GLOSSARY OF ABBREVIATIONS AND TERMS

To assist the reader the Corporation has provided the following list of commonly used abbreviations and terms included in the Notes to the Unaudited Consolidated Financial Statements and Management's Discussion and Analysis of Financial Condition and Results of Operations.

Abbreviations

ALCO	Asset-Liability Committee
ASU	Accounting Standards Update
Bank	Chemung Canal Trust Company
Basel III	The Third Basel Accord of the Basel Committee on Banking Supervision
Board of Directors	Board of Directors of Chemung Financial Corporation
CDARS	Certificate of Deposit Account Registry Service
CDO	Collateralized Debt Obligation
CECL	Current expected credit loss
CFS	CFS Group, Inc.
Corporation	Chemung Financial Corporation
CRM	Chemung Risk Management, Inc.
Dodd-Frank Act	The Dodd-Frank Wall Street Reform and Consumer Protection Act
EPS	Earnings per share
Exchange Act	Securities Exchange Act of 1934
FASB	Financial Accounting Standards Board
FDIC	Federal Deposit Insurance Corporation
FHLBNY	Federal Home Loan Bank of New York
FRB	Board of Governors of the Federal Reserve System
FRBNY	Federal Reserve Bank of New York
Freddie Mac	Federal Home Loan Mortgage Corporation
GAAP	U.S. Generally Accepted Accounting Principles
ICS	Insured Cash Sweep Service
IFRS	International Financial Reporting Standards
MD&A	Management's Discussion and Analysis of Financial Condition and Results of Operations
NAICS	North American Industry Classification System
N/M	Not meaningful
OPEB	Other postemployment benefits
OREO	Other real estate owned
OTTI	Other-than-temporary impairment
PCI	Purchased credit impaired
ROA	Return on average assets
Regulatory Relief Act	Economic Growth, Regulatory Relief, and Consumer Protection Act
ROE	Return on average equity
RWA	Risk-weighted assets
SBA	Small Business Administration
SEC	Securities and Exchange Commission
Securities Act	Securities Act of 1933
Tax Act	Tax Cuts and Jobs Act of 2017
TDRs	Troubled debt restructurings
WMG	Wealth Management Group

Terms	
Allowance for loan losses to total loans	Represents period-end allowance for loan losses divided by retained loans.
Assets under administration	Represents assets that are beneficially owned by clients and all investment decisions pertaining to these assets are also made by clients.
Assets under management	Represents assets that are managed on behalf of clients.
Basel III	A comprehensive set of reform measures designed to improve the regulation, supervision, and risk management within the banking sector. The reforms require banks to maintain proper leverage ratios and meet certain capital requirements.
Benefit obligation	Refers to the projected benefit obligation for pension plans and the accumulated postretirement benefit obligation for OPEB plans.
Capital Bank	Division of Chemung Canal Trust Company located in the “Capital Region” of New York State and includes the counties of Albany and Saratoga.
CDARS	Product involving a network of financial institutions that exchange certificates of deposits among members in order to ensure FDIC insurance coverage on customer deposits above the single institution limit. Using a sophisticated matching system, funds are exchanged on a dollar-for-dollar basis, so that the equivalent of an original deposit comes back to the originating institution.
Captive insurance company	A company that provides risk-mitigation services for its parent company.
Collateralized debt obligation	A structured financial product that pools together cash flow-generating assets, such as mortgages, bonds, and loans.
Collateralized mortgage obligations	A type of mortgage-backed security with principal repayments organized according to their maturities and into different classes based on risk. The mortgages serve as collateral and are organized into classes based on their risk profile.
Dodd-Frank Act	The Dodd-Frank Act was enacted on July 21, 2010 and significantly changed the bank regulatory landscape and has impacted and will continue to impact the lending, deposit, investment, trading and operating activities of financial institutions and their holding companies. The Dodd-Frank Act requires various federal agencies to adopt a broad range of new rules and regulations, and to prepare various studies and reports for Congress.
Fully taxable equivalent basis	Income from tax-exempt loans and investment securities that have been increased by an amount equivalent to the taxes that would have been paid if this income were taxable at statutory rates; the corresponding income tax impact related to tax-exempt items is recorded within income tax expense.
GAAP	Accounting principles generally accepted in the United States of America.
Holding company	Consists of the operations for Chemung Financial Corporation (parent only).
ICS	Product involving a network of financial institutions that exchange interest-bearing money market deposits among members in order to ensure FDIC insurance coverage on customer deposits above the single institution limit. Using a sophisticated matching system, funds are exchanged on a dollar-for-dollar basis, so that the equivalent of an original deposit comes back to the originating institution.
Loans held for sale	Residential real estate loans originated for sale on the secondary market with maturities from 15-30 years.
Long term lease obligation	An obligation extending beyond the current year, which is related to a long term capital lease that is considered to have the economic characteristics of asset ownership.
Mortgage-backed securities	A type of asset-backed security that is secured by a collection of mortgages.
Municipal clients	A political unit, such as a city, town, or village, incorporated for local self-government.

Edgar Filing: CHEMUNG FINANCIAL CORP - Form 10-Q

N/A	Data is not applicable or available for the period presented.
N/M	Not meaningful.
Non-GAAP	A calculation not made according to GAAP.
Obligations of state and political subdivisions	An obligation that is guaranteed by the full faith and credit of a state or political subdivision that has the power to tax.
Obligations of U.S. Government	A federally guaranteed obligation backed by the full power of the U.S. government, including Treasury bills, Treasury notes and Treasury bonds.

Obligations of U.S. Government sponsored enterprise obligations	Obligations of agencies originally established or chartered by the U.S. government to serve public purposes as specified by the U.S. Congress; these obligations are not explicitly guaranteed as to the timely payment of principal and interest by the full faith and credit of the U.S. government.
OREO	Represents real property owned by the Corporation, which is not directly related to its business and is most frequently the result of a foreclosure on real property.
OTTI	Impairment charge taken on a security whose fair value has fallen below the carrying value on the balance sheet and whose value is not expected to recover through the holding period of the security.
PCI loans	Represents loans that were acquired in the Fort Orange Financial Corp. transaction and deemed to be credit-impaired on the acquisition date in accordance with the guidance of FASB.
Political subdivision	A county, city, town, or other municipal corporation, a public authority, or a publicly-owned entity that is an instrumentality of a state or a municipal corporation.
Pre-provision profit/(loss)	Represents total net revenue less noninterest expense, before income tax expense (benefit). The Corporation believes that this financial measure is useful in assessing the ability of a bank to generate income in excess of its provision for credit losses.
Regulatory Relief Act	The Economic Growth, Regulatory Relief and Consumer Protection Act was enacted on May 24, 2018 provides certain limited amendments to the Dodd-Frank Act, as well as certain targeted modifications to other post-financial crisis regulatory requirements. In addition, the legislation establishes new consumer protections and amends various securities- and investment company-related requirements.
RWA	Risk-weighted assets consist of on- and off-balance sheet assets that are assigned to one of several broad risk categories and weighted by factors representing their risk and potential for default. On-balance sheet assets are risk-weighted based on the perceived credit risk associated with the obligor or counterparty, the nature of any collateral, and the guarantor, if any. Off-balance sheet assets such as lending-related commitments, guarantees, derivatives and other applicable off-balance sheet positions are risk-weighted by multiplying the contractual amount by the appropriate credit conversion factor to determine the on-balance sheet credit equivalent amount, which is then risk-weighted based on the same factors used for on-balance sheet assets. Risk-weighted assets also incorporate a measure for market risk related to applicable trading assets-debt and equity instruments. The resulting risk-weighted values for each of the risk categories are then aggregated to determine total risk-weighted assets.
SBA loan pools	Business loans partially guaranteed by the SBA.
Securities sold under agreements to repurchase	Sale of securities together with an agreement for the seller to buy back the securities at a later date.
Tax Act	The Tax Act was enacted on December 22, 2017 and amended the Internal Revenue Code of 1986. The legislation reduced the U.S. federal corporate income tax rate from 35 percent to 21 percent, with some related business deductions and credits being either reduced or eliminated.
TDR	A TDR is deemed to occur when the Corporation modifies the original terms of a loan agreement by granting a concession to a borrower that is experiencing financial difficulty.
Trust preferred securities	A hybrid security with characteristics of both subordinated debt and preferred stock which allows for early redemption by the issuer, makes fixed or variable payments, and matures at face value.
Unaudited	Financial statements and information that have not been subjected to auditing procedures sufficient to permit an independent certified public accountant to express an opinion.
WMG	Provides services as executor and trustee under wills and agreements, and guardian, custodian, trustee and agent for pension, profit-sharing and other employee benefit trusts, as well as various investment, financial planning, pension, estate planning and employee benefit administration services.

CHEMUNG FINANCIAL CORPORATION AND SUBSIDIARIES
NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization

The Corporation, through its wholly-owned subsidiaries, the Bank and CFS, provides a wide range of banking, financing, fiduciary and other financial services to its clients. The Corporation and the Bank are subject to the regulations of certain federal and state agencies and undergo periodic examinations by those regulatory authorities.

CRM, a wholly-owned subsidiary of the Corporation, which was formed and began operations on May 31, 2016, is a Nevada-based captive insurance company which insures against certain risks unique to the operations of the Corporation and its subsidiaries and for which insurance may not be currently available or economically feasible in today's insurance marketplace. CRM pools resources with several other similar insurance company subsidiaries of financial institutions to spread a limited amount of risk among themselves. CRM is subject to regulations of the State of Nevada and undergoes periodic examinations by the Nevada Division of Insurance.

Basis of Presentation

The accompanying unaudited consolidated financial statements have been prepared in conformity with GAAP for interim financial information and pursuant to the requirements for reporting on Form 10-Q and Article 10 of Regulation S-X of the Exchange Act. These financial statements include the accounts of the Corporation and its subsidiaries, and all significant intercompany balances and transactions are eliminated in consolidation. Amounts in the prior periods' consolidated financial statements are reclassified whenever necessary to conform to the current period's presentation.

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions based on available information. These estimates and assumptions affect the amounts reported in the financial statements and disclosures provided, and actual results could differ. In the opinion of management, all adjustments (consisting of normal recurring adjustments) and disclosures necessary for the fair presentation of the accompanying consolidated financial statements have been included. The unaudited consolidated financial statements should be read in conjunction with the Corporation's 2017 Annual Report on Form 10-K for the year ended December 31, 2017. The results of operations for any interim periods are not necessarily indicative of the results which may be expected for the entire year or any other period.

Reclassifications

Some items in the prior year financial statements were reclassified to conform to the current presentation. Reclassifications had no effect on prior year net income or shareholders' equity.

Recent Accounting Pronouncements

In February 2016, the FASB issued ASU 2016-02, Leases (Topic 842). ASU 2016-02 requires companies that lease valuable assets to recognize on their balance sheets the assets and liabilities generated by contracts longer than a year. The amendments in this update are effective for annual periods, and interim periods within those annual periods, beginning after December 15, 2018, though early adoption is permitted. The Corporation intends to adopt the new lease guidance as of January 1, 2019 and is currently evaluating the impact that adoption of these updates will have on

its consolidated financial statements. Currently, the Corporation believes the implementation of this ASU will create a right of use asset of less than \$15.0 million for the Corporation's 16 leased facilities and a related capital obligation of the same amount as of January 1, 2019.

In June 2016, the FASB issued ASU 2016-13, Financial Instruments - Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments. The objective of the ASU is to provide financial statement users with more decision-useful information about the expected credit losses on financial instruments and other commitments to extend credit held by a reporting entity at each reporting date by replacing the incurred loss impairment methodology in current GAAP with a methodology that reflects expected credit losses and requires consideration of a broader range of reasonable and supportable information to form credit loss estimates. The amendments in this ASU are effective for public companies for fiscal years beginning after December 15, 2019, though entities may adopt the amendments earlier for fiscal years beginning after December 15, 2018. The Corporation is currently evaluating the impact of the adoption of this guidance on its consolidated financial statements. The Corporation anticipates that the adoption of the CECL model will result in an increase to the Corporation's allowance for loan losses. The Corporation has established a committee to oversee the implementation of CECL and has selected a vendor to assist in the implementation process. In 2018 the committee plans to begin establishing parameters which will be used in the CECL model with the selected vendor. The Corporation further plans to run its current incurred loss model and a CECL model concurrently for twelve months prior to the adoption of this guidance on January 1, 2020.

In January 2017, the FASB issued ASU 2017-04, Intangibles - Goodwill and Other (Topic 350): Simplifying the Test for Goodwill Impairment. The objective of the ASU is to simplify the manner in which an entity is required to test goodwill for impairment by eliminating Step 2 from the goodwill impairment test. Additionally, the ASU removes the requirement for any reporting unit with a zero or negative carrying amount to perform a qualitative assessment and, if it fails such qualitative test, to perform Step 2 of the goodwill impairment test. The amendments in this ASU are effective for annual, or any interim, goodwill impairment tests in fiscal years beginning after December 15, 2019. The adoption of the ASU is not expected to have a significant impact on the Corporation's consolidated financial statements.

In March 2017, the FASB issued ASU 2017-08, Receivables - Nonrefundable Fees and Other Costs (Subtopic 310-20): Premium Amortization on Purchased Callable Debt Securities. The objective of the ASU is to align the amortization period of premiums and discounts to expectations incorporated in market pricing on the underlying securities. The amendment requires that the premium be amortized to the earliest call date, but does not require an accounting change for securities held at a discount; the discount continues to be amortized to maturity. The amendments in this ASU are effective for fiscal years, and for interim periods within those fiscal years, beginning after December 15, 2018. The adoption of the ASU is not expected to have a significant impact on the Corporation's consolidated financial statements.

Adoption of New Accounting Standards

On January 1, 2018, the Corporation adopted ASU 2016-01, an amendment to Recognition and Measurement of Financial Assets and Financial Liabilities ("ASC 825"). The objectives of the ASC 825 were (1) require equity investments to be measured at fair value, with changes in fair value recognized in net income, (2) simplify the impairment assessment of equity investments without readily determinable fair values, (3) eliminate the requirement to disclose methods and significant assumptions used to estimate fair value for financial instruments measured at amortized cost on the balance sheet, (4) require the use of the exit price notion when measuring the fair value of financial instruments, and (5) clarify the need for a valuation allowance on a deferred tax asset related to available-for-sale securities in combination with the entity's other deferred tax assets.

On January 1, 2018, the Corporation adopted ASU 2017-07, Compensation - Retirement Benefits - Improving the Presentation of Net Periodic Cost and Net Periodic Postretirement Benefit Cost ("ASC 715"). The objective of ASC 715 was to improve guidance related to the presentation of defined benefit costs in the income statement. Specifically, ASC 715 required that an employer report the service cost component in the same line item(s) as other compensation costs arising from services rendered by the pertinent employees during the period. The other components of net

benefit cost are required to be presented in the income statement separately from the service cost component and outside a subtotal of income from operations, if one is presented. Additionally, ASC 715 allows only the service cost component to be eligible for capitalization, when applicable. Results for reporting periods beginning after January 1, 2018 are presented under ASC 715, while prior period amounts continue to be reported in accordance with legacy GAAP, with comparable periods presented retrospectively for the presentation of the service cost and net periodic postretirement benefit cost in the income statement. The Corporation elected the practical expedient, which permits employers to use the amounts disclosed in its pension and other postretirement benefit plan note for the prior comparative periods as the estimation for applying retrospective presentation requirements.

NOTE 2 EARNING PER COMMON SHARE (shares in thousands)

Basic earnings per share is net income divided by the weighted average number of common shares outstanding during the period. Issuable shares, including those related to directors' restricted stock units and directors' stock compensation, are considered outstanding and are included in the computation of basic earnings per share. All outstanding unvested share based payment awards that contain rights to non-forfeitable dividends are considered participating securities for this calculation. Restricted stock awards are grants of participating securities and are considered outstanding at grant date. Earnings per share information is adjusted to present comparative results for stock splits and stock dividends that occur. Earnings per share were computed by dividing net income by 4,834 and 4,802 weighted average shares outstanding for the three-month periods ended September 30, 2018 and 2017, respectively. Earnings per share were computed by dividing net income by 4,828 and 4,796 weighted average shares outstanding for the nine-month periods ended September 30, 2018 and 2017, respectively. There were no common stock equivalents during the three and nine-month periods ended September 30, 2018 or 2017.

