NCR Corporation

Notes to Condensed Consolidated Financial Statements (Unaudited)

1. BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying Condensed Consolidated Financial Statements have been prepared by NCR Corporation (NCR, the Company, we or us) without audit pursuant to the rules and regulations of the U.S. Securities and Exchange Commission (SEC) and, in the opinion of management, include all adjustments (consisting of normal, recurring adjustments, unless otherwise disclosed) necessary for a fair statement of the consolidated results of operations, financial position, and cash flows for each period presented. The consolidated results for the interim periods are not necessarily indicative of results to be expected for the full year. The 2015 year-end Condensed Consolidated Balance Sheet was derived from audited financial statements, but does not include all disclosures required by accounting principles generally accepted in the United States (GAAP). These financial statements should be read in conjunction with NCR's Form 10-K for the year ended December 31, 2015.

Effective January 1, 2016, NCR began management of its business on a solution basis, changing from the previous model of management on a line of business basis, which resulted in a corresponding change to NCR's reportable segments. We have reclassified prior period segment disclosures to conform to the current period presentation. See Note 13, "Segment Information and Concentrations" for additional information.

Use of Estimates The preparation of financial statements in accordance with GAAP requires management to make estimates and judgments that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and revenue and expenses during the period reported. Actual results could differ from those estimates.

Evaluation of Subsequent Events The Company evaluated subsequent events through the date that our Condensed Consolidated Financial Statements were issued. No matters were identified that required adjustment of the Condensed Consolidated Financial Statements or additional disclosure.

Reclassifications Certain prior-period amounts have been reclassified in the accompanying Condensed Consolidated Financial Statements and Notes thereto in order to conform to the current period presentation.

Pending Divestiture As of December 31, 2015, we determined that it was probable that we would dispose of our Interactive Printer Solutions (IPS) business, which triggered an impairment assessment of the related assets which include long-lived assets and goodwill. The assets related to the IPS business were valued using a market approach based on an independent third-party market price. The assessment resulted in charges to reduce the carrying values of goodwill and property, plant and equipment, net. The remaining assets and liabilities of \$85 million and \$35 million, respectively, remain classified as held for sale as of March 31, 2016 and are included in other current assets and other current liabilities, respectively, in the Condensed Consolidated Balance Sheets.

Related Party Transactions In 2011, concurrent with the sale of a noncontrolling interest in our subsidiary, NCR Brasil - Indústria de Equipamentos para Automação S.A., (NCR Manaus) to Scopus Tecnologia Ltda. (Scopus), we entered into a Master Purchase Agreement (MPA) with Banco Bradesco SA (Bradesco), the parent of Scopus. Through the MPA, Bradesco agreed to purchase up to 30,000 ATMs from us over the 5-year term of the agreement. Pricing of the ATMs will adjust over the term of the MPA using certain formulas which are based on prevailing market pricing. We recognized revenue related to Bradesco totaling \$18 million during the three months ended March 31, 2016 and 2015, respectively. As of March 31, 2016 and December 31, 2015, we had \$13 million and \$11 million, respectively, in receivables outstanding from Bradesco.

## Recent Accounting Pronouncements

### Issued

In May 2014, the FASB issued a new revenue recognition standard that will supersede current revenue recognition guidance. The core principle of the guidance is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Subsequently, the FASB issued clarification standards regarding principal versus agent and identifying performance obligations and licensing. The standards will be effective for the first interim period within annual periods beginning after December 15, 2017, with early adoption permitted for annual periods beginning after December 15, 2016, and can be adopted either

Table of Contents

NCR Corporation

Notes to Condensed Consolidated Financial Statements (Unaudited)—(Continued)

retrospectively to each prior reporting period presented or as a cumulative effect adjustment as of the date of adoption. The Company is evaluating the impact that adopting this guidance will have on its consolidated financial statements.

In February 2016, the FASB issued a new leasing standard that will supersede current guidance related to accounting for leases. The guidance is intended to increase transparency and comparability among organizations by recognizing lease assets and lease liabilities on the balance sheet and disclosing key information about leasing arrangements. The standard will be effective for the first interim period within annual periods beginning after December 15, 2018, with early adoption permitted. The standard is required to be adopted using the modified retrospective approach. The Company is evaluating the impact that adopting this guidance will have on its consolidated financial statements.

In March 2016, the FASB issued a new employee share based payment standard that will supersede current guidance related to accounting for stock-based compensation. The guidance requires the recognition of the income tax effects of awards in the income statement when the awards vest or are settled, thus eliminating additional paid in capital pools. The guidance also allows for the employer to repurchase more of an employee's shares for tax withholding purposes without triggering liability accounting. In addition, the guidance allows for a policy election to account for forfeitures as they occur rather than on an estimated basis. The standard will be effective for the first interim period within annual periods beginning after December 15, 2016, with early adoption permitted. Adoption approach varies based on the amendment topic. The Company is evaluating the impact that adopting this guidance will have on its consolidated financial statements.

## 2. GOODWILL AND PURCHASED INTANGIBLE ASSETS

### Goodwill

The carrying amounts of goodwill by segment as of March 31, 2016 and December 31, 2015 are included in the table below. Foreign currency fluctuations are included within other adjustments.

In millions	December 31, 2015				March 31, 2016			
	Accumulated		Total	Additions	Impairment	Other	Accumulated	
	Goodwill	Impairment Losses					Goodwill	Impairment Losses
Software	\$1,936	\$ (7 )	\$1,929	\$ 9	\$ —	\$ —	\$1,945	\$ (7 )
Services	658	—	658	—	—	—	658	—
Hardware	162	(16 )	146	—	—	—	162	(16 )
Total goodwill	\$2,756	\$ (23 )	\$2,733	\$ 9	\$ —	\$ —	\$2,765	\$ (23 )

### Purchased Intangible Assets

NCR's purchased intangible assets, reported in intangibles, net in the Condensed Consolidated Balance Sheets, were specifically identified when acquired, and are deemed to have finite lives. The gross carrying amount and accumulated amortization for NCR's identifiable intangible assets were as set forth in the table below.

In millions	Amortization Period (in Years)	March 31, 2016		December 31, 2015

## 3. DEBT OBLIGATIONS

The following table summarizes the Company's short-term borrowings and long-term debt:

In millions, except percentages	March 31, 2016		December 31, 2015	
	Amount	Weighted-Average Interest Rate	Amount	Weighted-Average Interest Rate
<b>Short-Term Borrowings</b>				
Current portion of Senior Secured Credit Facility <sup>(1)</sup>	\$45	2.98%	\$—	
Trade Receivables Securitization Facility <sup>(1)</sup>	200	1.11%	—	
Other <sup>(1)</sup>	5	6.55%	13	6.34%
Total short-term borrowings	\$250		\$13	
<b>Long-Term Debt</b>				
<b>Senior Secured Credit Facility:</b>				
Term loan facility <sup>(1)</sup>	\$855	2.98%	\$956	2.95%
Revolving credit facility <sup>(1)</sup>	231	2.63%	100	2.61%
<b>Senior notes:</b>				
5.00% Senior Notes due 2022	600		600	
4.625% Senior Notes due 2021	500		500	
5.875% Senior Notes due 2021	400		400	
6.375% Senior Notes due 2023	700		700	
Other <sup>(1)</sup>	16	7.38%	17	7.16%
Deferred Financing Fees	(33 )		(34 )	
Total long-term debt	\$3,269		\$3,239	

Interest rates are weighted average interest rates as of March 31, 2016 and December 31, 2015. The Senior Secured

<sup>(1)</sup> Credit Facility incorporates the impact of the interest rate swap agreement described in Note 11, "Derivatives and Hedging Instruments."

**Senior Secured Credit Facility** On March 31, 2016, the Company amended and restated its senior secured credit facility with and among certain foreign subsidiaries of NCR (the Foreign Borrowers), the lenders party thereto and JPMorgan Chase Bank, NA (JPMCB) as the administrative agent, and refinanced its term loan facility and revolving credit facility thereunder (the Senior Secured Credit Facility). The Senior Secured Credit Facility now consists of a

term loan facility in an aggregate principal amount of \$900 million and a revolving credit facility in the amount of \$1.1 billion. The revolving credit facility also allows a portion of the availability to be used for outstanding letters of credit, and as of March 31, 2016, there were \$28 million in letters of credit outstanding.

Up to \$400 million of the revolving credit facility is available to the Foreign Borrowers to provide the Company with greater flexibility to fund ongoing operations, including its foreign operations. Term loans were made to the Company in U.S. Dollars, and loans under the revolving credit facility will be available in U.S. Dollars, Euros and Pound Sterling.

The outstanding principal balance of the term loan facility is required to be repaid in equal quarterly installments in annual amounts. The repayment schedule requires quarterly installments of approximately \$11 million beginning June 30, 2016, \$17 million beginning June 30, 2018, and \$23 million beginning June 30, 2019, with the balance being due at maturity on March 31, 2021.

Table of Contents

NCR Corporation

Notes to Condensed Consolidated Financial Statements (Unaudited)—(Continued)

Borrowings under the revolving portion of the credit facility are due March 31, 2021. Amounts outstanding under the Senior Secured Credit Facility bear interest at LIBOR (or, in the case of amounts denominated in Euros, EURIBOR), or, at NCR's option, in the case of amounts denominated in U.S. Dollars, at a base rate equal to the highest of (a) the federal funds rate plus 0.50%, (b) JPMCB's "prime rate" and (c) the one-month LIBOR rate plus 1.00% (the Base Rate), plus, in each case, a margin ranging from 1.25% to 2.25% for LIBOR-based loans that are either term loans or revolving loans and EURIBOR-based revolving loans and ranging from 0.25% to 1.25% for Base Rate-based loans that are either term loans or revolving loans, in each case, depending on the Company's consolidated leverage ratio. The terms of the Senior Secured Credit Facility also require certain other fees and payments to be made by the Company, including a commitment fee on the undrawn portion of the revolving credit facility.

The obligations of the Company and Foreign Borrowers under the Senior Secured Credit Facility are guaranteed by certain of the Company's wholly-owned domestic subsidiaries. The Senior Secured Credit Facility and these guarantees are secured by a first priority lien and security interest in certain equity interests owned by the Company and the guarantor subsidiaries in certain of their respective domestic and foreign subsidiaries, and a perfected first priority lien and security interest in substantially all of the Company's U.S. assets and the assets of the guarantor subsidiaries, subject to certain exclusions. These security interests would be released if the Company achieves an "investment grade" rating, and will remain released so long as the Company maintains that rating.

The Senior Secured Credit Facility includes affirmative and negative covenants that restrict or limit the ability of the Company and its subsidiaries to, among other things, incur indebtedness; create liens on assets; engage in certain fundamental corporate changes or changes to the Company's business activities; make investments; sell or otherwise dispose of assets; engage in sale-leaseback or hedging transactions; repurchase stock, pay dividends or make similar distributions; repay other indebtedness; engage in certain affiliate transactions; or enter into agreements that restrict the Company's ability to create liens, pay dividends or make loan repayments. The Senior Secured Credit Facility also includes financial covenants that require the Company to maintain:

- a consolidated leverage ratio on the last day of any fiscal quarter, not to exceed (i) in the case of any fiscal quarter ending on or prior to December 31, 2017, (a) the sum of 4.25 and an amount (not to exceed 0.50) to reflect debt used to reduce NCR's unfunded pension liabilities to (b) 1.00, (ii) in the case of any fiscal quarter ending after December 31, 2017 and on or prior to December 31, 2019, (a) the sum of 4.00 and an amount (not to exceed 0.50) to reflect debt used to reduce NCR's unfunded pension liabilities to (b) 1.00, and (iii) in the case of any fiscal quarter ending after December 31, 2019, the sum of (a) 3.75 and an amount (not to exceed 0.50) to reflect debt used to reduce NCR's unfunded pension liabilities to (b) 1.00; and
- an interest coverage ratio on the last day of any fiscal quarter greater than or equal to 3.50 to 1.00.

At March 31, 2016, the maximum consolidated leverage ratio under the Senior Secured Credit Facility was 4.35 to 1.00.

The Senior Secured Credit Facility also includes provisions for events of default, which are customary for similar financings. Upon the occurrence of an event of default, the lenders may, among other things, terminate the loan commitments, accelerate all loans and require cash collateral deposits in respect of outstanding letters of credit. If the Company is unable to pay or repay the amounts due, the lenders could, among other things, proceed against the collateral granted to them to secure such indebtedness.

