Report of Independent Registered Public Accounting Firm

To the Retirement Committee:

Rockland Trust Company

We have audited the accompanying statements of net assets available for benefits of the Rockland Trust Company Employee Savings, Profit Sharing and Stock Ownership Plan (the "Plan") as of December 31, 2013 and 2012, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Plan's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan at December 31, 2013 and 2012, and the changes in its net assets available for benefits for the years then ended, in conformity with U.S. generally accepted accounting principles.

Our audits were conducted for the purpose of forming an opinion on the financial statements taken as a whole. The accompanying supplemental schedule of assets (held at end of year) as of December 31, 2013, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management. The information has been subjected to the auditing procedures applied in our audits of the financial statements and, in our opinion, is fairly stated in all material respects in relation to the financial statements taken as a whole.

Rockland Trust Company Employee Savings, Profit Sharing and Stock Ownership Plan  
Notes to Financial Statements  
December 31, 2013

(1) Description of the Plan

The following description of the Rockland Trust Company (the "Company" or "Plan Sponsor" or "Plan Administrator") Employee Savings, Profit Sharing and Stock Ownership Plan (the "Plan") provides only general information. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

(a) General

The Plan is a defined contribution plan covering all eligible employees of the Company. Full-time and part-time employees are eligible to participate in the Plan, regardless of age. In order to be eligible to receive the Company matching contributions, qualified non-elective contributions, and supplemental non-elective contributions, employees must have completed one year of service, which is defined as 1,000 hours of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

(b) Contributions

Under the provisions of the Plan, subject to Internal Revenue Service ("IRS") limitations, employees who participate in the Plan may contribute up to 99% of their compensation each payroll period on a pre tax basis and up to an additional 10% of their compensation on an after tax basis. However, the total contribution may not exceed 99% of compensation. Participants may also contribute amounts representing distributions from other qualified plans. For the year ended December 31, 2013, the IRS contribution limit was \$17,500 with a \$5,500 catch up provision for participants age 50 or above.

The Plan provides for automatic enrollment. All employees will be deemed to have made an election to defer 6% of their compensation commencing with the first payroll following thirty days of employment. All employees are given notice regarding this enrollment feature and may elect a different deferral election or make no deferral at that time. Participants direct their contributions into various investment options offered by the Plan. The Plan currently offers 19 mutual funds, two collective investment trusts and a personal access fund, which is an investment option that enables participants to set up their own brokerage account through State Street Brokerage Services, Inc., with all related brokerage fees incurred by the participant. The Plan also offers the common stock of Independent Bank Corp., the parent company of the Plan Sponsor, as an investment option for the participants.

Under the Plan, the Company will contribute the following:

Matching contributions equal to 25% of the amount of the salary the employee elected to defer (less any catch up contributions), up to the first 6% of the employee's qualified compensation (subject to IRS limitations). Company matching contributions to the Plan are made each pay period, therefore, a participant must be actively employed and making a pre-tax employee deferral during that pay period in order to share in the matching contribution.

Non-elective contributions for each participant equal to 5% of qualified compensation. Company non-elective contributions to the Plan are made each pay period, therefore, a participant must be actively employed and receiving eligible compensation during that pay period in order to share in the non-elective contribution.

Rockland Trust Company Employee Savings, Profit Sharing and Stock Ownership Plan  
Notes to Financial Statements  
December 31, 2013

Supplemental non-elective contributions equal to 5% of the amount by which an employee's eligible compensation exceeds the Social Security wage base (an amount published each year by the Social Security Administration, and indexed for inflation). For 2013, the Social Security wage base is \$113,700. The supplemental non-elective contribution is also subject to certain other limits imposed by the Internal Revenue Code ("IRC"). Company supplemental non-elective contributions to the Plan are made each pay period, when applicable, therefore, a participant must be actively employed and receiving eligible compensation during that pay period in order to share in the supplemental non-elective contribution.

Discretionary contributions for employees that are actively employed on the last day of the Plan year. In addition, those participants whose employment terminated during the year because of retirement under the Company's retirement plan or because of disability, death or for any reason after the attainment of age 65 shall share in the discretionary contribution. The discretionary contribution is allocated to the individual accounts of qualifying participants in the ratio that each qualifying participant's compensation for the Plan year bears to the total compensation of all qualifying participants. There were no discretionary contributions made in 2013 or 2012.

