PART I

ITEM 1.

BUSINESS

Overview: Good Times Restaurants Inc., a Nevada corporation (the Company), was organized in 1987. Through our wholly-owned subsidiary, Good Times Drive Thru Inc., a Colorado corporation (Drive Thru), we are engaged in the business of developing, owning, operating and franchising hamburger-oriented drive-through restaurants under the name Good Times Burgers & Frozen Custard. Most of our Good Times restaurants are located in the front-range communities of Colorado but we also have franchised restaurants in Wyoming. Over the past three years we have experienced significant growth in our same store sales in our Good Times Burgers & Frozen Custard restaurants which has led to significant improvement in our operating margins and the profitability of the Company.

In fiscal 2013, we entered into a series of agreements with Bad Daddy's International, LLC, a North Carolina limited liability company (BDI), and Bad Daddy's Franchise Development, LLC, a North Carolina limited liability company (BDFD), to acquire the exclusive development rights for Bad Daddy's Burger Bar restaurants in Colorado, additional restaurant development rights for Arizona and Kansas through our wholly owned subsidiary BD of Colorado LLC (BD of Colo), and a 48% voting ownership interest in the Bad Daddy's Burger Bar franchisor entity, BDFD. During fiscal 2014, we exchanged the development rights for Arizona for the development rights for Oklahoma.

BD of Colo is engaged in the business of developing, owning and operating full service hamburger-oriented restaurants under the name Bad Daddy's Burger Bar. The Company manages BDFD under a management agreement and BDFD is engaged in the business of franchising Bad Daddy's Burger Bar restaurants in certain targeted markets across the country. We do not consolidate the operations of BDFD in our financial statements and account for our 48% ownership interest under the equity method of accounting.

During fiscal 2014 BD of Colo opened two Bad Daddy's restaurants in the Denver metropolitan area and a third is expected to open in January 2015. Subsequent to fiscal year end, Drive Thru opened one new Good Times restaurant on November 20, 2014 and closed on the purchase of land for development of an additional Good Times restaurant expected to open in the Spring of 2015.

During fiscal 2014 and subsequent to fiscal year end, we have also significantly increased the equity of the Company through the exercise of Series A, Series B and Underwriter Warrants.

The terms Good Times, we, us and our where used herein refer to the operations of Drive Thru, BD of Colo and Company.

Financial & Brand Highlights

.

We have had seventeen consecutive quarters of same store sales growth.

.

We had a 14.6% increase in same store sales for the fiscal year ended September 30, 2014 (fiscal 2014) in addition to the increase in same store sales for fiscal 2013 of 12%.

We ended fiscal 2014 with \$9.9 million in cash with minimal long term debt, and subsequent to the fiscal year end we had additional warrant exercise proceeds that yielded \$3.2 million in proceeds.

Our net revenues for fiscal 2014 increased by \$5,145,000 (+22.5%) to \$28,037,000 from \$22,892,000 in fiscal year 2013, primarily due to increased Good Times same store sales, and the opening of two Bad Daddy s locations.

Our loss from operations was \$219,000 in fiscal 2014 compared to \$392,000 in fiscal 2013. Fiscal 2014 included \$570,000 of increased new store opening costs as compared to fiscal 2013 as well as the initial operating losses from our first Bad Daddy s restaurant in Colorado.

Our net loss was \$370,000 for fiscal 2014 compared to \$544,000 for fiscal 2013.

During fiscal 2012, we began a reimagining and remodeling program for our older restaurants that continued in fiscal 2014 and that we plan to continue in fiscal 2015. In fiscal 2014 we spent approximately \$500,000 on recurring and remodeling capital expenditures and we plan to spend approximately \$1,700,000 on recurring and remodeling capital expenditures in fiscal 2015.

We believe Good Times is the only quick service restaurant concept in Colorado offering all natural beef and chicken with no hormones, no steroids, no antibiotics and humanely raised, vegetarian fed animals with no animal byproducts in the feed in all of its hamburger and chicken menu items.

We continued our television campaign in fiscal 2014 that began in March of 2013 with four distinct product

windows, communicating Good Times core brand attributes of fresh, all natural, hand crafted products with taste profiles available only at Good Times, which has contributed to our continued same store sales increases through fiscal 2014.

We opened a new Good Times restaurant on November 20, 2014 with new interior design finishes and décor that we believe continues to help set Good Times apart from mainstream hamburger quick service restaurants, utilizing finishes and design elements more commonly seen in fast casual restaurants. We plan to build additional Good Times Burgers & Frozen Custard company-owned restaurants in Colorado, utilizing our 2,200 square foot, 48 seat dining room design, our 2,400 square foot, 70 seat dining room design as well as converting buildings from other restaurant concepts.

Our second Bad Daddy's restaurant in Colorado opened on July 28, 2014 and continues to produce the highest average weekly sales of all Bad Daddy's restaurants in the system. Our third Bad Daddy's in Colorado is expected to open in January 2015 and we plan to build additional Bad Daddy's Burger Bar restaurants in Colorado and other states.

Recent Developments

During fiscal 2014, our liquidity and equity significantly increased from the exercise of approximately 97% of the Series B warrants and approximately 50% of the Series A warrants. Subsequent to the fiscal year end we announced that a total of 2,450,100 Series A Warrants, representing 97% of the outstanding Series A Warrants and 100% of the 154,000 Underwriter Warrants, were exercised by the holders. Total gross proceeds from all warrants exercised were approximately \$10,100,000.

In October 2014 the Company mailed a notice of redemption to all holders of the Company's A Warrants. Each A Warrant was exercisable for one share of common stock at \$2.75 per share until 5:00 p.m. Colorado Time on Friday, November 14, 2014. Holders of the A Warrants are no longer entitled to exercise their warrants for common stock and have no rights, except to receive the redemption price of \$.01 per A Warrant, upon surrender of their Series A Warrants. No other warrants remain outstanding.

As reported on form 8-K, on July 30, 2014 Drive Thru entered into a Development Line Loan and Security Agreement with United Capital Business Lending (Lender), pursuant to which Lender agreed to loan Drive Thru up to \$2,100,000 (the Loan) and entered into a Collateral Assignment of Franchise Agreements, Management Agreement and Partnership Interests with Lender. As of September 30, 2014, Drive Thru had borrowed approximately \$196,000 under the Loan Agreement. In addition, on July 30, 2014, the Company entered into a Guaranty Agreement (the Guaranty Agreement) with Lender, pursuant to which the Company guaranteed the repayment of the Loan. The Loan Agreement, Collateral Assignment, Notes (as defined below) and Guaranty Agreement are referred to herein as the Loan Documents.

Under the terms of the Loan Agreement, Drive Thru may use up to \$750,000 of the Loan to purchase a Point of Sale System and up to \$1,350,000 of the Loan for the development of three new Good Times restaurants. Drive Thru may request disbursements under the Loan Agreement for development costs of Good Times restaurants on or before July 1, 2015. In connection with each disbursement under the Loan Agreement, Drive Thru shall execute a Promissory Note (the Notes) in the full amount of each disbursement request. The Notes incur interest at a rate of 6.69% per annum, are repayable in monthly installments of principal and interest over 84 months, and contain other customary terms and conditions. The Notes are subject to certain prepayment fees ranging between 1% and 3% of the unpaid

balance at such time if Drive Thru repays a Note in certain circumstances prior to the thirty seventh monthly installment under such Note.

The Loan Agreement and Notes contain customary representations, warranties and affirmative and negative covenants, including without limitation, covenants to maintain certain insurance coverage and to maintain a certain debt service coverage ratio, leverage ratio, and quick ratio.

After the occurrence and during the continuation of an event of default, interest on the Notes will accrue at a rate of 11.69% per annum and Lender may declare the unpaid principal balance of the Notes, together with accrued but unpaid interest, immediately due and payable. An event of default under the Loan Documents includes, but is not limited to, any of the following: failure to pay principal or interest when due, breach of any representation or warranty in the Loan Documents, commencement of dissolution or liquidation proceedings by the Company or Drive Thru, insolvency or bankruptcy of the Company or Drive Thru, or failure of the Company or Drive Thru to comply with any material term of the Loan Documents.

The Loan Agreement and Notes are secured by substantially all of Drive Thru's assets, including, but not limited to its interest in Fast Restaurants Co-Development Limited Partnership and all distributions and proceeds relating to such partnership interest. Fast Restaurants Co-Development Limited Partnership is a partnership in which the Company owns an approximate 51% interest in the partnership and exercises complete management control over all decisions for the partnership.

The Company has provided customary representations and warranties and made customary affirmative and negative covenants to Lender pursuant to the terms of the Guaranty Agreement, including without limitation, a covenant to not, without Lender's prior written consent, (a) enter into or be a party to a merger, consolidation, reorganization, or exchange of stock or assets, (b) transfer or assign assets which could result in a material adverse change to the business, (c) permit the sale or encumbrance of Drive Thru, (d) incur additional indebtedness in excess of \$100,000, except as previously disclosed to Lender or unsecured trade accounts incurred in the ordinary course of business, or (e) materially modify or amend, or permit Drive Thru to modify or amend, any term or condition of any franchise, lease, management, employment, development, limited partnership forbearance or use or licensing agreement to which Drive Thru or the Company is a party.

As reported on form 8-K, on December 22, 2014 we reported that effective at the Company's next Meeting of Shareholders, currently scheduled for February 4, 2015, the Board of Directors of the Company approved and adopted an amendment to Article III, Section 3 of the Company's bylaws to decrease the maximum number of directors of the Company from nine members to seven members.

Concepts:

Good Times Burgers & Frozen Custard

We operate Good Times Burgers & Frozen Custard restaurants with two different formats that have evolved over the course of our history: a smaller, 880 to 1,000 square foot building without indoor seating that is focused on drive-through service and limited walk up service; and a 2,400 square foot, 70 seat dining room. We have further refined the prototype design to reduce development costs and improve the return on investment model for future company-owned and franchised restaurant expansion with a 2,200 square foot, 48 seat dining room design that will carry forward all of the core design elements that enhance our higher quality, all-natural brand image.

We operate at the upper end of the quick service restaurant (QSR) category in terms of the quality of our ingredients and pricing strategy, without a \$1 menu or deep discounting. Consumer research has shown us that the customer feels a strong connection to us and feels better about choosing Good Times Burgers & Frozen Custard over the larger hamburger QSR brands due to the quality of our ingredients and brand personality. As a result we have developed a communications umbrella called "Happiness Made to Order" with three primary brand pillars of Innovation, Quality and Connectedness. All of our product initiatives are designed to support a brand position that adds differentiation to our concept within the landscape of QSR competitors, particularly in the hamburger segment. Within Innovation we strive to create products and flavor profiles available only at Good Times Burgers & Frozen Custard that challenge QSR norms. Within Quality, our products are supported by Fresh, All Natural, Handcrafted attributes using high quality, regional ingredients. Within Connectedness, we strive to create connections with our customers based on the Colorado lifestyle, local brand partners and community support and involvement. We believe Good Times Burgers & Frozen Custard is the only QSR chain in the region serving Fresh All Natural Angus beef and All Natural Chicken with no hormones, no steroids, no antibiotics and humanely raised animals with no animal byproducts in the feed.

We continued to promote our core product introductions in fiscal 2014 with a combination of limited time offers and permanent product introductions including our Boneless Hand Breaded All Natural Chicken, Sweet Potato Fries, Summer and Holiday Shakes, \$2 Hatch Valley New Mexico Green Chile Breakfast Burritos, Fresh Frozen Custard

items and toppings for our Wild Fries and Fresh Cut Fries. During 2015, we plan to focus on innovation and improvements in each of our menu categories of burgers, chicken, sides, frozen custard and breakfast.

While our primary value proposition for the consumer is derived from the quality of ingredients and taste of our products, the current competitive and consumer spending environment continues to redefine value expectations within the QSR segment and a larger number of transactions are being driven by the availability of menu items at lower price points. Our lower priced options are consistent with our brand strategy to offer fresh, real, handcrafted food with unique flavor profiles in our core menu categories of burgers, chicken, fries, frozen custard and fountain products, and we continue to evolve our overall menu price ranges available for our customers, including a lower tier option, a mid-tier everyday option and a premium tier for specialty products.

We will continue to focus on elevating the attributes of our menu items that we believe give us a unique position in hamburger quick service restaurants. Fresh All Natural Angus beef and All Natural Chicken that is free from hormones, steroids and antibiotics and humanely raised with no animal byproducts in the feed; Fresh Frozen Custard made fresh every few hours in every restaurant; Fresh Grilled Honey Cured Bacon; Fresh Lemonade; Fresh Cut Fries; All-Natural, Hand-Breaded Chicken; Freshly Sliced Produce and toppings such as real guacamole and sautéed mushrooms. We continue to invest in new equipment with the goal of achieving a more hot-off-the-grill, cooked to order flavor that is more common in fast casual and casual theme concepts than in quick service restaurants and with the goal of providing the best quality French fries we can.

Bad Daddy's Burger Bar

Bad Daddy's Burger Bar operates in the emerging small box, grill and bar segment, which has a higher average check and we believe is a step above fast casual concepts such as Five Guys and Smashburger and casual theme concepts such as Chili's and Red Robin in terms of food quality and price points, but below polished casual or sports themed big box concepts, such as BJ's, Cheesecake Factory and Buffalo Wild Wings. The average size of a Bad Daddy's Burger Bar prototype restaurant is approximately 3,500 to 3,800 square feet which is smaller than other grill and bar segment competitors. The menu consists of chef driven recipes within a relatively simple menu of signature burgers, salads, sandwiches and appetizers in a high energy, pop culture oriented atmosphere. The bar is dominated by craft beers and, while prominent enough to impact the overall feel of the design, we do not believe it is so dominant as to be a turn off for families. We believe the food quality is far superior to casual theme concepts, rivaling upscale casual concepts, with menu item names that evoke an irreverent personality. Bad Daddy's Burger Bar has been recognized for best burger and has received many other accolades by the Charlotte, North Carolina press and community as well as by USA Today as being one of the top 25 best burgers in the country.

Small box dining is the smallest, yet fastest growing portion of fast and full-service casual dining, reflecting years of evolution and innovation. We believe that Bad Daddy's Burger Bar combines a reasonable average check, high personality and convenient experience, innovative recipes and above average quality yielding a strong value proposition. Fast casual has exhibited the majority of the growth in the restaurant industry over the last decade and represents the largest segment within small box dining at nearly \$23 billion in sales led by concepts such as Panera Bread, Chipotle, Noodles, Pei Wei, Five Guys and Corner Bakery.

We believe that Bad Daddy's Burger Bar is differentiated from other casual grill and bar concepts, with a focused, yet sufficiently diverse menu featuring a selection of unique, chef-developed, gourmet menu items in an atmosphere with a purposefully unsophisticated feel. With a per person average check that is higher than casual theme concepts such as Chili's and Red Robin, Bad Daddy's Burger Bar is similar to Burger Lounge, The Counter and Bobby's Burger Palace, but below Zinburger, Five Napkin Burger and other higher check concepts, based on our knowledge of publicly available information about those concepts. Bad Daddy's Burger Bar offers a full bar with the majority of its alcohol sales derived from craft microbrew beers. Sales are divided almost equally between lunch and dinner with hours of operation from 11 am to 11 pm with restaurants open slightly later on weekends, depending on the surrounding trade area.

Based on management's review of the average sales of the three operating restaurants that have been open for more than one year, we anticipate that Bad Daddy's restaurants will generate much higher sales per square foot than the average for quick service restaurants and higher than the publicly reported sales per square foot of concepts such as Panera Bread, Five Guys Burgers & Fries and BJ's Restaurants. We estimate that it will require a cash investment of \$700,000 to \$1,000,000 to open each restaurant in the State of Colorado and anticipate a return on investment model that is very competitive in the industry, based on our knowledge of existing Bad Daddy's Burger Bar restaurants, the BDFD Franchise Disclosure Document, our experience to-date and other publicly available information of similarly sized restaurant concepts. The existing Bad Daddy's Burger Bar average sales per restaurant are much higher than the

Good Times Burgers & Frozen Custard average sales per restaurant, as is their average check.

BDFD has prepared a Franchise Disclosure Document, operating systems and processes and registered trademarks and we anticipate we will pursue expansion through the sale of franchises in certain markets.