The Company may request, at any time and from time to time, but the lenders are not obligated to fund, the establishment of one or more incremental term loans and/or revolving credit facilities (subject to the agreement of existing lenders or additional financial institutions to provide such term loans and/or revolving credit facilities) with commitments in an aggregate amount not to exceed the greater of (i) \$150 million, and (ii) such amount as would not (a) prior to the date that the Company obtains an investment grade rating cause the leverage ratio under the Senior

Secured Credit Facility, calculated on a pro forma basis including the incremental facility and assuming that it and the revolver are fully drawn, to exceed 2.50 to 1.00, and (b) on and after the date that the Company obtains an investment grade rating cause the leverage ratio under the Senior Secured Credit Facility, calculated on a pro forma basis including the incremental facility and assuming that it and the revolver are fully drawn, to exceed a ratio that is 0.50 less than the leverage ratio then applicable under the financial covenants of the Senior Secured Credit Facility, the proceeds of which can be used for working capital requirements and other general corporate purposes.

Senior Unsecured Notes On September 17, 2012, the Company issued \$600 million aggregate principal amount of 5.00% senior unsecured notes due in 2022 (the 5.00% Notes). The 5.00% Notes were sold at 100% of the principal amount and will mature on July 15, 2022. On December 18, 2012, the Company issued \$500 million aggregate principal amount of 4.625% senior unsecured notes due in 2021 (the 4.625% Notes). The 4.625% Notes were sold at 100% of the principal amount and will mature on February 15, 2021. On December 19, 2013, the Company issued \$400 million aggregate principal amount of 5.875% senior unsecured notes due in 2021 (the 5.875% Notes) and \$700 million aggregate principal amount of 6.375% senior unsecured notes due in 2023 (the

Table of Contents

NCR Corporation

Notes to Condensed Consolidated Financial Statements (Unaudited)—(Continued)

6.375% Notes). The 5.875% Notes were sold at 100% of the principal amount and will mature on December 15, 2021 and the 6.375% Notes were sold at 100% of the principal amount and will mature on December 15, 2023. The senior unsecured notes are guaranteed, fully and unconditionally, on an unsecured senior basis, by our subsidiary, NCR International, Inc.

The Company has the option to redeem the 5.00% Notes, in whole or in part, at any time on or after July 15, 2017, at a redemption price of 102.5%, 101.667%, 100.833% and 100% during the 12-month periods commencing on July 15, 2017, 2018, 2019 and 2020 and thereafter, respectively, plus accrued and unpaid interest to the redemption date. Prior to July 15, 2017, the Company may redeem the 5.00% Notes, in whole or in part, at a redemption price equal to 100% of the principal amount plus a make-whole premium and accrued and unpaid interest to the redemption date.

The Company has the option to redeem the 4.625% Notes, in whole or in part, at any time on or after February 15, 2017, at a redemption price of 102.313%, 101.156% and 100% during the 12-month periods commencing on February 15, 2017, 2018 and 2019 and thereafter, respectively, plus accrued and unpaid interest to the redemption date. Prior to February 15, 2017, the Company may redeem the 4.625% Notes, in whole or in part, at a redemption price equal to 100% of the principal amount plus a make-whole premium and accrued and unpaid interest to the redemption date. Prior to February 15, 2016, the Company may redeem the 4.625% Notes in an aggregate principal amount not to exceed 35% of the aggregate principal amount of the notes originally issued at a redemption price of 104.625% plus accrued and unpaid interest to the redemption date, with the net cash proceeds from one or more qualified equity offerings under certain further requirements.

The Company has the option to redeem the 5.875% Notes, in whole or in part, at any time on or after December 15, 2017, at a redemption price of 102.938%, 101.469% and 100% during the 12-month periods commencing on December 15, 2017, 2018 and 2019 and thereafter, respectively, plus accrued and unpaid interest to the redemption date. Prior to December 15, 2017, the Company may redeem the 5.875% Notes, in whole or in part, at a redemption price equal to 100% of the principal amount plus a make-whole premium and accrued and unpaid interest to the redemption date. Prior to December 15, 2016, the Company may redeem the 5.875% Notes in an aggregate principal amount not to exceed 35% of the aggregate principal amount of the notes originally issued at a redemption price of 105.875% plus accrued and unpaid interest to the redemption date, with the net cash proceeds from one or more qualified equity offerings under certain further requirements.

The Company has the option to redeem the 6.375% Notes, in whole or in part, at any time on or after December 15, 2018, at a redemption price of 103.188%, 102.125%, 101.063% and 100% during the 12-month periods commencing on December 15, 2018, 2019, 2020 and 2021 and thereafter, respectively, plus accrued and unpaid interest to the redemption date. Prior to December 15, 2018, the Company may redeem the 6.375% Notes, in whole or in part, at a redemption price equal to 100% of the principal amount plus a make-whole premium and accrued and unpaid interest to the redemption date. Prior to December 15, 2016, the Company may redeem the 6.375% Notes in an aggregate principal amount not to exceed 35% of the aggregate principal amount of the notes originally issued at a redemption price of 106.375% plus accrued and unpaid interest to the redemption date, with the net cash proceeds from one or more qualified equity offerings under certain further requirements.

The terms of the indentures for these notes limit the ability of the Company and certain of its subsidiaries to, among other things, incur additional debt or issue redeemable preferred stock; pay dividends or make certain other restricted payments or investments; incur liens; sell assets; incur restrictions on the ability of the Company's subsidiaries to pay dividends to the Company; enter into affiliate transactions; engage in sale and leaseback transactions; and consolidate, merge, sell or otherwise dispose of all or substantially all of the Company's or such subsidiaries' assets. These covenants are subject to significant exceptions and qualifications. For example, if these notes are assigned an

investment grade rating by Moody's or S&P and no default has occurred or is continuing, certain covenants will be terminated.

**Trade Receivables Securitization Facility** In November 2014, the Company established a two-year revolving trade receivables securitization facility (the A/R Facility) with PNC Bank, National Association (PNC) as the administrative agent, and various lenders. The A/R Facility provides for up to \$200 million in funding based on the availability of eligible receivables and other customary factors and conditions.

Under the A/R Facility, NCR sells and/or contributes certain of its U.S. trade receivables to a wholly-owned, bankruptcy-remote subsidiary as they are originated, and advances by the lenders to that subsidiary are secured by those trade receivables. The assets of this financing subsidiary are restricted as collateral for the payment of its obligations under the A/R Facility, and its assets and credit are not available to satisfy the debts and obligations owed to the creditors of the Company. The Company includes the assets, liabilities and results of operations of this financing subsidiary in its consolidated financial statements. The financing subsidiary owned \$435 million and \$368 million of outstanding accounts receivable as of March 31, 2016 and December 31, 2015, respectively, and these amounts are included in accounts receivable, net in the Company's Condensed Consolidated Balance Sheets.

Table of Contents

NCR Corporation

Notes to Condensed Consolidated Financial Statements (Unaudited)—(Continued)

The financing subsidiary will pay annual commitment and other customary fees to the lenders, and advances by a lender under the A/R Facility will accrue interest (i) at a reserve-adjusted LIBOR rate or a base rate equal to the highest of (a) the applicable lender's prime rate or (b) the federal funds rate plus 0.50%, if the lender is a committed lender, or (ii) based on commercial paper interest rates if the lender is a commercial paper conduit lender. Advances may be prepaid at any time without premium or penalty.

The A/R Facility contains various customary affirmative and negative covenants and default and termination provisions which provide for the acceleration of the advances under the A/R Facility in circumstances including, but not limited to, failure to pay interest or principal when due, breach of representation, warranty or covenant, certain insolvency events or failure to maintain the security interest in the trade receivables, and defaults under other material indebtedness.

Debt Maturities Maturities of long-term debt outstanding, in principal amounts, at March 31, 2016 are summarized below:

		For the years ended					
		December 31					
		April					
		1					
		2016					
In millions	Total	through	2017	2018	2019	2020	Thereafter
		December					
		31,					
		2016					
Debt maturities	\$3,552	\$238	\$ 50	\$ 67	\$ 85	\$ 95	\$ 3,017

Fair Value of Debt The Company utilized Level 2 inputs, as defined in the fair value hierarchy, to measure the fair value of the long-term debt, which, as of March 31, 2016 and December 31, 2015 was \$3.56 billion and \$3.21 billion, respectively. Management's fair value estimates were based on quoted prices for recent trades of NCR's long-term debt, quoted prices for similar instruments, and inquiries with certain investment communities.

#### 4. RESTRUCTURING PLAN

In July 2014, we announced a restructuring plan to strategically reallocate resources so that we can focus on our higher-growth, higher-margin opportunities in the software-driven consumer transaction technologies industry. The program is centered on ensuring that our people and processes are aligned with our continued transformation and includes: rationalizing our product portfolio to eliminate overlap and redundancy; taking steps to end-of-life older commodity product lines that are costly to maintain and provide low margins; moving lower productivity services positions to our new centers of excellence due to the positive impact of services innovation; and reducing layers of management and organizing around divisions to improve decision-making, accountability and strategic execution.

As a result of the restructuring plan, the Company recorded a total charge of \$2 million and \$16 million in the three months ended March 31, 2016 and 2015, respectively. The Company expects to achieve annualized run-rate savings of approximately \$105 million in 2016. Our estimate of restructuring-related opportunities in connection with this restructuring plan for 2016 is approximately \$20 million to \$25 million.

Table of Contents

NCR Corporation

Notes to Condensed Consolidated Financial Statements (Unaudited)—(Continued)

Charges related to the restructuring plan for the the three months ended March 31 were:

	Three months ended March 31 2016	2015
In millions		
Severance and other employee-related costs		
ASC 712 charges included in restructuring-related charges	\$—	\$(2 )
ASC 420 charges included in restructuring-related charges	—	2
Inventory-related charges		
Charges included in cost of products	—	1
Asset-related charges		
External and internal use software impairment charges included in restructuring-related charges	1	—
Impairment of long-lived assets included in restructuring-related charges	—	14
Other exit costs		
Other exit costs included in restructuring-related charges	1	1
Total restructuring charges	\$2	\$16

In the three months ended March 31, 2016, asset related charges included the write-off of internal use capitalized software for projects that have been abandoned. In the three months ended March 31, 2015, asset related charges included the impairment of long-lived assets that were no longer considered strategic and were held for sale. The Company utilized Level 3 inputs, as defined in the fair value hierarchy, to measure the fair value.

The results by segment, as disclosed in Note 13, "Segment Information and Concentrations," exclude the impact of these costs, which is consistent with the manner by which management assesses the performance and evaluates the results of each segment. The following table summarizes the total liabilities relating to the restructuring plan, which are included on the Condensed Consolidated Balance Sheets in other current liabilities.

In millions	2016	2015
Employee Severance and Other Exit Costs		
Beginning balance as of January 1	\$20	\$60
Cost recognized during the period	1	1
Utilization	(8)	(16)
Foreign currency translation adjustments	—	(2)
Ending balance as of March 31	\$13	\$43

## 5. INCOME TAXES

Income tax provisions for interim (quarterly) periods are based on an estimated annual effective income tax rate calculated separately from the effect of significant, infrequent or unusual items. Income tax expense was \$13 million and \$2 million for the three months ended March 31, 2016 and 2015, respectively. The increase in income tax expense was driven by a reduction in discrete benefits in the three months ended March 31, 2016 and by an unfavorable mix in earnings.

## 6. STOCK COMPENSATION PLANS

As of March 31, 2016, the Company's primary type of stock-based compensation was restricted stock units. Stock-based compensation expense for the following periods were:

13

---

Table of Contents

NCR Corporation

Notes to Condensed Consolidated Financial Statements (Unaudited)—(Continued)

In millions	Three months ended March 31 2016	2015
Restricted stock units	\$13	\$9
Tax benefit	(4)	(3)
Total stock-based compensation (net of tax)	\$9	\$6

Stock-based compensation expense is recognized in the financial statements based upon fair value.

During the three months ended March 31, 2016, the Company issued price-contingent restricted stock units with a performance period of 60 months. Vesting of these units is dependent upon the attainment of target stock prices and service conditions. The Company estimated the fair value and derived service period using the Monte Carlo simulation option pricing model. The Company amortizes the fair value of these awards over the explicit service period of 36 to 48 months, which was longer than the derived service period, adjusted for estimated forfeitures. Provided that the explicit service period is rendered, the total fair value of the price-contingent restricted stock units at the date of grant is recognized as compensation expense even if the market condition is not achieved. However, the number of shares that ultimately vest can vary significantly with the performance of the specified market criteria. The weighted-average assumptions used and the resulting estimates of fair value were as follows:

	Three months ended March 31, 2016
Expected volatility	33.9%
Expected dividend yield	—
Risk-free rate	1.21%
Weighted average fair value per share	\$14.93

Expected volatility is based on the historical volatility derived from NCR stock price movements over the last 60 months. The risk-free interest rate was based upon the U.S. Treasury yield curve in effect at the time of grant with a remaining term of 60 months.

As of March 31, 2016, the total unrecognized compensation cost of \$155 million related to unvested restricted stock grants is expected to be recognized over a weighted average period of approximately 1.4 years.

