GAIN FROM OUR PERSPECTIVE

Franklin Templeton's distinct multi-manager structure combines the specialized expertise of three world-class investment management groups--Franklin, Templeton

Edgar Filing: FRANKLIN UNIVERSAL TRUST - Form N-CSRS

and Mutual Series.

SPECIALIZED EXPERTISE

Each of our portfolio management groups operates autonomously, relying on its own research and staying true to the unique investment disciplines that underlie its success.

FRANKLIN. Founded in 1947, Franklin is a leader in tax-free investing and a driving force in fixed income investing around the globe. They also bring expertise in growth- and value-style U.S. equity investing.

TEMPLETON. Founded in 1940, Templeton pioneered international investing and, in 1954, launched what has become the industry's oldest global fund. Today, with research offices in over 25 countries, they offer investors the broadest global reach in the industry.

MUTUAL SERIES. Established in 1949, Mutual Series is dedicated to a unique style of value investing, searching aggressively for opportunity among undervalued stocks, arbitrage situations and distressed companies.

TRUE DIVERSIFICATION

Because our management groups work independently and adhere to distinctly different investment approaches, Franklin, Templeton and Mutual Series funds typically have a low overlap of securities. That's why our funds can be used to build truly diversified portfolios covering every major asset class.

RELIABILITY YOU CAN TRUST

At Franklin Templeton Investments, we seek to consistently provide investors with exceptional risk-adjusted returns over the long term, as well as the reliable account services that have helped us become one of the most trusted names in financial services.

Franklin Universal Trust

YOUR FUND'S GOALS: Franklin Universal Trust's primary investment objective is to provide high, current income consistent with preservation of capital. Its secondary objective is growth of income through dividend increases and capital appreciation.

Dear Shareholder:

We are pleased to bring you Franklin Universal Trust's (the Fund's) semiannual report, which covers the period ended February 29, 2004.

PERFORMANCE OVERVIEW

During the six months under review, the Fund's cumulative total return was +17.65% based on change in net asset value and +16.44% based on change in market price on the New York Stock Exchange, as shown in the Performance Summary on page 5. For comparison, the Credit Suisse First Boston (CSFB) High Yield Index returned 10.88%, and utilities stocks, as measured by the Standard & Poor's (S&P) Utilities Index, returned 17.41% for the six months ended February 29, 2004. 1

1. Source: Standard & Poor's Micropal. The CSFB High Yield Index is a trader-priced portfolio constructed to mirror the high yield debt market and includes reinvested interest. The S&P Utilities Index is a market capitalization-weighted index that includes utility stocks in the Standard & Poor's 500 Composite Index. The index includes reinvested dividends. The indexes are unmanaged. One cannot invest directly in an index, nor is an index representative of the Fund's portfolio.

THE DOLLAR VALUE, NUMBER OF SHARES OR PRINCIPAL AMOUNT, AND NAMES OF ALL PORTFOLIO HOLDINGS ARE LISTED IN THE FUND'S STATEMENT OF INVESTMENTS (SOI). THE SOI BEGINS ON PAGE 11.

ECONOMIC AND MARKET OVERVIEW

During the six months under review, many factors impacted the U.S. economy and financial markets. While the uneven economic recovery and continuing geopolitical instability created an uncertain environment, signs that the economic recovery was gaining traction helped to drive up most financial markets. Third quarter 2003 gross domestic product (GDP) grew an annualized 8.2%, its strongest pace in nearly 20 years, while fourth quarter GDP grew a solid 4.1%. Although 10-year Treasury yields rose during summer 2003 on fears that inflation would resurface, they fell during the past six months, ending the period below 4% as inflation remained benign. The U.S. trade deficit continued to increase, which contributed to a decline in the U.S. dollar versus the euro and other major currencies. However, the weak dollar benefited U.S. exports, thus boosting the overall economy. Consumer spending remained healthy, as low mortgage rates helped the housing market. Business spending rebounded during the period, particularly for equipment and software, which also contributed to the strong pace of economic growth.

High yield bonds, as measured by the CSFB High Yield Index, returned 10.88% during the six months ended February 29, 2004, as the economic recovery led to expectations of improving operating results, better credit fundamentals and a declining default rate. 1 As investors gained comfort with the outlook for high yield bonds, the yield spread over comparable Treasury bonds narrowed from 5.9 percentage points to 4.9 percentage points. 2

Utility stocks returned 17.41% during the period, as measured by the S&P Utilities Index. 1 Utility stock performance was partly driven by the rebound in prices for some recently troubled companies, as non-dividend paying utilities represented four of the top five best-performing utility stocks during the period. Largely as a result, many dividend-paying utility stocks, in which the Fund invests, generated lower returns than the overall index.