Qualified non-elective contributions can be made on behalf of each non-highly compensated participant. The Company may make a qualified non-elective contribution equal to a uniform percentage of compensation, which percentage will be determined each year by the employer. Participants must complete a year of service during the Plan year and be actively employed on the last day of the Plan year to share in this qualified non-elective contribution. There were no qualified non-elective contributions made in 2013 or 2012.

(c) Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (i) the Company's contributions and (ii) Plan earnings. Allocations are based on participant earnings or account balances, as defined by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(d) Vesting

Participants are immediately vested in their contributions and rollover contributions plus actual earnings thereon. The Company's contribution portion of their accounts plus actual earnings thereon, which are received after meeting certain eligibility requirements are also immediately vested.

(e) Loans to Participants

Participants may borrow from their fund accounts a minimum loan amount of \$500 up to a maximum of \$50,000 (reduced by the highest outstanding loan balance in the previous 12 months over the current outstanding loan balance) or 50% of the participants' vested Contribution Account Balance, as defined by the Plan's Loan Policy whichever is less. No more than four loans per participant may be outstanding. The loans are secured by the vested balance in the participant's account and bear interest at rates that range from 3.25% to 8.25%, as determined by the Plan Administrator, which are commensurate with local prevailing rates. Loans must be repaid within five years; however, loans for the purchase of a primary residence may be repaid over a longer period, as determined by the Plan Administrator.

(f) Payment of Benefits

Upon termination of service due to death, disability, or retirement, a participant may elect to receive an amount equal to the value of the participant's interest in his or her account in a lump-sum distribution (rollover treatment, if eligible), or installment payments over a period of not more than the employee's assumed life expectancy. However, if the employee's vested benefits under the Plan do not exceed \$5,000, the benefit will be distributed in a single lump-sum distribution (rollover treatment required by the IRS if timely notice is not received from the employee).

Rockland Trust Company Employee Savings, Profit Sharing and Stock Ownership Plan  
Notes to Financial Statements  
December 31, 2013

At the discretion of the Plan Administrator, in the event of extreme financial hardship as defined in applicable IRC, a participant may withdraw some or all of their vested balances subject to applicable penalties.

Distribution of benefits attributable to investments other than those attributable to the Independent Bank Corp. common stock will be in the form of cash. Distribution of benefits attributable to the Independent Bank Corp. common stock will be in the form of cash, Independent Bank Corp. common stock, or both, at the participant's discretion.

(g) Dividend Reinvestment and Voting Rights

Dividends paid on investments in Independent Bank Corp. common stock within the Plan will be paid to the Plan and allocated to participant accounts and may be distributed in cash not later than 90 days after the close of the Plan year in which they were paid, or may be reinvested in Independent Bank Corp. common stock. Dividends reinvested may participate in the Company's 2010 Dividend Reinvestment and Stock Purchase Plan which allows for a 5% discount of dividends reinvested in Independent Bank Corp. common stock.

Participants (or beneficiaries), as holders of Independent Bank Corp. common stock, will direct DWS Trust Company, the Plan Trustee, as to the manner in which the voting rights are to be exercised for all Independent Bank Corp. common stock held as part of the Plan assets.

(h) Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, no further contributions will be made to the Plan and all amounts credited to participants' accounts will continue to be 100% vested. The distribution of the accounts will be done as soon as practicable in a manner permitted by the Plan.

(2) Summary of Significant Accounting Policies

(a) Basis of Accounting

The accompanying financial statements of the Plan are prepared under the accrual basis of accounting.

(b) Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates that affect the amounts reported in the financial statements, accompanying notes, and supplemental schedule. Actual results could differ from those estimates.

(c) Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer liability in an orderly transaction between market participants at the measurement date (i.e. an exit price). See Note 4 for further discussion and disclosures related to fair value measurements.