**7. EMPLOYEE BENEFIT PLANS**

Components of net periodic benefit cost (income) of the pension plans for the three months ended March 31 were as follows:

In millions	U.S. Pension Benefits		International Pension Benefits		Total Pension Benefits	
	2016	2015	2016	2015	2016	2015
Net service cost	\$—	\$—	\$2	\$3	\$2	\$3
Interest cost	23	22	7	14	30	36
Expected return on plan assets	(18)	(18)	(9)	(21)	(27)	(39)
Net periodic benefit cost (income)	\$5	\$4	\$—	\$(4)	\$5	\$—

The benefit from the postretirement plan for the three months ended March 31 was:

	Three months ended March 31	
In millions	2016	2015
Interest cost	\$—	\$—
Amortization of:		
Prior service benefit	(4)	(5)
Actuarial loss	1	1
Net postretirement benefit	\$(3)	\$(4)

Table of Contents

NCR Corporation

Notes to Condensed Consolidated Financial Statements (Unaudited)—(Continued)

The cost of the postemployment plan for the three months ended March 31 was:

	Three months ended March 31	
In millions	2016	2015
Net service cost	\$4	\$4
Interest cost	—	1
Amortization of:		
Prior service benefit	(1)	(1)
Actuarial gain	(1)	—
Net benefit cost	\$2	\$4
Restructuring severance cost	—	(2)
Total postemployment cost	\$2	\$2

## Employer Contributions

**Pension** For the three months ended March 31, 2016, NCR contributed approximately \$7 million to its international pension plans. In 2016, NCR anticipates contributing an additional \$28 million to its international pension plans for a total of \$35 million.

**Postretirement** For the three months ended March 31, 2016, NCR contributed \$1 million to its U.S. postretirement plan. NCR anticipates contributing an additional \$2 million to its U.S. postretirement plan for a total of \$3 million in 2016.

**Postemployment** For the three months ended March 31, 2016, NCR contributed approximately \$10 million to its postemployment plans. NCR anticipates contributing an additional \$23 million to its postemployment plans for a total of \$33 million in 2016, which includes planned contributions associated with the previously announced restructuring plan. See Note 3, "Restructuring Plan," for additional information.

## 8. COMMITMENTS AND CONTINGENCIES

In the normal course of business, NCR is subject to various proceedings, lawsuits, claims and other matters, including, for example, those that relate to the environment and health and safety, labor and employment, employee benefits, import/export compliance, intellectual property, data privacy and security, product liability, commercial disputes and regulatory compliance, among others. Additionally, NCR is subject to diverse and complex laws and regulations, including those relating to corporate governance, public disclosure and reporting, environmental safety and the discharge of materials into the environment, product safety, import and export compliance, data privacy and security, antitrust and competition, government contracting, anti-corruption, and labor and human resources, which are rapidly changing and subject to many possible changes in the future. Compliance with these laws and regulations, including changes in accounting standards, taxation requirements, and federal securities laws among others, may create a substantial burden on, and substantially increase costs to NCR or could have an impact on NCR's future operating results. The Company has reflected all liabilities when a loss is considered probable and reasonably estimable in the Condensed Consolidated Financial Statements. We do not believe there is a reasonable possibility that losses

exceeding amounts already recognized have been incurred, but there can be no assurances that the amounts required to satisfy alleged liabilities from such matters will not impact future operating results. Other than as stated below, the Company does not currently expect to incur material capital expenditures related to such matters. However, there can be no assurances that the actual amounts required to satisfy alleged liabilities from various lawsuits, claims, legal proceedings and other matters, including, but not limited to the Fox River and Kalamazoo River environmental matters and other matters discussed below, and to comply with applicable laws and regulations, will not exceed the amounts reflected in NCR's Condensed Consolidated Financial Statements or will not have a material adverse effect on its consolidated results of operations, capital expenditures, competitive position, financial condition or cash flows.

In 2012, NCR received anonymous allegations from a purported whistleblower regarding certain aspects of the Company's business practices in China, the Middle East and Africa. The principal allegations received in 2012 related to the Company's compliance with the Foreign Corrupt Practices Act (FCPA) and federal regulations that prohibit U.S. persons from engaging in certain activities in Syria. As previously reported, the Company and its Board of Directors completed investigations with the assistance of experienced outside counsel and resolved a related shareholder derivative action.

Table of Contents

NCR Corporation

Notes to Condensed Consolidated Financial Statements (Unaudited)—(Continued)

With respect to the FCPA, the Company made a presentation to the staff of the Securities and Exchange Commission (SEC) and the U.S. Department of Justice (DOJ) providing the facts known to the Company related to the whistleblower's FCPA allegations, and advising the government that many of these allegations were unsubstantiated. With respect to the DOJ, the Company responded to its most recent requests for documents in 2014. On June 22, 2015, the SEC staff notified the Company that it did not intend to recommend an enforcement action against the Company with respect to these matters.

With respect to Syria, in 2012 NCR voluntarily notified the U.S. Treasury Department, Office of Foreign Assets Control (OFAC) of potential violations and ceased operations in Syria, which were commercially insignificant. The notification related to confusion stemming from the Company's failure to register in Syria the transfer of the Company's Syrian branch to a foreign subsidiary and to deregister the Company's legacy Syrian branch, which was a branch of NCR Corporation. The Company has applied for and received from OFAC various licenses that have permitted the Company to take measures required to wind down its past operations in Syria. The Company also submitted a detailed report to OFAC regarding this matter, including a description of the Company's comprehensive export control program and related remedial measures. The Company continues to cooperate with the authorities. There can be no assurance that the Company will not be subject to fines or other remedial measures as a result of OFAC's investigation.

In 2013 the Company, through its travel business, entered into a subcontract with a prime contractor with respect to certain information technology components of two airport construction projects in Oman. In 2015 the prime contractor's contract with an Omani public agency was terminated for cause; the Company and the prime contractor (a joint venture) subsequently provided to each other notices of termination of the subcontract. The prime contractor subsequently filed liquidation proceedings in Oman. The Company had delivered and installed goods and services in the approximate amount of \$40 million as of 2015 when the various contracts were terminated, which sum remains due and owing; under the terms of the subcontract, most of the payment obligations by the Omani public agency to the terminated prime contractor, and from the terminated prime contractor to the Company, had not at that time matured. The Company remains engaged in the construction projects, having been urged by the Omani public agency to enter into a new subcontract with a new prime contractor, which the Company did later in 2015. The Company has engaged in various means to obtain recoveries of the amounts owed to it, including work performed under a so-called "comfort letter" with the public agency for a portion of 2015, claims in the liquidation process and negotiations with the public agency; it has also identified various additional avenues to pursue against various parties, including without limitation the parent of one of the joint venture partners in the terminated prime contractor. Based on the status of negotiations and proceedings as of December 31, 2015, the Company created a reserve of \$20 million with respect to those portions of the claim that it considered did not meet the Company's standard for probable recovery.

In June 2014, one of the Company's Brazilian subsidiaries, NCR Manaus, was notified of a Brazilian federal tax assessment of R168 million, or approximately \$46 million as of March 31, 2016, including penalties and interest regarding certain federal indirect taxes for 2010 through 2012. The assessment alleges improper importation of certain components into Brazil's free trade zone that would nullify related indirect tax incentives. We have not recorded an accrual for the assessment, as the Company believes it has a valid position regarding indirect taxes in Brazil and, as such, has filed an appeal. However, it is possible that the Company could be required to pay taxes, penalties and interest related to this matter, which could be material to the Company's Condensed Consolidated Financial Statements. As of March 31, 2016, the Company estimated the aggregate risk related to this matter to be zero to approximately \$57 million.

Environmental Matters NCR's facilities and operations are subject to a wide range of environmental protection laws, and NCR has investigatory and remedial activities underway at a number of facilities that it currently owns or operates, or formerly owned or operated, to comply, or to determine compliance, with such laws. Also, NCR has been

identified, either by a government agency or by a private party seeking contribution to site clean-up costs, as a potentially responsible party (PRP) at a number of sites pursuant to various state and federal laws, including the Federal Water Pollution Control Act, the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA) and comparable state statutes. Other than the Fox River matter and the Kalamazoo River matter detailed below, we currently do not anticipate material expenses and liabilities from these environmental matters.

Fox River NCR is one of eight entities that were formally notified by governmental and other entities, such as local Native American tribes, that they are PRPs for environmental claims (under CERCLA and other statutes) arising out of the presence of polychlorinated biphenyls (PCBs) in sediments in the lower Fox River and in the Bay of Green Bay in Wisconsin. The other Fox River PRPs that received notices are Appleton Papers Inc. (API; now known as Appvion, Inc.), P.H. Glatfelter Company ("Glatfelter"), Georgia-Pacific Consumer Products LP (GP, successor to Fort James Operating Company), WTM I Co. (formerly Wisconsin Tissue Mills, now owned by Canal Corporation, formerly known as Chesapeake Corporation), CBC Corporation (formerly Riverside Paper Corporation), U.S. Paper Mills Corp. (owned by Sonoco Products Company), and Menasha Corporation. NCR was identified as a PRP because of alleged PCB discharges from two carbonless copy paper manufacturing facilities it previously owned, which

Table of Contents

NCR Corporation

Notes to Condensed Consolidated Financial Statements (Unaudited)—(Continued)

were located along the Fox River. NCR sold its facilities in 1978 to API. Some parties contend that NCR is also responsible for PCB discharges from paper mills owned by other companies because NCR carbonless copy paper "broke" was allegedly purchased by those other mills as a raw material.

The United States Environmental Protection Agency (USEPA) and Wisconsin Department of Natural Resources (together, the Governments) developed clean-up plans for the upper and lower parts of the Fox River and for portions of the Bay of Green Bay. On November 13, 2007, the Governments issued a unilateral administrative order (the 2007 Order) under CERCLA to the eight original PRPs, requiring them to perform remedial work under the Governments' clean-up plan for the lower parts of the river (operable units 2 through 5). In April 2009, NCR and API formed a limited liability company (the LLC), which entered into an agreement with an environmental remediation contractor to perform the work at the Fox River site. In-water dredging and remediation under the clean-up plan commenced shortly thereafter.

NCR and API, along with B.A.T Industries p.l.c. (BAT), share among themselves a portion of the cost of the Fox River clean-up and natural resource damages (NRD) based upon a 1998 agreement (the Cost Sharing Agreement), a 2005 arbitration award (subsequently confirmed as a judgment), and a September 30, 2014 Funding Agreement (the Funding Agreement). The Cost Sharing Agreement and the arbitration resolved disputes that arose out of the Company's 1978 sale of its Fox River facilities to API. The Cost Sharing Agreement and arbitration award resulted in a 45% share for NCR of the first \$75 million of such costs (a threshold that was reached in 2008), and a 40% share for amounts in excess of \$75 million. The Funding Agreement, arose out of a 2012 to 2014 arbitration dispute between NCR and API, and provides for regular, ongoing funding of NCR incurred Fox River remediation costs via contributions, made to a new limited liability corporation created by the Funding Agreement, by BAT, API and, for 2014, API's indemnitor Windward Prospects. The Funding Agreement creates an obligation on BAT and API to fund 50% of NCR's Fox River remediation costs from October 1, 2014 forward; the Funding Agreement also provides NCR opportunities to recoup, both indirectly from third parties and directly, the difference between BAT's and API's 60% obligation under the Cost Sharing Agreement and arbitration award on the one hand and their 50% payments under the Funding Agreement on the other, as well as the difference between the amount NCR received under the Funding Agreement and the amount owed to it under the Cost Sharing Agreement and arbitration award for the period from April 2012 through the end of September 2014.

Various litigation proceedings concerning the Fox River are pending, and, as the result of appellate decisions in September 2014, NCR's potential liability for the Fox River matter, for purposes of calculating the Company's Fox River reserve, is no longer considered to be 100% of the remediation costs in the lower parts of the river. In a contribution action filed in 2008 seeking to determine allocable responsibility of several companies and governmental entities, a federal court in Wisconsin had issued rulings in 2009 and 2011 that effectively placed all remediation liability on NCR for four of the five "operable units" of the site. In another part of the same lawsuit, the Company prevailed in a 2012 trial on claims seeking to hold it liable under an "arranger" theory for the most upriver portion of the site, operable unit 1.

On September 25, 2014, the United States Court of Appeals for the Seventh Circuit issued its ruling on appeal. That ruling vacated the lower court's contribution decisions that were adverse to NCR (i.e., it vacated "the decision to hold NCR responsible for all of the response costs at operable units 2 through 5 in contribution"), set aside an adverse judgment against the Company in the amount of \$76 million, and affirmed the Company's favorable verdict in the "arranger" liability trial with respect to operable unit 1. The case was remanded to the federal district court in Wisconsin for further proceedings, for potential consideration of additional factors noted by the appellate court, in which proceedings NCR will vigorously contest the amount of remediation costs allocable to it, and seek to recover from other parties portions of the costs it has previously paid. The case is scheduled for trial in March 2017.

