NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
March 31, 2013
(Unaudited)

Note 1 - Basis of Presentation and Liquidity

The Business

Glowpoint, Inc. ("Glowpoint" or "we" or "us" or the "Company") is a provider of cloud and managed videoconferencing services. Our services, delivered via our cloud-based OpenVideo® platform, are securely accessible via any network (private or public) and are technology-agnostic. OpenVideo® is a cloud platform that offers telepresence, video and unified communications and collaboration users a way to meet and communicate across the varying hardware/software platforms and carrier networks in a secure and seamless fashion. The Company delivers services to more than 600 different enterprises in over 68 countries supporting thousands of video endpoints, immersive telepresence rooms, and infrastructure for business-quality, real-time, two-way visual communications.

On October 1, 2012, the Company completed the acquisition of privately held Affinity VideoNet, Inc. ("Affinity"), a provider of public videoconferencing rooms and managed videoconferencing services to professional service organizations globally (as discussed in Note 3). As a result of the acquisition, Glowpoint now offers a comprehensive suite of cloud and managed video services, consisting of the following: (i) monitoring and management, and collaboration services, resulting in an end-to-end cloud and managed solution for telepresence, conference room, desktop and mobile solutions, and video infrastructure; (ii) network services that provide our customers with the flexibility to either source the entire video network from a single provider, maintain existing networks and extend a logical connection to the OpenVideo® cloud or bring bandwidth to Open Video® datacenters; (iii) Affinity public video suites that provide remote access to video communication services for everyday business meetings and events; and (iv) professional and other services consisting of video communication solutions for broadcast/media content acquisition and event services.

Glowpoint's suite of cloud and managed video services focus on multi-tiered help desk support for mixed manufacturer video environments and complements Affinity's standing as a specialized service provider of tailored, business-class meetings for professional service organizations across the world. With the acquisition of Affinity, we now employ approximately 130 employees providing clients with a wide range of products and services across the entire video spectrum, from proprietary technology to design, implementation, 24x7 monitoring and mission critical support.

The Company was formed as a Delaware corporation in May 2000. The Company operates in one segment and therefore segment information is not presented.

Liquidity

As of March 31, 2013, we had \$2,166,000 of cash and positive working capital of \$548,000. For the three months ended March 31, 2013, we generated a net loss of \$1,985,000 and net cash provided by operating activities of \$264,000. We generated cash from operations even though we incurred a net loss due to changes in working capital and certain non-cash expenses.

The Company entered into certain debt agreements in connection with the Affinity acquisition in October 2012 (see Note 4). As of March 31, 2013, the current portion of long-term debt on the Company's condensed consolidated

balance sheet was \$1,197,000, which includes \$780,000 of outstanding borrowings under our Comerica Revolver, maturing on April 1, 2014, and \$417,000 of scheduled principal payments under our other debt agreements summarized in Note 4. As of March 31, 2013, interest payments under the Company's debt agreements over the next twelve months are expected to approximate \$1,122,000. As of March 31, 2013, the Company had unused borrowing availability of \$419,000 under the Comerica Revolver.

Pursuant to the terms of our Series A-2 Preferred Stock and Series B-1 Preferred Stock, the Company began accruing dividends as of January 1, 2013 of approximately \$105,000 per quarter, however, the company is not obligated to begin paying such dividends in cash until the Company's cash balance exceeds approximately \$4,174,000.

Table of Contents

Based on our current projection of revenue and expenses, the Company believes that it has, and will have, sufficient resources and cash flow to service its debt obligations and fund its operations for at least the next twelve months following the filing of this Quarterly Report on Form 10-Q. We have historically been able to raise capital in private placements as needed to fund operations and provide growth capital. There can be no assurances, however, that we will be able to raise additional capital as may be needed or upon acceptable terms, or that current economic conditions will not negatively impact us. If the current economic conditions negatively impact us and we are unable to raise additional capital that may be needed on terms acceptable to us, it could have a material adverse effect on the Company.

