Notes to Consolidated Financial Statements
(Unaudited)

1. Summary of Significant Accounting Policies

In May 2007, the stockholders of Federated Department Stores, Inc. approved changing the name of the company from Federated Department Stores, Inc. to Macy's, Inc. The name change became effective on June 1, 2007.

Macy's, Inc. and subsidiaries (the "Company") is a retail organization operating retail stores that sell a wide range of merchandise, including men's, women's and children's apparel and accessories, cosmetics, home furnishings and other consumer goods.

A description of the Company's significant accounting policies is included in the Company's Annual Report on Form 10-K for the fiscal year ended February 3, 2007 (the "2006 10-K"). The accompanying Consolidated Financial Statements should be read in conjunction with the Consolidated Financial Statements and notes thereto in the 2006 10-K.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Such estimates and assumptions are subject to inherent uncertainties, which may result in actual amounts differing from reported amounts.

The Consolidated Financial Statements for the 13 weeks ended May 5, 2007 and April 29, 2006, in the opinion of management, include all adjustments (consisting only of normal recurring adjustments) considered necessary to

present fairly, in all material respects, the consolidated financial position and results of operations of the Company.

Because of the seasonal nature of the retail business, the results of operations for the 13 weeks ended May 5, 2007 and April 29, 2006 (which do not include the Christmas season) are not necessarily indicative of such results for the fiscal year.

On August 30, 2005, the Company completed the acquisition of The May Department Stores Company ("May"). The acquired May operations included approximately 500 department stores and approximately 800 bridal and formalwear stores nationwide. Most of the acquired May department stores were converted to the Macy's nameplate in September 2006, resulting in a national retailer with stores in almost all major markets. The operations of the acquired Lord & Taylor division and the bridal group (consisting of David's Bridal, After Hours Formalwear and Priscilla of Boston) have been divested and are presented as discontinued operations (see Note 3, "Discontinued Operations"). As a result of the acquisition and the integration of the acquired May operations, the Company's continuing operations operate over 850 stores in 45 states, the District of Columbia, Guam and Puerto Rico.

Effective February 4, 2007, the Company adopted Statement of Financial Accounting Standards ("SFAS") No. 155, "Accounting for Certain Hybrid Financial Instruments" ("SFAS 155"), which amended certain provisions of SFAS No. 133 and SFAS No. 140. The adoption of SFAS 155 did not and is not expected to have a material impact on the Company's consolidated financial position, results of operations or cash flows.

Effective February 4, 2007, the Company adopted the measurement date provision of SFAS No. 158, "Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans - an amendment of FASB Statements No. 87, 88, 106, and 132(R)" ("SFAS 158"). This required a change in the Company's measurement date, which was previously December 31. The adoption of the measurement date provision of SFAS 158 resulted in an adjustment to the beginning balance of accumulated equity on February 4, 2007 of approximately \$8 million, net of income taxes, in order to recognize post-employment and postretirement benefit expense for January 2007 and also reduced estimated 2007 post-employment and postretirement benefit expense, due to the change in the discount rate at February 3, 2007 as compared to December 31, 2006, by approximately \$6 million.

In June 2006, the Financial Accounting Standards Board ("FASB") issued Interpretation ("FIN") No. 48, "Accounting for Uncertainty in Income Taxes - An Interpretation of FASB Statement No. 109" ("FIN 48"), which prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. FIN 48 also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition.

The Company adopted the provisions of FIN 48 on February 4, 2007 and the adoption resulted in a net increase to accruals for uncertain tax positions of \$1 million, an increase to the beginning balance of accumulated equity of \$1 million and an increase to goodwill of \$2 million.

As of February 4, 2007, the gross amount of unrecognized tax benefits was \$279 million and the amount of unrecognized tax benefits that, if recognized, would affect the effective income tax rate was \$188 million. It is reasonably possible that the amount of the unrecognized benefit with respect to certain of the Company's unrecognized tax positions will increase or decrease within the next 12 months, primarily as a result of ongoing audits. At this time, an estimate of the range of the reasonably possible outcomes cannot be made.

In conjunction with the adoption of FIN 48, the Company has classified unrecognized tax benefits not expected to be settled within one year as other liabilities on the Consolidated Balance Sheets. The Company also adopted a policy of recognizing all interest and penalties related to unrecognized tax benefits in income tax expense. In prior periods, such interest on federal tax issues was recognized as a component of interest income or expense while such interest on state and local tax issues was already recognized as a component of income tax expense. There was no interest expense or income related to federal tax issues recorded during the 13 weeks ended May 5, 2007 or April 29, 2006.