In the quarter ended March 31, 2015, under a case management order applicable to the remanded case the federal district court allowed the filing of certain additional contractual and other claims, including claims against the Company, as well as certain claims by API against other parties (in light of the September 2014 appellate ruling that had restored those claims), which resulted in claims for potential indemnity by those other parties against the Company (under the Funding Agreement, to the extent the Company is liable for such claims, API must pay its recoveries into the limited liability corporation created by the Funding Agreement, and the Company may then seek to obtain reimbursement under its terms). The Company also updated the amounts it is seeking in its affirmative claims against other parties. Additionally, in March 2015, notwithstanding the prior trial and appellate results that had been favorable to the Company, the court entered a ruling holding NCR liable for contamination in operable unit 1, an area upriver from the Company's former facilities, on what the court considered to be new guidance created by the appellate court in its September 2014 decision. The Company believes the March 2015 decision incorrectly applied the appellate court ruling. While the Company's effort to obtain special appellate review in the form of a petition for mandamus was denied on May 1, 2015 by the appellate court, in a subsequent decision dated May 15, 2015 the district court indicated, in a ruling that addressed several issues, that NCR had no liability for operable unit 1, noting "NCR discharged no PCBs in OU1, and therefore has no divisible share of the clean-up costs for that area."

Table of Contents

NCR Corporation

Notes to Condensed Consolidated Financial Statements (Unaudited)—(Continued)

In 2010 the Governments filed a lawsuit (the Government enforcement action) in Wisconsin federal court against the companies named in the 2007 Order. After a 2012 trial, in May 2013 that court held, among other things, that harm at the site is not divisible, and it entered a declaratory judgment against seven defendants (including NCR) finding them jointly and severally liable to comply with the applicable provisions of the 2007 Order. The court also issued an injunction against four companies (including NCR), ordering them to comply with the applicable provisions of the 2007 Order; only NCR complied with the injunction. Several parties, including NCR, appealed from the judgment. In a companion opinion to the ruling described in the preceding paragraph, the United States Court of Appeals for the Seventh Circuit, also on September 25, 2014, vacated the injunction, and also vacated the declaratory judgment that had been entered against the Company. The appellate court also ruled that NCR's defense based on divisibility of harm at the site, which the district court had rejected, must be reconsidered by the district court. The declaratory judgment in the Government enforcement action with respect to liability under the 2007 Order against another defendant, Glatfelter, which pursued its appeal on grounds different from those pursued by NCR, was affirmed.

The case was remanded to the federal district court in Wisconsin for further proceedings. In a ruling on May 15, 2015, the district court ruled in NCR's favor and rejected the Governments' efforts to reinstate the declaratory judgment against NCR. The court issued findings in favor of the Company's divisibility defense, and held that NCR's share of liability for operable unit 4 was 28% (the Company had then already paid more than 28% of the remediation costs for that part of the river). Various parties asked the court to reconsider its ruling, and in October 2015 the court granted those motions, with the prospect that the Company could continue to face joint and several liability for remediation of the river, in conjunction with other PRPs, although the Company's position remains that it has performed more than its fair share of remediation costs at the site; a judgment on that matter had not been entered as of March 31, 2016. The remaining claims in the Government enforcement action are expected to be litigated in 2016 and 2017; trial of the matter is scheduled for the spring of 2017, three days following conclusion of the trial in the contribution case referenced above. With respect to remaining remediation work, one other PRP, GP, had agreed by virtue of an earlier settlement with the Governments that it is "liable to the United States . . . for performance of all response actions that the [2007 Order] requires for" the lower portion of operable unit 4 and operable unit 5.

With respect to 2015 remediation, following negotiations with the Governments and GP the Company agreed in April 2015 to perform a portion of the work planned for 2015, and to fund approximately one-third of the cost of that work, with GP funding an equal amount. This agreement was formalized in a stipulation and proposed consent decree filed with the federal court; each party preserved its rights to recover its 2015 costs from the other in the contribution litigation. The Governments demanded that Glatfelter agree to perform or fund the remaining approximate one-third of the work. NCR and GP undertook the remediation efforts they agreed to perform in 2015. Glatfelter performed portions but not all of the work the Governments sought to require of it.

As of March 31, 2016, no final arrangement for the conduct of 2016 remediation work had been reached. NCR and GP have offered to repeat the arrangement they performed in 2015, in which NCR would conduct approximately two-thirds of the work and GP would reimburse NCR for one-third of the work, and NCR and GP have commenced remediation work for the 2016 season. Glatfelter has indicated it would fund a portion of 2016 work, but the parties remain in dispute as to the work Glatfelter will perform.

With respect to the Company's prior dispute with API, which was generally superseded by the Funding Agreement, the Company has continued to receive timely payments under the Funding Agreement.

NCR's eventual remediation liability, followed by long-term monitoring, will depend on a number of factors. In establishing the reserve, NCR attempts to estimate a range of reasonably possible outcomes for each of these factors,

although each range is itself uncertain. NCR uses its best estimate within the range, if that is possible. Where there is a range of equally possible outcomes, and there is no amount within that range that is considered to be a better estimate than any other amount, NCR uses the low end of the range. In general, the most significant factors include: (1) the total remaining clean-up costs, including long-term monitoring following completion of the clean-up; (2) total NRD for the site; (3) the share of clean-up costs and NRD that NCR will bear; (4) NCR's transaction and litigation costs to defend itself in this matter; and (5) the share of NCR's payments that API and/or BAT will bear, as discussed above. With respect to NRD, in connection with a certain settlement entered into by other PRPs, in the year ended December 31, 2015 the Government asked the court to allow it to withdraw the NRD claims it had prosecuted on behalf of NRD trustees, including those NRD claims asserted against the Company (the Government had represented it would do so in the course of presenting the settlement to the court for approval).

Calculation of the Company's Fox River reserve is subject to several complexities, and it is possible there could be additional changes to some elements of the reserve over upcoming periods, although the Company is unable to predict or estimate such changes at this time. There can be no assurance that the clean-up and related expenditures and liabilities will not have a material effect on NCR's capital expenditures, earnings, financial condition, cash flows, or competitive position. As of March 31, 2016,

Table of Contents

NCR Corporation

Notes to Condensed Consolidated Financial Statements (Unaudited)—(Continued)

the net reserve for the Fox River matter was approximately \$23 million, compared to \$26 million as of December 31, 2015. The change in the net reserve is due to payments for clean-up activities and litigation costs. NCR contributes to the LLC in order to fund remediation activities and generally, by contract, has funded certain amounts of remediation expenses in advance. As of March 31, 2016 and December 31, 2015, approximately zero remained from this funding. NCR's reserve for the Fox River matter is reduced as the LLC makes payments to the remediation contractor and other vendors with respect to remediation activities.

Under a 1996 agreement, AT&T Corp. (AT&T) and Alcatel-Lucent (now part of Nokia) are responsible severally (not jointly) for indemnifying NCR for certain portions of the amounts paid by NCR for the Fox River matter over a defined threshold and subject to certain offsets. (The agreement governs certain aspects of AT&T's divestiture of NCR and of what was then known as Lucent Technologies.) NCR's estimate of what AT&T and Alcatel-Lucent remain obligated to pay under the indemnity totaled approximately \$11 million and \$15 million as of March 31, 2016 and December 31, 2015, respectively, and is deducted in determining the net reserve discussed above.

In connection with the Fox River and other matters, through March 31, 2016, NCR has received a combined total of approximately \$173 million in settlements reached with its principal insurance carriers. Portions of most of these settlements are payable to a law firm that litigated the claims on the Company's behalf. Some of the settlements cover not only the Fox River but also other environmental sites. Of the total amount collected to date, \$9 million is subject to competing claims by API.

Kalamazoo River In November 2010, USEPA issued a "general notice letter" to NCR with respect to the Allied Paper, Inc./Portage Creek/Kalamazoo River Superfund Site (Kalamazoo River site) in Michigan. Three other companies - International Paper, Mead Corporation, and Consumers Energy - also received general notice letters at or about the same time. USEPA asserts that the site is contaminated by various substances, primarily PCBs, as a result of discharges by various paper mills located along the river. USEPA does not claim that the Company made direct discharges into the Kalamazoo River, and NCR never had facilities at or near the Kalamazoo River site, but indicated that "NCR may be liable under Section 107 of CERCLA ... as an arranger, who by contract or agreement, arranged for the disposal, treatment and/or transportation of hazardous substances at the Site." USEPA stated that it "may issue special notice letters to [NCR] and other PRPs for future RI/FS [remedial investigation / feasibility studies] and RD/RA [remedial design / remedial action] negotiations."

In connection with the Kalamazoo River site, in December 2010 the Company, along with two other defendants, was sued in federal court by three GP affiliate corporations in a contribution and cost recovery action for alleged pollution. The suit, pending in Michigan, asks that the Company pay a "fair portion" of these companies' costs. Various removal and remedial actions remain to be performed at the Kalamazoo River site, the costs for which have not been determined. The suit alleges that the Company is liable as an "arranger" under CERCLA. The initial phase of the case was tried in a Michigan federal court in February 2013; on September 26, 2013 the court issued a decision that held NCR was liable as an "arranger," as of at least March 1969. (PCB-containing carbonless copy paper was produced from approximately 1954 to April 1971, and the majority of contamination had occurred prior to 1969). NCR has preserved its right to appeal the September 2013 decision.

The Court did not determine NCR's share of the overall liability or how NCR's liability relates to the liability of other liable or potentially liable parties at the site. Relative shares of liability were tried to the court in a subsequent phase of the case; the trial concluded in December 2015, and posttrial briefing concluded in March 2016. The parties are awaiting the court's judgment. Prior to trial, in response to a motion filed by the Company, the court dismissed several portions of GP's claims as time-barred, with the result that the past costs that were tried amounted to approximately \$50 million. The court may or may not also rule on the allocation of future costs. If the Company is found liable for

money damages or otherwise with respect to the Kalamazoo River site, it would have claims against BAT and API under the Cost Sharing Agreement, the arbitration award, the judgment and the Funding Agreement discussed above in connection with the Fox River matter (the Funding Agreement may provide partial reimbursement of such damages depending on the extent of certain recoveries, if any, against third parties under its terms). The Company would also have claims against AT&T and Alcatel-Lucent (Nokia) under the arrangement discussed above in connection with the Fox River matter. As of March 31, 2016 and December 31, 2015, the reserve for litigation expenses associated with the Kalamazoo matter was approximately \$13 million and \$18 million, respectively.

**Environmental Remediation Estimates** It is difficult to estimate the future financial impact of environmental laws, including potential liabilities. NCR records environmental provisions when it is probable that a liability has been incurred and the amount or range of the liability is reasonably estimable. Provisions for estimated losses from environmental restoration and remediation are, depending on the site, based generally on internal and third-party environmental studies, estimates as to the number and participation level of other PRPs, the extent of contamination, estimated amounts for attorney and other fees, and the nature of required clean-up and restoration actions. Reserves are adjusted as further information develops or circumstances change. Management expects that the amounts reserved from time to time will be paid out over the period of investigation, negotiation, remediation and restoration for the applicable sites. The amounts provided for environmental matters in NCR's Condensed

Table of Contents

NCR Corporation

Notes to Condensed Consolidated Financial Statements (Unaudited)—(Continued)

Consolidated Financial Statements are the estimated gross undiscounted amounts of such liabilities, without deductions for indemnity insurance, third-party indemnity claims or recoveries from other PRPs, except as qualified in the following sentences. Except for the sharing agreement with API described above with respect to a particular insurance settlement, in those cases where insurance carriers or third-party indemnitors have agreed to pay any amounts and management believes that collectibility of such amounts is probable, the amounts are recorded in the Condensed Consolidated Financial Statements. For the Fox River site, as described above, assets relating to the AT&T and Alcatel-Lucent indemnity and to the API/BAT obligations are recorded as payment is supported by contractual agreements, public filings and/or payment history.

**Guarantees and Product Warranties** Guarantees associated with NCR's business activities are reviewed for appropriateness and impact to the Company's Condensed Consolidated Financial Statements. As of March 31, 2016 and December 31, 2015, NCR had no material obligations related to such guarantees, and therefore its Condensed Consolidated Financial Statements do not have any associated liability balance.

NCR provides its customers a standard manufacturer's warranty and records, at the time of the sale, a corresponding estimated liability for potential warranty costs. Estimated future obligations due to warranty claims are based upon historical factors, such as labor rates, average repair time, travel time, number of service calls per machine and cost of replacement parts. When a sale is consummated, the total customer revenue is recognized, provided that all revenue recognition criteria are otherwise satisfied, and the associated warranty liability is recorded using pre-established warranty percentages for the respective product classes.