Business Strategy

We are focused on continuing to improve the profitability of Drive Thru and developing additional Good Times Burgers & Frozen Custard restaurants in our home state of Colorado while developing the Bad Daddy's Burger Bar concept with company-owned restaurants in Colorado, Oklahoma and Kansas and with franchised restaurants in other markets in the U.S. allowing us to leverage these strengths and opportunities:

- Good Times is a 27 year old company with a vibrant, high quality brand position in Colorado.

.

We have minimal bank debt, a healthy balance sheet with positive cash flow from operations and 17 consecutive quarters of same store sales growth.

.

We have an existing infrastructure with sophisticated systems and processes in place that can be significantly leveraged with a new growth concept.

.

We have the exclusive right to develop Bad Daddy's Burger Bar restaurants in Colorado, as well as optional development rights in Kansas and Oklahoma.

.

We have a 48% ownership interest in BDFD, the franchisor of the Bad Daddy's Burger Bar concept, which we manage under a Management Services Agreement, with the goal of franchising primarily to experienced, multi-unit operators of other restaurant concepts.

.

We are partnering with successful serial restaurateurs in Bad Daddy's Burger Bar, which we believe is an exciting new, emerging growth concept.

Our strategies for growing the Company include the following:

1.

Consistently Grow Same Store Restaurant Sales. We will continue to focus on same store restaurant sales driven by increases in customer transactions and increases in the average customer check. Same store sales increased 14.2% in fiscal 2014 compared to fiscal 2013 and increased 12% in fiscal 2013 compared to fiscal 2012. We hope to continue to increase same store sales throughout fiscal 2015 through a multi-faceted approach to continually improve the Good Times Burgers & Frozen Custard brand experience for our customers through:

.

Utilizing enhanced customer feedback tools to evaluate our execution on the drivers of brand loyalty: food quality, speed of service, friendliness of employees, uniqueness of offerings and customer problem solving.

.

Growing the breakfast daypart sales that is currently generating sales of approximately 8% to 9% of total sales, consisting of Hatch Valley Green Chile Burritos, coffee and orange juice.

Our line of all natural, hand breaded chicken tenderloin products that was introduced in March 2013 which made Good Times Burgers & Frozen Custard the only QSR chain in Colorado offering all natural beef and chicken raised without hormones or antibiotics and vegetarian fed animals.

Continuing to communicate our core value proposition that is centered on the availability of fresh, high quality, handcrafted products at several different price points across our menu.

Augmenting our television advertising with an expanded social media presence.

Introducing both permanent and limited time products that are only available at Good Times Burgers & Frozen Custard.

Improving our drive thru speed of service.

Continuing our reinvestment in our existing facilities with reimagining and remodeling to bring all of our restaurants to the current brand standards in graphics, building finishes and appearance.

2.

Develop new Good Times Burgers & Frozen Custard Restaurants. We plan to build additional Good Times restaurants along the front range of Colorado, which primarily consists of the Denver Marketing Area from the southern boundary of the Denver metropolitan area to the Wyoming border, which we believe leverages our existing operational and marketing efficiencies. We plan to explore the feasibility of expanding the Good Times concept outside of Colorado through company-owned and franchised restaurants.

3.

Improve our Income from Operations by Managing the Profitability of Incremental Sales Growth. Historically, depending on the sales volume of each restaurant, we have experienced a 35% to 50% profit contribution on incremental sales. By managing the profitability of compounding sales increases, we believe we can continue to improve our income from operations as a percentage of total revenues.

4.

Expand Bad Daddy's Burger Bar. We intend to develop additional company-owned Bad Daddy's Burger Bar restaurants during fiscal 2015 and 2016 while laying the foundation for franchise growth through BDFD. While we have certain first rights of offer to purchase BDI's restaurants and BDI's interest in BDFD, we have no absolute rights to do so without BDI's decision to sell any of its interests and they may be able to sell BDI to a third party.

5.

Reduce Bad Daddy s Burger Bar Prime Costs. We believe that to optimize Bad Daddy s expansion potential of both company-owned and franchised restaurants that the total combined cost of sales and total labor and benefits costs as a percentage of restaurant sales (Prime Costs) needs to be consistently below 64% at the current average restaurant sales volume. We estimate that the impact of Colorado s tip credit minimum wage that increases to \$5.21 per hour in 2015 increases total labor costs approximately 3.5% of restaurant sales as compared to the federal tip credit minimum wage of \$2.13 per hour. Our goal is to work with the management of BDI to continue to explore and refine purchasing efficiencies, menu engineering and product development, labor efficiencies, restaurant staffing strategies and restaurant operating systems to reduce the total Prime Costs.

Expansion strategy and site selection

Good Times Burgers & Frozen Custard

We believe that our highest return on investment opportunity in our Good Times Drive Thru, Inc. subsidiary is to focus our growth in Colorado for operating and marketing efficiencies off of our existing base of restaurants while building new restaurants within the Denver marketing area.

Any development of new Good Times Burgers & Frozen Custard restaurants will involve our new prototype restaurant design on sites that are on or adjacent to big box or grocery store anchored shopping centers or in high activity and employment areas. Our site selection for new restaurants is oriented toward slightly higher income demographic areas than many of our urban locations and most of our targeted trade areas are in relatively high growth areas of the Denver and northern Colorado markets. We plan to explore a larger expansion of Good Times outside of Colorado with Company-owned or franchised restaurants.

We lease most of our sites. When we do purchase and develop a site, we intend to ultimately sell the developed site into the sale-leaseback market under a long term lease. Our primary site objective is to secure a suitable site, with the decision to buy or lease as a secondary objective. Our site criteria includes a mix of substantial daily traffic, density of at least 30,000 people within a three mile radius, strong daytime population and employment base, retail and entertainment traffic generators, good visibility and easy access.

Bad Daddy s Burger Bar

Our development of the Bad Daddy s Burger Bar concept in company-owned restaurants will focus on urban and suburban upper income demographic areas with median household incomes over \$60,000, with a high concentration of daytime employment, upscale retail, movie theaters and hospitals, initially along the front range of Colorado. BDFD will focus on the sale of multi-unit development agreements to experienced, well-capitalized multi-unit restaurant operators that have other non-competing concepts, as additional restaurants are developed by BDI and BD of Colo. We believe the Bad Daddy s Burger Bar concept has expansion potential in vibrant, growing, upper scale demographic markets, as additional restaurants are developed by BDI and BD of Colo.

Bad Daddy s Burger Bar locations are in-line and end-cap locations in new and existing shopping center developments using approximately 3,500 to 3,800 square feet. While our Good Times Burgers & Frozen Custard restaurants are free standing and require extensive site development and entitlement processes, Bad Daddy s Burger Bar restaurants can be developed much more quickly due to the requirement for only a building permit, signage approvals and liquor license without the need for extensive on- and off-site development or land and zoning submittals and modifications. We estimate that it will take approximately 75 to 90 days to develop a Bad Daddy s Burger Bar from the time a building permit is issued.

Good Times Restaurant locations: We currently operate or franchise a total of thirty-seven Good Times restaurants, of which thirty-five are in Colorado. Two of the restaurants are in Wyoming and are dual brand, operated pursuant to a Dual Brand Test Agreement with Taco John's International.

	Total	Denver, CO Greater Metro	Wyoming
Company-owned & Co-developed	26	26	
Franchised	9	9	
Dual brand franchised	2		2
	37	35	2

6

December:	2013	2014
Company-owned restaurants	18	19
Co-developed	7	7
Franchise operated restaurants	12	11
Total restaurants:	37	37

In December 2013 a Good Times franchisee closed a low volume restaurant in Lakewood, Colorado. In May 2014 a franchisee terminated its Good Times franchise agreement in the dual brand test concept and has stopped selling Good Times products at its North Dakota location. In November 2014 we opened a company-owned restaurant in Highlands Ranch, Colorado and in December 2014 we closed on the purchase of land for the development of a company-owned restaurant in Centennial, Colorado that we anticipate will open in the spring of 2015.

Bad Daddy's Restaurant locations: We currently operate two Bad Daddy's restaurants in the Denver, Colorado greater metropolitan area. We expect to open our third Colorado location in January 2015 and we have several more locations in various stages of negotiation for development in fiscal 2015 and 2016.

Menu

Good Times Burgers & Frozen Custard

The menu of a Good Times Burgers & Frozen Custard restaurant is limited to hamburgers, cheeseburgers, chicken sandwiches, French fries, onion rings, fresh squeezed and frozen lemonades, soft drinks and frozen custard products. Each menu item is made to order at the time the customer places the order and is not pre-prepared.

In November 2012 we introduced a breakfast menu consisting of Hatch Valley Green Chile Breakfast Burritos, orange juice and coffee. Our hamburger patties are made with Meyer All Natural, All Angus beef, served on a 4 bun. Hamburgers and cheeseburgers are garnished with fresh iceberg lettuce, fresh sliced sweet red onions, mayonnaise, guacamole, fresh grilled honey cured bacon, and proprietary sauces. The chicken products include 100% All Natural tenderloins that are hand breaded in each restaurant daily. Signature chicken products include the Hand Breaded Tenders, Buffalo Chicken Tender, Guacamole Bacon Chicken Tender, and a Tuscan Chicken. Equipment has been automated and equipped with compensating computers to deliver a consistent product and minimize variability in operating systems.

All natural Angus beef and 100% all natural chicken are raised without the use of any hormones, antibiotics or animal byproducts that are normally used in the open market. We believe that all natural beef and chicken deliver a better

tasting product and, because of the rigorous protocols and testing that are a part of the Meyer All Natural Beef and Springer Mountain Farms Chicken processes, may also minimize the risk of any food-borne bacteria-related illnesses.

Fresh frozen custard is a premium ice cream (requiring in excess of 10% butterfat content and 0.4% egg yolks) with a proprietary vanilla blend that is prepared from highly specialized equipment that minimizes the amount of air that is added to the mix and that creates smaller ice crystals than other frozen dairy desserts. The custard is scooped similarly to hard-packed ice cream but is served at a slightly warmer temperature. The resulting product is smoother, creamier and thicker than typical soft serve or hard-packed ice cream products. We serve the frozen custard as vanilla and a flavor of the day in cups and cones, specialty sundaes and Spoonbenders, a mix of custard and toppings, and we anticipate it will continue to be a significant percentage of sales as we continue to develop and promote custard products.

The breakfast menu is centered around Hatch Valley Green Chile Burritos made with our own proprietary green chile recipe using Hatch Valley, New Mexico roasted green chiles, eggs, potatoes, and cheese offered with the choice of bacon, sausage or chorizo. We also offer a premium coffee made by Daz Bog, a Colorado based coffee roaster, and pure 100% orange juice.

Bad Daddy s Burger Bar

The menu of Bad Daddy s Burger Bar consists of high quality, handcrafted burgers made from a proprietary blend of chuck and brisket with artisanal cheeses, tuna, turkey, buffalo and chicken sandwiches, chopped salads, appetizers, hand cut fries, house made potato chips, hand spun milk shakes, desserts, craft microbrews and a full bar. Customers have their choice of 7 different patty options, over 24 fresh toppings, 10 cheeses and other unusual flavors.

Burger toppings include items such as homemade mozzarella, hand breaded applewood smoked bacon, pesto and recipes such as the Bad Ass Burger, Mama Ricotta s Burger and Emilio s Chicken Sandwich. Chopped Salads include the Texican Chicken Salad, the Stella s Greek Salad and create your own salad options.

Bad Daddy's Burger Bar strives to provide proprietary flavors and recipes available nowhere else with fresh, handcrafted quality throughout the menu, including rotating chef specials that often utilize ingredients that are local to each market.

Marketing & Advertising

Good Times Burgers & Frozen Custard

Our marketing strategy for Good Times Burgers & Frozen Custard focuses on: 1) driving same store restaurant sales through attracting new customers and increasing the frequency of visits by current customers; 2) communicating specific product news and attributes to build strong points of difference from competitors; and 3) communicating a unique, strong and consistent brand personality.

Media is an important component of building our brand awareness and distinctiveness. We spent most of our broadcast advertising dollars on cable television media during fiscal 2013 and fiscal 2014. The Colorado market is an expensive media market, so most of our advertising placement is not in prime time but in early and late fringe, prime access and late news time slots. We augment our cable television advertising with a social media presence that affords us a higher level of engagement with current customers and an increased level of product giveaways to support high sales opportunity products.

We plan to continue to be active in digital and social media in order to create more customer engagement with our brand and to target specific consumer segments. We have increased our Facebook likes by approximately 60% during fiscal 2014 from fiscal 2013. We anticipate leveraging our customer email database and website to create cost effective channels to target existing customers and increase their frequency.

Bad Daddy's Burger Bar

Our marketing strategy for Bad Daddy's Burger Bar focuses on iconic, in-store merchandising materials and local store marketing to the surrounding trade area around each restaurant, including public relations and community based events. The focus is not on market wide promotions or marketing but on the in-store customer experience, building word of mouth reputation and recommendations and local public relations based on the prior awards and recognitions received by Bad Daddy's in its current market of Charlotte, North Carolina. We utilize trade area specific direct mail materials, particularly in support of new restaurant openings, to drive trial and initial awareness as well as targeted social media marketing. We plan to develop an expanded menu of rotating chef specials featuring unique taste profiles and local ingredients for burgers, salads, sandwiches and appetizers, supported by trade area specific beer offerings and bar promotions.

Operations

Drive Thru, BDI and BD of Colo have extensive operating, training and quality control systems in place and we plan to take a best practices approach with management of BDI and BDFD to adapt our systems and processes where practicable for the Bad Daddy's Burger Bar concept, except where noted below

Restaurant Management

Each Good Times Burgers & Frozen Custard restaurant employs a general manager, one to two assistant managers and approximately 15 to 25 employees, most of whom work part-time during three shifts. An eight to ten week training program is utilized to train restaurant managers on all phases of the operation. Ongoing training is provided as necessary. We believe that incentive compensation of our restaurant managers is essential to the success of our

business. Accordingly, in addition to a salary, managerial employees may be paid a bonus based upon proficiency in meeting financial, customer service and quality performance objectives tied to a monthly scorecard of measures. Most of our managers participate in a bonus plan based on their performance against their monthly financial, operating, customer and people development scorecard metrics.

Bad Daddy's Burger Bar was developed as a chef driven concept and utilizes a team of four to six managers in its operations at each restaurant. Managers are trained in back of the house skills (prep, kitchen positions, line management), front of the house service positions (host, server, bar) and all management functions. As a full service concept, the experience, qualifications and compensation differs from Good Times Burgers & Frozen Custard and we recruit and train a separate operating team for the Company's Bad Daddy's Burger Bar operations. In April 2013, we hired Scott Somes and Mike Maloney to lead the operations of BDFD and BD of Colo, both of whom have extensive experience in managing and developing full service restaurants. Our managers participate in a bonus pool for each restaurant based on a percentage of sales. Bonuses are awarded based on achieving financial, customer service and people development goals and metrics.

Operational Systems and Processes

We believe that we have high level operating systems and processes relative to those in the industry for both of our concepts. Detailed processes have been developed for hourly, daily, weekly and monthly responsibilities that drive consistency across our system of restaurants and performance against our standards within different day parts. We utilize a labor program to determine optimal staffing needs of each restaurant based on its actual customer flow and demand. We also employ several additional operational tools to continuously monitor and improve speed of service, food waste, food quality, sanitation, financial management and employee development. In fiscal 2014 we implemented a new point of sale computer system at all of our Good Times restaurants that will improve our ability to analyze transaction, sales mix and employee data that we believe can decrease our food waste and improve the effectiveness of store level marketing initiatives. The order system at each Good Times Burgers & Frozen Custard restaurant is equipped with an internal timing device that displays and records the time each order takes to prepare and deliver. During fiscal 2014, the average total transaction time for Good Times from the point of order to the delivery of food at the window was approximately 171 seconds. Our goal is to reduce that total transaction time to 160 seconds or less.

We use several sources of customer feedback to evaluate each restaurant's service and quality performance, including an extensive secret shopper program at Good Times restaurants, customer comment phone line, telephone surveys and website comments. During fiscal 2014 we implemented a new customer feedback tool that aggregates all social media comments as well as store by store surveys each week for each Good Times restaurant. We believe that information will assist us in evaluating opportunities for improved execution of the customer experience.

