Crimson Exploration Announces First Quarter 2008 Financial Results

HOUSTON, May 14, 2008 (BUSINESS WIRE) -- Crimson Exploration Inc. (OTCBB: CXPO) today announced financial results for the first quarter 2008.

Highlights

- § Record quarterly revenue of \$45.0 million
- § Record quarterly production of 4.8 Bcfe
- § Daily production for the first quarter of 2008 averaged 52,570 Mcfed, up 772% over the 2007 quarter
- § Sale of Barnett Shale interests for approximately \$34.0 million
- § Reduction in net debt by \$31.0 million

Summary Financial Results

The Company reported income before income taxes for the first quarter of 2008 of \$1.3 million compared to a loss before income taxes of \$2.5 million for the first quarter of 2007. Negatively impacting the first quarter results for 2008 was a \$28.5 million non-cash charge recorded to reflect the unrealized mark-to-market exposure on our commodity price and interest rate hedge instruments as required by SFAS 133

Accounting for Derivative Instruments and Hedging Activities . Recorded in the first quarter 2007 was a \$1.9 million non-cash charge related to the mark-to-market requirement. Also recognized in the first quarter of 2008 was a \$15.2 million gain on the sale of our interests in the Fort Worth Barnett Shale. Exclusive of the effects of the mark-to-market charges in 2007 and 2008, and the gain from the Barnett Shale in 2008, income before taxes for the first quarter of 2008 would have been \$14.6 million, compared to a loss before taxes of \$0.7 million in 2007. Net income for the first quarter of 2008 was \$0.7 million compared to a net loss of \$1.6 million for the first quarter of 2007.

Net cash flow from operations for the first quarter of 2008, which consists of net cash provided by operating activities, plus the period change in certain working capital and other cash flow items, was \$27.6 million, a \$26.3 million increase over the \$1.3 million reported for the 2007 quarter. The increase in cash flow was attributable to the South Texas and Gulf Coast producing assets acquired in May 2007 ("STGC Acquisition"), offset in part by increased interest expense and general and administrative costs related to the increase in debt and infrastructure growth after the acquisition.

Revenues for the first quarter of 2008 were \$45.0 million compared to revenue of \$4.5 million in the prior year quarter, an approximate ten-fold increase that was attributable primarily to the STGC Acquisition, and to a lesser extent, higher oil and gas price realizations.

Production for the first quarter of 2008 was 4.8 Bcfe of natural gas equivalents, or 52,570 Mcfe per day, compared with production of 542,818 Mcfe, or 6,031 Mcfe per day, in the 2007 quarter. The dramatic increase in production for the quarter was attributable to the STGC Acquisition and to production increases from our 2007 and 2008 drilling programs.

Average prices realized in the first quarter of 2008 (including the effects of realized gains/losses on our commodity price hedges) were \$78.62 per barrel, \$8.39 per Mcf, \$57.18 per barrel and \$9.39 per Mcfe for oil, natural gas, natural gas liquids and natural gas equivalents, respectively. For the first quarter of 2007, average prices realized were \$60.28 per barrel, \$7.07 per Mcf and \$8.33 per Mcfe for oil, natural gas, and natural gas equivalents, respectively.

Lease operating expenses for the first quarter of 2008 were \$8.7 million compared to \$1.8 million in the prior year quarter, an increase primarily due to the additional properties from the STGC Acquisition. On a per Mcfe produced basis, lease operating expenses were \$1.82 per Mcfe for the first quarter 2008, compared to \$3.34 per Mcfe for the first quarter 2007. Exploration expenses were \$86,000 for the first quarter of 2008 compared to \$136,000 for the prior year quarter. DD&A expense for the first quarter of 2008 was \$11.2 million, or \$2.33 per Mcfe, compared to \$0.8 million, or \$1.42 per Mcfe, in the prior year quarter.

Edgar Filing: CRIMSON EXPLORATION INC. - Form 8-K

General and administrative expense in the first quarter of 2008 was \$4.7 million, or \$0.99 per Mcfe, compared to \$2.3 million, or \$4.26 per Mcfe, in the prior year quarter. The increase in total expense over the prior year was primarily due to higher personnel and infrastructure costs associated with the expansion of our technical and support teams after the STGC Acquisition. Exclusive of the non-cash stock option expense recognized pursuant to SFAS 123R, cash general and administrative expenses were \$0.74 per Mcfe for the first quarter of 2008 and \$2.39 per Mcfe for the first quarter of 2007.

Other expense was \$34.1 million for the first quarter of 2008 compared to \$2.0 million in the prior year quarter. The major increases in these quarterly amounts were higher interest expense of \$5.2 million in 2008, compared to \$18,000 in 2007, due to the higher outstanding balances on our credit facilities related to the STGC Acquisition, and the non-cash charge of \$28.5 million in 2008 related to the unrealized mark to market exposure on our derivative instruments, compared to a similar non-cash charge of \$1.9 million in 2007.

Non-GAAP Financial Measures

Crimson also presents earnings before interest, taxes, depreciation, amortization and exploration expenses (EBITDAX) and net cash flow from operations, which consists of net cash, provided by operating activities plus the period change in certain working capital and other cash flow items. Exploration expenses include geological and geophysical costs, lease rental costs and dry hole costs expensed under the successful efforts method of accounting, but capitalized under the alternative full cost accounting rules. Management uses these measures to assess the company's ability to generate cash to fund operations, exploration and development activities. Management interprets trends in these measures in a similar manner as trends in operations, cash flow and liquidity. Neither EBITDAX, nor net cash flows from operations, should be considered as alternatives to net income (loss), income from operations or net cash provided by operational activities as defined by GAAP. The following is a reconciliation of net cash provided by operating activities to net cash flow from operations and EBITDAX:

	Three Months Ended