The Company had approximately \$52 million of federal, state and local interest and penalties, net of income tax benefits, related to unrecognized tax benefits accrued as of February 4, 2007. The \$52 million of accrued federal, state and local interest and penalties at February 4, 2007 primarily relates to state tax issues and the amount of penalties paid in prior periods and the amount of penalties accrued at February 4, 2007 are insignificant.

The Company or one of its subsidiaries files income tax returns in the U.S. federal jurisdiction and various state and local jurisdictions. The Company is no longer subject to U.S. federal income tax examinations by tax authorities for years before 2003 or for The May Department Stores Company prior to the August 30, 2005 acquisition. With respect to state and local jurisdictions, with limited exceptions, the Company and its subsidiaries are no longer subject to income tax audits for years before 1997. Although the outcome of tax audits is always uncertain, the Company believes that adequate amounts of tax, interest and penalties have been accrued for any adjustments that are expected to result from the years still subject to examination.

2. May Integration Costs

May integration costs represent the costs associated with the integration of the acquired May businesses with the Company's pre-existing businesses and the consolidation of certain operations of the Company. As a result of the acquisition of May, the Company decided to divest certain store locations and distribution center facilities.

During the 13 weeks ended May 5, 2007, the Company recorded \$36 million of costs and expenses associated with the integration and consolidation of May's operations into the Company's operations, including additional costs related to closed locations, system conversion costs and costs related to other operational consolidations.

Since January 28, 2006, 76 May and Macy's stores and 9 distribution center facilities have been closed and 68 May and Macy's stores have been divested (including two stores which are temporarily being operated and leased back from the buyer) and two distribution centers have been divested. The non-divested stores or facilities which have been closed, totaling approximately \$65 million, are classified as assets held for sale and are included in other assets on the Consolidated Balance Sheets as of May 5, 2007.

During the 13 weeks ended May 5, 2007, approximately \$30 million of property and equipment was transferred to assets held for sale upon store or facility closure. Also during this period, property and equipment totaling approximately \$16 million related to the May integration was disposed of and the Company also collected \$22 million of receivables from a prior year disposition.

During the 13 weeks ended April 29, 2006, the Company recorded \$129 million of integration costs associated with the acquisition of May, including \$6 million of inventory valuation adjustments associated with the combination and integration of the Company's and May's merchandise assortments. \$11 million of these costs related to impairment charges of certain Macy's locations planned to be disposed of. The fair values of the locations planned to be disposed of were determined based on prices of similar assets. The remaining \$112 million of May integration costs incurred during the 13 weeks ended April 29, 2006 included store closing-related costs, severance, retention and other human resource-related costs, EDP system integration costs and other costs.

During the 13 weeks ended April 29, 2006, \$483 million of property and equipment for approximately 60 May and Macy's locations was transferred to assets held for sale upon store closure and included in other assets on the Consolidated Balance Sheets as of April 29, 2006.

The following table shows the beginning and ending balance of, and the activity associated with, the severance and relocation accrual established in connection with the May integration for the 13 weeks ended May 5, 2007:

3. **Discontinued Operations**

In September 2005 and January 2006, the Company announced its intention to dispose of the acquired bridal group (consisting of the operations of David's Bridal, After Hours Formalwear and Priscilla of Boston) and the acquired Lord & Taylor division of May, respectively. Accordingly, for financial statement purposes, the assets, liabilities, results of operations and cash flows of these businesses have been segregated from those of continuing operations for all periods presented.

In October 2006, the Company completed the sale of its Lord & Taylor division for approximately \$1,047 million in cash, a long-term note receivable of approximately \$17 million and a receivable for a working capital adjustment to the purchase price of approximately \$23 million. The Lord & Taylor division represented approximately \$1,130 million of net assets, before income taxes. After adjustment for transaction costs of approximately \$20 million, the Company recorded the loss on disposal of the Lord & Taylor division of \$63 million on a pre-tax basis, or \$38 million after income taxes, or \$.07 per diluted share.

In January 2007, the Company completed the sale of its David's Bridal and Priscilla of Boston businesses for approximately \$740 million in cash, net of \$10 million of transaction costs. The David's Bridal and Priscilla of Boston businesses represented approximately \$751 million of net assets, before income taxes. After adjustment for a liability for an estimated working capital adjustment to the purchase price and other items totaling approximately \$11 million, the Company recorded the loss on disposal of the David's Bridal and Priscilla of Boston businesses of \$22 million on a pre-tax basis, or \$18 million after income taxes, or \$.03 per diluted share.