Training

We strive to maintain quality and consistency in each of our restaurants for both Good Times and Bad Daddy's through the careful training and supervision of all our employees at all levels and the establishment of, and adherence to, high standards relating to personnel performance, food and beverage preparation and maintenance of our restaurants. Each manager must complete an eight to ten week training program, be certified on several core processes and is then closely supervised to show both comprehension and capability before they are allowed to manage autonomously. All of our training and development is based upon a train, test, certify, re-train cycle around standards and operating processes at all levels. We conduct a semi-annual performance review with each manager to discuss prior performance and future performance goals. We have a defined weekly and monthly goal setting process around service, employee development, financial management and store maintenance goals for every restaurant. Additionally we have a library of video training tools to drive training efficiencies and consistency and we are currently developing the same platform for the Bad Daddy's operations.

Recruiting and Retention

We seek to hire experienced restaurant managers and Operating Partners. We support employees by offering competitive wages and benefits, including a 401(k) plan, medical insurance, and incentive plans at every level that are tied to performance against key goals and objectives. We motivate and prepare our employees by providing them with opportunities for increased responsibilities and advancement. We also provide various other incentives, including vacations, car allowances, monthly performance bonuses and monetary rewards for managers who develop future managers for our restaurants. We have implemented an online screening and hiring tool that has proven to reduce hourly employee turnover.

Franchising

For Good Times Burgers & Frozen Custard, we have prepared form area rights and franchise agreements, a Franchise Disclosure Document (FDD) and advertising material to be utilized in soliciting prospective franchisees, however we have not been actively soliciting new Good Times franchisees. We have historically sought to attract franchisees that are experienced restaurant operators, well capitalized and have demonstrated the ability to develop one to five restaurants. We review sites selected for franchises and monitor performance of franchise units. We are not currently soliciting new franchisees and anticipate building additional company-owned Good Times Burgers & Frozen Custard restaurants, but may choose to begin to solicit new franchisees for markets outside of Colorado.

We estimate that it will cost a Good Times Burgers & Frozen Custard franchisee on average approximately \$750,000 to \$1,200,000 to open a restaurant with dining room seating, including pre-opening costs and working capital, assuming the land is leased. A franchisee typically will pay a royalty of 4% of net sales, an advertising materials fee of at least 1.5% of net sales, plus participation in regional advertising up to an additional 4% of net sales, or a higher amount approved by the advertising cooperative, and initial development and franchise fees totaling \$25,000 per restaurant. Among the services and materials which we provide to franchisees are site selection assistance, plans and specifications for construction of the Good Times Burgers & Frozen Custard restaurants, an operating manual which

includes product specifications and quality control procedures, training, on-site opening supervision and advice from time to time relating to operation of the franchised restaurants.

After a Good Times Burgers & Frozen Custard franchise agreement is signed, we actively work with and monitor our franchisees to ensure successful franchise operations as well as compliance with our systems and procedures. During the development phase, we assist in the selection of sites and the development of prototype and building plans, including all required changes by local municipalities and developers. We provide an opening team of trainers to assist in the opening of the restaurant and training of the employees. We advise the franchisee on menu, management training, marketing, and employee development. On an ongoing basis we conduct standards reviews of all franchise restaurants in key areas including product quality, service standards, restaurant cleanliness and sanitation, food safety and people development.

We have entered into eleven Good Times & Frozen Custard franchise agreements in the greater Denver metropolitan area. In addition, seven joint-venture restaurants are operating in the Denver metropolitan area media market. Dual-branded franchised restaurants operate in Gillette and Sheridan, Wyoming.

For Bad Daddy's Burger Bar, our focus on franchising will be through our ownership in, and management of, BDFD. BDFD has a current FDD, form area rights and franchise agreements and two existing franchise agreements signed. We intend to expand the marketing of Bad Daddy's Burger Bar franchises on a broader scale as the concept is further developed by BDI and BD of Colo. We anticipate that a franchisee will typically pay a royalty of 4% to 5% of net sales and will participate in an Advertising Fund and local advertising by contributing up to 2% of net sales. Initial development and franchise fees are projected to be \$35,000 per restaurant. We estimate that it will cost a Bad Daddy's Burger Bar franchisee \$590,000 to \$1,382,000 to open a 3,000 to 3,800 square foot restaurant in an in-line or end-cap retail center, based on the BDFD Franchise Disclosure Document and our knowledge of the development costs of the existing Bad Daddy's Burger Bar restaurants. BDFD will provide similar support services to its franchisees and licensees that we provide to Good Times Burgers & Frozen Custard franchises. BDFD has entered into seven license agreements for restaurants in North Carolina operated by BDI, three license agreements for restaurants in Colorado and two franchise agreements.

Management Information Systems

Financial and management control is maintained through the use of automated data processing and centralized accounting and management information systems that we provide. Sales, labor and cash data is collected daily via a restaurant back office system which gathers data from the restaurant point-of-sale system. Management receives daily, weekly and monthly reports identifying food, labor and operating expenses and other significant indicators of restaurant performance. The major management information systems are divided by function:

.

Restaurant point of sale;

.

Restaurant back-of-house;

.

Financial;

Payroll/human resources; and

Internal operational reports.

We believe that these reporting systems are sophisticated and enhance our ability to control and manage operations. We recently implemented new point of sale equipment for our Good Times restaurants that is the same as used in our Bad Daddy s restaurants.

Food Preparation, Quality Control & Purchasing

We believe that we have excellent food quality standards relative to the industry. Our systems are designed to protect our food supply throughout the preparation process. We inspect specific qualified manufacturers and work together with those manufacturers to provide specifications and quality controls. Our operations management teams are trained in a comprehensive safety and sanitation course provided by the National Restaurant Association. Minimum cook temperature requirements and line checks throughout the day ensure the safety and quality of both burgers and other items we use in our restaurants.

We currently purchase 100% of the food and paper supplies for our Good Times Burgers & Frozen Custard restaurants and the majority of the food and paper supplies for our Bad Daddy s restaurants from Food Services of America. In addition, we maintain multiple approved suppliers for all key components of our menu to mitigate risk and ensure supply. Suppliers are chosen based upon their ability to provide (i) a continuous supply of product that meets all safety and quality specifications, (ii) logistics expertise and freight management, (iii) product innovation and differentiation, (iv) customer service, (v) transparency of business relationships and (vi) competitive pricing. Specified products are distributed to all restaurants through Food Services of America under a negotiated

contract directly to our restaurants two to four times per week depending on restaurant requirements. We do not believe that the current reliance on this sole distributor will have any long-term material adverse effect since we believe that there are a sufficient number of other suppliers from which food and paper supplies could be purchased with little or no interruption in service. We do not anticipate any difficulty in continuing to obtain an adequate quantity of food and paper supplies of acceptable quality and at acceptable prices.

Employees

At September 30, 2014, we had approximately 583 employees of which 475 are hourly employees and 108 are salaried employees working full time. We consider our employee relations to be good. None of our employees are covered by a collective bargaining agreement.

Competition

The restaurant industry, including the fast food segment, is highly competitive. Good Times Burgers & Frozen Custard competes with a large number of other hamburger-oriented fast food restaurants in the areas in which it operates. Many of these restaurants are owned and operated by regional and national restaurant chains, many of which have greater financial resources and experience than we do. Restaurant companies that currently compete with Good Times Burgers & Frozen Custard in the Denver market include McDonald's, Burger King, Wendy's, Carl's Jr., Sonic, Jack in the Box and Freddy's. Double drive-through restaurant chains such as Rally's Hamburgers and Checkers Drive-In Restaurants, which currently operate a total of over 800 double drive-through restaurants in various markets in the United States, are not currently operating in Colorado. Culver's and Freddy's are the only significant competitors offering frozen custard as a primary menu item operating in the Denver and Colorado Springs markets and both have a significant presence in Midwestern markets that may be targeted for expansion. Additional fast casual hamburger restaurants are being developed in the Colorado market, such as Smashburger and Five Guys; however, they do not have drive-through service and generate an average per person check that is approximately 50% higher than the average check at a Good Times Burgers & Frozen Custard restaurant.

We believe that Good Times Burgers & Frozen Custard may have a competitive advantage in terms of quality of product compared to traditional fast food hamburger chains. Early development of our double drive-through concept in Colorado has given us an advantage over other double drive-through chains that may seek to expand into Colorado because of our brand awareness and present restaurant locations. Nevertheless, we may be at a competitive disadvantage to other restaurant chains with greater name recognition and marketing capability. Furthermore, most of our competitors in the fast-food business operate more restaurants, have been established longer, and have greater financial resources and name recognition than we do. There is also active competition for management personnel, as well as for attractive commercial real estate sites suitable for restaurants.

Bad Daddy's Burger Bar competes with both local and national grill and bar concepts and gourmet, better burger concepts. As the concept is expanded, Bad Daddy's Burger Bar will compete against concepts such as Red Robin, Chili's, Burger Lounge, The Counter, and Bobby's Burger Palace. There are other burger-centric fast casual concepts such as Five Guys Burgers & Fries and Smashburger that operate at a lower average customer check than Bad Daddy's Burger Bar and others such as Zinburger, Bare Burger and Five Napkin Burger that operate with a higher average customer check. We believe that Bad Daddy's Burger Bar has an advantage in the handcrafted quality of its food, distinctiveness of its atmosphere and uniqueness of its menu offerings. Nevertheless, Bad Daddy's Burger Bar may be at a competitive disadvantage to other restaurant chains with greater name recognition.

Intellectual Property

We have registered our mark Good Times! Drive Thru Burgers (SM) with the State of Colorado. We have also registered our mark Good Times Burgers & Frozen Custard federally and with the State of Colorado. We received approval of our federal registration of Good Times in 2003. In addition we own trademarks or service marks that have been registered, or for which applications are pending, with the United States Patent and Trademark Office including but not limited to: Big Daddy Bacon Cheeseburger, Chicken Dunkers, Happiness Made To Order, Mighty Deluxe Pawbender, Spoonbender, Wild Fries, and Wild Dippin Sauce. Our trademarks expire between 2015 and 2018.

BDI has registered the mark Bad Daddy s Burger Bar with the United States Patent and Trademark Office. BDI owns this mark and licenses it to BDFD. The license agreement does not significantly limit BDFD s right and ability to use or license the use of the mark.

The trademarks and the proprietary aspects of the Bad Daddy s Burger Bar operating system, such as for example operating manuals, unique design elements and the unique equipment of the restaurants and the unique recipes, are owned by BDI. BDI has licensed the trademarks and such intellectual property aspects to BDFD for its use in

sublicensing and franchising the Bad Daddy's Burger Bar restaurants. The license fee is \$1,000 per year and the term of the license is the longer of 30 years or the term of any Bad Daddy's Burger Bar franchise agreement. BDFD is obligated to use such intellectual property in accordance with reasonable directions from BDI and the license can be terminated following any breach of the foregoing by BDFD which is not cured within 60 days after written notice of such breach. Because of BDI's 52% ownership of BDFD and its designation of a majority of the BDFD Managers, along with BDFD's intention to use the intellectual property in an approved manner, the Company views the possibility of such termination to be remote.

Government Regulation

Each of our restaurants is subject to the regulations of various health, sanitation, safety and fire agencies in the jurisdiction in which the restaurant is located. Difficulties or failures in obtaining the required licenses or approvals could delay or prevent the opening of a new restaurant. Federal and state environmental regulations have not had a material effect on our operations. More stringent and varied requirements of local governmental bodies with respect to zoning, land use and environmental factors could delay or prevent development of new restaurants in particular locations. We are subject to the Fair Labor Standards Act, which governs such matters as minimum wages, overtime, and other working conditions. In addition, we are subject to the Americans with Disabilities Act, which requires restaurants and other facilities open to the public to provide for access and use of facilities by the handicapped. Management believes that we are in compliance with the Americans with Disabilities Act. We will be subject to the Affordable Care Act beginning in 2015 and believe that we will have the required health insurance benefits for eligible employees.

We are also subject to federal and state laws regulating franchise operations, which vary from registration and disclosure requirements in the offer and sale of franchises to the application of statutory standards regulating franchise relationships. Many state franchise laws impose restrictions on the franchise agreements, including limitations on non-competition provisions and the termination or non-renewal of a franchise. Some states require that franchise materials be registered before franchises can be offered or sold in that state.

In addition, each Bad Daddy's Burger Bar restaurant requires a liquor license and adherence to the attendant laws and requirements regulating the serving and consumption of alcohol. Alcoholic beverage control regulations govern various aspects of these restaurants' daily operations, including the minimum age of patrons and employees, hours of operation, advertising, wholesale purchasing and inventory control, handling and storage. Typically, licenses to sell alcoholic beverages will require annual renewal and may be suspended or revoked at any time for cause, the definition of which varies by locality.

Available Information: Our Internet website address is www.goodtimesburgers.com. We make available free of charge through our website's investor relations information section our annual reports on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, and any amendments to those reports filed with or furnished to the SEC under applicable securities laws as soon as reasonably practical after we electronically file such material with, or furnish it to, the SEC. Our website information is not part of or incorporated by reference into this Annual Report on Form 10-K.

Special Note About Forward-Looking Statements: From time to time the Company makes oral and written statements that reflect the Company's current expectations regarding future results of operations, economic performance, financial condition and achievements of the Company. A forward-looking statement is neither a prediction nor a guarantee of future events. We try, whenever possible, to identify these forward-looking statements by using words such as "anticipate," "assume," "believe," "estimate," "expect," "intend," "plan," "project," "may," "will," "would," and similar expressions. Certain forward-looking statements are included in this Form 10-K, principally in the sections captioned "Business," and "Management's Discussion and Analysis of Financial Condition

and Results of Operations." Forward-looking statements are related to, among other things:

.

business objectives and strategic plans;

.

operating strategies;

.

our ability to open and operate additional restaurants profitably and the timing of such openings;

.

restaurant and franchise acquisitions;

.

anticipated price increases;

.

expected future revenues and earnings, comparable and non-comparable restaurant sales, results of operations, and future restaurant growth (both company-owned and franchised);

.

estimated costs of opening and operating new restaurants, including general and

administrative, marketing, franchise development and restaurant operating costs;

.

anticipated selling, general and administrative expenses and restaurant operating costs, including commodity prices, labor and energy costs;

.

future capital expenditures;

.

our expectation that we will have adequate cash from operations and credit facility borrowings to meet all future debt service, capital expenditure and working capital requirements in fiscal year 2014;

.

the sufficiency of the supply of commodities and labor pool to carry on our business;

.

success of advertising and marketing activities;

.

the absence of any material adverse impact arising out of any current litigation in which we are involved;

.

impact of the adoption of new accounting standards and our financial and accounting systems and analysis programs;

.

expectations regarding competition and our competitive advantages;

.

impact of our trademarks, service marks, and other proprietary rights; and

.

effectiveness of our internal control over financial reporting.

Although we believe that the expectations reflected in our forward-looking statements are based on reasonable assumptions, such expectations may prove to be materially incorrect due to known and unknown risks and uncertainties.

In some cases, information regarding certain important factors that could cause actual results to differ materially from any forward-looking statements appears together with such statement. In addition, the factors described under Critical Accounting Policies and Estimates in Part II, Item 7, and Risk Factors in Part I, Item 1A, as well as other possible

factors not listed, could cause actual results to differ materially from those expressed in forward-looking statements, including, without limitation, the following: concentration of restaurants in certain markets and lack of market awareness in new markets; changes in disposable income; consumer spending trends and habits; increased competition in the quick service restaurant market; costs and availability of food and beverage inventory; our ability to attract qualified managers, employees, and franchisees; changes in the availability of capital or credit facility borrowings; costs and other effects of legal claims by employees, franchisees, customers, vendors, stockholders and others, including settlement of those claims; effectiveness of management strategies and decisions; weather conditions and related events in regions where our restaurants are operated; and changes in accounting standards, policies and practices or related interpretations by auditors or regulatory entities.

All forward-looking statements speak only as of the date made. All subsequent written and oral forward-looking statements attributable to us, or persons acting on our behalf, are expressly qualified in their entirety by the cautionary statements. Except as required by law, we undertake no obligation to update any forward-looking statement to reflect events or circumstances after the date on which it is made or to reflect the occurrence of anticipated or unanticipated events or circumstances.

ITEM 1A.

RISK FACTORS

You should consider carefully the following risk factors before making an investment decision with respect to the Company's securities. You are cautioned that the risk factors discussed below are not exhaustive.

We have accumulated losses. We have incurred losses in every fiscal year in our 27 years since inception except in four fiscal years. As of September 30, 2014 we had an accumulated deficit of \$20,013,000. We may have a loss for the current fiscal year ending September 30, 2015 or we may not be profitable.