The Putnam Stable Value Fund invests in fully benefit responsive guaranteed investment contracts ("GICs"). This fund is recorded at fair value; however, since the contract is fully benefit-responsive, an adjustment is reflected in the Statements of Net Assets Available for Benefits to present the investment at contract value. Contract value is the relevant measurement attributable to fully benefit responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The contract value represents contributions, plus earnings, less participant withdrawals and administration expenses.

Rockland Trust Company Employee Savings, Profit Sharing and Stock Ownership Plan  
Notes to Financial Statements  
December 31, 2013

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in fair value of investments includes the Plan's realized gains or losses on investments sold, as well as unrealized gain or loss on investments held during the year.

(d) Notes Receivable From Participants

Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013 or 2012. If a participant ceases to make loan repayments for a period of time, in accordance with the Plan, the loan will be deemed distributed. Upon distribution, the participant loan balance is reduced and a benefit payment is recorded.

(e) Benefits Paid

Benefits are recorded upon distribution.

(f) Refundable Contributions

At December 31, 2013 and 2012, \$8,788 and \$42,961, respectively, of contributions made in excess of amounts allowed by the Internal Revenue Service, were refunded by the Plan to certain participants after the end of the Plan year. As of and for the years ended December 31, 2013 and 2012, the contributions were included as a Plan payable on the Statement of Net Assets and participant contributions on the Statement of Changes in Net Assets are reflected net of the refundable contributions.

(g) Administrative Expenses

The Company pays all expenses of the Plan at the option of the Company. Participant specific loan issuance and loan maintenance fees are paid by the specific participant and reflected in the Plan's Statement of Changes in Net Assets Available for Benefits.

(h) New Accounting Pronouncements

None applicable.

Rockland Trust Company Employee Savings, Profit Sharing and Stock Ownership Plan  
Notes to Financial Statements  
December 31, 2013

## (3) Investments

The following table presents investments in the accompanying Statements of Net Assets Available for Benefits for which the fair value exceeded 5% of the Plan's net assets as of December 31, 2013 and 2012:

Description of Investment	Fair Value	
	2013	2012
Janus Balanced Fund - T	\$ 10,898,161	\$ 8,078,563
Independent Bank Corp. common stock	10,179,830	7,617,113
DWS Stock Index Trust	8,840,621	6,878,884
Putnam Stable Value Fund (contract value \$7,147,892 and \$7,239,752)	7,241,529	7,463,489
Janus Research Fund - T	6,589,945	4,615,444
DWS Large Cap Value Fund - S	6,355,129	4,476,491
Neuberger Berman Genesis Fund - Trust	5,724,841	4,123,854
Templeton Foreign Fund - A	4,980,247	3,762,030
DWS Large Cap Focus Growth Fund - S	4,730,272	3,643,632
DWS Global Income Builder Fund - S	4,702,154	3,975,826
T. Rowe Price Growth Stock Fund	4,610,167	—
Federated Total Return Bond Fund - R	(A)	3,829,948

(A) Investment did not exceed 5% of the Plan's net assets as of December 31, 2013.

During 2013 and 2012, the Plan's investments appreciated in fair value (including gains and losses on investments bought and sold, as well as unrealized gain or loss on investments held during the year) as follows:

	2013	2012
Investments at fair value as determined by quoted market prices		
Mutual funds	\$ 8,640,369	\$ 3,930,811
Common stock	2,646,198	463,333
Personal access fund	75,892	38,807
Net appreciation	11,362,459	4,432,951
Investments at estimated fair value		
Collective investment trusts - DWS Stock Index Fund	2,183,493	920,054
Net change in fair value	\$ 13,545,952	\$ 5,353,005

## (4) Fair Value Measurements

Fair value is a market-based measure considered from the perspective of a market participant rather than an entity-specific measure. Therefore, even when market assumptions are not readily available, the Plan's own assumptions are set to reflect those that the Plan believes market participants would use in pricing the asset or liability at the measurement date. If there has been a significant decrease in the volume and level of activity for the asset or liability, regardless of the valuation technique(s) used, the objective of a fair value measurement remains the same. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction (that is, not a forced liquidation or distressed sale) between market participants at the measurement date under current market conditions. The Plan uses prices and inputs that are current as of the measurement date, including during periods of market dislocation. In periods of market dislocation, the observability of prices and inputs may be reduced for many instruments. This condition could cause an instrument to be reclassified from one level to another. The Fair Value Measurements and Disclosures Topic of the FASB ASC defines fair value and establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest

Rockland Trust Company Employee Savings, Profit Sharing and Stock Ownership Plan  
Notes to Financial Statements  
December 31, 2013

priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under the Fair Value Measurements and Disclosures Topic of the FASB ASC are described below:

Level 1 — Inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date.