Quarterly Financial Information and Results of Operations

The condensed consolidated financial statements as of March 31, 2013 and for the three months ended March 31, 2013 and 2012 are unaudited and, in the opinion of management, include all adjustments (consisting only of normal recurring adjustments) necessary to present fairly the financial position as of March 31, 2013, and the results of operations for the three months ended March 31, 2013 and 2012, the statement of stockholders' equity for the three months ended March 31, 2013 and the statement of cash flows for the three months ended March 31, 2013 and 2012. The results for the three month ended March 31, 2013 are not necessarily indicative of the results to be expected for the entire year. The condensed balance sheet as of December 31, 2012 has been derived from audited financial statements for the year ended December 31, 2012. While management of the Company believes that the disclosures presented are adequate to make the information not misleading, these condensed consolidated financial statements should be read in conjunction with audited condensed consolidated financial statements and the footnotes thereto for the fiscal year ended December 31, 2012 as filed with the Securities and Exchange Commission with our Form 10-K on April 1, 2013 (the "Audited 2012 Financial Statements").

Note 2 - Summary of Significant Accounting Policies

Principles of Consolidation

The condensed consolidated financial statements include the accounts of Glowpoint and our 100%-owned subsidiaries, Affinity VideoNet Inc., a Delaware corporation and GP Communications, LLC, whose business function is to provide interstate telecommunications services for regulatory purposes. All material inter-company balances and transactions have been eliminated in consolidation.

Use of Estimates

Preparation of the consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual amounts could differ from the estimates made. We continually evaluate estimates used in the preparation of the consolidated financial statements for reasonableness. Appropriate adjustments, if any, to the estimates used are made prospectively based upon such periodic evaluation. The significant areas of estimation include determining the allowance for doubtful accounts, deferred tax valuation allowance, accrued sales taxes, the estimated life of customer relationships, the estimated lives and recoverability of property and equipment, and the valuation of intangible assets.

See "Summary of Significant Accounting Policies" in the Company's Audited 2012 Financial Statements for a discussion on the estimates and judgments necessary in the Company's accounting for the allowance for doubtful accounts, financial instruments, concentration of credit risk, property and equipment, income taxes, stock-based compensation, and accrued sales taxes and regulatory fees.

Accounting Standards Updates

There have been no recent accounting pronouncements or changes in accounting pronouncements during the three months ended March 31, 2013, as compared to the recent accounting pronouncements described in the Company's Audited 2012 Financial Statements, that are of material significance, or have potential material significance to the Company.

Revenue Recognition

- 6-

Table of Contents

Revenue billed in advance for monitoring and management services is deferred until the revenue has been earned, which is when the related services have been performed. Other service revenue, including amounts passed through based on surcharges from our telecom carriers, related to the network services and collaboration services are recognized as service is provided. As the non-refundable, upfront installation and activation fees charged to the subscribers do not meet the criteria as a separate unit of accounting, they are deferred and recognized over the 12 to 24 month period estimated life of the customer relationship. Revenue related to professional services is recognized at the time the services are performed. Revenues derived from other sources are recognized when services are provided or events occur.

Goodwill

Goodwill is not amortized but is subject to periodic testing for impairment. The test for impairment will be conducted annually or more frequently if events occur or circumstances change indicating that the fair value of the goodwill may be below its carrying amount. The Company determined that no events occurred or circumstances changed during the three months ended March 31, 2013 that would indicate that the fair value of goodwill may be below its carrying amount. However, if market conditions deteriorate, or if the Company is unable to execute on its strategies, it may be necessary to record impairment charges in the future.

Allowance for Doubtful Accounts

We record an allowance for doubtful accounts based on specifically identified amounts that are believed to be uncollectible. We also record additional allowances based on our aged receivables, which are determined based on historical experience and an assessment of the general financial conditions affecting our customer base. If our actual collections experience changes, revisions to our allowance may be required. After all attempts to collect a receivable have failed, the receivable is written off against the allowance. We do not obtain collateral from our customers to secure accounts receivable. The allowance for doubtful accounts was \$142,000 and \$151,000 at March 31, 2013 and December 31, 2012, respectively.

Taxes Billed to Customers and Remitted to Taxing Authorities

We recognize taxes billed to customers in revenues and taxes remitted to taxing authorities in our operating costs, network and infrastructure. For the three months ended March 31, 2013 and 2012, we included taxes of \$328,000 and \$403,000, respectively, in revenues and we included taxes of \$312,000 and \$392,000, respectively, in network and infrastructure costs.

Impairment of Long-Lived Assets and Intangible Assets

We evaluate impairment losses on long-lived assets used in operations, primarily fixed assets and purchased intangible assets subject to amortization, when events and circumstances indicate that the carrying value of the assets might not be recoverable. For purposes of evaluating the recoverability of long-lived assets, the undiscounted cash flows estimated to be generated by those assets are compared to the carrying amounts of those assets. If and when the carrying values of the assets exceed their fair values, then the related assets will be written down to fair value. In the three months ended March 31, 2013, there was an impairment loss of \$435,000 recorded for network equipment no longer being utilized in the Company's business. In the three months ended March 31, 2012, no impairment losses were recorded. The Company determined that no events occurred or circumstances changed during the three months ended March 31, 2013 that would indicate that the fair value of the intangible assets may be below its carrying amount.