NOTE 3 SECURITIES

Amortized cost and estimated fair value of securities available for sale are as follows (in thousands):

	September 30, 2018			Estimated Fair Value
	Amortized Cost	Unrealized Gains	Unrealized Losses	
Obligations of U.S. Government and U.S. Government sponsored enterprises	\$10,487	\$ 8	\$ 42	\$10,453

Obligations of U.S. Government and U.S. Government sponsored enterprises	\$14,982	\$ 21	\$—	\$ —	\$14,982	\$ 21
Mortgage-backed securities, residential	83,562	1,013	131,165	4,153	214,727	5,166
Obligations of states and political subdivisions	20,526	133	271	18	20,797	151
SBA loan pools	3,937	32	—	—	3,937	32
Total temporarily impaired securities	\$123,007	\$ 1,199	\$131,436	\$ 4,171	\$254,443	\$ 5,370

Other-Than-Temporary Impairment

As of September 30, 2018, the majority of the Corporation's unrealized losses in the investment securities portfolio related to mortgage-backed securities. At September 30, 2018, all of the unrealized losses related to mortgage-backed securities were issued by U.S. government sponsored entities, Fannie Mae and Freddie Mac. Because the decline in fair value is attributable to changes in interest rates and not credit quality, and because it is not likely that the Corporation will be required to sell these securities before their anticipated recovery, the Corporation does not consider these securities to be other-than-temporarily impaired at September 30, 2018.

Equity Investments

Beginning January 1, 2018, upon adoption of ASU 2016-01, equity securities with readily determinable fair values are stated at fair value with realized and unrealized gains and losses reported in the consolidated statement of income. For periods prior to adoption, equity investments were classified as available-for-sale and stated at fair value with unrealized gains and losses reports as a separate component of accumulated other comprehensive income, net of tax.

The Corporation recognized a change in fair value of equity investments of \$2.1 million during the three and nine month period ending September 30, 2018, primarily related to the sale of Visa Class B shares during the third quarter of 2018.

NOTE 4 LOANS AND ALLOWANCE FOR LOAN LOSSES

The composition of the loan portfolio, net of deferred origination fees and costs, is summarized as follows (in thousands):

	September 30, 2018	December 31, 2017
Commercial and agricultural:		
Commercial and industrial	\$192,093	\$198,463
Agricultural	287	544
Commercial mortgages:		
Construction	50,353	45,558
Commercial mortgages, other	615,221	598,772
Residential mortgages	188,636	194,440
Consumer loans:		
Credit cards	1,393	1,517
Home equity lines and loans	98,239	100,591
Indirect consumer loans	157,123	153,060

Edgar Filing: CHEMUNG FINANCIAL CORP - Form 10-Q

Direct consumer loans	17,293	18,879
Total loans, net of deferred origination fees and costs	1,320,638	1,311,824
Interest receivable on loans	3,884	3,758
Total recorded investment in loans	\$1,324,522	\$1,315,582

Edgar Filing: CHEMUNG FINANCIAL CORP - Form 10-Q

The Corporation's concentrations of credit risk by loan type are reflected in the preceding table. The concentrations of credit risk with standby letters of credit, committed lines of credit and commitments to originate new loans generally follow the loan classifications in the table above.

The following tables present the activity in the allowance for loan losses by portfolio segment for the three and nine-month periods ended September 30, 2018 and 2017 (in thousands):

Three Months Ended September 30, 2018					
Allowance for loan losses	Commercial and Agricultural	Commercial Mortgages	Residential Mortgages	Consumer Loans	Total
Beginning balance	\$4,969	\$ 8,740	\$ 1,445	\$ 4,491	\$ 19,645

Troubled Debt Restructurings:

A modification of a loan may result in classification as a TDR when a borrower is experiencing financial difficulty and the modification constitutes a concession. The Corporation offers various types of modifications which may involve a change in the schedule of payments, a reduction in the interest rate, an extension of the maturity date, extending the maturity date at an interest rate lower than the current market rate for new debt with similar risk, requesting additional collateral, releasing collateral for consideration, substituting or adding a new borrower or guarantor, a permanent reduction of the recorded investment in the loan or a permanent reduction of the interest on the loan.

As of September 30, 2018 and December 31, 2017, the Corporation has a recorded investment in TDRs of \$6.6 million and \$7.7 million, respectively. There were specific reserves of \$0.5 million and \$0.7 million allocated for TDRs at September 30, 2018 and December 31, 2017, respectively. As of September 30, 2018, TDRs totaling \$0.9 million were accruing interest under the modified terms and \$5.7 million were on non-accrual status. As of December 31, 2017, TDRs totaling \$1.7 million were accruing interest under the modified terms and \$6.0 million were on non-accrual status. The Corporation had committed no additional amounts as of both September 30, 2018 and December 31, 2017, to customers with outstanding loans that are classified as TDRs.

There were no loans modified as TDRs during the three month period ended September 30, 2018 while the terms of certain loans were modified as TDRs during the three month period ended September 30, 2017. The modification of the terms of two commercial and industrial term loans during the three months ended September 30, 2017 included a reduction of the schedule amortized payments for greater than a three month period, the release of collateral related to one of the loans, and the extension of a maturity date.

During the nine months ended September 30, 2018 and 2017, the terms of certain loans were modified as TDRs. The modification of the terms of one commercial and industrial term loan during the nine months ended September 30, 2018 included an extension of the maturity date at a stated rate of interest lower than the current market rate for new debt with similar risk. In addition to the modification noted above, the modification of two commercial and industrial term loans and one line of credit during the nine months ended September 30, 2017 included consolidating the loans into one commercial and industrial loan, extending the maturity date by approximately two years, and lowering the monthly payment. An additional piece of equipment was taken as collateral, but was not considered to be of greater value than the concession given. The modification of the terms of one commercial mortgage loan during the nine months ended September 30, 2017 included a reduction of the scheduled amortized payments of the loan for greater than a three month period. The modification of the terms of a residential mortgage loan during the nine months ended September 30, 2017 included an extension of the maturity date by approximately five years and a postponement of the scheduled amortized past due payments to the end of the loan.

The following table presents loans by class modified as TDRs that occurred during the three month period ended September 30, 2017 (dollars in thousands):

September 30, 2017	Number of Loans	Pre-Modification Outstanding Recorded Investment	Post-Modification Outstanding Recorded Investment
Troubled debt restructurings:			
Commercial and agricultural:			
Commercial and industrial	2	\$ 506	\$ 506
Total	2	\$ 506	\$ 506

The TDRs described above increased the allowance for loan losses by \$0.1 million and resulted in no charge-offs during the three month period ended September 30, 2017.

The following tables present loans by class modified as TDRs that occurred during the nine months ended September 30, 2018 and 2017 (dollars in thousands):

September 30, 2018	Number of Loans	Pre-Modification Outstanding Recorded Investment	Post-Modification Outstanding Recorded Investment
Troubled debt restructurings:			
Commercial and agricultural:			
Commercial and industrial	1	\$ 100	\$ 100
Total	1	\$ 100	\$ 100

September 30, 2017	Number of Loans	Pre-Modification Outstanding Recorded Investment	Post-Modification Outstanding Recorded Investment
Troubled debt restructurings:			
Commercial and agricultural:			
Commercial and industrial	3	\$ 677	\$ 677
Commercial mortgages:			
Commercial mortgages	1	\$ 166	\$ 166
Residential mortgages	1	105	105
Total	5	\$ 948	\$ 948

The TDRs described above did not increase the allowance for loan losses and resulted in no charge-offs during the nine months ended September 30, 2018. The TDRs described above increased the allowance for loan losses by \$0.2 million and resulted in no charge-offs during the nine months ended September 30, 2017.

A loan is considered to be in payment default once it is 90 days contractually past due under the modified terms. There were no payment defaults on any loans previously modified as TDRs within twelve months following the modification during the three and nine month periods ended September 30, 2018 and 2017.

Credit Quality Indicators

The Corporation establishes a risk rating at origination for all commercial loans. The main factors considered in assigning risk ratings include, but are not limited to: historic and future debt service coverage, collateral position, operating performance, liquidity, leverage, payment history, management ability, and the customer's industry. Commercial relationship managers monitor all loans in their respective portfolios for any changes in the borrower's ability to service its debt and affirm the risk ratings for the loans at least annually.

For the retail loans, which include residential mortgages, indirect and direct consumer loans, home equity lines and loans, and credit cards, once a loan is properly approved and closed, the Corporation evaluates credit quality based upon loan repayment.

The Corporation uses the risk rating system to identify criticized and classified loans. Commercial relationships within the criticized and classified risk ratings are analyzed quarterly. The Corporation uses the following definitions for criticized and classified loans (which are consistent with regulatory guidelines):

Special Mention – Loans classified as special mention have a potential weakness that deserves management's close attention. If left uncorrected, these potential weaknesses may result in deterioration of the repayment prospects for the loan or the institution's credit position at some future date.

Substandard – Loans classified as substandard are inadequately protected by the current net worth and paying capability of the obligor or of the collateral pledged, if any. Loans so classified have a well-defined weakness or weaknesses that jeopardize the liquidation of the debt. They are characterized by the distinct possibility that the institution will sustain some loss if the deficiencies are not corrected.

Doubtful – Loans classified as doubtful have all the weaknesses inherent in those classified as substandard, with the added characteristic that the weaknesses make collection or liquidation in full, on the basis of currently existing facts, conditions, and values, highly questionable and improbable.

Commercial loans not meeting the criteria above to be considered criticized or classified are considered to be pass rated loans. Loans listed as not rated are included in groups of homogeneous loans performing under terms of the loan notes. Based on the analyses performed as of September 30, 2018 and December 31, 2017, the risk category of the recorded investment of loans by class of loans is as follows (in thousands):

September 30, 2018

	Not Rated	Pass	Special Mention	Substandard	Doubtful	Loans acquired with deteriorated credit quality	Total
Commercial and agricultural:

Total	\$464,414	\$807,976	\$14,112	\$25,489	\$2,799	\$792	\$1,315,582

The Corporation considers the performance of the loan portfolio and its impact on the allowance for loan losses. For residential and consumer loan classes, the Corporation also evaluates credit quality based on the aging status of the loan, which was previously presented, and by payment activity. The following table presents the recorded investment in residential and consumer loans based on payment activity as of September 30, 2018 and December 31, 2017 (in thousands):

September 30, 2018

NOTE 5 FAIR VALUE

Fair value is the exchange price that would be received for an asset or paid to transfer a liability in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. There are three levels of inputs that may be used to measure fair value:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect a reporting entity's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

The Corporation used the following methods and significant assumptions to estimate fair value on a recurring basis:

Available for Sale Securities: The fair values of securities available for sale are usually determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs), or matrix pricing, which is a mathematical technique widely used to value debt securities without relying exclusively on quoted prices for the specific securities but rather by relying on the securities' relationship to other benchmark quoted securities (Level 2 inputs). For securities where quoted prices or market prices of similar securities are not available, fair values are calculated using discounted cash flows or other market indicators (Level 3 inputs).

Equity Investments: Securities that are held to fund a deferred compensation plan and securities that have a readily determinable fair market value, are recorded at fair value with changes in fair value included in earnings. The fair values of equity investments are determined by quoted market prices (Level 1 inputs).

Impaired Loans: At the time a loan is considered impaired, it is valued at the lower of cost or fair value. Impaired loans carried at fair value have been partially charged-off or receive specific allocations as part of the allowance for loan loss accounting. For collateral dependent loans, fair value is commonly based on real estate appraisals. These appraisals may utilize a single valuation approach or a combination of approaches including comparable sales and the income approach. Adjustments are routinely made in the appraisal process by independent appraisers to adjust for differences between the comparable sales and income data available. Such adjustments are usually significant and typically result in a Level 3 classification of the inputs for determining fair value. Non-real estate collateral may be valued using an appraisal, net book value per the borrower's financial statements, or aging reports, adjusted or discounted based on management's historical knowledge, changes in market conditions from the time of the valuation, and management's expertise and knowledge of the client and client's business, typically resulting in a Level 3 fair value classification. Impaired loans are evaluated on a quarterly basis for additional impairment and adjusted accordingly.

OREO: Assets acquired through or instead of loan foreclosures are initially recorded at fair value less costs to sell when acquired, establishing a new cost basis. These assets are subsequently accounted for at lower of cost or fair value less estimated costs to sell. Fair value is commonly based on recent real estate appraisals. These appraisals may utilize a single valuation approach or a combination of approaches including comparable sales and the income approach. Adjustments are routinely made in the appraisal process by independent appraisers to adjust for differences between the comparable sales and income data available. Such adjustments are usually significant and typically result in a Level 3 classification of the inputs for determining fair value.

Appraisals for both collateral-dependent impaired loans and OREO are performed by certified general appraisers (commercial properties) or certified residential appraisers (residential properties) whose qualifications and licenses have been reviewed and verified by the Corporation. Once received, appraisals are reviewed for reasonableness of assumptions, approaches utilized, Uniform Standards of Professional Appraisal Practice and other regulatory compliance, as well as the overall resulting fair value in comparison with independent data sources such as recent market data or industry-wide statistics. Appraisals are generally completed within the previous 12 month period prior to a property being placed into OREO. On impaired loans, appraisal values are adjusted based on the age of the appraisal, the position of the lien, the type of the property and its condition.

Derivatives: The fair values of interest rate swaps are based on valuation models using observable market data as of the measurement date (Level 2 inputs). Derivatives are traded in an over-the-counter market where quoted market prices are not always available. Therefore, the fair values of derivatives are determined using quantitative models that utilize multiple market inputs. The inputs will vary based on the type of derivative, but could include interest rates, prices, and indices to generate continuous yield or pricing curves, prepayment rates, and volatility factors to value the position. The Corporation also incorporates credit valuation adjustments to appropriately reflect both its own nonperformance risk and the respective counter-party's nonperformance risk in the fair value measurements. In adjusting the fair value of its derivative contracts for the effect of nonperformance risk, the Corporation has considered the impact of any applicable credit enhancements, such as collateral postings. Although the Corporation has determined that the majority of the inputs used to value its derivatives fall within Level 2 of the fair value hierarchy, the credit valuation adjustments associated with its derivatives utilize credit default rate assumptions (Level 3 inputs).

Assets and liabilities measured at fair value on a recurring basis are summarized below (in thousands):

Financial Assets:	Fair Value	Fair Value Measurement at September 30, 2018 Using		
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

(1) Fair value estimates are made at a specific point in time, based on relevant market information and information about the financial instrument. These estimates are subjective in nature and involve uncertainties and matters of significant judgment and, therefore, cannot be determined with precision. Changes in assumptions could significantly affect the estimates.

NOTE 6 GOODWILL AND INTANGIBLE ASSETS

The changes in goodwill included in the core banking segment during the nine month periods ended September 30, 2018 and 2017 were as follows (in thousands):

	2018	2017
Beginning of year	\$21,824	\$21,824
Acquired goodwill	—	—
Ending balance September 30,	\$21,824	\$21,824

Acquired intangible assets were as follows at September 30, 2018 and December 31, 2017 (in thousands):

	At September 30, 2018	At December 31, 2017	
Balance	Accumulated	Balance	Accumulated
Acquired	Amortization	Acquired	Amortization

Edgar Filing: CHEMUNG FINANCIAL CORP - Form 10-Q

Core deposit intangibles	\$5,975	\$ 5,489	\$5,975	\$ 5,196
Other customer relationship intangibles	5,633	4,592	5,633	4,327
Total	\$11,608	\$ 10,081	\$11,608	\$ 9,523

33

Aggregate amortization expense was \$0.2 million for both of the three month periods ended September 30, 2018 and 2017. Aggregate amortization expense was \$0.6 million and \$0.7 million for the nine month periods ended September 30, 2018 and 2017, respectively.