If we are unable to continue to increase same store sales at existing restaurants, our ability to attain profitability may be adversely affected. We must increase same store sales at our existing restaurants to attain profitability, which we have done for the past 17 consecutive quarters. Sales increases will depend in part on the success of our advertising and promotion of new and existing menu items and consumer acceptance. We cannot assure that our advertising and promotional efforts will in fact be successful. If our same store sales decrease, and our other operating costs increase, our ability to attain profitability will be adversely affected.

New restaurants, when and if opened, may not be profitable, if at all, for several months. We anticipate that our new restaurants, when and if opened, will generally take several months to reach normalized operating levels due to inefficiencies typically associated with new restaurants, including lack of market awareness, the need to hire and train a sufficient number of employees, operating costs, which are often materially greater during the first several months of operation than thereafter, pre-opening costs and other factors. In addition, restaurants opened in new markets may

open at lower average weekly sales volumes than restaurants opened in existing markets, and may have higher restaurant-level operating expense ratios than in existing markets. Sales at restaurants opened in new markets may take longer to reach average annual company-owned restaurant sales, if at all, thereby affecting the profitability of these restaurants.

Our operations are susceptible to the cost of and changes in food availability which could adversely affect our operating results. Our profitability depends in part on our ability to anticipate and react to changes in food costs. Various factors beyond our control, including adverse weather conditions, governmental regulation, production, availability, recalls of food products and seasonality may affect our food costs or cause a disruption in our supply chain. We enter into annual contracts with our chicken and other miscellaneous suppliers. Our contracts for chicken are fixed price contracts. Our contracts for beef are generally based on current market prices plus a processing fee. Changes in the price or availability of chicken or beef or other commodities could materially adversely affect our profitability. We cannot predict whether we will be able to anticipate and react to changing food costs by adjusting our purchasing practices and menu prices, and a failure to do so could adversely affect our operating results. In addition, because we provide a value-priced product, we may not be able to pass along price increases to our customers.

Macroeconomic conditions could affect our operating results. The recent economic downturn, continuing disruptions in the overall economy, including the ongoing impacts of the housing crisis, high unemployment and financial and market volatility, and the related declines in business and consumer confidence, adversely affected customer traffic and sales throughout the restaurant industry, including the QSR category. For example, our same store sales decreased in fiscal 2008, fiscal 2009 and the first ten months of fiscal 2010. If the economy experiences another downturn or there are continued uncertainties regarding economic recovery, consumer spending may be affected, which may adversely affect our sales in the future. A proliferation of heavy discounting by our major competitors may also negatively affect our sales and operating results.

Price increases may impact customer visits. We may make price increases on selected menu items in order to offset increased operating expenses we believe will be recurring. Although we have not experienced significant consumer resistance to our past price increases, future price increases may deter customers from visiting our restaurants or affect their purchasing decisions.

The hamburger restaurant market is highly competitive. The hamburger restaurant market is highly competitive. Our competitors in the QSR segment include many recognized national and regional fast-food hamburger restaurant chains, such as McDonald's, Burger King, Wendy's, Carl's Jr., Sonic, Jack in the Box, Freddy's and Culver's. We also compete with small regional and local hamburger and other fast-food restaurants, many of which feature drive-through service. Most of our competitors have greater financial resources, marketing programs and name recognition than we do. Discounting by our QSR competitors may adversely affect the revenues and profitability of our restaurants.

While Bad Daddy's Burger Bar operates in the better burger restaurant segment, it offers a relatively broad menu and competes with other full service restaurants such as Chili's, Red Robin and other local and regional full service restaurants. Additionally, customers of both our Good Times Burgers & Frozen Custard restaurants and new Bad Daddy's Burger Bar restaurants are also customers of fast casual hamburger restaurants such as Five Guys Burgers & Fries and Smashburger.

Sites for new restaurants may be difficult to acquire. Location of our restaurants in high-traffic and readily accessible areas is an important factor for our success. Our Good Times Burgers & Frozen Custard drive-through restaurants require sites with specific characteristics and there are a limited number of suitable sites available in our geographic markets. Bad Daddy's Burger Bar restaurants will be operated out of leased in-line and end-cap retail

locations as opposed to freestanding Good Times Burgers & Frozen Custard locations. Since suitable locations are in great demand, in the future we may not be able to obtain optimal sites for either of our restaurant concepts at a reasonable cost. In addition, we cannot assure you that the sites we do obtain will be successful.

If our franchisees cannot develop or finance new restaurants, build them on suitable sites or open them on schedule, our growth and success may be impeded. Franchisees may not be able to negotiate acceptable lease or purchase terms for the sites, obtain the necessary permits and government approvals or meet construction schedules. From time to time in the past, we have agreed to extend or modify development schedules and we may do so in the future. Any of these problems could slow our growth and reduce our franchise revenues. Additionally, our franchisees depend upon financing from banks and other financial institutions in order to construct and open new restaurants. Difficulty in obtaining adequate financing adversely affects the number and rate of new restaurant openings by our franchisees and adversely affects our future franchise revenues. We do not presently have any franchised restaurants under development.

Our franchisees could take actions that could harm our business. Franchisees are independent contractors and are not our employees. We provide training and support to franchisees; however, franchisees operate their restaurants as independent businesses. Consequently, the quality of franchised restaurant operations may be diminished by any number of factors beyond our control. Moreover, franchisees may not successfully operate restaurants in a manner consistent with our standards and requirements, or may not hire and train qualified managers and other restaurant personnel. Our image and reputation, and the image and reputation of other franchisees, may suffer materially, and system-wide sales could significantly decline, if our franchisees do not operate successfully.

We depend on key management employees. We believe our current operations and future success depend largely on the continued services of our management employees, in particular Boyd E. Hoback, our president and chief executive officer, and Scott LeFever, our vice president of operations. Although we have entered into an employment agreement with Mr. Hoback, he may voluntarily terminate his employment with us at any time. In addition, we do not currently maintain key-person insurance on Messrs. Hoback's or LeFever's life. The loss of Messrs. Hoback's or LeFever's services, or other key management personnel, could have a material adverse effect on our financial condition and results of operations.

Labor shortages could slow our growth or harm our business. Our success depends in part upon our ability to attract, motivate and retain a sufficient number of qualified, high-energy employees. Qualified individuals needed to fill these positions are in short supply in some areas. The inability to recruit and retain these individuals may delay the planned openings of new restaurants or result in high employee turnover in existing restaurants, which could harm our business. Additionally, competition for qualified employees could require us to pay higher wages to attract sufficient employees, which could result in higher labor costs. Most of our employees are paid on an hourly basis. The employees are paid in accordance with applicable minimum wage regulations. Accordingly, any increase in the minimum wage, whether state or federal, could have a material adverse impact on our business.

We are subject to extensive government regulation that may adversely hinder or impact our ability to govern various aspects of our business including our ability to expand and develop our restaurants. The restaurant industry is subject to various federal, state and local government regulations, including those relating to the sale of food. While in the past we have been able to obtain and maintain the necessary governmental licenses, permits and approvals, our failure to maintain these licenses, permits and approvals, including food licenses, could adversely affect our operating results. Difficulties or failures in obtaining the required licenses and approvals could delay or result in our decision to cancel the opening of new restaurants. Local authorities may suspend or deny renewal of our food licenses if they determine that our conduct does not meet applicable standards or if there are changes in regulations.

Various federal and state labor laws govern our relationship with our employees and affect operating costs. These laws govern minimum wage requirements, overtime pay, meal and rest breaks, unemployment tax rates, workers compensation rates, citizenship or residency requirements, child labor regulations and sales taxes. Additional government-imposed increases in minimum wages, overtime pay, paid leaves of absence and mandated health benefits may increase our operating costs.

The federal Americans with Disabilities Act prohibits discrimination on the basis of disability in public accommodations and employment. Although our restaurants are designed to be accessible to the disabled, we could be required to make modifications to our restaurants to provide service to, or make reasonable accommodations for, disabled persons.

We are also subject to federal and state laws that regulate the offer and sale of franchises and aspects of the licensor-licensee relationship. Many state franchise laws impose restrictions on the franchise agreement, including limitations on non-competition provisions and the termination or non-renewal of a franchise. Some states require that franchise materials be registered before franchises can be offered or sold in the state.

Our Bad Daddy's Burger Bar restaurants will also be subject to state and local laws that regulate the sale of alcoholic beverages. Alcoholic beverage control regulations will govern various aspects of these restaurants' daily operations, including the minimum age of patrons and employees, hours of operation, advertising, wholesale purchasing and inventory control, handling and storage. Typically, licenses to sell alcoholic beverages will require annual renewal and may be suspended or revoked at any time for cause, the definition of which varies by locality. The failure of any of our Bad Daddy's Burger Bar restaurants to timely obtain and maintain any required licenses, permits or approvals to serve alcoholic beverages could delay or prevent the opening of a new restaurant or prevent regular day-to-day operations, including the sale of alcoholic beverages, at a restaurant that is already operating, any of which would adversely affect our business.

Health concerns relating to the consumption of beef, chicken or other food products could affect consumer preferences and could negatively impact our results of operations. Like other restaurant chains, consumer preferences could be affected by health concerns about the avian influenza, also known as bird flu, or the consumption of beef, the key ingredient in many of our menu items, or negative publicity concerning food quality, illness and injury generally, such as negative publicity concerning E. coli, mad cow or foot-and-mouth disease, publication of government or industry findings concerning food products served by us, or other health concerns or operating issues stemming from one restaurant or a limited number of restaurants. This negative publicity may adversely affect demand for our food and could result in a decrease in customer traffic to our restaurants. If we react to the negative publicity by changing our concept or our menu we may lose customers who do not prefer the new concept or menu, and we may not be able to attract a sufficient new customer base to produce the revenue needed to make our restaurants profitable. In addition, we may have different or additional competitors for our intended customers as a result of a concept change and may not be able to compete successfully against those competitors. A decrease in customer traffic to our restaurants as a result of these health concerns or negative publicity or as a result of a change in our menu or concept could materially harm our business.

Risks Related to Bad Daddy's Relationship

Our ability to succeed with the Bad Daddy's Burger Bar restaurant concept will require significant capital expenditures and management attention. We believe that new openings of Bad Daddy's Burger Bar restaurants are likely to serve as a contributor of our new unit growth and increased profitability over the longer term based on the unit economics of that concept. Our ability to succeed with this new concept will require significant capital expenditures and management attention and is subject to certain risks in addition to those of opening a new Good Times Burgers & Frozen Custard restaurant, including customer acceptance of and competition with the Bad Daddy's Burger Bar concept. If the ramp-up period for new Bad Daddy's Burger Bar restaurants does not meet our expectations, our operating results may be adversely affected. There can be no assurance that we will be able to successfully develop and grow the Bad Daddy's Burger Bar concept to a point where it will become profitable or generate positive cash flow. We may not be able to attract enough customers to meet targeted levels of performance at new Bad Daddy's Burger Bar restaurants because potential customers may be unfamiliar with the concept or the atmosphere or menu might not be appealing to them. If we cannot successfully execute our growth strategies for Bad Daddy's Burger Bar, our business and results of operations may be adversely affected.

Our growth, including the development of Bad Daddy's Burger Bar restaurants, may strain our management and infrastructure. In addition to new openings of Bad Daddy's Burger Bar restaurants, we also plan to remodel and reimage existing Good Times Burgers & Frozen Custard restaurants. In addition, we believe there may be opportunities to open or franchise new Good Times Burgers & Frozen Custard restaurants from time to time. This growth will increase our operating complexity and place increased demands on our management and infrastructure, including our current restaurant management systems, financial and management controls, and information systems. If our infrastructure is insufficient to support our growth, our ability to open new restaurants, including the development of the Bad Daddy's Burger Bar concept, would be adversely affected.

Bad Daddy's Burger Bar is subject to all of the risks of a relatively new business, including competition, and there is no guarantee of a return on our capital investment into BDFD or BD of Colo. Bad Daddy's Burger Bar is a relatively new business concept. Existing Bad Daddy's Burger Bar restaurants have been in existence for approximately five years and are currently located in North Carolina and South Carolina. Because of the small number of existing Bad Daddy's Burger Bar restaurants and the relatively short period of time that they have been in operation, there is substantial uncertainty that additional restaurants in other locations will be successful. There is no guarantee that BDFD will be successful in offering Bad Daddy's Burger Bar franchises throughout the U.S. or that, if and when such franchises are granted, the restaurants developed by franchisees will be successful. There is also substantial uncertainty that the BDFD franchising business will be successful in view of the facts that BDFD has sold

only two Bad Daddy's Burger Bar restaurant franchises to date and that the restaurant franchising business is very competitive. If BDFD is unsuccessful in attracting Bad Daddy's Burger Bar franchisees and accordingly attaining broad-based consumer recognition of the Bad Daddy's Burger Bar restaurants, it could adversely affect the revenues of the Company's Bad Daddy's Burger Bar restaurants.

Under the operating agreement of BDFD, there will be no distribution of any net cash profits during the first three years unless approved by all the Class A members of BDFD. We have acquired a 48% voting ownership interest in BDFD in exchange for an initial capital contribution of \$750,000, of which we paid the first \$375,000 installment on April 15, 2013 and we paid the second \$375,000 installment in December 2013. The operating agreement of BDFD provides that the Company and BDI may be required to make additional capital contributions to BDFD of up to an aggregate of \$1,000,000 upon written request of BDFD's Board of Managers. Such additional capital contributions, if required, will be in accordance with the Company's and BDI's then respective percentage interests in

BDFD. Accordingly, the Company's portion of such additional capital contributions, if required, prior to any change in BDFD ownership, will be up to \$480,000. If the additional capital contributions are required under the BDFD operating agreement, the Company intends to pay its required portion out of working capital reserves. However, if the Company does not have sufficient working capital reserves at the time the capital call is made, the Company may have to obtain funds from other sources and such funds may not be available to the Company on favorable terms or at all.

Under the operating agreement of BDFD, there will be no distribution of any net cash profits during the first three years unless approved by all the Class A members of BDFD. Thus, we may not receive any return on our initial capital contribution to BDFD, or any subsequent additional capital contribution we may be required to make, during the first three years of BDFD's operations.

The Company does not have a majority voting interest in BDFD and the Company's Management Services Agreement with BDFD has a limited term of three years. The Company has acquired a 48% voting membership interest in BDFD, with the remaining 52% voting membership interest in BDFD currently held by BDI. The operating agreement of BDFD provides that BDFD will be managed by its five-member Board of Managers, which currently consists of three members designated by BDI and two members designated by the Company. Accordingly, the Company does not have a majority voting interest in BDFD, nor does it control a majority of the Board of Managers. As a consequence, the Company will not be able to control certain decisions regarding BDFD. Among other things, the annual budget of BDFD will be approved by a majority of the Board of Managers, which majority may be achieved without the participation of the Company's designated managers.

The Company will provide management services to BDFD pursuant to the terms of a Management Services Agreement. However, the term of the Management Services Agreement between the Company and BDFD is limited to three years and may be terminated earlier in accordance with the terms of the agreement. Among other things, BDFD may terminate the Management Services Agreement prior to the end of its three-year term based on the failure of BDFD to achieve certain franchise sales goals. If BDFD terminates the Management Services Agreement prior to the end of its three-year term, or if the Management Services Agreement is not renewed by the parties at the end of three years, the Company will not have a right to manage BDFD or receive any management fee in connection therewith.

If the Company fails to comply with the development schedule under its license agreement with BDFD, it will lose its exclusive development rights in Colorado and its additional development rights in Oklahoma and Kansas. The License Agreement requires that BD of Colo develop at least two restaurants per year in Colorado over a five-year period, after which BD of Colo may elect to develop additional Bad Daddy's Burger Bar restaurants in Colorado in numbers determined by it. In the event that the Company fails to comply with such development schedule, then (i) the Company's right to develop any additional Bad Daddy's Burger Bar restaurants in Colorado under the License Agreement will thereafter terminate automatically and (ii) BDFD may establish, operate or grant to other third parties the right to establish or operate Bad Daddy's Burger Bar restaurants in Colorado (subject to BD of Colo's territory rights with respect to any existing restaurant). Accordingly, if BD of Colo fails to meet its development schedule, it will lose its exclusive right to develop Bad Daddy's Burger Bar restaurants in Colorado.

