Statements about future results made in the materials furnished with this Form 8-K as exhibits constitute forward-looking statements that may be identified by the use of words like "believe," "expect," "anticipate" and "project." Forward-looking statements reflect management's good-faith evaluation of information currently available. However, such statements are dependent on and, therefore, can be influenced by, a number of external variables -- more particularly described and identified in our most recent annual report and quarterly report to the SEC on Forms 10-K and 10-Q -- over which management has little or no control, including: legislative and regulatory developments; competition and consolidation within the transportation industry; domestic and international economic conditions; the business environment in industries that produce and consume rail freight; the operations of carriers with which we interchange; labor difficulties, including strikes and work stoppages; disruptions to our technology infrastructure including our computer systems; natural events such as severe weather, floods, and hurricanes; acts of terrorism or war; fluctuation in prices of key materials, in particular diesel fuel; and changes in securities and capital markets. Forward-looking statements are not, and should not be relied upon as, a guaranty of future performance or results. Nor will they necessarily prove to be accurate indications of the times at or by which any such performance or results will be achieved. As a result, actual outcomes and results may differ materially from those expressed in forward-looking statements. NS undertakes no obligation to update or revise forward-looking statements.

Pursuant to the requirements of the Securities and Exchange Act of 1934, the Registrant has caused this report to be signed on its behalf by the undersigned thereunto duly authorized.