The remaining estimated aggregate amortization expense at September 30, 2018 is listed below (in thousands):

Year	Estimated Expense
2018	\$ 176
2019	609
2020	484
2021	258
2022	—
Total	\$ 1,527

NOTE 7 SECURITIES SOLD UNDER AGREEMENTS TO REPURCHASE

The Corporation enters into sales of securities under agreements to repurchase and the amounts received under these agreements represent borrowings and are reflected as a liability in the consolidated balance sheets. The securities underlying these agreements are included in investment securities in the consolidated balance sheets.

The Corporation has no control over the market value of the securities which fluctuate due to market conditions, however, the Corporation is obligated to promptly transfer additional securities if the market value of the securities falls below the repurchase agreement price. The Corporation manages this risk by utilizing highly marketable and easily priced securities, monitoring these securities for significant changes in market valuation routinely, and maintaining an unpledged securities portfolio believed to be sufficient to cover a decline in the market value of the securities sold under agreements to repurchase.

There were no securities sold under agreements to repurchase as of September 30, 2018.

A summary of securities sold under agreements to repurchase as of December 31, 2017 is as follows (in thousands):

	December 31, 2017			
	Overnight and Up to 1 Year Continuous	1 - 3 Years	3+ Years	Total
Mortgage-backed securities, residential	\$-\$11,798	\$ —	—\$	—\$11,798
Excess collateral held	—(1,798)	—	—	(1,798)
Gross amount of recognized liabilities for repurchase agreements	\$-\$10,000	\$ —	—\$	—\$10,000

NOTE 8 COMMITMENTS AND CONTINGENCIES

The Corporation is a party to certain financial instruments with off-balance sheet risk such as commitments under standby letters of credit, unused portions of lines of credit, overdraft protection and commitments to fund new loans. In accordance with GAAP, these financial instruments are not recorded in the financial statements. The Corporation's policy is to record such instruments when funded. These transactions involve, to varying degrees, elements of credit, interest rate and liquidity risk. Such transactions are generally used by the Corporation to manage clients' requests for funding and other client needs.

The following table lists the contractual amounts of financial instruments with off-balance sheet risk at September 30, 2018 and December 31, 2017 (in thousands):

	September 30, 2018		December 31, 2017	
	Fixed Rate	Variable Rate	Fixed Rate	Variable Rate
Commitments to make loans	\$14,516	\$26,544	\$16,019	\$28,591
Unused lines of credit	1,246	202,355	1,604	200,353
Standby letters of credit	—	15,627	—	15,022

On June 15, 2018, the Bank, through mediation, reached a resolution by way of a settlement agreement in the matter of Fane v. Chemung Canal Trust Company (the “Action”). The parties agreed to release each other from any and all liabilities, claims, counterclaims, demands, charges, complaints and causes of action, to dismiss the Action with prejudice, and the Bank agreed to pay Fane \$3.3 million in connection with the settlement of the Action. As of March 31, 2018, the Corporation had a legal reserve of \$2.3 million for the Action and therefore recognized an additional \$1.0 million of legal expense during the second quarter of 2018.

In the normal course of business, there are various outstanding claims and legal proceedings involving the Corporation or its subsidiaries. As of September 30, 2018, we believe that we are not a party to any pending legal, arbitration, or regulatory proceedings that could have a material adverse impact on our financial results or liquidity.

NOTE 9 ACCUMULATED OTHER COMPREHENSIVE LOSS

Accumulated other comprehensive loss represents the net unrealized holding gains or losses on securities available for sale and the funded status of the Corporation's defined benefit pension plan and other benefit plans, as of the consolidated balance sheet dates, net of the related tax effect.

The following is a summary of the changes in accumulated other comprehensive loss by component, net of tax, for the periods indicated (in thousands):

	Unrealized Gains and Losses on Securities Available for Sale	Defined Benefit and Other Benefit Plans	Total
Balance at July 1, 2018	\$ (7,223)	\$ (6,898)	\$ (14,121)
Other comprehensive income before reclassification	(1,179)	—	(1,179)
Amounts reclassified from accumulated other comprehensive income	—	13	13

Total reclassification for the period, net of tax	\$40	\$54	

(a) These accumulated other comprehensive income components are included in the computation of net periodic pension and other benefit plan costs (see Note 11 for additional information).

NOTE 10 REVENUE FROM CONTRACTS WITH CUSTOMERS

All of the Corporation's revenue from contracts with customers in the scope of ASC 606 is recognized within non-interest income. The following tables present the Corporation's non-interest income by revenue stream and reportable segment for the three and nine months ended September 30, 2018 and 2017 (in thousands). Items outside the scope of ASC 606 are noted as such.

Revenue by Operating Segment:	Three Months Ended September 30, 2018			
	Core Banking	WMG	Holding Company, CFS, and CRM ^(c)	Total
Non-interest income

Other ^(a)	1,340	—	(170)	1,170
Total non-interest income	\$8,228	\$6,525	\$ 282	\$15,035

(a) Not within scope of ASC 606.

(b) The Corporation elected the modified retrospective approach of adoption; therefore, prior period balances are presented under legacy GAAP and may not be comparable to current year presentation.

(c) The Holding Company, CFS, and CRM column above includes amounts to eliminate transactions between segments.

A description of the Corporation's revenue streams accounted for under ASC 606 follows:

Service Charges on Deposit Accounts: The Corporation earns fees from its deposit customers for transaction-based, account maintenance, and overdraft services. Transaction-based fees, which included services such as ATM use fees, stop payment charges, statement rendering, and ACH fees, are recognized at the time the transaction is executed as that is the point in time the Corporation fulfills the customer's request. Account maintenance fees, which relate primarily to monthly maintenance, are recognized at the time the maintenance occurs. Overdraft fees are recognized at the point in time that the overdraft occurs. Service charges on deposits are withdrawn from the customer's account balance.

Interchange Income from Debit Card Transactions: The Corporation earns interchange fees from debit cardholder transactions conducted through the Mastercard payment network. Interchange fees from cardholder transactions represent a percentage of the underlying transaction value and are recognized daily, concurrently with the transaction processing services provided to cardholder.

WMG Fee Income (Gross): The Corporation earns wealth management fees from its contracts with trust customers to manage assets for investment, and/or to conduct transactions on their accounts. These fees are primarily earned over time as the Corporation provides the contracted monthly or quarterly services and are generally assessed based on a tiered scale of the market value of assets under management (AUM) at quarter-end.

CFS Fee and Commission Income (Net): The Corporation earns fees from investment brokerage services provided to its customers by a third-party service provider. The Corporation receives commissions from the third-party service provider on a monthly basis based upon customer activity for the month. The Corporation (i) acts as an agent in

arranging the relationship between the customer and the third-party service provider and (ii) does not control the services rendered to the customers. Investment brokerage fees are presented net of related costs. The Corporation also earns fees from tax services provided to its customers.

Net Gains/Losses on Sales of OREO: The Corporation records a gain or loss from the sale of OREO when control of the property transfers to the buyer, which generally occurs at the time of an executed deed. When the Corporation finances the sale of OREO to the buyer, the Corporation assesses whether the buyer is committed to perform their obligations under the contract and whether collectability of the transaction price is probable. Once these criteria are met, the OREO asset is derecognized and the gain or loss on sale is recorded upon the transfer of control of the property to the buyer. In determining the gain or loss on the sale, the Corporation adjusts the transaction price and related gain (loss) on sale if a significant financing component is present.

NOTE 11 COMPONENTS OF QUARTERLY AND YEAR TO DATE NET PERIODIC BENEFIT COSTS

The components of net periodic expense for the Corporation's pension and other benefit plans for the periods indicated are as follows (in thousands):

	Three Months Ended September 30,		Nine Months Ended September 30,

Net periodic postretirement, medical and life benefit	\$(23)	\$(23)	\$(71)	\$(67)

NOTE 12 SEGMENT REPORTING

The Corporation manages its operations through two primary business segments: core banking and WMG. The core banking segment provides revenues by attracting deposits from the general public and using such funds to originate consumer, commercial, commercial real estate, and residential mortgage loans, primarily in the Corporation's local markets, and to invest in securities. The WMG services segment provides revenues by providing trust and investment advisory services to clients.

Accounting policies for the segments are the same as those described in Note 1 of the Corporation's 2017 Annual Report on Form 10-K, which was filed with the SEC on March 8, 2018. Summarized financial information concerning the Corporation's reportable segments and the reconciliation to the Corporation's consolidated results are shown in the following table. Income taxes are allocated based on the separate taxable income of each entity and indirect overhead expenses are allocated based on reasonable and equitable allocations applicable to the reportable segment. The

Holding Company, CFS, and CRM column below includes amounts to eliminate transactions between segments (in thousands).

NOTE 13 STOCK COMPENSATION

Board of Directors' Stock Compensation

Pursuant to the Corporation's Directors' Compensation Plan, members of the Board of Directors receive common shares of the Corporation equal in value to the amount of fees individually earned during the previous year for service as a director. The common shares are distributed to the Corporation's individual board members from treasury shares of the Corporation on or about January 15 following the calendar year of service.

Additionally, the Chief Executive Officer of the Corporation, who does not receive cash compensation as a member of the Board of Directors, is awarded common shares equal in value to the average of those awarded to board members not employed by the Corporation who have served for 12 months during the prior year.

During January 2018 and 2017, 6,015 and 7,880 shares, respectively, were re-issued from treasury to fund the stock component of directors' compensation. An expense of \$86 thousand and \$68 thousand related to this compensation was recognized during the three month periods ended September 30, 2018 and 2017, respectively. An expense of \$271 thousand and \$222 thousand related to this compensation was recognized during the nine month periods ended September 30, 2018 and 2017, respectively. This expense is accrued as shares are earned.

Restricted Stock Plan

Pursuant to the Corporation's Restricted Stock Plan, the Corporation may make discretionary grants of restricted stock to officers other than the Corporation's Chief Executive Officer. Compensation expense is recognized over the vesting period of the awards based on the fair value of the stock at issue date.

A summary of restricted stock activity for the three month period ended September 30, 2018 is presented below:

	Shares	Weighted–Average Grant Date Fair Value
Nonvested at July 1, 2018	23,084	\$ 37.88
Granted	—	—
Vested	—	—
Forfeited or cancelled	—	—
Nonvested at September 30, 2018	23,084	\$ 37.88

A summary of restricted stock activity for the nine month period ended September 30, 2018 is presented below:

	Shares	Weighted–Average Grant Date Fair Value
Nonvested at January 1, 2018	25,522	\$ 38.01
Granted	—	—
Vested	(2,438)	39.28
Forfeited or cancelled	—	—
Nonvested at September 30, 2018	23,084	\$ 37.88

As of September 30, 2018, there was \$654 thousand of total unrecognized compensation cost related to nonvested shares granted under the Plan. The cost is expected to be recognized over a weighted-average period of 3.08 years. The total fair value of shares vested was \$112 thousand and \$16 thousand for the nine month periods ended September 30, 2018 and 2017, respectively.

Item 2: Management's Discussion and Analysis of Financial Condition and Results of Operations

Introduction

The following is the MD&A of the Corporation in this Quarterly Report on Form 10-Q for the three and nine months ended September 30, 2018 and 2017. Reference should be made to the accompanying unaudited consolidated financial statements and footnotes, and the Corporation's 2017 Annual Report on Form 10-K, which was filed with the SEC on March 8, 2018, for an understanding of the following discussion and analysis. See the list of commonly used abbreviations and terms on pages 3–5.

The MD&A included in this Form 10-Q contains statements that are forward-looking within the meaning of the Private Securities Litigation Reform Act of 1995. These statements are based on the current beliefs and expectations of the Corporation's management and are subject to significant risks and uncertainties. Actual results may differ from those set forth in the forward-looking statements. For a discussion of those risks and uncertainties and the factors that could cause the Corporation's actual results to differ materially from those risks and uncertainties, see Forward-looking Statements below and in Part I, Item 1A, Risk Factors, on pages 17–24 of the Corporation's 2017 Form 10-K. For a discussion of use of non-GAAP financial measures, see pages 64–67 of the Corporation's 2017 Form 10-K or pages 71-74 in this Form 10-Q.

The Corporation has been a financial holding company since 2000, the Bank was established in 1833, CFS in 2001, and CRM in 2016. Through the Bank and CFS, the Corporation provides a wide range of financial services, including demand, savings and time deposits, commercial, residential and consumer loans, interest rate swaps, letters of credit, wealth management services, employee benefit plans, insurance products, mutual funds and brokerage services. The

Bank relies substantially on a foundation of locally generated deposits. The Corporation, on a stand-alone basis, has minimal results of operations. The Bank derives its income primarily from interest and fees on loans, interest income on investment securities, WMG fee income, and fees received in connection with deposit and other services. The Bank's operating expenses are interest expense paid on deposits and borrowings, salaries and employee benefit plans, and general operating expenses. CRM is a Nevada-based captive insurance company which insures against certain risks unique to the operations of the Corporation and its subsidiaries and for which insurance may not be currently available or economically feasible in today's insurance marketplace. CRM pools resources with several other similar insurance company subsidiaries of financial institutions to spread a limited amount of risk among themselves.

Forward-looking Statements

This discussion contains forward-looking statements within the meaning of Section 27A of the Securities Act and Section 21E of the Exchange Act. The Corporation intends its forward-looking statements to be covered by the safe harbor provisions for forward-looking statements in these sections. All statements regarding the Corporation's expected financial position and operating results, the Corporation's business strategy, the Corporation's financial plans, forecasted demographic and economic trends relating to the Corporation's industry and similar matters are forward-looking statements. These statements can sometimes be identified by the Corporation's use of forward-looking words such as "may," "will," "anticipate," "estimate," "expect," or "intend." The Corporation cannot guarantee that its expectations in such forward-looking statements will turn out to be correct. The Corporation's actual results could be materially different from expectations because of various factors, including changes in economic conditions or interest rates, credit risk, difficulties in managing the Corporation's growth, competition, changes in law or the regulatory environment, including the Dodd-Frank Act, and changes in general business and economic trends. Information concerning these and other factors can be found in the Corporation's periodic filings with the SEC, including the discussion under the heading "Item 1A. Risk Factors" in the Corporation's 2017 Annual Report on Form 10-K. These filings are available publicly on the SEC's web site at <http://www.sec.gov>, on the Corporation's web site at <http://www.chemungcanal.com> or upon request from the Corporate Secretary at (607) 737-3746. Except as otherwise required by law, the Corporation undertakes no obligation to publicly update or revise its forward-looking statements, whether as a result of new information, future events or otherwise.

(a) See the GAAP to Non-GAAP reconciliations.

(b) Efficiency ratio is non-interest expense less amortization of intangible assets less legal reserve divided by the total of fully taxable equivalent net interest income plus non-interest income less changes in fair value of equity investments less net gains on securities transactions.

(c) Loans and loans held for sale do not reflect the allowance for loan losses.

(d) Non-performing loans include non-accrual loans only.

(e) Non-performing assets include non-performing loans plus other real estate owned.

In addition to analyzing the Corporation's results on a reported basis, management uses certain non-GAAP financial measures because it believes these non-GAAP financial measures provide information to investors about the underlying operational performance and trends of the Corporation and, therefore, facilitate a comparison of the Corporation with the performance of its competitors. Non-GAAP financial measures used by the Corporation may not be comparable to similarly named non-GAAP financial measures used by other companies. Refer to pages 71-74 for further explanation and reconciliation of the Corporation's use of non-GAAP measures.

Executive Summary

This executive summary of the MD&A includes selected information and may not contain all of the information that is important to readers of this Form 10-Q. For a complete description of the trends and uncertainties, as well as the risks and critical accounting estimates affecting the Corporation, this Form 10-Q should be read in its entirety.