Capitalized Software Costs

The Company capitalizes certain costs incurred in connection with developing or obtaining internal-use software. All software development costs have been appropriately accounted for as required by ASC Topic 350.40 "Intangible – Goodwill and Other – Internal-Use Software." Capitalized software costs are included in "Property and Equipment" on our condensed consolidated balance sheets and are amortized over three to four years. Software costs that do not meet capitalization criteria are expensed as incurred. For the three months ended March 31, 2013, we capitalized internal use software costs of \$52,000 and we amortized \$138,000 of these costs. For the three months ended March 31, 2012

we capitalized internal use software costs of \$84,000 and we amortized \$140,000 of these costs. No related impairment losses were recorded during the three months ended March 31, 2013 and 2012.

Note 3 - Affinity Acquisition

- 7-

Table of Contents

On October 1, 2012, the Company completed the acquisition of 100% of the stock of Affinity, accounted for as a business combination, and paid an aggregate purchase price of \$15,901,000. The purchase price consisted of (i) approximately \$8.0 million in cash (obtained through debt financing as discussed in Note 4), (ii) a \$2.33 million promissory note payable to the Affinity shareholders, subject to adjustment, and (iii) 2,650,000 shares of the Company's common stock valued at approximately \$5,512,000 based on the closing price of the Company's stock on October 1, 2012, subject to adjustment.

The accompanying condensed consolidated financial statements for the three months ended March 31, 2012 do not include any revenues or expenses related to the Affinity business since the closing date of the acquisition was October 1, 2012. The Company's unaudited pro-forma results for the three months ended March 31, 2012 are summarized in the following table, assuming the acquisition had occurred on January 1, 2012 (in thousands):

These unaudited pro-forma results have been prepared for comparative purposes only and do not purport to be indicative of the results of operations which would have actually resulted had the acquisition occurred on January 1, 2012, nor to be indicative of future results of operations.

Less current maturities	(1,197)(1,397
	\$9,474	\$9,631

(A) Total proceeds less debt discount as discussed below

On October 1, 2012, the Company entered into a Loan and Security Agreement (the "Comerica Loan Agreement") with Comerica Bank, providing the Company with a \$2,000,000 term loan (the "Comerica Term Loan") and a revolving line of credit (the "Comerica Revolver"), pursuant to which the Company could borrow, for working capital needs, an amount up to the lesser of (i) 80% of eligible accounts receivable and (ii) \$3,000,000 (the "Comerica Loans"). The Comerica Loan Agreement is secured by substantially all of the assets of the Company and secured guarantees executed by GP Communications, LLC and Affinity. The Comerica Loan Agreement contains certain restrictive covenants including

- 8-

Table of Contents

restrictions on indebtedness, liens, acquisitions and investments, restricted payments and dispositions. The Comerica Loans are subject to certain financial covenants, including without limitation, financial covenants that require the Company to maintain a total funded debt to Adjusted EBITDA ratio, to maintain a senior funded debt to Adjusted EBITDA ratio and to maintain a fixed charge coverage ratio. The Comerica Loan Agreement also provides for events of default, with corresponding grace periods, including failure to pay principal or interest when due, failure to pay other obligations within ten days after becoming due, failure to comply with covenants, breaches of representations and warranties, default under certain other indebtedness, certain insolvency events affecting the Company, the occurrence of certain material judgments or if any guaranty of the Company's obligations ceases to be in full force and effect. On March 28, 2013, the Company and Comerica mutually agreed to amend the Comerica Loan Agreement (the "Amendment"). The Amendment established revised definitions and ratios relating to the three financial covenants discussed above to reflect the Company's projections of EBITDA and liquidity. The Amendment also provided that the Company maintain a restricted cash balance of \$400,000 in a collateral account at Comerica Bank and limit extraordinary expenses in connection with acquisitions. As of March 31, 2013, the Company was in compliance with all required covenants under the Comerica Loan Agreement.