From time to time, product design or quality corrections are accomplished through modification programs. When identified, associated costs of labor and parts for such programs are estimated and accrued as part of the warranty reserve.

The Company recorded the activity related to the warranty reserve for the three months ended March 31 as follows:

In millions	2016	2015
Warranty reserve liability		
Beginning balance as of January 1	\$ 24	\$ 22
Accruals for warranties issued	7	9
Settlements (in cash or in kind)	(10)	(9)
Ending balance as of March 31	\$ 21	\$ 22

In addition, NCR provides its customers with certain indemnification rights. In general, NCR agrees to indemnify the customer if a third party asserts patent or other infringement on the part of its customers for its use of the Company's products subject to certain conditions that are generally standard within the Company's industries. On limited occasions the Company will undertake additional indemnification obligations for business reasons. From time to time, NCR also enters into agreements in connection with its acquisition and divestiture activities that include indemnification obligations by the Company. The fair value of these indemnification obligations is not readily determinable due to the conditional nature of the Company's potential obligations and the specific facts and circumstances involved with each particular agreement. The Company has not recorded a liability in connection with these indemnifications, and no current indemnification instance is material to the Company's financial position. Historically, any payments made by the Company under these types of agreements have not had a material effect on the Company's consolidated financial condition, results of operations or cash flows.

## 9. SERIES A PREFERRED STOCK

On December 4, 2015, NCR issued 820,000 shares of Series A Convertible Preferred Stock to certain entities affiliated with Blackstone Capital Partners VI L.P. and Blackstone Tactical Opportunities L.L.C. (collectively, Blackstone) for an aggregate purchase price of \$820 million, or \$1,000 per share, pursuant to an Investment Agreement between the Company and Blackstone, dated November 11, 2015. In connection with the issuance of the Series A Convertible Preferred Stock, the Company incurred direct and incremental expenses of \$26 million, including financial advisory fees, closing costs, legal expenses and other offering-related expenses. These direct and incremental expenses originally reduced the Series A Convertible Preferred Stock, and will be accreted through retained earnings as a deemed dividend from the date of issuance through the first possible known redemption date, March 16, 2024. Holders of Series A Convertible Preferred Stock are entitled to a cumulative dividend at the rate of 5.5% per annum, payable quarterly in arrears. During the three months ended March 31, 2016, the Company paid dividends-in-kind of \$12 million, or 12,133 preferred shares, associated with the Series A Convertible Preferred Stock. As of March 31, 2016 and December 31, 2015, the Company had accrued dividends of \$4 million, respectively, associated with the Series A Convertible Preferred Stock. There were no cash dividends declared during the three months ended March 31, 2016 or 2015, respectively.

Table of Contents

NCR Corporation

Notes to Condensed Consolidated Financial Statements (Unaudited)—(Continued)

The Series A Convertible Preferred Stock is convertible at the option of the holders at any time into shares of common stock at a conversion price of \$30.00 per share or a conversion rate of 33.333 shares of common stock per share of Series A Convertible Preferred Stock. As of March 31, 2016 and December 31, 2015, the maximum number of common shares that could be required to be issued if converted was 27.8 million and 27.4 million shares, respectively.

## 10. EARNINGS PER SHARE

Basic earnings per share (EPS) is calculated by dividing net income or loss attributable to NCR less any dividends, accretion or decrction, redemption or induced conversion on our Series A Convertible Preferred Stock, by the weighted average number of shares outstanding during the reported period.

In computing diluted EPS, we adjust the numerator used in the basic EPS computation, subject to anti-dilution requirements, to add back the dividends (declared or cumulative undeclared) applicable to the Series A Convertible Preferred Stock. Such add-back would also include any adjustments to equity in the period to accrete the Series A Convertible Preferred Stock to its redemption price, or recorded upon a redemption or induced conversion. We adjust the denominator used in the basic EPS computation, subject to anti-dilution requirements, to include the dilution from potential shares resulting from the issuance of the Series A Convertible Preferred Stock, restricted stock units, and stock options. The Company includes the potential windfall or shortfall tax benefits as well as average unrecognized compensation expense as part of the assumed proceeds from exercises of stock options. The Company uses the tax law ordering approach to determine the potential utilization of windfall benefits.

The holders of Series A Convertible Preferred Stock and unvested restricted stock units do not have nonforfeitable rights to common stock dividends or common stock dividend equivalents and therefore do not qualify as participating securities. See Note 6, "Stock Compensation Plans," for share information on NCR's stock compensation plans.

During the three months ended March 31, 2016, the Company repurchased 8.6 million shares of its common stock for \$209 million, and paid \$4 million for 0.1 million shares of its common stock that were retired on April 1, 2016. During the three months ended March 31, 2015, the Company repurchased zero shares of its common stock. Upon repurchase, shares are retired.

The components of basic and diluted earnings per share are as follows:

In millions, except per share amounts	Three months ended March 31	
	2016	2015
Amounts attributable to NCR common stockholders:		
Income from continuing operations	\$32	\$40
Income from discontinued operations, net of tax	—	—
Net income attributable to NCR	\$32	\$40
Dividends on convertible preferred stock	(11)	—
Net income attributable to NCR common stockholders	21	40
Weighted average outstanding shares of common stock:		
Basic weighted average number of shares outstanding	130.4	169.0
Dilutive effect of employee stock options and restricted stock units	2.3	2.6
Diluted weighted average number of shares outstanding	132.7	171.6
Basic earnings per share:		
From continuing operations	\$0.16	\$0.24

Edgar Filing: NCR CORP - Form 10-Q

From discontinued operations	—	—
Total basic earnings per share	\$0.16	\$0.24
Diluted earnings per share:		
From continuing operations	\$0.16	\$0.23
From discontinued operations	—	—
Total diluted earnings per share	\$0.16	\$0.23

Table of Contents

NCR Corporation

Notes to Condensed Consolidated Financial Statements (Unaudited)—(Continued)

For the three months ended March 31, 2016, it was more dilutive to assume the Series A Convertible Preferred Stock was not converted to common stock and therefore weighted average outstanding shares of common stock were not adjusted by the as-if converted Series A Convertible Preferred Stock because the effect would have been anti-dilutive. If the as-if converted Series A Convertible Preferred Stock had been dilutive, approximately 27.7 million additional shares would have been included in the diluted weighted average number of shares outstanding for the quarter ended March 31, 2016.

Additionally, during the three months ended March 31, 2016 and 2015, there were 0.8 million and 0.5 million weighted anti-dilutive restricted stock units outstanding, respectively.

## 11. DERIVATIVES AND HEDGING INSTRUMENTS

NCR is exposed to risks associated with changes in foreign currency exchange rates and interest rates. NCR utilizes a variety of measures to monitor and manage these risks, including the use of derivative financial instruments. NCR has exposure to approximately 50 functional currencies. Since a substantial portion of our operations and revenue occur outside the U.S., and in currencies other than the U.S. Dollar, our results can be significantly impacted, both positively and negatively, by changes in foreign currency exchange rates.

### Foreign Currency Exchange Risk

The accounting guidance for derivatives and hedging requires companies to recognize all derivative instruments as either assets or liabilities at fair value in the Condensed Consolidated Balance Sheets. The Company designates foreign exchange contracts as cash flow hedges of forecasted transactions when they are determined to be highly effective at inception.

Our risk management strategy includes hedging, on behalf of certain subsidiaries, a portion of our forecasted, non-functional currency denominated cash flows for a period of up to 15 months. As a result, some of the impact of currency fluctuations on non-functional currency denominated transactions (and hence on subsidiary operating income, as stated in the functional currency), is mitigated in the near term. The amount we hedge and the duration of hedge contracts may vary significantly. In the longer term (greater than 15 months), the subsidiaries are still subject to the effect of translating the functional currency results to U.S. Dollars. To manage our exposures and mitigate the impact of currency fluctuations on the operations of our foreign subsidiaries, we hedge our main transactional exposures through the use of foreign exchange forward and option contracts. This is primarily done through the hedging of foreign currency denominated inter-company inventory purchases by NCR's marketing units and the foreign currency denominated inputs to our manufacturing units. The related foreign exchange contracts are designated as highly effective cash flow hedges. The gains or losses on these hedges are deferred in accumulated other comprehensive income (AOCI) and reclassified to income when the underlying hedged transaction is recorded in earnings. As of March 31, 2016, the balance in AOCI related to foreign exchange derivative transactions was \$1 million, net of tax. The gains or losses from derivative contracts related to inventory purchases are recorded in cost of products when the inventory is sold to an unrelated third party.

We also utilize foreign exchange contracts to hedge our exposure of assets and liabilities denominated in non-functional currencies. We recognize the gains and losses on these types of hedges in earnings as exchange rates change. We do not enter into hedges for speculative purposes.

### Interest Rate Risk

The Company is party to an interest rate swap agreement that fixes the interest rate on a portion of the Company's LIBOR indexed floating rate borrowings under its Senior Secured Credit Facility through August 22, 2016. The notional amount of the interest rate swap as of March 31, 2016 was \$368 million and amortizes to \$341 million over the term. The Company designates the interest rate swap as a cash flow hedge of forecasted quarterly interest payments made on three-month LIBOR indexed borrowings under the Senior Secured Credit Facility. The interest rate swap was determined to be highly effective at inception.

Our risk management strategy includes hedging a portion of our forecasted interest payments. These transactions are forecasted and the related interest rate swap agreement is designated as a highly effective cash flow hedge. The gains or losses on this hedge are deferred in AOCI and reclassified to income when the underlying hedged transaction is recorded in earnings. As of March 31, 2016, the balance in AOCI related to the interest rate swap agreement was zero, net of tax.

Derivatives not Designated as Hedging Instruments				Location of Gain (Loss) Recognized in the Condensed Consolidated Statement of Operations			2016	2015
Foreign exchange contracts				Other (expense) income, net			\$2	\$(1)
Concentration of Credit Risk								

NCR is potentially subject to concentrations of credit risk on accounts receivable and financial instruments such as hedging instruments and cash and cash equivalents. Credit risk includes the risk of nonperformance by counterparties. The maximum potential loss may exceed the amount recognized on the Condensed Consolidated Balance Sheets. Exposure to credit risk is managed through credit approvals, credit limits, selecting major international financial institutions (as counterparties to hedging transactions) and monitoring procedures. NCR's business often involves large transactions with customers, and if one or more of those customers were to default on its obligations under applicable contractual arrangements, the Company could be exposed to potentially significant losses. However, management believes that the reserves for potential losses are adequate. As of March 31, 2016, NCR had no major concentration of credit risk related to financial instruments.

Foreign exchange contracts <sup>(2)</sup>	3	—	3	—	—
Total	\$ 6	\$ 3	\$ 3	\$ —	—
Liabilities:					
Interest rate swap <sup>(3)</sup>	\$ 3	\$ —	\$ 3	\$ —	—
Foreign exchange contracts <sup>(3)</sup>	2	—	2	—	—
Total	\$ 5	\$ —	\$ 5	\$ —	—

<sup>(1)</sup> Included in Cash and cash equivalents in the Condensed Consolidated Balance Sheet.<sup>(2)</sup> Included in Other current assets in the Condensed Consolidated Balance Sheet.<sup>(3)</sup> Included in Other current liabilities in the Condensed Consolidated Balance Sheet.

**Deposits Held in Money Market Mutual Funds** A portion of the Company's excess cash is held in money market mutual funds which generate interest income based on prevailing market rates. Money market mutual fund holdings are measured at fair value using quoted market prices and are classified within Level 1 of the valuation hierarchy.

**Interest Rate Swap** As a result of our Senior Secured Credit Facility, we are exposed to risk from changes in LIBOR, which may adversely affect our financial condition. To manage our exposure and mitigate the impact of changes in

LIBOR on our financial results, we hedge a portion of our forecasted interest payments through the use of an interest rate swap agreement. The interest rate swap is valued using the income approach inclusive of nonperformance and counterparty risk considerations and is classified within Level 2 of the valuation hierarchy.

**Foreign Exchange Contracts** As a result of our global operating activities, we are exposed to risks from changes in foreign currency exchange rates, which may adversely affect our financial condition. To manage our exposures and mitigate the impact of currency fluctuations on our financial results, we hedge our primary transactional exposures through the use of foreign exchange forward and option contracts. The foreign exchange contracts are valued using the market approach based on observable market transactions of forward rates and are classified within Level 2 of the valuation hierarchy.

Table of Contents

NCR Corporation

Notes to Condensed Consolidated Financial Statements (Unaudited)—(Continued)

Assets Measured at Fair Value on a Non-recurring Basis

From time to time, certain assets are measured at fair value on a nonrecurring basis using significant unobservable inputs (Level 3). NCR reviews the carrying values of investments when events and circumstances warrant and considers all available evidence in evaluating when declines in fair value are other-than-temporary declines. Other than the impairment charge described in Note 4, "Restructuring Plan," no impairment charges or material non-recurring fair value adjustments were recorded during the three months ended March 31, 2016 and 2015.