The following table presents selected financial information for the periods indicated, and the dollar and percent change (in thousands, except per share and ratio data):

	Three Months Ended			Percentage Change	
	September 30,				
	2018	2017	Change		
Net interest income	\$15,079	\$14,763	\$316	2.1	%
Non-interest income	7,381	5,166	2,215	42.9	%
Non-interest expense	13,428	13,276	152	1.1	%
Pre-provision income	9,032	6,653	2,379	35.8	%
Provision for loan losses	300	1,289	(989)	(76.7)	%
Income tax expense	1,802	1,710	92	5.4	%
Net income	\$6,930	\$3,654	\$3,276	89.7	%
Basic and diluted earnings per share	\$1.43	\$0.76	\$0.67	88.2	%

Selected financial ratios:

Return on average assets	1.61	%	0.85	%
--------------------------	------	---	------	---

Edgar Filing: CHEMUNG FINANCIAL CORP - Form 10-Q

Return on average equity	17.81	%	9.46	%
Net interest margin, fully taxable equivalent	3.71	%	3.68	%
Efficiency ratio	64.72	%	64.83	%
Non-interest expenses to average assets	3.13	%	3.09	%

46

Net income for the third quarter of 2018 was \$6.9 million, or \$1.43 per share, compared with \$3.7 million, or \$0.76 per share, for the same period in the prior year. Return on average equity for the current quarter was 17.81%, compared with 9.46% for the prior year quarter. The increase in net income was driven by increases in non-interest income and net interest income, along with a decrease in the provision for loan losses.

Net interest income

Net interest income increased \$0.3 million, or 2.1%, compared with the same period in the prior year. The increase was due primarily to increases in interest income from the commercial and consumer loan portfolios, partially offset by decreases in interest income from taxable and tax-exempt securities and an increase in interest expense on interest-bearing deposits.

Non-interest income

Non-interest income increased \$2.2 million, or 42.9%, compared with the same period in the prior year. The increase was due primarily to a \$2.1 million increase in fair value of equity investments recognized as a result of the sale of Visa Class B shares and an increase in WMG fee income.

Non-interest expense

Non-interest expense increased \$0.2 million, or 1.1%, compared with the same period in the prior year. The increase was due primarily to increases in salaries and wages, net occupancy and data processing expenses, partially offset by decreases in pension and other employee benefits and other non-interest expenses, and an increased credit in other components of net periodic pension and postretirement benefits. For the three months ended September 30, 2018, non-interest expense to average assets was 3.13%, compared with 3.09% for the same period in the prior year.

Provision for loan losses

The provision for loan losses decreased \$1.0 million, or 76.7%, compared to the same period in the prior year. The decrease was due primarily to a decline in total loans during the third quarter of 2018, compared to the growth of total loans for the same period in the prior year. Net charge-offs decreased \$0.4 million, compared with the same period in the prior year.

Income tax expense

Income tax expense increased \$0.1 million, or 5.4%, compared to the same period in the prior year. The increase was due primarily to a \$3.4 million increase in income before income tax expense, partially offset by the decline in the Federal income tax rate from 34% to 21%, with the enactment of the Tax Act. Additionally, the Corporation increased income generated from CCTC Funding Corp., a real estate investment trust subsidiary of the Bank, reducing the Corporation's state income tax.

The following table presents selected financial information for the periods indicated, and the dollar and percent change (in thousands, except per share and ratio data):

	Nine Months Ended		Change	Percentage	
	2018	2017		Change	Change
Net interest income	\$44,996	\$42,207	\$2,789	6.6	%
Non-interest income	18,181	15,035	3,146	20.9	%
Non-interest expense	42,561	40,653	1,908	4.7	%
Pre-provision income	20,616	16,589	4,027	24.3	%
Provision for loan losses	3,371	2,750	621	22.6	%
Income tax expense	3,349	4,250	(901)	(21.2)	%
Net income	\$13,896	\$9,589	\$4,307	44.9	%

Edgar Filing: CHEMUNG FINANCIAL CORP - Form 10-Q

Basic and diluted earnings per share	\$2.88	\$2.00	\$0.88	44.0	%
--------------------------------------	--------	--------	--------	------	---

Selected financial ratios:

Return on average assets	1.09	%	0.75	%
Return on average equity	12.22	%	8.54	%
Net interest margin, fully taxable equivalent	3.73	%	3.53	%
Efficiency ratio	66.80	%	67.72	%
Non-interest expense to average assets	3.34	%	3.18	%

47

Net income for the nine months ended September 30, 2018 was \$13.9 million, or \$2.88 per share, compared with \$9.6 million, or \$2.00 per share, for the same period in the prior year. Return on average equity for the nine months ended September 30, 2018 was 12.22%, compared with 8.54% for the same period in the prior year. The increase in net income from the prior year period was driven by increases in net interest income and non-interest income and a reduction in income tax expense, partially offset by increases in non-interest expense and the provision for loan losses.

Net interest income

Net interest income increased \$2.8 million, or 6.6%, compared with the same period in the prior year. The increase was due primarily to increases in interest income from the commercial and consumer loan portfolios, partially offset by decreases in interest income on taxable securities, tax-exempt securities and interest-earning deposits, along with an increase in interest expense on deposits.

Non-interest income

Non-interest income increased \$3.1 million, or 20.9%, compared to the same period in the prior year. The increase was due primarily to a \$2.1 million increase in fair value of equity investments recognized as a result of the sale of Visa Class B shares and increases in WMG fee income, interchange revenue from debit card transactions, and other non-interest income.

Non-interest expense

Non-interest expense increased \$1.9 million, or 4.7%, compared to the same period in the prior year. The increase was due primarily to increases in salaries and wages, data processing expenses, professional services, marketing and advertising expenses and other real estate owned expenses, partially offset by a decrease in furniture and equipment expenses and an increased credit in other components of net periodic pension and postretirement benefits. For the nine months ended September 30, 2018, non-interest expense to average assets was 3.34%, compared with 3.18% for the same period in the prior year.

Provision for loan losses

The provision for loan losses increased \$0.6 million, or 22.6%, compared to the same period in the prior year. The increase was due primarily to an increase in the historical loss factor of the commercial and industrial loan portfolio, due to the charge-off of multiple large commercial loans to one borrower for \$3.6 million during the first nine months of 2018, compared to the same period in the prior year. The increase in the provision for loan losses due to the historical loss factor was partially offset by a decline in the growth of total loans for the nine months ended September 30, 2018 when compared to the same period in the prior year. Net charge-offs increased \$3.6 million, compared with the same period in the prior year, mostly due to the previously mentioned charge-off of multiple loans to one borrower.

Income tax expense

Income tax expense decreased \$0.9 million, or 21.2%, compared to the same period in the prior year. The decrease was due primarily to the decline in the Federal income tax rate from 34% to 21%, with the enactment of the Tax Act. Additionally, the Corporation increased income generated from CCTC Funding Corp., a real estate investment trust subsidiary of the Bank, reducing the Corporation's state income tax. These items were partially offset by a \$3.4 million increase in income before income tax expense.

Consolidated Results of Operations

The following section of the MD&A provides a comparative discussion of the Corporation's Consolidated Results of Operations on a reported basis for the three and nine months ended September 30, 2018 and 2017. For a discussion of the Critical Accounting Policies, Estimates and Risks and Uncertainties that affect the Consolidated Results of Operations, see page 71 of this Form 10-Q and page 64 of the Corporation's 2017 Form 10-K.

Net Interest Income

The following table presents net interest income for the periods indicated, and the dollar and percent change (in thousands):

	Three Months Ended September 30,				
	2018	2017	Change	Percentage Change	
Interest and dividend income	\$ 16,136	\$ 15,497	\$ 639	4.1	%
Interest expense	1,057	734	323	44.0	%
Net interest income	\$ 15,079	\$ 14,763	\$ 316	2.1	%

Net interest income, which is the difference between the interest income earned on interest-earning assets such as loans and securities, and the interest expense paid on interest-bearing liabilities such as deposits and borrowings, is the largest contributor to the Corporation's earnings.

Net interest income for the three months ended September 30, 2018 totaled \$15.1 million compared with \$14.8 million for the same period in the prior year, an increase of \$0.3 million, or 2.1%. Interest and fees from loans increased \$0.9 million, while interest from investments, including interest-earning deposits, decreased \$0.2 million in the third quarter of 2018 as compared to the same period in the prior year. Interest expense on deposits and borrowed funds increased \$0.4 million, while interest expense on securities sold under agreements to repurchase decreased \$0.1 million in the third quarter of 2018 when compared to the same period in the prior year. Fully taxable equivalent net interest margin was 3.71% for the three months ended September 30, 2018 compared with 3.68% for the same period in the prior year. Average interest-earning assets increased \$9.3 million in the third quarter of 2018, compared to the same period in the prior year due primarily to an increase in the average balance of commercial and consumer loans, partially offset by decreases in the average balance of mortgage loans, taxable and tax-exempt securities, and interest-earning deposits. The average yield on interest-earning assets increased ten basis points, while the average cost of interest-bearing liabilities increased twelve basis points in the third quarter of 2018, compared to the same period in the prior year. The increase in interest and dividend income for the current quarter can be mostly attributed to a \$62.0 million increase in the average balance of commercial loans, primarily commercial real estate, along with a six basis points increase in the average yield on commercial loans, and a \$16.0 million increase in the average balance of consumer loans, compared to the same period in the prior year. The increase in interest expense for the current quarter can be mostly attributed to an increase in the average interest rates on interest-bearing deposit accounts, including promotional interest rates on time deposits, and a \$7.8 million increase in the average balance of FHLB advances and securities sold under agreements to repurchase. The increase in the average cost of interest-bearing liabilities can be attributed to increases of twelve basis points in the average cost of interest-bearing demand deposits, seven basis points in the average cost of savings and money market accounts, and 39 basis points in the average cost of time deposits, related to promotional rates, offset by a decrease of 57 basis points in the average cost of FHLB advances and securities sold under agreements to repurchase.

The following table presents net interest income for the periods indicated, and the dollar and percent change (in thousands):

	Nine Months Ended September 30,		Change	Percentage Change	
	2018	2017			
Interest and dividend income	\$47,674	\$44,495	\$3,179	7.1	%
Interest expense	2,678	2,288	390	17.0	%
Net interest income	\$44,996	\$42,207	\$2,789	6.6	%

Net interest income for the nine months ended September 30, 2018 totaled \$45.0 million compared with \$42.2 million for the same period in the prior year, an increase of \$2.8 million, or 6.6%. Interest and fees from loans increased \$3.9 million, while interest from investments, including interest-earning deposits, decreased \$0.7 million for the nine months ended September 30, 2018 as compared to the same period in the prior year. Interest expense on deposits and borrowed funds increased \$0.6 million, while interest expense on securities sold under agreements to repurchase decreased \$0.2 million for the nine months ended September 30, 2018 as compared to the same period in the prior year. Fully taxable equivalent net interest margin was 3.73% for the nine months ended September 30, 2018 compared with 3.53% for the same period in the prior year. Average interest-earning assets increased \$6.0 million for the nine months ended September 30, 2018 as compared to the same period in the prior year due primarily to an increase in the average balance of commercial and consumer loans and tax-exempt securities, partially offset by decreases in the average balances of mortgage loans, taxable securities, and interest-earning deposits. The average yield on interest-earning assets increased 23 basis points, while the average cost of interest-bearing liabilities increased six basis points for the nine months ended September 30, 2018 as compared to the same period in the prior year. The increase in interest and dividend income can be mostly attributed to a \$73.7 million increase in the average balance of commercial loans, primarily commercial real estate, along with a 18 basis points increase in the average yield on commercial loans, and a \$19.3 million increase in the average balance of consumer loans, compared to the same period in the prior year. The increase in interest expense for the nine month period ended September 30, 2018 can be attributed to an increase in the average interest rate on interest-bearing deposits and an \$11.0 million increase in the average balance of FHLB advances and securities sold under agreements to repurchase. The increase in the average cost of interest-bearing liabilities can be attributed to a four basis points increase in the average cost of interest-bearing demand deposits, savings and money market accounts, a 17 basis points increase in the average cost of time deposits, related to promotional rates, and a \$11.0 million increase in the average balance of FHLB advances and securities sold under agreements to repurchase, offset by a 62 basis points decline in the average cost of FHLB advances and securities sold under agreements to repurchase due to the maturity of one \$4.0 million FHLB term advance (3.90% rate) in October 2017, one \$3.0 million FHLB term advance (2.91% rate) in December 2017, one \$2.0 million FHLB term advance (3.05% rate) in January 2018, and one \$10.0 million repurchase agreement (3.72% rate) in May 2018.

Average Consolidated Balance Sheet and Interest Analysis

The following tables present certain information related to the Corporation's average consolidated balance sheets and its consolidated statements of income for the three and nine months ended September 30, 2018 and 2017. For the purpose of the tables below, non-accruing loans are included in the daily average loan amounts outstanding. Daily balances were used for average balance computations. Investment securities are stated at amortized cost. Tax equivalent adjustments have been made in calculating yields on obligations of states and political subdivisions, tax-free commercial loans and dividends on equity investments.

AVERAGE CONSOLIDATED BALANCE SHEETS AND NET INTEREST INCOME ANALYSIS

(in thousands)	Three Months Ended September 30, 2018			Three Months Ended September 30, 2017			Yield/Rate (3)	Yield/Rate (3)
	Average Balance	Interest	Yield/Rate (3)	Average Balance	Interest	Yield/Rate (3)		
Interest-earning assets:								
Commercial loans	\$861,513	\$9,868	4.54 %	\$799,505	\$9,037	4.48 %		
Mortgage loans	191,493	1,824	3.78 %	199,396	1,963	3.91 %

Non-earning assets:								
Cash and due from banks	27,686			26,036				
Premises and equipment, net	25,896			27,774				
Other assets	55,323			53,944				
Allowance for loan losses	(19,879)			(15,179)				
AFS valuation allowance	(9,437)			(1,297)				
Total assets	\$1,704,721			\$1,707,111				
Interest-bearing liabilities:								
Interest-bearing demand deposits	\$147,340	\$78	0.21 %	\$138,364	\$32	0.09 %		
Savings and insured money market deposits	745,235	513	0.27 %	801,580	398	0.20 %		
Time deposits	144,037	267	0.74 %	130,445	115	0.35 %		
FHLB NY advances, securities sold under agreements to repurchase, and other debt	33,227	199	2.38 %	25,405	189	2.95 %		
Total interest-bearing liabilities	1,069,839	1,057	0.39 %	1,095,794	734	0.27 %		
Non-interest-bearing liabilities:								
Demand deposits	464,470			442,296				
Other liabilities	16,081			15,777				
Total liabilities	1,550,390			1,553,867				
Shareholders' equity	154,331			153,244				
Total liabilities and shareholders' equity	\$1,704,721			\$1,707,111				
Fully taxable equivalent net interest income		15,178			14,983			
Net interest rate spread (1)			3.57 %			3.59 %		
Net interest margin, fully taxable equivalent (2)			3.71 %			3.68 %		
Taxable equivalent adjustment		(99)			(220)			
Net interest income		\$15,079			\$14,763			

(1) Net interest rate spread is the difference in the average yield on interest-earning assets less the average rate on interest-bearing liabilities.

(2) Net interest margin is the ratio of fully taxable equivalent net interest income divided by average interest-earning assets.

(3) Annualized.