In addition, pursuant to the operating agreement of BDFD, BD of Colo has a right to develop Bad Daddy's Burger Bar restaurants in Oklahoma and Kansas (to the extent that such territory is not then subject to development rights by or part of the protected territory right of any third party franchisee) subject to approval of BDFD's Board of Managers, conditioned on certain performance requirements with respect to its Colorado restaurants, and pursuant to a minimum development schedule to be agreed upon with BDFD for Kansas and Oklahoma. If BD of Colo fails to meet such performance results with respect to its Colorado restaurants or fails to meet its development schedule for Oklahoma or Kansas, it will not have any right to develop additional Bad Daddy's Burger Bar restaurants in Oklahoma and Kansas.

If the Company's license agreement with BDFD is terminated, the Company will lose all rights to use the Bad Daddy's Burger Bar name and intellectual property. The Company has entered into a license agreement with BDFD for an initial term of 10 years, which is thereafter renewable by the Company for two additional 10-year terms. The license agreement may be terminated by BDFD in the event of any uncured default by the Company thereunder. In the event of termination, the license agreement provides that BDFD will have an option to purchase the Company's Bad Daddy's Burger Bar restaurants for a price mutually agreed by the parties or their independently appraised value. Alternatively, if BDFD does not exercise its purchase option, the Company must modify the restaurants to eliminate the use of the Bad Daddy's Burger Bar name and intellectual property. If any of such events were to occur, our results of operations would be adversely affected.

BDI has a drag-along right regarding the Company's interest in BDFD in the event that BDI proposes to sell its interests in BDFD after the fifth anniversary of the Company's investment in BDFD. The operating agreement contains drag-along rights allowing BDI to require the Company to participate in a proposed sale of BDFD or all of its outstanding ownership interests if approved by BDI and its designated managers at any time after April 15, 2018 (the fifth anniversary of the Company's investment in BDFD), subject to certain conditions. Thus, after five years, BDI could force the Company to sell its membership interest in BDFD in a transaction which is not approved by the Company or its designated managers of BDFD and which may not be in the Company's best interest. That is, with regard to such a forced sale what may be deemed by BDI for its own particular reasons and circumstances to be an advantageous time for it to sell its interest in BDFD may be a disadvantageous time for the Company to sell under its particular circumstances.

Conflicts of interest may arise as a result of the Company's status as a substantial owner of BDFD and its status as a licensee of BDFD. The Company is both a 48% owner of BDFD and a licensee of BDFD. In its capacity as a substantial owner and manager of BDFD, the Company will be obligated to require BDFD franchisees to comply with all of the terms of their franchise agreements. This in turn may make it unfeasible as a practical matter for BD of Colo to obtain consents from BDFD for variations of such terms that the Company believes are appropriate for the particular circumstances of the BD of Colo restaurants. For example, the Company may wish to be able to add a non-standard menu item to its Bad Daddy's Burger Bar restaurants which will be uniquely popular in a particular geographic location which under such circumstances BDFD would normally allow but which it would not wish to allow for other licensees. In that event, BDFD may nonetheless not permit such a variation by the Company because of a possible claim that it is preferentially treating a BDFD insider.

Risks Related to the Ownership of Our Securities

Our principal stockholders have significant voting power and may take actions that may not be in the best interests of our other stockholders. Small Island Investments Limited, Rest Redux, LLC and Hoak Public Equities, LP together beneficially own approximately 23% of our outstanding common stock. This concentration of ownership and voting power may have the effect of delaying or preventing a change in control and might adversely affect the market price of our common stock, and therefore may not be in the best interests of our other stockholders.

Future changes in financial accounting standards may cause adverse unexpected operating results and affect our reported results of operations. Changes in accounting standards can have a significant effect on our reported results and may affect our reporting of transactions completed before the change is effective. See Note 1 to our Consolidated Financial Statements for further discussion. New pronouncements and varying interpretations of pronouncements have occurred and may occur in the future. Changes to existing rules or differing interpretations with respect to our current practices may adversely affect our reported financial results.

Our NASDAQ Listing Is Important. Our Common Stock is currently listed for trading on the NASDAQ Capital Market. The NASDAQ maintenance rules require, among other things, that our common stock price remains above \$1.00 per share and that we have minimum stockholders' equity of \$2.5 million.

Compliance with changing regulation of corporate governance and public disclosure may result in additional expenses. Keeping abreast of, and in compliance with, changing laws, regulations and standards relating to corporate governance and public disclosure, including the Sarbanes-Oxley Act of 2002, new SEC regulations and The NASDAQ Market rules, has required an increased amount of management attention and expense. We remain committed to maintaining high standards of corporate governance and public disclosure. As a result, we intend to invest all reasonably necessary resources to comply with evolving standards, and this investment has resulted in and will continue to result in increased general and administrative expenses and a diversion of management time and attention from revenue-generating activities to compliance activities.

Risks related to internal controls. Public companies in the United States are required to review their internal controls as set forth in the Sarbanes-Oxley Act of 2002. It should be noted that any system of controls, however well designed and operated, can provide only reasonable, and not absolute, assurance that the objectives of the system are met. In addition, the design of any control system is based in part upon certain assumptions about the likelihood of future events. Because of these and other inherent limitations of control systems, there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions, regardless of how remote. If the internal controls put in place by us are not adequate or in conformity with the requirements of the Sarbanes-Oxley Act of 2002, and the rules and regulations promulgated by the Securities and Exchange Commission, we may be forced to restate our financial statements and take other actions which will take significant financial and managerial resources, as well as be subject to fines and other government enforcement actions.

Because we currently qualify as a smaller reporting company, our non-financial and financial information are less than is required by non-smaller reporting companies.

Currently we qualify as a smaller reporting company. The smaller reporting company category includes companies that (1) have a common equity public float of less than \$75 million or (2) are unable to calculate their public float and have annual revenue of \$50 million or less, upon entering the system. A smaller reporting company prepares and files SEC reports and registration statements using the same forms as other SEC reporting companies, though the information required to be disclosed may differ and be less comprehensive. Regulation S-X contains the SEC requirements for financial statements, while Regulation S-K contains the non-financial disclosure requirements.

To locate the scaled disclosure requirements, smaller reporting companies will refer to the special paragraphs labeled smaller reporting companies in Regulation S-K. As an example only, smaller reporting companies are not required to make risk factor disclosure in Item 1A of Form 10-K. Other disclosure required by non-smaller reporting companies can be omitted in Form 10-K and Form 10-Q by smaller reporting companies.

Risks Relating to Prior Securities Issuances

Issuances of our securities are subject to federal and state securities laws, and certain holders of common stock issued by us may be entitled to rescission in connection with certain sales of shares using a prospectus that did not meet the requirements of Section 10(a)(3) of the Securities Act.

Issuances of securities are subject to federal and state securities laws. Between May 21, 2014 and August 20, 2014, the Company issued 484,600 shares of common stock upon exercise by certain security holders holding A Warrants for an aggregate purchase price of \$1,332,650. The Company issued these shares on the belief that the shares were registered pursuant to the Company's registration statement on Form S-1, originally filed with and made effective by the SEC on August 15, 2013 (the Initial Registration Statement), and that the issuance did not require a new or updated registration statement. The Company became aware that the SEC does not view the shares underlying warrants as being sold for securities law purposes until the warrants are exercised, and therefore it is the view of the SEC that the Company should have filed a post-effective amendment to the Initial Registration Statement prior to issuing these shares. The sale of these shares upon exercise of the A Warrants was therefore not made in compliance with federal and state securities laws because the prospectus did not meet the requirements of Section 10(a)(3) of the Securities Act. Consequently, the holders of A Warrants who purchased such shares may seek to rescind the sale, in which case we could be liable for rescission payments to them in the amount of their aggregate original purchase price plus applicable interest. If one or more investors were to successfully seek such rescission or prevail in any such suit, we could face financial demands that could materially and adversely affect our financial position. As of the date hereof, we have not received any claims for rescission or damages or claims relating to any other liability stemming from our issuance of these shares.

ITEM 1B.

UNRESOLVED STAFF COMMENTS

None.

ITEM 2.

PROPERTIES

We currently lease approximately 4,900 square feet of space for our executive offices in Golden, Colorado for approximately \$95,000 per year under a lease agreement which expires in September 30, 2019. We recently executed a lease amendment that modifies the expiration date to May 15, 2015 and reduces the monthly rent by 50% for December 2014 through April 2015 due to alternate building plans by the landlord that affect our rights to certain common area amenities. The space is leased from The Bailey Company, a significant stockholder in the Company, at their corporate headquarters. We plan to lease new executive office space prior to May 15, 2015.

As of December 11, 2014, Good Times has an ownership interest in twenty-six Good Times units, all of which are located in Colorado. Seven of these restaurants are held in a joint venture limited partnership of which Good Times is the general partner. Good Times has a 50% interest in six of the partnership restaurants and a 78% interest in one restaurant. There are nineteen Good Times units that are wholly owned by Good Times.

Most of our existing Good Times restaurants are a combination of free-standing structures containing approximately 880 to 1,000 square feet for the double drive thru format and approximately 2,400 square feet for our prototype building with a 70 seat dining room. In addition, we have several restaurants that are conversions from other concepts in various sizes ranging from 1,700 square feet to 3,500 square feet. The buildings are situated on lots of approximately 18,000 to 50,000 square feet. Certain restaurants serve as collateral for the underlying debt financing arrangements as discussed in the Notes to Consolidated Financial Statements included in this report. We intend to

acquire new sites both through ground leases and purchase agreements supported by mortgage and leasehold financing arrangements and through sale-leaseback agreements.

Our three Bad Daddy s restaurants are leased spaces of approximately 3,500 to 4,000 square feet in retail developments. We intend to lease additional in-line and end-cap spaces in retail developments.

All of the restaurants are regularly maintained by our repair and maintenance staff as well as by outside contractors, when necessary. We believe that all of our properties are in good condition and that there will be a need for periodic capital expenditures to maintain the operational and aesthetic integrity of our properties for the foreseeable future, including recurring maintenance and periodic capital improvements. All of our properties are covered up to replacement cost under our property and casualty insurance policies and in the opinion of management are adequately covered by insurance.

ITEM 3.

LEGAL PROCEEDINGS

We are not involved in any material legal proceedings. We are subject, from time to time, to various lawsuits in the normal course of business. These lawsuits are not expected to have a material impact.

ITEM 4.

MINE SAFETY DISCLOSURES

Not applicable.

PART II**ITEM 5.****MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES.**

Shares of our Common Stock are listed for trading on the NASDAQ Capital Market under the symbol "GTIM". The following table presents the quarterly high and low bid prices for our Common Stock as reported by the NASDAQ Capital Market for each quarter within the last two fiscal years. The quotations reflect interdealer prices, without retail mark-ups, mark-downs or commissions and may not represent actual transactions.

QUARTER ENDED	2013		QUARTER ENDED	2014	
	HIGH	LOW		HIGH	LOW
December 31, 2012	\$	\$	December 31, 2013	\$	\$
		3.38 1.20			2.93 2.06
March 31, 2013	\$	\$	March 31, 2014	\$	\$
		3.48 2.26			3.12 2.50
June 30, 2013	\$	\$	June 30, 2014	\$	\$
		3.60 2.78			4.07 2.75
September 30, 2013	\$	\$	September 30, 2014	\$	\$
		3.41 2.00			6.12 2.92

As of December 11, 2014 there were approximately 183 holders of record of our Common Stock. However, management estimates that there are not fewer than 1,500 beneficial owners of our Common Stock.

Dividend Policy: We have never paid dividends on our Common Stock and do not anticipate paying dividends in the foreseeable future. In addition, we have obtained financing under loan agreements that restrict the payment of dividends. Our ability to pay future dividends will necessarily depend on our earnings and financial condition.

However, since restaurant development is capital intensive, we currently intend to retain any earnings for that purpose.

On March 28, 2014, Small Island Investments Limited converted all 355,451 shares of the Company's Series C Convertible Preferred Stock, par value \$0.01 per share, into 710,902 shares of the Company's Common Stock, par value \$0.001 per share. The effects of the conversion are to eliminate the Company's payment of dividends on the Series C Convertible Preferred Stock and to eliminate the possible need for the Company to redeem the Series C Convertible Preferred Stock for a cash payment. The Company filed a Registration Statement on Form S-1 with the Securities and Exchange Commission to register the issued Common Stock for resale as well as other Stock owned by Small Island Investments, Restaurant Redux and Hoak Public Equities LP.

Cash dividends of \$59,000 and \$120,000 were paid in fiscal 2014 and 2013, respectively, prior to the conversion of the Company's Series C Convertible Preferred Stock described above.

Recent Sales of Registered Securities: On August 21, 2013 we completed a public offering of 2,200,000 shares of common stock, together with warrants to purchase 2,200,000 shares of our common stock ("A Warrants") and additional

warrants to purchase 1,100,000 shares of our common stock (B Warrants) with a per unit purchase price of \$2.50. One share of common stock was sold together with one A Warrant, with each A Warrant being exercisable on or before August 16, 2018 for one share of common stock at an exercise price of \$2.75 per share, and together with one B Warrant, with two B Warrants being exercisable on or before May 16, 2014 for one share of common stock at an exercise price of \$2.50 per share. Net proceeds from the initial stock transaction were approximately \$4,659,000.

During fiscal 2014 we reported the exercise of approximately 97% of the B warrants and approximately 50% of the A warrants. Subsequent to the fiscal year end we announced that a total of 2,450,100 A Warrants, representing 97% of the outstanding A Warrants, and 100% of the 154,000 Underwriter Warrants, were exercised by the holders. Total gross proceeds from all warrants exercised were approximately \$10,100,000, and no other warrants remain outstanding. A portion of the shares issued upon exercise of the A Warrants constituted sales of unregistered securities as described under Recent Sales of Unregistered Securities.

We intend to use the remaining net proceeds from the offering and from the exercise of the warrants for the remodeling and reimagining of existing Good Times Burgers & Frozen Custard restaurants; for the development of new Good Times restaurants through Drive Thru; for the development of new Bad Daddy s Burger Bar restaurants through BD of Colo; and as working capital reserves and future investment at the discretion of our Board of Directors.

Recent Sales of Unregistered Securities: Between May 21, 2014 and August 20, 2014, the Company issued 484,600 shares of common stock at an exercise price of \$2.75 per share issued upon exercise of A Warrants, with an aggregate value of \$1,332,650. The A Warrants were issued pursuant to a Registration Statement on Form S-1 filed with and declared effective by the SEC on August 15, 2013 (the Original Registration Statement). The Company understands that the SEC does not view the shares underlying the A Warrants as being sold for securities law purposes until the warrants are exercised, and therefore it is the view of the SEC that the Company should have filed a post-effective

amendment to the Original Registration Statement prior to issuing these shares. The sale of these shares upon exercise of the A Warrants was therefore not exempt from registration requirements under federal and state securities laws. Consequently, the holders of A Warrants who purchased such shares may seek to rescind the sale.

Disclosure with Respect to the Company's Equity Compensation Plans: We maintain the 2008 Omnibus Equity Incentive Compensation Plan, pursuant to which we may grant equity awards to eligible persons, and have outstanding stock options and restricted stock grants issued under our 2001 Good Times Restaurants Stock Option Plan, 1992 Incentive Stock Option Plan and 1992 Non-Statutory Stock Option Plan. Pursuant to stockholder approval in February 2014 the total number of shares available for issuance under the 2008 plan was increased to 1,000,000. For additional information, see Note 8, Stockholders' Equity, in the Notes to the Consolidated Financial Statements included in this report. The following table gives information about equity awards under our plans as of September 30, 2014.

Equity Compensation Plan Information:

	(a)	(b)	(c)
Plan category	Number of securities to be issued upon exercise of outstanding options, warrants & rights	Weighted-average exercise price of outstanding options, warrants & rights	Number of securities remaining available for future issuance under equity compensation plans (excluding securities reflected in column (a))
Equity compensation plans approved by security holders	520,750	\$2.95	468,923

ITEM 6.**SELECTED FINANCIAL DATA**

The selected financial data on the following pages are derived from our historical financial statements and is qualified in its entirety by such financial statements which are included in Item 8 hereof.

The Company analyzes its operations on a regional basis, when evaluating closed restaurant operations for consideration as to the classification between continuing operations and discontinued operations. Prior to fiscal 2011 the Company evaluated operations at the restaurant level. In its reevaluation the Company determined that as most of the Company's restaurants are within the Denver metropolitan region and share common advertising, distribution, supervision, and to a certain extent even customers, the Company believes it appropriate to perform its analysis on a regional basis. During 2011 the Company closed two restaurants, in 2012 the Company closed two restaurants, and in 2013 the Company closed one restaurant. The operations related to these restaurants are reflected as part of continuing operations as they were within one continuing operating region.