In April 2007, the Company completed the sale of its After Hours Formalwear business for approximately \$66 million in cash, net of \$1 million of transaction costs. The After Hours Formalwear business represented approximately \$73 million of net assets. The Company recorded the loss on disposal of the After Hours Formalwear business of \$7 million on a pre-tax and after-tax basis, or \$.01 per diluted share.

Discontinued operations include net sales of approximately \$27 million for the 13 weeks ended May 5, 2007 and approximately \$564 million for the 13 weeks ended April 29, 2006. No consolidated interest expense has been allocated to discontinued operations. For the 13 weeks ended May 5, 2007, the loss from discontinued operations, including the loss on disposal of the Company's After Hours Formalwear business, totaled \$22 million before income taxes, with a related income tax benefit of \$6 million. For the 13 weeks ended April 29, 2006, income from

discontinued operations totaled \$35 million before income taxes, with related income tax expense of \$13 million.

In connection with the sale of the David's Bridal and Priscilla of Boston businesses, the Company agreed to indemnify the buyer and related parties of the buyer for certain losses or liabilities incurred by the buyer or such related parties with respect to (1) certain representations and warranties made to the buyer by the Company in connection with the sale, (2) liabilities relating to the After Hours Formalwear Business under certain circumstances, and (3) certain pre-closing tax obligations. The representations and warranties in respect of which the Company is subject to indemnification are generally limited to representations and warranties relating to the capitalization of the entities that were sold, the Company's ownership of the equity interests that were sold, the enforceability of the agreement and certain employee benefits and tax matters. The indemnity for breaches of most of these representations expires on March 31, 2008 and is subject to a deductible of \$2.5 million and a cap of \$75 million, with the exception of certain representations relating to capitalization and the Company's ownership interest, in respect of which the indemnity does not expire and is not subject to a cap or deductible.

Indemnity obligations created in connection with the sales of businesses generally do not represent added liabilities for the Company, but simply serve to protect the buyer from potential liabilities associated with particular conditions. The Company records accruals for those pre-closing obligations that are considered probable and estimable. Under FASB Interpretation No. 45, "Guarantor's Accounting and Disclosure Requirements for Guarantees, Including Indirect Guarantees of Indebtedness of Others," the Company is required to record a liability for the fair value of the guarantees that are entered into subsequent to December 15, 2002. The Company has not accrued any additional amounts as a result of the indemnity arrangements summarized above as the Company believes the fair value of these arrangements is not material.

4. Earnings (Loss) Per Share

The following table sets forth the computation of basic and diluted earnings per share based on income (loss) from continuing operations:

	13 Weeks Ended			
	May 5, 2007		April 29, 2006	
	Income	Shares	Loss	Shares
	(millions, except per share figures)			
Income (loss) from continuing operations and average number of shares outstanding.....	\$ 52	467.2	\$ (74)	549.2

	\$ 52	476.4	\$ (74)	550.2
Diluted earnings (loss) per share...	<u>\$.11</u>		<u>\$ (.13)</u>	

In addition to the stock options and restricted stock reflected in the foregoing table, stock options to purchase 11.3

million shares of common stock at prices ranging from \$35.83 to \$46.15 per share and 269,000 shares of restricted stock were outstanding at May 5, 2007, but were not included in the computation of diluted earnings per share because their inclusion would have been antidilutive.

For the 13 weeks ended April 29, 2006, stock options to purchase 46.2 million shares of common stock at prices ranging from \$12.79 to \$40.26 per share and 195,000 shares of restricted stock were outstanding at April 29, 2006, but were not included in the computation of diluted earnings per share because, as a result of the Company's loss from continuing operations during this period, their inclusion would have been antidilutive.

5. Benefit Plans

The Company has a funded defined benefit plan ("Pension Plan") and defined contribution plans, which cover substantially all employees who work 1,000 hours or more in a year. The Company also has an unfunded defined benefit supplementary retirement plan ("SERP"), which includes benefits, for certain employees, in excess of qualified plan limitations.

On July 31, 2006, the Company merged the May defined benefit plan into its Pension Plan and on August 31, 2006, the Company merged the May SERP into its SERP, which actions required the Company to remeasure plan assets and obligations.

