for the three months ended March 31, 2009 as compared to the three months ended March 31, 2008 and increased \$691,408 or 27% for the six months ended March 31, 2009 as compared to the six months ended March 31, 2008. The increase is due mainly to

the real estate taxes related to the acquisition of the two industrial properties in 2008 and increases in real estate taxes from the five properties expanded during 2008.

Operating expenses decreased \$145,494 or 14% for the three months ended March 31, 2009 as compared to the three months ended March 31, 2008 and decreased \$345,661 or 17% for the six months ended March 31, 2009 as compared to the six months ended March 31, 2008. The decrease is due mainly to the decrease in the amortization of the in-place lease intangible assets and a decrease in insurance premiums. Effective March 31, 2008, the Company finalized the purchase price allocation associated with the merger of Monmouth Capital and certain other acquisitions which occurred during 2007 and \$5,879,000 was reclassified from Intangible Assets to Real Estate Investments.

Other operating expenses remained relatively consistent for the six months ended March 31, 2009 as compared to March 31, 2008.

Depreciation expense increased \$200,096 or 11% for the three months ended March 31, 2009 as compared to the three months ended March 31, 2008 and increased \$467,560 or 13% for the six months ended March 31, 2009 as compared to the six months ended March 31, 2008. The increase is mainly due to the depreciation expense related to the two industrial properties acquired in 2008.

Interest and dividends increased \$253,971 or 69% for the three months ended March 31, 2009 as compared to the three months ended March 31, 2008 and increased \$510,104 or 66% for the six months ended March 31, 2009 as compared to the six months ended March 31, 2008. The increase is due mainly to a higher average balance of securities and higher weighted average yields on the securities for the six months ended March 31, 2009 as compared to the six months ended March 31, 2008. The average balance of securities was \$15,384,000 and \$14,590,000 for the six months ended March 31, 2009 and 2008, respectively and the weighted average yields were 17.7% and 9.94% as of March 31, 2009 and 2008, respectively.

The following table summarizes the Company's loss on securities transactions for the three and six months ended March 31, 2009 and 2008:

	<b>Three Months Ended</b>		<b>Six Months Ended</b>	
	<b>3/31/09</b>	<b>3/31/08</b>	<b>3/31/09</b>	<b>3/31/08</b>

Loss on securities transactions, net	(\$3,337,382)	(\$1,131,660)	(\$6,582,580)	(\$3,428,058)

During the three and six months ended March 31, 2009 and 2008, the Company recognized losses of \$2,648,954 and \$5,894,076, respectively, due to writing down of the carrying value of securities which were considered other than temporarily impaired. The Company has unrealized losses of \$8,269,016 in its REIT securities portfolio as of March 31, 2009. Subsequent to March 31, 2009, the REIT market has improved and as a result, our losses have been reduced. Historically, REIT share prices were not volatile. Today, they are highly volatile with price swings of 5% or more recurring frequently. REIT securities have always represented less than 10% of the Company's total assets. The dividends received from our investments, which are primarily REIT preferred issues, continue to meet our expectations. It is our intent to hold these securities long-term and anticipate realizing satisfactory returns.

In fiscal 2008, the Company recorded losses from the Company's investment in futures contracts. The Company invested in futures contracts of ten-year treasury notes with the objective of reducing the risk of rolling over its fixed-rate mortgages at higher interest rates and reducing the exposure of the preferred equity and debt securities portfolio to interest rate fluctuations. The Company terminated its program of investing in futures contracts in May 2008 and there were no open contracts as of March 31, 2009.

Interest expense increased \$115,738 or 3% for the three months ended March 31, 2009 as compared to the three months ended March 31, 2008 and increased \$458,060 or 7% for the six months

Edgar Filing: MONMOUTH REAL ESTATE INVESTMENT CORP - Form 10-Q

ended March 31, 2009 as compared to the six months ended March 31, 2008. The increase in interest expense is mainly due to the interest on the new mortgages on the Tampa, Florida (FedEx), Union Township, Ohio, Fayetteville, North Carolina, Lakeland, Florida, Augusta, Georgia, Cocoa, Florida, Orlando, Florida and Quakertown, Pennsylvania properties and an increased outstanding balance on the Company's margin loan and line of credit.

Income (loss) from discontinued operations for the three and six months ended March 31, 2009 and 2008, includes the results of operations of the Quakertown, Pennsylvania property which was classified as held for sale at March 31, 2009 and 2008. Income (loss) from discontinued operations for the three and six months ended March 31, 2008 reflects the results of operations of the Quakertown, Pennsylvania property as well as the industrial properties in Franklin, Massachusetts and Ramsey, New Jersey which were sold in June 2008 and July 2008, respectively.

The following table summarizes the components of discontinued operations:

	Three Months		Six Months

Cash flows from discontinued operations for the six months ended March 31, 2009 and 2008 are combined with the cash flows from operations within each of the three categories presented. Cash flows from discontinued operations are as follows:

	Six Months Ended	
	<u>3/31/09</u>	<u>3/31/08</u>
Cash flows from Operations - Discontinued Operations	\$140,118	\$568,211
Cash flows from Investing Activities - Discontinued Operations	-0-	-0-

The absence of cash flows from discontinued operations is not expected to materially affect future liquidity and capital resources.

**Changes in Financial Condition**

The Company generated net cash from operating activities of \$10,240,456 and \$9,858,488 for the six months ended March 31, 2009 and 2008, respectively.