The following presents certain historical financial information of the Company. This financial information includes the combined operations of the Company and its subsidiaries for the fiscal years ended September 30, 2010 to 2014. Certain prior year balances have been reclassified to conform to the current year's presentation. Such reclassifications had no effect on the net income or loss.

Operating Data:	September 30,				
	2014	2013	2012	2011	2010
	\$	\$	\$	\$	\$
Restaurant sales	27,662,000	22,523,000	19,274,000	20,183,000	20,390,000
Franchise fees and royalties	<u>375,000</u>	<u>369,000</u>	<u>432,000</u>	<u>420,000</u>	<u>473,000</u>
Total Net Revenues	28,037,000	22,892,000	19,706,000	20,603,000	20,863,000
Restaurant Operating Costs					
Food and packaging costs	9,273,000	7,655,000	6,592,000	7,241,000	7,181,000
Payroll and other employee benefit costs	9,309,000	7,809,000	6,691,000	7,043,000	7,359,000

ITEM 7.**MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS****Segment Information**

All of our Good Times Burgers and Frozen Custard restaurants (Good Times) compete in the quick-service drive-through dining industry while our Bad Daddy's Burger Bar restaurants (Bad Daddy's) compete in the full-service upscale casual dining industry. We believe that providing this additional financial information for each of our brands will provide a better understanding of our overall operating results. Refer to note 10, *Segment Reporting*, in the notes to our consolidated financial statements for more information.

The following tables present information about our reportable segments for the respective periods:

	Fiscal Year 2014		Fiscal Year 2013	
Good Times:				
Restaurant sales	\$	98.6%	\$	98.4%
	25,859,000		22,523,000

Restaurant operating costs are expressed as a percentage of restaurant sales

Results of Operations

Overview

Good Times restaurants:

Same store sales at our Good Times restaurants increased 12% in fiscal 2013, and increased 14.6% in fiscal 2014. These results reflect the continuation of the positive momentum we have experienced since fiscal 2011. The 14.6% increase in fiscal 2014 is comprised of a 6.7% increase in transactions, a .7% increase in our breakfast sales as a percentage of total sales, a 2.5% weighted average increase in pricing and a 4.7% increase in average check from menu mix changes.

In the first quarter of fiscal 2013 we implemented a new limited item breakfast menu at Good Times that generated sales of approximately 8.3% of total sales in fiscal 2014, compared to 7.6% of total sales in fiscal 2013. Consistent with our brand position of offering fresh, all natural, handcrafted products, we elected to come to market with authentic, Hatch Valley New Mexico green chile burritos at a price point of \$2 each, which we believe is both an excellent value for our customer and is highly differentiated from any other offerings in the quick service restaurant category. Because we do not offer a broad breakfast menu, we are highly labor efficient for that day part resulting in a relatively low breakeven point and higher incremental profitability.

Our outlook for fiscal 2015 for Good Times is cautiously optimistic based on the last three years of positive sales trends; however our sales trends are influenced by many factors. We are continuing to manage our marketing communications to balance growth in customer traffic and the average customer expenditure. We plan to open additional Good Times restaurants in fiscal 2015 and closed on the purchase of land for one restaurant in December 2014.

Bad Daddy s restaurants:

We currently operate two Bad Daddy s restaurants in the Denver, Colorado greater metropolitan area. We expect to open our third Colorado location in January 2015 and we have several more locations in various stages of negotiation for development in fiscal 2015 and 2016. Our first location in Colorado continues to be negatively impacted by significant construction in the immediate trade area and is the lowest average weekly sales restaurant in the Bad Daddy s system. We anticipate that sales will continue to be negatively impacted until late spring, 2015. Our second location in Colorado opened on July 28, 2014 and continues to be the highest average weekly sales restaurant in the Bad Daddy s system as of the date of this filing.

Net Revenues: Net revenues for fiscal 2014 increased \$5,145,000 (+22.5%) to \$28,037,000 from \$22,892,000 for fiscal 2013, of which \$3,342,000 came from the Good Times concept.

Good Times same store restaurant sales increased 14.6% during fiscal 2014. Restaurants are included in same store sales after they have been open a full fifteen months. Restaurant sales increased \$887,000 from the prior year due to two restaurants purchased from franchisees in fiscal 2013 and decreased \$712,000 from the prior year due to one company-owned restaurant closed in fiscal late 2013. Net revenues increased \$6,000 in fiscal 2014 due to an increase in franchise royalties and fees.

Average Good Times restaurant sales for company-operated restaurants (including double drive thru restaurants and restaurants with dining rooms but excluding dual brand restaurants and out of market restaurants) for fiscal 2013 and 2014 were as follows:

	Fiscal 2014	Fiscal 2013
Company-operated	\$1,035,000	\$903,000
Company operated restaurants	sales ranged from a low of \$746,000 to a high of \$1,971,000.	

Bad Daddy's restaurant sales for fiscal 2014 were \$1,803,000 which includes sales for two restaurants, one that opened in February 2014 and one that opened in late July 2014.

For factors which may affect future results of operations, please refer to a discussion of planned product and system changes discussed in the section entitled "Business Strategy" in Item 1 on pages 4 - 5 of this report.

Restaurant Operating Costs:

Good Times restaurant operating costs as a percent of restaurant sales were 85.8% for fiscal 2014 compared to 91.1% in fiscal 2013.

The changes in restaurant-level costs are explained as follows (for Good Times restaurants, excluding Bad Daddy's):

Restaurant operating level costs for the period ended September 30, 2013	91.1%
Decrease in food and packaging costs	(.5%)
Decrease in Payroll and other employee benefit costs	(2.2%)
Decrease in occupancy and other operating costs	(1.8%)
Decrease in depreciation and amortization costs	(.8%)
Increase in new store preopening costs	0%
Restaurant operating level costs for the period ended September 30, 2014	85.8%

New store preopening costs of \$6,000, included in total restaurant operating costs, are related to a new Good Times restaurant that opened in November 2014.

Food and Packaging Costs: For fiscal 2014, food and packaging costs increased \$1,618,000 from \$7,655,000 (34% of restaurant sales) in fiscal 2013 to \$9,273,000 (33.5% of restaurant sales).

Good Times food and packaging costs were \$8,655,000 (33.5% of restaurant sales) up from \$7,655,000 (34.0% of restaurant sales) in fiscal 2013. In fiscal 2014 our total weighted food and packaging costs increased approximately 13% compared to fiscal 2013. The total menu price increases taken during fiscal 2014 were 4.4% and 2.2% in fiscal 2013. We experienced unprecedented cost increases in beef and bacon from January to September 2014, with beef and bacon prices increasing approximately 38% and 29%, respectively. We anticipate continued cost pressure on several core commodities, including beef, bacon and dairy and expect our food and packaging costs as a percentage of sales to be slightly higher in fiscal 2015 than in fiscal 2014.

Bad Daddy's food and packaging costs were \$617,000 (34.2% of restaurant sales).

Payroll and Other Employee Benefit Costs: For fiscal 2014, payroll and other employee benefit costs increased \$1,500,000 from \$7,809,000 (34.7% of restaurant sales) in fiscal 2013 to \$9,309,000 (33.7% of restaurant sales).

Good Times payroll and other employee benefit costs were \$8,408,000 (32.5% of restaurant sales) up from \$7,809,000 (34.7% of restaurant sales) in fiscal 2013. The \$599,000 increase in payroll and other employee benefit expenses is primarily due to the increase in restaurant sales. Because payroll costs are semi-variable in nature they normally decrease as a percentage of restaurant sales when there is an increase in restaurant sales. Payroll and other employee benefits increased approximately \$268,000 in fiscal 2014 due to two restaurants purchased from franchisees in fiscal 2013 and decreased approximately \$355,000 in fiscal 2014 due to one company-owned restaurant closed in fiscal 2013. We anticipate payroll and other employee benefit costs will decrease as a percentage of sales in fiscal 2015 due to the operating leverage on increasing sales.

Bad Daddy's payroll and other employee benefit costs were \$901,000 (50% of restaurant sales) for fiscal 2014. Payroll and other employee benefit costs were abnormally high due to the lower opening sales volume of our first location and the inclusion of costs related to training and regional management. We anticipate that these costs as a percentage of restaurant sales will decline as sales increase and additional locations are opened in fiscal 2015.

Occupancy and Other Operating Costs: For fiscal 2014, occupancy and other operating costs increased \$547,000 from \$4,345,000 (19.3% of restaurant sales) in fiscal 2013 to \$4,892,000 (17.7% of restaurant sales). The \$406,000 increase in occupancy and other costs is primarily attributable to:

Good Times occupancy and other operating costs were \$4,530,000 (17.5% of restaurant sales) up from \$4,345,000 (19.3% of restaurant sales) in fiscal 2013. The \$185,000 increase in occupancy and other costs is primarily attributable to:

Edgar Filing: GOOD TIMES RESTAURANTS INC - Form 10-K

A decrease of \$194,000 in occupancy and other restaurant operating costs due to the restaurant closed in fiscal 2013, offset by the following increases:

.

Increase of \$192,000 in occupancy and other restaurant operating costs due to the two restaurants purchased from franchisees in fiscal 2013.

.

Increases in various other restaurant operating costs of \$122,000 at existing restaurants comprised primarily of repairs and maintenance, property taxes, utility costs and bank fees.

.

Increase in rent expense of \$82,000 due to two sale leaseback transactions completed in fiscal 2013.

.

A decrease of \$17,000 to our liability for the accretion of deferred rent in fiscal 2014.

Occupancy costs may increase as a percent of sales as new company-owned restaurants are developed due to higher rent associated with sale-leaseback operating leases, as well as increased property taxes on those locations.

Bad Daddy's occupancy and other operating costs were \$363,000 (20.2% of restaurant sales) which are related to our first two restaurants that opened in fiscal 2014.

New Store Preopening Costs: In fiscal 2014 we incurred \$669,000 of preopening costs compared to \$99,000 in fiscal 2013. With the exception of \$6,000 of costs in fiscal 2014 related to a new Good Times location, all of the fiscal 2013 and 2014 preopening costs are related to the initial Bad Daddy's restaurants being developed by BD of Colo, the first of which opened in February 2014 and the second of which opened in late July 2014. Costs for the initial store opening in February 2014 were higher than normal due to payroll, travel and lodging costs incurred to train the initial management team in North Carolina restaurants.

Depreciation and Amortization Costs: For fiscal 2014, depreciation and amortization costs decreased \$37,000 from \$719,000 in fiscal 2013 to \$682,000.

Good Times depreciation costs decreased \$112,000 from \$719,000 in fiscal 2013 to \$607,000, primarily due to the restaurant closed in fiscal 2013 as well as due to declining depreciation expense in our aging company-owned and joint-venture restaurants.

Bad Daddy's depreciation costs were \$75,000 in fiscal 2014.

General and Administrative Costs: For fiscal 2014, general and administrative costs increased \$660,000 from \$1,703,000 (7.4% of total revenues) in fiscal 2013 to \$2,363,000 (8.4% of total revenues).

The \$660,000 increase in general and administrative expenses in fiscal 2014 is primarily attributable to:

.

Increase in payroll and employee benefit costs of \$505,000 due to 1) increases to certain management level salaries and bonuses, 2) additional payroll costs related to BD of Colo personnel, 3) a reallocation of personnel from advertising costs to general and administrative costs and 4) an increase in health insurance costs.

.

Increase in investor relations costs of \$99,000.

.

Net increases in various other expenses of \$56,000.

Advertising Costs: For fiscal 2014, advertising costs increased \$83,000 from \$905,000 (4% of restaurant sales) in fiscal 2013 to \$988,000 (3.6% of restaurant sales).

Good Times advertising costs increased \$42,000 from \$905,000 in fiscal 2013 to \$947,000 and consists primarily of contributions made to the advertising materials fund and regional advertising cooperative based on a percentage of restaurant sales.

We anticipate that fiscal 2015 advertising expense will remain consistent with fiscal 2014 as a percentage of restaurant sales and will consist primarily of cable television advertising, social media and on-site and point-of-purchase merchandising totaling approximately 4% of restaurant sales.

Bad Daddy's advertising costs were \$41,000 in fiscal 2014 and consisted primarily of menu development and printing costs as well as direct mail costs related to the opening of our first restaurant in February 2014.

Franchise Costs: For fiscal 2014 franchise costs increased \$29,000 from \$67,000 (.3% of Good Times total revenues) in fiscal 2013 to \$96,000 (.4% of Good Times total revenues). All costs are related to the Good Times franchised restaurants.

Gain on Restaurant Asset Sales: For fiscal 2014 the gain on restaurant asset sales decreased to \$16,000 compared to \$18,000 in fiscal 2013. The gain on restaurant assets sales in fiscal 2014 is comprised of a \$26,000 deferred gain on a previous sale lease-back transaction offset by a \$10,000 loss to write off abandoned point of sale equipment for the Good Times locations.

Loss from Operations: The loss from operations was \$219,000 in fiscal 2014 compared to a loss from operations of \$392,000 in fiscal 2013.

Good Times income from operations was \$878,000 in fiscal 2014 compared to a loss from operations of \$267,000 in fiscal 2013. The decrease in loss from operations for Good Times for the fiscal year is due primarily to matters discussed in the "Restaurant Operating Costs", "General and Administrative Costs", "Franchise Costs" and "Gain on Restaurant Asset Sales" sections above.

Bad Daddy's loss from operations was \$1,097,000 in fiscal 2014 compared to a \$125,000 loss in fiscal 2013.

Net Loss: The net loss was \$370,000 for fiscal 2014 compared to \$544,000 in fiscal 2013. The change from fiscal 2013 to fiscal 2014 was primarily attributable to the matters discussed in the "Net Revenues", "Restaurant Operating

Costs", "General and Administrative Costs" and "Franchise Costs" sections above, as well as 1) a decrease in net interest expense of \$49,000 compared to the same prior year period; and 2) an increase in our affiliate investment loss of \$44,000 in fiscal 2014 compared to fiscal 2013.

Net interest expense decreased in fiscal 2014 compared to the same prior year period due to the payoff of the notes payable to PFGI II in fiscal 2013.

The net loss from affiliate investment activities consists of the Company's share of net earnings or loss of its affiliates as they occur. The loss from investment activities is related to our 48% ownership in BDFD which is a result of initial costs of developing the Bad Daddy's franchise program.

Income Attributable to Non-controlling Interests: For fiscal 2014 the income attributable to non-controlling interests was \$320,000 compared to \$143,000 in fiscal 2013. The non-controlling interest represents the limited partner's share of income in the Good Times co-developed restaurants. The increase is attributable to the increased sales and profitability of the co-developed restaurants.

Net Loss Attributable to Common Shareholders: For fiscal 2014 the net loss attributable to common shareholders includes dividends of \$59,000 compared to dividends of \$120,000 in fiscal 2013 which were related to the Series C Convertible Preferred Stock transaction completed with SII on September 28, 2012. The Series C Convertible Preferred Stock was converted to common stock in March 2014.

Liquidity and Capital Resources

Cash and Working Capital:

As of September 30, 2014, we had a working capital excess of \$7,841,000. Because restaurant sales are collected in cash and accounts payable for food and paper products are paid two to four weeks later, restaurant companies often operate with working capital deficits. We anticipate that working capital deficits may be incurred in the future and possibly increase if and when new Good Times restaurants are opened. We believe that we will have sufficient capital to meet our working capital, long term debt obligations and recurring capital expenditure needs in fiscal 2015 and beyond.

Financing:

Public Offering: On August 21, 2013 we completed a public offering of 2,200,000 shares of common stock, together with warrants to purchase 2,200,000 shares of our common stock (A Warrants) and additional warrants to purchase 1,100,000 shares of our common stock (B Warrants) with a per unit purchase price of \$2.50. One share of common stock was sold together with one A Warrant, with each A Warrant being exercisable on or before August 16, 2018 for one share of common stock at an exercise price of \$2.75 per share, and together with one B Warrant, with two B Warrants being exercisable on or before May 16, 2014 for one share of common stock at an exercise price of \$2.50 per share. Additionally we issued 330,000 A warrants to purchase 330,000 shares of common stock and 330,000 B warrants to purchase 165,000 of common stock to the underwriters in connection with the public offering with the same terms as the A and B warrants sold in the offering. Also in connection with the public offering we issued 154,000 underwriter warrants to purchase 154,000 of common stock at an exercise price of \$3.125 to the underwriters. The underwriter warrants were exercisable beginning May 16, 2014 and expire on August 16, 2016. As of September 30, 2014 we received gross proceeds of \$6,823,000 and incurred \$259,000 of expenses related to the exercise of warrants.