INVESTMENT STRATEGY

We invest primarily in two asset classes: high yield bonds and utility stocks. Within the high yield portion of the portfolio, we use fundamental research to invest in a diversified portfolio of bonds. Within the utility portion of the portfolio, we focus on companies with attractive dividend yields and a history of increasing their dividends.

MANAGER'S DISCUSSION

During the six-month reporting period, the returns for the Fund's high yield bonds and utility stocks were comparable, so the asset weightings did not play a significant role in the portfolio's overall return.

HIGH YIELD CORPORATE BONDS

Within the portfolio's high yield corporate bonds, the Fund benefited from relatively aggressive positioning. As signs of economic recovery grew more pronounced, investors seemed more comfortable with risk, and lower-rated bonds experienced greater returns than higher-rated bonds within the high yield spectrum. The Fund began the reporting period with a relatively larger position in such lower-rated bonds, as we believed they were attractively priced and could benefit disproportionately from the expected economic recovery.

In addition, the Fund benefited from industry and company credit selection as we followed our investment strategy. Fund holdings in the cable and satellite television, transportation, and broadcasting industries boosted returns relative to the CSFB High Yield Index. 3 For example, the Fund began the period with an overweighted position in the cable and satellite television sector relative to the index, and that sector ranked among the top-performing high yield sectors. In particular, Charter Communications bond prices rose as the company refinanced debt to extend maturities. Telewest Communications and Century Communications bonds also appreciated during the period as investors seemed to gain confidence in these companies' ultimate value. Similarly, the Fund's overweighted transportation position versus the index contributed to performance, as companies such as URS (part of industrial services in the SOI) and Laidlaw International generated positive returns. The broadcasting sector, on the other hand, generated returns below the index, and the Fund benefited from its relatively underweighted position.

Conversely, Fund positions in telecommunications, utilities and gaming constrained returns versus the index. 4 In the case of telecommunications and utilities, the Fund had lower exposure to those sectors than the index; however, these sectors outperformed the index for the period, which hindered the Fund's relative return. We generally limit our high yield utility bond exposure given the Fund's significant position in utility stocks. Within telecommunications, we had difficulty finding investment opportunities during the reporting period largely due to the many defaults over the past several years. Regarding gaming, the Fund's overweighted position relative to the index hindered relative performance because the generally higher-quality gaming bonds underperformed the index during the period.

UTILITY STOCKS

During the six months under review, the Fund's utility exposure was in the lower half of its normal investment range. Utilities have experienced a remarkable recovery from the difficulties encountered during 2001 and 2002, which included the California energy crisis and the Enron bankruptcy. Electric utilities generally reduced capital spending in non-regulated ventures and focused on their core, regulated franchises. Largely as a result, many investors' previous

Edgar Filing: FRANKLIN UNIVERSAL TRUST - Form N-CSRS

credit concerns related to utilities appeared to dissipate during the reporting period. Given the industry's recent financial recovery, we believed valuations of dividend-paying utilities had become expensive, and we found it difficult to uncover many attractive investments. Within the utility stock portion of the Fund's portfolio, we focused on those companies with consistent dividends, quality management and regulated assets.

Thank you for your participation in Franklin Universal Trust. We look forward to serving you in the future.

Sincerely,

Performance Summary as of 2/29/04

Your dividend income will vary depending on dividends or interest paid by securities in the Fund's portfolio, adjusted for operating expenses. Capital gain distributions are net profits realized from the sale of portfolio securities. Total return reflects the Fund's dividend income, capital gain distributions, if any, and any unrealized gains or losses. All total returns include reinvested distributions according to the terms specified in the Fund's dividend reinvestment and cash purchase plan and do not reflect any sales charges paid at inception or brokerage commissions paid on secondary market purchases.

