Stage Stores, Inc. Notes to Condensed Consolidated Financial Statements (Unaudited)

#### 1. Basis of Presentation

The accompanying condensed consolidated financial statements of Stage Stores, Inc. and its subsidiary ("we," "us" or "our") have been prepared in accordance with the requirements of the U.S. Securities and Exchange Commission ("SEC") for interim financial information and do not include all of the information and footnotes required by accounting principles generally accepted in the United States of America ("GAAP") for complete financial statements. Those adjustments that are, in the opinion of management, necessary for a fair presentation of the results of the interim periods have been made. Results of operations for such interim periods are not necessarily indicative of the results of operations for a full year due to seasonal and other factors. The condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements and notes thereto filed with our Annual Report on Form 10-K for the year ended January 31, 2015 ("Form 10-K").

References to a particular year are to our fiscal year, which is the 52- or 53-week period ending on the Saturday closest to January 31st of the following calendar year. For example, a reference to "2015" is a reference to the fiscal year ending January 30, 2016, and "2014" is a reference to the fiscal year ended January 31, 2015. Each of 2015 and 2014 are comprised of 52 weeks.

Recent Accounting Standards. In May 2014, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2014-09, Revenue from Contracts with Customers, which supersedes most existing revenue recognition guidance in GAAP. The core principle of the guidance is that a company should recognize revenue when it transfers promised goods or services to customers in an amount that reflects what a company expects to be entitled to in exchange for those goods or services. ASU 2014-09 allows for either a retrospective or cumulative effect transition method of adoption and is effective for periods beginning after December 15, 2016. In July 2015, the FASB issued ASU 2015-14, which defers the effective date of ASU 2014-09 by one year, however, early adoption as of the original effective date is permitted. We are currently evaluating the impact that the adoption of ASU 2014-09 will have on our consolidated financial statements.

In April 2015, the FASB issued ASU 2015-05, Customer's Accounting for Fees Paid in a Cloud Computing Arrangement, which provides explicit guidance to help companies evaluate the accounting for fees paid by a customer in a cloud computing arrangement. The new guidance clarifies that if a cloud computing arrangement includes a software license, the customer should account for the license consistent with its accounting for other software licenses. If the arrangement does not include a software license, the customer should account for the arrangement as a service contract. This new standard is effective for us for fiscal years and interim periods beginning after December 15, 2015. We are currently evaluating the impact that the adoption of ASU 2015-05 will have on our consolidated financial statements.

In July 2015, the FASB issued ASU 2015-11, Simplifying the Measurement of Inventory, which changes the measurement principle for inventory from the lower of cost or market to lower of cost and net realizable value. The new principle is part of the FASB's simplification initiative and applies to entities that measure inventory using a method other than last-in, first-out ("LIFO") or the retail inventory method. The new standard is effective for us for fiscal years and interim periods beginning after December 15, 2016. We do not expect the adoption of ASU 2015-11 to have a material impact on our consolidated financial statements.

### Stock Options and SARs

The following table summarizes stock option and SAR activity for the six months ended August 1, 2015:

#### **Table of Contents**

#### Non-vested Stock

The following table summarizes non-vested stock activity for the six months ended August 1, 2015:

			Weighted
Non-vested Stock	Number of Shares		Average Grant
			Date Fair Value
Outstanding at January 31, 2015	678,604		\$21.76
Granted	473,628		20.66
Vested	(254,027	)	20.78
Forfeited	(18,933	)	21.81
Outstanding at August 1, 2015	879,272		\$21.45

The aggregate intrinsic value of non-vested stock that vested during the six months ended August 1, 2015 was \$5.2 million. The payment of the employees' tax liability for a portion of the vested shares was satisfied by withholding shares with a fair value equal to the tax liability. As a result, the actual number of shares issued was 183,549.

#### **Performance Shares**

We grant performance shares as a means of rewarding management for our long-term performance based on shareholder return performance measures. The actual number of shares that may be issued ranges from zero to a maximum of twice the number of granted shares outstanding, as reflected in the table below, and is based on our shareholder return performance relative to a specific group of companies over a three-year performance cycle. If earned, the performance shares vest following the three-year cycle. Compensation expense, which is recorded ratably over the vesting period, is based on the fair value at grant date and the anticipated number of shares of our common stock, which is determined using a Monte Carlo probability model. Grant recipients do not have any shareholder rights until the granted shares have been issued.

The following table summarizes information about the performance shares that were outstanding at August 1, 2015:

Period Granted	Target Shares Outstanding at January 31, 2015	Target Shares Granted	Target Shares Vested	Target Shares Forfeited	Target Shares Outstanding at August 1, 2015	Weighted Average Grant Date Fair Value Per Share