The Comerica Revolver bears interest on outstanding borrowings at a rate equal to the Prime Rate (as defined in the Comerica Loan Agreement, or 3.25% as of March 31, 2013) plus 2.00%. The Amendment reduced funds available to the Company under the Comerica Revolver so that advances under the Comerica Revolver cannot exceed the lesser of (i) \$3,000,000 and (ii) 80% of eligible accounts receivable, less in each case any amount outstanding under the Comerica Term Loan up to \$1,500,000. As of March 31, 2013, we had outstanding borrowings under the Comerica Revolver of \$780,000 and we had unused borrowing availability of approximately \$419,000. The Comerica Revolver matures on April 1, 2014.

The Comerica Term Loan bears interest at a rate equal to the Prime Rate (3.25% as of March 31, 2013) plus 3.00%. As of March 31, 2013, the outstanding balance under the Comerica Term Loan was \$2,000,000. The outstanding balance of the Comerica Term Loan on October 1, 2013 shall be payable in 24 equal monthly installments of principal, plus all accrued interest, beginning on November 1, 2013. The Comerica Term Loan matures on November 1, 2015.

On October 1, 2012, in connection with the Affinity acquisition, the Company entered into a Loan and Security Agreement (the "Escalate Loan Agreement") with Escalate Capital Partners SBIC I, L.P. ("Escalate"), providing the Company with a \$6,500,000 term loan (the "Escalate Term Loan") for a term of 60 months. The Escalate Term Loan bears interest at a fixed rate of 12.0% per annum, with interest-only payable monthly for the first 24 months. The outstanding balance of the Escalate Term Loan shall be payable in 36 equal monthly installments of principal, plus all accrued interest, beginning on October 31, 2014. The Escalate Term Loan is secured by substantially all of the assets of the Company and secured guarantees executed by GP Communications and Affinity, and is subordinated to the Comerica Loans. The Escalate Loan Agreement contains certain restrictive covenants, including restrictions on indebtedness, liens, acquisitions and investments, restricted payments and dispositions. The Escalate Loan Agreement also provides for events of default, with corresponding grace periods, including failure to pay principal when due, failure to pay interest within three business days after becoming due, failure to pay other obligations within ten days after becoming due, failure to comply with covenants, breaches of representations and warranties, default under certain other indebtedness, certain insolvency events affecting the Company and its subsidiaries or the occurrence of certain material judgments. The Escalate Loan Agreement also provides for certain management rights for Escalate, including (i) the ability for Escalate to consult with and advise management of the Company on significant business issues, including management's proposed annual operating plans and (ii) the ability for Escalate to examine the books and records of the Company and inspect the Company's facilities during normal business hours with reasonable notice. In connection with the Escalate Term Loan, the Company issued to Escalate 295,000 shares of Common Stock (the "Escalate Shares") at a purchase price of \$0.01 per share on October 1, 2012. Escalate received standard piggyback and demand registration rights with respect to the Escalate Shares. The shares were valued at \$611,000 using the October

1, 2012, stock price of \$2.08 less the purchase price were reflected as a debt discount to the Escalate Term Loan. The Comerica Amendment discussed above required the consent of Escalate. In consideration of Escalate's consent to the Amendment and entrance into an Affirmation, the Company issued 100,000 shares of its common stock to Escalate. The shares were valued at \$147,000 using the March 28, 2013 stock price of \$1.47 and were reflected as a debt discount to the Escalate Term Loan. The total debt discount was \$697,000 as of March 31, 2013 and is being amortized using the effective interest method over the term of the loan through the maturity date. As of March 31, 2013, the Company was in compliance with all required covenants.

On October 1, 2012, in connection with the Affinity acquisition, the Company issued a promissory note (the "Note"), in favor of the prior stockholders of Affinity (the "Stockholder Representative"), in original principal amount of \$2.33 million, due and payable on December 31, 2014. The principal amount of the Note accrues interest at a rate of 8.0% per annum, and such interest shall be payable in arrears in quarterly payments commencing on April 1, 2013. Beginning on April 1, 2013 and on the first day of each month thereafter, if the Company has achieved a minimum EBITDA (as defined the Comerica Loan Agreement), the Company shall make a principal payment in the amount of \$50,000. The Company shall make additional payments on the principal amount on each of June 30, 2013, December 31, 2013, June 30, 2014 and December 31, 2014 in

amount equal to 40% of the Company's trailing six month EBITDA (as defined in the Comerica Loan Agreement) less \$3.0 million, provided that the June 30, 2013 principal payment shall only be made if the Company is in compliance with the Fixed Charge Ratio (as defined in the Note). During the three months ended March 31, 2013, the Note was reduced by \$240,000 in accordance with the terms of the Note in connection with severance obligations the Company incurred related to the acquisition of Affinity resulting in an equal and offsetting reduction in Goodwill. Approximately \$237,000 of these severance obligations remain payable and are recorded in Accrued Expenses in the accompanying balance sheet as of March 31, 2013.