AVERAGE CONSOLIDATED BALANCE SHEETS AND NET INTEREST INCOME ANALYSIS

(in thousands)	Nine Months Ended September 30, 2018			Nine Months Ended September 30, 2017		
	Average Balance	Interest	Yield/ Rate (3)	Average Balance	Interest	Yield/ Rate (3)
Interest-earning assets:

Total assets	\$1,703,834			\$1,708,360		
Interest-bearing liabilities:						
Interest-bearing demand deposits	\$143,556	\$141	0.13 %	\$144,683	\$98	0.09 %
Savings and insured money market deposits	762,993	1,306	0.23 %	802,700	1,168	0.19 %
Time deposits	130,628	520	0.53 %	136,359	366	0.36 %
FHLB NY advances, securities sold under agreements to repurchase, and other debt	40,778	711	2.33 %	29,760	656	2.95 %
Total interest-bearing liabilities	1,077,955	2,678	0.33 %	1,113,502	2,288	0.27 %
Non-interest-bearing liabilities:						
Demand deposits	457,934			430,062		
Other liabilities	15,919			14,758		
Total liabilities	1,551,808			1,558,322		
Shareholders' equity	152,026			150,038		
Total liabilities and shareholders' equity	\$1,703,834			\$1,708,360		
Fully taxable equivalent net interest income		45,311			42,788	
Net interest rate spread (1)			3.62 %			3.45 %
Net interest margin, fully taxable equivalent (2)			3.73 %			3.53 %
Taxable equivalent adjustment		(315)			(581)	
Net interest income		\$44,996			\$42,207	

(1) Net interest rate spread is the difference in the average yield on interest-earning assets less the average rate on interest-bearing liabilities.

(2) Net interest margin is the ratio of fully taxable equivalent net interest income divided by average interest-earning assets.

(3) Annualized.

Changes Due to Rate and Volume

Net interest income can be analyzed in terms of the impact of changes in rates and volumes. The tables below illustrate the extent to which changes in interest rates and the volume of average interest-earning assets and interest-bearing liabilities have affected the Corporation's interest income and interest expense during the three and nine months ended September 30, 2018 and 2017. Information is provided in each category with respect to (i) changes attributable to changes in volume (changes in volume multiplied by prior rate); (ii) changes attributable to changes in rates (changes in rates multiplied by prior volume); and (iii) the net changes. For purposes of these tables, changes that are not due solely to volume or rate changes have been allocated to these categories based on the respective percentage changes in average volume and rate. Due to the numerous simultaneous volume and rate changes during the periods analyzed, it is not possible to precisely allocate changes between volume and rates. In addition, average interest-earning assets include non-accrual loans and taxable equivalent adjustments were made.

RATE/VOLUME ANALYSIS OF NET INTEREST INCOME

(in thousands)	Three Months Ended September 30, 2018 vs. 2017		
	Total Change	Due to Volume	Due to Rate
Interest and dividend income on:			
Commercial loans	\$831	\$ 709	\$122
Mortgage loans	(139)	(76)	(63)
Consumer loans	143	169	(26)
Taxable investment securities	(170)	(210)	40
Tax-exempt investment securities	(134)	(67)	(67)
Interest-earning deposits	(13)	(52)	39
Total interest and dividend income, fully taxable equivalent	518	473	45
Interest expense on:			
Interest-bearing demand deposits	46	2	44
Savings and insured money market deposits	115	(28)	143
Time deposits	152	13	139
FHLB NY advances, securities sold under agreements to repurchase and other debt	10	51	(41)
Total interest expense	323	38	285
Net interest income, fully taxable equivalent	\$195	\$ 435	\$(240)

(in thousands)	Nine Months Ended September 30, 2018 vs. 2017		
	Total Change	Due to Volume	Due to Rate
Interest and dividend income on:			
Commercial loans	\$3,537	\$2,462	\$1,075
Mortgage loans	(281)	(167)	(114)
Consumer loans	561	600	(39)
Taxable investment securities	(436)	(515)	79
Tax-exempt investment securities	(139)	18	(157)
Interest-earning deposits	(329)	(553)	224
Total interest and dividend income, fully taxable equivalent	2,913	1,845	1,068
Interest expense on:			
Interest-bearing demand deposits	43	(1)	44
Savings and insured money market deposits	138	(65)	203
Time deposits	154	(15)	169
FHLBNY advances, securities sold under agreements to repurchase and other debt	55	211	(156)
Total interest expense	390	130	260
Net interest income, fully taxable equivalent	\$2,523	\$1,715	\$808

Provision for loan losses

Management performs an ongoing assessment of the adequacy of the allowance for loan losses based upon a number of factors including an analysis of historical loss factors, collateral evaluations, recent charge-off experience, credit quality of the loan portfolio, current economic conditions and loan growth. Based on this analysis, the provision for loan losses for the third quarter of 2018 and 2017 were \$0.3 million and \$1.3 million, respectively. The decrease was due primarily to a decline in total loans during the third quarter of 2018, compared to the growth of total loans for the same period in the prior year. Net charge-offs decreased \$0.4 million, compared with the same period in the prior year.

The provision for loan losses for the nine months ended September 30, 2018 and 2017 were \$3.4 million and \$2.8 million, respectively. The increase in the provision for loan losses for the nine months ended September 30, 2018, compared to the same period in the prior year, can be mostly attributed to an increase in the historical loss factor of the commercial and industrial loan portfolio, due to the charge-off of multiple large commercial loans to one borrower for \$3.6 million during the nine months ended September 30, 2018 when compared to the same period in the prior year. The increase in the provision for loan losses due to the historical loss factor was partially offset by a decline in the growth of total loans for the nine months ended September 30, 2018 when compared to the same period in the prior year. Net charge-offs increased \$3.6 million, compared with the same period in the prior year, mostly due to the previously mentioned charge-off of multiple loans to one borrower.

Net charge-offs for the three months ended September 30, 2018 and 2017 were \$0.3 million and \$0.7 million, respectively. Net charge-offs for the nine months ended September 30, 2018 and 2017 were \$4.9 million and \$1.3 million, respectively. As previously discussed, the increase in net charge offs for the nine months ended September 30, 2018 can be attributed to the charge-off of multiple large commercial loans to one borrower for \$3.6 million during the second quarter of 2018.

Non-interest income

The following table presents non-interest income for the periods indicated, and the dollar and percent change (in thousands):

	Three Months Ended September 30,		Change	Percentage Change	
	2018	2017			
WMG fee income	\$2,406	\$2,147	\$259	12.1	%
Service charges on deposit accounts	1,231	1,269	(38)	(3.0)%
Interchange revenue from debit card transactions	982	925	57	6.2	%
Net gains on securities transactions	—	—	—	N/A	
Changes in fair value of equity investments	2,141	32	2,109	6,590.6	%
Net gains on sales of loans held for sale	79	71	8	11.3	%
Net gains (losses) on sales of other real estate owned	123	30	93	310.0	%
Income from bank owned life insurance	17	17	—	N/A	
CFS fee and commission income	120	139	(19)	(13.7)%
Other	282	536	(254)	(47.4)%
Total non-interest income	\$7,381	\$5,166	\$2,215	42.9	%

Total non-interest income for the third quarter of 2018 increased \$2.2 million compared with the same period in the prior year. The increase was mostly due to changes in fair value of equity investments and WMG fee income, partially offset by a decrease in other non-interest income.

Changes in fair value of equity investments

The changes in fair value of equity investments increased primarily as a result of the sale of Visa Class B shares during the third quarter of 2018.

WMG fee income

The increase in WMG fee income, compared to the same period in the prior year, can be mostly attributed to an increase in assets under management or administration. The market value of total assets under management or administration in WMG was \$1.923 billion at September 30, 2018, including \$264.6 million of assets under management or administration for the Corporation, compared to \$1.890 billion at September 30, 2017, including \$345.0 million of assets under management or administration for the Corporation, an increase of \$32.5 million, or 1.7%.

Other

The decrease in other non-interest income, compared to the same period in the prior year, can be mostly attributed to a decrease in swap fee income.

The following table presents non-interest income for the periods indicated, and the dollar and percent change (in thousands):

	Nine Months Ended September 30,		Change	Percentage Change	
	2018	2017			
WMG fee income	\$7,095	\$6,525	\$570	8.7	%
Service charges on deposit accounts	3,539	3,678	(139)	(3.8)	%
Interchange revenue from debit card transactions	3,013	2,809	204	7.3	%
Net gains on securities transactions	—	12	(12)	(100.0)	%
Changes in fair value of equity investments	2,165	96	2,069	2,155.2	%
Net gains on sales of loans held for sale	184	193	(9)	(4.7)	%
Net gains (losses) on sales of other real estate owned	119	38	81	213.2	%
Income from bank owned life insurance	50	52	(2)	(3.8)	%
CFS fee and commission income	365	452	(87)	(19.2)	%
Other	1,651	1,180	471	39.9	%
Total non-interest income	\$18,181	\$15,035	\$3,146	20.9	%

Total non-interest income for the nine months ended September 30, 2018 increased \$3.1 million compared with the same period in the prior year. The increase was mostly due to changes in fair value of equity investments, WMG fee income, interchange revenue from debit card transactions, and other non-interest income, partially offset by a decrease in service charges on deposit accounts.

Changes in fair value of equity investments

The changes in fair value of equity investments increased primarily as a result of the sale of Visa Class B shares during the third quarter of 2018.

WMG fee income

The increase in WMG fee income for the nine months ended September 30, 2018, compared to the same period in the prior year, can be mostly attributed to an increase in assets under management or administration. The market value of total assets under management or administration in WMG was \$1.923 billion at September 30, 2018, including \$264.6 million of assets under management or administration for the Corporation, compared to \$1.890 billion at September 30, 2017, including \$345.0 million of assets under management or administration for the Corporation, an increase of \$32.5 million, or 1.7%.

Service charges on deposit accounts

The decrease in service charges on deposit accounts, compared to the same period in the prior year, can be mostly attributed to a decline in overdraft fees and other service charges.

Other

The increase in other non-interest income, compared to the same period in the prior year, can be mostly attributed to a \$0.4 million New York State sales tax refund received during the first quarter of 2018, increases in swap fee income, and other real estate owned rental income.

Non-interest expense

The following table presents non-interest expense for the periods indicated, and the dollar and percent change (in thousands):

	Three Months Ended		Change	Percentage Change
	2018	2017		
Compensation expense:				
Salaries and wages	\$5,691	\$5,480	\$ 211	3.9 %
Pension and other employee benefits	1,262	1,325	(63)	(4.8)%
Total compensation expense	6,953	6,805	148	2.2 %
Non-compensation expense:				
Other components of net periodic pension and postretirement benefits	(408)	(333)	(75)	22.5 %
Net occupancy	1,671	1,476	195	13.2 %
Furniture and equipment	581	657	(76)	(11.6)%
Data processing	1,782	1,667	115	6.9 %
Professional services	479	452	27	6.0 %
Amortization of intangible assets	182	214	(32)	(15.0)%
Marketing and advertising	212	213	(1)	(0.5)%
Other real estate owned expenses	83	4	79	1,975.0 %
FDIC insurance	263	312	(49)	(15.7)%
Loan expenses	262	165	97	58.8 %
Other	1,368	1,644	(276)	(16.8)%
Total non-compensation expense	6,475	6,471	4	0.1 %
Total non-interest expense	\$13,428	\$13,276	\$ 152	1.1 %

Total non-interest expense for the third quarter of 2018 increased \$0.2 million compared with the same period in the prior year. The increase was due to increases in both compensation expense and non-compensation expense.

Compensation expense

The increase in compensation expense, compared to the same period in the prior year, can be mostly attributable to an increase in salaries and wages. The increase in salaries and wages can be attributed to annual merit increases and an increase in the number of employees associated with two denovo branches opened in 2018, compared to the same period in the prior year. The Bank opened one denovo branch in Schenectady, New York in January 2018 and one denovo branch in Wilton, New York in May 2018.

Non-compensation expense

The slight increase in non-compensation expense, compared to the same period in the prior year, can be mostly attributed to increases in net occupancy and data processing, offset by decreases in other components of net periodic pension and postretirement benefits and other non-interest expenses. The increases in net occupancy and data processing expenses can also be attributed to the opening of the two new denovo branches, along with the timing of various projects. The increased credit in other components of net periodic pension and postretirement benefits can be attributed to the decline in pension costs in the current quarter, when compared to the same period in the prior year.

The following table presents non-interest expense for the periods indicated, and the dollar and percent change (in thousands):

	Nine Months Ended September 30,		Change	Percentage Change	
	2018	2017			
Compensation expense:					
Salaries and wages	\$16,969	\$16,177	\$792	4.9	%
Pension and other employee benefits	4,438	4,416	22	0.5	%
Total compensation expense	21,407	20,593	814	4.0	%
Non-compensation expense:					
Other components of net periodic pension and postretirement benefits	(1,224)	(999)	(225)	N/M	
Net occupancy	4,922	4,784	138	2.9	%
Furniture and equipment	1,941	2,119	(178)	(8.4)	%
Data processing	5,288	4,858	430	8.9	%
Professional services	1,527	1,169	358	30.6	%
Legal accruals and settlements	989	850	139	16.4	%
Amortization of intangible assets	558	653	(95)	(14.5)	%
Marketing and advertising	816	580	236	40.7	%
Other real estate owned expenses	321	35	286	817.1	%
FDIC insurance	881	946	(65)	(6.9)	%
Loan expenses	615	447	168	37.6	%
Other	4,520	4,618	(98)	(2.1)	%
Total non-compensation expense	21,154	20,060	1,094	5.5	%
Total non-interest expense	\$42,561	\$40,653	\$1,908	4.7	%

Total non-interest expense for the nine months ended September 30, 2018 increased \$1.9 million compared with the same period in the prior year. The increase was due to increases in compensation expense and non-compensation expense.

Compensation expense

The increase in compensation expense, compared to the same period in the prior year, can be mostly attributable to an increase in salaries and wages. The increase in salaries and wages can be attributed to annual merit increases and an increase in the number of employees associated with two denovo branches opened in 2018, compared to the same period in the prior year. The Bank opened one denovo branch in Schenectady, New York in January 2018 and one denovo branch in Wilton, New York in May 2018.

Non-compensation expense

The increase in non-compensation expense, compared to the same period in the prior year, can be mostly attributed to increases in data processing, professional services, legal accruals and settlements, marketing and advertising expenses, and other real estate owned expenses, partially offset by a decrease in furniture and equipment expense, and an increased credit in other components of net periodic pension benefits. The increase in data processing can be attributed to the opening of two new denovo branches, along with the timing of various projects. The increase in professional services can be attributed to consulting costs associated with the New York State sales tax refund received during the first quarter of 2018 and advisory services related to the implementation of CECL. The increase in legal accruals and settlements can be attributed to the settlement agreement in the matter of Fane vs. Chemung Canal Trust Company (the "Action") during the second quarter of 2018. As noted in the Current Report on Form 8-K filed on June 15, 2018,

the two parties agreed to release each other from any and all liabilities, claims, counterclaims, demands, charges, complaints and causes of action, to dismiss the Action with prejudice, and the Bank agreed to pay Fane \$3.3 million in connection with the settlement of the Action. The increase in marketing and advertising expenses can be attributed to the promotion of the two new denovo branches and the timing of campaigns and sponsored events. The increase in other real estate owned expenses can be attributed to additional OREO properties, compared to the prior year period.

Income tax expense

The following table presents income tax expense and the effective tax rate for the periods indicated, and the dollar and percent change (in thousands):

	Three Months Ended September 30,		Change	Percentage Change	
	2018	2017			
Income before income tax expense	\$8,732	\$5,364	\$3,368	62.8	%
Income tax expense	1,802	1,710	92	5.4	%
Effective tax rate	20.6	% 31.9	%		

Income tax expense for the current quarter was \$1.8 million compared with \$1.7 million for the same period in the prior year, an increase of \$0.1 million, or 5.4%. The Corporation recognized a \$3.4 million increase in income before income tax expense for the current quarter, when compared to the same period in the prior year. Although income tax expense increased in the current quarter when compared to the same period in the prior year, the effective tax rate decreased from 31.9% to 20.6%. The decrease was due primarily to the decline in the Federal income tax rate from 34% to 21%, with the enactment of the Tax Cuts and Jobs Act of 2017. Additionally, the Corporation increased income generated from CCTC Funding Corp., a real estate investment trust subsidiary of the Bank, reducing the Corporation's state income tax.