Dividend Reinvestment and Cash Purchase Plan

The Fund's Dividend Reinvestment and Cash Purchase Plan (the "Plan") offers you a prompt and simple way to reinvest dividends and capital gain distributions in shares of the Fund. The Plan also allows you to purchase additional shares of the Fund by making voluntary cash payments. PFPC Inc. (the "Plan Agent"), P.O. Box 9223, Chelsea, MA 02150-9223, acts as your Plan Agent in administering the Plan. The complete Terms and Conditions of the Dividend Reinvestment and Cash Purchase Plan are contained in the Fund's Dividend Reinvestment and Cash Purchase Plan Brochure. A copy of that Brochure may be obtained from the Fund at the address on the back cover of this report.

You are automatically enrolled in the Plan unless you elect to receive dividends or distributions in cash. If you own shares in your own name, you should notify the Plan Agent, in writing, if you wish to receive dividends or distributions in cash.

Edgar Filing: FRANKLIN UNIVERSAL TRUST - Form N-CSRS

If the Fund declares a dividend or capital gain distribution payable either in cash or in stock of the Fund and the market price of shares on the valuation date equals or exceeds the net asset value, the Fund will issue new shares to you at the higher of net asset value or 95% of the then current market price. If the market price is lower than net asset value and if dividends or capital gain distributions are payable only in cash, then you will receive shares purchased on the New York Stock Exchange or otherwise on the open market. If the price exceeds the net asset value before the Plan Agent has completed its purchases, the average purchase price may exceed the net asset value, resulting in fewer shares being acquired than if the Fund had issued new shares. All reinvestments are in full and fractional shares, carried to three decimal places. The Fund will not issue shares under the Plan at a price below net asset value.

The Plan permits you on a voluntary basis to submit in cash payments of not less than \$100 each up to a total of \$5,000 per month to purchase additional shares of the Fund. It is entirely up to you whether you wish to buy additional shares with voluntary cash payments, and you do not have to send in the same amount each time if you do. These payments should be made by check or money order payable to PFPC Inc. and sent to PFPC Inc., Attn: Franklin Universal Trust, P.O. Box 9223, Chelsea, MA 02150-9223.

Your cash payment will be aggregated with the payments of other participants and invested on your behalf by the Plan Agent in shares of the Fund which are purchased in the open market.

Semiannual Report | 7

The Plan Agent will invest cash payments on approximately the 5th of each month in which no dividend or distribution is payable and, during each month in which a dividend or distribution is payable, will invest cash payments beginning on the dividend payment date. UNDER NO CIRCUMSTANCES WILL INTEREST BE PAID ON YOUR FUNDS HELD BY THE PLAN AGENT. Accordingly, you should send any voluntary cash payments which you wish to make shortly before an investment date but in sufficient time to ensure that your payment will reach the Plan Agent not less than two business days before an investment date. Payments received less than two business days before an investment date will be invested during the next month or, if there are more than 30 days until the next investment date, will be returned to you. You may obtain a refund of any cash payment by written notice, if the Plan Agent receives the written notice not less than 48 hours before an investment date.

There is no direct charge to participants for reinvesting dividends and capital gain distributions, since the Plan Agent's fees are paid by the Fund. However, when shares are purchased in the open market, each participant will pay a pro rata portion of any brokerage commissions incurred. The Plan Agent will deduct a \$5.00 service fee from each of your voluntary cash payments.

The automatic reinvestment of dividends and capital gain distributions does not relieve you of any taxes which may be payable on dividends or distributions. In connection with the reinvestment of dividends and capital gain distributions, if the Fund issues new shares, shareholders receiving such shares generally will be treated as having a distribution equal to the market value of the shares received, and if shares are purchased on the open market, shareholders generally will be treated as having received a distribution equal to the cash distribution that would have been paid.

Edgar Filing: FRANKLIN UNIVERSAL TRUST - Form N-CSRS

The Fund does not issue new shares in connection with voluntary cash payments. All investments are in full and fractional shares, carried to three decimal places. If the market price exceeds the net asset value at the time the Plan Agent purchases the additional shares, you will receive shares at a price greater than the net asset value.

You will receive a monthly account statement from the Plan Agent showing total dividends and capital gain distributions, date of investment, shares acquired and price per share, and total shares of record held by you and by the Plan Agent for you. You are entitled to vote all shares of record, including shares purchased for you by the Plan Agent, and, if you vote by proxy, your proxy will include all such shares.

As long as you participate in the Plan, the Plan Agent will hold the shares it has acquired for you in safekeeping, in its name or in the name of its nominee. This convenience provides added protection against loss, theft or inadvertent destruction of certificates. However, you may request that a certificate representing your Plan shares be issued to you.