13. SEGMENT INFORMATION AND CONCENTRATIONS

The Company manages and reports the following three segments:

Software - Our software solutions include our automated teller machine (ATM) software application suite, cash management and video banking software, check and image processing software and customer-facing digital banking solutions. We offer an omni-channel retail software platform with a comprehensive suite of software applications, including point-of-sale (POS) software, and a suite of software applications for hospitality POS operations, and kitchen and restaurant management. We also offer other cloud (or software-as-a-service) solutions, hosted services, and online, mobile and transactional services and applications such as bill pay. Additionally, we provide ongoing software support and maintenance services, as well as consulting and implementation services for our software solutions.

Services - Our service solutions include maintenance and repair services for our hardware solutions as well as for third party products, and support services for our hardware solutions. Additionally, we provide managed services as well as other services, including site assessment and preparation, staging, installation and implementation and systems management services.

Hardware - Our hardware solutions include a comprehensive line of ATMs, self-checkout (SCO), and point of sale (POS) products. Additionally, we also offer a complete line of printer consumables.

These segments represent components of the Company for which separate financial information is available that is utilized on a regular basis by the chief operating decision maker in assessing segment performance and in allocating the Company's resources. Management evaluates the performance of the segments based on revenue and segment operating income. Assets are not allocated to segments, and thus are not included in the assessment of segment performance, and consequently, we do not disclose total assets by reportable segment.

The accounting policies used to determine the results of the operating segments are the same as those utilized for the condensed consolidated financial statements as a whole. Intersegment sales and transfers are not material.

To maintain operating focus on business performance, significant, non-recurring items are excluded from the segment operating results utilized by our chief operating decision maker in evaluating segment performance and are separately delineated to reconcile back to total reported income from operations.

## 16. CONDENSED CONSOLIDATING SUPPLEMENTAL GUARANTOR INFORMATION

The Company's 5.00% Notes, 4.625% Notes, 5.875% Notes and 6.375% Notes are guaranteed by the Company's subsidiary, NCR International, Inc. (Guarantor Subsidiary), which is 100% owned by the Company and has guaranteed fully and unconditionally the obligations to pay principal and interest for these senior unsecured notes. The guarantees are subject to release under certain circumstances as described below:

- the designation of the Guarantor Subsidiary as an unrestricted subsidiary under the indenture governing the notes;
- the release of the Guarantor Subsidiary from its guarantee under the Senior Secured Credit Facility;
- the release or discharge of the indebtedness that required the guarantee of the notes by the Guarantor Subsidiary;
- the permitted sale or other disposition of the Guarantor Subsidiary to a third party; and
- the Company's exercise of its legal defeasance option of its covenant defeasance option under the indenture governing the notes.

Refer to Note 3, "Debt Obligations," for additional information.

In connection with the previously completed registered exchange offers for the 5.00%

Notes, 4.625% Notes, 5.875% Notes and 6.375% Notes, the Company is required to comply with Rule 3-10 of SEC Regulation S-X (Rule 3-10), and has therefore included the accompanying Condensed Consolidating Financial Statements in accordance with Rule 3-10(f) of SEC Regulation S-X.

The following supplemental information sets forth, on a consolidating basis, the condensed statements of operations and comprehensive income (loss), the condensed balance sheets and the condensed statements of cash flows for the parent issuer of these senior unsecured notes, for the Guarantor Subsidiary and for the Company and all of its consolidated subsidiaries. As of January 1, 2016, certain non-guarantor subsidiaries were acquired by, and merged into, the parent issuer. Accordingly, all prior period condensed consolidating guarantor financial statements were updated to reflect the mergers.

### Item MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF 2. OPERATIONS (MD&A)

#### Overview

The following were the significant events for the first quarter of 2016, each of which is discussed more fully in later sections of this MD&A:

• Revenue decreased approximately 2% from the prior year period, and increased slightly excluding unfavorable foreign currency impacts

• Reorganization to a solution-based reporting model to align with our strategic vision; and

• Common stock repurchases resumed under existing repurchase programs.

Our long-term strategy is built on being a global technology solutions company that uses software and value-added endpoints, coupled with higher-margin services and a focus on cloud and mobile, to help our customers deliver a rich, integrated and personalized experience to consumers across commerce channels. To execute this strategy, in 2016 we remain focused on evolving our software business model, sales enablement, services transformation, investing in innovation and cultivating our culture and team.

• **Evolving our Business Model** - Shifting our business model to focus on growth of higher margin software and services revenue to grow our recurring revenue streams, and strengthen our long-term foundation.

- **Sales Enablement** - Developing a sales force enabled with a consultative selling model, supported by service teams and focused on delivery and customer interactions to leverage the innovative solutions we are bringing to market and gain share.

• **Services Transformation** - Enhancing our global service capability by improving our service positioning, increasing customer service attach rates for our products, improving profitability in our services business and aligning our services capability to support our solutions.

• **Investing in Innovation** - Optimizing our investments in areas with the greatest potential for profitable growth, such as cloud solutions and professional, managed and other services.

• **Cultivating our Culture and Team** - Organizing and recruiting with an eye toward the future, and investing in, training and developing our employees to accelerate the delivery of our innovative solutions and to focus on the needs of our customers and changes in consumer behavior.

We plan, in pursuing our strategy, to continue to manage our costs effectively, including through our restructuring program, to selectively pursue strategic acquisitions that promote growth and improve gross margin, and to selectively penetrate market adjacencies in single and emerging growth industry segments.

Potentially significant risks to the execution of our initiatives include domestic and global economic and credit conditions including, in particular, market conditions and spending trends in the financial services industry, fluctuations in oil and commodity prices and their effects on local, regional and global market conditions, and economic and market conditions in Russia, China and emerging markets; continued strengthening of the U.S. Dollar resulting in unfavorable foreign currency impacts; collectability difficulties in subcontracting relationships in emerging markets; competition that can drive further price erosion and the potential loss of market share; difficulties associated with the introduction of products in new self-service markets; market adoption of our products by customers; and management and servicing of our existing indebtedness.

Table of Contents

## Results from Operations

Three Months Ended March 31, 2016 Compared to Three Months Ended March 31, 2015

The following table shows our results for the three months ended March 31:

	Three months ended March 31	
In millions	2016	2015
Revenue	\$1,444	\$1,476
Gross margin	\$380	\$390
Gross margin as a percentage of revenue	26.3%	26.4%
Operating expenses		
Selling, general and administrative expenses	\$224	\$225
Research and development expenses	53	55
Restructuring-related charges	2	15
Income from operations	\$101	\$95

The following table shows our revenue by theater for the three months ended March 31:

In millions	2016	% of Total	2015	% of Total	% Increase (Decrease)	% Increase (Decrease) Constant Currency <sup>(1)</sup>
Americas	\$819	57%	\$799	54%	3%	5%
Europe, Middle East Africa (EMEA)	427	29%	456	31%	(6)%	(3)%
Asia Pacific (APJ)	198	14%	221	15%	(10)%	(6)%
Consolidated revenue	\$1,444	100%	\$1,476	100%	(2)%	—%

The following table shows our revenue by segment for the three months ended March 31:

In millions	2016	% of Total	2015	% of Total	% Increase (Decrease)	% Increase (Decrease) Constant Currency <sup>(1)</sup>
Software	\$419	29%	\$414	28%	1%	3%
Services	543	38%	523	35%	4%	8%
Hardware	482	33%	539	37%	(11)%	(9)%
Consolidated revenue	\$1,444	100%	\$1,476	100%	(2)%	—%

<sup>(1)</sup> The tables above each include a presentation of period-over-period revenue growth or decline on a constant currency basis, which is a non-GAAP measure that excludes the effects of foreign currency fluctuations. We calculate this information by translating prior period revenue growth at current period monthly average exchange rates. We believe that examining period-over-period revenue growth or decline excluding foreign currency fluctuations is useful for assessing the underlying performance of our business, and our management uses revenue growth on a constant currency basis to evaluate period-over-period operating performance. This non-GAAP measure should not be considered a substitute for, or superior to, period-over-period revenue growth under GAAP.

## Revenue

For the three months ended March 31, 2016 compared to the three months ended March 31, 2015, revenue decreased 2%, and increased slightly excluding unfavorable foreign currency impacts. Revenue declined in the three months ended March 31, 2016 due to macroeconomic challenges in certain countries in the EMEA and APJ regions. In the

Americas region, revenue increased driven by growth in the Software and Services operating segments, partially offset by declines in the Hardware segment.

The decrease in Hardware revenue was driven by declines in ATM revenue, point-of-sale revenue and Interactive Printer Solutions revenue, partially offset by growth in self-checkout revenue. The increase in Software revenue was driven by growth in software maintenance and software license revenue, partially offset by a decrease in professional services revenue, while the increase in Services revenue was driven by growth in implementation and hardware maintenance revenue.

## Table of Contents

### Gross Margin

Gross margin as a percentage of revenue in the three months ended March 31, 2016 was 26.3% compared to 26.4% in the three months ended March 31, 2015. Gross margin as a percentage of revenue decreased primarily due to lower ATM hardware margins driven by higher initial expenses from the roll-out of a new ATM product family and macroeconomic challenges in certain countries.

### Operating Expenses

Selling, general and administrative expenses were \$224 million, or 15.5% as a percentage of revenue, in the three months ended March 31, 2016 as compared to \$225 million, or 15.2% as a percentage of revenue, in the three months ended March 31, 2015. Selling, general and administrative expenses in the three months ended March 31, 2016 included \$16 million of acquisition-related amortization of intangibles, \$2 million of acquisition-related costs and \$2 million of transformation costs. Selling, general, and administrative expenses in the three months ended March 31, 2015 included \$16 million of acquisition-related amortization of intangibles, \$2 million of acquisition-related costs, and \$1 million of OFAC and FCPA related legal costs. Excluding these items, selling, general and administrative expenses as a percentage of revenue remained relatively consistent.

Research and development expenses were \$53 million, or 3.7% as a percentage of revenue, in the three months ended March 31, 2016 as compared to \$55 million, or 3.7% as a percentage of revenue, in the three months ended March 31, 2015.

In the three months ended March 31, 2016, restructuring-related charges were \$2 million, including \$1 million of other exit costs and \$1 million of asset-related charges. In the three months ended March 31, 2015, restructuring-related charges were \$15 million, including \$1 million of other exit costs and \$14 million of asset-related charges.

### Interest and Other Expense Items

Interest expense was \$46 million in the three months ended March 31, 2016 compared to \$44 million in the three months ended March 31, 2015. Interest expense in the three months ended March 31, 2016 includes a \$4 million write-off of deferred financing fees associated with the amendment of the senior secured credit facility. Other expense, net was \$10 million in the three months ended March 31, 2016 compared to \$7 million in the three months ended March 31, 2015. Other expense, net in both periods primarily included losses from foreign currency remeasurement and foreign exchange contracts not designated as hedging instruments, bank fees, and interest income.

### Provision for Income Taxes

Income tax provisions for interim (quarterly) periods are based on an estimated annual effective income tax rate calculated separately from the effect of significant, infrequent or unusual items. Income tax expense was \$13 million and \$2 million for the three months ended March 31, 2016 and 2015, respectively. The increase in income tax expense was driven by a reduction in discrete benefits in the three months ended March 31, 2016 and by an unfavorable mix in earnings.

NCR is subject to numerous federal, state and foreign tax audits. While NCR believes that appropriate reserves exist for issues that might arise from these audits, should these audits be settled, the resulting tax effect could impact the tax provision and cash flows in future periods.

## Revenue and Operating Income by Segment

The Company manages and reports the following three segments:

Software - Our software solutions include our automated teller machine (ATM) software application suite, cash management and video banking software, check and image processing software and customer-facing digital banking solutions. We offer an omni-channel retail software platform with a comprehensive suite of software applications, including point-of-sale (POS) software, and a suite of software applications for hospitality POS operations, and kitchen and restaurant management. We also offer other cloud (or software-as-a-service) solutions, hosted services, and online, mobile and transactional services and applications such as bill pay. Additionally, we provide ongoing software support and maintenance services, as well as consulting and implementation services for our software solutions.

Services - Our service solutions include maintenance and repair services for our hardware solutions as well as for third party products, and support services for our hardware solutions. Additionally, we provide managed services as well as

Table of Contents

other services, including site assessment and preparation, staging, installation and implementation and systems management services.

Hardware - Our hardware solutions include a comprehensive line of ATMs, self-checkout (SCO) , and point of sale (POS) products. Additionally, we also offer a complete line of printer consumables.