In addition, certain retired employees currently are provided with specified health care and life insurance benefits ("Postretirement Obligations"). Eligibility requirements for such benefits vary by division and subsidiary, but generally state that benefits are available to eligible employees who were hired prior to a certain date and retire after a certain age with specified years of service. Certain employees are subject to having such benefits modified or terminated.

The actuarially determined components of the net periodic benefit cost are as follows:

6. Financing Activities

On February 26, 2007, the Company's board of directors approved an additional \$4,000 million authorization to the Company's existing share repurchase program. The Company used a portion of this authorization to effect the immediate repurchase of 45 million outstanding shares for an initial payment of approximately \$2,000 million, subject to settlement provisions pursuant to the terms of two related accelerated share repurchase agreements, which include derivative financial instruments indexed to the Company's shares. [Upon settlement of the accelerated share repurchase agreements in May and June of 2007, the Company received approximately 700,000 additional shares of its common stock, resulting in a total of approximately 45.7 million shares being repurchased.] The Company may continue or, from time to time, suspend repurchases of shares under its share repurchase program, depending on prevailing market conditions, alternate uses of capital and other factors.

On March 7, 2007, the Company issued \$1,100 million aggregate principal amount of 5.35% senior unsecured notes due 2012 and \$500 million aggregate principal amount of 6.375% senior unsecured notes due 2037. A portion of the net proceeds of the debt issuances was used to repay commercial paper borrowings incurred in connection with the accelerated share repurchase agreements and the balance is being used for general corporate purposes.

7. Condensed Consolidating Financial Information

I

Macy's, Inc. ("Parent") has fully and unconditionally guaranteed certain long-term debt obligations of its wholly-owned subsidiary, Macy's Retail Holdings, Inc. (formerly known as Federated Retail Holdings, Inc.) ("Subsidiary Issuer"). "Other Subsidiaries" includes, where applicable, all other direct subsidiaries of Parent, including FDS Bank, FDS Insurance, Leadville Insurance Company, Snowdin Insurance Company, Priscilla of Boston, and David's Bridal, Inc. and its subsidiaries, including After Hours Formalwear, Inc. "Subsidiary Issuer" includes operating divisions and non-guarantor subsidiaries of the Subsidiary Issuer on an equity basis. The assets and liabilities and results of operations of the non-guarantor subsidiaries of the Subsidiary Issuer are also reflected in "Other Subsidiaries."

Condensed Consolidating Balance Sheets as of May 5, 2007, April 29, 2006 and February 3, 2007, the related Condensed Consolidating Statements of Operations for the 13 weeks ended May 5, 2007 and April 29, 2006, and the related Condensed Consolidating Statements of Cash Flows for the 13 weeks ended May 5, 2007 and April 29, 2006 are presented below.

MACY'S, INC.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

For purposes of the following discussion, all references to "first quarter of 2007" and "first quarter of 2006" are to the Company's 13-week fiscal periods ended May 5, 2007 and April 29, 2006, respectively.

The Company is a retail organization operating retail stores that sell a wide range of merchandise, including men's, women's and children's apparel and accessories, cosmetics, home furnishings and other consumer goods in 45 states, the District of Columbia, Guam and Puerto Rico. The Company operates coast-to-coast exclusively under two retail brands - Macy's and Bloomingdale's. The Company's operations are significantly impacted by competitive pressures from department stores, specialty stores, mass merchandisers and all other retail channels. The Company's operations are also significantly impacted by general consumer-spending levels, which are driven in part by consumer confidence and employment levels.

In 2003, the Company commenced the implementation of a strategy to more fully utilize its Macy's brand, converting all of the Company's regional store nameplates to the Macy's nameplate. This strategy allowed the Company to magnify the impact of its marketing efforts on a nationwide basis, as well as to leverage major events such as the Macy's Thanksgiving Day Parade and Macy's 4th of July fireworks.

In early 2004, the Company announced a further step in reinventing its department stores - the creation of a centralized organization to be responsible for the overall strategy, merchandising and marketing of home-related categories of business in all of its Macy's-branded stores. While its benefits have taken longer to be realized, the centralized operation is still expected to accelerate future sales in these categories largely by improving and further differentiating the Company's home-related merchandise assortments.

For the past several years, the Company has been focused on four key priorities for improving the business over the longer term: differentiating and editing merchandise assortments; simplifying pricing; improving the overall shopping experience; and communicating better with customers through more brand focused and effective marketing. The Company believes that its recent results indicate that these strategies are working and that the customer is responding in a favorable manner. In 2005, the Company launched a new nationwide Macy's customer loyalty program, called Star Rewards, in coordination with the launch of the Macy's nameplate in cities across the country. The program provides an enhanced level of offers and benefits to Macy's best credit card customers.