8 | Semiannual Report

You may withdraw from the Plan without penalty at any time by notifying the Plan Agent, in writing, at the address above. If you withdraw, you will receive, without charge, stock certificates issued in your name for all full shares. The Plan Agent will convert any fractional shares you hold at the time of your withdrawal to cash at current market price and send you a check for the proceeds.

If you hold shares in your own name, please address all notices, correspondence, questions, or other communications regarding the Plan to the Plan Agent at the address noted above. If your shares are not held in your name, you should contact your brokerage firm, bank, or other nominee for more information and to determine if your nominee will participate in the Plan on your behalf.

The Fund or the Plan Agent may amend or terminate the Plan. You will receive written notice at least 90 days before the effective date of termination or of any amendment. In the case of termination, you will receive written notice at least 90 days before the record date of any dividend or capital gain distribution by the Fund.

Franklin Universal Trust

NOTES TO FINANCIAL STATEMENTS (UNAUDITED)

1. ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES

Franklin Universal Trust (the Fund) is registered under the Investment Company Act of 1940 as a diversified, closed-end investment company. The Fund has two classes of securities: senior fixed-rate note (the Note) and shares of beneficial interest (the Shares). The Fund seeks high current income consistent with preservation of capital. The following summarizes the Fund's significant accounting policies.

A. SECURITY VALUATION

Securities listed or traded on a recognized national exchange or NASDAQ are valued at the last reported sales price. Over-the-counter securities and listed securities for which no sale is reported are valued within the range of the latest quoted bid and asked prices. Investments in open-end mutual funds are valued at the closing net asset value. Foreign securities are valued at the close of trading of the foreign exchange or the NYSE, whichever is earlier. If events occur that materially affect the values of securities after the prices or foreign exchange rates are determined, or if the market quotations are not readily available, the securities including restricted securities will be valued at fair value as determined following procedures approved by the Board of Trustees.

B. FOREIGN CURRENCY TRANSLATION

Edgar Filing: FRANKLIN UNIVERSAL TRUST - Form N-CSRS

Portfolio securities and other assets and liabilities denominated in foreign currencies are translated into U.S. dollars based on the exchange rate of such currencies against U.S. dollars on the date of valuation. Purchases and sales of securities and income items denominated in foreign currencies are translated into U.S. dollars at the exchange rate in effect on the transaction date.

The Fund does not separately report the effect of changes in foreign exchange rates from changes in market prices on securities held. Such changes are included in net realized and unrealized gain or loss from investments.

Realized foreign exchange gains or losses arise from sales of foreign currencies, currency gains or losses realized between the trade and settlement dates on securities transactions and the difference between the recorded amounts of dividends, interest, and foreign withholding taxes and the U.S. dollars equivalent of the amounts actually received or paid. Net unrealized foreign exchange gains and losses arise from changes in foreign exchange rates on foreign denominated assets and liabilities other than investments in securities held at the end of the reporting period.

C. SECURITIES PURCHASED ON A WHEN-ISSUED OR DELAYED DELIVERY BASIS

The Fund may purchase securities on a when-issued or delayed delivery basis, with payment and delivery scheduled for a future date. These transactions are subject to market fluctuations and are subject to the risk that the value at delivery may be more or less than the trade date purchase price. Although the Fund will generally purchase these securities with the intention of holding the securities, it may sell the securities before the settlement date. Sufficient assets have been segregated for these securities.

NOTES TO FINANCIAL STATEMENTS (UNAUDITED) (CONTINUED)

1. ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

D. INCOME TAXES

No provision has been made for income taxes because the Fund's policy is to qualify as a regulated investment company under the Internal Revenue Code and to distribute substantially all of its taxable income.

E. SECURITY TRANSACTIONS, INVESTMENT INCOME, EXPENSES AND DISTRIBUTIONS

Security transactions are accounted for on trade date. Realized gains and losses

Edgar Filing: FRANKLIN UNIVERSAL TRUST - Form N-CSRS

on security transactions are determined on a specific identification basis. Certain income from foreign securities is recorded as soon as information is available to the Fund. Interest income and estimated expenses are accrued daily. Discounts and premiums on securities purchased are amortized over the lives of the respective securities. Dividend income and distributions to shareholders are recorded on the ex-dividend date.

F. ACCOUNTING ESTIMATES

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the amounts of income and expense during the reporting period. Actual results could differ from those estimates.