The following table presents income tax expense and the effective tax rate for the periods indicated, and the dollar and percent change (in thousands):

	Nine Months Ended September 30,		Change	Percentage Change	
	2018	2017			
Income before income tax expense	\$17,245	\$13,839	\$3,406	24.6	%
Income tax expense	3,349	4,250	(901)	(21.2)	%
Effective tax rate	19.4	% 30.7	%		

Income tax expense for the nine months ended September 30, 2018 was \$3.3 million compared with \$4.3 million for the same period in the prior year, a decrease of \$0.9 million, or 21.2%. The Corporation recognized a \$3.4 million increase in income before income tax expense for the nine months ended September 30, 2018, when compared to the same period in the prior year. The effective tax rate decreased to 19.4% for the nine months ended September 30, 2018, from 30.7% for the same period in the prior year. The decrease was due primarily to the decline in the Federal income tax rate from 34% to 21%, with the enactment of the Tax Cuts and Jobs Act of 2017. Additionally, the Corporation increased income generated from CCTC Funding Corp., a real estate investment trust subsidiary of the Bank, reducing the Corporation's state income tax.

Financial Condition

The following table presents selected financial information at the dates indicated, and the dollar and percent change (in thousands):

	September 30, 2018	December 31, 2017	Change	Percentage Change	
ASSETS					
Total cash and cash equivalents	\$ 113,912	\$ 30,729	\$ 83,183	270.7	%
Total investment securities	253,814	302,656	(48,842)	(16.1)	%
Loans, net of deferred loan fees	1,320,638	1,311,824	8,814	0.7	%
Allowance for loan losses	(19,635)	(21,161)	1,526	(7.2)	%
Loans, net	1,301,003	1,290,663	10,340	0.8	%
Goodwill and other intangible assets, net	23,351	23,909	(558)	(2.3)	%
Other assets	61,784	59,663	2,121	3.6	%
Total assets	\$ 1,753,864	\$ 1,707,620	\$ 46,244	2.7	%

Other liabilities	17,010	16,144	866	5.4	%
Total liabilities	1,597,365	1,557,807	39,558	2.5	%
Total shareholders' equity	156,499	149,813	6,686	4.5	%
Total liabilities and shareholders' equity	\$ 1,753,864	\$ 1,707,620	\$ 46,244	2.7	%

Cash and Cash Equivalents

The increase in cash and cash equivalents can be attributed to changes in securities, loans, deposits, and borrowings.

Investment securities

The decrease in investment securities can be mostly attributed to pay-downs, maturities, and an increase in unrealized losses.

Loans, net

The increase in total loans can be attributed to increases of \$21.2 million in commercial mortgages and \$4.1 million in indirect consumer loans, partially offset by decreases of \$6.6 million in commercial and agriculture loans, \$5.8 million in residential mortgages, and \$4.1 million in other consumer loans.

Goodwill and other intangible assets, net

The decrease in goodwill and other intangible assets, net can be attributed to the amortization of intangible assets.

Other assets

The increase in other assets can be mostly attributed to the fair market value adjustment to interest rate swaps of \$1.5 million at September 30, 2018 and increases in operating prepaid assets and the net deferred tax asset as compared to December 31, 2017.

Deposits

The increase in deposits can be attributed to increases of \$2.3 million in non-interest bearing demand deposits, \$62.1 million in interest-bearing demand deposits, \$18.7 million in money market accounts, and \$26.5 million in time deposits, offset by a decrease of \$1.0 million in savings accounts. Also, in the current quarter, the Corporation converted its off balance sheet sweep agreement accounts into interest-bearing demand deposits which resulted in the onboarding of approximately \$30.0 million in deposits. The increase in time deposits can be attributed to a rate promotion during the second and third quarters of 2018.

FHLBNY advances and other debt

The decrease in FHLBNY advances and other debt can be mostly attributed to an increase in deposits and decline in securities.

Shareholders' equity

Shareholders' equity was \$156.5 million at September 30, 2018 compared with \$149.8 million at December 31, 2017. The increase was primarily due to earnings of \$13.9 million, and a reduction of \$1.4 million in treasury stock, offset by an increase of \$4.9 million in accumulated other comprehensive loss and \$3.7 million in dividends declared during the nine months ended September 30, 2018.

Assets under management or administration

The market value of total assets under management or administration in WMG was \$1.923 billion at September 30, 2018, including \$264.6 million of assets held under management or administration for the Corporation, compared with \$1.952 billion at December 31, 2017, including \$346.8 million of assets held under management or administration for the Corporation, a decrease of \$28.5 million, or 1.5%. The decline in total assets under management or administration can be mostly attributed to a decrease in the Corporation's pledged securities portfolio for municipal deposits and the decrease in the mutual fund sweep agreement accounts (previously described under Deposits), which were held by WMG.

Securities

The Corporation's Funds Management Policy includes an investment policy that in general, requires debt securities purchased for the bond portfolio to carry a minimum agency rating of "A". After an independent credit analysis is performed, the policy also allows the Corporation to purchase local municipal obligations that are not rated. The Corporation intends to maintain a reasonable level of securities to provide adequate liquidity and in order to have securities available to pledge to secure public deposits, repurchase agreements and other types of transactions. Fluctuations in the fair value of the Corporation's securities relate primarily to changes in interest rates.

Marketable securities are classified as Available for Sale, while investments in local municipal obligations are generally classified as Held to Maturity. The composition of the available for sale segment of the securities portfolio is summarized in the table as follows (in thousands):

SECURITIES AVAILABLE FOR SALE

	September 30, 2018				December 31, 2017			
	Amortized Cost	Estimated Fair Value	Percent of Total Estimated Fair Value		Amortized Cost	Estimated Fair Value	Percent of Total Estimated Fair Value	
Obligations of U.S. Government sponsored enterprises	\$10,487	\$10,453	4.2 %		\$15,492	\$15,491	5.3 %	
Mortgage-backed securities, residential and collateralized mortgage obligations	196,977	186,777	75.8 %		224,939	219,909	75.0 %	
Obligations of states and political subdivisions	46,544	45,545	18.5 %		52,928	53,132	18.1 %	
Other securities	3,743	3,698	1.5 %		4,588	4,559	1.6 %	
Total	\$257,751	\$246,473	100.0 %		\$297,947	\$293,091	100.0 %	

The available for sale segment of the securities portfolio totaled \$246.5 million at September 30, 2018, a decrease of \$46.6 million, or 15.9%, from \$293.1 million at December 31, 2017. The decrease can be mostly attributed to pay-downs, maturities, and an increase in unrealized losses.

The held to maturity segment of the securities portfolio consists of obligations of political subdivisions in the Corporation's market areas and certificates of deposit. These securities totaled \$4.2 million at September 30, 2018, an increase of \$0.4 million, or 11.0%, from \$3.8 million at December 31, 2017.

Loans

The Corporation has reporting systems to monitor: (i) loan origination and concentrations, (ii) delinquent loans, (iii) non-performing assets, including non-performing loans, troubled debt restructurings, and other real estate owned, (iv) impaired loans, and (v) potential problem loans. Management reviews these systems on a regular basis.

The table below presents the Corporation's loan composition by segment at the dates indicated, and the dollar and percent change from December 31, 2017 to September 30, 2018 (in thousands):

LOANS

	September 30, 2018	December 31, 2017	Dollar Change	Percentage Change
Commercial and agricultural	\$ 192,380	\$ 199,007	\$ (6,627)	(3.3)%
Commercial mortgages	665,574	644,330	21,244	3.3 %
Residential mortgages	188,636	194,440	(5,804)	(3.0)%
Indirect consumer loans	157,123	153,060	4,063	2.7 %
Other consumer loans	116,925	120,987	(4,062)	(3.4)%
Total loans, net of deferred loan fees	\$ 1,320,638	\$ 1,311,824	\$ 8,814	0.7 %

Portfolio loans totaled \$1.321 billion at September 30, 2018, an increase of \$8.8 million, or 0.7%, from \$1.312 billion at December 31, 2017. The increase in loans can be attributed to increases of \$21.2 million in commercial mortgages and \$4.1 million in indirect consumer loans, offset by decreases of \$6.6 million in commercial and agricultural loans, \$5.8 million in residential mortgages, and \$4.1 million in other consumer loans. The growth in commercial mortgages was due primarily to an increase in the Capital Bank division in the Albany, New York region. The decline in commercial and agricultural loans can be mostly attributable to the charge-off of multiple large commercial loans to one borrower for \$3.6 million during the second quarter of 2018.

Residential mortgage loans totaled \$188.6 million at September 30, 2018, a decrease of \$5.8 million, or 3.0%, from December 31, 2017. During the nine months ended September 30, 2018, \$9.1 million of newly originated residential mortgages were sold in the secondary market to Freddie Mac and \$0.2 million of residential mortgages were sold to the State of New York Mortgage Agency.

The Corporation anticipates that future growth in portfolio loans will continue to be in commercial mortgages and commercial and industrial loans, especially within the Capital Bank division of the Bank. The table below presents the Corporation's outstanding loan balance by bank division (in thousands):

LOANS BY DIVISION

	September 30, 2018	December 31, 2017	December 31, 2016	December 31, 2015	December 31, 2014
Chemung Canal Trust Company*	\$ 610,548	\$ 630,732	\$ 636,836	\$ 683,137	\$ 724,099
Capital Bank Division	710,090	681,092	563,454	485,496	397,475
Total loans	\$ 1,320,638	\$ 1,311,824	\$ 1,200,290	\$ 1,168,633	\$ 1,121,574

* All loans, excluding those originated by the Capital Bank division.

Loan concentrations are considered to exist when there are amounts loaned to a multiple number of borrowers engaged in similar activities which would cause them to be similarly impacted by economic or other conditions. Specific industries are identified using NAICS codes. The Corporation monitors specific NAICS industry classifications of commercial loans to identify concentrations greater than 10.0% of total loans. At September 30, 2018 and December 31, 2017, commercial loans to borrowers involved in the real estate, and real estate rental and lending businesses were 46.1% and 48.1% of total loans, respectively. No other concentration of loans existed in the

commercial loan portfolio in excess of 10.0% of total loans as of September 30, 2018 and December 31, 2017.

Non-Performing Assets

Non-performing assets consist of non-accrual loans, non-accrual troubled debt restructurings and other real estate owned that has been acquired in partial or full satisfaction of loan obligations or upon foreclosure.

Past due status on all loans is based on the contractual terms of the loan. It is generally the Corporation's policy that a loan 90 days past due be placed in non-accrual status unless factors exist that would eliminate the need to place a loan in this status. A loan may also be designated as non-accrual at any time if payment of principal or interest in full is not expected due to deterioration in the financial condition of the borrower. At the time loans are placed in non-accrual status, the accrual of interest is discontinued and previously accrued interest is reversed. All payments received on non-accrual loans are applied to principal. Loans are considered for return to accrual status when they become current as to principal and interest and remain current for a period of six consecutive months or when, in the opinion of management, the Corporation expects to receive all of its original principal and interest. In the case of non-accrual loans where a portion of the loan has been charged off, the remaining balance is kept in non-accrual status until the entire principal balance has been recovered.

The following table summarizes the Corporation's non-performing assets, excluding acquired PCI loans (in thousands):

NON-PERFORMING ASSETS

	September 30, 2018	December 31, 2017		
Non-accrual loans	\$6,945	\$11,389		
Non-accrual troubled debt restructurings	5,684	5,935		
Total non-performing loans	12,629	17,324		
Other real estate owned	727	1,940		
Total non-performing assets	\$13,356	\$19,264		
Ratio of non-performing loans to total loans	0.96	% 1.32	%	
Ratio of non-performing assets to total assets	0.76	% 1.13	%	
Ratio of allowance for loan losses to non-performing loans	155.48	% 122.15	%	
Accruing loans past due 90 days or more (1)	\$14	\$29		
Accruing troubled debt restructurings (1)	942	1,728		

(1) These loans are not included in non-performing assets above.

Non-Performing Loans

Non-performing loans totaled \$12.6 million at September 30, 2018, or 0.96% of total loans, compared with \$17.3 million at December 31, 2017, or 1.32% of total loans. Non-performing assets, which are comprised of non-performing loans and other real estate owned, was \$13.4 million, or 0.76% of total assets, at September 30, 2018, compared with \$19.3 million, or 1.13% of total assets, at December 31, 2017. The decline in non-performing assets can be mostly attributed to the charge-off of multiple large commercial loans to one borrower for \$3.6 million and the sale of one other real estate owned property during the second quarter of 2018.

Not included in non-performing loan totals are \$0.8 million of acquired loans that the Corporation has identified as PCI loans as of December 31, 2017. The PCI loans are accounted for under separate accounting guidance, Accounting Standards Codification ("ASC") Subtopic 310-30, "Receivables - Loans and Debt Securities Acquired with Deteriorated Credit Quality" as disclosed in Note 4 of the financial statements. There were no PCI loans as of September 30, 2018.

Accruing Loans Past due 90 Days or More

The recorded investment in accruing loans past due 90 days or more totaled \$14 thousand at September 30, 2018, a decrease of \$15 thousand from December 31, 2017.

63

Troubled Debt Restructurings

The Corporation works closely with borrowers that have financial difficulties to identify viable solutions that minimize the potential for loss. In that regard, the Corporation modified the terms of select loans to maximize their collectability. The modified loans are considered TDRs under current accounting guidance. Modifications generally involve short-term deferrals of principal and/or interest payments, reductions of scheduled payment amounts, interest rates or principal of the loan, and forgiveness of accrued interest. As of September 30, 2018, the Corporation had \$5.7 million of non-accrual TDRs compared with \$5.9 million as of December 31, 2017. As of September 30, 2018, the Corporation had \$0.9 million of accruing TDRs compared with \$1.7 million as of December 31, 2017.

Impaired Loans

A loan is classified as impaired when, based on current information and events, it is probable that the Corporation will be unable to collect both the principal and interest due under the contractual terms of the loan agreement. Impaired loans at September 30, 2018 totaled \$9.3 million, including TDRs of \$6.6 million, compared to \$14.1 million, including TDRs of \$7.7 million, at December 31, 2017. Not included in the impaired loan totals for December 31, 2017, were acquired loans which the Corporation has identified as PCI loans, as these loans are accounted for under ASC Subtopic 310-30 as noted under the above discussion of non-performing loans. The decrease in impaired loans was due primarily to a decrease in impaired commercial and industrial loans, mostly due to the charge-off of multiple large commercial loans to one borrower for \$3.6 million during the second quarter of 2018. Included in the recorded investment of impaired loans at September 30, 2018, were loans totaling \$3.7 million for which impairment allowances of \$2.2 million have been specifically allocated to the allowance for loan losses. As of December 31, 2017, the impaired loan total included \$8.1 million of loans for which specific impairment allowances of \$5.9 million were allocated to the allowance for loan losses. The decrease in impaired loans with specific impairment allowances can be mostly attributed to the charge-off of multiple large commercial loans to one borrower for \$3.6 million during the second quarter of 2018.

The majority of the Corporation's impaired loans are secured and measured for impairment based on collateral evaluations. It is the Corporation's policy to obtain updated appraisals, by independent third parties, on loans secured by real estate at the time a loan is determined to be impaired. An impairment measurement is performed based upon the most recent appraisal on file to determine the amount of any specific allocation or charge-off. In determining the amount of any specific allocation or charge-off, the Corporation will make adjustments to reflect the estimated costs to sell the property. Upon receipt and review of the updated appraisal, an additional measurement is performed to determine if any adjustments are necessary to reflect the proper provisioning or charge-off. Impaired loans are reviewed on a quarterly basis to determine if any changes in credit quality or market conditions would require any additional allocation or recognition of additional charge-offs. Real estate values in the Corporation's market area have been holding steady. Non-real estate collateral may be valued using (i) an appraisal, (ii) net book value of the collateral per the borrower's financial statements, or (iii) accounts receivable aging reports, that may be adjusted based on management's knowledge of the client and client's business. If market conditions warrant, future appraisals are obtained for both real estate and non-real estate collateral.