In October 2014 the Company mailed a notice of redemption to all holders of the Company's A Warrants. Each A Warrant was exercisable for one share of common stock at \$2.75 per share until 5:00 p.m. Colorado Time on Friday, November 14, 2014. Holders of the A Warrants are no longer entitled to exercise their warrants for common stock and have no rights, except to receive the redemption price of \$.01 per A Warrant, upon surrender of their Series A Warrants. No other warrants remain outstanding.

SII Investment Transaction: On March 28, 2014, Small Island Investments Limited converted all 355,451 shares of the Company's Series C Convertible Preferred Stock, par value \$0.01 per share, into 710,902 shares of the Company's Common Stock, par value \$0.001 per share. The effects of the conversion were to eliminate the Company's payment of dividends on the Series C Convertible Preferred Stock and to eliminate the possible need for the Company to redeem the Series C Convertible Preferred Stock for a cash payment.

United Capital Loan: As reported on form 8-K, on July 30, 2014 Drive Thru entered into a Development Line Loan and Security Agreement with United Capital Business Lending (Lender), pursuant to which Lender agreed to loan Drive Thru up to \$2,100,00 (the Loan) and entered into a Collateral Assignment of Franchise Agreements, Management Agreement and Partnership Interests with Lender. As of September 30, 2014, Drive Thru had borrowed approximately \$196,000 under the Loan Agreement. In addition, on July 30, 2014, the Company entered into a

Guaranty Agreement (the Guaranty Agreement) with Lender, pursuant to which the Company guaranteed the repayment of the Loan. The Loan Agreement, Collateral Assignment, Notes (as defined below) and Guaranty Agreement are referred to herein as the Loan Documents.

Under the terms of the Loan Agreement, Borrower may use up to \$750,000 of the Loan to purchase a Point of Sale System and up to \$1,350,000 of the Loan for the development of three new Good Times restaurants. Borrower may request disbursements under the Loan Agreement for development costs of Good Times restaurants on or before July 1, 2015. In connection with each disbursement under the Loan Agreement, Borrower shall execute a Promissory Note (the Notes) in the full amount of each disbursement request. The Notes incur interest at a rate of 6.69% per annum, are repayable in monthly installments of principal and interest over 84 months, and contain other customary terms and conditions. The Notes are subject to certain prepayment fees ranging between 1% and 3% of the unpaid balance at such time if Borrower repays a Note in certain circumstances prior to the thirty seventh monthly installment under such Note.

The Loan Agreement and Notes contain customary representations, warranties and affirmative and negative covenants, including without limitation, covenants to maintain certain insurance coverage and to maintain a certain debt service coverage ratio, leverage ratio, and quick ratio.

After the occurrence and during the continuation of an event of default, interest on the Notes will accrue at a rate of 11.69% per annum and Lender may declare the unpaid principal balance of the Notes, together with accrued but unpaid interest, immediately due and payable. An event of default under the Loan Documents includes, but is not limited to, any of the following: failure to pay principal or interest when due, breach of any representation or warranty in the Loan Documents, commencement of dissolution or liquidation proceedings by the Company or Drive Thru, insolvency or bankruptcy of the Company or Drive Thru, or failure of the Company or Drive Thru to comply with any material term of the Loan Documents.

The Loan Agreement and Notes are secured by substantially all of Drive Thru's assets, including, but not limited to its interest in Fast Restaurants Co-Development Limited Partnership and all distributions and proceeds relating to such partnership interest.

Drive Thru has provided customary representations and warranties and made customary affirmative and negative covenants to Lender pursuant to the terms of the Guaranty Agreement, including without limitation, a covenant to not, without Lender's prior written consent, (a) enter into or be a party to a merger, consolidation, reorganization, or exchange of stock or assets, (b) transfer or assign assets which could result in a material adverse change to the business, (c) permit the sale or encumbrance of the Borrower, (d) incur additional indebtedness in excess of \$100,000, except as previously disclosed to Lender or unsecured trade accounts incurred in the ordinary course of business, or (e) materially modify or amend, or permit Drive Thru to modify or amend, any term or condition of any franchise, lease, management, employment, development, limited partnership forbearance or use or licensing agreement to which Drive Thru or the Company is a party.

Cash Flows:

Net cash provided by operating activities was \$1,438,000 for fiscal 2014 compared to net cash provided by operating activities of \$703,000 in fiscal 2013. The increase in net cash provided by operating activities for fiscal 2014 was the result of a net loss of \$370,000 and non-cash reconciling items totaling \$1,808,000 (comprised principally of 1) depreciation and amortization of \$682,000; 2) \$162,000 of stock option compensation expense; 3) an affiliate investment loss of \$146,000; 4) a \$848,000 increase in accounts payable and other accrued liabilities; 5) a \$16,000 gain on asset sales; and 6) net decreases in operating assets and liabilities totaling \$14,000).

Net cash used in investing activities in fiscal 2014 was \$3,849,000 compared to net cash provided by investing activities of \$453,000 in fiscal 2013. The fiscal 2014 activity reflects payments for the purchase of property and equipment of \$3,397,000, a \$375,000 investment in the BDFD affiliate and \$77,000 of net loans to franchisees.

Net cash provided by financing activities in fiscal 2014 was \$6,162,000 compared to \$4,371,000 in fiscal 2013. The fiscal 2014 activity includes principal payments on notes payable and long term debt of \$46,000, net proceeds from warrant and option exercises of \$6,581,000, \$59,000 in dividends paid on the preferred stock, \$31,000 in costs related to the stock sale in 2013 and distributions to non-controlling interests in partnerships of \$283,000.

Contingencies and Off-Balance Sheet Arrangements: We remain contingently liable on various land leases underlying restaurants that were previously sold to franchisees. We have never experienced any losses related to these contingent lease liabilities; however, if a franchisee defaults on the payments under the leases, we would be liable for the lease payments as the assignor or sub-lessor of the lease. Currently we have not been notified nor are we aware

of any leases in default under which we are contingently liable. However there can be no assurance that there will not be in the future, which could have a material adverse effect on our future operating results.

Critical Accounting Policies and Estimates: We follow accounting standards set by the Financial Accounting Standards Board, commonly referred to as the FASB. The FASB sets generally accepted accounting principles (GAAP) that we follow to ensure we consistently report our financial condition, results of operations, and cash flows. Over the years, the FASB and other designated GAAP-setting bodies, have issued standards in the form of FASB Statements, Interpretations, FASB Staff Positions, EITF consensuses, AICPA Statements of Position, etc, which in 2009 were codified into the FASB Accounting Standards Codification, sometimes referred to as the Codification or ASC.

Notes Receivable: We evaluate the collectability of our note receivables from franchisees annually. The aggregate notes receivable on the consolidated balance sheet at September 30, 2014 were \$92,000.

Non-controlling Interests: Non-controlling interests, previously called minority interests, are presented as a separate item in the equity section of the consolidated balance sheet. Consolidated net income or loss attributable to non-controlling interests are presented on the face of the consolidated statement of operations. Additionally, changes in a parent's ownership interest in a subsidiary that do not result in deconsolidation are equity transactions, and that deconsolidation of a subsidiary is recorded as a gain or loss based on the fair value on the deconsolidation date.

Income Taxes: We account for income taxes under the liability method whereby deferred tax asset and liability account balances are determined based on differences between the financial reporting and tax bases of assets and liabilities and are measured using the enacted tax rates and laws that will be in effect when the differences are expected to reverse. The Company provides a valuation allowance, if necessary, to reduce deferred tax assets to their estimated realizable value. The deferred tax assets are reviewed periodically for recoverability, and valuation allowances are adjusted as necessary. We believe it is more likely than not that the recorded deferred tax assets will be realized.

The Company is subject to taxation in various jurisdictions. The Company continues to remain subject to examination by U.S. federal authorities for the years 2011 through 2014. The Company believes that its income tax filing positions and deductions will be sustained on audit and does not anticipate any adjustments that will result in a material adverse effect on the Company's financial condition, results of operations, or cash flows. Therefore, no reserves for uncertain income tax positions have been recorded. The Company's practice is to recognize interest and/or penalties related to income tax matters in income tax expense. The Company has accrued \$0 for interest and penalties as of September 30, 2014.

Variable Interest Entities: Once an entity is determined to be a Variable Interest Entity (VIE), the party with the controlling financial interest, the primary beneficiary, is required to consolidate it. We have three franchisees with notes payable to the Company and after analysis we have determined that, while the franchisees are VIEs, we are not the primary beneficiary of the entities, and therefore they are not required to be consolidated.

Fair Value of Financial Instruments: Fair value is established under a framework for measuring fair value under GAAP and enhances disclosure about fair value measurements.

New Accounting Pronouncements: There are no new accounting pronouncements that affect the Company.

ITEM 7A.

QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

Not applicable.

ITEM 8

FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA

The Company has included the financial statements and supplementary financial information required by this item immediately following Part IV of this report and hereby incorporates by reference the relevant portions of those statements and information into this Item 8.

ITEM 9.

CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE.

During the two most recent fiscal years, Good Times has not had any changes in or disagreements with its independent accountants on matters of accounting or financial disclosure.

ITEM 9A.

CONTROLS AND PROCEDURES.

Conclusion Regarding the Effectiveness of Disclosure Controls and Procedures: Based on an evaluation of the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended), as of the end of the Company's fiscal year ended September 30, 2014, the Company's Chief Executive Officer and Controller (its principal executive officer and principal financial officer, respectively) have concluded that the Company's disclosure controls and procedures were effective.

Management's Report on Internal Control Over Financial Reporting: We are responsible for establishing and maintaining adequate internal control over financial reporting (as defined in Rule 13a-15(f) and 15d-15(f) under the Securities and Exchange Act of 1934, as amended). We maintain a system of internal controls that is designed to provide reasonable assurance in a cost-effective manner as to the fair and reliable preparation and presentation of the consolidated financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Therefore, even those systems determined to be effective can provide only reasonable assurance with respect to financial statement preparation and presentation.

We conducted an evaluation of the effectiveness of our internal control over financial reporting as of September 30, 2014. In making this evaluation, our management used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) in Internal Control-Integrated Framework. This evaluation included a review of the documentation of controls, evaluation of the design effectiveness of controls and a conclusion on this evaluation. We have concluded that, as of September 30, 2014, the Company's internal control over financial reporting was effective based on these criteria.

This Annual Report does not include an attestation report of the Company's registered public accounting firm regarding internal control over financial reporting. Management's report was not subject to attestation by the Company's registered public accounting firm pursuant to rules of the SEC that permit the Company to provide only management's report in this Annual Report.

Changes in Internal Control over Financial Reporting: There have been no significant changes in the Company's internal control over financial reporting that occurred during the Company's fiscal quarter ended September 30, 2014 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

ITEM 9B.

OTHER INFORMATION

Nothing to report.

PART III

We will file a definitive Proxy Statement for our 2015 Annual Meeting of Stockholders with the SEC, pursuant to Regulation 14A, not later than 120 days after the end of our fiscal year. Accordingly, those sections of our definitive Proxy Statement that specifically address the items set forth herein are incorporated by reference.

Item 10.

Directors, Executive Officers and Corporate Governance

The information required by Item 10 is hereby incorporated by reference from our definitive Proxy Statement relating to our 2015 Annual Meeting of Stockholders, to be filed with the Securities and Exchange Commission within 120 days following the end of our fiscal year covered by this Form 10-K.

Item 11.

Executive Compensation

The information required by Item 11 is hereby incorporated by reference from our definitive Proxy Statement relating to our 2015 Annual Meeting of Stockholders, to be filed with the Securities and Exchange Commission within 120 days following the end of our fiscal year covered by this Form 10-K.

Item 12.

Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters

The information required by Item 12 is hereby incorporated by reference from our definitive Proxy Statement relating to our 2015 Annual Meeting of Stockholders, to be filed with the Securities and Exchange Commission within 120 days following the end of our fiscal year covered by this Form 10-K.

Item 13.

Certain Relationships and Related Transactions, and Director Independence

The information required by Item 13 is hereby incorporated by reference from our definitive Proxy Statement relating to our 2015 Annual Meeting of Stockholders, to be filed with the Securities and Exchange Commission within 120 days following the end of our fiscal year covered by this Form 10-K.

Item 14.

Principal Accountant Fees and Services

The information required by Item 14 is hereby incorporated by reference from our definitive Proxy Statement relating to our 2015 Annual Meeting of Stockholders, to be filed with the Securities and Exchange Commission within 120 days following the end of our fiscal year covered by this Form 10-K.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders

Good Times Restaurants Inc.

We have audited the accompanying consolidated balance sheets of Good Times Restaurants Inc. and subsidiaries as of September 30, 2014 and 2013, and the related consolidated statements of operations, stockholders' equity, and cash flows for the years then ended. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the consolidated financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall consolidated financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Good Times Restaurants Inc. and subsidiaries as of September 30, 2014 and 2013, and the results of their operations and their cash flows for the years then ended, in conformity with U.S. generally accepted accounting principles.

Good Times Restaurants Inc. and Subsidiaries

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1.

Organization and Summary of Significant Accounting Policies:

Organization Good Times Restaurants Inc. (Good Times or the Company) is a Nevada corporation. The Company operates through its wholly owned subsidiaries Good Times Drive Thru Inc. (Drive Thru) and BD of Colorado LLC (Bad Daddy's).

Drive Thru commenced operations in 1986 and, as of September 30, 2014, operates twenty-five company-owned and joint venture drive-thru fast food hamburger restaurants. The Company's restaurants are located in Colorado. In addition, Drive Thru has eleven franchises, nine operating in Colorado and two in Wyoming, and is offering franchises for development of additional Drive Thru restaurants.

Bad Daddy's commenced operations in 2013 and, as of September 30, 2014, operates two company-owned full-service upscale casual dining restaurants. The Company's restaurants are located in Colorado.

In April 2013 we entered into a series of agreements with Bad Daddy's International, LLC, a North Carolina limited liability company (BDI), and Bad Daddy's Franchise Development, LLC, a North Carolina limited liability company (BDFD), to acquire the exclusive development rights for Bad Daddy's Burger Bar restaurants in Colorado, additional restaurant development rights for Oklahoma and Kansas, and a 48% voting ownership interest in the franchisor entity, BDFD.

In April 2013, we executed a Subscription Agreement for the purchase of 4,800 Class A Units of BDFD, representing a 48% voting membership interest in BDFD, for the aggregate subscription price of \$750,000. The subscription price was payable in two equal installments, the first \$375,000 installment was paid on the date of execution of the Subscription Agreement, and the remaining \$375,000 installment was paid in December 2013. The Company accounts for this investment using the equity method.

We follow accounting standards set by the Financial Accounting Standards Board, commonly referred to as the FASB. The FASB sets generally accepted accounting principles (GAAP) that we follow to ensure we consistently report our financial condition, results of operations and cash flows.

Principles of Consolidation The consolidated financial statements include the accounts of Good Times, its subsidiaries and one limited partnership, in which the Company exercises control as general partner. The Company owns an approximate 51% interest in the limited partnership, is the sole general partner and receives a management fee prior to any distributions to the limited partner. Because the Company owns an approximate 51% interest in the partnership and exercises complete management control over all decisions for the partnership, except for certain veto rights, the financial statements of the partnership are consolidated into the Company's financial statements. The equity interest of the unrelated limited partner is shown on the accompanying consolidated balance sheet in the stockholders equity section as a non-controlling interest and is adjusted each period to reflect the limited partner's share of the net income or loss as well as any cash distributions to the limited partner for the period. The limited partner's share of the net income or loss in the partnership is shown as non-controlling interest income or expense in the accompanying consolidated statement of operations. All inter-company accounts and transactions are eliminated.

Basis of Presentation The Company analyzes its operations on a regional basis, when evaluating closed restaurant operations for consideration as to the classification between continuing operations and discontinued operations. As most of the Company's restaurants are within the Denver metropolitan region and share common advertising, distribution, supervision, and to a certain extent even customers, the Company believes it's appropriate to perform its analysis on a regional basis.