G. GUARANTEES AND INDEMNIFICATIONS

Under the Trust's organizational documents, its officers and trustees are indemnified against certain liability arising out of the performance of their duties to the Trust. Additionally, in the normal course of business, the Trust enters into contracts with service providers that contain general indemnification clauses. The Trust's maximum exposure under these arrangements is unknown, as this would involve future claims that may be against the Trust that have not yet occurred. However, based on experience, the Trust expects the risk of loss to be remote.

2. SHARES OF BENEFICIAL INTEREST

At February 29, 2004, there were unlimited number of shares authorized (\$0.01 par value). During the period ended February 29, 2004, there were no share transactions; all reinvested distributions were satisfied with previously issued shares purchased in the open market. During the prior year ended August 31, 2003, 309,686 shares were issued for \$1,567,138 from reinvested distributions.

3. SENIOR FIXED-RATE NOTE

On August 29, 2003, the Fund issued \$55 million principal amount of a new class of five-year senior note (the Note). The Note is a general unsecured obligation of the Fund and ranks senior to Trust shares and all existing or future unsecured indebtedness of the Fund.

Edgar Filing: FRANKLIN UNIVERSAL TRUST - Form N-CSRS

3. SENIOR FIXED-RATE NOTE (CONTINUED)

The Note bears interest, payable semi-annually, at the rate of 4.14% per year, to maturity on August 29, 2008. The Note was issued in a private placement, and is not available for resale; therefore, no market value can be obtained for the Note. The Fund is required to maintain on a monthly basis a specified discounted asset value for its portfolio in compliance with guidelines established by Standard & Poor's Corporation, and is required to maintain asset coverage for the Note of at least 300%. The Fund has met these requirements during the period ended February 29, 2004.

The issuance costs of \$200,000 incurred by the Fund are deferred and amortized on an interest method basis over the term of the Note.

4. TRANSACTIONS WITH AFFILIATES

Certain officers and trustees of the Fund are also officers or directors of the following entities:

ENTITY	AFFILIATION
Franklin Advisers Inc. (Advisers)	Investment manager
Franklin Templeton Services LLC (FT Services)	Administrative manager

The Fund pays an investment management fee to Advisers of .75% per year of the average weekly net assets of the Fund excluding the principal amount of the Note.

Under an agreement with Advisers, FT Services provides administrative services to the Fund. The fee is paid by Advisers based on average daily net assets, and is not an additional expense of the Fund.

5. INCOME TAXES

At August 31, 2003, the Fund had tax basis capital losses of \$47,455,063, which may be carried over to offset future capital gains. Such losses expire as follows:

Capital loss carryovers expiring in:	
2008	\$ 5,088,195
2009	1,167,255
2010	6,827,086
2011	34,372,527

	\$47,455,063
	=====

At August 31, 2003, the Fund had deferred capital losses occurring subsequent to October 31, 2002 of \$14,356,472. For tax purposes, such losses will be reflected in the year ending August 31, 2004.

Franklin Universal Trust

NOTES TO FINANCIAL STATEMENTS (UNAUDITED) (CONTINUED)

5. INCOME TAXES (CONTINUED)

At February 29, 2004, the net unrealized appreciation (depreciation) based on the cost of investments for income tax purposes of \$239,193,286 was as follows:

Unrealized appreciation	\$ 30,852,323
Unrealized depreciation	(36,477,058)

Net unrealized appreciation (depreciation)	\$ (5,624,735)
	=====

Net investment income differs for financial statement and tax purposes primarily due to differing treatments of defaulted securities, foreign currency transactions, and bond discounts and premiums.

Net realized losses differ for financial statement and tax purposes primarily due to differing treatment of defaulted bonds, foreign currency transactions, and bond discounts and premiums.

6. INVESTMENT TRANSACTIONS

Purchases and sales of securities (excluding short-term securities) for the period ended February 29, 2004 aggregated \$49,737,326 and \$46,237,967 respectively.

7. INVESTMENTS IN FRANKLIN INSTITUTIONAL FIDUCIARY TRUST MONEY MARKET PORTFOLIO

The Fund may invest in the Franklin Institutional Fiduciary Trust Money Market Portfolio (the Sweep Money Fund), an open-end investment company managed by Advisers. Management fees paid by the Fund are reduced on assets invested in the Sweep Money Fund, in an amount not to exceed the management fees paid by the Sweep Money Fund. The Fund earned \$10,553 of dividend income from investment in the Sweep Money Fund for the period ended February 29, 2004.