The following table summarizes the future minimum payments that the Company expects to make for long-term debt (in thousands):

Total debt on balance sheet	\$ 10,671

The financing costs are being amortized using the effective interest method over the term of each loan through each maturity date. During the three months ended March 31, 2013 and 2012 there was \$61,000 and \$15,000 respectively, of amortization of financing costs, and \$30,000 and \$0 respectively, of amortization of debt discount.

Note 5 - Stock Options

The Company periodically grants stock options to employees and directors in accordance with the provisions of our stock option plans, with the exercise price of the stock options being set at or above the closing price of our common stock on the date of grant.

In our stock option plans, the exercise price of the awards are established by the administrator of the plan and, in the case of incentive stock options ("ISOs") issued to employees who are less than 10% stockholders. The per share exercise price must be equal to at least 100% of the fair market value of a share of the common stock on the date of grant or not less than 110% of the fair market value of the shares in the case of an employee who is a 10% stockholder. The administrator of the plan determines the terms and provisions of each award granted, including the vesting schedule, repurchase provisions, rights of first refusal, forfeiture provisions, form of payment, payment contingencies and satisfaction of any performance criteria.

The weighted average fair value of each option granted is estimated on the date of grant using the Black-Scholes option valuation model with the following weighted average assumptions during the three months ended March 31, 2013 and 2012:

	Three Months Ended March 31,	
	2013	2012
Risk free interest rate	0.8%	0.9%
Expected option lives	5 years	5 years
Expected volatility	104.0%	111.3%
Estimated forfeiture rate	10%	10%
Expected dividend yields	—	—

Weighted average grant date fair value of options	\$1.49	\$2.37
---	--------	--------

- 10-

Table of Contents

The Company calculates expected volatility for a stock-based grant based on historic daily stock price observations of its common stock during the period immediately preceding the grant that is equal in length to the expected term of the grant. The expected term of the options and forfeiture rates are estimated based on the Company's exercise and employment termination experience. The risk free interest rate is based on U.S. Treasury yields for securities in effect at the time of grants with terms approximating the expected life of the grants. The assumptions used in the Black-Scholes option valuation model are highly subjective and can materially affect the resulting valuations. The remaining unrecognized stock-based compensation expense for options at March 31, 2013 was \$2,214,000, of which \$548,000, representing 275,000 options, will only be expensed upon a "change in control" and the remaining \$1,667,000 will be amortized over a weighted average period of approximately 1.9 year.

The tax benefit recognized for stock-based compensation for the three months ended March 31, 2013 was diminimus. There was no tax benefit recognized for stock-based compensation for the three months ended March 31, 2012. No compensation costs were capitalized as part of the cost of an asset during the periods presented.

Note 6 - Preferred Stock

Our Certificate of Incorporation authorizes the issuance of up to 5,000,000 shares of preferred stock. As of March 31, 2013, there were: 100 shares of Series B-1 Preferred Stock authorized, issued and outstanding; 7,500 shares of Series A-2 Preferred Stock authorized and 53 shares issued and outstanding; and 4,000 shares of Series D Preferred Stock authorized and no shares issued or outstanding.

Each share of Series B-1 Preferred Stock has a stated value of \$100,000 per share (the "Series B-1 Stated Value"), and a liquidation preference equal to the Series B-1 Stated Value plus all accrued and unpaid dividends (the "Series B-1 Liquidation Preference"). The Series B-1 Preferred Stock is not convertible into common stock. The Series B-1 Preferred Stock is senior to all other classes of equity and, commencing on January 1, 2013, is entitled to cumulative dividends at a rate of 4% per annum, payable quarterly, based on the Series B-1 Stated Value. Commencing January 1, 2014, the cumulative dividend rate increases to 6% per annum, payable quarterly, based on the Series B-1 Stated Value. The Company may, at its option at any time, redeem all or a portion of the outstanding shares of Series B-1

Preferred Stock by paying the Series B-1 Liquidation Preference. As of March 31, 2013, the Company has recorded approximately \$100,000 in accrued dividends on the accompanying balance sheet related to the Series B-1 Preferred Stock.