In June 2005, the Company entered into a Purchase, Sale and Servicing Transfer Agreement (the "Purchase Agreement") with Citibank, N.A. pursuant to which the Company agreed to sell to Citibank (i) the proprietary and non-proprietary credit card accounts owned by the Company, together with related receivables balances, and the capital stock of Prime Receivables Corporation, a wholly owned subsidiary of the Company, which owned all of the Company's interest in the Prime Credit Card Master Trust (the "FDS Credit Assets"), (ii) the "Macy's" credit card accounts owned by GE Capital Consumer Card Co. ("GE Bank"), together with related receivables balances (the

"GE/Macy's Credit Assets"), upon the termination of the Company's credit card program agreement with GE Bank, and (iii) the proprietary credit card accounts owned by The May Department Stores Company ("May"), together with related receivables balances (the "May Credit Assets"). The purchase by Citibank of the FDS Credit Assets was completed on October 24, 2005, the purchase by Citibank of the GE/Macy's Credit Assets was completed on May 1, 2006 and the purchase by Citibank of the May Credit Assets was completed on May 22, 2006 and July 17, 2006.

In connection with the Purchase Agreement, the Company and Citibank entered into a long-term marketing and servicing alliance pursuant to the terms of a Credit Card Program Agreement (the "Program Agreement") with an initial term of 10 years expiring on July 17, 2016 and, unless terminated by either party as of the expiration of the initial term, an additional renewal term of three years. The Program Agreement provides for, among other things, (i) the ownership by Citibank of the accounts purchased by Citibank pursuant to the Purchase Agreement, (ii) the ownership by Citibank of new accounts opened by the Company's customers, (iii) the provision of credit by Citibank to the holders of the credit cards associated with the foregoing accounts, (iv) the servicing of the foregoing accounts, and (v) the allocation between Citibank and the Company of the economic benefits and burdens associated with the foregoing and other aspects of the alliance.

The sales prices provided for in the Purchase Agreement equated to approximately 111.5% of the receivables included in the FDS Credit Assets, the GE/Macy's Credit Assets and the May Credit Assets, and the Company receives ongoing payments under the Program Agreement.

The transactions under the Purchase Agreement have provided the Company with significant liquidity (i) through receipt of the purchase price (which included a premium) for the divested credit card accounts and related receivable balances and (ii) because the Company no longer has to finance significant accounts receivable balances associated with the divested credit card accounts, and receives payments from Citibank immediately for sales under such credit card accounts. Although the Company's cash flows include payments to the Company under the Program Agreement, these payments are less than the net cash flow that the Company would have derived from the finance charge income generated on the receivables balances, net of the interest expense associated with the Company's financing of these receivable balances.

On August 30, 2005, the Company completed its merger with May (the "Merger"). The Company added about 400 Macy's locations nationwide in 2006 as it converted the regional department store nameplates acquired through the Merger. In conjunction with the conversion process, the Company identified certain store locations and distribution center facilities to be divested. Since January 28, 2006, 76 May and Macy's stores and 9 distribution center facilities have been closed and 68 May and Macy's stores and two distribution centers have been divested.

Following the Merger, the Company announced its intention to sell the acquired Lord & Taylor division of May and the acquired bridal group of May (consisting of David's Bridal, After Hours Formalwear and Priscilla of Boston). The sale of the Lord & Taylor division was completed in October 2006, the sale of David's Bridal and Priscilla of Boston was completed in January 2007 and the sale of After Hours Formalwear was completed in April 2007. As a result of the Company's disposition of the Lord & Taylor division and bridal group business, these businesses are reported as discontinued operations. Unless otherwise indicated, the following discussion relates to the Company's continuing operations.

The Merger has had and is expected to continue to have a material effect on the Company's consolidated financial position, results of operations and cash flows. The Company was able to realize more than \$175 million of cost savings in 2006 and expects to realize at least \$450 million of annual cost savings starting in 2007, resulting from the consolidation of central functions, division integrations and the adoption of best practices across the combined company with respect to systems, logistics, store operations and credit management. The Merger is also expected to accelerate comparable store sales growth. The Company anticipates incurring approximately \$64 to \$89 million of May integration costs in the remaining three quarters of fiscal 2007.

