FIRST MERCHANTS CORPORATION ANNOUNCES MID YEAR 2004 RESULTS

First Merchants Corporation (NASDAQ - FRME) has reported June 30, 2004, year-to-date, diluted earnings per share of \$.77, a 3.75 percent decline from \$.80 recorded in 2003. Net income during the period totaled \$14.3 million compared to \$14.4 million in 2003.

Total assets of the Corporation equaled \$3.1 billion as of June 30, 2004, an increase of \$71 million from the prior year. Loans, investments and bank owned

life insurance, the Corporation's three primary earning assets totaled \$2.8 billion, an increase of \$100 million over the June 30, 2003 amount of \$2.7 billion. The improvement in earning assets was primarily funded by increases in deposits and capital totaling \$62 million and reductions in cash and cash equivalents.

Year-to-date net interest margin equaled 3.87 percent, a 30 basis point decline from the mid-year point of 2003, causing a reduction in net interest income for the period of \$4.1 million. The decline in net interest income was mitigated by a reduction in the provision for loan losses as credit quality continues to show improvement.

Non-performing loans as a percentage of total loans equaled .93 percent, down from 1.30 percent as of June 30, 2003. The Corporation's provision for loan losses declined by \$3.6 million from the prior year and net charge-off's totaled 26 basis points. The allowance for loan losses totaled 1.08 percent at period end.

The addition of CNBC Bancorporation on March 1, 2003, resulted in an additional two months of 2004 net income totaling \$472,000. The additional two months also accounted for \$2.0 million of additional net interest income, \$133,000 of non-interest income and \$1.4 million of additional non-interest expense.

Michael L. Cox, President and Chief Executive Officer, stated that, "First Merchants Corporation's second quarter 2004 results represent a continuation of positive trends. Despite higher provisioning for loan losses than planned, earnings per share improved by another \$.03 over the prior quarter and non-performing loans declined to the lowest level in two years." Cox also added, "Management was pleased to see the Federal Open Market Committee increase the target Fed Funds rate by 25 basis points. Given our asset sensitive interest rate risk position and the fact that we have a little over \$800 million in loans tied to prime we expect to see some improvement in our net interest margin for the remainder of the year."