Accounting Estimates The preparation of consolidated financial statements in conformity with U.S. Generally Accepted Accounting Principles requires management to make estimates and assumptions that affect the amounts reported in these consolidated financial statements and the accompanying notes. Actual results could differ from those estimates.

Cash and Cash Equivalents The Company considers all highly liquid debt instruments purchased with an initial maturity of three months or less to be cash equivalents. The Company maintains cash and cash equivalents at financial institutions with balances that at times may be in excess of the Federal Deposit Insurance Corporation (FDIC) insured limits of up to \$250,000. The Company has not experienced any losses related to such accounts and management believes that the Company is not exposed to any significant risks on these accounts. Certain of the Company's accounts exceeded the FDIC insured limits as of September 30, 2014.

Accounts Receivable Accounts receivable include uncollateralized receivables from our franchisees and our advertising fund, due in the normal course of business, generally requiring payment within thirty days of the invoice date. On a

periodic basis the Company monitors all accounts for delinquency and provides for estimated losses of uncollectible accounts. Currently and historically there have been no allowances for unrecoverable accounts receivable.

Inventories Inventories are stated at the lower of cost or market, determined by the first-in first-out method, and consist of restaurant food items and related packaging supplies.

Property and Equipment Property and equipment are stated at cost and are depreciated using the straight-line method over the estimated useful lives of the related assets, generally three to eight years. Property and equipment under capital leases are stated at the present value of minimum lease payments and are amortized using the straight-line method over the shorter of the lease term or the estimated useful lives of the assets. Leasehold improvements are amortized using the straight-line method over the shorter of the term of the lease or the estimated useful life of the asset.

Maintenance and repairs are charged to expense as incurred, and expenditures for major improvements are capitalized. When assets are retired, or otherwise disposed of, the property accounts are relieved of costs and accumulated depreciation with any resulting gain or loss credited or charged to income.

Impairment of Long-Lived Assets We review our long-lived assets including land, property and equipment for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the capitalized costs of the assets to the future undiscounted net cash flows expected to be generated by the assets and the expected cash flows are based on recent historical cash flows at the restaurant level.

An analysis was performed for impairment at September 30, 2014 and given the results of our analysis there were no restaurants which are impaired.

Goodwill The Company is required to test goodwill for impairment on an annual basis or whenever indications of impairment arise including, but not limited to, a significant decline in cash flows from store operations. Such tests could result in impairment charges. As of September 30, 2014, the Company had \$96,000 of goodwill related to the purchase of a franchise operation on December 31, 2012. There was no impairment required to the acquired goodwill as of September 30, 2014 or 2013.

Sales of Restaurants and Restaurant Equity Interests Sales of restaurants or non-controlling equity interests in restaurants developed by the Company are recorded under either the full accrual method or the installment method of accounting. Under the full accrual method, a gain is not recognized until the collectability of the sales price is reasonably assured and the earnings process is virtually complete without further contingencies. When a sale does not meet the requirements for income recognition, the related gain is deferred until those requirements are met. Under the installment method, the gain is incrementally recognized as principal payments on the related notes receivable are collected. If the initial payment is less than specified percentages, use of the installment method is followed.

The Company accounts for the sale of restaurants when the risks and other incidents of ownership have been transferred to the buyer. Specifically, a) no continuing involvement by the Company exists in restaurants that are sold, b) sales contracts and related income recognition are not dependent on the future successful operations of the sold restaurants, and c) the Company is not involved as a guarantor on the purchasers' debts.

Deferred Liabilities Rent expense is reflected on a straight-line basis over the term of the lease for all leases containing step-ups in base rent. An obligation representing future payments (which totaled \$356,000 as of September 30, 2014) is reflected in the accompanying consolidated balance sheet as a deferred liability.

Lease incentives are recorded as a deferred liability when received and subsequently credited to rent expense on a straight line basis over the life of the lease. The balance of the lease incentive obligation at September 30, 2014 was \$152,000 and is reflected in the accompanying consolidated balance sheet as a deferred liability.

Also included in the \$791,000 deferred and other liabilities balance is a \$232,000 deferred gain on the sale of the building and improvements of one Company-owned restaurant in a sale leaseback transaction. The building and improvements were subsequently leased back from the third party purchaser. The gain will be recognized in future periods in proportion to the rents paid on the twenty year lease.

Revenue Recognition Revenue from company restaurant sales is recognized when the food and beverage products are sold and are presented net of sales taxes.

Opening Costs Restaurant opening costs are expensed as incurred.

Advertising The Company incurs advertising expenses in connection with the marketing of its restaurant operations. Advertising costs are expensed when the related advertising begins.

Franchise and Area Development Fees Individual franchise fee revenue is deferred when received and is recognized as income when the Company has substantially performed all of its obligations under the franchise agreement and the franchisee has commenced operations. The Company's commitments and obligations pursuant to the franchise agreements consist of a) development assistance; including site selection, building specifications and equipment purchasing and b) operating assistance; including training of personnel and preparation and distribution of manuals and operating materials. All of these obligations are effectively complete upon the opening of the restaurant at which time the franchise fee and the portion of any development fee allocable to that restaurant is recognized. There are no additional material commitments or obligations.

The Company has not recognized any franchise fees that have not been collected. The Company segregates initial franchise fees from other franchise revenue in the statement of operations. Revenues and costs related to company-owned restaurants are segregated from revenues and costs related to franchised restaurants in the statement of operations.

Continuing royalties from franchisees, which are a percentage of the gross sales of franchised operations, are recognized as income when earned. Franchise development expenses, which consist primarily of legal costs and restaurant opening expenses associated with developing and opening franchise restaurants, are expensed against the related franchise fee income.

Income Taxes We account for income taxes under the liability method whereby deferred tax asset and liability account balances are determined based on differences between the financial reporting and tax bases of assets and liabilities and are measured using the enacted tax rates and laws that will be in effect when the differences are expected to reverse. The Company provides a valuation allowance, if necessary, to reduce deferred tax assets to their estimated realizable value. The deferred tax assets are reviewed periodically for recoverability, and valuation allowances are adjusted as necessary. We believe it is more likely than not that the recorded deferred tax assets will be realized.

The Company is subject to taxation in various jurisdictions. The Company continues to remain subject to examination by U.S. federal authorities for the years 2011 through 2014. The Company believes that its income tax filing positions and deductions will be sustained on audit and does not anticipate any adjustments that will result in a material adverse effect on the Company's financial condition, results of operations, or cash flows. Therefore, no reserves for uncertain income tax positions have been recorded. The Company's practice is to recognize interest and/or penalties related to income tax matters in income tax expense. No accrual for interest and penalties was considered necessary as of September 30, 2014.

Net Income (Loss) Per Common Share Basic Earnings per Share is calculated by dividing the income (loss) available to common stockholders by the weighted average number of common shares outstanding for the period. Diluted EPS reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised or converted into common stock. Options for 396,910 and 324,854 shares of common stock, and warrants for 1,262,500 and 3,795,000 shares of common stock, were not included in computing diluted EPS for 2014 and 2013, respectively, because their effects were anti-dilutive.

Financial Instruments and Concentrations of Credit Risk Credit risk represents the accounting loss that would be recognized at the reporting date if counterparties failed completely to perform as contracted. Concentrations of credit risk (whether on or off balance sheet) that arise from financial instruments exist for groups of customers or counterparties when they have similar economic characteristics that would cause their ability to meet contractual obligations to be similarly affected by changes in economic or other conditions. Financial instruments with off-balance-sheet risk to the Company include lease liabilities whereby the Company is contingently liable as a guarantor of certain leases that were assigned to third parties in connection with various sales of restaurants to

franchisees (see Note 4).

Financial instruments potentially subjecting the Company to concentrations of credit risk consist principally of receivables. At September 30, 2014 notes receivable totaled \$92,000 and is due from three entities. Additionally, the Company has other current receivables totaling \$150,000, which includes \$43,000 of franchise receivables, \$2,000 due from an affiliate and \$84,000 for a receivable from the advertising cooperative fund, which are all due in the normal course of business. The Company believes it will collect fully on all notes and receivables.

The Company purchases 100% of its restaurant food and paper from one vendor. The Company believes a sufficient number of other suppliers exist from which food and paper could be purchased to prevent any long-term, adverse consequences.

The Company operates in one industry segment, restaurants. A geographic concentration exists because the Company's customers are generally located in the State of Colorado.

Stock-Based Compensation Stock-based compensation is measured at the grant date, based on the calculated fair value of the award, and is recognized as an expense over the requisite service period (generally the vesting period of the grant). See Note 7 for additional information.

Variable Interest Entities Once an entity is determined to be a variable interest entity (VIE), the party with the controlling financial interest, the primary beneficiary, is required to consolidate it. The Company has three franchisees with notes payable to the Company. These franchisees are VIE s, however, the owners of the franchise operations are the primary beneficiaries of the entities, not the Company. Therefore they are not required to be consolidated.

Fair Value of Financial Instruments Fair value, is defined under a framework for measuring fair value under generally accepted accounting principles and enhances disclosures about fair value measurements. See Note 7 for additional information. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Valuation techniques used to measure fair value maximize the use of observable inputs and minimize the use of unobservable inputs.

The following three levels of inputs may be used to measure fair value and requires that the assets or liabilities carried at fair value are disclosed by the input level under which they were valued.

Level 1:

Quoted market prices in active markets for identical assets and liabilities.

Level 2:

Observable inputs other than defined in Level 1, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3:

Unobservable inputs that are not corroborated by observable market data.

Non-controlling Interests

Non-controlling interests are presented as a separate item in the equity section of the consolidated balance sheet. The amount of consolidated net income or loss attributable to the non-controlling interests are clearly presented on the face of the consolidated income statement.

Recent Accounting Pronouncements There are no new accounting pronouncements that affect the Company.

2.

Debt and Capital Leases:

	<u>2014</u>	<u>2013</u>
Note payable with United Capital Business Lending with payments of principal and interest (6.7%) due monthly through August 2021. The loan is secured by the fixtures and equipment of the Company s Good Times Drive Thru restaurants	194,000	0

	288,000	138,000
Less current portion	<u>(69,000)</u>	<u>(44,000)</u>
Long term portion	\$	\$
	<u>219,000</u>	<u>94,000</u>

As reported on the Company's current form 8K dated August 4, 2014, on July 30, 2014, Good Times Drive Thru Inc. (the Borrower), the wholly-owned subsidiary of Good Times Restaurants Inc. (Good Times), entered into a Development Line Loan and Security Agreement (the Loan Agreement) with United Capital Business Lending (Lender), pursuant to which Lender agreed to loan Borrower up to \$2,100,000 (the Loan) and entered into a Collateral Assignment of Franchise Agreements, Management Agreement and Partnership Interests (the Collateral Assignment) with Lender. Borrowings outstanding under the Loan Agreement as of September 30, 2014 were \$194,000. In addition, on July 30, 2014, Good Times entered into a Guaranty Agreement (the Guaranty Agreement) with Lender, pursuant to which Good Times guaranteed the repayment of the Loan. The Loan Agreement, Collateral Assignment, Notes (as defined below) and Guaranty Agreement are referred to herein as the Loan Documents.

Under the terms of the Loan Agreement, Borrower may use up to \$750,000 of the Loan to purchase a Point of Sale System and up to \$1,350,000 of the Loan for the development of three new Good Times restaurants. Borrower may request disbursements under the Loan Agreement for development costs of Good Times restaurants on or before July 1, 2015. In connection with each disbursement under the Loan Agreement, Borrower shall execute a Promissory Note (the Notes) in the full amount of each disbursement request. The Notes incur interest at a rate of 6.69% per annum, are repayable in monthly installments of principal and interest over 84 months, and contain other customary terms and conditions. The Notes are subject to certain prepayment fees ranging between 1% and 3% of the unpaid balance at such time if Borrower repays a Note in certain circumstances prior to the thirty seventh monthly installment under such Note.

The Loan Agreement and Notes contain customary representations, warranties and affirmative and negative covenants, including without limitation, covenants to maintain certain insurance coverage and to maintain a certain debt service

coverage ratio, leverage ratio, and quick ratio. At September 30, 2014 the company was in compliance with all the required covenants.

As of September 30, 2014, principal payments on debt become due as follows:

Years Ending September 30,

2015	\$	
		69,000
2016		61,000
2017		37,000
2018		28,000
2019		30,000
Thereafter		<u>63,000</u>
	\$	

288,000

Total interest expense on notes payable and capital leases was \$9,000 and \$48,000 for fiscal 2014 and fiscal 2013, respectively.

3.

Other Accrued Liabilities:

Other accrued liabilities consist of the following at September 30:

	<u>2014</u>	<u>2013</u>
Wages and other employee benefits \$	\$	\$
	530,000	305,000
Taxes, other than income tax	594,000	505,000
Other	<u>184,000</u>	<u>173,000</u>
Total	\$	\$
	<u>1,308,000</u>	<u>983,000</u>

4.

Commitments and Contingencies:

The Company's office space, and the land and buildings related to the Drive Thru and Bad Daddy's restaurant facilities are classified as operating leases and expire over the next 16 years. Some leases contain escalation clauses over the lives of the leases. Most of the leases contain one to three five-year renewal options at the end of the initial term. Certain leases include provisions for additional contingent rent payments if sales volumes exceed specified levels. The Company paid no material contingent rentals during fiscal 2014 and 2013.

Following is a summary of operating lease activity for the fiscal years ended September 30, 2014 and 2013:

	<u>2014</u>	<u>2013</u>
Minimum rentals	\$	\$
	2,382,000	2,131,000
Less sublease rentals	<u>(436,000)</u>	<u>(424,000)</u>
Net rent paid	\$	\$
	1,946,000	1,707,000

As of September 30, 2014, future minimum rental commitments required under the Company's operating leases that have initial or remaining non-cancellable lease terms in excess of one year are as follows:

Years Ending September 30,	
2015	\$
	2,584,000
2016	2,500,000
2017	2,514,000
2018	2,507,000
2019	2,147,000
Thereafter	<u>9,036,000</u>
	21,288,000
Less sublease rentals	<u>(2,308,000)</u>
	\$
	18,980,000

The Company is contingently liable on the sublease rentals disclosed above. The subleased and assigned leases expire between 2015 and 2024. In the past the Company has never been required to pay any significant amount in connection with its guarantees and currently we have not been notified nor are we aware of any leases in default by the franchisees, however there can be no assurance that there will not be such defaults in the future which could have a material effect on our future operating results.

Income Taxes:

Deferred tax assets (liabilities) are comprised of the following at September 30:

	2014		2013	
	<u>Current</u>	<u>Long Term</u>	<u>Current</u>	<u>Long Term</u>
Deferred assets (liabilities):				
Tax effect of net operating loss carry-forward (includes \$15,500 of charitable carry-forward)	\$ 0	\$ 2,830,000	\$ 0	\$ 2,733,000
Partnership basis difference	0	194,000	0	168,000
Deferred revenue	0	98,000	0	107,000
Property and equipment basis differences	0	409,000	0	400,000
Other accrued liability and asset difference	<u>40,000</u>	<u>186,000</u>	<u>12,000</u>	<u>94,000</u>
Net deferred tax assets	40,000	3,717,000	12,000	3,502,000
Less valuation allowance*	<u>(40,000)</u>	<u>(3,717,000)</u>	<u>(12,000)</u>	<u>(3,502,000)</u>
Net deferred tax assets	\$ 0	\$ 0	\$ 0	\$ 0

*

The valuation allowance increased by \$243,000 during the year ended September 30, 2014.

The Company has net operating loss carry-forwards available for future periods, as discussed below, of approximately \$941,000 from 2013 and 2014, and \$6,108,000 from 2012 and prior for income tax purposes which expire from 2013 through 2032. Based on the change in control, which occurred in 2011, the utilization of the loss carry-forwards incurred for periods prior to 2012 is limited to approximately \$160,000 per year.

Total income tax expense for the years ended 2014 and 2013 differed from the amounts computed by applying the U.S. Federal statutory tax rates to pre-tax income as follows:

	<u>2014</u>	<u>2013</u>
Total expense (benefit) computed by applying the U.S. Statutory rate (35%)	\$ (242,000)	\$ (240,000)
State income tax, net of federal tax benefit	(21,000)	(21,000)
Effect of change in valuation allowance	243,000	71,000
Permanent differences	51,000	29,000
Expiration of net operating loss carry-forward	1,000	149,000