The following discussion should be read in conjunction with our Consolidated Financial Statements and the related notes included elsewhere in this report. The following discussion contains forward looking statements that reflect the Company's plans, estimates and beliefs. The Company's actual results could materially differ from those discussed in these forward looking statements. Factors that could cause or contribute to those differences include, but are not limited to, those discussed below and elsewhere in this report, particularly in "Forward Looking Statements."

Results of Operations

Comparison of the 13 Weeks Ended May 5, 2007 and April 29, 2006

Net income for the first quarter of 2007 was \$36 million compared to a net loss of \$52 million in the first quarter of 2006. The net income for the first quarter of 2007 includes income from continuing operations of \$52 million and a loss from discontinued operations of \$16 million. The income from continuing operations in the first quarter of 2007 includes the impact of \$36 million of May integration costs. The loss from discontinued operations includes the loss on disposal of the After Hours Formalwear business of \$7 million on a pre-tax and after-tax basis. The net loss for the first quarter of 2006 included a loss from continuing operations of \$74 million, partially offset by income from discontinued operations of \$22 million. The loss from continuing operations in the first quarter of 2006 included the impact of \$129 million of May integration costs and related inventory valuation adjustments, the impact of merger integration issues on the Company's businesses and higher interest expense associated with the increased levels of borrowings associated with the acquisition of May.

Net sales for the first quarter of 2007 totaled \$5,921 million, compared to net sales of \$5,930 million for the first quarter of 2006, a decrease of \$9 million or 0.2%. On a comparable store basis (sales from the continuing businesses of stores in operation throughout the first quarter of 2006 and the first quarter of 2007 and all Internet sales and mail order sales), net sales for the first quarter of 2007 were up 0.6% percent compared to the first quarter of 2006. By family of business, sales in the first quarter of 2007 were strongest in dresses, juniors, handbags, shoes, young men's, luggage and mattresses. The weaker businesses during the quarter were furniture, the seasonal businesses and the traditional, moderate businesses including structured career looks.

Cost of sales was \$3,564 million or 60.2% of net sales for the first quarter of 2007, compared to \$3,627 million or 61.2% of net sales for the first quarter of 2006, a decrease of \$63 million. The cost of sales rate in the first quarter of 2006 was negatively impacted by markdowns in the legacy May locations needed to improve aging and transition to the Macy's assortments. In addition, gross margin in the first quarter of 2006 included \$6 million of inventory valuation adjustments related to the integration of May and Macy's merchandise assortments. The valuation of merchandise inventories on the last-in, first-out basis did not impact cost of sales in either period.

Selling, general and administrative ("SG&A") expenses were \$2,113 million or 35.7% of net sales for the first quarter of 2007, compared to \$2,154 million or 36.3% of net sales for the first quarter of 2006, a decrease of \$41 million. The SG&A expense rate in the first quarter of 2007 benefited from the achievement of cost savings and merger synergies, primarily related to merchandising, logistics, advertising and general management expenses, partially offset by higher selling expense and lower credit revenue resulting from the sale of the May Credit Assets in 2006. SG&A expenses in the first quarter of 2007 included higher depreciation and amortization expense and lower retirement expenses, compared to the first quarter of 2006. Depreciation and amortization expense was \$329 million for the first quarter of 2007, compared to \$316 million for the first quarter of 2006. Pension and supplementary retirement plan expense amounted to \$34 million for the first quarter of 2007, compared to \$49 million for the first quarter of 2006.

May integration costs for the first quarter of 2007 amounted to \$36 million, primarily related to additional costs related to closed locations, final system conversion costs and costs related to other operational consolidations. May integration costs for the first quarter of 2006 amounted to \$123 million, primarily related to costs associated with the closing of duplicate store locations.

Net interest expense was \$125 million for the first quarter of 2007, compared to \$138 million for the first quarter of 2006, a decrease of \$13 million. The decrease in net interest expense for the first quarter of 2007 as compared to the first quarter of 2006 resulted primarily from the paydown of acquisition-related borrowings primarily with the proceeds from the sales of credit card accounts and receivables, the net effect of new debt issued and associated repurchase of approximately \$957 million aggregate amount of the Company's senior unsecured notes completed in 2006 and higher levels of invested cash.

The Company's effective income tax rates of 37.2% for the first quarter of 2007 and 37.5% for the first quarter of 2006 differ from the federal income tax statutory rate of 35.0%, and on a comparative basis, principally because of the impact of the effect of state and local income taxes.