Table of Contents

Each share of Series A-2 Preferred Stock has a stated value of \$7,500 per share (the “A-2 Stated Value”), a liquidation preference equal to the Series A-2 Stated Value, and is convertible at the holder’s election into common stock at a conversion price per share of \$3.00. Therefore, each share of Series A-2 Preferred Stock is convertible into 2,500 shares of common stock. The Series A-2 Preferred Stock is subordinate to the Series B-1 Preferred Stock but senior to all other classes of equity, has weighted average anti-dilution protection and, commencing on January 1, 2013, is entitled to cumulative dividends at a rate of 5% per annum, payable quarterly, based on the Series A-2 Stated Value. Once dividend payments commence, all dividends are payable at the option of the holder in cash or through the issuance of a number of additional shares of Series A-2 Preferred Stock with an aggregate liquidation preference equal to the dividend amount payable on the applicable dividend payment date. As of March 31, 2013, the Company has recorded approximately \$5,000 in accrued dividends on the accompanying balance sheet related to the Series A-2 Preferred Stock.

Pursuant to the terms of our Series A-2 Preferred Stock, Series B-1 Preferred Stock and the Note, although the Company has accrued approximately \$105,000 in total dividends as of March 31, 2013, the Company is not obligated to begin paying such dividends in cash until the Company's cash balance exceeds approximately \$4,174,000.

In accordance with ASC Topic 815, we evaluated whether our convertible preferred stock contains provisions that protect holders from declines in our stock price or otherwise could result in modification of the exercise price and/or shares to be issued under the respective preferred stock agreements based on a variable that is not an input to the fair value of a “fixed-for-fixed” option and require a derivative liability. The Company determined no derivative liability is required under ASC Topic 815 with respect to our convertible preferred stock. A contingent beneficial conversion amount is required to be calculated and recognized when and if the adjusted \$3.00 conversion price of the convertible preferred stock is adjusted to reflect a down round stock issuance that reduces the conversion price below the \$1.16 fair value of the common stock on the issuance date of the convertible preferred stock.

Note 7 - Restricted Stock

A summary of restricted stock granted, vested, forfeited and unvested outstanding as of, and changes made during, the three months ended March 31, 2013, is presented below (shares in thousands):

Note 8 - Warrants

There were no warrants granted, exercised, exchanged or forfeited during the three months ended March 31, 2013. There were 33,000 warrants outstanding as of March 31, 2013 and 2012 with an exercise price of \$1.60 and an expiration date of November 25, 2013.

Note 9 - Earnings (Loss) Per Share

Earnings (loss) per share is calculated by dividing net earnings attributable to common stockholders by the weighted average number of share of common share outstanding during the period. Diluted earnings (loss) per share reflects the potential dilution from the conversion or exercise into common stock of securities such as stock options and warrants.

For the three months ended March 31, 2013, diluted loss per share is the same as basic loss per share due to the net loss and the potential shares of common stock that could have been issuable have been excluded from the calculation of diluted loss per share because the effects, as a result of our net loss, would be anti-dilutive.

For the three months ended March 31, 2012, diluted earnings per share included 181,000 shares of common stock associated with outstanding options and warrants, 235,000 issuable upon conversion of our convertible preferred stock calculated using the treasury stock method, and 1,265,000 shares of unvested restricted stock.

Commercial Commitments

We have entered into a number of agreements with telecommunications companies to purchase communications services. Some of the agreements require a minimum amount of services to be purchased over the life of the agreement, or during a specified period of time.

Glowpoint believes that it will meet its commercial commitments. In certain instances where Glowpoint did not meet the minimum commitments, no penalties for minimum commitments have been assessed and the Company has entered into new agreements. It has been our experience that the prices and terms of successor agreements are similar to those offered by other carriers.

Glowpoint does not believe that any loss contingency related to a potential shortfall should be recorded in the condensed consolidated financial statements because it is not probable, from the information available and from prior experience, that Glowpoint has incurred a liability.

Letter of Credit

As of March 31, 2013, the Company has an outstanding irrevocable standby letter of credit (the "LOC") with Comerica Bank for \$115,000 to secure our security deposit for the sublease of our corporate headquarters.

Major customers are those customers or wholesale partners that account for more than 10% of revenues. For the three months ended March 31, 2013, approximately 22% of revenues were derived from two major wholesale partners and the accounts receivable from these major partners represented approximately 38% of total accounts receivable as of March 31, 2013. For the three months ended March 31, 2012, approximately 38% of revenues were derived from three major wholesale partners. The loss of any one of these partners would have a material adverse affect on the Company's operations.