Each of these segments derives its revenue by selling products and services in the sales theaters in which NCR operates. Segments are measured for profitability by the Company's chief operating decision maker based on revenue and segment operating income. For purposes of discussing our operating results by segment, we exclude the impact of certain items (described below) from segment operating income, consistent with the manner by which management reviews each segment, evaluates performance, and reports our segment results under GAAP. This format is useful to investors because it allows analysis and comparability of operating trends. It also includes the same information that is used by NCR management to make decisions regarding the segments and to assess our financial performance.

The effect of significant, non-recurring items on segment operating income have been excluded from the operating income for each reporting segment presented below. Our segment results are reconciled to total Company results reported under GAAP in Note 13, "Segment Information and Concentrations" of the Notes to Condensed Consolidated Financial Statements.

In the segment discussions below, we have disclosed the impact of foreign currency fluctuations as it relates to our segment revenue due to its significance during the quarter.

#### Software Segment

The following table shows the Software revenue and segment operating income for the three months ended March 31:

	Three months ended March 31	
In millions	2016	2015
Revenue	\$419	\$414
Operating income	\$115	\$117
Operating income as a percentage of revenue	27.4%	28.3%

In the three months ended March 31, 2016 compared to the three months ended March 31, 2015, Software revenue increased 1%, driven by growth in software license and software maintenance revenue, which were up 2% and 11%, respectively, partially offset by a decrease in professional services revenue of 4%. Growth in software maintenance revenue was due to the growth in software license revenue in prior periods. Foreign currency fluctuations had an unfavorable impact on the revenue comparison of 2%.

Operating income decreased in the three months ended March 31, 2016 compared to the three months ended March 31, 2015. The decrease in operating income was driven by the mix of software revenue and higher expenses, partially offset by the increase in revenue.

#### Services Segment

The following table shows the Services revenue and segment operating income for the three months ended March 31:

Three  
months  
ended  
March 31

Edgar Filing: NCR CORP - Form 10-Q

In millions	2016	2015
Revenue	\$543	\$523
Operating income	\$34	\$36
Operating income as a percentage of revenue	6.3%	6.9%

In the three months ended March 31, 2016 compared to the three months ended March 31, 2015, Services revenue increased 4%, driven by growth in implementation, hardware maintenance and managed services revenue. Our focus on improving the customer experience is driving growth in our Services segment. Foreign currency fluctuations had an unfavorable impact on the revenue comparison of 4%.

Table of Contents

Operating income decreased in the three months ended March 31, 2016 compared to the three months ended March 31, 2015 primarily due to lower margins in implementation services revenue and higher expenses.

## Hardware Segment

The following table shows the Hardware revenue and segment operating income (loss) for the three months ended March 31:

	Three months ended March 31	
In millions	2016	2015
Revenue	\$482	\$539
Operating loss	\$(10)	\$(7)
Operating loss as a percentage of revenue	(2.1)%	(1.3)%

In the three months ended March 31, 2016 compared to the three months ended March 31, 2015, Hardware revenue decreased 11%, driven by declines in ATM revenue, point-of-sale (POS) revenue and Interactive Printer Solutions revenue, partially offset by growth in self-checkout revenue. ATM revenue declined mainly due to macroeconomic challenges. Point-of-sale revenue declined due to seasonality and some shift from POS to self-checkout which increased 61% year over year. Foreign currency fluctuations had an unfavorable impact on the revenue comparison of 2%.

Operating income decreased in the three months ended March 31, 2016 compared to the three months ended March 31, 2015 driven by decreases in revenue and the gross margin rate. The gross margin rate was negatively impacted by higher initial expenses from the roll-out of a new ATM product family and macroeconomic challenges in certain countries.

## Financial Condition, Liquidity, and Capital Resources

Cash provided by operating activities was \$23 million in the three months ended March 31, 2016 compared to \$79 million in the three months ended March 31, 2015.

NCR's management uses a non-GAAP measure called "free cash flow" to assess the financial performance of the Company. We define free cash flow as net cash provided by (used in) operating activities and cash provided by (used in) discontinued operations, less capital expenditures for property, plant and equipment, less additions to capitalized software, plus discretionary pension contributions and settlements. We believe free cash flow information is useful for investors because it relates the operating cash flows from the Company's continuing and discontinued operations to the capital that is spent to continue and improve business operations. In particular, free cash flow indicates the amount of cash available after capital expenditures for, among other things, investments in the Company's existing businesses, strategic acquisitions, repurchase of NCR stock and repayment of debt obligations. Free cash flow does not represent the residual cash flow available for discretionary expenditures, since there may be other non-discretionary expenditures that are not deducted from the measure. Free cash flow does not have a uniform definition under GAAP, and therefore NCR's definition may differ from other companies' definitions of this measure. This non-GAAP measure should not be considered a substitute for, or superior to, cash flows from operating activities under GAAP. The table below reconciles net cash provided by operating activities to NCR's non-GAAP measure of free cash flow for the three months ended March 31:

Three  
months  
ended

Edgar Filing: NCR CORP - Form 10-Q

In millions	March 31	
	2016	2015
Net cash provided by operating activities	\$23	\$79
Less: Expenditures for property, plant and equipment	(9)	(13)
Less: Additions to capitalized software	(31)	(38)
Net cash (used in) provided by discontinued operations	(12)	(4)
Free cash flow (non-GAAP)	\$(29)	\$24

The decrease in expenditures was due to planned spending reductions as compared to the prior year. The change in cash flows from discontinued operations from the prior year was due to increased litigation payments related to the Fox River and Kalamazoo environmental matters.

Financing activities and certain other investing activities are not included in our calculation of free cash flow. Other investing activities primarily include business acquisitions, divestitures and investments as well as proceeds from the sale of property, plant and equipment.

## Table of Contents

Our financing activities primarily include proceeds from employee stock plans, repurchase of NCR common stock and borrowings and repayments of credit facilities and notes. During the three months ended March 31, 2016, we repurchased shares of our common stock for \$213 million. During the three months ended March 31, 2016 and 2015, proceeds from employee stock plans were \$3 million and \$6 million, respectively. During each of the three months ended March 31, 2016 and 2015, we paid \$6 million and \$9 million, respectively, of tax withholding payments on behalf of employees for stock based awards that vested.

**Long Term Borrowings** On March 31, 2016, we amended and restated our senior secured credit facility and refinanced the term loan facility and revolving credit facility thereunder. The senior secured credit facility now consists of a term loan facility in an aggregate principal amount of \$900 million and a revolving credit facility in the amount of \$1.1 billion, and up to \$400 million of the revolving credit facility is available to certain of our foreign subsidiaries. Loans under the revolving credit facility are available in U.S. Dollars, Euros and Pounds Sterling.

As of March 31, 2016, the outstanding principal balance of the term loan facility was \$900 million and the outstanding balance on the revolving credit facility was \$231 million. The revolving credit facility also allows a portion of the availability to be used for outstanding letters of credit, and as of March 31, 2016, there were \$28 million in letters of credit outstanding. As of December 31, 2015, the outstanding principal balance of the term loan facility was \$956 million and the outstanding balance on the revolving facility was \$100 million.

As of March 31, 2016 and December 31, 2015, we had outstanding \$700 million in aggregate principal balance of 6.375% senior unsecured notes due 2023, \$600 million in aggregate principal balance of 5.00% senior unsecured notes due 2022, \$500 million in aggregate principal balance of 4.625% senior unsecured notes due 2021 and \$400 million in aggregate principal balance of 5.875% senior unsecured notes due 2021.

Our revolving trade receivables securitization facility provides the Company with up to \$200 million in funding based on the availability of eligible receivables and other customary factors and conditions. As of March 31, 2016 and December 31, 2015, the Company had \$200 million and zero, respectively, outstanding under the facility.

**Employee Benefit Plans** In 2016, we expect to make contributions of \$35 million to the international pension plans, \$33 million to the postemployment plan and \$3 million to the postretirement plan. For additional information, refer to Note 7, "Employee Benefit Plans," of the Notes to the Condensed Consolidated Financial Statements.

**Restructuring Program** In July 2014, we announced a restructuring plan to strategically reallocate resources so that we can focus on higher-growth, higher-margin opportunities in the software-driven consumer transaction technologies industry. Refer to Note 4, "Restructuring Plan," of the Notes to the Condensed Consolidated Financial Statements for additional discussion on our restructuring plan. As a result of the restructuring plan, the Company recorded a total charge of \$2 million and \$16 million in the three months ended March 31, 2016 and 2015, respectively. The Company expects to achieve annualized run-rate savings of approximately \$105 million in 2016. Our estimate of restructuring-related opportunities in connection with this restructuring plan for 2016 is approximately \$20 million to \$25 million.

**Series A Convertible Preferred Stock** On December 4, 2015, NCR issued 820,000 shares of Series A Convertible Preferred Stock to certain entities affiliated with Blackstone Capital Partners VI L.P. and Blackstone Tactical Opportunities L.L.C. (collectively, Blackstone) for an aggregate purchase price of \$820 million, or \$1,000 per share, pursuant to an Investment Agreement between the Company and Blackstone, dated November 11, 2015. In connection with the issuance of the Series A Convertible Preferred Stock, the Company incurred direct and incremental expenses of \$26 million. These direct and incremental expenses originally reduced the Series A Convertible Preferred Stock, and will be accreted through retained earnings as a deemed dividend from the date of issuance through the first

possible known redemption date, March 16, 2024. Holders of Series A Convertible Preferred Stock are entitled to a cumulative dividend at the rate of 5.5% per annum, payable quarterly in arrears. As of March 31, 2016, the Company paid dividends-in-kind of \$12 million or 12,133 preferred shares, associated with the Series A Convertible Preferred Stock. As of March 31, 2016 and December 31, 2015, the Company had accrued dividends of \$4 million, respectively, associated with the Series A Convertible Preferred Stock. There were no cash dividends declared during the three months ended March 31, 2016 or 2015, respectively.

The Series A Convertible Preferred Stock is convertible at the option of the holders at any time into shares of common stock at a conversion price of \$30.00 per share or a conversion rate of 33.333 shares of common stock per share of Series A Convertible Preferred Stock. As of March 31, 2016 and December 31, 2015, the maximum number of common shares that could be required to be issued if converted is 27.8 million and 27.4 million shares, respectively.

Table of Contents

**Cash and Cash Equivalents Held by Foreign Subsidiaries** Cash and cash equivalents held by the Company's foreign subsidiaries at March 31, 2016 and December 31, 2015 were \$319 million and \$317 million, respectively. Under current tax laws and regulations, if cash and cash equivalents and short-term investments held outside the U.S. are distributed to the U.S. in the form of dividends or otherwise, we may be subject to additional U.S. income taxes and foreign withholding taxes, which could be significant.

**Summary** As of March 31, 2016, our cash and cash equivalents totaled \$333 million and our total debt was \$3.52 billion. As of March 31, 2016, our borrowing capacity under the revolving credit facility was approximately \$841 million, and under our trade receivables securitization facility was zero. Our ability to generate positive cash flows from operations is dependent on general economic conditions, competitive pressures, and other business and risk factors described in Item 1A of Part I of the Company's 2015 Annual Report on Form 10-K and Item IA of Part II of this Quarterly Report on Form 10-Q. If we are unable to generate sufficient cash flows from operations, or otherwise comply with the terms of our credit facilities or senior unsecured notes, we may be required to seek additional financing alternatives.

We believe that we have sufficient liquidity based on our current cash position, cash flows from operations and existing financing to meet our required pension, postemployment, and postretirement plan contributions, remediation payments related to the Fox River environmental matter, debt servicing obligations, payments related to the restructuring plan, and our operating requirements for the next twelve months.

**Contractual and Other Commercial Commitments**

There have been no significant changes in our contractual and other commercial obligations as described in our Form 10-K for the year ended December 31, 2015, except as noted below.

On March 31, 2016, we amended and restated our senior secured credit facility and refinanced the term loan facility and revolving credit facility thereunder. This transaction has significantly altered the contractual and other commercial commitments related to debt obligations and interest on debt obligations previously described in our Annual Report on Form 10-K for the year ended December 31, 2015. The following table outlines our future debt obligations and future interest on debt obligations as of March 31, 2016 with projected cash payments in the years shown:

In millions	Total Amounts	April 1, 2016	2017	2019	2021 & Thereafter
		through December 31, 2016	- 2018	- 2020	
Debt obligations	\$ 3,552	\$ 238	\$ 117	\$ 180	\$ 3,017
Interest on debt obligations	988	161	300	288	239
Total obligations	\$ 4,540	\$ 399	\$ 417	\$ 468	\$ 3,256

The Company's uncertain tax positions are not expected to have a significant impact on liquidity or sources and uses of capital resources. Our product warranties are discussed in Note 8, "Commitments and Contingencies," of the Notes to Condensed Consolidated Financial Statements.