For the first quarter of 2007, the loss from the discontinued operations of the acquired After Hours Formalwear business, net of income taxes, was \$16 million on sales of approximately \$27 million. The loss from discontinued operations includes the loss on disposal of the After Hours Formalwear business of \$7 million on a pre-tax and post-tax basis. For the first quarter of 2006, income from the discontinued operations of the acquired May bridal group business and Lord & Taylor division, net of income taxes, was \$22 million on sales of approximately \$564 million.

Liquidity and Capital Resources

The Company's principal sources of liquidity are cash from operations, cash on hand and the available credit facilities described below.

Net cash used by continuing operating activities in the first quarter of 2007 was \$370 million, compared to net cash used by continuing operating activities of \$114 million in the first quarter of 2006. The increase in net cash used by continuing operating activities in the first quarter of 2007 reflects the fact that the Company no longer owns May's proprietary credit receivables. In addition, inventory levels in the first quarter of 2006 were impacted by the liquidation of merchandise in the former May store locations, resulting in a decrease in merchandise inventories of \$27 million in the first quarter of 2006, as compared to an increase in merchandise inventories of \$182 million in the first quarter of 2007.

Net cash used by continuing investing activities was \$31 million for the first quarter of 2007, compared to net cash used by continuing investing activities of \$84 million in the first quarter of 2006. Continuing investing activities for the first quarter of 2007 include purchases of property and equipment totaling \$125 million and capitalized software of \$25 million. During the first quarter of 2007, the Company opened five new Macy's department stores and one Bloomingdale's department store. Continuing investing activities for the first quarter of 2007 also include \$66 million of proceeds from the disposition of the discontinued operations of After Hours Formalwear and \$52 million from disposal of property and equipment. Continuing investing activities for the first quarter of 2006 included purchases of property and equipment totaling \$86 million and capitalized software of \$17 million. The Company opened no new department stores during the first quarter of 2006.

Net cash used by the Company from all continuing financing activities was \$309 million for the first quarter of 2007, including the acquisition of 45 million shares of its common stock at an approximate cost of \$1,991 million and cash dividends paid of \$58 million, partially offset by debt issued of \$1,600 million and the issuance of \$226 million of its common stock, primarily related to the exercise of stock options. The debt issued during the first quarter of 2007 includes \$1,100 million of 5.35% senior notes due 2012 and \$500 million of 6.375% senior notes due 2037.

Net cash provided by the Company from all continuing financing activities was \$178 million for the first quarter of 2006, including the issuance of \$162 million of its common stock, primarily related to the exercise of stock options, an increase in outstanding checks of \$71 million and net debt issued of \$14 million, partially offset by cash dividends

paid of \$69 million. The net debt issued during the first quarter of 2006 included additional borrowings under the Company's commercial paper program, partially offset by the payment of \$100 million of senior debentures due 2006.

The Company is a party to a five-year credit agreement with certain financial institutions providing for revolving credit borrowings and letters of credit in an aggregate amount not to exceed \$2,000 million outstanding at any particular time. The Company also maintains an unsecured commercial paper program pursuant to which it may issue and sell commercial paper in an aggregate amount at any particular time not to exceed its then-current borrowing availability under the revolving credit facility described above. As of May 5, 2007, the Company had no borrowings outstanding under these agreements.

On February 26, 2007, the Company's board of directors approved an additional \$4,000 million authorization to the Company's existing share repurchase program. The Company used a portion of this authorization to effect the immediate repurchase of 45 million outstanding shares for an initial payment of approximately \$2,000 million, subject to settlement provisions pursuant to the terms of two related accelerated share repurchase agreements, which include derivative financial instruments indexed to the Company's shares. [Upon settlement of the accelerated share repurchase agreements in May and June of 2007, the Company received approximately 700,000 additional shares of its common stock, resulting in a total of approximately 45.7 million shares being repurchased.] As of May 5, 2007, the Company had approximately \$2,182 million of authorization remaining under its share repurchase program. The Company may continue or, from time to time, suspend repurchases of shares under its share repurchase program, depending on prevailing market conditions, alternate uses of capital and other factors.

On March 7, 2007, the Company issued \$1,100 million aggregate principal amount of 5.35% senior unsecured notes due 2012 and \$500 million aggregate principal amount of 6.375% senior unsecured notes due 2037. A portion of the net proceeds of the debt issuances was used to repay commercial paper borrowings incurred in connection with the accelerated share repurchase agreements and the balance is being used for general corporate purposes.