Total revenue	\$8,504	\$6,746	\$1,758	26.1	% \$9,442

Revenue for managed services combined, which represents subscription (monitoring and management) services generally tied to contracts of 12 months or more and usage based collaboration services, increased 55.8% to \$5,136,000 in the 2013 Period, from \$3,297,000 in the 2012 Period. Revenue for managed services combined accounted for 60.4% of our total revenue in the 2013 Period compared to 48.9% for the 2012 Period. The increase in revenue for managed services combined was primarily attributable to the acquisition of Affinity. Revenue for managed services combined for the Pro-forma 2012 Period was \$5,752,000. The \$616,000 decrease from the Pro-forma 2012 Period to the 2013 Period was primarily attributable to a \$426,000 decrease in revenue generated by the Affinity public video suites.

Revenue for network services, which represents network sales and related services generally tied to contracts of 12 months or more, decreased 2.3% to \$3,068,000 in the 2013 Period from \$3,140,000 in the 2012 Period. Revenue for network services accounted for 36.1% of total revenue in the 2013 Period compared to 46.5% for the 2012 Period. Revenue for Network Services for the Pro-forma 2012 Period was \$3,332,000. The decrease from both the 2012 and Pro-forma 2012 Period to the 2013 Period was primarily attributable to customer disconnects.

Revenue for professional and other services, which represent non-recurring services, was \$300,000 in the 2013 Period, relatively flat as compared to \$309,000 in the 2012 Period. Revenue for professional and other services accounted for 3.5% of revenue in the 2013 Period compared to 4.6% for the 2012 Period. Revenue for professional and other services for the Pro-forma 2012 Period was \$358,000.

Network and Infrastructure Expenses. Network and infrastructure expenses were \$2,002,000 in the 2013 Period as compared to \$2,076,000 in the 2012 Period, a decrease of \$74,000. Network and infrastructure expenses include all external costs, exclusive of depreciation and amortization, related to the Glowpoint network and hosting facilities for our cloud-based infrastructure. This operating expense category also includes the cost for taxes which have been billed to customers.

Global Managed Services Expenses. Global managed services expenses increased 88.1% to \$3,190,000 in the 2013 Period from \$1,696,000 in the 2012 Period. Global managed services expenses include all costs for delivering and servicing our

managed services, such as delivering customer service operations, internal costs of maintaining the network and infrastructure, and the development and implementation of operating support systems and associated hardware enhancements. The increase is primarily attributed to the acquisition of Affinity and corresponds to the increase in revenue.

Sales and Marketing Expenses. Sales and marketing expenses were \$1,069,000 in the 2013 Period as compared to \$986,000 in the 2012 Period, an increase of \$83,000. This increase is primarily attributed to increased sales and marketing expenses associated with the Affinity acquisition.

General and Administrative Expenses. General and administrative expenses, which include direct corporate expenses related to costs of personnel in the various corporate support categories, including executive, finance, human resources and information technology, increased by \$1,737,000 to \$3,087,000 in the 2013 Period from \$1,350,000 in the 2012 Period. This increase is attributable to the following factors: (i) an increase in stock-based compensation expense of \$559,000, (ii) an asset impairment charge of \$435,000 during the 2013 Period for network equipment no longer being utilized in the Company's business, (iii) severance charges of \$399,000 related primarily to the separation of our former Chief Executive Officer, Chief Financial Officer and certain other employees during the 2013 Period, and (iv) acquisition costs related to the Affinity acquisition of \$239,000.

Depreciation and Amortization Expenses. Depreciation and amortization expenses increased \$318,000 to \$758,000 in the 2013 Period from \$440,000 in the 2012 Period. This increase is primarily attributable to amortization of intangible assets of \$314,000 during the 2013 Period related to the acquisition of Affinity.

Income (Loss) from Operations. Loss from operations for the 2013 Period was \$1,602,000, a decrease of \$1,800,000 from the income from operations of \$198,000 in the 2012 Period. The primary drivers of the decrease in income were due to the increase in general and administrative expenses as discussed above.

Interest and Other Expense, Net. Interest and other expense, net in the 2013 Period was \$383,000, which was comprised of \$292,000 of interest charges on our outstanding debt and \$61,000 of the amortization of financing charges related to our Comerica Loans and other debt. Interest and other expense in the 2012 Period was \$26,000, which principally reflected \$11,000 of interest charges from vendors and \$15,000 of the amortization of financing charges related to certain private placement transactions in the Company completed during the 2012 Period. The increase from the 2012 Period to the 2013 Period in interest and other expense was attributable to the debt incurred in October 2012 in connection with the Affinity acquisition (see Note 4 to the condensed consolidated financial statements attached hereto).