Allowance for Loan Losses

The allowance is an amount that management believes will be adequate to absorb probable incurred losses on existing loans. The allowance is established based on management's evaluation of the probable incurred losses inherent in our portfolio in accordance with GAAP, and is comprised of both specific valuation allowances and general valuation allowances.

A loan is classified as impaired when, based on current information and events, it is probable that the Corporation will be unable to collect both the principal and interest due under the contractual terms of the loan agreement. Specific valuation allowances are established based on management's analysis of individually impaired loans. Factors considered by management in determining impairment include payment status, evaluations of the underlying collateral, expected cash flows, delinquent or unpaid property taxes, and the probability of collecting scheduled principal and interest payments when due. Loans that experience insignificant payment delays and payment shortfalls generally are not classified as impaired. Management determines the significance of payment delays and payment shortfalls on a case-by-case basis, taking into consideration all of the circumstances surrounding the loan and the borrower, including the length of the delay, the reasons for the delay, the borrower's prior payment record, and the amount of the shortfall in relation to the principal and interest owed. If a loan is determined to be impaired and is placed on non-accrual status, all future payments received are applied to principal and a portion of the allowance is allocated so that the loan is reported, net, at the present value of estimated future cash flows using the loan's existing rate or at the fair value of collateral if repayment is expected solely from the collateral.

The general component covers non-impaired loans and is based on historical loss experience adjusted for current qualitative factors. Loans not impaired but classified as substandard and special mention use a historical loss factor on a rolling five-year history of net losses. For all other unclassified loans, the historical loss experience is determined by portfolio class and is based on the actual loss history experienced by the Corporation over the most recent two years. This actual loss experience is supplemented with other qualitative factors based on the risks present for each portfolio class. These qualitative factors include consideration of the following: (1) lending policies and procedures, including underwriting standards and collection, charge-off and recovery policies, (2) national and local economic and business conditions and developments, including the condition of various market segments, (3) loan profiles and volume of the portfolio, (4) the experience, ability, and depth of lending management and staff, (5) the volume and severity of past due, classified and watch-list loans, non-accrual loans, troubled debt restructurings, and other modifications (6) the quality of the Bank's loan review system and the degree of oversight by the Bank's Board of Directors, (7) collateral related issues: secured vs. unsecured, type, declining valuation environment and trend of other related factors, (8) the existence and effect of any concentrations of credit, and changes in the level of such concentrations, (9) the effect of external factors, such as competition and legal and regulatory requirements, on the level of estimated credit losses in the Bank's current portfolio and (10) the impact of the global economy.

The allowance for loan losses is increased through a provision for loan losses charged to operations. Loans are charged against the allowance for loan losses when management believes that the collectability of all or a portion of the principal is unlikely. Management's evaluation of the adequacy of the allowance for loan losses is performed on a periodic basis and takes into consideration such factors as the credit risk grade assigned to the loan, historical loan loss experience and review of specific impaired loans. While management uses available information to recognize losses on loans, future additions to the allowance may be necessary based on changes in economic conditions. In addition, various regulatory agencies, as an integral part of their examination process, periodically review the Corporation's allowance for loan losses. Such agencies may require the Corporation to recognize additions to the allowance based on their judgments about information available to them at the time of their examination.

The allowance for loan losses was \$19.6 million at September 30, 2018, down from \$21.2 million at December 31, 2017. The ratio of allowance for loan losses to total loans was 1.49% at September 30, 2018, down from 1.61% at December 31, 2017. Net charge-offs for the nine months ended September 30, 2018 and 2017 were \$4.9 million and \$1.3 million, respectively. The increase in net charge-offs can be mostly attributed to the charge-off of multiple large commercial loans to one borrower for \$3.6 million during the second quarter of 2018.

The table below summarizes the Corporation's loan loss experience for the nine months ended September 30, 2018 and 2017 (in thousands, except ratio data):

SUMMARY OF LOAN LOSS EXPERIENCE

	Nine Months Ended		
	September 30,		
	2018	2017	
Balance of allowance for loan losses at beginning of period	\$21,161	\$14,253	
Charge-offs:			
Commercial and agricultural	3,644	96	
Commercial mortgages	145	154	
Residential mortgages	225	193	
Consumer loans	1,301	1,265	
Total charge-offs	5,315	1,708	
Recoveries:			
Commercial and agricultural	34	95	
Commercial mortgages	2	4	
Residential mortgages	5	30	
Consumer loans	377	270	
Total recoveries	418	399	
Net charge-offs	4,897	1,309	
Provision for loan losses	3,371	2,750	
Balance of allowance for loan losses at end of period	\$19,635	\$15,694	
Ratio of net charge-offs to average loans outstanding	0.09	% 0.22	%
Ratio of allowance for loan losses to total loans outstanding	1.49	% 1.22	%

Deposits

The table below summarizes the Corporation's deposit composition by segment at the dates indicated, and the dollar and percent change from December 31, 2017 to September 30, 2018 (in thousands):

DEPOSITS

	September	December	Dollar	Percentage
	30, 2018	31, 2017	Change	Change
Non-interest-bearing demand deposits	\$469,887	\$467,610	\$2,277	0.5 %
Interest-bearing demand deposits	211,099	149,026	62,073	41.7 %
Insured money market accounts	532,489	513,782	18,707	3.6 %
Savings deposits	217,621	218,666	(1,045)	(0.5)%
Time deposits	144,901	118,362	26,539	22.4 %
Total	\$1,575,997	\$1,467,446	\$108,551	7.4 %

Deposits totaled \$1.576 billion at September 30, 2018 compared with \$1.467 billion at December 31, 2017, an increase of \$108.6 million, or 7.4%. The increase was attributable to increases of \$2.3 million in non-interest bearing demand deposits, \$62.1 million in interest-bearing demand deposits, \$18.7 million in money market accounts, and \$26.5 million in time deposits, offset by a decrease of \$1.0 million in savings deposits. The increase in interest-bearing demand deposits was attributable to the seasonal inflow from existing municipal clients, and in the current quarter, the Corporation converted its off balance sheet sweep agreement accounts into interest-bearing demand deposits which resulted in the onboarding of approximately \$30.0 million in deposits. The increase in time deposits can be attributed to a rate promotion during the second and third quarters of 2018. At September 30, 2018, demand deposit and money market accounts comprised 77.0% of total deposits, which was the same when compared at December 31, 2017.

The table below presents the Corporation's deposits balance by bank division (in thousands):

DEPOSITS BY DIVISION

	September 30, 2018	December 31, 2017	December 31, 2016	December 31, 2015	December 31, 2014
Chemung Canal Trust Company*	\$ 1,362,005	\$ 1,264,883	\$ 1,249,870	\$ 1,219,282	\$ 1,119,377
Capital Bank Division	213,992	202,563	206,473	181,013	160,637
Total	\$ 1,575,997	\$ 1,467,446	\$ 1,456,343	\$ 1,400,295	\$ 1,280,014

*All deposits, excluding those originated by the Capital Bank Division.

In addition to consumer, commercial and public deposits, other sources of funds include brokered deposits. The recently enacted Regulatory Relief Act changed the definition of brokered deposits, such that subject to certain conditions, reciprocal deposits of another depository institution obtained through a deposit placement network for purposes of obtaining maximum deposit insurance would not be considered brokered deposits subject to the FDIC's brokered-deposit regulations. This will apply to the Corporation's participation in the CDARS and ICS programs. Brokered deposits include funds obtained through brokers. There were no deposits obtained through brokers as of September 30, 2018 and December 31, 2017. Deposits obtained through the CDARS and ICS programs were \$206.3 million and \$187.7 million as of September 30, 2018 and December 31, 2017, respectively. The increase in CDARS and ICS deposits was due to the seasonal inflow of current municipal client balances.

The Corporation's deposit strategy is to fund the Bank with stable, low-cost deposits, primarily checking account deposits and other low interest-bearing deposit accounts. A checking account is the driver of a banking relationship and consumers consider the bank where they have their checking account as their primary bank. These customers will typically turn to their primary bank first when in need of other financial services. Strategies that have been developed and implemented to generate these deposits include: (i) acquire deposits by entering new markets through branch acquisitions or de novo branching, (ii) an annual checking account marketing campaign, (iii) training branch employees to identify and meet client financial needs with Bank products and services, (iv) link business and consumer loans to the customer's primary checking account at the Bank, (v) aggressively promote direct deposit of client's payroll checks or benefit checks and (vi) constantly monitor the Corporation's pricing strategies to ensure competitive products and services.

The Corporation also considers brokered deposits to be an element of its deposit strategy and anticipates that it will continue using brokered deposits as a secondary source of funding to support growth.

Borrowings

Borrowings decreased \$69.8 million from \$74.2 million at December 31, 2017 to \$4.4 million at September 30, 2018, mostly attributed to a \$57.7 million decline in FHLB NY overnight advances and a \$10.0 million decrease in securities sold under agreements to repurchase. The decline in the FHLB NY overnight advances was due to the increase in

deposits as a source of funds and the decline in repurchase agreements was due to the maturity of one \$10.0 million repurchase agreement in May 2018.

Shareholders' Equity

Total shareholders' equity increased \$6.7 million from December 31, 2017 to September 30, 2018 due primarily to an increase in retained earnings, partially offset by an increase in accumulated other comprehensive loss. The increase in retained earnings of \$10.2 million was due primarily to earnings of \$13.9 million, offset by \$3.7 million in dividends declared during the nine months ended September 30, 2018. The increase in accumulated other comprehensive loss of \$4.9 million can be attributed to the decline in the fair market value of the securities portfolio. Also, treasury stock decreased \$1.4 million, due to the issuance of shares pursuant to the Corporation's employee benefit plans and the directors' stock compensation plans.

The total shareholders' equity to total assets ratio was 8.92% at September 30, 2018 compared with 8.77% at December 31, 2017. The tangible equity to tangible assets ratio was 7.69% at September 30, 2018 compared with 7.48% at December 31, 2017. Book value per share increased to \$32.35 at September 30, 2018 from \$31.10 at December 31, 2017.

The Bank is subject to capital adequacy guidelines of the Federal Reserve which establish a framework for the classification of financial institutions into five categories: well-capitalized, adequately capitalized, under-capitalized, significantly under-capitalized and critically under-capitalized. As of September 30, 2018, the Bank's capital ratios were in excess of those required to be considered well-capitalized under regulatory capital guidelines.

As a result of the recently enacted Regulatory Relief Act, the FRB amended its small bank holding company and savings and loan holding company policy statement to provide that holding companies with consolidated assets of less than \$3 billion that are (i) not engaged in significant non-banking activities, (ii) do not conduct significant off-balance sheet activities, and (3) do not have a material amount of SEC-registered debt or equity securities, other than trust preferred securities, that contribute to an organization's complexity, are no longer subject to regulatory capital requirements, effective on August 30, 2018.

Off-balance Sheet Arrangements

See Note 8 – Commitments and Contingencies in the Notes to Unaudited Consolidated Financial Statements for a discussion of off-balance sheet arrangements.

Liquidity

Liquidity management involves the ability to meet the cash flow requirements of deposit clients, borrowers, and the operating, investing and financing activities of the Corporation. The Corporation uses a variety of resources to meet its liquidity needs. These include short term investments, cash flow from lending and investing activities, core-deposit growth and non-core funding sources, such as time deposits of \$100,000 or more, securities sold under agreements to repurchase and other borrowings.

The Corporation is a member of the FHLB NY which allows it to access borrowings which enhance management's ability to satisfy future liquidity needs. Based on available collateral and current advances outstanding, the Corporation was eligible to borrow up to a total of \$116.3 million and \$73.5 million at September 30, 2018 and December 31, 2017, respectively. The Corporation also had a total of \$28.0 million of unsecured lines of credit with four different financial institutions at September 30, 2018, as compared to a total of \$38.0 million of unsecured lines of credit with five different institutions at December 31, 2017. The Corporation closed a \$10.0 million unsecured line of credit with one institution during the third quarter of 2018.

Consolidated Cash Flows Analysis

The table below summarizes the Corporation's cash flows for the periods indicated (in thousands):

CONSOLIDATED SUMMARY OF CASH FLOWS

(in thousands)	Nine Months Ended	
	September 30, 2018	2017
Net cash provided by operating activities	\$20,105	\$16,585
Net cash (used in) provided by investing activities	27,639	(93,954)
Net cash provided by financing activities	35,439	59,585

Net increase (decrease) in cash and cash equivalents \$83,183 \$(17,784)

Operating activities

The Corporation believes cash flows from operations, available cash balances and its ability to generate cash through short-term and long-term borrowings are sufficient to fund the Corporation's operating liquidity needs.

Cash provided by operating activities in the first nine months of 2018 and 2017 predominantly resulted from net income after non-cash operating adjustments.

Investing activities

Cash provided by investing activities during the first nine months of 2018 predominantly resulted from sales, calls, maturities, and principal collected in securities available for sale, offset by a net increase in loans. Cash used in investing activities during the first nine months of 2017 predominantly resulted from a net increase in loans and purchases of securities, offset by sales, calls, maturities, and principal collected in securities available for sale.

Financing activities

Cash provided by financing activities during the first nine months of 2018 predominantly resulted from a net increase in deposits, offset by the maturity of one \$10.0 million repurchase agreement and the repayment of FHLBNY overnight and long term advances. Cash provided by financing activities during the first nine months of 2017 predominantly resulted from a net increase in deposits, offset by the maturity of one \$10.0 million repurchase agreement and the discontinuation of the Corporation's customer repurchase agreement product during 2017.

Capital Resources

The Bank is subject to regulatory capital requirements administered by federal banking agencies. As a result of the recently enacted Regulatory Relief Act, the FRB amended its small bank holding company and savings and loan holding company policy statement to provide that holding companies with consolidated assets of less than \$3 billion that are (i) not engaged in significant non-banking activities, (ii) do not conduct significant off-balance sheet activities, and (3) do not have a material amount of SEC-registered debt or equity securities, other than trust preferred securities, that contribute to an organization's complexity, are no longer subject to regulatory capital requirements, effective August 30, 2018. Capital adequacy guidelines and, additionally for banks, prompt corrective action regulations, involve quantitative measures of assets, liabilities, and certain off-balance-sheet items calculated under regulatory accounting practices. Capital amounts and classifications are also subject to qualitative judgments by regulators. Failure to meet capital requirements can initiate regulatory action. The final rules implementing Basel III rules became effective for the Corporation on January 1, 2015 with full compliance with all of the requirements being phased in over a multi-year schedule, and fully phased in by January 1, 2019. Under Basel III rules, the Corporation must hold a capital conservation buffer above the adequately capitalized risk-based capital ratios. The capital conservation buffer is being phased in from 0.0% for 2015 to 2.50% by 2019. The capital conservation buffer for 2018 is 1.875%. Organizations that fail to maintain the minimum capital conservation buffer could face restrictions on capital distributions or discretionary bonus payments to executive officers. The net unrealized gain or loss on available for sale securities and changes in the funded status of the defined benefit pension plan and other benefit plans are not included in computing regulatory capital.

As a result of the Regulatory Relief Act, the federal banking agencies are required to develop a "Community Bank Leverage Ratio" (the ratio of a bank's tangible equity capital to average total consolidated assets) for financial institutions with assets of less than \$10 billion. A "qualifying community bank" that exceeds this ratio will be deemed to be in compliance with all other capital and leverage requirements, including the capital requirements to be considered "well capitalized" under Prompt corrective action statutes. The federal banking agencies may consider a financial institution's risk profile when evaluating whether it qualifies as a community bank for purposes of the capital ratio requirement. The federal banking agencies must set the minimum capital for the new Community Bank Leverage Ratio at not less than 8% and not more than 10%. A financial institution can elect to be subject to this new definition.