The Company has \$400 million of 3.95% senior notes due July 15, 2007, \$6 million of 9.93% medium term notes due August 1, 2007 and \$225 million of 7.9% senior debentures due October 15, 2007.

On May 18, 2007, the Company's board of directors declared a regular quarterly dividend of 13 cents per share on its common stock, payable July 2, 2007, to shareholders of record at the close of business on June 15, 2007. This dividend reflects an increase of two percent over the previous quarterly dividend rate of 12.75 cents per share.

Management believes that, with respect to the Company's current operations, cash on hand and funds from operations, together with its credit facilities and other capital resources, will be sufficient to cover the Company's reasonably foreseeable working capital, capital expenditure and debt service requirements and other cash requirements in both the near term and over the longer term. The Company's ability to generate funds from operations may be affected by numerous factors, including general economic conditions and levels of consumer confidence and demand; however, the Company expects to be able to manage its working capital levels and capital expenditure amounts so as to maintain sufficient levels of liquidity. Depending upon conditions in the capital markets and other factors, the Company will from time to time consider the issuance of debt or other securities, or other possible capital markets transactions, the proceeds of which could be used to refinance current indebtedness or for other corporate purposes.

Management believes the department store business and other retail businesses will continue to consolidate. The Company intends from time to time to consider additional acquisitions of, and investments in, department stores and other complementary assets and companies. Acquisition transactions, if any, are expected to be financed from one or more of the following sources: cash on hand, cash from operations, borrowings under existing or new credit facilities and the issuance of long-term debt, commercial paper or other securities, including common stock.

Item 4. Controls and Procedures

The Company's Chief Executive Officer and Chief Financial Officer have carried out, as of May 5, 2007, with the participation of the Company's management, an evaluation of the effectiveness of the Company's disclosure controls and procedures, as defined in Rule 13a-15(e) under the Exchange Act. Based upon this evaluation, the Chief Executive Officer and Chief Financial Officer have concluded that the Company's disclosure controls and procedures are effective to provide reasonable assurance that information required to be disclosed by the Company in reports the Company files under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the SEC rules and forms and that information required to be disclosed by the Company in the reports the Company files or submits under the Exchange Act is accumulated and communicated to the Company's management, including its Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

There were no changes in the Company's internal controls over financial reporting that occurred during the Company's most recently completed fiscal quarter that materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II -- OTHER INFORMATION

MACY'S, INC.

Item 1. Legal Proceedings.

On January 11, 2006, Edward Decristofaro, an alleged former May stockholder, filed a purported class action lawsuit on behalf of all former May stockholders in the Circuit Court of St. Louis, Missouri against May and the former members of the board of directors of May. The complaint generally alleges that the directors of May breached their fiduciary duties of loyalty, due care, good faith and candor to May stockholders in connection with the Merger. The Company believes the lawsuit is without merit and intends to contest it vigorously. The defendants have filed a motion to dismiss the lawsuit upon which the court has not yet ruled.

On June 4, 2007, Robert L. Garber filed a purported class action lawsuit on behalf of persons who purchased shares of the Company's common stock between February 8, 2007 and May 15, 2007 in the United States District Court for the Southern District of New York against the Company and certain members of its senior management. The complaint alleges that the defendants made false and misleading statements regarding the Company's business, operations and prospects in relation to the integration of the acquired May operations, resulting in supposed "artificial inflation" of the Company's stock price during the relevant period, in violation of Sections 10(b) and 20(a) of the Securities Exchange Act of 1934 and Rule 10b-5 thereunder. The plaintiffs seek an unspecified amount of compensatory damages and costs including attorneys' fees, accountants' fees and experts' fees. Management believes that the allegations contained in the complaint are without merit and intends to defend vigorously against those allegations.

Item 1A. Risk Factors.

There have been no material changes to the Risk Factors described in Part I, "Item 1A. Risk Factors" in the Company's Annual Report on Form 10-K for the fiscal year ended February 3, 2007 as filed with the Securities and Exchange Commission.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

The following table provides information regarding the Company's purchases of common stock during the first quarter of 2007:

Edgar Filing: Macy's, Inc. - Form 10-Q

	Total Number of Shares Purchased (thousands)	Average Price per Share (\$)	Total Number of Shares Purchased Under Program (1) (thousands)	Open Authorization Remaining (1) (\$) (millions)
February 4, 2007 - March 3, 2007	45,046	44.17	45,000	2,182