8. CREDIT RISK AND DEFAULTED SECURITIES

The Fund has 71.0% of its portfolio invested in below investment grade and comparable quality unrated high yield securities, which tend to be more sensitive to economic conditions than higher rated securities. The risk of loss due to default by the issuer may be significantly greater for the holders of high yielding securities because such securities are generally unsecured and are often subordinated to other creditors of the issuer.

Edgar Filing: FRANKLIN UNIVERSAL TRUST - Form N-CSRS

The Fund held defaulted securities and/or other securities for which the income has been deemed uncollectible. The Fund discontinues accruing income on these securities and provides an estimate for losses on interest receivable. At February 29, 2004, the value of these securities was \$4,670,301 representing 2.6% of the Fund's net assets. For information as to specific securities, see the accompanying Statement of Investments.

NOTES TO FINANCIAL STATEMENTS (UNAUDITED) (CONTINUED)

9. RESTRICTED SECURITIES

At February 29, 2004, investments in securities included issues that are restricted or illiquid. Restricted securities are often purchased in private placement transactions, are not registered under the Securities Act of 1933, may have contractual restrictions on resale, and are valued under methods approved by the Board of Trustees as reflecting fair value. A security may also be considered illiquid if it lacks a readily available market or if its valuation has not changed for a certain period of time. At February 29, 2004, the Fund held investments in restricted and illiquid securities that were valued under approved methods by the Trustees, as follows:

PRINCIPAL AMOUNT/WARRANTS	ISSUER	ACQUISITION DATE	COST	VAL
\$765,361	Atherton Franchise Capital, LP, 13.073%, 12/01/08	4/28/94	\$765,361	\$267

	TOTAL RESTRICTED SECURITIES (.15% of net assets)			\$267 ====

10. REGULATORY MATTERS

On February 4, 2004, the Securities Division of the Office of the Secretary of the Commonwealth of Massachusetts filed an administrative complaint against Franklin Resources, Inc. and certain of its subsidiaries (the "Company"),

Edgar Filing: FRANKLIN UNIVERSAL TRUST - Form N-CSRS

alleging violations of the Massachusetts Uniform Securities Act. The complaint arises from activity that occurred in 2001 during which time an officer of a Company subsidiary was negotiating an agreement with an investor relating to investments in a mutual fund and a hedge fund.

The Fund, in addition to other entities within Franklin Templeton Investments, including the Company and other funds, has been named in shareholder class and derivative lawsuits related to the matter described above, as well as actions seeking the return of certain management and other fees to the Fund. The Fund's management believes that the claims made in the lawsuit are without merit and it intends to defend vigorously against the allegations. It is anticipated that the Fund may be named in similar civil actions related to the matter described above.

In addition, as part of ongoing investigations by the U.S. Securities and Exchange Commission (the "SEC"), the U.S. Attorney for the Northern District of California, the New York Attorney General, the California Attorney General, the U.S. Attorney for the District of Massachusetts, the Florida Department of Financial Services, and the Commissioner of Securities and the Attorney General of the State of West Virginia, relating to certain practices in the mutual fund industry, including late trading, market timing and sales compensation arrangements, the Company and its subsidiaries, as well as certain current or former executives and employees of the Company, have received requests for information and/or subpoenas to testify or produce documents. The Company and its current employees are providing documents and information in response to these requests and subpoenas. In addition, the Company has responded to requests for similar kinds of information from regulatory authorities in some of the foreign countries where the Company conducts its global asset management business.

NOTES TO FINANCIAL STATEMENTS (UNAUDITED) (CONTINUED)

10. REGULATORY MATTERS (CONTINUED)

The Staff of the SEC has informed the Company that it intends to recommend that the Commission authorize an action against the Fund's investment adviser relating to the frequent trading issues that are the subject of the SEC's investigation. These issues were previously disclosed as being under investigation by government authorities and the subject of an internal inquiry by the Company in its Annual Report on Form 10-K and on its public website. The Company currently is in discussions with the SEC Staff in an effort to resolve the issues raised in their investigation. The Fund's management has been advised that the Company cannot predict the likelihood of whether those discussions will result in a settlement and, if so, the terms of such settlement. The impact, if any, of these matters on the Fund is uncertain at this time. If the Company finds that it bears responsibility for any unlawful or improper conduct, it is committed to making the Fund or its shareholders whole, as appropriate.