Level 2 — Valuations based on quoted prices in markets that are not active or for which all significant inputs are observable, either directly or indirectly.

Level 3 — Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised by the Plan in determining fair value is greatest for instruments categorized in Level 3. A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

#### Valuation Techniques

##### Mutual Funds

These investments are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

##### Collective Investment Trusts

Investments in a collective investment trust are valued at the NAV as determined by using estimated fair value of the underlying assets held in the fund. NAV is used as a practical expedient for fair value. The NAV is provided by the investment manager of the trust. The underlying investments of the stable value funds consist of short term investments, GICs and synthetic GICs. Short term investments are stated at contract value which approximates fair value. GICs are valued using a discounted cash flow methodology where individual contract cash flows are discounted at the prevailing market interpolated GIC rate as of the year end. Synthetic GICs are valued based on the underlying investments. Fixed income underlying investments are valued on the basis of the valuations furnished by the Trustee-approved independent pricing services, which determine valuations for normal institutional-size trading units of such securities using methods based on market transactions for comparable securities. Investment contracts are valued at contract value which represents invested principal plus contractual interest earned thereon. There are currently no redemption restrictions on these investments.

##### Common Stock

Independent Bank Corp. common stock and common stock held in participant-directed brokerage accounts are stated at fair value as quoted on a recognized securities exchange and are valued at the last reported sales price on the last business day of the Plan year.

##### Personal Access Fund

The personal access fund is comprised of investments in mutual funds, common stocks, and cash and cash equivalents. The underlying investments of the personal access funds are grouped with their similar investment types in the table below.

Edgar Filing: INDEPENDENT BANK CORP - Form 11-K

Rockland Trust Company Employee Savings, Profit Sharing and Stock Ownership Plan  
Notes to Financial Statements  
December 31, 2013

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value, on a recurring basis, as of December 31, 2013 and 2012:

Description	Balance As of December 31, 2013	Fair Value Measurements at Reporting Date Using		
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Mutual funds				
Balanced funds	\$ 15,635,422	\$ 15,635,422	\$ —	\$ —
Growth funds	38,806,284	38,806,284	—	—
Fixed income funds	7,131,999	7,131,999	—	—
Other funds	507,436	507,436	—	—
Collective investment trusts				
Putnam Stable Value Fund (1)	7,241,529	—	7,241,529	—
DWS Stock Index Trust (2)	8,840,621	—	8,840,621	—
Common stock	10,304,178	10,304,178	—	—
Cash and cash equivalents	168,454	168,454	—	—
	\$ 88,635,923	\$ 72,553,773	\$ 16,082,150	\$ —
As of December 31, 2012				
Mutual funds				
Balanced funds	\$ 12,105,218	\$ 12,105,218	\$ —	\$ —
Growth funds	28,151,201	28,151,201	—	—
Fixed income funds	6,111,156	6,111,156	—	—
Other funds	311,545	311,545	—	—
Collective investment trusts				
Putnam Stable Value Fund (1)	7,463,489	—	7,463,489	—
DWS Stock Index Trust (2)	6,878,884	—	6,878,884	—
Common stock	7,767,121	7,767,121	—	—
Cash and cash equivalents	19,475	19,475	—	—
	\$ 68,808,089	\$ 54,465,716	\$ 14,342,373	\$ —

(1) This fund seeks capital preservation and current income when consistent with capital preservation. To enhance income, the fund can invest in a wider range of securities than a money market fund, including short-term bonds and GICs.

(2) This fund seeks to match, before fees and expenses, the performance of the S&P 500 index which emphasizes stocks of large US companies. The fund invests primarily in common stocks of companies that make up the S&P 500 index, in approximately the same weightings as the index. The Fund may also invest in derivative instruments, such as stock index futures contracts and options relating to the benchmark.