Securities available for sale decreased \$7,644,181 from September 30, 2008 to March 31, 2009. The decrease is due mainly to an increase in the unrealized loss of \$2,129,565, the write-down in carrying value of securities deemed to be other than temporarily impaired of \$5,894,076, and sales and redemptions of securities with a cost of \$1,634,296. These decreases were offset by purchases of securities of \$2,013,756.

Tenant and Other Receivables decreased \$677,531 from September 30, 2008 to March 31, 2009. The decrease is due mainly to the collection of real estate tax and other reimbursements from the tenants.

Prepaid expenses increased \$582,962 from September 30, 2008 to March 31, 2009. The increase is due mainly to an increase in prepaid real estate taxes and prepaid insurance related to timing of payments. The Company recognizes real estate tax and insurance expense ratably over the fiscal year.

Mortgage notes payable decreased \$2,993,984 from September 30, 2008 to March 31, 2009. This decrease is due to principal repayments of \$5,431,484 offset by new mortgage proceeds of \$2,437,500 from the financing of the Quakertown, Pennsylvania property.

Loans payable increased \$6,429,331 from September 30, 2008 to March 31, 2009. The increase was due to the borrowing on the margin loan and on the Company's \$15,000,000 line of credit. The draws were made to finance the property expansions completed at the end of fiscal 2008 and other capital projects, for the repurchase of \$1,000,000 in debentures and for purchases of securities.

The Company raised \$2,466,975 from the issuance of shares in the DRIP during the six months ended March 31, 2009, which included dividend reinvestments of \$2,121,452. Dividends paid on the common stock for the six months ended March 31, 2009 were \$7,405,342 of which \$2,121,452 was reinvested. On May 5, 2009, the Company declared a dividend of \$0.15 per common share to be paid June 30, 2009 to common shareholders of record as of June 1, 2009.

The Company uses a variety of sources to fund its cash needs in addition to cash generated through operations. The Company may sell marketable securities, borrow on its line of credit, refinance debt, or raise capital through the DRIP or capital markets.

### **Liquidity and Capital Resources**

Net cash provided by operating activities was \$10,240,456 and \$9,858,488 for the six months ended March 31, 2009 and 2008, respectively. Dividends on common stock for the six months ended March 31, 2009 and 2008 were \$7,405,342 and \$7,186,409 (of which \$2,121,452 and \$912,160, respectively, was reinvested).

As of March 31, 2009, the Company owned securities available for sale of \$13,361,482 subject to margin loans of \$5,980,278. These marketable securities provide the Company with additional liquidity. The REIT securities market has recently been driven to inordinately low prices and high yields. This has resulted in substantial unrealized losses on our holdings. We believe this to be the result of indiscriminate selling and not the result of normal pricing considerations. Subsequent to March 31, 2009, the REIT market has improved and as a result, our losses have been reduced. The dividends received from our investments, which are primarily REIT preferred issues, continue to meet

our expectations. It is our intent to hold these securities long-term and anticipate realizing satisfactory returns.

As of March 31, 2009, the Company owned fifty-eight properties, of which forty-nine carried mortgage loans totaling \$188,953,648. The unencumbered properties could be refinanced to raise additional funds, although covenants in the Company's line of credit limit the amount of unencumbered properties which can be mortgaged. The Company has fully drawn its \$15,000,000 line of credit as of March 31, 2009. The Company's total debt plus preferred equity to total market capitalization as of March 31, 2009 was 61% as compared to 56% as of September 30, 2008. The Company has been raising capital through its DRIP, private placements and public offerings of common and preferred stock and investing in net leased industrial properties. The Company believes that funds generated from operations and the DRIP, together with the ability to finance and refinance its properties will provide sufficient funds to adequately meet its obligations over the next year.

The Company seeks to invest in well-located, modern buildings leased to investment grade tenants on long-term leases. In management's opinion, newly built facilities leased to FDX and its subsidiaries meet these criteria. The Company has a concentration of FDX and FDX subsidiary leased properties. The percentage of FDX leased square footage to the total of the Company's rental space was 46% as of March 31, 2009. Annualized rental and reimbursement revenue from FDX and FDX subsidiaries is estimated at

approximately 59% of total rental and reimbursement revenue for fiscal 2009. FDX is a publicly-owned corporation and information on its financial business operations is readily available to the Company's shareholders.

The Company does not have any off-balance sheet arrangements.

### **Funds From Operations**

Funds from operations (FFO) is defined as net income, excluding gains or losses from sales of depreciable assets, plus real estate-related depreciation and amortization. FFO should be considered as a supplemental measure of operating performance used by REITs. FFO excludes historical cost depreciation as an expense and may facilitate the comparison of REITs which have different cost basis. The items excluded from FFO are significant components in understanding the Company's financial performance.

FFO (i) does not represent cash flow from operations as defined by generally accepted accounting principles; (ii) should not be considered as an alternative to net income as a measure of operating performance or to cash flows from operating, investing and financing activities; and (iii) is not an alternative to cash flow as a measure of liquidity. FFO, as calculated by the Company, may not be comparable to similarly entitled measures reported by other REITs.

The Company's FFO for the three and six months ended March 31, 2009 and 2008 is calculated as follows:

	<b>Three Months Ended</b>		<b>Six Months Ended</b>