Net Income (Loss). Net loss for the 2013 Period was \$1,985,000 or, \$0.07 per basic and diluted share, a decrease of \$2,157,000 from net income of \$172,000 in the 2012 Period. The primary drivers of the increase were due to the increases in general and administrative expenses, as well as interest expense, as discussed above.

Preferred Stock Dividends. Preferred stock dividends increased by \$105,000 in the 2013 Period to \$105,000 from \$0 in the 2012 Period as dividends commenced accruing on January 1, 2013 (as discussed in Note 6 to our consolidated financial statements attached hereto).

Net income (Loss) Attributable to Common Stockholders. Net loss attributable to common stockholders for the 2013 Period was \$2,090,000, a decrease of \$2,262,000 from the net income attributable to common stockholders of \$172,000 in the 2012 Period. The primary drivers of the decrease were due to the increases in general and administrative expenses, as well as interest expense and preferred dividends, as discussed above.

Liquidity and Capital Resources

As of March 31, 2013, we had \$2,166,000 of cash and positive working capital of \$548,000. For the three months ended March 31, 2013, we generated a net loss of \$1,985,000 and net cash provided by operating activities of \$264,000. We generated cash from operations even though we incurred a net loss due to changes in working capital and certain non-cash expenses.

Net cash used in investing activities for the three months ended March 31, 2013 was \$124,000, primarily related to the purchase of property and equipment. Net cash used in financing activities for the three months ended March 31, 2013 was

\$192,000, attributable to issuance costs related to our debt agreements entered into in 2012 and principal payments on capital lease obligations.

The Company entered into certain debt agreements in connection with the Affinity acquisition in October 2012 (see Note 4 to our condensed consolidated financial statements attached hereto). As of March 31, 2013, the current portion of long-term debt on the Company's condensed consolidated balance sheet was \$1,197,000, which includes \$780,000 of outstanding borrowings under our Comerica Revolver, maturing on April 1, 2014, and \$417,000 of scheduled principal payments under our other debt agreements summarized in Note 4. As of March 31, 2013, interest payments under the Company's debt agreements over the next twelve months are expected to approximate \$1,122,000. As of March 31, 2013, the Company had unused borrowing availability of \$419,000 under the Comerica Revolver.

Pursuant to the terms of our Series A-2 Preferred Stock and Series B-1 Preferred Stock, the Company began accruing dividends as of January 1, 2013 of approximately \$105,000 per quarter, however, the company is not obligated to begin paying such dividends in cash until the Company's cash balance exceeds approximately \$4,174,000.

Based on our current projection of revenue and expenses, the Company believes that it has, and will have, sufficient resources and cash flow to service its debt obligations and fund its operations for at least the next twelve months following the filing of this Quarterly Report on Form 10-Q. We have historically been able to raise capital in private placements as needed to fund operations and provide growth capital. There can be no assurances, however, that we will be able to raise additional capital as may be needed or upon acceptable terms, or that current economic conditions will not negatively impact us. If the current economic conditions negatively impact us and we are unable to raise additional capital that may be needed on terms acceptable to us, it could have a material adverse effect on the Company.

Off-Balance Sheet Arrangements

As of March 31, 2013, we had no off-balance sheet arrangements.

Adjusted EBITDA

Adjusted EBITDA is defined as net income (loss) before depreciation, amortization, net interest expense, taxes, severance, acquisition costs, stock-based compensation and asset impairment. Adjusted EBITDA is not intended to replace operating income (loss), net income (loss), cash flow or other measures of financial performance reported in accordance with generally accepted accounting principles. Rather, Adjusted EBITDA is an important measure used by management to assess the operating performance of the Company. The Comerica Loans and Escalate Term Loan are subject to certain financial covenants, including, without limitation, covenants that require the Company to maintain a total funded debt to Adjusted EBITDA ratio, to maintain a senior funded debt to Adjusted EBITDA ratio and to maintain a fixed charge coverage ratio as defined in the agreement. Adjusted EBITDA as defined here may not be comparable to similarly titled measures reported by other companies due to differences in accounting policies. A reconciliation of net income (loss) to Adjusted EBITDA is shown below:

	Three Months Ended March 31,	
	2013	2012