The Plan has no assets that are measured on a nonrecurring basis as of December 31, 2013 and 2012.

There were no transfers between the levels of the fair value hierarchy for any assets measured at fair value for the years ended December 31, 2013 and 2012. In addition, there were no level 3 investments for the years ended December 31, 2013 and 2012.

Rockland Trust Company Employee Savings, Profit Sharing and Stock Ownership Plan  
 Notes to Financial Statements  
 December 31, 2013

(5) Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of total assets per the audited financial statements to the Form 5500 at December 31, 2013 and 2012:

	2013	2012
Net assets available for benefits per the audited financial statements	\$91,269,660	\$70,995,125
Less: deemed distributed loans (1)	(58,197 )	(70,054 )
Plus: excess contributions payable	—	42,961
Plus: adjustment to fair value from contract value for fully benefit-responsive contracts	93,637	223,737
Total assets per the Form 5500, Schedule H, Part 1 (line 1(f))	\$91,305,100	\$71,191,769

The following is a reconciliation of benefit payments per the audited financial statements to the Form 5500:

	2013	2012
Benefit payments per the audited financial statements	\$5,325,292	\$6,100,138
Less: payments of deemed distributed loans including interest (1)	(64,095 )	(30,369 )
Plus: deemed distributed loans	52,238	15,842
Benefits paid to participants per the Form 5500	\$5,313,435	\$6,085,611

The following is a reconciliation of total additions per the audited financial statements to the Form 5500:

	2013	2012
Total additions per the audited financial statements	\$25,622,042	\$15,321,978
Plus/Less: Increase (decrease) in excess contribution payable	(42,961 )	42,961
Plus: adjustment from contract value to fair value for fully benefit-responsive contracts	(130,100 )	223,737
Less: prior year interest on deemed distributed loans (1)	—	\$(288 )
Total income per the Form 5500	\$25,448,981	\$15,588,388

(1) In the financial statements of the Plan, delinquent loans remain as assets of the Plan. However, for the Form 5500 reporting purposes delinquent loans are removed from Plan assets and reported as a benefit paid to a participant.

The accompanying financial statements present fully benefit-responsive investment contracts at contract value. The Form 5500 reports fully benefit-responsive investment contracts at fair value. Therefore, the adjustment from fair value to contract value for fully benefit-responsive investment contracts represents a reconciling item.

Rockland Trust Company Employee Savings, Profit Sharing and Stock Ownership Plan  
Notes to Financial Statements  
December 31, 2013

(6) Risks and Uncertainties

The variety of investment options are exposed to various risks, such as interest rate, credit and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

(7) Related Party and Parties-in-Interest Transactions

Investments in shares of the common stock of Independent Bank Corp., the parent company of the Company qualify as related party transactions. Certain collective investment trusts and mutual funds managed by DWS Trust Company, the Plan Trustee as defined by the Plan, qualify as party-in-interest transactions. Transactions with respect to participant loans also qualify as party-in-interest transactions.

(8) Tax Status

The Plan has received a determination letter from the Internal Revenue Service (IRS) dated September 19, 2013 stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the Code) and therefore the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and therefore believes the Plan is qualified and the related trust is tax-exempt. Accounting principles generally accepted in the United States require plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013 and 2012, there were no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2010.

(9) Plan Merger and Amendment

Effective November 15, 2013, the Plan was amended for the merger of the Mayflower Bancorp, Inc. ("Mayflower") employees into the Company. The amendment provides for the determination of benefits for certain former employees of Mayflower Co-operative Bank. The Mayflower Co-operative Bank 401(k) Plan was a multi-employer plan and thus there will be no transfer of assets, however rollover contributions into the Plan will be allowed.

Effective November 9, 2012, the Plan was amended for the merger of the Central Co-Operative Bank ("Central") employees into the Company. The amendment provides for the determination of benefits for certain former employees of Central Co-operative Bank. The Central Co-operative Bank 401(k) Plan was a multi-employer plan and thus there will be no transfer of assets, however rollover contributions into the Plan will be allowed.