**Disclosure Pursuant to Section 13(r)(1)(D)(iii) of the Securities Exchange Act.** Pursuant to Section 13(r)(1)(D)(iii) of the Securities Exchange Act of 1934, as amended, we note that, during the period from January 1, 2016 through March 31, 2016, we maintained a bank account and guarantees at the Commercial Bank of Syria ("CBS"), which was designated as a Specially Designated National pursuant to Executive Order 13382 ("EO 13382") on August 10, 2011. This bank account and the guarantees at CBS were maintained in the normal course of business prior to the listing of

CBS pursuant to EO 13382. We note that the last known account balance as of March 31, 2016, was approximately \$3,468. The bank account did not generate interest from January 1, 2016 through March 31, 2016, and the guarantees did not generate any revenue or profits for the Company. Pursuant to a license granted to the Company by OFAC on January 3, 2013, and subsequent licenses granted on April 29, 2013, July 12, 2013, February 28, 2014, November 12, 2014, and October 24, 2015, the Company has been winding down its past operations in Syria. The Company's current license expires on April 30, 2016. The Company has also received licenses from OFAC to close the CBS account and terminate any guarantees. The Company's application to renew the license to transact business with CBS, which was submitted to OFAC on May 18, 2015, remains pending. Following the termination of guarantees and the closure of the account, the Company does not intend to engage in any further business activities with CBS.

## Table of Contents

### Critical Accounting Policies and Estimates

Management has reassessed the critical accounting policies as disclosed in our 2015 Form 10-K and determined that there were no changes to our critical accounting policies in the three months ended March 31, 2016. Also, there were no significant changes in our estimates associated with those policies.

### New Accounting Pronouncements

See discussion in Note 1, “Basis of Presentation and Summary of Significant Accounting Policies” of the Notes to Condensed Consolidated Financial Statements for new accounting pronouncements.

### Forward-Looking Statements

This quarterly report on Form 10-Q contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements use words such as “expect,” “anticipate,” “outlook,” “intend,” “believe,” “will,” “should,” “would,” “could” and words of similar meaning. Statements that describe or relate to NCR’s plans, goals, intentions, strategies or financial outlook, and statements that do not relate to historical or current fact, are examples of forward-looking statements. Forward-looking statements are based on our current beliefs, expectations and assumptions, which may not prove to be accurate, and involve a number of known and unknown risks and uncertainties, many of which are out of NCR’s control. Forward-looking statements are not guarantees of future performance, and there are a number of important factors that could cause actual outcomes and results to differ materially from the results contemplated by such forward-looking statements, including those factors relating to: domestic and global economic and credit conditions including, in particular, market conditions and spending trends in the financial services industry, fluctuations in oil and commodity prices and their effects on local, regional and global market conditions, and economic and market conditions in Russia, China and emerging markets; the impact of our indebtedness and its terms on our financial and operating activities; the impact of the terms of our strategic relationship with Blackstone and our Series A Convertible Preferred Stock; foreign currency fluctuations; our ability to successfully introduce new solutions and compete in the information technology industry; the transformation of our business model and our ability to sell higher-margin software and services; our ability to improve execution in our sales and services organizations; defects or errors in our products or problems with our hosting facilities; compliance with data privacy and protection requirements; manufacturing disruptions; collectability difficulties in subcontracting relationships in emerging markets; the historical seasonality of our sales; the availability and success of acquisitions, divestitures and alliances; our pension strategy and underfunded pension obligation; the success of our ongoing restructuring plan; tax rates; reliance on third party suppliers; development and protection of intellectual property; workforce turnover and the ability to attract and retain skilled employees; environmental exposures from our historical and ongoing manufacturing activities; and uncertainties with regard to regulations, lawsuits, claims and other matters across various jurisdictions. Additional information concerning these and other factors can be found in the Company’s filings with the U.S. Securities and Exchange Commission, including the Company’s most recent annual report on Form 10-K, quarterly reports on Form 10-Q and current reports on Form 8-K. Any forward-looking statement speaks only as of the date on which it is made. The Company does not undertake any obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

### Information About NCR

NCR encourages investors to visit its web site (<http://www.ncr.com>) which is updated regularly with financial and other important information about NCR. The contents of the Company’s web site are not incorporated into this quarterly report or the Company’s other filings with the U.S. Securities and Exchange Commission.

## Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

### Market Risk

We are exposed to market risks primarily from changes in foreign currency exchange rates and interest rates. It is our policy to manage our foreign exchange exposure and debt structure in order to manage capital costs, control financial risks and maintain financial flexibility over the long term. In managing market risks, we employ derivatives according to documented policies and procedures, including foreign currency contracts and interest rate swaps. We do not use derivatives for trading or speculative purposes.

#### Foreign Exchange Risk

Table of Contents

Since a substantial portion of our operations and revenue occur outside the United States, and in currencies other than the U.S. Dollar, our results can be significantly impacted by changes in foreign currency exchange rates. We have exposure to approximately 50 functional currencies and are exposed to foreign currency exchange risk with respect to our sales, profits and assets and liabilities denominated in currencies other than the U.S. Dollar. Although we use financial instruments to hedge certain foreign currency risks, we are not fully protected against foreign currency fluctuations and our reported results of operations could be affected by changes in foreign currency exchange rates. To manage our exposures and mitigate the impact of currency fluctuations on the operations of our foreign subsidiaries, we hedge our main transactional exposures through the use of foreign exchange forward and option contracts. These foreign exchange contracts are designated as highly effective cash flow hedges. This is primarily done through the hedging of foreign currency denominated inter-company inventory purchases by the marketing units. All of these transactions are forecasted. We also use derivatives not designated as hedging instruments consisting primarily of forward contracts to hedge foreign currency denominated balance sheet exposures. For these derivatives we recognize gains and losses in the same period as the remeasurement losses and gains of the related foreign currency-denominated exposures.

We utilize non-exchange traded financial instruments, such as foreign exchange forward and option contracts, that we purchase exclusively from highly rated financial institutions. We record these contracts on our balance sheet at fair market value based upon market price quotations from the financial institutions. We do not enter into non-exchange traded contracts that require the use of fair value estimation techniques, but if we did, they could have a material impact on our financial results.

For purposes of analyzing potential risk, we use sensitivity analysis to quantify potential impacts that market rate changes may have on the fair values of our hedge portfolio related to firmly committed or forecasted transactions. The sensitivity analysis represents the hypothetical changes in value of the hedge position and does not reflect the related gain or loss on the forecasted underlying transaction. A 10% appreciation or depreciation in the value of the U.S. Dollar against foreign currencies from the prevailing market rates would have resulted in a corresponding increase or decrease of \$5 million as of March 31, 2016 in the fair value of the hedge portfolio. The Company expects that any increase or decrease in the fair value of the portfolio would be substantially offset by increases or decreases in the underlying exposures being hedged.

The U.S. Dollar was stronger in the first quarter of 2016 compared to the first quarter of 2015 based on comparable weighted averages for our functional currencies. This had an unfavorable impact of 2% on first quarter 2016 revenue versus first quarter 2015 revenue. This excludes the effects of our hedging activities and, therefore, does not reflect the actual impact of fluctuations in exchange rates on our operating income.

**Interest Rate Risk**

We are subject to interest rate risk principally in relation to variable-rate debt. We use derivative financial instruments to manage exposure to fluctuations in interest rates in connection with our risk management policies. We have entered into an interest rate swap for a portion of the term loans under our senior secured credit facility. The interest rate swap effectively converts the designated portion of the term loans from a variable interest rate to a fixed interest rate instrument. Approximately 72% of our borrowings were effectively on a fixed rate basis as of March 31, 2016. As of March 31, 2016, the net fair value of the interest rate swap was a liability of \$2 million.

The potential gain in fair value of the swap from a hypothetical 100 basis point increase in interest rates would be approximately \$2 million as of March 31, 2016. The increase in pre-tax interest expense for the three months ended March 31, 2016 from a hypothetical 100 basis point increase in variable interest rates (including the impact of the interest rate swap) would be approximately \$2 million.

## Concentrations of Credit Risk

We are potentially subject to concentrations of credit risk on accounts receivable and financial instruments, such as hedging instruments and cash and cash equivalents. Credit risk includes the risk of nonperformance by counterparties. The maximum potential loss may exceed the amount recognized on the balance sheet. Exposure to credit risk is managed through credit approvals, credit limits, selecting major international financial institutions (as counterparties to hedging transactions) and monitoring procedures. Our business often involves large transactions with customers for which we do not require collateral. If one or more of those customers were to default in its obligations under applicable contractual arrangements, we could be exposed to potentially significant losses. Moreover, a prolonged downturn in the global economy could have an adverse impact on the ability of our customers to pay their obligations on a timely basis. We believe that the reserves for potential losses are adequate. As of March 31, 2016, we did not have any significant concentration of credit risk related to financial instruments.

Table of Contents

Item 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

NCR has established disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934 (the Exchange Act)) to provide reasonable assurance that information required to be disclosed by NCR in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to provide reasonable assurance that information required to be disclosed by NCR in the reports that it files or submits under the Exchange Act is accumulated and communicated to NCR's management, including its Chief Executive and Chief Financial Officers, as appropriate to allow timely decisions regarding required disclosure. Based on their evaluation as of the end of the first quarter of 2016, conducted under their supervision and with the participation of management, the Company's Chief Executive and Chief Financial Officers have concluded that NCR's disclosure controls and procedures are effective to meet such objectives and that NCR's disclosure controls and procedures adequately alert them on a timely basis to material information relating to the Company (including its consolidated subsidiaries) required to be included in NCR's Exchange Act filings.

Changes in Internal Control over Financial Reporting

There have been no changes in our internal control over financial reporting that occurred during the three months ended March 31, 2016 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Table of Contents

## Part II. Other Information

## Item 1. LEGAL PROCEEDINGS

The information required by this item is included in Note 8, "Commitments and Contingencies," of the Notes to Condensed Consolidated Financial Statements in this quarterly report and is incorporated herein by reference.

## Item 1A. RISK FACTORS

There have been no material changes to the risk factors previously disclosed in Part I, Item 1A ("Risk Factors") of the Company's 2015 Annual Report on Form 10-K.

## Item 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

In October 1999, the Company's Board of Directors authorized a share repurchase program that provided for the repurchase of up to \$250 million of the Company's common stock, with no expiration from the date of authorization. On October 31, 2007 and July 28, 2010, the Board authorized the repurchase of an additional \$250 million and \$210 million, respectively, under this share repurchase program. As of March 31, 2016, this share repurchase program had no amount available for further repurchases of the Company's common stock.

In December 2000, the Board approved a systematic share repurchase program, with no expiration from the date of authorization, to be funded by the proceeds from the purchase of shares under the Company's Employee Stock Purchase Plan and the exercise of stock options, for the purpose of offsetting the dilutive effects of the employee stock purchase plan and outstanding options. As of March 31, 2016, approximately \$120 million remained available for further repurchases of the Company's common stock under the 2000 Board of Directors share repurchase program.

The following table provides information relating to the Company's repurchase of common stock for the three months ended March 31, 2016, as defined in Rule 10b-18(a)(3) under the Exchange Act:

Time Period	Total Number of Shares Purchased	Average Price Paid Per Share	Total Number of Shares Purchased as Part of Current Programs <sup>(1)</sup>	Maximum Dollar Value of Shares that May Yet be Purchased Under Programs <sup>(1)</sup>
January 1 through January 31, 2016	—	—	—	\$ 326,346,190
February 1 through February 29, 2016	3,087,885	\$ 21.72	3,087,885	\$ 260,586,216
March 1 through March 31, 2016	5,556,349	\$ 25.61	5,556,349	\$ 119,551,544
First quarter total	8,644,234	\$ 24.22	8,644,234	

<sup>(1)</sup> The Company occasionally purchases vested restricted stock or exercised stock options at the current market price to cover withholding taxes. For the three months ended March 31, 2016, 262,987 shares were purchased at an average price of \$23.06 per share.

During the three months ended March 31, 2016, the Company repurchased 8.6 million shares of its common stock for \$209 million, and paid \$4 million for 0.1 million shares of its common stock that were retired on April 1, 2016.

The Company's ability to repurchase its common stock is restricted under the Company's senior secured credit facility and terms of the indentures for the Company's senior unsecured notes. These agreements include certain prohibitions on share repurchases, including during the occurrence of an event of default. These agreements also establish limits on the amount that the Company is permitted to allocate to share repurchases and other restricted payments. The

limitations are calculated using formulas based generally on 50% of the Company's consolidated net income for the period beginning in the third quarter of 2012 through the end of the most recently ended fiscal quarter, subject to certain other adjustments and deductions, with certain prescribed minimums. These formulas are described in greater detail in the Company's senior secured credit facility and the indentures for the Company's senior unsecured notes, each of which is filed with the Securities and Exchange Commission.