Prompt corrective action regulations provide five classifications: well capitalized, adequately capitalized, undercapitalized, significantly undercapitalized, and critically undercapitalized, although these terms are not used to represent overall financial condition. If adequately capitalized, regulatory approval is required to accept brokered deposits. If undercapitalized, capital distributions are limited, as is asset growth and expansion, and capital restoration

plans are required. Management believes that, as of September 30, 2018 and December 31, 2017, the Bank met all capital adequacy requirements to which it was subject.

As of September 30, 2018, the most recent notification from the Federal Reserve Bank of New York categorized the Bank as well capitalized under the regulatory framework for prompt corrective action. To be categorized as well capitalized the Bank must maintain minimum total risk-based, Tier 1 risk-based, common equity Tier 1 risk-based and Tier 1 leverage ratios as set forth in the table below. There have been no conditions or events since that notification that management believes have changed the Bank's capital category.

The regulatory capital ratios as of September 30, 2018 and December 31, 2017 were calculated under Basel III rules.

Edgar Filing: CHEMUNG FINANCIAL CORP - Form 10-Q

The Bank's actual and required regulatory capital ratios as of September 30, 2018 were as follows (in thousands, except ratio data):

	Actual		Minimum Capital Adequacy		Minimum Capital Adequacy with Capital Buffer		To Be Well Capitalized Under Prompt Corrective Action Provisions	
	Amount	Ratio	Amount	Ratio	Amount	Ratio	Amount	Ratio
As of September 30, 2018

Bank	\$129,881	7.63%	\$68,045	4.00%	N/A	N/A	\$85,057	5.00%

Dividend Restrictions

The Corporation's principal source of funds for dividend payments is dividends received from the Bank. Banking regulations limit the amount of dividends that may be paid without prior approval of regulatory agencies. Under these regulations, the amount of dividends that may be paid in any calendar year is limited to current year's net income, combined with the retained net income of the preceding two years, subject to the capital requirements in the table above. At September 30, 2018, the Bank could, without prior approval, declare dividends of approximately \$17.9 million.

Adoption of New Accounting Standards

Please refer to Note 1, Summary of Significant Accounting Policies - Recent Accounting Pronouncements for a discussion of new accounting standards.

Critical Accounting Policies, Estimates and Risks and Uncertainties

Critical accounting policies include the areas where the Corporation has made what it considers to be particularly difficult, subjective or complex judgments concerning estimates, and where these estimates can significantly affect the Corporation's financial results under different assumptions and conditions. The Corporation prepares its financial statements in conformity with GAAP. As a result, the Corporation is required to make certain estimates, judgments and assumptions that it believes are reasonable based upon the information available at that time. These estimates, judgments and assumptions affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the periods presented. Actual results could be different from these estimates.

Management considers the accounting policy relating to the allowance for loan losses to be a critical accounting policy given the uncertainty in evaluating the level of the allowance required to cover probable incurred credit losses inherent in the loan portfolio, and the material effect that such judgments can have on the Corporation's results of operations. While management's current evaluation of the allowance for loan losses indicates that the allowance is adequate, under adversely different conditions or assumptions the allowance would need to be increased. For example, if historical loan loss experience significantly worsened or if current economic conditions significantly deteriorated, additional provisions for loan losses would be required to increase the allowance. In addition, the assumptions and estimates used in the internal reviews of the Corporation's non-performing loans and potential problem loans, and the associated evaluation of the related collateral coverage for these loans, has a significant impact on the overall analysis of the adequacy of the allowance for loan losses. Real estate values in the Corporation's market area did not increase dramatically in the prior several years, and, as a result, any declines in real estate values have been modest. While management has concluded that the current evaluation of collateral values is reasonable under the circumstances, if collateral evaluations were significantly lowered, the Corporation's allowance for loan losses policy would also require additional provisions for loan losses.

Explanation and Reconciliation of the Corporation's Use of Non-GAAP Measures

The Corporation prepares its Consolidated Financial Statements in accordance with GAAP; these financial statements appear on pages 6–11. That presentation provides the reader with an understanding of the Corporation's results that can be tracked consistently from year-to-year and enables a comparison of the Corporation's performance with other companies' GAAP financial statements.

In addition to analyzing the Corporation's results on a reported basis, management uses certain non-GAAP financial measures, because it believes these non-GAAP financial measures provide information to investors about the underlying operational performance and trends of the Corporation and, therefore, facilitate a comparison of the Corporation with the performance of its competitors. Non-GAAP financial measures used by the Corporation may not be comparable to similarly named non-GAAP financial measures used by other companies.

The SEC has adopted Regulation G, which applies to all public disclosures, including earnings releases, made by registered companies that contain "non-GAAP financial measures." Under Regulation G, companies making public disclosures containing non-GAAP financial measures must also disclose, along with each non-GAAP financial measure, certain additional information, including a reconciliation of the non-GAAP financial measure to the closest comparable GAAP financial measure and a statement of the Corporation's reasons for utilizing the non-GAAP

financial measure as part of its financial disclosures. The SEC has exempted from the definition of “non-GAAP financial measures” certain commonly used financial measures that are not based on GAAP. When these exempted measures are included in public disclosures, supplemental information is not required. The following measures used in this Report, which are commonly utilized by financial institutions, have not been specifically exempted by the SEC and may constitute "non-GAAP financial measures" within the meaning of the SEC's new rules, although we are unable to state with certainty that the SEC would so regard them.

Fully Taxable Equivalent Net Interest Income, Net Interest Margin, and Efficiency Ratio

Net interest income is commonly presented on a tax-equivalent basis. That is, to the extent that some component of the institution's net interest income, which is presented on a before-tax basis, is exempt from taxation (e.g., is received by the institution as a result of its holdings of state or municipal obligations), an amount equal to the tax benefit derived from that component is added to the actual before-tax net interest income total. This adjustment is considered helpful in comparing one financial institution's net interest income to that of other institutions or in analyzing any institution's net interest income trend line over time, to correct any analytical distortion that might otherwise arise from the fact that financial institutions vary widely in the proportions of their portfolios that are invested in tax-exempt securities, and that even a single institution may significantly alter over time the proportion of its own portfolio that is invested in tax-exempt obligations. Moreover, net interest income is itself a component of a second financial measure commonly used by financial institutions, net interest margin, which is the ratio of net interest income to average interest-earning assets. For purposes of this measure as well, fully taxable equivalent net interest income is generally used by financial institutions, as opposed to actual net interest income, again to provide a better basis of comparison from institution to institution and to better demonstrate a single institution's performance over time. The Corporation follows these practices.

The efficiency ratio is a non-GAAP financial measure which represents the Corporation's ability to turn resources into revenue and is calculated as non-interest expense divided by total revenue (fully taxable equivalent net interest income and non-interest income), adjusted for one-time occurrences and amortization. This measure is meaningful to the Corporation, as well as investors and analysts, in assessing the Corporation's productivity measured by the amount of revenue generated for each dollar spent.

Tangible Equity and Tangible Assets (Period-End)

Tangible equity, tangible assets, and tangible book value per share are each non-GAAP financial measures. Tangible equity represents the Corporation's stockholders' equity, less goodwill and intangible assets. Tangible assets represents the Corporation's total assets, less goodwill and other intangible assets. Tangible book value per share represents the Corporation's equity divided by common shares at period-end. These measures are meaningful to the Corporation, as well as investors and analysts, in assessing the Corporation's use of equity.

(non-GAAP)

Tangible Equity (Average)

Average tangible equity and return on average tangible equity are each non-GAAP financial measures. Average tangible equity represents the Corporation's average stockholders' equity, less average goodwill and intangible assets for the period. Return on average tangible equity measures the Corporation's earnings as a percentage of average tangible equity. These measures are meaningful to the Corporation, as well as investors and analysts, in assessing the Corporation's use of equity.

Adjustments for Certain Items of Income or Expense

In addition to disclosures of certain GAAP financial measures, including net income, EPS, ROA, and ROE, we may also provide comparative disclosures that adjust these GAAP financial measures for a particular period by removing from the calculation thereof the impact of certain transactions or other material items of income or expense occurring during the period, including certain nonrecurring items. The Corporation believes that the resulting non-GAAP financial measures may improve an understanding of its results of operations by separating out any such transactions or items that may have had a disproportionate positive or negative impact on the Corporation's financial results during the particular period in question. In the Corporation's presentation of any such non-GAAP (adjusted) financial measures not specifically discussed in the preceding paragraphs, the Corporation supplies the supplemental financial information and explanations required under Regulation G.

ITEM 3: QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Interest Rate Risk

Management considers interest rate risk to be the most significant market risk for the Corporation. Market risk is the risk of loss from adverse changes in market prices and rates. Interest rate risk is the exposure to adverse changes in the net income of the Corporation as a result of changes in interest rates.

The Corporation's primary earnings source is net interest income, which is affected by changes in the level of interest rates, the relationship between rates, the impact of interest rate fluctuations on asset prepayments, the level and composition of deposits and liabilities, and credit quality of earning assets.

The Corporation's objectives in its asset and liability management are to maintain a strong, stable net interest margin, to utilize its capital effectively without taking undue risks, to maintain adequate liquidity, and to reduce vulnerability of its operations to changes in interest rates. The Corporation's ALCO has the strategic responsibility for setting the policy guidelines on acceptable exposure to interest rate risk. These guidelines contain specific measures and limits regarding the risks, which are monitored on a regular basis. The ALCO is made up of the President and Chief Executive Officer, the Chief Financial Officer, the Asset Liability Management Officer, and other officers representing key functions.

Interest rate risk is the risk that net interest income will fluctuate as a result of a change in interest rates. It is the assumption of interest rate risk, along with credit risk, that drives the net interest margin of a financial institution. For that reason, the ALCO has established tolerance limits based upon a 200-basis point change in interest rates, with appropriate floors set for interest-bearing liabilities. At September 30, 2018, it is estimated that an immediate 200-basis point decrease in interest rates would negatively impact the next 12 months net interest income by 12.99% and an immediate 200-basis point increase would positively impact the next 12 months net interest income by 6.83%. Both are within the Corporation's policy guideline of 15%. Given the overall low level of current interest rates and the unlikely event of a 200-basis point decline at this time, management additionally modeled an immediate 100-basis point decline and an immediate 300-basis point increase in interest rates. When applied, it is estimated that an immediate 100-basis point decrease in interest rates would negatively impact the next 12 months net interest income by 5.81% and an immediate 300-basis point increase would positively impact the next 12 months net interest income by 10.17%.

A related component of interest rate risk is the expectation that the market value of the Corporation's equity account will fluctuate with changes in interest rates. This component is a direct corollary to the earnings-impact component: an institution exposed to earnings erosion is also exposed to a decline in market value. At September 30, 2018, it is estimated that an immediate 200-basis point decrease in interest rates would negatively impact the market value of the Corporation's capital account by 13.83% and an immediate 200-basis point increase in interest rates would positively impact the market value by 7.12%. Both are within the Corporation's policy guideline of 15%. Management also modeled the impact to the market value of the Corporation's capital with an immediate 100-basis point decline and an immediate 300-basis point increase in interest rates, based on the current interest rate environment. When applied, it is estimated that an immediate 100-basis point decrease in interest rates would negatively impact the market value of the Corporation's capital account by 5.87% and an immediate 300-basis point increase in interest rates would positively impact the market value by 10.06%.

Management does recognize the need for certain hedging strategies during periods of anticipated higher fluctuations in interest rates and the Funds Management Policy provides for limited use of certain derivatives in asset liability management.

Credit Risk

The Corporation manages credit risk consistent with state and federal laws governing the making of loans through written policies and procedures; loan review to identify loan problems at the earliest possible time; collection procedures (continued even after a loan is charged off); an adequate allowance for loan losses; and continuing education and training to ensure lending expertise. Diversification by loan product is maintained through offering commercial loans, 1-4 family mortgages, and a full range of consumer loans.

The Corporation monitors its loan portfolio carefully. The Loan Committee of the Corporation's Board of Directors is designated to receive required loan reports, oversee loan policy, and approve loans above authorized individual and Senior Loan Committee lending limits. The Senior Loan Committee, consisting of the President and Chief Executive Officer, Chief Financial Officer and Treasurer (non-voting member), Chief Risk Officer (non-voting member), Business Client Division Manager, Retail Client Division Manager, Retail Loan Manager, Senior Commercial Real Estate Lender, and Commercial Loan Managers, implements the Board-approved loan policy.

ITEM 4: CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

The Corporation's management, with the participation of its Chief Executive Officer, who is the Corporation's principal executive officer, and its Chief Financial Officer and Treasurer, who is the Corporation's principal financial officer, have evaluated the effectiveness of the Corporation's disclosure controls and procedures as of September 30, 2018 pursuant to Rule 13a-15 of the Exchange Act, as amended. Based upon that evaluation, the principal executive officer and principal financial officer have concluded that the Corporation's disclosure controls and procedures are effective as of September 30, 2018. In addition, there have been no changes in the Corporation's internal control over financial reporting during the most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Corporation's internal control over financial reporting.

Disclosure controls and procedures are designed with the objective of ensuring that information required to be disclosed in reports filed by the Corporation under the Exchange Act, such as this Quarterly Report, is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the SEC. Disclosure controls and procedures are also designed with the objective of ensuring that such information is accumulated and communicated to management, including the Chief Executive Officer and the Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

For information related to this item, please see Note 8 to the Corporation's financial statements included herein.

ITEM 1A. RISK FACTORS

There have been no material changes in the risk factors set forth in the Corporation's Annual Report on Form 10-K for the year ended December 31, 2017, filed with the Securities and Exchange Commission on March 8, 2018.

ITEM 2. Unregistered Sales of Equity Securities and Use of Proceeds

(c) Issuer Purchases of Equity Securities (1)

Period	Total number of shares purchased	Average price paid per share	Total number of shares purchased as part of publicly announced plans or programs	Maximum number of shares that may yet be purchased under the plans or programs
7/1/18-7/31/18	—	\$	—	121,906
8/1/18-8/31/18	—	—	—	121,906
9/1/18-9/30/18	—	—	—	121,906
Quarter ended 9/30/18	—	\$	—	121,906

(1) On December 19, 2012, the Corporation's Board of Directors approved a stock repurchase plan authorizing the purchase of up to 125,000 shares of the Corporation's outstanding common stock. Purchases may be made from time to time on the open market or in private negotiated transactions and will be at the discretion of management. For the three months ended September 30, 2018, no shares had been purchased under this plan. Since inception of the plan, a total of 3,094 shares have been purchased under the plan.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

Not applicable.

ITEM 4. MINE SAFETY DISCLOSURES

Not applicable.

ITEM 5. OTHER INFORMATION

Not applicable.

ITEM 6. EXHIBITS

The following exhibits are either filed with this Form 10-Q or are incorporated herein by reference. The Corporation's Securities Exchange Act File number is 000-13888.

- 3.1 Certificate of Incorporation of Chemung Financial Corporation dated December 20, 1984 (as incorporated by reference to Exhibit 3.1 to Registrant's Form 10-K for the year ended December 31, 2007 filed with the Commission on March 13, 2008).
- 3.2 Certificate of Amendment to the Certificate of Incorporation of Chemung Financial Corporation, dated March 28, 1988 (as incorporated by reference to Exhibit 3.2 to Registrant's Form 10-K for the year ended December 31, 2007 filed with the Commission on March 13, 2008).
- 3.3 Certificate of Amendment to the Certificate of Incorporation of Chemung Financial Corporation, dated May 13, 1998 (as incorporated by reference to Exhibit 3.4 to Registrant's Form 10-K for the year ended December 31, 2005 and filed with the Commission on March 15, 2006).
- 3.4 Amended and Restated Bylaws of Chemung Financial Corporation, as amended to May 16, 2018 (as incorporated by reference to Exhibit 3.1 to Registrant's Form 8-K filed with the Commission on May 17, 2018).
